

Summoner 741

Chapter 741: The Director's Personal Disciple (1)

"Was it fun?" Yun Feng looked at Shang Rui and asked casually. Shang Rui's expression froze and she suddenly didn't know what to say. She suddenly felt like she was an unreasonable kid in front of Yun Feng, with an impetuous and simple mind.

"You think I have your strength..." Shang Rui mumbled to herself. Right, if she had Yun Feng's strength, she would've shut those people up long ago! How could she let them mock her? Shang Rui thought indignantly in her mind and suddenly felt that Yun Feng was too cowardly! She wasn't even angry when people looked down on her with such an identity!

"If I had half of your strength, I wouldn't be ridiculed by others!" Shang Rui mumbled again. Yun Feng frowned slightly. Qu Lanyi's face turned cold, but he didn't say anything. Yun Feng curled her lips and turned around with a smile. "Then work hard to be at the same level as me. Then, use your own strength to shut them up. Isn't that better?"

Shang Rui's face suddenly flushed. She felt humiliated from the bottom of her heart. Yun Feng turned around and had already walked into the three-story building. Shang Rui was still standing outside in a daze, thinking about what Yun Feng said. Even though it wasn't harsh, it hit Shang Rui's sore spot. Shang Rui gritted her teeth fiercely. "You are not making the best use of your strength!" If she had Yun Feng's strength, she would definitely be successful! She would definitely make those who dared to look down on her shut up and kneel on the ground to apologize to her!

This was the difference, the difference in level. Yun Feng's lofty state of mind made her always move forward in front of others, because she stood at a higher height and could certainly see further.

Life in the Pharmaceutical Institute began. The only three-story building was where all the students and teachers lived, because there were few students in total. Including Yun Feng and the others, there were only more than fifty of them. The huge campus seemed unusually empty. These fifty students were naturally divided into different levels according to their strength.

Intermediate level one-star to three-star, advanced level one-star to three-star. The two levels were generally divided into six stages. Students would study at different stages according to their strength. Most students were between the intermediate one-star and the three-star level. Among the fifty students, more than forty of them were lingering in this phase, while the other ten had entered the advanced stage. These ten people thought they were the best in everyone's eyes. It could be said that all students in the Pharmaceutical Institute yearned to enter the advanced stage.

Six of the ten students were advanced level one-star, three were advanced level two-star and one was advanced level three-star. The advanced level three-star student was the idol worshiped by all the students in the Pharmaceutical Institute and was also the direct disciple of the director of the Pharmaceutical Institute. He was especially well-received in the Pharmaceutical Institute. It could be said that this advanced level three-star student was a shining star in the Pharmaceutical Institute.

Since the Pharmaceutical Institute recruited students from the four empires, the students from the same empire naturally gathered together. The number of students from the four empires was about the same, so there was no problem of bullying others with numbers. The Pharmaceutical Institute seemed

to be happy to see the four empires unite. On the three floors of the dormitory, the students of the four empires lived together. The atmosphere of unity was strong and the hostility between them also increased.

As soon as Yun Feng and Qu Lanyi entered the third floor, they saw four doors. The names of the four empires were clearly marked on each door. Yun Feng raised her brows. It seemed that the smell of gunpowder in the Pharmaceutical Institute was still very strong. Shang Rui followed them in and was also shocked to see the four doors. Yun Feng pushed open the door of the Fengyun Empire. Behind the door was a short corridor and another door at the end of the corridor. They walked to the door. Yun Feng was about to push it open when a voice came from inside.

“People outside, listen up. This is the territory of the Fengyun Empire. If it’s someone from the other three empires, get lost as soon as possible! Otherwise, don’t blame us for being rude!”

Yun Feng and Qu Lanyi both raised their brows. Another voice came from the door. “If you’re from the Fengyun Empire, answer this question! Who’s the most famous person in the Fengyun Empire?”

Qu Lanyi almost laughed. Yun Feng put on an awkward smile. Shang Rui replied awkwardly, “Yun Feng.”

“Yes, you’re right. Repeat the following three times. Long live Yun Feng!”

“Pfft...” Qu Lanyi finally couldn’t stand it anymore. He quickly covered his mouth with her hand and laughed until tears almost came out. Yun Feng didn’t know whether to laugh or cry. Shang Rui also couldn’t help but laugh. Yun Feng was here. How would she feel if she shouted like this?

“Outsiders, shout!” The person inside seemed to be a bit impatient. Yun Feng frowned and pushed the door. The door was suddenly pushed open and a cry came from behind the door. A person fell to the ground from the sudden force.

Yun Feng and the others stood by the door. Behind the door was a spacious living room. A dozen pairs of eyes looked at each other. The person lying on the ground got up and covered his injured nose as he shouted, “What’s going on? Why aren’t you following the rules?”

Yun Feng’s eyebrows suddenly twitched. Qu Lanyi held back his laughter on the side. Shang Rui lowered her head and held back her laughter. Yun Feng glanced at the people in the living room. “Change this rule.”

Everyone was stunned again. They were so shocked by Yun Feng’s momentum that they were a bit speechless. Who was this newcomer?

“Hey! Are you new here? We’re all your seniors. How can you say that?” The young man, who was covering his nose, looked at Yun Feng in dissatisfaction. Yun Feng glanced at him expressionlessly. “Change that rule as soon as possible.”

“What? You...” The young man covered his nose. Because he moved too much, his wound was affected and he was in so much pain that he couldn’t say the second half of the sentence. The others all looked at Yun Feng and the others in confusion. They only felt that these few newcomers were truly bold!

“Newcomers, you’re quite brave,” said a student. “Tell me your name and level.”

Shang Rui coughed. “I’m Shang Rui, one-star intermediate.”

“Shang Rui? From the Shang family?” The surname Shang wasn’t unfamiliar in the Fengyun Empire anymore. After all, it was one of the two largest families that dominated the Fengyun Empire. It was normal for everyone to know about it. However, these things faded in the Pharmaceutical Institute. After all, they were all pharmacists here. Even the royal family didn’t have anything to say here. So, Shang Rui was only known to people and didn’t have any special treatment.

Chapter 742: The Director’s Personal Disciple (2)

Shang Rui nodded. Qu Lanyi chuckled. “I’m not a pharmacist. To be exact, I’m here to accompany her.”

This shocked everyone again. The young man, who was covering his nose, pointed at Qu Lanyi.

“Accompany her? Ridiculous!”

Qu Lanyi ignored him, but the young man seemed unwilling to give up. “Where exactly did you come from? I’m going to tell the teacher! Outsiders are never allowed to enter the Pharmaceutical Institute!” The young man was a bit noisy, and Yun Feng was a bit impatient. At this moment, a voice came slowly.

“He’s indeed here to accompany her. Special students are treated specially.”

The young man, who was covering his nose, was startled. He turned around and saw a person slowly walking down the stairs in the front hall. He was tall and slim, and his skin was rather pale. His facial features couldn’t be said to be handsome, but he was quite good-looking. The person who walked down must have a high status, because after he said that, everyone stopped talking.

“Jingyi, did I hear it right? You said he’s a study companion?” The young man, who was covering his nose, pointed at Qu Lanyi with his finger. There was a streak of red blood under his red nose, which looked like a nosebleed. The young man looked a bit funny.

The person who came down chuckled. “You heard it right. He’s indeed a study companion. He’s this person’s study companion. Am I wrong, Yun Feng?”

“W-W-What? Yun... Yun... Yun... Yun Feng!” The young man, who had a nosebleed, almost jumped up on the spot after hearing that. The others also looked shocked! Who would have thought that the famous person on the East Continent would come to the Pharmaceutical Institute? And she came like this. They weren’t prepared at all!

