

## Super D. S 134

Chapter 134: an early closure

"Hey, the host swallowed a body of a beast and gained a hundred points of phagocytosis."

"Hey, the host has swallowed a sacred beast and won five hundred points to devour points."

The body of a spirit beast, about six hundred points of devouring points, two, is one thousand two hundred points.

Coupled with the harvest of these days, Ye Xuan's current engulfing points have reached 5,000.

The Imperial Capital Competition, I really did not participate in it!

At the moment, he directly promoted the swordsman's blood to the intermediate swordsman's blood, and spent a full 5,000 points to swallow points.

"The swordsman blood is successfully integrated, and the host comprehends the third flower of the Wanhua sword!"

"Hey, is there any kind of spiritual martial arts in the swordsman's blood?" Ye Xuan shook his head with some helplessness. However, the swordsman's blood was not bad. After the fusion, he directly realized the third weight of the Wanhua sword.

Now Wanhua can directly separate 72 points to attack the enemy. Even if it is the strong man in the middle of the real spirit, I am afraid I can't resist it.

Coupled with various factors, Ye Xuan has the confidence to fight against the warriors of the real spiritual world. Unfortunately, there is no such a secret mirror.

.....

However, what Ye Xuan didn't know was that all his actions were mapped to a pair of mirrors. In the palace, the people outside the Imperial City were all clearly seen.

At this time, in the Xuanyang Imperial Palace.

"This kid is too strong. In the 7th time, he even got more than 60 million points. It is the second killing of Tian Ming that broke through to the true spirit. Is this still human?"

"Genius is a super genius and can even be compared with that adult."

"Yes, the true spiritual environment of sixteen years old, gave him twelve years, he can definitely break through to the real thing, after the big game, I will accept him as a son."

"What a joke, the emperor didn't say anything, would you dare to accept it?"

When the DPRK official suddenly gathered his eyes on Ouyang Ming, at this time, Ouyang Ming was also unable to cover up the emotions of the star peak in the body, and now it is haha laughing.

On the other side, Tian Zhen, who is dead and his face is blue and green, no one dares to approach.

Now, the three elites of Tian Jia are already in the hands of Ye Xuan. Tian Jia is estimated that there will be no achievements in these years.

"Damn, damn, I saved him so much, I didn't expect such a waste, I was killed by that kid."

Tian Zhen roared in his heart.

.....

Just when everyone was shocked by the first place in the standings, a sound suddenly sounded in the sky of the open mirror.

"The number of participants has dropped to 1,000. Please go to the Purple Light Column within three days, and then the second level of the Imperial Capital."

This voice fell into the ears of everyone, not only the people in the open-air mirror heard it, but even the imperial city, the people in the palace heard it.

The first level of the competition, is it over?

"What is going on, this first time is not only a month, but now it is only about ten days."

"This should be the meaning of the emperor. It is difficult, the royal family is afraid that the genius will die too much?"

"There is this possibility, but there will definitely be a lot of people gathering in the light column, which will inevitably cause chaos."

Everyone is puzzled.

Even Ye Xuan is the same, but he can rob again before leaving the light column. Since he has to go to the light column, he will stay in the light column and wait until the end.

He jumped directly to a tree and looked at it. Sure enough, he saw the so-called purple beam of light on the horizon. However, there is not only one light column, but only three of them are now seen.

"It seems that I can only choose a place to guard." Ye Xuan thought in his heart, it was toward a purple beam.

At his speed, he could reach the nearest purple beam in less than half an hour.

However, when he was close, he discovered that there was a hollow mirror under the light column, and next to the hollow mirror, there was a purple man standing, that is, the one standing on the wall before the big game.

The purple man also discovered Ye Xuan, saying: "You can choose to leave, or you can choose to stay in the open mirror."

"I won't leave first." Ye Xuan said, it was directly hidden in a big tree. With the effect of the shadow leopard blood, he hid it and prepared to wait for someone to come.

The middle-aged man in purple clothes looked at Ye Xuan and was shocked. If he didn't look carefully, it was really difficult to find Ye Xuan.

"I don't want to be the first in the standings, but there are some means." The purple man sighed.

"This adult, this, I want to hide for a while, don't talk to me first."

A faint voice was uploaded.

The purple man smiled quietly and stood still.

It didn't take long for someone else to come, but this time, it came directly to two.

The strength of these two people is also good, they are the tenth peak of the martial arts, and they all blame each other's points, so they will fight.

In the end, one person was killed and the other got all the points.

However, after the arrest of the oriole, when he was about to leave, Ye Xuan suddenly took out and kicked him, taking away all the points.

In the next two days, Ye Xuan was doing this, directly looting dozens of warriors.

The score is even more than 70 million.

However, on the third day, when the time was about to arrive, suddenly there was a fat figure that reflected the eyes of Ye Xuan.

Ye Xuan feels familiar. It turned out to be Zhao Pan who had had a relationship with him before.

After seeing Zhao Pan, Ye Xuan also jumped directly.

After Zhao Pan heard the footsteps, he also looked at it. Seeing the arrival was Ye Xuan, he immediately smiled and said: "Hey, Ye Laodi, it is you."

"Fat brother is really a time." Ye Xuan smiled and walked over.

Although he only saw it once with Zhao Pan, this is the second time, but the latter gave him a good impression. After all, he said something.

However, Ye Xuan is also hesitant, because Zhao Pan's points can be quite a lot, he is thinking about whether or not to rob Zhao.

"Ha ha, it seems that Ye Laodi is here to stay here, it is difficult, Ye Laodi wants to rob me?" Zhao Pan's face fluttered.

"Still forget it." Ye Xuan shook his head.

Originally, he had this idea, but after seeing the dignified expression of the purple man, he immediately gave up.

This purple man has already tightened his nerves at this time. Although standing still like a sculpture, Ye Xuan feels that he has the possibility to shoot at any time.

I am afraid, the purple man is worried about Ye Xuan's shot on Zhao Pan.

"It seems that the identity of Zhao Pan is very unusual."

Thinking of this, Ye Xuan still felt that it was gone, then went over.

Looking at Ye Xuan slowly coming towards himself, Zhao Pan smiled and asked: "The fat brother didn't look at me when I came over, I don't know how many points of Ye Laodi?"

"Seventy-one million."

Ye Xuan answered honestly.
