

Super D. S 1351

Chapter 1351: cut!

"The strength of the Nirvana industry is different from that of Vientiane. It will be exhausted like the real gas. I have to see how long you can last!"

Ye Xuan blinked and directly released his last card.

Fall!

"Since the change, I haven't played well yet. This time let the young master see, my strength now!"

Falling and laughing, the figure began to flash, and they appeared one after another.

Some of her avatars before were phantoms, some were energy avatars, and only one was the deity.

However, now, her one hundred and eight avatars, there are actually one hundred and seven avatars formed by the power of infuriating and Vientiane.

"Spiritual magical powers, net lotus demon!"

The fallen deity and one hundred and seven avatars are all out together, directly condensing a true lotus flower and kneeling down.

This trick was learned after the change and is still used for the first time.

This transparent lotus flower like a meteorite fell, and this power was even shocked by Ye Xuan. After Beiyang saw it, he did not dare to neglect, and he shot it out and prepared to crush this huge lotus flower.

This palm, combined with the Nirvana industry fire, is the strongest attack of Beiyang.

The lotus and the giant palm collided, and the two strong attacks were mutually exclusive. Finally, the explosion broke out, and the resulting turbulence swept away. It even smashed the arrogance and even the Shenmu prison to collapse.

Beiyang was shocked. He didn't expect the trick of falling, and he was able to fight against his strongest attack. It was incredible.

Fortunately, this turmoil has smashed the arrogance and the blade storm, and he temporarily got out of trouble.

However, at this time, he found that Ye Xuan was gone.

"What about people?"

Beiyang's eyes widened and he was looking around for Ye Xuan's trace. I don't know, Ye Xuan has come behind him.

"Death chase!"

"The eye of assassination!"

"The killings broke out!"

"Yanlong is unparalleled!"

A golden dragon screamed out and directly swallowed Beiyang. At the same time, there was a fierce attack in this golden dragon.

"The Eye of the Burst!"

A crisp sound was overshadowed by the sound of the screaming dragon, but the eye of this ruin was actually hurting Beiyang.

With the insightful eye, Ye Xuan saw Beiyang escape from birth at the expense of an arm.

In order to cope with the falling attacks, Beiyang consumed a lot of infuriating and Nirvana fires, followed by Ye Xuan's sneak attack. The reaction was slow, which caused the lack of infuriating. The protection was first broken by the Golden Dragon, then The broken eye gave off an arm.

At this moment, he has not dared to despise Ye Xuan.

A few of the seven-story battle force, even the super master of his nirvana is forced to this level, has been very successful.

However, Ye Xuan's goal is not only to seriously harm the Beiyang, but to kill.

Just as Beiyang was shocked, the one hundred and eight figures in the air suddenly turned into a golden flash and hit the North Sea.

This one hundred and eighty falls, not the nine flashes of reincarnation, but the ordinary demon foxes, but one hundred and eighty of the one hundred and eighty falls are infuriating, they are dead, There will be no damage if it falls.

"Damn, Nirvana!"

The Beiyang quickly gathered up the infuriating spirit, and laid out the protection of the Nirvana fire outside the body. Then, one by one, the infuriating body was hit by this and then burned out.

The protection of the Nirvana fire is not something that ordinary people can break, but Ye Xuan has a trick for this kind of energy.

"The Eye of the Burst!"

"Hey!"

The protection of the Nirvana fire was actually broken by Ye Xuan, and then a petite figure fell into it.

"Oh!"

Only heard a crisp sound spread, the protection of the Nirvana fire disappeared, and all disappeared.

And Beiyang's head has been thrown to the plane and thrown away.

"Hey, the host's killing value is improved!"

This system prompts that the Beiyang is already being killed, a strong Nirvana, and it has fallen.

Although this Beiyang is a strong Nirvana, he only broke through, and it takes at least a few days or even half a month to consolidate, so his strength is the lowest in the nirvana.

It is precisely because of this that Ye Xuan joined forces to kill, otherwise it will be hard to fight for a while, whether it is not necessary to kill.

At the moment, Ye Xuan is swiftly rushing over, taking Beiyang's body and Qiang Kun's death, and the body can be thrown to the devouring beast. After all, this is the body of a nirvana.

"Hey, the host breaks through, and it's currently a broken place!"

"Hey, Megatron's breakthrough, the current is a broken eight!"

"Hey, Megatron's breakthrough, the current is a broken nine!"

This Beiyang did get a lot of good things, and what Ye Xuan didn't think was that there was still a fifth-order device for the sky, but unfortunately Beiyang didn't like to make the sword, so he didn't use it.

In this way, it is cheaper Megatron.

This Beiyang knows that Xuan Ming's eyes are handed over to someone on Diji Island, but Ye Xuan is not worried now. As long as he goes to Diji Island, he can't find out the eyes of the soul.

However, before he went to the island, he heard a system sound.

"Hey, swallowing the beast is a success!"

After eating so many corpses, this devourer was finally successful, but after Ye Xuan saw this intermediate devourer to advanced to the advanced devourer experience, there is nothing to say.

The experience of upgrading to the intermediate level is actually less than one ten thousandth of the intermediate level to the upper level.

Ye Xuan remembers that when he captured this subordinate swallowing beast, it was fourfold, and this subordinate swallowing beast was already 80% advanced experience.

Then, he broke through from the broken four to the eightfold, and did not know how many enemy bodies were lost. However, this subordinate devourer has only improved the experience by 20%.

From this, it can be seen how much experience is gained from the promotion of the intermediate devourer to the superior devourer.

"It's terrible. I'm afraid that the devouring beast has existed for a few years. It's not easy to improve to 80% of the experience. If you forget, don't continue to feed him."

Ye Xuan thought about it and made a decision directly.

Devouring!

"Hey, the host swallowed an intermediate swallowing beast and got two points to swallow!"

The system prompts.

From the intermediate level of engulfing the beast to the superior to swallow the beast, there is too much experience. The far-water can't save the near-fire. Ye Xuan still understands, so it is directly swallowed, without hesitation.

Now, he got two more points to swallow.

"After a little swallowing point, you can combine the blood of the **** of life and the blood of the twins to create a new blood!"

Ye Xuan thought in his heart.

Chapter 1352: Blood fusion!

Six blood veins have been picked up, and the level of these six blood vessels has been upgraded to the highest level of the hyperphagic system convertibility. If you want to continue to improve, you have to integrate.

However, there is still a little bit of phagocytosis.

Therefore, he is thinking about waiting for the next random task to appear, or do something else, for example, to recover skills.

"Megatron is now a skill, that is, the blade storm. This skill has room for improvement. The tree has two skills, one is arrogant and the other is Shenmu prison..."

Ye Xuan thought in his heart and finally made a decision.

This limited skill of Shenmu Prison seems to be not very easy to use. After all, he is fighting in the leapfrog, so the Shenmu prison is generally used in conjunction with the arrogant sweeping, which is a waste.

"Well, just recycle the skill of the gods!"

After making the decision, Ye Xuan did this directly, when he lost a skill, got a little swallowed beast, and then merged with the blood.

"Hey, the Shenmu prison is recycled, and the host gets a little swallow!"

When the system prompts the sound, Ye Xuan is glanced at the panel. At this time, he has three points to swallow.

Then, the next step is to carry out the cheapest auxiliary blood circulation. I don't know, what blood will appear?

"Hey, the blood of the **** of life and the blood of the twins, it takes three points to swallow, is it confirmed?"

Hearing this, Ye Xuan also paused and replied: "Confirm!"

"Hey, the blood begins to merge..."

"Hey, the progress of blood fusion is 10%!"

