

## Super D. S 12

### Chapter 12: Adventure

Here is a forest. Although the white scale body is large, the speed is not slow, and it walks around the tree, leaving Ye Xuan with some headaches.

"Hey, the unlucky seems to be not interested in the sword, so the sword is not very bright, otherwise I am dying." Ye Xuan is helpless, the unlucky is not interested in the sword, but he thinks the sword is very handsome.

At this time, Ye Xuan, also thinking in his heart, do you want to turn that point into a five-product martial arts?

He is hesitating because the engulfing points are not so good.

However, he thought that the white-skinned body was worth at least 10,000 yuan, and he made up his mind. He quickly searched the menu of the phagocytic system and finally selected a martial art.

"Do you spend a little bit of engulfing points in exchange for the sword?"

The system prompts.

"Yes!"

When Ye Xuan answered in his mind, the system deducted the engulfing points of that point. Then, a gong was reflected in his mind, which was the martial sword.

Outside, Ye Xuan is still chasing white scales, but in his mind, Ye Xuan has spent a long time.

"Sure enough, after the practice, I gave it back for a while, let me follow the light and shadow of the sword, and the skill display of the game, haha, the big snake, don't go..."

Ye Xuan is a little excited. With the fifth realm of his martial arts, using Wu Pinwu, he can definitely kill this white scale.

Immediately, he clenched his sword and then swung a sword.

"The wind is raging!"

A quintessential spiritual power swept out the sword, and instantly swept a few meters, squatting on the body of the white scales. At that time, the white scales were divided into two and broken into two halves.

However, due to the dim vision, Ye Xuan's accuracy is not high, and the white scales are only broken at the tail. This time, the white scales escaped more quickly.

"The consumption of Wupin martial arts is really big. At the peak of the period, I used the ten spiritual powers to estimate the bottom. Now I can only use two or three times." Ye Xuan thought about it, just stepping on it. Ye's body martial arts chased it up.

"The wind is blowing, kill me!"

Ye Xuan's light was cold and he suddenly came out with a sword.

The streamer flashed and a crisp sound rose.

This time, the white-skinned snake head was split into two halves and died in an instant.

"Five martial arts is really powerful." Ye Xuan walked away in surprise, and then directly swallowed the body of the three white scales.

When he saw the magnitude of the ascension, he also showed a satisfactory look, muttering: "Not bad, this white scale is equivalent to twenty or thirty third-order monsters. If you have more than a few, then it will be even more All right."

After consuming the corpse of white scales, Ye Xuan also wanted to find a place to continue to rest, but at this time, he suddenly found a cave in front.

"The cave, is it hard to be the nest of this white scale?"

His heart was condensed, and it seems that this white scale was threatened, that is, he wanted to escape to the nest, but he was unexpectedly taken by Ye Xuan at the nest.

Since there are nests, there may be other white scales inside, because he heard that white scales are generally two people living together, and if there is one, it is a windfall.

"I can use the blast again twice, and if I don't use it, I can beat the white scales and flee. Well, let's restore the spiritual power first, just in case."

Ye Xuan made up his mind, but he couldn't help but take out a bottle of remedy to restore his spiritual power.

Only when he killed the white scales, it is only the upper limit of spiritual power.

He took the medicinal herbs and quickly recovered his spiritual power with the help of Ye Jiagong. After a long time, he got up and entered the cave.

This cave is not big, but what makes Ye Xuan wonder is that in the depths of this cave, there seems to be something faint.

"Is maybe there are any good things!" Ye Xuan had some expectations.

In addition to the monsters in the wild, there are still some natural treasures, that is, the raw materials used to refine the medicinal herbs.

Ye Xuan walked for a while in the cave. Then he heard a strange movement, which was the voice of the white scales.

"There is still a white scale 蟒..." Ye Xuan thought in his heart, then came to the corner and sneaked his head.

Sure enough, there is a white scale in the depths of the cave, and the light source is a stone wrapped around the center by white scales.

"The stone that emits black light seems to be some kind of ore. The scales of white scales become extremely hard, and it seems to be affected by it."

Ye Xuan saw the clue at a glance. At the moment, he just pulled out the sword and rushed out.

However, the next moment, he found out that something was wrong. This white scale seems to be a lot bigger than the white scale that he had killed. Even the body reached five meters.

"Hey."

Seeing that humans broke into their own territory, this white scale scorpion was also spitting a snake letter, and swam directly toward Ye Xuan.

Looking at this big white scale, his mouth widened and he rushed toward himself. Ye Xuan was also a flash of light. It was a blast at the head of the snake.

"Hey!"

The sword smashed on the scales of the white scales, and made a metal-like crisp sound. Ye Xuan attacked this time without actually breaking its defense.

"It's not good, it's a fifth-order monster!" Ye Xuan reacted at once, and this white scale is probably the fifth mid-term of the martial arts, or the white scale of the fifth peak of the martial arts.

When Ye Xuan was different, the white scales had already plunged beside him, and then bite down. Fortunately, the leaves reacted faster, and the legs were removed in advance, otherwise his thighs would be worn by the fangs of white scales.

Ye Xuan was shocked by the strength of this white scale, but he did not lose his mind, but calmly thought.

Now, there are only two ways to go before his eyes.

First, immediately turn around and run, run with full force.

Second, quickly over the white scales, and then swallow the black stone that shines.

If it goes well, he may be able to directly upgrade to the fifth middle of the martial arts, so that the spiritual power may have the power to break the white scales.

However, this is a big risk because he doesn't know what the stone is. If he can't improve it, then he is in danger.

"Forget it, look at this stone is not a general thing, fight!"

Ye Xuan made a note in his heart, stepped on the snake directly, and then slammed it hard. Then, the whole person rushed toward the black stone.

"Hey!"

The white scales are also the intention of Ye Xuan, and Shantou chased the past.

But it was a slow step after all. When Ye Xuan landed, the black stone was already in the hands of Ye Xuan, and then he was directly swallowed by him.