Yun Feng looked at the person standing in front of her with her black eyes. This person looked mature and steady with a calm mind. Realizing that Yun Feng was sizing him up, the man smiled lightly. “Xia Jingyi. I’m kind of someone who’s in charge here.”

So, he was the leader. Yun Feng made up her mind and nodded. “Now that you know my name, there’s no need to introduce yourself.”

“Wait! Are you really Yun Feng? You’re not an impostor. You’re not an impostor!” The young man with a nosebleed jumped over. He rolled his big eyes a few times and sized her up, as if he believed that he could get rid of the disguise of the person in front of him.

Qu Lanyi pulled Yun Feng back slightly and avoided the young man’s close observation. “Keep your distance,” said Qu Lanyi in an unpleasant tone. The young man was stunned and blushed. He knew that he was too close just then, so he couldn’t help but feel a bit embarrassed.

“I just want to confirm if she’s the real one!”

Xia Jingyi walked over. He was half a head taller than this young man. He patted the young man’s shoulder with his hand. “Little Shi, she’s indeed Yun Feng. I just received the news. How can the director be lying?”

“The director?!” The young man suddenly jumped. Then, he looked at Yun Feng with a glint in his eyes, like a hungry wolf seeing fresh meat. “It’s really the director! Hahaha, I’ve made a fortune! I’ve made a fortune!”

The young man shouted excitedly. After confirming that the person in front of them was indeed Yun Feng, the others also became excited. What could compare to the arrival of the person they had always been proud of? Yun Feng’s arrival also represented the spring of the Fengyun Empire in the Pharmaceutical Institute!

“My name is Yan Lei. People usually call me Yan Xiaoshi! I’m your loyal fan, Yun Feng. My admiration for you is like the surging water of the Yangtze River, flowing endlessly! I was the one who set the rule for admission just then. What do you think? Not bad, right?” Yan Lei smiled brightly and his white teeth glittered. Yun Feng listened to him calmly and only said, “Change that rule as soon as possible.”

Yan Xiaoshi was immediately frustrated. “Why do you have to change it? Don’t you think it’s very domineering? You’re the symbol of the Fengyun Empire! Even though the other three empires don’t say it, we all know that they’re extremely envious in their minds! Don’t you think?” Yan Xiaoshi puffed out his chest and asked the people around him for their opinion proudly. Everyone immediately agreed with him and Yun Feng’s face suddenly darkened.

“Little Shi has such a lively personality.” Xia Jingyi said with a smile. “Although he’s a bit impetuous, his strength isn’t low. He’s an advanced one-star pharmacist.”

Advanced one-star? Yun Feng was quite surprised. This noisy person was an advanced one-star? Yan Lei immediately scratched his head in embarrassment. “I’m already so old. It’s too embarrassing if I don’t reach the advanced one-star level! Haha, it’s not worth mentioning. Jingyi, you’re an advanced two-star!”

Yun Feng glanced at Xia Jingyi. Advanced two-star... There were only three advanced two-star students in the entire Pharmaceutical Institute. Xia Jingyi was one of them. No wonder he could become the leader of the Fengyun Empire, and Yan Xiaoshi, who was an advanced one-star student, would certainly be his assistant.

“But we’re definitely not as strong as you, Yun Feng! What’s your level? You’re at least an advanced three-star pharmacist, right?” Yan Xiaoshi looked at Yun Feng with glittering eyes. The others, including Xia Jingyi, were also looking forward to it. Yun Feng raised the corners of her mouth. These people all treated her like a goddess.

Shang Rui, who had been ignored, finally found an opportunity to answer for Yun Feng. “Advanced one-star.”

“Advanced one-star? How is that possible?” Yan Xiaoshi suddenly shouted in shock. The others didn’t believe it either. Xia Jingyi frowned slightly. “Yun Feng! You don’t have to hide your strength in front of us. Just tell the truth!” Yan Xiaoshi’s eyes glittered again. Yun Feng replied expressionlessly.

“Shang Rui is right. Advanced one-star.”

This made the scene fall into a short silence, as if it was a bit awkward. Obviously, Yun Feng’s advanced one-star level disappointed these people. Yun Feng! How could the iconic figure of the Fengyun Empire be an advanced one-star?

“She jumped from the elementary one-star level to the advanced one-star level in less than half a day. She didn’t know anything about potions before this,” said Qu Lanyi casually on the side. Everyone subconsciously looked at Shang Rui, who nodded. Everyone’s expression went from disappointment to pride again!

“I knew it! What kind of person is Yun Feng? She went from knowing nothing to an advanced one-star level in half a day. It’s a piece of cake!” Yan Xiaoshi burst into laughter. Everyone was more or less shocked in their minds. She got an advanced one-star level in half a day. Such a speed... wasn’t human at all!

Chapter 743: The Director’s Personal Disciple (3)

A glint flashed through Xia Jingyi’s eyes. “You’re indeed a young genius. Nobody can compare to you.”

Yun Feng smiled casually and glared at Qu Lanyi. Mind your own business! Qu Lanyi smiled back at Yun Feng. He didn’t want his wife’s glorious performance to be tainted at all. Besides, he was telling the truth.

“That’s great! With Yun Feng here, we don’t have to suffer the humiliation of those bastards anymore! We can finally hold our heads high!” Yan Xiaoshi shouted rather heroically. The others immediately cheered. Yun Feng frowned. Was she accidentally involved in something?

“The humiliation?” Shang Rui asked in confusion. Yan Xiaoshi scratched his head again. “I forgot that you still don’t know the current situation. At the moment, the students of the Pharmaceutical Institute are gathered in their own empires. The students of each empire live together. They’re quite united, but the conflicts between the empires are getting bigger and bigger. The students of the Pharmaceutical Institute who can enter the advanced level are regarded as the glory of their empires, but fortunately, they’re evenly matched.”

“If they’re evenly matched, why were you bullied?”

Yan Xiaoshi sighed helplessly. “Although they’re evenly matched, there’s still a difference. The difference lies in the advanced three-star level.”

Yun Feng remained silent. There was only one advanced three-star student in this Pharmaceutical Institute. This person’s empire must be superior.

“The advanced three-star student is from the Cashya Empire. Those bastards of the Cashya Empire strutted around every day, especially to the Fengyun Empire. Their attitude...” Yan Xiaoshi said with

anger in his eyes. The others were also indignant. The Cashya Empire and the Fengyun Empire had quite a grudge. Everyone knew about Yun Feng's earth-shattering incident in the Cashya Empire.

Besides, the only summoner of the Cashya Empire died because of Yun Feng, and the emperor of the Cashya Empire was gone. Other people didn't know the twists and turns. They only knew what was on the surface. Although the Cashya Empire didn't attack the Fengyun Empire, it didn't mean that they would swallow their anger.

So, when they could suppress the Fengyun Empire fair and square, Cashya wouldn't let go of this opportunity, especially in the Pharmaceutical Institute. The advanced three-star student came from Cashya, and the pharmacists of the Cashya Empire happened to have an excuse to suppress the Fengyun Empire.

"However, this situation will be completely changed from today on! Yun Feng, you're here! I'd like to see if those bastards are still showing off!" Yan Lei burst into laughter. Everyone burst into laughter. How satisfying!

"Don't forget that I'm just an advanced one-star," said Yun Feng casually. Yan Xiaoshi didn't care. "What are you afraid of? With your speed, it's only a matter of time before you surpass an advanced three-star pharmacist!"

Yun Feng frowned. She didn't come to the Pharmaceutical Institute to suppress anyone, nor did she want the Fengyun Empire to succeed. She had her own things to do. How would she have the time and energy to care about this?

"Long live Yun Feng!" Yan Xiaoshi shouted again. The corners of Yun Feng's mouth twitched. This Yan Xiaoshi was indeed noisy, extremely noisy!

