

Super D. S 1131

Chapter 1131: Raksha City

At the moment, the owner of Leiguang City went to the treasure map of the Thousand Tree School, and the head of the city government gave the remaining 30 million soul spar to Ye Xuan.

These 30 million soul spar, 20 million were replaced by Ye Xuan into ore, Tiancaibao and so on.

Later, Ye Xuan lived in the city government.

After the departure of the city's main manager, Ye Xuan did not hesitate to devour all the ore and soul spar.

"Hey, the host breaks through, and it is currently eightfold in Vientiane!"

The system prompts to sound.

Not only that, Megatron also broke through to the Vientiane, and reached the ambiguity. If Ye Xuan does not break through to the glory, Megatron will always be here.

"The strength of the soul is much stronger than before, and my strength has increased by at least three times!"

Ye Xuan's self-confidence suddenly burst into shed, and suddenly he had an urge to find Mo's blood.

Nowadays, it is only three days since the first day of the war. Although Mo Xueyi is a reincarnation, he has just broken through the five-fold situation in Vientiane and has been sixfold in Vientiane. It should not be so fast.

Now, Ye Xuan is eightfold in Vientiane, plus Megatron, it should have the strength to deal with him.

It's a pity that he doesn't have the traces of Mo's blood clothes now. I don't know which corner of the world is in the world. If you go out and look for it, it's a waste of time.

"There is no time limit for the revenge mission anyway. These three points are swallowed up, I will temporarily put it, now my mission is to break through!"

Ye Xuan no longer thinks about the problem of blood.

When the owner of Leiguang City was looking for a treasure place, Ye Xuan also returned to Hujiazhuang, and gave the top heaven and earth treasure to the land.

Falling is already fivefold in Vientiane, but compared to Ye Xuan, the realm is too much, so Ye Xuan first let her break through quickly.

One day later.

Ye Xuan felt that the time was almost the same. He also deliberately went to the head of the city government and asked about some things.

After seeing Ye Xuan, Mr. Xie, who was waiting for the city's main government, was shocked. "Ye Xuan, this is just a day, you broke through?"

"Yes, Mr. Xie, when I killed the blood butcher on the same day, I was about to break through. Now I got the treasure of Tiancai. After refining, I broke it." Ye Xuan solemnly replied.

"Where the Vientiane is seven, you can kill the bloodstain. Now you can break through to the Eight Diagrams of Vientiane. Your strength may be comparable to Vientiane."

The head of the city's main office, the old man's eyes, said: "You are just right, the city owner has already deciphered the treasure location of the treasure map. Are you interested in joining the expedition team?"

"Oh?"

Ye Xuan put on a very strange look and asked: "Thank you, the boy is trying to find a place to try his hand."

"Well, then the expedition will add you. This time, the city's main government is also a nesting, and the city leader will lead the team. However, you have to be prepared, this thousand-tree branch is not so easy, and may also There are enemies," said the head of the city government.

"enemy?"

Ye Xuan is slightly different. He knows that the enemy in the mouth of the city's main government should not be a danger in the treasure, but a human being.

"Yes, this treasure land is just under the Raksha City. My relationship between Leiguang City and Raksha City is not so good, but the land of the treasure is just below this Raksha City, so we must be with Luo. Contact with the city." The head of the city government nodded.

"There are enemies!"

Wen Yan, Ye Xuan said in the heart, so that he can upgrade.

"The expedition will start tomorrow. We will first join the three families of Leiguang City to travel to Raksha City, and then discuss specific matters with each other!"

The head of the city government continued.

"understand!"

Ye Xuan nodded.

Immediately, it is to leave directly.

In addition to the city government, there are three major families in the city of Leiguang. These three families have nine masters of Vientiane.

The danger of this thousand-tree faction is not small, so at least it is necessary to come to Vientiane's eight-eight masters. The total number of people adds up, but it is still no more than twenty.

Soon, the next day is coming.

Ye Xuan came to somewhere in the city's main government. At this time, there are already many people here.

This time, the main city of Leiguang City was led by the city's Lei Guang, a strong enthusiasm, in addition to Lei Guang's son Lei Ming and Xie.

Thunder has also been ninefold in Vientiane and its strength is not weak.

In addition, there are three other eight-dimensional offerings, and Ye Xuan is four.

"He is Ye Xuan who just recruited a few days ago. It is really good. At a young age, it is eightfold in Vientiane. It is much more powerful than me."

"It is true that this kid's sense of killing is so strong that it is obviously smashed out all the way. Unlike the children of the family, it is uplifted by the refining and natural heaven and earth, and the combat effectiveness is low."

"It is said that he killed the blood-stained figure when he was in the seven-day situation in Vientiane. He won a treasure map. In these few days, he broke through to the eight-fold environment of Vientiane. The strength is not weaker than us."

The worship of the three city government houses is whispered.

After seeing Ye Xuan coming to the side, Ye Xuan slammed into the sky, and then the air was lowered.

This is a purple double-headed dragon, which is the mount of Leiguang. It is the first-order nine-pronged beast, which is the nine-fold corresponding to the Vientiane.

Lei Guang took everyone to pick up the masters of the other three families.

In the home of Lei Guangcheng He Lian, several people looked at the double-headed dragon and plunged into the sky.

"Thank you for the city!"

An old man headed for the light and clenched his fists.

This time, Lei Guang took the initiative to invite these three families to work together, and did not accept the text.

This thunder is among the strong ones that Ye Xuan saw. It is not bad.

Soon, all three families were on the back of the two-headed dragon.

These three families have come to a nine-point master in Vientiane and two Vientiane.

In total, Leiguang City has a total of one secluded place, Vientiane has nine places, and Vientiane has eight places, exactly fifteen.

Subsequently, the two-headed dragon flew to Raksha City.

Presumably, the city of Rakshacheng will not know that the treasure tree of the millennium was at their feet.

Raksha City is a short distance from Leiguang City, but the double-headed dragon is extremely fast. In just two days, it was rushed to Raksha City.

They first entered the city of Raksha, but with so many strong people coming in together, it must have attracted the attention of the generals.

However, this does not matter. After all, Lei Guang was originally looking for the main business of Raksha Castle.

Such a large group of strong people rushed toward the main city of Raksha City, and soon they arrived. But at this time, the city of Rakshacheng City has come out to meet in person, he got the news, there is a big wave of strong people coming to the city government.

"Ray Light, what are you doing to my Rachah City?"

Roxa, the main city of Raksha City, looked at Lei Guang and yelled.

Chapter 1132: Cooperation

Rakshasa City and Raytheon City were built by Rakshasa and Leiguang, and they are all named after them. It is a bit like. However, it is just a name. The two of them are meeting now. It is a miracle not to start directly.

"Rah, I have a 'business' here, I want to talk to you." Lei Guang said straight away.

"Business? Talking about business with so many people?"

Luosha said with a taboo, although it is said that the Leiguang character is good outside, but in case the thunder is just pretending?

"Because I know that you will definitely promise this business, if you are interested, come up!"

Lei Guang said very confidently, that is, he rose to the sky.

Upon hearing this, Rakshah hesitated for a long while and then followed.

He is also a strong player in the secluded world. Although he has not been compared with Lei Guang, he is confidently better than Lei Guang under the same level.

The two men plunged into the sky, and then the thunder was whispered: "Rasa, I have a map here. It is the site of the Thousand Years before the Thousand Tree School. Are you interested?"

"Thousand tree pie?"

For this power, Rakshasa has heard about it, but he has some doubts about Lei Guang.

"Yes, Qianshupai, this is the treasure map. It took me two years to collect it. I brought people here, it is ready to go on an adventure. If you are interested, we can cooperate. Lei Guang said straight away.

"Cooperation, he actually found me to cooperate?"

Rousseau said with some surprise: "Since the Leicheng Lord has this intention, is it better to open a condition?"

"100 million soul spar!"

Lei Guang did not want to answer.

