

Super D. S 1001

Chapter 1001: Windless, ghost body?

"A Wu Jian Dan, ten lower-level crossings, how?" The head of the auction house immediately asked.

Dudan Dan is the currency used by the Supreme Three Difficult Realms, similar to the Supreme Dan. The blood rock used by Ye Xuan was only used in the blood rock.

"Five thousand pieces of Jian Jian Dan, that is, 50,000 lower-level crossings, I don't want to cross the hard Dan, and directly exchange me for forging ore, are there?" Ye Xuan asked.

"There are some, blood rocks, black sands... all in the auction house." The head of the auction house nodded.

"That line, I am waiting for you here."

Ye Xuan's mouth is slightly tilted.

These five thousand Wu Jian Dan are all his net worth, but after swallowing these things, his net worth will at least skyrocket up, and the guarantee can break through to three triples.

Then, the head of the auction house left directly. After a while, he returned and took a lot of ore.

"This is the VIP token of the store. With this token, you can make a 20% discount. These ores are already given to you after the discount..." The head of the auction house gave the same token and the ore ring with the ore.

Ye Xuan probed it, and the number was indeed a little more than he estimated.

"Well, this is five thousand Wu Jian Dan."

He also did not talk nonsense, directly took out a Qiankun ring, which contained 5,000 pieces of Jian Jian Dan.

"Thank you for your official position." The head of the auction house took over and looked at it, and continued: "If there is Wu Jiandan in the future, you can come to me at any time and the price is fair."

"can."

Ye Xuan nodded, even if he left straight.

He has to find a place to swallow the ore and say that as long as he swallows up, he can break through, and the super-phagocytic crystal will definitely turn up several times.

"Hey, the host breaks through, it's really hard to be triple!"

After finding a hidden place, Ye Xuan was swallowing up things and successfully broke through to the triple reality.

"Small day, all the rest is for you."

Ye Xuan poured out all the ore very generously, and Megatron devours it for ten seconds.

After the Megatron became the landlord, the speed of engulfing the ore was astonishing, almost as fast as the super-phagocytic system.

"Hey, Megatron breaks through!"

"Hey, Megatron breaks through!"

Two consecutive prompts sounded.

Ye Xuan's realm needs too much, but Megatron does not need it, and Megatron also has the growth of the blood of the beast, so the upgrade is like a rocket.

"The super-phagocytic crystallization is four times more than before. If you can redeem it indefinitely, I can break through to the four-fold infuriating..."

Ye Xuan thought in his heart.

Unlimited exchange, is to sell Wu Jian Dan, and then exchange the Tiancai treasure, and then swallow, and then continue to exchange Wu Jiandan.

However, the demand of the auction house is also certain, and there are not so many Wu Jian Dan.

Just when Ye Xuan was ready to go back and sell some points to Wu Jiandan, the sky suddenly sounded like a loud noise.

"Booming!"

Ye Xuan brows a pick, the heart secretly said: "What is going on?"

This voice is no less than when he was killed in Sima's home that day. It seems that someone is fighting.

Out of curiosity, Ye Xuan decided to look at the past, as did the people on the street, plundering the source of the sound.

However, after Ye Xuan rushed over, it was discovered that the movement was from the Sima family.

"Sima has done so many things that hurt the world, and finally it was retribution. The day before yesterday, he was killed by a mysterious strongman. He died a lot of masters. Today, there is another master of iron face who has been killed. Even the family has been killed. It is."

"It's terrible, the extent of the battle is the most intense one I have ever seen in my life."

"The Sima family ancestors have already smashed out and played against the iron master."

"This iron-faced master is really in a difficult position, which is lower than the Sima family ancestors, but the iron master has realized the perfect level sword, which is incredible."

The surrounding spectators were discussing, these words, did not fall into the ears of Ye Xuan.

"Iron master, five heavy gas is difficult, perfect level sword?"

Ye Xuan's brow was picked.

In the past few days, he was very sensitive to the iron surface, because the ghost bodies sent by the ghouls were all wearing iron faces.

However, this ghetto should not be to chase him, how can he kill the Sima family?

Ye Xuan did not understand, but there was a guess in his heart.

This iron master, can't it be the wind that disappeared the day before yesterday?

The wind is dust-free, it is four-way, it is really difficult. After being hurt by love, it suddenly broke into the five-fold real gas, and he happened to understand the perfect level sword. He also killed the iron-faced female ghost.

The most important thing is that you have a hatred with Sima!

It's a coincidence that I think about it.

Whether or not, Ye Xuan has to go and see.

"Boom!" "Boom!" "Boom!"

The deafening voice kept ringing, Ye Xuan stepped up, and soon came to the Sima family.

At this time, in the air of the Sima House, there are two figures in the fight.

These two figures, one is a white-haired old man, and the other is a long-haired man with a iron face.

"Long hair, iron face, wind and snow swordsmanship?"

Ye Xuan brows a pick, at this time the two are in his range of induction, he quickly sensed, found that the long-haired man with iron face, is the wind.

"Sure enough, it's dustless!"

Ye Xuan can be sure, but he feels that something is wrong, rushing to see with an insightful eye, the next moment, he is shocked.

At this time, the dust-free body actually had the same flame as the iron-faced devil in the same day, and it was even bigger than the iron-faced ghost.

"What, the wind is now a ghost?"

Ye Xuan was shocked.

How is it possible that the ghosts are dusty?

You must know that at noon the day before yesterday, he was still in the air. After the afternoon wind broke through the "good things" of Small and Bao Qin, it disappeared.

It's hard to be done. At that time, the dust was captured by the ghosts of the ghouls, and then they were made into ghost bodies.

However, the ghost body seems to be an unconscious thing. Why is it that the wind is clean and why will it kill the Sima family?

"No, the corpse imprint in my body has not yet been triggered."

At this time, Ye Xuan suddenly thought of a crucial point. The distance triggered by the gull mark is wider than his perception. Generally, he first signs the gull mark, and then he senses that the iron face ghost is killed. .

But now, he has seen the wind clean, but did not trigger the gull mark, which shows that the wind is not a ghost.

No, it can't be completely explained that the wind is not a ghost, and it should be said that the dust may not be a ghost.

"What's the matter?"

Ye Xuan's mind is already a mess, and he can't figure out the situation. If he does, he doesn't want to, let's look at the situation first.

Chapter 1002: Spike the city owner

"Mixed things, who are you, and who was the one who joined our Ma family the day before yesterday?"

Sima's ancestors yelled.

"You are a horse, **** it!"

The wind under the iron surface is dust-free, drink a low sentence, and continue to attack the Sima family ancestors.

Can talk!

Ye Xuan heart trembled.

He remembered a little more, that Yang Zhen seems to be a defective product, but also speaks. This shows that the wind can now be similar to Yang Zhen, and it is also a defective product, or a ghost body that has not been refining.

Since you can talk, then it is easy to handle. This means that the wind is clean and like Yang Zhen, and there is still consciousness before life.

But when Ye Xuan was shocked, the situation in the air suddenly changed. The wind was full of dust and a sword. He even flew the six-figured Sima family ancestors, and a broken arm was thrown up, blood from the air. Chic, falling into the eyes of everyone.

"It's so strong, it's a perfect level sword!"

Ye Xuan swallowed the swallow. If he was to deal with the wind now, he would not be able to beat it without three big moves.

This wind-free and the chasing of Ye Xuan's iron-faced little ghosts the day before yesterday is the same as the five-powered qi, and they all understand the perfect level of swords, but they are much more powerful than the iron-faced little ghosts.

"dead!"

At this time, the wind in the air roared silently, and a sword fell. The next moment, the ancestors of the Sima family were cut off their heads and the body fell from the sky.

Now, the dust is also a goal.

Ye Xuan hurriedly wandered around, put on a suit, and then plunged into the sky, saying: "Old wind, what is your situation?"

The wind and dust heard this, but also turned around and looked at Ye Xuan.