"Hey, the progress of blood fusion is 20%!"

.....

"Hey, the progress of blood fusion is 80%!"

"Hey, the progress of blood fusion is 90%!"

Ye Xuan breathed his heart, and his heart was awkward.

This blood fusion system turned out to be random. He thought that he could watch the new blood effect after the fusion, so that he could be psychologically prepared.

"Hey, the progress of blood fusion is 100%!"

"Blood fusion is successful!"

"Does the host get the blood of the undead, is it immediately integrated?"

Ye Xuan's brows are picking up, and there is no new power in the blood of the gods.

At the moment, he immediately replied: "Yes!"

"Hey, the blood of the undead phoenix is successful!"

The system prompts.

Ye Xuan was in a hurry and squinted, and found that the extension column of the auxiliary blood and auxiliary blood vessels had been merged. Now his auxiliary blood is called the blood of the undead.

The blood fusion system combines two blood vessels, and in general, it has the ability to fuse the first two blood vessels.

There are only two advanced routes for the blood of the undead, and it is very simple.

"Undead avatar: the current avatar is three, the double fit enhances 60% of the combat power, and the triple fit improves the octave combat power. If a avatar is degraded, you can use the swallowing point to resurrect."

"Bathing Rebirth: Superior recovery speed and toxin resistance, and increased fire resistance and the power of fire skills."

This undead phoenix blood is also a avatar effect, called undead avatar, that is to say, Ye Xuan can still have a deity and two avatars, but also have the ability to improve the combat power. The most important thing is that if the avatar is dead now, he can be resurrected with a swallowing point. The first resurrection is only a little swallowing point.

Ye Xuan remembers that before the blood is merged, the double fusion is to enhance the combat strength of 50%, and the triple fusion is to improve the six combat strength. Now, the double integration of the undead phoenix has increased by 10%, and the triple integration has increased by 20%.

As for the reincarnation of the bathing fire, there are two more effects, one is flame resistance and the other is the power of flame skill.

This means that Ye Xuan's Yanlong Wushuang and Shuanglong roaring are stronger than before.

Before, the recovery speed and poison resistance of the life tree were separate. They were two advanced routes, and now they are merged into one, and there are two more.

This is the new blood after the blood is merged, not dying!

"Okay, that's great. There are two advanced routes. If I get the swallowing point in the future, if I strengthen one, I can improve a lot of combat power."

Ye Xuan is overjoyed.

There are four advanced routes for the blood of the **** of life and the blood of the twins. Now it is two, so convenient.

However, this advanced route, which is not dead, must be advanced three times, and he will get a new avatar. This is a bit helpless, but it is much better than the previous five-point swallowing point.

Then, he focused his attention on the blood of this undead, and found that this blood is the blood of the immortal.

"Is it a fairy?"

Ye Xuan's eyes glanced.

Heavenly fairy, glass fairy, fairy blood...

In the past, he heard that the immortals are also those in the heavens. It is difficult to achieve this. Is there a world?

"But, I don't want to, I am now broken, I want to do so much?"

Ye Xuan shook his head and no longer looked for trouble.

Now he has merged the two auxiliary blood vessels, but the two blood vessels are merged, so he can only have one auxiliary bloodline now. If he wants to come again, he has to buy the auxiliary blood extension column.

However, after seeing the power of the blood of the undead, he was a little bit eager to merge the two physiques.

I don't know, what kind of powerful blood will you get when you combine the blood of the beast and the blood of the gods?

However, assisted blood fusion requires three points of phagocytosis, but the body blood is fused, and more than three points can be swallowed.

Even if Megatron's blade storm and the old man's arrogance are recovered, it's just a four-point swallow, and it's not enough to integrate the physical blood.

"It's time to go!"

Ye Xuan looked at the north and broke open the void directly to the island of the day.

Before he was already on the island, but Megatron came to the news that Beiyang was returning, so he broke open the void.

"Now my blade storm and arrogant sweeping are cooling, but I have already broken through to the top of the broken world. I also have the confidence to face the Nirvana. I must investigate the position of the mysterious doubles as soon as possible, so as not to leave."

Ye Xuan thought in his heart, that is, vacated and flew toward the front of the island.

The terrain here is also a bit strange, obviously in the Holy Land, but there is a sea.

This sea area is called an ice-free sea area, that is, it will not freeze. Even if you use the power of Vientiane, there is still an invisible force in this sea area. Any entrant can't walk empty.

Ye Xuan didn't understand this and plunged in directly. After he flew off the coast, he suddenly felt a huge pressure.

This pressure has made his heart sink.

Chapter 1353: Mantle Island

"Ok?"

Ye Xuan brows a pick, the whole person fell into the sea, and he also instantly understood, there is a banned array.

"Young man, there is a ban on the ice-free sea. If you want to go to the island, you have to take the boat."

An old figure came from afar. Ye Xuan turned around and found that he was an old man fishing.

He ignored this sentence and then called the infuriating and the power of Vientiane, only to find that the sea could not condense into ice.

"It's weird..."

Ye Xuan is very surprised.

The power of Vientiane can be turned into flames, thunder and so on. Now it is impossible to connect ice. This sea area is really tricky.

"This is called an ice-free sea. It seems to be no good..."

Ye Xuan thought about it, and made a boat out of the swallowing space, ready to advance to the island.

But at this moment, the old man continued: "Young man, there are a lot of whirlpools between the islands and the islands. Even if the Nirvana is involved, it is also a life of nine deaths. Only senior boatmen can avoid these whirlpools."

"Swirling, Nirvana?"

When Ye Xuan heard this, she felt a bit strange. Was it caught in a whirlpool and couldn't escape?

Nirvana is also a strong life, this is too fake!

However, this old man said it was really the same, and Ye Xuan couldn't help but turn around and look at it.

"Ok?"

This look made Ye Xuan startled.

Only when he saw the old man who was fishing was only seven-folded, but now he couldn't see it.

"I rub, Nirvana?"

Ye Xuan's eyes widened and it felt incredible.

At the beginning, it was a seven-fold situation. Now it is suddenly in the Nirvana. What is this old man?

"Predecessors, what you said is true?"

Ye Xuan could not help but ask.

"Yes, if you don't believe it, you can ask, there is a port on the east side of the road to go to the island of the island." The old man replied.

"Thank you!"

Ye Xuan thanked a sentence, then used the power of Vientiane to push the boat to the coast, and then went to the port in the mouth of the fishing veteran.

Soon, he came to this port.

This port is called the Daxie Port. In addition to going to the island of Dijon, it can also cross the ice-free waters, but this crossing the ice-free waters only once a month.

When Ye Xuan went to the port, someone immediately went forward and asked if he was going to the island. After Ye Xuan nodded, he reported the price for convenience.

This little money is nothing for Ye Xuan.

The island is actually a sectarian power, but the outer island can be used by other people, so the land can be visited by anyone, as long as there is money.

Ye Xuan's boatman has had three years of sailing experience, and there has been no mistake. Of course, this is not 100% safe. After all, there will be new whirlpools from time to time in the ice-free waters. If it happens to be formed at the foot, it can only be a bad life.

With Ye Xuan, there are two disciples of the Dimension, all of which are the seven realms of the broken state. They are not old, they are all in their twenties, and they are estimated to be only foreign disciples.

They just got on the boat, they were controlled by Ye Xuan, and God did not know.

Not only that, but even the seven-handed boatman was also controlled by Ye Xuan.

The ship is small, after all, only four people ride, and in this ice-free sea, the smaller the ship, the safer it is, the easier it is to escape the whirlpool.

After the ship was driven, Ye Xuan also took out two portraits from the phagocytic space.

