

Super D. S 1291

Chapter 1291: If the mood is nine

Fortunately, there are many ethnic groups behind the mad war tribe leaders. They all use the power of Vientiane to bless the hordes of the mad war tribe.

After that, the Ssangyong roared and erupted, and the mad war tribe leader led to survive.

If it weren't for those tribes, the horror tribe leader would have died under the blow, but this would only delay the short life.

"Shuanglong growls!"

Another burst of eruption came out.

This time, the mad war tribe leader has no possibility of living, and after being swallowed up by the dragon, it is an instant fall.

"Hey, the host's killing value is improved!"

In Ye Xuan's mind, a system sound was heard.

Three consecutive dragons roaring and killings have consumed a lot of infuriating and killing values, but they can kill a master who is as beautiful as the seven.

At this time, Ye Xuan glanced at Yu Guang and found that Megatron and Shu Lao had not finished the battle. He was the fastest in the five-fold conception.

"Let me see, how many good things are you, the great leader of this mad war tribe!"

Ye Xuan used the power of Vientiane to catch the Qiankun Ring and the Faith Crystal of the mad war tribe leader.

If you want to compare it, the main city of Feisha City is a small child in front of this mad war tribe.

"A full five million wishful Dan, cool!"

Ye Xuan couldn't help but laugh.

"Hey, the host breaks through, and the current situation is six!"

After swallowing so many Ruyi Dan, Ye Xuan finally heard the prompt of the upgrade.

If the mood is six!

In his body, he once again opened up a Yuanfu, and his strength has skyrocketed several times.

At this time, the group of horrors of the mad war tribes in the distance are already watching.

The great leaders they are proud of, such as the seven masters of artistic conception, have died in the hands of a human being who is as artistic as five. This is being challenged by the leapfrog, and it is still two levels.

"The big leader is dead, the second leader and the three leaders lead me to estimate..."

"What do we do, do you want to go together?"

"What a joke, didn't you see that the human being broke through? If we rushed up, we couldn't escape!"

"But if we don't, we must be slaughtered after the death of the two leaders and the three leaders."

"Up, I am mad at the Horde, when I smashed and killed!"

A few war-torn monks roared in the sky, carrying hundreds of masters and killing Ye Xuan.

"A group is not afraid of death, come on!"

Ye Xuan's warfare has also burned up. This time, he has to face hundreds of people.

"kill!"

Ye Xuan is like an arrow from the string, suddenly burst out, wherever it passes, there must be someone fallen.

Although there is no blade storm, arrogant sweeping of this large group of attack skills, but Ye Xuan's attack, but no one can block.

"Shuanglong Jianzhong!"

"Ice and Fire Double Dragon!"

Ye Xuan directly condensed an oversized double dragon sword clock to cover everyone.

"boom!"

In the sound of a few dragons, this group of monks and masters, all fainted.

Finally, Ye Xuan repaired the knife and killed him.

This battle, but three seconds, three seconds, Ye Xuan is the master of hundreds of mad war tribes.

At the same time, the old tree and Megatron are also in the end.

After Ye Xuan collected all the Qiang Kun ring, the belief crystal and the body, Shu Lao and Mega Zhentian finally solved the opponent.

The morale of the entire mad war tribe fell directly into the bottom.

Now the rest of the mad war tribes are as trivial and below. In the face of Ye Xuan, the three major killing gods cannot be enemies.

"When it's over, I am mad at the Horde!"

"The three chiefs are dead, leaving us alone, and we must be annexed by the surrounding tribes."

"Don't talk about annexation, whether you can live today is still a problem."

"Crazy God, save us soon."

In the mad war tribe, a cry of crying shouts.

However, Ye Xuan did not think about the massacre, and he stayed in the front line. He would see each other in the future. Since he has killed so many masters, there is no need to kill even the old and the weak.

However, when Ye Xuan received the second and third leaders, the sky, suddenly swept a figure.

"Look!"

"That is the apostle, the evil **** sent the apostles to save us."

"Hahaha, this man is dead, and the apostle will be able to take revenge for the leader!"

For a time, the mad war tribes boiled again.

When Ye Xuan heard these voices, he turned his head and looked at it subconsciously. He saw a monk wearing a black robe rushing toward himself, and the time of blinking entered his sense of scope.

"Apostles of evil spirits?"

Ye Xuan's eyes slammed, and the eyes burst into a murder.

Yesterday, he encountered an evil apostle, that is, that turbulence.

Today, another one!

This evil apostle must know where the evil gods are, but it is not so easy to control an evil apostle.

"You must defeat, and kneel down, and then use the high-efficiency ecstasy to ask where the evil spirits are!"

Ye Xuan's heart is a dark sentence.

Before he had the eye of control, so there is no need to use the means of ecstasy, but now there is a belief crystal in the head of this evil apostle, which cannot be controlled, so it can only be interrogated by special means.

As early as before, Ye Xuan was already using the method of ecstasy, which is still effective for the believers of evil spirits.

However, it is not so easy to leave this apostle of evil spirits!

Because, this evil apostle, who came here, is actually as beautiful as it is!

"what happened?"

After the apostle of the evil **** in the black robe approached, he also asked aloud.

"The apostle, this man killed the three chiefs of our tribe and the hundreds of masters, and said that they would destroy my evil spirits!"

"Apostle, take revenge for us!"

"Apostle Adult..."

A group of hordes of mad war tribes yelled.

Here, the apostle of the evil **** knows what happened, and turned to look at Ye Xuan: "How dare you dare to dare to kill the believers in the evil gods?"

"I don't just dare to kill the believers of the evil spirits, even if the evil spirits are here, I will kill them!"

Ye Xuan, a pair of 'the sky is not afraid of fear,' and the apostle of the evil gods.

"Be bold, if that is the case, then I will leave you and offer it to the evil spirits as a sacrifice!" The evil **** apostle screamed and shot directly.

"I think the sacrifice is better with bugs!"

Ye Xuan also spit a sentence and greeted him.

This evil apostle is like a nine-pointed, and the strength is not the same, not that Ye Xuan can now compete.

Of course, if Ye Xuan has a blade storm and arrogant sweeps, it is not difficult to deal with him.

Chapter 1292: Infinite rebirth

However, the cooling time of this blade storm and the madness of the two skills has not been one day, and it will take two days to use.

Therefore, Ye Xuan must join hands with Shu Lao and Megatron.

This level of fighting, Ye Xuan also had to wear a brilliant gold armor, just in case.

"Dead!"

This evil **** apostle was not prepared to play for a long time, and directly condensed a huge appendix with the power of infuriating and Vientiane, and then swept away.

The speed of this whip was so fast that it was directly drawn on Megatron, and Megatron was thrown away.

But what about this?

Megatron is the first magic weapon of Ye Xuan. As long as three Ye Xuan are not dead, Megatron is immortal.

Suddenly, Megatron once again appeared.

"What the hell?"

The apostle of the evil **** was a little surprised, and one died, and the same one appeared.

No matter what, it's not wrong.

The evil **** apostle once again controlled the sinister shadow of the scorpion and smoked it on Megatron. Suddenly, Megatron once again fell apart and then appeared again.

This is already its third life!

"After a blow!"

When the old man attacked Megatron, the old apostle attacked the most powerful attack.

"Glyphs and small tricks, you also give me death!" The apostle of the evil spirits sighed at the end, and the old tree was blown apart.

However, the next moment, the tree is old again.

"what?"

The apostles of the evil gods have been completely shocked, and Megatron is not dead. How can this old dead wood not die?

"After a blow!"

The old tree once again attacked.

At the same time, Ye Xuan is also a move.

"Shuanglong growls!"

