

Summoner 731

Chapter 731: Yao Guang's Plan (3)

"Really." Yun Feng nodded. As long as she could do it, no matter how big the danger was, it didn't matter to her. She only wanted her friends and family to be safe.

Yun Feng set off again with Yaoyao and Qu Lanyi. The two of them rushed to the capital. Little Qingchen had just met his aunt and she was gone again. Little Qingchen cried for a while again. Yun Sheng and Mu Xiaojin couldn't do anything. They only hoped that Yun Feng would come back soon.

The capital of the Fengyun Empire was still the same as before, but the royal palace of the Karan Empire had completely disappeared under Yun Feng's fury. The courtyards of the Shang family and the De family replaced the royal palace. The courtyards of the two families were very imposing and weren't any worse than the royal palace. Most people of the Shang family and the De family lived in them. The Fengyun Empire under the two families' rule was quite stable. Apart from the matter of the Helian family, there was no disaster. The friendly attitude of the Shang family and the De family also made the Fengyun Empire rarely peaceful.

Yun Feng returned to the capital after a few years. The capital had changed a bit. Yun Feng held Yaoyao's little hand and appeared in front of the door of the Shang family and the De family with Qu Lanyi. The guard at the door couldn't help but feel startled. Who was this family that came to visit?

Yun Feng raised her brows. "Are Shang Lian and De Lan here?"

The guards froze. She called the two masters by their names! "Who are you? How dare you call the masters by their names?" The doors of the two families were very close. The guards on both sides glared at Yun Feng. The small commotion at the door made the doors of the De family and the Shang family open. The person who seemed to be the butler walked out and was a bit confused after seeing Yun Feng.

At this moment, a figure walked out of the door of the Shang family. She was wearing a gorgeous dress and had a cute face. When the person who walked out accidentally glanced at the door, she suddenly screamed, "Yun Feng!" After shouting, her body subconsciously turned around and ran back!

Yun Feng raised her head. When she saw the person who shouted her name, she smiled casually. "It's you, Shang Rui. It's been a long time."

Shang Rui's body froze, and so did everyone else. The guards were immediately petrified. The two butlers of the Shang family and the De family immediately turned around after being petrified. Master, Yun Feng is here!

Shang Rui's body was stiffened. She had never forgotten how Yun Feng messed with her back then. She hadn't shown up for such a long time. People said that she went to a distant place for training. And now, she was back? Shang Rui walked over with a stiff smile. "You're back?"

Yun Feng knew that Shang Rui was afraid of her. She made Mu Xiaojin suffer, so Yun Feng taught her a lesson. "Yes. Is Shang Lian here?"

Shang Rui couldn't help but heave a sigh of relief. "Grandpa is here. He's..." Before Shang Rui could finish, two people came out of the gate of the Shang family and the De family in a hurry. They were Shang Lian and De Lan, followed by a lot of people.

"Yun Feng!" Both of their eyes brightened when they saw Yun Feng, as if they had seen a rare treasure. They were extremely enthusiastic. Shang Rui automatically stepped aside and was pulled over by the younger generation of the Shang family. "Sister Rui, is that Yun Feng?"

"Xiao Rui, do you know Yun Feng? Are you close?"

"Yes, yes. Can you introduce us?"

The questions of the younger generation of the Shang family gave Shang Rui a headache. She stood there in silence. Shang Lian and De Lan, these two heavyweights, stood next to Yun Feng. Naturally, nobody dared to approach them easily. They could only look at Yun Feng and her family warmly from afar.

Shang Lian and De Lan glanced at Qu Lanyi and Yaoyao in confusion. Yun Feng didn't bother to explain, and Shang Lian and De Lan were smart enough not to say anything. "Is there anything we can do for you? Stay in the capital for a few days this time..." Both of them said so, but Yun Feng smiled. "I indeed need your help."

"Why are you so polite? Your business is our business! What's the matter?"

Yun Feng's black eyes darkened. "Are there outstanding pharmacists in the Fengyun Empire?"

Shang Lian and De Lan were both stunned. "Pharmacists? Do you need potions?"

"I do need potions, but only excellent pharmacists can make them."

Shang Lian and De Lan both pondered for a moment after hearing that. Shang Lian said, "Speaking of pharmacists, you might have come at the right time, Shang Rui!" Shang Lian shouted. Shang Rui, who was surrounded by the younger generation of the Shang family, immediately came over after hearing that. Everybody looked at her with envy, which made her a bit embarrassed.

"Grandpa." Shang Rui walked over and greeted him. Shang Lian smiled and said, "Shang Rui is going to take the level assessment of the pharmacists. I heard that someone from the headquarters of the pharmacists is here this time. They might be able to help you."

Yun Feng looked at Shang Rui suspiciously. She was a pharmacist? Shang Rui couldn't help but blush. Shang Lian and De Lan both smiled apologetically. "We have a lot of things to do, so we can't stay with you. I hope you don't mind..." Yun Feng waved her hand. She didn't intend to let the two of them stay with her anyway. She said a few more words to Shang Lian and De Lan. Yun Feng planned to say goodbye immediately. Shang Rui was certainly one of the people that accompanied her. She looked at Qu Lanyi and Yaoyao and couldn't help but click her tongue in her mind. She had a child? However, her husband was truly something...

"The level exam for pharmacists?" Yun Feng asked in a low voice. Shang Rui immediately looked back and answered Yun Feng's question like a student. "Yes, pharmacists are divided into five levels,

elementary, intermediate, advanced, master and grandmaster. There are three phases in each level, represented by stars.”

“What level are you going to take this time?” Yun Feng asked casually. Shang Rui immediately replied, “Intermediate level, one-star.” After replying, Shang Rui blushed again. Why was she like an obedient child? She said whatever was asked, but the pressure from Yun Feng made Shang Rui react like this unconsciously.

Shang Rui soon came to the location of the level assessment with Yun Feng and pointed at the building ahead. “We’re here.”

Yun Feng followed Shang Rui’s finger and looked ahead. That building was quite large and there were definitely a lot of people going in and out. It seemed that a lot of people were participating in the level assessment of the pharmacists and many of them were wearing different clothes. They seemed to be people from many places.

Chapter 732: Geniuses Are Geniuses Everywhere (1) Translations

“The level assessment for pharmacists is held in the capital every time. People from all over the empire who want to take the exam come to the capital. More and more people are taking the exam every year,” said Shang Rui. The further they went, the more crowded they felt. Heat waves came and people kept going in and out of the building. Most of them looked expectant and nervous.

“Do you need something from the pharmacists?” Shang Rui asked. Yun Feng nodded. Shang Rui thought for a moment. “The people from the headquarters of the pharmacists will come this time. This is the first time. However...” Shang Rui’s hesitation made Yun Feng stop.

“However what?” Yun Feng looked over with her black eyes. Shang Rui, who wanted to keep her in suspense, blurted out. “The people from the headquarters are all senior members. They don’t meet outsiders. Even you... might not be an exception.”

Yun Feng frowned. Shang Rui suddenly thought of something. “However, you can take the level exam for pharmacists. You’ll certainly be able to see them after you qualify.”

Yun Feng was stunned. Qu Lanyi pondered for a moment. “That’s a good idea. Why don’t you give it a try?”

Yun Feng was shocked. Take the pharmacist level exam? She didn’t know anything about making potions at all. How could she take the exam? She was just a layman right now! Shang Rui’s black eyes glittered. “Anyone can take the elementary exam, but those above the intermediate level need qualification. However, it shouldn’t be a problem with your strength. You’re not an ordinary person!” The few of them had already walked to the door. After walking in, there were already a lot of people standing in the empty front hall. Most of them should be the escorting party.

