

Super D. S 1331

Chapter 1331: Falling, nine tails!

"Someone!"

The team of the treasure hunt and the team of Wanbao City all stared at it.

This white-haired youth is the realm of the three-folded situation. It is Ye Xuan.

"My sister is breaking through inside and giving you a chance to get out!"

Ye Xuan's light flashes.

He is now a three-folder, even if he is faced with two broken fives.

Yes, in his eyes, there are two enemies who are divided into five, because other people have been controlled by him.

His sentence is to say to the two people, although he is not afraid of the other side, but he is afraid that the battle will be noisy.

"The kid, the district is threefold, and dare to speak out?" The brawny stared at him.

The old man in black answered the words: "You came out of the formation, is this law laid for you?"

"I said, my sister broke through inside!" Ye Xuan was not prepared to answer this question, and his face sank directly.

"Breakthrough, how could it provoke such a huge amount of heaven and earth? This is clearly a sign that something is going to happen, and you should quickly retreat, otherwise..."

The old man in black is flashing, and his eyes are suddenly full of murder.

"What else?"

Ye Xuan asked subconsciously.

"Otherwise, just blame me..."

The old man in black has not finished, suddenly, several of the broken warriors behind him are facing him.

"Hey!"

"Hey!"

"Hey!"

"Hey!"

The four muffled sounds spread and fell into the ears of everyone.

The team where the strong man was, everyone turned around and saw that the body of the old man in black suddenly fell from the air, and the back of the wound was deep visible in the bone, and the heart was pierced.

A strong five-powered, fallen!

"what happened?"

The brawny was shocked.

The old man in black is under the quest for treasure, and the ones behind him are also the disciples of Baozong. However, why did these disciples suddenly shoot and kill the old man in black?

"Huh!"

At this time, the wind again sounded again.

The group of disciples behind the brawny also launched a sneak attack on them.

"boom!"

The strong man flew forward for a while, but fortunately, after the death of the old man in black, he subconsciously rushed out of the infuriating defense, and thus saved his life.

However, after he was sneaked, Ye Xuan suddenly plucked out, he has given the other two opportunities, but the other party is not cherished.

"The killings broke out!"

"Yanlong is unparalleled!"

A golden dragon, engulfed the strong man in an instant, but before the attack, the strong man was already condensed with the spirit of the whole body to display the defense power, so it was still not bombarded.

"This blow, want your life!" Ye Xuan's face sank, once again pulled out a sword.

"Calling!"

The golden dragon, once again swallowed the five strong man of the broken territory, this time, he can not afford to block.

"Hey, the host's killing value is improved!"

A system prompts to sound.

The five strong men in the broken territory were killed by Ye Xuan.

Then, Ye Xuan also glanced at the giant wood guardian enchantment. He was afraid that the sound of the battle would disturb the fall, so he let the two people leave, but did not expect the other party to find his own death.

As a result, he also got a lot of spoils.

At the moment, he is putting together the ring of all people.

"It's still a little bit..."

Ye Xuan has some helplessness.

The two broken five-fold, eight broken four-fold and more than 30 broken three-fold, the wealth of these people combined, can not let him break through the fourfold, it is a tragedy.

"But it."

Ye Xuan shook his head and then gave orders to everyone: "You, spread the patrol, if anyone dares to approach, attack directly!"

"Yes!"

These more than forty people said in unison.

Such a force is enough to withstand the two top five players, and with the giant wood guardian enchantment, there is generally no problem with the fall.

At this point, the change of the fall is already in the end, but Ye Xuan always feels a little strange, but has not been able to say it.

"It shouldn't happen."

Ye Xuan heart comforted himself.

Falling into the breakthrough, if you are interrupted and receive the planting space, you don't know what will happen, so you must succeed once.

Fortunately, his concerns are superfluous.

"Hey, the host's beast is bloody!"

A system prompts to sound.

"Advanced?"

Hearing this, Ye Xuan's eyes lit up, which means that the fall has been changed.

"Young Master..."

At this time, the voice is down.

Ye Xuan hurried back to the giant wood guardian enchantment. I saw that the landing had already grown three tails. In addition, there was a tail that turned into gold.

"Golden tail?"

Ye Xuan is a bit strange. Before she fell, she only had a few golden hairs. But now, one of the nine tails turned into gold.

"The blood in my body seems to be Golden Fox, so I guess it will all turn into gold in the future. However, I have to retreat for a while and consolidate it." Fall explained.

Ye Xuan nodded slightly, this is nothing, and there are benefits, after all, this shows that there is room for improvement.

He felt it a bit and found that this time he only broke from the three sides of the broken environment and broke through to the four sides.

However, those belief crystals that have fallen into the ring of Qiankun should be enough to easily break through to the broken six.

"Since it has broken through, then set off, the tree will be removed from the giant wood guardian enchantment!" Ye Xuan said.

"it is good!"

The tree nodded old, and then it was to remove the giant wood guardian enchantment.

As for those who are tamed, Ye Xuan will not let go, who will let these people get on his head?

These people are all collected by the 'receipt'.

The fall has already cultivated the charm of the eyes, the effect of the charm and the eyes of the charm have been improved, and these people are not a problem.

"You eight, go with me to Wanbao City!" Ye Xuan said to the eight broken four-armed warriors.

"Yes, master!"

Eight people nod.

Of these eight, four are Wanbao City, and the remaining four are treasure-seeking.

Before the Hu family's third family said that Hu Lai's father Hu Tai went to Wanbao City, so Ye Xuan's goal this time is Wanbao City.

With these people, he will find it faster.

"Get off!"

Then, Ye Xuan continued to hurry.

However, these people are very slow and return to Wanbao City at their speed, at least two days.

Therefore, Ye Xuan finally left them and used the shadows to hurry, so it took less than a day.

However, shortly after he left, there was a huge tremor in the earth, and the direction of the source was behind him.

"Booming!"

The whole earth is shaking, the earth is fissioning, forming a canyon, and it is overflowing with a large amount of hot magma.

Chapter 1332: Treasures unearthed?

"what happened?"

Ye Xuan was surprised and put the old three of the trees out.

"It used to be a battlefield. There are always treasures unearthed. Is this also true?" said the old man.

Thousands of years ago, there was a niche level of power here, but it was destroyed, so these treasures are probably worth a lot.

"Go back and see!"

Ye Xuan made up his mind.

If the unearthed is a fifth-order device, then it will make a big profit. If he swallows it, he may directly break through several times.

At the moment, he is using the shadow step to rush in the direction of the value.

In the beginning, there was only some hot magma, but the more you rushed toward the source, there was some geocentric fire.

Yan Xuan, Ye Xuan has seen it many times.

But this place is more powerful than the ordinary genie, the whole body is golden, and it is more handsome than the ordinary enchant.

"Calling!"

Ye Xuan met a murderer, who directly rushed toward him.

"This speed is at least fivefold!"

Ye Xuan was shocked and hurriedly attacked.

"The killings broke out!"

"Yanlong is unparalleled!"

A golden dragon screamed out and collided with the heart.

However, what makes Ye Xuan strange is that this earth-hearted demon has absorbed this golden dragon.

After absorbing the golden dragon, the body shape of the heart-fired demon, suddenly grew a point, reaching two meters.

"I wipe it?"

Ye Xuan brows a pick, suddenly remembered that the dragon is also a fire attribute, this is in the disguise to enhance each other's strength.

In this case, use ice.

"Ice and Fire Dragon Swords!"

"Ice Dragon Howler!"