Ye Xuan, Shu Lao, and Megatron three-pronged, but the strength of the evil apostles was strong enough to be beyond their expectations. Just one whip was to defeat all three attacks. Among them, Megatron was again It's been the third time that it's shattered.

"How strong is the attack power, Megatron is not dead!"

Ye Xuan's light flashed and he again released Megatron.

This time, the evil **** apostle knew where the problem was.

"It turns out that your kid is playing a ghost, killing you first!"

The eyes of the evil **** apostle suddenly fell on the two leaves of Ye Xuan, and Megatron and the tree could not die. So, is Ye Xuan the same?

"Oh, really found out!"

Ye Xuan noticed the other person's gaze, and his heart could not help but tremble.

He feels that the strength of this evil apostle is much stronger than the general ambition. If this time there is a blade storm and arrogance, it may be solved, but now the skill of these two big moves is not good enough. If you want to kill this evil apostle, you can't estimate it in a short time.

However, he did not want to leave.

"come on!"

Ye Xuan's light flashed twice, receiving the brilliant gold armor and landing quickly.

At the same time, the sky suddenly became dim, and the blink of an eye fell into the darkness.

"Night Sky!"

Ye Xuan used a skill to kill the blood of the gods. In this environment, his speed and combat effectiveness have improved a lot.

"There are some means for the kid, but do you think you can escape my spiritual knowledge?"

The apostle of the evil spirit shouted, and the long-tailed owl condensed by the infuriating and the power of Vientiane took off, and instantly provoked countless flying sands, but he did not lie on Ye Xuan.

"Fortunately, the night sky is turned on, there is a moving speed bonus, otherwise the avatar will burst!"

Ye Xuan couldn't help but swallow. In this case, he knows that he can no longer use the Shuanglong sword array. If the speed is not enough, what should I do if the body is detonated?

"fit!"

Two Ye Xuan joints, and then combined into one, the overall strength has skyrocketed by 50%.

"Yanlong is unparalleled!"

After the fit, Ye Xuan took a slap in the hand.

Yanlong whistling away, but due to the gap in the realm, the apostle of this evil **** once again detonated.

"Every time he attacks, he needs to consume infuriating. I want to see if your infuriating is unlimited!"

Ye Xuan said nothing, turn around directly.

This time his goal is a mad war tribe.

In fact, he only made a mistake. He did not expect that there would be a singular apostle of the evil spirits. Otherwise, he should start the killing feast before killing the great leader, so that the combat power can be doubled at least twice. It is much simpler to meet this evil apostle.

Unfortunately, fate always makes fun of people!

But it doesn't matter. Ye Xuan on the land has a 90% increase in the speed of movement. Together with the growth of the dragon, the apostle's attack is not hurting him.

Moreover, Megatron and Shulao are constantly using their lives to consume the instinct of the evil apostles. Therefore, Ye Xuan's chance of winning is 90%.

Of course, it is best not to have any scorpions during the period, such as another evil apostle.

Seeing that Ye Xuan rushed into the mad war tribe, the evil apostle also violently said: "Take me away!"

The voice did not fall, and the huge tail was taken down, and the deaf people of more than a dozen mad war tribes were smashed.

In order to kill Ye Xuan, this evil apostle is also a means of no compromise.

Although these groups of mad war tribes are innocent, they are also remembering to hate Ye Xuan. If they have strength now, they will definitely help, and the evil apostles will kill Ye Xuan.

Ye Xuan thought that this evil apostle would release some water because of these evil believers. I did not expect the latter to be ruthless and to kill.

It seems that the plan has to be changed again.

"There are no masters in this mad war tribe who are more than four or more. If you start the killing feast, the effect is too low..."

Ye Xuan thought quickly in his heart.

In this case, then he goes to the next tribe.

"Kid, don't run!"

The evil gods behind him attacked and sipped.

"There is a kind of you will continue to chase!"

Ye Xuan sipped, and from time to time he turned back and put a dragon in the dragon.

On the speed, Ye Xuan on the land is not slower than this evil **** apostle. If this situation can be maintained and dragged to the next tribe, then this evil **** apostle will be dead.

"What is this kid's head in the end, this is not the speed that Six-Heart can have!"

The evil **** apostle thought in his heart.

When Ye Xuan saw that he was thoughtful, he couldn't help but swear: "The big scorpion, is your evil spirit a pig, believe in him, is it slower?"

In order to maintain hatred, he also had to open up. Otherwise, what if the evil apostle left midway?

"Dare to blame evil spirits, I will catch up with you for a year, it is necessary to kill you!"

The evil **** apostle was stimulated and began to attack wildly.

Ye Xuan screams, this hatred is really good to pull, as long as one sentence, the estimate is enough.

However, in order to speed up the instinct consumption of the other party, the more effects you have, the better.

Chapter 1293: Lure

"Your evil spirit must be a blind man..."

"Oh, there may be long and short legs."

"One of the nine things is as beautiful as it is, even if I can't catch up with this six-fold situation, it's better to die."

"Do you want me to cut a cane for you?"

These words, a word does not fall into the ears of this evil God apostle, so angry that he bite his teeth, can not wait to catch up with Ye Xuan immediately, poke a thousand holes in Ye Xuan with a dovetail.

Soon, the two were far from the mad war tribe.

Ye Xuan remembers that there is a slightly weaker tribe next to the mad war tribe. It is said to have been established by the younger brother of the mad war tribe. The number is more than 1,000, and there are also seven masters.

There, it is the fallen land of this evil **** apostle!

From the mad war tribe to this war-torn tribe, it only takes an hour. Ye Xuan has weakened the evil apostles as much as possible during this time.

However, according to the resentment of the evil apostle and the frequency of attacks, his infuriation is estimated to drop to one-third after an hour.

At that time, Ye Xuan shot the opportunity to kill him!

Of course, if you let Ye Xuan blame one person, the other side's infuriating will not consume so much. If you want to achieve the effect, Megatron and the tree are also indispensable, they are using their lives to consume each other.

"Mom, what is this green dragon and old wood? Why do you not fight it?"

On the way to kill Ye Xuan, the apostle of the evil **** could not help but think.

From the time of the present to the present, Megatron and the tree have been dead for a hundred times, but they are able to continue to resurrect and die.

Although I don't know why, but the evil **** apostle knows that this must be related to Ye Xuan, as long as he kills Ye Xuan.

However, there are Megatron and the tree old, and he can't catch up.

"The instinct of this kid is like not going to dry up. If you want to use it, what is the secret?"

The evil **** apostle has a glimpse of his eyes.

Originally, he wanted to catch Ye Xuan as a sacrifice. Later, Ye Xuan yelled at the evil spirits, so he wanted to kill Ye Xuan directly, but now he suddenly wants to catch Ye Xuan.

There are many secrets in this human being, and the evil spirits will certainly be interested.

"I don't believe it, your infuriating will not be exhausted!"

The evil **** apostle decided to continue to pursue Ye Xuan.

Time, a little bit past.

"Booming!"

Somewhere in the desperate desert, several figures are fighting.

At this time, it was already half an hour in the past. At this time, Ye Xuan, together with Shu Lao and Megatron, constantly attacked the evil apostles behind him, making this evil apostle unable to catch up and can only resist the attack.

"The instinct of this kid and the instinct of his life, how can it really be like incomplete use, is it difficult for him to have a way to store infuriating?"

Along the way, this evil **** apostle racked his brains to think about it, but he couldn't think of it.

Perhaps, the evil spirits know the reason, but to see the evil spirits, can you empty your hands?

"Right, there is a war tribe in front. At that time, I can let them intercept this." The apostle of the evil **** suddenly remembered this.

Every evil apostle has a territory in the desperate desert. He happens to be managing this area, so he is naturally familiar with His Majesty's territory.

It is just that Ye Xuan is a human being, so this evil **** apostle guessed that Ye Xuan did not know this.