Although Ye Xuan changed his body, he did not reveal his true face, but the wind was clean but he recognized his voice.

"Man, are you killing?" The wind is cold and cold.

Ye Xuan understands who the 'people' in the dust-free mouth is, that is, Smal, so he nodded directly: "Yes, the day before yesterday."

"Thank you!"

After the wind and dust said a word, it turned and left.

"Hey, old wind, don't leave!"

Ye Xuan rushed to catch up.

Available at this time.

"You dare to dare to kill people in Xingyang City, leaving your life!"

A violent rush came from the horizon, and a burly man came to the fore.

Needless to say, this burly man is the master of Xingyang City, a master of seven serious difficulties.

"kill!"

The wind that was ready to leave was dust-free. After seeing the arrivals, there was no retreat. It was just a cold speech and an attack.

"Okay, join hands!"

Ye Xuan is also nonsense, directly to the earthquake sword, the next moment, he is the Super Saiyan transformation.

"The Eye of Brilliance!"

"Summon the God of Gold!"

An infuriating spurt out of his body, condensed into a powerful gold armor.

This scene falls into the eyes of the people below.

"The trough is the mysterious master who had been killed in the Sima family the day before yesterday. These two people really are a group."

"My day, a perfect level of sword, a triple is really hard, is this going to join forces against the city owner?"

"Rewind, this level of fighting is not a joke."

The onlookers quickly retreated a long way.

At this time, Ye Xuan and the windless dust have already played against Xingyang City.

"The sword is returned to the sect!"

Ye Xuan directly throws out the second card.

This Xingyang City owner is seven hard and hard, and he is four higher than him. He doesn't come up with some real skills. If he dies, then he will be embarrassed.

At the same time, comprehending the wind of the perfect level of swords, it is also a sword.

"The ghost is crying!"

At that time, the wind whistling.

The color of the sword without the dust is actually incomparably dark, which makes Ye Xuan shocked.

In the next moment, he saw this sword and suddenly separated hundreds of black shadows. The hundreds of black shadows began to swell, and finally they formed a grimace and flew toward Xingyang City.

"Hey..."

These hundreds of ghosts, constantly making a cry of screaming, can not help but hear a chill.

What is this Nima?

However, they all understand that this long-haired iron-faced person must be a demon outsider, and even practiced such martial arts.

But the next moment, this group of onlookers was shocked.

Hundreds of ghosts have been surrounded by the main city of Xingyang City, which is really difficult. It is followed by the pain of the Lord Xingyang City.

Ye Xuan stared at it. With the eye of insight, he could see through the ghosts that the Xingyang City Lord had been scratched by these ghosts, and even the aorta of the neck was cut, but he did not have any ability to break away from the ghost. The entanglement of the shadow.

In the blink of an eye, the owner of Xingyang City, who is really hard to bear, is killed by hundreds of ghosts.

And Ye Xuan's Wan Jian's return to the sect and summoning the **** of gold was wasted.

"What kind of ghosts is this Nima? It kills the seven people who are really hard-working. The city of Xingyang City has not seen it for a day. The strength of the dust-free city has skyrocketed more than ten times?"

Ye Xuan couldn't help but swallow the mouth, he was already shocked by the strength of the wind.

Originally, he thought that even if it was combined with the wind and dust, it would be difficult to deal with the Xingyang City Lord, but I did not expect that the wind had no chance to kill the other side.

In fact, I did not even think of the wind and dust, the power of this move is so great.

However, he has realized the perfect level of swords, but in fact it is the past.

"Slow, the seven-way instinct is hard to beat the strong!"

Ye Xuan looked at the body that had fallen from the sky, and my heart was not calm.

At this time, he only remembered that under him, there were Sima family ancestors and three five-hearted corpses that were still confiscation.

However, these are all dusty loot, so he did not accept it.

The wind and dust will naturally not let go of these, and quickly rushed over, ready to accept the Qiang Kun ring.

It is at this time.

"The demon, dare to make trouble in my Wanhua Valley site, and come to life!"

A violent voice fell into everyone's ears, and then, that was a powerful breath.

This breath is strong enough to let Ye Xuan feel guilty, and even the dust-free figure is trembled.

Nine is really hard!

This is a woman in a pink dress. When she appears, she gathers the vitality of the surrounding world. The fragrance that comes out of her body is inspiring. The people underneath hate not to **** two.

The wind has not been dusted yet, and the Xingyang City Lord's singularity is not charged, but it is being smashed by a sword and smashed out.

"Not good, too strong, withdraw!"

Ye Xuan's face changed greatly, and immediately swept to the side of the wind and dust, and then directly broke a door of the void, with the wind and dust through.

"Want to go, a hundred flowers contend!"

"Hey!"

At the moment when the door of the void is closed, there is a true flower bursting open. If Ye Xuan and the wind are still in the place, I am afraid it has been blown into powder.

Chapter 1003: Thrilling escape

The woman is from Wanhua Valley, and is also the top level of Wanhua Valley. She happened to come to Xingyang City, but it hit the wind and dust to kill Sima master and Xingyang city owner.

Xingyang City is located in the Wanhua Valley site. There are many disciples in Wanhua Valley who will come here to hang out, so this female strongman can't stand it.

Fortunately, Ye Xuan also has the emptiness of the eye of the void, otherwise it will fall to the wind today.

"Where, scared me, I even met a strong and hard-working strong man, and I would have to be killed if I stayed for another second."

Ye Xuan was so badly dusty that he landed an hour away from Xingyang City.

The wind is also a sigh of relief, and then said: "Thank you."

Now that the crisis has been lifted, the woman does not know where they have escaped, so they do not need to escape.

"No dust, what's the matter with you? The day before yesterday, there was a little iron corpse chasing me. The body has the same flame as you. What is this?" Ye Xuan asked awkwardly.

"ulterior motive!"

The wind is clean and there is no concealment. Directly: "My body has been planted with a ghost."

"ulterior motive?"

After hearing the name, Ye Xuan's figure trembled, and the name sounded a bit horrified.

"After I left, I met a ghost corpse. The strength of this ghost corpse reached seven points. I was not an opponent, and he was taken away by him."

The wind began to remember without dust, telling Ye Xuan about the situation of the day.

Hearing the wind and being dusted, Ye Xuan's face sank again and asked, "And then?"

"This ghost corpse is obeying the ghouls, the ghost corpse took me away, and then forced me to plant a ghost in my body, wanting to refine me into a ghost corpse, but my will is constantly resisting, this ghost can not be bred"

When the wind was clean, it was paused, and then it continued: "Then, this ghetto said that I can perfectly integrate the ghosts. As long as I voluntarily merge, then he will give up and kill you."

Give up hunting!

Hearing this, Ye Xuan did not know what to say.

"I agree, but I have a condition, that is revenge. Now that my hatred has been reported, in a few days I will become a ghostly corpse controlled by the ghouls and listen to his orders." Dust.

"What is this ghost? The ghosts we encountered before did not have this ghost." Ye Xuan asked strangely.

"Ghosts are made from ghost spirits. The ghosts we encountered before were very low-level. After they were planted with ghosts, they could not bear the power of the ghosts. Therefore, the power of the entire ghost was dispersed to various parts of the body, strengthening the body. ""

The wind and dust explained: "And I can perfectly integrate the ghosts. As long as the perfect fusion, then this ghost will not be wiped out, and it will continue to grow."

"I won't consume it?" Ye Xuan frowned.

"Yes, so I have to go to the land of the dead. The ghouls will continue to provide me with ghosts and strengthen them." The wind nodded.

Now, Ye Xuan finally understands.

The ghost corpses that he encountered before were actually transformed from ghosts. Once they were planted, unless they were perfectly integrated, they could only use the ghosts to strengthen their bodies.

The perfect blend of ghosts can be reinforced with ghosts and then fed back to the body.

"Do you really want to do this?" Ye Xuan sighed.