Since the flames that Vientiane's power is transformed into will be absorbed, only the restrained ice properties can be used.

The blue ice dragon spurted out and swallowed the heart of the fire. Suddenly, the body shape of the heart was reduced again.

effective!

"How about the five-fold situation, kill you!"

Ye Xuan, who holds the blue ice sword, splits again and attacks again, and his deity uses the broken magic thorn learned from the eclipse.

After a few rounds, this geocentric demon was destroyed and left a core of the earth.

This property creature is a weakness throughout the body. As long as the attack falls on it, it can cause damage. Once it is hurt, their strength will fall, so it is better to deal with it.

After the death of this earthworm, he quickly passed, and then the core of the earth was collected and swallowed.

Regrettably, the gain of the core of the heart is very small for him, but for Megatron, there are quite a few.

"Hey, Megatron's breakthrough, the current is a four-fold!"

The system prompts.

"The heart of the fire came out of the ground, it should be unearthed baby, but the next road, you may encounter more than the heart of the fire, even the six-fold, seven-hearted earth fire..."

Ye Xuan thought about it.

Now he is also breaking through to the fourfolds, and the old trees are the same, so they should still be able to protect themselves.

Therefore, Ye Xuan is choosing to move on and see what happens to the baby.

At the same time, the movement here has also attracted the attention of the surrounding forces.

This time, the movement is probably the biggest one this year, so the families around them have sent strong people to come.

Ye Xuan, already counted on this point, so he must break through to the four sides as soon as possible, so that after seeing the treasure, it is possible to win.

Because the earth has been cracked, the magma is everywhere, and there are not many places to stay. Therefore, Ye Xuan can no longer use the shadow step to hurry, only to fly.

Soon, he saw the second geocentric demon.

"The killings broke out!"

"Ice Dragon Howler!"

"Broken magic thorn!"

This inflammation is very tricky for others, but for Ye Xuan, you can still cope.

After several rounds of attack, the heart of the fire is dead, leaving a core of the earth.

"Unfortunately, the benefits of the nuclear nucleus of this heart are very small to me. If you devour this thing alone, maybe Megatron will break through to the fivefold, and I am still in the same situation."

Ye Xuan shook his head helplessly.

However, at this time, suddenly there was a figure that entered his range of perception.

Fivefold in the crushing environment!

The person who came, is a young man with a golden crown. He is about 30 years old. Looking at his costume, he should be a treasure seeker.

Before the Ye Xuan encountered the team of treasure hunts, they were only threefold and broken.

In the treasure hunt, only to reach the five-fold situation, can you participate in the internal door assessment, in simple terms, the former are all outside disciples.

And this young man wearing a golden crown, his costume is somewhat different from those of the previous ones, I am afraid it is an inner disciple of the treasure.

"Kid, what happened here?"

This golden crown youth looks like a sly look, said Ye Xuan in a questioning tone.

"do not know!"

Ye Xuan replied coldly.

"I don't know if it rolls, this is not where you can come!" Jinguan youth angered.

In his view, Ye Xuan is only a three-folder, and dare to come here, really looking for death.

"what did you say?"

Ye Xuan eyes a glimpse.

"Why, a waste still wants to shoot for me?" The Golden Crown youth is also somewhat surprised.

"I don't know where you are from the superiority. If so, then I will let you see how bad this waste is!"

For this kind of person, Ye Xuan is already strange. If such a person does not get rid of him, he is too lazy to pay attention to it. However, this golden crown youth has let him go, this can not be tolerated!

"The Eye of the Mind!"

Ye Xuan's flashing light directly crossed the distance between the two and launched an attack on it.

"boom!"

The golden crown youth trembled and felt a tingling tingle in his head. The soul twitched a bit. Suddenly, he realized that Ye Xuan had attacked him with a soul.

"Good guy, you are looking for death yourself, then you will blame me!" The Golden Crown youth was furious and rushed toward Ye Xuan.

If you deal with the heart of the fire, the dragons and the double dragon roar can not be used, but with the humans, these two tricks can be used.

However, Ye Xuan does not want to kill the Golden Crown youth.

Jinguan youth can not have this interest, directly out of a sword, straight to the first level of Ye Xuan.

The five-folded environment and the three-folded environment are different. This is a difference between the two realms. To deal with Ye Xuan, he does not need to use magic power.

However, this sword was easily defeated by Ye Xuan.

"Yanlong is unparalleled!"

After this sword collapsed, Ye Xuan was fighting back, but he did not use the killing.

"Good power!"

The Golden Crown youth flashed a flash of light. He did not expect that Ye Xuan, who was in a trivial situation, could launch such an attack.

Chapter 1333: Geocentric

"Moving the magic boxing!"

The Golden Crown youth vacated a hand and defeated the Golden Dragon.

This move is only the subordinate broken magical power.

He is guilty of disdain to use Ye Xuan to deal with Ye Xuan, because this is a shame.

"Kid, do you think that with this trick alone, can you fight with me?" The Golden Crown youth couldn't help but scorn.

"First kill me and say, don't talk nonsense, you waste!"

Ye Xuan replied back.

"Well, since you are looking for death yourself, then I will send you on the road!" The Golden Crown youth yelled, and the left fist madly slammed.

"Booming!"

A muffled sound spread, and the two figures fought in the air.

With the passage of time, the face of this golden crown youth is getting heavier and heavier. With his five-fold realm, it is impossible to say Ye Xuan. How is this possible?

"This kid, what is it?" Jinguan youth guessed.

However, he did not want to waste time here, because the treasure has been unearthed, he must rush to the first time.

"Kid, I am giving you a chance to leave now, as long as you..."

The Golden Crown youth said, but Ye Xuan did not wait for him to finish, is to attack again.

"I don't play with you anymore, bear my anger!" Ye Xuan suddenly split into two.

"Ice and Fire Dragon Swords!"

"The killings broke out!"

"Shuanglong growls!"

This blow is five times stronger than the previous Yanlong Wushuang, and the Golden Crown youth has widened his eyes. When he reacted, the roar has already hit him.

"Calling!"

The Golden Crown youth was swallowed up in an instant, and the flesh was directly burned and burned out.

He wouldn't have thought that he hadn't even seen the face of the treasure, but he was killed by a broken kid.

If there is a choice, he must choose not to be enemies with Ye Xuan, far away.

Unfortunately, it is already late!

The body of the Golden Crown youth was vanity, but he left three relics, one is the Qiang Kun ring, the other is the weapon, and the other one is actually the golden crown worn on his head.

"This golden crown is really a tool for heaven, it can resist the soul attack. No wonder this kid has blocked me from the eyes of the soul!"

Ye Xuan swallowed the golden crown directly, and improved it.

Something like this, there are also exchanges in the super swallowing system.

Then he began to tap the relics of the Golden Crown youth.

"Hey, the host breaks through, and the current situation is fourfold!"

The long-lost system prompt tone finally sounded.

"The broken environment is four heavy, then the old tree is estimated to be able to break through immediately!" Ye Xuan thought.

This is one reason why he closed the tree as a third pet.

As long as his realm is improved, the effect of the blood of the life tree will be enhanced, and his blood will also enhance the effect of the tree.

In short, the tree can almost keep up with his footsteps, and sometimes it will exceed.

With the super-phagocytic system, the realm is too fast. If it is a pet that is generally a pet, it is too difficult to improve, so now only three pets have been collected, and there are three pet bars left.

"The insults have been reported, hurry!"

Ye Xuan looked to the distance and his body flashed.

