Chapter 1461: Complete extinction

This move was only seen by Ye Xuan, but at that time, the old tree used a fire hood to escape a blow and also killed the other side.

Now, the realm of the performer is that the person who is only in the other side has to be elevated to a realm.

Fortunately, however, Ye Xuansheng is a lot of people!

"You will, I will!"

Ye Xuan's left hand is in the palm of his hand and he shoots it out.

At the same time, the fall is also instantaneous.

"Hundreds of demon foxes are separated, net lotus demon!"

As for the other two, it is also a burning life attack.

"Booming!"

These attacks collided with Tianyan's burning sea palms, which suddenly stirred up a violent wave of air and burned the entire house to the incineration.

Ye Xuan would actually burn the sea palms, which was beyond the expectations of the team leader, but when he was surprised, the old tree was already a shattered flame that flashed to the leader's head, and then punched the little sun. .

"It's a bit tolerant, who are you?"

The leader asked in vain.

Faced with this problem, Ye Xuan did not intend to answer, directly attack.

Although they are now attacking the team leader, they are likely to be heard by people around the patrol, so they must be quick and quick.

"Sharp storm!"

Megatron took his own younger brothers to sweep away. It has already broken through to the four-folded environment, and with the blood of the undead, it is generally no one can crush it all.

At the same time, the old tree will flash from behind the leader and attack from time to time, which is really annoying.

At the beginning, this seven-member team leader was suppressed and could only be forced to fight back.

Ye Xuan is also joining forces with the other two, constantly attacking and pinning.

In this battle, the most important combat power is to fall. In order to quickly end the battle, the fall can not help but use the transformation.

"Hey!"

A golden light suddenly shone out, illuminating the entire transmission palace, and the body fell after the transformation, and the strength soared up a grade.

Four seasons!

Coupled with those annoying avatars, the team leader was suppressed and it was almost overwhelming.

Under the blood of the undead, once the fallen avatar collapses, she can reunite one.

The same is true of Megatron's blood sword. As long as the degree of destruction is not too great, it can be restored.

Now, not six people besieged one person!

"Damn, where did these people come from?" The leader looked blank and couldn't believe he was in a disadvantage.

At the moment, he just took out a thing and was ready to inform his companion.

However, it is at this time.

"Death chase!"

"The eye of assassination!"

"The killings broke out!"

"burning the sword!"

Ye Xuan suddenly flashed behind the leader, a sword squat.

After a variety of increase in the flame of a sword, he squatted on the back of the leader.

Fang Caishu's old talent had just been killed by the team leader, so the team leader was relaxed and vigilant. So, he was attacked by Ye Xuan.

Although Ye Xuan's realm is not high, he only has three levels of life, but under the increase of various skills and various bloodlines, his attack can be no weaker than the six strong people.

Crucially, this sword played a crucial role, interrupting the pace of the team leader.

"Sharp storm!"

"The flames!"

"The cycle is nine flashes, the sixth flash!"

The original team leader can defeat these attacks in succession, but now these attacks are piled up together, making him too busy.

Over time, it reveals one flaw after another!

"Hey!" "Hey!" "Boom!"

The team leader was finally injured, but the vitality of the body quickly restored him.

However, the speed of recovery is a bit powerless!

No, it's not power, but it's not at all.

"Damn, what should I do?"

The leader was gloomy and he smelled a death. Today, he is likely to fall.

However, is there any other way?

"The cycle is nine flashes, the sixth flash!"

Falling a step and flashing behind the leader, he directly cut a large piece of meat on his back. If the latter did not respond quickly, I am afraid that the head is lost.

Falling down is only a triple of life, and after the transformation, it has raised a realm. If she is now a four-folder, the leader may have been screaming.

However, he can't live much time!

One second!

Two seconds!

Three seconds!

"Oh!"

Three seconds later, there was a crisp sound in the palace, and there were also several figures that landed at the entrance to the palace.

That fragile sound is the sound of the head of the seven-member leader who was born and killed, and the figures were the players who returned from the patrol.

"There is still a living environment, six kills, kill!"

At the moment, Ye Xuan is giving instructions to other people, and he is to close the leader of the team.

"A lot of things!"

Ye Xuan's eyes glimpsed. This team leader seems to have done a lot of work to rob the family. The things in Qiankun's ring are beyond the imagination of Ye Xuan.

However, the things inside are not enough. He broke through to the four levels of life. However, killing these people is not necessarily the case.

"Leader?"

After seeing the players, the players were shocked.

The seven-member leader of Xuanjing actually died in front of them?

Just as they were surprised, a cold voice fell into their ears.

"You, one can't go!"

This is naturally what Ye Xuan said.

Not waiting for these people to react, Megatron and the tree have already been killed.

The same is true of falling.

Within three seconds, these people have also fallen, including the master of the six-year-old.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

A few system prompts, so that Ye Xuan's killing value soared.

However, this is not over yet.

"Hey, the host breaks through, and the current life is fourfold!"

"Hey, Megatron's breakthrough, the current is a five-fold life!"

"Hey, the spirit of the Ashes breaks through, and the current is a five-fold life!"

Ye Xuan's breath has skyrocketed, and the strength of the entire team has increased several times. If this is the realm, then the team leader does not need to use the blade storm.

"Hey... I have tried so hard to refine my life, how is it still bottoming out..."

After falling and feeling the breath of Ye Xuan's breath, the small mouth couldn't help it.

During this time, she has been using the life and death disk base to refine the raw scent of gas for their own use, but the realm of the realm has not yet been Ye Xuan three fast, really hurts self-esteem.

"Haha, I can't compare it with me."

Ye Xuan smiled a few times.

joke!

How can the base of the life and death disk compare with the super swallow system?

However, with these heavenly treasures and the base of the life and death disk, it is also very fast to break through to the top of the living environment, at most half a day.

They stayed here for a long time, waiting for the players to come back and kill them one by one.

Chapter 1462: Sheng Xuan Battlefield

After half a day.

"Oh, the breakthrough is broken, and the current life is fourfold!"

"Well, ready to go, ready to enter the reincarnation battlefield!" Ye Xuandao.

This team is specially robbing the transmission array. Each time they steal a transmission array, they can go back and collect the reward.

They were originally inevitable. After all, there would be no masters in this area, but what they did not expect was that they had killed a Ye Xuan.

The transmission array can be changed in just one hour, but unfortunately it did not succeed.

This round of battlefields is jointly created by the three giants. As long as they are transmitted through the battlefield, the living body will automatically obtain a mark of warfare. In the future, those who kill the enemy camp will be able to obtain the merits.

At the same time, the reincarnation battlefield is also divided into three, the first is the Xuan battlefield, then the dead battlefield, and finally the runner battlefield.

What Ye Xuan wants to transmit this time is the battlefield of Sheng Xuan, which represents the battlefield of the level of life.

Before the transfer, Ye Xuan let the three people come out together. Although they spend a little more on the spar, they are sure to get the mark of the battle.

"Hey!"

Send, start!

Because of the distance, Ye Xuan spent some time, and it was already a white one, nothing.

Five minutes later, the surrounding illusions began to change, but the difference is that their footing is actually dark.

It's hard to be, the reincarnation in the battlefield is dark night?

"Strange, the outside is the day, the transmission took only five minutes, how it became dark."

Ye Xuan submutely muttered again, he carefully felt it and found himself in a huge cave, no wonder so black.

After the transfer was completed, he felt that there was a strange amount of energy in the body.

"Hey, the mark of the battle is open, the current battle is zero!"