On the opposite side of the front hall, there were three doors. There was a red carpet in front of each door and a person stood at the end of each red carpet. They should be the qualification checkers. The three doors were marked with elementary, intermediate and advanced levels respectively. It seemed that the highest level of the exam this time was advanced.

There were a lot of people who entered the elementary exam and didn't need any qualification verification. There were very few people in the intermediate level and almost nobody in the advanced level. Shang Rui smiled at Yun Feng with slight provocation in her voice. "Then I'll wait for you in the intermediate level."

Yun Feng raised her brows. Shang Rui had already walked to the end of the intermediate red carpet. After the qualification verification, she walked in and didn't forget to smile at Yun Feng. Qu Lanyi stood aside with Yaoyao and couldn't help but smile. "Why did that woman provoke you?"

Yun Feng chuckled. "Maybe I was too harsh on her in the past."

Qu Lanyi raised her brows curiously. Yun Feng looked at the elementary channel. Although what Shang Rui said was provocative, it was indeed true. The Fusion Potion could be refined by a master-level pharmacist. She could certainly see it with her power, but she couldn't convince such a pharmacist to make the potion for her with force.

It might not be a bad idea to become a pharmacist too. It would be beneficial and harmless for her. "I'll go in and take a look. If it works, it'll certainly be good." Yun Feng looked at the crowd that kept coming and going in the elementary passage. Qu Lanyi curled her lips and smiled. "Alright, I won't join in the fun. I'll wait for you here with Yaoyao."

Yun Feng shook her head helplessly. "I'm a layman. Never mind." After saying that, she walked on the red carpet with the crowd. Qu Lanyi looked at Yun Feng's back with a smile. In a short time, a few people had already walked out of the door of the intermediate exam. However, there was no joy on their faces, only disappointment. The level exam for pharmacists wasn't simple. It was very difficult for them to become outstanding pharmacists.

Yun Feng entered the entrance of the elementary exam. People came and went in the front hall. After a while, Yun Feng came out of the entrance of the elementary exam. Qu Lanyi was startled and watched Yun Feng walk out. It seemed that Fengfeng really wasn't fated to be a potion maker.

Yun Feng attracted a lot of attention the moment she walked in. Her beautiful face certainly attracted people's attention, especially those responsible for strict qualification. They couldn't help but comfort Yun Feng when they saw her. "Keep it up."

Yun Feng smiled. She turned a corner from the elementary red carpet and directly walked to the end of the intermediate red carpet. Seeing this scene, Qu Lanyi smiled. Fengfeng was truly omnipotent. The person who comforted her just then was immediately dumbfounded. The person responsible for verifying the qualifications of the intermediate level stopped Yun Feng and looked at her a bit suspiciously. When he saw Yun Feng's qualification, the person guarding the door immediately let her in.

Yun Feng slowly approached the door of the intermediate exam alone and someone immediately stuck his head out. "Are you sure? Is she really qualified? She just went in for a few minutes!"

The mid-level guard looked serious with a bead of sweat on his forehead. "Brother, I didn't see it wrong. It's true that she's a three-star beginner."

“What the hell? What kind of speed is that?” The guard stuck his head back and cursed in a low voice. He couldn’t help but glance at the door, wondering how long it would take Yun Feng to walk out of the door.

When Yun Feng pushed open the door of the intermediate exam, many people subconsciously glanced over. Most people didn’t know who Yun Feng was. The person in charge of the exam immediately said when he saw Yun Feng come in, “Find a place quickly and prepare for the exam.”

Yun Feng looked around and picked an inconspicuous corner to walk over. Many people had already looked away, except for one person. Shang Rui was dumbfounded. It could be said that her jaw couldn’t be closed the moment she saw Yun Feng. Was she seeing things?

Yun Feng walked to a corner and didn’t attract anyone’s attention. She looked up when she saw Shang Rui’s gaze. Seeing Shang Rui’s shocked expression, Yun Feng smiled leisurely. Shang Rui suddenly shivered and immediately turned her head around, her heart pounding.

She indeed wanted to use this opportunity to humiliate Yun Feng. Yun Feng was strong, Yun Feng was a summoner, Yun Feng was a genius! However, Shang Rui didn’t think that Yun Feng was an all-rounder! She was proficient in all kinds of martial arts? She could learn whatever she wanted? How was that possible? Shang Rui looked at Yun Feng and knew that she knew nothing about potions. It wasn’t easy for her to get such an opportunity. Yun Feng would definitely make a fool of herself! However, Shang Rui had never dreamed that Yun Feng would come in a few minutes after she entered the exam venue!

She got the three-star exam qualification in a few minutes? Was she still human?

After waiting for a few minutes, nobody else came in. The exam finally began. Under the order, the students who were participating in the exam got busy. They all looked nervous. It wasn’t easy to pass the mid-level exam, so they had to be careful.

Chapter 733: Geniuses Are Geniuses Everywhere (2)

Yun Feng was in an inconspicuous corner. When others were busy, no one would naturally notice her unhurried pace. There were some herbs and ingredients on the table and a formula for making potions. It seemed that the candidates had to make designated potions. All the ingredients could only be made in three portions, which meant that they had three chances.

Yun Feng picked up the formula and looked at it carefully. There was only a rough description written on the formula. There were no detailed steps or portions at all. This was also the focus of the exam. Glancing at the materials on the table and the container for making potions on the side, Yun Feng raised the corners of her mouth.

There was another candidate in this inconspicuous corner. This candidate was originally frowning. After seeing that Yun Feng still wasn’t doing anything, his unconfident expression disappeared. He felt that he was much stronger than Yun Feng. Making potions was a rational process that used mathematics and physics. It wasn’t related to the strength of the person who made the potions at all. The strength of a master-level potion maker could be average, which was obvious considering the movements of the candidates participating in the exam.

Yun Feng stood there and looked at the materials without doing anything, as if she didn't know where to start. The candidate not far away from her had already started working. The more he watched Yun Feng's movements, the more confident he became. He secretly laughed at Yun Feng. If you don't know anything, just don't embarrass yourself.

When the other candidates were about to finish the first batch of potions, Yun Feng finally made a move. She flipped her hand slightly. The next second, "Whoosh!" A sound came. The candidate next to Yun Feng, who was focused on his potions, glanced casually and his hand trembled!

What was that? That was fire, right? The candidate widened his eyes! At this moment, a ball of bright fire was floating above Yun Feng's hand and burning fiercely. After the fire floated, Yun Feng casually picked up the first set of materials and threw them all into the fire.

What... What? The hands of the candidate watching on the side trembled again! What kind of method was that? Was there such a way to mess around? She put everything in. Shouldn't she prepare the exact amount and complete it step by step? Didn't she know that there had to be a sequence?

The candidate wanted to roll his eyes. Yun Feng was still making the herbs boldly. She threw in a large amount of materials and the fire enveloped all the herbs. Yun Feng slowly closed her eyes! She let the materials roll inside the fire and even made some subtle sounds!

This... This... This is too ridiculous! The candidate pointed at Yun Feng with a trembling finger. How could there be such a reckless pharmacist? Did she know how to make potions? How did such a person get in for the exam?

Fortunately, Yun Feng was in this inconspicuous corner, or she would truly be the center of attention. Yun Feng closed her eyes, so calm that she didn't know that someone would be shocked to see this scene. The first potion in Shang Rui's hand was destroyed when she accidentally looked at Yun Feng. Shang Rui didn't care about the potion she destroyed. She just looked at Yun Feng dumbfoundedly and watched Yun Feng close her eyes. What was she doing? Making potions with her eyes closed?