"The ghouls know my origins, if I resist, the snow-capped mountains will be destroyed. Anyway, my enmity is reported, no regrets." The wind shook his head, and then stood up.

He was injured by the strong and hard-working man of Wanhua Valley. After the treatment of the ghost, his injury has already recovered more than half. Although it is not comparable to the blood of the **** of life, it is also very powerful.

"The ghetto ghost is a demon outside, not necessarily credit." Ye Xuan continued to remind one.

Now that the wind is clean and conscious, as long as he resists, the ghosts cannot be merged, and maybe they can be discharged.

But once he voluntarily merges, he will become a ghost corpse, that is, a living corpse without consciousness.

"If I resist, Fengxue Mountain Villa will be destroyed in the first time. I only promised that there will be a chance." The wind was dusty and emphasized once.

The ghouls have eight ghosts of martial arts, and their strengths may have reached the threshold of God. After all, he is mixed in the land of the dead, but there is a place more chaotic than the **** cemetery.

"So, do you know what the corpse ghosts are?" Ye Xuan asked again.

"I don't know, there will be a ghost corpse taking me to find him." The wind is shaking without dust. "In the future, Fengxue Mountain Villa will ask you. If they ask me, they will say that I have traveled."

"This....."

Ye Xuan did not know how to answer it, because this wind is like saying the last words.

However, it is also true that once it is perfectly integrated with the ghost, his will will be obliterated. Although there will be vital signs at that time, it is actually a walking dead.

"I should leave, just say goodbye." The wind is dusty against Ye Xuan, and even if he turns his head directly, he will leave.

What he said today is probably more than the previous ones, but after he left this time, he might not be able to speak anymore.

Ye Xuan looked at his back, and his heart was not a taste.

strength!

It is because of strength!

The ghouls are superb and the strength is not so simple. If the wind is not clean, then the snow-capped mountains will be dead, which is even more dangerous than the Sima family.

The wind is not as dusty as Ye Xuan. He has a lot of concerns, so he can only choose to surrender to the ghouls.

However, it is not this that leaves Ye Xuan worried.

The ghouls are practicing magic, not the right way.

The people of the Magic Road are moody and speechless. If the wind and dust are perfect and the ghosts are combined and become an unconscious ghost, the ghouls will even order the people in the snow-capped mountains to be slaughtered. do not know.

This is what Ye Xuan is worried about.

In fact, Ye Xuan really wants to help the wind, but he does not know how to help.

However, if there is a chance, Ye Xuan must hack the ghoul, and then throw the body into the wild to feed the beast.

"Breakthrough, we must break through as soon as possible!"

Ye Xuan's light flashes.

This incident gave him another sense of powerlessness. He had only seen the face four times.

The first time was to bring the wind and dust from Xuejia to Fengxue Mountain Villa. The second time was the volcanic village attacking Fengxue Mountain Villa. The third time was to drop to Wanhua Valley. The fourth time was this time.

But don't forget, Ye Xuan is now a member of Fengxue Mountain Villa. However, there is no such thing as wind and dust. Ye Xuan really has no way.

Chapter 1004: Hunting continues

Ye Xuan is now not even able to fight the seven-powered city owners, let alone the eight-powered ghosts in the dust-free mouth.

"Now, Xingyang City must be in a mess. The nine-powerful masters of Wanhua Valley should have remembered me. If I was accidentally discovered, then it would be a dead end."

Ye Xuan thought about it and felt that he could no longer wander around Wanhua Valley, or find another place.

The wind has been gone, he promised that the ghouls will voluntarily integrate the ghosts after revenge. Now that he has left, I am afraid that it will not take long to start the fusion, and then become a ghost corpse, follow the eight-powered ghost. The land of the dead.

In case, just in case, Ye Xuan still took a look back at the void, but fortunately, nothing happened in Fengxue Mountain Villa.

Fengxue Mountain Villa and Wanhua Valley, this is the two void positions reserved by Ye Xuan. As for the next, he has already had a goal.

The land of the dead!

The land of the dead is much more chaotic than the **** cemetery of the mainland. Although Ye Xuan's current state is not high, his means are numerous and he can escape in the hands of the nine serious

and hard-powered, as long as he does not encounter God. The martyrdom of the strong should not be a problem.

Therefore, he decided to go to the land of the dead, to raise the realm there, and to investigate the ghetto.

If he can, he will save the wind.

At the moment, he took out a map and plunged toward the land of the dead.

The general triple is really hard, and the land of the dead will be scared to death, and Ye Xuan dares to go in, and the courage is too big.

"I don't know when I will come across a random mission that rewards the swallowing point. In this case, I have three points to swallow. At that time, you can choose to fall or Megatron."

Ye Xuan thought while he was on the road.

Before his two points of swallowing, he did not use it, and he kept it.

Because the swallowing point is used in the upgraded super swallowing system, it can be exchanged, advanced pets, etc. The fall and Megatron's advances require three points to swallow, so Ye Xuan has been kept.

After the advancement, it seems that the blood of the beast **** can be changed, and the strength is greatly improved.

Megatron is now being made into a magic weapon, and Ye Xuan lives and dies together. As long as Ye Xuan is alive, it will not fall. If it is advanced again, let's not say the increase of Ye Xuan, maybe it will let Ye Xuan get strong skills again, which can greatly enhance the strength of Ye Xuan.

Because the land of the dead is far away, it takes at least seven days for Ye Xuan to travel at full speed.

Therefore, he simply let the rush to the road, and the deity to do other things, such as selling medicinal herbs and so on.

Ye Xuan spent more than a day and rushed to another city. This city is called the Wolf City. The city owner is stronger than the Xingyang City Lord. It is really hard.

At this time, Ye Xuan has already seen the city of the city as a giant wolf head.

However, it is at this time.

"Hey, the gull mark is triggered!"

Suddenly a reminder, but I was scared of Ye Xuan.

How is the ghoul imprint?

Ye Xuan is awkward.

Doesn't it mean that as long as the wind and dust are compromised and the ghosts are voluntarily integrated, will the ghouls give up and chase him?

"The **** ghoul, if you can't believe it, Nima will chase me again."

Ye Xuan angered a word, while gnashing his teeth, it was already cursing the whole family of the ghouls.

He is not afraid of himself. He is afraid of the accident at Fengxue Mountain Villa.

Now his avatar is rushing to the land of the dead, but fortunately, the avatar has been immediately positioned, and then broke into the void and came to the deity.

"fit!"

Ye Xuan's deity and avatar instantly merged into one, and the strength soared by 30%.

At the same time, there is also a figure that has entered his range of induction.

"This breath..."

Ye Xuan brows a pick, and now he feels this breath is very familiar to him, before he encountered, that is, the iron face of a small ghost.

When he turned his head, he saw that the little iron corpse had killed him.

When he met the iron face of a little ghost on the same day, after a hard fight, he found that the iron face of the little ghost could recover the injury, so he left the void directly. After all, he couldn't get much benefit. Why waste energy?

However, this time, he has broken through to the triple-real gas, which is a higher level than the day.

However, what surprised him was that the iron face was not seen for a few days, and Nima broke through.

Six weights are really hard!

"Cut, I used up my cards that day. Isn't I still afraid of you today?"

Ye Xuan did not care, but the next moment, he had a new idea.

Nowadays, he and the iron-faced little devil are three different levels. If you use the eye of control, you don't know if you can control this iron-faced ghost.

If it is controlled, then you may know the location of the ghoul.

"Okay, just do it!"

Ye Xuan said nothing, directly using the eye of the iron face of the iron face that he killed.

"The Eye of the Illusion!"

"The Eye of Burning!"

Although it is said that this iron face is called to the ghetto, it is actually a person, and it may be useful.

Ye Xuan looked at the iron face of the little ghost. Because the iron face of the little ghost was wearing a mask, Ye Xuan could not see its expression, but Ye Xuan felt the other person's body tremble.

it works!