This price is actually quite reasonable. After all, he bought Ye Xuan's two treasure maps, and spent 40 million soul spar, plus his own one, that is 60 million.

Now that he only has 100 million soul spar, it is already very fair. This should not be a problem for the main city of Rakshacheng.

There are still some doubts in the heart of the city of Rakshacheng, but if it is the site of the Thousand Tree School, even if it is only a door, it is definitely worth the soul spar.

"Okay, then I will believe you once, here is a hundred hearts of magic." The city of Rakshacheng took a bag from the ring of Qiankun and lost it.

"Good guy, you have so many hearts and devils."

Leiguang eyes lit up.

He had given Ye Xuan ten hearts and devils, and he had lost ten million soul spar. It was also because he just got two other treasure maps. He was very happy, otherwise he would not give his heart to Ye Xuan. of.

"Now, you can tell where the Thousand Tree School is located. If you hang me, you don't want to leave Raksha City today!"

The main face of Rakshasa City said gloomily.

"My Leiguang character, everyone knows, you can take a look at these three treasure maps." Lei Guang said nothing, directly smashed the treasure map.

When LuoCha took a look, he could only decipher the three words of Qianshupai. As for the specific location, he still didn't understand.

"I also searched the information of the millennium before deciphering the treasure map. Since you and I cooperated, I will tell you straightforwardly."

Lei Guang paused and said: "The ruins of this thousand-tree branch are at the foot of your Rakshasa city, and the error will not exceed 100,000 kilometers."

One hundred thousand kilometers, this is long on the earth, after all, the equator is also 40,000 kilometers.

However, 100,000 kilometers in this world, relative to the thunder of this level of strong, that is, ten minutes to run.

"What, right under my Rakshasa site?"

Luosha was shocked. At this time, he only reacted and was pitted. It is no wonder that Leiguang came with so many people, and he was the land of treasure.

However, if he does not make this deal with Lei Guang, he will not know it. At that time, Lei Guang can search for himself.

In general, this hundred hearts and devils are the value of flowers, as long as Lei Guang did not lie to him.

"Well, if that's the case, then I will send someone to start digging!"

With a glimpse of the eyes, Raksha quickly returned to the city of Rakshasa, while deciphering the treasure map, while on the other hand, people searched around.

At the same time, Ye Xuan and others are not idle, but also looking around.

With the Transformers Megatron's Ye Xuan, the search speed is almost to explode, even if it is Lei Guang, I am afraid it is better than Megatron.

After half a day.

"Found, I found it!"

A warrior screamed in the sky and continued to attack the sky.

Soon, the people around them gathered in the past, and Ye Xuan did the same.

The person who sent the signal was a versatile master of the Vientiane City. After seeing Lei Guang coming over, he immediately said: "The city owner, I found a formation underneath, but I can't break it."

"Well, the orientation of the Thousand Tree School is East, continue to find!"

Lei Guang nodded with satisfaction.

It took another half day.

"Father, the entrance was found."

A young man shouted, he is Lei Long's son, Lei Long, and Vientiane is nine.

At the moment, Lei Guangcheng and Raksha City are each convening their own hands, and the two great enthusiasm meet again.

"Sure enough, at the bottom, Leicheng Lord, when are we going?" Raksha asked a little strangely.

"When the Luocheng Lord summons the mission, we can set off!" Lei Guang replied.

"Okay, ten minutes is enough!"

Razhao did not say anything, immediately returned to Raksha City, began to call the master of Rakshasa.

If it is really better than that, the city of Rakshasa is stronger than the city of Leiguang, because there are four big families in it, each with a master of the Vientiane.

However, Ray-Light and Rakshasa have the confidence to beat each other.

Soon, Rakshasa gathered a group of masters, and the number was more than the Leiguang City side.

"Lei City Lord, let me say first, I have already paid a hundred hearts of the Devil, then the next thing, evenly divided!" Rocha.

"Good, evenly!"

Lei Guang promised to come down.

The strength of both sides is similar, the split is the best, and mutual benefit and win-win can last for a long time. After all, the thousand-trees are ten times stronger than the two big cities, even if they are separated.

The two sides reorganized the team, and then they expanded the entrance and went on together.

Ye Xuan mixed in the Lei Guangcheng team, secretly secretly laughing.

In the search time of the previous day, he controlled several warriors in Raksha City, all of which were eightfold.

His eyes of control, God does not know, no one knows that six people are already his servants.

His strength, in these two teams, is second only to the two city owners, when the Raksha Shing is even anti-water, Lei Guangcheng is not afraid.

.....

The power of Vientiane is a very strange energy. It can be moved to the mountains to reclaim the sea. What is even more amazing is that it can produce plants for attack.

The disciples of the Thousand Tree School are all practicing a martial art called the dead wood raft, so the power of Vientiane can be used to plant the heavenly treasures, and even the wonderful creatures such as the refining tree monsters, used to guard and fight.

These tree demons, even after a thousand years, do not necessarily die.

So this action, everyone has to pay attention to this tree demon.

Chapter 1133: Thousand tree ruins

Soon, Leiguang City and Raksha City came to the entrance of the Thousand Tree School.

At the entrance, it has been blocked by dense plants. These plants are very tough, and even if they are the nine-powered warriors in Vientiane, it is difficult to leave traces on them.

"Thousands of trees will be able to enter with a special entry method, otherwise the plants at these entrances will attack us."

After the thunder and lightning city owner finished speaking, he took out a few handprints, and a strange Vientiane force wore the past.

Then, the plants at the entrance began to retract the cane, revealing a road.

"The Leicheng Lord is really working hard."

"That is natural, but it took me half a year to find this entry method." Lei Guang opened his mouth and smiled.

Although it was said that the land of the treasure was put together a few days ago, Lei Guang had long guessed that the map obtained was a thousand trees, so he began to collect clues.

Since the entrance has been opened, everyone has continued to hurry, but since they came down, they have raised the spirit of 120,000 points. After all, their strength, if put to the millennium, I am afraid that even the thousands of outside disciples are better than .

They went straight along this entrance for a while, then came to a strange place.

In front, there are countless tree holes, dense, like a honeycomb that is magnified many times.

"Lei City Lord, what is this?"

The people of Rakshasa looked at the countless tree holes that were surrounded by countless rattans in front of them, and couldn't help but ask.

"This is called the Lost Forest. It is the place where the Thousand Tree School used to resist the outside world. This lost forest is criss-crossed. After entering, the spiritual consciousness will be greatly reduced, and it will be extremely lost."

Lei Guang explained.

"In short, is it a huge labyrinth..."

The main eyes of Raksha City are a glimpse.

The labyrinth is nothing, they have time, but what if there is danger in the forest?

"Father, what do we do next?" Leilong asked.

"I have no choice but to crack it slowly."

Lei Guang shook his head.

On the side of the Rakshasa City, the main martyr said: "Lei City Lord, are you really unable to do it, or is there a way to fake?"

"What do you mean by this?" Leilong said with some dissatisfaction.

"Rayguang, you have collected thousands of trees, do you have no way to crack this forest?" Luosha City Lord asked.

Lei Guang asked: "I really know about the Thousand Tree School, but this is the only way for the disciples and elders of the Thousand Tree School to crack. Even if the people of the Thousand Tree School come over, they will not necessarily go, and the Thousand Tree School has been destroyed for thousands of years. Where can I find the way to crack?"

Upon hearing this, the eyebrows of the city of Rakshacheng were picked.

He had previously suspected that Lei Guang had a route through the lost forest, but now I feel that there is some truth after listening to it.

This stalking forest is used to resist the foreign things, so that outsiders can sneak into the Thousand Tree School, and the door may not be the same as the door. Even if the door of the Thousand Tree School is coming, it will not necessarily go.

"In this case, then we will send a few people to explore!" Roxa City Cheng proposed.

"It is good!"

Lei Guang promised.

This lost forest is not only unhelpful, but also dangerous. Therefore, it is a thankless task to enter the lost forest, so there are not many people to go.