The system prompts.

"Young Master, I have a mark of hard work."

"I have that too."

The fall and the tree are said one after another.

Look at Megatron, a look of stunned look.

"Wei Zhentian is strictly a thing in the sense of the sky. It is normal to have no mark of warfare, but people who hope that he will kill will count on me..."

Ye Xuan shook his head helplessly.

Next, he had to kill the enemy camp and get the battle.

Of course, you can also rob people on your own side, or sell things to gain military exploits.

"Let's go, let's go out."

Ye Xuan said, he went up and went out.

However, at this time, suddenly a figure entered the scope of Ye Xuan's perception, and soon, it appeared in their eyes.

"who are you?"

The spiritual knowledge of this person also swept to Ye Xuan four and asked.

Ye Xuan, he stared at it, the comer was an old man, wearing three horns, but the realm of the old man turned out to be a seven-folder!

"We just sent it here." Ye Xuan replied.

When the words came out, the old man couldn't help but raise his eyebrows. "Why are you kidding? This transfer has been abandoned for a hundred years. Are you coming to grab my Dongfu?"

"Abandoned for a hundred years?"

Ye Xuan, three people, also looked awkward.

This transmission is at the foot of the Tiger Leopard Court. Many people have sent it in before, how can it be abandoned for a hundred years?

"Young master, it won't..."

At this time, the fall suddenly became awkward: "The transmission array has been changed by half. Can we not make a mistake?"

Hearing this, Ye Xuan sneaked and hurriedly asked: "Predecessors, who is the site here?"

"The reincarnation of the fox."

The old man frowned and said: "It turned out that the transmission array has been changed. If it is not restored, the foothold will naturally not be the same. Hey, poor people, even transferred to this unfortunate place..."

"Since it is a reincarnation fox, then there is no problem..."

Ye Xuan breathed a sigh of relief, and he was afraid to send it to the reincarnation or to the reincarnation of the landlord.

"No problem, this transmission is one-way, you may not be able to get out."

The old man saw Ye Xuan's three-person atmosphere is not very strong, but also went directly to the wall to sit down and take out a gourd to drink.

"Grandpa, what does this mean?" asked strangely.

"Here is the Tianfeng prison, which was built by the Tianfeng City. He has nothing to do when he comes in, and then sends his own genius into the prison to kill, so he can experience it." The old man explained.

Hearing this, Ye Xuan couldn't help but frown and asked: "Can't you go out?"

"There is a way to go out."

The old man took a sip of wine and said: "One, as long as you catch a genius who has come in and practiced, you can exchange for a place to go out. Second, kill the flame double-headed dog at the entrance to the prison. Third, break the ghost array. law."

"On these three?"

The old tree is different.

"Yes, these three." The old man nodded: "However, except for the first method, no one can do it for the second and third methods."

The first way is to seize the talents of the experience and then exchange for a place to leave.

"What is the realm of the flame double-headed dog?" asked again.

"Oh, it's a deadly world. It breathes out the flames that can be burned to ash. Even the masters in prison are afraid to challenge."

The old man has no choice but to shake his head: "I am fine, I have been arrested for a hundred years, and some people have heard that it has been more than 5,000 years..."

For 5,000 years, this sounds a bit scary!

However, this old man is born in a seven-fold environment. If there is no burning life, living for more than six thousand years is not a problem.

"Death Xuanjing, then it is considered to be a nine-pointer, and it is estimated that it will not go."

Ye Xuan brow wrinkles.

There are several ways for him, such as the Eye of the Void and the Eye of Assassination. However, the former needs to be positioned by himself, and this round of battlefield is in the middle of the reincarnation, far from the Tiger Leopard.

If he wants to leave, he has to let the second corps in the East China come, and then position it outside, and then break away from the void.

This Tianfeng prison is guarded by a high-level array. Even if it is marked by a death killing order, it is not known whether it can pass through the formation.

At this time, the old man said: "The kid, if your age is not more than a thousand years old, you can join the king of Jinhuang. He is looking for qualified personnel to train. In the future, he may be in this prison." Break through to the dead and then defeat the flamed double-headed dog at the entrance to the law."

"Who is Jinhuang Wang?" asked Ye Xuan.

Age, they have all reached.

Ye Xuan is twenty-six years old and has fallen to sixteen years old.

"Jinhuang Wang is one of the earliest prisoners in Tianfeng prison. It has already been the peak of the birthplace of Xuanjing. It is said that he was the one who violated Tianfeng City and was taken in. Now he is one of the three leaders of Tianfeng prison."

Chapter 1463: Tianfeng prison

"Jinhuang Wang is one of the earliest prisoners in Tianfeng prison. It has already been the peak of the birthplace of Xuanjing. It is said that he was the one who violated Tianfeng City and was taken in. Now he is one of the three leaders of Tianfeng prison."

The old man said that he had finished his meal, and then said: "The other two leaders are the black poison king and the white shark king. The former is moody and the latter is extremely brutal. Compared with these two people, Jin Huang Wang is good."

"The other two are probably all born again. Why don't you join forces to kill the flame double-headed dog outside the Tianfeng prison?" asked strangely.

"The rules are to be singled out."

The old man shook his head: "This is the territory of the White Shark King. This white shark king is a personal class. He hates the aliens very much. You are not suitable for this little girl to appear in this place. Go quickly."

"Hate the aliens?"

Ye Xuan's heart is a condensate. For humans, the orcs and demons are all aliens.

He did not expect that his luck was so bad that he was actually transferred into a prison. It was a tragedy.

The most important thing is that there is no way to break open the void, and with his realm, I am afraid there will be many taboos.

Here is the prisoner built by the Tianfeng City Lord. When they catch people coming in, they will definitely hollow out the good things in the Qiankun Ring. Then, there is not much benefit in killing here.

Moreover, here is the prison, and certainly there will be no place to exchange warfare.

tragedy!

"Since this is the cave of the predecessors, then we..."

Ye Xuan has not finished, and there are three figures in the outside of Dongfu.

"Hey old man, the cosmopolitan star!"

A bad voice floated in, and three people immediately saw Ye Xuan's eyes.

"Is there still a month?" The old man suddenly climbed from the ground and was awkward.

"Is there a difference in the first month? Still the same, a thousand students, take it!"

Said a man headed.

These three people are all seven layers of realm, and their strength is not weak.

Ten thousand students Xuan Dan, in the outside world for a strong seven-strong strong, is nothing, just kill some of the heavenly beast is estimated to have.

Don't talk about the seven-fold life, even the six-fold life is very easy!

However, here, in the Tianfeng prison, there is no treasure in heaven. When it was caught, all the valuables were taken away except for the weapons.

Therefore, the people inside can only condense the strength of the heavens and the earth, refining into a living Xuan Dan.

Under normal circumstances, the seven strong people who are born in Xuanjing need to refine the 10,000-year-old Xuan Dan every year. As long as they are diligent, they can still get it.

If this is outside, only fools will do it.

The old man bit his teeth, then took out a thousand yuan of Xuan Dan and lost it.

"Very good, I like hardworking people." The head of the man was satisfied with the nod, and immediately fell to the eyes of Ye Xuan.

After he saw the appearance of the fall, the dawn was also a flash!

Fox family!

And, still a woman!

"not good!"

Ye Xuan's face changed, he already felt a bad atmosphere.

The old man said that they are in the territory of the White Shark King, and this White Shark King hates the aliens.

Now, there is a Fox people here, but it is not a good sign.

"Fox people, where are you?"

Turning head for the first man, looking to the old man.

