

Summoner 81

Chapter 81: Admission Exam (2)

Yun Feng was absolutely confident in her brother, Yun Sheng. Her brother was 15 this year and had the ability of a level-2 mage. He would be able to pass the exam once he successfully lifted a level-1 magic stone!

A beam of cold light suddenly came. Yun Feng raised the corners of her mouth at Murong Ran with a hint of disdain and ridicule. Murong Ran's face darkened and her lips moved slightly. She must be saying some unpleasant words. Yun Feng snickered at the bottom of her mind. Murong family, let's see what you're going to do.

As the person who spoke just then did a hand gesture, the transparent barriers were completely sealed off, forming a ring without any gaps. With a level-6 magic barrier, who could break through it and mess up the exam? There wouldn't be any possibility for cheating either.

The candidates inside the barriers had already started moving. Yun Feng stared at her brother with her black eyes. The exam had begun!

There had always been an unchanging rule in the admission exam of Masang School of Magic, the three principles: equitability, openness and fairness.

There were certain standards in the admission exams in previous years. All the candidates would be divided into two age groups. Each age group had its own criteria. Even though there were very few mages on the East Continent, they were highly valued by the Karan Empire. However, this didn't mean that all the mages could be admitted to Masang School of Magic to advance their studies. If they couldn't enter Masang School of Magic, they wouldn't be able to make any huge progress in their practice of magic. The admission to Masang School of Magic represented the real opening of the road of mages.

There were very few mages and the resources were also limited, so the limited resources had to be given to talented and hardworking students. Those who didn't meet the standard and couldn't pass the admission exam were destined to be rejected outside the door of Masang School of Magic.

Even though there were magic barriers, people watching outside could still see the situation of the admission exam held in Liberty Square clearly.

There was a long table in front of all the candidates participating in the exam. Five stones were put on the table. These five stones contained the energy of magic elements from level 1 to level 5. What the candidates needed to do was to lift the stones up with the power of their mental strength, starting from the level-1 magic stone. The level of the stones they could successfully lift indicated the level of their magic.

This wasn't just a process of the second screening, but also a process of comprehensive ranking. After this admission exam, the detailed strength of each candidate would be categorized and ranked. The student ranked first would have certain privileges in Masang School of Magic.

Following the order from the examiner, all the candidates started moving. They all began to release their mental strength slowly. Some of them had already lifted a level-1 magic stone successfully and people watching outside also burst into loud applause.

Yun Feng didn't care about the other candidates at all. She kept looking at her brother firmly. Seeing her brother close his eyes, Yun Feng knew that he was releasing his mental strength slowly. Yun Feng gazed at the stone in front of her brother. Since her brother was 15, he would be able to pass the exam once he lifted the level-1 magic stone successfully. Yun Sheng had the strength of a level-2 mage, so it should be a piece of cake!

Even though Yun Feng was a bit worried about her brother, her confidence in him was way more than her worries. She was certain that her brother would pass the exam. She just didn't know what the Murong family would do in this round. With such a strict protective measure, could the Murong family truly interfere?

As Yun Feng pondered, she saw that Yun Sheng was about to use his mental strength to lift the stone. She held her breath and focused, watching the magic stone placed right in front of her brother with anticipation in her mind. However, Yun Feng noticed that something was wrong after a while. Her brother looked a bit pale and he was also frowning tight. That magic stone before him didn't move at all.

He didn't lift it up successfully... Yun Feng looked at that stone. At this moment, Yun Sheng had already opened his eyes and was also gazing at the level-1 magic stone in front of him in confusion. He didn't lift it up. How... How was that possible?

Yun Sheng closed his eyes tight once again and started to release his mental strength, slowly enveloping the surface of the stone. He tried to lift it up, but the little magic stone was like a thousand-year-old tree that couldn't be shaken. It didn't move a bit, as if it had rooted there.

No, something was wrong! Yun Feng looked at Yun Sheng with her black eyes. With her brother's power, it was impossible that he couldn't lift a level-1 magic stone. Yun Sheng tried a few more times, but he still hadn't succeeded. His handsome face was shrouded in a layer of thunderclouds. It seemed like he wouldn't be able to pass the exam this time.

Murong Ran had already lifted the level-1 stone successfully and she was also lifting the level-2 stone very easily. When she was about to lift the level-3 stone, she looked in Yun Sheng's direction. Seeing the magic stone on the table that wasn't moving at all, the corners of Murong Ran's mouth curled up slowly again. Yun Sheng, don't you even think about passing the exam this time!

There were bursts of enthusiastic cheers in the crowd. Especially when Murong Ran successfully lifted a level-3 magic stone, people cheered even more excitedly.

"The Young Lady of the Murong family is indeed impressive. A level-3 mage! How genius!"

"I think the first place of the magic exam this year will definitely go to the Young Lady of the Murong family!"

"Look at that boy from the Yun family! Hahaha, he can't even lift a level-1 magic stone. I guess he won't be able to pass the exam."

"Oh, I thought he could make it. I can't believe his strength is at this level..."

“Perhaps the Yun family is just lucky. They’ve declined to this point. It’s difficult for them to have anyone powerful anymore.”

Some people agreed one after another. Their confidence in the Yun family that they had just now all vanished, as if Yun Sheng’s failure was the final nail in the coffin. Yun Feng stood outside quietly, listening to the cheers and excitement of people around her. Everything on the outside had nothing to do with her anymore. She stared at the magic stone on Yun Sheng’s table firmly. As expected, the Murong family did do something. This move kind of put her at a loss.

Yun Feng glanced at Murong Ran with calmness in her eyes. It just so happened that Murong Ran gazed over to Yun Feng as well and she smiled disdainfully at Yun Feng, as if she was provoking her. Murong Ran thought she could see Yun Feng’s furious look, but she was wrong.

Chapter 82: Yun Feng on the Move (1)

Yun Feng slowly raised the corners of her mouth. That smile carried a hint of ridicule, as if she was saying, “The Murong family only knows such small tricks. That’s truly not up to standard.”

Murong Ran couldn’t help but feel enraged when she saw that. Even though she was very certain that she’d get the first place in the admission exam this time, she always felt oppressed when she was facing Yun Feng, making her upset, very upset.

Yun Feng turned her gaze back and saw that her brother was already shrouded in gloominess. He must be extremely anxious in his mind at this moment. If he couldn’t lift the level-1 magic stone, it meant that he couldn’t pass this exam. If her brother didn’t pass this exam, he might never be able to recover from this setback forever!

Yun Feng narrowed her eyes slightly. If she was right, the Murong family should have done something to this magic stone. Yun Feng didn’t know by what means exactly they did it to the magic stone, but she was 100% sure that the magic stone in front of Yun Sheng wasn’t a level-1 magic stone, but had a level higher than Yun Sheng’s!

Yun Sheng was at level 2. How could he possibly lift a magic stone that was higher than level 2? If he couldn’t lift it, he certainly wouldn’t make it through the exam. And yet, who would know that the magic stone Yun Sheng was trying to lift wasn’t a level-1 stone?

Right now, her brother definitely wouldn’t be able to lift it. No matter how hard he tried, the result would be the same. Seeing her brother become more and more anxious and gloomy, the anger in Yun Feng’s mind slowly rose. What a Murong family! What a tactic!

