

## Super D. S 1541

Chapter 1541: Invincible unicorn

The reincarnation does not know that Ye Xuan has an eternal eye, so he wants to pierce the heart of Ye Xuan, so Ye Xuan will die.

"Hey!"

A crisp sound spread, the arm of the reincarnation directly reached the chest of Ye Xuan, and the heart was pierced, and the arm extended from his back with some flesh and blood.

The warrior who is not in a state of extinction, the broken heart is definitely dead, but Ye Xuan does not, but the two are big and big, and both hands are locked in the shoulders of the reincarnation.

"what?"

The reincarnation was shocked. It is reasonable to say that Ye Xuan will be violent immediately. How can he still move?

This is impossible!

At this time, he suddenly felt a horrible energy condensed at the top of his head. When he reacted, he saw a flame hoof and stepped on it.

Kirin drops!

This move, but Ye Xuan's strongest attack, to his realm, as long as the enemy in the enemy, as long as it is not destroyed, will be spiked.

However, this time I am facing an indestructible level. It is not so easy to hurt the master who has the immortal body.

Kirin fell down and Ye Xuan could not hurt him because of the protection of the real gas.

The reincarnation was accurately stepped on, and the clothing on his body was directly burned, and even the body was covered with blood.

The body of immortality is powerful, but the reincarnation is only just breaking through, and the strength is the bottom of the invincible.

However, this is enough to see the power of the immortal body.

"Huh!"

As the reincarnation was trampled to vomit blood, the old tree and the skeleton king quickly swept.

"roll!"

The reincarnation of the revered man was furious, and a few black and white light \*\*\*\* emerged from the body. He was immersed in the body of the old tree and the skeleton of the skeleton.

"Hey, is the reincarnation trying to reinvent the spirit of the ashes, do you agree?"

"Hey, is the reincarnation trying to reincarnate the skeleton king, do you agree?"

"Refuse!"

"Refuse!"

Ye Xuan breathed a sigh of relief, but fortunately he had a super swallowing system, otherwise it would be troublesome.

Due to the failure of the reincarnation, the old and the sacred kings directly killed and then attacked.

"Hey!"

"puff!"

The old fire fist attack and the scorpion king's full strength, all hurt the reincarnation.

Among them, the Skull King has already opened the spirit of invincible, double the full attribute, and the attack power is much stronger than before.

Reincarnation, suddenly hurt and hurt!

But this is not the point. The point is that the Kirin drop can be used again.

"what?"

The reincarnation of the blood is shocked, and before he reacts, the flame hoof has been stepped on.

"Hey!"

The earth trembled, the flame ran, and the reincarnation was again recruited.

Ye Xuan saw it, couldn't help but reveal a sarcasm look: let you force it, let you force it, now it's cool!

What is not going to be destroyed, what is the body that is not dying, isn't he given him to die?

However, after two hits of the unicorn, Ye Xuan did not hear the system prompt, that is to say, this round of returning people did not die.

"You are doing this, I am going to kill you!"

The reincarnation is covered in blood, and his feet are smashed directly toward Ye Xuan like a cannonball.

This punch is enough to kill any one of the powerful players who have turned the wheel, and this time the target is Ye Xuan's head.

Ye Xuan's heart is not bombarded, so the reincarnation wants to try the brain, because he does not believe that Ye Xuan also has an immortal body.

Although the brain is destroyed, Ye Xuan will not fall, but the reincarnation of the boxer will blow his entire head, naturally including two eyes.

Ye Xuan, can not allow two avatars to fall again!

"Oh!"

A crisp sound suddenly spread, Ye Xuan suddenly cracked a space crack, and then, the reincarnation of this punch directly hit.

As for the exit of this space crack, there is no need to say more, naturally it is behind the reincarnation.

"Hey!"

The right hand of the reincarnation passed through the crack in space and slammed into the back of his head.

He was shocked because Ye Xuan actually had the eye of space. How is this possible?

In the reincarnation, there are miraculous things in the eyes of two spaces. Now there is a third one?

To this end, the reincarnation of the Lord must pay the price of blood!

He was hit by his own fist and the whole person leaned forward, and the upper body passed through the crack in the space.

Taking advantage of this opportunity, Ye Xuan once again used the eye of the space to quickly close the crack in this space.

"Hey!"

The space crack is closed, even if the reincarnation with the immortal body can not resist the ability of the space, the upper body is directly slanted and cut, including his left hand.

When he came out of the crack in space, only the upper body and the right hand were left.

The immortal body is stronger, and it is stronger than the power of space. Coupled with the invincible body, it is difficult to heal. The reincarnation is estimated to keep the upper body fighting, and only one hand.

"No, impossible!"

The reincarnation is awesome.

If he is not dying, can he be folded here?

impossible!

However, the reincarnation of the heyday of the heyday did not beat Ye Xuan. Instead, he fell into a serious injury. Now only the upper body is left. The blood that has been cut by the space crack is DC. If he continues, he will probably fall.

"Is it difficult to use it, you must use it without destroying the essence of blood?" The reincarnation of the mind of the revered mind flashed.

The immortality of blood is the means of resurrection of the invincible, even if the body is shattered, as long as the soul is still there, it can be resurrected. After all, the blood is preserved in the soul.

