Chapter 1071: Single headed corpse

"This King Kong King, how is it very confident today?" Ye Xuan felt a bit strange.

If the day is not faint poisoning, they will inevitably kill the King Kong King, but today they are at the peak state, the King Kong King not only does not escape, but they can pick them up, obviously what more cards.

So be careful!

"Let's fall, when you find an opportunity to control him, let's kill it!"

Ye Xuan said in the mind about falling.

"okay!"

Fall and answer.

At the gate of the void, Ye Xuan has already hid the fall into the pet space so that he can make a sneak attack.

Although it is only the seven gods, it is the same as Ye Xuan, but the last time Ye Xuan broke the King Kong corpse of the King Kong King, so the King Kong King can not be underestimated by anyone, even if it is a god.

The two sides confronted each other for a few seconds, and immediately, they shot at the same time.

"call out!"

Business is now greeted with the gloom of Yehsuan's sale to business.

The speed of the original King Kong King is not as good as her. Now, if it is more than one, it will be slow to burst.

At the same time, Ye Xuan is also the eye of the decomposition of the King Kong King.

The decomposition effect of the disintegrating eye can break through the King Kong corpse of the King Kong King, and when it is faint, you can hurt the King Kong King.

However, at the beginning of the King Kong King, it was a great meal for Ye Xuan and the secluded.

"Come out!"

King Kong corpse angered.

The next moment, the ground shattered, and countless corpses were drilled from the ground.

"what?"

The faint and Ye Xuan saw it and was shocked.

The soil of the land of the dead is different from other places. Ye Xuan's insight into the eye can only penetrate tens of thousands of meters, but these places are deeply hidden.

"Accept the baptism of the green corpse poison, little girl!"

King Kong corpse smiled.

At this time, all of the hundreds of corpses were spoiled, and the green corpse worms in the body spit out.

These hundreds of green corpse worms are all aimed at faint.

"not good!"

Ye Xuan's face changed greatly.

Although they knew that there were ground corpses in the ground, they did not expect that they had planted a green corpse in the body of these corpses.

If the secluded spurt is so toxic, the spirit may be decomposed instantaneously.

In the face of the green corpse worm that flies in all directions, the faint face is also a sinking, eyes stunned, using her special **** smashing to blow up these green corpse worms.

At the same time, a silver-white armor emerged from her body.

Hundreds of ghosts!

This one hundred ghosts and trenches are sold to the ghost gods before Ye Xuan. As the name suggests, this hundred ghosts and wars are to enhance the defense of the ghost spirit. The higher the level of the ghost spirit, the stronger the defense power of the hundred ghosts.

"Hey!" "Hey!" "Hey!"

A green corpse worm exploded like a balloon, and the poisonous mist filled.

After the glory of the hundred ghosts, they immediately took off and skillfully avoided these poisonous fogs.

She is also a ghost in the level of Vientiane. The intensity of the ghosts is beyond imagination. This one hundred ghosts and wars help her block a lot of poisonous fog.

However, when she rushed out of the poisonous mist, the ghosts of the hundred ghosts were already eroded.

Of course, the faintness is also accidentally contaminated with some green corpse poisons, more than the day, but fortunately, these are not fatal.

"How is it possible, little girl, have you survived?"

The King Kong King couldn't help but marvel.

He has planted all the green corpse corpses into the bodies of these corpses. In his plan, these green corpses can at least poison a ghost ancestor, but did not expect that they have just broken through to Vientiane. The level of faintness can be blocked.

Seeing the faintly contaminated green corpse is not much poison, Ye Xuan is also relieved.

Fortunately, this time there are a hundred ghosts, otherwise the faint spirit will probably collapse in an instant.

This green corpse is really terrible!

"Mom, I know that there are more points to the green corpse king." King Kong corpse roared.

These green corpse worms are made from the corpse of the corpse, the green corpse, and only hurt the ghosts, and the damage is very high.

"It's secluding, are you okay?"

Ye Xuan hurriedly rushed over and asked.

"Nothing, you can resolve it."

The faint shook his head.

This poison of the green corpse worm can be resolved as long as she gives her time, but now there is a big enemy of King Kong King, but there is no time to detoxify her.

However, now Ye Xuan, the combat power is stronger than at the time.

"Wan Jian returned to the sect, go!"

Ye Xuan finally used the biggest one card. In the blink of an eye, the Zhentian sword was divided into thousands of swords and shadows, and swept toward the King Kong King.

"What the hell?"

The first reaction of the King Kong King was that he had an illusion, but Ye Xuan was not a seven-powered god. How could he be recruited?

Before the advancement of Megatron, there were only a hundred swords, and now that Megatron has advanced, it has been upgraded to a thousand swords.

Thousands of Jiu Shenshen's savage-level squadrons were swept away toward King Kong's corpse, and King Kong's corpse was instantly surrounded. Then, a smashing sword was constantly moving, and the sound of screaming was heard.

The King Kong King is known for its defensive power. It is the corpse king with the strongest defense power. Although Wan Jian is strong, he can't break his King Kong corpse.

Therefore, it is necessary to cooperate with Ye Xuan's eye of decomposition.

"Peace!"

At the time of the earthquake, the Ye Xuan was split in two and ran on the ground.

"Kid, you are looking for death!"

The King Kong King did not look at humiliation and slammed a punch at Ye Xuan's deity. The next moment, his attack was blocked by a huge earthquake sword.

Spirit Swords!

"Hey!" "Hey!" "Hey!"

A giant sword fell off, surrounded by the King Kong Corps, leaving dozens of holes.

"The eye of decomposition!"

Ye Xuan's deity and avatar continued to swim, and they used the holes left by the Lingjian array to attack the King Kong King.

His eyes of disintegration can break through the corpse of King Kong's corpse, and as long as the corpse is broken, there is nothing that can be mentioned.

"Budget, what the **** is this, give it to me!"

In the spirit sword array, the King Kong King continued to attack the giant sword of the earthquake, trying to come out of the spirit sword array.

However, after Megatron's advanced defense, the defensive power is increased, and the defensive power is even stronger than the King Kong King.

King Kong King wants to get out of the spirit sword array, it is simply a fantasy.

"Zizi!"

"Zizi!"

One after another, the decomposition rays fell on the body of the King Kong King. Although they could not cause substantial damage to the King Kong King, the face of the King Kong King was a little dignified.

Chapter 1072: Kill

At this time, there were already 20 disintegrating rays falling on the body of King Kong, which directly broke the corpse of his upper body.

"It's almost gone, Wanjian is back to the sect, start!"

Ye Xuan's light flashes.

The next moment, the giant sword of the earthquake was all narrowed down, and the King Kong King of the King saw it and immediately punched a punch at Ye Xuan.

But before the earthquake giant sword narrowed, Ye Xuan had already launched an attack.

"Ghosts and gods!"

"boom!"

The King Kong King was forced to fight back. Although his King Kong corpse was gone, he was also a corpse king of Vientiane. Will he die like this?

A wave of violent waves swept away, but Ye Xuan's next hit, the power is not so simple.

"The Eye of Brilliance!"

Ye Xuan puts on a brilliant suit directly, and his left hand is empty.

"Golden Dragon Hand!"

The King Kong King did not catch up and was caught. The golden instinct was to burn his skin and make a sizzling sound.

The five fingers were pierced into the body of the King Kong King.

"Shentong, it turned out to be supernatural!"

King Kong Corpse was shocked, and between him, another big golden hand appeared.

Two golden hands, holding the King Kong King in the palm of his hand, the King Kong King was burned by the golden gas.

"Bastard, if I let myself break away, I have to peel off your skin!"

King Kong's corpse was angry and roared.

"Just do you want to break free, do your daydream, Megatron, cut him!"

Ye Xuan snorted.

"Hey!" "Hey!" "Hey!"

Numerous winds roared, thousands of Megatron days fell, and the King Kong King was wrapped in an instant.