However, what he does not know is that Ye Xuan not only knows, but also wants to use the hundred war tribes to kill him!

"Coming!"

After a while, Ye Xuan, who acts as a bait, thought in his heart.

It seems that the time to kill this evil apostle is here.

"This kid is really passing through this hundred war tribes, just right, I want to catch you and give it to the evil gods!"

The evil apostle thought in his heart, staring at it, just to see the one hundred war tribes that appeared in front.

"The evil **** apostle hurricane, the people of the hundred war tribes come out to meet!"

This evil **** apostle yelled at heaven.

The sound that spreads with this life is still a lot faster than the speed. In the meantime, it falls into the ears of all the tribes of the war.

"What, the apostle is coming?"

"Fast, get out and meet!"

"Haha, maybe we are coming to our warring tribes to serve the evil spirits."

The Hundred Wars tribes suddenly opened, and they rushed out in the direction of the sound, seeing the three close-ups of Ye Xuan, and the apostles of the evil gods.

Seeing so many people rushing out, Ye Xuan's mouth is slightly tilted, and this evil **** apostle really helped him a lot.

"The tree is old, Megatron, and falling, are you ready?"

Ye Xuan asked in his mind.

"Oh, I have been dead hundreds of times, I have already been ready. Little Master, have done this evil apostle!"

The old tree replied.

"Young Master, this evil **** apostle chased you for so long, kill him!"

The fall in the planting space is also angrily said.

"Okay, everyone is ready!"

Ye Xuan nodded.

At this time, the apostle of the evil spirit behind him again screamed again: "The tribe of war, help me to seize this evil **** sacrifice, greatly rewarded!"

When these words fall into the ears of the tribes of the war, they directly let the war in their bodies boil.

The apostles of the evil spirits invited them to help, and they still had to catch a sacrifice of evil spirits.

"kill!"

Suddenly, this group of people was red-eyed and directly killed Ye Xuan.

Ye Xuan quickly swept the eye with insight and found that there were only a dozen people in the head of the war.

It seems that they are the first believers.

When the evil spirits began to spread, the belief crystal was not easy to get, so first plant some in each tribe. After the mass production of the belief crystal, one by one.

This site is a hurricane. When he came out this time, he brought tens of thousands of faith crystals and prepared to convert everyone under the site into a believer in the evil spirits.

This hundred war tribe is one of his destinations.

"Haha, hurricane, you are finished!"

Ye Xuan couldn't help but laugh a few times and directly opened up a skill to kill the feast.

At the same time, the fall also suddenly appeared between him and the army of the hundred wars.

"Let you see my power."

With the purification of the belief crystal, the fall has broken through to the five-fold conception. At this time, she whispered, and a fascinating eye came out on the top of her head. In the blink of an eye, dozens of people were enchanted, and almost all It is a master of five meanings.

Then, this group of five-year-old masters suddenly attacked the people around them.

Under one wave of attacks, dozens of war-torn tribe masters fell from the air.

"After enchanting so many people?"

The evil **** apostle stunned, and the fascinating eye he had heard of, but did not expect that there was such power, and he was shocked. From where did Ye Xuan change such a fox family Loli?

However, this is not over yet.

What will be controlled will not only fall.

Chapter 1294: Killing feast

"The eye of control!"

"The eye of control!"

"The eye of control!"

After special engulfing the eyes of two Vientiane, Ye Xuan's eyes were advanced once, and the effect was once again improved. Now it is possible to control thirty people.

Moreover, he is now in a state of mind, and he controls the same level. However, the group of savvy people who are six in the mood are the first group of believers and cannot control them. Therefore, Ye Xuan can only downgrade the control five times.

If it is added, they both control almost all the top five warriors.

"Boom!" "Boom!" "Boom!"

Among the hundred war tribes, there was a hurricane.

"Fast, kill them, don't leave your hands."

The leader of the hundred war tribes sipped, and he knew that his own people were controlled by the enemy and had to kill.

At this time, Ye Xuan has already received hundreds of system prompts, and the increase in the killing feast has already increased to 50%. This represents Ye Xuan's combat power at this time, which is 1.5 times that of the previous one.

"If you kill all the light, you can at least double it!"

Ye Xuan's speed suddenly increased and he plunged directly into the tribal crowds. The two old and the Megatron days followed closely.

"The killings broke out!"

"Yanlong is unparalleled!"

An flaming dragon flew out and rushed to the leader of the 100-war tribe.

The leader of this hundred war tribes thought that the apostles of the evil gods were to arrest the Megatron and the old trees, so they did not care too much about Ye Xuan, but did not expect that Ye Xuan, who is full of artistic conception, is probably the most powerful among several people. .

Hey, he was swallowed up by the dragon, and instantly turned into ashes.

"Hey, the host's killing value is improved!"

A system prompts to sound.

The leader of this hundred war tribe directly increased the growth rate of the killing feast by 20%.

One person is 20%. If you come to ten, you can let Ye Xuan double the strength and play three times the previous combat power.

Before Ye Xuan gave orders to Megatron and others, all of them were killed. After they rushed into the army of the hundred wars, they were full of firepower. Together with the dozens of top five and four masters, only two or three seconds, the top of the hundred war tribes are all killed.

Although it is said that so many people have died, this evil **** apostle has no pain at all. His purpose is only one, to grasp Ye Xuan!

It's just that these people dragged Ye Xuan's footsteps.

"Kid, you are dead!"

The hurricane slammed into the air and rushed to Ye Xuan.

"Dead, not me!"

Ye Xuan's eyes widened, and the breath rose again, because he and the people who fell under control all committed suicide.

At this time, Ye Xuan's increase is exactly double, that is, it can play twice the combat power.

"Boom!"

Ye Xuan and the hurricane fought in close quarters, and the two lives were really in the air. They broke out a huge wave of unprecedented turmoil, and even the fall was swept away.

An hour ago, Ye Xuan's attack was easily defeated by the hurricane, but after an hour, Ye Xuan could hardly compete with the hurricane.

This change has scared the hurricane.

"Why is the strength of this kid nearly doubled?"

The hurricane felt incredible, and suddenly there was an unpredictable hunch in the heart, and at this time, Ye Xuan smelled a dangerous atmosphere.

He originally wanted to squat down Ye Xuan. After contact, Ye Xuan suddenly surged his strength, so he made a full effort.

If this is not the case, this time he is afraid to be bombarded.

"Kid, no matter what you do, I will leave you to the evil spirit!"

The hurricane slammed the battle, and the tail behind it was a glimpse.

The tail needle of the Yi people is not a deadly toxin, but a paralytic toxin. There are only two kinds.

But in contrast, paralytic toxins are much more useful than deadly toxins, because the toxic effects play fast, and as long as they numb each other, then the other side will kill him and he will be dominated by him.

Before Ye Xuan saw the turbulent needle, it was a dangerous thing to make the tree old into a fly ash, so from the beginning, Ye Xuan paid special attention to this stern.

"Do you think that I can fight with both hands?"

Ye Xuan sneered, and his eyes flickered twice.

Decomposed eye!

"Zizi!"

The two decomposed rays were shot on the dovetail in an accurate manner, and the dovetail was decomposed in an instant, even with the same truncated tail.

"what?"

The evil **** apostle was shocked by the hurricane. If he did not pass into the pain of the brain, he suspected that he had made a mistake.

You must know that the tail of the Yi people is the most difficult piece to recover, especially the iris.

"I want you to die!"

The hurricane was furious, and a powerful force of Vientiane suddenly rushed out and directly hit Ye Xuan.

"Hey!"

Ye Xuan squirted a blood, and was instantly blasted out, but before that, his dawn was once again flashing.

"The Eye of Silence!"

"call out!"

A silence is gone.

