

Super D. S 1341

Chapter 1341: Get it, eternal heart!

"Don't worry about them, attack with all strength, and then leave!" Beixing replied.

Right now, the Yanmo Monarch is about to be beaten by them, and this can't be a surprise.

First kill the flaming monarch, and then go to clean up Feng Qi and Tuo Ye Ye.

"Shui Yuanzhu!"

"Shui Yuanzhu!"

The two brothers continued to attack.

Finally, the Lord of the Inflammation was dying, and a scream of grief was issued.

"Hey..."

But at this time, suddenly a blue fist shadow hit the body of the evil monarch, and the Yanmo monarch was beaten by this attack and exploded.

"What? Hurry!"

Bei Xing was shocked. Who made the last punch, and the attack power was not weaker than them?

But they don't have time to care about it, crazy to avoid the flames that burst.

With the eye of insight, Ye Xuan directly locked the position of the eternal heart, and at the same time, with the power of Vientiane, the space will be wrapped in the eternal heart.

However, what shocked him was that this eternal heart fire burned his power of Vientiane.

The wicked monarch is dead, and the eternal heart will not float, and naturally it will fall straight.

"not good!"

Ye Xuan's face changed greatly, and he rushed into a stream of light. The flames on the way were directly ignored by him, and some even penetrated his body.

These injuries are pediatrics for him. He mainly protects his eyes.

"My realm is too low. This fire has burned even my power of Vientiane. Fortunately..."

Ye Xuan sighed with relief, and the front was the orange eternal heart.

The closer to this eternity, the higher the temperature of the fire, and Ye Xuan and this eternal heart are still separated by a kilometer, and I feel that my skin has begun to melt.

Ye Xuan topped this high temperature and took out a quaint lantern from the devouring space. This is the subordinate fire lantern that he exchanged from the super swallowing system, which can charge the fire after the 80th ranking in the fire list.

"Give me a receipt!"

Ye Xuan directly smashed the fire lantern in his hand and transported it with the power of Vientiane. Then the eternal heart fired like a magnet, and was received by the fire lantern.

"Successful!"

Seeing the situation, Ye Xuan is a big man, and the whole person is as bright and spirited.

At this moment, the two brothers of Wanbao City also discovered Ye Xuan. They couldn't think of it. Ye Xuan's collection was not the core of the evil monarch's core, but the eternal heart.

"This kid knows the eternal heart fire from the beginning!"

Beixing and Beichang suddenly reacted, but they didn't have time to think so much, and they started directly.

"Hey!" "Hey!"

The two swordsmanships were almost simultaneously pulled out and attacked Ye Xuan.

"Haha, goodbye!"

Ye Xuan laughed and directly received the fire lantern in the swallowing space, and then flashed into the door of the void.

"Huh!"

The two swordsmen went empty, but the door of the void was already closed, and the people went to the building.

The two brothers were wrong there, what they thought, and did not expect it would be this ending.

Ye Xuan not only knows the eternal heart, but also hides the strength. The real realm is actually sixfold, and even the two people who are broken and eight-eight are not inductive.

The most important thing is that Ye Xuan even used lanterns that collected different fires. This thing, but even Wanbao City did not.

"Damn, look, be sure to find out!"

Beixing responded and yelled.

The eternal heart is precious and precious, even if it is the strongest of the Nirvana, it will also be robbed, and it is the hope of their fathers to break through to the nirvana.

Now, the eternal heart fire was taken away under the eyes of both of them, and the two angry men wanted to squander the city.

.....

Just when the two brothers of Beixing and Beichang were furious, Ye Xuan had already left the virtual network and left the site of the Wanbao Alliance. At this moment, he was near Hu.

"Haha, the ninth-third of the fire list is the eternal heart!"

In a mountain range, Ye Xuan held a fire lantern with an eternal heart, and could not help but laugh.

Beside him, there are two figures.

"God, old life can actually see a different fire, die without regrets!" The old tree is very different.

"The tree is old, is this eternal heart fire useful to you?" Ye Xuan asked with a different fire lantern.

"Yes, this eternal heart fire is formed at the bottom of the earth, even if it is a fire, it is also useful to me!" The tree nodded.

Eternal heart fire is a very practical kind of fire, the fire can quench the body, can promote the growth of plants, etc., and can even be used to forge weapons, the effect is many.

Ye Xuan was able to get this eternal heart, and it was a great fortune.

"Well, let me start the fire lanterns first and try the effect!"

Ye Xuan nodded and said, just a light on the fire lantern, then the whole lantern suddenly opened, the fire suddenly spread.

However, the fire at this time is estimated to be only one tenth of the previous one, because Ye Xuan only opened one tenth of the fire lanterns, and that nine tenths of the fire, a layer of tulle outside the fire lantern Block it.

"Oh, oh, is this eternal heart fire, so comfortable, old feelings are going to heaven."

The old tree couldn't help but sigh. At the same time, he felt that the blood that had not been refining in his body began to accelerate absorption.

Not only that, but Ye Xuan also feels that her body is undergoing some changes.

This fire of different fires can quench the body and treat those dark diseases.

However, Ye Xuan originally had the blood of the **** of life, and naturally there would be no dark diseases. At the same time, he saw that the life on the panel is improving a little.

If you stay at the side of the fire all the time, the life expectancy will not decrease, after all, this fire is only one tenth.

Of course, the effect of this different fire is later, the worse the effect.

"With my current physique, I can't do it even close to the eternal heart, let alone integrate. I heard that if someone can integrate this eternal heart, at least 50 years of life can be raised..."

Ye Xuan thought in his heart.

As early as when he got this eternal heart, he tried to devour a special scent, but it was a reminder that 'can't swallow it', and ordinary devours didn't work, so he gave up.

"The old tree, this eternal heart fire will be handed over to you first, I will always put it in the planting space, and when the physical fitness is raised to a certain extent, then slowly open it..."

Ye Xuan said to the old tree.

"No problem, the old will be kept." The tree nodded.

Then, Ye Xuan threw the fire lantern into the planting space, and also took the tree and Megatron into it.

Both Megatron and the old trees can be upgraded by this fire lantern. Not only that, but the fall in the retreat can also lead to an increase in life, which is simply a multiplier.

Chapter 1342: Wanbao City

"Now that Beixing and Beichang are estimated to be looking for me in the world, I have to change my way to Wanbao City to investigate..."

Ye Xuan's eyes squinted and his face began to change again.

Only when he got the eternal heart, he was too happy, and at the same time avoided accidents, and then left the plane directly. Otherwise, he would play with Beixing and Beichang.

However, before he left, he used the eyes of the soul to control the northward flow of the distant battle.

"That north stream is a seven-fold city, and it is surnamed North. It is estimated to be a bit weighty in the North. It should not be a problem to find him to inquire about the mysterious eyes!"

Ye Xuan thought in his heart, that is to start to continue on the road.

When he entered the Wanbao Alliance, he was only three-folded. Now he is sixfold. He estimates that if you take a shadow step, you can reach Wanbao City in at least two hours.

After getting the eternal heart fire, he also heard two system prompts in these two hours.

"Oh, the breakthrough is broken, and the current is the fifth place!"

"Hey, the Demon Warrior breaks through, and it is currently five-fold!"

When it was in the midst of a change, it has broken through to the fourfolds of the broken territory, and it is still the peak of the fourfolds. This retreat is to break the fivefold.

After the tree has a eternal heart fire, the speed of refining and defrosting Ye Xuan has turned several times, and it is normal to be able to break through.

As for Megatron, it is constantly being tempered by the eternal heart. Although the realm is still sixfold, it is harder than before.

With the strength of Ye Xuan, there is no need to go around the road. After he entered the Wanbao Alliance, he went to Wanbao City.

During this period, he did not meet the ancestors of the two main cities of Wanbao City, but he was very eager to meet again, because with his strength, there is no need to fear each other.

Two hours later, Ye Xuan successfully came to Wanbao City.