However, in order to prove the innocence of Lei Guang, Lei Long volunteered: "Father, let me go!"

"Okay, be careful!"

Lei Guang nodded.

As for the side of Raksha Castle, it is also the same as a nine-figure master of Vientiane.

Both Lei Guang and Luo Xi are both strong and powerful. They can't be dispatched. After all, if someone moves their minds and suddenly folds back and kills others, what should I do?

Therefore, only others can explore the road.

The Vientiane and Raksha City's Vientiane was nine-fold, and they randomly found two tree holes into the lost forest.

After a while, there was a booming sound inside.

"There is danger in the inside, but the movement does not look very big." Lei Guang muttered.

There is sometimes no such movement, which means that Lei Long is not in danger for the time being.

About half an hour later, Rayon walked out of the tree hole.

"How about Thunder Dragon?" Lei Guang asked.

"Father, there is indeed danger in the inside, it is the branches of some tree demon, but after thousands of years, these tree demon are extremely weak, and there is no threat to me, we can all enter." Lei Longhui reported.

When everyone heard it, they all breathed a sigh of relief.

Although it is a division of the Thousand Tree School, it is several times stronger than the Leiguang City and the Raksha City. If it is the peak period, any tree demon may be stronger than Rakshasa and Raytheon.

Fortunately, this thousand tree school has been destroyed for thousands of years.

However, this Thunder Dragon is on the side of Leiguang City, so there is some unbelief on the side of Raksha City. After more than ten minutes, the strongman of Raksha Castle who went to explore the road also returned.

"The city owner is in danger, but it doesn't matter."

The nine-strong powerhouse in Vientiane said.

"it is good!"

The city of Luosha City nodded and turned to say: "Leiguang, if this is the case, then we should not part ways, so that we do not need to distribute things!"

"Rah, you mean, we are divided into two ways, can we get good things, just look at our creation?" Lei Guang asked.

"Yes, our cooperation has ended here, and then we have the ability to do it." Rocha, nodded.

"OK, alright!"

Lei Guang agreed.

The news brought back by Lei Long, let him breathe a sigh of relief. He originally thought that with his own strength, he could not pass this lost forest, but did not expect the strength of the tree demon to drop, just give them some time, you can Crack this lost forest.

Anyway, there is no time limit for this ruin. They have time. Now, it is the efficiency of both sides.

Whoever passes this lost forest first, then who can get the treasure first.

At the moment, the double convenience is to find two tree holes and drill them in. Before they, they marked all the tree holes and tried to crack the lost forest.

Unfortunately, this lost forest is not so easy to be broken!

Ye Xuan followed the Lei Guangcheng team and explored into the tree hole. After entering, he did feel that the scope of the spirituality was reduced. However, the scope of the eye of perception did not become smaller.

This means that he is even more powerful than Lei Guang in this lost forest.

"Be the first to mix in, when you find a chance to leave, act on your own!"

Ye Xuan thought in his heart.

He has the eye of perception, but the efficiency is faster than the Leiguang team. As long as he takes the lead in cracking the forest, then things are his.

At that time, it is said that you can break through to the nine-fold situation in Vientiane, even through the secluded environment.

However, what he did not know was.

Half an hour after the Leiguangcheng team entered the lost forest, the people in the main city of Rakshacheng City were folded back.

Chapter 1134: Lost forest

After a while, the third team entered the relics of the Thousand Tree School.

This third team consists of six people, all dressed in night clothes, with different strengths, some of which are sevenfold in Vientiane, and some have reached the glory.

"Big Brother, you are here."

Luosha said to the middle-aged man named the first.

This middle-aged man is the strong enthusiasm in this team. At the same time, he is also the twin brother of Rakshasa, Luo Wei.

"Brother, the team of Leiguangcheng has already entered?" Luo asked the towel and asked.

"Yes, this time there is a big brother to help, this treasure of the Thousand Tree School is definitely ours, not only that, but also the entire Leiguang City!"

Luosha nodded.

This time his luck is also very good, his brother just passed through Raksha City, so they called together.

"I have brought a few good hands from the local government this time. This time, Lei Guang will die!" Luo Yan's eyes suddenly exposed the fierce light.

The local government is a killing gesture, all over the world, Luo Hao is a killer in the land.

"With the help of a big brother, there is no problem!"

Rakshasa also showed a confident smile, but at this time, he suddenly felt that there was a lot of strength behind Rosie. He asked: "Big Brother, how is there a Vientiane?"

There are a total of six people in Luo Yi's team. Apart from Luo Wei, there are four masters of Vientiane in the Vientiane. However, the last one is only a seven-fold situation in Vientiane. This makes Raksha very strange.

"You don't underestimate him. He is the latest killer of my local government. It is strong, even if it is only seven things in Vientiane, it can beat the two Vientiane behind you!"

Luo Wei smiled slightly.

"what?"

Luosha was shocked.

Vientiane is sevenfold, better than Vientiane?

Isn't this a joke?

It is also extremely unpleasant to hear the words of the two city capitals behind the Rakshasa. After all, they were stunned.

However, it is said that the father of the city of Luosha City, Luo Xiao, this is a strong secluded, so they can not say.

However, at this time, if Ye Xuan is present, I am afraid I will be scared.

Because the genius in Luo's mouth is the goal of his revenge mission, Mo Xueyi!

At the same time, this Mo Xueyi did not know that Ye Xuan came in. Although he was a reincarnation, he did not cultivate resources and was slow to cultivate. Although he has so many magical powers in his mind, if the realm is not enough, he cannot cultivate.

Since the two sides have already met, then the next step is to carry out the cleaning plan.

The killer combination of Raksha City and the prefecture entered the tree hole of Leiguang City.

This fascinating forest is criss-crossed, and there is a huge maze inside, so other families in Rakshasa have already split their actions. Not only that, but Ray City is the same.

Lei Guangcheng's team is unaware that he has been targeted by a group of trained killers.

At this point, in the lost forest somewhere.

"Father, it's too complicated here, and my pictures are overlapping!"

Lei Long couldn't help but say.

The other three families have also been dispersed and explored on their own, so that the efficiency will be faster, and if they happen to go out, it is their ability.

Ye Xuan is attached to the city's main government, and before he walked in the middle, there was no chance to leave.

However, he has a super-phagocytic system, where the eye of perception is swept, and the map is automatically drawn.

He is very confident and can walk out of the forest in an hour.

"Too complicated, I have spent so long, and I have not found the law enforcement of this lost forest, but we have time, and we can go out if we turn around." Lei Guang said.

However, there are seven people in this team, Lei Guang, Lei Long, Xie, and Ye Xuan, the four Vientiane eight.

The seven people took a walk together and it was a waste.

"The city owner, it is better to act separately."

One of the eight-fold offerings in Vientiane proposed.

"Yes, we have seven people working together. Although the security is high, the efficiency is too slow. If the Rakshasa City goes out first, things will come to their pockets."

The other person should be with you.

Lei Guang paused and nodded: "Alright, let's separate the two, divide into four teams."

Everyone looked at each other, seven people, three teams, but they can be separated.

Leiguang is a gateway, and one person is enough.

Lei Long and Xie are in charge of the Vientiane in the team. If the two join hands, although they can't beat Raksha, they can delay one or two.

As for the Ye Xuan four people, they are all four in Vientiane. They are good for both teams.

Although it may be necessary to bring a burden, but it is also the meaning of Ye Xuan, don't forget, he still has the eye of control.

"Ye Xiao Brothers, please advise." A city's main house dedicated to Ye Xuan, he was assigned to Ye Xuan.

"Please advise!"

Ye Xuan also holds a fist.

Then, the city's main government and the people were separated by four divisions, and Ye Xuan took this offering into another tree hole.

However, they have not yet gone.

"The eye of control!"

Ye Xuan suddenly turned back and shone.

"Hey, take control of success!"

The system prompts.

