

## Summoner 841

### Chapter 841: Anytime (3)

In the past three years, the director had never personally taught Lan Ling once. This was something Lan Ling couldn't accept. As the director's personal disciple, the director would take the time to teach Lan Ling no matter how busy he was and he was also very attentive to Lan Ling. However, the director had never taken the initiative to ask Lan Ling in the past three years. Even if Lan Ling went to ask for guidance, the director didn't seem to care.

Lan Ling accidentally knew the reason for all this. It turned out that the director was making an extremely difficult potion, and this potion was made for Yun Feng! Lan Ling was immediately enraged in her mind! Why should she, Yun Feng, do this? She had been the director's personal disciple for a longer time, but her teacher treated Yun Feng better than he treated her!

In fact, the director had put in a lot of effort on Lan Ling. However, Lan Ling liked to compete with Yun Feng, so she certainly felt that the director didn't treat her well enough. Lan Ling was upset in her mind, so she came to the director for no reason. She wanted to steal more attention, but the director already couldn't do anything besides creating the Fusion Fluid. He had an agreement with Yun Feng. Lan Ling's guidance every time became a kind of disturbance. In the end, the director was also frustrated, and Lan Ling was even more frustrated.

Three years passed just like that. The resentment in Lan Ling's heart increased more and more, but Yun Feng was free and unfettered outside. However, everything she suffered was caused by her! Lan Ling had never thought she would meet her today, three years later, in this Pharmaceutical Institute! She immediately found an outlet to vent the anger in her heart. Lan Ling really gritted her teeth in hatred. It was all her fault. If it weren't for her, she would be the one who attracted attention!

Yun Feng saw the resentment and anger in Lan Ling's eyes. She didn't understand where the emotions in this woman's eyes came from after three years. Yun Feng didn't want to say anything else to her. She turned around and was about to go downstairs, but Lan Ling stood in front of Yun Feng, which made Yun Feng raise her brows unhappily.

"You're back just in time." Lan Ling stared at Yun Feng with a cold smile. "I've been waiting for you."

"Waiting for me? What's the matter?" Yun Feng stepped back and kept a distance from Lan Ling. She only felt that the woman in front of her seemed to have changed in three years. This change wasn't good.

The anger in Lan Ling's heart was filled up again. How could she say such a thing so indifferently? Didn't she know what kind of situation she was in after she left? How could she act like nothing happened? "Yun Feng, do you think you're very strong? Do you think everyone else is inferior to you?"

Yun Feng lowered her brows and smiled. "I've never thought so. I've never thought I'm strong."

"Hypocrite! What you said and what you did are completely different! If you didn't come here, if you didn't..."

Yun Feng looked at Lan Ling's gritted teeth and her black eyes couldn't help turning cold. "I don't have to be responsible for other people's things. If you think I'm hindering you, you can only say that you're not as good as me. What does it have to do with me?"

Lan Ling was stunned. She couldn't say anything. "If you hadn't been so high-profile, if you hadn't been so arrogant, if you hadn't made me apologize like that, I would have been the top student of the pharmaceutical school!" She shouted out all the unwillingness in her mind. Yun Feng listened expressionlessly. She thought it was something. It turned out that her self-esteem had been hit and she still hadn't recovered.

"You were the one who suggested the competition between us back then and you were also the one who made the conditions. What does the current situation have to do with me?" Yun Feng smiled coldly. "I've seen too many people like you who blame others for hurting their dignity."

.....

Lan Ling's face suddenly flushed. She wanted to refute, but she couldn't say anything. That was indeed what she was thinking right now. Even though she started all of this at the beginning, she pushed all the blame to Yun Feng! No matter what, she made her lose face!

Lan Ling grunted and was about to go upstairs. Yun Feng's black eyes glittered. This time, she stood in front of Lan Ling. Seeing that, Lan Ling subconsciously took a few steps back and almost fell. "What are you doing?" Lan Ling knew that Yun Feng was different from ordinary pharmacists. Apart from her identity as a pharmacist, she was also a summoner! Her strength was also quite astonishing!

Yun Feng narrowed her black eyes. "Are you going to find the director?"

Lan Ling sneered. "I'm going to find the teacher. Do I need your permission? Who do you think you are?"

Yun Feng's face darkened. She had only stayed with the director for a while just then and she could see that he was deeply exhausted. Even Yun Feng, who came back three years later, noticed it, but she, Lan Ling, didn't? Why did she disturb him at this moment? What was she thinking?

"Can't you see that the director is exhausted?"

Lan Ling smiled when she heard this. There was deep mockery in her words. "Who do you think he's so tired for? It's all because he wanted to make some stupid medicine for you! He's been busy with your potion these three years and didn't care about me at all! Why? You're back. I can't even ask him for guidance? Yun Feng, don't go too far!"

Yun Feng suddenly felt uncomfortable in her mind after hearing that. She didn't know that the director was doing his best for her. She finally understood why Lan Ling was so hostile to her. The director must have a lot of reasons. Yun Feng couldn't help but soften her tone. "It doesn't matter if you ask for guidance for one night. It's the same if you come during the day."

"During the day?! I've barely seen my teacher's face for the past three years! Get out of my way!" The more Lan Ling spoke, the angrier she became. Yun Feng frowned tightly and grabbed Lan Ling's arm with such strength that Lan Ling immediately turned pale. Yun Feng immediately let go. "As the director's personal disciple, you should understand the director no matter what. The director has always been good to you."

Lan Ling didn't listen at all. She had been hurt a lot in the past three years. How would she be able to resolve it with just a few words? She immediately rushed forward without caring about anything. Yun Feng couldn't help but feel angry when she saw Lan Ling causing trouble. The director had neglected Lan Ling because of her in the past three years. She was indeed a bit responsible, but Lan Ling didn't care about the director's health at all. It was already so late and she still disturbed him. Did she even care about the director?

"Get out of my way!" Lan Ling unleashed her fighting energy directly at Yun Feng. Yun Feng's expression didn't change. The fighting energy couldn't hurt her at all. Meatball gnashed its teeth in dissatisfaction. Lan Ling stepped forward and was about to rush over. She felt wronged in her mind. The next second, her entire body was restrained by a force. Lan Ling was immediately shocked!

#### **Chapter 842: Anytime (4)**

"Yun Feng! If you have the ability, don't use your strength to suppress others!" Lan Ling roared in fear. Seeing Yun Feng's gloomy expression at this moment, she started to feel scared in her mind.

Yun Feng smiled in disdain. "As I said, you're not allowed to disturb the director tonight."

Lan Ling gritted her teeth hard and the hatred in her eyes burnt fiercely. Her body was fixed there and she had no power to resist at all. She immediately felt humiliated in her mind.

Yun Feng's heart moved slightly when she saw Lan Ling like this. The gloomy look on her face eased.

"You can see how tired the director is. He indeed needs a good rest. As his personal disciple, don't you care for him?"

Lan Ling's black eyes glittered. She bit her lips and didn't say anything. Thinking of her teacher's personal guidance in the past, she felt a bit ashamed in her mind. Yun Feng raised her arm and walked out of the building with Lan Ling. The two of them stood in the empty space in the middle of the night. Yun Feng removed the restraint on Lan Ling and Lan Ling immediately stepped back for a long distance, as if she was afraid that Yun Feng would attack again.

Yun Feng chuckled in disdain and turned around to leave. Lan Ling suddenly shouted, "Yun Feng! Let's compete again if you dare!"

Yun Feng didn't even look back. She only said to Lan Ling, "Sure. When I'm done, I'll be here for you anytime."