Before he was drilling into the door of the void, he gave the north flow control, and then gave the other party an order.

Ye Xuan stopped and he saw that Beiliu was waiting in front of Wanbao City.

At the moment, this north stream is swiftly swept over.

"See the master!" Beiliu respectfully said.

"What is the relationship between you and the two martial artists?"

Ye Xuan opened the door and asked.

"The only two people, one is my grandfather, the other is my grandfather!" Beiliu directly answered.

"Grandpa, Grandpa?"

Hearing this, Ye Xuan also understands instantly.

This north stream is the grandson of Beichang, and Beixing is the big brother of Beichang, so it is the grandfather of Beiliu.

"Okay, then I ask you, where are they now?" Ye Xuan continued to ask.

"After the master left, the team of treasure seekers came. Now they search there, let me come back and ventilate, and pass by the owner!" Beiliu replied.

Eternal heart fire, has been charged by him, and now he changed the face, the other party will not think he came to Wanbao City.

That being the case, then you have to do business.

"Then I will ask you again, have you seen this fox people, and the four sides are broken." Ye Xuan took out a portrait, it is Hu Lai's father Hu Tai.

"never seen it!"

Beiliu shook his head.

"What about them?" Ye Xuan took out two more portraits, Nalan Bing and Nalanjie's brother and sister.

This time, Beiliu nodded: "The two people have appeared in the main government of our city. I am still absent, I don't know."

Wen Yan, Ye Xuan's brow can't help but pick it up. If Xuan Ming's eyes are still in the main city of Wanbao City, it's cool.

The promise of Mo Blood Clothes can finally be completed!

"Well, take me to the city seat!"

Ye Xuan said after dumping the things in the Beiliu Qiankun ring.

"Yes!"

Beiliu nodded, and immediately took Ye Xuan into Wanbao City. Along the way, Ye Xuan also asked the north to inquire about some of the city's capitals, such as how many strong people in the city's government.

"Is there a strong man who is a broken king?"

After listening to Ye Xuan, his eyes could not help but glance.

In his current realm, there is no need to fear the talents of the nine-folder, but he still can't beat it.

Just let him break through again, killing the broken nine times light and easy.

Soon, Beiliu came to the city government with Ye Xuan.

The north wind of the city owner of Wanbao City is the cousin of Beiliu, and it is also the seven realm of the broken environment.

Ye Xuan has not yet entered the city's main government, is to feel the strong breath of a stock.

"Weird, the master of the city is a master of the eight-fold ruin, what about your ancestor?"

Ye Xuan asked in a different place.

"The ancestors should also know the things that are eternal, and maybe go out and search!"

Beiliu replied.

Hearing this, Ye Xuan also nodded slightly, and right, this time, there was an eternal heart, and it was normal to be personally dispatched.

However, the most important thing is that Ye Xuan did not find the atmosphere of Nalan Bing and Nalanjie.

"I wonder, these two people are not in the city government, have they left?" asked Ye Xuan around.

"Master, let me ask my grandfather!"

Said Beiliu.

The grandfather of his mouth is the grandfather of the north wind of the city of Wanbao City. He is also the only one of the eight masters in the North.

"Go!"

Ye Xuan nodded.

The north stream left, and he was a person hanging out in the city government.

Although it is said to be a stroll, there are still a few top-ranking masters in the city's main house.

The masters of the city's main government were almost sent out to search, and the masters of the city's main government were less than one-fifth. Ye Xuan only controlled three masters who were seven.

Then he is back to Beiliu's residence.

"Master, my three grandfather said that the two were personally escorted and left by the ancestors..."
Beiliu said.

"Old ancestors?"

Ye Xuan brows a pick, there are several ancestors of the North, but the biggest is the first city owner of Wanbao City, Beiyang.

This Beiyang is the backbone of the nine-fold, that is, the fathers of Beixing and Beichang and the three grandfathers of Beiliu.

"Strange, tomorrow is the grandma's jealousy day, how can grandfather leave?"

The north stream is very surprised.

He doesn't know the things of Xuan Ming's eyes, so he is forgiven.

After all, he suddenly took out a piece of paper from the Qiankun ring and handed it to Ye Xuan. "This is the grandfather gave it to me. According to the grandfather, it is a master, but the whole north is No one can see the clue."

"paper?"

Ye Xuan took the paper and saw it, but he did not find anything, but he swept it with insightful eyes and found a strange energy left on it. This energy is not infuriating.

"A little familiar taste, drop it and see if this is what?" Ye Xuan threw the paper into the planting space, awakening the fall of the memory.

Chapter 1343: Charm will

"On this piece of paper, I have left a charm of will!"

After seeing this, I also said it awkwardly.

"Charm will?"

Upon hearing this, Ye Xuan's heart trembled. He heard about the will of death and the will of the reincarnation. Now there is another charm of will.

"The charm of will, is a very high means of display of the eyes of charm, after the caster left a charm of will on this paper, if someone sees this paper, it will complete a certain task..." .

"After seeing, I will complete a certain task. Is this another kind of charm?" Ye Xuan frowned.

"Well, but only once."

Luo Xiao nodded and replied: "I estimate that it is the fox master who released these papers with the charm of will, and then began to **** the mysterious eyes and submit them layer by layer."

"It turns out that this fox master should be related to the past life of Xuan Ming's eyes. But why didn't he come in person? How did the paper appear?" Ye Xuan asked curiously.

"Maybe it is because there are too many enemies in the past, and if it is found to be a dead end, this fox master can't show up. As for these papers, I don't know. After all, the other is the strongman of the reincarnation. We can't understand many means, and my inheritance memory hasn't fully opened yet." Falling helplessly said.

After Ye Xuan listened, he was also silent. He estimated that there is a connection between the fox master and the government.

Since Xuan Ming's eyes have taken another step, he naturally has to continue to catch up, but before that, he has to figure out where Beiyang's ancestor Beiyang went.

"My grandfather's whereabouts, San Grandpa did not tell me, now Grandpa San is personally cleaning my grandmother's grave." Beiliu said.

"take me to!"

Ye Xuan said with a dignified face.

The three grandfathers of Beiliu are the masters of the eight-pointed, but as long as the Beiliu sneak attack, Ye Xuan can control him. By the time, Ye Xuan will know where the North's ancestors Beiyang sent Xuan Ming's eyes.

Later, Beiliu was to take Ye Xuan to his grandmother's grave. This grave is under the main capital of Wanbao City.

However, this tomb can only be accessed by the North family.

Ye Xuan followed this north to the grave. This grave is very large, because not only one person was buried, but all the dead North family members were buried here.

Beiliu took Ye Xuan deep and finally came to a large tomb.

"Three Grandpa!"

Beiliu shouted respectfully.

"How come you are again? Don't you know that I am busy?"

There was an old voice coming from inside.

"Three grandfather, I have something to do here!" Beiliu shouted.

When the words came out, the door of the tomb was opened, and then the north stream was with Ye Xuan entering the tomb.

In the tomb, there was only one old man in a gray coat. He was holding a broom to sweep the ground. This person was Beisheng's three grandfather Beisheng.

Although it is said that the burial chamber can be cleaned with Vientiane, Beisheng is remembering his mother, so he cleaned it himself.

After seeing Ye Xuan behind Beiliu, he was also furious and said: "How do you bring an outsider into the grave? Do you forget the grandfather's ancestral training?"

This grave has only the talents of the North family to come in, and the outsiders can't. No one has broken the rules for so many years.

Today, Beiliu actually brought an outsider to come in. What is this?

"Three grandfathers are angry!"

A stream of northward strokes, quietly said a few words in the ears of Beisheng.

Immediately, Beisheng's expression was a big change, exclaiming: "What, the news of eternal heart fire?"

"Yes, Grandpa, he knows the location of the eternal heart!" Beiliu nodded.

"Tread on step!"

Beisheng turned into a gust of wind and instantly came to Ye Xuan, saying: "Do you really know the position of the eternal heart?"