The eight-fold worship of Vientiane was inadvertently controlled by Ye Xuan.

Ye Xuan said nothing, and took off his Qiang Kun ring, but unfortunately this person came out to practice, naturally will not bring too much.

"Master, let me explore the road!"

The eight-fold offering of Vientiane is proposed.

"No, I won't take you as cannon fodder. You can find a way to go, I will act." Ye Xuan shook his head directly.

This person is also a tribute to the city government. He controls this person, just wants to act alone.

"Yes!"

The donation nodded, and then left alone.

Then, next, it's time for Ye Xuan to show his talents.

He has a sensory eye and a super-phagocytic system. He has recorded the places he walked through and swept through. Which channels are connected and which channels lead to the front, he knows.

He actually sensed other people before, but because he and Ray Light and others acted together, he could not shoot.

If he is to meet him again, he will not be polite again.

However, shortly after he acted alone.

"What, someone is dead?"

Ye Xuan brows a pick, my heart is very upset.

He sensed that he had died while searching for the Raksha City warrior who was controlled when he searched for the entrance to the Thousand Tree School.

Who is this person killed?

Is it the other family of Raksha City, or the main city of Raksha City, or the person of Leiguang City?

He didn't understand.

However, before he came down, he controlled six martial artists in Vientiane. Now he has died. He has just controlled one, so he is still six.

However, it didn't take long before he left, but he felt that someone was dead.

Now, there are only five left.

Chapter 1135: Vine ocean

"Since we entered the forest, the sound continued. After all, there are still tree demons who are blocking the road. Are they killed by the trees or killed by the tree demon?"

Ye Xuan is very puzzled.

At this moment, suddenly a sharp and sharp vine shoots at him.

He has the eye of perception, and he noticed when the vines skyrocketed.

"Oh!"

This vine was easily cut off by Ye Xuan.

This tree demon in the forest, the defense will be weaker than the vines on the road, so he can knock it off.

However, the vines around the road are very tough, even if Lei Guang and Raksha are two strong enthusiasm, I am afraid they can't get rid of it.

"No matter what, go ahead and find treasures is the most important!"

Ye Xuan no longer considers so much, go straight ahead.

Anyway, he did not give orders to other people. Those people died, and you can't blame him.

However, he did not go long, that is, in other channels, swept a body.

Out of curiosity, he also rushed over.

The dead person is the warrior of Raksha City.

"It was actually killed by a blow through the heart."

Ye Xuan looked at the body and his face was a little surprised.

He thinks that the murderer is a bit powerful, because the death is the Eight Diagrams of Vientiane. Although it is said that the scope of the literacy in the forest is reduced, it is not easy to kill a Vientiane.

However, he thought that there are still two strong people in the world, but he feels nothing.

However, it is at this time.

"Ok?"

Suddenly a figure crossed into his sensing range.

This is a nine-key master of Vientiane, and Ye Xuan can be sure that it is not a city of Leiguang.

In this case, it is better to kill him first, and the province's Rakshasa City will be backwatered.

Anyway, the two sides are no longer cooperating, so let's start with a strong one!

At the moment, Ye Xuan is relying on the map, around the front of the other side, and then hidden in the corner.

This versatile master of Vientiane, who does not know that there is a murderous front, but he is a well-trained killer, he will not care under any circumstances.

As he slowly approached, Ye Xuan monitored his every move with his eye of perception.

"Reaching soon!"

Ye Xuan closed his eyes and counted.

At this time, he and this Vientiane master of the Vientiane are only a hundred meters apart. As long as the other person turns the corner, Ye Xuan can shoot.

Just as he turned, the sound of the air suddenly sounded.

"call out!"

A vine stabbed him.

"Hey, millennium rot, let me break!"

The nine-figure master of Vientiane sent his sword in his hand and cut it off easily.

However, just when the sharp vines landed.

"Huh!"

Another sound broke out.

But this time, not the vines are attacking, but Ye Xuan at the corner has killed.

"Broken Heart Law!"

"call out!"

Jianman went through the air and killed the warrior by a surprise, but his reaction was quick, and he avoided the key.

"puff!"

Jianmang didn't enter his chest, but it wasn't the position of the left chest. However, after the broken sword was not in his body, it burst open. Although he could not tear his heart, he also hit him.

"Who?"

The nine-powered master of Vientiane did not expect that he was sneaked. If he was facing the other side, he would not be able to escape the sword.

When he saw it clearly, Ye Xuan was already arrested.

Dragon hand!

An ingenious hand directly grabs the master of the Vientiane, and the huge grip force pinches his bones.

"Give me death!"

Ye Xuan, no matter who the other party is, once again slammed a punch.

This trick, but the blood of the butcher's housekeeping skills, blood burst!

"Hey!"

The nine-powered master of Vientiane, who was unable to break free from the shackles of the dragon's hand, was directly hit by a fist in his head, bursting open instantly, brains and flesh and blood fluttering.

dead!

At the moment, Ye Xuan quickly swept the past and took off his shackles.

Here, there are a lot of good things, there are thousands of soul spar, plus other words, the total value is about 30 million soul spar.

A person, with so many things, is a bit abnormal!

People who come out to practice will generally not bring too much, if not for the family, or if they are hiding themselves.

However, the people in front of me have brought so much to come out, not afraid of dead things all lost?

Or, the other party has no relatives, and they think that they have lost their lives. What is the use of things?

Available at this time.

"What is the situation, there are so many poisons, hidden weapons, is this a killer?"

Ye Xuan glanced curiously and found that the deceased was wearing a black tights, and he recalled that the face of the deceased was very strange before the face was blown.

"No, this person is not a person from Rakshasa City and Leiguang City. I have not seen it!"

Ye Xuan suddenly reacted.

A Vientiane, not a city of Rakshasa and Raytheon, is ninefold. Where is it?

When they came down, they clearly sent people to bury the entrance, and others were guarding outside.

Then this Vientiane killer in Vientiane is not crossing the road. It is found to be tricky, so I dive in?

This can be said to be true, but Ye Xuan feels that things should not be that simple.

But as a matter of urgency, let's leave this lost forest first, otherwise the good things will be preempted by others.

At the moment, he just turned his head and continued on his way.

The spiritual knowledge of other people is only one-fifth after entering the forest, and Ye Xuan is the same, but his perception of the eye is five times stronger than the spiritual.

With this extraordinary skill, within ten minutes, he came out of the lost forest.

"Thousands of trees, I am a little bit tolerant. If I don't have the eye of perception and the super-phagocytic system, I will not be able to walk away for a day."

Ye Xuan shuddered and let him sleep in that kind of ghost place all day, his head is estimated to explode.

Anyway, he is now out.

The lost forest is the first level of the Thousand Tree School to resist the outside. After this level, there is a vine ocean.

This vine ocean is originally lurking with countless poisonous insects. The disciples of the Thousand Tree School must sprinkle some insecticides on their bodies before they can pass.

However, Ye Xuan does not have such a thing, so he has to smash himself.

"Megatron, become a set of armor!"

Ye Xuan immediately gave orders to Megatron.

The next moment, Megatron transforms into a set of gray armor, wrapping Ye Xuan all in, even the eyes.

Megatron is a nine-fold in Vientiane, and it is also a landlord. The defense is amazing. Even if it is a poisonous insect, it cannot break his defense.

Ye Xuan, wearing the armor transformed by Megatron, stepped into the vine ocean.

Chapter 1136: Mysterious wood spirit

The strength of this thousand-tree branch is not weak, and there are many strong people who are secluded. Although it has been abandoned for a thousand years, Ye Xuan does not dare to care, and the speed is not fast or slow.

There is still danger in this vine ocean. With his eight-dimensional realm of Vientiane, even if there is Megatron, it is necessary to fall into the abyss of eternal ruin.

Fortunately, he has been positioned at the exit and entrance of the lost forest. If it is dangerous, he will directly break away from the void.

This vine has a large ocean, and there is no end to it. Ye Xuan has been in the middle for half an hour.