Then, it was that the road was crisp, this is the sound of the body of the King Kong King, which was washed away by the Earthquake, and the flesh and blood was torn apart.

After the shocking swordsmanship swept through, the upper body of King Kong's corpse was gone, and the flesh and blood on the ground was terrible.

King Kong corpse, death!

"Hey, the corpse king of Vientiane, who dared to yell in front of me."

Ye Xuan is very disdainful.

However, when it comes to the return of Wan Jian, the power has indeed increased a lot. Who can resist the scouring and baptism of thousands of Zhentian swords?

"Hey, the host completed the random mission of killing the King Kong King!"

The system prompts.

The second ring random task was finally completed.

"Hey, the third ring is connected with a random task, and the corpse is destroyed. The mission is completed, and the reward of the eyes of the gods is advanced!"

The system beep sounds again.

"Sure enough, is it necessary to destroy the Temple of the Dead?"

Ye Xuan brows a pick, the random task of this third ring has been expected by him.

The Temple of the Dead is one of the two hegemonic forces in the land of the dead.

Although it sounds very embarrassing, but Ye Xuan Fang can kill the King Kong King, this is the fighting power of the Vientiane level.

"If I don't have a sword to return to the sect, I am afraid that it is not so easy to deal with the King Kong King. However, as long as I break through, I will have a greater grasp of the corpse!"

Ye Xuan thought in his heart, preparing to pick up the martial arts of the King Kong King, but at this moment, suddenly a black thing was thrown out from the body of King Kong.

"Hey!"

This black shadow directly broke through the brilliant armor and fell into Ye Xuan's body.

"what?"

Ye Xuan was shocked. At this time, he only felt that the infuriating body in his body instantly solidified, and the wound was quickly rotted.

"not good!"

His face changed a lot, hurriedly put away the brilliant suit, and raised his hand to sweep around his neck.

"Oh!"

His entire head flew up and fell to the ground.

His move was also to scare the faintness of the upper head. I don't understand why Ye Xuan committed suicide.

But when she was ready to pluck, she found that Ye Xuan's body began to rot quickly, and Ye Xuan's head began to grow rapidly. In the blink of an eye, Ye Xuan unexpectedly developed a new body.

However, this body is naked, so Ye Xuan hurriedly put on clothes.

"Where, scared me, there are deadly poisonous insects!"

Ye Xuan rushed to send a breath, only the poisonous worm was plucked after the death of King Kong King. Before he was unable to see through the realm of the realm, it was successfully attacked by this poisonous insect.

This poisonous worm is extremely toxic, and even the blood of the life **** tree can not help, so Ye Xuan rushed to cut his head to survive.

Fortunately, he has already opened the eyes of eternal, otherwise the deity and the avatar will fall.

"Young master, are you okay?"

Asked quickly and fell.

"Nothing, it didn't spread to the head."

Ye Xuan shook his head.

This time, it was a shock.

The faintness is also rushing down.

Now, she is even more obsessed with Ye Xuan, and she cut her own head, but she can grow up again. This is a miracle.

However, these are the secrets of Ye Xuan, she still does not ask.

"Your strength is already more than me. I didn't expect you to be so strong." You couldn't help but say.

"No, I just used the card, otherwise I can't kill the King Kong." Ye Xuan still has self-knowledge, this time if I don't have a sword, I am afraid it will not work.

Although there are hundreds of heavy locks, the realm of the difference is too great, and the King Kong King will use poison, not so easily killed.

At the moment, Ye Xuan is quickly re-starting the Qiang Kun ring.

King Kong King, as the strongest corpse king of the Temple of the Dead, his body is still very rich.

"Hey, the host breaks through, and it is currently difficult for the Eight Gods!"

The system prompts to sound.

Now, even if Ye Xuan does not have to return to the sect, there is also the capital of the King Kong King.

He estimated that if you break through again, no one will be his opponent in the land of the dead.

"There are still a lot of corpses in the head. These corpses are refining with special medicinal techniques, not living things..."

Ye Xuan took a look at the spoils, but most of them were useless to him. At that time, he could directly study the old antiques of the ghost gods.

The King Kong King was killed and the second ring random mission was completed, so Ye Xuan began to prepare for the third ring random mission.

"Your secluded, do you have any news of the corpse king?" Ye Xuan turned and asked.

"Yes, the digger is three days away from here, and the white bone lord has four days..."

A secluded look at the white bones, replied.

"Three days, four days, are so far away, it is better to go directly to the Temple of the Dead King?" Ye Xuan frowned.

"Kill the corpse palace?"

A secluded one is also a faint color.

Like the ghost gods, the corpse temple has been passed down for a thousand years, so the corpse king passed down has already surpassed ten. Even the elders of the ghost gods do not know how many corpses are actually there.

Chapter 1073: Corpse temple

Although Ye Xuan has the strength to kill the King Kong King, but the King Kong King is ranked at the bottom of the strength of the Temple of the Dead, but the defense is the strongest. Like their level, the strongest defense is of no use at all, only as a meat shield.

The two of them will go to the Temple of the Dead, and it is extremely dangerous!

"It's great to go to the corpse of the corpse. I didn't come to the battle just now, and the dead thing was killed by the young master. This time I have to fight one."

Falling on the side shouted.

She who has the cultivation of Tiancaibao will soon break through to the Eight Gods. At that time, the combat power will be greatly improved, maybe not worse than the faint.

"If that's the case, let's go together."

Nodded quietly.

If the three of them join forces, as long as they come to three corpses at different times, they should not be able to help them.

This time, the corpse temple has sent five corpses to the ghosts and gods. Now they are going to the corpse of the corpse, and it is unlikely that they will encounter five corpses.

Moreover, Ye Xuan also has a variety of amazing means, very suitable for ambush, if you encounter the corpse of the single, you may be able to kill it, which is very beneficial for the ghost gods.

At the moment, the faintness is to use the bones to send the news back to the ghost gods, and immediately she is following Ye Xuan and falling to the place where the corpse is.

.....

The land of the dead, the spirit of the ghosts and gods is very sinister, but the site of the corpse temple is extremely barren, poisonous swamps, plague land, mass graves, so that the land here is in vain.

Three days later, Ye Xuan stepped into the site of the Temple of the Dead. In this place, it is best to fly, so the journey is somewhat slow.

"Now the sword has been cooled down, and the fall has broken through to the Eight Gods within three days. As long as you don't come to the top of the corpse, you can see one!"

Ye Xuan has an incomparable confidence in his heart.

Although these corpse kings are at the level of Vientiane, they are already dead and cannot use the power of Vientiane, so the combat power is much weaker than the human Vientiane.

It is precisely because of this that Ye Xuan dared to kill the corpse of the corpse, if the corpse of the corpse has a personal class of Vientiane, I am afraid that one can beat them three.

This time, they entered the corpse of the corpse, and now they are rushing to the corpse.

"Young Master, do you have any plans?"

Asked about the fall behind Ye Xuan.

"Yes, control people, and then lead the corpse!" Ye Xuan did not want to answer.

He is now a martyrdom of the Eight Gods. The elders of the corpse that control the martyrdom of the Nine Gods should not be a problem. At that time, he will let the elders of the corpse of the corpse go back and report that they have found a faint trace.

When I heard this news, I was sure to be able to attract a corpse of the corpse of the corpse, and then they set up an ambush and they could easily complete the killing.

If you use Wanjian to return to the sect, then the success rate is infinitely close to 100%.

Wan Jian returned to the sect, although there are three days of cooling, but it is very scary to kill a corpse king in three days.

As long as one month, the Temple of the Dead will be destroyed.

Next, Ye Xuan spent another three days and rushed to the Temple of the Dead.

Because the faint breath is difficult to converge, it is easy to be discovered, so the faint and falling is hidden in other places.

The size of the corpse palace is very large, equivalent to a big city. There are countless living dead people in the temple. At the gate of the corpse temple, there is also a statue of statues. These are the sculptures of the lord of the corpse.