He only wanted to kill Ye Xuan, but after hearing the news that Bei Xuan knew the eternal heart fire, he immediately changed his attitude.

Obviously, at this moment, the eternal heart fire is more important. After all, the rules are determined by people, and occasionally breaking is not a problem.

"Yes, I know!"

Ye Xuan nodded and said with a dignified face.

"Where is the eternal heart fire, as long as it is said, it is greatly rewarded!" Bei Sheng said emotionally.

Let's not say that this eternal heart can be used to break through the Beijia ancestor Beiyang. These people can also be used to enhance their longevity. He naturally wants it.

Ye Xuan took a look at the north and then took out something from the swallowing space.

This is a fire lantern!

"You are looking for an eternal heart, here!" Ye Xuan said slowly.

"what?"

Beisheng was shocked and felt the fire of life, and he couldn't speak.

The Beijia sent hundreds of masters to go out and search, including two masters who were eight-pointed. However, what they were looking for was now in front of Beisheng.

However, at the time when Beisheng was shocked, Ye Xuan and Bei Liu were both at the same time.

"The Eye of Brilliance!"

"Day Frost Boxing!"

Ye Xuan's hair suddenly turned into gold, and it was directly hit by a punch on Beisheng's abdomen. Suddenly, the cold ice was the condensation of Beisheng's abdomen.

In addition, Beisheng's hindbrain also suffered a blow from the north stream, and the whole person almost passed out.

Taking advantage of this opportunity, Ye Xuan hurriedly applied the eyes of the soul.

"Hey, control failed!"

A system prompts to sound.

If it is a Fox people, Ye Xuan certainly can't control it, but Beisheng is just a human being who has lived for a hundred years.

"Hey, take control of success!"

The eye of the mind specializes in the psychological loopholes, and Beisheng was attacked and shocked, so it was only twice received by Ye Xuan.

After controlling the other party, Ye Xuan directly lost a blood bottle in the past, and asked: "Your father Beiyang, where did the two go?"

"Unclear, my father did not disclose, only know that he went to the north!" Beisheng shook his head.

"I don't know..."

Ye Xuan wants to smoke, he is hard to find here, is it difficult to lose the traces of Xuan Ming?

"Give me the most complete map you have!" Ye Xuan said.

"Yes!"

Bei Sheng did not say anything, just took out the map, Ye Xuan took a look and copied the map into the super swallow system.

In the north of the Wanbao Alliance, there are indeed several big forces. I don't know where the Beijia's ancestor Beiyang is going.

"Well, this thing will not be said for the time being." Ye Xuan took back his mind and said: "Where is your treasure house in the North?"

The most powerful two strengths of the Wanbao Alliance are Wanbao City and Treasure Hunter. This North House, as the main city of Wanbao City, certainly has a lot of good things. If Ye Xuan gets it, maybe it can break through to the sevenfold.

Chapter 1344: Beijia's secret

Beisheng naturally understands the meaning of Ye Xuan and said: "This... I have just purchased a large number of Tiandi treasures for the children of the North family and the worship, and the real things are in my two brothers. And the father."

Hearing this, Ye Xuan's brow was picked.

This Beisheng is only a management family, but it has just broken through to the eightfold, and his brothers Beixing and Beichang are the pillars of the family, that is, the people who sit in the town, so they must protect their strength, naturally need a lot The heavens are treasured.

"Then your father retreats all the year round?"

Ye Xuan asked again.

"Yes, in addition to the retreat in the residence, the father came to the mother's tomb, and the one inside, except the father, no one can enter." North Sheng nodded.

"Is it....."

Ye Xuan's eyes lit up.

The one inside should be the tomb for the body of Beisheng's mother, but this Beiyang does not let other people in, it is a bit tricky.

"Don't come in, let me go and see!"

Ye Xuan said, went straight in.

Beisheng and Beiliu are waiting outside.

"Hey!"

The stone gate was closed and Ye Xuan entered the last secret room of the North House.

"Ok?"

Ye Xuan brows a pick.

There are not many things in this secret room, and there is a coffin in the middle, and there are many portraits of the owner of the tomb.

In addition, there are some books.

"How can there be a book?" Ye Xuan walked over and shouted.

This sweep made him shocked.

"This Beiyang and his wife are actually a pair of brothers and sisters?"

Ye Xuan's eyes widened and he could not believe it.

Is this world messed up!

Xuan Ming's eyes are also brothers and sisters. Both past and present are the same, and this Beiyang and his wife, Bei Lin, are also brothers and sisters, and they have three children.

However, let Ye Xuan be more shocked, still behind.

"The foreigner of the Yin and Yang Temple is Beiyang!"

"Northern Liner, a disciple outside the Yin and Yang Temple!"

Seeing this, Ye Xuan suddenly stopped.

The yin and yang temple he was trying to find was finally clued. This Beiyang and his wife, Bei Lin, became a foreign disciple of the Yin and Yang Temple a hundred years ago because of his good qualifications.

Moreover, they also cultivated the success of the yin and yang sacred, once merged together, when they were only sixteen.

However, later the two brothers and sisters violated the taboos of the yin and yang sacred, so they suddenly disintegrated, and then they were rushed out by the yin and yang temple. The reason for the disintegration is that they accidentally caught the poison of spring.

These books are actually written by Beiyang and record what happened in these years. This made Ye Xuan begin to understand the Yin and Yang Temple.

Those yin and yang people in the yin and yang temples will disintegrate as long as they violate the taboos, and there are many ways to disintegrate them, such as things like oox or some **** things.

The two brothers and sisters were accidentally caught in the spring poison, so they disintegrated, and then they could no longer successfully fit, and finally they were expelled from the division.

Of course, the most important thing is that this spring poison is the two brothers and sisters themselves to give themselves.

After being expelled from the yin and yang temple, they became married and lived together, and then established a north home.

Beiyang and Beilin are the things of their brothers and sisters. I am afraid that even the three brothers of Beixing, Beichang and Beisheng do not know, and they absolutely cannot think that their mother is actually their aunt.

"It's terrible, this yin and yang temple is terrible..."

Ye Xuan couldn't help but swallow.

Two years ago, the Song ruling and the Song Dynasty were hijacked by the yin and yang ancestors in the East China. Now, after two years, they don't know how.

Although the celestial eclipse said that the yin and yang temple people want to fit together, they have to have the same frequency of heart and soul. If the two resist, they will generally not succeed.

However, everything has exceptions.

Ye Xuan did not hope that when he saw the Song Dynasty and the Song ruling, the two had successfully joined and became Yin and Yang.

This kind of thing, he is absolutely not allowed to happen!

"Yin and Yang ancestors, I am a fairy board..."

Ye Xuan couldn't help but scream in the heart of the yin and yang ancestors hundreds of times. If the mind can kill, the yin and yang ancestors may have died a hundred billion times.

However, the most precious thing here is a strange magical power.

"Lovely!"

This is the name of this magical power, but it seems to be a illusion.

"This is a illusion created by Beiyang and Beilin. It is a Yinyang person who specializes in the yin and yang temple..."

Ye Xuan's eyes lit up.

This kind of fascination is actually a illusion that can make the recruits fall into the spring-dream. This is the illusion created by Beiyang and Beilin after they were expelled from the yin and yang temple. They originally wanted to deal with the yin and yang temple. However, because the realm is not enough, I have not tried it.

However, this is cheaper than Ye Xuan.

"Hey, happy, transcript, successful, do you study?"

"Yes!"

At the moment, Ye Xuan is directly learning this illusion. In the future, he is going to be an enemy of the yin and yang temple. It is just right to use it.

"Ha ha, yin and yang ancestors, see me put your yin and yang sanctuary to death!" Ye Xuan double-faced.

If the Yin and Yang people after the successful combination are accidentally disintegrated, they will not be able to fit again.

Ye Xuan wants to use this charming heart to smash the yin and yang temple.