"It was changed that the transmission array was not recovered, and it was accidentally transmitted." The old man replied truthfully.

"It turns out that your cave is a good place. There have been seven people who have made mistakes."

The head of the man's mouth was slightly tilted and said: "Small girl, follow me, I will protect you."

The voice has not yet fallen, and one person behind him is reminding: "Big brother, this little girl is a fox, if the white shark king knows, it will..."

"Afraid of what, women in this Tianfeng prison is a rare thing, the few generals in Dongfu not hidden a few interracial women?" The head of the man showed a greedy look.

"That is, my eldest brother is not thin to us. After she finishes it, she will definitely let us taste it. Moreover, I don't have to go to that place anymore. I can save a lot, right?" Another person slumped - smiled stand up.

"Yes."

The first man nodded: "The place in Yichunyu is a bottomless pit. We have money to go once in a hundred years. Now if we hide a woman, we can play every day..."

After hearing the fall, it was also a dignified face. If it were not for other factors, she might have already shot.

"Good guy, look at the guy I burned them!"

The tree can't stand any longer.

"call out!"

Still not waiting for the voice of three people to fall, there is a broken sound.

Ye Xuan, finally can't help it!

"The killings broke out!"

"burning the sword!"

"The flames!"

The two launched the attack almost simultaneously.

"what?"

The three were surprised.

Before they felt that Ye Xuan was just a four-folder, it was not afraid.

But now, even able to make such a powerful attack, what is the situation?

"Hey!"

The man who was the first to respond was not able to fly forward directly by the tree, and then greeted Ye Xuan's sword.

"Oh!"

"Calling!"

The man's head was smashed and burned in an instant.

How is the seventh place in life? Is it not being spiked?

The old man was shocked too, he did not expect Ye Xuan to actually shoot, but did not expect to be able to kill each other!

You know, the strength of the first man is stronger than him!

However, what shocked him was still behind.

Has broken through the four-fold fall of the birthplace, but also quickly killed one person.

In less than three seconds, all three strong people who have lost their lives are all fallen!

Ye Xuan will quickly accept the Qiankun ring and check it out.

These three people are the ones under the hands of the White Shark King who are responsible for collecting the raw Xuan Dan. Recently, it happened to be the time to collect the protection fee. Therefore, there are millions of students who have earned a fortune.

Unfortunately, this is still a slap in the face of Ye Xuan!

"This million is still you!"

Ye Xuan took out a thousand yuan of Xuan Dan from the Qiankun Ring and threw it to the old man.

"This....."

The old man swallowed his mouth and said: "The three are under the white shark king. If you kill them, there will be big trouble!"

"That's our business. If someone asks, you can tell the truth."

Ye Xuan can see that this old man is a good person. Otherwise, when the old man sees them, he is afraid that he will be shot.

If Ye Xuan is not strong enough at that time, I am afraid that it will be killed, and the fall may be shackled or killed.

Therefore, Ye Xuan does not intend to kill this old man.

When the voice fell, Ye Xuan had already left the cave.

"Before I thought that this Tianfeng prison was poor, but I forgot that the strong people who have been born and raised can already condense the birth of Xuan Dan. In this case, I can break through!"

Ye Xuan thought in his heart.

Chapter 1464: Upgrade road

Take the old man as an example. One year gathers 10,000 students, and ten years is 100,000. One hundred years is one million, and the millennium is ten million. This is just a labor force with seven layers of life.

Of course, if you want to condense the birth of Xuan Dan, then there will be no improvement in the cultivation.

A seven-year-old can be condensed with a million-year-old Xuan Dan, which is enough to create a six-strong person born in Xuanjing.

If it is a hundred together, it is one billion!

These raw Xuan Dan are estimated to have arrived in the hands of the White Shark King, or used to cultivate genius, or the White Shark King himself to break through!

However, with so many births, the heaps can be piled up to death. Why are they stuck in the ninth place?

"Young Master, what do we do now?"

I couldn't help but ask.

"I can't use the eye of the void, but as long as we locate it, we can still survive in this prison."

Ye Xuan replied.

With their current strength, the sneak attack in the case of smashing the sneak peek is not a problem, even if it is asked to be alive and secluded, you can still run.

As long as they don't come back to life, they are generally not dangerous!

Therefore, this Tianfeng prison is a good place for them.

When Ye Xuan is strong enough, then he will challenge the flamed double-headed dog, and then leave Tianfeng prison.

"That would be better to take me as a bait?" The big eyes of the falling water spirits turned and proposed.

"I think so too. Our realm is low. If someone dares to hit your mind, I will kill him if you are a young master!"

Ye Xuan's light flashes.

The fishing plan, which is the method he often uses, is to use his own to attract hatred and let others hook.

The strength is weak, then it is to be killed by them!

Strong, they will run!

However, Ye Xuan's movements are faster, and the White Shark King has begun to collect Sheng Xuan Dan. In order to avoid these medicinal herbs being refining, he must **** it as soon as possible.

The image of the fox girl's fall is too swaying. They have just left the transfer and have caused a lot of people's onlookers.

"Fast, leave them. If you catch the fox girl, the White Shark King will be able to reward a lot of raw dandelions."

"Ha ha ha, let me be cool before handing over to the White Shark."

"I want to, mom, I haven't been a woman for five hundred years..."

The people around him rushed to Ye Xuan like crazy.

"Hey, there are a lot of people who die!"

Ye Xuan's mouth is slightly tilted.

These people, at most, are six-folded, and they are too weak for them. Even if they use broadcast gymnastics, they can turn these people over.

In addition, they are not inferior to the fall, so Ye Xuan gave them a killing order.

Within a few seconds, these people were all killed by Ye Xuan and others, and all the spoils were taken away.

At the same time, Ye Xuan also deliberately let go of a few and spread this out.

At the time of other people's pursuit, Ye Xuan searched the souls of the deceased and learned the distribution of the white shark king.

The White Shark King is the strongest of the nine sacred peaks of the birthplace. It is only one step away from the dead.

He squats, there are four generals, three students are nine-dimensional, and one is a sacred peak.

In addition, there are sixteen halls, which are all strong in the eight-level level of life, and those who are six-fold and seven-fold are all thugs.

However, these bets have some advantages. They do not need to pay the students, they can practice. The old man didn't join, so he had to pay the student Xuan Dan, and the extra life Xuan Dan was also used to change the wine.

From the squadron of the three talented people, Ye Xuan got a map, then he is going to wipe out all these halls.

"Tianfeng prison, the strong survive, you guys, all turned into my experience!"

Ye Xuan thought in his heart and went straight to the nearest one.

After learning about the conditions for the exit of Tianfeng prison, Ye Xuan also ignited the war. This time, he would go out with his own strength instead of using the eye of the void and the eye of the assassination.

Along the way, Ye Xuan almost always shot him when he met people, so these people all turned into his experience.

Among them, there are many white shark kings.

These people have a lot of combat power, but because of the realm gap, Ye Xuan wants to control them is not so easy, so they directly kill.

After half a day, they finally arrived at the nearest one.

The owner of this hall is a mysterious man, and there are a lot of thugs and seven-year-old thugs. However, after Ye Xuan's arrival, he did not see the so-called eye. The owner.

"Okay, let's kill it!"

Ye Xuan's light flashed and plunged directly toward the mouth.

"Someone?"

The two guards outside the hall were stunned and saw Ye Xuan. When they saw the fall behind Ye Xuan, they were also big.

"It turned out to be a fox, and she will leave her, and the typhoon will definitely have a reward!"