"Did you three see them?"

Ye Xuan asked.

The disciples of the two cellars shook their heads one after another, but the boatman, however, his eyes lit up and said: "I have seen them, they seem to have been taken by my father to the island."

"Your father?"

Hearing this, Ye Xuan's eyes glanced and asked, "Where is your father?"

"My father started an hour earlier than me, and now it is estimated that he has arrived at the island."

The middle-aged boatman replied.

"One hour?"

Ye Xuan turned his head and looked at it. This place is not far from the island of Dalat. Why do you have an hour to arrive?

"It took only ten minutes to get there, but suddenly there was a big whirlpool on the way, so I could only walk around the distance." The middle-aged boatman immediately replied.

"Well, after you arrive at the island, you find your father immediately."

Ye Xuan nodded, and then transferred the topic: "This ice-free sea, why the sea does not freeze, and there is a banned array, I heard that even if the Nirvana strong is caught in the whirlpool, it is also a life of nine deaths? "

"The sea does not freeze and cannot fly. I don't know these two issues. However, this whirlpool is said to be caused by some powerful scorpions. They hide in the seabed to create whirlpools. Any creatures that are involved will be They gave up." The middle-aged boatman replied.

"It turns out!"

Ye Xuan suddenly understood, he thought that these vortexes are naturally formed.

"This is no ice, the heavier the water, the more you say that even if the Nirvana is strong, the strength will fall to the top of the broken, let alone other people." The middle-aged boatman continued.

"Then we won't touch these whirlpools?" Ye Xuan also asked with some concern.

These whirlpools are caused by the Tongtian beast. If it is a Nirvana of the Nirvana, then even his estimate is difficult to come out. At that time, it will be swallowed.

"The owner please rest assured that the group of swirling beasts underneath, the place is regular, the master of the cellar door infers that there will be no whirlpool in the last few days." The middle-aged boatman solemnly said.

"That's good!"

Ye Xuan nodded.

To be honest, there has always been an unpredictable hunch in his heart, probably because it is an ice-free sea.

Hope, there won't be anything!

Fortunately, his taboo 'turning ship' incident did not happen. The middle-aged boatman successfully took him around all the big and small vortexes and successfully landed on the island.

"What about your father?"

After leaving the ship, Ye Xuan also asked directly.

The middle-aged boatman looked around and shook his head. "My father is not there, and maybe he has left. The route to the island is not the same as the departure route."

"If this is the case, then forget it!"

Ye Xuan sighed and said to the two disciples who were in the middle of the broken ground: "Take me to the door!"

"Yes!"

The disciples of the two cellars nodded, and then they left the port and entered the forest.

Then, Ye Xuan is letting a disciple leave, and he is ready to pretend to be the face of this disciple, enter the cellar door, and investigate the things of Xuan Ming.

The cellar gate is capable of competing with the Huoyun Palace. It has a lot of nirvana and has a rich heritage.

I heard that they will refine a kind of mandarin, which can greatly improve the cultivation.

Chapter 1354: Mantle change

When Ye Xuan listened to the disciple, he said that he had subconsciously searched the super-phagocytic system and found that the super-phagocytic system could not be exchanged. However, he had the refining Danfang of this place.

"The earthworms are made from the smell of a strange Tongtian beast. This kind of heavenly beast is called the earthworm, and the breath they emit is called helium. If the average person is infected by this gas, it will rapidly affecting the heart..."

Ye Xuan brows a pick.

This place can be refining the shackles of the land, indicating that there is a cellar in the cellar.

However, the earthworms are very dangerous. The sects are often not protected, and they are infested with suffocation, causing the whole sect to kill each other.

At this time, Ye Xuan also flashed an idea, as long as he let him grab a cellar, then he can get the cellar into the planting space to cultivate, and then you can continue to manufacture the land.

The medicinal herbs exchanged in the super-phagocytic system cannot be swallowed by himself, but the medicinal herbs he refines are ok.

In short, this place is also useful to him!

Thinking about it, the disciple of the cellar door took him to the cellar door.

However, just as they were about to arrive, they found that the cellar door had changed dramatically.

In the distance, there were constant bangs and screams.

"Is it..."

Ye Xuan's brow was picked, and he was still thinking about this problem. Is it hard to achieve it now?

If it is true, then his luck is really good!

"go!"

At the moment, Ye Xuan is speeding up his pace, and when he arrives, he really sees a riot of the earth.

Everyone is killing, the corpses are everywhere, and the screams are repeated.

At the same time, there are those arrogant laughter.

"Ha ha ha, Master Chen, are you not very powerful, how can you be so weak."

"Why protect the law, you still protect the law, even my disciples can't beat, you are better off killing."

"I have been trained to be a 36-point sword. Even if I am a disciple, I will be shackled under the sword. I will become the first strongman in the cellar!"

A mad voice fell into Ye Xuan's ear.

When I heard this, Ye Xuan knew it all at once, and what he had guessed was really happening.

Of course, let him be sure that the invisible atmosphere of the door is full of anger.

This door has been covered up by suffocation, and everyone is afraid that it will be affected.

At the same time, Ye Xuan also distinguishes that this is a madness, that is, it can make people become angry, violent and barbaric.

In addition, there are seven in total, including anger, sorrow, hate, suspicion, fear, and pride.

If it is a comparison, the madness is the most terrible of the seven.

Because once this kind of suffocation affects the mind, as long as there are people around, almost all will live and die.

Compared to the madness, the suspicion and the shackles are much better.

anyway.

Now that the door has burst out of suffocation, it seems that some accidents occurred while raising the cellar.

Ye Xuan looked at the door that had become a mess in front of him, and suddenly there was a system prompting the sound in his mind.

"Hey, the host triggers serial random tasks, the first ring mission, and cleans up the martyrdom of the savage smugglers. The number is one thousand, and the required boundary must not be lower than the seven-fold, the time is ten minutes!"

After listening to it, Ye Xuan's figure trembled.

It turned out to be a random random task, which is really great!

"At least a thousand realms are not against the smashing of the seven-story martial arts?"

Ye Xuan's eyes slammed, and his body suddenly burst out, falling, Megatron, and trees.

In addition, he also used the eyes of the mind to control several ground-breaking mantle guards.

ten minutes?

too long!

Megatron is already a nine-folder, and it's really hard to kill the seven-fold and eight-armed warriors.

Although the old tree is still seven-fold, it is not enough to deal with the broken nine, but it is not a problem to clean up some low realms.

As for the fall, let alone the nine-tailed martial artist who is fascinating and ruthless.

In a few seconds, Ye Xuan camp has more than 50 helpers. After a while, the first task of this random task is completed.

"Hey, the host completed the first ring of serial random tasks!"

"Hey, the second ring of the chain immediately triggers, killing three elders who are infested with madness!"

Wen Yan, Ye Xuan's brow pick.

The elders of the cellar door can be at the level of Nirvana, and they have to kill three?

Ye Xuan glanced at it, and he found that the task time was the first ring time, only nine minutes left.

"I am going to kill the elders of the three niches in nine minutes..."

Ye Xuan screamed in his heart, but fortunately he broke through to the ruthless eight, otherwise it would not be the task.

"No, no, now the elders are being invaded by madness, affecting the mind, and only savagely attacking, but I can sneak attack!"

Ye Xuan brows a pick.

This madness can't affect him at all, and even a few of them are fine, let alone him.

If the outbreak is suspicious, everyone is suspicious, sneak attack is impossible, but this time it is a mad madness.

"There are two breaths of nirvana..."

Ye Xuan turned his head and looked into the distance.

At the moment, he plundered.