At this time, outside the Temple of the Dead.

"The corpse palace is really strong. At first glance, Nima saw the elders of the corpse of the corpse of more than a dozen and nine gods. If they were all solved..."

Ye Xuan squinted at his lips while fantasizing in his mind.

As long as the corpse of the corpse is destroyed, then he can certainly break through the martyrdom of the nine gods, and even can directly break through to Vientiane.

Of course, the Supreme Three Difficults break through to Vientiane, and maybe there are any task props, which I don't know.

"The overall situation is heavy, or you should first control an elder who is a martyrdom."

Ye Xuan thought in his heart, and then he relied on the past. He was accompanied by two martyrdoms with eight gods, so that no one would doubt his identity.

He approached with two war corpses, and he saw a nine-year-old elder who came out of the corpse palace.

What's more, this nine-powered **** is not a living person, but an elder who has been dead for many years, but when he died, the body was brought back to refine it into a war dead body, and he succeeded in enlightening and regained his life. Memory.

"It's a gunshot, it's you!"

Ye Xuan did not say anything, immediately followed up.

Before his control of the eye was controlled by the living, this time try the dead, do not know whether to control success.

If it doesn't work, then kill it directly and use it as an experiment.

In front of the corpse is the temple, so Ye Xuan can not directly do it, he followed the elder far away, only half an hour later.

"almost!"

Ye Xuan's flash of light flashed directly.

"Ok?"

The elders in front of him found something, and when they turned around, they suddenly felt a tingling.

"The Eye of Burning!"

"Good boy, even attacked the elders of the corpse, I will refine you into a war corpse!"

The elder of the dead screamed in his heart.

He doesn't turn his head, but Ye Xuan uses the eyes of the sky and must see each other's eyes.

"The eye of control!"

Ye Xuan saw the burning eye useful for it, and also directly used the eye of control.

"Hey, control failed!"

The system prompts.

Ye Xuan and the elders of the dead only differed in one realm, and even failed to control the corpse, the corpse of the temple is not the corpse.

At the moment, he immediately used a round.

"Hey, take control of success!"

When the system prompts to sound, the murder in the eyes of the elders of the dead is completely gone, and it is the servant of Ye Xuan.

After the success, Ye Xuan rushed over without saying anything, and accepted his shackles.

"In the current corpse palace, there are still a few corpse kings sitting in the town?" Ye Xuan asked.

"As far as I know, there are eight!"

The elder of the dead replied.

"Eight corpse kings?" Ye Xuan brows a pick, plus five corpse kings who enter the ghosts and gods, so there are at least 13 corpse kings.

Moreover, this is only a bottom-up estimate, because there may be such a dead elder who does not know.

"How strong is the strength of these eight corpses, compared to the King Kong King?" Ye Xuan asked again.

"Among these eight corpse kings, my father's iron chain corpse is the weakest, but it is stronger than the King Kong corpse. If they are fighting, the scorpion king can seriously hurt the King Kong corpse..."

The elders of the dead replied.

"Hey, is your father a king of chains?"

Ye Xuan brows a pick, did not expect this time to catch a big fish.

Chapter 1074: Iron chain corpse

Ye Xuan is also drunk, he casually found a bait, turned out to be the son of a corpse, luck is really good.

However, at this time, the weakest chain corpse king in the corpse of the corpse was even stronger than the corpse king.

King Kong King, the strongest defense in all corpse kings, but the strongest defense is actually useless, so he must use the help of other corpse kings, such as the green corpse refining corpse.

"Who is the strongest corpse king of the corpse palace now?" Ye Xuan asked again.

"It is the red blood corpse king!" answered the elder of the dead.

"Red blood corpse king..."

Taking advantage of this opportunity, Ye Xuan quickly collected information, such as the characteristics of these corpse kings.

King Kong King, the strongest defense.

The iron chain corpse king is a special refining hundred scorpion chain that can instantly pump people into coke corpses.

Green corpse king, good at refining corpse poison, the strength is even stronger than the iron chain corpse king.

The violent bear corpse king, after the death is a fusion of the blood of the **** violent bear of the sacred beast, the power is the strongest of all corpses.

.....

After Ye Xuan listened to the information of the elders of the dead, Ye Xuan couldn't help but swallow the swallow. These corpses are more fierce than one, and it is not so easy to deal with them.

Among them, the strength of the corpse of the prince, the red corpse of the lord, is closer to Vientiane, and may have been reached.

"I didn't expect the corpse palace to be so strong. Maybe there is a hidden corpse in the head. If you want to destroy the corpse in a month, you must hurry."

Ye Xuan swallowed it.

This serial random task is to destroy the corpse, although it is not to kill all the corpse, but to capture the corpse, it is not what he can do now.

"As long as I break through once again, it is almost enough to join forces with the ghost gods."

In thinking of Ye Xuan, he turned his head to the elders of the dead: "You, go back and call your father out, go to this place and say that you have discovered the ghost god."

"Yes, master!"

The dead elder nodded, and then went straight back to the corpse.

And Ye Xuan, is ready to wait here, ready to track the past.

This time his goal is the Iron Chain King, the weakest of all the corpse kings currently in the Temple of the Dead.

.....

An hour later, Ye Xuan sensed that the elders of the dead had returned, and at the same time, they also had a powerful corpse of death.

The right hand of the corpse is a gray chain of several meters long. According to his son, this chain was refining for centuries by the scorpion king, and it is about to catch up with the heavenly device.

Ye Xuan looked far away and felt the strong breath, and the heart could not help but tremble.

"The big fish is finally hooked, hey, kill you after one day!"

His twilight flashed, watching the elders of the dead and the king of the chain corpse close.

"Father, he found the sacred son of the ghosts and gods." After the elders of the dead approached, they said to the king of the chain.

"Kid, you are sure to be the sacred son of the ghost god? If you dare to lie to me, I will kill you!" asked the iron chain lord to Ye Xuan.

Even if it is difficult for him to be in his eyes, he is an ant, and he can blast a chain, not to mention the eight-fold **** of Ye Xuan.

"The corpse king, really true, the ghost **** son is in the place one day away." Ye Xuan pretended a very fearful look.

"Very good, if I really find this ghost son, I will greatly reward you."

The eyes of the iron chain corpse are bright, and the heart is dark: "Hey, this ghost **** does not know where to find a good seedling. If it grows up in the future, it will be too much threat to my ghost gods. If I kill her, I can To the red blood corpse king to a thunder stone, by then, the power of the hundred baht chain will be even higher."

"Thank you for the corpse king!" Ye Xuan hurriedly thanked.

This iron chain corpse is not nonsense, go directly to the location told by Ye Xuan, killing the ghost spirit of the Son is a great achievement, he naturally will not tell the other corpse, so as not to be divided.

Looking at the back of his departure, Ye Xuan's mouth is slightly tilted, and then directly breaks through the void, and they meet with the faint.

At this time, the faint and falling are hiding in a deserted hill. When they see the return of Ye Xuan, they immediately get together.

"Young master, what fish?"

Asked quickly and fell.

"The Iron Chain King, get ready, it is estimated to arrive two or three hours later."

Ye Xuan directly replied, and combined with the body.

One day, for the chain corpse king, it only takes two or three hours, and they are here to stay, and have not left, so the chain corpse does not need to look for.

As soon as the king of the chain arrives, they will immediately shoot.

"Although I said that I have a sword to return to the sect, it is still possible to defeat the corpse in a month, so try not to use Wanjian to return to the sect!"

Ye Xuan thought in his heart.

This iron chain corpse king is not very strong, only able to seriously hurt the King Kong corpse, and after the battle with King Kong King, he has already broken through to the Eight Gods, plus faint and falling, killing the chain corpse Wang should not be a problem.

In this case, then the sword will be saved.

.....

This iron chain corpse did not let Ye Xuan corpse king, after more than two hours, Ye Xuan was the strong breath.

"coming!"