The two looked at each other and immediately rushed out.

The White Shark King is the leader of this area, but there are also four generals under the arm, and only they can see the White Shark King, so in general, the women in the Tianfeng prison will be taken away by these four generals. Even the interracial woman is the same, as long as the confidential work is done well, the White Shark King will not know.

However, these two people are causing big trouble!

"The two districts are six people, and they dare to stop me?"

Ye Xuan's light flashed.

"Take it to the old!"

The old man took the lead and immediately crossed a large distance to the back of the two.

"Hey!" "Hey!"

The two muffled sounds spread, and the heads of the two men burst directly, flesh and blood, and were burned in the air.

The old tree is already alive and well. With the sneak attack, the other party has no ability to resist.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

Ye Xuan, plus two six-year-old killing value.

At this time, he was thinking in his heart, is it in the realm of the four-level realm of life, and then reach the upper limit of the killing value?

In this case, he has three points to swallow!

A little swallowing point, it has a very big effect on him. For example, it can strengthen the old residual flame skill of the tree, it can also be used for reinforcement, and it can also be used to purchase blessing oil.

In addition, the two-point swallowing point can also advanced the unicorn to lower the skill, and then you can even step on the three feet, who can block?

However, this still has to look at it and say, let go of this hall and think slowly.

"There is an enemy attack!"

The fall of these two men was seen by a strong man who had just come out in the distance.

"Humph!"

The old tree slammed and used three consecutive flames to smash the back of the man.

Chapter 1465: Trial team

"Hey!"

This person's head is also bursting open.

Ordinary people, even the old one's strike can not be blocked, unless it is a strong seven-year-old strong.

"In this hall, there are four people who are seven strong and strong, and when they haven't reacted, they will set fire one!"

Ye Xuan gave instructions to the old three of the trees.

But unfortunately, these four powerful people have already heard the movement, and rushed out from a cave together with other masters.

"A big courage, dare to attack my Beimutang!"

"It turned out to be a fox girl, but I have never heard of it in the territory, first squat!"

"No newcomers have come in recently. It seems that it has come from other places. If it is dedicated to the generals, we are a great achievement."

"Yes, the last fox woman was killed by the hurricane in the millennium. He has not enjoyed the fox woman for thousands of years..."

After the sneak whispers of the four great powers of the four majors, they rushed out.

Ye Xuan killed a few people in four, and his strength was extraordinary, so they decided to do it themselves.

Although I didn't hear what they were saying, I saw what the other person's expression was.

"Hey, no good thing, give me to die!"

She instantly embodies the body, and then directly condenses an invisible lotus.

"Hundreds of demon foxes are separated, net lotus demon!"

This move, the power is very strong, after the four people feel this breath, they are not willing to take care of them.

"Booming!"

The attack of the four men will defeat the net lotus demon fire, and the air wave will sweep away.

But at this time, they lost a person.

"The flames!"

"Hey!"

One person did not respond, was hit by a hit in the back, greeted Ye Xuan's flame sword.

"Oh!"

His head was thrown away and burned into ashes in the air.

"Hey, the host's killing value is improved!"

A system prompt sounded in Ye Xuan's head.

The cooperation between Ye Xuan and the old tree is already perfect, but there is no way. After all, the old residual flame skill of the tree is too horrible.

Seeing that his companion fell instantly, the other three also changed their faces.

"Get your hands on it!"

One of them shouted.

They also don't have time to think about where Ye Xuan came from, and solve the battle first.

Not far away, there are more than a dozen people who are born in Xuanjing. They are also full-strike, but they are all killed by Megatron.

"I think you can block it a few times!"

Unsatisfied with the fall, once again consume a lot of infuriating, condensed out a net lotus demon fire.

"Hey!"

The three were forced to fight back again, but the next moment, another person had a routine, and the tree was shot by an old man, then hit the sword of Ye Xuan.

"Hey, the host's killing value is improved!"

Now, there are only two of the four strongest people in the four worlds.

"Come back!"

The infuriating recovery in the body is also a net lotus demon.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

Within three seconds, the last two were also killed by Ye Xuan, the time of the whole battle, but only ten seconds.

"Good job!"

Ye Xuan snorted and quickly collected the spoils.

There were quite a few people in this hall, but they all went out to collect protection fees, so there were not many people left.

However, under normal circumstances, the owner will sit here in the right place. This owner is also the target of Ye Xuan. After all, it is also a cousin. I am afraid that it is rich and oily. Ye Xuan will not let go.

Just don't know, where did this church go!

However, when he guessed where the owner had gone, the sky just happened to be a figure.

"Who, dare to scatter on my site?"

There was a violent drink in the distance. Ye Xuan turned his head and found that the visitor was a middle-aged man. The realm of this middle-aged man was a mysterious person. It seems that this is the northern wooden church.

"war!"

Ye Xuan said nothing, directly save time to welcome.

The strongest people in the general area are rich in oil. As long as they kill this master, the oldest tree of the ashes may be able to break through to six.

"The killings broke out!"

"burning the sword!"

"The flames!"

The cooperation of Ye Xuan's four people is almost perfect. Although their realm is low, if they are united, they can instantly suppress the other party's power to fight back.

Only for the first time, the North Mutang Church was suppressed, and it was really a little bit of a fight.

However, this can't blame him. After all, he relied on a large number of Sheng Xuan Dan to break through the eight-fold life, and the combat power will be relatively poor.

This battle was finally over under the soft and hard foam of Ye Xuan, and it took ten seconds!

However, let Ye Xuan regret that the most of this Qiankun ring is Sheng Xuan Dan, there is not much natural treasure, so the tree is not able to break through to the six. But it doesn't matter, it's the first one.

At the moment, Ye Xuan rushed toward the second goal.

If all the six sharks of the White Sharks were destroyed, he estimated that they could break through.

However, at the time of his rush, the entrance to the Tianfeng prison suddenly ushered in a team.

This is a golden dragon. There are eleven people sitting on its back. These people are not high in the realm. The weak ones are six-folded, and the strong ones are just eight-fold. But the one who is headed is Sheng Xuanjing is nine heavy.

This golden dragon landed at the entrance to the Tianfeng prison.

"I have seen the Lord of the Lesser!"

A caretaker at Tianfeng Prisoner respectfully cuddles his fists.

Sitting in the golden dragon's faucet is a golden crown youth. He is the main city of Tianfeng City. His strength is unfathomable. It is the first genius of Tianfeng City.

"Open the array method." Tianfeng City Shaocheng said directly.

"Yes!"

The caretaker of the nine-fold peak of the student Xuanjing nodded, even if he turned around, he used the power of Vientiane to open a gate behind him.

"Boom!"

The gate opened, revealing a long wall passage, and at the same time, there was a huge figure that caught everyone's eyes.

This is a huge scorpion beast. It has a reddish-black body and two heads. The red lines will breathe in every breath, illuminating the entire wall passage.

At this time, this huge Tongtian beast is sleeping.

"Great, this is the flame double-headed dog, it really is amazing."

"It is said that it is the level of death and the descendants of the two cities, the temperature of the breath is enough to melt us."

"There are people who guard it, and the people in Tianfeng prison can't come out!"

The people on the back of the Golden Dragon are talking about it. They are not old enough. They are the geniuses selected by the city government. This time they are going to enter the Tianfeng prison.

Chapter 1466: Windy general

"Shut up, keep up!"

Tianfeng City Shaocheng Lord sighed low and lifted his foot and went in.

Everyone heard this low drink, immediately silenced, and followed.