Yun Feng's arrival stirred up a storm in the already eventful Pharmaceutical Institute. The Fengyun Empire's side knew about it, and so did the other three empires. Yun Feng's arrival made the three empires a bit angry, especially the Cashya Empire. What kind of person was Yun Feng? If she also reached the advanced three-star level or even stronger, those bastards of the Fengyun Empire would laugh their heads off!

However, these were just worries about the future. For now, the ranks of geniuses in the Pharmaceutical Institute wouldn't change much because of Yun Feng. Yun Feng knew very well that she still didn't know anything about potions. She only used a special method, which had its limits. If she couldn't break through, she could only wander around.

The night in the Pharmaceutical Institute wasn't peaceful. Soon, the sun rose the next day. Qu Lanyi was free to go in and out because of the director's special instruction, but he could only follow Yun Feng and couldn't go alone. Qu Lanyi was certainly happy to follow this rule.

The places where the pharmacists had classes were also separated. The two rows of low houses with only one floor and many rooms were where the pharmacists studied. The intermediate level and the advanced level were separated. The intermediate level was on the left and the advanced level was on the right. There were also differences between the one-star and three-star areas. There were a few rooms in each of the three different areas with different functions.

Yan Xiaoshi and Xia Jingyi were respectively at the advanced level of one-star and two-star, which was the same as Yun Feng. As a study companion, Qu Lanyi was naturally with them. The other people of the Fengyun Empire were all at the intermediate level, which showed that it was very difficult to reach the advanced level.

Walking to the row of small houses on the right, Xia Jingyi smiled. "I'll go first." Yan Xiaoshi waved his arm in delight. Yun Feng looked at the end of the house. This row was quite long.

"Yun Feng, let's go! With your strength, you'll be able to reach the end soon!" Yan Xiaoshi chuckled and showed his white teeth again. Yan Xiaoshi's personality was actually quite similar to Ze Ran's. Ze Ran was the sunny type. Yan Xiaoshi... maybe, the crazy type. He also liked to smile and was very lively, but he was too much.

Yun Feng followed Yan Xiaoshi into the room at the front of the row of houses. The classroom was very spacious. When the two of them entered, there were already two people sitting there. When they saw Yun Feng, they sized her up with a piercing gaze.

"What are you looking at? Have you never seen anyone great?" Yan Xiaoshi's tone was very harsh. What he said was also very provocative. Yun Feng immediately understood that these two people should be from the Cashya Empire. Cashya had two of the six people. The Fengyun Empire was indeed a bit weak.

"Humph!" Perhaps because Yun Feng was here, those two people only grunted and didn't say anything else. Yan Xiaoshi exhaled through his nose. "Did you see that? With you here, those bastards don't even dare to speak."

Yun Feng didn't comment. She didn't want to be involved in this matter at all, but she probably couldn't control herself right now. As an iconic figure of the Fengyun Empire, even though she didn't think so herself, everyone thought so. It was impossible for her to cut ties with them.

Chapter 744: The Director's Personal Disciple (4)

After a while, a few more people pushed the door open and came in. Including Yun Feng, there were only seven people in the advanced level one-star group and they all arrived very soon. There were only seven people sitting in the huge space and it looked a bit cold.

There were two people on Fengyun's side, Cashya's side and Ovey's side. Only one was from Shengyao. The people from the same empire were all sitting together, and they were a bit far away from each other. Yan Xiaoshi lowered his voice and said, "Even though there's only one student from Shengyao, he is one of the three advanced two-star students, and the other is from Ovey. Cashya doesn't have one, but if there is, those bastards' tails will probably wag somewhere!"

Yun Feng raised the corners of her mouth and didn't say anything. The few of them sat here quietly and waited for class to begin. The others sized Yun Feng up secretly from time to time. Yan Xiaoshi sat on the side and his little tail also curled up slowly. After a while, a teacher walked in. When he saw Yun Feng, he said in surprise, "Why are you here?"

Yun Feng was stunned. If she wasn't here, where should she go? Yan Xiaoshi burst into laughter. "Master, Yun Feng is an advanced one-star pharmacist. Are you confused?"

The teacher ignored Yan Xiaoshi and looked at Yun Feng solemnly. "As the director's personal disciple, you should go to the last room directly."

"What?!" Yan Xiaoshi's eyes widened. "The director's personal disciple?!"

The teacher glared at Yan Xiaoshi and turned around to look at Yun Feng. "Aren't you going?"

The other young people present were all shocked. The director's personal disciple! That was only Cashya's advanced three-star student! Yun Feng had just come in! Did he accept her just because she was Yun Feng? That was too unfair!

Envy, jealousy and hatred were projected on Yun Feng from many complicated expressions. Even though she was a bit surprised that nobody told her, Yun Feng got up calmly and walked out of the door with an unusually calm expression, leaving these young people, who had all kinds of emotions surging in their minds, behind. Yan Xiaoshi didn't seem to have recovered yet. Looking at Yun Feng and Qu Lanyi's backs as they left, he finally mumbled, "What did I say? With her strength, she'll be over there soon. However... this is too fast!"

Yun Feng came out of the classroom and walked to the back. Qu Lanyi followed her casually. "Why didn't anyone tell you such an important thing?"

Yun Feng raised her brows and then chuckled. "Why do you care about that? A personal disciple is good too."

Qu Lanyi chuckled and nodded as he walked forward with her. On the way, they passed the advanced two-star classroom. Xia Jingyi accidentally glanced and saw Yun Feng walking past outside the window. He was shocked. Looking in the direction Yun Feng was going, Xia Jingyi shook his head a bit helplessly. Her first day of school was truly extraordinary.

They walked all the way to the last place of the row of houses. This place seemed especially cold and empty, because there were too few people. After all, there was only one advanced three-star pharmacist. Yun Feng stood in front of the door and pushed it open. What she saw was a rather dark room. As soon as she walked in, a fighting energy came right at her!

Yun Feng's eyes turned cold. She casually raised her hand, and the fighting energy was completely broken before it could go far. Yun Feng walked in, and Qu Lanyi closed the door behind her. The room immediately became much darker. Suddenly, the light flashed, and the room was very bright. Yun Feng saw the person who attacked her clearly.

It was a woman with a rather young face. She had a well-proportioned and enchanting body. Her delicate facial features didn't match her body figure that made people's blood boil. Those phoenix eyes of hers looked at Yun Feng with hostility at this moment, as if Yun Feng was an invader who occupied her territory.

Yun Feng's eyebrows moved slightly. She didn't say anything to her and only sized up the room. There were two tables and two doors. There were some tools for refining potions on the tables. "You're Yun Feng?" The woman said with a slightly childish voice. Yun Feng looked up at her and suddenly curled up her lips and smiled. She raised her arm slightly and her mental strength had already swept out fiercely,

directly hitting the woman's waist. The woman could only exclaim in shock as her body rose in the air and landed on the ground in a sorry state.

The woman was only at level 8. Yun Feng could crush her with her fingers if she exerted a bit of strength. She would only embarrass herself if she wanted to show Yun Feng her strength!

"You..." The woman got up from the ground in a sorry state. Yun Feng was only warning her and didn't use much of her strength. "I'm just returning the favor. It's nice to meet you."

The woman blushed and knew that she was showing off in front of an expert. She bit her lips and didn't say anything else, but her eyes were full of anger after being humiliated. "Just wait and see!" She gritted her teeth and squeezed out a sentence. The woman walked to the table and started fiddling with it without looking at Yun Feng anymore. Yun Feng didn't care and also walked to her table. She really didn't know how to use these things.

The door was pushed open again and the director of the Pharmaceutical Institute walked in. The woman, who was fiddling with something with her head lowered, immediately shouted in surprise when she saw the director, "Master!"