These two niches, the elders of the earthen door, should be fighting, so that Ye Xuan can sneak in the past.

"Ha ha ha, Elder Chou, are you not breaking through to Nirvana earlier than me, is it so weak now?"

"Elder Lin, you are being infested with suffocation, you must calm down as soon as possible, otherwise you will be enchanted!"

An old man persuaded while regressing.

Ye Xuan in the distance heard this, but it was a bit strange. This elder of the hill was not invaded by the madness of the madness, or was awake.

However, he estimated that the elders of this hill could not support the time. After all, he had to resist the attack of the elders of the forest while resisting the intrusion of madness.

The most important thing is to beware of any other loss of rational elders around him. If he is besieged, he will die.

"This elder is not affected by the madness of the mind..."

Ye Xuan has some hesitation in his heart.

He thought that two elders who lost their senses were fighting, but they didn't expect one.

In addition, the elders of the hills are still sensible, so he is not good at it.

However, at this time, a muffled sound suddenly came from afar, and the elders of the hill were shot by the elders of Lin. After a spurt of blood, they flew out.

At the same time, the madness around him was also inhaled by him, which quickly affected his mind.

Chapter 1355: Killing feast

"Lin Heng, I want to kill you!"

Elder Qiu suddenly screamed and killed the past.

In the blink of an eye, he became very violent like a person.

Upon seeing it, the hesitation in Ye Xuan's heart suddenly turned into nothing, and it seems that the elders of this hill have also been affected by the madness of madness.

In this case, then both kill!

At the moment, he is quietly plundering behind the elders of Lin. He is not so broken, and naturally he will not be looked at by both.

As a result, the success rate of his sneak attack is as high as 80%!

Although there is no flight in the ice-free sea area, but on the mantle island, Ye Xuan flies at a low altitude and quietly breaks into a nearby shadow.

"Boom!" "Boom!" "Boom!"

Elder Qiu and Elder Lin played very fiercely, and Ye Xuan hid in the darkness, ready to attack.

"Hey!"

At this time, Elder Qiu suddenly was shot by Lin Chang, and he was injured after all, and he was in a downturn.

This scene fell into the eyes of Ye Xuan, letting him burst out and shoot two fine mans.

good chance!

"call out!"

Suddenly, Ye Xuan was like a cannonball, and the red sword in his hand was tightly gripped.

"The killings broke out!"

"Yanlong is unparalleled!"

After the integration of the blood of the undead, the power of the dragon has been greatly improved, and it is estimated that it is comparable to the previous double dragon roar.

Upon hearing the whistling sound, Lin's elder brows up and turns to look at it, it is already engulfed by the golden dragon.

"Calling!"

The golden dragons swallowed the elders of the forest, but the elders of Lin called the Nirvana fire protection at the previous moment. However, Ye Xuan's yin can be quite a lot.

After hearing the sound of ‘嘭’, the abdomen of the golden dragon was the scream of the elder Lin.

In the belly of the golden dragon, there is still a shattered eye. The elders of the forest are destroyed by the eyes of the Nirvana fire, and then burned by the golden dragon.

When the golden dragon smoke disappeared, there was another golden flash on the side.

"call out!"

"call out!"

"call out!"

The reincarnation is nine flashes, the fourth flash!

"call out!"

"Oh!"

The landing used three rounds of flashback acceleration, and cut the head of the forest elder with the fourth flash of reincarnation.

"Hey, the host's killing value is improved!"

A system prompts the sound, and Ye Xuan's killing value has been smashed up. When he accepts the elders of this forest, he will even rise.

Lin Elder is dead, then, the turn is this is also the madness of the madness to affect the mind of the elders.

"dead!"

Ms. Qiu's anger was transferred to Ye Xuan's body and rushed toward him.

"Hundreds of monsters and foxes!"

"Spiritual magical powers, net lotus demon!"

A huge lotus flower fell and squatted toward the elders.

Ms. Qiu's face was gloomy, and he shot a giant palm of fire.

"Hey!"

The two infuriating collisions, the waves are rolling, but this time it is not evenly matched, but the elders of the hills are slightly better.

The last time it landed and the Beiyang was leveled, it was because Beiyang had just broken through to the Nirvana, and the elders of this hill had already broken through for some years. Unless the fall breaks through to the broken eight, the attacking power is still stronger.

At the time when the net lotus demon fell, Ye Xuan was already shot.

"The killings broke out!"

"Yanlong is unparalleled!"

Another golden dragon is roaring out.

The blood of the sword **** and the blood of the undead gods have increased the attack power of the golden dragon.

Elder Qiu just used the Nirvana industry fire. This time, he was able to call it very little. He punched his left fist and hit a fist and a golden dragon.

"Boom!"

The golden dragon burst open and a golden sniper plucked from it.

The eye of the burst!

Fang Cailin's elders ate a second loss. Although Qiu's elders were affected by his mind, he was not stupid.

"call out!"

The sniper slammed the elders of the hills, but Ye Xuan had a backhand.

"Huh!"

After the elders of the hills escaped from the ruin, they found that the wind did not go far, but quickly approached.

"Oh!"

Only heard the crisp sound spread, the earthquake sword directly penetrated into the chest of the elders of the hills, and then, the earthquake sword protruded from numerous spikes, and the heart and other organs of the elders were stabbed into a sieve.

"puff!"

Elder Qiu couldn't help but spurt a blood, and after seeing Ye Xuan, it was a white, falling from the air.

"Hey, the host's killing value is improved!"

Ye Xuan's killing value has skyrocketed.

"This time, if I don't break through to the narrowness of the situation, I will give it to the squad, and I can get a little more to swallow it!"

Ye Xuan's eyes lit up.

The people in the cellars are almost infested with madness and violentness. If they are allowed to leave the island, the surrounding family forces will be destroyed.

However, this second ring mission is to kill the three elders of the Nirvana, then the third ring is more difficult, if you do not break through, I do not know whether it can be completed.

In order to swallow the point, lost this serial random task, it is really a big loss!

"Forget it, let's take a look!"

Ye Xuan plucked over and took down the elders of Qiu, and there were a lot of things inside, but not enough for him to break through.

The second ring of the serial random task has already completed two-thirds, as long as you kill another elder in a niche.

Ye Xuan began to wander around, and with his extraordinary perception, he quickly found the third nirvana.

What made him helpless was that the elders of the third nirvana, who were in the middle of the massacre, were actually guarding the law and elite disciples in the massacre, and they were not happy.

"No, I am elder, don't kill me, I don't..."

"Fast, fast running, has lost reason!"

"You are a group of rabbits, thinking about being lazy every day, letting you die!"

The elders laughed and began to kill.

At this time, Ye Xuan has already looted behind the elders of this elder, ready to attack.

Ye Xuan is only a broken eight, and the elders of the elders are chasing two elite disciples who are divided into nine places. Ye Xuan naturally will not be seen by him.

"The killings broke out!"

"Yanlong is unparalleled!"

After staring at the opportunity, Ye Xuan is directly shooting, this time, it is still three overlapping plus.

"what?"

The elders turned their heads and quickly took out a sword.

"Booming!"

The golden dragon was defeated, but the elders scorned Ye Xuan.

"call out!"

The sniper attacked and the head of the elder was cut off.

"Hey, the host's killing value is improved!"

The system prompts.

Ye Xuan swiftly swept over and took over the elders of the elders.

As for the two elite disciples who were chased, they were controlled by Ye Xuan's eyes.

Ye Xuan now, is strengthening his own team, when it is necessary, you can use the killing feast.

Chapter 1356: Serial random task

"Hey, the second ring of the random task is completed!"

