Chapter 971: The Person Named Father (1)

Yun Feng chuckled. "You'll know when I break the Four Locks of Space!"

"Hahahahaha! You're dreaming!"

"Do it!" Yun Feng gave an order in her mind and the three contracted Magic Beasts moved at the same time. Three dazzling lights moved forward like lightning and Yun Feng's body also sped up in an instant, rushing towards the masked man!

The four masked men on the side couldn't help but feel a bit panicked when they saw that Yun Feng and the Magic Beasts were all going towards the masked man in the center. The power of space in their hands immediately changed. Mu Canghai's gray eyes glittered and the two powerful power of space suddenly collided! The four masked men all turned to Mu Canghai. Even though they were wearing masks, he could tell the anger on their faces!

"We're your opponents!" Ling Xiaoyun walked over and stood next to Mu Canghai. He knew that what he could do was to attract the attention of these four masked men to himself firmly!

The masked man was also a bit surprised to see Yun Feng run straight to him, but his body suddenly flashed like a ghost and he had already retreated a hundred meters away. "You're wrong to think that the weakness is on me!"

"Just wait and see!" Yun Feng shouted coldly as she twisted her wrist gently. The Lord Level wand that her master left for her appeared in her hand! The moment the Lord Level wand appeared, the elemental energy in this space suddenly shook violently!

"A wand at the Lord Level!" The masked man exclaimed when he saw the wand in Yun Feng's hand. "I can't believe it. I can't believe you even have such a thing!"

There weren't many weapons at the Lord Level in the world at all. The weapon in Yun Feng's hand was the best in every aspect! Anyone would be greedy and want it! Yun Feng certainly understood this in her mind, but she was different right now. If someone had the courage, they should come and take it!

Yun Feng suddenly flipped her wand with a cold smile in her black eyes. "Earth Field!" Instantly, earth elements surged crazily around the wand, trapping the masked man, Yun Feng and the three Magic Beasts firmly in a barrier. The earth elements formed a solid wall, enveloping them firmly!

Seeing this scene, the four masked men in the periphery immediately gathered the power of space and wanted to forcibly break the Earth Field, but Mu Canghai, Ling Xiaoyun and Ling Tiansu's obstruction made their attacks fail! Ling Xiaoyun burst into laughter. "Although I can't beat you, it's more than enough to cause you some trouble!"

The four masked men saw that their joint attack was disrupted, and the power of the attack was greatly reduced. It only caused a slight collision on the wall made of earth elements and didn't have the ability to shake it at all! The four masked men looked at each other and immediately changed their strategy.

With their lord's strength, it shouldn't be a problem. As for the few people outside, they would deal with them first!

The fierce battle outside started again, but it was a different scene in the Earth Field. The three contracted Magic Beasts firmly sealed the directions of the masked man's escape. Yun Feng and the masked man faced each other and didn't do anything. The masked man in the Earth Field smiled. "You want to break the Four Locks of Space with this?"

Yun Feng's red lips curled up. "It's impossible to break the four locked spaces with this, but it's enough to break you."

The masked man was stunned. Then, he raised his head and laughed crazily. "Hahahahaha! This is the best joke I've ever heard. Yun Feng, you're quite bold! What do you think the Four Locks of Space are for? Even if you use the elemental barriers here, you won't have any chance of winning!"

The robe on the body of the masked man suddenly fluttered and the power of space that was multiplied by four times attacked Yun Feng quickly! Whether it was speed or strength, it was multiplied by four times, but Yun Feng stood there and didn't even have the intention to dodge!

Seeing Yun Feng's attitude, the masked man couldn't help but feel a bit suspicious in his mind. Was she trying to commit suicide? Wasn't it too unchallenging? However, the next second, Yun Feng suddenly raised the wand in her hand and a cold voice oozed out of her red lips.

"Earth Field, turn into sand!"

The earthy yellow elements in the Earth Field suddenly underwent a strong change. In this space enveloped by earth elements, the faint earthy yellow elements that were originally spreading around suddenly gathered together! The earth elements in the entire space underwent a substantial change in weight, turning into sand!

The seven basic elements in the world could turn to countless forms, like the water element, which could freeze into ice and turn into mist. The same applied to the earth element! The earth element could also be transformed into a physical body, turning into sand!

The earth element in the space instantly turned into the form of sand, and the originally invisible power of space also showed its real form in this world of sand! The power of space that the masked man attacked Yun Feng with had already shown its specific form under the coverage of the earth element in the sand. And because of the coverage of the earth element in the sand, the speed of the power of space suddenly slowed down because of the additional weight!

What? The masked man felt that the speed of his spatial power was slowing down and was very surprised in his mind. Yun Feng was indeed good. It seemed that the outcome of the battle between him and her was truly difficult to determine!

Looking at the power of space that had obviously slowed down and revealed its exact form, Yun Feng sneered and spun her wand again. The next second, ice blue water elements surged out! The moment the water elements appeared, the body of the masked man trembled fiercely! Yun Feng, what a multi-element summoner!

The water element instantly invaded the interior of the earth element that had turned into sand. Under the effect of the water element, the weight of the sand element suddenly doubled! And the power of space stopped in front of Yun Feng under such heavy pressure. Yun Feng punched heavily and the power of space exploded!

The three contracted Magic Beasts were all shocked in their minds when they saw Yun Feng attack like this. Who would have thought that she would use such an attack method? The sandification of the earth element and the effect of the water element made the power of space, which had always been impressive, fall into a disadvantage! The power of space didn't even touch Yun Feng!

Yun Feng looked at the earth elements that scattered everywhere after the power of space exploded and raised her black eyes. "It seems that this should be my home ground."

The masked man's breath tightened and he immediately had a bad feeling in his mind. The Four Locks of Space had always been successful. In the past, almost nobody could beat the power of the Four Locks of Space! This time, he clearly had the advantage at first, but how did things turn out like this?

Chapter 972: The Person Named Father (2)

No, the Earth Field must be broken by force!

The masked man wasn't stupid. When the situation changed rapidly, he immediately understood that he had to break the Earth Field Yun Feng set up, but how would Yun Feng let him do that? The masked man instantly released a few fierce spatial forces that pounced towards Yun Feng. They were covered by the earth element that had turned into sand and they were like a giant beast opening its mouth, wanting to swallow Yun Feng completely!

Yun Feng didn't stay where she was anymore. Instead, she rushed over at an extremely high speed and collided fiercely with this giant beast with a huge mouth. Her slender fist smashed down heavily, emitting a terrifying force!

"Boom! Boom! Boom!" A few explosions sounded. The power of space was completely shattered by Yun Feng. The masked man took this opportunity to turn around and escape. He wanted to escape to the edge of the Earth Field and break out by force. However, the three contracted Magic Beasts had already blocked all his way out!

"I've been waiting for you!" Little Fire watched the masked man fly to its side. It suddenly opened its mouth and a dark red elemental ball was ready in its mouth! There were traces of dark elements in the fire elements and the elemental energy inside was even more astonishing!

When the masked man saw this, his body immediately flashed. Little Fire's elemental attack suddenly burst out, creating a beautiful red fire dragon in the air! The masked man narrowly dodged this attack. Damn it! This Fire Cloud Wolf was a mutated type. Where exactly did Yun Feng contract it?