Of course, this refers to the usefulness of mental attacks.

The iron noodle corpse went a long way and then slashed around, seemingly in a illusion.

"This ghost is still a human being. It is also a illusion, a good opportunity!"

After Ye Xuan saw the movement of the iron face, the eyes could not help but brighten. The next moment, he directly used the eyes of control.

"Hey, control failed!"

The system prompts.

Ye Xuan does not believe in evil, continue to use the eyes of control.

"Hey, control failed!"

"The Eye of Burning!"

"The Eye of the Illusion!"

"The Eye of Burning!"

On the same day, killing Ye Xuan's iron-faced little ghost, he could not break the illusion and attacked all around, so he could not pose a threat to Ye Xuan.

However, its control is a ghetto, Ye Xuan wants to control, not so simple.

"The pits, the control is really a bit difficult. If you can't control the power consumption, then you can kill it."

Ye Xuan made a decision in his heart.

"The eye of control!"

"The Eye of Burning!"

"The Eye of the Illusion!"

The iron face of the little ghost has been arguing in the air, and Ye Xuan is watching from a distance. At this time, Ye Xuan's enthusiasm is about to bottom out. Although the gods have already reached the fourth level, the speed of recovery cannot catch up with the speed of consumption.

Chapter 1005: The ghost is crying!

Ye Xuan holds the earthquake sword and is ready to kill the iron face.

However, it is at this time.

"Hey, take control of success!"

Suddenly a tone sounded in Ye Xuan's mind.

Successful?

Ye Xuan stunned a bit, he actually managed to control the iron face of the little ghost, this is a six-figure, and understand the perfect level of swordsmanship.

At the moment, he is in his mind to send orders to the iron face ghosts.

The iron face ghost stopped the movement in his hand and took off the iron face worn on his face.

This is a young boy who is chasing Ye Xuan's iron face. He is a handsome face under the iron face. He must be as handsome as Ye Xuan when he grows up.

However, this iron-faced little ghost was devoid of gaze, and after plundering Ye Xuan, he was kneeling down on one knee.

"See...over...master..."

The iron face of the little ghost was slowly opening, and the sound was a little hoarse.

It is at this time.

"Hey!"

Suddenly a muffled sound spread, the body of the iron face of a small ghost suddenly burst into a white gas, and then condensed into a white skull on the head of the iron face.

"Hey, you actually controlled my ghost body, you have to say, you are a bit resistant."

The white girl opened her mouth and spoke.

"Ghosts, do you mean that you are no longer chasing me?" Ye Xuan frowned.

"Hey, that windy mountain village is also a force. If I destroy it, it will cause a lot of trouble, but you are alone, I want to kill and kill." The white girl said in a mocking tone.

Ye Xuan's eyes sighed, but he was relieved. Although he did not know what the ghoul's trouble was, he was relieved.

"The dust has now become a ghost corpse?" Ye Xuan asked.

It's been two days before the wind and dust have left. He estimates that the dust should be already...

"Yes, he is now coming to the land of the dead. At that time, I will train him into the first ghost! As for you, I will not give up, I will also make you a ghost, listen to me."

The white **** suddenly smiled.

Ye Xuan's triple-hard realm is to control the six iron-clad little ghosts, which is beyond the expectations of the ghouls.

Such a genius, maybe even like the wind and dust, perfectly blends the ghosts, so the ghouls don't want to miss them.

"Hey, why don't you report your whereabouts, I will visit the door!"

Ye Xuan blinked and shouted in a cold tone.

"Oh, my place, I won't tell anyone unless you have become a ghost."

White hoes go back.

"But I have already controlled him." Ye Xuan's eyes fell on the iron face of the ghost.

"How about that, without my guidance, you can't find me. But I will give you a chance to come to the land of the dead..."

The white **** has not been finished yet, and it was interrupted by Ye Xuan: "Are you stupid?"

"Oh, it doesn't matter, anyway, my ghosts are countless, you can run, I will catch you..."

When the white **** is finished, it is '嘭' and it disappears.

"Your grandfather."

Ye Xuan couldn't help but roar.

He knows that this ghetto is trying to provoke him to go to the land of the dead. By then, there will be more powerful ghosts to arrest him.

At the same time, he can also guess from the words of the ghouls, the ghouls do have a lot of ghosts, but the strength of the ghosts here should not be strong, the top nine is really hard, the ghoul seems to be taboo So I dare not make a big move.

Now, Ye Xuan has to re-plan a plan.

"The land of the dead, can't go now, unless it breaks a few more times..."

Ye Xuan thought in his heart.

Now he is a triple-hard sorrow. If you want to go to the land of the dead, at least you have to break through to six heavy gas, so you may be qualified to swear with the ghoul.

"No matter what, the advanced city will say."

When Ye Xuan finished, he once again set his sights on the handsome boy and said, "What is your name?"

"Yu Wen...innocent..." The boy replied slowly.

I don't know why, his voice is very hoarse, and it is a bit stuttering, probably because of the will to be erased.

"Except for the name, do you still remember the previous things?" Ye Xuan asked strangely.

"No...remember..." The boy shook his head.

Sure enough, after the integration of the ghost, the teenager only remembers his name.

"The ghosts in this unsophisticated body are smaller than the dustless ones. It seems that there is no perfect integration, but it is not all used to strengthen the body. It should be only semi-perfect."

Ye Xuan guessed.

Thinking of this, he also feels sorry, because the wind is no longer a ghost, and become a hither of the ghoul.

Having said that, since this iron-faced little ghost has been collected, Ye Xuan is also welcome, and directly plucked the scorpion of this iron-faced little ghost.

"Well? The ghost is crying?"

Ye Xuan suddenly found something that made his eyes shine.

This is a super high-level martial arts, and the quality is not low, so Ye Xuan is also welcome, directly spent some super-phagocytic crystals, learned this martial arts.

"The sneaky screams are crying. Every time you need a ghost, you must first seal the ghost to the Supreme Lingbao."

Ye Xuan took a look at the description and found that this move was the one that hit the Xinyang City Lord in the dust.

"It turned out to be that trick!"

Ye Xuan's eyes suddenly turned bright and turned and asked: "When you chase me that day, why not, is it not practiced?"

Yu Wen nodded unconsciously, and he did not practice this trick.

Seeing Yu Wen unconsciously nodded, Ye Xuan also played a chill, if the day Yuwen unintentionally used this trick to scream and scream, he would be stunned by the hundred ghosts.

terrible!

Ye Xuan swallowed the swallow and continued to check out the ring.

In this Qiankun ring, there are more than a dozen black fires. These black fires are big and small, and it seems to be the ghost.

"Fifteen, it seems that you can use fifteen sneaky screams, but if the ghosts are used up?"

Ye Xuan thought of a problem.

But then, he found another thing in this ring.

"Basic Ghost Road!"

This basic ghost road is not a martial art. It is just a description of some ghosts. However, there are ways to refine the ghosts.

If you want to refine a ghost, you must first kill one person, then arrange a ghost array, concentrate the resentment of the dead, and then condense into a ghost.

Then, capture the ghost spirit and refine it into a ghost.

"This method is too ferocious. If people die, they will not let go. This is even more ferocious than the whip. I will save it."

Chapter 1006: Magical!

"This method is too ferocious. If people die, they will not let go. This is even more ferocious than the whip. I will save it."

Ye Xuan shook his head. Although he killed countless people, he still couldn't do such a thing. After all, this is why people can't reincarnate.

As for the rest of Yu Wen's unintentional slogan, there is nothing that can make Ye Xuan look at the eyes. It is a material for arranging ghosts and refining ghosts.

However, in order to prevent it, Ye Xuan still keeps it.

"Repair the dragon hand!"

"Hey, the dragon hand repairs up to 50%!"

The system prompts.

This fierce ghost is crying and breaking. It is the top quality martial arts, and it has a lot of Chinese products, so it has been repaired a lot.