With the separation of such a level-6 magic barrier, it was impossible for her to assist him on the side. A level-6 magic barrier. There were not more than thirty level-6 mages in the entire Karan Empire, let alone in this small Park City!

The Murong family had made quite a meticulous plan. They thought about all the factors. Yun Sheng’s strength wasn’t strong enough. So, how would it be possible for the Yun family to help him from the outside even if they found something wrong?

Looking at Murong Ran’s complacent smile, she certainly understood how confident the Murong family was and how certain they were that Yun Sheng would be kicked out this time. However, even though

the Murong family had racked their brains and made thousands of calculations, they had never thought that Yun Feng would be a mage at the final stage of level 6!

Yun Feng pondered carefully for a while. Her mental strength could indeed go through this transparent barrier with her strength at the final stage of level 6, but the barrier was mid-level 6 magic. Once her mental strength ran through it, it would catch the attention of that level-6 mage. However, she couldn't think so much anymore under the current situation. Her brother was being set up. Even if she would be discovered, she also had to help her brother pass this exam!

As for the Murong family, she had already noted down this score!

There was a clamor of voices on Liberty Square. There were cheers all over the sky and wave after wave of applause came constantly. People's faces were full of excitement. Every one of them stared at the candidates participating in the exam, looking forward to their performances.

Inside the transparent magic barriers, the few inspectors sent by Masang School of Magic also gathered around for discussion. They observed the situation of this year's admission exam as they exchanged their thoughts with one another.

"The level of mages is getting worse year after year. There are very few talents..." A middle-aged man in a green robe said softly as he glanced around and looked at the performance of the candidates this year.

"With the physique of the people on the East Continent, what kind of magic talents do you want? You must be joking. It's already nice for us to have mages!" A fat man in a yellow robe said. The smile on his face was very endearing.

"In my opinion only Murong Ran from that Murong family can be regarded as a talent this year. There are too few, too few talented mages..." The man in a blue robe looked in the direction of Murong Ran with a slightly gratified look. After all, she was the only person among the candidates this year who had the strength of level 3 at the age of 12.

"Hey, Murong Ran is an earth mage. She belongs to my faculty." The fat man immediately said with a smile. The man in a blue robe heaved a sigh and replied speechlessly, "Alright, alright, she belongs to the Earth Faculty. How many years has it been since our school had a double-element mage?"

The few of them went into silence with a little desolation on their faces. Mages had truly been going downhill these several years. Let alone the decrease in the number of magic talents every year, there hadn't even been a double-element mage for a few centuries. Not only in the Karan Empire, the same happened to the other three empires on the East Continent.

However, there were a dozen geniuses at the School of the God of War every year. Each of them had astonishing and impressive talents. Compared to them, those mages who were regarded as geniuses would also be embarrassed.

"I was just thinking why the name, Murong Ran, sounded so familiar. It turns out she's from the Murong family. You know that kid, Murong Yuntian, right?" The man in a green robe said. The other two men also nodded. Murong Yuntian was a famous name. He was one of the top students at the School of the God of War.

“Murong Yuntian, Murong Ran... They’re both from the Murong family. The Murong family will surely have great success in the future.” The man in the blue robe said after pondering for a while. Murong Yuntian was one of the most outstanding students at the School of the God of War. After he graduated, he would definitely be put in an important position by the royal family of the Karan Empire. And Murong Ran was the top new student this year. The achievement she got with her status as a mage wouldn’t be less than that of Murong Yuntian. A warrior and a mage, the Murong family kind of had everything.

“If the Murong family has a summoner, they’ll probably jump to the top.” Once the fat man in a yellow robe said this, the other two men immediately burst into laughter.

“A summoner? It’s been a few centuries, but there still hasn’t been one in the Karan Empire. The royal family even wants to find some at school? They’re truly dreaming.”

“Haha, how would a summoner appear so easily? The one from the Yun family was the only one...”

The man in the green robe suddenly thought of something. “There seems to be a kid with the surname ‘Yun’ among the candidates this year...”

“Seriously? If he’s really from the Yun family, I’ll truly look forward to it!” The man in the yellow robe looked around for the kid with the surname “Yun” with a smile.

“Let me see. Yun, Yun... There, Yun Sheng, from Chunfeng Town. He’s indeed from that Yun family!” The man in the green robe held the list in his hands and finally found Yun Sheng’s name. Following the number on the list, he also found Yun Sheng’s position very easily.

Chapter 83: Yun Feng on the Move (2)

The three of them all looked over with more or less a bit of anticipation. After all, the Yun family, which once had a summoner, had a very rich background, so this kid should have pretty good talent...

Once they saw him, their hearts immediately turned cold. None of the magic stones in front of Yun Sheng was lifted. The man in the blue robe shook his head with a hint of pity in his eyes. “This boy can’t. If he passes the exam, he’ll be a student of the Water Faculty. What a shame...”

If there was someone among the mages who could truly become a summoner, Yun Sheng would be the most possible one. After all, the Yun family had a summoner before and Yun Sheng had certainly inherited the power of the Yun family, so he should be the one with the greatest hope. And yet, Yun Sheng was only an ordinary child who couldn’t even lift a level-1 magic stone in the eyes of these teachers right now.

“What are you talking about?” A man wearing a green robe and had slightly grey hair came over. His footsteps were steady and there were waves of faint mental strength exuding around his body, which were used to monitor the performance of each candidate.

The other teachers also greeted and talked to him. The few chatting teachers didn’t notice that a beautiful girl was closing her eyes quietly among the constantly cheering crowd outside of the isolated area separated by the level-6 magic barrier and that a wave of mental strength was surging out of her body like a tide.

For Yun Feng who was at the final stage of level 6, it wasn't difficult to penetrate the mid-level 6 magic barrier. Her mental strength formed a huge invisible hand and reached swiftly towards the mid-level 6 magic barrier. In just a blink, Yun Feng's mental strength had passed through it without any hindrance, rushing towards Yun Sheng's direction!

The expression of that level-6 mage who was talking softly immediately changed right after the intrusion of Yun Feng's mental strength. A clear vibration came from the magic barrier he set up. The mental strength of a mage broke in!

The eyes of the man with grey hair abruptly glittered and his mental strength also burst out quickly from his body, forming an invisible leather whip which went in the direction of Yun Feng's large mental strength hand. He was trying to restrain Yun Feng's mental strength with his own power!

However, who was Yun Feng? Besides, her strength had already surpassed this man's. The whip wouldn't be able to tie the hand up. The huge hand flipped abruptly in the air and flashed towards the whip fiercely!

What? The man was frightened. His mental strength lost to his opponent! How was that possible? Apart from the teachers at Masang School of Magic, he had never heard of any other level-6 mages in the Karan Empire! Where did this person come from? And why did the person break through the barrier?

"Teachers, we have a problem." Once the man spoke, the other three level-5 mages were startled in their minds. They immediately prepared themselves for battle. If something could go wrong even in front of a level-6 mage, it meant that the strength of the other party must be higher than level 6!

The mental strength of the level-6 mage finally got rid of the restraint of Yun Feng's large hand and immediately scanned the area outside of the barrier. Under the detection of his level-6 mental strength, Yun Feng was like an elegant crane standing among a flock of chickens, appearing in front of the level-6 mage.

The man's pupils greatly shrank. He only felt like he was being punched hard in his heart, making him a little dizzy. That little girl, how was that possible...