The next day, the Pharmaceutical Institute was spreading shocking news like crazy. Yun Feng, who had been away for three years, came back last night!

This news shocked all the students of the pharmaceutical school. Was it true? Yun Feng, who had been gone for three years, came back quietly at night. Was this news credible? Whether it was or not, and no matter who spread the news, the students of the pharmaceutical school were all stirred, especially the pharmacists of the Fengyun Empire. Their blood immediately boiled when they heard the news!

"Jingyi! Did you hear the news?" Yan Xiaoshi ran into the advanced two-star classroom and immediately shouted. The pharmacists of the other three empires certainly knew the news he was talking about and they couldn't help but look different. Yan Xiaoshi rushed to Xia Jingyi's side with big steps, his black eyes full of excitement and ecstasy! "Is it true? She... Yun Feng is back?!"

Xia Jingyi looked at Yan Xiaoshi with a headache. He was also very excited when he got the news back then, but after thinking about it, he felt that it was a bit strange. If Yun Feng really came back, why didn't she show up? If it was yesterday, she should have shown up today, right? However, it was almost ten o'clock in the afternoon and Yun Feng was still nowhere to be seen. Many people were already wondering if it was a prank.

"Xiaoshi, calm down." Xia Jingyi glanced at the other students and pulled Yan Xiaoshi out of the classroom. Yan Xiaoshi was so excited that he almost jumped up and walked. "Calm down? How do you want me to calm down? I can't help but feel excited when I think of Yun Feng's return! I really want to see what kind of monster she'll become three years later!"

Xia Jingyi smiled helplessly. "Xiaoshi, if Yun Feng really came back, where do you think she should be right now?"

.....

"Of course! She'd be here... Wait!" Yan Xiaoshi finally realized something and his excitement just then completely subsided. "You're saying... Yun Feng didn't come back?"

Xia Jingyi shook his head. "I'm not sure if this news is true or not. I just hope that it's not a prank."

"Damn it! Who dares to make such a joke? I'll be the first to kill him!" Yan Xiaoshi said fiercely. At this moment, a figure ran out of the intermediate classroom on the left. It was Shang Rui, who was also excited. She saw Yan Xiaoshi and Xia Jingyi standing outside at a glance. The buzzing sound of discussion certainly was about the same person. Shang Rui quickly ran out and ran to the two of them, panting.

"Well, have you heard the news?" Shang Rui took a few deep breaths. Yan Xiaoshi couldn't help but pout when he saw how excited she was. He was quite disappointed. "I have, but I can't be sure if it's true."

"What?" Shang Rui was a bit surprised. What did he mean by that? Wasn't Yun Feng back? "Everyone in the intermediate level is talking about this right now. They all said... all said Yun Feng is back!"

Shang Rui said quickly, while Xia Jingyi smiled. Yan Xiaoshi patted Shang Rui's shoulder. "If she really comes back, the pharmacists of the Fengyun Empire should be the first to see her, shouldn't they?"

The excitement on Shang Rui's face froze. She thought for a moment and completely understood. An indescribable sense of disappointment surged in her heart. Xia Jingyi patted Shang Rui's head. "Maybe someone made a bad joke."

Shang Rui wanted to say something, but she didn't say anything. After the disappointment, Yan Xiaoshi was deeply enraged. "Damn it! Who spread the news so recklessly? Don't let me, Yan Xiaoshi, find the culprit!" This roar spread throughout the square of the pharmaceutical school, which showed how angry Yan Xiaoshi was.

"Why? What4 made you so angry?" A clear voice with a smile sounded. The three disappointed people in their minds all trembled. Shang Rui suddenly turned around. When she saw clearly who the person was, a beam of light shot out!

Yan Xiaoshi opened his mouth and pointed at the person who was walking towards them slowly with a slightly trembling hand. Seeing him like this, the smile on Yun Feng's face became deeper. When she was about to open her mouth, she heard Yan Xiaoshi shout astonishingly, "Yun Feng! Yun Feng!"

This deafening shout made Yun Feng quite shocked. Even Meatball on her shoulder was shocked. Xia Jingyi stared at the girl in front of him and sized her up carefully. There was also an indescribable excitement in his heart. She was back. She really appeared!

Yan Xiaoshi's shout alarmed everyone. The students on the left and right sides of the classroom all ran out. When they saw that it was really Yun Feng, everyone was extremely shocked. That news wasn't very believable to begin with, but now, Yun Feng had appeared in front of them. It was really her!

Yan Xiaoshi rushed forward and circled Yun Feng a few times. "That's right, that's right! It's Yun Feng. It's really Yun Feng! The meatball on her shoulder proves it!"

Yun Feng watched Yan Xiaoshi's movements speechlessly. She was a bit surprised that these students reacted so strongly. She had just come back. Even though she had already come back last night, she didn't go back to the lounge of the Fengyun Empire. Instead, she went to the area around the pharmaceutical school to get some herbs. When she came back this morning, she wanted to find these three people, but she didn't expect to see them in the square. Yun Feng showed up directly, but the effect she caused was a bit... big.

### **Chapter 843: The Magic Beast's Sensation (1)**

All the students surrounded Yun Feng and looked at her with glittering eyes, making her uncomfortable. Seeing Yun Feng's expression, Xia Jingyi asked, "Have you finished your business?"

Yan Xiaoshi came to a realization and looked at the students around unhappily. "Go, go, go! Yun Feng still has something to say to us. Get out of the way!" The pharmacists of the other empires all complained angrily, but the pharmacists of the Fengyun Empire smiled.

"Let's go back to the lounge!" Yan Lei chuckled. Shang Rui couldn't help but smile. "Are you skipping class?"

Yan Xiaoshi snorted. "If you go to class, nobody will stop you!"

Shang Rui grunted and smiled at Yun Feng. Yun Feng smiled back at her. Shang Rui was very happy. She certainly had to skip class! Yan Xiaoshi, Xia Jingyi and Shang Rui were the best of the Fengyun Empire right now. Naturally, other people couldn't skip class. In the end, only the three of them skipped class and accompanied Yun Feng back to the Fengyun Empire's lounge.

Yun Feng originally planned to go to find the director after catching up with them, but she didn't want to be dragged back to the lounge. She just thought in her mind that she would go to find the director after talking to them. After all, she would disappear again for a long time after this.

"Yun Feng! You don't know that you're the idol that many students admire right now!" Yan Xiaoshi couldn't hold back his words and said a lot of things. Yun Feng listened with a smile and finally knew what kind of commotion the competition three years ago caused.

“You don’t know this, but Elder Dan Qing came to find you several times. That Elder Dan Su also came for you! It’s just that you left a long time ago. They were very disappointed!” Yan Xiaoshi felt honored, so he was also very proud.

“Alright, Xiaoshi, you’re the one who’s talking. Why don’t you let Yun Feng say anything?” Xia Jingyi interrupted Yan Lei with a smile. Yan Lei finally became embarrassed. “Ah, you’re right. Ahem, Yun Feng, you can talk!”

Yun Feng chuckled. At this moment, Shang Rui asked, “Where’s Qu Lanyi? He’s not with you?”

“I came back this time for something. I have to leave in a while.”

“What? You’re still leaving?” Yan Xiaoshi said in disappointment. Xia Jingyi and Shang Rui both smiled.

“Do you think Yun Feng is like you? Do you think she has nothing else to do other than making medicine?” Shang Rui said. Yan Xiaoshi was about to argue with her, but he shut his mouth. “Hm, I won’t argue with you.”

“How long will you stay this time?” asked Xia Jingyi. Yun Feng replied, “Eight months to make medicine in seclusion.”

.....