Now, Ye Xuan can confirm that this dragon hand should be a supernatural power.

"I didn't expect the **** patriarch to get a distraction of the magical powers. It really took the big fortune!"

Ye Xuan lamented.

Then, he is going to seal the ghost into the earthquake sword according to the method of the basic ghost.

"Huh!"

Unexpectedly, when Megatron suddenly broke out, he turned into a green bird and shook his head.

"Why, are you not willing?" Ye Xuan asked.

This fierce screaming and crying needs to seal the ghosts into the weapons before they can be used, and Megatron is a conscious magic weapon, and naturally does not want to catch up with this thing.

"Well, then I will redeem a weapon."

Ye Xuan did not insist on searching for it in the super swallowing system, and finally locked it in a top-grade Lingbao that was called the Bone Sword.

However, this white bone sword is a bit expensive!

Although it is a bit expensive, but Ye Xuan respects the meaning of Megatron, so he still exchanged this white bone sword, and his super swallowing crystal suddenly fell.

The white bone sword is made of a bone. The blade is sharp and there are two gray shackles at the hand guard. It seems to be awkward.

However, the super-phagocytic system does not indicate what bones are made.

The reason why Ye Xuan exchanged the white bone sword was because the white bone sword did not seem to be made of human bones, and the second was because the white bone sword had a damage bonus to the magical martial arts, which could enhance the power of the screaming and screaming.

"Yes, it is a deputy weapon. When Megatron uses Wanjian to return to the sect, he can use this white bone sword to fight..."

Ye Xuan is still satisfied.

On weekdays, once he uses the sword to return to the sect, he will re-take out a Supreme Lingbao to fight, but now he has the Shoujian Supreme Lingbao-level white bone sword, you don't have to do that.

If you can find a spiritual spirit in the future, you can also create a magic weapon. At that time, there will be strong skills like the swordsmanship.

Now, Ye Xuan is also considered to be handling the spoils.

"You will follow me. Don't run around after you go in." Ye Xuan said unconsciously to Yu Wen.

Qingxiu young Yu Wen nodded silently and followed Ye Xuan.

Yu Wen didn't really die, even after taking a special refining ghost, it is still a human appearance, so there is nothing to follow Ye Xuan into the city.

Soon, they both entered the Wolf City, and then Ye Xuan went straight to the auction house.

Now his super swallowing crystallization, can also be exchanged for five thousand Wu Jian Dan, so he wants to use these five thousand Wu Jian Dan white hand to start.

"Welcome two guest officers, what do you need?"

The two have not yet entered the auction house, and a waiter has come over.

"Sell some high-quality remedies!"

Ye Xuan replied.

"Okay, please come with me." The waiter's eyes lit up, with Ye Xuan and two people.

However, he felt a bit strange. Ye Xuan, who was in front of him, had no interest in Yu Wen's inability to walk behind. Why?

But he knew that he couldn't take care of himself, so after taking Ye Xuan to the box, he went to find an auction house supervisor.

After seeing Ye Xuan and Yu Wen unintentionally, the head of the auction house also stumbled.

With his four real and difficult realms, he couldn't see through Yu Wen's unintentionality. This means that Yu Wen's heartlessness is at least five-fold, but it's hard to be six-fold, and this qualification is even if you look at the entire Wolf City. It is.

Soon, Ye Xuan sold Wu Jiandan. The price of this Wolf City is higher than that of Xingyang City. One Wu Jian Dan can exchange fifteen lower-level crossings.

Five thousand Wu Jian Dan is seven thousand five hundred, half higher than Xing Yangcheng.

Of course, Ye Xuan all requested to be replaced by Tiancai.

"I still have about 15,000, do you need it?" Ye Xuan asked.

"Yes, want!"

The editor of the auction house hurriedly nodded.

"Okay, let me get it!"

Ye Xuan nodded, even if he took Yuwen unintentionally to leave the auction house, and then found a remote place to swallow all the heavens and treasures, and then exchanged 15,000 Wu Jiandan.

He once again found the head of the auction house, in exchange for three times the treasure of heaven.

"This auction house sells and then goes to other auction houses to sell..."

Ye Xuan's mind is so planned.

A few times more, he can break through to the four heavy gas.

However, just as he left the auction house, just one young man came in.

The young man was dressed in a brocade suit, holding a large folding fan in his hand, followed by two attendants, and his strength was five. The two attendants behind him were actually six levels of difficulty.

After he entered the door, he also looked around in a circle, but when he swept Ye Xuan, his body trembled.

"It's you?"

The young man exclaimed subconsciously.

"Ok?"

Ye Xuan, who was coming out, stepped in a footstep and stunned. The young man looked at him in this direction. Could it be that he knew him?

However, the next moment he understood, this young man did not know him, but knew Yuwen behind him.

"Is there something?" Ye Xuan asked with a frown.

"go away."

The young man immediately angered a word and walked quickly to Yu Wen's innocence. He said: "Good boy, it's really narrow, and I killed two of my men last time. Now I'm hit by it. Today you want to run!"

When Ye Xuan heard this, he turned his head and looked at Yu Wen.

Before Yu Wen's inattention, he was controlled by the ghouls to chase him. On the way, he might have provoked someone, and then he shot him.

Now, I just happened to run into the other side.

However, Yu Wen is unintentional now is Ye Xuan's person, as the owner, Ye Xuan can not sit and watch.

Of course, the biggest point is that this young man has let Ye Xuan roll and go, this is really looking for death!

"How, killing people can't admit it?" The young man glared at Yuwen's innocence. The former recalled the things of the day and was a little surprised.

On the same day, Yu Wen wandered around unintentionally and was stared at by the youth. However, Yu Wen's unintentional strength was strong, and the young men's four men were shackled, and he almost died.

Later, Yu Wen had no intention of sensing the gull mark, so he immediately chased the past and the young man escaped.

Chapter 1007: Send welfare

Although it was said that Yuwen had no iron mask on the day, he could not see his face, but today he is showing his true face, but the young man still recognizes it at a glance.

Ye Xuan didn't know this. He looked at the young man and said faintly: "If you don't want to start, just go and go."

"What are you talking about?" The young man turned his head and glared at Ye Xuan.

On that day, he was almost inadvertently killed by Yu Wen. That is because in the wild, I met Yu Wen in the Wolf City today. Can you let it go?

"There is a kind of hands-on, no species will go out, I have no time to accompany you nonsense." Ye Xuan did not put the other party in his eyes.

Five weights are really hard?

Just kidding, killing!

"The three districts are really hard to breathe, and dare to talk to me like this?" Fans youth eyes are about to come out.

Ye Xuan turned his eyes, in fact, he can directly control the two goods with the eyes of control, but after the control, he is not good at killing people.

"You want revenge, go out of town!"

After Ye Xuan finished, he turned and left.

"Hey, look for death!"

The young man was cold and he followed.

On that day, although he was unintentionally killed by Yu Wen, he did not stay, but at that time it was because his attendant had only five martial arts. After that day, the family was given two six-hearted servants.

Two, can't you still do it, but Yu Wen has no heart?

At the moment, Ye Xuan is taking Yu Wen's heartlessly and straight toward the city gate.

The young man also followed closely, for fear that Ye Xuan and Yu Wen suddenly ran away, but his fears were superfluous, and Ye Xuan would not miss the opportunity of this upgrade.

Soon, they came outside the city of Wolf.

"You don't escape?"

When the young man followed Ye Xuan to the outside of the city, he asked aloud.

"Why do you want to escape?"

Ye Xuan's mouth is slightly tilted.

He feels that the identity of this young man is not ordinary. There must be a lot of wealth. As long as he has married this young man, he will almost be able to break through to the four.

"Well, since you can't escape, you can die here!" The youth is no nonsense, and directly confronts the two six-powerful and powerful men behind him: "Kill them!"

"Yes!"

The two attendants sighed low and they went out and the two men cut a sword.