"Hey, the host triggers the third ring of the random task of the chain, killing the door of the cellar that is attached to the cellar!"

Hearing this, Ye Xuan's brow was picked, and the task of the third link was not so simple.

The owner of the cellar door is probably the master of Nirvana. If he does not break through, it is difficult to be an enemy.

"The mantle is a very strange scorpion beast. The whole body is made up of suffocating suffocation. Now the doorkeeper of this place is actually possessed by the mantle. I am afraid it is difficult to deal with..."

Ye Xuan swallowed it.

Emotions sometimes increase strength, so this madness is very difficult.

Moreover, Ye Xuan does not know how many of this madness is in the end. If there are several, then it will be troublesome.

"In any case, time is only nine minutes left. If you can't kill the doorkeeper in these nine minutes, you will lose!"

Ye Xuan thought about it and made a decision.

This point of killing the upper limit of the exchange of the swallowing point, must not!

"Falling, Megatron, and old trees, catching some people who have been invaded by madness, I am going to kill the young master!"

Ye Xuan said to the three.

"it is good!"

The three of them agreed.

Not only that, but also the masters who are under the control of Ye Xuan and the fall of the eight-fold, nine-fold.

As for Ye Xuan himself, it is natural to go to the elders at the Nirvana level. It is best to find one or two. When the time is to kill the feast, then the increase will increase a lot.

Time is tight, and now Ye Xuan is a figure flashing, plunging into the depths of the door.

He can see that there is a sigh of suffocation in the depths of the cellar door. I am afraid that the door of the door is there.

Ten seconds later, he felt a few strong breaths.

"The three niches are one heavy, one nirvana is double..."

Ye Xuan's heart trembled. It seems that the two warriors in Nirvana are the gatekeepers of the Dim Gate.

In fact, the establishment of the cellar door is not long. Compared with the Huoyun Palace, the strong will be less, but they can refine the land, so they have created a master of nirvana, which is the master of the cellar.

Ye Xuan looked at the eyes of the big and distant, and found that the door of the door, the commander of the three niches.

"After the door of the gate was attached to the mantle, it was possible to control the three elders who were invaded by madness..."

Ye Xuan was shocked.

In this case, it would be terrible.

In the distance, in addition to these four people, there is also a dark cave. At this time, the cave is constantly flowing out of the air to spread around.

Ye Xuan blocked the suffocating gas with the power of infuriating and Vientiane, so he was spared.

Now, he is a little tricky. There are actually three elders with a nirvana. It is hard to clean up, let alone the doorkeeper who is possessed by the cellar.

"The only way to do this is to take the three people away and kill them with a killing feast. When the time breaks, I will have the ability to fight with the doorkeepers!"

When Ye Xuan wanted to finish, he left again.

The entrance to the mantle is always a genius, so there are not many people in the door, only tens of thousands.

However, since the outbreak of hernia, few people have been spared. At this moment, there are only three or four thousand people left, and one hundred of them are controlled by Ye Xuan and Luo.

If Xuan Ming's eyes don't leave, it's estimated to be dead, so Ye Xuan didn't pay much attention to it. The ghost knows which corner of Xuan Ming's eyes died, he has no time to search.

When he returned to the Dimens Gate Square, the three people who had fallen were already catching hundreds of people. After Ye Xuan thought about it, he was hands-on.

This time is crucial. If you are unsuccessful, you will become a benevolent person. Anyway, there will be more than eight minutes of task time.

However, when Ye Xuan caught more than four hundred people who were invaded by the suffocation and affected the mental masters of the martial arts, the three elders of the back mountain suddenly appeared.

Then, these people suddenly stopped.

"Ok?"

Ye Xuan brows a pick, immediately swept with the eye of the insight, found that the three nirvana of the earthen door of the elders in the body of the suffocating are more amazing, ten times before the forest elders.

"These three, I am afraid that I have become a powerful servant, and I began to control the disciples of these cellars..."

Ye Xuan's flash of light flashed in his mind: "Do it!"

"Killing feast!"

His light flashed and the killing began!

"Young Master, just wait for you!"

Falling into a small peach mouth, immediately turned out hundreds of avatars, and then condensed a net lotus demon fire, kneel.

Suddenly, the hundreds of elites who were caught were directly burned into fly ash.

The increase in Ye Xuan's killing feast has doubled up in an instant.

But this is not enough!

"You continue, I am doing these three!" Ye Xuan gave a low drink, such as a string of arrows from the string.

The strongmen of the three nirvana scenes flashed a few times. Then, the two or three thousand people around them were in the same position as Ye Xuan.

"Sure enough, come on!"

Ye Xuan reacted.

Even if they are the four nails, what about?

Here, there are three elders with a nirvana, and the rest are all broken, and the three are not at all.

"The killings broke out!"

"Yanlong is unparalleled!"

Ye Xuan was holding a red sword and pulled out. A golden dragon screamed out.

But this time, the size of the Golden Dragon is three times larger than before.

In addition to the increase in the killing feast, Ye Xuan also exchanged a burning Tiandan, the power of the flame skill, greatly increased, coupled with the flame attack of the blood of the undead, the power of this move is huge.

However, these three niche elders, the strength is just second to the door of the door, coupled with the huge body of the body, so that their fighting power increased.

"Kid, die!"

The three men shouted in unison and attacked wildly.

Although Ye Xuan's attack power is strong, the three of them used the Nirvana fire, so they were fighting for a close match, and even the eye of the burst was defeated.

However, don't forget that the three people who fell and those who are still in the middle of thousands of people, the increase in the feast of the killing is rising.

"Come back!"

Ye Xuan is not busy, and once again shot.

This time the attack power is stronger than before.

The three elders of the three nirvana are once again shot, this time, they are still evenly matched.

"I would like to see, this time, can you still pick up!"

Ye Xuan's light flashed, and suddenly it was separated.

In the state of fit, burning Tiandan is effective, but only one deity has an effect.

Therefore, Ye Xuan immediately exchanged a moment of frozen Tiandan, and then special devouring.

The things that are exchanged from the super-phagocytic system and then special devouring are only effective, and there is no improvement.

Chapter 1357: Seductive mission reward

"Ice and Fire Dragon Swords!"

"Shuanglong growls!"

The ice dragon virtual shadow and the Yanlong virtual shadow meet, a big mouth.

The power of this attack is two or three times that of the dragon, which is enough to kill the three.

The elders of these three cellars also felt an extraordinary atmosphere, but at this time they had no time to evade and could only resist.

They used the nirvana fire to protect their front.

However, this blow is not a small thing. After they were swallowed up, they did not even leave the fly ash.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

A series of three system prompts to sound, Ye Xuan's killing value has skyrocketed.

The three men's fall time was almost the same, and the increase in the killing feast was doubled.

Ye Xuan's combat power at this time is three times that before!

At the moment, Ye Xuan is swiftly rushing over and accepting the three people's glory.

The head here is enough for him to break through to the broken ground, but he did not immediately swallow it.

"Continue to kill!"

Ye Xuan said to the three people who fell.

Now he is only a state of ruin, and if he is slaughtered by these savage smugglers, he may reach the upper limit.

At that time, it is a little swallowing point!

However, the killing feast is time-limited, so his movements are faster.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

In Ye Xuan's mind, the system sounds constantly, and the strength continues to increase.

"Almost, it's still a little!"

Ye Xuan thought, the movement is getting faster and faster.

At the same time, the time for killing feasts is also decreasing.

Finally, in the seventh second of the death of the three big Nirvana strong, there was a different system prompt sound.

"Hey, the killing value reaches the upper limit, is it converted into a swallowing point?"