At this time.

"Huh!"

Suddenly a strong wind swayed, let Ye Xuan step forward.

He looked in the direction of the wind and found a large black shadow, dense, at least a thousand.

"I am rubbing, is this what?"

Ye Xuan brows a pick.

Because of the long distance, he can only see a general with the eye of insight. This is the shadow of the front, about the size of a fist, and the whole body is dark.

This group of black pressed shadows, quickly approaching, Ye Xuan is also quickly avoiding.

However, this group of ghosts is eyeing Ye Xuan.

"I am going, staring at me..."

Ye Xuan swallowed swallowing water. This group of ghosts is faster than him. Unless he uses the eye of the void, he can't escape.

However, he is hard to come here. If you can't even get through this level, it is better to go home directly.

"The Eye of Brilliance!"

Ye Xuan directly gave a brilliant golden armor, under the armor of Megatron, then clenched his fists and waited quietly.

After the group of ghosts approached, he discovered that it turned out to be a group of mosquitoes.

A group of mosquitoes with big fists!

And there are thousands of them!

Seeing it, Ye Xuan couldn't help but shudder. This group of mosquitoes had no fists and had a big fist. If you sucked blood, wouldn't it be bigger than the head?

"No matter what you are, give me to die!"

Ye Xuan said nothing, directly attacking the mosquitoes of this group of bad habits.

"Blood burst!"

"Golden Dragon Hand!"

The mosquitoes flew into the attack range of Ye Xuan, and Ye Xuan's attack also ran straight toward them.

"Hey!"

"boom!"

Blood blasting on this group of mosquitoes can be used to explode, but only two or three can be killed in one blow.

Because the number of giant mosquitoes is too high and the speed is fast, Ye Xuan is directly surrounded.

Fortunately, Megatron has been transformed into a set of armor, protecting Ye Xuan.

"Hey!" "Hey!" "Hey!"

The mosquitoes were sharp and sharp, and a few mosquitoes fell on Ye Xuan. They put their heads on top and pointed their mouths, but they could not break Ye Xuan's defense.

"Haha, since I can't break my defense, then let me die!"

Ye Xuan laughed in two hearts.

Megatron is a nine-fold environment in Vientiane. Plus it has been advanced twice. It is indestructible. Although this group of mosquitoes does not know where to come from, it is estimated that a few can **** people into adulthood.

However, if you can't break the defense, then it will be useless.

There is also an interesting martial art in the super swallowing system, which is specially designed to deal with mosquitoes.

"Hey, the host learns the magical mosquito killer!"

Mosquito killer, although it is only a middle-level magical power of Vientiane, but it has a huge damage to mosquitoes, similar to the ruling of the eight ridiculous dragon sword.

Coupled with the eye of glory, the power of this mosquito killer will be raised again.

This strange mosquito is large and numerous, and Ye Xuan is too lazy to entangle with these mosquitoes and shoot directly.

A huge golden palm is shot, and a palm can fly a few giant mosquitoes. These mosquitoes are all killed on the spot as long as they are shot by the mosquito killer.

In just ten seconds, this group of thousands of giant mosquitoes are all fallen into the vine ocean.

In these ten seconds, Ye Xuan has shot at least hundreds of palms, that is, hundreds of times of continuous use of magical power.

Even if it is a master of the Vientiane and nine times, using ten times of intermediate-level Vientiane magical powers, it is estimated that it will be more than half. And Ye Xuan, but Vientiane is eightfold, and it's okay to shoot hundreds of palms in succession, because the recovery speed is just the same.

Fortunately, this mosquito killer is only an intermediate Vientiane magical power. If it is a superior Vientiane magical power, Ye Xuan estimates that it takes more time.

"Even if Lei Guangcheng and Rakshacheng owners encounter so many giant mosquitoes, I am afraid it is very tricky. If other people encounter it, I am afraid it will die!"

Ye Xuan could not help but secretly say a word.

However, before moving on, he still collected so many giant mosquito corpses, but unfortunately, these giant mosquitoes are not the beasts, but the beasts, swallowed up little gains.

He began to move on.

After a while, there was a large group of mosquitoes rushing over, and Ye Xuan, who had a mosquito killer, annihilated the mosquitoes with ease.

"What the **** is this place, so many mosquitoes, no one or the blood of the beast can suck, how did they survive?"

Ye Xuan couldn't understand, but he didn't think so much and went on.

Soon, the first hour after he entered the vine ocean, he finally saw the end of the vine ocean.

However, it is at this time.

"Calling!"

An unprecedented hurricane blew up and fell into Ye Xuan's ear.

He turned his head and saw that there was another shadow of black pressure.

But this time, it seems to be much bigger than the previous two, almost two times.

"I wiped, so many mosquitoes, there is no gain, kill a wool!"

Ye Xuan was roaring in his heart.

Such a thankless thing, the fool will do it.

But when the mosquitoes approached, Ye Xuan knew that the mosquitoes were twice as big as before.

It turned out that it was not a lot, but it was bigger!

This time, it is possible to break the defense of Megatron.

Just as Ye Xuan was about to break open the void and return to the entrance for a few seconds, he suddenly found out that there was a wonderful miracle in this group of giant mosquitoes.

This is a green creature mixed in this group of giant mosquitoes.

Ye Xuan Jing looked carefully and found that it was Mu Ling.

Megatron is a kind of earth spirit, it is a kind of strange animal, in addition to fire spirit, water spirit, wood spirit, etc., in this group of giant mosquitoes, is a wood spirit.

How can a wooden spirit drive so many giant mosquitoes?

"Well, then all of them are cleaned up and the wood spirit is caught!"

Although I don't understand why, but Ye Xuan is too lazy to manage so much, he is confident that in this group of giant mosquitoes, he will kill half of it.

"Mosquito Killer!"

"Mosquito Killer!"

"Mosquito Killer!"

Ye Xuan madly attacked, and the golden palm prints were covered, but this time, these mosquitoes were bigger than before, and it was not so easy to be killed.

Perhaps it is because Ye Xuan's realm is low, or it may be because the mosquito killer is only an intermediate Vientiane, so it is impossible to kill the giant mosquitoes.

Chapter 1137: transaction?

"A group of mosquitoes, I have to see how much you can!"

Ye Xuan's heart is cold, and since it's not a hit, it's twice. Anyway, he has two hands.

This group of giant mosquitoes is almost ready to get a head, and a few mosquitoes are close to Ye Xuan, and then poke a sharp mouth.

"Hey!" "Hey!"

In the two muffled sounds, the armor of the Megatron was broken, and the brilliant gold armor was the same.

The sharp pointed mouth pierced Ye Xuan and began to **** blood.

"Look at how fast you suck, or the blood of my life is so powerful!"

Ye Xuan did not care at all, but also used this sharp mouth to pass the instinct of the body and the power of Vientiane.

"Hey!" "Hey!" "Hey!"

These giant mosquitoes that sucked his blood suddenly burst open.

Ye Xuan, who has the blood of the **** of life, the speed of hematopoiesis is really against the sky. After all, the last random task rewarded the progress of a life tree.

Ye Xuan's wounds are constantly being healed, and they are constantly pierced by giant mosquitoes and sucking blood.

Therefore, Ye Xuan, regardless of the other, directly let Megatron protect his head, specifically, two eyes.

This group of giant mosquitoes is clever. At the moment when Ye Xuan removed the defense, there were two giant mosquitoes that pierced the tip of the mouth into the heart of Ye Xuan.

They thought that they could kill Ye Xuan and then **** the blood with great pleasure, but they were wrong and wrong.

"The Eye of Silence!"

"Mosquito Killer!"

"Mosquito Killer!"

Ye Xuan ignored the attack of this group of giant mosquitoes and kept cleaning up. At this moment, he is like a perpetual motion machine.

Will not die, the infuriating will not dry up, can continue to fight.

The wood spirit in the middle of this group of giant mosquitoes was very surprised. After realizing that it was not good, they turned around and left.

