

Super D. S 1021

Chapter 1021: Nether gathering

"boom!"

The thunderfire hit directly on the black young man, and the deadly high temperature instantly covered his whole body. In the blink of an eye, he became a coke.

Spike!

His death indirectly caused his ghost to lose control and kill the nearest youth.

However, this young man is also caught in a illusion at this time.

"Oh!"

A crisp voice spread, the head of the young man was thrown up and killed by a ghost.

In the blink of an eye, the two nine-powerful masters fell directly, and the remaining four were already shocked.

"control!"

The young man responded instantly and controlled the two wandering ghosts.

At this time, the wind screamed again.

"Hundreds of monsters and foxes!"

The fall suddenly split into hundreds, each holding a scarlet long whip in his hand, and instantly surrounded the remaining four.

Hundreds of fallen, although there are dozens of phantoms, but there are 20 entities, these 20 are gathered together, the atmosphere is several times stronger than the four, and they are a bit sullen. coming.

"not good!"

The head of the young man changed his face. At this time, he realized what kind of enemy he had provoked, but now he only reacted, it is already late.

At the time when the falling shadows fell, the four men were already caught in the illusion, and they were immediately bombarded.

Although she used a long whip, she also realized the perfect level of swords. Under the encirclement of so many avatars, even the powerful martyrdom had to be killed.

"Oh, how can you not help?"

The fallen deity screamed and exclaimed. She did not expect her strength to become so powerful. She used only one trick to kill four geniuses who were more advanced than her and two ghosts that were so hard.

However, this is also due to Ye Xuan's eyes of the ban, otherwise the four can at least withstand a round of attacks.

"The strength of the fall should be a battle with the mighty and powerful."

Ye Xuan looked at the six bodies that had fallen from the sky, and said in the heart.

If it is someone else, he may be a bit embarrassed, but the person who falls is his person. The stronger he falls, the better he is. Of course, although this is said, Ye Xuan still does not want to be overtaken.

At the moment, Ye Xuan is cleaning up the battlefield and retracting six pieces of Qiang Kun.

"There are a lot of ghosts. Now my sneaky screaming can be used casually."

Ye Xuan dumped everything into his own devour space, not only that, but he also found six small flags in the six-person Qiankun ring.

"This is the singer, seal the ghosts inside, and call them out when fighting."

Ye Xuan put away these six geniuses, and there are still a lot of ghosts in it. When they can go to the city to sell money.

At this time, he suddenly thought of a good way to finance, a lot of things can be exchanged in the super swallow system, these things must be very popular in the land of the dead.

For example, the ghost kings who improve the strength of ghosts, such as the ghosts that can make the ghosts slowly improve their strength, in addition to the white bone swords, etc., as long as these things are packaged for sale, they will certainly make a fortune.

At this time, the fall is to ask: "Young master, where are we going next?"

"Now the corpse imprint on my body has been erased by me. The ghettos want to find us, but it is not so easy. Let's go to the nearest Nether City, let me find a few things."

Ye Xuan's eyes lit up and replied.

It is not a matter of finding a ghetto. His primary goal now is to improve his life. At that time, he will continue to use the magical dragon hand.

Of course, if you can find the essentials to open the Eye of Eternity, then naturally it is best.

Open the eyes of eternal, Ye Xuan's key will be transferred to the eyes, as long as the eyes are not destroyed, then even if the heart and brain are bombarded, he will not die, then use the life tree to restore the blood.

Then, Ye Xuan took the landing to the Nether City.

This Nether City is the lowest level city in the land of the dead. The power behind it is a hundred ghosts. The purpose of Ye Xuan's trip is to hope to find something useful and make a fortune.

However, just after Ye Xuan and Luo left, the place where they fought before appeared.

This figure is wearing an iron mask, and it is a ghostly corpse of a ghoul, but his realm is not really difficult, but a god.

He wandered around here, and then plunged in one direction, which is the direction of Ye Xuan and the departure.

However, at this time Ye Xuan has already found the Nether City.

"The Nether City, the city owner is the two gods."

Ye Xuan muttered in his heart.

"Young Master, when you finish things, let's go in directly?"

Said by Ye Xuan into the pet space.

"Let's talk about it later. There is a hundred ghosts behind this Nether City. Although the city owner is a double god, there is no master in the city..."

Ye Xuan replied.

Hundreds of ghosts, but the master of the four gods, so he still has to be careful.

The Nether City seems to be the same as the city in other places, but after entering, you can often see some ghosts wandering outside. Of course, these ghosts are controlled by others.

"It is said that the ghosts in the ghost gods are powerful, but there is a ghost spirit that is the level of the Vientiane, and it is also the ancestor of the ghost gods. When he died, he arranged the formation method and refined himself into a ghost spirit. Memory before life..."

Ye Xuan sighed in his heart.

Ghosts and gods are the forces of coexistence between a person and a ghost. The ancestors of this ghost **** have such means, so the ghost gods prospered and prospered, and there was no decline in the millennium.

Generally, it's hard to be a strong person. It's rare to live in a hundred and a hundred years. But the ghost gods can turn them into ghosts after they die, and they have memories of their lives. Remaining with ghosts.

The land of the dead is another big force, the corpse of the corpse, which also has the means to fight against the sky. They can refine themselves into corpses and their life can be greatly improved.

Both sects have the means to continue their lives, so they last forever.

At this time, Ye Xuan has already entered the Nether City. After inquiring, he knows that there is no auction house in the Nether City. There is only one place called the Nether Market.

This secluded market, mixed with fish and dragons, has everything.

In desperation, Ye Xuan had to go to this secluded rally to see if he had what he needed.

The Nether Market covers a large area, as long as you find a place, set up a brand, and put on something, even if it is a stall.

Chapter 1022: Selling equipment

Ye Xuan entered the quiet market, and looked at it in the east, but things couldn't enter his eyes. It wasn't that he asked for too much, but he couldn't use them.

He took a moment to stroll the entire Nether Market, but he didn't find what he needed. In desperation, he could only start to set up a stall.

At the moment he entered the Nether's rally, he felt more than a dozen powerful atmospheres. These breaths were no weaker than the Wanhua Valley owners. This time, his goal is these people.

"Hey, the ghosts are converted to success!"

"Hey, the white bone sword is successfully exchanged!"

"Hey, ghost king beads exchange success!"

A series of prompts sounded, Ye Xuan directly exchanged a lot of things, and then with the sneaky screaming crying directly placed on the ground.

"Hey, little brother, this sneaky sneaky seems a bit special, how to sell?"

A nine-year-old middle-aged man who was really angry was coming over and asked.

"This is a sneaky sneaky scorpion, but it is not comparable to ordinary sneaky scorpions. The general sneaky scorio is only used to collect ghosts, and this phantom is not only able to store ghosts, but is included. Ghost spirit will continue to improve its strength."

Ye Xuan introduced it again, and then said: "However, this thing is not only sold, three sets, another sent a fierce ghost to cry, a total of 10,000 high-level crossing difficult Dan!"

"A thousand high-grade dynasty? Little brother, do you think I am cheating?"

The middle-aged man was flashing.

"No price, not just selling, if you feel expensive, you can go shopping."

Ye Xuan shook his head directly.

Although the Nether Market is large, there are many people in the stalls, but the things on the stalls are the same, and Ye Xuan's things are the first to see, so it has attracted a lot of people's attention.

"Little brother, what about this black bead?"

An old man got together.

"This is the ghost king, the person holding this bead can strengthen the control of the ghost, let you have the ability to control the ghost spirit." Ye Xuan answered again.