Shang Rui was in a relatively obvious position. Seeing that Shang Rui wasn't doing anything and was only looking behind her, the teacher responsible for supervising her frowned and walked over. He also looked in Shang Rui's direction. He was immediately shocked! What was that student doing? Was she sleeping with her eyes closed? What was that fire about? Was that black ball of fire all the materials?

The supervising teacher watched with his eyes wide open. It was obvious that this was the weirdest and most unreliable candidate he had ever seen in his life. He had never seen such a ridiculous production method! When he finally came back to his senses, the supervising teacher only felt that this candidate was here to cause trouble!

He was about to scold Yun Feng and ask her to take the exam seriously, but Yun Feng suddenly opened her black eyes at this moment! A dazzling light flashed through Yun Feng's eyes, emitting a kind of brilliant light! It made the hearts of the three people who were observing her secretly tighten!

The floating fire expanded slightly, as if it was burning for the last time. Then, it turned into red fire elements and dissipated in the air. At this moment, Yun Feng picked up the bottle on the table and caught the liquid that fell from the sky. Some intact herbs and materials fell on the table with the liquid!

“Crash...” Not far away from Yun Feng, the candidate spilled the powder he had just ground on the table. His body froze. What was going on... How could she make potions like that?

Shang Rui was so shocked that she almost cried out. How was it possible? How was it possible for her to make potions with such a method? How was it possible for her to make potions? The supervising teacher widened his black eyes abruptly and looked at Yun Feng, feeling a bit unbelievable. He had never seen such a way of making potions. It was impossible for anyone to do that! Such a reckless and unreliable way could be used to make potions!

Yun Feng didn't notice the three dumbfounded people. She looked at the bottle in her hand and shook it. The colors of the potion inside were evenly-distributed and pure. Yun Feng finally smiled. She didn't know that she had the talent to make potions until she took the elementary exam.

Making potions was a precise and rational process. One had to know the amount of the herbs needed precisely and they had to follow the precise process step by step. In the end, they had to be careful and patient enough to be meticulous in all aspects. Yun Feng's bold and unrestrained approach just then was just nonsense in the eyes of the pharmacists!

However, making potions was a different concept for Yun Feng. She didn't need to know the exact amount, nor did she need to know the process of making the potions. She also didn't need to pay attention to the other small mistakes that might happen. She only needed to close her eyes and she could make potions!

During the elementary exam, Yun Feng discovered something subtle. Every herb had a certain element, which happened to be the five elements she could sense. Although the elements weren't strong, they were enough for Yun Feng.

Before this, she was a layman in potions and knew nothing about it. She didn't know the steps and things she needed to pay attention to when making potions at all. Yun Feng simply didn't care about these and just did what she thought in her mind. In the end, she succeeded.

Chapter 734: Geniuses Are Geniuses Everywhere (3)

The unexpected smoothness and unexpected speed surprised the supervising teacher. Yun Feng might be the first pharmacist who got the junior three-star qualification in just a few minutes. The reason why Yun Feng didn't do anything during the intermediate exam was that she was wondering if this method could be used in the intermediate exam. After sensing for a while, Yun Feng confirmed that even though the strength of the elements became weaker, it was still effective.

She made it according to her own method. This process made it easy for Yun Feng. She didn't need to know anything else. She only needed to close her eyes and feel the elemental attributes released by these materials under the scorching fire carefully. According to these elemental attributes, Yun Feng put them together perfectly like she was putting together a picture. This was something impossible for other people, but for Yun Feng, who was already quite familiar with the fusion of elements, this impossible thing was a piece of cake.

In Yun Feng's eyes, creating potions was the process of fusing multiple elements continuously and finally reaching perfection!

Yun Feng was probably the first person in history who had such a thought. There were mages among the pharmacists, but the materials used to make potions had weak elemental attributes. This wasn't something ordinary people could sense, not to mention there were many elements. If Yun Feng didn't have the perception ability of five elements, she certainly wouldn't be able to do this.

Yun Feng looked at the potion in front of her and pondered in her mind. Compared to the materials for making low-level potions, the elemental sensitivity of the mid-level materials was obviously lower. So on and so forth. The higher the level, the weaker the elemental attributes of the materials. If she could think of a way to stimulate the elemental attributes, it would be even easier to make potions.

Yun Feng looked at the second potion. Every candidate in the intermediate exam had three potions, which were the formulas of one-star to three-star potions. If they could successfully make a three-star potion, they would be qualified to continue the advanced exam!

Yun Feng picked up the second formula and looked at it carefully. Another ball of fire was created and the materials were put in again. Then, she slowly closed her eyes and started making again. Dumbfounded, completely dumbfounded. The candidate not far away from Yun Feng was already completely dumbfounded. He stared at the first bottle of medicine Yun Feng made. It was a perfect level!

Shang Rui only felt a bit dizzy. She managed to collect herself and focus on her creation. Then, she found that the teacher was standing next to her, and the teacher was obviously dumbfounded too. Shang Rui smiled wryly. She had intended to tease her, but the opposite happened. Was Yun Feng a monster?

The abnormality of the supervising teacher immediately attracted the attention of other students. Some students wanted the supervising teacher to pay attention to them. Some students looked up and found that the supervising teacher was standing there and staring in a certain direction. They also looked over. When they saw Yun Feng's corner, they were all shocked!

Yun Feng closed her eyes and didn't notice that most of the audience's attention had already been focused on her. This inconspicuous corner had already become the center of attention! When Yun Feng made the third bottle of mid-level three-star potion, she raised her black eyes and found that everyone was looking at her like she was a monster. Many people's faces were completely distorted.

Yun Feng smiled gently and looked at the teacher who had been standing there for a long time. "I'm done."

"Gasp..." The teacher gasped and came back to himself. He walked to Yun Feng and picked up the three bottles of potions. The more he looked at them, the more anxious he became. There was uncontrollable excitement deep in his black eyes! All the candidates who were taking the exam held their breath and focused. The teacher slowly put down the three bottles of potions in his hand. "Candidate, you can participate in the advanced exam."

"Gasp..." There was another gasp. Yun Feng nodded and walked out of the door of the intermediate exam under everyone's surprised gaze. After Yun Feng left, the scene was completely chaotic. The teacher stood there and looked at the three bottles of potions on Yun Feng's table. Although these three bottles of potions were at the intermediate level, their qualities were all perfect!

Yun Feng walked out of the door of the intermediate exam. The intermediate gatekeeper was stunned for a moment. She came out again after going in for more than ten minutes? Yun Feng walked out calmly and turned right, walking towards the advanced red carpet. The intermediate gatekeeper was dumbfounded. He watched Yun Feng pass the qualification verification of the advanced level and enter the door of the advanced exam.

Someone stuck his head out again. "Are you sure? She just went in for the intermediate exam for less than ten minutes!"

The senior gatekeeper stood there with a drop of cold sweat on his forehead. "Brother, I didn't see it wrong. Intermediate level, three-star, absolutely."

"Fuck! What the hell? That's inhuman speed!"

Yun Feng's speed certainly aroused the curiosity of the people outside. "Didn't that little girl just go in? Why did she come out so quickly?"

"Yeah, I just saw her enter. She seemed to have come out the moment she entered the elementary level. She directly entered the intermediate level and now, she's at the advanced level..."

"Did she enter the wrong door?"