At this time, more than an hour has passed since the fission of the earth. Those with low realm may still be on the road, but those with high realm may have arrived.

After the breakthrough, Ye Xuan's solution to the geocentric fire is also more relaxed. Soon, he saw several broken swordsmen.

At the foot, it is the place where the giant wood guards the enchantment under the old cloth, and it is also the retreat point of the fall.

At this point, it has become a piece of magma hell, the bottom is full of magma, endless.

In the air, a lot of people have come. In addition to the six-strong warriors in the broken territory, there are still many broken four or five heavy, and even Ye Xuan has also sensed a super-powerful person who is suspected of being seven.

"It's coming really fast!"

Ye Xuan's heart is a dark sentence.

But what he didn't expect was that he actually came to the retreat where he was only able to fall.

"It's hard to find out why the reason for the madness of the treasure is not to fall, but here is the treasure hunt?"

Ye Xuan suddenly thought of this problem.

Before the breakthrough, it ignited the strength of the world, so he did not pay much attention.

Now it seems that perhaps because of the breakthrough in the breakthrough, and then buried in the bottom of the treasure to build a wonderful connection, prompted this treasure to be unearthed.

Just don't know, what is this treasure!

"The last time there was a mountain giant who had been sleeping for a thousand years. There was a broken fifth-order heavenly device on his body. This time there was a magma, which seemed to be deeper than the ancient battlefield..."

"Yeah, I also have a hunch, this time I am afraid it is not a small thing, maybe it is not a treasure unearthed, but a powerful Tongtian beast is born!"

"The surrounding earth fire has been cleaned up. I don't know if there will be new ones, or look at it in the distance."

A few treasure seekers of the treasure hunter whispered there.

Although the earth has been fissured, a large amount of hot magma has emerged, but it seems that the treasure has not yet come out, because the heavens and the earth have not spread.

There was a master of the seven-folder in the field. He was not a person who was looking for Baozong and Wanbao City, but a family of people who were established in the wild.

With his realm, spiritual knowledge can't penetrate this magma, so he is waiting.

In his realm, as long as the treasure appears, he can **** it for the first time. No one can stop him.

The surrounding people are also unable to penetrate the magma, but Ye Xuan's insightful eye can.

"Under the bottom, there is still a lot of geocentric inflammation?"

Ye Xuan was shocked. He saw the huge cave that was constantly pouring out of the magma and found a lot of geocentric inflammation.

Look at the number, there are hundreds!

The most important thing is that in these geocentric fires, it seems that there are still six broken and seven-folded.

"Put back and let others be cannon fodder!"

Ye Xuan swallowed swallowing.

If the group of geocentric fires suddenly rushed out, the dozens of people present at the scene would probably be besieged in an instant and then fall.

However, this group of geocentric demon, seems to be waiting for anything, just moving in the magma, not rushing up.

"In this magma ocean, my shadow steps can't be used, I can only use the shadow of the dragon, or be careful!"

To be on the safe side, Ye Xuan temporarily retreated to the rear, letting others be used as cannon fodder. If it is dangerous, he can react and then flee.

The people around them are waiting carefully and in addition, there are people coming one after another. In less than half an hour, hundreds of people are gathered.

"Hey, the Demon Warrior breaks through, and the current is a broken four!"

Chapter 1334: Different fire

"Hey, the Demon Warrior breaks through, and the current is a broken four!"

A system prompt sounded suddenly.

"The old tree is ruined by the heart and the heart, and the combat power is probably not as good as Megatron, or let him continue to practice!"

Ye Xuan thought in his heart.

At this time, he was thinking, if the people who took the place in the venue were taken away, he could at least break through the five-fold situation, and Megatron could even go to the sixfold.

However, at this moment, the most needed is the cannon fodder, so he endured, after all, there are still a few broken six and a broken seven.

Time, a little bit past.

Just when the people gathered around 150, the mouth of the magma spring suddenly spewed a magma of fire.

"Be careful, don't be sprayed with magma!"

A warrior shouted.

Even if he does not remind, the people around him understand.

The magma underneath can easily break the flesh and blood of the five strong people in the broken environment, and the temperature of this magma fire column is even stronger, and even the six-fold crushing environment does not dare to care.

"Backward!"

"Ah, go!"

"Away, stay away from it!"

Everyone is panicked.

They originally wanted to get closer, so that they could **** the treasures. Now, after hitting the magma pillar, they all retreated.

A few of the broken four warriors could not dodge, and the hot magma came to the head and was suddenly melted through.

Ye Xuan was also ordered a few times, but the wound can be restored in the blink of an eye, as long as he is full of strength to block the danger of the eyes.

Under this circumstance, no one can control why he can recover in an instant, and he is all running away.

"Booming!"

When the people withdrew from the danger zone, the earth suddenly trembled fiercely. Then, a heart-throat was taken out from the hole.

"It's the heart of the fire!"

"A lot, at least five hundred, go!"

"Can't stay any longer, go!"

Those who are four-fold and five-fold in the broken state will turn around and leave.

Just kidding, the worst of these geocentric fires are comparable to the five-fold situation. Now there are hundreds of them coming out, even if they are all six, they have life-threatening concerns, let alone them?

At this time, the seven-armed warrior, but the eyes are bright, the heart secretly said: "The core of these evil spirits is a very good forging material, if all kill is also a fortune."

When I think of this, he is shouting at another person: "The six sides are broken, come over, let us join hands!"

This sentence shows that he is ready to stay.

Immediately there are a few broken six to go to him, they also know the preciousness of the core of the heart.

As for Ye Xuan, of course, he did not leave, but he did not approach, but stared at the magma hole with insight.

"There seems to be something big, come up!"

Ye Xuan swallowed it.

This is the second fission of the earth, and the hole is expanding more and more, but at this time, several geocentric fires rushed toward him.

"Don't dare to come to me for trouble, find death!"

Ye Xuan held the earthquake sword and launched an attack against these murderers.

With his four worlds of broken territory, although it is still impossible to kill a five-pointed heart and soul, but at most three hits are enough.

"Boom!" "Boom!" "Boom!"

In the air, several battles broke out.

After Ye Xuan killed several geocentric fires, he also swept his eyes and found several teams in the distance.

"The team of treasure hunt is here..."

Ye Xuan recognized the other's costumes. He estimated that this team of treasure seekers should be stationed nearby. As long as there are treasures unearthed, they can arrive quickly.

The leader of this treasure hunt is also a warrior with a seven-folded situation. After seeing so many heart-warming demons, he also angered: "Flock!"

This time he also brought four broken six-strong warriors, in addition to more than a dozen broken five. The former is okay, but the latter is best to fight in battle, which can reduce casualties.

Since the treasure hunt is over, then Wanbao City is not far off.

However, there are already two strong players who have broken up. If there is another one, or a super-powerful person with a broken position, then Ye Xuan can only stand by.

"Forget it, kill the heart and kill the fire first!"

Ye Xuan does not want to be so much, he feels that killing dozens of geocentric fires, Megatron may be able to break through to the broken five.

However, it is at this time.

"Hey!"

Suddenly a loud bang was heard. Everyone turned around and saw that the hole suddenly expanded. The hot magma that had risen from the sky suddenly stopped, and then a huge figure climbed out of the ground.

"this is....."

Ye Xuan swept the eye with insight and found that it was a huge geocentric demon.

No, it's not the heart of the fire, but the evil monarch!

Sure enough, this time it was not a treasure unearthed, but a monster was born.

"It's an evil monarch!"

Someone recognized it.