"What about this white bone sword?"

"Improve the power of martial arts."

This time, Ye Xuan's answer is very simple, but everyone can understand that the martial arts here refers to the martial arts practiced by most people in the land of the dead, that is, the martial arts of the magical path, such as the sneaky scorpion. Crying and so on.

"Little brother, this screaming ghost is crying, can you show it once?" The old man continued to ask.

"can!"

Ye Xuan nodded, then took out the white bone sword he used, and said: "If you want to use a sneaky scream, you must seal the ghost into the sword."

When the voice fell, he was shot.

"call out!"

"Hey..."

A black sniper broke through and instantly separated a hundred ghosts.

Everyone looked up and felt the extraordinaryness of this move.

It is not allowed to start in the Nether Market, but you can experiment with the tricks, so Ye Xuan will not have any trouble.

"Okay, just rush to this martial art, I bought it!"

The old man's eyes lit up, and he took out a thousand high-grade dynasty and handed it to Ye Xuan.

Here is the Nether Market. If someone is cheating, then it will be left by the manager of the Nether Market, so he is not worried.

Seeing this old man so refreshing, Ye Xuan also directly passed the Nether, the ghost king, the white bone sword and the fierce ghost to the past.

After the transaction was completed, Ye Xuan credited 10,000 seniors to Dadan.

The people around him also looked at the eyes, and the old man experimented on the spot.

"Ghost Wangzhu, indeed, can improve the ability to control ghosts, and the ghosts can make my ghosts grow slowly..."

The old ones experimented and found that it was as true as Ye Xuan said.

"Little brother, I want a set too!"

There was another nine-powered master who came out, and his face showed a painful look, but his eyes were full of unprecedented light.

Ten thousand seniors are difficult to pass, and for them they are almost all of their own. Among the people present, not everyone can take it out.

"it is good!"

Ye Xuan also said nothing, and once again exchanged a set to complete the transaction.

The sneaky ghost cried this skill, he has learned, and on the way to the Nether City, he has copied hundreds of copies. This thing of martial arts has a strong spread, even if it is sent out, Ye Xuan is not a pain.

The second set of equipment was sold, and Ye Xuan once again enrolled 10,000 seniors.

The two thousand high-level crossings, he can redeem four sets of equipment, and remove the two sets, he made two nets, and can also improve the cultivation, which is simply profiteering.

"If you don't have a hard time, you can use Tiancaibao. In addition, I still need these things. If there is news of these things, I will exchange them with a set of equipment!"

Ye Xuan shouted aloud, and then set up a brand next to it, the name above is the necessity to open the eyes of the eternal, as well as the longevity of the drug, Tiancaibao and so on.

When I heard this, the people around me boiled.

"A message, worth 10,000 high-level crossings?"

Everyone was shocked, but they took a closer look and found that they didn't know, so they only showed helplessness.

"Little brother, give me a set too!"

"Wait for me, I will go to borrow a little bit of Dan."

"Give me a set too."

Ye Xuan's booth was very hot. In just one minute, he sold more than ten sets of equipment and accounted for more than 100,000 seniors.

His cultivation is also a quick upgrade!

"Give me ten sets!"

Suddenly a violent drink, the people present at the scene were quiet.

One-time, ten sets?

Everyone looked down at the sound and found that the comer was a burly strong man. The brawny seemed to be plain, but the breath on his body was overwhelming the sum of people at the place.

God is difficult to master!

"Little brother, is there 10 sets?" The brawny swept over and asked.

"There is money, there is goods!"

Ye Xuan nodded.

"it is good!"

The strong man responded with a sneak peek from the Qiankun ring. He said: "In this sneaky scorpion, there is a ghost of a god-hard level."

When the words came out, everyone present was taking a breath.

God's sorrowful level of ghosts?

Use this to change ten sets of equipment?

The people present are not fools. They all know that this value is definitely far beyond 100,000.

The strong and powerful of God is not much in the block area. Even if the strong man who is just a **** is dead, it is not 100% capable of being made into a ghost, let alone accepting it.

However, this ghost of the gods is not useful for Ye Xuan.

"Sorry, I am in urgent need of crossing the hard Dan, and I can't control this ghost now..."

Ye Xuan shook his head directly and refused.

Chapter 1023: White House Down

"Sorry, I am in urgent need of crossing the hard Dan, and I can't control this ghost now..."

When this words fell into the ears of all people, many people immediately sneaked into the mind of Ye Xuan.

Ye Xuan is now seven heavy and difficult, but this ghost has been sealed in the sneaky, even if it can not be controlled, you can also sell it.

"Haha, the little brother is really a reality, or wait for me, I will go and make up 100,000 seniors." The brawny laughed a few times and floated away.

After he left, the people around him were very surprised and asked if anyone knew the brawny.

"This person seems to be a guardian of the hundred ghosts..."

A person familiar with the matter whispered.

Ye Xuan looked at the back of his departure and breathed a sigh of relief.

The strong man is strong, I am afraid that it is the strongest of the two gods.

Sure enough, this Nether City hides the dragon and the tiger, although the city owner is only a double god, but it does not mean that there is only one double **** in the city.

"The method of killing people and winning the treasure is good, but occasionally you have to change the style, blindly killing, the easiest to get mad..."

Ye Xuan said to himself in his heart.

The land of the dead is different from other places. The atmosphere here is very dark. Staying here for a long time will affect the heart. Ye Xuan is for the future.

Taking advantage of the time when the brawny went to the 100,000 high-level crossings, Ye Xuan shot a few more sets. He estimated that as long as the strong man came back, he could break through to eight.

In fact, he is selling cheaply for these equipments. If he is in a more advanced city, it will not be a problem to sell a set of equipment for 30,000 yuan.

However, considering that the Nether City is the bottom level in the land of the dead, there are not many strong gods, so it is natural to cut the price, and it is good to earn.

Soon, the brawny came back, and brought back 100,000 seniors.

"Ten sets of equipment, very good."

After completing the transaction with Ye Xuan, the Zhuang Han nodded with satisfaction. Then he asked: "Little brother, don't know these treasures, who made it?"

"My master!"

Ye Xuan did not want to answer, "As for the name of the master, I will not say more."

"In this way, then you tell him, I am a hundred ghosts willing to recruit him as the chief refiner." The strong man said.

"Okay, I will tell the master." Ye Xuan nodded.

Immediately, the brawny left directly. He bought ten sets of equipment. In fact, he wanted to bring back the hundred ghosts to those refiners.

After the strong man left, Ye Xuan shot a few sets of equipment.

Then, he just felt that he was almost the same. "Okay, I will come back in the afternoon, and everyone will come again."

Those who did not buy the warriors heard it, and their eyes were bright. They could take advantage of this opportunity to borrow a little bit of trouble.

"Young Master, in such a short period of time, you have earned so many difficulties. If you come a few times, will you be able to break through to God soon?"

Falling in my mind said excitedly.

"This method is indeed feasible, but I still have to go first."

Ye Xuan replied.

"Why, you can break through the young master immediately, and when we join hands, even if it is the triple god, it is not afraid?"

Falling is very puzzled.

"Go ahead and say, I feel that something big will happen next!"

Ye Xuan said a word, hurried to leave.

From the time he has been to the present, his heart has been leaping in the ‘**撲通**’, which is very rare. At the moment, he just found a place, and then swallowed all the dying in the phagocytic space.

"Hey, the host breaks through, it's really hard to be eight!"

The system prompts to sound.

As the realm improves, Ye Xuan's strength is also skyrocketing.