Yan Xiaoshi was quite disappointed. If she went into seclusion to make potions, wouldn’t it mean that he still wouldn’t be able to see her? “After I left, how were the pharmacists of the Fengyun Empire? Did anyone cause trouble on purpose?” Yun Feng asked. Xia Jingyi shook his head with a smile. Yan Xiaoshi laughed and touched the bridge of his nose. “Looking for trouble? Everyone knows that you’re protecting Fengyun!”

Yun Feng nodded with a smile. Xia Jingyi’s black eyes glittered. “Don’t worry about us. How have you been these three years?”

Yun Feng only said “it was fine” and didn’t mention anything else. After all, she went straight to the Endless Sea after she left and even sneaked into the inner area of the Endless Sea. Such a thing was shocking enough. The few of them said a few more words. Xia Jingyi said, “Alright, Xiaoshi, Xiao Rui, we should go to class. Yun Feng has her own business.”

Yun Feng looked at Xia Jingyi gratefully. Yan Xiaoshi was very unwilling, but he also stood up. Shang Rui stood up and pushed Yan Xiaoshi forward. “You talk too much. Yun Feng is annoyed by you. Go, go!” Yan Xiaoshi was pushed away by Shang Rui in dissatisfaction. Yun Feng and Xia Jingyi walked out with a smile. It could be seen that Shang Rui and Yan Xiaoshi were quite close, and Shang Rui’s personality was much better than before.

Yan Xiaoshi returned to the classroom reluctantly. Xia Jingyi also went back quickly. According to him, he had to go back to watch Yan Xiaoshi to prevent him from sneaking out. Yun Feng smiled helplessly. Xia Jingyi and Yan Xiaoshi went back. Yun Feng looked at Shang Rui with a smile. Shang Rui was a bit embarrassed. After all, her relationship with Yun Feng was a bit awkward in the past.

“Well, I’m going back too.” Shang Rui blushed and said. Yun Feng nodded with a smile. After walking a few steps, Shang Rui suddenly turned around and looked at Yun Feng. “Yun Feng!” Yun Feng looked up at her. Shang Rui put on a sincere smile. “Welcome back!”

Yun Feng was stunned for a moment. Then, she smiled with warmth in her eyes. "Alright." It was just one word. There was nothing else, but it was enough to represent everything. Shang Rui turned around with a smile and walked much more briskly. Yun Feng looked at her back and turned around with a smile. She touched Meatball on her shoulder and whispered, "She's not bad either."

Meatball made a sound. Yun Feng chuckled and looked at the building in front of her with her black eyes. She had to finish her business next. She couldn't fail to make the Fusion Fluid in eight months!

When Yun Feng came to the director's office, he had already been waiting for her for a while. Seeing Yun Feng push the door open and come in, the director got up. "Kid, you're here."

Yun Feng looked at the director's expression carefully. Last night might be his most relaxed night. After all, the director had been thinking about the robbery of the Fusion Fluid and there was no news of the investigation at all. However, now that Yun Feng was back, the director could finally rest assured about the matter of the Fusion Fluid.

Yun Feng nodded. "Are you done resting, director?"

The director chuckled. "Kid, don't worry about me."

Yun Feng didn't say anything. The director opened a door of the office. "Let's go. We'll be spending the next eight months here. You must be mentally prepared."

Yun Feng nodded. She had already told her family about her decision through the Sound Transmission Jade, so she didn't have anything to worry about. However, she had never thought that a few figures would already appear here before she walked in. The director was shocked when he saw the few people who suddenly appeared. He sized them up back and forth with his eyes. It turned out he had seen all of them before.

"You won't see me for eight months after saying that?" Qu Lanyi looked at Yun Feng with a smile, but there was a hint of anger in his black eyes. Yun Feng raised the corners of her mouth. She had forgotten Qu Lanyi's personality of sticking to her. Little Fire and Lan Yi also didn't agree with her. "Master, we'll go with you!"

#### **Chapter 844: The Magic Beast's Sensation (2)**

The director moved the corners of his mouth in embarrassment. It was just making medicine. Wasn't it too much to mobilize so many people? However, the director didn't know how important Yun Feng was to Little Fire and Lan Yi. She was even more important to Qu Lanyi. He had to protect Yun Feng no matter what she did.

Yun Feng also felt rather embarrassed. At this moment, she seemed to feel that these few people were like her nannies. Her brother and father let go of her, but they... replaced her brother and father as nannies.

"It's just medicine. Don't be nervous." Yun Feng said in a low voice, seeing the director's awkward expression. The director coughed. "I'll go in first. You can come in when you're ready. In fact, it doesn't matter if there are a few more people." The director then pushed the door open and entered. Yun Feng couldn't help but look at Little Fire and Lan Yi with a headache.

“Didn’t I tell you to stay in the Yun family? Why did you come here? I’m just making medicine. I’m not in any danger.”

Little Fire and Lan Yi seemed to be enduring. Both of them thought of what happened in the Endless Sea, especially Lan Yi. The scene of Yun Feng being in danger lingered for a long time. Even if he broke one of his wings to protect Yun Feng, they were still a bit scared when they thought about it. If something happened to their master, they...

“Master!” Little Fire was anxious. “You didn’t let me out of the Endless Sea no matter what. If anyone is going back this time, it’s Lan Yi, not me!”

Lan Yi frowned and stood there without saying anything, but he looked at Yun Feng with anticipation in his eyes. He was very determined to protect her. The gazes of Little Fire and Lan Yi made Yun Feng very helpless. She couldn’t help but hold her forehead and look at Qu Lanyi on the side. “And you, why are you here?”

Qu Lanyi chuckled. “I’ll go crazy if I don’t see you for eight months.”

Yun Feng blushed. Lan Yi and Little Fire both looked at Qu Lanyi angrily. Qu Lanyi burst into laughter. “I’m the same. I’ll indeed go crazy if I don’t see you in eight months. Speaking of which, you’ll be making the Fusion Fluid for eight months in a row. You can imagine the consumption of your mental strength, but it’ll be much easier with me.”

Yun Feng’s black eyes glittered. Qu Lanyi was right. Light elements would help her a lot in this regard, but Yun Feng didn’t want Qu Lanyi to do anything else. Thinking of how this person would send light elements to her without caring about his own safety every time she was injured, Yun Feng was a bit worried.

Understanding Yun Feng’s worries, Qu Lanyi smiled warmly. “Don’t worry. I know what to do. I was indeed too hasty the last few times. You can’t blame me.”

Yun Feng moved her lips. Even if she asked him to go back, it was useless. He would still force himself on her. “You said it yourself.” Yun Feng looked at Qu Lanyi, who nodded with a smile. Seeing that Yun Feng agreed to let Qu Lanyi follow them, Little Fire and Lan Yi both asked anxiously, “Master, then we...”

Yun Feng sighed softly. “It’s indeed not dangerous to make potions, but it does consume mental strength. You... just stay here. After all, the success rate of the Fusion Fluid is very low and I can’t be disturbed.”

.....

Little Fire and Lan Yi’s eyes immediately brightened. They knew that Yun Feng agreed for them to stay here, so they immediately became excited. “Yes, Master!”

Yun Feng nodded. Meatball sat on Yun Feng’s shoulder and shouted at Little Fire proudly. Little Fire growled furiously, “Don’t be so proud, Meatball!”

Meatball wiggled its butt happily, as if it was saying, “What can you do to me?” Yun Feng helplessly turned around and pushed the door open. Qu Lanyi followed her in, while Little Fire and Lan Yi stayed

outside. There were only two Magic Beasts in the director's office at this moment. In eight months, this would become an area that nobody could enter.