The two strong players who are seven-story are estimated that this sinister monarch, at least the seven-folder, is likely to be a broken eight-level.

This is trouble!

Since there are no treasures, then they do not need to risk killing this wicked monarch, and the rest will be handed over to the two major forces of Wanbao City and Treasure Hunt.

However, it is at this time.

"Look, the heart of the evil monarch!"

Suddenly someone screamed.

Everyone followed this sentence and saw the flame of a fist-sized fire at the heart of the Yanmo Monarch.

The Lord of the Flames is golden, but this flame is orange. This flame is not the core of the heart of the evil monarch.

"this is....."

The eyes of the two seven-handed warriors were bright, and a thought flashed in their minds.

"A different fire is a different fire!"

There is a six-armed warrior who has broken the ground.

Different fires are the natural flames produced by the heavens and the earth. These flames are used in many ways. They can be used to quench the body, forge the heavenly device, and even to fight.

A different fire, worthless, even the Wanbao Alliance has never appeared.

Because, the fire is a thing of the Nirvana level, there are a lot of Nirvana strong people with doubts to quench their physique, and even fusion of different fires, become stronger.

"Is it different?"

After hearing this new vocabulary, Ye Xuan also looked at it with sorrow. With the eye of insight, he could see that the big flame of this fist is not a thing.

At the moment, he asked in his mind, and after getting the answer, the whole person trembled.

"The nirvana is strong, often using different fires to quench the physique, or even the fusion of different fires to break through?"

Ye Xuan's eyes widened and he looked incredulously. I didn't expect that this area had such a valuable thing.

Chapter 1335: Eternal heart fire

I don't know, this eternal heart is left behind by the war thousands of years ago, or it was originally hidden in the ground.

But in general, this fire is very expensive.

"If I get it, I will swallow it again, and my realm may go up several levels!"

Ye Xuan licked some dry lips, and his eyes suddenly had a greedy gaze.

This fire, he must get!

"This fire seems to be the eternal heart of the 93rd on the list of different fires!"

At this time, someone drank a word.

Eternal heart fire is generally born in the earth, after the precipitation of time, the flame of the eternal heart fire may be born in the heart of the fire.

That is to say, so many geocentric demon and this high-tens of meters of the demon monarch are born with eternal heart.

When the people around them heard the name of 'Eternal Heart Fire', they also showed a greedy look.

The strongest in the nirvana can use different fires to quench the physique. The strong ones in the broken environment can't do it. They will be burnt out by different fires. However, some fires will have special effects.

For example, this eternal heart fire, as long as it is practiced next to it, you can prolong life, even if it is a fire, it may also cure the darkness in the body.

It is said that if a strong person with a nirvana integrates the eternal heart, at least 50 years of life can be raised.

If you take it out and sell it, you can even buy the entire Wanbao City.

"God, the treasure that was unearthed this time, I am afraid it is the most precious one since the establishment of the Wanbao Alliance!"

"Don't say that the more precious things are, the hotter they are, this is not something we can get involved!"

"Yes, even if it is the strongman of Nirvana, it will also let go of identity robbing, and the husband is guilty of his sin. If people know that there are such treasures, they will surely die without a place of burial."

Although this is the case, they have an impulse in their hearts.

Who doesn't want to get these treasures?

Who doesn't want to fly?

Not to mention them, even Ye Xuan is also tempted.

"This thing must be obtained!"

Ye Xuan's eyes widened and he made some kind of plan in his heart.

However, in order to get this eternal heart fire, you must first kill the surrounding demons and the one of the sorcerers.

At this time, just in the distance, a group of people were plucked. It was the team of Wanbao City, which was late, and the headed person was also the seven realm of the broken state.

"Eternal heart fire?"

The middle-aged man headed by the Wanbao City team exclaimed.

Wanbao City is a trading center with a variety of things. He often recognizes the treasures and recognizes them at a glance.

"Two, first kill this flaming monarch, and then count the spoils!"

A Tsing Yi old man said that he was the first to arrive in the broken seven heavy weapons.

"Who are you?"

Asked by the Elders of the Treasure Hunter.

"Northwest side, Tuoba family extension wilderness!" Tsing Yi old man replied.

"North Stream, belonging to the main city of Wanbao City!" The middle-aged man is also self-reported.

"The Treasure Hunter, Feng Qi!" The elders who led the treasure hunt are also self-introduction.

The two forces in the Wanbao Union site are looking for Baozong and Wanbao City, in addition to some independent families.

It is just that this Tuoba family is not affiliated with the treasure hunt, nor is it affiliated with Wanbao City.

In this case, we can only cooperate.

As the sinister monarch has not fully climbed up, the three quickly negotiated countermeasures.

This flaming monarch, the strength is not the same, and it can at least cause damage to it.

At this moment, there are more than ten places in the sixfold, and three of them are seven.

As for other people, they simply can't help.

"This flaming monarch is about to come out completely, and immediately notify others!"

Feng Qi, who is looking for treasure, shouted.

This flaming monarch is not the same as a small one, even if the three of them join hands, there is only one or two percent of the grasp, after all, there are so many geocentric fires around.

The key point is that they don't have anything to collect the fire. If they accept the Qiang Kun ring, I am afraid that they have not yet entered. The Qiankun ring and the hand are first burned to ash.

However, it is still the first to deal with this flaming monarch.

"Hey..."

In a roar, this sinister monarch finally succeeded in climbing to the ground.

When the talents of the three parties were discussing, they were also cleaning up the hearts and minds. At this moment, there were only two hundred people left in the heart.

"No matter, first, others clean up the heart and soul!"

After the treasure hunter veteran Feng Qi finished speaking, it was the beginning of the attack.

Although it is said that this sinister monarch looks very horrible, there are still some people who are not dying to deal with the heart and soul, trying to collect some core of the core.

Ye Xuan, too.

"The strength of this flaming monarch is above three people. Even if the three people join hands, they may not be able to fight with one. I will first clean up the heart and fire and say..."

Ye Xuan first focused on the devil of the earth. After all, the Yanmo monarch is not so easy to destroy, even if it is eliminated, some people get it.

At that time, he will be profitable again!

It is indeed difficult to let him deal with a strong player who is in a broken position now, but after this battle, it may not be possible, because maybe someone is fallen.

"The killings broke out!"

"Cyclone!"

Ye Xuan was also there to quickly clean up the heart of the fire, at the same time, he is also the only one who dared to single out a few hearts and souls.

This circumstance is the intermediate crushing magic that he copied from the people around him.

This whirlwind is like a smashing smasher, and it will send out countless wind blades after it hits the Earth's sorcerer.

If it is more than the number of kills, Ye Xuan's killing number is probably second only to the Tsing Yi old man's extension, so he will inevitably be noticed by others.

"What is the origin of this kid? It is easy to kill the five hearts of the detriment of the earth, and even fight against the broken earthworms..."

The three major crushers have noticed Ye Xuan.

But they don't have time to think about it, because the Earth Fire has already been killed.

"Calling!"

The Yanmo Monarch directly went to the Tsing Yi old man to expand the wild face, and if it was bombarded, it would be seriously injured if it was not killed.

Fortunately, Tuoba's strength is not bad, and it's not hit by this.

On the other side, the treasures of the Treasure Hunter, Feng Qi, and the Beiliu of the Wanbao City Government attacked the Yan Monarch.

Their attack can injure the wicked monarch, but the eternal demon has an eternal heart, and his injury is instantly repaired.

"No, it really is!"

The top three of the wilderness saw the shape and his face changed greatly.

