

Super D. S 130

Chapter 130: Breakthrough, true spirit!

Thinking of this, Ye Xuan is plucking to the **** bear, taking out the token of the body and then swallowing it.

"Hey, the host swallowed a body of a beast and got five hundred points to devour the points."

"Hey, the host swallowed a spirited inner dan, and gained 2,500 points to swallow points."

"The trough is lying in the trough, a corpse of three thousand swallowed points, made a hair, and made a fortune."

Ye Xuan is already shocked by the bridge.

The bodies of these two beasts have already given him 3,600 points to swallow points, which is worth 3.6 billion.

In the meantime, the spiritual power in his body has soared a lot. It is already the culmination of the tenth peak of the martial art. Only a little bit can break through the true spiritual situation.

However, at this moment, the system sounds again.

"Hey, the host swallowed up the body of the beast and activated the beast."

"Hundred beasts?"

Ye Xuan heart condensed, immediately checked the phagocytic system, and sure enough, there was one more in the medicinal column.

"Hundreds of beasts, after taking them, can increase the blood tank of 100 hundred beasts."

boom!

Ye Xuan is already crazy.

Now his beast has reached more than 700 points, only two hundred points, you can raise the blood of the beast to the intermediate level.

But when he saw the price of this beast, he almost didn't faint.

This beast Dan, worth five hundred points to swallow points.

This is too extravagant!

Five hundred points to swallow points, you can buy a spirit, and at least sell 300 million. 300 million two silver, is it still not more than two hundred kinds of monster blood that has not been swallowed?

Therefore, Ye Xuan feels that he will wait until he waits.

Happy to be happy, but Ye Xuan did not forget to clean up the spoils. After a while, he just scraped the body on the ground.

Both Natao and Tian Chao had a spirit, and Ye Xuan swallowed the two spirits together with the good things on them.

"Hey, the host has broken through to the beginning of the true spirit!"

Finally, broke through!

"Ha ha ha..."

After hearing the system prompts in his mind, Ye Xuan couldn't help but laugh out. Now he is already out of the martial arts and accomplishing the true spirit.

"Wow, this is the real spirit. The intensity is not a little bit stronger than the spiritual power. Now my combat power is at least ten times that of the previous one."

At the moment of the breakthrough, the spiritual power in Ye Xuan's body is all transformed into the true spirit. Then, he is the real spirit and attached to the body surface.

Real spirit defense!

Now, even if he is standing here to be beaten by someone who can break his defense, I am afraid there is not much. If you use the lotus treasure, even if it is the big violent black bear, I am afraid it will not break so easily.

"Hey, unlock the intermediate bloodstream!"

"Hey, unlock the array!"

"Hey, unlock the alchemy function!"

"Hey, unlock the refiner function!"

A series of system prompts, let Ye Xuan stunned the whole person. He quickly checked it and found that there was a more martial arts method, which was subdivided into battle array, royal battle, and spiritual array.

The alchemy and refining functions are better understood. For example, alchemy is to buy a Danfang with the swallowing points and collect the materials yourself.

Once the materials are complete, you can start refining, which is cheaper than direct purchases, and there are some remedies that are not available in the phagocytic system.

The same is true of the refiner.

"Shuang, cool!"

Ye Xuan couldn't help but scream a few times. At this time, it is difficult for him to vent this excitement.

Since it has already broken through to the real spiritual environment, it can be integrated with the intermediate blood. Immediately, Ye Xuan spent a thousand points to swallow the points, and raised the blood of the chasing leopard to the intermediate level.

At this point, he still has more than 4,000 points to swallow points.

"No matter what, first upgrade the strength and say, three beasts, give me out."

Ye Xuan thought of a move, there were three medicinal herbs with strange lines in his hand, and then he ate a big mouth and directly ate the three medicinal herbs.

"Hey, the beast has a 100-point increase in blood."

"Hey, the beast has a 100-point increase in blood."

"Hey, the beast has a 100-point increase in blood."

The beast blood tank is finally over a thousand.

"Hey, the beast blood tank is full, the host can fuse the intermediate blood of the beast, is it fusion?"

"Yes!"

Last time, Ye Xuan merged with the blood of the beast, and the body shape changed a little. However, this time, it is not.

"The mid-level beast blood is successfully integrated!"

When Ye Xuan's mind rang such a tone, he suddenly fell and then slammed on the floor.

"Booming!"

With Ye Xuan's fist hitting the floor, the whole mountain seemed to tremble, and the ground cracked instantly, cracking a circle with a radius of at least ten meters.

"Well, good strength, now I don't need a spirit, I am afraid I will be able to kill this big violent black bear."

Ye Xuan was overjoyed, and the change after the breakthrough was too big, so he could not be slowed down.

"Ha ha ha, let me see the speed!"

"call out!"

He disappeared instantly and disappeared.

.....

However, at this time, in the palace of the Xuanyang Empire, it has already completely boiled up.

"This, what is this kid's head, even two arrows shot the violent black bear in the middle of the real spiritual environment, the violent black bear known as the defensive power?"

"It's too horrible, it's too horrible. Even if it's a warrior in the middle of the real spirit, I'm afraid it's not so easy to kill the violent black bear, unless it's using martial arts."

"It must be that the two arrows must be spiritual martial arts. This kid is very powerful. He even has spiritual martial arts. Where does he come from?"

"This person does not hesitate to kill the hands of Tian Jia's children. The identity must be very unusual. Who is he?"

Inside and outside the palace, it is already boiling.

Not only that, Na Tianzhen is already speechless. On the one hand, he is shocked by Ye Xuan's strength. The second aspect is because his relative son actually died in front of him.

Tian Chao is his son!

"Do not!"

Tian Zhen said loudly.

At this time, he really wanted to kill Ye Xuan, but at this time Ye Xuan was in the open mirror, he could not enter.

As for another inspector in the vicinity, Ouyang Ming, is applauding there.

"Okay, Ye Xuan is good!"

Although he shocked Ye Xuan's strength, the latter can be regarded as a bad smell for him.

"Ouyang Ming, you are looking for death!"

Tian Zhen immediately violently shouted.

Ouyang Ming did not care at all, just sitting there quietly, cold and cold: "Tian Zhen, your skills are not as good as people, it is difficult, you still want to do it in the palace?"

"you....."

Tian Zhen is already mad, and his son died in front of his eyes. How can his mood be calmed down?