The director nodded and asked her to continue. He looked at Yun Feng deeply with his eyes. Yun Feng also looked at him calmly with an aura that didn't lose to the other party at all. The director was stunned for a moment, and then his eyes darkened. "Dan Qing said that you're different from the others, and said that you'll surprise me."

Yun Feng chuckled. "Elder Dan Qing was exaggerating. He praised me too much."

The woman, who was busy getting potions, suddenly trembled. Elder Dan Qing! Elder Dan Qing knew Yun Feng too!

"Don't be so humble, kid. I'll know whether or not he was exaggerating. Let's begin!" The director said as he walked to the seat in front and sat down. Yun Feng stood by the table and smiled a bit speechlessly. Make potions? What potions did she want to make?

Seeing that Yun Feng didn't move after a long time, the director frowned slightly. "Why are you not starting yet?"

Yun Feng sighed slightly and raised her head rather helplessly. "Which potion... should I make?"

The director was stunned to hear that. "The most basic advanced one-star potion will do."

Yun Feng was silent for a while. "What's the most basic potion?"

"You don't even know the most basic potions?!" The woman on the side said in a very high tone, unable to believe it. "Are you a potion maker or not? You don't even know this? Don't embarrass me!"

Chapter 745: The Director's Personal Disciple (5)

"Alright!" said the director coldly. "Lan Ling, keep making potions. Yun Feng, come with me." The director got up and walked to one of the doors. He pushed the door open and entered. Qu Lanyi smiled at Yun Feng and signaled that he wouldn't follow her in. Yun Feng sighed and followed the director in. The door closed, stopping Lan Ling's unbelievable gaze.

The furnishings in the room were basically the same as those outside. It should be said that it was a room for making potions alone. The director walked to the table and took out a potion formula and a set of materials. "I forgot some of Dan Qing's instructions. This is the formula. You may begin."

Yun Feng nodded. With the formula, everything would be fine. The director sat opposite her and watched Yun Feng's every move carefully, not missing a thing. Yun Feng directly ignored the director's curious gaze and focused on the things in her hands. She first checked the formula and then examined all the materials needed one by one. Yun Feng already had a rough idea in her mind.

Yun Feng flipped her hand and a ball of fire burst out of her palm. The temperature of the fire slowly radiated. The director's face trembled as he watched calmly. The fire floated in the air. Then, Yun Feng grabbed the huge pile of materials and threw them all in. In an instant, the fire enveloped everything! The director's face trembled again and he continued to watch calmly.

A black ball kept rolling in the fire. The fire kept jumping and turning the things inside up and down. The herbs inside made a soft sound, as if they were starting to melt slowly. Yun Feng slowly closed her eyes and stood in front of the fire, not moving at all.

The director's face twitched hard on the opposite side. He sat there very calmly and didn't even move. He stared at Yun Feng with his eyes and his heart was already exploding. Dan Qing, you old bastard! Who exactly did you send here?

Yun Feng closed her eyes and carried out the job of assembling the elements she was best at. In her consciousness, these complicated elements were waiting for her to connect them completely and reach the most perfect state. She was good at this. It could be said that Yun Feng was the only one in this world who was good at doing such things.

After closing her eyes for a while, the fire suddenly rose a bit higher and Yun Feng also opened her black eyes at the same time. She took the bottle in her hand and the fire instantly dissipated, leaving behind perfect potions and extra intact herbs!

The director's face twitched a few times and his body suddenly stiffened. Yun Feng put the medicine away. "I'm done."

The director suddenly came back to himself. He stood up with a slightly stiff body and walked to the table to take the bottle of medicine Yun Feng made in his hand. He sized it up with a deep gaze. Perfect color, perfect energy fluctuation of the medicine! The director's heart suddenly surged and a long-lost enthusiasm burst out in his body. That old guy, Dan Qing, was indeed right! If he missed this kid, he would indeed regret it!

After sizing up the bottle of potion repeatedly, the director's heart kept surging. At his age and level, it was almost impossible for him to meet a good seedling who could make his blood boil, but he did!

"Kid, what do you want me to do for you?" The director said with a smile. Yun Feng was stunned. He went straight to the point so quickly? That was good! Yun Feng was silent for a few seconds before she said, "Fusion Fluid."

The director was slightly shocked. "Fusion Fluid? Why do you want that? It's useless for you."

Yun Feng frowned and didn't say anything. The director didn't ask anymore. "The Fusion Fluid is fine. Even though I may fail many times, there are times when it works." Yun Feng's eyes brightened when she heard this. She had succeeded! So, the director should be able to make the Fusion Fluid!

"However..." The director suddenly smiled at Yun Feng. Yun Feng felt a bit cold for some reason, as if she was being schemed against. "When you reach the advanced three-star level, you can talk to me again."

After saying this with a smile, the director put away the bottle of medicine Yun Feng made just then and walked out with a delighted look. Yun Feng watched the director leave in a good mood and could only give a wry smile. An advanced three-star pharmacist? How would it be as easy as he said? Besides... her current bottleneck was stuck on the advanced one-star level. If she couldn't think of a way to stimulate the sensitivity of the elements, when would she be able to reach the advanced three-star level?

"They're all old foxes..." Yun Feng shook her head speechlessly. Since the director had made a condition, she could only give it a try!

Ever since that day, the news that Yun Feng became the director's second personal disciple spread in the Pharmaceutical Institute. She was already shocking as an advanced one-star student on the first day of school. And now, she became the director's personal disciple on the first day. W-What kind of luck was this?

The pharmacists of the Fengyun Empire immediately stuck out their chests! They only felt that their sleeves were fluttering in the wind when they walked outside. They were indescribably awe-inspiring! Their momentum that was suppressed by Cashya in the past was swept away. If Cashya had an advanced three-star pharmacist, Fengyun would have one sooner or later! If Cashya had the director's personal disciple, Fengyun also had one!

For a moment, Yun Feng's name stirred the Pharmaceutical Institute. When they talked about Yun Feng, they were in a strange mood. The pharmacists of the Cashya Empire restrained their usual arrogance and didn't embarrass Fengyun like before.

Yun Feng, who was the center of everyone's attention, seemed to be completely invisible. She was very frustrated in a corner. How could she stimulate the elemental sensitivity of the herbs? She had been a bit anxious during this period of time. The sooner she broke through this obstacle and reached the advanced three-star level, the sooner she could ask the director to make the Fusion Fluid. The next step was to set off for the West Continent and head to the Endless Ocean!

As long as she could break through a day earlier, it meant that she had more time! If she was stuck here forever, everything else would be empty talk!

Speaking of the pharmacists of the Fengyun Empire who stuck out their chests and raised their heads, they could be said to be elated under Yan Xiaoshi's lead, but even so, Yan Xiaoshi knew that they couldn't cause trouble for Yun Feng, and couldn't be like Cashya. They didn't want to be the second Cashya. The pharmacists of the Fengyun Empire had risen, but they didn't deliberately suppress and humiliate others. As long as you don't provoke me, I certainly won't provoke you.

Chapter 746: The Director's Personal Disciple (6)

Yan Xiaoshi promoted it like a megaphone every day. All the glory is because of Yun Feng right now! We can't let Yun Feng down! We can't let her down! Yun Feng could only smile helplessly when she heard that occasionally, and the awkward entrance rule didn't change at all. Instead, it became even worse. Long live Yun Feng! Yun Feng is awesome! Yun Feng is domineering!

Yun Feng didn't care about that for now. She was focused on solving her problem. She stayed in the classroom at the back all day. Since there was a separate potion room behind the door, why did she have to make it outside? Qu Lanyi followed her every day and teased Yun Feng or told her what happened in the Pharmaceutical Institute.