They are only speculating that the eternal heart will not be as bad as the inflammation of the monarch. Now that I have seen this scene with my own eyes, I know that this time is not so simple.

Chapter 1336: breakthrough!

If the death of the Lord of the Inflammation is unrecoverable, they still have a chance, but if the injury of the Inflammatory Monarch is constantly recovering, then they will not even have a chance to win.

"Stay, wait!"

Tuobayue shouted.

This is a flaming monarch, but there is a different fire, the preciousness can be imagined.

All they have to do now is to drag the flaming monarch and not let the lament sigh back to the ground.

However, who knows when support will come, and if it is an hour or two, isn't it miserable?

"I can't compete, we withdraw!"

Feng Qi shouted and quickly took people back, and the north stream of the capital city of Wanbao City was also the same.

Now, it has become a top-notch singer.

"You two dog days!"

Tuo Tian couldn't help but screamed out.

They only said that they want to join forces. Now that they have seen the strength of the Yanmo Monarch, they turned their heads and left.

As a result, he became a nail in the eyes of the evil monarch.

"go!"

The transformation of the wild face changed, but also immediately turned around and left.

A few of the surrounding six-heavy warriors saw the situation and they also evacuated.

"Calling!"

The Yanmo Monarch once again issued an attack. This time, his target of attack was not to expand the wild, but the six warriors who were broken.

"Hey!"

The Yanmo Monarch slammed out a fist, and suddenly a huge fireball smashed into the six-folded warrior in the broken territory. The latter could not dodge and was bombarded by two.

The extremely high temperature directly burned it out, leaving only a hard ring and weapons.

Spike!

A six-strong warrior in a broken state was instantly killed by the spike, which greatly reduced the morale of the people around him.

They all want to kill the demon monarch, but they don't have this strength!

"If this punch is played on these three people, it is estimated that he can kill him. The strength of this evil monarch has reached the top of the broken!"

In the distance, Ye Xuan swallowed the swallow, and then took out the earthquake sword and plucked the wicked monarch.

Of course, he did not let Megatron go to death, but to win the smashing ring of the six-armed warrior. After all, Megatron is not dead. Even if it is killed by the flaming monarch, it can be reborn again.

When the earthquake sword broke through, he successfully rescued the dragon, but on his way back, there was suddenly a broken earthworm that was smashed and smashed.

The Qiankun Ring also fell from the sky.

However, this distance is just within the scope of Ye Xuan.

"The Eye of Vientiane!"

Ye Xuan's light flashed, and the force of Vientiane was used to drag the dragon ring and then transported it to himself.

"Hey, Megatron breaks through, and it's currently sixfold!"

A system prompts to sound.

At the same time, Ye Xuan was also stared at by the six-hearted geocentric demon.

"The killings broke out!"

"Cyclone!"

Ye Xuan took out the Zhentian sword again and took a look.

A plain and unscrupulous sniper broke through the air and fell into the body of the devil.

"Puff puff!"

This body of the heart of the demon is beginning to smash, which is the effect of the sword gas bursting in its body.

To deal with the five-pointed devil in the broken ground, Ye Xuan only needs two or three swords, but at least six or eight swords are needed to deal with the six-fold situation.

Fortunately, there are no other geocentric fires around, and Ye Xuan can single out this six-fold.

"The killings broke out!"

"Cyclone!"

Ye Xuan stepped back and attacked.

Although it is in the air, but he has the shadow of the dragon and the eyes of Vientiane, the speed in the air is not much slower than the six-folded, and these earthworms are very stupid, and soon they are killed by kites.

"Hey!"

This broken six-hearted geocentric fire, issued a burst of explosion, and then left a core of the core.

Ye Xuan quickly collected the core of the core and then glanced at it.

The wicked monarch is chasing the group of human beings. During his killing, there are two broken six-strong warriors.

Then, these two Qiang Kun ring, he will be returned to him!

However, the people around them are also eyeing these two Qiang Kun Rings.

When Ye Xuan used the power of Vientiane to hook up two Qiankun Rings, there was a bad low drink suddenly coming from afar: "Boy, get out!"

Ye Xuan turned his head and saw a bald man rushing toward him. It seems that he was going to grab the two Qiankun Rings.

"I see things, you are not qualified to grab!"

Ye Xuan does not say anything, just pull the sword and squat.

"The killings broke out!"

"Yanlong is unparalleled!"

A golden dragon swept out.

"Cyclone!"

The other party is also a sword.

It turned out that this person was the one who was stolen by Ye Xuan to learn to break the magical power. Now, he asked Ye Xuan for tuition.

The cyclone smashed into the golden dragon, and suddenly there was a violent explosion inside it, but unfortunately, it was impossible to shock the golden dragon.

Ye Xuan's attack is slightly better!

"How can this be?"

The bald man was shocked. He was six-folded, and Ye Xuan was so broken and attacked. He actually lost?

At the moment, he quickly rushed out a sword, this sword, to the golden dragon.

Thinking of this, Ye Xuan is a flash of body shape, continue to kill the devil of the heart, at the same time, is also paying attention to whether there are others fallen, so that he can go to collect the body.

The Tuobaye, which was stared by the Yanmojun, was able to avoid the attack of the Yanmo Monarch. In addition to being burned with some hair and clothing, there was no obvious injury.

However, it is at this time.

"Hey..."

The Yanmo Monarch suddenly stopped.

Chapter 1337: Split

"Ok?"

Tuoba brow wrinkles, this is a good opportunity to attack, but the Yanmo Monarch has an eternal heart, so he feels that it is the king to take the opportunity to open the distance with the Yanmo Monarch.

"What is this flaming monarch doing?"

In the distance, Ye Xuan swept the eye of the insight and found that there was some change in the body of the flaming monarch.

In the main body of the Yan Mojun, there was originally a core of the earth's heart, but at this time, the Yanmo Monarch suddenly condensed three cores of the earth's core.

"Hey!"

Suddenly, the body of the Yanmo Monarch exploded, and the three cores of the Earth's core were erupted and then fell into the magma.

Then, there were three geocentric fires, and their body shape could not keep up with the evil monarch, but it was half as high.

The heart of the seven continents!

After the Yanmo Monarch split the three geocentric fires, the body shape was indeed reduced a little, but under the effect of the eternal heart fire, his body shape began to recover a little.

"Trouble!"

Seeing the shape, Ye Xuan's brow could not help but pick.

The only one who threatened him was the one who was the sinister monarch. Now the sinister monarch suddenly splits out three three-hearted sacred devils, and it is even more troublesome to pack up.

The most important thing is that this sinister monarch can also rely on eternal fire to recover.

If you give him some time, let him return to the peak, maybe it will split again.

It seems that you must get something to suppress the recovery of the evil monarch.

In Ye Xuan's thoughts, the three broken earthworms have already rushed out and attacked the nearest target.

Originally, an enchanted monarch was scary enough. Now, there are three devastating geocentric sorcerers, and suddenly the others are scared to the bottom, and the head does not dare to return.

Ye Xuan looked at these earthworms and raised their brows. Suddenly, they found a restrained thing in the super swallowing system.

"Frozen Tiandan, you can let the user have the instinct of ice properties, and have a restraining effect on the fire attribute!"

Seeing this, Ye Xuan's eyes lit up.

The effect of this frozen Tiandan, although only one hour, and only one time a day, is enough.

However, this frozen Tiandan is also graded. Ye Xuan is now a four-folder, and immediately breaks through the five-fold situation. Therefore, he must wait for a breakthrough and then redeem it. If the effect continues during the period, there will be no effect.

