

Super D. S 11

Chapter 11: Rapid improvement

"The martial arts are ten heavy, each one can increase the strength of one hundred kilograms. I have six or seven hundred kilograms of strength in a single punch. Together with the increase of two martial arts, I should be able to kill three monsters and below." beast."

Ye Xuan said, that is to prepare to leave, there is nothing valuable in this green pig, the whole body is estimated to be more than a dozen silver.

However, at this time, Ye Xuan's footsteps suddenly burst into a whisper: "The phagocytic system can swallow all things, can the corpse of this monster be swallowed?"

He walked back again, then knelt down and opened his mouth.

Sure enough, the body of the green pig began to shrink and was swallowed up by him.

"I can really swallow, and there are spiritual benefits, haha, then I can kill the monsters, can you upgrade?" Ye Xuan overjoyed, this is an upgrade channel for him.

However, the level of this green pig is too low, and the power of the phagocytic system is not much, so that Ye Xuan can't calculate it. In the end, it is to take the body to sell the money, or to swallow it directly. He doesn't know which one is more cost-effective.

However, direct phagocytosis is obviously more convenient.

"Hey, it's quite awkward to devour with your mouth. If you are found, you will probably be killed as a monster. Or get three points to swallow the points early, so you can change your hand to swallow, and you can swallow it by hand." "

Ye Xuan shook his head and then continued on his way.

On his way, he was in the swallowing system and found a lot of good things.

In addition to the world's exercises, there are other things, such as magic, vindictive, but these skills require specific blood, such as the magician blood.

Ye Xuan thinks it is still a problem. These are all sci-fi. This is a fantasy world after all. It is too illegal to change these things, or change the martial arts.

He walked alone in front of him and killed him when he met the monster.

"The third-order monster black leopard, pick me up!"

"The second-order monster beak fangs wolf, also pick me a punch!"

"The third-order monster beast..."

Ye Xuan is boiling all over, because every time he kills a monster, his strength will grow, which is exactly the same as the game's killing monster upgrade.

However, the phagocytic system is not omnipotent. The golden ball is just a dantian. His spiritual power is not infinite. If you run out of light, you have to sit down and run the exercises to restore your spiritual power.

Within a day's time, Ye Xuan was killed in the sixth mountain range. There are many third- and fourth-order monsters here, and he is also quicker to ascend.

"If you go at this speed, you should be able to break through to the fifth middle of the martial arts in three days."

Ye Xuan estimated in his heart.

He had estimated that it would take 500,000 yuan to upgrade. Now in this Lianyun 18 mountain range, it only takes four days, and about 100,000 yuan of silver is earned every day.

Of course, this is to exchange the killing of the beast and the silver two.

If you really want to come in and make money, it is estimated that you will earn less than 10,000 yuan and you will go out. After all, the general warrior will cut it after killing the monster, and then close it up.

Everyone will not carry too many parcels. If things are full, they will have to go back and sell them. This is a multi-day. Therefore, silver is still relatively difficult to earn, but Ye Xuan is more convenient.

At this point, Ye Xuan is resting on a tree, looking at the good things in the phagocytic system to solve the problem.

However, at this time, suddenly a gust of wind caused his attention.

"There is something!"

Ye Xuan immediately sat down, and his right hand was placed on the sword of the next product, listening carefully.

Forests at night are more dangerous. Most people spend the night on trees and rarely move in the forest. Moreover, Ye Xuan can also hear that this wind and grass seems to be the sound caused by the monster beast.

"Oh la la!"

There was a voice not far away.

Ye Xuan frowned and turned to look at it, but because the surroundings were too dim, I couldn't see what the monster was.

The sound is getting closer and closer. This monster is just coming in the direction of Ye Xuan. However, when it appears under Ye Xuan's eyes, it also makes the latter's body shape tremble.

"Oh, I am a siberian husky. It turned out to be a big python."

Ye Xuan saw that this is a monster, a three-meter-long big python, whose body radius is faster than Ye Xuan's thigh.

"This seems to be a white scale, and after the adulthood is a fourth-order monster." Ye Xuan recognized it.

The fourth-order monster, even if it is more powerful, is only the warrior of the fourth peak of the martial arts. Ye Xuan is the fifth most important martial art, and his martial arts is more advanced, so it should not be a problem to deal with.

This white scale does not seem to see Ye Xuan, directly under him.

"This is the first fourth-order monster I have encountered. After killing it, I guess it can improve a lot, kill!"

Ye Xuan clenched the hilt and suddenly took out the sword, and then directly went to the white scales.

Although he has not learned any swordsmanship, in the case of level suppression, it is not a problem to kill this white scale.

"Hey!"

But what Ye Xuan didn't expect was that his sword was squatting on the scales of the white scales, and it made a crisp sound.

No break!

"what?"

Ye Xuan was shocked, it is difficult, he admits the wrong monster?

"Impossible, I can't break a sword with all my strength..." Ye Xuan couldn't believe it, but after he took a closer look, he discovered that the scales of this white scale had a black luster, just because it was The tree, so he did not find it.

The white scales were attacked, and immediately turned around, and opened the blood basin and bite into the neck of Ye Xuan.

"Through the back boxing method, the bull is shocked!"

Ye Xuan's left hand became a punch and slammed directly on the chin of the white scales and repulsed it. At the same time, he once again took out a sword and squatted on the original part.

"Hey!"

The second sword still does not break the defense of the white scales.

"It's weird, this is not an ordinary white scale." Ye Xuan was puzzled.

At this time, he had a sword again, this time, it was a thorn.

The sword stabbed into the gap between the scales of the white scales, and a crisp sound spread, breaking the defense!

"As long as you can break your defense, then I will kill you!" Ye Xuan was overjoyed.

This white scale is not very strong, but the scales are very hard, but Ye Xuan's hands are fortunate to have a lower-handed ware that can attack the white scales.

Otherwise, he must punch the python.

A few rounds down, the white scales were also stabbed by Ye Xuan, and the next moment, it turned out to be deserted.

"Want to go, not so easy!" Ye Xuan rushed to catch up, but he did not dare to make too much movement, after all, some monsters are night group activities, in case of hit, it can be troublesome.