Level 6, and even stronger than him, so the final stage of level 6? How old... was that kid? She should be under the age of registration. Younger than 12? Having the strength of the final stage of level 6 before the age of 12, what kind of a genius was she?

The man's eyes gradually became hot as he looked at Yun Feng, as if two real flames were forming inside. The man was so excited that his body shook a bit. He stared at Yun Feng with his eyes firmly. All the talented students at Masang School of Magic in the last few centuries weren't even worth mentioning in front of this kid! Murong Ran, who stood out this year, completely lost her glory as the top candidate. Speaking of genius, this kid before his eyes was the real genius!

The man quickly retrieved his mental strength and slowly looked away from Yun Feng's little face after glancing at her a few more times with his burning gaze. The three level-5 mages were waiting seriously right now. They were all ready to make a move anytime.

"Are we going to take that person down together?"

The fat man in the yellow robe said as his eyes watched the surrounding vigilantly. The person who was able to break through the level-6 magic barrier and mess with the magic exam must be a mage that had at least level 6! Even though almost 90% of the mages in the Karan Empire gathered at Masang School of Magic, they couldn't rule out the possibility that some individual mages liked to practice alone. If there was truly a loner, what was his purpose?

The other two teachers also nodded after hearing that. They could definitely take that person down with the power of the four of them. However, the man with grey hair chuckled, which made the three teachers a bit confused.

"Everything's fine, teachers. I might have made some mistakes," The man with grey hair glanced at the few teachers and said softly. The teachers who were prepared to attack were all shocked.

Some mistakes? Everything was fine? What... was going on? Could a level-6 mage make mistakes as well? The magic barrier was intruded by someone. Could this be mistaken?

The three teachers looked at one another. The man with grey hair nodded as he walked away with a leisurely pace and continued to supervise the exam. Those three teachers stood there and gazed at each other, mumbling in their minds, "What the hell?"

Yun Feng, who was standing outside of the magic barrier, was looking a little serious right now. Although she won against the man who fought with her just then, it wasn't easy. When the two of them fought, the impact produced by the clash of their mental strength made Yun Feng's entire mental space shake. This was a situation that had never happened before.

"The strength of the mid-stage of level 6..." Yun Feng murmured. She was at the final stage of level 6, so a mid-level 6 mage would have comparable performance when they fought. If it weren't that her mental strength was unusually strong, it would probably not be so easy for her to win. The difference between the mid-stage and final stage within one level wasn't very obvious. If she wanted to widen the gap, she could only work on the so-called weapons.

Yun Feng noticed that the man had already retrieved his mental strength. Even though she had no idea why he ignored her, there was no time for her to think about this right now.

Chapter 84: Yun Feng on the Move (3)

Yun Feng's mental strength turned into a huge invisible hand and went straight in the direction of Yun Sheng, enveloping the level-1 magic stone in front of him quickly. Once it touched the magic stone, Yun Feng's face completely darkened.

This so-called level-1 magic stone contained magic elements of level 5! The corners of Yun Feng's mouth curled up coldly. What a Murong family! They indeed left no leeway when doing things! How would the level-2 Yun Sheng be able to lift a magic stone with magic elements of level 5 successfully? However, the Murong family's plan was destined to be just wishful thinking.

A level-5 magic stone might be a high level for someone else, but it was nothing in Yun Feng's eyes. She lifted the magic stone easily with her level-6 mental strength. When Yun Sheng, who was frowning tightly and looking worse, saw that the level-1 magic stone in front of him was lifted all of a sudden, he was so shocked that his jaw dropped!

He looked outside subconsciously and saw the gaze of his precious sister, as expected. Yun Sheng was grateful and felt a little embarrassed in his mind at the same time. Even though he didn't know what went wrong, he knew that he would probably be kicked out if Yun Feng didn't help him.

Suddenly, something seemed to come to his mind. Yun Sheng instantly looked around vigilantly and found that nobody noticed anything strange. He was relieved, and at the same time, his heart was full of shock and pride. His precious sister was truly powerful. She would definitely have a promising future on her path of development!

Yun Sheng thought no one knew about this, but it in fact wasn't true. The man with grey hair had been paying close attention to Yun Feng's mental strength. He didn't stop her just then because he wanted to see what this little girl was going to do. When he saw Yun Feng help Yun Sheng, he was slightly startled.

"That kid..." The man found Yun Sheng's name among the dozens of registered names on the candidate list in his hands. "Yun Sheng, he's from the Yun family. So, is that little girl from the Yun family as well? The Yun family never uses this kind of unjust means. Why would this girl..."

The man pondered for a while and used his mental strength to detect the stone Yun Feng lifted skeptically. Once his mental strength touched the stone, the man's face completely darkened. "How can the admission exam of Masang School of Magic be rigged by someone? Hm!" The man slowly glanced over the crowd outside of the magic barrier and already had some ideas in his mind.

"No wonder the little girl did that. I can't blame her..."

The level-1 magic stone in front of Yun Sheng was already lifted, so he certainly had to lift the level-2 magic stone. Candidates of the admission exam this time didn't simply have to pass the exam, they would also be ranked. Everyone hoped that they could be ranked in the front. Not as hard as lifting the level-1 magic stone, Yun Sheng lifted the level-2 magic stone successfully and easily. Thinking of this, the Murong family didn't really make meticulous preparation. After all, the magic stone they switched was just a level-5 magic stone. Even if the Murong family racked their brains, they wouldn't have thought that Yun Feng would be a mage whose strength had already reached such a terrifying level.

Apart from the man with grey hair, there was another person in the venue who was also paying attention to Yun Sheng secretly, which was Murong Ran. After she lifted the level-3 magic stone successfully, enthusiastic cheers burst out of the crowd. She knew that the first place would undoubtedly belong to her. When Murong Ran saw how frustrated Yun Sheng was just now, she burst into laughter at the bottom of her mind. Yun Feng, I'll make you crazy. Your brother is a loser who'll be expelled from Masang School of Magic. Let's see what you're going to do!

After Murong Ran lifted the level-3 magic stone successfully, she glanced at Yun Sheng with arrogance in her eyes. She originally wanted to see Yun Sheng's embarrassed look, but when she saw the two magic stones floating in front of Yun Sheng, she immediately widened her black eyes!

It was lifted... This... This was impossible!

Murong Ran suffered a huge blow after seeing the sight before her eyes and she was at a loss. The only thing she could think of was that she couldn't let Yun Sheng pass the exam! She immediately pointed at Yun Sheng and shouted, "He's cheating!"

The constantly cheering crowd instantly went into silence. What Murong Ran shouted kept resounding in people's ears. All the candidates couldn't help stopping what they were doing to look in Yun Sheng's direction where Murong Ran was pointing. Yun Sheng looked slightly nervous. After that, he seemed to have understood something and calmed himself.

Cheating? Cheating during the admission exam of Masang School of Magic? When candidates were found cheating, they would lose their eligibility to apply forever, so nobody would think of cheating even if they couldn't pass the exam. If they failed, they could try again next year. And yet, they would suffer a great loss if they lost the eligibility to sign up forever.

Seeing the furious look on Murong Ran's face, a glint of light flashed through the eyes of the man with grey hair. He slowly came over and stood in front of Murong Ran. Murong Ran's aggressive look completely vanished before the man. A kind of frightening fierceness covered Murong Ran like a small mountain, making her a bit uncomfortable.