Today was the same as usual. Yun Feng was still pondering. Even though she didn't break through her own problem, Yun Feng found that the way she made potions was actually another way of fusing elements. She kept making potions and practicing how to fuse elements. Yun Feng found that she became more and more familiar with fusing elements. It wasn't difficult for her to fuse three elements at the moment. It could be said that making potions provided a lot of opportunities for practice.

"The sensitivity of elements..." Yun Feng stared at the herbs on the table in a daze. Qu Lanyi, who had just come out of meditation, suddenly pushed the door open and entered. Yun Feng looked up and saw the serious expression on Qu Lanyi's face. Her face couldn't help but darken.

Qu Lanyi glanced at him and said, "Something happened."

Yun Feng didn't care about what she was meditating about just then. She immediately pushed the door open and walked out. As soon as she walked out of the classroom, she saw a large group of people surrounding the square not far away. She didn't know what they were doing. It seemed that the intermediate and advanced students had all come out and were all gathered there.

When Yun Feng walked to the periphery, the students immediately made way for her. The students of the Fengyun Empire were obviously relieved to see her, but the students of the Cashya Empire had completely opposite expressions. The students of Ovey and Shengyao were all bystanders, as if they had nothing to do with it.

Before they reached the center of the matter, Yun Feng had already heard Yan Xiaoshi's furious voice. "Bastards of the Cashya Empire, say that again if you have the guts!"

Yun Feng frowned and immediately walked forward. Then, she saw that everyone on the advanced level was surrounded. Yan Xiaoshi was standing aside furiously and glaring at the pharmacists of the Cashya Empire. They had obviously been arguing and didn't seem friendly at all. The senior pharmacist of the Cashya Empire was holding a young man, who was an intermediate pharmacist. There were wounds on his face and body, but he looked extremely weak.

Yun Feng frowned and couldn't help but feel shocked when her gaze landed on Xia Jingyi, who was squatting next to Yan Lei! At this moment, Xia Jingyi was holding a girl covered in blood in his arms. Half of her face was covered in blood. Although it had consolidated, it was still very scary. Her left leg was obviously fractured and her face was extremely pale. She only opened her eyes full of anger and her body was limp in Xia Jingyi's arms. Her lips were trembling violently, which showed that she was enduring immense pain on her body.

“Yun Feng!” Yan Xiaoshi was the first to see Yun Feng and he immediately shouted. The few senior pharmacists of the Cashya Empire couldn’t help but look gloomy when they saw Yun Feng. Yun Feng walked forward from the back. Xia Jingyi raised his head and couldn’t help but heave a sigh of relief. “You’re here.”

Yun Feng looked at the girl in Xia Jingyi’s arms and couldn’t help but ask solemnly, “Shang Rui, what happened to you?”

The person in Xia Jingyi’s arms was Shang Rui. At this moment, she managed a smile and gasped in pain. Yun Feng immediately frowned. Xia Jingyi said, “Don’t worry. She’s already taken the healing potion. She just can’t move for now.”

“What happened? Those bastards of the Cashya Empire were obviously stirring trouble on purpose!” Yan Xiaoshi roared with a gloomy face. “Shang Rui only accidentally broke his bottle. He attacked her!”

“Yan Xiaoshi! Do you really think you’re a big shot? Shang Rui broke the bottle on purpose and even mocked us! She attacked first! Why? Is the Fengyun Empire allowed to bully others, but we’re not allowed to fight back?” said the senior pharmacist of the Cashya Empire. The intermediate pharmacist who had a conflict with Shang Rui stood there silently. He was obviously a bit frightened by the lineup.

“F*ck you! If Shang Rui really attacked first, that bastard should be the one lying here!” Yan Xiaoshi’s eyes were spitting fire. It seemed that he was going to beat someone up.

“Where’s the teacher?” Yun Feng looked back. None of the teachers of the Pharmaceutical Institute was here. Xia Jingyi helped Shang Rui up and replied, “It’s self-study time right now. The teachers have all gone back.” The teachers of the Pharmaceutical Institute didn’t teach for long. They could only give guidance at most. Most of the time, the students relied on themselves.

Yun Feng walked to Shang Rui and examined her wounds. She laid her hand on Shang Rui’s chest, and sent cool water elements into Shang Rui’s body through her hand. Although Qu Lanyi was a light-element mage, Yun Feng didn’t intend to let Qu Lanyi do anything. This was the Pharmaceutical Institute. The situation was a bit complicated.

The pain in Shang Rui’s body was finally relieved under the suppression of Yun Feng’s water element and the expression on her face was no longer painful. Xia Jingyi and Yan Xiaoshi were both delighted when they saw this. Even though the healing potion also had the function of healing, how could it compare to the magic element in terms of speed and effect?

“Are you feeling better?” Yun Feng asked softly. Shang Rui was still pale, but she was obviously much better. Yun Feng nodded and continued, “Can you talk?” Shang Rui raised the corners of her mouth. “Of course.”

“Very good. What exactly happened? Tell me,” said Yun Feng casually. Shang Rui snorted at first. “It’s self-cultivation time. I was going to change the bottle when that person suddenly bumped into me. Then, for some reason, a bottle fell on the ground and shattered. Even though I didn’t quite understand the situation, I apologized, but that person started talking endlessly...”

“You bumped into him on purpose! If you didn’t, his medicine bottle wouldn’t have fallen on the ground. The people of the Fengyun Empire are quite good at twisting facts!” A senior pharmacist of the

Cashya Empire interrupted Shang Rui. Yun Feng turned around slightly. “We certainly can’t listen to one side alone. You’ll have time to talk!”

Chapter 747: Meatball Appears (1)

The high-level pharmacist of the Cashya Empire was about to say something, but bit his lips and didn’t say anything else. Shang Rui snorted, obviously sneering. “I did that on purpose? Fengyun’s students are so far away from Cashya’s. How intentional must I be to bump into him?” Shang Rui gasped and continued, “I’d already apologized, but he attacked me still!”

Yun Feng’s eyes darkened, and so did Xia Jingyi and Yan Xiaoshi. Yun Feng asked Shang Rui to stop talking. She slowly withdrew the water element back into her body and stood up. At this moment, the crowd separated again. “What’s going on here?” A serious voice sounded. A figure slowly walked out of the crowd. When she saw Yun Feng, she was a bit surprised. Then, she glanced at the senior pharmacist of the Cashya Empire. When she saw the intermediate pharmacist with some superficial wounds, her face darkened.

“Who hurt Cashya’s pharmacist?”

“Lan Ling, who else can it be? Of course, it’s Fengyun’s gang!”

Lan Ling, the only advanced three-star pharmacist in the Pharmaceutical Institute, suddenly roared after hearing this. “How bold!” This roar made everyone tremble. Yun Feng’s expression didn’t change. Lan Ling looked at Yun Feng. “You’re here too. Tell me. How should the Fengyun Empire explain?”

“What did you say?” Yan Xiaoshi immediately said angrily, but Yun Feng extended her arm in front of him, asking him not to be rash. “An explanation? If anyone is going to give an explanation, it should be the Cashya Empire. Everyone can see that Fengyun’s student is even more seriously injured.”

Lan Ling blushed. Seeing how miserable Shang Rui was, she sneered, “You’re truly impressive.” The people of the Cashya Empire couldn’t help but chuckle. Yun Feng chuckled and said solemnly, “As a three-star advanced pharmacist, it’s only right for you to protect her. But don’t forget that I’m even more protective of my people.”

The people of the Cashya Empire couldn’t help but look much more nervous. The people of the Fengyun Empire all seemed to be saying that they weren’t afraid of her. After thinking for a while, Lan Ling finally said, “What exactly happened? Tell me!” A potion maker of the Cashya Empire immediately told her what happened. Lan Ling raised her brows after hearing that. “Yun Feng, the Fengyun Empire attacked first.”

“But our statement is completely different. How should you explain it?”