Ye Xuan hurriedly reminded.

After hearing this, the faintness is also a spirit, and the fall is directly received by Ye Xuan in the pet space.

Soon, the Iron Chain King is showing up.

"Ha ha ha, that kid didn't lie to me, your little girl is really here!"

A big laugh fell into Ye Xuan and the faint ear.

"Iron chain corpse king?"

The faintness pretends to look like a scorpion king.

"Yes, I heard that your little girl robbed the body of a sacred beast of my corpse, and then broke through to Vientiane. I didn't expect you to go back to the sacred gods, but instead stepped into the site of my corpse, you This is a dead end."

The iron chain corpse king will eat you like, and I don't know, I have already fallen into the trap.

Before the King Kong King was in the ghost gods, it was a scandal to be scared back by Ye Xuan and the fall. Therefore, it is impossible for the King Kong King to pass back to the Temple of the Dead King. Therefore, the King of the Chain is not likely to know that the King Kong King has already Fallen.

I don't know, the King Kong King is a single kill by Ye Xuan!

"The gang of gangs, you rely on you, but also want to kill me?" faintly pretending to be strong and calm.

If it is a one-on-one, the woman who just broke through will naturally not be the opponent of the iron chain corpse, but at this time, the gang of the chain is obviously neglecting the boy who is the eight gods of Ye Xuan.

In this battle, the king of the iron chain will definitely die!

"Can you kill you, try to know!"

Chapter 1075: Easily kill

"Can you kill you, try to know!"

The iron chain corpse is not nonsense, and goes straight to the secluded rush. The hundred chains in his hand are dragging on the ground, causing countless sparks.

Although the trap has been laid, but the faintness does not dare to care, because she heard that this hundred chains are specifically designed to deal with the spirit.

The hundred iron chains are drawn on the person's body, and the ghosts are drawn, and the latter will suffer much more damage than the former.

Therefore, the secluded directly gave her a hundred ghosts to fight.

"Huh!"

The faint singularity of the ghosts, incarnation of ghosts, plundering the iron chain corpse king.

"Little girls, see if I don't kill you!"

The iron chain corpse king is close to the secluded, the right hand of the hundred cymbals chain wave, with countless electric light pumped over, the air, filled with burning smell.

However, the faint speed is extremely fast and it is easy to escape the chain.

"Breaking the blood!"

"Hey!"

The scorpion king was hit by a faint **** smash, and immediately stepped back a few steps.

However, the corpse kings in the Temple of the Kings are all based on refining, although the defensive power is not as good as the King Kong, but it is not weak.

Just after the injury of the Iron Chain King, his blood suddenly splashed out, and there were some electric snakes.

"Zizi!"

The electric snake broke into the faint sorcerer's trenches and immediately smashed the ghosts.

The faint is so electric, the spirit is also trembled.

"Hahaha, once my body is injured, it will erupt."

The iron chain corpse smiled.

Because the chain corpse is rarely fighting, so many people know this secret, and it is even more impossible.

At the moment, the faintness is to quickly open the distance.

Upon seeing it, Ye Xuan could not hide any more and immediately sneaked out.

"The Eye of Brilliance!"

Brilliant gold armor will be wrapped in Ye Xuan body, a golden light, causing the attention of the chain corpse king.

"Hey, the eight gods in the district are just awkward."

The iron chain corpse king did not put Ye Xuan in his eyes. The chain in his hand smashed into the ground, and the electric light was pulled out from the ground.

"Zizi!"

I couldn't help but sneak in, and I was hit by an electric snake. I couldn't help but make a sound*.

This electro-optic light, like the previous green corpse poison, can cause tremendous damage to the spirit.

But the next moment, the Iron Chain King is knowing that he is looking at Ye Xuan.

I saw that Ye Xuan suddenly condensed a huge sword of gold, facing the iron chain corpse is a glimpse.

"Overlord Promise Sword!"

Under the brilliant suit, the Emperor's Promise Sword, the power is much stronger than before, this sword directly hit the scorpion king into the land.

"Hey!"

The iron chain corpse only felt a roar of his head, and the bone pain of his shoulders broke through the flesh and blood, and suddenly there were countless thunders.

Although it is a card, it is not so easy to kill the king of the chain.

However, this is only the beginning.

"Golden Dragon Hand!"

"Golden Dragon Hand!"

During the time when the iron chain corpse was stiff, Ye Xuan rushed to display magical powers.

Two golden hands that are much stronger than before are directly holding the iron chain corpse.

"Shentong?"

The iron chain corpse was shocked, and the body burst into thunder, and countless electric snakes came out.

However, is it so easy to break away from the magic dragon handcuffs?

"This gang of gangs, all of them are the power of thunder and lightning, and they have smashed my golden dragon's hand into a hole..."

Ye Xuan is very surprised.

The strength of this scorpion king is indeed much stronger than that of the King Kong corpse. If you are only faintly beside the iron chain corpse, the spirit may be directly broken by electricity.

Fortunately, the faintness has been far from the king of the chain.

"Let's fall, kill him!"

Ye Xuan escaped this crazy electric snake attack and then released the fall.

"Hundreds of monsters and foxes!"

"Hundreds of shackles!"

Falling directly used two combos to trap the iron chain corpse king. Her trick was not weaker than Ye Xuan's two golden dragons, but there was no attack power.

However, the attack skills are behind.

"Seven colors of demon!"

Now it is possible to divide more than 30 infuriating avatars, that is, there are more than 30 sets of seven-color demon fires, going toward the iron chain corpse.

"Puff puff!"

The blossoming demon fire did not enter the body of the iron chain corpse, the next moment, the seven-color ray appeared, directly covering the thunder of lightning.

"Hey!"

Only heard a booming sound, the iron chain corpse king was blown up and broken.

This scene is also seen as Ye Xuan stunned.

"This power is not too big?" Ye Xuan swallowed, he thought he had to make up a few ghosts and gods, did not expect to fall directly to the death of the chain corpse.

After the death of the Iron Chain King, there was also a powerful energy in the body that broke out again.

"boom!"

It was another round of electric snakes, but Ye Xuan had already hid the fall in the pet space, and he and the faint were far away.

The scorpion king was killed by the falling seven-color demon fire, and even the last words were not left.

If it is the whole of this move, even if it is a real Vientiane, I am afraid it will be seriously injured.

When the game was against the King Kong, the fall was also because the realm was too low to play.

Looking at the light in front of the ray gradually weakened, Ye Xuan also rushed past the past, but fortunately this explosion did not blow up the Qiang Kun ring, or Ye Xuan must be hitting the falling butt.

"There are a lot of things, but it's still a lot worse than my breakthrough..."

Ye Xuan shook his head helplessly, and even if he walked over and smashed the hundred-strand chain, he turned back and asked: "Let's fall, you might use this chain."

"Hey, this scorpion king melted him into his right hand, a bit disgusting, let me put it first..."

Falling down a bit reluctantly, she used the third-order Supreme Lingbao before her shackles. If I change this chain, the effect may double.

Now, the Ye Xuan trio has successfully killed a corpse, and Ye Xuan has not used Wan Jian to return to the sect. Then, they may still continue.

"You are faint, how are you?"

Ye Xuan turned and asked.

"No problem, just need to fix the spirit."

The faint shook his head, only when she was hit by the electric snake several times, the spirit was damaged, and as for how to repair it, it is natural to use the ghost.

"Then let's take a day off."

Ye Xuan replied.

Anyway, the time limit for destroying the corpse of the corpse is one month, but he only spent a few days. If there is a corpse king one day, then even the corpse king will not kill enough.

Now Ye Xuan's super swallowing crystal is enough, so Ye Xuan has exchanged something for the secluded, enhancing her strength and safety.

One day later, the cooling time of the Emperor's Promise Sword and the Hundred Heavy Shackles passed, and the faint spirits were repaired.

Then, Ye Xuan is breaking through the void, ready to seduce a corpse king.