"You said he's cheating, but do you have proof?"

What the man said made everyone hold their breath and wait. She must have solid evidence when she said someone was cheating. Yun Feng stood there and watched Murong Ran's face turn red and pale as a sarcastic smile appeared at the corners of her mouth. Murong Ran, you're the one who shot yourself in the foot.

Murong Ran stood there and was so regretful that she wanted to bite her tongue. She was too reckless just then. And now, she sent herself into a situation where there was no turning back. Murong Ran and the Murong family were the ones who knew most clearly whether Yun Sheng cheated or not. It was easy to prove this. That level-1 magic stone was the evidence!

If she showed them the evidence, they would know that someone had done something on the stone. And if they continued the investigation, they would be led to the Murong family. Rigging the admission exam of Masang School of Magic, even the Murong family didn't know how much anger they would provoke. And now, Murong Ran could only gnash her teeth tight and say softly to the man in front of her, "I... I don't have proof..."

Yun Sheng stood there and looked at Murong Ran's eyes, which were full of anger. He finally realized that someone switched his level-1 magic stone. No wonder he couldn't lift it. It turned out the Murong family was behind all this.

He could certainly tell the teachers that there was something wrong with his magic stone at this moment, but that would expose Yun Feng's strength. After pondering for a while, Yun Sheng thought he should just pretend that everything happened naturally.

The man with grey hair looked at Murong Ran as he pondered in his mind. "Murong Ran, the ability of a level-3 mage. That's indeed pretty good."

Chapter 85: The Discipline Head of Masang (1)

Murong Ran showed an arrogant look on her lowered face. She was one of the top three descendants of the Murong family, except for her brother, Murong Yuntian, whom she couldn't catch up with.

"You have great ability, but a poor temperament. It isn't good behavior to slander others for cheating."

What the man said made Murong Ran's expression change. She wanted to justify herself, but she couldn't say anything either. Glancing at the floating magic stones in front of Yun Sheng, Murong Ran gritted her teeth so hard they rattled.

Who helped the Yun family?

The man didn't say much. He slowly walked away and asked the candidates to keep going. The crowd watching outside started booing loudly. Apparently, they despised Murong Ran for slandering the others for no reason. Murong Ran had strong ability, but it didn't mean that she could slander people for cheating!

Some escorts from the Murong family in the crowd also looked ashamed. They had no idea what was going on with their Young Lady. Under all kinds of inexplicable gazes, Murong Ran's face kept flushing. She had undoubtedly embarrassed herself. She embarrassed herself on such an important occasion!

Yun Sheng, it's all your fault! If it weren't for someone helping the Yun family, Yun Sheng would have been kicked out already and I wouldn't have said something like that accidentally, let alone been so embarrassed!

Murong Ran was quite shameless. The Murong family was the one who rigged the exam and tried to set the Yun family up. And now, she was blaming the Yun family instead.

Murong Ran glared at Yun Sheng with resentment. It was alright. Even if he passed the exam, then what? Wouldn't there be a chance for her to teach him a lesson after they were admitted to Masang School of Magic? Even if that person could help the Yun family now, what could he do when they were at Masang School of Magic? He might be able to help them this time, but not forever. Thinking of this, Murong Ran gradually felt better. She started thinking about how she could make Yun Sheng more embarrassed in the future.

The man with grey hair checked the time. "Alright, candidates, time's up. If you don't meet the requirement, don't get discouraged. Masang School of Magic welcomes you to join us again next year!"

As the man yelled, the candidates stopped what they were doing. Most kids had already fulfilled the requirements, but there were still a few of them standing there with a discouraged look. Apparently, they didn't pass the exam.

The three magic teachers went forward to jot down the level of the candidates, so they could come up with the ranking conveniently. "We'll announce the results of all the candidates tomorrow. The exam has ended!"

The crowd of people who came to watch the exam applauded enthusiastically and then gradually left. Yun Sheng only felt like his forehead was covered with a layer of cold sweat. The Murong family rigged the exam this time. If it weren't for Yun Feng, he would probably have failed.

When Yun Sheng saw Yun Feng stand outside smiling sweetly at him, he also gave a beaming smile and immediately walked over there.

"Yun Sheng, wait!" A voice stopped Yun Sheng. Yun Sheng looked back and saw the man with grey hair, who rebuked Murong Ran just then, coming towards him.

Yun Sheng bowed very politely, "Sir."

The man nodded as he sized Yun Sheng up, looking very satisfied. This made Yun Sheng's heart pound. "You performed pretty well in the exam this time."

Yun Sheng smiled and didn't say anything. He slowly walked outside with this teacher. The man kept talking, while Yun Sheng also replied to him respectfully. Seeing the backs of these two people who left together, those three magic teachers found it a bit unbelievable.

"Did you see that? Our Discipline Head is palling up with a kid who still hasn't been admitted yet!"

"Oh God... When have we ever seen him smile like that..."

"We must have mistaken him. We must have mistaken him..."

The three teachers looked at one another, while Yun Sheng also had a lot of doubts in his mind. He could see that the strength of this man next to him was unpredictable. When he scolded Murong Ran, he was also surrounded by fierce momentum. How would such a teacher want to be so close to him? Why...

When Yun Sheng walked to Yun Feng, he immediately understood why this teacher was so friendly to him.

"Is this little girl your sister?" The man gazed at Yun Feng as the scorching fire in his eyes burnt again. While he was sizing Yun Feng up, the man slowly released his mental strength to detect Yun Feng's strength. The result made his heart shake once again. The feeling he had when they fought just then was indeed right. This little girl was indeed more powerful than he was!

Yun Feng also let him detect her strength generously. This man helped her brother just now. It was just that his unusually scorching gaze was a little unbearable, so Yun Feng moved behind Yun Sheng's body slightly.

"Haha, little girl, how old are you this year?" The man looked at Yun Feng with a smile, looking very kind. Yun Feng glanced at him indifferently and didn't say anything.

"Feng is nine this year. She doesn't like to talk to strangers. I hope you don't mind." Yun Sheng replied gently as he held Yun Feng's hand with his big hand. He thought her sister was a little uncomfortable.

Nine?! The man was shocked. The heat in his eyes increased by another level. She reached the final stage of level 6 at the age of 9 and was even a mage! Wonderful, wonderful!

The man rubbed his hands and bent his body slightly. He stared at Yun Feng firmly with a smile, like she was a piece of tender fresh meat. "Little girl, I'm the Discipline Head of Masang School of Magic. You can call me Ted."

After hearing that, Yun Sheng was a bit dumbfounded. The Discipline Head of Masang School of Magic? The Discipline Head let his sister call his name directly? However, thinking of Yun Feng's strength, Yun Sheng also understood why.

"Mr. Ted." Yun Feng said. She couldn't act too arrogantly. After all, her brother was going to study in that school. If he had the protection of the Discipline Head, Murong Ran wouldn't be able to make any trouble.

Hearing Yun Feng call him Mr. Ted, he became more delighted. It was truly the right decision to come to Park City this time. He really found an earth-shattering genius. Even the principal's aptitude couldn't compare to that of this girl... Tut-tut, she was a treasure, truly a treasure!