Although the flame double-headed dog was raised by the city government, these people were still a bit worried when they passed.

"Wh..."

At this time, the flame double-headed dog suddenly opened his eyes and shocked the ten people behind Tianfeng City Shaocheng.

"Small two, this is for you."

Tianfeng City Shaocheng master waved a hand, which was to take out a large number of Tongtian beasts in Qiankun Ring. They were all fresh, and the **** smell suddenly spread the entire wall passage.

The flame double-headed dog is a Tongtian beast, but nodded slightly to the owner of Tianfeng City, and then began to eat those foods.

"This trial lasts for one month. You have to wait for a month here. If you don't get caught one month later, you can enter the main city of our city and get the training of the city's main government."
Tianfeng City Shaocheng Lord Said the person behind him.

"Yes!"

The ten people answered in unison, and then passed the formation and entered the Tianfeng prison.

"Boom!"

A loud bang came and the gate closed.

At the same time, the appearance of these ten people has also attracted the attention of those inside.

"The ten people are wearing trial clothes. It seems that they are people who have come to practice in the city government. Fast, inform the top!"

"Hey, there are ten people this time. I don't know how many people will be caught by us?"

"This is a safe area, we can't do it, keep up, don't let them escape!"

Suddenly, there were a lot of prisoners in Tianfeng prison, and they caught up with this team.

.....

The news of the trial team was quickly passed to the ears of the three giants of Tianfeng prison.

At this time, in Tianfeng prison in a gorgeous platinum palace.

"White Shark King, the city gate opened half a day ago, this time came ten testers, the strongest one is the birthplace of eight!"

A warrior reported.

In front of him, sitting in a white-faced niche, no one would have thought that this white-faced niche is one of the three giants in Tianfeng prison - White Shark!

"Are there ten more people?"

The white shark king shimmered and said: "I have already grasped eight occupants, and then grabbed two, and I can leave this **** Tianfeng prison!"

Those who seize the trial team can indeed leave Tianfeng prison.

However, this is also in accordance with the realm.

The six-strong warrior who is born in Xuanjing can take the pilot of the six-folder of the Xuanjing before he can leave Tianfeng prison.

In other words, it is necessary to grasp the trial talents of the same level!

If the seven prisoners who want to leave, they have to catch ten trials and talents.

You know, there are tens of thousands of prisoners in the entire Tianfeng prison. It is difficult to catch a person, and how can you grasp ten?

Fortunately, there are trials sent in at regular intervals, and there will be a few batches in a year. There will be many in the millennium.

However, the average person in Tianfeng prison is based on survival.

Grab people, forget it!

Even if someone grabs the tester at the same level, it is estimated that the entrance will be intercepted, and then the person will be handed over to the three giants for disposal.

Not only the White Shark King, but the other two giants also learned the news and sent people to arrest.

Among the three giants, except the White Shark King has already captured eight martial arts martial artists, the other two are almost the same, so the three parties will not give in, everyone wants to leave this ghost place!

At the same time, the White Shark was also informed of the news that his majesty was destroyed. But he didn't take it for granted, because it didn't matter if all the churches were destroyed. The real masters were in the White Shark Temple and the Big Four.

Although it is said, but the White Shark King sent a general to go to investigate, it is the savage generals of the eight peaks.

At this time, somewhere in the prison of Tianfeng.

After this day, Ye Xuan has already destroyed three halls, and both the old tree and the Megatron have broken through to the six-fold life. Ye Xuan and the fall are also breaking through to the five-fold life.

As long as they break through, they can go sideways in Tianfeng prison.

"These poor ghosts, it seems that good things are in the Big Four and the White Shark King. When I break through, I will meet you."

Ye Xuan thought in his mind that he went to the fourth hall of the White Shark.

With the strength of Megatron and the old tree, they are already able to deal with the eight masters of the realm of life, so that these churches have no resistance at all, and they are quickly eliminated.

However, when Ye Xuan destroyed the fifth hall.

"Hey, mix things, dare to sneak in my field, find death!"

A violent drink passed over, Ye Xuan turned around and saw that the comer was a burly comer.

"The White Shark King is under the hurricane?"

Ye Xuan suddenly reacted. He recognized the other party because he had already destroyed several temples. Naturally, there was a portrait of a savage general.

Although Ye Xuan had already killed a few temples before, but the strength of the savage generals can not be underestimated, he is the eight peaks of the birthplace, and is the strongest of the nine feet.

But don't forget, Megatron and the tree have already broken through!

"Heaven has a road, you don't go, **** has no door, you cast it, I didn't go looking for you, but I came to the door!"

Ye Xuan's heart snorted and immediately made a death killing order on this savage general.

After this war, he may be able to break through to the five levels of life, so the firepower is full!

"The flames!"

"The killings broke out!"

"burning the sword!"

Ye Xuan and the tree first cooperated, and Megatron copied it from the side.

As for the fall, it is also a direct transformation, and the realm is instantly raised to the fifth place.

"Return nine flashes!"

Four people, instantly attacked this squally general.

"There is still a little fox, very good. When you wait for me, I will let you know that my madman is 'very powerful!'"

The squally wind flashed and his hands lifted.

Suddenly, the surrounding air began to flow quickly.

"The wind is not dead!"

Ye Xuan, who was running wildly, was instantly scratched by some of the flowing airflow, but it suddenly recovered.

However, when his attack hit the hurricane general, it was weakened by at least half.

Not only that, the use of the residual flame flashed to the tree behind the squally general, but also was blown away by a layer of wind defense.

"There are two brushes!"

The tree does not say anything, it becomes a body directly, and once again casts a residual flame!

However, it is still blown away!

"Ha ha ha, know what is called the realm of suppression, even the strong and strong people who are close to each other will be blown away by me, let alone you?" The wind screamed three laughs.

The next moment, the fast-moving air suddenly became a sharp wind blade.

Chapter 1467: Serial random task

"Calling!"

The power of the wind blade is not small enough to kill Ye Xuan. This is the savage general of the eight-fold peak of the sacred environment. It is really capable.

"Come a little carefully!"

Ye Xuan hurriedly reminded.

"it is good!"

He nodded and then split directly, but it was quickly cut off by the wind blade.

"The cycle is nine flashes, the sixth flash!"

"The power is good enough to kill the average master of the eight-pointed, but for me, not enough!"

The squally wind will flash in the light, and the palm of the hand will resolve the reincarnation of the reincarnation. After all, he is the martial art of the refined nature of the wind.

Just as he was about to fall down, Ye Xuan suddenly thought of a move and sent the fall to the planting space.

"What about people?"

The squally general was shocked. The next moment, he found the falling figure in the distance.

How is this going?

He didn't know how it was done, but he said.

"Give me death!"

The squally general left a heart, and the wind suddenly accelerated the speed, which doubled.

Of course, this gust of wind is directed at Ye Xuan, Megatron and the old tree. The fall is the goal of the squally generals, and the squally general will naturally not move.

At this time, Ye Xuan felt a pressure. If you don't take out a hole card today, I am afraid that this is a mad wind.

"Fortunately, I have saved a lot of Tongtian beasts. I have to see, your arrogant capital, where!"

Ye Xuan's flashing light directly used his most powerful card.

Kirin drops!

"Calling!"

A distinctive wind rang, this is not the result of the wind blade breaking through the space. The source of this sound is at the top of the squally general.

"what?"

The squally general was shocked. He immediately looked up and saw that there was already a huge flame hoof on his head.

The power of this flame hoof is not small, the power is probably not the same!