"Is she here for a tour..."

There was a heated discussion. There were all kinds of ridiculous guesses. Qu Lanyi stood against the wall with Yaoyao. The appearance of the two of them attracted a lot of attention. Some girls fell in love with him at first sight, but didn't dare to go forward. Qu Lanyi emitted an aura that forbade people from approaching, and the existence of Yaoyao made the young girls flinch.

Seeing Yun Feng enter the door of the advanced exam, Qu Lanyi put on a smile. This smile made the girl, who was observing him secretly, even more fascinated. Qu Lanyi lowered his head and touched Yaoyao's hair with his big hand. "Yaoyao, your mother is indeed extraordinary."

Yaoyao looked up at Qu Lanyi and didn't say anything. The girls in the dark were immediately heartbroken. No way. Such a young man had a child!

Yun Feng pushed open the door of the advanced exam. The space inside wasn't as big as the previous two exam halls. There were only four candidates inside. When Yun Feng walked in, the people inside all had the same surprised expression.

"A new face?"

The difference between the advanced exam venue and the previous two exam venues was that there were four teachers who seemed to be supervising the exam. One of them said in surprise. Yun Feng nodded and knew why these people were so surprised. It was partly because she was a stranger, and partly because she was young.

Chapter 735: Geniuses Are Geniuses Everywhere (4)

There were four people participating in the advanced exam. The four of them looked to be of an old age, and Yun Feng was obviously too young.

“Not a bad to have someone new here. The exam is about to begin.” Another teacher spoke. There were only a few spots in the small space. Yun Feng picked one. The four teachers would see her no matter where she was, forming an observation angle of 360 degrees.

“Are we starting?” A voice with a smile sounded. The secret door on the side opened and a few people walked in. The person in the lead was a middle-aged man who looked more amiable. The four supervising teachers immediately stood up and replied very respectfully. They even prepared a chair for their master. Yun Feng looked at them and understood that this person should be someone from the headquarters of the pharmacists.

The other four candidates were more or less nervous, because they were all eager to try because of the arrival of a big shot and they all wanted to stand out in front of this big shot. Yun Feng glanced at the things on the table. Three potion formulas were put there. There were also three sets of ingredients and three chances.

“Alright, you may begin.” After giving the order, the candidates in the room, including Yun Feng, began to move. They divided the herbs and weighed them step by step. When the other four people moved in an orderly manner, Yun Feng, who was looking around at the materials, became a unique scenery.

“What’s wrong with that candidate?”

“She really has three-star intermediate level? She’s really qualified for the exam?”

The four supervising teachers couldn’t help but start discussing, because Yun Feng’s movements were neither fast nor slow. She was still picking and choosing, as if she didn’t intend to start. This made the four supervising teachers wonder if she was a newcomer, or if she sneaked in in a moment of confusion?

On the other hand, the people from the headquarters of the pharmacists who came later sat there quietly and sized Yun Feng up with their eyes, watching her move slowly. Yun Feng was indeed not in a hurry. She went through all the materials in her hands and confirmed her idea. The elemental attributes of the materials needed for this high-level potion had indeed dropped, but Yun Feng could still sense a small amount of elemental attributes at the moment. There shouldn’t be any problem making high-level one-star potions.

“Pfft! She doesn’t know how, does she? Look at what she’s doing...” A candidate who was making potions couldn’t help but laugh. Even though he was whispering, everyone could hear him. Yun Feng continued what she was doing without batting an eyelid.

“She’s here to juggle? She must’ve come to the wrong door. If not... then she’s here to embarrass herself.” Another person couldn’t help but mock her. The others couldn’t help but laugh. They originally thought Yun Feng was an impressive young genius, but Yun Feng’s current actions made them know that there weren’t so many young geniuses in this world!

Yun Feng put down the last batch of herbs in her hand and her black eyes darkened slightly. She suddenly flipped her hand. The next second, a fiery ferocious beast jumped out of her hand!

“What?” Everyone was shocked by this move. The four candidates were even more shocked. Raging flames surged in the sky and floated in the air with a huge array. Thick fire temperature slowly spread out. Everyone was dumbfounded. Why did you make such a huge fire for no reason?

The next second, everyone was completely petrified!

“Swish!” Yun Feng picked up a set of materials and threw them in. The dark red flames immediately swallowed everything! Everyone was dumbfounded. The four candidates twisted their facial features, not knowing if they should laugh or cry. The expressions on the faces of the four supervisors had already distorted completely. They had seen people who made potions that were strange, but they had never seen someone make trouble like this!

Yun Feng, on the other hand, slowly closed her eyes under everyone’s shocked gaze. The four supervisors almost jumped out of their chairs. The senior member of the headquarters slowly sat straight and looked at Yun Feng’s obviously unconventional manufacturing method with a glint in his eyes.

This was a scene that had never happened in the exam of the pharmacists. No pharmacists had abandoned the containers for making potions. No pharmacists had randomly put a lot of materials together. No pharmacists had ever closed their eyes and made potions like this!

“It’s... It’s a mess!” The supervisors sat in their chairs and looked at the huge ball of bright red fire floating and roaring in the sky, as well as the black thing that kept rolling inside. They were so angry that their hands couldn’t help but tremble and they gritted their teeth as they growled.

The other four candidates couldn’t help but stop moving. Looking at this unbelievable scene in front of their eyes, everyone’s eyes focused on Yun Feng. They didn’t know what she was doing or why she was making potions like this! This was simply the biggest joke in the pharmaceutical world!

“There must be something wrong with her brain!” A candidate said firmly, but his eyes couldn’t move away. Everyone wanted to know what she could make through such a messy manufacturing method!

The person from the headquarters sitting in the center had been silent. He stared at Yun Feng and didn’t miss the slightest expression on her face. The fire in the sky was rolling and all the materials inside were also rolling and making continuous sounds. Yun Feng closed her eyes and focused on assembling the elements. The expression on her face wasn’t as relaxed as before. The production of the advanced one-star potions was indeed as difficult as she thought.

The manufacturing of high-level and mid-level potions seemed to have crossed a lot of steps. The difference between them couldn’t be compared. It was quite easy for Yun Feng to make intermediate three-star potions, but it was already difficult for her to make advanced one-star potions. Yun Feng also came to the conclusion that it seemed that potions above the advanced level had the same effect as leveling up. Every small step required a lot of effort.

In addition, the elemental sensitivity of the advanced one-star materials dropped rapidly. Although Yun Feng could also feel it under the scorching fire, it was quite weak. If she couldn’t think of a way to increase the sensitivity of the elements, she wouldn’t be able to make potions of a higher level.

Everyone was silent. Only one person moved. Yun Feng stood there with her eyes closed and a serious expression on her face. Suddenly, her eyebrows moved slightly. Everyone’s hearts inexplicably rose. It seemed that she was about to open her eyes!

“Whoosh...” The bright red fire suddenly rose a few meters high. When everyone saw a blur in front of their eyes, the bright red fire had already disappeared in an instant. Yun Feng opened her black eyes as a beam of dark light flashed. She took a bottle and caught it in the air. The potion she made had already fallen into the bottle and the other materials she didn’t use had all landed on the table intact. The fire didn’t hurt them at all just then!

Chapter 736: She’s Yun Feng, You Idiots (1) Translations

Dumbfounded, they were completely dumbfounded.

A supervisor ran over and picked up the other materials that fell on the table, looking at them carefully again and again. Another supervisor ran over and picked up the bottle of medicine Yun Feng put in front of his eyes, looking at it carefully again and again. The other two supervisors both ran over. The four of them surrounded Yun Feng and observed her nervously for a while before they finally spoke.