The masked man changed his direction and planned to break through in another direction. The attack of the power of space could only delay Yun Feng for a while. This was his only chance to leave this place! However, the masked man was stopped again. Yaoyao's mature and beautiful body floated in the air

with a disgusted expression on her charming little face. She swung her blue fishtail fiercely and a water element mixed with sand elements attacked the masked man crazily!

Oh no! The masked man suddenly turned around and ran away with his head in his hands! In this Earth Field, the combination of the water element and the earth element was the most terrifying! The combination of the two elements could completely restrict the advantage of the power of space. The multiplication of the Four Locks of Space was also instantly reduced to zero!

“The race of the Endless Ocean... She has one too!” Seeing Yaoyao’s complete form of a Magic Beast, the masked man only felt shocked. How did she get the beast from the Endless Ocean? Had she even been to the Endless Ocean? Thinking of this, the heart of the masked man couldn’t help but tremble. So, she knew the secret of the Endless Ocean!

“If that’s the case, things will really go wrong.” The masked man cursed fiercely. She had been to the Endless Ocean, so it was very likely that she would know that secret! If she knew, Yun Feng would be a stumbling block for them! If the higher-ups knew that Yun Feng would ruin their business and he didn’t kill her, the punishment from the higher-ups wouldn’t be light!

While the masked man was thinking, a wave of sand and stones attacked fiercely. The area in front of the masked man was immediately blurred and he couldn’t see the road ahead clearly. Then, a wave of pain came from his body! The masked man quickly retreated and looked down. There was already a huge hole in his clothes in front of his chest. Blood was flowing out of the wound on his chest!

The masked man looked up and saw the handsome man with wings on his back and obvious eagle claws on his hands standing there. When the masked man saw the patterns on the back of Lan Yi’s wings, he immediately understood. When he saw the patterns on one side of Lan Yi’s cheek, he let out a weird laugh. “A traitor of the griffin race.”

Lan Yi’s blue eyes suddenly darkened and the wings on his back flapped abruptly, attacking at an extremely high speed. The masked man laughed and dodged swiftly, but the wound on his chest was extremely painful! At this moment, Yun Feng had already dealt with the wave of attacks just then. The masked man stood in the middle and was firmly blocked in four directions. The mask on his face twitched a few times.

“You think you can trap me like this?” The masked man shouted loudly as the black robe on his body suddenly rose. Yun Feng clearly heard a few screams coming from the periphery of the Earth Field! A few streams of spatial power were being forcibly pulled in by the masked man! The four streams of spatial power rushed into the Earth Field from four directions and shattered it! These four streams of spatial power were all absorbed into the body of the masked man. Immediately, the power of space increased!

What happened? Yun Feng clearly felt that the space power of the masked man instantly increased to an almost terrifying level. After the Earth Field shattered, Mu Canghai came to Yun Feng. “The other four masked men fell on the ground just then. It seems that the space power in their bodies was forcibly taken away.”

“They’re all his companions, but he’s so ruthless.” Ling Xiaoyun came close. Ling Tiansu also came close with a pale face and looked at the masked man, who was absorbing their power, with his fierce eyes. “Those four are just his pawns. The current situation is probably even more tricky!”

“Although the Four Locks of Space have been broken, we’ve already fought for so long. Now that he’s absorbed the power of space, his strength will definitely increase greatly. I’m afraid we won’t be able to help you much.” Ling Tiansu said with a deep voice and suddenly coughed. Ling Xiaoyun reached out and held Ling Tiansu’s shoulder. Ling Tiansu’s body stiffened, but he didn’t refuse.

Ling Xiaoyun looked ahead. “Old people shouldn’t show off. There are still young people.”

Ling Tiansu’s expression froze, and then he smiled wryly. Yun Feng lowered her eyes. Now that he had absorbed four forces of space, the effect of the Four Locks of Space had disappeared, but his strength was still multiplied by four times! Under such circumstances, the effect of her combat method just then would be greatly reduced!

The weakness was on him!

“Hahahaha! I want to see how you ants are going to survive!” After absorbing the four forces of space, the masked man suddenly attacked. Yun Feng’s team immediately dispersed and the three contracted Magic Beasts landed next to her. “Master, the situation is a bit uncontrollable right now.” Lan Yi said in a low voice. Yaoyao waved her fishtail abruptly and the powerful water element attack was shattered by the power of space! The remaining power of space continued to pounce on Yaoyao. Lan Yi flapped his wings and saved Yaoyao narrowly.

Chapter 973: The Person Named Father (3)

“Hahaha, hahahaha!” After the masked man absorbed the power of space, he burst into laughter. The power of space attacked everyone like arrows. They could only dodge constantly and had no power to fight back at all!

This wouldn’t do at all! Yun Feng gritted her teeth abruptly. She would be in a completely passive situation!

“Fengfeng!” A voice came. Then, a pair of warm hands held Yun Feng in his arms. Yun Feng was inexplicably relieved when she smelled the familiar smell. It was Qu Lanyi. He was back!

“Why? This guy seems to be different.” Qu Lanyi looked at the masked man in front of him and couldn’t help but frown. Yun Feng nodded. “He absorbed the spatial power of his companions and became much stronger!”

“Oh?” A glint of light flashed through Qu Lanyi’s black eyes as he looked at Ling Tiansu, who was also dodging not far away. “Master Ling, I shouldn’t have said that, but I have to now.”

“What are you trying to say?” Ling Tiansu looked at Qu Lanyi, who chuckled. “Master Ling, do you know how they came in? And why the two dimension elders died?”

Hearing the mockery in Qu Lanyi’s words, Ling Tiansu’s face turned cold and a thought flashed through his mind. “That’s impossible!”

Yun Feng's black eyes glittered and she understood what Qu Lanyi meant. If that was the case, how sad would Ling Tiansu's heart be?

"Impossible? That bitch wanted to escape in the chaos after Ling Jiahua died, but I bumped into her. I didn't care at first, but this woman revealed everything. Your brother, the second son of the Ling family, didn't hesitate to use all the lives of the Ling family to exchange for the position of the family head!"

Ling Tiansu's pupils shrank fiercely! His body couldn't help but shake a few times. If that was really the case, that would be the sorrow of the Ling family! Ling Xiaoyun stood next to Ling Tiansu silently and looked at Ling Tiansu's completely stiff expression. The Ling family he tried his best to protect, the Ling family he protected, treated him like this. How could he stand this?

Ling Tiansu couldn't help but clench his fists hard with a gloomy face. Qu Lanyi glanced at the masked man with his black eyes. "Master Ling, why do you have to do this? If the Ling family treats you like this, you don't have to care about them at all!"

Ling Tiansu chuckled and looked up with an expressionless face. "Even if I die, I'll die here!"

"Leave? Hahahaha! This time, none of you will leave!" The masked man suddenly let out an ear-piercing laugh and clenched his fists hard. The space had already been distorted violently. After absorbing the spatial power of the four masked men, the power of distortion was more than four times stronger!

"Watch out!" Mu Canghai shouted as light flashed in his gray eyes. However, Mu Canghai's spatial power was repelled by this spatial power! Qu Lanyi protected Yun Feng and dodged to the side, while Ling Xiaoyun pulled Ling Tiansu aside. He waved his hand and attacked with extremely powerful spatial power!

