

Super D. S 107

Chapter 107: Something is wrong!

After a day, they finally arrived at their destination.

This is a barren mountain, even the barren mountain that the monsters can't. After arriving, Zhou Cang came directly to a small house on the top of the mountain with Ye Xuan.

Not waiting for Ye Xuan to ask, Zhou Cang pointed to a large bath tub in the hut and said: "Come, jump straight in."

"What?"

Ye Xuan looked at Zhou Cang from afar, and then glanced at the big bath bucket. I saw that the big tub was full of liquid, but it was red. Before he opened his mouth, there was a thick one. The **** smell came, so that his brow could not help but wrinkle.

This **** smell reminds him of the scene in the corpse gorge that day.

"This is the liquid for the teacher to personally arrange for you. It is a collection of blood of hundreds of monsters, and a large number of auxiliary herbs are added. If you soak in the inside for a day, your physical condition will be greatly improved. It can also clear the meridians, which is good for future cultivation." Zhou Cang explained.

Oh?

After listening to it, Ye Xuan's eyes are also bright, the beast is bloody, enhances physical fitness, and clears the meridians?

Lying in the trough, this is a good thing!

Immediately, he was grateful to see Zhou Cang, he did not have any doubts, after all, Zhou Cang is his master.

Ye Xuan had heard of a disciple who had murdered the master. However, he had never heard of the master who had harmed his disciples, and there was nothing in his body that could make Zhou Cang, and Zhou Cang had no reason to harm him.

At the moment, Ye Xuan jumped directly into the big tub and didn't even take off his clothes.

But the next moment, his face is a change, he found that the fact is not what he imagined.

"Hey, the host has been poisoned and started detoxification!"

When Ye Xuan jumped into the big tub, there was a saying in his mind.

The blood of Baihua can make Ye Xuan's poison not invade, but it is only a hundred poisons. If it is some advanced poison, the blood of Baihua can only play a role in slow detoxification.

What makes Ye Xuan pale is that after he jumps into the tub, he can't move his body, only the head on the water can move.

"Master, why can't my body move?" Ye Xuan asked in shock.

"Haha, don't be afraid, there is a silver sap in this liquid medicine, which can temporarily paralyze your body." Zhou Cang saw the expression of Ye Xuan and couldn't help but smile.

"Thousands of silver flowers?" Ye Xuan quickly searched his mind, but found no relevant memories.

Before he was in the cracked Yunzong, when he was bored, he would look at some pictures. Among them, there was a heavenly treasure, so as not to encounter him in the future, but he had never heard of this silver flower.

At this point, he was soaked in the water, and there was no place other than the head, as if the whole person had a skull.

It seems that the effect of this silver flower is very strong, even the blood of the flowers can not be immune, can only begin to slowly detoxify.

"No, it's not right, he doesn't have intentions!" After Ye Xuan remembered some of Zhou Cang's expressions before, the heart began to have some doubts.

However, he is not too nervous, because the phagocytic system can swallow all things, even if his body can not move, as long as the hand is still in the water, then he can swallow the bath.

Moreover, even if the effect of the silver flower is very strong, but the blood of the flower has already begun to resolve.

Before buying the blood of Baihua, Ye Xuan only knows that the blood of Baihua has two effects, one is to improve the recovery ability, and the other is to prevent the poison.

However, after Ye Xuan purchased a hundred flowers, he also found that he has a hidden effect, that is, after poisoning, it will automatically detoxify, the stronger the poison, the slower the detoxification speed.

However, as long as it has been poisoned once and successfully resolved, then the body will be resistant, and even if it encounters this poison in the future, it will not be recruited again.

This is what Ye Xuan only knows after redeeming a hundred flowers, so he is not worried.

"Master, master, apprentice suddenly a little urgency." Ye Xuan suddenly shouted.

"Nonsense, you have no consciousness all over the body. How can this feeling be felt? This liquid is specially deployed for the teacher. You are in the inside and go out for the teacher."

Zhou Cang snorted, and then he was under the leaves of Ye Xuan, leaving directly. He is still very confident about the liquid medicine he has configured.

"Really gone." Listening to the footsteps that quickly went away, Ye Xuan's heart was also tight, and Zhou Cang actually left.

At this time, his heart is also mixed.

He felt that the master who had not seen him several times seemed to have no plans.

However, what about him?

"It is difficult, he accidentally saw that I swallowed something, thinking that I have a ring?" Ye Xuan heart guessed.

Although there is such a possibility, but the one who took out the 30,000 cracked Yunzong points to him, the figure should not be this.

"No matter what purpose he has, I can't sit still and give me room to swallow!"

Ye Xuan thought of a move, and then, the entire bath barrel with the turbid sway inside, suddenly disappeared.

Then, the whole person was soft on the floor.

The anesthetic effect of the silver flower is still there, but after Ye Xuan came out, it is obvious that the detoxification effect has improved a lot.

"According to this, it is estimated that it will be lifted after ten minutes..."

Ye Xuan estimated in his heart, he prayed in his heart, Zhou Cang best not to come back during this time, otherwise he would not explain.

However, his worry is superfluous. After more than ten minutes, his body is finally able to act.

However, after regaining his mobility, he did not immediately escape, but took out the barrel of liquid medicine and went inside again.

"Haha, sure enough, what the silver flower has no effect on me." Ye Xuan reached into the air and laughed.

The blood of the flowers has already solved the poison, and his anti-toxicity has also improved. In the future, such poisons will have no effect on him.

However, when Ye Xuan wanted to not escape, there was a sudden footstep outside.

"The trough, come back!"

Ye Xuan's heart trembled, and quickly reached down and then restored his posture to a genius.

"Dangdang!"

The wooden door was pushed open, and it was really the Zhou Cang who had just left.

"Apprentice, come back for the teacher." Zhou Cang looked at Ye Xuan with a smile. "Now, your physique is about to change quietly. Do you feel it?"

Ye Xuan stunned and hurriedly nodded: "With it, there has been change."

"Nonsense, you still have no consciousness, how can you feel it? However, this liquid is carefully configured for the teacher, which can greatly improve your physical fitness, but it takes about one day to fully absorb it." Zhou Cang smiled.

But what he didn't know was that Ye Xuan really felt that his body was changing and his physique was strengthening.