"Alright, kid, since you've called me Mr. Ted, you'll have to sign up for the admission exam of Masang School of Magic." Ted said with a smile. Yun Feng and Yun Sheng were both a bit speechless. She had to study at your school just because she called him Mr. Ted? Wasn't he too savage? Luckily, Yun Feng was going anyway, so it didn't matter.

Chapter 86: The Discipline Head of Masang (2)

Yun Feng nodded. After seeing this, Ted was even more thrilled. He must make sure that he got this treasure. If possible, he wanted to admit Yun Feng to the school right away, but Yun Feng was too young. Even though Ted could make an exception, he still wanted to see how powerful Yun Feng would get after three years. He would look forward to it even more.

"Kid, I certainly know that your brother was being set up during the exam this time. Whoever dares to rig the admission exam of Masang School of Magic must realize that they will be discovered."

Yun Feng smiled. She wanted to teach the Murong family a lesson sooner or later anyway. If Mr. Ted could do it for her, why not?

"Mr. Ted, you saw it too. Murong Ran from the Murong family really dislikes my brother. Even though I don't know why she suddenly slandered him for no reason, I can see what she's thinking. She will pick on my brother after school starts."

Ted chuckled. "Don't worry, kid. With me here, it's impossible for the girl from the Murong family to bully your brother."

Yun Feng smiled gently and was very satisfied with this answer. She didn't ask anything else about the incident anymore. She believed that the Masang School of Magic would react as it should. With the protection of the Discipline Head during the coming three years which she couldn't be with her brother, Murong Ran wouldn't be able to do anything completely. So, Yun Feng could truly begin her new training journey at ease.

"Thank you for your help, Mr. Ted." Yun Feng's polite reply made Ted delighted. If he could make a genius like Yun Feng a student in his school, he thought that such a small matter was nothing at all.

"Kid, I'll wait for you in Park City after three years. Don't let me down." Ted looked at Yun Feng with a smile. Yun Feng knew what he meant. Ted then turned around and left delightfully. What he found on this trip was enough to make him happy for several years.

"Feng, has Mr. Ted discovered your strength?" Yun Sheng whispered as he looked at Ted's back when he left. Yun Feng nodded. The mid-stage of level 6, there was a very low chance that her level wouldn't be discovered, but she hid her identity as a summoner very well. Perhaps her magic would be able to improve further at Masang School of Magic.

"Brother, it's alright. I don't think Mr. Ted would tell anyone. He seems to be an upright person."

Yun Sheng nodded. He nearly failed to pass the exam this time, but it turned out quite successful. And yet, the Murong family was pretty courageous to make such a vicious move. Someone would go to deal with the Murong family. The trip of the brother and sister ended perfectly. They stayed in Park City for another day and wandered around in a great mood.

However, on Murong Ran's side, a series of unfortunate events happened. Even though she won the first place, she didn't get the privileges that belonged to the top candidate. After knowing about this, she immediately went to see her grandpa, Murong Shuli, and complained to him as she cried, but she was harshly scolded instead.

Murong Shuli truly felt frustrated that his granddaughter couldn't fulfil his expectations and he was even more angry with himself for indulging his granddaughter, which made him interfere with the admission exam of Masang School of Magic for her willful request. Not only were they busted, but it was also through Murong Ran's mouth! This made Murong Shuli even more enraged. Even though people at Masang didn't publicly state that the Murong family rigged the exam, they gave the family a warning secretly. If there was a second time, the Murong family wouldn't be able to bear the anger of Masang School of Magic.

Although the Murong family had control of Park City, they were nothing in the Karan Empire, while the status of Masang School of Magic was so high that even the royal family of the Karan Empire had to respect them. The Murong family dared to rig the admission exam of Masang School of Magic. The royal family had shown the Murong family some respect by not eliminating them.

Murong Ran originally thought that her grandpa would take revenge for her after she complained to him. She had never thought she would be scolded right in her face instead and she was even not allowed to go out without permission before school started.

Murong Ran was confused why her grandpa rebuked her. She certainly had no idea that what she said almost caused great trouble for the Murong family. Even if the Murong family had Murong Yuntian, this slightly famous talent in the Karan Empire, it would be the same no matter how many Murong Yuntian they had when Masang School of Magic was truly punishing them.

Since Murong Ran was grounded, she couldn't vent her anger. She even put the blame on Yun Sheng and Yun Feng. In these few days of being grounded, she had been racking her brains to think of ways to deal with Yun Sheng, so she was quite busy.

The next day, the results were announced. Murong Ran got the first place without any surprises. Yun Sheng also got pretty good results. He was one of the top ten candidates. The siblings were both delighted and they threw those annoying people, Murong Ran and the Murong family, behind them, playing for a whole day happily. Yun Sheng also swept away his gloominess and became more cheerful, looking forward to the coming study life at Masang School of Magic.

The news about Yun Sheng passing the exam certainly spread to his poker-faced father, Yun Jing, with the fastest speed. Yun Jing also returned a message joyfully, asking Yun Sheng and Yun Feng to stay in Park City for a few more days and telling them that everything at home was fine.

The night fell quietly. Yun Feng said good night to her brother and returned to her room on the second floor. She had had a lot of fun the last few days. It seemed that she had never felt so relaxed before. And

yet, it was time for her to start her new training. People couldn't be at ease for too long. They would lose the motivation to move forward after a long time. The happiness Yun Feng felt these few days was already a kind of compensation. After all, she would be living and growing through brutal training in the coming three years!

Meatball had been thrown into the bracelet by Yun Feng for many days already. In a city that was neither large nor small like Park City, it was very conspicuous to have a Magic Beast on her shoulder and it would cause many unnecessary problems. In order to be able to enjoy these few days with her brother, Yun Feng was determined to throw Meatball inside and only let it out for a while every night. Once Meatball came out of the bracelet, it showed Yun Feng its strong dissatisfaction. Its little claws stretched out from its chubby body and swung wildly in the air, but with that cute, rounded body and those grape-like black eyes, it couldn't show any momentum at all.

Yun Feng flicked Meatball's forehead and told it that its protest was invalid. "Na, Nana, Nana!" Meatball yelled, but Yun Feng ignored it. "I'll consider your discontent when you can say anything other than 'na.'"

In fact, Meatball was quite lucky. After all, it still had a few chances to come out for exercises and fresh air. On the contrary, Little Fire was the most pitiful. It was hidden by Yun Feng again after just a few days the last time it was finally able to come out.

Chapter 87: The Discipline Head of Masang (3)

Yun Feng looked at Meatball, who was still discontented and couldn't help but smile. She picked its chubby body up and put it on her shoulder. Meatball pointed its little butt at Yun Feng's cheek, looking very angry.

"We'll be leaving here tomorrow. I promise I won't throw you inside in the next three years." What Yun Feng said made Meatball turn its body around slowly. After seeing Yun Feng's gaze, Meatball made a few sounds of satisfaction. It rubbed its fluffy body against Yun Feng's cheek, showing that it accepted this.

Yun Feng had already found the most suitable training venue for herself for the coming three years. Little Fire and Meatball would certainly stay with her. She gave a thought in her mind and the level-5 Magic Beast Crystal that had been stored in the bracelet for a long time appeared in Yun Feng's hands. There was a green colour spinning constantly inside the Magic Beast Crystal.

Yun Feng took out Yun Sheng's single-hole wand. She would be on her way tomorrow. It was time to insert the crystal onto the wand for her brother now.