"Yes!"

"Oh, the kill value is cleared, the host gets a little swallowing point!"

Ye Xuan's killing value was instantly cleared. At this time, he could not even use the killing.

However, he has saved a lot of weapons. He swallowed these weapons directly. Not only did he improve, but even the killing value went up.

"Okay, you will continue to clear!"

After Ye Xuan gave instructions to the three people, he turned and left.

At the same time, at the moment he turned, the breath suddenly rose several times.

"Hey, the host breaks through, and it's currently a broken place!"

The increase in the killing feast is based on the percentage increase, so after Ye Xuan's breakthrough, although it is still a two-fold increase, the strength of the increase is much more than when the eight is heavy.

After the breakthrough, Ye Xuan quickly went to the back of the cellar door. After three seconds, he re-visited the door of the door.

"There is only three seconds left in the killing feast, and it is enough to solve you in three seconds!"

Ye Xuan's eyes widened and he was re-exchanged with a frozen Tiandan and then separated.

"Ice and Fire Dragon Swords!"

"Shuanglong growls!"

At the time when the main door of the door was not found, Ye Xuan directly slammed a trick.

Ssangyong roared and went away. In the blink of an eye, the doorkeeper of the gate was killed.

"Hey, the host's killing value is improved!"

The double killing value of Nirvana is terrible.

All in all, this serial task is a complete completion.

However, the next system sounds, but it shocked him.

"Hey, the third ring of the random task is completed!"

"Hey, the host triggers the fourth ring task of the serial random task, killing the madness in the cellar hole, and the task completion will randomly select the two of the following three rewards..."

"Reward 1: The blood power of the beast **** is merged with the agile advancement, and the advanced degree is the higher of the two. At the same time, the moving speed of agility is not limited to land."

"Reward 2: Start killing the blood and kill it."

"Reward 3: Pet growth speed is advanced, pet attributes are advanced, pet extensions will be merged, and the advanced level is the higher of the three!"

This is the three rewards after the completion of this serial random mission.

Upon seeing, Ye Xuan's eyes could not help but brighten. Two of the three rewards made him very jealous, that is, the first reward and the second reward.

Now his power is advanced six times, and he is advanced ten times. If it is a merger, then the power will be advanced to ten times. At the same time, his flight speed will double up in the future. It is a magical skill.

As for the second reward, it is even more powerful, it is actually the one-stop killing skill that he dreamed of.

Although this killing skill has only a very low probability to trigger, but if it triggers, then God, no matter how powerful the opponent, as long as it is injured, it is a spike.

Moreover, this attack killing skill is also effective against the enemy's attack. Even if it is the skill of destroying the earth, Ye Xuan casually slams as long as it can trigger the effect of one hit and kill, it can destroy the other party. The skill of the ground is defeated.

As for the third reward, it is dispensable for Ye Xuan. After all, these three advanced routes are all advanced six times. The merger will not improve. The most important thing is that Ye Xuan will not take it. Point to the advanced three, but if there is a reward for random tasks in the future, it is good to upgrade three advances at a time.

Two of these three rewards were randomly selected, and Ye Xuan earned it. If you are lucky, you might be able to draw two of his favorite ones, then God.

But then again, in order to complete this serial random task, it is necessary to kill the mad scorpion, this task can be ranked after killing the door of the door, indicating that this madness is stronger than the door.

"Although the doorkeeper of the cellar was killed by me, but I have the increase in the feast of the killing, now only a few seconds remain, I must act as soon as possible!"

Thinking of this, Ye Xuan immediately set off and directly plunged into the cave that was constantly pouring out of her anger.

However, his tragedy is that after the continuous effect of the feast of the killing, he has not found the madness, and even the induction has not been sensed.

"Tragedy, I hope that this madness is not a triple of Nirvana, otherwise it will be hard!"

Ye Xuan shook his head helplessly and continued to sink.

In this cave, the suffocating air is constantly rising, and the more it goes to the bottom, the more vigorous it is.

When he came down, he also saw traces of the law at the entrance. It seemed that he did not take protective measures and was broken by this suffocation, which led to the demise.

Ye Xuan fell very carefully, because he felt that this madness should not be so simple, the only cellar in the main body of the door that was spiked, I am afraid it was only small.

Underneath, how many mantles will there be?

Chapter 1358: mission completed

"This madness is the most powerful of the seven scorpions. The strength is not the same. You must be prepared for the eye of the void. If you are not right, you will leave and take a small life."

Ye Xuan thought, it was the bottom of the cave.

There are small caves on all sides of the cave, but within the scope of the induction, Ye Xuan did not find any creatures.

"Megatron, explore the road!"

Ye Xuan released the Megatron and let it drill into a cave to see.

Megatron is very fast. After all, it is not dead. Soon, he explored the scope of Ye Xuan's perception, but not long after, Ye Xuan heard a system prompt.

"Hey, Megatron died!"

"Hey, Megatron is resurrected!"

died?

Ye Xuan brows a pick, it seems that the madness should be there.

But just as he was about to leave, he found a trace of movement, and these small caves suddenly ooze a trace of suffocation.

These suffocates are different from the suffocation of the entire grotto, and they can form a cohesive shape, that is, the mantle.

Then, a single mantle is condensed and drilled out of the cave.

The mantle is a very strange Tongtian beast. It is made up of suffocating suffocation. The whole body is slightly black and black. They look different. Some are like scorpions, some are like scorpions...

"so much?"

Ye Xuan is slightly surprised.

At this point, he has already felt dozens of cellars.

Fortunately, the atmosphere of these cellars is not strong, and it looks like a broken state.

However, after the emergence of these mantles, they suddenly began to merge and then continued to grow.

"It turned out to be split, kill!"

Ye Xuan suddenly understood, immediately called out the three people, attacking some small cellars.

"The killings broke out!"

"Yanlong is unparalleled!"

Ye Xuan also began to attack, a golden dragon could play two or three small cellars.

Although the increase in the killing feast has passed, his current strength, even the two strongest players in the Nirvana can be a battle, not to mention the small land that is not even in the niche.

However, just as they killed these small cellars, several large caves suddenly made a few big figures.

These five cellars are all in the Nirvana level, tall and tall, and are two meters high.

After they appeared, they quickly absorbed the small cellars around them and grew up quickly.

"They are going to come together and form a big cellar!"

Ye Xuan suddenly reacted.

"The killings broke out!"

"Yanlong is unparalleled!"

He attacked the cellar that had grown to three meters.

The effect of burning the Tiandan is an hour, plus the effect of the blood of the undead and the blood of the sword god, even if it is the strongest of the Nirvana, if you do not need to go to the Nirvana industry, it will definitely not be able to pick up.

However, this cellar is not a vegetarian. In the blink of an eye, it grows to the nirvana and it is heavy. It is a big mouth, and a black suffocating eruption comes out, and it collides with the golden dragon.

But what makes Ye Xuan unexpected is that the power of this golden dragon is stronger than before.

"Right, the golden instinct of the brilliant eye has a damage bonus to something of a certain nature!"

At this time, Ye Xuan was suddenly suddenly realized.

This sulky cave, even if it is Nirvana, does not dare to come down easily, but he can quietly come down, not because of other, but because of this golden infuriating.

On the outside, the suffocation is thin, and it is fine.

But here, the fall must also be separated by the force of infuriating and Vientiane to avoid inhalation.

This golden infuriating effect has a good effect on the suffocating air. It instantly defeats the suffocating attack and then slams into the cellar.

"Roar....."

This earthworm is sore and dying to live, making a roar.

Taking advantage of this opportunity, Ye Xuan began to attack wildly. In the blink of an eye, he killed the land.