Originally his plan was to rob the Nether City after the breakthrough, but his careful liver has been jumping, so he decided to go first.

It is at this time.

"Calling!"

The gust of wind suddenly began to roar, and Ye Xuan felt that the atmosphere of the entire Nether City suddenly became depressed.

"There are big things happening in the trough!"

Ye Xuan shuddered, his hunch was accurate, no matter what, be careful.

At the moment, he is rushing to the clouds and away from the ground.

Originally he wanted to leave directly with the eyes of the void, but curiosity, he wanted to see what would happen next.

But the next moment, he was shocked.

The land of the dead was originally dark, but there was still some light. When Ye Xuan plunged into the sky, suddenly a huge figure covered him.

The entire Nether City is in the dark.

Ye Xuan looked up and saw the eye of the insight and found that there was a very incomparable thing.

"what is this?"

He widened his eyes and found that this thing could not be seen at first sight. Is this a meteorite?

This thing, I am afraid it is even bigger than the entire Nether City. If it is kneeling down, the Nether City may be destroyed.

"My day, fast withdrawal!"

Ye Xuan swallowed the swallow, hurriedly cast the eye of the void, and then drilled in.

There are a total of four positions for the NW positioning. Ye Xuan now stays at the Fengxue Mountain Villa, and the other three are positioned. If you are in danger, you can escape instantly.

When he was in the city, he left a void position outside the Nether City. This time he happened to cross this distance and came outside the city of Nether.

"Hey!"

The door of the void is closed.

Ye Xuan turned around and saw a black shadow smashed down.

"Young master, let me out soon, I have to watch."

Falling in the pet space, anxiously shouting.

These scenes, Ye Xuan is also the first time I saw it, I must not miss it, so he quickly released the fall.

The next moment, the huge black shadow just happened to be in the city of the Nether.

"Hey!"

At the moment when the huge black shadow landed, Ye Xuan, who was hundreds of kilometers away, seemed to be shocked by the whole world. A shock wave hit him and he was instantly scraped.

"puff!"

Ye Xuan did not expect the power to be so strong, was slammed, and immediately spurted a blood.

Not only that, but even the fall is the same.

"Hey, what is this, the whole Nether City has been razed to the ground..." Falling in spite of his injuries, he said with a sigh.

"I estimate that this is a body..."

Ye Xuan answered slowly.

He only swept his eye with insight, and found that there was a vein in the shadow, but there was no life, so it was a corpse.

"The body? No, there is such a big body."

Falling a big mouth, I don't believe it.

However, this is indeed a dead body.

"This corpse has descended from the sky. There are not many people in the Nether City who can escape. I am afraid that the whole army will be annihilated. If it is artificial, it will be too horrible."

Ye Xuan whispered, said: "Go, let's see."

Chapter 1024: Random task

"Go, let's see it in the past."

"Ok!"

Falling down is also a dignified follow up.

A corpse descending from the sky, razing the entire Nether City to the ground, they are the first time they see it.

Don't go see, how?

When Ye Xuan and Luo are close to each other, they found that the Netherland has become a ruin. Not only that, but the dozens of squares of the site collapsed, like a meteorite falling.

"and many more!"

At this time, Ye Xuan suddenly stopped falling.

"Young master, what happened?"

The fall was a little strange to ask.

"There are three people on the body, a triple **** is difficult, two two gods are difficult..." Ye Xuan explained.

"Does the triple gods be difficult?"

Hearing this, the brow is also a slight pick. She and Ye Xuan are both eight-powered, although she said that she will soon break through, but it is still eight-fold.

far away.

"Big Brother, the body of this giant whale is very good. When the **** sits, it destroys this secluded city."

A small-eyed man said with a smile.

"Haha, the first test, I didn't expect it to be so powerful. It doesn't mean that we spent a year refining." Another tall man is also supposed to be.

"Second brother, third brother, don't talk nonsense, quickly put away the body of this giant whale and clean up the battlefield. There has been such a big movement here, there may be a fish that slips through the net, and the people of Baixongzong may soon To..."

After the headed man finished, he swooped down.

In fact, even if they don't use this method, they are eligible to go directly into the Nether City. After all, they have a master of the three gods and two gods, and the two gods of the Nether City are just two gods. It's hard.

At the moment, the three are landing quickly.

At this time, Ye Xuan in the distance suddenly heard a system prompt.

"Hey, the host triggers a random random task, please kill the target in one day!"

Then, Ye Xuan's vision in front of him changed. The figure in front of him suddenly appeared on the top of his head as a mark that engulfed the symbol.

These three are his killing targets!

"There is finally a random mission, but why is it a serial random mission? What is the mission reward?"

Ye Xuan is very puzzled. He is the first to encounter a serial random task, but he estimates that the reward after the completion of this random random task must be much better than the ordinary random task.

"Haha, maybe there will be some points to swallow!"

Ye Xuan couldn't help but laugh.

"Young master, what's wrong with you?" asked the drop.

"Nothing, we fell in the past, killing the three!" Ye Xuan glimmered, and suddenly there was an endless killing.

"Okay."

Falling eyes are also bright, she also wants to hit a game.

However, the person headed by was actually a triad god, which was a bit tricky. Fortunately, the three men are now acting separately, so they have a chance.

"Let them collect the Qiang Kun ring first. When we join forces, we will kill the same person quickly. We are all eight people who are really angry and will not attract their attention..."

Ye Xuan whispered.

"Yeah!" Nodded, she just followed Ye Xuan.

Their realm has become an advantage. The weakest of these three people are the two gods. Even if it is the hardship of the nine people, it is only an ant.

Ye Xuan also knows that these three people should be the corpse of the corpse, and then use this huge corpse to smash the city, which can save a lot of trouble.

This giant corpse, even if it is the strongest of the two gods, I am afraid that it will be smashed.

After all, there is a law under the Nether City, and you can't walk in the air.

Ye Xuan looked out of the ruins and watched the three begin to collect the spoils separately.

At the same time, there are still many people who survived because of the angle of the time when the giant corpse fell. Now, they are quickly out of the city and fleeing from the wrong place.

Of course, some people took the opportunity to collect money and slip away.

"Hey, dare to move my things, find death!"

Suddenly a violent scream in the ruins of the Nether, some people who collected the Qiang Kun ring were killed by the tall man.

At the same time, there were hundreds of Dapeng birds on the back of the body of this giant whale. However, these Dapeng birds were also dead bodies, and they fell, and then the claws were hooked, directly grabbing the Peng Peng giant whale.

The only three murderers are collecting the sacred ring of the people who were shocked and killed, and there are more spoils under the giant whales.

"I have cut the grass, the spoils of a city, if all are given to me, I might be able to break through to God."

Ye Xuan swallowed it.

However, in order to serialize random tasks, he can only endure for a while.

"Young master, when do we shoot?" whispered in the back of Ye Xuan, while the little hands were not idle, constantly collecting the corpses of those bodies with a long whip.

"No hurry, wait for them to spread a little more."

Ye Xuan Shen Sheng.

This time, they must be fully prepared, and it is necessary to kill one person quickly, otherwise they will be in danger if they let the other three meet.

Time is a little past.

The Nether City is not big, there are not many residents living in it, Ye Xuan is hiding with the eyes of perception.

After a few minutes, he saw that the three people were a little bit open. Even if the sneak attack was unsuccessful, the companion would take five seconds to get there.

The timing is finally here.

"Let's fall, prepare to shoot, be sure to kill!"

Ye Xuan came out with a shocking sword.

At this point, the two of them were ready, and then they quickly leaned toward the tall man who had placed the order.