This kind of charm is related to the strength of the soul, and Ye Xuan's soul strength is stronger than that of his peers. In the future, it may be possible to disintegrate the Yin and Yang ancestors.

This is cool!

Next, Ye Xuan also searched in this secret room, only found two identity tokens, this is Beiyang and Beilin.

Other than that, there is nothing else.

"This luck is good, I found a clue to the yin and yang temple, and learned the method for the Yin and Yang people. Once these yin and yang people disintegrate, they will be badly hurt and have insufficient fighting power. This is very useful to me!"

Ye Xuan thought in his heart.

Unfortunately, he did not find the location of the yin and yang temple, and this yin and yang temple seems to be just a branch, not the main hall.

Ye Xuan left Beilin's tomb and then asked directly: "Northern Sheng, do you know where your father came to the Wanbao Alliance?"

"This... my father only said that he came from the north, and I don't know what it is." Beisheng shook his head.

"So, do you know your mother's name?" Ye Xuan asked again.

"Lin Lin!"

Beisheng replied.

Upon hearing this name, Ye Xuan's dawn could not help but blink. It seems that Beiyang has concealed the name of his wife, Bei Lin, so that no one else can gossip.

Now, Ye Xuan has found clues to the yin and yang temple, as long as it goes north, it should be found.

However, the yin and yang temple is not a small force, the Beiyang is already a broken territory, and it is impossible to revenge with a heart.

And now he is six years old, and the realm is still far away, so he has to upgrade.

It is not difficult to improve.

Chapter 1345: Fishing plan

"The eternal heart of the hard search of this North House and Treasure Hunter is on my body. As long as I am a bait myself, I am afraid that I can't improve the realm?"

Ye Xuan's eyes slammed away from the city's main government. This time, he was ready to return to the place.

As long as the treasures of the treasures are not coming, everything is fine.

Of course, even if Ye Xuan is not afraid of him, isn't it the same?

At the moment, Ye Xuan is restored to the face of the eternal heart when he took the day, and then went to the magma world.

Treasure Hunter doesn't know, but he knows that everyone in Wanbao City has his portrait. As soon as he shows up, he will become the eye of everyone.

About half an hour later, he came to the place that day, there are not many people searching here, at least Ye Xuan did not touch one.

"Hey, the Demon Warrior breaks through, and it is currently sixfold!"

Suddenly a system prompts to sound.

After the tree has been accelerated by the eternal refining of the fire, it has broken through in just a few hours, and the fire is not a different fire.

If the tree is old and joined hands with Megatron, it should not be a problem to deal with a broken eight.

Eternal heart fire, the biggest gain for the tree is the biggest one, followed by Megatron, and finally Ye Xuan and fall.

However, although the fall is only a five-fold situation, but after her change, the strength is still above the tree and Megatron, and the third-level battle is not a problem.

"Come on, who will die?"

Ye Xuan's eyes smashed and took out an iron rod from the Qiankun ring. It was the communication signal bullet of Wanbao City. What he wants to do now is to use it as a bait.

This signal bomb is not made of gunpowder, but the infuriating gas is compressed in this iron rod, but the power is not strong, it is only used for communication.

"call out!"

A fire rushed into the sky and plunged into the sky to burst open.

The range of this communication bullet is very large. If people around you see this signal, they should come quickly.

Sure enough, in less than five minutes, one person swept over, and it was a broken warrior.

However, this seven-armed warrior is not a man of Wanbao City. He is actually an elder who is looking for Baozong, and is also Feng Qi who was present at the time.

"With the signal bomb of Wanbao City, it has attracted people who are looking for treasures..."

Ye Xuan is slightly helpless, but this does not matter to him. After all, the people who come here are giving him welfare.

"It was this kid..."

After seeing Ye Xuan, the seven-armed warrior of the broken territory picked up his brow.

At that time, he was there, and he saw Ye Xuan stealing the eternal heart with a fire lantern, so his mood could not be expressed in words at this time.

Eternal heart fire is his!

However, when he was still leaning towards Ye Xuan, he suddenly felt a tingling sensation in his mind.

He is only seven heavier than Ye Xuan. The latter's eye of the soul has great harm to him.

"Hey, take control of success!"

After using the eyes of the mind twice, Ye Xuan succeeded in controlling this Feng Qi.

This Feng Qi plucked over, and without saying anything, he lost the ring to Ye Xuan.

In just a few minutes, Ye Xuan has harvested a seven-year-old Qiang Kun ring, which is not bad.

"Well, I am here, you are going around and telling me where they are." Ye Xuan said to Feng Qi.

"Yes!"

This Feng Qi respectfully nodded, even if he left directly.

At this time, Ye Xuan is like a lantern fish, tempting small fish to approach, and then hunting.

As the saying goes, 螳螂 螳螂 蝉, the oriole is behind.

However, at this moment, Ye Xuan is both a cockroach and a oriole.

When leaving Wanbao City, Ye Xuan took a large number of signal flares, and he released another one after Feng Qi left.

A few minutes later, a few people were close, but it was sixfold.

These people are handed over to the charm of the fall, then let them leave and spread his message.

Then, some people continued to send benefits, and they came one after another. Ye Xuan stood here waiting for repairs.

About half an hour later, I finally came to a person who was like a word.

This person, dressed in the clothing of the treasure hunt, has a strong breath, but it is a broken eight.

Behind him, it is followed by Feng Qizong elder Feng Qi, who has been controlled by Ye Xuan.

"There is finally a Lord!"

Ye Xuan eyes a glimpse.

"Feng Qi, what are you talking about?" The middle-aged man looked at Ye Xuan and whispered.

"Lord, yes!" Feng Qi nodded.

"it is good!"

After hearing this answer, the middle-aged man did not say anything, directly shot.

But when he plucked out, suddenly a bang appeared.

"Hey!"

A sword is so accurate that he is behind him, and the person who raided him happens to be Feng Qi who just answered his question.

"Feng Qi, you..."

The treasure seeker Zongzong's eyes widened and looked blank. He apparently did not think that Feng Qi would attack him. Why?

The next moment, he reacted.

Before Feng Qi found him, he found a clue to the eternal heart fire, and then took him over.

It seems that Feng Qi may have joined forces with the other side.

This time the sneak attack made him seriously injured, the meridians behind it were interrupted, and the flow of true gas was very unnatural.

As a result, Ye Xuan has also relaxed a lot.

"Where is the treasure lord, there seems to be a lot of good things." Ye Xuan's mouth couldn't help but turn a corner and turned into a streamer.

"Yanlong is unparalleled!"

"The killings broke out!"

A golden dragon screamed out, and the treasure hunter was sneaked by Feng Qi, so he could not escape the attack and was swallowed up in an instant.

But he is also better than Ye Xuan in two realms, so he can block it.

However, Yanlong Wushuang has always been a trick, and the real killing is behind.

"The Eye of the Burst!"

"Oh!"

The treasure hunter was directly cut in half, and his upper body and lower body were instantly broken down, but it still could not kill him.

However, don't forget that there is still a traitor.

"Oh!"

Feng Qi directly pierced the head of the treasure hunter, and the tip of the sword came out from the eyebrows. The blood had not overflowed. Feng Qi pulled out the long sword and sent it again, and cut the head of the treasure lord.

Sometimes, the head is pierced and may not die, but the head is cut off, unless a freak like Ye Xuan is generally dead.

Treasure hunter, die!

"Hey, the host's killing value is improved!"

The value of a broken eight-point killing value is worth a few killing values. Ye Xuan glanced at him. His plan is to raise the killing value to the upper limit before breaking through to the nirvana. That is to get a little swallowing point.

Chapter 1346: Spike!

The one that was captured before was swallowed up so many bodies, and the experience has grown to 90%.

Ye Xuan estimates that in a few days, this swallowing beast can advance to the intermediate level to swallow the beast. If you kill it and then swallow the body, you can get two points of swallowing.