A ball of fiery red light flashed and Little Fire's huge wolf body appeared, lying on the ground lazily and occupying a lot of space. There was no one else here anyway. The Magic Beast's original form was the most comfortable, but it was hard on Lan Yi. If it also showed its original body, this place would probably be destroyed.

Little Fire lay there comfortably. Its huge wolf body had beautiful lines. The fur all over its body changed again because of the advancement of its strength. At first, it was red and black mixed together. Now, the mysterious black color was all gathered around Little Fire's neck, like a black collar. The rest of its body was bright red and instantly became beautiful.

Those pure black wolf eyes looked at Lan Yi standing aside and Little Fire glanced at Lan Yi's back. "Lan Yi, are you really fine with one of your wings broken?"

Lan Yi was stunned. "Brother Fire, what do you mean by that? My strength won't be affected just because I lost one of my wings."

Little Fire flapped its wolf tail behind it a few times. It laid its head on its front limbs and looked elsewhere casually with its wolf eyes. "I know what the patterns on your cheeks mean."

Lan Yi's body completely froze. "Really?"

Little Fire was silent for a while. "The number of wings on a griffin doesn't mean its strength, but... its identity."

Lan Yi lowered his head slightly with a gloomy look. "Brother Fire, you really know a lot of stuff."

Little Fire snorted in disdain. "As a Mutated Magic Beast, I certainly know a lot."

Lan Yi chuckled and raised his handsome face. The mysterious and complicated patterns on the side of his cheek were emitting faint blue light. Little Fire glanced at them and looked away. "I'm not so bored that I want to know why you were branded like that. I only care about Master's safety."

A glint of light flashed through Lan Yi's blue eyes, causing a trace of coldness to appear on his originally gentle face. "Brother Fire, don't worry. I won't let my matter implicate Master at all. If it'll really cause trouble for Master, I'd rather... cut off this bond with Master."

Little Fire was extremely shocked. It looked at Lan Yi and didn't say anything for a long time. The two Magic Beasts remained silent for a long time. Lan Yi stood there, thinking about something. Little Fire lay on the ground and patted its tail.

"Even if you want to cut it off, Master won't let you leave so easily." Little Fire said. Lan Yi was stunned for a moment, then smiled with a hint of gentleness on his handsome face. "Master is very stubborn. I guess it'll take a lot of effort."

### **Chapter 845: The Magic Beast's Sensation (3)**

"Hey! Can't you think from another perspective?" Little Fire roared angrily. Lan Yi looked at Little Fire in confusion. "Brother Fire, you..."

“If you don’t want to cause trouble for Master because of your own business, don’t provoke anyone. Just stay by her side!” Little Fire roared. Then, the wolf head lay down again. “Master... you won’t be able to find such a master again if you lose her.”

Lan Yi didn’t say anything. He looked out of the window with his beautiful eyes in a daze. “Brother Fire, I’d been thinking about what kind of fate I would have after being branded like this, until I met Master. I felt like I was alive again. In my heart, Master is irreplaceable.”

A glint of light flashed in Little Fire’s eyes. Lan Yi continued, “If my fate is to lose my freedom, I’d rather be restrained by Master for the rest of my life.” Lan Yi slowly lowered his head. “The more I want to protect her, the more I’m afraid of her being hurt. If she gets hurt because of me, I’ll never forgive myself!”

“If that’s the case, you should be with Master even more,” Little Fire replied lazily. “I don’t want Master to contract with another wind-element creature. You’re less annoying than the others.”

Lan Yi smiled helplessly. There was nothing between the two beasts again. Little Fire raised its head and looked at the closed door. “Do you think... Master will succeed?”

Lan Yi chuckled and swept away his depression. “Of course. When has Master ever failed?”

Little Fire opened its mouth and said proudly, “Of course. My master certainly won’t fail easily!”

The two Magic Beasts looked at each other. They had absolute confidence in Yun Feng. At this moment, Little Fire suddenly stood up and shouted at the door of the director’s office, “Who is it?” A wolf’s howl came from the depths of Little Fire’s throat and a cruel and brutal aura burst out of its body!

The door of the director’s office was slowly pushed open. Standing behind the door was Lan Ling, who looked pale. She had planned to ask the teacher for guidance today. She hadn’t vented her anger after meeting Yun Feng yesterday, but she didn’t expect to see... a Magic Beast in the teacher’s office!

“Fire... Fire Cloud Wolf...” Lan Ling said as she trembled. Her body sat on the ground weakly and she stared at Little Fire with her eyes like she was possessed, as if she was attracted to it and couldn’t look away. How could there be a Magic Beast in her teacher’s office? How was that possible?

“Get out.” Seeing Lan Ling’s limp body, Lan Yi got up and walked forward, whispering to Lan Ling. Lan Ling immediately turned around. When she saw Lan Yi, she had an inexplicable feeling in her mind. “It... It’s a Magic Beast... Who... Who are you?” Lan Ling finally found a trace of courage and got up from the ground. “Why are you and this Magic Beast in my teacher’s office... Teacher, where is my teacher?”

Lan Ling looked around in fear and couldn’t find the director. Countless miserable possibilities appeared in her mind and she couldn’t help but turn even paler. “You, you, you... You...” Lan Ling widened her eyes and stared at Little Fire firmly. That gaze of accusation, anger and fear made Little Fire unhappy. If this human didn’t leave, she would be blamed for being attacked by its sharp claws!

.....

“Get out!” Seeing that Lan Ling still hadn’t moved, Lan Yi couldn’t help but shout. Couldn’t she see that Brother Fire was already on the verge of an outburst? Lan Ling suddenly whimpered and turned around

to run. She staggered and almost fell again. Lan Yi thought for a moment and shouted loudly, "In eight months, please tell all the students of the pharmaceutical school that they can't step in here."

Lan Ling's body trembled abruptly. Not everyone could come here. Only she, as the director's personal disciple, and the teachers could come here. Normal students didn't dare to disturb the director. Lan Ling's mind was in chaos after hearing what Lan Yi said. What was going on? Where was the teacher? And who were that Magic Beast and that man? Had the teacher... already died?

This was the first time Lan Ling had encountered a real Magic Beast, and it had a bad temper like Little Fire. Naturally, she was so frightened that her rationality had already flown out of her brain. She could only let the terrifying imagination corrode her. In the end, there was only one thought in Lan Ling's mind. She had to save her teacher. She had to save her teacher no matter what!

Lan Yi felt that something was wrong as he watched Lan Ling run away in panic, but he didn't chase after her. He only hoped that nobody would disturb her again. Little Fire glanced at Lan Yi in dissatisfaction, complaining about why it let that human leave just like that. Lan Yi smiled wryly. If Little Fire really did something, the Pharmaceutical Institute would probably be in chaos.

In an instant, the news that a Magic Beast and an unknown man appeared in the director's office spread throughout the pharmaceutical school again. All the teachers and students who didn't know the truth were shocked! The director was missing! A Magic Beast and a mysterious man appeared in the office. What did this mean?

All the students and teachers of the pharmaceutical school were panicked. The area where the director's office was located immediately became a forbidden area. The teachers, who were completely panicked, immediately went to the Pharmacists' Union for help, hoping that the director would be fine. The students only calmed down after the teachers comforted them. After the initial panic, there was a burst of strong excitement. The students of the pharmaceutical school had never seen a real Magic Beast. After being scared, their strong curiosity took over.

However, the director and Yun Feng, who had entered the secret room to refine medicines, didn't know what kind of commotion Little Fire and Lan Yi's appearance caused and what kind of situation they would face after they came out of seclusion.