"Hahahaha, hahahaha!" The masked man laughed wildly! "It's useless. I'll return with a full load today!"

"Damn it!" Mu Canghai's finger pressed on the gray eyes fiercely. Ling Xiaoyun also gritted his teeth and attacked quickly! Red blood slowly flowed out of the corners of Mu Canghai's eyes, but he didn't stop fighting. Ling Xiaoyun exerted all his strength. Together with Mu Canghai's power of space, the two of them still couldn't break the space controlled by the masked man!

"We have to get out of here!" Qu Lanyi held Yun Feng tightly with one hand and rushed to Mu Canghai's side. "Stop! You're not his match!" Qu Lanyi shouted loudly, but Mu Canghai didn't listen. Yun Feng saw Mu Canghai's bleeding eyes and her expression changed drastically!

"Mu Canghai, stop! You don't have the ability to turn the tide!"

"I know!" Mu Canghai shouted as he looked at the masked man with his other black eye. "But if we don't do this now, we'll all be hanged in this space!"

"Crash!" The sound of houses collapsing came one after another. The few of them looked down and saw that the houses in the Ling family's mansion had already shattered under this distorted space! The entire Ling family's mansion was instantly destroyed and it couldn't be seen anymore!

The veins on Ling Tiansu's forehead all bulged. This time, the Ling family was indeed facing a life-and-death disaster. All the members of the Ling family were buried in this distorted space! Their hearts were full of sorrow, desolation and anger!

“The Ling family...” Yun Feng looked at the mess in the house of the Ling family below. If the second son of the Ling family knew that this was the result of letting a wolf into the house, he would definitely regret it. And now, he was undoubtedly buried in this distorted space.

“Ahhhhh!” Ling Tiansu suddenly let out a loud and furious roar, like a trapped beast that was on the verge of death letting out its last cry and making its final resistance! Ling Tiansu was originally severely injured, but a powerful spatial force burst out of his body brutally at this moment. Ling Xiaoyun was pushed away by this spatial force and he watched in shock!

“Hahahaha, you’re indeed the leader of the Ling family...” The masked man noticed the spatial power that Ling Tiansu unleashed and laughed in satisfaction. The muscles all over Ling Tiansu’s body bulged and blue veins appeared clearly on his skin. He could even see the blood inside surging crazily!

Ling Tiansu’s aura completely changed at this moment, from his pale face just then to his threatening aura right now!

“He activated all the space perception ability in his bloodline.” Qu Lanyi whispered in Yun Feng’s ear. Mu Canghai gently removed his finger from his eye. Red blood no longer surged out. The moment Ling Tiansu completely erupted, the distorted space created by the masked man had already been forcefully suppressed!

Ling Tiansu suddenly raised his left hand and the great power of space advanced like a beam of light, hitting straight at the masked man. The masked man narrowly dodged, but the corners of his robe were instantly shattered by Ling Tiansu’s power of space!

The body of the masked man stiffened for a moment. As expected of Ling Tiansu. After unleashing his full strength, the man’s strength was comparable to his! However, this was more meaningful. The bloodline of the Ling family indeed had endless potential!

Chapter 974: The Person Named Father (4)

While Ling Tiansu attacked with his left hand, he squeezed the air with his right hand fiercely and the space shook. The moment Ling Tiansu retracted his left hand, he pulled his hands apart forcefully like a bow! “Argh...” Ling Tiansu roared as he opened his hands and a spatial channel appeared in front of everyone!

“Master Ling!” Mu Canghai shouted. He knew very well the consequences of what Ling Tiansu did. Ling Tiansu roared, “Go in quickly!”

“You want to leave? Impossible!” The masked man couldn’t help but feel shocked when he saw that the spatial channel was established. He really didn’t expect Ling Tiansu to have the ability to split a spatial channel! The masked man turned around and attacked fiercely. Seeing that, Ling Tiansu roared with red eyes, “Get in!”

Qu Lanyi jumped with Yun Feng without another word. The three contracted Magic Beasts immediately turned into three beams of light and followed them. Mu Canghai looked at Ling Tiansu deeply, then turned around and jumped, leaving Ling Xiaoyun alone. Ling Tiansu looked at Ling Xiaoyun with red eyes. “Go in!”

Ling Xiaoyun's lips moved. Ling Tiansu couldn't help but shout furiously, "You have nothing to do with the Ling family anymore! Outsiders don't need to interfere with the Ling family's business!"

"You're not allowed to leave!" Seeing that Ling Xiaoyun was about to leave too, the masked man launched another attack. Ling Tiansu widened his bloodshot eyes and stood in front of Ling Xiaoyun fiercely. Blood oozed out of the corners of his mouth. Ling Xiaoyun was stunned!

Ling Tiansu gritted his teeth and grabbed Ling Xiaoyun's arm, throwing him into the space channel! The masked man was going to rush into the space channel too. He couldn't let that kid leave!

Ling Tiansu, on the other hand, burst into laughter. He clasped his hands together abruptly and more blood oozed out of his mouth. His body also swayed a few times! The space channel that had been forcibly opened instantly disappeared! Seeing that the space channel disappeared, the masked man swung his hand and the power of space hit Ling Tiansu's body fiercely. Ling Tiansu's body fell from the sky!

Ling Tiansu slowly closed his eyes and felt the howling wind in his ears. The corners of his mouth curled up slowly. Very good. Ling Xiaoyun would never come back.

The Ling family, a family with a lot of influence on the East Continent and the West Continent, had always been living in an enclosed space. And now, the changes that happened in the space where the Ling family was located had already changed the Ling family beyond recognition. There were collapsed houses, messy stones and bricks everywhere, and broken limbs that were exposed from the ruins. A strong smell of blood filled the air. This had become a scene after a massacre. There were corpses everywhere and no signs of life.

A black shadow suddenly fell from the broken wall of the Ling family's mansion. The man in black robe with a broken mask fell straight down from the sky and landed in front of a deep pit. The person lying in the pit was the leader of the Ling family, Ling Tiansu!

At this moment, his eyes were red and wide open. His gaze seemed to be fixed on the other side far away. There was a seemingly reassuring smile at the corners of his mouth. The skin and flesh all over his body, including his face, were all torn. There wasn't an intact part. Ling Tiansu lay in the deep pit quietly with his fists clenched and his body completely stiff.

The black-robed man stood next to the deep pit with his mask facing it. He suddenly attacked and a fierce power of space smashed into Ling Tiansu's body. Immediately, his corpse cracked!

"Ling Tiansu, you were surprising. You ruined my business!" The masked man whispered fiercely and looked around. "Humph! It doesn't matter if the Ling family dies. It doesn't matter if you die! As long as that kid is still alive..." The masked man suddenly burst into laughter. "Ling Tiansu, do you think we can't do anything after you sent that kid away?"

The masked man suddenly jumped into the deep pit and stepped on Ling Tiansu's head fiercely. Blood flowed out of Ling Tiansu's eye sockets. "As long as that kid is still alive, we'll be able to find him. Hahahaha, hahahahaha!"

"It shouldn't be like this!" A crazy shout came from the ruins, followed by a stumbling person. Seeing Ling Tiansu's miserable state in the pit, he immediately knelt on the ground! "This is different from what

we said back then..." The man looked at everything in a daze. This man was the second son of the Ling family. After seeing such a scene in the Ling family, he had a mental breakdown.