The hurricane was shocked and the body was on one side.

"Oh!"

The crisp sound spread, and the left arm of the hurricane was cut off.

He did not expect that he had suffered a loss and actually ate it again.

But for now, it seems that it is not time to take care of this.

It doesn't matter if you eat twice, what matters is whether he will suffer next.

"There is only one-third of the infuriating in my body, and the infuriating body in this kid seems to be really inexhaustible, I am afraid I..."

The hurricane's brain turned rapidly, and at this time, he suddenly had a retreat.

Stay in the green hills, not afraid of no food!

Today, he is in danger of life. This is not as good as the next day.

"go!"

The hurricane quickly turned around.

It's a shame to be so arrogant that it's so arrogant.

However, the moment he turned around, he saw two figures, namely Shu Lao and Megatron.

"I want you to stop me, just because of you?"

The hurricane sneered.

"Then try this trick!"

Ye Xuan suddenly split into two, one ice and one inflammation, two dragons, and erupted at the same time.

Ssangyong roar!

The previous move was easily defeated by the hurricane, but now Ye Xuan's strength is doubled before, and the hurricane is not the peak moment, so this blow is not so easy to pick up in Ye Xuan's estimate. .

"Good!"

The hurricane was dark and he knew that he couldn't take the trick with the current one, but he still had another energy in his body.

"Hey!"

A slight sound spread, and the belief crystal in the hurricane's mind suddenly trembled.

"boom!"

The Ssangyong roared approaching, and the hurricane did not move, so it was swallowed up.

However, Ye Xuan did not hear the system's prompt tone, which means that the hurricane did not die.

"Do not block or flash, completely in the middle of the move, not dead, what kind of card did the hurricane use?"

Chapter 1295: Evil altar

"Do not block or flash, completely in the middle of the move, not dead, what kind of card did the hurricane use?"

Ye Xuan's brows are wrinkled, and his mind is thinking fast.

He only estimated that this hurricane could not pick up the double dragon roar, but did not expect that the other party took it.

It seems that it is using some means!

Ye Xuan quickly used the insight of the eye to see that the hurricane in the Ssangyong roaring, there appeared a protective film, because this protective film, let Ye Xuan safe and sound.

"what is this?"

Ye Xuan stared at it.

It turned out that this layer of protective film was condensed from the belief crystal in the hurricane.

Soon, the Ssangyong roar was stopped, and the hurricane did not die under this attack.

"Fortunately, we all have the will of the evil spirits, otherwise I will die!"

The hurricane breathed a sigh of relief.

The moment he turned his head, there was a broken sound behind him.

"Hey!"

Megatron and the tree are combined together and turned into a set of tough armor, which is directly placed on the hurricane.

"what?"

Only after being swallowed by Ssangyong's roar, the spirit was completely obscured, so the hurricane was not found.

"Give me a roll!"

The hurricane was furious, and it was a shock to transport the infuriating.

"Hey!"

The armor composed of Megatron and the old tree has double-layer protection. The hurricane used the power of the life to merge the power of Vientiane, but it did not shake at once. Even the move was impossible, and the infuriating was completely blocked.

"Dead!"

Ye Xuan in the distance has already condensed the second instinct. With the two Tianlong big mouths, it is a double dragon roaring out.

"boom!"

This time, the hurricane was not able to stop it and was swallowed up in an instant.

Of course, before this, Megatron and the old tree had unlocked the armor and exposed the hurricane's predecessor, so that he was completely attacked.

"Hey, the host's killing value is improved!"

Finally, the system's prompt sounded, proving that the hurricane was really dead this time.

"It's not easy to kill one of the nine places."

Ye Xuan exclaimed in his heart.

"Oh, the old man has lived for so long, and he was killed by his own person for the first time. It was also the first time he died hundreds of times in a day."

The old voice of the tree sounded in Ye Xuan's mind.

The tree and the Megatron, which were made into magic weapons, will instantly repair the body in the pet space every time they fall. This time, in order to let Ye Xuan kill the hurricane, Shu Lao and Megatron are volunteering to go up.

However, before coming to this hundred war tribes, Shu Lao and Megatron had been killed hundreds of times by the hurricane, which is nothing.

"Thank you for the old tree!"

Ye Xuan hurriedly thanked a sentence, and then used the power of Vientiane to take the hurricane's belief crystal and Qiankun.

This piece of faith crystal is the biggest piece that Ye Xuan has ever seen. It is bigger than the leader of the mad war tribe. The estimated value is not low.

However, compared with the belief crystal in the Qiankun ring, it is simply not worth mentioning.

"I wiped, more than 20,000 pieces of faith crystal."

Ye Xuan was shocked, and this vote was more than the crystal he had received before.

"With these crystals of faith, I can at least break through to the top of the world!" said Luo.

"Okay, take it and slowly purify it."

Since the belief crystal can be absorbed, Ye Xuan is all thrown to the ground.

Next, it is to check the apostles of this evil **** apostle.

What Ye Xuan did not think was that this Qiankun ring had a lot of ore.

"Hey, Megatron's breakthrough, the current situation is eight!"

Ye Xuan did not hesitate to swallow up these ores, and then Megatron took the lead to break through and reached the top eight.

"What is going on, how can this evil apostle have so many forged ore, is this what to build?"

Ye Xuan is very surprised.

Immediately, he found another thing in the ring of Qiankun, a map.

There is only one mark on this map, which is the appearance of a round table. However, the note next to this mark makes Ye Xuan tremble.

"The altar of evil spirits?"

Ye Xuan whispered, and guessed in his heart: "Is it true that these ores are sent to create an altar of evil spirits?"

Thinking of this, Ye Xuan hurriedly asked about the fall of the inheritance memory.

"Is the altar of evil spirits?"

After thinking for a moment, he replied: "This evil **** is the ancestor of the Yi people, but with the destruction of the last evil spirit, the power of faith is lost. Now the evil spirits reappear, as long as the altar is built, then he can Produce the crystal of faith in the evil spirits."

"Not only that, but those believers can also come to the altar of this evil **** to worship, to contribute the power of faith to the evil spirits, and then get strength feedback."

She said very clearly, Ye Xuan and the tree will understand when they hear it.

"So, the altar of evil spirits has not yet been built." Ye Xuan took a look and began to think.

"Oh, yes, only the altar of evil spirits can be built, and the will of the evil spirit can come. At that time, there may be a person carrying the will of the evil spirit." The fall suddenly said.

"The will of the evil spirit is a slap in the face?" Ye Xuan frowned.

"Well, although I don't know what the evil spirits are, he can easily turn out countless remnants. However, now I don't have to worry about it, because even if it is just a ruin, it can't be carried by anyone, unless it is high. Otherwise, you have to find a specific physique." Fall continues.

In this regard, Ye Xuan can understand.

If one's will is divided and the military of a Vientiane is carried, I am afraid that it will instantly erase the soul of the Vientiane, and even explode.

Simply put, the realm of the carrier cannot be too low.

"Don't care about this, now the desperate desert gods want to build altars of evil spirits. If they are built, this evil spirit will develop greatly in this area, which is very unfavorable to the surrounding forces."

Ye Xuan does not care so much for the time being.

He is not a saint. The lives of those people have nothing to do with him. However, he needs the crystal of faith in this evil spirit, so he has to go and see.

The most important thing is that the direction of the altar of this evil **** seems to be in line with the direction of Xuan Ming's eyes.

Moreover, the distance is almost the same!

"Xuan Ming's eyes, finally found you!"

Ye Xuan's mouth couldn't help but hang a smile, and he didn't think that there was such a coincidence in the world.

He is thinking, this mysterious and sinister, is it difficult to help the evil spirits to establish the altar of evil spirits?

No matter what, now Ye Xuan has found a clue.