At that time, it is a three-point swallowing point, which can greatly enhance Ye Xuan's combat effectiveness.

In addition, since the integration of the blood of killing God, it is the opening of the blood fusion system, as long as there are three points of phagocytosis, then the two auxiliary blood vessels can be directly fused and merged into a stronger auxiliary blood.

I don't know, what is the effect of the new auxiliary blood vessels after the fusion of the two auxiliary blood vessels.

Of course, if you want to fuse two physical blood, the three-point swallowing point is not enough.

Having said that, the purpose of Ye Xuan this time is to break through to the sevenfold and then go to the north.

This one-of-a-kind, awe-inspiring ring is not enough for him to break through.

"Feng Qi, this time, apart from your lords, is there still a master of the eight-pointed?" Ye Xuan asked.

"Yes, the elders are too!" Feng Qi nodded.

"Okay, then you will call him intricately!" Ye Xuan nodded.

"Yes!"

Feng Qi should have said that even if he left directly.

Ye Xuan continues to wait here.

Welfare has been delivered in succession, and Ye Xuan's cultivation has been continuously improved.

"Hey, Megatron breaks through, and it's currently a seven-folder!"

The speed of Megatron's ascent is the fastest among the four of Ye Xuan, and with the eternal tempering of its eternal heart, its strength is constantly improving.

After an hour.

Another heavyweight strongman arrived, the same day in Beichang.

"Boy, are you?"

Beichang looked at Ye Xuan and was shocked.

"Yes, it's me!" Ye Xuan nodded slightly, saying: "Eternal heart fire, just on my body, if you want, you must kill me!"

"Eternal heart fire!"

As soon as he heard the name, Beichang came to the air.

A few hours ago, he was watching the eternal heart fire by Ye Xuan with a different fire lantern.

After looking for a few hours, he finally found Ye Xuan.

However, at this time, why does Ye Xuan have a calm appearance, and it is difficult to have an ambush around?

"Impossible, with my realm, even if it is a top-ranking master, it is not necessarily able to ambush me, there are no other people around!"

This Beichang thought about it subconsciously.

Seeing that the other party did not move, Ye Xuan also ridiculed: "There is a lot of broken, even I am afraid of this six-folded situation, you will not be a paper tiger?"

"what did you say?"

Beichang's dawn flashed, his beard was so angry that Ye Xuan actually said that he was a paper tiger. How can this be tolerated?

"I, say, you, yes, paper, old, tiger!"

Ye Xuan said it all at once.

"Wow, ah, I want to peel off your skin!" Beichang suddenly angered and directly killed Ye Xuan.

"Good to come!"

Ye Xuan's mouth tilted slightly, and suddenly he was separated.

Although there is a magma **** under the soles of the feet, Ye Xuan has already used a force of Vientiane to condense a floating island. As long as he steps on the land, his speed is twice that of the previous one.

If you are a avatar, you can also cope with a broken warrior. So, naturally, it is better to use the Shuanglong sword array.

"puppet?"

Seeing that Ye Xuan was divided into two, Beichang first stunned and immediately responded.

But before he flew, Ye Xuan had already applied his eyes to the soul.

"Good boy, even the soul attack will be!" Beichang angered, directly out of a sword.

"call out!"

Sword Mang broke away and instantly smashed the floating island under Ye Xuan's foot into two halves, but the next moment, Ye Xuan used the power of Vientiane to connect.

"Ice fire double dragon sword array, Ssangyong roar!"

Two Ye Xuan Qi Qi shot, two Tianlong virtual shadows combined into one, a large mouth of blood, a spit of a bite.

This blow, the power is ten times stronger than the Yanlong Wushuang, even if it is a broken eight-point Beichang can not be blocked.

"How is this possible, how can this kid make such a powerful attack?"

Beichang couldn't believe it. His body shape flashed and he immediately passed the ice and fire. If he was slower, he might have turned into ashes.

This blow has already surpassed the fireball attack of the Yanmo Monarch, which shocked Beichang.

However, this is not the strongest attack by Ye Xuan.

"If I buy frozen Tiandan and Burning Tiandan at one time, the power of Shuanglong's roaring can at least double up. Even if the strong man of the broken territory is hit, I am afraid it will fall!"

Ye Xuan thought in his heart.

However, what he is afraid of is that the deity has eaten a frozen Tiandan, and the avatar has an effect. In this case, there is no way to take it together with the frozen Tiandan and the burning Tiandan.

If there is an opportunity in the future, he will try to redeem two medicinal herbs.

No, instead of later, try it today!

"Hey, burning Tiandan is successful!"

"Hey, frozen Tiandan exchange success!"

These two six-grained medicinal herbs cost nearly half of Ye Xuan's super-phagocytic crystals, making Ye Xuan quite a painful.

However, if successful, then his combat power can be upgraded to a higher level.

"Hey, burning Tiandan swallowed successfully!"

Ye Xuan first tried to burn Tiandan, which was swallowed by the deity. What surprised him was that the effect of burning Tiandan was only available to the deity.

"Haha, it really works!"

Ye Xuan laughed in three hearts, letting the body swallow the frozen Tiandan.

"Hey, frozen Tiandan swallowed successfully!"

The deity has the infuriating nature of the inflammatory attribute, while the body is the instinct of the ice attribute, both of which passively enhance the power of the Ssangyong Roar.

Ye Xuan's light flashed, and suddenly he found that the ice dragon virtual shadow and the flaming dragon virtual shadow, even more than doubled.

"Come on, let me try the power!"

"Ice fire double dragon sword array, Ssangyong roar!"

The ice dragon virtual shadow and the flaming dragon virtual shadow are combined into one, a big mouth, and an ice fire dragon erupts out.

However, this time the ice and fire, but the previous double, not even tripled.

The attack range of this attack was a lot bigger, and Beichang, who had widened his eyes, was swallowed up. At about the same time, Ye Xuan heard a system prompt.

"Hey, the host's killing value is improved!"

Spike!

Beichang, a broken eight-pointer, was actually killed by Ye Xuan.

Don't say him, even if it is a strong man who is broken and nine-fold, he will be hit by this trick, and he will be seriously injured if he does not die.

"Haha, not only has a wide range of attacks, but even the power is strong. I have another card!"

Ye Xuan is very excited.

However, after the use of the burning Tiandan and the frozen Tiandan, it can no longer be combined.

Chapter 1347: Broken seven

Ice and fire are incompatible. If you are fit, the ghost knows what will happen. If you want to fit, you can only lift an effect in advance.

In addition, Ye Xuan does not know whether the eye of glory will cover the effect of burning Tiandan or frozen Tiandan, so he wants to try the duration of the two remedies, that is, when it is almost an hour, if the eyes of glory are not If you can cover up this effect, then the power may be able to improve a grade.

After the death of Beichang, Ye Xuan was plundering the past and taking it away, and then swallowed up the things inside.

"Just break through, and if you come again, it will be almost!"

Ye Xuan eyes a glimpse.

If he is broken, he will be able to kill the broken eight. If he is allowed to break through to the seven-fold situation, it is also necessary to kill the broken nine.

By then, he is almost invincible in the broken territory, unless the enemy has such means as Nirvana.

There is still an hour to burn Tiandan and frozen Tiandan. Ye Xuan continues to wait here. I hope that in an hour, I will encounter another martial art of the eight-fold ruin, such as the Beixing of the North and the treasure of the treasure. Elders.

At this moment, he has more than a dozen men walking around, if the two are still searching, it should come over.

The people who sent the benefits were still continuing. In less than half an hour, Ye Xuan also took control of four broken warriors, including the Tuoye wilderness.

Even if there is no master of the eight-pointed, Ye Xuan has the confidence to break through to the seven-fold situation within an hour.

However, in the 50th minute he took the burning of Tiandan and frozen Tiandan, it was finally another one.

This time, it is Beixing of the North.

After seeing Beixing with insight, Ye Xuan also said nothing and directly launched an attack.