"Good guy, your uncle's egg has been pierced, now you still want to run?"

Ye Xuan angered a word.

From the beginning, his attention was placed on this wooden spirit. This wood spirit is too weird. It can actually drive these giant mosquitoes. If you control this wood spirit, you might be able to drive the tiger. The swallowing wolf, destroying the entire Rizal City team.

However, this wood spirit is a strange animal, not a heavenly beast, and Ye Xuan's eye of control has no effect on it.

"You mosquitoes, give me away!"

Ye Xuan directly displayed the cards and sacrificed a long sword. In the blink of an eye, it was a huge golden sword that condensed dozens of meters long.

Overlord Promise Sword!

"Give me a shock!"

The huge golden sword fell, and the thousands of giant mosquitoes in the air were under tremendous pressure, all of which shook the ground.

Not only that, but they will all be killed!

The Emperor's Promise Sword is much easier to use than the Mosquito Killer. It only takes a day to cool down.

Now, Ye Xuan has no obstacles. He looks at the wood spirit in front and immediately chases his past.

The flying wooden spirit turned his head and looked at it, scared to lose his soul. Then, the vine ocean underneath suddenly found the change, and all the vines rushed toward Ye Xuan.

"Glyphs!"

Ye Xuan's heart was cold and sly, avoiding these vine attacks in a clever way, and then approaching Muling, directly catching the void.

"擒龙手!"

A huge palm, easy to grasp the wood in the palm of your hand.

"This time, see how you run."

Ye Xuan hurried closer and caught Mu Ling.

"Hey..."

Mu Ling beat Ye Xuan's hand, but he could not get away.

"Megatron, give me a translation!"

This wood spirit is a strange animal, Megatron is also a strange animal, it should be able to communicate. And Megatron and Ye Xuan can communicate in the heart, naturally it can be translated.

"I said that I stepped into their territory and asked me to get out of the box immediately, or kill me?"

Ye Xuan brows a pick.

These are translated after Megatron and Muling exchange.

"Good guy, the tone is not small, I am now easy to pinch you. If you take me to find treasures, you can let them go."

Ye Xuan said.

After the translation of Megatron, Mu Ling called a few words.

"What, you said there are no treasures here?"

Ye Xuan brows a pick, he will not believe this ghost, angry and said: "Do you bullshit, believe it or not, I pinch you?"

"Hey..."

"Well, take me to see, or kill you."

Ye Xuan nodded.

This Muling is a compromise, willing to take him around to see, no longer drive things to attack.

Ye Xuan held the wood spirit in his hand and left the vine ocean.

After leaving the vine ocean, the Thousand Tree School was separated, but it was already ruined.

On the way, Mu Ling told Megatron that there is still a large amount of Muling, which was previously housed in the Qianshu School.

The disciples of the Thousand Tree School generally sign a contract with Muling, which can enhance the effect of Vientiane on plants.

Thousands of years ago, the Thousand Tree Schools were in a hurry, and these wooden spirits have been here for a long time.

Not only that, but this wood spirit also tells Ye Xuan that he is the king of these wood spirits.

"Wood King?"

Ye Xuan brows a pick, slightly surprised, but he wraps around a large circle, with the eye of perception, really did not feel anything useful.

In addition to the tree demon, there is no treasure in heaven and earth. It is indeed not like a treasure.

However, it is at this time.

"What, you want to make a deal with me?"

After the translation of Megatron, Ye Xuan was also very surprised to see the wooden spirit in his hand.

Fang Cai, the king of the wood, said that he wanted to make a deal with him.

"Why are you making deals with me?"

Ye Xuan's eyes were awkward, which was beyond his expectations.

"Because I have a strong life!"

This time, Ye Xuan understands.

In his body, there is a blood tree of life, so the life is very strong. The last time he used blood, let the mini dragons hatch in advance.

"So what do you want to do, what benefits can I get?"

Ye Xuan asked again.

The transaction is to be satisfied by both parties. If the Muling King can't get the reward he is satisfied with, he will not help unless his conscience finds out.

"Help me save the heavenly tree and give me a sacred tree?"

After the translation of Megatron, Ye Xuan also paused.

Tongtian Baoshu, this is the name for the plants of the Tongtian level, and the sacred tree species is naturally a tree species. After planting, you can plant another Tongtianbao tree.

"This sacred tree species is of no use to me, it is not right, maybe it can be swallowed..."

Ye Xuan turned to think.

Anyway, his blood doesn't need money, even if it's snorkeling, he can't die, and the rate of hematopoiesis is amazing.

"Take me to see first."

Ye Xuan said to Muling Wang.

Then, under the guidance of Muling Wang, he continued to wander around the Thousand Tree School.

I have to say that this thousand tree school itself is a huge labyrinth. If no one leads the way, I am afraid it is difficult to find a point.

Chapter 1138: Hidden system

After a while, Mu Ling Wang came to the depths of the Thousand Tree School with Ye Xuan, where there is a super giant tree comparable to the hundred-story skyscraper.

This super giant tree is the Tongtianbao tree in the mouth of Muling.

At this time, the color of this Tongtianbao tree is yellow, decaying, and a deadly look.

Beside this Tianbao tree, there are countless green lights flashing, all of which are Muling.

In addition, there are a large number of exotic creatures such as butterflies, mosquitoes, and bees that surround them.

This time, Ye Xuan understands why Muling Wang can drive those giant mosquitoes, because these creatures have to rely on this Tongtianbao tree to survive, and this Tongtianbao tree can live for thousands of years because of these wood spirits.

No, it should be said that they coexist with each other. If the Tongtianbao tree is withered, Muling will have to die.

"Well, I will help you save the tree."

Ye Xuan said nothing, directly took out some blood bottles, and then directly smashed to Tongtianbao.

"Hey!"

The blood bottle shattered, and Ye Xuan's life-rich blood floated on the Tongtianbao tree and was suddenly absorbed.

I don't know if Ye Xuan's blood is too strong, or because the Tongtianbao tree is already dying. After the blood of more than a dozen blood bottles has been absorbed by them, those positions are glowing green and begin to spread rapidly.

"It doesn't seem to be enough..."

Ye Xuan looked up and looked at it. This Tongtianbao tree is at least 3,000 meters high. He wants to save his life. He is afraid that he will have another bleeding today.

Since he was taken away by the mini-Dragon in the last time, he simply cut his hand and began to shed his blood.

The life of this Tongtianbao tree has also begun to grow and regain its vitality.

The surrounding creatures saw it and it was boiling.

For an entire hour, Ye Xuan spent a whole hour to save the Tongtianbao tree.

At this moment, the Tongtianbao tree has recovered from the withered state to near the peak, while the trunk also stores a large number of leaves of Ye Xuan, it is estimated that the time will exceed the peak.

A group of wood spirits and strange beasts began to celebrate. They accompanied the Tiantianbao for thousands of years. Now they are saved and naturally happy to die.

"Well, I saved it. Are you supposed to honor your promise?"

Ye Xuan looked at the woodling king.

The latter gratefully looked at Ye Xuan, and then led the way in the front. After a large circle, Ye Xuan saw a tree hole in the height of the kilometer.

Only then did he float the blood around the Tongtianbao tree, and did not see the tree hole. Now, there is actually a tree hole.

In this tree hole, there is a green seed, full of fist size, is emitting green light.

The sacred species of Tongtianbao!

Before he used his insights, he could see that Tongtianbao was about to die, and he lived for a few more months. However, he did not see the tree hole and did not see any seeds.

"Good guy, you are giving me a blank check!"

Ye Xuan suddenly reacted.

This Muling King really played a good calculation, let him save the Tongtianbao tree, and then let the Tongtianbao tree condense a sacred tree.

If he can't save the Tianbao tree, then Tongtianbao will not be able to condense the sacred tree.

Although a bit uncomfortable, but Ye Xuan is too lazy to manage so much, directly plundered, will accept this sacred tree species.

