

Super D. S 124

Chapter 124: Hunting points

"Ha ha ha, all now, still hide the strength of Mao, give me a breakthrough!"

Ye Xuan suddenly laughed a few times and directly swallowed up the powerful King Kong bodies in the space. At that time, his breath was soaring.

"Hey, the host broke through to the tenth peak of the martial arts!"

The system prompts.

Now, Ye Xuan is only one step away from the real spiritual environment. He just doesn't know how much he needs to break through to the true spirit.

"Haha, I accept, I accept, I collect and collect!"

After the breakthrough, Ye Xuan's speed skyrocketed and began to run wild, while using the pair of eagle eyes to probe around.

He also has the blood of the treasure hunt in his body, so all the heavenly treasures on the road were not spared, and he was swallowed one by one.

His spiritual power is expanding little by little.

In less than ten minutes, he received millions of good things from two silvers. However, these things have a single value of no more than one million, so there will be no engulfing points.

"Shuang, it's so cool. At this speed, I can break through to the true spirits in a few days."

Ye Xuan was yelling in his heart, but the next moment, he suddenly found a problem.

"Right, the picture in this empty mirror will be mapped on the thirty-six-sided sub-mirror. That is to say, some people may have discovered something about my shackles. Oh, forget it, even if you know it." ?"

Now, Ye Xuan is not afraid of these at all, and Qiang Kun is one of ten pieces of spar. And as long as he kills ten warriors of the tenth peak of the martial arts, he can buy one.

As long as he breaks through to the true spirit, who will dare to provoke him?

However, just in the 30th minute when he entered the open-air mirror, he finally met a contestant. At the same time, the contestant also discovered him.

This is a person who is about 20 years old. Ye Xuan glances at the other side with a look. He estimates that the other party is the tenth weapon of the martial arts.

"So young boy, it seems that the strength is not very strong."

The warrior saw Ye Xuan's slightly tender face. If he didn't say anything, he would go up and try to kill Ye Xuan.

"Kid, your family elders are really relieved, even let you participate in the Imperial Capital Competition, give me to die."

The warrior pulled the sword directly and stabbed it toward Ye Xuan's throat.

But at this time, Ye Xuan's breath suddenly skyrocketed, and the spiritual power of the tenth peak of the martial arts suddenly sprang up.

what?

The warrior's eyes widened, and he did not expect that he had encountered the second step master!

Those who participated in the Imperial Capital Competition have been divided into several steps, the first step, that is, the strong person who has left the martial arts, that is, the true spiritual environment.

The second step is the tenth peak of the martial art, with a number of about 100 people.

And he just happened to meet one.

"call out!"

A wind rang, the warrior's eyes widened, and Ye Xuan suddenly saw a long sword and pierced his chest.

"This is impossible."

Think of this warrior's mind.

Ye Xuan, it is not only the tenth peak of Wudao, but also the Qiankun Ring and the Spirit!

Such people must have an extraordinary status.

It is not a wise choice to provoke him.

However, it is useless to regret this warrior.

"噗通."

The body of the warrior fell directly on the floor.

"If you want to kill me, you must be prepared to be killed." Ye Xuan said faintly, and then he searched on him, but did not find anything of value, only a top-grade ware, and some came to him. Said very cheap medicinal herbs, not even a single herb.

Ye Xuan did not waste good habits and swallowed all these things.

"The tenth in the middle of the martial arts, 10,000 points, not bad." Ye Xuan transferred the points of this warrior, at this time, his own points are 20,000.

"Unfortunately, I knew that I would break through and come in again, so there would be 100,000 guaranteed points." Ye Xuan shook his head helplessly, and then left.

The next time, Ye Xuan is constantly groaning. Although his current knowledge is not much, but there are eagle eyes and treasure hunt deer blood, as long as he encounters good things, he does not hesitate to pick and then swallow.

In fact, not many thousands of people participated in the Imperial Capital Competition. In the first round of the knockout round, more than 100,000 people were eliminated.

Now, thousands of people have all entered the open-air mirror. If they meet, they must be shot.

In less than an hour, hundreds of people have already died. Next, there is still a month, who can live to the end?

.....

Ye Xuan, who entered the open-air mirror, came to a treasure place. Not many of the contestants had a Qiankun ring, so the good things on the road were cheaper.

At this point, it has been a few hours in the past.

"Well? Is it late?"

Looking at the sky dim, Ye Xuan is also a glimpse, he estimated the time, found that the time in this empty mirror is not much different from the outside.

"There are very few people who act at night, usually at rest, but for me, the impact is not great."

Ye Xuan thought about it, his strength, I am afraid it is already the first step in the contestants, and this hollow mirror is a treasure, he does not want to waste time.

However, at this time, suddenly, the forest remembered a different buzz.

"Hey..."

This voice is obviously not someone fighting, but a monster.

"There are even monsters in the open mirror?"

After hearing this buzz, Ye Xuan's brow was also wrinkled. He looked for the past with his voice. Soon, he saw a monster, a nine-order white feather wolf.

"Good luck, it seems that I don't have to eat dry food tonight."

Ye Xuan smiled slightly, took out the golden eagle bow directly, and killed the white feather wolf with a starburst.

He walked over and cut off a piece of meat with a sword and a sword. He prepared to roast.

At this moment, he suddenly discovered that there is one thing in the body of this demon wolf, which is actually an integral token.

"There was also a token in the body of the monster, and it seems that there is another channel for acquisition."

Ye Xuan nodded with satisfaction and then directly swallowed the body of this white feather wolf.

However, before him, there were already many people who discovered the monsters and then killed them. They also happened to discover the tokens in the monsters.

These people are all happy, and then disguised the scene, I thought I can't let other people know. After all, this is another way to increase points.

Maybe, will you encounter some corpses of monsters in the future?

At the same time, in the palace of Emperor Xuanyang, a group of officials from the DPRK were watching the thirty-six mirrors hanging in the sky, making a burst of embarrassment.

There are only one side of the open mirror, but the secondary mirror actually has seventy-two faces. The thirty-six faces are hung outside the imperial city, while the other thirty-six faces are in the palace for the minister to watch.