"Kid, eternal heart fire?" Beixing tried to ask, and at the same time, he slammed Ye Xuan's tentative attack.

"Do you mean this?"

Ye Xuan took the eternal heart fire out of the planting space, and the fire suddenly spread and shone on the face of Beixing.

"Eternal heart fire?"

Beixing's eyes showed a greedy look. I did not expect that Ye Xuan still had an eternal heart.

He originally thought that Ye Xuan had hidden the eternal heart fire, but did not expect to bring it with him.

This time, God is helping him!

"Kid, I can not care about you stealing the eternal heart, now as long as you give it to me, I will spare you a life!" Beixing said.

"Rao me a life?"

Ye Xuan's brow picked and shook his head and said, "You won't spare me."

"Yes, I will speak in Beixing, as long as you are willing to turn in the initiative, do not force me to do it, I will let you go!" Beixing still has some taboos on the background of Ye Xuan, so the conditions have come.

"Oh, then after you read this, will you let me die?" Ye Xuan's mouth tilted slightly, taking out something from the swallowing space.

This thing is a long sword, just a fourth-order device.

However, Beixing is very familiar with this weapon, because this is the weapon of his brother Beichang, which has been used for more than ten years.

"Beichang's sword?" Beixing recognized it at a glance, exclaimed: "Impossible, how can you have Beichang's weapons?"

"If I said that he had been bombarded by me and turned into ashes, would you believe it?" Ye Xuan said in a light manner.

"how is this possible?"

Beixing obviously does not believe, "You are not so broken, how can you kill Beichang?"

"I can not only kill Beichang, but even you can kill, do you believe it?" Ye Xuan said.

Now, Beixing has been angered by Ye Xuan. Since Ye Xuan is so ignorant of his excuse, he will teach him lessons, what is high and thick.

"call out!"

At the moment, Beixing is turned into a streamer, rushing to Ye Xuan.

His speed was very fast, and in the blink of an eye he came to the front of two Ye Xuan.

Two Ye Xuan, one of them is considered by him to be awkward, so he has to personally test which one is the real Ye Xuan.

Unfortunately, what he does not know is that both are the true body of Ye Xuan.

"You are the stepping stone for my breakthrough, die!"

Two leaves are shining.

"Ice fire double dragon sword array, Ssangyong roar!"

The two dragons are combined into one.

"boom!"

The dragon's breath erupted, and before this dragon's breath, Beixing was like a cockroach.

At this moment, he finally believes that Ye Xuan has the strength to kill Beichang.

At the same time, it also has the strength to kill him!

"Calling!"

The stout ice and fire dragon broke away, and Beixing had a cold sweat, but fortunately he hid fast, otherwise he died under this attack.

When he reacted, he found that his left arm was frozen by the ice attribute. He was obviously not hit, but his arm was frozen. This is the power of the frozen Tiandan.

"After you have a blow, you are lucky, but can you escape this blow?"

Ye Xuan's light flashes.

Suddenly, this thin figure of ice and fire took out a slender figure and directly fell into the brain of Beixing.

This slender figure is Megatron hidden in the ice and fire.

"Hey, the host's killing value is improved!"

Beixing, like his brother's fate, was spiked.

This time, Ye Xuan should have a breakthrough in the seven-fold cultivation resources.

"Hey, the host breaks through, and the current situation is seven!"

Sure enough, after consuming the things in the Beixing Qiankun Ring, Ye Xuan was a successful breakthrough.

Now, he is almost invincible in the broken ground.

"Okay, finally broke through!"

Ye Xuan showed a happy smile. Now he has not broken the two Yuanfu in his body. As long as the two Yuanfu are broken, all the life is used to quench the constitution, then he can almost withstand the temperature of the fire.

Of course, the eternal heart fire is ranked 93rd on the list of different fires, and perhaps a little bit reluctant.

At the moment, Ye Xuan is the eye of glory. When the blonde and Jin Yu appear, the inflammation of his body is gone, and all the infuriating turns into gold.

"Sure enough, the blood is above the medicinal herbs, the effect is stronger than the remedy, but unfortunately, if you can use the brilliant eye, the attack power can at least be upgraded to another level!"

Ye Xuan smiled and then broke away from the void.

Although he said that he can stay here again, he can make another profit, but he can hardly find the whereabouts of Xuan Ming's eyes. Naturally, he has to hurry and hurry.

It took two hours, from the six breakthroughs in the broken environment to the seven-fold situation in the broken environment. If you break through and then hurry, you can save a lot of time.

Ye Xuan returned to the main city of Wanbao City, and checked if the Beijia ancestor Beiyang came back.

This North ancestor left Wanbao City yesterday and went to the north, but there are several forces in the north. I don't know where the North's ancestors escorted the mysterious scorpions.

Chapter 1348: Return of the old ancestors

"Fire Cloud Palace, Dihao Island, Vacuum City..."

Ye Xuan looked at the map from Beisheng and murmured it again.

This is the power of the three nirvana in the north, but he does not know which one Beiyang went to.

The Huoyun Palace is in the northwest of the Wanbao Union, the Manila Island is in the north, and the Vacuum City is in the northeast.

Although the ancestors of the North family went in the direction of the North, this does not mean that he went to the Manila Island, because he may suddenly change course in the middle.

Ye Xuan took a closer look and found that there were indeed dangerous areas on the way to Huoyun Palace and Vacuum City, but it was nothing to the North Sea ancestor Beiyang.

"This is a reincarnation. Maybe you will need something special, such as alchemy. If you let Beiyang go to Tiancai in the middle, then you might not go to the island."

Ye Xuan thought for a moment and finally made a decision.

His deity went to the island of Shiji, and went to Huoyungong. If you were lucky, Beiyang was among these two forces.

At the same time, he also let Megatron sit in the north of the town, if Beiyang returns to the North, then Ye Xuan can directly return to the air, will be born in Beiyang, ask for specific information.

Thinking of this, Ye Xuan is just starting to hurry.

In the state of his unconformity, the deity and the avatar exerted a shadow step, which took about one day and a half to reach the Huoyun Palace and Diji Island.

If these two places are not there, then he will rush to the vacuum city from Diji Island.

"For the news of the yin and yang temple, the Wanbao Alliance does not, but the three major forces of Huoyun Palace, Dihao Island and Vacuum City all have masters of Nirvana, and should know the location of the yin and yang temple..."

Ye Xuan thought secretly.

Even if he didn't know, he estimated that the location of the yin and yang temple was nearby. After all, Beiyang used to be a disciple of the yin and yang temple hall. As long as it continued northward, there would be clues.

.....

The time of the road is always boring and long.

Ye Xuan's avatar first arrived at Huoyungong, but the strongman in the Huoyun Palace had a nirvana, so he could only control the disciples of several Huoyungong with the eyes of the soul and let them investigate.

However, there is no clue.

Half a day later, Ye Xuan's deity also arrived at Dijima Island. Just when he started the investigation, Megatron suddenly heard the news.

Beiyang ancestors Beiyang, actually came back!

"what?"

The two Ye Xuan bodies in Huoyun Palace and Dihao Island trembled, and then they broke through the void and returned to Wanbao City.

"fit!"

The two Ye Xuan quickly fit together and then plucked into Megatron.

At this moment, there is already a person next to Megatron, which is Beisheng.

"Your father is back?" Ye Xuan asked.

"Yes, father, he is back, but when he comes back, he is directly retreating." Beisheng nodded.

Ye Xuan heard this and felt a bit of weirdness. "I can't, even if your father left a day earlier than me, but he is just a broken warrior. How can I go with two people?" Going back and forth?"

When the voice fell, he was also guessing, is it that Beiyang is handing the person to the next **** in the middle of the road?

After Beisheng paused, he replied: "When my father came back, the breath skyrocketed and he was younger. I guess he has broken through to Nirvana!"

"Niepan?"

Hearing this, Ye Xuan's mouth couldn't help but smile. He heard that Beiyang had been in the broken state for a few years. Now it suddenly broke into the nirvana.