Before that, he also directly spent the super-phagocytic crystallization, and exchanged a broken magical power of ice.

"Day Frost Boxing, the Chinese product is broken!"

Ye Xuan does not say anything, directly exchange, and then learn.

In addition, he also exchanged a fourth-grade top-of-the-line instrument with an ice attribute, which is a pair of gloves.

Now, everything is ready, only the realm.

Only if you breakthrough to the five places of the broken land, then his damage to the earth's heart and the demon can be greatly improved.

at this time.

"Kids, hand over those few Qiankun Rings!"

Suddenly a low drink fell into Ye Xuan's ear, and his head did not turn, he knew that there were two broken six-strong warriors who killed him.

"Heaven has a way, you don't go, there is no door to hell, you come in, it's just right!"

Ye Xuan's mouth tilted slightly and turned and attacked.

"The killings broke out!"

"Yanlong is unparalleled!"

"Day Frost Boxing!"

A golden dragon and an extreme ice fist, respectively, rushed toward the two six-armed warriors.

The two men, only in the distance, saw Ye Xuan got three Qiankun Rings, and then saw Ye Xuan killed a six-armed warrior, so they joined forces to grab.

I don't know, they are still playing on a piece of iron.

"Hey!"

"Hey!"

Both of them were unable to resist the attack and were flying by Ye Xuan.

At the same time, Ye Xuan is still behind the Yanlong Wushuang, making up a broken eye.

"Oh!"

Another head was thrown up.

"what?"

Another person was shocked. With just one cover, they were killed by one person. How is this possible?

However, in Ye Xuan's eyes, he is also a dead person.

Ye Xuan turned into a streamer, and the corpse was collected. After the breath of the breath, it was plundered to another person.

"The killings broke out!"

"Yanlong is unparalleled!"

"The Eye of the Burst!"

Ye Xuan's left fist does not need to be out at all, and the faint eyes are enough to kill people.

After the death of this second person, he also plundered again.

In his estimation, as long as he swallowed this Qiang Kun ring, he could break through to the broken five.

At this time, suddenly there was a broken heart of the heart of the devil, rushing toward him.

"Humph!"

Ye Xuan quickly gave this singularity to the pocket.

"Hey, the host breaks through, and it's currently five-fold!"

The system prompt sound finally sounded. After the breakthrough, Ye Xuan, both physical and infuriating, has a qualitative leap.

However, he did not immediately exchange the frozen Tiandan, but directly broke away from the void.

"Hey!"

The door of the Void is closed, and this ruined heart is emptied.

Ye Xuan actually has the strength to kill him, but he does not want to do it now because there are other people around.

What he is thinking about now is to let the evil monarchs and other geocentric fires drive away these human beings.

When he was no one, he was shooting and singled out!

Yes, it is singled out!

Pick one!

He only left a hollow eye in another place, so he did not go far, he rushed for a while and came to the place where he was.

At this time, there was no one there, and I didn't know whether the rest of the people were dead or fled.

With the eye of insight, Ye Xuan looked at the wicked monarch and the three demons of the four continents.

Then he circled around the four sorcerers and found no other people.

Then next, it is his time!

"Hey, frozen Tiandan exchange success!"

The system prompts.

This five-frozen frozen Tiandan has spent four-fifths of his super-phagocytic crystallization, but it is worthwhile to successfully kill these three geocentric demon and the evil monarch.

"The eye of glory, close!"

Ye Xuan closed the eyes of the brilliant, and then took this frozen Tiandan. In an instant, the infuriating in his body turned into blue.

Not only that, but the whole person has also undergone some changes, and even the hair has turned into a sky blue, very dazzling, and the body still emits a cold chill, as if it came out of the ice sheet.

"come on!"

Ye Xuan's eyes suddenly burst into a fine man.

However, he is still not stupid enough to rush to the past, still have to use some means.

"Megatron, go, hook - lead one over."

Ye Xuan gave orders to Megatron.

Chapter 1338: The power of frozen Tiandan

"Hey!"

Megatron trembled with dissatisfaction, and Ye Xuan used it as a bait every time, making it somewhat dissatisfied.

"Do not want the core of the heart!"

Ye Xuan's eyes glanced and asked with a smile.

"call out!"

Hearing the core of the Earth's heart, Megatron did not say anything but ran away, plundering the nearest geocentric demon.

"Calling!"

The smashing of the earth-splitting sorcerer was successfully attracted. Then, Megatron quickly retreated.

"boom!"

However, due to the gap in the realm, Megatron was instantly smashed by a fire fist.

Then, Megatron once again dispatched it, and hooked up the seven-hearted geocentric demon.

The effect of the frozen Tiandan was only one hour. In order to seduce this smashed earthworm, Ye Xuan spent two minutes.

Two minutes later, this broken earthworm was far away. Ye Xuan estimated that the battle should not cause the attention of the sinister monarch.

"The killings broke out!"

"Day Frost Boxing!"

After the close-up of the seven-hearted geocentric demon, Ye Xuan is directly shooting.

A blue fist shadow broke through the air and slammed into the earthworm of the seven-hearted earth.

Suddenly, the cold ice was invading its body.

"Hey!"

"Hey!"

I only heard a few crisp sounds. The body of the devastating heart of the earth was suddenly condensed into ice, but the flames around it burned and the ice began to melt again.

"Power is strong!"

Ye Xuan eyes a glimpse.

Frozen Tiandan Jiatian cream boxing and a Tongtian device that increased the attack power of ice attributes, even hit a punch like this, directly out of Ye Xuan's expectations.

He estimated that it would only require three punches to solve a broken heart.

"The killings broke out!"

"Day Frost Boxing!"

Ye Xuan attacked again.

"Calling!"

The shadow of the boxing whistling away, once again hit the body of the devastating earthworm, and the ice that had just condensed had not melted, and it had once again condensed a large piece.

The flame that beats the body of the Earth's heart is condensed, and the speed of movement has dropped a lot.

At this time, Ye Xuan once again called the infuriating and banged a punch.

This punch was slammed on the heart of the demon, and the blow directly frozen the whole.

Then, Ye Xuan slammed it and shattered it. The core of the earth also fell into the hands of Ye Xuan.

However, in two minutes, it solved a seven-hearted geocentric demon, and it took only a few seconds to solve it.

If it is not because of the huge consumption of Tianchenquan, it can't be continuously displayed in a short time, otherwise the fists will come out and almost instantly kill.

"I didn't expect the frozen Tiandan to be so good, so it seems that I don't need one to only lead!"

Ye Xuan's heart is a dark sentence.

However, this frozen Tiandan only increased the power of the sorcerer by 50%. If there is no such effect, the power will not be so big.

At the moment, Ye Xuan is drumming and then plunging toward the wicked monarch.

Of course, before the fight with this flaming monarch, the other two geocentric fires were solved.

"Hey, dumb to beat me ah!"

Ye Xuan shouted at a broken earthworm.

Although the heart of the fire may not understand, but Ye Xuan this tone, so that hatred soared.

"Calling!"

This heart fire immediately turned around and rushed toward Ye Xuan.

Ye Xuan naturally would not be afraid of him, but when the earth was inflamed, the wicked monarch suddenly turned.

"I rub!"

Ye Xuan Hu was shocked and shocked.

However, this sinister monarch only glanced at him and turned around again.

In the eyes of this wicked monarch, Ye Xuan, the five-handed boy, will definitely die under the hands of the Earth's heart, so it is too lazy.

"Nothing?"