“Perfect, perfect quality!”

“What?” The other four candidates opened their mouths wide and looked like they couldn’t believe it. Sweat appeared on the foreheads of the four supervisors. They didn’t want to believe that such a reckless way of making potions could really work. And... what the hell? Perfect quality!

It wasn’t easy to make advanced one-star potions, not to mention that they were of perfect quality. Besides, Yun Feng was so young! She could be said to be a rising star in the pharmaceutical world!

“Hahahaha!” The person from the headquarters burst into laughter. He stood up from his chair and walked towards Yun Feng, looking at her with glittering eyes. Yun Feng immediately thought of the situation when Ted looked at her back then.

“The Fengyun Empire is indeed full of talents. I was right to come this time.” The man sized Yun Feng up. “You’re so young and you’re already so talented. It’s truly impressive.”

“You flatter me. The advanced level of one-star is the highest stage of my ability. If I go any higher, I’ll also fail,” said Yun Feng rather humbly. The others certainly thought that she was being too humble, but Yun Feng was just telling the truth. In the eyes of outsiders, she only closed her eyes and let the fire move on its own, but in fact, she was performing the assembly of various elements. It consumed a lot of energy. The advanced level one-star just then was of perfect quality and she spent a lot of effort to complete it. If it was an advanced level two-star potion, she might be able to make it, but the quality was far lower.

The people of the headquarters nodded with a smile and were very satisfied with Yun Feng’s humble attitude. The exam continued, but it was obvious that the four candidates were deeply shocked. The four supervisors were also in constant shock. This unbelievable production method would probably go down in history.

Yun Feng took the advanced two-star formula. Everybody gasped again when they saw that. Was she going to continue? Advanced two-star! However, seeing that Yun Feng put down the formula after reading it and didn’t do anything, the others were all relieved. If Yun Feng continued, these people would probably go crazy.

Yun Feng wasn't in a hurry to go out. She had finished making the potions, but the other four candidates had just started. She used this time to observe the normal process of making potions.

After observing for a while, Yun Feng felt a bit of a headache. No wonder it was very difficult to become an outstanding pharmacist. If she didn't rely on this unique discovery and unique method, she would have to spend a long time to reach her current height step by step.

The exam finally ended. Some of the other four candidates failed and some succeeded. Although those who succeeded made advanced one-star potions, the quality was far from Yun Feng's. Nobody, including Yun Feng, could continue to make advanced two-star potions. The exam was over.

The people who passed the exam went out excitedly. Yun Feng was also planning to go out. "Kid, wait." The person from the Pharmacists' Union stopped Yun Feng with a smile. Yun Feng turned around with a smile. "Senior, what's the matter?" In the pharmaceutical world, Yun Feng was indeed a junior.

"Let's talk in private."

Yun Feng nodded and followed him into the side door from which he came, coming to a hidden room. "Kid, what's your name?" The man smiled kindly, but his eyes were unusually bright with scorching light.

Yun Feng raised the corners of her mouth. "I'm Yun Feng."

"Yun Feng?!" The man was indeed shocked. He sized Yun Feng up again with his eyes and the heat in his eyes rose another level. "No wonder, Yun Feng... Seeing is believing. It turns out you're so talented in potions. You truly live up to the word genius!"

Yun Feng smiled. A genius? Perhaps she was more talented than others, but she had also put in more effort than others along the way. She took one step at a time and every step she took was very stable. That was why she had her current achievements. No success could be achieved overnight.

"Yun Feng, do you know the Pharmacists' Union?" The man asked with a smile. Yun Feng smiled. "To be honest, I only used a trick to make potions. I knew little about potions before this."

"The Pharmacists' Union is similar to the Mercenary Union in nature." The man explained to Yun Feng with a smile. The curtain of the pharmaceutical world, a place that Yun Feng had never stepped into before, slowly lifted. "The Pharmacists' Union doesn't belong to any empire. Its fundamental purpose is to nurture outstanding pharmaceutical talents and create even more unique and novel potions. As a summoner, you know how rare and precious summoners are. An outstanding potion maker can be said to be on par with a summoner in terms of status. Summoners rely on powerful Magic Beasts and their own powerful strength, while potion makers rely on their special ability of being able to create powerful potions."

Yun Feng pondered. This was the so-called specialization. Some people dominated the world with their strength, while others would dominate an area with their special abilities.

"You're very humble, but you can't hide your special talent in potions." Speaking of this, the man's eyes glittered again. "Kid, are you interested in looking down on everyone in the pharmaceutical world?"

Yun Feng was stunned. Looking down on everyone? She had never thought about it. She only wanted to enter the potion world and find a master-level potion maker to refine the Fusion Fluid. That was all. As for other things, she didn't have the ambition.

"To be honest, Senior, I don't have such an ambition. I only entered the potion world because I had something to do."

"What is it that you want to do?" The man frowned suspiciously and didn't believe what Yun Feng said. Such a talented and capable child didn't have any ambitions?! Wasn't it a pity?

"I just want to find a master-level senior to refine a potion." Yun Feng told the truth, but the man in front of her immediately smiled happily after hearing that. "Kid, if that's the case, that's great."

Chapter 737: She's Yun Feng, You Idiots (2)

Yun Feng frowned. What did that mean?

"The Pharmaceutical Institute is directly under the Pharmacists' Union. There are a lot of talented pharmacists gathered there. I can give you a clue about the grandmaster senior you're looking for."

Seeing the man's fox-like smile, Yun Feng guessed what he would say. "Senior, are you saying that the director of the Pharmaceutical Institute is a grandmaster senior?"

The man nodded. "That's right. Besides, the director is the only pharmacist on the East Continent who has reached the Grandmaster Level."

Yun Feng's eyebrows jumped. Did that mean she had no choice? The man put on a friendly smile again. "Kid, if you enter the Pharmaceutical Institute and perform well, if the director accepts you as his disciple, it's very normal for him to make a potion for his disciple."

Yun Feng frowned. She had to gather the Fusion Fluid and the Spirit Gathering Grass in five years. The Spirit Gathering Grass was at the bottom of the Endless Ocean. It was obvious that the situation there was dangerous. The easiest way to get the Fusion Fluid was to get it in the shortest time possible. The situation on the West Continent was complicated and it was inconvenient for her to move around. Since there was such a pharmacist on the East Continent, she couldn't give up what was near and look far.

Yun Feng looked up. "I'm not alone. I have companions."

The man couldn't help but feel relieved after hearing this. "I thought it was something else. Of course, that's no problem. Special students are naturally treated specially. Your companions can also go with you."

"In that case, I'll accept it."

Coming out of the entrance of the advanced exam, Yun Feng clearly noticed that she seemed to be the center of attention. She found it strange that these people were staring her, but she didn't care at all. She glanced around and saw Qu Lanyi standing aside. It was truly difficult not to notice him.

At this moment, Qu Lanyi leaned against the wall handsomely. He didn't do anything else, but he exuded a different kind of charm. Some timid girls only dared to watch from afar, but now, another one walked up boldly. Yun Feng slowly walked around the crowd and saw this scene and heard what the girl said.

“What’s your name?”

“Are you standing here waiting for someone?”

Qu Lanyi kept a cold face the whole time and didn’t seem to hear what the girl said. The girl stood there with a red face and wasn’t discouraged. If Qu Lanyi didn’t answer, she would talk herself. Yun Feng walked over and the girl saw Yun Feng. She couldn’t help but show a bit of hostility. Before she asked who she was, Qu Lanyi made a move.