"Humph! The Ling family is all dead. You should go down and accompany your brother!" The masked man waved his right hand fiercely and a scream came. The man had already fallen on the ground. He looked ahead with lifeless eyes with endless resentment and unwillingness.

"Hm, splitting open the space channel and struggling before he died. It seems that the place this space channel leads to is very likely to the Central Continent..." The masked man mumbled as he stepped on Ling Tiansu's head fiercely again. "Old man, you're causing trouble for me!" The masked man suddenly rose into the air and his body twisted fiercely, turning into a distorted black arc and disappearing in the space!

There was no longer any life in the ruins. The Ling family, which was extremely glorious in the past, completely disappeared from this continent on this day. Only Ling Xiaoyun continued the bloodline of the Ling family.

In the space channel that Ling Tiansu risked his life to open, Yun Feng and the others were traveling. The second the space channel closed, the space channel that had been forcibly opened shook and distorted violently. The three contracted Magic Beasts had already returned to their Rings of Contract. Qu Lanyi held Yun Feng's waist tightly and held her steadily. Both of them looked very serious. Mu Canghai followed them and his face also darkened. "The condition of this space channel is extremely unstable."

Yun Feng also felt the agitation and instability. She was thinking about something when a thought flashed through her mind. They had all come in. Where was Mo Changge? Was he still in the Ling family? "Yun Feng, are you thinking of me?" Mo Changge's voice suddenly sounded. His charming peach-blossom eyes also appeared next to Yun Feng. Yun Feng was startled. Qu Lanyi sneered. "He's terrified of death. He had already come in the moment the spatial channel appeared."

Yun Feng frowned slightly. Mo Changge chuckled. Ling Xiaoyun, who was forcibly thrown in by Ling Tiansu, also rushed over. However, his handsome face was dark and he didn't say anything. Seeing Ling Xiaoyun like this, Yun Feng wanted to say something, but she felt that it was unnecessary.

Chapter 975: Let's Go (1)

"There's no need to think about anything else. The Ling family only has themselves to blame this time," said Qu Lanyi coldly. "The reason why these masked people could easily kill the dimension elders and invade the Ling family is because there are people inside the Ling family who cooperate with them. I went to the border of the Ling family and took a look. It's indeed not bad. An opening was forcibly created in the space alert system around the Ling family. The Ling family's space alert system can't be broken from the outside."

"He's indeed the second son of the Ling family..." Yun Feng whispered. Mo Changge also sneered. "He's really willing to kill for power and that position."

“When people are blinded by power and desire, feelings are already worthless in their eyes.” Qu Lanyi’s deep voice sounded in Yun Feng’s ears. Then, he looked at Ling Xiaoyun. “Ling Xiaoyun, what do you plan to do from now on?”

Ling Xiaoyun swallowed and didn’t say anything. Qu Lanyi raised the corners of his mouth. “As the last descendant of the Ling family, do you really think you have nothing to do with the Ling family?”

Ling Xiaoyun’s temples throbbed, but he didn’t say anything. At this moment, there was a strong distortion in front of the unstable space channel! Mu Canghai immediately used the power of space without another word. Ling Xiaoyun didn’t have time to think about anything else. Yun Feng, Qu Lanyi and even Mo Changge all used their space abilities. If they couldn’t get through this distortion, they would all be hanged here!

Even though Yun Feng and the others escaped from the spatial channel that Ling Tiansu risked his life to open, his power had already been exhausted after all. Usually, the spatial channel that Ling Tiansu opened would be able to send everyone out safely, but not this time!

The spatial power of the few of them gathered together and formed a huge force! Space distorted in front of her eyes. Yun Feng only felt that her body was about to be squeezed into a different shape and the organs in her body were also about to be changed forcibly!

The power of space that everyone gathered collided with the spatial distortion forcefully, causing a strong pressure and deformation in the space! Yun Feng saw that all their bodies inexplicably bent and even changed shape! She only heard a loud “Boom!” Then, a rapid suction came. Yun Feng’s body that was forcibly squeezed couldn’t resist anymore and was instantly dragged into the endless darkness by the suction force!

“Master, Master! Xiao Feng!” Before Yun Feng regained consciousness, the anxious voices of the three contracted Magic Beasts came from her mind. Yun Feng moved her eyelids and found that her body was as heavy as lead. There was also an unbearable pain in her body. The black jade pendant on her neck was flowing with warm currents that spread throughout her body. Yun Feng knew that this was the effect of the Array of Life again.

“Master, how are you?”

“Xiao Feng, are you alright?”

The voices of the three contracted Magic Beasts seemed a bit noisy in an instant. Yun Feng grunted in confusion and suddenly opened her eyes. A beam of strong light directly shone into her eyeballs. Yun Feng subconsciously closed her eyes again and touched the place where she was lying with her hand. There was gravel everywhere she touched and she even felt a bit wet.

Could she be by the water? Yun Feng was a bit confused in her mind. After listening carefully, she indeed found the sound of water. She grabbed the ground fiercely with her hand and there was already a handful of wet soil and gravel in her hand. She slowly opened her eyes. After adapting to the sunlight, Yun Feng finally saw where she was clearly.

This was a lake with clear water. Her back was against a tall mountain and three sides were open. There were some dense bushes around her. The dazzling sunlight just then shone through the place where

there were trees. Yun Feng happened to be at the edge of the lake. She sat up and looked around. There was no one else except her.

She immediately took out the Finger Spiritual Jade. There was nothing on the Finger Spiritual Jade. Yun Feng took out the Sound Transmission Jade again. Similarly, the Sound Transmission Jade also lost its effect. It seemed that she was separated from the others. Thinking of the huge collision of spatial force, Yun Feng rubbed her head that was still in pain. Under such a collision, the impact could be imagined. It was already good enough that she didn't lose her life. She just didn't know how the others were doing.

Qu Lanyi, Mu Canghai, Ling Xiaoyun and Mo Changge were all very strong. They had no problem protecting themselves. After thinking for a while, Yun Feng wasn't worried anymore. What she needed to know right now was where she had reached through the space channel.

Yun Feng didn't explore with her mental strength recklessly. She knew that her body had suffered quite a huge blow in the collision of space. Even though her mental strength wasn't damaged much, her body was different. Just sitting up made Yun Feng feel drenched in sweat. The damage caused by the power of space was obvious.

She took out the Rings of Contract and the three contracted Magic Beasts appeared next to Yun Feng at the same time. The three contracted Magic Beasts were all in human form. Yaoyao was about to jump into Yun Feng's arms the moment she came out. Yun Feng quickly blocked Yaoyao. Yaoyao immediately noticed that something was wrong with Yun Feng and immediately asked anxiously, "Xiao Feng, where do you feel uncomfortable?"

Little Fire looked like a little boy. It raised its head and looked at the nearby terrain, looking very worried. "Master needs to recuperate. I'll go investigate if this place is safe." Yun Feng nodded. "If you find any other creatures, don't disturb them. We'll leave."