The tall man is a double god, and his strength is several times stronger than that of the Wanhua Valley. However, Ye Xuan's current realm is not weak, and the bottom card will be combined with the fall. It is not a problem to kill one person.

Soon, he was close to the tall man.

"Hey, what do you want to sneak into the net of the fish, dare to move my things, find death!"

The tall man suddenly took out a bone sword and yelled at Ye Xuan.

"call out!"

Jianman went through the air, but what surprised him was that Ye Xuan's speed suddenly rose and avoided the sword.

"The Eye of Brilliance!"

"The sword is returned to the sect!"

"The ghost is crying!"

"The ghost is crying!"

Ye Xuan directly showed his cards. After all, his mission was to kill the three murderers who destroyed the Nether City, not one.

In the meantime, hundreds of Zhentian swords and more than two hundred ghosts were rushing toward the tall man.

After seeing these attacks, the tall man trembled slightly and shouted: "Hey, it's really hard to be eight, but you don't want to die for yourself?"

In a word, he quickly took out more than a dozen swords at the Zhentianjian group.

Chapter 1025: War

"Hey!" "Hey!" "Hey!"

Although the Zhentian Sword is still only the second-order Supreme Lingbao, but the intensity is enough, these attacks have only killed more than 30 Zhentian swords.

At the same time, the landing also used a hundred foxes and foxes, and there were hundreds of figures in the room, and then a long whip, directly hooked a tall man.

"Hundreds of shackles!"

Falling and rolling eyebrows, the more than 20 avatars directly throw the long whip in their hands. The next moment, the long whip is like a long snake, which will tie a tall man to a big flower.

The long whip in the hands of the deity is to firmly lock the waist of a tall man and not let him escape.

"How is it possible, I can't move?"

The tall man's eyes widened and he couldn't believe it.

A master of a double **** is difficult to be locked up by an eight-pronged martial art. He must be dreaming.

At this time, Ye Xuan's attack is finally here.

"The sword is returned to the sect!"

"The ghost is crying!"

The three groups immediately put the tall man around the two impenetrable winds, and the miserable cry of the tall man came from inside, causing the attention of the other two.

"Three brothers?"

The bald man and the little-eyed man turned their heads and immediately rushed over, but it was still late.

The two ghosts dissipated, and the tall man's flesh and blood was dull, and there was a flesh and blood in the sky, leaving only the head in the body.

"Young master, catch!"

At the same time that the tall man was foraging, he used the long whip to throw the whole bag of the ring to Ye Xuan.

Ye Xuan took the bag and grabbed a ring of 乾,, swallowed quickly, and repaired to skyrocket.

This bag of Qiankun Ring also includes a tall man's own, but these things, there is no need for Ye Xuan, and can not let him break through to nine heavy gas.

"Oh, killing both of you is enough!"

Ye Xuan is full of light.

The tall man was in control of those Dapeng iron bodies, so there was no warfare to help him, but his fall led to the loss of the Dapeng iron bodies.

"Hey!"

The tall man-controlled Dapeng iron corpse all fell, and a corner of the body of the 鯨peng giant whale once again squatted on the ruins of the Nether City.

The other two faces were gloomy. They removed the body of the giant whale of the Peng Peng and collected the Qiang Kun ring under the body.

Once they recruited the war dead, the control power is not enough. If the top Dapeng iron corpse is out of control, then the entire iron corpse of the giant whale will fall down, and the two of them will be miserable.

In the face of these two imposing masters, Ye Xuan whispered: "Let's fall, can that be used?"

"No, once a day." He shook his head.

She knows what kind of trick Ye Xuan asked, that is, the hundred shackles that trapped the tall young people. This is to be able to use with the singular fox fox. It can only be used once a day.

"In this case, then I am blocking the triple god, you quickly kill another person." Ye Xuan immediately said.

"Well, you have to be careful with the young master."

Nodded.

She and Ye Xuan are both eight-powered, but the strength of Ye Xuan's opponent is three-fold, and it's more difficult than Ye Xuan's three realms, so Ye Xuan is more dangerous than her.

However, Ye Xuan has a lot of means, and with the fall, killing another person is only a matter of time.

"Summon the God of Gold!"

Ye Xuan knows that this time he can't hide and use the cards again.

Then, the deity and the avatar are crazy swords to the coming.

"The ghost is crying!"

"The ghost is crying!"

"The ghost is crying!"

Every sword, all of which are ghosts and babies that can be used by ghosts, are crying. Now Ye Xuan's engulfing space has endless ghosts. In the blink of an eye, thousands of fierce ghosts have passed.

"Megatron, the golden armor, go to help fall!" Ye Xuan ordered.

Then, the Zhentian sword group and the golden armor gods are catching up and down.

Now, Ye Xuan has only the deity and the avatar, but he is not the only one.

"Iron corpse, come out!"

At this time, Ye Xuan's body suddenly appeared two more figures.

These two iron corpses are the ones who are the tallest men in the squadrons.

Not only that, but there are two ghosts appearing beside the avatar, which is the trophy of a tall man.

"Hold him!"

Ye Xuan angered.

At that time, two iron corpses and two ghosts followed behind thousands of fierce ghosts and rushed to the master of the three gods.

"A good boy!"

The bald man brows and picks him up, and he is also very shocked, because Ye Xuan is not too hard to be eight, but he can control two iron bodies and two ghosts that are both sorrowful.

What he didn't know was that Ye Xuan's deity and avatar were holding a ghost king, respectively, which could strengthen their control.

At this time, the master of these three gods has been in contact with thousands of ghosts.

"Give me all!"

The master of the three gods is holding a big knife in his hand and bowing.

"Huh!"

A huge sword smashed away, and the group that had gathered thousands of ghosts was smashed into two halves.

Then, he quickly wore the past and did not entangle with these fierce ghosts.

"Good guy, I really have some ability, come again!"

Ye Xuan's deity and avatars once again shot, constantly using the sneaky screaming and crying, while also constantly sealing the ghosts into the hands of the white bone sword.

In the blink of an eye, thousands of ghosts appeared.

Although these fierce ghosts have not been affected by the eyes of glory and become golden, they are all formed by the true infuriating of Ye Xuan, so they are inherently stronger.

This time, Ye Xuan did not let these fierce ghosts attack, but surrounded him, his breath, directly covered by these fierce ghosts.

"Kid, do you think you can't find you?"

The master of the three gods, the big knife, fell again, and he divided the ghost group into two halves, but he did not find Ye Xuan.

Instead, there are more and more ghosts.

Two thousand...three thousand...four thousand...

Ye Xuan's deity and avatar continue to consume ghosts, and constantly use the infuriating spirit to condense the ghosts. Although the sneaky screaming and crying breaks this trick, the consumption is huge, but Ye Xuan has the blood of the life **** tree, but it can be flat and consumed.

The bald-headed man of the three gods knows that he can't let Ye Xuan go down and start to shoot crazy. With this move, he can smash the white ghost and destroy the speed of the ghost, but it can be condensed with Ye Xuan. The speed is almost the same.

However, he has forgotten that the main purpose of Ye Xuan is to drag him.

On the other side, the fall is already in contact with the little-eyed man.

"Hundreds of monsters and foxes!"

The fall is equally divided into hundreds, each holding a long whip and starting a crazy attack.

Chapter 1026: Tactical retreat

Hundreds of shackles can only be used once a day, but there are no cooling restrictions for the squad.

However, the hundred-key demon fox is divided, although it can be turned into a hundred, but in fact there are only more than twenty instinct entities, the rest are just phantom. At the same time, these more than 20 infuriating entities have only half the fighting power.