Ye Xuan swept the eye of the insight and found that the flaming monarch was in the hole that it came out, constantly absorbing the energy rising from the center of the earth, seems to be recovering.

"It turns out that splitting and injury are not the same. After the split, the eternal heart can't recover."

Ye Xuan suddenly understood.

Before he saw the growth of the monarchs after the division, the fact that the Yanmo monarch was originally injured.

That being said, the strength of this flaming monarch is weaker than before, which is a good sign for Ye Xuan!

In this case, it is even easier to deal with.

Although this sinister monarch did not move, but another geocentric enchantment was rushed over.

Ye Xuan, one pair two!

"How about a pair of two, Tianshou fist!"

Ye Xuan said nothing, raising his hand is a punch.

At the same time, his physique continued to retreat, keeping a distance from these two broken earthworms.

"Hey!" "Hey!" "Hey!"

A burst of sound spread.

After the three punches in the front of the heart, the whole body was frozen, and then pierced by Megatron, turning into countless ice crystals.

"Huh!"

At this time, the second geocentric inflammation was swept forward, and Ye Xuan was a fire fist.

"The killings broke out!"

"Day Frost Boxing!"

Ye Xuan banged out, hit the fire fist, frozen the fireball, and then directly shattered by the power of Ye Xuan's Vientiane.

Soon, this third geocentric demon was also solved by Ye Xuan.

I have to say that this place has a zero intelligence IQ, and like those walking dead, only know the attack and will not evade.

However, that one of the evil monarchs is not necessarily.

When Ye Xuan swallowed the two cores of the Earth's core, he heard a system prompt: "Hey, Megatron breaks through, and is currently sixfold!"

However, Ye Xuan's face at this time is also gloomy. Because, the wicked monarch, has been eyeing him.

This sinister monarch can be different from those in the heart, it is thoughtful.

Now, after seeing that his avatar was killed by Ye Xuan, he couldn't help but scream the scream of 呜呜, and then stopped absorbing the energy that rose from the center of the earth and rushed toward Ye Xuan.

"There are still more than fifty minutes, I don't believe you can't kill you!"

Ye Xuan's glory is fascinating.

This flaming monarch has thoughts, so he will not attack like other sinister sorcerers, only attack within the scope of the attack, and will not use the attack to resist the opponent's attack.

"Huh!"

It also banged out, a fireball and a frosty hand hit, but this time the fight, but Ye Xuan fell to the bottom, after all, this flaming monarch is a broken eight-level.

The fireball blasted the frost and then went straight to Ye Xuan.

Ye Xuan casts a shadow on the dragon and escapes the blow. Even if he is caught by this fireball, it must be burned and burned, even if it has an eternal eye.

Chapter 1339: Come on

This flaming monarch is still split, and if it has not been split, the power will be stronger. Just one confrontation, Ye Xuan felt a huge pressure.

"Tianfuquan's infuriating consumption is too big to be able to condense quickly. It is a bit embarrassing to deal with this wicked monarch..."

Ye Xuan thought in his mind that he would recall Megatron and use it as a weapon.

"The killings broke out!"

"Cyclone!"

The speed of this move is three times that of Tianshuang Boxing. Simply put, the time of using one frost is enough to use three cyclones.

In the current situation, this cyclone is better than Tianshuang Boxing. Anyway, the effect of freezing Tiandan is to make the infuriating air attribute into ice. It is not mandatory to use Tianchen Boxing.

In the battle with the eight evil monarchs, you must be cautious. Although Ye Xuan's speed in heaven is comparable to that of a broken seven-strong warrior, if he is careless, he may fall into a land of annihilation.

Therefore, he felt that it was necessary to leave the magma ocean, as long as he landed on the land, his movement speed could double.

"wrong!"

At this time, Ye Xuan suddenly remembered a little.

The power of Vientiane, there are other ways to use it.

"Give me a success!"

Suddenly, Ye Xuan directly called the power of Vientiane to ignite the earth elements in the heavens and the earth, and began to condense a surrounding bridge in the air.

The bridge, surrounded by the Yanmo Monarch, Ye Xuan can move on the bridge.

It is a pity that this flaming monarch seems to have broken Ye Xuan's intention, and his body shape suddenly bursts, and the floating bridge that was so easily caused is instantly melted into fly ash.

In desperation, Ye Xuan had to use the shadow of the dragon to avoid the fireball of the evil monarch, and then use the cyclone to attack the monarch.

"Hey!" "Hey!" "Hey!"

The cyclone 没没没没没斩斩斩,,

"Tragedy, if you don't use Tianchenquan, the damage can't exceed the recovery speed." Ye Xuan was a little hesitant, after all, he only had one person.

At the moment, falling in the planting space is closed, the tree is old and flame restrained, although Megatron is in hand, but it does not have much effect.

An hour later, maybe it can't kill this wicked monarch.

"It seems that only the flaming monarch is led to the land, and then cleaned up with a frost!"

Ye Xuan made a plan in mind.

He only hopes that during this hour, no one will bother him, otherwise he will be in trouble.

"The Super Devouring System can redeem the different fire lanterns. The different fire lanterns can collect the fires ranked 80th in the fire list, and this eternal heart fire is the 93rd in the fire list. It is enough to collect. Even if others Come, kill this wicked monarch, it is estimated that it will not be able to endure eternal heart..."

Ye Xuan thought while attracting the attention of the demon monarch.

Although it is said that he is a big living person here, he still has to plan for it first. He can't wait for someone to come back and think again.

However, what he is worried about is coming.

The sky has already plucked two figures, and this speed is already beyond Ye Xuan.

“Broken in the eight?”

Ye Xuan’s body trembled and his heart roared.

I am really afraid of what is coming. He just wondered if there would be a broken and powerful man to grab the blame. Now it’s really coming.

Moreover, there are still two, two masters who are eightfold!

"It seems to be the city of Wanbao..."

Ye Xuan glanced.

There are two major forces in the Wanbao Alliance, one is Wanbao City, and the other is called Baozong.

These two forces, I heard that there is a master of the nine-fold situation. The ruthlessness is almost the top of the two forces.

Ye Xuan did not expect that they came so soon.

These are two white-haired old men who look similar and seem to be brothers.

They are the two ancestors of the North House of the Wanbao City City, Beixing and Beichang.

"Big brother, it seems that someone is fighting the Yanmo Monarch!" Beichang looked at the distance and was awkward.

"Is it difficult for people who are looking for treasures to arrive first?" Beixing frowned.

"No, this place is closer to my Wanbao City. After we received the report, we immediately rushed over..." Beichang could not believe it.

"Let's go and see, in any case, this eternal heart fires we have to get." Beixing said a low drink.

"Well, my father has been stuck in the broken territory for 20 years, and now the limit is near. If you can successfully integrate this eternal heart, break through to Nirvana, at least let him live for a hundred years, when I will be home. It will be even stronger!"

When the two brothers talked about it, they were close to the wicked monarch.

At the same time, they also saw people who are fighting the Yanmo Monarch.

After they felt the breath of this person, their faces were also changed and they could not believe it.

This person who is fighting with the eight-severing sorcerer and monarch is actually only five-folded. How is it possible?

In order not to expose the identity, it is also to use * to make others look like others.

He glanced at the two and said in a hoarse voice: "Two, what is it?"

What are you doing?

After hearing this sentence, Beixing and Beichang were somewhat surprised.

"Hello, you seem to be a little stubborn when you fight this wicked monarch..." Beichang said with a wink.

"How about that?" Ye Xuan asked.