Little Fire grinned and didn't say anything. It immediately jumped into the forest. Lan Yi approached. Yaoyao wanted to treat Yun Feng with the water element. Yun Feng shook her head. "There's no internal injury. I'll be fine after taking some medicine." She flipped her hand and the medicine appeared in Yun Feng's hand. Lan Yi immediately took it and helped Yun Feng take it carefully.

"Master, are you really alright?" Lan Yi sized Yun Feng up with his dark blue eyes, fearing that something would happen to her. Yun Feng shook her head. "It's fine. I'll be fine after two to three days of recovery."

Lan Yi nodded and sat behind Yun Feng considerately, so that she could lean against him. Yun Feng leaned against Lan Yi's shoulder and slowly breathed out. She looked at the bright blue sky at this moment. Where exactly was this place? Was it the Central Continent?

Chapter 976: Let's Go (2)

Yun Feng closed her eyes gently and breathed slowly. Yaoyao sat next to her with worry in her eyes. Lan Yi, on the other hand, had been staying vigilant to prevent any accidents. After waiting for a long time, when the sun gradually set and it was afternoon, there was a sudden sound in the forest next to her. Lan

Yi immediately looked over. Yun Feng also opened her eyes instantly with a fierce glint. When she saw that it was Little Fire that appeared in the forest, Lan Yi was relieved.

“Brother Fire, how’s the investigation going?”

Little Fire rushed over in a hurry, looking a bit nervous and even a bit strange. Seeing Little Fire’s expression, Lan Yi couldn’t help but look serious. “Brother Fire, what happened?”

“Don’t ask yet. Grow wings quickly!” Little Fire roared in a low voice. Lan Yi was stunned, and so was Yun Feng. Little Fire was immediately a bit angry. “Grow wings quickly!”

Wings immediately appeared on Lan Yi’s back. Little Fire quickly held Yun Feng and pushed Lan Yi out. “Fly!”

Lan Yi was even stunned. Yaoyao looked at Little Fire in confusion. “Where do you want Brother Lan Yi to fly to?”

Little Fire let out a wolf howl. “Don’t make me say it again! Fly quickly!”

Yun Feng’s black eyes darkened and she pondered. Lan Yi only felt a bit confused. He immediately flapped his wings fiercely and was about to rise into the sky, but something unexpected happened! Lan Yi, who was about to leave the ground, fell on the ground again in a sorry state!

Seeing this scene, Yaoyao’s jaw dropped in shock. Yun Feng’s black eyes glittered, while Little Fire mumbled thoughtfully, “Wings indeed don’t work...”

Lan Yi fell on the ground in a sorry state. After getting up from the ground, he wanted to fly again, but the result was the same! It was as if there was an invisible hand in the sky that pressed Lan Yi down forcefully!

Lan Yi tried a few times with the same result. He retracted his wings and looked at Little Fire, panting. “Brother Fire, what’s going on? Why can’t I fly?”

The corners of Little Fire’s mouth twitched a few times. At this moment, Yun Feng said, “It seems that the Lord Level can’t fly here.”

Little Fire suddenly widened its eyes. “Master, how did you know?”

“You asked Lan Yi to fly obviously to see if he, who already has the ability to fly, can break this rule. Obviously, this rule has nothing to do with species. Even birds are also restricted in some way.”

Lan Yi nodded. “Indeed. When I was about to leave the ground, I only felt a pressure coming down from above my head. My body couldn’t withstand such pressure at all and I fell straight down!”

Yun Feng pondered in her mind. It seemed that the Lord Level was strictly restricted here. The Lord Level experts, who could be considered the top on the East Continent, were even deprived of the ability to fly here. This place undoubtedly belonged to the Central Continent. Such a situation wouldn’t happen anywhere on the East Continent. The rules here were obviously different from those on the East Continent!

Yun Feng's current strength was at the early stage of the Lord Level. She had just entered the Lord Level not long ago. She had always been looking forward to the levels above the Lord Level. Now that she was deep in this mysterious continent, she understood that she, who was at the Lord Level, could only be at the bottom. There would be more powerhouses above the Lord Level. Her journey of training had turned a new page.

A few more sounds came from the bushes nearby. Yun Feng narrowed her black eyes and the three Magic Beasts also looked vigilant. Yun Feng quickly looked at the surrounding terrain. Whether it was a human or a beast, they had to hide immediately! The Lord Level could do whatever they wanted on the East and West Continents. But they might very well become prisoners here!

Glancing at the calm water surface, Yun Feng's black eyes brightened. The three Magic Beasts immediately understood. Lan Yi jumped into the lake with Yun Feng, Little Fire and Yaoyao in his arms. There were quite a lot of ripples on the water surface because of such a tremor. Yaoyao immediately flipped her hand and the blue water element blocked the ripples forcibly. The water surface finally calmed down again. One person and three Magic Beasts were hiding at the bottom of the lake. At the same time, the bushes suddenly shook and two figures jumped out.

"After going around for a long time, we finally found water! I'm so thirsty!" It was two humans. They were wearing simple clothes and had ordinary facial features. Their body figures were even average.

Seeing the two of them approach the lake, Yun Feng and the others all stepped back a bit without batting an eyelid. In their sight, the two of them walked to the lake, picked up the water, and drank it, looking like they were thirsty. Unexpectedly, one of them stuck his head into the water! Yun Feng was shocked in her mind. She flipped her hand and the dragon-shaped jade pendant appeared in her hand. Immediately, everyone entered the Dragon Palace, and the appearance of the Dragon Palace instantly turned into a drop of water, merging into the lake.

Yun Feng couldn't help but feel relieved in her mind. This wasn't bad. With the ability of the Dragon Palace's transformation, Yun Feng controlled the Dragon Palace to keep approaching the side of the lake. Since it was a moving water drop, those two people couldn't notice it at all. Their clear conversation also came from outside.

"Hm? I think I saw someone in the lake just then?"

"Someone's here?" There was a splash. The other person must've stuck his head in too. After a while, the voice came. "Are you seeing things? There's nothing in the lake."

"But I did see it just then..."

"Alright, who cares if there's anyone here? Let's go after drinking the water!"

The two of them drank a few mouthfuls of water again. The water drop formed by the Dragon Palace floated on the surface of the lake and their conversation came again. "Yu San, how long until we reach the Central Region?"

"At our speed, we should be able to reach there in another three months."

"Phew... When can we get rid of the rules of heaven and earth... I'm almost exhausted..."

“Pray that you can surpass the Monarch Level in three months, or you’ll die in the Central Region.”

“Hey, do you think we have a chance to enter the Central Region...”

“Who knows? If we want to live longer, we certainly have to fight our way into the Central Region. If we enter the Inner Region one day...”

“Hahaha, stop dreaming. The Inner Region? With your cultivation level, you can forget about it for the rest of your life!”

Chapter 977: Let’s Go (3)

“F*ck off! Are you done drinking? If you’re done, go! We have to reach Chongyuan in three months, or we’ll have to wait another few decades!”

“Damn it, there’s always such a long time gap between the openings of the Central Region and the Outland. Aren’t we just left to fend for ourselves in the Outland?”

“What do you think? Let’s go, let’s go...”