The little-eyed man looked at these falling, his eyes widened, and he couldn't find out which one was the real body.

"Little girls, if you let the Lord find out your true body, you must strip you off..."

The small-eyed man, while drinking low, resisted the falling long whip attack. In addition, there were attacks by the Earthquake Swords and the Golden Armor.

"Dare to marry me, I am fighting with you!"

The fall was stimulated, and her hair was turned into gold.

"found it!"

The small-eyed man was stunned, and he did not expect his radical method to be successful. He hurriedly raised his hand and attacked.

But the next moment, he knew that he was in the trap.

At the moment he shot, the breath behind him suddenly skyrocketed, and he turned his head and saw a golden giant sword smashed down.

"Huh!"

The golden giant sword wiped his body and could scare him.

The Emperor's Promise Sword, not by cutting, but by earthquake.

"Hey!"

Suddenly a powerful impact fell, the small-eyed man trembled and instantly fell from the air.

"good chance!"

After the transformation, the eyes suddenly lit up, and the left hand lifted slightly. The next moment, there was a red flame.

"Seven colors of demon!"

This red flame was thrown to the small-eyed man, followed by an orange flame, a yellow flame...

Red orange yellow green blue blue purple, these seven flames, all thrown into the body of the small-eyed man, when the last purple flame into the small-eyed man's body, the small-eyed man is bursting with seven colors of light Immediately, the whole person is bursting open.

"Boom!"

The flesh and blood fluttered, and the whole person was blown up without bones.

Although the enemy died, but it was only then that the reaction came over and he did a stupid thing.

"Tragic, Qiang Kun ring!"

Falling face pale, she actually forgot that the other party has a large number of Qiang Kun ring, only then that trick, the 乾 戒 戒 。 。 。 。 .

"Hey, the young master will definitely blame me..."

Falling and crying, turned back to the original, but the next moment, she just remembered that Ye Xuan was still in the heat, so he immediately rushed over.

"Second brother?"

The bald-headed man who saw the three gods saw his second brother also died. He immediately blinked and yelled: "I want you to die!"

Now, the Dapeng birds that have towed the giant whales of the Pengpeng are out of control. The giant corpse has fallen, but the body has already been removed, so it poses no threat to the three people.

"Let's fall, stop!"

Ye Xuan saw the fall and plunged toward himself, and hurriedly shouted.

"Hey, my young master, I was wrong, and I was all blown up by me."

"All blown up?"

Ye Xuan, who heard the news, his heart trembled. This is really a tragedy.

He was originally waiting for those breakthroughs in the Qiankun Pass, but now, the Qiankun Ring has been lost by the fall.

"Forget it, join him and kill him!"

Ye Xuan did not blame the fall, shouting directly.

Although he can't break through, he alone has no way to take him. Now with the fall, the Golden God of War and Megatron, their odds are quite big.

"on!"

At this time, Ye Xuan directly controlled thousands of fierce ghosts to the bald man, as long as he killed him, then this first ring random task is completed.

Only, things are not that simple.

The three-headed, bald-headed man gave up the control of the Dapeng Iron Corps and took out two iron bodies directly from the Qiankun Ring.

These two iron corpses are all two gods.

"day!"

Ye Xuan is already drunk, killing two two gods and martyrdom, there are actually two iron corpses of the two gods, how can this be played?

"Let's fall, give up, let's go!"

Ye Xuan's mind screamed and received the fall directly into the pet space.

When he was ready to leave, he found that there was a lot of strong breath towards them.

"A hundred ghosts?"

Ye Xuan brows a pick, but he did not hesitate, directly broke through the void and drilled in.

"Hey!"

In the blink of an eye, they appeared again at the anchor point outside the Nether City.

"Oh, it's all my fault."

Fall in the pet space and blame yourself.

"Don't worry, there are opportunities."

Ye Xuan hurriedly pacified, using the eye of insight, he could see the team of the hundred ghosts plundering toward the bald man who was killed by the triple god.

Two dogs fight, play off!

This is Ye Xuan's plan at this time.

As long as the three-headed sorrowful bald man is powerful enough to scatter the fire on the squad of the squad, and fight for a loss, then it is possible for Ye Xuan to complete the random task.

The difficulty of breaking through God is an overall improvement, so Ye Xuan's strength can only be difficult to fight with the two gods. The triple **** is a little reluctant for him.

Of course, if he can use the magical dragon hand, he is afraid that victory belongs to him.

"It's a pity that the gimmick is still too careless, otherwise things will be much simpler."

Ye Xuan shook his head helplessly.

As long as he gets those shackles, he should be able to break through to the nine-figure, and then he can fight with each other.

However, this is the end of the matter, and it is useless to sigh. At the moment, Ye Xuan is again relying on the fall.

"Budget, even dare to destroy the Nether City, find death!"

"Roll, or you will die!"

The master of the hundred ghosts and the bald man confronted each other. The latter was very excited at this time, because his two brothers were dead, and most importantly, he did not know how Ye Xuan escaped.

Therefore, it is only possible to scatter the fire on the team of Bai Guizong.

"Hundreds of ghosts!"

Although the Bai Guizong led the team is only a double god, but behind him there are two other level of warriors, in addition to more than a dozen of the gods, but it is enough to compete with the bald man.

After getting the instructions, the masters of these hundred ghosts suddenly dispersed, and the next moment, the wind whistled.

When Ye Xuan left, his thousands of ghosts also dissipated, but now, a lot of ghosts suddenly appeared.

The strength of the ghost spirit is much stronger than the screaming and screaming.

The three double gods of the hundred ghosts can control a ghost of the same level, so it is the six double gods.

Coupled with the hundred ghosts of the hundred ghosts, the bald man actually had the retreat.

However, there are also two iron corpses with two gods and sorrows beside him. These two iron corpses make him more emboldened.

Chapter 1027: Painful dog

"kill!"

The two sides finally fought.

"I hope you don't get killed, or my serial random task will not be finished."

Ye Xuan looked at the battlefield in front of him, and he said in his heart.

Falling aside, silently, the little face has been wrinkled, and still in the guilt.

I have to say that the man headed by the three is very strong, and the two warriors he refining can even be tied with so many people in the Bai Guizong.

However, he only has one person after all.

The war lasted for more than ten seconds. In these ten seconds, the bald man killed several high-ranking masters, but he was also besieged as a serious injury.

"Hundreds of ghosts, this hate I will definitely report, you give me a wait!"

The bald man screamed and turned around and ran.

"chase!"

The leader of the Bai Gui Zong's eyes lit up and immediately pursued.

Just kidding, they have seriously injured each other, how can they let the other party leave?

The bald man's face is gloomy, but in desperation, he can only abandon the two corpses of the two gods.

At the same time, Ye Xuan hiding in the outside, his body shape is also a flash.

Now this bald man is seriously injured and his strength is greatly reduced. It is the perfect time for him to kill each other.

Of course, this will have to wait for the other party to escape the killing of the hundred ghosts.

However, Ye Xuan is too high in the eyes of the bald man. If he appears to be counterattacked by the bald man, he can't get too close.

Fortunately, this random task has a mark, which is far more than the eye of perception.

The bald man fled, and the hundred ghosts chased, while Ye Xuan was quietly following.

In fact, he can take this opportunity to kill the ruins of the Nether City and collect those who are in the ring. However, he did not know when the phagocytic mark on the head of the bald man disappeared, so he could only follow.

At this time, after the bald man abandoned two iron corpses to block the hundred ghosts, he took out another Dapeng iron corpse.