Chapter 1076: Two corpse kings

"You continue to wait here, I will try to lure a corpse out!"

Ye Xuan said to the faint and falling.

"Ok!"

The two women nodded one after another.

Immediately, Ye Xuan's deity was to break open the void and went directly to the place where he controlled the elders of the dead.

The elder of the dead has been here, and after seeing Ye Xuan, he hurriedly greeted him.

"There should be six corpse kings in the Temple of the Dead, and you will lead one out." Ye Xuan said to the elder of the dead.

The elder of the dead is the son of the scorpion king, but now the scorpion king has been killed by Ye Xuan, but he was controlled by Ye Xuan, so he could not take revenge.

"Yes, master!"

After the elders of the dead nodded, they left.

In the Temple of the Dead, there were originally seven corpse kings sitting in the town. Now that the king of the chain is falling, there are only six left.

These six corpse kings, except for the red blood corpse Wang Yexuan, have no confidence to deal with, and the other five are not a problem.

Soon, in less than an hour, the elder of the dead was back.

However, this time, there are two people who brought him back.

"Well? Two corpse kings?"

Ye Xuan brows a pick.

The two corpses, one in a green robe, one burly, at least two meters tall.

Before he and the elders of the dead said, don't call the red blood corpse king. As for the other corpse kings, calling two is not a problem.

As for the two corpse kings, Ye Xuan also recognized it at a glance.

Green corpse king!

The tyrannical corpse king!

The green corpse king is the master of refining the poisonous insects in the corpse of the corpse. The green corpse corpse and the deadly poisonous worms hidden in the diamond body are from his hand. His strength is still above the king of the chain.

The violent bear corpse king, after being refining into a war corpse after death, is the fusion of the blood of the **** violent bear of the quasi-passing beast, strengthening the body shackles, and punching directly through the defense of the King Kong corpse, directly giving a heavy blow.

Although the King Kong King is the strongest defense, but the strength is the bottom of the existence, ranking third. The green corpse king and the violent bear corpse are ranked sixth and eighth respectively.

The elders of the dead took two corpse kings and plunged toward Ye Xuan.

"Shen Elder, is the intelligence brought by this kid?"

The two-meter-high violent bear corpse squinted and looked at Ye Xuan.

"Yes." The elders of the dead nodded.

"The kid, in addition to the ghost spirit of the Son, who are two?" asked the tyrannical corpse king.

"It seems to be a ghost and a ghost." Ye Xuan did not want to answer.

Before he was the confession of the elders of the dead, if you bring two people, then add the ghost ancestors of two ghost gods. The ghosts and ghosts in his mouth are the ghost ancestors of the ghost gods.

"It turned out to be the old guy of Ghost Li, more than a decade ago, we are not divided up and down, this time, I must win his soul!" The violent bear corpse eyes.

Ye Xuan glanced subconsciously and found that there were also corpses in the body of the tyrannical corpse. Not only that, but even the gloves in the hands of the tyrannosaurus were smeared.

"In this case, the ghost wind will be handed over to me. As for the ghost son, give it to the chain corpse."

The green corpse king suddenly showed a sinister smile.

The ghost spirit, the ghost, the ghost wind, if it can be successfully intercepted, it is a huge blow to the ghost god.

At this time, the green corpse king and the violent bear corpse king, but there is no doubt, because the chain corpse king has gone, and also the chain corpse king to inform them two, after all, there are three people.

At the moment, the green corpse king and the tyrannical corpse king are rushing to the place where the elders of the dead say.

"You did a good job!"

Ye Xuan is satisfied with the nod.

Immediately, he broke the void directly and left the place.

"Young master, who is this time?"

When Ye Xuan landed, the fall immediately greeted him.

"Green corpse king and violent bear corpse king." Ye Xuan directly replied.

"Green corpse king?"

After faintly hearing the name, the figure trembled, because she was injured several times, almost all related to the green corpse king.

"Don't worry, this time I will kill them directly with the cards!" Ye Xuan's mouth tilted slightly.

This time, but two corpse kings came, just in case, just use the cards.

After all, as long as the two corpses are killed, there are only four of them in the Temple of the Dead, plus five who enter the Ghosts and Lands, and there are only nine.

And Wan Jian returned to the sect, but only three days of cooling time, not half a month, the corpse palace will be destroyed!

Soon, two hours later, there were two breaths that entered the range of Ye Xuan's induction.

"Come on, go!"

Ye Xuan, who was sitting quietly in the ground, suddenly opened his eyes, and the two scorpions directly shot two golden awns.

The next moment, his whole body was wrapped in brilliant gold armor.

Since you want to light your cards, you don't need nonsense. At the same time, this time you may not need to shoot.

At that time, Ye Xuan was directly rushed out.

The reason why he did not take it two hours ago was because he was too close to the Temple of the Dead, fearing to attract other corpses.

Now, it is far enough away from the Temple of the Dead, and the battle is only a few seconds, so he is not afraid.

"Wan Jian returned to the sect, go!"

Ye Xuan directly lost the Zhentian sword in his hand, and the latter suddenly turned into a front, like a group of wild geese, looting toward the front two figures.

"what?"

The green corpse king and the violent bear corpse king were shocked. They just sensed the faint breath. The other party actually shot, and the reaction was too fast.

However, they then knew that it was not the ghost ancestor who sneaked on them, nor the ghost son, but a child of the Eight Gods.

"This kind of trick, dare to deal with us?"

The violent bear corpse king is very disdainful, facing the thousands of Zhentian swords, he directly shot his hand.

A bear-like attack blasted and hit directly on hundreds of Zhentian swords. However, the Zhentian sword is also the top Supreme Lingbao. It was only after being shaken for a while, and it continued to move toward the two bodies. The king plundered.

The return of Wan Jian to Zong is the biggest card of Ye Xuan. These thousands of Zhentianjians are plucked out. Even if they are the masters of Vientiane, who have the power of Vientiane, I am afraid they will not be underestimated.

The violent bear corpse king and the green corpse king, even the ghostly sacred son, can not be regarded as a Vientiane, can only be regarded as a pseudo-Vientiane.

Thousands of Zhentianjian immediately surrounded the two corpse kings, and only one face-to-face, the violent bear corpse king and the green corpse king felt a great pressure.

"The old bear is back!"

The green corpse king's face was gloomy. Suddenly, a huge parcel was taken out from the Qiankun ring. Facing the attack of thousands of Zhentian swords, he directly threw the huge parcel into the sky and punched it on it. .

Chapter 1077: Ghost **** crisis

"Hey!"

This huge package was blown up, and suddenly a lot of green powder floated out. Many of the stunned swords were contaminated with these green powders, and they immediately gave off a sizzling sound, which was directly corroded and broken.

"Well? Actually hurt the earthquake sword?"

Ye Xuan was shocked. This green corpse king was a bit resistant, and even a single shot destroyed hundreds of Zhentian swords.

However, there are more than 800!

At the same time, Ye Xuan took advantage of this opportunity, approached the two corpse kings, and then explored with both hands.

"Golden Dragon Hand!"

"Golden Dragon Hand!"

Two dragons and hands, directly caught the body of the green corpse.

"What, magical?"

The green corpse king and the violent bear corpse king were shocked. They are not ordinary people. Even the Wanhua Valley owners can see at a glance that they are magical, they can.

"I want to trap me, no way!"

The green corpse Wang Shuguang flashed, and in the next moment, there was a green light in his body.

"Hey!"

A loud voice spread, Ye Xuan stared at it and found that the golden dragon hand was shocked to collapse.

At this time, the violent bear corpse on the side hurriedly took a shot and directly blasted the two golden dragons.

Ye Xuan, who saw this scene, couldn't help but sigh: "It's a bit tolerant. It seems that it is difficult to clean up you without the sword."

In the next moment, thousands of Zhentian swords were turned into giant swords and then crashed.

"Hey!" "Hey!" "Hey!"