“Yaoyao, your mother is finally back. I’ve been waiting so long!”

What he said made the girl’s face turn pale. She glanced at Qu Lanyi and Yaoyao in panic, then looked at Yun Feng before she quickly turned around and left. Yaoyao looked up at Qu Lanyi and didn’t say anything. When she saw Yun Feng coming over, her little face obviously showed joy.

“Xiao Feng.” Yaoyao called out softly. Yun Feng went forward and picked her up, while Qu Lanyi smiled gently like water. The two of them and Yaoyao looked like a warm family.

“My wife, you’re finally back.” Qu Lanyi smiled gently and put his big hand on Yun Feng’s waist, pulling her into his arms. This move made countless girls, who were observing in the dark, heartbroken again. Yun Feng didn’t slap Qu Lanyi’s wolf claw away with a sullen face. “Shut up. Let’s go.”

Qu Lanyi chuckled, and the three of them walked out. Shang Rui had been waiting outside. When she saw Yun Feng, she immediately approached her with a stiff face. Yun Feng only looked up and asked, “You’re still here?”

Shang Rui laughed dryly. Leave? If she dared to go home alone without Yun Feng, her grandpa would skin her alive. “Grandpa asked me to take you back to rest. Let’s go.” Yun Feng thought for a moment. It was inevitable that she would stay in the capital for a few days. She also had to tell Qu Lanyi about the Pharmaceutical Institute, so she didn’t refuse to go back with Shang Rui.

“Well... What level... have you reached?” After walking for a long time, Shang Rui finally asked the question in her mind. Yun Feng smiled casually. “Advanced one-star.”

Shang Rui was inexplicably relieved. Thank goodness, thank goodness... Advanced one-star... She thought Yun Feng could directly reach the advanced three-star level or even higher. Advanced one-star... Although this result was astonishing, she was still a normal person.

Qu Lanyi raised his brows. He originally thought that Yun Feng could go higher, but Yun Feng didn’t seem to be hiding the truth on purpose. Qu Lanyi didn’t ask anything. They returned to the Shang family under Shang Rui’s lead. When Yun Feng and the others entered the door of the Shang family, the De family was in an uproar. The elders of the De family scolded the younger generation after hearing the news.

“Can’t you young people work harder? How did Shang Rui befriend Yun Feng? Look at you! The Shang family took advantage of you!”

The younger generation of the De family was frustrated after being scolded. How would they know how Shang Rui made friends with Yun Feng? Who knew how they hooked up? They couldn’t hook up with anyone just because they wanted to! If the De family knew about the relationship between Yun Feng

and Shang Rui, they might regret it. If time went back, there might be even more people who would cause trouble for Yun Feng.

Shang Lian and De Lan both came in person after learning that Yun Feng was back. They were busy with work and left after a few words. Yun Feng didn't want to talk to them for a long time. The Shang family prepared a good room for Yun Feng and asked everyone not to disturb her. After all, this girl didn't come once in eight hundred years. They had to hold back their excitement.

Only Yun Feng, Qu Lanyi and Yaoyao were in the room. Yun Feng told Qu Lanyi about the Pharmaceutical Institute. After hearing that, Qu Lanyi pondered for a while and said, "Although it's a long way, it's the only feasible solution right now."

Yun Feng nodded and touched Yaoyao's head with her hand. After going to the Pharmaceutical Institute, Yun Feng decided to take Yaoyao into the Dragon Palace. Yun Feng didn't know what kind of place the Pharmaceutical Institute was or who those people were. Who knew what strange things were required to make potions? In order to avoid unnecessary trouble, Yaoyao should hide.

"However, what that person said is a bit strange." Qu Lanyi frowned as a glint flashed through his eyes. "It's indeed easy for a master to make potions for his disciple, but it depends on what kind of potion you want."

"The Fusion Fluid... I don't think the director of the Pharmaceutical Institute has a high chance of succeeding. Besides... it's still very difficult."

Chapter 738: She's Yun Feng, You Idiots (3)

Qu Lanyi nodded. "Indeed. There should be a certain risk when refining such a potion. It's impossible to refine it for free."

Yun Feng frowned slightly. "I've never thought about having it refined for free. It would be best if I could pay for it."

Qu Lanyi smiled after hearing that and put his hands behind his head. "Everything will be fine when the time comes. You don't have to worry too much. It's a good thing for you to enter the Pharmaceutical Institute. It never hurts to have more skills. It'll definitely be very useful in the future."

"Bang, bang, bang." There was a soft knock on the door. Yun Feng raised her voice. "Who is it?"

"Master Yun Feng, the food is ready."

Qu Lanyi chuckled and winked at Yun Feng. "Why do I feel like you're like a time bomb? Everyone looks so cautious, as if they're afraid that you'll explode."

Yun Feng raised the corners of her mouth. Perhaps she was more terrifying than a time bomb in the eyes of these people. When she came to the so-called restaurant, Qu Lanyi raised his brows again. Both sides of the long table were filled with people. The entire family of the Shang family had been mobilized. The huge lineup of people eating made Yun Feng a bit shocked.

During the meal, it was very quiet. Nobody dared to say anything. They only looked at Yun Feng with excitement in their eyes, both openly and secretly, as if she was a rare animal. Qu Lanyi couldn't help

but smile as he sat next to Yun Feng. He bent down and whispered in Yun Feng's ear, "I was wrong. You're not a time bomb, but a rare animal."

Yun Feng's face darkened. The hearts of everyone in the Shang family inexplicably tightened. They quickly retracted their enthusiastic gaze and lowered their heads to eat. Shang Rui was purposefully arranged to sit very close to Yun Feng. Shang Rui didn't know whether she should cry or smile. She wanted to tell everyone that her relationship with Yun Feng wasn't as good as they thought, but she couldn't say anything at all. While eating, Shang Rui finally braced herself and asked under the pressure of many gazes, "Yun Feng, has the Pharmaceutical Institute invited you?"

Yun Feng nodded. At this moment, a member of the Shang family said warmly, "What a coincidence! Xiao Rui also received an invitation! Xiao Rui and Master Yun Feng are truly fated!"

The other members of the Shang family immediately burst into laughter. Yun Feng remained silent and Shang Rui was extremely embarrassed. "Master Yun Feng, please take care of Xiao Rui!"

"Yes, Master Yun Feng. I hope that Xiao Rui won't cause you trouble!"

The Shang family talked so happily that Shang Rui became paler and paler. She wanted to hide in a crack. Yun Feng raised her head and smiled at the Shang family, who were trying to tie Shang Rui to her. "I'll do my best to take care of her."

Shang Rui's body trembled hard and she had the urge to run away. The faces of the Shang family immediately brightened and they smiled even more happily. Shang Rui lowered her head more and more. Qu Lanyi had a hard time holding back his laughter. Yun Feng's solemn promise to take good care of Shang Rui made him want to burst into laughter.

Finally, the meal was over. The Shang family successfully linked Shang Rui to Yun Feng. After all, with Yun Feng protecting Shang Rui, she would be quite famous. The Shang family dispersed in delight. Shang Rui was already gone. Qu Lanyi finally smiled. "Hahahaha! I think Shang Rui couldn't wait for you to stop taking care of her. She ran away in fear."

Yun Feng looked cold and didn't find it funny. "The Shang family has been good to the Yun family these years, so we certainly have to take care of them. If Shang Rui is in trouble, I'll help her."

Qu Lanyi laughed until his tears ran out. He put his arm around Yun Feng's shoulder and leaned against her. "My wife is so kindhearted."