"Not good, wind, volume!"

The squally general responded quickly, directly igniting the surrounding wind blade and attacking the flame hoof on top of his head.

"Boom!" "Boom!" "Boom!"

A sound of the road spread, these wind blades hit the flame hoof, and were suddenly shaken by the blazing flame of the flame hoof.

"Hey!"

The flame hooves eventually fell.

The squally wind directly burned the life span of a hundred years, and blessed the hurricane protection on his own body. However, this blow still blasted his defense.

Kirin down is currently two levels, so it can be used twice in a short time.

"I don't die once, count your life, see if you can live this time!"

Ye Xuan's eyes widened and he once again gathered a flame hoof.

"not good!"

The squally general changed his face, and he only used all the infuriating resistance. Now he can't call it.

This blow is terrible!

"Hey!"

The second shot down, directly stepping on the body of the squally wind, the blazing flame climbed onto the body of the savage general, the squally general became a living person, and the eyes were burnt and bloody.

However, the squally general is now in a state of sudden death and has not died.

With the last will, he quickly recovered with the sacred gas, and at the same time used the real gas to scatter the flames on his body.

He couldn't understand who launched this attack. Such a powerful attack could not be the right thing that Ye Xuan and Fall could make.

However, he can only take this question and go to Huangquan Road!

"The cycle is nine flashes, the sixth flash!"

When the mad wind slammed the unhealed, the arrow fell over, and the fierce wind blade swept away, directly cutting off the head of the savage general.

Because it was soft on the ground, the head of the savage general did not fly, but the blood was still spurting out and splashing a few meters away.

"Hey, the host's killing value is improved!"

A system prompts the sound, and Ye Xuan's killing value has skyrocketed.

At the moment, Ye Xuan is quickly passing, and the body of the savage general and the Qiang Kun ring are closed.

"Hey, the host breaks through, and the current is a five-fold life!"

After swallowing up tens of millions of raw Xuan Dan, Ye Xuan's breath soared and finally broke through.

It is a pity that Tianfeng Prison's prison lacks Tianmu Dibao, most of them are Sheng Xuan Dan, so the strength of Shu Lao and Wei Zhen Tian is somewhat slower.

"Hey, the host triggered a serial random mission, killing the other three generals under the White Shark King!"

A system prompt sounds and suddenly sounds.

"Yes, I finally got a serial random mission!"

After Ye Xuan heard it, his eyes couldn't help but he had not received this task for a long time.

The mission rewards are still not prompted, which means there may be good things.

Now, the savage general of the White Shark King is already dead, so there are three others left.

However, these three generals are all nine-minded, I am afraid that it is not so easy to kill.

Before Ye Xuan didn't break through, he relied on Qilin to kill the savage generals who had smashed the peaks of the eight-fold peaks. Now, if they break through, I am afraid that they will not be able to fight with the generals who are born in Xuanjing, let alone the white shark king who lives in Xuanjing. It is.

I want to fight against each other and kill, I am afraid I have to break through again!

"I am not in a hurry. I am now living in a five-fold state. I will first clear the rest of the White Shark King!"

Ye Xuan thought in his heart, that is, he began to continue on his way.

With the special positioning of the void, he is more convenient, so that both the old tree and the Megatron can hurry, as long as the arrival location, Ye Xuan can directly break the void.

In just two days, the shrine of the White Shark's prince was completely smashed.

In two days, the fall also broke through to the five-fold life.

With the base of the life and death disk refining and chemical rejuvenation, the breakthrough speed is no longer possible under normal circumstances. If it breaks through once in a few days, who can compare?

Unfortunately, her master is Ye Xuan, who has a more perverted breakthrough speed!

"Now the white shark king's hall is completely destroyed by me, but why are they not moving at all?"

Ye Xuan thought very strangely.

At this point, he is heading towards the residence of the savage general, where it is estimated that it can be worth a few sects, many strong, and a lot of oil.

Soon, he arrived at the residence of the hurricane general.

"Lost, old trees, Megatron, all pose a threat, kill!"

Ye Xuan immediately gave an order to the three.

"it is good!"

The three people are already used to it, and they are directly plunged into the residence of the savage general.

In the past two days, in addition to the breakthrough, Megatron and Shushang have also improved a lot. Although they have not yet reached the top of the world, they are also fast.

Ye Xuan estimates that as long as they robbed the tyrant's Dongfu, they could break through.

There are still many people in the hurricane dong, and three strong people who are born in the eight-dimensional environment, but under the siege of Ye Xuan and others, they were quickly murdered.

Chapter 1468: Frozen general

As a new general, the hurricane general is very appreciated by the White Shark King. He has fished a lot of oil and water, and at the same time he has hidden the girl slaves, even the aliens.

When Ye Xuan and others killed the masters in Dongfu, they saved them. However, Ye Xuan did not have sympathy, but let them leave on their own and were not prepared to **** them.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

As the system prompts to sound, Ye Xuan's killing value continues to increase.

Soon, he heard two different prompts.

"Hey, the spirit of the Ashes breaks through, and the current is the seventh place!"

"Hey, the old breakthrough of the tree, the current seven-year life!"

The two magic weapons took the lead in breaking through, and they successively reached the seventh place.

This cave house was also ransacked. Ye Xuan had the eye of perception and found the places where the treasures were found.

"Now the old tree and Megatron break through, just let me break through, then you can fight the other three generals!"

Ye Xuan thought in his heart.

He knows that he has a few pounds and two. The last time he relied on the Kirin to kill the savage general. Although he can now kill him, the next thing he has to face is not the eight-fold life, but the birth. The situation is nine.

Every weight can have a qualitative improvement.

The hurricane general is because he is about to break through to the ninth place, so he was promoted to a general.

In the past two days, Ye Xuan has gotten a lot of Tongtian beasts, but Qilin's cooling of this skill has only recovered 30%, and it is very pitiful.

Therefore, he does not want to fight with the other three generals for the time being.

But, if you don't want to, it's not that he can decide!

Just as he was preparing to leave the hurricane Dongfu, it happened that one person arrived.

This is a man with azure hair, his body is extremely cold, and the whole world is in a hurry, as if he is about to freeze.

Behind him, there is a young man who looks similar to a man.

"The leader went out to catch the tester who was alive and well-being. The wind was sent out. I haven't returned yet. Now I only leave me in the town, hey, the wind is the idiot. Last time I asked him for a cat girl. I still haven't given it, I'm going to do her today!" said the blue-haired man.

"Father, this wind is a good luck. If you catch a girl slave, you are stingy. Today we have to play it all over and take a few more. I don't dare to tell the leader." The youth suddenly showed a lasciviousness. Smile comes.

The blue-haired man smiled slightly: "Yes, the wind is very cruel. This is a girl who is dead and does not know how to pity. It is different after us..."

"Father, let's go in!"

Some blue-haired men couldn't wait, and they fell directly in front of the hurricane general.

At this time, it happened that someone came out of the Dongfu, two humans, a fox girl, is the Ye Xuan three.

"Well? Fox?"

Upon seeing it, the blue-haired men and the young people's eyes are all bright. For the first time in nearly a thousand years, they have seen the women of the Fox family for the first time, and they are still so young girls.

Although the age may not be small, but like their realm, age is not the limit, even if it is eight thousand years old, the figure is good.

After seeing the atmosphere of this blue-haired man and youth, Ye Xuan and others are also a figure.

"Sheng Xuanjing Jiuzhong?" Ye Xuan suddenly.

How can you be here?

