Chapter 123: Open mirror

"Going out again and practicing?"

Ye Xuan had a lot of doubts in his heart, but at this moment, the big troops in front suddenly stopped.

Ye Xuan returned from the topic of Fang Cai, looking at the front with a strange look: "Is it difficult to do it, really in the open mirror?"

Surrounded by city walls and a huge mirror hanging in front, most people guessed it.

Later, there were people coming in, so Zhao Pan asked: "Yes, Ye Xuan, seeing you are not like native people, where did you come from?"

"Nanlin County, recommended by the inspection." Ye Xuan casually replied, and asked: "Fat brother, why do you know so clearly?"

"Oh, I know people in the middle of the DPRK, naturally it is clear." Zhao Panxiao smiled.

"It turns out that, do you still know other things, for example, where does this person go?" Ye Xuan asked again.

"I don't know. I am mysterious. I am afraid that even the emperor does not know. I have already said it. How, Ye Laodi is interested in him?" Zhao Pan asked.

Ye Xuan smiled and replied: "This is nature, such a genius, I am afraid anyone will be interested."

Soon, the people behind were also in the imperial city, and after the last one came in, the rear gate was also closed directly.

"You, the Imperial Capital is about to begin!"

A figure suddenly appeared on the front wall, it was the purple man.

At that time, the people underneath closed their mouths and the audience was quiet.

The purple man saw it and was satisfied with the nod, then said: "I must have received my identity token. Next, I will tell you the rules of the Emperor."

"The first level, you will enter the secret of the royal secret treasure, the focus of this level is to collect points."

"The moment you get your identity token, you will have points. The ninth heavy martial arts will be a point. The ninth heavy martial arts will be 10 points. The ninth peak of the martial arts is 100 points. analogy."

"The Imperial Capital is ranked according to the points, and the top 100 points can be converted into treasures, a point, equivalent to twelve gold."

At this time, nearly 10,000 people present were shocked.

A little point is equivalent to twelve gold.

Then the warriors of the tenth peak of the martial arts, at first, did not have 100,000 points, that is, one million two gold, equivalent to one hundred phagocytic points.

You know, one million two gold, which is equivalent to a lower spar, and then two, you can buy a sword.

To put it simply, the initial score of a true spiritual world is equivalent to a ring.

"Hey!"

The whole game is boiling up.

However, there is still a premise that the ranking must be in the top 100, otherwise it will not be redeemable. The top 100, this is very difficult. If you use the rank to rank now, the first one is estimated to be at least the middle tenth of the martial arts.

"In addition, in addition to being able to get points in other people, there are points everywhere in the open mirror, and points tokens may be seen on trees, caves, and even on the ground."

After the purple man finished speaking, he waved his hand. Then, the hollow mirror hanging on the wall of the Imperial City was slowly falling.

"Please keep your identity token, just put the two identity tokens together, and then push the power, you can draw the points in the other tokens. The first level of the Imperial Capital contest, for a month, Now, go into the open mirror one by one."

When the voice of the purple man fell, the hollow mirror had already landed on the ground. This hollow mirror is three meters high.

Then, the people who participated in the Imperial Capital Competition entered the secret mirror in an orderly manner.

"Sure enough, I can really get into the mirror."

Ye Xuan looked at the front of the figure disappeared under the eyelids, and could not help but sigh, the rear of the hollow mirror is the wall, but it really enters the mirror.

The contestants entered the secret mirror one by one, and soon, it was the turn of Ye Xuan.

"After entering the open mirror, it will spread out, so Ye Laodi, you have to be careful." Zhao Pan reminded him behind Ye Xuan.

Ye Xuan nodded and then walked in.

Looking at Ye Xuan disappeared in front of his eyes, the dawn of Zhao Pan also flashed a few times, then went in.

.....

After passing through the open-air mirror, Ye Xuan also looked around directly. He found himself in a forest at this time.

There is no living thing around, and thousands of people are gone.

"It's awesome, it really is a treasure. The heavens and the earth are very rich. It can be spent outside for ten days. I heard that the royal family members are practicing inside..."

Ye Xuan can't dare to think about it anymore. Anyway, it is a very advanced place.

"The first level of the Emperor's Contest is to earn points. I am the tenth in the middle of the martial arts, so there are 10,000 points in it. However, those who are the tenth in the martial arts have 100,000 points, which is much higher than me."

Ye Xuan blinked.

Before he saw the information given to him by Ouyang Ming, there were several geniuses of true spirituality. These people had a million points when they came in, and the difference was too big.

However, a point can be exchanged for twelve gold, and his 10,000 points also have 100,000 gold, equivalent to 10 million two silver.

Thinking of this, Ye Xuan couldn't help but open his mouth and smile.

It seems that he is really not wrong.

He estimated that after the big game, he would be able to break through to the true spirit.

Now, he is already a combination of the blood of the shooter, his eyesight is amazing, he looked around in a circle, found a point token in a tree hole not far away.

He quickly passed, touched the token with his identity token, and then used the power to build a bridge to transfer the points on the token to his token.

"Just a point, wasting my expression."

Ye Xuan laughed and laughed. Before the Ziyi people said that there were a lot of points, but he estimated that most of them are points or points.

Because of the lost direction, Ye Xuan can only find a direction. But he combined the blood of the shooter and found many good things.

"My God, heaven and earth treasures can be seen everywhere."

Ye Xuan was shocked. He ran for less than a minute and found seven or eight heavenly treasures. Although each one only cost tens of thousands of dollars, it is less. In a few minutes, you can increase the spiritual power of one million and two silvers, which is faster than he can kill the powerful King Kong.

The more abundant the heavens and the earth, the higher the probability of the appearance of Tiancaibao.

Now, I have verified this sentence.