This altar of evil spirits is very important for the evil gods, so the evil spirits should be there. Therefore, his next goal is the altar of the evil god.

"At my speed, it takes at least two days to get through, so that the cooling time of the blade storm and the madness can be good."

Ye Xuan calculated it in the heart.

Chapter 1296: Random task

Only the blade storm and the mad smashing of these two cards cooled down, and Ye Xuan dared to go to the altar of evil spirits. After all, an apostle of evil spirits is like a nine-fold, so the leader of this desperate desert evil spirit must be the fourth heaven. The ground of the broken.

If the mood is to open nine Yuanfu, condense the life of the infuriating, and the broken environment, is to crush these nine yuan one by one, and then use this life to strengthen the body.

One of the most important things is to break a Yuanfu. The two sides of the broken environment are two broken, and the nine broken houses are all broken.

The gap in this realm is also quite large!

"I am not as good as six, and I am afraid that I will be killed in an instant when I face the master of the broken world. So before going to the altar of evil spirits, we must break through to the seven-fold, even eight-fold..."

Ye Xuan's heart is dark.

Fortunately, it takes at least two days to set up a point for the altar of evil spirits. It is not a problem to break through to seven places in two days.

After seeing the group of horrified deaf people, Ye Xuan rushed to the distance.

Under normal circumstances, Ye Xuan does not want to shoot the old and weak women.

It's hard to find the clues of Xuan Ming's eyes. Ye Xuan naturally wants to get close quickly. Otherwise, they will endless troubles. With a single order, they can make Ye Xuan difficult.

The altar of the evil **** is to be built in a dangerous place in the desperate desert. This dangerous place is called the desperate wall valley, where there are a lot of dangerous Tongtian beasts.

However, since the evil spirits are to establish the altar of evil spirits there, it is natural to kill or drive away those who are ridiculous.

On the way to the desperate valley, Ye Xuan deliberately went to find those tribes.

Some of these monks and tribes have only become high-level believers, and some of the entire tribes are cultists.

For these cultists, Ye Xuan is not merciless, because he heard about some evil gods from the fall.

The evil spirits, once spread, are terrible, because they are arresting people and then planting the crystal of faith.

This means is somewhat similar to Ye Xuan's eye.

He used to use the eye of control to let the controlled person seduce others. However, Ye Xuan has only one person, and the effect is much worse than the evil spirits.

Moreover, once a person of evil spirits hears that someone is saying that the evil spirit is not, it is to destroy the whole family and the whole family.

Soon, after Ye Xuan rushed to the altar of evil spirits, he finally broke through to the seven-fold conception.

At the same time, the fall, the old tree is also a breakthrough, the former broke through to the seven-fold conception, the latter is the same as Megatron, such as the artistic conception.

This strength can be almost rampant in the mood, but against the broken ground, Ye Xuan has not yet.

After another day, Ye Xuan finally came to the altar of this evil **** to establish a point near the desperate wall.

He didn't dare to get close again, because in front, all are people!

"So many apostles of evil spirits..."

Ye Xuan couldn't help but scream.

Using the eye of insight, Ye Xuan saw a large number of evil apostles, and at least the realm of the realm is eight, and there are quite a few of them.

This number has exceeded 300, and at least 50 of them are worthy of nine.

At the same time, Ye Xuan also saw several people who could not even see through him.

Broken ground!

"Sure enough, there is a broken territory!"

Ye Xuan swallowed it and hid it in a dark corner.

He looked at it and calculated that there are about four masters in the broken world. In addition, there is a black man who looks more powerful. It seems that this black person should be the leader.

However, at this time, Ye Xuan is most concerned about this, not this evil god.

"That Xuan Ming double eyes, just under the altar of evil spirits..."

Ye Xuan saw that **** killing word.

Before that, he thought that this mysterious pair was assisting the evil spirits. Now it seems that Xuan Ming's eyes should be caught and sacrificed to the evil spirits.

Xuan Ming Shuangyu was suppressed by the altar, let alone Ye Xuan can not be transmitted with the eyes of the assassination, even if it can go down, it will not come out.

"Now I don't have a random mission to kill this mysterious shackles, just fulfilling my commitment to Mo's blood."

Ye Xuan suddenly thought of this.

The plan in his heart is to destroy this evil **** first, and then kill the Xuan Ming double sisters and complete a knot.

At this time, suddenly there is a system prompting to sound.

"Hey, the host triggers a random mission to destroy the altar of the evil spirits before the construction of the altar of the evil spirits. The altar of the altar is built to count down, one day and three hours!"

This random task made Ye Xuan shocked.

In one day, destroy the altar of evil spirits?

This is too difficult!

Ye Xuan bit his teeth, thinking in his heart: "With our current strength, if you kill it, even these evil **** apostles can't cope, unless those masters of the broken world are not..."

Even the apostles of these evil gods can't cope with it, let alone the masters of the broken land, destroying the altar of evil spirits, which is the task of the Arabian Nights.

However, since this random task will appear, it means that the super swallowing system determines that he has the possibility of completion.

"wrong!"

At this time, Ye Xuan suddenly remembered a little.

The countdown to the construction of this altar of altar is one day and three hours. If he goes to harassment, the construction speed will slow down, and then the construction time may increase.

"It turns out!"

Thinking of this, Ye Xuan's mouth is slightly tilted.

He has done a lot of random tasks and has failed several times, but every time he has a random task, he has to do it with the idea of completion.

This sacred altar mission, he made it!

"The sky is going to be dark, it will be good for me!"

Ye Xuan has a blood-killing blood, killing the blood in the assassination state is very easy to use, so that Ye Xuan has a powerful hidden means, in the darkness of night and night will also enhance the speed of movement and combat power, it is a magic.

At this time, he suddenly remembered a question.

This time random task, why not explain the reward?

"It is difficult, this time the random task completion reward is not fixed, it will change with the change of my completion time. If I destroy the altar of evil spirits with one blow, I will get the best reward..."

Ye Xuan thought about it and immediately understood it.

Now, he dared not hesitate any more, and immediately sneaked into it.

At the same time, he also quickly drafted a plan in his heart.

This environment is very suitable for assassination. If there is a bait, it is better.

As for the bait, it is naturally the magic weapon of Megatron and Tree.

"Haha, this altar of evil spirits is so big, if you are all swallowed by the young master, you may be able to break through to the nine-fold situation." The tree laughed in his mind.

"The tree is old, I will trouble you later to act as a bait."

Ye Xuanxiao smiled.

Chapter 1297: start to act!

"No problem, anyway, I used to die two days ago. If you take this altar of evil spirits, you may get a lot of faith crystals, you can break through to the broken ground!"

The old tree said.

Indeed, this battle is of the utmost importance, so Ye Xuan must be fully prepared, otherwise the broken powers will be dispatched, then it will be troublesome.

The time after the random task is decreasing a little, and this time will change with some changes in reality.

For example, on the way to the altar of the evil gods, suddenly the apostles of the evil spirits who have been fascinated by the nine kings have broken through to the broken ground, then this speed will suddenly decrease a lot. After this evil apostle breaks through, then the construction of the altar of evil spirits will be accelerated.

As for the completion time of the mission reward, Ye Xuan has already recorded the super swallowing system, and it has already passed a few seconds.

"In order to facilitate things, I will first locate them in the four directions of this altar of evil spirits, and weaken their strength a little."

Ye Xuan thought in his heart that he began to walk around the altar of evil spirits, leaving a void position around him.

Now the eye of the void can be positioned six by foot. The altar of the evil spirits has to refresh four positions, and one is located one hour away from the altar of evil spirits. It is Ye Xuan's position for insurance.

A few minutes later, Ye Xuan was positioned successfully, then the next step is to start acting.

"The tree is old, trouble you!"