He stared at it and found that the blue-haired man was somewhat familiar, and it seemed to be the icy general of the White Shark.

As for the young man, it is only a matter of life and a lack of fear.

"It's really bad luck. This ice-cream general should be looking for a savage general, just hit me..."

Ye Xuan brow wrinkles.

Although he said that he does not want to play against the masters of the nine talents, the frozen general is different.

The strength of this frozen general is ranked third among the four generals, that is, only stronger than the madman, and weaker than the other two generals.

And the most important thing is that the property of this frozen general is restrained by Ye Xuan!

This battle may not be impossible!

"Hey, kid, who is the madman?" asked the blue-haired man.

He saw that Ye Xuan could come out with a drop, apparently some identity, and perhaps the descendants of the squally general.

"It turned out to be a frozen general. You are coming right. I am going to find you." Ye Xuan suddenly pretended to be a harmless person.

When the blue-haired man heard it, he said, "Look for me, what to do?"

"This is the case. The ancestors went out for a trip this time and were seriously injured. The injury could not be cured even by the sacred spirit. So he asked me to take the female slave to visit the ice stalwart. I hope that the icy general can help. As long as Can suppress the ancestor's injury, he said that the female slaves you choose ten!" Ye Xuan casually compiled a reason.

After listening to it, the ice giant and the youth also looked at each other.

The hurricane general of the eight-fold peak of Sheng Xuanjing was seriously injured?

who is it?

In the White Shark King site, in addition to the White Shark King and the other three generals, it should be that no one can seriously hurt the mad wind.

Is it difficult to be a black poison king or a master of Jin Huang?

Also, there is now a trial-and-errorist who is alive and well-being. The three parties are not happy. The hurricane may have encountered the other person when they are performing the task.

"It turns out, no problem!"

The icy general did not think much and fell directly in front of Dongfu.

But the next moment, he felt a little strange.

Ye Xuan is a descendant of the squally generals, even if it is worse, there is also a seven-level guardian.

However, just when he was strange, the change happened!

"The flames!"

"The killings broke out!"

"burning the sword!"

Suddenly, the wind blew.

Ye Xuan and others immediately shot.

The old tree and the Megatron two directly shot the ice giant, and Ye Xuan and the fall were also shots of the young man who was born in the middle of the world.

"what?"

The frozen general suddenly reacted and directly condensed an ice crystal shield, blocking the attack of the old tree and Megatron.

It's a pity that the young man who was born in the middle of the world was not spared.

"Oh!"

A crisp voice spread, the young man's head was thrown away.

This person is the nephew of the icy general.

The icy general was sexually amorous, but only gave birth to a son, that is, this young man.

At this time, his only son died, and he died in front of him.

When the head was thrown up, the ice giant was also mad.

"I want you to die!"

The anger of the icy general has already poured into his head, and the body is pouring out.

At that time, the entire hurricane's doorway was the layer of ice crystals. At the same time, the air of hundreds of miles far away seems to have solidified.

Chapter 1469: One hit kill

Fortunately, Ye Xuan has the unicorn infuriating, which is just the nemesis of this ice property. It is also because of Ye Xuan, so it is not affected by the environment.

At this time, the icy general has already condensed the infuriating, with a cloak behind him, and a branch of ice arrows to Ye Xuan and Ye Xuan.

Shu Lao and Megatron are the two closest enemies to him, but he is attacking Ye Xuan and falling, which is enough to prove how strong his anger is at this time.

"Want to hurt the young master, you have to ask the old man!" The old flame of the tree was blocked in front of Ye Xuan, and then a few punches were made, and the ice arrow was directly burned into steam.

At this time, the old tree is already alive and well, and it is not a problem to defeat these small attacks.

This is also the ice giant to look at Ye Xuan, if it is shot, the attack power is at least several times that of this cold arrow.

"It seems that this time I have to play cards, Megatron, Bladestorm!"

Ye Xuan's light flashed and the order was given to Megatron.

The Megatron of the seven-year-old Megatron, the power of using the blade storm is not small, even if the ice giant is powerful, it will be consumed.

At the same time, the fall is also a direct use of the transformation once a day, the realm of the realm from the five-year-old realm, forced to upgrade to the six-fold life.

If he meets two other generals, Ye Xuan may not be able to shoot, but the frozen general is just the weakest, but also restrained, so Ye Xuan today, want to marry him!

"with full force!"

Ye Xuan's eyes widened and he used his skills continuously.

Night sky!

Death killing order!

Killing out!

Burning the sword!

This kind of flame swordsmanpower is no weaker than the attack made by the eight-strong strongman, and with the effect of burning the world, it may be able to fight with the attack of the ice giant.

However, at this time, the face of the ice seal has changed. He feels that the threat of the old tree, Megatron and the fall is even greater.

"Ice is frozen!"

Another ice force shook out, only to hear the screaming of the '咔嚓', the attack of Ye Xuan was weakened by 30%, and the blade storm and the old tree were frozen a lot.

Because of the high level of the ice-selling general, Ye Xuan, who is born in a five-dimensional environment, cannot see his body with an insightful eye.

He did not know that the ice-selling general refining a 45-year-old ice crystal scorpion in the different fire list, which improved his ice attribute.

If his strength is fully open, his strength will not be weaker than the other two big futures.

Ye Xuan, this time I kicked the iron plate!

However, Ye Xuan will not give up.

Four big one, can't you beat it?

"The Eye of Charm!"

Forced to rise to the six-fold fall of the birthplace, directly condensed an eye of charm.

Although it is unlikely that this icy general will be charmed, it can be a soul attack. In addition, Ye Xuan has been using the soul of the eye from the beginning, and the ice sergeant has been affected.

Anyway, it can affect a little bit!

This battle, Ye Xuan is not expected to end so soon, so only a long-term battle!

The mysterious gas still consumes light, and when the icy gas in the body of the ice seal consumes light, then it is when he dies.

"Kid, aren't you a big man?"

The ice seal general could not help but ask.

Ye Xuan and others united and did not feel weaker than him, but he also stayed in this Tianfeng prison for thousands of years, and had never heard of this means.

"Who do you care about me?"

Ye Xuan was too lazy to talk nonsense with this frozen general.

The blade of the storm has a **** sword, and hundreds of avatars have been dropped. Together with the trees that have disappeared without a trace and are immortal, this icy general has been beaten with no temper.

Three seconds!

Six seconds!

A little bit past, the frozen generals have been forced to defend and can't attack.

However, Ye Xuan is underestimating his strength.

"Look at the appearance of this icy general, there is still a lot of life in the body, and the time of the blade storm is about to pass, and it is dangerous to fight it again..."

Ye Xuan thought in his heart.

He can hit the present, it is entirely by the blade of the storm, if the duration of the blade storm has passed, Megatron and the tree can not stop the frozen general.

At that time, he will definitely be frozen into ice sculptures!

Therefore, Ye Xuan's heart is already a resurgence. If this is not the case, then he will break through once again and come back to the trouble of this frozen general.

However, it is at this time.

"Hey, the host triggers a hit and kills!"

A system prompt suddenly remembered.

Ye Xuan glimmered and found a **** sword that broke the ice crystal helmet of the ice-selling general and directly put his head into the hole.

This.....

He did not expect that such a low probability of a blow will be triggered, even when triggered at such a critical time, it is really a drop in the sky.

This is the second time he triggers a one-shot kill effect, and it is still to break the enemy's attack, and then give the enemy the most deadly blow.

The ice sergeant widened his eyes and felt the blood sword passing through his own brain. He couldn't think of why his most proud defense would be broken!