Yun Feng and Qu Lanyi pushed the door open and entered the pharmaceutical room of the director's office. Yun Feng wasn't unfamiliar with most of the materials in front of her, but when she saw the various potions displayed on the huge shelves around her, she couldn't help but exclaim. As expected of the director of the Pharmaceutical Institute, his strength should be comparable to that of the elders of the Pharmacists' Union.

Yun Feng and Qu Lanyi both looked at the potions in surprise. It was hard to imagine how many of them there were. Yun Feng was no stranger to some of the potions. The labels under the potions also appeared in her master's notes. Yun Feng couldn't help but admire a few of them.

"Kid." The director couldn't help but feel like a spring breeze when he saw the admiration in Yun Feng's eyes. After all, it was already a kind of success to be able to make such an outstanding student admire him, especially someone like Yun Feng, who could only be described as a genius.

## **Chapter 846: Lan Yi Is Furious (1)**

??

Yun Feng came back to herself. "As expected of the director."

The director chuckled. "It's just my research over the years." The director walked to the desk where potions were made. There were a lot of equipment on it. Yun Feng walked over. "What can I do to help? Just tell me. I'll do my best."

The director nodded. "Kid, you'll definitely be able to help, but I must say in advance that your method won't work."

Yun Feng was stunned, and so was Qu Lanyi. "Are you saying that Fengfeng's unique way of making medicine isn't good?"

The director nodded with a serious look. "Your way of making medicine is different. I don't understand the principle behind it, but I can see that it is another way, and the speed and effect are astonishing. However, it's absolutely impossible for me to help you make a Master-Level potion like the Fusion Fluid."

Yun Feng couldn't help but feel a bit heavy after hearing this. What else could she do if she couldn't help with her pharmaceutical method? Meatball on Yun Feng's shoulder also felt Yun Feng's frustration and it rubbed its body against Yun Feng's cheek. The director couldn't help but smile when he saw Yun Feng's expression. "Kid, even though you can't help me in this form, but... you can use another form, not your alternative pharmaceutical method, but the traditional and standard pharmaceutical method."

Yun Feng looked up and met the director's gaze. Was he talking about... the normal manufacturing process? But she didn't know how to do that!

"Haha!" The director smiled affectionately when he saw Yun Feng. "I know that even though you're talented in pharmaceuticals, you're just a beginner who doesn't know anything. Nobody will believe it if I tell them. The person who can make a high-level three-star perfect-quality potion hasn't even done the simplest grinding." The director's tone was full of frustration when he said this. It was hard to say if this student was a genius or an idiot.

"Are you going to ask Fengfeng to make..." Qu Lanyi subconsciously glanced at the tools on the table. The director nodded with a smile. "The success rate of gathering fluids is very low. Although the herbs required aren't very rare, there are a lot of types. The process of making potions is quite complicated, especially for high-level potions. It takes a longer time to make them." The director looked at Yun Feng kindly. "Kid, do you know what steps take the most time?"

Yun Feng was stunned for a moment. Then, she fell into deep thought and finally raised her black eyes. "I think it should be grinding and configuration."

The director nodded approvingly. "Indeed. You're quite right to say that. You don't know anything about pharmaceuticals. There are more than a few hundred sets of herbs needed for the solution. It's quite a waste of time to grind these herbs and distribute them precisely. I've only made them ten times in three years. Most of my time was spent on these two processes."

Yun Feng finally understood now. It turned out that normal potion makers spent most of their time on the first two steps, while the real fusion time was the shortest. If she could greatly reduce the time

consumed for the first two steps, the number of times she could make potions would increase and the success rate would also increase!

"I understand!" Yun Feng nodded. The director chuckled. "Kid, even though your method is pretty good, it won't hurt to learn more." What the director said was quite meaningful. Yun Feng immediately understood the meaning and knew that the director was trying to help her.

"Don't worry, director. I understand."

The director nodded. "Very good. Let's begin now."

Qu Lanyi and Yun Feng had never thought that helping the director would be a normal way. Naturally, they weren't worried about the consumption of mental strength. Qu Lanyi naturally joined them. The director didn't mind. He personally taught the two of them how the first step of grinding was.

Yun Feng and Qu Lanyi skipped the most basic theory courses of the pharmacists and directly started working. Most pharmacists could only work after they passed the theory test. There was also danger in concocting potions. If they were careless, the consequences would be fatal.

The so-called grinding was to crush the entire herb and find the most essential part of the herb and remove the dross. It was a process of extracting the essence.

After hearing the director's explanation and demonstration, Yun Feng automatically compared the grinding with her own way of making medicine. Even though her way was different, it was similar to the normal way of making medicine. According to Yun Feng's interpretation, the grinding was to find the elements emitted by the herbs! Yun Feng's explanation was quite accurate. The so-called essence of the herbs was the part where the herbs gathered elemental force! Realizing that she could explain the traditional way with her own explanation and that there was no mistake, Yun Feng couldn't help but smile.

Next was the second step, configuration. The so-called configuration was to configure the ground essence according to the most precise calculations. The configuration could be said to be the most important step before fusion. If there was a mistake in the configuration, the fusion was destined to fail. So, configuration was more important than fusion. It was the most important part of the pharmaceutical process.

The pharmacists did all this with a rational and rigorous attitude through careful weighing and calculation. However, the director was certainly familiar with the configuration. Only such an expert could be so proficient and could take out the required amount precisely without counting.

The director explained patiently and demonstrated in person. Qu Lanyi frowned. This was the first time he and Fengfeng had come into contact with this. They felt like they were being forced to do something they didn't know. What they were going to make right now wasn't an ordinary potion, but a master-level potion! After explaining, the director knew that it was a bit too much. These two kids were real beginners. It was truly too much to ask a beginner to make a solution on their first try!

"I'll finish the configuration work. Just grind them," said the director. Qu Lanyi nodded, but Yun Feng didn't say anything. She certainly had her own thoughts. She was still immersed in the understanding of the configuration and automatically explained it with her own theory.

Configuration was to perfectly match the essence of all kinds of herbs, which meant that the various elements would be divided according to appropriate and accurate portions, so that each element would be suppressed by the other and reach a balanced state! Thinking of this, a glint of light suddenly flashed through Yun Feng's black eyes. Wasn't there such a process in her unique pharmaceutical method? She had just completely combined the configuration and fusion into one step, and traditional pharmacists separated them!

### **Chapter 847: Lan Yi Is Furious (2)**

Yun Feng didn't know if the explanation she gave was right, but she was thrilled in her mind. She would know if it was right after trying it once!

Seeing the excitement in Yun Feng's eyes, the director was very comforted in his mind. He didn't want the student he was so proud of to be mistaken for a fool in terms of common sense of potions. He hoped that this student could become a genius in every aspect. He asked Yun Feng to use such a traditional method on purpose, so that Yun Feng could learn the traditional way of making potions. He was also determined in his mind that Yun Feng would definitely get something with her talent.

The director's hope wouldn't be dashed. Yun Feng had indeed realized something. Between tradition and her own method, she had already found something in common and also built a bridge between the two of them! There were similarities between the two of them. Yun Feng's understanding made these two methods that seemed completely different stand perfectly together!

The time of seclusion to make the medicine began. It was a huge challenge for anyone to make the solution in eight months. Qu Lanyi focused on his grinding work. He had to admit that even though he wasn't an ordinary person, he wasn't very talented in making medicine. Qu Lanyi was already tired from just grinding, but Yun Feng was faster than him. Yun Feng could easily find the essence of the herbs with her understanding, which made Qu Lanyi exclaim at the difference.