Originally, I had to deal with a kid who was in his teens. They didn't need to be dispatched together, but they felt a little strange, just in case, just together.

"Are you alone?"

Ye Xuan turned to ask Yu Wen for his innocence.

"Row....."

Yu Wen nodded silently.

The same six is really hard, Yu Wen has no reason to fear them. After all, he has realized the perfect level of swords, coupled with the strengthening of the ghosts, to an enemy two is not a problem.

"Oh, kill him."

The youth is cold.

The next moment, the two attendants were killed together.

Yu Wen's heartlessness is also holding a long sword and welcoming it.

In the blink of an eye, they are fighting.

"Kid, I can't beat him, can't you help me? Just dare you let me go, my courage is not small!" Young people, regardless of the other side of the battle, slowly walked toward Ye Xuan.

Ye Xuan looked at him and smiled. "I advise you not to do it, or you will be miserable."

"awful?"

After listening to the youth, I immediately laughed out. "I am a five-figure, hard-working, you are three-powered, can you challenge me more than two levels?"

"If you don't believe it, then you may wish to try."

Ye Xuan said slowly, only silently took out the white bone sword, he wanted to keep the young man in the end, but if he died, Ye Xuan would not mind in advance.

"Go to death!"

It is impossible for young people to spare Ye Xuan and directly shoot.

But the next moment, he just saw a real palm in the vicinity.

"Hey!"

The strength of the youth is not weak, and Ye Xuan's dragon hand is defeated. However, while he defeated the dragon hand, Ye Xuan did not know when he had killed him.

"Oh!"

One arm was thrown up, and the young man wearing the left hand of the Qiang Kun ring was smashed, and the blood spurted out from the wound.

"Hey!"

Ye Xuan kicked out and kicked the youth directly.

The young man was stupid, and he saw Ye Xuan take off his Qiang Kun ring. He blinked his arm in the blink of an eye. Is this still a three-powered warrior?

"kill him!"

His reaction was quick, and he immediately screamed.

Unfortunately, at the same time, his two attendants were also stunned by Yu Wen.

Double kill!

Just kidding, when Yuwen had no intention of killing the young attendants, even the perfect level swords were useless, even if they met two opponents at the same level, what about?

"Playing a small, old one will usually play, I will give you a chance, go back and call someone."

Ye Xuan shouted at the youth.

The young man looked at the two heads in a wrong way, and his face was stunned, but he also hurriedly climbed up and rushed toward the Wolf City. At the same time, he sipped in his mouth: "Help, I am the Han family, Han Wei, fast. help me....."

This is the only way Han Wei is still arrogant. In the twinkling of an eye, he is full of blood to rescue the soldiers. But what he did not think is that those who guarded the city gates are just a little surprised, and they have no intention of shooting.

Ye Xuan is a hand moving outside the city, not in the city, and there is no crisis in their lives, why bother to mix this water?

And Ye Xuan, is waiting quietly outside the Wolf City.

I have to say that this time he found a good hitter. Yu Wen had no intention of chasing him, but now he has been conquered by him. This is a genius that is comparable to the seven.

"Hey, the host breaks through, it's really hard to be four!"

After getting the three Qiankun Rings, Ye Xuan heard a system prompt.

The four-way is really hard, and in Ye Xuan's estimation, it is almost possible to kill the seven powerful players.

If you use a hole card, even the eight-powered and powerful guy can fight.

Of course, even if Ye Xuan now hits the nine-powerful Wanhua Valley strong man on the same day, I am afraid I have to be beaten to the floor.

This is the city of Santo Wolf Yaesu difficult infuriating strong, but not Han Santo, leaves Villa only an estimated seven out of heavy hard infuriating master beat him, just so he can handle it.

Within a few minutes, Hanwei, the broken arm, reappeared. At the same time, he also brought a lot of helpers. Among them, there are two more breaths than Yuwen.

"Oh, that's them!"

Han Wei saw that Ye Xuan and Yu Wen were still here, and immediately spurned the bitter water to the middle-aged man next to him.

The middle-aged people heard the words and did not talk nonsense. They immediately angered and said: "Up, let them down!"

The Han family is also a family with a head and face in the Wolf City. Now the Han family has been cut off by an arm. This is really a face.

Chapter 1008: Spike!

Just after this group of Han masters, there are a large number of residents of the Wolf City, they are all seeing the Korean family, so they all keep up with the good show.

In the meantime, there are more than a dozen Han masters who have no intention of killing Ye Xuan and Yu Wen, but all of them are six strong and difficult.

Faced with so many masters, Ye Xuan did not take it for granted. He just clenched the white bone sword. The next moment, his hair and eyes were turned into gold.

The eye of glory!

"The Emperor's Promise Sword, give me a bang!"

Ye Xuan suddenly leaped high, and a huge golden sword that was condensed in the air was directly smashed.

This group of Han masters thought that this was only the attack of Ye Xuan, and they were ridiculed after they avoided it.

However, when they relaxed, a powerful impact was exerted on them.

The Emperor's Promise Sword, not by cutting, but by earthquake.

"Booming!"

The earth is like a broken end of the world, and accompanied by the sound of the bones of the Han family.

"Hey!" "Hey!" "Hey!" "Hey!"

The sound of the road was spread, but it was covered by the fissile sound of the earth.

In the eyes of everyone, the thirteen six-figure Han family masters, all of them are as soft as octopus, seven holes bleed, and the death is very miserable.

Their whole body bones, as well as the internal organs and even the heads, have been shattered, and it is too much to say that they are not dead.

Ye Xuan's move, directly killing thirteen six-figured masters, shocked the audience.

"How can this be?"

Han Wei's father's eyes widened, and he threw thirteen six-figure masters who couldn't even do it.

"Second brother, let me join forces to kill them!"

Han Wei's father immediately responded, and after a big bang, he killed the other with a seven-year-old master.

Although the Han family is good in the Wolf City, it is really difficult for the 13 people to be six heavy. This is not something that the Han family can afford.

If you do not report this hatred, the Han family will not be able to stand in the Wolf City.

The two seven-powerful masters joined forces to fight against Ye Xuan and Yu Wen, and at the same time, Han Wei was still looking at it.

Suddenly there was a bad hunch in his heart. He was thinking that if even his father and his uncle were broken here, the Han family would be finished.

However, the arrow has been off the string, it is too late.

"One person!"

In the face of two seven-powered masters, Ye Xuan also said to Yu Wen unintentionally, the latter silently nodded, but also killed.

It's hard to be four, and it's hard to be seven. It's three realms in the middle, but Ye Xuan is not afraid.

"Let me try a new trick!"

Ye Xuan glimmered and threw out the Zhentian sword in his hand. The Zhentian sword was changed from Megatron. In addition to using Wanjian to return to the ancestor, he could attack himself.

Megatron came out and plunged directly toward Han Wei's father.

At the same time, Ye Xuan's right hand was suddenly clawed out.

"擒龙手!"

A golden palm appeared out of thin air, trying to catch the Han family, but the Han family was cleverly hiding.

When he turned his head and looked at Ye Xuan, he found that Ye Xuan had already pulled out a black sniper.

It happened that this black sniper suddenly took out hundreds of black shadows, and the wind suddenly began to roar.

"The ghost is crying!"

This trick is the skill of Ye Xuanxin, but unlike ordinary martial arts, this trick is not proficient, but it requires a ghost to launch.

After Ye Xuan exchanged the Bone Sword, it was already sealed with a few ghosts. This time, he just wanted to see the power of the screaming.

Hundreds of ghosts rushed toward the Han family, and the latter hurriedly raised their hands to break up the ghosts, but because of the large number, they were still being smothered.

"Oh!" "Oh!" "Oh!"

After a crisp sound, it was the miserable pain of the Han family. Although the power of these ghosts was not strong, they suddenly smashed dozens of past and no one could stand it.