"Kid, tame the elemental force inside the Magic Beast Crystal first." The ancestor's voice sounded in Yun Feng's mind. Yun Feng nodded. As her mental strength surged out, Meatball, who was standing on Yun Feng's shoulder, jumped onto her arm and gently fiddled with the Magic Beast Crystal with its little claws. The wind element spinning in the Magic Beast Crystal immediately calmed down and there were some faint glitters on the surface of the crystal.

"Nana, na, nana!" Meatball looked at Yun Feng as it tilted its head and blinked its big eyes. Yun Feng was stunned. She immediately enveloped that crystal with her mental strength and surprisingly discovered that the wind element spinning inside the crystal had been tamed!

Yun Feng picked up Meatball's body. She couldn't help but think that there might be something hiding under the fluffy fur. Her fingers groped Meatball's round body unceremoniously. Meatball kept twisting its body, but it still couldn't escape from Yun Feng's hands.

After a while, she still didn't see anything under the long fur, except for its chubby, round body. Yun Feng looked at Meatball carefully, while Meatball was enraged. It twisted its body and pointed its butt at Yun Feng, refusing to turn around.

It fiddled with the crystal gently and could already tame the elemental force inside this level-5 Magic Beast Crystal? What kind of power was that?

"Kid, this little thing is something..." Yun Feng very much agreed with the ancestor. Even though it was unlikely to be the legendary Fantastical Beast, it should also be a rare species.

Yun Feng poked Meatball's body with her finger, but Meatball wiggled its butt furiously and refused to turn around. Yun Feng found it funny when she saw Meatball's uncomfortable look. It seemed that she had truly gotten a treasure. She wondered if Meatball would be able to deal with a Magic Beast Crystal of a higher level so easily.

Meatball's help saved Yun Feng some energy. The procedure was extremely easy after the elemental force was tamed. She put the Magic Beast Crystal into the hole and covered the crystal with a thin layer of her mental strength, inserting it firmly inside. A level-5 Magic Beast Crystal could only be taken out of the hole by someone above level 5. Those below level 5 couldn't even think about it.

After inserting the Magic Beast Crystal, Yun Feng infused her own mental strength into the wand. The inserted Magic Beast Crystal immediately exuded dazzling green light, looking very bright. Yun Feng knew clearly that the power of this wand was greatly increased because of this inserted Magic Beast Crystal.

"Brother has some protection now." Yun Feng smiled gently as she put down the wand in her hands. Thinking that she would be going on a long trip and would be away from her family for three years, she couldn't help but feel a little sad.

Morning came again. While many people in Park City were still sleeping, Yun Feng had already woken up quietly and walked to her brother's room. As she knocked on the door, Yun Sheng immediately opened it. Yun Feng looked at her brother with slightly red eyes and realized that her brother also knew her decision.

"Feng, are you leaving today?" Yun Sheng pulled Yun Feng into the room and asked a bit anxiously. Even though he wasn't willing to let his precious sister go on an adventure alone, how would Yun Feng want to stay in Chunfeng Town with her strength?

"Hm, this is for you, brother." Yun Feng nodded and took out the wand. When Yun Sheng saw the crystal on the wand, he couldn't help but widen his eyes slightly.

"You don't have to worry about me, brother. I'll come find you in three years." Yun Feng showed a mature smile on her slightly young and delicate face. Yun Sheng was a little uncomfortable when he saw that. He used to be the one who comforted his sister in the past, and now, it was the opposite.

“Alright! Then, you have to promise me you’ll be careful. Your safety is the most important! I want you to come back safe and sound, okay?”

Yun Feng smiled as she grabbed Yun Sheng’s big hands with her small hands and shook them. “Don’t worry, brother. I’ll be careful. I’ll not say goodbye to father this time. I’m going directly from Park City.”

Yun Sheng also nodded after hearing that. Their poker-faced father should have known this as well. No matter what decision Yun Feng made, they would support her without hesitation!

There were things she had to prepare for three years of training, including medicines, food and clothes. Yun Feng didn’t tell her brother where she was going and Yun Sheng didn’t ask either. When she was almost ready, she looked at the sky. “Brother, you should go back first.”

Yun Sheng’s lips shook as he said, “Feng, please be careful.”

Yun Feng nodded and watched as her brother got on the carriage. She only looked away slowly after seeing the carriage leaving gradually. The two of them came to Park City together, and now, her brother had to go home alone, while she would be going on a new journey.

Everything must be prepared well before going out for training. She must think of everything thoroughly especially when she was going to train hard by herself. Yun Feng checked some essential items in the dimension of the bracelet again. Three years, she was about to spend such a long time alone. She didn’t know how much she would improve in these three years.

People had to keep moving forward. Even if there were thorns and obstacles ahead of them, they never stopped. This was a latent instinct that the members of the Yun family had. They feared nothing and never gave up!

After making sure everything was prepared, Yun Feng took a deep breath silently and then straightened her back. Her slim body might not look wide enough and there was still innocence on her little face right now, but Yun Feng had a strong self, a strong mind.

This self made her omnipotent and invincible!

Chapter 88: Let’s Go, Shiny Plains (1)

Countless people went in and out of Park City. Among the people who kept coming and going at the west gate, a little girl slowly stepped out of Park City. Sunlight shone over her body, creating a thin, long but strong shadow behind her.

After walking out of Park City, Yun Feng looked at the map in her hands. This was a simple topographic map of the Karan Empire. Looking at that larger city in an area to the west of Park City, the corners of Yun Feng’s mouth slightly curled up. Ge Yuan, one of the three first-class cities in the Karan Empire. That was her next destination.

Meatball came out of the bracelet and stood on Yun Feng’s shoulder. Its round body stood straight, as if it was really looking forward to seeing what was ahead. “Nana!” Meatball made a joyful sound.

Yun Feng turned her face to the side slightly as Meatball’s fluffy fur touched her cheek. She poked Meatball’s little head gently with her finger. “Why? Are you excited as well?”

Meatball made another sound. Yun Feng looked at the land in front of her where she couldn't see the end. "Then, let's go."

Ge Yuan was one of the three first-class cities in the Karan Empire. The three first-class cities in the Karan Empire weren't just the three largest and most flourishing places, but were the political, economical and military centers of the Karan Empire at the same time. The three places might have a slightly different focus. For Ge Yuan, the most famous thing of this first-class city around the Karan Empire was definitely the Mercenary Union stationed there.

Apart from the royal families, the four empires on the East Continent also had some forces. They weren't under any government organizations and had their unique way of management and operation standards. Mercenary groups were the larger forces among them and the Mercenary Union was the one that united these forces, the huge organization that managed all the mercenary groups on the East Continent.

The Mercenary Union had four branches in the four empires on the East Continent and these four branches had become the Mercenary Unions of all countries in the four empires. Each mercenary group had to complete a detailed registration at the Mercenary Union. Any mercenary group formed without registration would be repelled and cracked down severely. This was a powerful means of the Mercenary Union, which made it become a latent factor that kept the four empires in balance. After all, the mercenaries in all the countries, other than their army, all had detailed registrations. Nobody could hide anything. The mercenaries in the four empires were completely exposed on this point.

After all, only a minority of people could climb up to a high position on the East Continent. Even for people from the School of the God of War, there was only a limited number who could get to the high positions. Only a small part of the large population on the East Continent could go on a glorious road, while most of the others might spend their entire life being ordinary or choose to go on the road that most capable people would take, becoming a member of a mercenary group.

