

## Super D. S 144

### Chapter 144: Gathering

At this time, Ye Fuzhong suddenly had a shadow from the Yefu.

This is a woman who is about twenty-five years old. She has a good face and a tall figure. She is dressed in a red dress like a cheongsam. The long white legs are exposed to the air and almost give Ye Xuan's eyes. Hook it out.

She took a slap in the face of Ye Xuan and said in a gentle, watery voice: "Welcome to the old man, the little girl is Hua Ying, the master and your housekeeper."

Seeing her, Ye Xuan is also a bright eye, Zhao Chongguang is really intimate, even gave him a beautiful butler, this is seduce him to commit crimes.

"There is a sister who is working." Ye Xuan asked politely.

"Don't dare, the master called my name." Hua Ying smiled and thought that this little general was still polite.

However, after Ye Xuan approached, she discovered that she could not see the realm of Ye Xuan. After all, she is also a true spiritual powerhouse.

"Oh? The beginning of the real spirit?" Ye Xuan looked at Huaying somewhat strangely. He thought that Huaying was just a management talent. I didn't expect the strength to be quite strong. The true spirit of the 25-year-old is this qualification. Not bad.

"The lord is really a glance, Hua Ying is also the guard of the old man... Wei." Hua Ying said with a blush.

She can't see the depth of Ye Xuan. If there is danger in the future, she may be protected by Ye Xuan.

"Oh, then let me take it first." Ye Xuan did not think much, with his current strength, in this emperor is already able to run rampant, is there anyone who wants to murder him?

If there is someone, it is to die!

Ye Xuan directly stayed in Yefu, this Yefu is very large, and there are many people. Under the leadership of Hua Ying, Ye Xuan is generally understanding, at least not lost.

Then, Hua Ying brought Ye Xuan to the yard where he lives in the future. What makes Ye Xuan strange is that there are eight maids like flowers.

Is this going to make him eight times?

Do not!

Plus Hua Ying, that is nine!

Ye Xuan is already beginning to drool.

"Master, then I will retreat first. Any command can call me at any time." Hua Ying saw Ye Xuan fell into meditation and said in a hurry.

"Oh, wait a minute, there is one more thing for you to do." Ye Xuan came back to the moment and said: "Send a person, go to Yecheng, Yecheng, and tell my family about my news."

"Master, someone has already gone." Hua Ying said.

"Oh? The efficiency is quite fast." Ye Xuan was not shocked and continued: "Then send a to the cloud to tell a female disciple named Guan Lan."

When I heard the name, Hua Yingmei turned and gently said: "Yes, Master."

She didn't dare to ask anything, she could only guess in her heart.

Now Ye Xuan is in the first place, but he did not send someone to pick up Ye Jia and Liu Er, because he felt that the strength of Ye Jia and the emperor are too different. Everyone in the emperor can easily get rid of Ye Jia. It is better to let them stay in Lianyuncheng.

However, he will make Ye Jia gradually stronger and build Lianyun City by the way.

"I don't want to be so much, I still have something to do."

Ye Xuan retracted his mind. Although he was busy for a day, it only took a few seconds to forge the cold light sword. When Zhao Chongguang waited outside, he was actually resting.

At this time, in his engulfing space, there are some refining materials. At the moment, he bought a drawing and the middle-aged spirit chasing the star bow.

The refining function in the phagocytic system, whether it is to refine the sword or the bow, requires the same material, but the forging cost is different from the drawing.

Ye Xuan spent more than 40,000 points of devouring points, refining a Chinese spirit to chase the stars out.

"The points are consumed again, forget it, and all the materials are swallowed up."

His mind was moved, and the refining materials in the space were swallowed up by him, leaving only the materials for refining two Chinese spirits.

In the meantime, he has added nearly 200,000 engulfing points.

Although he has swallowed up so many good things, he still has not broken through to the realm.

In the Imperial Capital Competition, a total of two or three thousand spar stones were sent out. Jiang Xian also took four hundred pieces to go. These spar are enough to break through to the realm.

However, Ye Xuan spent nearly 5,000 pieces of the next product spar, but it was not able to break through the real spirits from the early days of the real spirit. This shows how difficult his upgrade path is.

However, he still spent 45,000 engulfing points, purchased 90 beasts, and piled up the beasts to 10,000.

"The host is currently unable to integrate the blood of the beasts. If it is forced to merge, it may cause the realm to fall or explode, is it a fusion?"

Sure enough, with his realm, it is impossible to integrate high blood.

The most advanced blood, the cheapest also needs millions, and some even up to hundreds of millions, so Ye Xuan guessed that if you want to integrate this advanced blood, you must at least reach the real state, or the gods.

Now, he still has about 150,000 devour points.

After breaking through to the true spirit, the phagocytic system unlocks many functions and unlocks many things, such as the Chinese martial arts, the Chinese spirits and so on.

However, these things are particularly expensive. Just like a refining material, it only needs a hundred pieces of the fine-grained sapphire. It is necessary to devour a million points, which is too expensive.

Before that, he just wanted to refine Dan, and then upgraded the strength of Zhao Pan to cope with the assessment of Lingxiao. But there are still two months of preparation time below, so he is not in a hurry, so he began to study the formation.

The array method can be subdivided into three types, battle array, royal array, and spiritual array.

The battle array is the array of attacks, and the defensive array is the defensive array.

The Spiritual Array, the kind that Ye Xuan encountered in the day, can limit the enemy and have a variety of wonderful effects.

Ye Xuan began to look at one by one, and he was very interested in the formation. After a while, he directly learned a so-called poly-matrix and spent 50,000 engulfing points.

"Gathering the spirits, start!"

Ye Xuan's flash of light flashed into the ground, and then he felt that the surrounding world's vitality was coming to him.

"Low-level poly-spirit array, the size of a square is 100 meters, condensing the strength of the heavens and the earth, greatly improving the cultivation speed of the warriors."

He estimated in his heart that at this time his heaven and earth in this yard is at least five times more powerful. Simply put, the speed of cultivation here is five times that of cultivation outside.

"Lianyuncheng's heaven and earth are too bad, so the realm of the warrior is much worse than that of the emperor. I will go back to a gathering of the spirits, although it is still not a god, but it is better than the general big city."

Now that he is strong, he can't always think about himself. He is a flesh-and-blood person, and he still has family and friendship.

Ning does not make the phoenix tail, he will not receive Yejia from the emperor, but he can make Lianyuncheng a bustling city like Nanlin City.