Ye Xuan said to the old tree.

"No problem, Megatron goes with me!"

The tree nodded old, then left with Megatron, and Ye Xuan, broke into the darkness.

"Booming!"

Soon, not far from there was a roar, which was played by Shu Lao and Megatron.

The movement here has successfully attracted the attention of the apostles of the evil gods who are building the altar of evil spirits.

"It is estimated that some fish are missing from the net, a few of you, look at the past!" A sacred apostle of the sacred sacred **** said to the apostles of the evil spirits around him.

The fish in his mouth, referring to the fish in the desperate wall valley, before they built the altar of evil spirits, they killed or drove all the beasts in the wall of this evil god.

"Yes!"

At the moment, there are three evil apostles who have left the altar of evil spirits and then swept them past.

Shu Lao and Megatron are still making movements to attract the attention of the three people, but what the three of them don't know is that there is a crisis that has quietly approached them.

After a distance from the altar of the evil spirits, Ye Xuan, who was hidden in the darkness, suddenly shot.

"Oh!" "Oh!" "Oh!"

After three bursts of crisp sounds, the three apostles of the evil spirits, who were imaginary, were directly cut off by Ye Xuan.

Three kills!

After the settlement, Shu Lao and Megatron also temporarily stopped.

Ye Xuan quickly passed the body and the squad, and then glanced at the task panel.

"The three men are dead, but the construction time of the altar of the evil spirits has not been delayed?"

Ye Xuan was shocked and thought about it. It seems that these three people did not contribute to the construction time of the altar of evil spirits.

Or, the man who built the altar of evil spirits is too full.

"Tree is old, Megatron, you continue!"

Ye Xuan said in his mind.

Altar of evil spirits.

"How haven't solved it yet, a few of you, and have a look."

The apostle of the evil spirit who commanded the nine heavens commanded several apostles in the past. He estimated that it should be caused by the nine-day Tongtian beast.

Soon, there were four ecstasy of the evil spirits who had been ecstatic.

However, it was not solved by Ye Xuan in a while.

At this time, it was already a minute in the past. Ye Xuan assassinated seven apostles of the evil spirits, but did not delay the construction time of the altar of evil spirits.

The apostle of the evil spirit who was as fascinating as the nine people did not return, and he was also very surprised and decided to move himself.

"The one who came to the top of the world is coming, the old tree, the Megatron, you are far away..."

Ye Xuan hurriedly reminded.

If the mood is eight, he can be assassinated soon and will not be discovered. It is not so easy to assassinate the nine-fold situation. Once exposed, it is not good.

So, even if you waste a little time, keep your distance.

After the trees and Megatron were instructed, they ran and ran. The apostle of the evil spirits who focused on the nine minds focused their attention on the sound. As for the other directions, they relaxed their vigilance.

Ye Xuan calculated the distance, and then quietly dive.

"The Eye of Brilliance!"

"The killings broke out!"

"Shuanglong growls!"

Suddenly, the wind blew.

"what?"

This amazement of the apostle of the evil spirits, like a nine-pointed apostle, turned his head and looked shocked.

This power, he can not stop.

Fortunately, he also has a life-saving skill.

At the sight of insight, Ye Xuan saw the belief in the target's mind tremble, and then a strange energy wrapped the target into it.

"boom!"

Ssangyong's roaring engulfed the apostle of the evil spirits, but it did not hurt him.

However, can you block it for the next time?

When Ssangyong's roar stopped, Ye Xuan just gathered the second life.

At the same time, Shu Lao and Megatron were also recovered by Ye Xuan, and then appeared next to the apostle of the evil spirits.

"Hey!"

They did not wait for the apostles of the evil spirits to react. They turned into two shackles and trapped the evil apostles.

"The killings broke out!"

"Shuanglong growls!"

The blow killed three people.

Megatron and Shushang died again under this attack. They were killed by Ye Xuan twice. However, at the moment of their fall, they were born again in the pet space.

This time the movement was relatively large, so Ye Xuan quickly rushed to collect things and broke into the darkness.

"If the mood is nine, it's like the nine-fold situation. There are still a lot of ore materials in the ring. In a few more times, Megatron can break through to the top of the world!"

Ye Xuan's eyes squinted and thought as he moved.

If Megatron breaks through to the top of the world, then there is more to win the game.

At the same time, after the death of the apostle of the evil spirits, Ye Xuan quickly glanced at the task panel and found that the time above was finally extended.

There are hundreds of apostles of the evil spirits, and there are fifty apostles of the evil spirits. If you die now, the speed of building the altar of evil spirits will naturally be slower.

"If I kill all the evil gods, then this construction time will be extended indefinitely. I don't know, if I kill a broken power, how much time will be extended."

Ye Xuan continued to think.

At present, there are two times in this random task. One is the construction time of the altar of evil spirits. This will change, and it may speed up and may prolong.

As for the second time, it is a time that Ye Xuan has drawn up after picking up the random task. This time is related to the preciousness of his reward. This time will only pass one second and one second, and will not suddenly increase.

Chapter 1298: Procrastination time

Fang Cai Ye Xuan made a big move, the side of the altar of evil spirits should have been noticed, so this time Ye Xuan is going to change the angle.

This altar of the evil spirits is very large, and there are various lines on it, because then the evil gods need to kill a large number of sacrifices, hang their blood up, and then slap the law.

These blood will flow to the blood pool in the center of the altar of evil spirits, and in the blood pool is a statue of evil spirits.

Of course, this statue of the **** of evil spirits is still being built.

All in all, Ye Xuan must kill these evil apostles and lengthen the construction time.

Ye Xuan moved to another corner along the altar of evil spirits, and then used the method of genius to create some movements, to lure those evil gods to come over and to assassinate them one by one.

As early as before, Ye Xuan divided the altar of the evil **** into four large areas, three corners in each large area, a total of twelve corners, and the clock is a bit like.

He was at six o'clock, and this time, he crossed the five o'clock directly and came to the corner at four o'clock, just in case.

"Booming!"

Megatron and the tree are being singled out, and the movement here is the attention of the apostles of the evil gods on the altar of the evil spirits.

With his current strength, as long as he does not encounter the broken territory, then there is no threat to him. As long as he is allowed to break through once again, he will be sure to deal with the broken situation.

Soon, at the four o'clock, the periphery of the altar of the evil spirits was cleaned up by Ye Xuan. There was a total of nine evils, and six evil apostles.

These people, for the total number of people in the entire altar, are simply a slap in the face, so they will not attract the attention of others for the time being.

After cleaning at four o'clock, Ye Xuan crossed the three o'clock and came to the two o'clock direction. Then, the same method was used to solve the evil apostle built here.

"I solved a total of three batches, and finally it was an hour of delay!"

Ye Xuan thought about it.

It took him fifteen minutes to kill three apostles of the evil spirits and twenty sacred apostles, and succeeded in delaying the construction of the altar of the gods to one day and four hours.

Although it seems that time is sufficient, don't forget that the reward is calculated at the moment of picking up the random task. The reward will become worse and worse over time. In order to get a better reward, Ye Xuan moment Don't want to be slow.

"Twelve o'clock direction!"

Ye Xuan continues to act, this is his fourth target.

Within a few minutes, the periphery of the altar at 12 o'clock was cleaned up.

These evil **** apostles have a large amount of ore, which is a big tonic for Megatron. In addition, the belief crystal can be thrown to the ground.

Ye Xuan estimates that if you come back two or three times, Megatron can break through to the top of the world, and he can increase his efforts to the top of the world.

As long as he breaks through, the vitality in the blood will increase. At that time, the old tree will quickly reach the top of the world.

It is not impossible to destroy the altar of evil spirits in one day!

After cleaning at 12 o'clock, Ye Xuan quickly came to the 10 o'clock direction and continued to clean up.