Even though mercenary groups lived on the blade and they might even die during a mission, the reward of taking such a high risk was a huge amount of bounty. Some people wouldn't have to worry about their lives further after completing just one mercenary mission.

It could be said that 70% of the warriors in the Karan Empire had joined the mercenary groups, while only 30% worked for the royal family. So, there were certainly some powerful warriors in the mercenary groups. In the territory of the Karan Empire, there were countless mercenary groups, large and small, strong and weak. This was a kind of force which was a threat. However, even if the royal family was worried about it, they couldn't do anything. The royal family of the Karan Empire still couldn't lay a hand on the Mercenary Union. After all, the Mercenary Union in the Karan Empire was just a branch.

So, mercenary groups, these potentially threatening armed forces, started booming and gradually became an essential factor in people's lives. Once they encountered some difficulties or needed something that required taking risks, they could give the mercenaries a mission. As long as you offered a suitable price, someone would do it for you.

The most unique characteristic of Ge Yuan was that it was a real paradise and a real home for mercenaries. The Mercenary Union of the Karan Empire was located here, which made Ge Yuan the city

with the most developed armed forces. The source of these armed forces all came from the past mercenaries.

Yun Feng walked as she looked at the markings on the map. From her location, she would have to cross the Shiny Plains in order to reach Ge Yuan. In fact, Yun Feng had a thought of joining a mercenary group. In the coming three years, she didn't only have to improve her strength, but also enhance her life experience. When a person had rich life experience, things that the person knew and understood would increase as well. It was useful and harmless for her to experience all kinds of life.

Besides, mercenaries weren't displays that were just put there. They had a lot of missions and were very busy. For the mercenaries, killing and adventures were their entire life.

Stepping on the thin, fine sand underneath her feet, Yun Feng narrowed her eyes and glanced around this extremely wide white plain in front of her. When the wind blew, a thin layer of sand was stirred up and the dazzling white ground glittered under the sunlight.

"This is the Shiny Plains..." Yun Feng stepped into the plain as a warm wind came. Yun Feng slowly spread her sensing power and found that her power could only cover a part of the plain, which showed how large it was.

"Kid, the Shiny Plains is a treasured place that produces ores. At the same time, there are also a lot of Magic Beasts around. Of course, it's also the place where mercenaries appear most frequently."

Yun Feng listened to what the ancestor said as her eyes gazed to the side slightly. A black shadow flashed past her swiftly, making some rustling sounds from the sand on the ground. That was a precipice lizard. Its mud yellow body quickly crawled to a place far away from Yun Feng, as if it was constantly on guard.

Yun Feng smiled. Magic Beasts were indeed very cautious. Even though she didn't show any hostility, it still hid from her. Yun Feng walked forward and found that all the Magic Beasts below her level all avoided her and made a big road for her.

"Ores..." Yun Feng mumbled. No matter which world she was in, ores were also precious. The same applied to this world as well.

"Kid, ores aren't as simple as you think. There's a small amount of energy in these ores and the energy is something that all warriors and mages dream of!"

Chapter 89: Let's Go, Shiny Plains (2)

Yun Feng nodded. "Ancestor, you mean the energy inside the ores can help humans reach higher levels?"

The ancestor smiled with satisfaction. "That's right. Ores are divided into different levels as well. Low-level ores have the least and the most impure energy, which is difficult to absorb. Mid-level ores are a little better, while the high-level ones are a level higher than the mid-level ones. The ultimate-level ores are the most perfect ones. They have the most and the purest energy that is rare in the world. If you can get an ultimate ore and absorb the energy inside, your strength will be increased by more than one level. If you sell it, you'll get so much money that you won't be able to finish it even after a few lifetimes!"

After hearing this, Yun Feng also understood the importance of ores and the Shiny Plains should be the place where the most amount of ores were produced. There were always mercenaries around here. If they could take control of a place that had countless ores, endless money would undoubtedly be brought to them, even if those were only ores with the lowest level.

However, Yun Feng wasn't really interested in these ores. In her opinion, improving her strength wasn't a long-term strategy after all. The main point was that she still had to rely on her own efforts. If she reached a certain level by absorbing the energy in the ores, her foundation wouldn't be stable, which would be harmful to her and would affect her future development. So, it was better for her to use these external means less, even better if she didn't use them at all.

"Kid, you're right. External power can indeed enhance your strength, but it's not a long-term strategy after all," the ancestor said with sincere words. Yun Feng also agreed and nodded. She relied on herself!

Meatball seemed to be very interested in the Shiny Plains. Ever since Yun Feng got there, Meatball had been acting extremely thrilled. It looked around on Yun Feng's shoulder, as if it was looking for something it liked.

After walking a distance, Yun Feng gradually saw the situation ahead of her nearby as the mist of sand lifted. There were many tents that formed a large area. Each tent had a different logo on it and people kept going in and out of the tent. Yun Feng realized she had come to the camp where the mercenaries were.

"Who are you?" A guy with muscles all over his body came up and gazed at Yun Feng skeptically. It was indeed strange for a kid of Yun Feng's age to show up there. However, the muscular guy didn't ask her to go away directly. After all, these mercenaries were people who had roamed all over the empire. They had seen quite a lot of weird people, which included some masters. Besides, Meatball was standing on Yun Feng's shoulder. When the muscular guy saw Meatball, he looked a little strange and his eyes immediately gazed at Yun Feng's hands. He only restored his normal expression slowly after making sure that he didn't see certain things.

Yun Feng smiled gently. "Can't people go this way?"

The muscular guy frowned and looked at Yun Feng, who only reached his chest, and Meatball on her shoulder as his eyes glittered. "That's the rule! Those who aren't from the Mercenary Union are not allowed to go further!"

Yun Feng also understood in her mind after hearing that. The Mercenary Union wasn't easy to deal with. The entire vast Shiny Plains was within their sphere of influence, so people other than the Mercenary Union weren't allowed to pass through. They even built a special road for those who wanted to go to Ge Yuan. What a domineering policy! The royal family of the Karan Empire couldn't do anything about this either. If not, how would they let the Mercenary Union take the Shiny Plains, this fat meat?

The royal family of the Karan Empire was powerless regarding this. They couldn't fight back when the fattest piece of meat of their territory was taken, not even a symbolic protest, which showed how powerful the Mercenary Union was.

Yun Feng looked up and glanced at the tents inside. There were a lot of them. Looking around, there should be more than a hundred of them. Besides, the levels of the mercenaries wandering around

weren't low. Many of them had level 5 and quite a lot had level 6. She wasn't sure if there were more powerful ones. So, it didn't seem possible for her to force her way in.

Yun Feng nodded to show that she understood. She turned her body around and was about to leave. Right at this moment, a few people walked towards her. The tough man in the front was apparently a little shocked when he saw Yun Feng, so were the few young people behind him. The teenage girl couldn't help but exclaim, "There's a kid here!"

Yun Feng glanced at them. When she walked past them, Meatball on her shoulder made the eyes of these people pop out. The creature on this kid's shoulder... was a Magic Beast!

The teenage girl gave the tough man a signal with her eyes. The man then stode in front of Yun Feng and knelt to look at Yun Feng horizontally. He seemed to be trying to show a harmless, friendly smile, but it didn't work.