“That’s because you’re trying to cover it up!”

“It seems that Cashya’s side is just making things up.” Yun Feng glanced at Lan Ling casually. Lan Ling was immediately enraged. If Yun Feng weren’t here, the matter would have already ended. With her, an high-level three-star potion maker, here, the Fengyun Empire could only squint on the side! With Yun Feng here, her status in the Pharmaceutical Institute was completely different!

“Humph! Nobody knows what exactly happened. I don’t think anyone can figure it out.” Lan Ling glanced at the people of Ovey and Shengyao. Those mid-level pharmacists all lowered their heads and didn’t say anything. Yun Feng couldn’t help but sneer in her mind when she saw this scene. Yan Lei shouted furiously on the side, “You bastards! You don’t even dare to admit what you did!”

“Yan Lei! Don’t be too outrageous!” Lan Ling narrowed her eyes and Yun Feng glanced over with her black eyes. “Watch the mouths of the people on your side too.”

Things were at a stalemate. Everyone knew the truth in their minds. However, Cashya had an advanced three-star potion maker who was the director’s personal disciple. She had a promising future. They couldn’t offend her. If not, Cashya wouldn’t have been able to swagger in the Pharmaceutical Institute without Lan Ling.

“Take her back first.” Yun Feng glanced at Shang Rui. After her treatment just then, Shang Rui could be moved. Xia Jingyi nodded and carefully carried Shang Rui back. Shang Rui looked at Yun Feng with glittering eyes, as if she wanted to say something.

“It’s fine. Leave it to me,” said Yun Feng casually. Tears welled up in Shang Rui’s eyes. She nodded and let Xia Jingyi carry her away.

“Send him back too, in case there are any sequela,” said Lan Ling. What she said made people sigh. The man from the Cashya Empire was obviously only mildly injured. He was fine. She made it sound like he was about to die. The intermediate pharmacist was sent back. He didn’t say anything at all. The senior pharmacists of the Cashya Empire were the ones who kept talking. The injured on both sides were sent away, and the core members on both sides were also sent back.

Lan Ling and Yun Feng stood face to face, surrounded by all the students of the Pharmaceutical Institute. The Cashya Empire’s student stood behind Lan Ling, and the Fengyun Empire’s student stood behind Yun Feng. Both sides were a bit aggressive, or rather, they had been conflicting for a long time.

“I think you know how this happened,” said Lan Ling loudly. The hostility in her eyes was no longer hidden. After learning that Yun Feng was the new disciple of the director, Lan Ling had already disliked Yun Feng.

Yun Feng’s eyebrows moved slightly and she didn’t say anything. Yan Xiaoshi replied, “You know very well how it caused this.”

“The Cashya Empire and the Fengyun Empire have been enemies for a long time. Yun Feng, you should know why, right?”

Yun Feng glanced at Lan Ling lazily. “So?”

“So? You turned the capital of the Cashya Empire upside down back then! The entire royal family and the capital of the Cashya Empire were almost destroyed in your hands! The only summoner of the Cashya Empire died in your hands, and the emperor of the Cashya Empire also died miserably because of you! Yun Feng, the Fengyun Empire made Cashya jealous because of you. How can you say that casually!”

Yun Feng was silent. Nobody knew what exactly happened back then except the people involved. She didn’t want to explain, and didn’t need to! “Lan Ling! Don’t think that you’re really a piece of cake just

because you're an advanced three-star potion maker! Yun Feng is a summoner, what about you? Aren't you just an advanced potion maker? What are you so arrogant about? If you have the ability, why aren't you so arrogant outside of the Pharmaceutical Institute? Do you dare to do that? Do you have the ability to make the Magic Beasts listen to you? Argh!" Yan Xiaoshi was enraged. He shouted at the top of his lungs. Yun Feng was a member of the Fengyun Empire, the idol of the younger generation! She was asking to be scolded for slandering their idol like this!

Yan Xiaoshi scolded enthusiastically. Lan Ling's face turned pale and red when she heard that. He was right. She could only be so arrogant in the Pharmaceutical Institute. Not many people would give her face after leaving the Pharmaceutical Institute! However, Yun Feng was different. Putting aside her identity as a potion maker, she was a summoner!

Chapter 748: Meatball Appears (2)

The pharmacists of the Fengyun Empire all laughed secretly because of what Yan Xiaoshi said. Lan Ling stood there awkwardly and suddenly shouted, "Yes! I'm not a summoner. She's awesome! However, she can't compare to me in the Pharmaceutical Institute! That's the truth!"

Yan Xiaoshi opened his mouth, but didn't say anything. It was a damn fact that Yun Feng was an advanced one-star and Lan Ling was an advanced three-star!

"In the pharmaceutical world, it's a fact that she's inferior to me!" Lan Ling was in a good mood when she saw Yan Xiaoshi speechless. She said with arrogance and disdain on her face. Yun Feng chuckled. "So what if I am? Just because I'm inferior now doesn't mean I'll always be like this."

"That's right! With Yun Feng's strength and talent, it's only a matter of time before she surpasses you! By then, let's see what you're still proud of!" Yan Lei burst into laughter. Lan Ling was a bit embarrassed by the mockery. She glared at Yun Feng with fire in her eyes. "There's no need for a future. I think it's fine right now!"

Yun Feng raised her head and looked at Lan Xing. Lan Ling put away her anger and said with a cold and arrogant look, "Hasn't Fengyun always been proud of you? Aren't you a genius? Didn't he say that it's only a matter of time before you surpass me? There's no need for that in the future. The quarterly assessment will be in three months. Just compete with me!"

"You're taking advantage of her! You're going too far!" Yan Xiaoshi roared. Everyone knew that Lan Ling was an advanced three-star, while Yun Feng was only an advanced one-star! How could she possibly reach the three-star level in three months? Wasn't she just bullying people?

"Yun Feng, you can admit defeat if you want. But you have to ask the pharmacists of the Fengyun Empire to apologize to the Cashya Empire! And you have to admit that you're inferior to me!"

"You..." This condition made the Fengyun Empire enraged. They knew how to bully people, and they even used something that was impossible! The Cashya Empire's side roared, "Yes, you should surrender as soon as possible! Don't force yourself. We won't laugh at you! Apologize as soon as possible, or you'll embarrass yourself!"

"Damn it, she's too much!" Yan Xiaoshi gritted his teeth and roared. Yan Xiaoshi looked at Yun Feng, who had been silent, and couldn't help but feel a bit guilty in his mind. If Yun Feng didn't stand up for

them, she wouldn't have been suppressed by this woman in such a way. The price this time wasn't just an apology, but also her dignity! Their dignity didn't matter, but Yun Feng's!

"Yun Feng, we can always apologize. It's no big deal..." Yan Xiaoshi said in a low voice. Yun Feng still didn't say anything. The Cashya Empire's side was already laughing, while the Fengyun Empire's side was a bit embarrassed and angry. Yan Xiaoshi gritted his teeth. He might as well apologize directly! He had just stepped out when the hand on his shoulder pressed him to the ground. Yan Xiaoshi turned around and saw Qu Lanyi's handsome facial features.

"You're her companion?" Yan Xiaoshi said awkwardly. Qu Lanyi nodded and smiled at Yan Xiaoshi. "Don't do something stupid. How can Fengfeng let that kind of person suppress her?"

Yan Xiaoshi was stunned and didn't quite understand what Qu Lanyi said. "But Yun Feng is just an advanced one-star. She..." Qu Lanyi nodded happily to show that Yan Xiaoshi was right. In the end, the corners of his mouth curled up. "You've underestimated Fengfeng, haven't you?" Yan Xiaoshi blinked. Qu Lanyi patted his shoulder and walked forward. "Why are you laughing? Don't you know how awful your laughter is?"