A giant sword fell, and the violent bear corpse king and the green corpse king were trapped in the middle. At the same time, the fall suddenly appeared.

"Seven colors of demon!"

More than 30 fallen and attacked against the Spirit Sword, and hundreds of enchanting flames fell into the spirit sword array.

Although many were smashed by the Green Nether King and the violent bear corpse, at this time Ye Xuan was attacking them with the eyes of decomposition, they could not solve all the demon fires.

When more than thirty purple demon fires fell into the spirit sword array, these demon fires were suddenly connected. In the meantime, the spirit sword array exudes a powerful and powerful atmosphere.

"Seven-color demon fire, burst!"

Falling into the mind, directly detonating those demon fires.

"Booming!"

It was also a loud bang.

Falling down this trick, the seven-color demon fire with the hundred heavy demon fox avatar, the power is huge, this green corpse king and the violent bear corpse king is not dead, it must be seriously injured.

"Wan Jian is returned to the ancestor!"

After the explosion, Ye Xuan immediately drove the Zhentian sword. The two corpses in the head did not die, but then they could not stop the sword from returning to the past.

"No, I won't die here, how can I die here!"

"who are you?"

The green corpse king and the violent bear corpse violently yelled.

However, Ye Xuan did not want to answer the meaning, directly attack.

"Golden Dragon Hand!"

"Golden Dragon Hand!"

At this time, the green corpse king and the violent bear corpse king were all seriously injured and could not resist these attacks.

In the meantime, they were caught by the dragons, and what they had to face was the baptism of the sword.

"The sword is returned to the sect!"

Hundreds of Zhentian swords swept away like a hurricane, even if the green corpse king and the violent bear corpse king are masters of the Vientiane level, they can not stop this blow.

At the sight of insight, Ye Xuan saw that the upper body of the two men was directly cut into meat, leaving only two legs.

At the moment, Ye Xuan is plundering the past, and the two people are scattered.

"A lot of corpses should be directed at the spirit..."

Ye Xuan said nothing, devour all these things.

The corpse temple and the ghost gods have been playing for so many years, and the ghost gods also do not have the human masters of Vientiane, so the poisons developed are almost all directed at the ghost ancestors, and these poisons are not living things, so Ye Xuan can swallow.

"It's still a little worse, it is estimated that I have to kill two more corpses..."

Ye Xuan's light flashes.

These corpse kings are extremely rich in their own body, and they can create more than a dozen martyrdom masters, but the experience he needs to upgrade is too much.

Today, he used the sword to return to the sect. Then he needs three days of cooling. After three days, he estimates that he can break through to the nine gods.

At that time, even if he does not need to return to the sect, he can also deal with the corpse temple.

"Young master, according to this speed, the corpse palace will soon be destroyed." Fallen face said excitedly.

"Well, after three days, we can almost directly kill the Temple of the Dead."

Ye Xuan nodded.

The faintness on the side also felt incredible. This time, she did not shoot. The leaves of the two corpses were destroyed by Ye Xuan and the two.

Counting this time, there are already four dead kings who have died in Ye Xuan's hands. They are the King Kong King, the Iron Chain King, the Green Nether King and the Tyrannosaurus King. Among them, the Green Ghost King is in the Temple of the Dead. Among the thirteen corpses, it ranks sixth.

"There are still three days left, and I can use this time to rob the forces of the corpse temple..."

Ye Xuan's mouth was slightly tilted, and in three days, he could once again improve his strength.

However, it is at this time.

The faint message sent to the ghost god, suddenly received an urgent message from the ghost god, now, her face is a change.

"What's wrong, secluded sister?"

The fall noticed the faint expression and asked directly.

"One third of the sites in my ghost gods were scattered with blood plagues. Once the ghosts touched the blood mist from the **** plague, they would fly away." The faint answer.

"Blood plague?"

Ye Xuan's brow was picked and said: "This blood plague is stronger than the green corpse of the green corpse king?"

"The blood plague that spreads this blood is the blood smelt of the red blood corpse king, so this blood plague should be made from the red blood corpse king, and my ghost **** seems to have no way to suppress the plague, so the master let I immediately went back and killed the red blood corpse king." Quietly replied.

"Red blood corpse king..."

Ye Xuan whispered, he was already killing the green corpse king, but the red blood corpse king in the corpse palace will also refine poison, etc. This blood plague should be the red blood corpse king recently refining. Made out, otherwise the site of the ghost gods has long been a land of plague.

"If this is the case, then we will go back and kill the corpses of these red blood corpses first, and stop the plague from continuing to expand." Ye Xuan said.

This blood plague will continue to expand automatically, and at the same time, the corpse of the red blood corpse will spread in the dark. When the ghosts encounter the blood fog from these plagues, they will be scattered. Therefore, this task can only be carried out by humans.

The ghosts of the ghosts and gods in the Vientiane are only those ghost ancestors, and the strongest human beings are also martyrdom. They may enter the blood plague.

Chapter 1078: Blood plague

However, don't forget, the corpse palace sent five corpse kings this time, even if the King Kong King was fallen, there are four corpses.

If no measures are taken, the site of Ghost Shenzong will shrink rapidly. At that time, I am afraid that it will be suppressed in the ghost gods, and the blood plague will surround the ghost gods.

Once this happens, the ghost gods are finished.

At the moment, Ye Xuan directly broke through the void and returned directly to the ghost god.

"It's secluded, you are back!"

They have just returned, and the ancestors of the ghost gods are swept over.

"Master, what should we do now?" Quietly asked.

"The corpse kings sent by the corpse palace, we can deal with them, but they are now hiding in the blood plague, we can not step in, can only see the blood plague rapid expansion. We also sent a lot of elders to go Stop the plague, but they are all killed by the corpse kings, so..."

The ghost **** ancestor will take a look at the head and put his gaze on Ye Xuan's body. He said: "Ye Xiao brothers have the strength to kill the green corpse king and the violent bear corpse king, so I am here to ask Ye Xiao brother to shoot..."

The **** plague incident, I am afraid that only Ye Xuan can save the ghost gods.

If he does not take the shot, there is no way for the ghost gods, unless there is a human being in Vientiane, or you can only see the rapid spread of the blood plague.

"I can kill the green corpse king and the violent bear corpse king, but also rely on a hole card, but this card I can not use now."

When Ye Xuan finished, the brow suddenly picked and said: "So, I need a lot of heaven and earth treasures, as long as I can break through, then the corpse king of the corpse temple is in my eyes, just like an ant, I even destroy the whole The Temple of the Dead!"

When the words came out, the ghost gods and the ancestors who gathered together were all shocked.

Kill the Temple of the Dead!

This sentence, even from the mouth of a sorrowful sorrowful child, if the average person will definitely turn a blind eye, mocking Ye Xuan is not self-reliant.

However, the faint sorrow has already passed back the death of the green corpse king and the violent bear corpse king.

The sixth corpse of the corpse palace and the eighth-ranked violent bear corpse king, have fallen, and the people who killed them are Ye Xuan.

Therefore, with Ye Xuan's words, no one on the scene dared to doubt.

"Ye Xiao Brothers, as long as you can help me to go through this robbery, even let me fly away!" After the ghost **** ancestor finished, he took off his own ring and threw it to Ye Xuan.

This is a special sacred ring that can be used by ghosts, and humans can.

After Ye Xuan's acceptance, the two sisters could not help but explode two fine mansions, and said with a dignified face: "Well, after half a month, the corpse palace will cease to exist!"

This promise made the ghost spirit ancestors in the room relieved, and the ghost **** ancestor was under the blood this time, because he has lived for thousands of years, and his family is more than the four corpses killed by Ye Xuan. .

These things are enough for Ye Xuan and the fall to break through!

"Ye Xiao Brothers, how long does it take you to break through?" asked the ghost **** ancestor.

The current crisis is imminent. Every day, the site of the ghost gods will be eaten by the blood plague, and the scope of the ghosts will continue to shrink.