"Kid, are you alone?"

Yun Feng nodded. The man chuckled and felt that the kid before his eyes was a bit strange. She had such an innocent face, but her eyes were exuding the matureness and calmness that only adults had.

"Um... Well... It's very dangerous for you to walk here alone. There are a lot of Magic Beasts in this place!"

After hearing that, Yun Feng moved her eyebrows slightly and gave the man a gaze. So?

The man completely froze and his rough face blushed slightly. He scratched his head with his big hand. "It's safer if you follow me. Are you going to Ge Yuan?"

Yun Feng nodded again. The man's eyes brightened as he laughed. "That's great. Let me take you to Ge Yuan. What do you think?"

Yun Feng looked at the man with a deep gaze, while the man chuckled with a little guilty conscience. Clearly, he was planning something. The corners of Yun Feng's mouth curled up. "Sure, thank you very much."

The man was startled, and then laughed loudly. "Great, great!" He gave the few young people behind him a gaze and they all seemed to be very happy. Yun Feng saw everything, but she remained quiet.

"Brother, this is a newcomer who's just joined our Red Maple Mercenary Team. Please allow her through," The tough man whispered to the guard and seemed to have given him something. The guard glanced at Yun Feng a few times, then let her enter unwillingly.

The tough man entered with a smile on his face as Yun Feng followed behind him slowly. The few young people that came with him sized Yun Feng up as they pondered in their minds. Their gaze even became scorching hot, especially when they saw Meatball on her shoulder.

Chapter 90: Let's Go, Shiny Plains (3)

More than a hundred tents were set up here, extending one after another. Yun Feng followed the man and walked for a long time. She received some curious and inquisitive gazes, mixed with surprises and doubts, along the way. A girl showed up here with a Magic Beast, which made people think of that

mysterious and powerful profession. However, they demolished their thoughts and felt like they were a bit crazy to have such an idea.

“We’re here. Go inside, little girl.” The man walked to a tent, lifted up the curtain and smiled at Yun Feng. Yun Feng didn’t say anything. She immediately entered the tent. The man and the young people behind were slightly shocked. They were shocked by how trusting Yun Feng was.

The few of them restrained their emotions and walked in. Yun Feng picked a seat, then sat down. Watching those people sit down one by one, Yun Feng said softly, “Guys, what do you want from me?”

The few of them were stunned again and were slightly embarrassed afterwards. After all, they indeed had certain plans for this little girl. They just hadn’t thought that this kid would see through their minds and even ask ahead of them.

“Haha, you’re quite sensitive, little girl. You’ve noticed that...” The tough man chuckled as he scratched the top of his head with his large hand. After that, he went silent and just sat there with a glint in his eyes.

A woman among the young people was a little anxious. Seeing that the man wasn’t talking, the woman smiled at Yun Feng and instantly said, “You’re right, little girl. We need your help.”

Yun Feng nodded. When the woman saw that Yun Feng wasn’t averse to it, she couldn’t help but feel happy. She immediately pointed gently at Meatball on Yun Feng’s shoulder. “Little girl, can you sell this Magic Beast to us? We don’t care how much it costs. We don’t mind even if you want us to do something for you. Anything!”

Once the woman said so, Yun Feng’s face became completely cold. Meatball on her shoulder also understood. It abruptly snarled with its originally cute face and showed its sharp teeth, looking a little ferocious. The woman who spoke was also frightened by Meatball’s look.

Yun Feng gently caressed Meatball’s body, on which its hair had already stood on end, with her finger to take the edge off Meatball’s anger as she looked at the speaking woman. “What you’re asking for isn’t a small thing. You want me to sell it to you? Can you afford it?”

The woman immediately smiled wryly, while the tough man shook his head in frustration. He said to the woman, “Xiao Ying, just forget about it. If this little girl doesn’t want to sell it to us, we shouldn’t force her.”

The woman called Xiao Ying pursed her lips with struggles in her eyes. She certainly could see that the little girl was very clever. This girl even knew clearly whether they could afford it or not...

“Little girl, please sell this Magic Beast to us no matter what. Although we can’t afford it right now, we’ll pay you immediately when we have money. Promise!”

Yun Feng looked at the desperate woman. There was also a trace of anxiousness in the eyes of the few young people sitting next to her, while the tough man smiled with frustration and embarrassment. Yun Feng realized in her heart that these people didn’t seem to be cruel and they didn’t have any evil intentions. If they were truly bad people, they would have probably made a move to steal Meatball directly.

“What do you need it for?” Yun Feng picked Meatball up from her shoulder and put it on her legs. Meatball gnashed its teeth at these few people who were preying on it, then turned its body around and pointed its butt straight at them. It stared at Yun Feng with its grape-like eyes with deep complaints.

Yun Feng found it funny and she poked Meatball’s head with her finger. Would this little thing truly think that she would sell it to someone else?

The woman thought Yun Feng agreed after hearing what she said. “Do you mean you’re willing to sell it to us?”

Yun Feng looked up and sneered, “Sell it? When did I say that?”

“That’s enough, Xiao Ying! Stop talking!” The tough man suddenly shouted. Xiao Ying looked at him with reluctance in her eyes, but she also bit her lips and didn’t say a word anymore.

“I’m so sorry, little girl. If you’re not selling it, we won’t take it from you forcibly.” The tough man said to Yun Feng with a righteous look and with honesty in his eyes. Yun Feng immediately felt much better about this tough guy.

“Are you in some kind of trouble?”

Once the tough man heard Yun Feng’s question, he couldn’t help but give a wry smile. He shook his head as his body leaned on the chair dispiritedly. When Xiao Ying heard what Yun Feng asked, she immediately mumbled, “Even if we are, how can a kid like you help us?”

The corners of Yun Feng’s mouth raised gently. She wasn’t upset at all because of what Xiao Ying said. These weren’t bad people. They might truly have their reason. However, Yun Feng was displeased that they asked for Meatball right away. Regardless of that, they were already like clear water among the mercenaries.

“You dealt with the guard for me today, so you helped me. Now that you have a problem, you can also tell me about it. After all, many hands make light work.”

The tough man couldn’t help but develop a good impression on Yun Feng after hearing what she said, but he didn’t have much hope in his mind. After all, Yun Feng was just a kid. How helpful could she be?

“Little girl, I’m not trying to insult you. We appreciate your kindness, but there’s nothing you can do to help, other than selling this Magic Beast to us.” Xiao Ying looked at Yun Feng with unwillingness to give up on Meatball in her eyes.

Yun Feng frowned. “I’m not selling it. Stop thinking about that.”

Xiao Ying immediately heaved a deep sigh after seeing that. “Fine, fine... Just forget about it... This will be the end of the Red Maple Mercenary Team...”

The faces of the other few people instantly darkened. Yun Feng couldn’t help but chuckle softly when she saw this. “The end? Even though I’m not sure what problem you’re having, I know one thing. No matter how big the problem is, there’s always a solution for it.”

“A solution? You’re saying it like it’s easy, kid. A solution... We need a supreme powerhouse or a living Magic Beast. Little girl, tell me how we can solve this problem?”

When Yun Feng heard that, the smile at the corners of her mouth was extremely peaceful and didn't carry any waves of emotions at all. She poked Meatball's head with her finger. It was still not in a good mood.