In the Dragon Palace, Yun Feng heard the conversation between the two of them clearly. Even though she wasn’t quite sure about the Outland, the Central Region and the Inner Region, she had finally got a rough idea of the geographical environment. Realizing that the two of them were about to leave, Yun Feng immediately controlled the water drop formed by the Dragon Palace. As a gentle breeze blew, a blue water drop fluttered from the surface of the lake and instantly touched one of their clothes. The water drop didn’t melt immediately and stuck to it like an ornament. There were even spots of light reflected under the sunlight.

After drinking the water, the two of them, who were about to set off again, didn’t notice this at all. They just went on their way with this inconspicuous blue water drop.

Yun Feng’s red lips curled up slightly. She certainly had to let these two people lead the way. Her mental strength also slowly seeped out of the Dragon Palace for a test. After a little test, Yun Feng immediately withdrew her mental strength and the person who was carrying the Dragon Palace obviously noticed Yun Feng’s test.

“Wait! I felt that someone was testing me just then!”

His companion looked at him suspiciously. The two of them stopped for a while. “Are you too paranoid? Let’s go!”

The person who was tested was obviously confused, but the feeling of being tested just then was so clear. However, there was no one around at all! Was he really thinking too much? The two of them continued moving forward. In the Dragon Palace, Yun Feng looked a bit serious. In the short moment of testing just then, she found that this man’s strength was at the peak of the Monarch Level! From the conversation between the two of them just then, these two people were obviously small figures who lived at the bottom. Such two people had both reached the Monarch Level!

The Central Continent... What kind of a continent was it? On the East Continent, the Monarch Level was the level of a powerhouse, but here, it was... a very ordinary level?

"The difference is too great..." Yun Feng mumbled. If this was really the Central Continent, then the Central Continent and the East Continent were two different worlds! The difference in strength was the biggest difference! If the powerhouses of the East Continent and the West Continent came to the Central Continent to take a look, they would probably feel ashamed of their inferiority!

"Master, the strength of the powerhouses here is truly terrifying..." Lan Yi mumbled. If these two men were both at the Monarch Level, then what about the real powerhouses? Judging from this, the Lord Level was anything but special here!

"That's truly unusual!" Little Fire said. It originally had a great sense of superiority when it advanced to the Lord Level. Now that it was here, this sense of superiority completely disappeared. The Lord Level Magic Beast was just a small fry here.

"From their conversation, it seems that the Outland and the Central Region are completely separated. The only way to enter the Central Region is to reach the Lord Level," said Yun Feng in a deep voice. The two of them had probably been at the peak of the Monarch Level for a long time. It wasn't impossible for them to reach the Lord Level in three months, but it depended on luck.

"So, the Lord Level is the lowest threshold to enter the Central Region. In other words... the masters gathered in the Central Region are all above the Lord Level!" Yun Feng said as the enthusiasm in her heart couldn't help but boil. She had always yearned for the advancement of her strength. When she was on the East Continent, she didn't think the Lord Level was the peak. Now, the level above the Lord Level wasn't a mystery anymore. She certainly had to explore it! And the Yun family... was also on the Central Continent. With her current strength of the Lord Level, she couldn't help the headquarters of the Yun family much!

"There's also the Inner Region in the Central Region. I'm afraid there are other areas in the Inner Region." The more Lan Yi spoke, the more serious his expression became. The Lord Level was simply a low level here. Just this inexplicable spatial rule restriction was enough to explain this!

"There's indeed a long way to go..." Yun Feng said casually. In the end, she burst into laughter. "But this is more exciting, isn't it? If we reach the end of this road just like that, it'll be too boring."

"You're right, Master! I don't want to be despised by other Magic Beasts here!" Little Fire said furiously. Lan Yi chuckled and looked at Yun Feng's elegant and charming side profile. If it were someone else, would he have had a different experience? Even though Lan Yi didn't know anything else, he knew that if it were someone else, he would definitely not be so convinced.

"Let's let these two kind people lead the way during this period of time." Yun Feng sat down on the spot and slowly closed her eyes. Three months was enough for her to recover from her injuries. With these two kind people leading the way, she certainly didn't have to worry about what to do next. Chongyuan, the place where the Outland and the Central Region connected. Everything would naturally be revealed once she got there. And what she needed to do during these three months was to wait calmly.

In the Dragon Palace, the three contracted Magic Beasts stayed next to Yun Feng quietly and cultivated with their eyes closed. Yun Feng sat in the middle, breathing steadily and long. Her beautiful little face

was glowing with a faint luster, like a larva that had been waiting for a long time to break out of the cocoon and spread its wings to soar!

Three months passed slowly. The Dragon Palace was silent. The tiny water drop that the Dragon Palace transformed into had been stuck to this person firmly. It didn't move at all, no matter if it was blown by the wind or by the sun. Fortunately, the water drop was too small, or it would arouse the suspicion of the two of them sooner or later. The conversation between the two of them reached the Dragon Palace clearly in the past month, which made Yun Feng certain that this was the Central Continent, because the phrase "Central Continent" appeared more than once during their conversation. Yun Feng finally had a rough idea about the geographical environment of the Central Continent.

The geographical environment of the Central Continent was more standardized and the rules were more strict than those of the East Continent and the West Continent. Through the conversation between the two of them, Yun Feng temporarily sorted out some information about the Central Continent. At the moment, it seemed that the Central Continent was divided into the Outland, the Central Region and the Inner Region, and there were extremely strict rules in each area.

Chapter 978: Feng Yun (1)

Usually, every area was absolutely independent. Nobody could easily cross between areas. Yun Feng didn't know the reason. According to the conversation between the two of them, if she wanted to enter the Central Region, she could only do so through this opening. If she missed this opportunity, she wouldn't be able to enter the Central Region no matter what.

The two of them didn't talk about the opening time between the Central Region and the Inner Region. Rather than saying that they didn't talk about it, it was better to say that they didn't know about it at all. The difference in strength between the three regions was quite huge. The threshold to enter the Central Region was the Lord Level. Even if someone below the Lord Level entered the Central Region, they would only die. They probably wouldn't be able to survive in the Central Region for a long time. This was Yun Feng's understanding.

In these three months, the two of them complained a lot. As Yun Feng guessed, the two of them were from the Outland. Most people living in the Outland didn't have a noble identity and their background was also very low. They could only rely on their own strength to keep climbing up. The Outland was like a battleground in the slums. However, even though killing happened often, it wasn't a coincidence that these two people traveled together. Walking together in the Outland was the safest guarantee.

The situation in the Outland was quite chaotic. It was a completely barbaric environment. Life and death here weren't worth mentioning at all. People in the Outland tried their best to step into the society of the Central Region. Only by stepping into the society of the Central Region could they get the status and wealth they wanted and live a slightly more stable life.

There were certainly many experts in the Central Region. It certainly wasn't a place where you could attack whenever you wanted. Compared to the extremely chaotic area in the Outland, it was countless times more stable. These two people didn't rush to the Central Region with all their minds to attack the experts. They knew their limits very well. They only wanted to live a relatively stable life in the Central

Region, so that didn't have to live in fright every day, fearing that they wouldn't be able to see the sun tomorrow.

During the three months, Yun Feng had been observing them in the Dragon Palace. They were highly vigilant both during the day and at night and they encountered more than one danger along the way. Fortunately, these two people were quite strong and they both survived. Yun Feng followed them and truly understood the chaotic situation in the Outland.