The Thousand Tree School used to rely on this Tongtianbao tree to live, but at that time they were eager to leave. After all, they might have a disaster at the end of the day. Plus they had a sacred tree, so they let this Tongtianbao The tree doesn't matter.

Now Ye Xuan saves this Tongtianbao tree, and also takes the treasure tree sacred to pay, the transaction is completed.

However, just when Ye Xuan received the sacred tree in the devour space.

“Hey, the host turns on the hidden system, planting system!”

“Hey, does the host plant the sacred tree species?”

Suddenly two system prompts, let Ye Xuan tremble.

"What happens, hide the system?"

Ye Xuan was shocked.

He remembers that there is only one system that he has not yet developed, that is, the blood fusion system, but now, there is a hidden planting system.

This super swallow system, it really is not that simple!

“What is the use of the planting system?”

Ye Xuan did not answer urgently, first sinking his mind into this planting system.

This planting system is actually a planting space with a grassland. The size of this planting space will increase with the improvement of Ye Xuan's realm.

Next, Ye Xuan can plant Tianbaodibao in this planting space. After the Tianmudibao is mature, he can pick it.

To put it simply, he will have a mobile treasure in the future, and a large number of heavenly treasures will be born and then picked by him.

These heavenly treasures can be used for engulfing, as well as for alchemy and so on.

However, this is not the main one.

What caught Ye Xuan's attention was that the living creatures could be received by him in the planting space. For example, in the future, there is no need to stay in the pet space.

"Haha, well, in the future, I will make the planting space a treasure trove of cultivation, and have more abundant world power than the outside world. In the future, I can cultivate directly in the inside."

Ye Xuan looks rippling.

However, the living things in this planting space are required, and human beings cannot enter, but Megatron and Muling are ok.

Ye Xuan also did not consider so much for the time being, and replied directly in his mind.

"Yes!"

Then, he began to plant the sacred tree of the Tongtianbao tree, in the central position of the planting space.

After the sacred tree was planted, only a small sapling was born.

Later, Ye Xuan called the blood bottle and used his blood as a water source to water the few seconds.

This sapling got the vitality of the blood and began to grow rapidly. In the blink of an eye, it grew into a big tree, which is tens of meters high.

At the same time, after the Xiaotong Tianbao tree grew up, Ye Xuan also felt that the heaven and earth vitality in the planting space had undergone earth-shaking changes.

"Sure enough, the strength of the heavens and the earth in the planting space is now beyond the Lingquan of Hujiashuang!"

Ye Xuan was shocked.

At the moment, he is continuing to pour blood, and Tongtianbao continues to grow. Soon it is 100 meters high. The concentration of heaven and earth is much higher than that of Hujiashuang.

"I have the blood of the **** of life in my body. In the future, I will continue to use the blood to pour this Tongbao tree, then will it grow into a tree of life?"

Ye Xuan suddenly had such an idea.

However, the life-rich thing can not only be his blood, but also the old spring that he exchanged from the glass fairy, and it is still the best of the old spring.

Chapter 1139: Planting space

However, judging from the behavior of the glazed fairy on the same day, even if it is the best of the old spring, it is not comparable to his blood.

Ye Xuan tried it with Laoquan, and sure enough, the effect was much worse than his blood.

Although the old spring is the best, but the main effect is to prolong life, otherwise how can the glass fairy use the best of the old spring for his blood?

"Can't be watered anymore, or it will burst, you must wait for it to digest."

Ye Xuan temporarily gave up the cultivation of Tongtianbao.

Such ample world and vitality, and with Ye Xuan's current realm, the planting space is as big as two or three big cities. Such a large space is naturally planted.

The exchange system in the Super Devouring System can be exchanged for the seeds of many Tiandi Dibao. These seeds are very cheap. Ye Xuan directly exchanges a variety of seeds and then sows them.

Some of these heavenly treasures are for the promotion of physical fitness, some are to increase the cultivation, and some are to gather the strength of the heavens and the earth, and all kinds of things are available.

Under normal circumstances, Tiancai Dibao must be grown for at least one month before it can be picked, and some even have to be one year, even ten years and one hundred years.

Don't say a year, Ye Xuan can't wait for a month.

"Mu Ling Wang, now I will make a deal with you again, you can listen."

Ye Xuan said to the wooden spirit king.

Wang Lingwang blinked and nodded slightly, indicating that he was willing to listen.

"I have a place where there is also a Tongtianbao tree. Although it is much smaller than yours, the environment and the natural world are richer than here. In short, I want to bring you. Go in, don't know if you are willing to leave."

Ye Xuan said directly.

Hearing this, Mu Lingwang also thought for a moment, and then let Megatron translate.

"Well, you can go ahead and see."

Ye Xuan nodded and used a special method to let Muling Wang enter the planting space.

If you want to enter this space, you only need to agree. If you want to come out, you have to ask Ye Xuan's opinion.

Ye Xuan directly received the wooden spirit king into the planting space, and then, the wood spirit king was blown up.

In the planting space, it is indeed much better than the Thousand Tree School. Even if it is the Thousand Tree School in the peak period, it is probably the same.

If you cultivate the Tongtianbao tree and other heavenly treasures, the strength of heaven and earth must be far beyond the thousand trees. This is a paradise for Muling and other strange animals.

Muling Wang did not say anything, and now he agreed to this condition and is willing to settle in the planting space.

Not only that, but it also proposed to Ye Xuan to transfer the heart of the treasure tree of the outer Tianbao tree to the Tongtianbao tree in the planting space.

Condensing the heart of the tree, then the outer sky tree will instantly wither, but the one in the planting space will grow rapidly.

Originally, the Muling King transplanted the Qianshubao tree from the Thousand Tree School. However, this Tongtianbao tree is too big, so it can only use the method of condensing the heart of the treasure tree.

After hearing this proposal, Ye Xuan was naturally very happy, which saved him a lot of time.

After leaving the planting space, Mu Lingwang began to organize various alien groups and then entered the planting space.

The Tongtianbao tree is already psychic. It directly uses the vitality just restored, condenses into a heart of a treasure tree, and then is brought into the planting space by Muling Wang.

When the heart of this treasure tree and the Tongtianbao tree in the planting space merge, the Tongtianbao tree is a mile long kilometer, and the heaven and earth vitality is once again inflated.

Because there are so many planting spaces, these heavens and earths are beginning to liquefy and form a stream of water, which is called the Lingquan.

"Ha ha ha, earned money, it is really big!"

Ye Xuan couldn't help but laugh.

Making a big profit is indeed making a big profit!

If you come to this planting space to practice, the speed is absolutely ten times that of Hujiashuang. Not only that, but these alien groups are now controlled by Ye Xuan. If there is danger in the future, Ye Xuan can also release these alien groups and attack the enemy. .

Lightning Knife, Poisonous King Bee, Baihua Butterfly, Green Silk Snake, Bloodthirsty Mosquito, etc. These all beasts are all ordered by Ye Xuan.

Now Ye Xuan is eightfold in Vientiane. The surrounding creatures are already open to the ingenuity. Even if it is a cockroach, I am afraid I can understand the human language.

Even if a mouse here is placed on the **** rock continent, I am afraid that it can be called the king.

These are all credits of heaven and earth.

At this moment, the Tongtianbao tree is already withered, and there is no living creature around. They are all received by Ye Xuan in the planting space.

The wooden spirits were originally the totems of the Thousand Tree School, and each disciple had to sign a July with them to improve the effect of Vientiane's power on plants.

However, Muling can do it himself, so Ye Xuan asked them to help with the planting space to increase the production of Tiandi Dibao.

Not only that, but Ye Xuan also got fire spirits, earth spirits and other strange animals before, and he also put them all in.

"Let's fall, come, don't practice in Hujiazhuang, the young master will take you to a better place."

Ye Xuan said a word in his heart, and then he broke open the void and returned to Hujiazhuang.

"Young master, what better place?"