The owner of the Korean family is a strong and hard-working man, just like the city owner of Xingyang City that day, but the single-day wind has no chance to kill the city of Xingyang City. However, the sneaky ghosts used by Ye Xuan are crying but unable to strike. Kill the Han family.

Although the power of crying and smashing has a white bone sword increase, the wind and dust are comprehending the perfect level of sword, so it is possible to kill the Xingyang City Lord.

In general, it's good to cry out.

"The power is not enough, and it is not affected by the eye of glory, but it is enough. If I understand the perfect sword, the power of this move will be greatly improved."

In the heart of Ye Xuan's heart, he saw the home of the Han family blasting all the ghosts.

He only tried to test the power of the screaming and screaming. Now, it is necessary to move the real thing.

"擒龙手!"

"The Eye of Burning!"

"The Eye of the Illusion!"

"The Eye of Silence!"

"Wind and Snow Sword!"

Ye Xuan's moves are endless, and with Megatron's attack, the Han family, who was already smashed by ghosts and tears, was so bloody.

"Han family, is it dead?"

Those who are stacked in front of the city of the Wolf City are all exposed to the gloom.

The home of the Han family, seven people are really angry, even the chances of not even being shot are killed.

Moreover, killing him is still a four-powered boy.

"What is the golden sword, is it so powerful?"

"And, this kid will also use the martial arts of the Magic Road. When did the surrounding Mozong appear such a character?"

"Look, the other side of the Korean family can not hold on."

"Perfect sword level, heaven, turned out to be the perfect level of sword, how big the kid is."

Everyone turned their heads and finally found Yu Wen's unintentional extraordinary.

A teenager, comprehending the perfect level of sword, this is simply against the sky.

Of course, the most shocking one was Han Wei, who was cut off by Ye Xuan.

Before he thought it would be easy to kill Ye Xuan, but did not expect that he and Ye Xuan's strength is so much worse, was easily squatted down his arm.

After that, he rushed back to the Han family to rescue the soldiers. Both the father and the uncle came, but did not expect that his father was killed by Ye Xuan.

Han family, finished!

At this time, Han Wei's second uncle has also been beaten to retreat, although the realm is better than Yu Wen's unintentional, but his strength and Yu Wen unintentional, still a lot worse.

"Big brother is dead. If the kid is killed, I will die!"

Han Wei's second uncle's forehead has been soaked in cold sweat, while defending, leaning toward the Wolf City.

At this time, he suddenly swept a figure, as if he had seen hope, and hurriedly shouted: "The urban master, please also help!"

Chapter 1009: Wolf Lord

Hearing this, Ye Xuan, who is collecting the Qiankun ring, looked up and found a man in the air.

This person is the city owner of the Wolf City, and it is hard to be strong!

"The city owner has appeared, I don't know if he will shoot!"

"The city owner is a hard-nosed person. If he is a shot, these two boys will die."

"It's hard to say that they are fighting outside the city, not in the city, and the city owner may not necessarily shoot."

The bystanders whispered.

Ye Xuan was careful to watch out, but his worries were superfluous. After hearing this, the city owner of the Wolf City was indifferent and looked at it.

That being the case, then it will be easier.

At this moment, Ye Xuan has already charged the thirteen six-figure martial arts ring, as well as Han Wei's father's Qiang Kun ring.

"A group of poor ghosts, it seems that things are hidden."

Ye Xuan couldn't help but vomit a slogan. He thought that he could take the opportunity to break through to the five-figure.

However, there is still a seven-pronged gas in the moment, killing and talking.

This Han Wei's second uncle is already the end of the strong, as long as he joins the battle, even if he does not use the card, he can easily kill it.

"Megatron, go!"

Ye Xuan immediately ordered.

Megatron's mission was to prevent this Han Wei's second uncle from returning to the Wolf City, so it immediately changed into a giant clock and went to Han Wei's second uncle.

"what?"

Han Wei's second uncle was shocked. What kind of ghost thing is this, but it will change?

He was unconsciously dragged by Yu Wen, and now Megatron is under the hood, directly escaping him and Yu Wen.

"Hey!" "Hey!" "Hey!"

The long bells spread, and the battle was fierce in the giant clock of Megatron.

But in less than two seconds, the battle is over, and the bells have stopped.

ended?

A group of people at the gate of the Wolf City City opened their eyes.

At this time, Megatron also restored the prototype and returned to Ye Xuan's hands.

Unsurprisingly, Han Wei's second uncle really died, but he did not die in the hands of Yu Wen's unintentional, but in the hands of Megatron.

This Han Wei's second uncle, the whole body was pierced, and there were hundreds of blood holes.

This is after Megatron covers him, he is sticking out hundreds of spikes and stabbing him.

Han Wei's second uncle would not have thought that he would have ended up like this.

"No, two uncle!"

After Han Wei saw the corpse, he also shouted.

His father is dead, and his second uncle is also dead. In the future, the Korean family will only have his grandfather, this one is really hard.

At this time, Yu Wen had no intention of picking up the ring and then throwing it to Ye Xuan.

Ye Xuan caught this 乾戒戒,,,

Then he just set his sights on Han Wei.

Han Wei noticed Ye Xuan's gaze, and his figure immediately trembled and quickly shrank into the city.

"Kill, or not?"

Ye Xuan's light flashes, and with his current strength, he is not afraid of this sorcerer, so he is hesitating.

The next moment, he made the decision.

How can you succumb to shrinking individuals?

Now that the decision has been made, it is necessary to prepare for the battle against the eight-powered and hard-core fighter. At the moment, the Zhentian sword is plundering toward Hanwei.

"City Lord?"

The generals who defended the city were shocked. Ye Xuan dared to start in front of the city owner. This is challenging the authority of the city.

These people are waiting for the response of the Lord of the Wolf.

In fact, the Lord of the Wolf City is also thinking in the heart, the Han family is ruined, but it is good for him. After all, the Han family declines in the future, then many industries in the city have turned to his majesty.

However, since there are so many people watching it, he can't ignore it.

"stop!"

The owner of the Wolf City angered.

However, Ye Xuan did not care about his fierce voice, and continued to let Megatron kill Han Wei.

"you wanna die!"

Seeing that Ye Xuan did not close the hand, the owner of the Wolf Wolf screamed again and rushed straight toward Ye Xuan. The big hand slammed into the ground and a giant palm print fell.

"Hey!"

The earth is broken again.

The attack power of this palm is almost incapable of catching up with Ye Xuan's Emperor's Promise Sword.

However, when he shot, Ye Xuan and Yu Wen had no idea that they had already flashed aside.

The pursuit of Han Wei is small, the real goal of Ye Xuan is actually the owner of this wolf.

Eight is really hard!

As long as the city of the wolf is killed, then Ye Xuan can certainly break through to five times.

"Come on!"

Ye Xuan angered and killed the past.

As for Yu Wen's unintentional, he is responsible for dealing with the squadron guards who rushed out.

"Kid, I don't care which power you come from, I dare to challenge my authority and find death!"

The Lord of the Wolf City angered, his hands were clawed, and he attacked Ye Xuan insanely.

In such an important battle, Ye Xuan naturally has to go all out.

"Megatron, Wanjian is a sect!"

"Summon the Golden Armor!"

At that time, the large amount of golden infuriating spurted by Ye Xuan was condensed into a golden armor.

Although it is said that this golden armor has rushed into the Sima family of Xingyang City and killed a lot of people, but the Xingyang City Lord is dead, how is Ye Xuan exposed?

The two big cards were directly taken out by Ye Xuan.

Megatron and the Golden War Gods attacked the Lord of the Wolf in tandem.

"How can this kid be so surprised?"

The owner of the Wolf City suddenly felt tremendous pressure. Although he was four higher than Ye Xuan, but in the face of Ye Xuan, his heart was not 100% sure.

Yu Wen has no intention, and he has realized the perfect level of swords at a young age. This is extremely rare.