"Megatron, collect it."

Ye Xuan said to the fall.

Long before, he had already exchanged something in the super swallowing system, called the helium absorption bottle.

This helium gas absorption bottle is specially used to absorb helium gas. It has been absorbed by Megatron, and it can be used to refine the earthworm.

On the other hand, several mantles have also condensed to the level of Nirvana, but now Ye Xuan is not afraid of them.

Every one of the dragons is unparalleled, and it is beaten up and burned. The suffocation after death is absorbed again.

Although Ye Xuan is eager to catch a mantle, the random task of the chain is to clean up these mantles, so there is no way.

Soon, these cellars were wiped out by Ye Xuan.

"Fortunately, this mantle has split. If you let them fit together, I am afraid it is a triple of Nirvana!"

Ye Xuan's heart is a dark sentence.

Nirvana's triple madness, superior fighting power, even if there is a glorious eye, it is estimated that there will be a battle, but fortunately, the **** of madness actually split into small, and then was smashed by Ye Xuan.

After their death, Ye Xuan also let Megatron begin to absorb suffocation everywhere.

The mantle is the source of suffocation. When the mantle dies, the suffocation will not be produced. Soon, the suffocation in the caves is all taken away.

"So much arrogance, enough to refine a lot of land, I should be able to break through to the top of the broken horizon!"

Ye Xuan thought in his heart.

From the broken nine to the niche, I don't know what it is, is it Nie Dan?

Ye Xuan feels that this time should be different.

After all the radon in the cave was absorbed, Ye Xuan let Wei Zhentian go outside to continue to absorb.

At the same time, the late system prompt tone finally sounded.

"Hey, the host completes a random random task and starts to draw random rewards!"

"Yes!"

Ye Xuan should have a sentence, then, in his mind, there is a turntable, like a lottery, began to extract his two rewards.

Three choices two, this reward is already very rich.

Ye Xuan only hopes that the one that hits the kill will kill the skill. This is a **** skill, but the master who connects the heaven and the earth can kill the magic!

"Hey, the reward is drawn!"

The system prompts.

At this time, Ye Xuan looked carefully and found that it was a great luck.

Three choices two, namely reward one and reward two, that is to say, he took a hit and kill skill with a value of five points!

"Haha!"

Ye Xuan couldn't help but laugh at the sky.

The pet's advanced reward, no middle!

"Hey, the blood of the beast **** is advanced and the agile advancement is successful!"

"Hey, the host learns to kill the skill!"

The two systems prompted to sound, and Ye Xuan was already happy with his mouth.

Let's not say a single killing skill. The two advanced routes of this beast **** blood are merged together. It is very good. In the future, if you have a swallowing point, you can strengthen your strength and agility at one time.

Chapter 1359: Specific upgrade task

At the moment, Ye Xuan is immediately using the Yufeng Feilong shadow, and the speed in the air really has the effect of agile advancement, doubling up.

"Well, I don't need to find land to fight in the future!"

Ye Xuan is very satisfied.

Since the previous strength was only advanced six times, the strength increased by 60%. Now, after the merger with Agile Advanced, it is forcibly upgraded to 10%, just like agile.

In short, his combat effectiveness has improved a lot.

Then, he put his mind on the one-click killing skill.

This killing skill is the same as the eye of glory. It can be activated on its own or closed, avoiding accidentally injuring each other with friends and relatives.

After opening, Ye Xuan will judge the probability of one hit and kill if each attack. If it is triggered, then this hit will kill the opponent or defeat the opponent's attack.

"This probability is invisible, and I don't know how low the probability is. Is it one percent, one thousandth, or one ten thousand?"

Ye Xuan eyes a glimpse.

Fortunately, this hit and kill skill will increase the chance of triggering every time.

For example, if the probability is triggered by one percent at the beginning, then the advanced one will become 2%, and the advanced nine times will be 10%.

However, Ye Xuan estimates that this probability will not reach one percent, because this is too high, it should be at least one in ten thousand.

"One in ten thousand is not bad. In the future, if you get a magical power like the pulse of the earth, you can judge hundreds of times with one stroke..."

Ye Xuan blinked and found that there is another way to increase the chance of triggering, that is to have lucky equipment.

Lucky equipment, there is a redemption in the super swallowing system, but can not be bought with super swallowing crystals, can only be exchanged with swallowing points.

If you have lucky equipment, then in the future, refining medicinal herbs, forging weapons, and even redemption, etc., may have crit effects, such as double or triple.

In addition, if you want to get lucky value, you can also refine the blessing oil, and you can get the lucky bonus by pouring the blessing oil on the weapon or equipment.

For example, if the weapon has a little lucky value, then it will have a crit effect in the future attack, and the attack power may suddenly increase.

If it is a brilliant suit, you may be able to resist the crit when you are hurting, and weaken the enemy's attack power. It is said that when the luck of a piece of equipment reaches nine, that is, the lucky nine, there will be unexpected effects.

Now that the serial random task is completed and the reward is taken, then Ye Xuan should leave the ghost place.

He came to the island, but there is something to do, and that is to find the mysterious eyes.

I don't know if Xuan Ming's eyes are dead in this violent riot. In any case, I have to look carefully. If I die, then Mo Xueyi can also be noticed.

Outside, the battle has already stopped, and the people who have fallen and controlled him have already killed others, and there is no one left.

At this moment, they are looking for two people on the portrait, ready to turn the door to the sky.

"Young Master, this is the Qiang Kun ring!"

At this time, the landing suddenly carried a large bag, filled with thousands of Qiang Kun ring, although most of them do not have much, but they have to add up, it is also a huge fortune.

Ye Xuan saves some of the materials of the refining 煞丹, and then swallows the rest.

"Hey, the host has broken through to the top of the broken horizon!"

“Hey, the host triggers a specific upgrade task (Niger), is it accepted?”

When he heard the system sound, Ye Xuan’s brow was picked.

Nirvana specific upgrade task, what is this ghost?

"accept!"

“Hey, once accepted, there will be a breakthrough requirement for each breakthrough. Is the host confirmed?”

The system turned out to be prompted again.

Ye Xuan is silent. It seems that this specific upgrade task is not so simple to complete, and it is possible to go to Nirvana.

"Since this is so long, the rewards are estimated to be very rich..."

Thinking of this, Ye Xuan’s eyes are bright, and the heart replies: “Confirm!”

“Hey, the host successfully took over a specific upgrade task (Niezhan), and the current breakthrough requirement is the fire of the beast!”

Ye Xuan was shocked because he heard that the Nirvana upgrade would require a different fire, but it was a different fire!

He is now a nine-folder in the broken world. He wants to break through the broken environment and go to Nirvana. He needs to integrate the fire of the hundredth beast in the list of different fires. If there is no fire of this beast, he will be permanently broken. The situation is nine.

"It's the day of the husky..."

Ye Xuan wants to cry without tears, but after taking this specific upgrade task, she can't give up.

This time, the tragedy!

Life is really ups and downs. After completing the serial random task, his confidence suddenly burst into shackles, but now, self-confidence suddenly fell into the bottom.

Although he once got the eternal heart of the 93rd in the list of different fires, it was only after the great luck.

Now he is not the one with no clues about the fire of the 100th beast on this fire list. It may take a lot of time to find it.

At the moment, there are already clues to the yin and yang temple. If it is stuck in the broken environment, how can he continue to investigate?

"It seems that we must find the fire of this beast as soon as possible so that we can break through to the nirvana!"

Ye Xuan made a decision in his heart.

Fortunately, there is no conflict between finding the fire of the beasts and investigating the yin and yang temple.