"No, I can leave immediately, and ask the seniors to tell me the specific information."

Ye Xuan said directly.

"Well, you speed up to collect intelligence!"

The ghost **** ancestor immediately shouted.

At the moment, these ghost spirits and other disciples are quickly leaving, leaving only Ye Xuan three.

"Hey, I thought it would take three days to break through. It doesn't seem to be necessary now."

Ye Xuan sneered in his heart, and the next moment, his breath is skyrocketing.

"Hey, the host breaks through, and it's currently a disaster for the nine gods!"

A system prompts to sound, and Ye Xuan finally broke through to the nine gods. However, this is only the first time to enter the Nine Gods. Only by reaching the peak of the Nine Gods, can we know whether there is a breakthrough level in the breakthrough of Vientiane.

Since Megatron has already broken through to the limit, if Ye Xuan does not break through, it can't break through, so Ye Xuan does not need to swallow the ore.

"Let's fall, these things are for you."

Ye Xuan directly throws the rest of the things to the fall. With these things, the fall should be able to break through to the nine gods within three days, and even use Vientiane.

Soon, the masters of the ghost gods were gathered again, and the ancestors of the ghost gods sorted out and handed the latest information to Ye Xuan.

"Digging the corpse king, just half a hour ago, I just slaughtered a city. The bones of the corpse, the king was destroyed two hours ago..."

Ye Xuan glanced.

The corpse of the corpse originally sent five corpse kings to the ghost gods, and was previously killed by Ye Xuan with a King Kong corpse, so there are still four.

These four corpse kings are spreading in four directions and continue to spread blood plague.

"Well, I am leaving now!"

Ye Xuan received this information, and also took a piece of ghost bones used for communication, and then received the news in real time.

At this time, other talents found that Ye Xuan's breath was different, and it has already broken through to the nine gods.

"How did he cultivate?"

The other people present did not understand. They had not left for two minutes. It was really unbelievable that Ye Xuan had just broken through from the Eight Gods to the Jiu Shen God.

"You seniors, I will take a step!"

Ye Xuan did not say anything, and broke away from the void.

As for the fall, it is to stay in the ghost gods to practice.

The masters of the ghost gods looked at Ye Xuan and went away, but also revealed a strange look.

The ghost gods passed down the millennium. When it was a great disaster, it was the first time that an outsider had to help.

However, they are very confident about Ye Xuan's strength. I hope this time, Ye Xuan can really help them through this disaster.

If you can destroy the Temple of the Dead, then it is even better. At that time, the land of the dead is the calculation of the ghost god.

At this time, Ye Xuan has already left the ghost god.

He is now a martyrdom of the Nine Gods, and even if the deity is separated from the avatar, there will be no major problems.

Therefore, he chose to act separately.

"White bone corpse king, corpse king hall ranked seventh; dig corpse king, corpse king hall ranked fourth; Frost corpse king, corpse king hall ranked twelfth; red corpse king, corpse king hall ranked eleventh....."

Ye Xuan thought in his heart.

Among the remaining four corpses, it is more difficult to dig the corpse, and the strongest, ranking fourth.

As for the remaining two corpse kings, the strength is bad, but it is nothing.

However, Ye Xuan took the principle of proximity, and first did the latest Frost King and Red Yan King.

This icy corpse king and the red corpse king are only one day away from the ghost gods.

Chapter 1079: Conquer the corpse

In the day of this hurry, the white bones in Ye Xuan's hands are also constantly receiving new news from the ghosts and gods.

At this moment, Ye Xuan looked at the red fog area in front and stopped.

"This is the blood plague, this blood poison has a huge damage to the ghost, even if the ghost ancestor is likely to fall ..."

Ye Xuan glimmered and rushed into the inside.

"Hey, the host is immune to the toxin!"

The system prompts.

Although the blood plague has great harm to the ghosts, but for humans, there is not much threat, let alone Ye Xuan, who has the blood of the **** of life.

Ye Xuan got into the red fog area and soon found a city.

The people in this city have been slaughtered by the Frost King, and it is already a dead city. Even if someone repents into a ghost, they are also smashed by blood plague.

"According to the news from the Ghosts and Gentlemen, the Frost King had just visited the city half an hour ago, so it should be near here!"

Ye Xuan quickly summoned the avatar and then searched for it in the **** plague area with the eye of perception.

In less than ten minutes, he found the skunk corpse on the edge of the blood plague.

"Got you!"

Ye Xuan glimmered, once again summoned the avatar in the search, and then fit.

"Ok?"

The corpse king who is ready to continue to expand the blood plague, sensed the breath of Ye Xuan, and immediately became a brow.

"Hey, it's another elder elder who came to die. I'm afraid to come to me if I'm in trouble."

A tall man with a pale blue skin flashed.

He thought that Ye Xuan was only the elder of the ghost god, but soon he regretted his own intentions.

"The Eye of Brilliance!"

"Golden Dragon Hand!"

Ye Xuan is close to the skunk corpse and directly plays the cards.

He is arrogant, and he uses the eye of glory. The strength is already strong and explosive.

Moreover, the dragon hand is still a magical power.

The skunk corpse has not yet reacted, but it was shackled by two golden dragons.

"Zizi!"

The blood of the corpse of the corpse is full of death, and the flesh and blood that touches the golden instinct is burnt and fleshy.

"The little nine gods are difficult, even if they use the magical powers?"

The skunk corpse screamed, and then there was an ice power that wrapped his body and condensed a set of ice armor.

However, this set of ice armor has not been adhered to for a second, is the two golden dragons hand to give birth to life.

"Hey!"

The armor of the ice was smashed, and at the same time, Ye Xuan's eyes were flashed with a touch of color.

"Try this trick!"

Ye Xuan's right fist suddenly slammed out, and this punch was the secret of the ghost gods.

Since he has already broken through the martyrdom of the nine gods, Ye Xuan can devour the ghosts of the three sacred gods, and his strength has skyrocketed a lot.

In addition, when he was on the way, he used the high-level Wu Jiandan to directly comprehend the strength of the sword and the level of the sword. Therefore, the power of this boxing was powerful.

"What, impossible!"

Looking at this ghostly boxing with a strong power, the face of the Frost King is greatly changed.

The power of this boxing is probably stronger than the golden dragon hand!

"boom!"

The ghost **** fist hit the ice corpse in front of him, and instantly smashed it into pieces.

Ghosts and gods can only be regarded as pseudo-sacred, not supernatural.

However, the power of Ghosts and Devils is stronger than that of the Golden Dragons. It is because Ye Xuan is only a level of Jiu Shenshen. It is impossible to fully exert the power of Shentong. Only in Vientiane can the power of Shentong be fully realized.

"Now the corpse king is in my eyes, it is the ants, my strength, should be able to fight against the humanity of Vientiane?"

Ye Xuan looked at the corpse in front of him, muttering in his heart.

Vientiane masters can use the power of Vientiane, even if it is ten Frost Kings, I am afraid it is not his opponent.

At the moment, Ye Xuan is plundering the past, and will accept the sacred corpse of the ice corpse.

It was not until this time that he suddenly remembered that he still had the eye of control.

"But, the next time you meet the corpse king, control it!"

Ye Xuan seems to be calm, after all, a corpse-level thug is dispensable.

After solving the Frost King, he was once again emptied and returned to the position before the avatar.

The avatar is also quick to find the red corpse king, and now the deity also came to search, it is estimated that it will be found soon.

Sure enough, he did not expect it. In less than half an hour, he sensed a hot breath.

Red corpse king!

"Finally I find you!"

Ye Xuan's flash of light flashed directly to the red corpse king.

This red corpse king is still swimming in the blood plague area, blood plague is deadly for ghosts, but for humans, it is nothing, as long as the ghosts receive 10,000 ghosts, so Some people still stay in the blood plague area.

"Ok?"

Finally, the red corpse king found Ye Xuan, when he turned his head and looked at it, his head was a sting.