"Wait, the mysterious eyes are reincarnations. Although they are low in the realm, they are already awakening their memories. Their experience will not be lost. Maybe, after the passing of their guidance, Beiyang will break through. Dish!"

Ye Xuan's eyes suddenly lit up, and the more he thought, the more likely he was.

The most precious place for the reincarnation is the experience. It is really easy to point out a broken situation.

Not to mention the fragmentation, even if it is a niche, a long habitat or even a reincarnation is not a problem.

"Before the departure of Beiyang's ancestors, Beiyang was still nine-fold. After returning, he was suspected of being a nirvana. Well, then I counted him as a nirvana. He got the guidance of Xuan Ming's eyes and broke through to Nirvana. But It has not been consolidated, so it needs to be closed..."

Ye Xuan thought about it, then turned to ask Bei Shengdao: "Where is your father retreating?"

"On the first line of the east side of Wanbao City!" Beisheng replied.

"it is good!"

Ye Xuan nodded and then left with Megatron.

In this day and a half, the old and the fallen trees have broken through to the sevenfold.

That is to say, Ye Xuan four are already seven-folded, and the cards are all in the same way, and the Beiyang is just breaking through, and the realm is not consolidated, so Ye Xuan may not be able to A battle in the world.

"A line of days..."

Ye Xuan left Wanbao City and went to the east for a while. It turned out that there was a formation.

Presumably, it is the formation of the North Sea.

"Lost, old, and Megatron, this time our enemy is very strong, but we can't be slow."

Ye Xuan in the distance, looking at the old figure in the formation, whispered.

"Don't worry about the young master, my current strength is not weaker than you." Falling and laughing.

Faith Crystal has long been refining her, but there is an eternal heart, and she is faster at refining the heavens and earth treasures, so she rushed up in one day.

Hearing this sentence, Ye Xuan can not be nodded.

The fall has changed to nine tails. At the same level, Ye Xuan has no better than 10%.

Coupled with the undead tree old and Megatron, Ye Xuan has a grasp of 80% this time, killing Beiyang.

"If that's the case, then go on!"

Ye Xuan sipped a low sentence, that is, direct shot, a golden dragon whistling out.

"Booming!"

The array was instantly broken and Ye Xuan got in.

At the same time, the Beiyang, which was retired from the front line, also opened its eyes.

Beiyang's age is no less than that of Lu Tiangong. It's already more than 150 years old, but after he broke into Nirvana, he was a lot younger and looked like an old man in his 60s.

The pair of filthy eyes fell on Ye Xuan's body and said: "Who are you?"

When he came back, he actually came to the first line to retreat. It happened to be guarded on the first line of the day, and he went to report Beisheng.

Therefore, he does not know the eternal heart, but does not know that Ye Xuan is the object of Wanbao City and Treasure Hunter.

"My name is Ye Xuan, a disciple of Huoyun Palace. I have something to ask you!" Ye Xuan said directly.

"Fire cloud palace disciple, what's the matter?" Beiyang brow wrinkled, the disciple of Huoyun Palace, how come here?

Chapter 1349: Fighting the world!

This Beiyang experience shows that Ye Xuan is not a broken state, but in the Huoyun Palace, the broken seven is also a foreign disciple, nothing.

"I am going to investigate a thing by the command of the teacher."

Ye Xuan said that two portraits were taken from the Qiankun Ring. Above the portrait, it was the face of Xuan Ming.

After seeing these two people, Beiyang's figure was slightly trembled. Xuan Ming's eyes were pointing at him, let him break the embarrassment of many years, and broke through to the nirvana. How could he not know?

"Have you seen them?" Ye Xuan asked.

"never seen it."

Beiyang did not want to answer a question, and then asked: "What are you looking for?"

"I don't know, but if it can provide clues, reward five hundred nirvana, if you can find someone, reward two thousand nirvana!"

Ye Xuan said openly.

In fact, he is a casual editor.

When the words came out, Beiyang was shocked.

Five hundred nirvana, two thousand nirvana Dan?

Just provide clues and reward five hundred nirvana, which is a good deal.

However, he does not know what it is for Huoyun Palace to find Xuan Ming's eyes. If he is unfavorable to Xuan Ming, if he provides clues, is he not ungrateful?

Moreover, he did not know whether Ye Xuan said it was true. If Ye Xuan's words were used, if he believed it easily, he would live for a hundred and fifty years.

"I don't know them, let's go!"

Beiyang finally made a decision, said to Ye Xuan.

Although the five hundred nirvana Dan is very tempting, but he sent the Xuan Ming double to the master, if it is discovered, he will die without a place of burial.

Not only that, but even the North House that he built with him, even Wanbao City, will be destroyed.

After hearing Beiyang's answer, Ye Xuan's eyes glanced and smiled. "But, how do I hear that you have escorted them and went to the north?"

In this sentence, the wrinkles on the face of Beiyang were shaken like a cliff. He suddenly shot two fine mans and shouted: "Hey, I said I have never seen it, I have never seen it!"

"Let me guess, have you gone to Vacuum City for these two days?"

After Ye Xuan finished, he noticed the expression of Beiyang, and said: "Or, is it the cellar?"

When the three words of Dihao Island fell, he saw Beiyang's eyes and stunned a little.

Although it is only 雲, and the amplitude is very small, it is difficult for most people to find out, but who is Ye Xuan, but he has the eye of insight, although Beiyang is already a strong Nirvana, he can not escape his eyes.

"It turned out to be the cellar island!"

Ye Xuan whispered, now he can confirm, Beiyang is escorting the mysterious doubles to the island.

"Hey, please come back!"

Beiyang did not expect that he had exposed his position and snorted unhappled.

"That can't be done, I want to know who you handed the person to!" Ye Xuan continued to ask.

"Kid, you have already disturbed me to retreat, and you are allowed to leave this place within three seconds, otherwise..." Beiyang blinked.

"Otherwise?" Ye Xuan asked curiously.

Beiyang Shuguang suddenly condensed, and sighed: "Otherwise, even if you are a disciple of Huoyungong, you can't eat it, take it away!"

It seems that Beiyang is already angry.

Although the Huoyun Palace is more powerful than the Wanbao Alliance, Beiyang has now broken through to the Nirvana, and it has also had a relationship with Dihao Island. If Huoyun Palace wants to move him, Dihao Island will not sit idly by.

To put it simply, this time he found a big backing in addition to breaking into the nirvana.

However, Ye Xuan is not afraid of this island.

At this point, he is thinking about a problem.

He already knows the position of Xuan Ming's eyes, so he can avoid this battle.

However, he still has some questions to ask about this North Sea.

"Well, I will not continue to inquire about this, but I still have one thing." Ye Xuan slowly opened.

However, he has not finished, and the Beiyang is directly shooting.

"roll!"

Beiyang angered.

He is now hard to break through to the nirvana, and retreat is the most important thing.

Ye Xuan disturbed his retreat. His heart was very uncomfortable, and he only shot until now, also because of Ye Xuan's identity.

Faced with a punch from the North Sea, Ye Xuan's face was gloomy, and he directly sacrificed the red-yan sword that was forged by the super-phagocytic crystallization to the fourth-order Shangpintongtian, and then smashed it.

"Yanlong is unparalleled!"

A golden dragon screamed out and collided with Beiyang's boxing wind. After a fierce collision between the two, it turned into a wave of waves.

The nirvana is a strong hit, and Ye Xuan has to use magic power. This is the power of Nirvana.

However, the difference between the nirvana and the fragmentation is that there is a new thing in the broken environment.

The name of this new thing is Nirvana. If the attack is combined with this Nirvana fire, it will be very powerful.

Ye Xuan is jealous of this, so he does not want to play against Beiyang for the time being.

"Oh? A little bit tolerant."

Beiyang looked at Ye Xuan with interest.

His hand-picked punch is already stronger than the martial art of the eight-folded warrior. If it is full of punches, the power is comparable to that of the nine-powered warriors.