The rules on the Central Continent were very strict, so the difference between levels was also very obvious. The background was a good example. People born in the Outland could only blame their bad luck. They had nothing else except their own hard work. Those who were born in the Central Region or the Inner Region were different. Being born in the Central Region and the Inner Region represented a certain superiority. If they were lucky enough to be born in a large family, they would basically have no worries for the rest of their lives and it wouldn't be difficult for them to reach the road of the strong at all.

The two of them only said a few words about this. It could be heard that they were envious and unwilling to admit defeat to those who came from noble families, but there was nothing they could do. This was an unfair world to begin with.

If you wanted to talk about fairness, you had to climb to the same level as the other party desperately. Only then would you have the confidence to talk to him about so-called fairness.

The two of them chatted a lot along the way and were also talking about something just then. Suddenly, a clamor came to the Dragon Palace. Yun Feng slowly opened her black eyes and the three contracted Magic Beasts all moved one after another, followed by even more noises.

"Tut-tut, another two guys who overestimate themselves and want to enter the Central Region. Now that we've encountered them, hand over all the good stuff you have!"

Yun Feng's black eyes glittered. The two of them had encountered a lot of things along the way, but it seemed that they had encountered a gang this time. It wasn't that the two of them had never encountered robbery, but there usually weren't many of them. The two of them could more or less deal with it with their own strength. However, the many voices that came in this time indicated that they had encountered more than a single digit of bandits.

Things were indeed as Yun Feng expected. At this moment, these two men were surrounded by a large group of people. There seemed to be more than twenty of them. The man in the lead had a tall and sturdy body and a ferocious scar on his face, which made him look even more ferocious. His beast-like eyes sized up these two men, who clearly didn't have much money, obviously with a dissatisfied look.

"How much money can those people have? Brother!" The other people also shouted in dissatisfaction. The two men were surrounded in the middle and looked at these people nervously. Facing so many people, they didn't have any chance of winning at all. The strength of these people wasn't just for show, especially this leader, Brother Scarface. His strength was obviously above theirs!

The two of them stood back to back carefully and endured the gazes of the dozen wolves around them. They were thinking in their minds how much chance they had of surviving once the battle began. The man with a scar on his face grunted and the irritable lackeys on the side immediately stopped talking.

“You two! Hand over everything you have that’s valuable! If you cooperate, I’ll consider keeping you alive! If you don’t, I’ll rob you of your money first, and then your lives!” The man with a scar said this with a ferocious look, which indeed made the two men feel scared in their minds. However, they really didn’t have anything valuable on them at all except some money.

The two men looked at each other and searched their pockets, taking out a small bag each. The man with a scar was immediately enraged after seeing that! “F*ck, how dare you fool me!”

“We don’t have anything!” The two of them quickly explained.

“Don’t play tricks on me! I’ve seen a lot of people like you! You all pretend to be poor. You must have a lot of good stuff on you!”

Yun Feng, who was in the Dragon Palace, couldn’t help but smile after hearing this. The man’s accusation was indeed ungrounded. Yun Feng knew very well if these two people got anything from following them along the way. The two men only smiled wryly after hearing that. Some people pretended to be like this on purpose, but they indeed didn’t have anything valuable!

“Boss! There seems to be something glittering on the corners of this person’s clothes!”

Hearing the word glittering, everyone glanced over at the same time. The two of them were also stunned. Glittering? The man being pointed at subconsciously looked at the corners of his clothes and indeed found something shiny. It was a crystal clear water drop!

Chapter 979: Feng Yun (2)

When did he get it? The man picked up the water drop curiously and put it in his hand. He was shocked to find that the water drop was real!

“Master, they noticed.” Little Fire suddenly stood up. Yun Feng chuckled. “People who want to get rich all over their minds certainly have sharp eyes.”

“Brother Fire, even if they discovered it, they wouldn’t know what it is.” Lan Yi smiled. Little Fire rolled its eyes in boredom and put its arms behind its head. “They’re still a group of idiots!”

The water drop formed by the Dragon Palace lay quietly in the man’s hand. It didn’t melt at all because of the temperature in his palm, but the man who was holding it had a weird look on his face. His companion was the same. How long had this thing been stuck to him? And... weren’t the water drops liquid?

“F*ck, I already said that I’ll spare your lives if you cooperate with me. How dare you mess with me? Do you think I’m an idiot?” The man with a scar smashed his fist into the ground fiercely and a few huge cracks appeared on the ground! The two men looked at each other. They really didn’t know what this thing was. This killed them!

However, what the man with a scar said aroused the anger of his lackeys. The group of people who wanted to rob them were obviously completely enraged. The dozens of people surrounding them immediately rushed forward. The expressions of the two of them immediately changed when they saw this. Two against dozens of people, the difference was too huge!

Run! Run desperately! Both of them had the same thought in their minds, but it wasn't easy to escape from the siege of dozens of people! Yun Feng stood in the Dragon Palace and suddenly sneered. Her mental strength instantly expanded rapidly through the Dragon Palace. When the Lord's aura spread through the water drop formed by the Dragon Palace, the lackeys who wanted to besiege her immediately fell in all directions, and the man with a scar widened his eyes!

"F*ck, you're at the Lord Level!"

The two men were immediately stunned again. The Lord Level? They were clearly at the Monarch Level, but they also felt the aura of the Lord Level just then. The two of them didn't say anything, but their eyes were focused on the water drop transformed by the Dragon Palace! The aura of the Lord Level just then came from here!

"How unlucky. We've met two people at the Lord Level. Brothers, let's go!" The man with a scar wasn't stupid, but his mind was full of doubts. These two people were clearly at the Monarch Level, but what was with that aura of the Lord Level? These two people were indeed pretending to be weak. Did they want to rob them instead? Damn it, these two people had guts!

The man with a scar quickly retreated with his brothers. This robbery ended quickly like a farce, leaving the two confused men looking at the little water drop in their hands, not knowing what to say.

In the Dragon Palace, Little Fire leaned aside lazily. "Master, why did you do that?"

Yun Feng chuckled. "These two people have carried us so far. We have to return the favor."

Yaoyao nodded. "We'll do whatever Xiao Feng says!"

Yun Feng touched Yaoyao's little head, but there was an undercurrent in her black eyes. She was afraid that they would have thoughts they shouldn't have after she helped them.

After the robbers left, the two men looked at the strange water drop in their hands in a daze. Greed immediately rose in their hearts. Who wouldn't want good stuff, especially this thing that could emit the aura of a Lord? It must be something extraordinary! If they could own it, it would be quite helpful in the future! As soon as this thought flashed through their minds, Yun Feng said coldly in the Dragon Palace. Her voice spread out of the Dragon Palace with the powerful pressure of the Lord Level!

"I only helped because you led the way during this period of time. You'd better suppress the thoughts you shouldn't have in your mind obediently!"

Once Yun Feng's voice came out, the two of them were so scared that their faces turned pale. They subconsciously turned around and looked again. There was no one? One of them belatedly pointed at the water drop formed by the Dragon Palace. The two of them were immediately shocked. "You... You're inside?"

Their probing voices came into the Dragon Palace. Little Fire grunted in disdain. Yun Feng replied loudly, "I'm indeed inside this water drop."