Yun Feng's method only applied to her. After all, with Meatball's help, she was much more sensitive to elements, but not Qu Lanyi. Even though Yun Feng explained the principle to him, Qu Lanyi didn't improve at all. Meatball sat on Yun Feng's shoulder and cried happily when it saw how anxious Qu Lanyi was. Disdain and ridicule appeared on its cute little face.

Qu Lanyi secretly suppressed the anger in his heart. He was truly not good at making medicines!

The first batch of herbs for the fusion solution was finally prepared a month later. The director also began the fusion and refinement process, while Yun Feng and Qu Lanyi continued grinding. A few hundred batches of herbs weren't a small number. The director had already taken a lot of them from the pharmaceutical warehouse and even piled them into a small mountain. However, Yun Feng knew that they could only be used for no more than ten attempts.

The process of making the solution was indeed complicated. Yun Feng realized this deeply. She couldn't touch a potion of the Master Level at all right now. Even if she could, her success rate might not be higher than that of the director. The success rate of making the Fusion Fluid was also notoriously low.

Naturally, the first batch failed just like that. The three of them weren't discouraged. Instead, they seized the time to continue the refinement process. With Yun Feng and Qu Lanyi's help, the grinding

process was shortened by a lot. The director had to prepare the ingredients alone and couldn't take care of everything. Yun Feng looked at the busy director and finally decided that she could try.

"Meatball." Yun Feng called softly. Meatball immediately closed its big eyes and stood up on Yun Feng's shoulder. Yun Feng also slowly closed her black eyes. Her entire mind had already sunk into darkness. Seeing Yun Feng doing that, Qu Lanyi didn't interrupt. She certainly had to try everything, right?

After Yun Feng closed her eyes, light of elements suddenly flashed in the dark world. Yun Feng couldn't be more familiar with these elements. Thinking about the configuration the director taught her, Yun Feng's mental strength slowly penetrated into these elements. Her red lips curled up and her mental strength had already moved!

It was as if she was putting up a puzzle or playing a game. Yun Feng filtered out the different elements she saw and her mental strength carefully fixed each element together. Gradually, the elements were divided into different categories by Yun Feng's mental strength and the attraction and rejection of each element were extremely clear to Yun Feng. With her perception of the elements, Yun Feng began to deal with them evenly for the first time!

She moved carefully and controlled the elements. Finally, after a while, Yun Feng looked at her masterpiece in satisfaction. Every element was next to each other in a wonderful balance. A sense of harmony rose from the bottom of Yun Feng's heart. She knew that she had succeeded.

.....

Yun Feng suddenly opened her black eyes and looked at the essence of the herbs that had been ground on the table. Her eyes were full of confidence. Meatball also opened its eyes and cried softly. Yun Feng began to move. The few hundred sets of herbs were scattered and simplified in Yun Feng's hands, until they were all combined.

At this moment, the director heaved a helpless sigh. He had failed again. Looking at the charred solution, the director was very helpless in his mind. The success rate of the solution was too low. Was it really possible to make it in eight months? He was about to prepare another batch of herbs, when Yun Feng handed him one.

The director looked at the prepared herbs in Yun Feng's hand curiously. After taking them and observing them, he was extremely shocked in his mind! This was... a rather perfect configuration! Even though it was still a bit inferior to his own configuration, there was just a tiny difference!

The director glanced at Yun Feng. This kid... had already prepared it without any calculations or weighing? The reason why he didn't need to calculate and weighing was because of his experience, but this kid didn't have any experience at all!

The director's eyes glittered a few times and the smile in his mind became bigger and bigger. This kid was indeed surprising! She was indeed an absolute genius in the field of pharmaceuticals!

The director went to refine the herbs Yun Feng made with a smile. He was obviously in a much better mood. Yun Feng turned around and saw Qu Lanyi's teasing gaze. Qu Lanyi walked over and said in a low voice, "Didn't you see? That old man is so proud that his tail is about to rise to the sky."

Yun Feng couldn't help but laugh. In the end, she glared at Qu Lanyi, who shrugged and continued with his grinding. Yun Feng looked at the director, who was focused on making the solution, with gratitude in her mind. If it weren't for the director, she wouldn't have been able to find the Fusion Fluid. If she could help, she would certainly do her best!

The three people in the secret room were already getting better, but they didn't know that it was completely chaotic outside.

"Hey, you're Yun Feng's Magic Beast, right?" At the door of the director's office, Yan Xiaoshi, Xia Jingyi and Shang Rui stood by the door. The three of them were all squeezed near the door. They couldn't stand still, but they didn't dare to walk in. The reason was that the Fire Cloud Wolf inside looked extremely ferocious.

### **Chapter 848: Lan Yi Is Furious (3)**

Lan Yi looked at the boy who squatted down and stared at Little Fire curiously. Hearing what he said, it couldn't help but raise its brows. Little Fire glared at Yan Lei in frustration with its wolf eyes. If Lan Yi hadn't said that they couldn't cause trouble for Yun Feng, Little Fire would have slapped him with its claw. Ever since that woman ran away in panic last time, it thought that no human beings dared to come again. It didn't expect that there would be more and more fearless people. However, they all learned their lesson. For example, the three people in front of it stood at the door and talked, but didn't step in. They didn't invade the territory guarded by the two Magic Beasts.

Yan Xiaoshi looked at the lazy but still dangerous Fire Cloud Wolf on the ground and kept shouting in his mind, "Yun Feng has such a contracted Magic Beast. Damn it, it's truly awesome!"

"Hey! We're Yun Feng's friends. We're pharmacists from the Fengyun Empire! Yun Feng must've mentioned us!" Yan Xiaoshi wanted to talk to Little Fire. If Yun Feng was here, he might be able to go up and touch it!

Xia Jingyi stood at the back and was very helpless. He looked at Yan Xiaoshi's excited face, but he couldn't deny that he was also excited in his mind. The Magic Beast in front of him was such a charming Fire Cloud Wolf! As a boy, the passion and wildness hidden in his heart was gradually aroused!

Shang Rui also watched curiously. However, she wasn't looking at Little Fire, but Lan Yi. Compared to Little Fire, she cared more about Lan Yi. Why was such a man staying with a Magic Beast? That was Yun Feng's contracted Magic Beast. Was he Yun Feng's companion?

Lan Yi noticed Shang Rui's gaze and glanced over with his blue eyes coldly. Shang Rui couldn't help but blush and look away. She was very embarrassed to be caught so blatantly. Lan Yi turned his gaze to Yan Xiaoshi. "Master did mention you."

"Tsk!" Little Fire didn't even look up and couldn't be bothered to talk to her! However, Little Fire still gave her face. If it were anyone else, they would have been shouted at already.

"Master? Did you say Master?" Shang Rui repeated what Lan Yi said with a thunderbolt in her head. So... this man was also... was also Yun Feng's contracted Magic Beast!

Xia Jingyi and Yan Xiaoshi were also shocked. A Magic Beast! This man wasn't a human being, but a Magic Beast! "You, you, you're a Magic Beast!" Yan Xiaoshi pointed at Lan Yi and shouted in shock. Xia Jingyi couldn't believe it either and just stared at Lan Yi.

"Master has two contracted Magic Beasts. Don't you know?" Little Fire said in an upset tone. Lan Yi didn't say anything. He was already used to the surprised look of humans. Magic Beasts that transformed into humans had to be above level 7. Magic Beasts above level 7 should be something new for these pharmacists.

"We... We know that... We just forgot about it." Yan Xiaoshi mumbled and then suddenly shouted, "If you're a Magic Beast, why do you still look like a human?"

Lan Yi glanced over and Little Fire smiled gloatingly. Let Lan Yi transform into his original form? This place would be ruined!