The corners of Yun Feng's eyes twitched. She pushed away Qu Lanyi's claw on her shoulder. "I'll return the favor when someone respects me."

Qu Lanyi tried again. The claw that had been pushed away wrapped around her again and he even held Yun Feng in his arms. The night had already fallen outside. The two of them were standing in the shadows. His slightly hot breath sprayed on Yun Feng's cheek. Yun Feng's face was slightly red.

"I saw your kindness clearly," mumbled Qu Lanyi. His eyes were as black as the night sky. Yun Feng was a bit dazed. When his sexy and beautiful lips were about to press down, a soft sound suddenly woke the two of them up. "Who is it?" Yun Feng pushed Qu Lanyi away and shouted angrily.

A person slowly walked out with a flushed face and lowered her head. It was Shang Rui. "Well... I... I just happened to pass by... You... You can continue..."

Qu Lanyi didn't say anything. He said to Yun Feng, "I'll wait for you." Then he left. Yun Feng glared at his back and then looked at Shang Rui. "What's the matter?"

The blush on Shang Rui's face hadn't faded yet. She didn't expect Yun Feng to be such a passionate person. This was her home and she and that man could... It seemed that she wasn't so cold! Shang Rui cleared her throat. "Well... Don't take what my family said to heart."

Yun Feng didn't say anything and stood there without moving. Shang Rui suddenly felt a bit embarrassed. Did she do something unnecessary? Perhaps she didn't care about it at all. "I don't need you to take care of me," Shang Rui mumbled. Yun Feng's handsome eyebrows moved slightly. "It's nothing to me."

Hearing that, Shang Rui somehow felt a bit happy. She quickly suppressed the weird feeling in her heart. "I really don't need you to take care of me!"

Yun Feng frowned. "If that's the case, I understand." After saying that casually, Shang Rui felt a bit disappointed again and the atmosphere became weird again. Shang Rui bit her lips. "Well... I know Mu Xiaojin gave birth. Congratulations..."

The expression on Yun Feng's face became gentle and she put on a smile at Shang Rui. This smile made Shang Rui a bit dumbfounded. "Thank you." Shang Rui's heart pounded hard. She knew that Yun Feng was saying thank you for Mu Xiaojin. She had known for a long time that Yun Feng treated Mu Xiaojin very well, really very well... Because Mu Xiaojin was Yun Feng's friend!

"If there's nothing else, I'll go back," said Yun Feng. Shang Rui seemed to be in a daze. Yun Feng didn't care about her anymore and left alone. Shang Rui only came back to herself after Yun Feng left. Yun Feng had already gone back. Shang Rui stood there and thought about it in her mind. She even felt jealous of Mu Xiaojin in her mind. Being able to become Yun Feng's friend should be something to show off and make others jealous...

Chapter 739: She's Yun Feng, You Idiots (4)

She only stayed in the capital for three days. During these three days, Yun Feng learned some things about the Pharmaceutical Institute. The Pharmaceutical Institute would ask the Pharmacists' Union to send someone down to the four empires to find good seedlings at random. Since it wasn't regular, this opportunity could only be chanced upon by luck. Being able to study in the Pharmaceutical Institute meant that she would be able to get guidance from the senior masters in the pharmaceutical world. The teachers of the Pharmaceutical Institute were all master-level pharmacists. The most glorious thing was that the people of the Pharmacists' Union came to pick her up in person.

The friendly man who invited Yun Feng to the Pharmaceutical Institute came to the Shang family to pick her up in person. Shang Rui certainly basked in the glory, which made her thrilled. The teachers of the Pharmaceutical Institute were all senior members of the Pharmacists' Union. The outstanding students of the Pharmaceutical Institute could directly enter the Pharmacists' Union!

“Kid, let’s go.” The man smiled at Yun Feng kindly. Shang Rui, who was next to him, wanted to introduce herself, but didn’t dare to. Yun Feng nodded. Yaoyao had already been taken into the Dragon Palace, and only Qu Lanyi was with her. Since the Pharmaceutical Institute was directly under the Pharmacists’ Union, it should be in a secret place. That was indeed the case. No outsiders were allowed to enter the Pharmaceutical Institute except for the pharmacists, but Yun Feng was an exception. Special students were certainly treated specially.

After traveling for a few days, Shang Rui finally found an opportunity to introduce herself. The man only smiled and wasn’t interested, but Shang Rui was very satisfied. She just didn’t know what status this man had in the Pharmacists’ Union. Shang Rui asked Yun Feng about it, but Yun Feng didn’t know either.

The Pharmaceutical Institute was indeed in a hidden place. There were a few restrictions outside, which were naturally useless for Yun Feng. After entering the Pharmaceutical Institute, Yun Feng finally saw the full picture of this place. The Masang School of Magic was the place where Yun Feng had learned and experienced, and this place was obviously very different from the Masang School of Magic.

There were mountains, plains and grasslands. The landscape was extremely complicated. Not far away, there was a huge empty area in the middle. This was where the Pharmaceutical Institute’s campus was located. There were no towers or tall buildings. The tallest building only had three floors and the others were all one-story houses.

“There are very few students in the Pharmaceutical Institute. There are less than fifty of them in total.” The man said with a smile. Yun Feng was a bit shocked. There were less than fifty of them in total! This number was too small!

“The Pharmaceutical Institute doesn’t recruit students regularly, and there are very few good seedlings among the pharmacists.” The man looked at Yun Feng deeply and then smiled. “But it’s different this time.”

Yun Feng didn’t say anything. Judging from the number of students, it was obvious that the higher the level of the pharmacists, the easier it was for them to encounter bottlenecks and stagnate. There were fewer good seedlings and even fewer people who could reach a very high level!

The man had already entered the entrance of the Pharmaceutical Institute with Yun Feng, Shang Rui and Qu Lanyi. Yun Feng looked around and saw a few students scattered on the empty ground in front of her. There were also students from other empires. It seemed that there were only so many people from the four empires on the East Continent who could enter the Pharmaceutical Institute this time.

“Elder Dan Qing, why are you here in person?” A person rushed over in a hurry. He was obviously very surprised. After hearing this title, Shang Rui immediately covered her mouth with her hand, in case she exclaimed. Yun Feng looked at her suspiciously. Shang Rui approached Yun Feng and said in a low voice, “There are four elders in the Pharmacists’ Union. Their abilities have all reached the level of a two-star master! Such a person came to pick us up in person, oh God!”

Master level two stars and above, which meant that any one of the four elders was at least a two-star master. Yun Feng sized up the friendly middle-aged man in front of her. With such strength, he was only below the President and the Vice President of the Pharmacists’ Union, or he wouldn’t be so respected.

"It's fine. I haven't been back for a long time, so I came to take a look." Elder Dan Qing smiled gently and glanced at the other students standing there. "Did the director receive my message?"

"Yes, but the director said that he would believe it if Elder Dan Qing came to tell him in person."

"Hahahaha! Got it!" Elder Dan Qing looked delighted. He turned around and smiled at Yun Feng. "Kid, I'll leave first."

Yun Feng nodded. "Take care, Senior." Elder Dan Qing nodded with a smile and walked to the third floor. The person who came to welcome them glanced at Yun Feng suspiciously. "You should come too."

Yun Feng, Shang Rui and Qu Lanyi all walked over and stood with the few students. Yun Feng counted. Apart from Qu Lanyi, there were only ten people in total, including her and Shang Rui. This number was indeed a bit pitiful.