This Dapeng iron corpse is a real world of martyrdom, and it is much faster than he is flying now.

"not good!"

The strong face of the one hundred ghosts changed greatly.

"But stop, stop!"

The leader of the Bai Gui Zong knows that he can't catch up, he can only choose to give up. Then, they return directly to the Nether City.

As for Ye Xuan, she continues to track the bald man.

The Dapeng iron corpse, which is a mysterious god, is flying fast, but Ye Xuan is not slow on the land. After all, it has a 90% speed increase.

In order to insure, Ye Xuan did not immediately stop the other party. After all, it is too close to the Nether City, and it must be opened a little longer.

"Young Master, he is now the end of the strong, dead."

The sound of the fall suddenly sounded in Ye Xuan's mind.

Before the bald man was not injured, there were two iron corpses hitting the two gods, so Ye Xuan was forced to flee.

But now, the two iron corpses of the two gods are used by the bald man to block the hundred ghosts, and they have not recovered.

The most important thing is that this bald man is still seriously injured, and his strength is probably ten.

The bald man was seriously injured. Naturally, he was looking for a place to heal, but when he was away from the Nether City.

"Do you want to take revenge?"

Suddenly a violent scream fell into his ear.

"Ok?"

The bald man sitting on the back of Dapeng Iron Corps frowned and turned his head and found Ye Xuan to catch up.

"It's you?"

The bald man immediately glared at Ye Xuan, and looked at it at the same time and found that only Ye Xuan was alone.

Although he has only one person at the moment, there is only one Ye Xuan. He is a master of the three gods. Even if he is seriously injured, it is not an eight-pronged one.

"Yes, it is me!"

Ye Xuan held the earthquake sword and answered one sentence.

"I want to kill you, revenge for my second brother and three brothers!" The bald man did not say anything, and jumped directly from the back of Dapeng Tie.

At the same time, Ye Xuan is also shot.

"The ghost is crying!"

"Curving a small skill, die!"

The bald man raised the broadsword and squatted, and the knives once again broke open the ghosts.

However, Ye Xuan easily avoided, and immediately split into two.

"The ghost is crying!"

"The ghost is crying!"

Another two hundred ghosts rushed over.

The bald man never figured out how Ye Xuan became two people, but he didn't think so much and continued to shoot.

Available at this time.

"Hundreds of monsters and foxes!"

Suddenly, a breath of breath caused the attention of the bald man. When he turned around, he found that there was a figure in his vicinity.

No, it's hundreds of ways!

These hundreds of figures, all with a retractable long whip in their hands, were drawn toward him when he turned his head.

Within a certain distance, Ye Xuan can hide the fall into the pet space, and at the same time, the fall can be released. Of course, the distance is much closer than the distance.

But the bald man was surprised because he didn't even notice where the fall came from.

In the face of this endless whips, the bald man flashed a flash of light, and suddenly there were two iron corpses next to him, but they were just a wrecked iron corpse.

However, these two iron corpses have just appeared, and they have been hit by savage ghosts.

Although the corpse's defensive power is good, but it can not stop so many fierce ghosts attack, instantly was divided by five horses, eating out.

"Kid, I want you to die!"

The bald man directly ignored the falling whip and made a knife at Ye Xuan.

The fierce ghost group was instantly split into two, and Ye Xuan was divided into two halves, but it was only the shadow of Ye Xuan.

At this point, the falling whip was also drawn on the bald man and immediately entangled it.

"Iridium!"

Falling down is beautiful.

The next moment, the instinct and physical strength of the bald man is absorbed along the long whip.

"what?"

The bald man was shocked, and he thought that the fall was not strong, so he didn't care, but he didn't expect it to have the ability to absorb the power of real gas.

The infuriating is no problem, and the physical strength is absorbed. This is not a good sign. Originally, he was injured, and now he is absorbed by various kinds of physical strength, but his mobility will be greatly reduced.

"Let's fall, do a good job!"

Ye Xuan praised the sentence, and once again, more than two hundred ghosts attacked.

This trick is very good, but because Ye Xuan's realm is too low, and now does not use the brilliant eye, the ghost is easily smashed by the bald man.

"Give me off!"

The bald man is constantly being extracted from the infuriating and physical strength, and his face is constantly gloomy, but the long whip in the hand is the top quality spiritual treasure, which is the third-order supreme spiritual treasure, but it is not so easy to break.

"Hey, try this trick, seven colors of demon!"

A long whip in the hands of a sudden burst of red light, this red light, directly along the long whip toward the bald man.

Chapter 1028: Wind is dust free!

"Found, true!"

The bald man's eyes widened and he hurriedly took out a sword.

"not good!"

Ye Xuan's face changed greatly, but the next moment, he responded, and rushed to join hands.

"Thunderfire swordsmanship, thunderfire combined!"

At the same time, the bald man's knives have already fallen into two halves.

"call out!"

The falling of the infuriating moment was broken and it was just a avatar.

"what?"

The bald man was shocked. He thought that it was the real body that fell, but he did not expect it to be a blind eye.

"Oh, you are finished!"

The fall suddenly laughed.

The next moment, the infuriating and physical strength that was taken from the bald man suddenly re-infused into the bald man's body.

"puff!"

The bald man's internal interest suddenly became disordered, and he couldn't help but spurt a blood, and the injury was serious again.

But for now, there is a more powerful trick to attack.

"Give me broken!"

The bald man's big knife once again raised his head, kneeling down, and the knife was attacked in an instant, hitting with the fire of Ye Xuan.

"Booming!"

A powerful wave of winds swept through, and no one was dominant in this blow.

However, Ye Xuan is not only an attack, but three.

"The eye of decomposition!"

"Zizi!"

Two disintegrating rays fell on the chest and the head of the bald man, and they hit two important points.

"what?"

The bald man looked down and found that his chest was quickly turned into a fly ash. He even saw the heart he was beating.

But the most deadly is the broken ray that hits his head.

The brain was broken down into ash, and the bald man's eyes were white and tragic on the spot.

"Where, I finally killed you!"

Ye Xuan breathed a sigh of relief.

In fact, he is anxious, his enthusiasm has not recovered too much, but he is afraid of some variables in the back, so he will kill the bald man in advance.

If his enthusiasm is restored enough to use the eye of glory, the bald man may have died long ago.

At the moment, the fall is to wave the long whip, and all the shackles of the man are smashed to Ye Xuan.

"Hey, the host breaks through, it's really hard to be nine!"

The system prompts to sound, and Ye Xuan finally broke through to Jiuzhong, which is only a step away from the gods.

The difficulty of breaking through the gods is an overall improvement. The body, the instinct, and the mental strength will have a qualitative leap. As long as the breakthrough is difficult, the mental attacks such as the eyes of the ban will be greatly enhanced.

This is why Ye Xuan does not use mental attacks against the gods who are difficult to defend.

"Hey, the host completes the first ring random task!"

The system prompts again.

"Well, the first ring is completed. I don't know what the second ring is. Is it necessary to fold back and kill all the people in the Bai Guizong?"

Ye Xuan brows a pick.

He waited for a while, checking the spoils while waiting for the second ring random task, but the random task was delayed.

"What is going on, is the system dead?"

Ye Xuan couldn't understand the situation, but he felt that he still had to find a place to rest and say that he was ready to leave with the fall.

It is at this time.

"Hey, the second ring random task begins, the host can choose the task route: one, kill the chaser; second, escape the chase. The time is one day, if the mission fails, will deduct a little swallow point!"

The system's prompt tone suddenly sounded.

This time, Ye Xuan is awkward.