However, in another corner of the altar of evil spirits, some people found something wrong.

"Strange, where are the people here going?"

A deaf old man in black said frowning.

The importance of the altar of evil spirits, even he did not dare to neglect, but some people dare to be lazy, really looking for death.

At the moment, he plucked out and wanted to get those lazy people back for a meal, but when he found the outside, the spirit swept away and found a trace of blood.

"This is, I am the blood of the Terran, someone was killed!"

The old man's twilight flashed and quickly yelled at the sky: "Everyone noticed that there may be a strong beast around the world, suspected of being broken!"

It should be said that the Heavenly Beasts in the Valley of Despair have been killed or driven by them.

However, there have been casualties, and his first reaction is to pass the beast. After all, they did not spend much effort to explore the entire desperate wall.

His voice spread throughout the altar of evil spirits and fell into the ears of all people. At the same time, Ye Xuan, who was hidden in the darkness, heard it.

"Is it found to be missing?"

Ye Xuan brows a pick.

At this point, he just cleaned up the people at 10 o'clock, and gave him five minutes, Megatron could break through to the mood.

However, in order to be on the safe side, he decided to hide for a while, because the altar of evil spirits in front seemed to be open.

"There is still a broken beast in the desperate valley, I really didn't think of it."

"It seems that we broke into their territory and started to fight back against us!"

"Don't worry, we have four guards on the patrol, and there is an elder who sits in the middle of the center. These beasts don't dare to come in."

"Oh, if they come in, they will be sacrificed to the evil spirits!"

The apostles of the evil gods talked while working and were more cautious than before.

At this time, outside the altar of evil spirits.

"There is a master of the broken ground to start the inspection, let's stay away."

Ye Xuan thought in his heart and quickly retreated to the distance.

The master of the broken land, after a week of inspecting the altar of the evil spirits, was once again put into work. He thought that it was only a violent drink that scared the heavenly beast. After all, the Tongtian beast was also wise.

After about five minutes, Ye Xuan is continuing to approach.

"After clearing the two corners, Megatron can break through to the top of the world, and I have to clean up more than half of the circle before I can break through to the top of the world..."

Ye Xuan glimmered and acted again.

"Booming!"

Megatron and the tree began to dry again, and the sound reached the altar of the evil spirits.

"Well? Is the Heavenly Beast coming again?"

"I really don't give up, let's go together."

"What about a powerful person, even if it is a broken beast?"

A group of evil apostles directly went in the direction of the sound. Among them, the apostle of the evil spirits, which is like the nine-folded conception, is called reluctance. The realm is infinitely close to the broken territory, and the strength is in the high position of the nine places in this place.

This group of people is ready to join forces to kill the Tongtian beast, and then go back to invite the merits, but never thought that the chaos is not the Tongtian beast, but the human being.

"The seven are as beautiful as eight, and one is as beautiful as the nine. It seems that it is impossible to kill one hit."

Ye Xuan's insight into the eyes immediately saw the strength of the other side.

Before, the other party was three or four to send benefits, and now a small team is all dispatched, it is also the first time.

"But, now that it has been exposed, then expose it, anyway, I have a hollow eye!"

Ye Xuan did not agree, and did it directly.

Chapter 1299: Exposure

"The Eye of Brilliance!"

"The killings broke out!"

"Shuanglong growls!"

The seven apostles of the evil spirits gathered together, and Ye Xuan's attack was directed at them.

The seven responded quickly, but the Ssangyong roared faster and swallowed them eight in an instant.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

A series of seven system prompts to sound, which proves that these seven people have been killed by Ye Xuan.

"what?"

The one was shocked and raised his hand and attacked Ye Xuan.

"call out!"

The sword mans went away, but it was easily blocked by Ye Xuan.

"Kid, where are you looking?"

At this moment, suddenly an old voice fell into this stubborn ear, causing him to tremble.

Although he is very close to the broken ground, but after all, it is still in the scope of the past. When he turned around, there was already a thick branch that pierced his heart.

However, before he died, he was infuriating and gave a sharp scream.

"hiss!"

This squeaking sound spread throughout the altar of evil spirits, causing all people to tremble. This is the language of the Yi people, which means someone.

"Exposure, go!"

Ye Xuan said nothing, directly accept the stubborn corpse and Qiang Kun, and then break away from the void.

He is now at six o'clock in the altar of the evil spirits. This time he broke open the void, he was sent to the direction of twelve o'clock, just opposite.

As the apostles of this evil **** moved their attention, he sneaked from behind and killed the other side when the other party reacted.

"Megatron is about to break through, come again!"

Ye Xuan's confidence suddenly burst into the air. After coming out of the eye of the void, he directly rushed to the altar of evil spirits with Megatron and the tree.

Before, he was cleaned from a corner, but after the disappearance of the outside, the inner circumference was filled up.

At twelve o'clock, this time is two like the nine-fold and eight-fold.

"Killing you, Megatron can break through!"

This time, Ye Xuan also drummed up and directly killed the altar of evil spirits.

The material of the altar of the evil spirit is very special, a bit like bronze, and it will emit a faint light. Such a large area shines together without a shadow. This means that the passive effect of Ye Xuan's assassination state will be invalid.

But what about that?

"The killings broke out!"

"Shuanglong growls!"

Two Ye Xuan wore gold armor, and they gathered together two big dragons and one mouth, and the two dragons gathered together to form a strong attack.

"Calling!"

The Ssangyong roared and roared away. This time, the goal was not the apostle of the evil spirits, but the nine-fold conception.

"Be careful!"

Another apostle, a sacred apostle who was arrogant in his mind, shouted.

However, Ye Xuan's sneak attack was too sudden, and no one thought that there would be a sneak attacker on the altar of evil spirits.

"boom!"

The apostle of the evil spirits, who was so beautiful, was directly bombarded with fly ash, and there was no left.

This is not over yet.

At the time when the first Ssangyong roar stopped, Ye Xuan had already condensed the second instinct.

"The killings broke out!"

"Shuanglong growls!"

The goal of this double dragon roar is another evil apostle, but the other party is ready.

"Hey!"

The faith crystal in the mind of the evil apostle trembled, and then the energy that came out of him protected him and escaped.

It is a pity that Ye Xuan's two magic weapons have quickly swept to him.

"Hey!"

Megatron and the old tough branches of the tree formed a set of armor and locked it directly.

"Shuanglong grows!"

This time, the apostle of the evil gods was incapable of resisting it, and was smashed with Megatron and the old tree.

"Hey, the host's killing value is improved!"

In a system prompt, Ye Xuan blasted out and took the bodies of the two men and the shackles.

Then he quickly left the altar of evil spirits, broke into the darkness, and broke open the void to another corner.

"Who is so crazy?"

At the time of Ye Xuan's departure, a monk's old man rushed over and shouted out of the altar after a loud roar, but unfortunately did not see anyone.

Two apostles of the evil spirits, who were like the nine-folder, were killed near him, which was beyond his expectations.

"Two human beings, even dare to disturb the good things of my evil spirits, really look for death!"

This embarrassing old man bites his teeth and vows to find Ye Xuan.

.....

At this time, on the other side of the altar of evil spirits.

"Hey, Megatron breakthrough, the current situation is nine!"

Ye Xuan, hidden in the dark, heard another system prompt.

Megatron, finally broke through to the top of the world.

This is only half an hour, Ye Xuan is a huge gain, if he kills everyone on the altar of this evil god, then at least can break through to the nine.

"I have too many experience points. I am afraid I will kill ten apostles who are like the nine evils. But now I have already exposed it. It should not be so easy."

Ye Xuan feels helpless, but the exposure is certain. After all, no one can do it seamlessly, even if he doesn't.