Although the number was small, it was obvious that the people of a country stood together consciously and were divided into four groups. These people were about the same age as Yun Feng and Shang Rui. They must be the so-called good seedlings. There were only Yun Feng and Shang Rui on the Fengyun Empire's side. The young people of the four empires certainly had to compete in secret when they gathered together. After a round of whispers, a girl finally spoke.

"I wonder how good the others are. They should all be better than me."

"How can they be better than you? You're already at the intermediate two-star level!" The girl who was with her immediately flattered her. The girl who spoke smiled proudly and looked at the others a bit provocatively. Naturally, there were also people who weren't convinced and came out to argue. They were all at this age, so their enthusiasm couldn't help but boil a bit. One of them led the others to join in and they all said their strength loudly, looking down on each other. Yun Feng, on the other hand, was at ease. She didn't interrupt when she saw these young people arguing.

Shang Rui's personality was the same as these people, but she was certainly hesitant to join the argument if Yun Feng didn't do anything. If it weren't for Yun Feng, she would have already argued with these people. While the others were competing with each other, someone finally noticed this extremely calm corner.

"Why aren't you talking?" Someone asked in confusion. Shang Rui wanted to say something, but she held back. Yun Feng glanced at these people indifferently. "Continue." This didn't mean anything, but it sounded provocative to these hot-blooded young people.

"Hey! Are you looking down on us?"

Chapter 740: She's Yun Feng, You Idiots (5)

Yun Feng didn't bother to answer at all. Shang Rui couldn't help but roll her eyes on the side. Were these people crazy? Was she bothering them by not talking? Seeing that the three of them still didn't say anything, these young people who were arguing with each other spontaneously formed a team.

"You're from the Fengyun Empire, aren't you?" Someone crossed his arms in front of his chest and raised his eyebrows in disdain. "Why? Do you think you're so great just because Yun Feng is from the Fengyun Empire?"

“That’s right! I realized that the people of the Fengyun Empire all think they’re impressive and flatter themselves!”

“Yun Feng is Yun Feng. Don’t think that everyone is Yun Feng. I feel annoyed when I see your arrogant face!”

Shang Rui was so angry that her body was shaking. She was about to curse back, when Yun Feng said, “It’s useless to talk to these people.”

The anger in Shang Rui’s heart inexplicably disappeared. Thinking carefully, what Yun Feng said did make sense. “You’re absolutely right. Talking to these people will lower your value.”

“What do you mean? Do you really think you’re great? What level are you? Tell us if you think you’re capable!”

Shang Rui blushed. She was only a one-star intermediate pharmacist, and there were two-star intermediate pharmacists among them. She would be embarrassing herself if she told anyone! Yun Feng raised her head. “Are you done yet?”

The person who wanted to cause trouble again was frightened by Yun Feng’s gaze. There was deep impatience in her black eyes and an inexplicable pressure directly came to his heart, making these young people’s momentum when they spoke weaken. “You... You... You...”

“What are you arguing about?” A serious voice sounded. Yun Feng quickly retracted the pressure she emitted and the few young people also fell silent. Three figures walked over, including Elder Dan Qing with a smile on his face and an old man with white hair. The old man looked dignified. Yun Feng found that the old man’s body was stained with tiny elemental energy. If she was right, this should be the director. And the person walking in front of the two of them was a middle-aged man with a serious look.

This middle-aged man was a teacher of the Pharmaceutical Institute. He introduced his companions briefly. As Yun Feng expected, the white-haired old man was indeed the director. Elder Dan Qing looked at Yun Feng with a smile, which made Yun Feng a bit embarrassed. The white-haired director also glanced at her a few more times on purpose.

These young people, who had just entered the Pharmaceutical Institute, were certainly very excited when they saw the director. Then, they were about to report their level. Everyone shouted extremely loudly! “One-star intermediate level! Two-star intermediate level! One-star intermediate!”

Most people were at the one-star intermediate level. Only two of them were at the two-star intermediate level. It was Shang Rui’s turn. After Shang Rui shouted that she was at the one-star intermediate level, she was immediately mocked. Shang Rui couldn’t help but blush. Then, it was Yun Feng’s turn. Elder Dan Qing smiled even more happily, while the director’s eyes glittered. The other young people waited for Yun Feng to speak as if they were listening to a joke. Yun Feng was expressionless and her voice was calm. “One-star advanced level.”

“Sizzle...” The other young people all looked up and focused all kinds of gazes on Yun Feng. Shang Rui, who blushed just then, suddenly felt a bit proud in her mind. She glared at the person who mocked her just then fiercely and was extremely delighted in her mind.

The teacher of the Pharmaceutical Institute couldn't help but feel quite surprised after hearing that. "Not bad. It seems that the seedlings this year are indeed not bad." Among the ten people, Yun Feng was the only one who got this compliment. The young people of the three empires couldn't help but gnash their teeth.

After briefly explaining the basic rules of the Pharmaceutical Institute, the teacher stood aside. The director walked out and said a few words before he turned around and left. He didn't say anything to Yun Feng in particular. Elder Dan Qing also left, but he smiled at Yun Feng deliberately. These young people didn't know Elder Dan Qing and thought that he was also a teacher in the school.

The teacher gave another order and asked the students to dismiss. After all the seniors left, Yun Feng naturally became the focus of everyone's attention, and Qu Lanyi, who seemed to be extra, was automatically ignored.

"Are you really an advanced one-star?" Someone asked. It was obvious that he didn't believe her. Yun Feng frowned and didn't want to answer. It didn't matter to her whether these people believed her or not.

"You've passed the advanced one-star exam, right?" Shang Rui said on the side. She only felt that the momentum of these people was truly awesome!

The expressions of the other young people were all twisted. Of course, the exam couldn't be faked. The supervisors weren't fools! Their eyes were all glued to Yun Feng. They couldn't believe it! "You must've cheated, didn't you?"

"I think so too. If she didn't use some means, she wouldn't have passed the advanced one-star exam!"

Shang Rui widened her eyes. "Don't be jealous when you can't eat the grapes! If you can't do it, others can!"

"What did you say?" The anger in these people's minds was raised again. Yun Feng only felt that it was a waste of time to stand here and talk to these people. She immediately turned around and left. Qu Lanyi also followed her casually. He was truly used to such a situation along the way with Yun Feng.

Shang Rui saw Yun Feng turn around and leave from the corner of her eye, and felt a bit uncomfortable in her mind. Wasn't she speaking up for her... How could she just leave like that? If she was going to leave, she should at least call her! "Shang Rui, let's go." Yun Feng's voice came. Shang Rui only felt that the sun was shining in her heart. Perhaps she didn't know that she was already smiling and she was even smiling quite proudly.

Shang Rui, who was about to leave, suddenly thought of something and asked the young people, "Do you know who she is?"

These young people were all stunned. "Who wants to know who she is?"

Shang Rui burst into laughter. Yun Feng was a bit impatient in the front. Shang Rui turned around and said loudly, "She's Yun Feng, you idiots!"

Shang Rui left with Yun Feng, leaving the group of young people dumbfounded. A sentence kept replaying in their minds: She's Yun Feng!

Shang Rui followed Yun Feng to the three-story building. She couldn't help but laugh as they walked. "You should see their expressions. It was truly wonderful. They looked like they couldn't spit out an egg after swallowing it!" Shang Rui smiled delightedly. Yun Feng and Qu Lanyi didn't laugh. "Who asked them to look down on us? Hm!" Shang Rui was delighted in her mind. She was a bit confused when Yun Feng suddenly stopped.