However, Ye Xuan actually took over, although the use of supernatural powers, but Ye Xuan is still seven.

Facing the horrified gaze of Beiyang, Ye Xuan directly came to the door and asked: "I want to ask, where is the branch of the yin and yang temple?"

"boom!"

When this voice fell, I saw that Beiyang's body trembled.

This problem, but scared him.

The temple of the yin and yang temple?

"Do you say it again?" Beiyang's eyes widened as if he had misunderstood.

"I want to find the yin and yang temple, you should know!" Ye Xuan continued to ask.

"I, should I know?" Beiyang squinted and yelled: "Who are you? Why are you asking?"

"You don't know who I am!" Ye Xuan answered.

However, when he answered this question, it seems to expose something.

"You are not a disciple of Huoyungong. Who are you?"

Beiyang's breath suddenly skyrocketed and was pressed against Ye Xuan's body. The latter only felt that breathing was somewhat difficult. Fortunately, he was not an ordinary person, otherwise he would be suppressed by the suppression.

"If this is the case, then I will not hide it. I know that you used to be a disciple of the yin and yang temple, and my wife was taken away by the yin and yang temple, so I am investigating."

Ye Xuan was helpless. Who let him expose himself and had to admit it.

"boom!"

This one answer is to make the Beiyang tiger body shake.

He is a disciple of the yin and yang temple, even his three sons do not know, however, Ye Xuan actually knows.

This is not representative, has Ye Xuan been in the tomb of Beilin?

Chapter 1350: Nirvana

"You, **** it!"

Beiyang directly ignored Ye Xuan's second half of the sentence. After angering a sentence, he blasted out and prepared to directly kill Ye Xuan.

"Hey, who is born and who is dead, not necessarily!"

Ye Xuan saw that this battle could not be avoided. After a few flashes of light, it was also a sudden shot.

"The killings broke out!"

"Yanlong is unparalleled!"

A golden dragon ran out.

At the same time, there are two figures, one is Tianlong, which is made by Megatron, and the other is the old tree of the Demon Tree.

Both of them are already in the realm of the seven continents, but the Beiyang is a nirvana, which is worse than three realms. Their role may not be very satisfactory.

But this battle Ye Xuan is very cautious, even if the effect is small, as long as there is a role, it is enough.

Ye Xuan suddenly changed the means of two people, so that Beiyang was shocked. Even his strong Nirvana did not notice how Ye Xuan did it.

No matter, this is not important. What is important is that he wants Ye Xuan to die.

"The cloud is in the hands!"

There was no weapon in Beiyang. He shot it directly with a transparent palm and pointed it to Ye Xuan.

"Hey!"

This move directly smashed the leaves of Ye Xuan's Yanlong.

The strength of the intrinsic strength of Nirvana is much stronger than that of Ye Xuan. Ye Xuan estimates that this shot may only be blocked by the double dragon roar.

"The killings broke out!"

"Yanlong is unparalleled!"

Ye Xuan made up a blow, and finally it was to blast this invisible big hand. But at this time, he heard two system prompts.

"Hey, Megatron died!"

"Hey, the Demon Warrior is dead!"

At the same time that Ye Xuan resisted the attack, Megatron and Shulan were already solved by Beiyang, but the next moment, Ye Xuan released them again.

"what?"

Beiyang was shocked. He clearly smashed Megatron and the old tree. How come out now?

It's hard to be done, is he the illusion?

impossible!

He is a nirvana, and Ye Xuan is only a seven-folder. How can he be in illusion?

However, at this time, when Ye Xuan was shocked, he used a magical power that he had just learned.

The next moment, in front of Beiyang, a woman suddenly appeared.

This woman is very familiar with Beiyang, because she is the wife of Beiyang and also his sister Beilin.

"Liner..."

Beiyang's figure was trembled. How could he actually see his wife who had been dead for many years?

Although he knew that this time it was a real illusion, he could miss him and suddenly did not want to break the illusion.

Beilin in the illusion is the appearance of eighteen, cute and lovely. At that time, she had just married Beiyang. Although it has been more than 100 years since then, Beiyang still remembers clearly, Beilin is of every age. There are portraits of the paragraphs.

"brother....."

Bei Lin shouted a little shyly, this voice, Beiyang has not heard for many years.

"Liner..."

Suddenly, Beiyang's eyes were moist.

At this time, a movement of Beilin was a surprise to Beiyang.

Bei Lin in front of him suddenly began to undress and undress his clothes, revealing the skin that is as jade-like.

"Lin, you guys..."

Beiyang was shocked.

Suddenly, a thought flashed in his mind.

Charming?

This is not an ordinary illusion, but the charm of his own creation!

When he was in the middle of illusion, Ye Xuan launched an attack directly.

"The killings broke out!"

"Yanlong is unparalleled!"

Another golden dragon screamed away, but it was not shown in the illusion.

Beiyang can't see it, but he can feel it.

"The cloud is in the hands!"

Beiyang was shot with a palm, and the golden dragon was beaten away. At the same time, the naked Beilin was also blasted.

"Liner..."

Beiyang was very sad because he saw Beilin very hard, but he knew that it was a fake.

Now, he can be sure that Ye Xuan has entered the tomb of Beilin.

As for how to get in, he has to say Ye Xuan down first.

Ye Xuan is not so broken, but he can let him illusion. If he controls Ye Xuan, then he may see Beilin in the illusion.

Although the two only played twice, but Ye Xuan has already understood the strength of the Nirvana, if Beiyang uses the Nirvana industry, he is absolutely unable to stop.

"The blade storm and the madness sweeping once every three days, if you use it now, if you are in danger on the island, you won't be able to use it!"

Ye Xuan thought in her heart.

He is very entangled, whether in the end or not to fight this Beiyang, so that you can look at the true strength of the nirvana.

However, even if you kill Beiyang, you can't get much. After all, Beiyang just broke through to Nirvana, and his family is not a lot.

"No, this Beiyang has successfully escorted the mysterious scorpion to the Dijima Island. It is sure to get a lot of rewards, kill him, maybe you can break through to the broken eight!"

Thinking of this, Ye Xuan's eyes could not help but shine.

The blade storm and the madness sweep the three-day cooldown, but as long as he breaks through to the broken eight, it is safer to have these two cards than the seven.

So he decided to use it!

"Megatron, the tree is old, let's go!"

After making a decision in his heart, Ye Xuan is drinking a big sentence.

The next moment, the wind is coming!

"Shenmu prison!"

In the blink of an eye, there was a huge prisoner that wrapped Ye Xuan and Beiyang.

Then, a sharp vine was pierced, and there were tens of thousands of roots, hitting the North Sea.

"What the hell?"

Beiyang was shocked and hurriedly transported the infuriating and Vientiane forces to resist, directly blocking the round of sharp vines outside.

However, there is another danger approaching at the moment.

"Sharp storm!"

A **** sword with a handle is turned into a stream of the North Sea.

With the two big moves, even if it is the Beiyang of Nirvana, it can't stop it.

"Damn, it can force me to this point!" Beiyang's face sank, and suddenly called another energy in the body.

Nirvana industry fire!

The three elements of the infuriating, the power of Vientiane and the Nirvana industry are condensed together and turned into a set of flame barriers. All the blood swords that have been stabbed are burned into fly ash.

"Using the eternal fire of the fire for a few days, Megatron can still not stop this Nirvana fire..."

Ye Xuan eyes a glimpse.

Nirvana can be combined with different fires, not only can get the ability of different fires, but also can greatly enhance the body, the most important thing is that it can enhance the power of this Nirvana industry.

It is a pity that the Megatron world is too low. If it is a broken eight, it can withstand the Nirvana industry.

There are barriers to the Nirvana fire, the seven-blade blade storm and the arrogant sweeping are not hurting the Beiyang, but also because these two cards appeared, they forced Beiyang to use the Nirvana industry.