"My original form can't fit in here," said Lan Yi casually. He explained for the sake of them being Yun Feng's friends. Shang Rui secretly sized up the room. It was very spacious. Was he even bigger than this Fire Cloud Wolf?

.....

"You mean... this room or... the Pharmaceutical Institute?" Yan Xiaoshi became pedantic at this moment. Lan Yi glanced at him and didn't say anything. Yan Xiaoshi nodded. "Got it, I got it. It's definitely the latter."

Xia Jingyi was shocked wave after wave in his mind. This man's original body couldn't even fit in the Pharmaceutical Institute! What kind of Magic Beast was that? Yun Feng contracted with such a Magic Beast. What kind of a powerhouse was Yun Feng?

Shang Rui knew Yun Feng a bit better than the others. She was already mentally prepared, but she was still shocked. Looking at Little Fire and Lan Yi in front of her, she only felt that Yun Feng, who originally stood at the peak, became further away again.

"Yun Feng is too awesome! She contracted such powerful Magic Beasts!" Yan Lei smiled happily. Little Fire and Lan Yi also noticed that these three people were indeed sincere to Yun Feng and they didn't treat her like they treated other people. Xia Jingyi really wanted to pull Yan Lei and say that they should go back, but Yan Lei obviously didn't want to go.

"Hey! What are your names? How do Yun Feng call you?"

Coldness flashed through the eyes of Little Fire and Lan Yi at the same time. Yun Feng was the only one who could call them by their names. Nobody else had the right to call them that! Yan Lei sensitively noticed that he seemed to have asked a question he shouldn't have asked. He immediately waved his hand. "You don't have to answer it. You don't have to!"

Xia Jingyi immediately grabbed Yan Lei's collar and smiled calmly. "Sorry for disturbing you. We'll leave now and tell the other students not to approach this place." Yan Lei was dragged out by Xia Jingyi just like that. Shang Rui also followed them. After the three of them disappeared, Little Fire snorted unhappily. "Humans are so noisy and meddling!"

Lan Yi smiled and looked at the closed door with his black eyes. The two Magic Beasts both hoped that Yun Feng could come out sooner. Their life here was actually... quite boring.

The panicked teachers of the Pharmaceutical Institute decided to go to the Pharmacists' Union for help after a discussion. When the Pharmacists' Union heard that an unknown Magic Beast and a man appeared in the director's office, they were also shocked. The two elders, Dan Qing and Dan Su, immediately took the initiative to rush over. When the two elders of the Pharmaceutical Institute arrived, another piece of shocking news came from the Pharmaceutical Institute. Yun Feng's contracted Magic Beasts were inside!

The teachers of the pharmaceutical school were stunned. Yun Feng had truly come back? Hearing that, Dan Qing and Dan Su immediately rushed to the director's office. The two of them certainly wanted to meet Yun Feng in their minds. Last time, they wanted to be Yun Feng's second and third masters, but the director stopped them. The two of them finally caught this kid, so they certainly wouldn't let her go.

Of course, Little Fire gave the two of them a strong welcome. The roar and anger of the Fire Cloud Wolf made the two elders retreat with a bitter smile on their faces. They forgot that this kid was a summoner and had a Magic Beast. Dan Qing and Dan Su waited patiently for a while, but Yun Feng didn't show up and they couldn't enter. They had no choice but to leave first. Yun Feng's contracted Magic Beasts certainly weren't dangerous and the director should be fine. When the two elders left, their faces were full of frustration, but there was nothing they could do.

#### **Chapter 849: Lan Yi Is Furious (4)**

After the two elders left, the matter spread like wildfire again. Yun Feng's two contracted Magic Beasts showed up for the first time, which aroused everyone's curiosity again. Even the teachers of the pharmaceutical school couldn't hide the curiosity in their minds. Magic Beasts weren't rare, but Yun Feng's contracted Magic Beasts were different!

As time went by, Little Fire's patience was almost worn out. Even Lan Yi, who had a good temper, was about to break down. There were always students who came to watch over them here and they were smart enough to come in groups. Even if the teachers of the pharmaceutical school warned them, these students were still fearless and wanted to find out the truth. Lan Yi and Little Fire were like animals in a zoo, being visited by people.

"I can't stand it anymore! How dare these humans insult me like this!" Little Fire finally stood up angrily one day. Its sharp claws left deep marks on the ground and its wolf eyes were full of deep anger. Lan Yi looked at Little Fire with a wry smile. Should he say that those humans were truly stupid? They threw all kinds of food in. What was even more outrageous was... they threw a bone in.

"What do they take me for? A kitten or a dog! They won't learn a lesson if I don't tear someone apart!" Little Fire roared furiously. As Yun Feng's contracted Magic Beast, as a high-level mutated Magic Beast, Little Fire had never been looked down on like this! It was fine if you threw food in, but you threw a bone in! If I don't show my power, they'll really treat me like a sick cat!

Lan Yi's handsome face twitched. Looking at all kinds of food on the ground, he was also very angry in his mind. They were really treated as domestic pets. Food? If they were really hungry, he would directly

start with these humans! Although he was angry, Lan Yi didn't forget to remain calm in front of Little Fire.

"Brother Fire, don't take it to heart. Those humans have never seen a high-level Magic Beast, so it's understandable that they did that. Brother Fire, don't do anything, or you'll cause trouble for Master." Lan Yi remained extremely calm, comforting Little Fire and himself at the same time.

Little Fire spat out a ball of fire angrily and directly burnt all the offending food on the ground, as well as the unusually disturbing bones! This fire didn't only burn the food, but also some decorations in the director's office.

"Fuck, if any human dares to throw anything in again, I don't care!"

"Brother Fire, you have to calm down."

"Calm down? I can't calm down! I'm going to tear these idiots apart! How dare they insult me like this!"

"Brother Fire, calm down. As long as we hold on for a while longer..."

At this moment, the door was opened again. A head poked in carefully. When it saw Lan Yi and Little Fire, its eyes brightened. Then, it seemed that someone was going to continue throwing food in. Little Fire was about to slap it with its claw, when a strong wind blew and the door of the director's office was directly blown away!

The few students outside were so scared that their faces turned pale. They were all holding all kinds of food in their hands and looking at the handsome man with a cold face in fear. Lan Yi's cold voice came. "If you dare to come near here again, don't blame us for being rude, humans!"

.....

This "humans" made the students outside the door realize something. They scrambled and ran away quickly. Little Fire glanced at Lan Yi with its wolf eyes. Hm! What a pretentious guy!

After Lan Yi, who had a good temper, flew into a rage, the students of the pharmaceutical school finally calmed down. Lan Yi and Little Fire also took a breather. And in a blink, the time limit of eight months suddenly approached!

The passage of time was so quiet that people forgot such a silent but important thing. The two Magic Beasts had been guarding the door of the secret room in the director's office. The door of the director's office had already disappeared. No student dared to come again. The two Magic Beasts were alone for a while, while the three people in the secret room were still immersed in the process of creating the Fusion Fluid. In just eight months, Yun Feng had already become more and more familiar with the configuration of traditional pharmaceuticals. Seeing Yun Feng's rapid improvement, the director was both shocked and proud.

In terms of the excellence of the students, who could compare to Yun Feng? The director thought delightedly. Even if there would be talented people in the future, Yun Feng wouldn't be inferior to them. The director concluded that miracles would happen to Yun Feng and she had astonishing talent.

With Yun Feng and Qu Lanyi's help, they had refined the Fusion Fluid a total of five times in eight months. As time approached, the three of them became a bit heavy-hearted when the fifth refinement

failed. Qu Lanyi looked at the burnt liquid in the director's hand and said solemnly, "There's still half a month to go until the eight months' limit."