Only after playing for so long, he is only focused on defending the heart and the head, even if the other two generals may not be able to break.

However, it was broken by Megatron!

"Hey, the host's killing value is improved!"

The system prompts again, and Ye Xuan's killing value has skyrocketed.

A hit will kill, the ice will be spiked, and it will fall!

"Haha, the lucky value is really good, Megatron has made great contributions this time!"

Ye Xuan immediately praised.

Megatron has already had a blessing oil, which has raised a little lucky value and directly increased the chance of a hit.

If you increase the lucky value to nine, you don't know what kind of changes will happen.

These things will be said later!

"Wow, it's another shot that will kill."

When I saw this scene, I couldn't help but widen my eyes and felt incredible.

"Yes, this is God's will!"

Ye Xuan smiled and swiftly swept away the body of the icy general and the shackles.

The veteran is not the same, the wealth is much more than the mad wind.

In this Qiankun ring, there are hundreds of millions of students.

If you let the seven strong people of Confucianism consolidate, it will take tens of thousands of years. If it is the eight-stronger person, it will take nearly 10,000 years. If it is a nine-fold life, it will take thousands of years.

"Hey, the host breaks through, and it's six years old!"

After Ye Xuan swallowed these raw Xuan Dan, it was a breakthrough.

If he is only a serious man, he will be enough to deal with the ice giant.

"The random mission has been completed by a quarter, and there are two generals left, and the White Shark King!"

Ye Xuan's light flashed and immediately began to hurry.

Chapter 1470: Join the battle

The icy general is dead, so his Dongfu is also a great asset.

This icy general Dongfu is close to the hurricane general Dongfu, and Ye Xuan only took half a day to arrive.

No one can stop him in Dongfu!

Soon, the entire Dongfu was cleaned.

After Ye Xuan took all these Qiang Kun Rings away, he left.

The realm of the icy general is much higher than him. It is hard to search for souls, but the son of the frozen general is OK.

From the memory of the icy general's son, you can also learn about the outside trial team entering the Tianfeng prison.

The other two generals have already been dispatched, not only that, but the White Shark is the same.

Therefore, Ye Xuan went to the three-hole cave house and ransacked it. In Tianfeng prison, there is generally no treasure, and its own Qiankun ring is the safest, so Ye Xuan's harvest is not big.

Ye Xuan came out of the White Shark King's palace and said in his heart: "Tianfeng prison is still big. This white shark king and the other two will not know where to go. Megatron, old tree, and split action."

"it is good!"

Megatron and the tree nodded, and then they left.

Ye Xuan has the eye of the soul, it is convenient to find it, and search the soul along the way.

Soon, I found a clue!

"It turned out that I went to the middle of Tianfeng prison. It seems that the other two chiefs are also estimated..."

Ye Xuan thought in his heart that he was rushing toward the middle.

He has already broken through to the six-fold life, and he has arrived in the dark with a shadow.

The trial team appeared, and it was so lively and there were many people along the way.

However, these people are all running out.

Ye Xuan directly controls one person with the eyes of the soul and asks about the situation.

"Master, this trial team has a captain who is a top-ranking eight-strong man, but in these days of chasing, he suddenly broke through the nine-fold life, at this time, the three chiefs are fighting with him.!"

Hearing this, Ye Xuan's figure is also a tremor.

Holy crap!

The captain of the trial team who just broke through to the nine-year-old test team, actually went to battle three?

You must know that the three chiefs are all nine peaks, and there are several generals.

Is this too fierce?

"It's not because of Tianfeng City, it's a bit tolerant, just right, I can rob my fire!"

Ye Xuan's eyes lit up.

He is the one who has the protagonist's aura, and no one can grab his limelight!

Of course, this time his main goal is the White Shark King and two other generals.

At the moment, he just continued on his way, and within half an hour, he found the battlefield.

The battle is very intense!

There are exactly ten figures in the battlefield, and all of them are all nine levels of life.

Among the ten figures, three people are the peaks of the birthplace, namely the White Shark King, the Black Poison King and the Jinhuang King.

There are also six people, the generals of the three chiefs.

As for the last person, it is the captain of the trial team.

The captain of this trial team is not only a war one, but a war one!

One, play nine!

"The trough, is this too strong?"

Ye Xuan can't believe it.

This is the first time he has seen other people playing nine, and the nine players in the same class, and three of them are the peaks in their class.

This is too scary, right?

"Young master, look at the attack of that person..."

At this time, the tree suddenly reminded.

Ye Xuan stared at it and found that the attack of the captain of the trial team did have some weirdness.

"That is... the air of death?"

Ye Xuan glimmered and saw the clue.

In the attack of the captain of the trial team, it was a fusion of the spirit of death, it is no wonder that even the top three leaders can not block.

"This should be the child of a big family. I have cultivated the magical power of the dead-level level, and cultivated the spirit of death in advance..."

Ye Xuan suddenly reacted.

The mysterious gas can only be used to treat injuries, but the sin of the dead can be used to attack and defend.

It is no wonder that the captain of this trial team can fight for nine. It turns out that there is this card.

It's a pity that the two fists are hard to beat four hands, not to mention the other nine.

He is awesome now, but the cooperation of nine people is good, there are no casualties.

Waiting for the dead body in his body to consume light, then it is when you are squatted.

"Young master, are we shooting?"

Asked about the fall.

During this time of the road, she also broke through to the six levels of life, and the realm did not fall.

If you use the transformation, it is a seven-fold situation, and dealing with a few people is not a problem!

"There are two generals left under the White Shark, a meteorite general, a general of the sun, our goal is him, kill the two first, and then the white shark king!"

"The Sun Yat-sen is the strongest, and the Rock Master is ranked second. Let's first find the trouble of the Rock Master!"

Ye Xuan immediately gave instructions to the three.

The next moment, the sky is dark.

Night sky!

At the same time, the four people also rushed out.

"Roll, this is not where you come from!"

A martial artist who was born in Xuanjing was angry and said that Ye Xuan was here to help.

It happens that this martial art of the nine-fold martial arts is Ye Xuan's goal, the singer!

Seeing that Ye Xuan did not respond, the meteorite general turned his head and punched a punch.

Although he is called the Rock Master, but in addition to the amazing defense, the attack power is very weak.

His fist is enough to kill the eight-strong powerhouse!

But what he would not think of is that Ye Xuan's goal is him!

"The flames!"

The tree was the first to go straight, and it flashed directly behind the meteorite, and then slammed it out.

"what?"

The meteorite general was shocked and hurriedly defended.

"Hey!"

The old fire fist of the tree slammed on the hard rock, but it was not able to break it.

The meteorite general, it is a bit resistant!

"The killings broke out!"

"burning the sword!"

"Return nine flashes!"

Ye Xuan and the fall are also Qi Qi attack.

"boom!"

The meteorite general condensed several stone shields and blocked all the attacks.

If it is more than an attack, he is still better at defense!

At the same time, the changes here have also attracted the attention of others.

They don't understand why there are people attacking them. What is going on?

The same is true of the captain of the nine-year-old trial team. He sees that Ye Xuan is not a member of his own trial team. Why should he help him?

However, he can't take care of it any more. After all, he still has to fight a battle. The body's dead spirit has already consumed a lot. If it is consumed, he will definitely be left!

Unexpectedly, it took a few days to come in and the experience failed!

"Meteorite, solve these few things!"

The white-faced white shark king angered.

"it is good!"

The meteorite general should have a sentence.

How can he still solve a few kids?