"The Eye of Burning!"

Ye Xuan is now a martyrdom of the nine gods. The red corpse king is just a level of Vientiane. They are only one realm, so Ye Xuan's mental attack is still very effective.

"What kind of ghost thing, Lao Tzu has been quenched with flame for hundreds of years, this trick actually burns my will directly?"

However, he is also an old corpse who has lived for hundreds of years. His willpower is very strong, and he can still persist in his mental assault.

Once he burns the eye twice, he can hold it down.

However, if it is five times, ten times?

No, with the strength of Ye Xuan now, the fourth burning eye of the district, this red corpse king is already suffering.

"Be a slave to me!"

Ye Xuan saw almost the same, that is, directly use the eyes of control.

"Hey, control failed!"

The corpse of the corpse of the corpse is really a bit tolerant, and the will is weakened so much that it can withstand the eye of control.

However, after the system sounds, another prompt sounds.

"Hey, take control of success!"

The red corpse king has not been shot by Ye Xuan, but it is directly controlled.

"See the host!"

The red corpse king kneels down on one knee.

Ye Xuan said nothing, directly took off his Qiang Kun ring, and then asked: "Is this blood poison plague, is there an antidote?"

"I am not sure as well."

The red corpse king shook his head and said: "This blood plague is the red blood corpse king and the green corpse king spent decades on refining success. If there is antidote, it should be on the red blood corpse king."

"Red blood corpse king?"

Ye Xuan brows a pick, this red blood corpse king is sitting in the temple of the corpse at this time, in the spread of blood plague is only its avatar.

Chapter 1080: Kill the door?

"How many hidden corpses are there in the Temple of the King?"

Ye Xuan asked again.

"There are two more, the strength is not weaker than the red blood corpse king." Red Yan corpse directly replied.

"There is nothing hidden."

Ye Xuan brows a condensate.

That being said, there are fifteen corpse kings in the Temple of the Dead.

Then, Ye Xuan asked some things, and then continued to the red corpse king: "Then you will go to destroy these red blood."

Although the strength of the Red Emperor King is weak, he and the incumbent Lord of the Dead Temple are the brothers of the Red Blood King. Let him kill these red blood, which will be easier than others.

The spread of blood plague is very alarming, but most of them are ghosts of red blood. If the blood plague spreads by itself, the speed is estimated to be only one-fifth.

"Yes, master!"

After the red corpse king nodded, he left directly.

Now, Ye Xuan has already solved the two corpse kings. After the departure of the Red Emperor, he immediately sent good news to the ghost gods. Then he went to the next location again.

The white bone corpse king and the dig corpse king also have a distance of one or two days from him. Ye Xuan estimates that as long as the white bone corpse king is solved, the cooling of Wan Jianguizong is almost the same.

One day later, Ye Xuan also directly found the white bone corpse king.

This white bone corpse tempered the skeleton, has a set of white bone armor, the defensive power is second only to the King Kong corpse, but his strength is much stronger than the King Kong corpse.

The white bone attacks similar to the ghosts and gods used by the elders of the corpse are the ones created by the white bones.

This time, Ye Xuan is also ready to control with the eyes of the control.

Although the strength of this white bone corpse is strong, but the speed is much slower than Ye Xuan, the latter directly smashes each other with the golden dragon, and then slowly tortures.

"Hey, take control of success!"

After the four burning eyes, the white bone corpse was conquered by Ye Xuan. After Ye Xuan emptied his Qiang Kun ring, he left again.

As a result, only the digger was left.

.....

"The corpses are the refining of the digger, and at the same time, the corpse king is proficient in the operation of the corpse. The dragon does not see the head and tail. The last time he appeared, it was half a day ago..."

Ye Xuan came to the place where the digger was half-day, and he felt that the digger was a bit tricky.

This digs the corpse to come without a trace, and moves under the ground. There is no way for Ye Xuan to take him.

However, the blood plague was mainly spread by the corpse of the red blood corpse, and Ye Xuan also encountered this avatar on the way.

This red blood is actually a blood corpse. As long as they come to a place where there is no blood plague, they will spread the blood in their own body. After the spread, they will die, and then the blood poison will spread rapidly. And slowly spread.

Therefore, Ye Xuan feels that it is useless to kill this blood corpse, and it is better to cure the symptoms than to cure the roots.

However, there is only one digger who is still wandering around here, so the ghost **** can send a master to the edge of the blood plague, and once the blood corpse is found, it will be directly killed.

At the same time, they can also enter the area of blood plague and begin to develop antidote to prevent the plague from spreading.

Ye Xuan searched for a while in the place where the dig corpse appeared, but did not find any strong breath.

"Hey, Wan Jian returned to the end of the cooling time!"

Just as he searched, the system prompt sounded.

Now, Ye Xuan has already had the capital to kill the corpse of the corpse, and there is a sword in his hand. Even if all the corpse kings in the corpse palace are together, he is not afraid.

At this moment, the site of the ghost gods is already filled with three-fifths of the blood plague.

"Young master, I broke through!"

Shortly after the completion of Wan Jian's return to the ruins, there was news from the fall.

"Good, I will pick you up, then let us kill the Temple of the Dead directly!"

Ye Xuan nodded, even if it broke open the void, returned to the ghost gods.

"Ye Xiao brother, that digs the corpse king..."

Seeing the return of Ye Xuan, the ghost **** ancestor also hurriedly asked.

"I didn't find it, there is no trace of him at all, so I want to kill the temple directly."

Ye Xuan shook his head.

"Killing to the Temple of the Dead?"

After the ghost **** ancestor heard this, his eyes suddenly lit up.

Before they all worried that the blood plague spread to the ghost gods, but completely ignored.

The corpse palace, at this time is already a few dead corpses, King Kong corpse king, iron chain corpse king, green corpse king, violent bear corpse king, frost corpse king, not only that, the red venom corpse and the white bone corpse king also Controlled by Ye Xuan.

There are seven corpse kings, not dead, or controlled by Ye Xuan.

If you add a digger who is still wandering outside, then the combat power of the corpse palace is comparable to that of the ghost god.

"Haha, we have forgotten this point. In the temple of the corpse, there is a red blood corpse king, and it is only five corpses."

The ghost **** ancestor suddenly laughed.

The corpse temple is the five corpse kings, while the ghost gods have fourteen ancestors, although they can not break through the **** plague area, but Ye Xuan has a hollow eye.

As long as Ye Xuan breaks open the void, then they can all go to the Temple of the Dead.

The ancestors of the four ghosts of the Vientiane level are enough to crush the five corpses of the corpse including the Red Blood King. Even if there is a hidden corpse king in the Temple of the Dead, it is impossible to rival the ghost god.

In fact, even Ye Xuan himself forgot that he could use the eye of the void to go straight to the enemy's nest.

"Okay, then we will kill the corpse temple together, but I have a request, you just need to hold them, you must kill me."

Ye Xuan said directly.

His serial random task is to destroy the corpse palace, but this task is a bit unspecific, how can it be regarded as the corpse of the corpse?

Killed the lord of the corpse palace?

Or did you dismantle the entire corpse temple?

Therefore, Ye Xuan aims to kill the lord of the corpse, that is, the red blood corpse king, and then the entire corpse temple is removed, it should be able to complete the serial random task.

"kill?"

After hearing the ghost **** ancestor Ghost River, although I don't know what Ye Xuan is doing, it is a small matter.

"If that's the case, then let's kill it today."

The ghost **** ancestor was in a hurry and immediately summoned the ghost ancestors.

This time, he wants to commit suicide, and there are also nine ghost ancestors, including faint.

Ten ghost spirit ancestors, plus Ye Xuan and Fall, this time the Temple of the King will be destroyed.

After the ghost gods and ancestors were ready, Ye Xuan also directly broke the void and came to the place where the elders of the dead were conquered.

It's only half an hour away from the Temple of the Dead, but at their speed, it's not even ten minutes.