Yun Feng didn't say anything. She only had half a month left for Yao Guang's agreement. Thinking of what Yao Guang said five years ago, Yun Feng looked a bit gloomy. The director didn't know why Yun Feng had to make the Fusion Fluid in eight months, but he failed again.

Eight months was too short a time for any Grandmaster-level pharmacist to make the Fusion Fluid. Even the pharmacists who were even better than the director couldn't guarantee it.

The director looked at Yun Feng regretfully. "Kid..."

Yun Feng shook her head and chuckled at the director, handing him another set of herbs she had prepared. The director was stunned. Yun Feng said, "Please refine it again, director. If you fail this time, I won't force you."

The director took it and nodded. Yun Feng stepped aside and watched the director begin to fuse and refine. Qu Lanyi also stopped grinding. If the director failed again this time, the five years would be up. By then...

"What will you do if you fail?" Qu Lanyi stood next to Yun Feng and asked in a low voice.

Yun Feng watched the director's movements with her black eyes and slowly turned around. "It doesn't matter even if I fail. What we agreed on back then was only Senior Yao Guang's freedom. Even if Senior Yao Guang is free, he still has to help me resurrect Mu Canghai. There's enough time for the director to make the Fusion Fluid."

Qu Lanyi suddenly frowned. "About Yao Guang, why do I feel that he has other thoughts about you?"

Yun Feng chuckled. "Senior Yao Guang is quite angry with me. Perhaps he'll attack me when he gets his freedom."

### **Chapter 850: You Can Only Choose One Person (1)**

"What's going on with the Dragon Palace? Why is such a weird guy locked up there? He's too strong to be imprisoned."

Yun Feng shook her head gently. "I only inherited the Dragon Palace from Master. As for why Senior Yao Guang was locked up inside, I don't know. Maybe when I meet Master, I'll understand everything."

Qu Lanyi raised his brows. "Are you saying that your master... is still alive?"

Yun Feng burst into laughter. "Didn't I tell you? Master is indeed still alive, but he's being locked up somewhere."

Hearing this, Qu Lanyi looked extremely serious. "Fengfeng, are you really going to find your master, who's locked up somewhere?"

Yun Feng glanced at Qu Lanyi. "After inheriting Master's legacy, I thought that Master had already passed away, but after knowing that he's still in the human world, I decided to save him. Perhaps I overestimated myself, perhaps I didn't know better, but this is something I must do."

Qu Lanyi remained silent for a long time. In the end, he grabbed Yun Feng's hand and slowly tightened his fingers. "If you've decided, I'll certainly go with you."

Yun Feng put on a smile and slowly held Qu Lanyi's big hand. "Yes, I know that you will come with me."

A hint of gentleness appeared in Qu Lanyi's eyes. He held Yun Feng's hand and looked at the director, who was focused on creating the Fusion Fluid. "Whether we can succeed in half a month depends on our luck."

Yun Feng nodded. At this moment, Yun Feng didn't care much in her mind. She had already done what she should do, but things had turned out this way. It wasn't a bad thing to let Yao Guang go. She didn't have the thought of restraining Yao Guang.

"If Yao Guang comes out and dares to touch you, I'll certainly not let him get away with it." Qu Lanyi's tone suddenly darkened. Yun Feng smiled helplessly. What kind of person was Yao Guang? Its ability to control space so freely made Yun Feng dare not to underestimate it. Also, Yun Feng still didn't know what kind of Magic Beast Yao Guang was. It even had the ability to swallow dark elements. Yao Guang's ability undoubtedly indicated that it wasn't an ordinary Magic Beast.

"I don't think it will." Yun Feng lowered her black eyes slightly. She wasn't sure in her mind. Yao Guang's attitude was very vague. It had helped her before, but it also wanted to kill her. Yun Feng wasn't sure if it would be able to kill her once it got its freedom. If she faced Yao Guang, she wasn't confident that she could resist it.

Half a month passed quietly. During this half month, the director was still focused on refining potions. Yun Feng sighed softly in her mind. The five-year period was finally over.

.....

Somewhere in the Dragon Palace, a pair of eyes suddenly opened. The gray eyes were emitting a strange scorching light. Yao Guang, who was wrapped in a black robe, suddenly let out harsh and unpleasant laughter. His laughter spread to every corner of the Dragon Palace. His hoarse laughter brought a burst of weirdness and suppressed excitement!

Xia Qing, who had been cultivating in peace on the tenth floor of the Dragon Palace, suddenly heard this strange laughter and her heart couldn't help but tighten. She had always known that her teacher's Dragon Palace wasn't simple, but this laughter made Xia Qing feel fear in her heart. The Flower Eagle on the side immediately stood in front of Xia Qing and protected her. The two of them remained vigilant for a while. The laughter only echoed and no one appeared.

"What's going on?" Xia Qing whispered. The Flower Eagle's alluring face was extremely pale. "Master, this laughter is very scary... The person who made this laughter is extraordinary."

"Is it related to Master?" Xia Qing suddenly became worried about Yun Feng, fearing that something would happen to her teacher. However, the Flower Eagle shook its head with a pale face. "If such a person can be locked up here, how can anything happen to Master's teacher?"

Xia Qing also came to a realization. She didn't have to worry about Yun Feng's ability. Thinking of this, Xia Qing was also relieved. She didn't care about the laughter anymore and focused on practicing again, wanting to improve her strength. As Yun Feng's student, she didn't want to let her teacher down!

There was still fear deep in the eyes of the Flower Eagle on the side. It couldn't get rid of it. What exactly was locked here... Thinking of this, the Flower Eagle couldn't help but shiver.

"Kid." A hoarse voice suddenly sounded in Yun Feng's mind. Yun Feng's face tightened. Qu Lanyi was very worried when he saw this, but Yun Feng shook her head gently and asked him not to worry. Yao Guang's hoarse voice continued in Yun Feng's mind. "Our five-year deal has already ended."

Yun Feng listened to Yao Guang's hoarse voice and looked at the director who was making potions. Seeing the solemn look on the director's face, Yun Feng said telepathically, "Senior Yao Guang, our five-year deal is up. I'll set you free."

"Hahaha, very good, very good!" Yao Guang's excited voice came into Yun Feng's head. Yun Feng continued, "However, Senior Yao Guang, can you wait a moment longer?"

"Why? Are you going back on your word?"

"No, I won't go back on my word. I'm not a person who goes back on my words. The five-year deal I made with Senior Yao Guang back then was in exchange for your freedom. However, whether you're free or not, you must help me resurrect someone."

"Hm! Don't worry about that. As long as you can prepare the things I requested, I'll certainly keep my promise."

Yun Feng was relieved after hearing this. It was fine as long as Yao Guang agreed. "Thank you, Senior Yao Guang."

"Seeing that you're a decent human being, I'll reluctantly wait for a while longer. However, if you want to play any tricks, little girl, don't blame me for being rude!"

"Senior Yao Guang, don't worry. I'm not such a person. I'll do what I say!"

Yao Guang's voice didn't come again. Yun Feng slowly opened her black eyes and smiled at Qu Lanyi. Qu Lanyi held Yun Feng's hand tightly and looked at the director of the pharmaceutical school together. She hoped that they could succeed this time. It was time for them to reach the end of the road of reviving Mu Canghai.

After talking to Yun Feng in the Dragon Palace, Yao Guang was delighted. Thinking of the freedom he was about to get, he smiled excitedly again. "Yao Guang, are you really going out?" The old voice came slowly. Yao Guang snorted in disdain. "Of course."
