

Super D. S 114

Chapter 114: Vigorous King Kong

Fan Jin carefully looked at his task reel and asked: "Ouyang adults, then we can leave now?"

"Yes, I can leave now, I am waiting for you in Ouyang." Ouyang Ming nodded.

When I heard this, someone immediately took the door, because this time it was not who did not complete the task, but who completed the task first.

As for Ye Xuan, naturally it is leaving.

These days, he is ready to go, ready to go.

Six people quickly left Ouyang, and then left, including Ye Xuan, they all hid the sheepskins well, others did not know what their mission was, and did not know who took the same task with themselves. .

Ye Xuan took a look at other people, and then quickly left Nanlin City.

He has heard that some families have monsters that are specially designed to hurry, so he can't fall behind.

Now, he is the first warrior of the 10th martial arts, plus the blood of the beasts and the blood of the leopard. He is very confident and can arrive at the mission first.

After leaving Nanlin City, he quickly rushed to the Lianyun 18 Mountain Range.

At his speed, it is estimated that it will be seven days, and others are estimated to be half a month. In other words, he arrived at the mission location a few days earlier than his opponent.

This is an advantage!

Now his speed is faster than when he came to Nanlin City. After only three days, he ran to the depths of the Lianyun Eighteen Mountains, the Eighteenth Mountain Range.

He stopped and began to search for the location of the burial tokens according to the map on the parchment.

He arrived in the Lianyun 18 Mountain Range earlier than his opponent. Naturally, he had to go to find the tokens first, and then go hunting and killing the King Kong, because there is only one token, and there are many strong King Kong.

However, when he came to the mountain where the treasury was buried, he listened to the hum of the mountain, and his look was a condensate.

"The place where the original burial is buried is the nest of King Kong."

Ye Xuan took the golden eagle bow directly from the phagocytic space and looked up the mountain with dignity.

According to the instructions on the scroll of the sheepskin, he learned that the letter was buried under a banyan tree at the top of the mountain by Ouyang Ming, so he said that he had to climb to the top of the mountain.

Another requirement of the mission is to obtain the white hair on the scale of the King Kong, and this kind of monster called King Kong is naturally a ten-order monster, and it is powerful, and it can make people into a meat sauce. The tenth-year-old warrior of the martial arts.

However, this is still a piece of cake for Ye Xuan.

How can you keep up with the speed of Ye Xuan?

Can't keep up, then only beaten!

"call out!"

Ye Xuan holds a golden eagle bow and climbs at lightning speed.

"Roar....."

There is a roar of noise in this mountain forest. This is the daily activity of King Kong, and nothing is going on there.

However, the cockroaches are generally King Kong without a spouse.

Ye Xuan has embarked on this strong King Kong's nest, it has been ten minutes, this mountain is still big, and there are many poisons, so Ye Xuan is also more careful.

However, it is at this time.

"Roar....."

Suddenly a giant stunned into the ears of Ye Xuan, let him look a condensate.

"This snoring seems to be in the vicinity. If I have encountered it, then I will come to see you, King Kong, what can I do!"

At the moment, Ye Xuan looked for the past with his voice. Soon, he saw a white orangutan standing in a cave with a loud roaring hammer.

After seeing it, Ye Xuan was also unstoppable, because the orangutan, the reminder was too big, and the two arms were estimated to be two meters.

"No matter, give it to me!"

Ye Xuan directly filled the golden eagle bow in his hand, and after aiming it, it suddenly released.

"call out!"

A piercing slamming sound, the spirit of the spirit of power, instantly swept in front of this vigorous King Kong.

"boom!"

The spiritual arrow burst open, and the smoke was long, and this only King Kong made a scream.

What makes Ye Xuan wonder is that this vigorous King Kong turned out to be unscathed, and he rushed over to him.

"A strong defense, the starburst can not break his fur."

Ye Xuan's heart secretly sighed, and the Starburst has been learned by him. It's eight martial arts, and with the Golden Eagle bow, the power can definitely kill an undefended martial art tenth heavy weapon.

.

However, such an attack cannot break the defense of this powerful King Kong.

"Mother's, let you taste the third heavy star arrow!"

Ye Xuan's flash of light flashed nearly a hundred points of devouring points and exchanged the third prize of the Stars.

Then, he just opened the bow again, aiming at the vigorous King Kong who rushed toward himself, and shot another arrow.

"call out!"

The wind and speed of this arrow is much bigger and faster.

The beast is a monster, the intellect is not high, and the violent beast like Viking is rarely evaded.

This is only a strong King Kong does not flash and do not hide, directly punched to the spiritual arrow.

"boom!"

The star of the blasting star and the fist of the powerful King Kong slammed together, suddenly stirred up a thousand waves of air. The space in this area seemed to be distorted, and there was a faint smell of burning.

"Oh, let you call, it's cool to be blown up by the Starburst?"

Ye Xuan suddenly opened his mouth and smiled.

It's the third-biggest starburst arrow that is powerful enough to break the defense of King Kong. Not only that, but the skin of the King Kong was blown up a lot, and the blood from the wounds flowed out. This blood of King Kong was actually green.

"Roar....."

This strong King Kong is extremely angry, it is lonely and lonely, so I want to use a snoring to attract a mother King Kong.

But who knows, it is not the mother, but a human being. And this human being is still hurting.

Unforgivable!

However, anger is useless, it is still roaring, but Ye Xuan has shot another star.

"boom!"

Strongly in the chest of the King Kong, the powerful impact directly forced it to fall backwards.

"Hey you are sick, want your life, try my new skills."

Ye Xuan raised his hand and pulled the golden eagle bow. This time, the time for him to gather spiritual power is much longer.

It's hard to do it. I want to condense the full spiritual power, and then reinvent this powerful King Kong?

Every martial art is different. The spiritual power of the chaotic star arrow and the starburst arrow is different. The more the spiritual power is condensed, the stronger the power.

However, this time, the spiritual power of Ye Xuan is beyond the scope of the third heavy star.

"The riot of riots!"

"call out!"

As Ye Xuan's fingers are released, the condensed spiritual power is instantaneously turned into an arrow, but after the arrow is shot, it is divided into nine.

Nine roads bursting stars!

This is a martial art that Ye Xuan just learned. No, this is not a martial art, but an application between the Stars and the Stars.