Sitting on the edge of Lingquan, I was blind and wide-eyed. I asked very incomprehensibly, but she did not respond. It was received by Ye Xuan in the pet space.

At the same time, Ye Xuan is once again returning to the Thousand Tree School site and closing the door to the void.

"Yeah, what is this treasure, and the strength of heaven and earth is so abundant?"

The fall was shocked.

"This is an independent space that my younger brother has opened up. In the future, you will practice in the Lingquan. I have already laid a gathering in that."

Ye Xuan immediately directed the direction of the fall.

The Lingquan in the planting space was created by the liquefaction of the heavens and the earth. Ye Xuan also set up a high-level gathering of the spirits to facilitate the gathering of heaven and earth.

In addition, he still has a lot of blood on his side, his blood is full of vitality, if you stay aside for a long time, it also has the effect of prolonging life.

Nowadays, although the strength of the heavens and the earth in the planting space is similar to that of the Thousand Tree Schools of the year, as long as this new Tongtianbao tree returns to its peak, then both the heaven and the earth and various exotic animals will be upgraded to a higher level.

Ye Xuan is no longer isolated and helpless. In the future, he can summon these beasts and fight for him.

“Hey, planting space, heaven and earth, reaching the standard, the planting space level is improved!”

A system prompts to sound.

Ye Xuan brows his head and subconsciously glances at the panel and finds that there is a level of planting space.

Before the prompt sounds, the planting space is one level, and after the sound is raised, it is raised to the second level.

Chapter 1140: Mo blood clothes!

The level of planting space will be increased, and the space will be greatly improved. Not only that, but also the speed of growth of Tiandi Dibao, the abundance of heaven and earth, and the growth rate of living things in the planting space will be accelerated.

Anyway, only profit, no disadvantages!

If the planting space is upgraded to the third level, then you can earn the heavenly beast. In the future, you can even collect people and let them practice in it.

All in all, this planting space is very good, and Ye Xuan can save a lot of things in the future.

As long as Ye Xuan continues to break through, the planting space will be worthy of a continent, and he is the owner of the mainland.

Having said that, now Ye Xuan has conquered the entire ethnic group of the Thousand Tree School. As long as he thinks, he can clean up all the teams in Raksha City.

"Although I didn't get the treasures, I opened up the planting space, and there is still a large ethnic group. Now I am not afraid of the city of Rakshacheng!"

Ye Xuan suddenly burst into self-confidence. In the relics of this thousand-tree school, although his strength is not top-notch, no one can threaten him.

Therefore, he can go out and sway. If someone dares to hit his idea, the consequences are very serious.

However, just as he re-entered the ocean, a black figure in the distance, slowly coming towards him.

"Someone!"

Ye Xuan has a trembling shape.

Those who can come out of the lost forest are not lucky, but strong.

However, Ye Xuan, who is sitting on tens of thousands of different animals, even if everyone in Raksha City gathers, I am afraid that he is not sure to kill him.

However, after Ye Xuan saw the face of this figure, his eyes could not help but burst into the murder.

The man who came towards him on the face, though blindfolded, was very familiar with him.

"Mo blood clothes, are you?"

Ye Xuan exclaimed.

How could he think that the person in front of him turned out to be the target of his revenge mission, Mo Xueyi?

Not only did he not think of it, even Mo Xueyi did not think of it.

"Hey, kid, it's really Skynet that is not leaking. Last time you were lucky enough to be saved by the Dragon, now I see how you escape!"

Mo blood coat holding a dagger, his eyes said coldly.

On that day, although he was wearing a chest by a mini-Tianlong, but fortunately, the mini-Dragon was jealous, so he was not killed.

Now, the mini little dragon has gone back to the holy place of life. Who else can save Ye Xuan?

"Hey, I was at the same level as Mo Xueyi that day. I can't beat him. But today I am a higher than him, and there are a lot of different beasts to help. As long as he doesn't make a big lock, I can't beat it. Can also escape!"

Ye Xuan thought in her heart.

Although he is now a higher level than Mo Xueyi, but the **** clothing is also a reincarnation, so he is not sure, only 30%.

If you add those strange animals, it is only 50%.

50% grasp, will kill Mo blood clothes!

This risk can be taken!

At this time, with the eye of insight, Ye Xuan saw that the fingers of Mo Xueyi were shaking easily, and a real gas condensed into a silk thread and was transmitted to the ground.

"No, this guy is in the airlock!"

Ye Xuan brows a pick and rushes to shoot.

He has 50% to kill Moxie, but there is still a 50% chance of defeat, so he must ensure his safety.

Once the lock of the **** coat is finished, the eye of the void can not be used.

"Hey, have you discovered it?"

Mo **** clothes snorted, this time, he has a determination to kill Ye Xuan.

Even if the lockout was not arranged successfully, he was sure to beat Ye Xuan to the bottom of his mouth, and even the eyes of the void could not be used.

"The Eye of Brilliance!"

"Blood burst!"

"Golden Dragon Hand!"

Ye Xuan firepower is fully open and directly exerts supernatural powers.

Under the current circumstances, it is still better to use double boxing, and Megatron, the nine-fold Vientiane in Vientiane, is also the first to break through and become a God of War attack.

"Kid, today is your death!"

Mo **** clothes angered, grabbed the attack of Ye Xuan.

"Qinglong claws!"

A cyan dragon claw collided with the golden hand, and the violent waves caused the vines on the ground to fly.

This move is somewhat similar to Ye Xuan's dragon hand, but it is more advanced than the dragon hand, but it is the superior Vientiane martial arts.

Ye Xuan, who has always opened the eye of insight, copied the trick.

"Hey, Qinglong claws copied successfully!"

However, this is not over yet.

After this system sounds, there is one more.

"Hey, Qinglong claws and dragon dragon hands can carry out the perfect martial arts fusion, is it going?"

This system sounds, but I am scared of Ye Xuan.

Martial arts fusion?

He suddenly remembered that there is an advanced route of martial arts integration in the blood of his sword god.

However, this martial arts fusion is a big pit, so it was forgotten by Ye Xuan.

I did not expect that now, I actually triggered it.

Of course, this is not a general fusion, but a perfect martial arts fusion, the success rate behind, reached 100%.

"Fusion!"

Ye Xuan said nothing, directly in his mind.

After deducting some super-phagocytic crystals, the system once again reminded: "Hey, the magical dragon claws and the magical dragons and dragons have successfully merged. After the fusion, the martial arts is Zuo Qinglong's claws and eight forces, do you learn?"

"Yes!"

"Hey, the host learns that Zuo Qinglong is exploring the Eight Forces!"

One after another, the system prompts to sound, and the outside world has only passed for a moment, and the waves that have collided with the dragon claws and dragons have not fully spread.

However, Ye Xuan is now getting a new martial arts, Zuo Qinglong explores the Eight Forces.

Moreover, this door left Qinglong explores the Eight Forces, but it is also a pass and pass.

"Haha, Mo blood clothes, you are dead!"

Ye Xuan suddenly laughed, his left hand became a claw, and he was swept away from the **** coat.

"Zuo Qinglong explores the first position of the Eight Forces, see the dragon in the field!"

A golden dragon suddenly appeared, and the claws were clawed toward Mo Xueyi.

Mo **** brows picked up and found that this move is not a dragon hand, and the power is even stronger than the dragon hand.

However, as an assassin, speed is still a very important attribute, so he easily avoided this claw.

Available at this time.

"Zuo Qinglong explores the second potential of the Eight Forces, Ssangyong play beads!"

Another golden dragon appeared, but this time, it was the attack of two dragons, because the attack of the golden dragon was only escaped by Mo, but it did not disappear.

"what?"

Mo blood clothes were shocked. He found that the second claw was stronger than the first claw, but he was still easily escaped by him.

He really wants to defeat these dragons, but he doesn't have this time, because Ye Xuan's right hand is still constantly displaying **** punches, and there is also Megatron's grinding thing.