Now, the atmosphere of the entire altar of the evil spirits is very tense, because the apostles of the evil spirits, such as the nine-fold evil spirits, have already died by one-fifth. The most important thing is that this is only half an hour.

If this continues, the altar of evil spirits cannot continue to be built.

"You four, I will go out and look for it, it is necessary to bring out the troublemakers!"

The elder **** of the evil spirits in the middle of the altar of the evil spirits shouted coldly.

"Yes, elders!"

The four ruins of the broken level nodded in four directions and began to search for Ye Xuan's whereabouts.

However, Ye Xuan, who has the status of assassination, is very clever. Even if the spirit of the broken-minded person sweeps into him, he may not be able to find it.

What's more, Ye Xuan is still able to move, observe each other with insightful eyes, and then keep the distance.

Soon, the four cults of the cult of the sacred gods were sweeping around, but they did not find any clues.

"Is it already slipped?"

The monk and the old man thought in confusion.

They continued to search again, still no discovery, so they can only give up.

"carry on!"

The altar of evil spirits began to build again.

At this time, Ye Xuan, who is hidden in the dark, uses the eye of insight to look at the situation.

"It's not good. The four guardians of this evil spirit are actually setting up the array!"

Ye Xuan's heart trembled and his face changed.

If the layout of the law is completed and he wants to go in, he must attack the law first.

Trouble!

Ye Xuan frowned and quickly re-planned his mind.

This method cannot be arranged, otherwise his random task may be difficult to complete.

Chapter 1300: The battle is broken!

"It can only be like this, go in for harassment!"

Ye Xuan thought in his mind and said in his mind: "Tree is old, Megatron, now I have to go directly into the harassment, you specifically select the evil spirits apostle."

"Little Master, do you want to use big moves?"

The old tree asked.

The big move in his mouth is the Shenmu prisoner and the arrogant sweeping. He estimates that if he cooperates with the blade storm, he can at least solve the ten apostles of the evil spirits, so that Ye Xuan can break through to the top of the world.

"Get them together first, then use them together!"

Ye Xuan replied.

Blade storms and arrogance sweeps, but the strong group attack skills, naturally it is necessary to gather strange and reuse.

"Good!" The tree is old.

Then, Ye Xuan gave instructions to the landing: "Let's fall, you will be responsible for destroying the altar of evil spirits later."

"Okay, but this altar of evil spirits does not seem to be so easily destroyed." Falli said.

"It's just a matter of destruction, and how long it will delay." Ye Xuan nodded.

Even if there is a large number of belief crystals, it still takes a little time to break through to the eight-fold conception. In her current realm, it is somewhat reluctant to destroy this altar.

Ye Xuan prepared for a moment, and immediately went directly to the altar of evil spirits.

The four broken ruins in the altar of this evil **** are arranging the formation method, and the black robes in the center are also casting statues of evil spirits.

As long as Ye Xuan attacks the altar of evil spirits, they will have to stop their work to deal with him.

However, Ye Xuan is still not sure to deal with the masters of the broken environment, so it is necessary to break through to the eight-fold situation before they react.

"kill!"

When I saw it almost, Ye Xuan suddenly stepped into the altar of evil spirits. At the moment he stepped into the altar of evil spirits, he quickly positioned the void on the altar of evil spirits, so that even if the array was completed, he could pass the eye of the void. Come in.

"The killings broke out!"

"Shuanglong growls!"

When he said nothing, he launched the strongest attack against a nearby apostle.

At the same time, Shu Lao and Megatron are also killed one by one. Their task is to gather people in this area and then launch two big moves.

"Booming!"

The Ssangyong roared and screamed away, and instantly killed a sinister apostle with a singularity. In addition, there were two unlucky ghosts behind the other side.

One hit, three kills!

But this is not enough.

"Shuanglong growls!"

Ye Xuan continued to attack, but because the people around him reacted, he gave priority to attacking the apostles of the evil spirits, and the four were fallen.

"The two humans came out and killed!"

All the apostles of the evil spirits gathered nearby, and then gathered firepower.

Not only that, but even the evil spirits who arranged the array in four directions also noticed this.

"Good boy, dare to kill the apostles of my evil spirits, find death!"

The monk and the old man directly smashed out.

It is not necessary to use four people to arrange the array method, and three can also.

"The evil spirits of the broken land are coming, hurry!"

Ye Xuan urged in the heart.

"coming!"

The old tree immediately responded.

As early as he was, he had already thrown a piece of Shenmu Yin to Megatron.

"Falun skills, Shenmu prison!"

Two gods of wood were suddenly raised, and countless rattans were stretched out. In the blink of an eye, nearly one hundred apostles were worshipped.

"what?"

This group of evil gods was shocked.

At this time, Megatron suddenly turned into a handle and blood swords.

Bladestorm!

In the Shenmu prison, there was a violent storm, but before that, Ye Xuan had already opened another skill.

"Killing feast!"

"Come on, let me make a big fight!"

Ye Xuan's whole breath skyrocketed, taking advantage of this opportunity, he directly condensed two Ssangyong swords.

"The killings broke out!"

"Ice and Fire Double Dragon!"

"Hey!"

Shenmu prison is also a sealed space, so this trick, the effect is the strongest ever.

The group of evil apostles who were as arrogant as they were, suddenly fainted.

Taking advantage of this opportunity, the tree is also launching another magic weapon skill.

"Hurricane sweeping!"

At that time, there were tens of thousands of sharp branches sticking out of the Shenmu prison.

"Oh!" "Oh!" "Oh!"

A series of crisp sounds spread, even if some people rely on the protection of the belief crystal to escape, but after that, there is the sharpness of the blade storm.

As the apostles of the evil gods died, the increase in the feast of the killings was also rapidly rising. In the blink of an eye, it was an increase of 70%.

At this time, there are already six apostles of the evil spirits who are as good as the nine.

"The killings broke out!"

"Shuanglong growls!"

Ye Xuan continued to attack and then used the power of Vientiane to pull the bodies.

His cultivation is constantly improving!

"Calling!"

In the Shenmu prison, there was a gust of wind and rain, but in a second, the apostles of the evil gods died almost the same.

At this point, the monk old man was already swept over, and then punched out, directly hitting a big hole in the Shenmu prison.

When he saw the scene inside, he also subconsciously glimpsed.

It took only a second to kill so many people, even if he couldn't do it.

Just when he broke the prison of the gods, the central Ye Xuan, the corner of his mouth slightly tilted.

"Hey, the host breaks through, and the current situation is eight!"

After a system prompt, let Ye Xuan's breath skyrocket several times.

At this moment, the increase in the killing feast is exactly doubled!

You know, after using the killing feast, the effect of the increase will increase with the improvement of Ye Xuan.

If Ye Xuan is only seven times, the increase is doubled. The next moment, Ye Xuan breaks through to the top of the world, and the growth rate is still doubled.

Although the growth rate of these two times is doubled, it actually differs many times, because Ye Xuan broke through.

Not only that, but even the power of the blade storm and the arrogant sweeping is also doubled.

"Well, what's coming!"

Ye Xuan's light flashes and fits directly.

In the face of such a powerful enemy, you must not care about it, and you can't be separated because it is easy to be broken one by one.

The two leaves are combined into one, and the breath has once again skyrocketed.

"Kid, dare to disturb the good things of my evil spirits, to die!"

The old man's right foot slammed, and the whole person turned into a streamer, and even the foot of the evil **** altar was stepped out of the crack.

He is a strong and powerful person in the broken state. He has already broken a Yuanfu. After the Yuanfu is broken, the life will increase his physical condition.

Therefore, if Ye Xuan, who is full of artistic conception, must not fight the old man on land, even if Ye Xuan has a 90% moving speed bonus, it will not be faster than the other side.