However, he felt that Ye Xuan was more enchanting than Yu Wen.

"Hey, today, anyway, you are going to die!"

The owner of the Wolf City is shining.

The card, he also has!

His weapon is a pair of gloves, but his current palm is only a few times more powerful.

An invisible pressure spread and Ye Xuan and the people present were trembled.

I saw that the owner of the Wolf City suddenly turned around and took a shot against the group of stunned swords behind him, and instantly smashed the smashing swords to nearly half.

Perfect level, sword potential!

"At the end of the day, I met a master of perfect sword."

Ye Xuan swallowed swallowing.

When the Zhentian sword group is not close, it will be smashed in half. If it comes again, Wan Jian's return to the sect is estimated to be abolished. Although Wei Zhentian can't die, Wan Jian's return is one of Ye Xuan's cards. .

"Sure enough, I can try this trick again!"

Ye Xuan held a white bone sword, and when the owner of the Wolf City once again took a shot, he quickly took out a sword.

At that time, the miserable cry spread.

"The ghost is crying!"

Another hundred ghosts plucked out, and fluttered toward the Lord of the Wolf.

At the same time, Ye Xuan is also a claw.

Chapter 1010: Bottom layer

Wan Jian Gui Zong, Jin Jia Zhan Shen, fierce ghosts crying, smashing dragon hands, instantly surrounded the sorrower.

Now, let's see how the Lord of the Wolf City responded.

"Good guy!"

The Lord of the Wolf City faced this four-fold attack and could not wait to grow two more hands.

On all sides, the owner of the Wolf can only choose the second one.

"Huh!"

He made a quick decision in his heart, and then immediately took two palms, one palm against the earthquake group, and the other palm attacked hundreds of ghosts.

At this moment, the group of earthquakes suddenly spread and quickly zoomed in.

"Swords!"

Although the owner of the Wolf City is still in the air, after the earthquake group is enlarged, it can still lock the other side in the air.

However, the other side has realized the perfect level of sword, it is easy to get out of trouble, at most control a second.

"Calling!"

"Hey!"

Hundreds of fierce ghosts have been smashed, and ten are not saved. Half of the squadrons are also half-smashed, but fortunately, the sorcerer's lord is so poor that he can't shoot again, so he can only avoid it. .

At the same time, the Golden Armor God God is already close, the big sword fell, and the Wolf City Lord's right fist was gripped, and it was topped up.

"Hey!"

Fortunately, the Lord of the Wolf City comprehends the perfect level of power, his fist is only into the micro-level boxing, so this boxing is slightly better than the Golden Armor.

The owner of the Wolf City was beaten back, and the Great Sword of the Earth was just wrapped up, trying to block him.

Just as the Wolf Lord is ready to shoot again.

"Hey!" "Hey!"

Two broken sounds sounded, and he swept away and found two silver snipers.

What makes him even more surprised is that he found two Ye Xuan through these two silver snipers.

However, it is not so much time at the moment.

"Wolf!"

"Hey..."

In the face of so many attacks, the Wolf Lords only have to show a hole card again.

A wolf smashed into the sky, and the invisible sounds formed a shock, spreading the golden armor and dozens of giant swords.

Not only that, but even the remaining ghosts and silences are scattered.

"A good attack, at least the top grade is super supreme martial arts!"

Ye Xuan's mouth was slightly tilted. From the very beginning, he opened the eye of insight, and the trick of the Lord of the Wolf was directly copied to the super-phagocytic system.

"Hey, the wolf is transcribed successfully!"

Now Ye Xuan has no time to repair the dragon's hand, but looks at the owner of the Wolf, because he still has two invisible attacks.

Decomposed eye!

The eye of silence and the eye of disintegration, this combination technique is very easy to use, the eye of the silence is very powerful, and it can almost cover the breath of the disintegrated eye, so the eye of decomposition is often successfully attacked.

At this time, the Lord of the Wolf City also ignored the eyes of this decomposition.

"Zizi!"

The two disintegrating rays landed on the shoulders and waist of the Lord of the Wolf, and instantly broke down his flesh and blood.

When the pain spread to the computer, the Lord of the Wolf knew that he was overcast. Fortunately, it was not fatal.

If the ray is broken down on the head, then his head will bloom.

"A good boy, solve you first!"

The owner of the Wolf City is quite hurt, directly shifting the target, killing Ye Xuan in the past, but half of it is blocked by the Golden God of War.

"The ghost is crying!"

Another hundred ghosts roared away.

"The Eye of Burning!"

"The Eye of the Illusion!"

"The Eye of Silence!"

"The eye of decomposition!"

"擒龙手!"

Ye Xuan does not care about the three seven twenty-one, there are tricks to use, and it is still double attack.

His methods are numerous and very difficult, which has brought tremendous pressure on the city.

Although the owner of the Wolf City has realized the perfect level of swordsmanship, the two fists are difficult to match the four hands, and they cannot hold all the attacks of Ye Xuan.

This time, finally, there was a ghost that hit him, and there were more than a dozen.

At that time, these ghosts began to bite his body, blood arrogant.

This scene can be seen under the cold sweats of those onlookers.

They were incomparably strong and powerful, and they were injured. At this time, even Ye Xuan's clothes were not touched. Did they fall into an illusion?

"Hey..."

It is another wolverine.

The owner of the Wolf City squirts a blood and scatters the ghosts around. This is a good trick, but it can't be used continuously. Otherwise, it will damage your throat. Unless there is a high-grade natural treasure, it will be difficult to cure.

However, it is not so much time at the moment.

"Huh!"

It was the whistling wind, and the owner of the Wolf Wolf took a shot directly this time and blasted the gold armor.

Although the Golden Armor is strong, but the Lord of the Wolf City is four levels higher than Ye Xuan, and comprehend the perfect level of swords, so the Golden Armor only played a soy sauce this time, but it also gave a person time.

"call out!"

The sound of the air broke again, but this time it was not the attack of Ye Xuan, but from another person.

Yu Wen has no heart!

Yu Wen, who has grasped the perfect level of swords, has no intention, and the attack power is enough to threaten the eight-powered and hard-core.

This sword cut through the silence, and instantly left the left hand of the Wolf Lord.

This sword laid the foundation for the failure of the Lord of the Wolf.

"go!"

The main face of the Wolf City changed greatly and immediately swept to the Wolf City.

You must know that he is a city owner. There are still many masters in the city government. As long as he flees back to the city government, he will have a chance.

However, it is not so easy to go back.

"Kid, get out!"

The owner of the Wolf City took a shot and wanted to kill Yu Wen, who was blocking the road ahead, but he was unconsciously escaped by Yu Wen. The palm print fell on the wall of the Wolf City.

"boom!"

The wall collapsed in an instant.

After Yu Wen did not want to escape the attack, he took a crazy shot and directly blocked the way forward.

"Colour Lord, don't struggle!"

A voice fell into the ears of the Lord of the Wolf. When he turned his head and saw it, he saw a hundred ghosts rushing over.

At this time, the owner of the Wolf City, the face is already ugly to the extreme, he broke his arm, the defensive ability has dropped greatly, and he has to guard against Yu Wen's unintentional attack. Now that he has so many ghosts, he will be smashed once again. Dead.

"Fight!"

The owner of the Wolf City immediately called the infuriating body, condensed in the throat, and then a big mouth.

"Hey..."

It was also a roaring sound, which instantly shattered all ghosts, including Yu Wen's unintentional attack.

However, he used three times in a wolf, and his throat was abolished, and he could no longer speak. But this is not worth mentioning.

"The throat is gone, I can't use the wolf." Now I see how you block it, and the ghost is crying!"

Ye Xuan's eyes lit up, and it was seen that the Lord of the Wolf was already at the end of the battle.

Not only the owner of the Wolf, but also himself, because of the use of brilliant eyes and other eye-eye attacks, Philip has already bottomed out. However, in order to break through, he can only overdraw vitality again.