The people of the Cashya Empire suddenly stopped laughing. Seeing Qu Lanyi, Yun Feng glanced at him. He wasn't going to watch the drama anymore? Qu Lanyi winked at Yun Feng. Lan Ling asked in a low voice, "Are you her companion?"

you are reading on our content copy site. Please copy and search this link " <https://bit.ly/3NSnQtR> " to support us

Qu Lanyi's face turned cold. "Although anyone with a discerning eye can see who's taking advantage of others, it doesn't mean that everyone is like you. You only rely on your own advantage to suppress others. Don't think that everyone is like you, who will die without their sense of superiority."

Lan Ling's face suddenly flushed. "You're not qualified to talk to me here!"

Qu Lanyi chuckled. "You think I want to talk to you? If it weren't for Fengfeng, I wouldn't have bothered to talk to you."

Yun Feng glanced at Qu Lanyi in amusement. He was indeed good at talking. He didn't give anyone face. She shook her head helplessly and looked at Lan Ling solemnly. "Then let's do as you say. We'll see who's stronger in the assessment three months later."

Everyone was stunned. Was Yun Feng crazy? Why did she have to suffer for her dignity? Even though she was a genius and a powerhouse, it didn't mean that the pharmaceutical world was the same! She was just an advanced one-star. She was going to challenge an advanced three-star in three months?!

"Yun Feng..." Yan Lei was also very surprised. He also thought that Yun Feng was a bit too stubborn. He was about to ask Yun Feng to take back what she said, but Lan Ling wouldn't allow her to.

"Very good! Everyone, listen carefully. Yun Feng has already agreed to my condition. We'll compete in three months! Don't forget what you'll do if you lose!" Lan Ling chuckled, as if she was the winner. The people of the Cashya Empire also laughed with a hint of ridicule.

Yun Feng raised the corners of her mouth. "What if you lose?"

Lan Ling burst into laughter. "I lost? How can I possibly lose? Do you think an advanced one-star like you can really beat me?"

Yun Feng didn't say anything. She only raised her brows and looked at Lan Ling. Lan Ling was startled. "Hm! If I lose, I'll certainly do the same. However, don't worry. I won't lose! The Fengyun Empire should be prepared to apologize to Cashya, and you'd better be ready to say that you're inferior to me!"

Yun Feng pressed her lips and smiled as she walked towards Lan Ling step by step. Lan Ling suddenly felt a trace of panic. "What are you doing?" Yun Feng smiled and didn't say anything. She waved her arm gently. In an instant, the space around the two of them had been sealed! All the sounds around were blocked, leaving only silence! Lan Ling stood in the silence and her heart suddenly raced. Looking at Yun Feng with a faint smile in front of her, she suddenly realized that the woman wasn't just an advanced one-star potion maker. She was also a summoner. She was an absolute powerhouse!

"You, you, you..." Lan Ling's voice also started to tremble a bit. Yun Feng stopped a few steps in front of her with a smile. Her clear black eyes were like the night sky, deep and boundless, making people feel like they were sinking deep inside when they looked at her.

"After this, if you, or anyone else in the Cashya Empire, find trouble with me again and run circles around me like a fly, don't blame me for being impatient and swallowing that piece of meat called Cashya." A few beams of cold light suddenly flashed through Yun Feng's black eyes. Lan Ling shivered when she saw that. She wasn't lying! If Yun Feng pissed her off, she might really swallow Cashya, as long as she was here!

Chapter 749: Meatball Appears (3)

"If that's the case, Shengyao and Ovey won't stand by and do nothing!"

"Hehehe, swallowing one piece of meat is the same as swallowing two or three pieces. Then let's do it together!" Yun Feng's smile suddenly became evil, which made Lan Ling's heart tighten. She was serious! Yun Feng smiled evilly at the corners of her mouth and waved her hand gently. The space that was sealed just then was instantly unlocked. The blockage just then only blocked the sound and didn't hide her body. No third party heard the conversation between the two of them just then. Some noisy voices surged in again and Lan Ling only felt her head buzzing!

"We'll see in three months." Yun Feng looked at the pale Lan Ling in front of her and said indifferently. Then, she turned around and left. Even though Yan Lei didn't know what happened, the powerful aura Yun Feng exuded couldn't help but influence him. He couldn't help but straighten his back and become inexplicably tall!

"Swish!" To everyone's surprise, as soon as Yun Feng turned around and left, Lan Ling suddenly sat on the ground with an extremely pale face, looking a bit strange. The people of the Cashya Empire were all puzzled and asked with concern. The pharmacists of the Fengyun Empire couldn't help but smile when they saw this. Yan Lei grunted and turned around to leave. "The pharmacists of the Fengyun Empire, we're leaving!" With a shout, the pharmacists of the Fengyun Empire all left with a smile. The Cashya Empire was very frustrated. They had the upper hand just then. Why did Lan Ling become like this after a while? The Fengyun Empire was already so arrogant?

“Lan Ling! What exactly happened to you?” Everyone asked one after another. Lan Ling sat there with a pale face and thought about what Yun Feng said just then. In the end, she gritted her teeth and stood up. “I’m fine!” She turned around and left. This farce ended just like that, but another show was about to begin.

The drama between Fengyun and Cashya naturally spread throughout the entire Pharmaceutical Institute. All the students knew about it. The teachers of the Pharmaceutical Institute also learned about the conflict later. The bet between Yun Feng and Lan Ling was widely known. After hearing that, the director of the Pharmaceutical Institute only smiled and didn’t say anything. Nobody could guess what he was thinking. These two were his personal disciples. Although Yun Feng was new, the director was obviously very satisfied. Wouldn’t the relationship between these two disciples be ruined when they fought?

The director of the Pharmaceutical Institute chuckled as he played with the bottle of perfect-level advanced one-star medicine Yun Feng made that day in his hand with a smile on his face. “The advanced three-star contest... How will the kid surpass Lan Ling in three months? It’s really worth looking forward to.”

The quarterly assessment three months later became the day everyone looked forward to. In these three months, the Fengyun Empire and the Cashya Empire were like fire and water. Although there were no more conflicts, the atmosphere between the two parties reached an unprecedented new climax.

Ever since Shang Rui was seriously injured, she had finally recovered after a month of recuperation. After learning about the deal between Yun Feng and Lan Ling, Shang Rui didn’t know how to describe her feelings. She couldn’t say anything when she impulsively went to find Yun Feng. She could only stand there. Yun Feng only smiled and talked casually. This deal was mostly to ease Shang Rui’s burden. Shang Rui suddenly felt even more upset. Even though Yun Feng said so, everyone knew that this was the trouble she caused and Yun Feng stood up for her!

Shang Rui squeezed out a “thank you” with mixed feelings in her mind and ran out of the door. Yun Feng was a bit puzzled as Qu Lanyi shook his head with a smile on the side and exclaimed how charming Yun Feng was. Ever since that day, Yun Feng and Lan Ling had been in a semi-closed state. Yun Feng could still see them from time to time, but Lan Ling was completely gone. Yun Feng knew that she was accumulating experience for the contest three months later and consolidating her strength, but it was useless no matter how much she practiced. She needed to solve other problems.

How could she stimulate the elemental sensitivity of high-level materials? This was Yun Feng’s bottleneck and also the barrier. As long as she broke through this barrier, everything in the future would naturally be solved! Lan Ling’s challenge couldn’t help but stimulate Yun Feng’s fighting spirit. Even though she had never slacked off, the assessment would be held in three months. If she could force herself to make a breakthrough in three months, then it wouldn’t be a problem for her to gather and melt the liquid!

