Chapter 151: Crisis relief

The powerful impact, pouring out in an instant, but when the two are still in contact, there is another impact.

Tiger and wolf double roar!

"boom!"

At least two tons of blood-colored giant wolf, directly repelled a few meters, the claws of the limbs caught four clearly visible long marks on the ground.

This punch, right in the forehead of the **** giant wolf, directly gave it to the seven.

Ye Xuan can not miss the opportunity, and instantly changed the weapon.

"Have a hundred steps to wear Yang, give me death!"

"call out!"

Han Mang flashed, directly into the eyes of the **** giant wolf, but also penetrated its head, the violent spiritual power rolled its head into a meat mud, making it instantly violent.

Scarlet wolf, dead!

However, at this time, there were two spirit beasts in the field, and the speed of Ye Xuan killing the **** giant wolves was much faster than the battle of Zhao Pan.

This pair of strengths has already shocked the audience.

"Impossible, impossible, you actually killed the demon wolf, this is impossible!"

The neutral voice suddenly screamed out.

"You are the ember of the beast, I don't see you!"

Ye Xuan looks a condensate, and instantly merges with a blood vein.

"Intermediate supersonic bat blood!"

After the integration, Ye Xuan suddenly closed his eyes, and his body also exuded an invisible energy to go out.

This is the effect of the super-sound bat blood, which can be positioned using echoes. Although it is only a few hundred meters away, don't forget, this is a small valley.

"Hey!"

"found it!"

Ye Xuan suddenly opened his eyes and opened the bow in one direction.

"shoot with great precision!"

"call out!"

Han Mang fell directly into the forest.

"Humph."

Ye Xuan snorted and put down the star chasing.

At this point, Zhao Pan, they also happened to kill the two last spirit beasts, the whole body was ruined.

A few people in Zhaopan have already been speechless.

The **** giant wolf that had bitten off Zhao Chongwen's arm was actually killed by Ye Xuan.

Is this strength a bit too much against the sky?

"Predecessors, are you okay?" Ye Xuan remained calm and hurriedly went to see Zhao Chongwen's injury.

Zhao Chongwen was also shocked, but he looked at the broken arm of the cold light sword on the side, but he shook his head: "Hey, it seems that I have to practice the left-handed sword in the future."

"not necessarily!"

Ye Xuan suddenly said a sentence, directly took Zhao Chongwen's broken arm back, and then received Zhao Chongwen's wound.

At the same time, he also changed out of a remedy, handed over the past: "Predecessors, take this remedy."

"What is this?" Zhao Chongwen was a little surprised, but after asking, he took the medicinal herbs and swallowed them directly.

Now, he is very trusting Ye Xuan. If there is no such thing, his head may be bitten down.

However, what happened next was to let him shake it completely.

He felt that his broken arm began to itch as if it had been bitten by 10,000 ants. But this pain can still be tolerated. What shocked him was that his broken arm wound began to heal. After a few seconds, the broken arm was picked up, and even the scar was gone.

"This...this..." Zhao Chongwen was too surprised to say anything.

It is not impossible to connect the broken arm, but it requires a skilled expert.

And Ye Xuan only gave him a remedy, he just picked it up. Did he eat Shen Dan?

This remedy is exactly what Ye Xuan has exchanged from the phagocytic system. A value of 50,000 is swallowed and it is too expensive to die.

However, Ye Xuan thinks that even if it is a hundred thousand points, he will buy it.

"This is a remedy that the younger generation accidentally got. If the wound has not healed, you can reconnect it."

Ye Xuan said slowly.

"Hey, I am also old. In the future, it will be the world of your young people. If it is not for you, I am afraid I will be in the same position." Zhao Chongwen said with gratitude.

"Predecessors have said that if you don't drag this wolf, I can't kill it." Ye Xuan said very modestly.

This is the truth. If Zhao Chongwen did not follow this time, then they must be wiped out by the whole army. In the same way, if there is no such person, Zhao Pan will also become the belly of the wolf.

"What about the embers of the beast god?" Zhao Chongwen stood up and said.

"I was shot by myself." Ye Xuan replied.

"That's good, don't let him run. This beast has a mystery that can force the strength of some beasts at the expense of their own life." Zhao Chongwen said with emotion.

When I heard this, Ye Xuan finally understood why these beasts were so powerful.

Since Zhao Chongwen is fine, Ye Xuan has also started his most important part to clean up the mess.

However, he did not completely devour these corpses. He kept these inner dans. There were a total of twelve sacred beasts inside the real spirits. In the middle of a real world, a true meta-level.

As for the corpse, he was swallowed up by all, but the difference between the corpse and the inner dan was too great. Only the **** giant wolf of the true Yuan dynasty gave Ye Xuan a hundred thousand engulfing points.

When Ye Xuan finished the body, the two offerings also brought the body of the beast **** Yu Yu.

Looking at the body of this old man who is as old as 70-80 years old, Zhao Chongwen sighed: "Sure enough, at the expense of his life, forcing the level of the beast, he will not live for a long time."

With the supersonic bat blood, Ye Xuan can conclude that there are no other monsters in this small valley, and no one else.

As a result, this beastistic thing is over.

However, this time the emperor assigned Ye Xuan to destroy the beast of the beast god, so the things that were obtained need to be turned over.

Zhao Chongwen was rescued by Ye Xuan, and he was grateful. He said directly: "Ye Xuan, this time thanks to you, I can do it once. You just have to hand over the **** wolf to the emperor, and the rest are given. you."

"Thank you for your predecessors!" Ye Xuan hurriedly thanked.

The inner end of a true meta-level, the preciousness is beyond his imagination, he can not dare to swallow.

Moreover, he heard that the ancestors of the Xuanyang Empire were the peaks of the true Yuan dynasty. With this inner Dan, it might be possible to break through to the real Xuanjing. This is a breakthrough in a big realm, when the strength of the Xuanyang Empire can also Big rise.

Ye Xuan has already swallowed up the corpses of one place, and has been refined into a lot. At the moment, he directly took out the four spirits of the real spirits, and gave them to Zhao Pan.

Zhao Pan four did not exert much power today, but they are all at the peak of true spirituality. This inner Dan is very important to them. With Nedan, they have a lot of chances to break through, so they have not refused.

Later, Ye Xuan took out the purple-winged war bear Dandan in the early days of the real Yuanjing, but suddenly thought that Nei Dan had been swallowed by himself.