Killing the chaser, where is the chaser?

In addition, if the mission fails, it will even reverse the devouring point. Is this not a pothole?

"I am going, I am so close to two points to swallow the point, the task will be reversed?"

Ye Xuan screams in his heart, and he also understands that if he does not have a swallowing point, if the task fails, then the swallowing point will become a negative number, and it will be added in the future.

Originally, he wanted to make up three points to swallow the point, and to make the landing or Megatron advance once. However, I didn't expect to fall into the same thing. After the change, the amount of swallowing needed for the advancement was too much. Ye Xuan did not dare. miss you.

And Megatron only needs three points to swallow the point, so Ye Xuan decided to join the three-point swallowing point and advance to Megatron.

It seems that there may be some changes.

"No matter what, as long as the task is completed, it will not be deducted." Ye Xuan did not want to be so much.

However, he did not know who is chasing him. It is unwise to take the task.

But the next moment, he immediately felt a strong breath, at least the level of the triple god.

He immediately turned his head and saw that there was a figure that caught his eye.

Combining the eye of insight and the eye of perception, he only felt that this figure was familiar.

"Hey, the chaser appears!"

The system sounded again, and there was a mark of engulfing on the figure.

The chaser, finally arrived!

The chaser, wearing an iron mask, is a ghostly corpse.

Ye Xuan had already erased the corpse mark, this time the ghost corpse can be found, I am afraid it is because of the movement of the genius.

"Wait, this ghost, it seems a bit familiar..."

Suddenly, Ye Xuan's figure was a meal.

The next moment, his eyes are big, this ghost body seems to be dusty!

"The trough is windless? This makes me kill!"

Ye Xuan was shocked.

"Young Master, someone is here!"

At this point, the ghost corpse has been swept up to the distance found in the fall.

At the time when the falling voice fell, Ye Xuan's mind also sounded the system prompt again.

"Hey, please host the task as soon as possible, otherwise it will be considered as giving up the task, counting down three seconds..."

"three!"

"two!"

Hearing this, Ye Xuan's mind hurriedly said: "Take a second mission!"

"Hey, take the mission successfully, escape the chase, the time is one day!"

Just kidding, this is no dust, Ye Xuan can't get down.

What's more, the wind-free dust is already a triad god, but it is a ghostly corpse carefully crafted by the corpse ghosts. The fighting power is still above the bald man who was killed by Ye Xuan.

The most important thing is that Ye Xuan has no cards at all.

Combine these two points, Ye Xuan is not allowed!

"He is dusty, let's go!"

Ye Xuan looked at the wind that was quickly killed, hurriedly broke through the void, and then pulled it into the ground.

"Hey!"

The door of the void is closed.

After three seconds, the wind is clean, but it has been killed, but it has already gone to the building and it is a step late.

At this time, Ye Xuan has passed through the door of the void and came to the entrance of the land of the dead.

"Young master, the man who was just a dust-free brother?" asked a strange face.

"Yeah, he has become a hitter of the ghouls, to chase me!"

Ye Xuan replied.

Chapter 1029: Hundred Ghosts

"Can you save him?" asked again.

"I have no way at the moment, but if I can find the ghetto, maybe." Ye Xuan shook his head.

It's the ghettos who turned the wind and dust into that way, so there may be ways to get the wind and dust back to the original.

If it doesn't work, just restore the memory. The ghosts and the war dead are actually alive. The ghosts in the body don't matter.

Now, he has taken the task of escaping from chasing and killing. As long as he hides for a day, the mission is completed.

And there is no corpse imprint in his body, it is not a problem to find a place where no one is hiding.

"Let's fall, let's find a place to rest first."

At the moment, the two are hiding in the place where the dead are found.

The land of the land of the dead is much richer than the Wanhua Valley. It falls here and can absorb the strength of the heavens and the earth and enhance the cultivation.

The fall was about to break through, and now I have got so many high-level talents. It is estimated that when Ye Xuan completes the random task, she can also break through.

Ye Xuan and the hiding place are a canyon. It is deserted and barren. They stayed here for a day.

One day later.

"Hey, Wan Jian is relegated to the end!"

"Hey, the Emperor's Promise Sword has cooled down!"

"Hey, summon the **** of gold to cool down!"

The cooling time of the three big cards was finished. After a while, Ye Xuan heard another system prompt.

"Hey, the host completes the second ring random task!"

Finally, the second ring random task is over, then the third ring random task.

"Hey, the third ring random mission begins, killing the ghouls, the time limit is one month. Complete the mission, Megatron advances once, and signs a joint growth contract with the host. If the mission fails, the three-point swallowing point is deducted. "

Hearing this, Ye Xuan's eyes lit up.

I finally got to the point where I killed the ghouls. However, it was difficult to find the ghouls in a month, because he has no clue now.

"I don't want this first. The final reward for this serial random mission is to let Megatron advance once and what kind of growth contract is signed?"

Ye Xuan did not understand what this growth contract is, and immediately looked at it.

Then he was shocked.

As long as he completes the task this time, as long as he swallows ore, weapons, etc., Megatron will also get a corresponding improvement. Conversely, Megatron will swallow these, and his cultivation will be refined.

Before the change of the ore that Ye Xuan exchanged, it was necessary to give some to Megatron. As long as this task is completed, it will not be used in the future.

"Okay, this reward is good."

Ye Xuan is a little excited.

What makes him most excited in the reward is to let Megatron advance once, which can save three points of phagocytosis.

After the advancement, the increase and intensity of the Zhentian sword will increase, and the Wanjian Guizong may also be upgraded to the level of the thousand swords.

Now Megatron is a hundred swords. It is already a little useless. It is easy to be destroyed. If it is upgraded to a thousand swords, then it will be a big hit.

"A month can only kill ghouls..."

Ye Xuan murmured.

Just as he was preparing to go out and look for clues to the ghouls, the system once again prompted: "Hey, break through!"

After the refining of this day, the fall finally broke through to the nine-fold real gas, and Ye Xuan was at the same level.

"Let's fall, do you feel that it is difficult to break through to God? How long does it take?" Ye Xuan turned and asked.

"If you normally absorb the strength of the world, it will take fifteen days. If you refine the natural materials, the treasure will be faster."

Her physique can absorb the strength of the world at any time. It is simply hanging up in twenty-four hours, too abnormal.

Although Ye Xuan is envious, he does not rely on cultivation and upgrading, but instead relies on engulfing. Moreover, his pet is falling. The more he is physically, the more happy he is.

"Well, now we are going out to find clues about the ghouls." Ye Xuan got up.

"Where to find?" asked with big eyes.

"Hundred Ghosts!"

Ye Xuan directly answered.

He still remembers that when he entered the land of the dead at the beginning of the day, he met six young people who were really angry. When the six met Ye Xuan and the ghouls, they were prepared to send him down to the sects for interrogation.

And these six people are the disciples of the hundred ghosts!

At the moment, Ye Xuan is rushing toward the hundred ghosts with the fall.

The Nether City is the site of the Bai Gui Zong, but was razed to the ground by the body of the Peng Peng whale.

Ye Xuan broke open and returned to the Nether City.

At this time, the body of the giant whale that destroyed the Nether City disappeared.

This corpse is too big, no one can pretend to be a ring, and the hundred ghosts are royal ghosts, not corpses, and have no ability to pick up the body of this giant whale, so they can only be broken down.

Ye Xuan took a look at the distance, and immediately went to the hundred ghosts.

Hundreds of ghosts, just near the Nether City, with Ye Xuan's realm, only half a day is enough.