Yun Feng pondered for a month in the pharmaceutical lab alone. After trying many ways, she had no idea how to stimulate the element sensitivity. Yun Feng pushed the door open and walked out. Since she didn’t succeed, she was looking for another way. Every time Yun Feng was in the pharmaceutical lab,

Qu Lanyi didn't disturb her and let her meditate. Seeing Yun Feng come out, Qu Lanyi certainly wouldn't think that she succeeded so quickly. He only asked casually, "How was it?"

Yun Feng chuckled. "It seems that I have to find another way."

Yun Feng wasn't missing like Lan Ling. She still appeared in the resting room of the Fengyun Empire often. The pharmacists of the Fengyun Empire were all curious about how confident Yun Feng was, but they didn't dare to ask. Even Yan Xiaoshi and Xia Jingyi didn't ask and seemed to be very careful. Yun Feng wasn't so emotionally disturbed. She was thinking about which path she should try next.

"What's the area around the school used for?" Yun Feng suddenly remembered the complicated landscape she saw when she came to the Pharmaceutical Institute. She still hadn't asked what it was for. Yan Xiaoshi was reading the potion formula. When he heard the question, he immediately put down what he was doing. "You don't know?"

Yun Feng smiled helplessly. "I'm a new student."

Yan Xiaoshi patted his head in realization. "Hahaha, I forgot that you're a new student! The vast area next to the Pharmaceutical Institute is where the herbs come from. It can be said that most of the herbs the Pharmaceutical Institute needs are collected from the surrounding area."

"So, that large area is cultivated by humans?" Yun Feng was puzzled. The Pharmaceutical Institute needed a lot of herbs. It was reasonable for them to be cultivated by humans.

Yan Xiaoshi was stunned. "Human cultivation? There are only a few teachers in the Pharmaceutical Institute. Who would grow herbs? There are people responsible for picking herbs. Students aren't allowed to leave the Pharmaceutical Institute. I can guarantee with 200% certainty that these herbs are all natural! It should be said that the Pharmaceutical Institute is built in the middle of a huge number of natural herbs."

Chapter 750: Meatball Appears (4)

What Yan Xiaoshi said made Yun Feng even more shocked. So, the Pharmaceutical Institute was indeed blessed. That vast area could be said to be a gift from nature. They didn't have to worry about the number of failures with an endless supply of herbs.

"Why are you asking this? Are you going to sneak out?" Yan Xiaoshi chuckled and winked at Yun Feng mischievously. "If you want to sneak out, take me with you!"

Yun Feng raised the corners of her mouth. "I'm just asking. Don't think too much."

Yan Xiaoshi replied with an "oh" in frustration. The strength and cultivation of the pharmacists weren't high, so these students of the Pharmaceutical Institute were also unusually obedient, because they knew that their strength was truly not up to standard, so they didn't dare to joke with their lives. They didn't dare to leave the school without permission, but this group of good students didn't include Yun Feng.

Yun Feng immediately planned to leave the Pharmaceutical Institute and go to that vast area. If she wanted to figure out how to stimulate the elements of high-level herbs, she would naturally have to come into contact with these natural herbs up close. She would definitely benefit a lot. For Yun Feng, it

was extremely simple to leave the Pharmaceutical Institute. Even the barriers around the Pharmaceutical Institute were useless to her. Qu Lanyi followed Yun Feng. The two of them left the Pharmaceutical Institute in the sky expressionlessly and went to the area with a complicated terrain around the Pharmaceutical Institute.

When the two of them landed in this complicated area at a close distance, 'on google'? they both clearly felt some chaotic elemental energy mixed in this space. Some were weak and some were strong. Yun Feng knew that it was the elemental energy emitted by the herbs growing in this area. The elemental energy was so complicated, which showed that the herbs growing here were also complicated.

The two of them walked forward. The deeper they went, the more obvious they felt the complicated elemental energy. Qu Lanyi looked around. "There are more than a few hundred kinds of herbs growing in this area. I'm afraid there are already more than a thousand."

Yun Feng nodded. "It's like heaven for pharmacists."

As they went deeper and deeper, the two mages keenly noticed that the elemental energy was getting thinner and weaker. Yun Feng knew that the higher the level of the herbs, the less easily the elemental energy they emitted. "Let's go further," said Yun Feng. The two of them went deeper again. They didn't encounter any other creatures along the way. This area was like a pure medicinal paradise.

After walking for a long time, the two of them came to a low land. The soil in this low land was thick purple and there was no elemental energy on this purple soil at all. Yun Feng stood in front of this depression. It seemed that this low land was the ideal place she was looking for.

"There's no elemental energy at all..." Qu Lanyi mumbled. He grabbed a small flower growing on the soil and crushed the petals with his fingertips, causing some light purple fluid to flow out. Yun Feng chuckled. "This must be a very high-level herb. I've seen a few in the high-level medicine warehouse of the Pharmaceutical Institute. The one in your hand is one of them."

Yun Feng also picked one in an instant. She flipped her hand and a ball of fire jumped on it, throwing the herbs she picked into the fire. The herbs kept rolling in the fire and the high temperature of the fire kept roasting them. Yun Feng felt it carefully and slowly frowned. "Sure enough, I can't feel any elemental waves."

"There's no rush. You might have an epiphany here," said Qu Lanyi with a smile. Yun Feng nodded. She stared at the pit and slowly closed her eyes. If she could turn into the purple soil, she might be able to peek at it.

The two of them stopped in this low land. They didn't go back to the Pharmaceutical Institute, and didn't arouse anyone's suspicion. Everyone was anxiously looking forward to the arranged competition three months later. While they were looking forward to it, time passed quietly. In the blink of an eye, more than half of the three months had passed. Somewhere deep in the area around the Pharmaceutical Institute, Qu Lanyi stayed in this place with Yun Feng for a long time. Yun Feng was investigating the secrets of these herbs as usual, but this was more difficult than she thought.

She closed her eyes and focused. What she felt was still blank. Yun Feng had tried all kinds of methods during this period of time, but there was little effect. She just didn't give up in frustration. The originally blank feeling suddenly changed at this moment. Yun Feng's body couldn't help but tighten and her heart

immediately sank even more. The mental strength inside her body kept surging out, exploring and feeling more carefully. Slowly, some tiny elements appeared. First, it was a few alone. Then, there were more and more. Even though the feeling was very vague, Yun Feng could already catch them!

Being able to capture it meant that she could operate on the elements, which meant that Yun Feng could combine the elements!

Yun Feng suddenly opened her black eyes and joy couldn't help but flash through her eyes. Before she could feel happy, she saw a fluffy body floating in front of her. Those big round eyes were looking at her with warmth, a round body, cute big eyes, fine white fur... "Meatball?" Meatball's body rolled in the air and directly pounced on Yun Feng's shoulder. "Nana!"

Perhaps because it had been too long since it last saw Yun Feng, Meatball was extremely enthusiastic. Its fluffy body kept rubbing against Yun Feng's cheek, which made Yun Feng's neck itch. Meatball's fluffy tail also kept brushing against Yun Feng's skin. Yun Feng couldn't stand it anymore. She moved Meatball's body in front of her. Meatball was very upset to be taken away. It extended its little claws from its white fur and struggled to pounce on Yun Feng. Yun Feng shook her finger and looked at Qu Lanyi, who was smiling on the side. "When did it appear?"

"It shouldn't have been long. I saw that you were focused and didn't disturb you. This little thing was also very quiet. It's been waiting for you to open your eyes."

"Nana, nana!" Meatball cried a few times in grievance and wanted to be intimate with Yun Feng, but Yun Feng held its body like this, so it could only keep struggling in the air. Yun Feng shook Meatball's chubby body. Logically, Meatball should have been awake for a long time, but it never came out until recently. Yun Feng sized up Meatball's body carefully. Meatball looked at Yun Feng with enthusiasm in its big eyes. Suddenly, Yun Feng narrowed her black eyes.