The two men immediately stared at each other for a long time and suppressed the greedy thought in their minds fiercely. The person living here was at the Lord Level. They weren't this person's match. This thing obviously belonged to this person too. They should give up this thought.

Both of them were relieved. “Why are you following us?”

“I’m just going to Chongyuan. I’m not very familiar with the way,” said Yun Feng in a deep voice. The two men burst into laughter after hearing that. “You’re going to the Central Region too, right? It should be quite simple for you to enter the Central Region. Why do you have to suffer so much following us?”

Yun Feng noticed that the two of them had already abandoned the greed in their minds, so she started talking to them. “The two of you are at the peak of the Monarch Level. Is the rule so strict about entering the Central Region?”

“You don’t know this, but the bottom line is extremely strict. It’s fine for us at the peak of the Monarch Level, but it’s impossible for those who aren’t at the peak of the Monarch Level to enter the Central Region.”

Yun Feng frowned slightly. Where did this come from? Wasn’t the so-called level just the difference in strength? According to what these two people said, it seemed that they still needed to pass some test?

“You don’t seem to know much about these things. Are you an independent cultivator?”

Yun Feng chuckled. “That’s right. I’m indeed an independent cultivator. Apart from cultivating my strength, I don’t care about anything else. I only learned that the Central Region is about to open recently, but I don’t know where it is.”

“Haha, no wonder! Independent cultivators have a weird personality. This is the first time I’ve seen someone hide in this water drop like you! How long did it take you to reach the Lord Level? A hundred years or more?”

The three contracted Magic Beasts couldn’t help but smile. A hundred years? Yun Feng was only in her early twenties. Excluding the nine years before, Yun Feng had risen to the Lord Level in only thirteen years. This speed would make people’s jaws drop even on the Central Continent.

Chapter 980: Feng Yun (3)

Yun Feng didn’t answer, and the two of them didn’t ask anymore. However, they both treated Yun Feng as a senior who was very outstanding in age. “Senior, you saved us just then. We haven’t asked your name yet. We’ll remember it and we’ll definitely repay you in the future.”

“No need. I’m only returning your favor. You don’t have to worry about it.”

The two of them chuckled and didn’t ask anything else. “Senior, since you’re an independent cultivator, there are many things you don’t know, right? If you don’t mind, we can tell you.”

Yun Feng was worried that she didn’t know the situation on the Central Continent. Even though these two people lived in the Outland, they were at least people who lived on the Central Continent. They certainly weren’t unfamiliar with this land and they knew as much as they could. Yun Feng agreed readily. The two of them explained the situation of the Central Region opening to Yun Feng in detail as they rushed.

“Every hundred years, the passage between the Central Region and the Outland will be opened. At that time, people who have cultivated to a certain level in the Outland will come to Chongyuan to try their luck. Naturally, those who have reached the Lord Level can enter the Central Region. Those below the Lord Level can enter the Central Region through another way. If luck is proportional to strength, they can also enter.”

“Another way?”

“Right, the other way is to fight with Magic Beasts. Everyone who hasn’t reached the Lord Level and wants to enter the Central Region must fight with a Magic Beast at the Lord Level. If they’re lucky enough to win, they’ll be qualified to enter the Central Region.”

In a battle with a Lord-Level Magic Beast, how would these people, whose strength was lower than the Lord-Level, be able to defeat a Magic Beast that already had the advantage? This other way indeed didn’t depend on strength, but on luck.

“Do I have to fight alone against the Magic Beast?”

“You can fight it alone, but you’d better find a teammate if you want to live. The limit of the team is two people. We’ll challenge the beast as a team this time so that we can have a higher chance of winning.”

Even if the two of them worked together to face a Lord-Level Magic Beast, they probably wouldn’t have much chance of winning against a team with the highest limit of two people, but it was better than fighting alone. “Did any individual succeed in fighting?”

“Of course not. Those pitiful solo challengers all died in the hands of Magic Beasts without exception. Countless people die in that arena at this time every year, but even so, there are still people who rush forward one after another and fight to the death to enter the Central Region.”

After hearing what the two of them said, Yun Feng was quite shocked in her mind. They risked their lives to enter the Central Region? Was life in the Outland so difficult? Even if countless people died, there were still people who were willing to join them. The desire to climb up in the bones of humans was truly terrifyingly stubborn.

“Senior, we’ll reach Chongyuan in a few days. Will you still be here by then?”

Yun Feng chuckled. “Of course I’ll be out by then.”

A few days passed in the blink of an eye. The two men saw the city of Chongyuan from afar and immediately shouted happily, “Senior, we’re almost there!”

Yun Feng stood up in the Dragon Palace and thought for a moment. It was time to go out! The two men looked at Chongyuan with anticipation in their eyes. For them, this was a chance to turn their lives around. The water drop formed in the Dragon Palace floated from one of their hands and emitted faint light. The two of them quickly looked away and looked at the water drop, wondering what this senior looked like.

A few beams of light surged out of the water drop and the light gradually faded. The few people wrapped in the light were also gradually revealed. Yun Feng grabbed with her hand and the original

dragon-shaped jade pendant flew into her hand again, directly entering the dimension container. When the two men saw this senior's real face, they were completely dumbfounded.

How was this a senior? This was clearly a girl! And the few people next to her, a little girl, a little boy and a young man, where did these people come from?

"Chongyuan is up ahead?" Yun Feng ignored the dumbfounded expressions of the two of them and looked into the distance. The two of them immediately came back to themselves after hearing this voice. It was really that "Senior"!

"Ah... Ah, right! Right!" The two of them stammered as their hearts pounded. Such a young Lord was rare in the Outland. This couldn't be a Young Lady who sneaked out of a family in the Central Region, could she?

The moment Yun Feng came out, she felt a kind of powerful momentum and also understood that the population on the Central Continent far exceeded that of the East Continent and the West Continent! At this moment, the few of them were standing on a small hill. They could see the vague outline of the Central Continent. And around the Central Continent, there were people rushing towards the Central Continent from all directions, like a grand gathering. There were so many people that it made people click their tongues!

"S-Senior, let's go!" The two men suddenly felt a bit embarrassed when they called her that. Yun Feng smiled and picked Yaoyao up. Little Fire and Lan Yi followed her and the group also went to Chongyuan. The short walk along the way made Yun Feng realize even more clearly that the number of people rushing to Chongyuan was beyond her imagination! Especially when they reached a thousand meters outside of Chongyuan, the dense crowd in front almost drowned the road ahead and more people rushed here behind!

"There are so many people..." Yun Feng was a bit shocked to see the dense crowd. The two men chuckled. "How can there not be a lot? How many years has it been since we've waited? Of course we'll come as long as we can!"

The crowd that looked like ants was moving forward slowly. Yun Feng moved a few steps and looked back. There was already a dense crowd behind her again. The noises shook the sky and everyone's face was mixed with anticipation, seriousness and nervousness. Little Fire put its arms behind its head lazily and glanced at the people around with its pure black eyes. Lan Yi also observed the people around with a serious look. There wasn't any chaos among so many people. It had to be said that this was a very strange phenomenon.

"After entering Chongyuan, people who haven't reached the Lord Level will automatically enter the arena. Senior, you can move freely in Chongyuan. If you want to go directly to the Central Region, you can ask the specific personnel. We don't know anything else."
