

Super D. S 116

Chapter 116: Competitor

If it is a general warrior, climbing a cliff is not a problem, but there are many poisons on the cliff, such as poisonous spiders, and the grade is not low, at least it is a seven-order monster. If you want to climb up, I am afraid it will be abolished. effort.

"I don't invade Laozi, and the cliff is only a few tens of meters. I should not be a problem if I climb up."

Ye Xuan immediately made a decision.

For the average person, this cliff is a nightmare, but for Ye Xuan, this cliff is not much difficult.

It took only ten minutes, and Ye Xuan climbed to the top of the cliff. Sure enough, there was a tin box.

Ye Xuan walked over, opened the iron box, took another token token, and then climbed down.

"Now, the two tokens of this mission are on me, as long as I return to Nanlin City within the specified time."

Ye Xuan's heart is a sigh of relief, then the next step is his upgrade plan.

It took another day, he rushed back to the nest of King Kong, and then began to kill.

A strong King Kong three points to swallow points, ten strong King Kong is 30 points, one hundred is three hundred points, if the mountain is slaughtered, I am afraid there will be a thousand engulf points.

However, on the third day when Ye Xuan returned to here, suddenly two people entered the mountain.

"Ajin, there are a lot of strong King Kong on this mountain. Even if it is me, be careful. You must follow me."

A middle-aged man said to a young man.

"Father, don't worry, I am also breaking through to the tenth weight of the martial arts. It is still not a problem for the last King Kong."

The young man said.

This young man is actually Fan Jin's fan, which is the opponent of Ye Xuan's mission. This middle-aged man is the father of Fan Jin, Fan Yuan, the head of the Nanlin City Fan family.

"Hey, don't be too tall, keep up with me." Fan Yuan snorted, holding the sword in his hand and began to cautiously go up the mountain.

If Ye Xuan is here at this time, it will be very strange, but his strange place, I am afraid it will not be Fan Jin, but Fan Yuan.

If it is accurate, it is the weapon that Fan Yuan holds.

Because, this weapon in the hands of Fan Yuan, he bought it at a big price, is said to be a mysterious person sold to the auction house.

Fan Yuan was able to go to the Imperial Capital Competition for Fan Jin, and he also purchased a special instrument for him. After he helped Fan Jin to complete the task, he would give this spirit to Fan Jin, so that Fan Jin's strength would be Will skyrocket.

The two began to go up the mountain. The speed of their journey was very slow, because Fan Yuan was only the middle tenth of the martial arts. Although he held a sword of the sword, if he encountered several strong King Kong at the same time, he was still at risk.

However, they walked for nearly an hour, but they did not find a strong King Kong, which made them wonder.

"Father, have you decided to come here before?" Fan Jin asked in a strange way, and took out the sheepskin roll and saw it. Yes, the token is on the top of the mountain.

"Crap, last year I went to the family's hunting team to kill a few strong King Kong. At that time, I also brought back the powerful Donkey's 'that 啥' to give you a body, you forgot?"

Fan Yuanyi turned his eyes, but in fact his heart is not sure, because before, he also encountered three strong King Kong, the entire hunting team almost disappeared.

"But we have been away for more than an hour, we have not seen a strong King Kong, and even the snoring has not heard, what is going on?" Fan Jin asked inexplicably.

"Maybe those strong King Kong have gone after the mountain to go..." Fan Yuan is also unclear.

They walked for a while.

"Roar....."

Finally, a scream of the sky shook and the faces of the two men finally changed.

"Haha, it is indeed the snoring of King Kong, go, take you to take the first white hair, and then cut off his 'that 啥' and give you a body."

Fan Yuan laughed a few times and his footsteps could not help but speed up.

However, they walked for a while, but they heard another sound.

"boom....."

"boom....."

"boom....."

A series of nine loud noises spread, and Fan Yuan's feet were the next one, and they looked at each other.

"What kind of voice is this, is it that someone is fighting with King Kong?" Fan Jin asked strangely.

"It is estimated, go, go see!" Fan Yuan glimmered.

Those who can enter this mountain are at least the tenth heavyweight of the martial arts. He is the tenth medium-term martial art and holds a handful of ceremonies. Even if he faces the tenth peak of the martial arts, he is not afraid.

He did a lot of murder and treasure, and every harvest was very good.

"Roar....."

At this time, there was another voice of King Kong.

"Right here."

Fan Yuan listened to it and immediately applied his body to the martial arts to catch up.

Fan Jin is also rushing to keep up.

However, when they came to the vicinity, they suddenly found out that there was no strong King Kong, only one person facing them.

"Bloody smell, there is blood on the ground, there have been battles here." Fan Yuan brow wrinkled.

I don't know why, this scene makes him feel a little worried.

"How is this person's back, how familiar?" Fan Jin looked at the man who was facing him, and he wondered.

Just then, the man who was facing him suddenly turned around.

After Fan Jin saw the face of this person, he looked around and exclaimed: "Ye Xuan?"

He did not expect that he would meet Ye Xuan here. So, Ye Xuan is another person in this task?

However, what he did not understand was why Ye Xuan was in front of him.

"Ye Xuan, how are you here?" Fan Jin could not help but ask.

"Oh, it's Fan brother, have you forgotten, we have six people, only three tasks, I am here, naturally I am doing the task."

Ye Xuan turned around and looked at Fan Jin, and at the same time, he said in his heart: "Good luck, the body is fortunate enough to get it early, otherwise it will be discovered."

"I know, to say, you are my opponent? When did you arrive?" Fan Jin wondered.

Ye Xuan opened his mouth and smiled and replied: "I arrived very early, how?"

"Impossible, but I am riding the eighth-order monsters, how can you be ahead of me?" Fan Jin could not believe it.

"Oh, sorry, I am sitting in the ninth-order monster blast." Ye Xuan said casually.

what?

Fan Jin and Fan Yuan are shocked.

The eight-order demon animal stepped on the wind, or the Fan family was hard to catch, and Ye Xuan actually had a nine-order monster beast mount, and it was still a flying monster, how is this possible?

"With a flying monster, he can fly directly to the top of the mountain and take away the tokens." Fan Jin thought and moved: "Ye Xuan, have you taken the token on the top of the mountain?"