"We are Beichang and Beiliu of Wanbao City. You join us. If you win this sinister monarch, you will not be able to benefit you afterwards." Beichang asked.

"Benefits, how many?" Ye Xuan eyes a glimpse.

Wen Yan, Beichang and Beixing looked at each other, they were guessing, I don't know if Ye Xuan knew about the eternal heart.

However, if you don't know, why should you fight with the Yanmo Monarch, do you just turn around and leave?

Is it difficult for it to be the core of the earthy heart that is broken?

"Hello, this sinister monarch appears in my territory of Wanbao City, and we are obliged to destroy it. If you can help us kill it, its core of the core will be yours." Beixing said.

"The core of the earth?"

Ye Xuan's eyes squinted and thought for a moment.

It seems that the two men think that he does not know the eternal heart, he is hesitating, whether to go back.

If you tell the other person that he already knows something that is eternal, then the other party may be prepared.

After thinking about it, he decided not to expose it first.

"The core of the earth is mine, but the core of the heart can only be obtained after killing the wicked monarch, and I am now risking my life to drag it. Should the two be said?"

When Ye Xuan's words fell into the ears of two people, they also let their eyes shine.

It seems that Ye Xuan is not aware of the eternal heart.

Chapter 1340: Will count

"Big brother, this kid has even surrendered the third-level leader of the evil monarch, the strength is not the same, maybe a child of a big power..." Beichang reminded.

The meaning of Beichang's words, Beixing naturally knows, the former is to give more points to Ye Xuan, the set is almost.

"Hello, there are 50,000 Chinese goods broken Dan, it is your reward!" Beixing suddenly took out a big bag from the Qiankun ring and sent it with the power of Vientiane.

"Fifty thousand Chinese products broken Dan?"

Ye Xuan brows a pick.

Five thousand Chinese products are broken, but the equivalent of five million broken goods, which is enough for one person to break through to seven.

However, these are not enough for Ye Xuan to break through to the sixfold.

"Not enough, come back 50,000!"

Ye Xuan directly lions open the mouth.

"what?"

Both brothers doubted whether their ears were wrong. Five million broken Dans asked Ye Xuan, but they were still being bargained by Ye Xuan. Isn't it too greedy?

"Eternal heart fire, even 500 million broken Dan can not buy, the district is five million, value!"

Thinking of this, Beixing made a decision and then threw out 50,000 pieces of broken goods.

A total of 100,000 Chinese goods broken Dan, converted into the next product broken Dan, it is 10 million.

This million broken Dan, as the reward of Ye Xuan's shot, is enough to see the sincerity of these two people.

However, these broken Dans and different fires are simply a small witch.

Even if it is the fire of the 100th beast in the list of different fires, the value is far more than 500 million broken Dan. Even if the wealth of Wanbao City and Treasure Hunt is added up, it is estimated that the fire of the beasts cannot be bought, let alone This is the 93rd eternal heart fire?

"Okay, deal!"

Ye Xuan's mouth slightly tilted up, this million broken Dan, enough for him to break through to the broken six.

As long as he breaks through, it is estimated that the sinister monarch can be killed alone. At that time, even if the eternal heart fire is obtained by the two brothers Beixing and Beichang, he is also qualified to snatch.

After Ye Xuan got the two bags of broken Dan, he swallowed it directly, and instantly reached the peak of the five-folded situation, and the strength soared.

However, before the fall of the evil monarch, he did not want to break through to the sixfold.

After feeling the change of Ye Xuan's breath, Beixing and Beichang's two brothers were shocked, and they couldn't help but sigh: "Good guys, they still hide their strength!"

Ye Xuan swallowed a lot of broken Dan, improved the cultivation, and they thought it was hiding strength, and now it is revealed.

"My infuriating has consumed a lot, and you guys help me drag it!"

Ye Xuan said to the two brothers.

"This attack will be weak!" Beichang frowned.

"Also, then I will continue to drag, you solve it quickly." After thinking about it, Ye Xuan decided not to reveal the fighting power. His task was to avoid the attack.

At the moment, the two brothers joined the battle.

Eternal heart fire, this is a good thing, even the strongest in the nirvana can not help but fight, let alone they?

The two brothers also know that they need to deal with the water property or the ice property, so that both of them will have a supernatural power of the water column, which can be used against the evil monarch.

"Shui Yuanzhu!"

"Shui Yuanzhu!"

After the two brothers joined the battle, they were direct attacks.

Although the water column is only the bottom of the broken power, but they are high in the realm, so it can cause no small damage to this evil monarch.

Not once, the flowing water column, which was condensed by the power of Vientiane, can effectively give the demon monarch a heavy blow.

At the time of only one cover, the flame of this wicked monarch is weak.

"Second brother, quick fix!"

Beixing reminded me.

They took advantage of their geographical advantages to come here first. As long as they kill the sinister monarch, they can leave here with eternal heart.

However, before the arrival of the treasure seekers, they have not yet solved the sinister monarch, then it is very likely to fight with the treasure seeker.

Therefore, the battle must be ended quickly.

"understand!"

Beichang nodded, and then he did not hesitate to attack.

One by one, the water column slammed on the wicked monarch, causing it to be extremely painful. The two rounds of attack made the hatred of these two brothers higher than Ye Xuan.

"Not good, stare at me!"

On the side of Beichang, he raised the spirit of 120,000 points, because he saw the Yanmo Monarch turned and he became the target of the other party.

Upon seeing it, Ye Xuan was relieved. It seems that he does not need to be so daring to avoid the attack.

This Beichang is too mad, attracting the goal of the Yanmo Monarch, and this can not be blamed on his head.

"Cyclone!"

Taking advantage of this opportunity, Ye Xuan is also a quick attack.

He also didn't want to find the team of Baozong before he even killed the Yanmo Monarch, so his success rate of robbing the eternal heart was reduced.

There is an eternal heart in the body of this demon lord, and the injury will recover quickly, but under the attack of three people, it will be a little overwhelmed.

In less than five seconds, the shape of the Yanmo Monarch is reduced to a height of more than 30 meters.

Ye Xuan estimates that in five seconds, the Yanmo Monarch will be killed.

This sinister monarch, if it is not split, is considered to have reached the level of the eightfold. But it is split, so the strength has weakened at least 20%, so that it is now in crisis.

The two brothers of Beixing and Beichang saw the weakness of the Yanmo Monarch and immediately opened fire.

After three seconds, the Yanmo Monarch has only a height of 20 meters. At this moment, its attack intensity is similar to that of Ye Xuan's cyclone.

"almost!"

Ye Xuan eyes a glimpse, then quietly approached the flaming monarch.

The same is true of the two brothers of Beixing and Beichang. They must use the power of Vientiane to steal the eternal heart when the wicked monarch dies.

At that time, drag this eternal heart directly back to Wanbao City.

However, what they absolutely can't think of is that Ye Xuan has already known this eternal heart.

At this time, Ye Xuan swept his eyes with insight, and found that there were some people around him who were the three martial artists who had escaped.

"Not good, that is Feng Qi, who is looking for treasures, quick fix!" Beixing said with some guilty conscience.

Although the realm of both of them is higher than that of Feng Qi, Feng Qi is afraid to inform the people who are looking for Bao Zong. At that time, Feng Qi can directly inform the treasure seeker in the direction of their departure, they will be easily caught up.

"Big brother, I am going to clean them up!"

Beichang whispered, he meant to kill Feng Qi and Tuo.

As for the north stream, it is the people of their north home, naturally don't worry.