Half a day later, Ye Xuan arrived at the Bai Gui Zong.

"Young master, are we going directly to kill it?" asked Luo.

Ye Xuanton paused and said: "The hundred ghosts have the strongest of the four gods. Now I have not broken through to God. If it is besieged by the whole sect, it is very dangerous."

"So, do you sell the equipment to the young master?" The fall reminds of Ye Xuan's ability to exchange treasures.

"Well, change something first, maybe you can break through to God."

Ye Xuan nodded, and immediately relied on the past.

"who?"

Ye Xuan came to the front of Bai Gui Zongshan, and was stopped by two disciples of the mountain. These two guardian disciples are all gods and gods.

"Two, I follow the life of my master, come and make a deal with your party!" said Ye Xuan.

"Transaction? What transaction?"

A mountain priest asked strangely.

Ye Xuan is also nonsense, directly taking out the ghost king beads, the ghosts, the white bones sword, and said: "These are all my master refining, you must be interested..."

Then he started to introduce.

After hearing it, the eyes of these two guardian disciples are also bright.

"It turns out that you come with me, I will take you to see the elders of the refining hall!"

A mountain watcher took Ye Xuan into the mountain.

Although the Bai Gui Zong is not strong in the land of the dead, but for the current Ye Xuan, the oil is still very rich.

Ye Xuan estimates that this hundred ghosts will have at least hundreds of sets of equipment. If they follow the previous price, then there are millions of high-level crossings.

On the same day in the Nether City, Ye Xuan was sold at a price of 10,000 high-grade dynasty. However, the Nether City was smashed by the body of You can increase the price.

Chapter 1030: Make a fortune

A set of 30,000 high-level crossings, this is the price that Ye Xuan now has.

As long as you sell a hundred sets, then there are three million high-level crossings, two hundred sets, then six million, and three hundred sets are nine million.

At that time, Ye Xuan is still afraid of breaking through the gods?

As long as he breaks through to God, this hundred ghosts, can anyone stop him?

Of course, Ye Xuan feels that he still does not do this kind of unconcerned things. It is too bad to take other people's money and fight others.

Under the leadership of this shoushan disciple, Ye Xuan was the elder who found the hundred ghosts.

"You are elder!" Shoushan disciple shouted outside the door.

"What to do, I am now at a critical moment, if there is no need to be tight, I will get out of the way!"
There was a voice of anger inside.

When the disciple heard it, he was scared to fight a spirit, saying: "You are interested in selling a thing, I think you must be interested."

"Hey!"

At this time, the gate of the yard was suddenly opened, and a white-haired old man came out from inside.

"If something can't enter my eyes, you are dead!" The white-haired old man said to the disciple, and then he fell on Ye Xuan.

At the moment, his brow is wrinkled.

What is a good thing for a kid who is really angry?

"Kids, can't get good things, I will screw your head down!"

Ye Xuan did not talk nonsense, and took out three sets directly.

Ghost King, Nether, Ghost, and Bone Sword, when these three things are reflected in the eyes of the elders, it also makes his eyes shine.

Elder Elder is the elder of the Hundred Ghost Refining Hall. He is able to forge the third-order Supreme Lingbao and various treasures. However, he has never seen these three things that Ye Xuan has come up with.

He walked forward and took away the three things of Ye Xuan, and then looked carefully.

Ye Xuan is also rushing to explain the functional characteristics of these three things.

"Who is this refining?" asked the elder.

"My master!" Ye Xuan replied casually.

"Who is your master?"

The elders asked again.

These things, even he can not refine, and Ye Xuan's master can actually refine, then Ye Xuan's master said that it is also a triple god, or higher.

"My master is just a wild crane, and I sent you to deal with your party today. If the cooperation is happy, there will be more treasures coming." Ye Xuan continued.

"More treasures?" When the elders heard, they browsed.

This means that there are more strange things, which can greatly enhance the strength of the hundred ghosts.

"Well, this transaction has been done. How many of these are the three?" The elders took the initiative.

"Ghost Wangzhu, Nethery Ghosts, White Bone Sword, three for a set, a set of 30,000 high-level crossings."

Ye Xuan directly quoted the price.

Why did he say so much, that is, to give the eternal illusion of long-term trading, these three things are just appetizers, and there will be better next.

Only by letting Elder Elder create such an illusion, then he can open a lion.

"Three thousand seniors crossing the hard?" Elder Elder heard the price, and his heart was also trembled. "You kid, you can't be too greedy."

"This is the price set by my master. I have no right to change it. If your party feels expensive, then I will run for half a month and go to the ghost door."

After Ye Xuan finished, he turned and left.

"and many more!"

The elders hurriedly called Ye Xuan, joking, cooked ducks, how can they let go?

"How many sets do you want to sell this time?" asked the elder.

"Five hundred sets!"

Ye Xuan reached out.

Five hundred sets!

This figure is a shock to the elders and the defender of the mountain.

A set of 30,000 high-level crossings, five hundred sets of 15 million high-level crossings, this is a big number.

You must know that even if you are a long elder, you can't get this one-five million high-ranking embarrassing Dan.

However, the power of Bai Gui Zong is not bad, but it is acceptable.

"15 million seniors are difficult to build a talented elite, but these things can greatly enhance the overall strength of the door, this money must be spent!"

I have calculated it in the old heart.

There are a lot of ghosts in the hundred ghosts, and the ghosts need to be strengthened with ghosts. If you put all the ghosts into the ghosts, you can slowly increase your strength. This will cost you a lot of ghosts. Now It seems to be a loss, but it must be thought of in the future.

One year later, two years later, five years later, ten years later...

How much does it cost to reinforce the ghosts of ghosts in ten years?

If the 15 million high-level crossings are compared with these ones, it is simply a slap in the face.

Moreover, this is only the effect of ghosts and ghosts, in addition to ghost king beads and white bone swords.

"Okay, this deal was done!"

When Elders thought that there were more treasures in the future, he made a decision.

"readily!"

Ye Xuan opened his mouth and smiled.

At the moment, Elder is starting to trade with Ye Xuan, and he carefully checks the quality of each piece of equipment.

Within ten minutes, all the five hundred sets of equipment were sold, and Ye Xuan scored 15 million high-level crossings.

In fact, Elder Elder promised this deal, also because of the master of Ye Xuankou.

He estimated that Ye Xuan's master strength is not so simple. After all, it is not the timid that ordinary people can have to go out to trade a nine-pronged disciple.

Therefore, he guessed that the master in Ye Xuankou should be observing in the dark. If he dares to be distracted, there may be a catastrophe in the hundred ghost gates.

"Haha, this can break through to God." Ye Xuan laughed a few times.

After the redemption system reappeared, his upgrade method was no longer so simple, and it was a lot easier.

He estimated that it is difficult to break through from the nine-pointed real gas to the one-powered god. It is probably a good one to sell more than one million, but it can be sold more. This is naturally good. After all, it is only his estimate.

This extra 5 million high-level crossings can also be used to consolidate the realm.

"You are old, I have a deal here, I don't know if you are interested?"

After the transaction was completed, Ye Xuan asked again.

"what?"

The elder long eyes lit up and hurriedly asked.

"My master forged these and needed a lot of forging materials, so I want to buy some."

Ye Xuan said slowly.

"Forging materials, supreme Lingbao?" Elder Long Brow picked and said: "How much do you need?"

"How much, how much!" Ye Xuan said with a dignified face.

The sorrowful old man trembled, and carefully counted it in his heart, and then said: "There are about 10 million forging materials for the high-level dynasty in the 100-ghost refining hall."