But for now, let's do other things first. After thinking about it, Ye Xuan began to look for the body.

The dozens of people who have been controlled have already been asked about the fall, and they have never seen Xuan Ming's eyes.

"How many elders do you have in your door?"

Ye Xuan asked about a nine-fold protection law.

"eight!"

This law-abiding answer is true.

"eight?"

Hearing this, Ye Xuan's brow picked one, and in the second ring of the random task, he killed three and then killed three, that is, six.

So, are there two Nirvana elders?

"You, draw the portraits of the eight elders." Ye Xuan said.

Then, he saw a pair of portraits, the master of this level, painting is really easy for them.

Six of them, Ye Xuan was right at first glance.

As for the two remaining elders, he even had a relationship with one of them. It was the fishing veteran who had previously reminded him to take a boat to the island.

"I should have thought of it long ago. There are not many strong Nirvana in the vicinity..."

Ye Xuan frowned, but he focused on the last strange portrait.

"Where is this old man?" Ye Xuan looked up and asked.

"I don't know, maybe I'm out!"

The masters of this group of earthen doors are shaking their heads.

"Where is his residence?" Ye Xuan continued to ask.

"there....."

One of them pointed to a hill.

At the moment, Ye Xuan quickly swept past and found the residence of the elder.

He searched it carefully and found a strange piece of paper.

"Is it another charm?"

Ye Xuan eyes a glimpse.

Chapter 1360: Ice-free waters

This piece of paper should have been left with a fascinating will, and then control this elder called the Xu Yang, who asked him to **** the Xuan Ming.

I just don't know where the next stop on the island is.

"Fire Cloud Palace, Dihao Island, Vacuum City, the three forces are similar, so it should be toward a more powerful place."

Ye Xuan thought in his heart.

At this time, suddenly one person came over and reported: "Master, there is one less ship in Houshan Port!"

"Well? Where is the port in Houshan?" Ye Xuan asked an eyebrow.

"The ship was used to cross the ice-free waters."

Hearing this, Ye Xuan's eyes lit up.

It seems that the elder Xu Yang left with Xuan Ming, and prepared to go to the other side of the ice-free waters.

"How long does it take to cross the ice-free waters?" Ye Xuan continued.

"According to the speed of the elders, it is estimated that one day can pass through the ice-free waters, but the whirlpool there seems to change immediately. If the owner wants to leave, it is better to be early!"

This guardian respectfully said.

The vortex changes, that is, the whirlpools that make the vortex underneath the place for food. Every time you change, the nautical map has no effect.

Fortunately, Ye Xuan's range of perception is even greater than that of Nirvana. Even if he is involved in the whirlpool, he can leave with the eye of the void.

"If you circumvent this ice-free sea, I am afraid it will take seven days, so I can't catch up..."

Ye Xuan thought about it and decided to pursue it.

"Young master, what do they do with these people?" They stunned the people around them.

These people, all invaded by the suffocating gas, if they are not controlled and charmed, they may also kill each other.

If it was before, Ye Xuan would probably let them commit suicide directly, but after knowing the golden spirit and restraining her anger, he decided to save these people.

At the moment, he is using golden gas to drive out the suffocating gas in these people and let them return to normal.

After a few minutes, the suffocation in all people was removed.

"Thank you for your master!"

This group of people respectfully thanked.

"Let's fall, let's go!"

Ye Xuan said nothing, coolly turned and ran to the back of the mountain.

After they went out to sea, they were given control.

The ice-free sea area is extremely dangerous, but Ye Xuan uses nothing to locate the void. Even if he overturns the ship, he can return to continue.

"Hey, the mandarin refinery is successful, the number is one hundred!"

"Hey, the mandarin refinery is successful, the number is one hundred!"

"Hey, the mandarin refinery is successful, the number is one hundred!"

Along the system prompts the sound, Ye Xuan uses the materials in the phagocytic space to start refining the scorpion.

The main ingredient of this place is the suffocating gas. Because of the insufficient level of these suffocating gases, the refinement of the scorpion scorpion is at the level of the broken state and the nirvana level.

However, this is enough to be used.

If it is smooth, you can leave the ice-free sea area in about one or two days. In these times, the land and the old trees can all break through to the broken environment.

This ice-free sea area is indeed a nightmare for other people. Even a small whirlpool can kill the martial arts of the nine-folded, even the master of Nirvana.

But for Ye Xuan, it was relatively easy. Although it was impossible for Megatron to explore the road, his perception of the eye was large enough to avoid countless large and small vortices along the way.

During the period, due to the vortex change, the ship did turn over several times, but Ye Xuan directly fled the scene using the eye of the void, and the road went.

After a day and a half, he left the ice-free waters.

At this time, the fall, Megatron and the old trees are also the realm of the nine worlds.

Unfortunately, the realm of pets can't be higher than the owner's, so if Ye Xuan does not break through, they can't break through unless they use the swallowing point to unlock the pet's realm limit.

After leaving the ice-free sea area, Ye Xuan was just looking around, just as there was a broken warrior who passed through, so he was directly controlled by him.

"Give me a ring!"

Ye Xuan directly issued an order.

The unlucky one said nothing, that is, throwing the Qiankun ring to Ye Xuan, who looked at it and found a map.

The closest thing here is a force called the Beastmaster. This is a force that controls the beasts of the heavens. The strength is not bad, it is stronger than the island.

"The fire of the beasts is born in the body of the heavenly beast. At least the Heavenly Beast of the Nirvana level will be there, and this 10,000 beasts may have the fire of the beasts..."

Ye Xuan's eyes can't help but burst out two brilliant eyes.

His luck is still OK. What he needs most now is the fire of the first beast on the list of different fires. Now, a 10,000 beast is completely prepared for him.

Moreover, the elder Xu Yang escorted the mysterious sorrows, and it is also possible to come to this 10,000 beasts and hand them over to the stronger escorts.

At the moment, Ye Xuan is collecting the map and preparing to leave, but the next moment is suddenly thinking of a question, and asked: "Have you heard of the yin and yang temple?"

The unlucky ghost who was robbed by the road smashed and nodded: "I heard that!"

boom!

This one answer, let Ye Xuan's heart tremble.

Finally found!

"Where is this yin and yang temple? How much do you know?" Ye Xuan hurriedly asked.

"In the north of the beasts of the beasts, it takes about half a month. This yin and yang temple is extremely overbearing. If the neighboring forces are close relatives, brothers or sisters, they must report it and then receive the yin and yang temple. to cultivate....."

"After cultivating to a certain age, the two brothers and sisters will fit together and become yin and yang. Men are not like men and women are not like women, so many people have moved out of here."

Although this unlucky one is only a broken, it knows a lot.

It seems that Ye Xuan is looking for the right place.

"Which beasts go north for half a month..."

Ye Xuan's heart secretly counted, half a month is measured by the speed of this unlucky one, if he is on his own, at most two days.

"How strong is this yin and yang temple?" Ye Xuan continued to ask.

"It is said that ten times or even dozens of times stronger than the beasts of the beasts..." the unlucky one who was robbed by the road replied.

This time, Ye Xuan is silent!

Now he, but the broken nine is heavy, can only deal with a nirvana.

In the face of the tenth or even dozens of yin and yang temples than the beasts of the beasts, Ye Xuan's self-confidence suddenly frustrated.

"With my current strength, even the masters of the beasts of the beasts can't beat, let alone the yin and yang temple. What's more, this yin and yang sanctuary is just a sub-district that Beiyang has to wait for, such a branch, I don't know. How many, the yin and yang ancestors should be in the main hall, I am still too much..."