This thought is just a flash, because the immortal blood can not be used before the immortal body is not dead. In this case, is it not necessary to fight again?

Under normal circumstances, after the invincible strong is completely dead, the soul walks away, and then find a quiet place to restore the flesh with inexhaustible blood.

The average person can't see it, and he can't sense the soul. Therefore, it is hard to fall down with the invincible strong person who does not destroy the blood.

However, even if this round of returning people has inexhaustible blood, Ye Xuan must kill him.

Do not kill, then this drop of inseparable blood is not always there?

Just when the reincarnation was seriously injured, the old tree and the skeleton king had already been killed before and after the reincarnation.

If the king of the skull has a broken rock in the meantime, then this round of returning people will probably be spiked. Of course, even if it is not, this round of returning will be dead.

Under the attack of both the old tree and the sacral king, the reincarnation was beaten by seven holes and dying.

"Kid, you think it would be naive to kill me like this!"

The reincarnation snarled while supporting the two sides of the tree and the king of the cheekbones.

"It's still nonsense when it's dead."

Ye Xuan was very disdainful and directly sighed.

Chapter 1542: suicide

Although this round of returning people has inexhaustible blood, but the inseparable essence is the bone dragon after all, even if the reincarnation of reincarnation, the reincarnation may not be able to use.

Secondly, it is not necessary for this round of returning people to be killed as soon as they are killed.

However, in order to prevent it, Ye Xuan took out the cross-empty order and crushed it.

"Hey!"

A door across the air opens.

As early as before, Ye Xuan had already informed Hu Xinger through the fall. During his battle with the reincarnation, Hu Xinger also gathered several high-ranking players.

They have been waiting for Ye Xuan in the reincarnation hall of Baihu Mountain Villa. Now, the opportunity has finally arrived.

When the door to cross the sky appeared in the reincarnation hall, Hu Xinger and others quickly passed through and then came to the reincarnation.

There are a total of six people coming over this time. In addition to Hu Xing'er and Zhuang Fei, there are four patriarchs who have turned to the top of the ninth.

"The reincarnation of the reincarnation really broke through, but he is like this now..."

Zhuang Fei was a little surprised, because at this time, the reincarnation of the resurrection, only the upper body was fighting with the old tree and the skeleton of the skeleton, and it was still suppressed. If it were not the immortal body, he would have fallen.

Before they arrived, there were only Ye Xuan and others here. So, is the reincarnation of the reincarnation being labeled by Ye Xuan?

It's incredible!

This is a strong invincible!

"Several predecessors, this round of returnees have a drop of blood." Ye Xuan said quickly.

In fact, when Ye Xuan took the news that the reincarnation had broken through to the indestructible, the masters had already guessed the reason.

Hu Xing's half of the keel, although there is no indestructible blood, but has a bit of power that does not destroy the blood, so they judge that the other half of the keel should have a drop of inseparable blood.

If the reincarnation has this indelible blood, I am afraid it is difficult to kill.

"This round of returning is the life and death of the disciples, do not know whether to restore the original shape after killing him, or the soul wandering between the heavens and the earth, looking for a suitable place to use the immortal blood to resurrect..."

Zhuang Fei said with a frown.

"What to do, if you want to catch this round of lords first," a patriarch suggested.

"good idea!"

"Yes, first seal his realm and decide later!"

Several patriarchs nodded.

However, the reincarnated people seem to have heard their conversations, and suddenly laughed: "Ha ha ha, just because of you, still want to leave me?"

The reincarnation knew that he had planted this time, but he would rather die than be shackled by the other side.

When I heard this, everyone changed his face.

"No, he wants..."

Zhuang Fei shouted out loudly. When he just wanted to help in the past, he saw that the body of the reincarnation was quickly turned into nothingness, even the Qiankun ring.

suicide!

The reincarnation has committed suicide!

Ye Xuan did not think of it, but there is no way. After all, he can't stop this round of returning suicide.

In the blink of an eye, the body of this round of returning people disappeared in front of everyone.

The soul is invisible to the naked eye, and spiritual knowledge is not felt.

However, Ye Xuan's insightful eye is a strange energy locked in the body of the reincarnation.

"Is this the soul?"

Ye Xuan's eyes widened and his face looked blank.

Then he quickly closed his eyes and looked at it with the eyes of the old tree and the bones of the skeleton, but he did not find anything.

The eye of insight can actually see the soul!

Of course, just the soul of the invincible strong, when Ye Xuan killed Qiu Feng and Gao Yunlong, they did not find this strange energy.

It seems that the eye of insight can see the soul of the invincible, or because the soul of this round of reverence has a drop of blood.

Of course, it may be a few times in the realm of the immortality, which makes the eye of insight more powerful.

But all in all, he actually saw the soul of the reincarnation, and it was fun.

"What to do, the reincarnation is dead, now it should be the state of the soul, I don't know where to go."

A patriarch asked strangely.

This round of returning is a big problem. If you don't get rid of it, there will be a lot of troubles when he will be resurrected in the future.

However, now the reincarnation is dead, and they can't see the soul of the reincarnation, how to find the resurrection point of the reincarnation?

"Whether this round of returning people, we act according to the plan!" At this time, Hu Xinger suddenly said.

"But the owner, the younger owner, she..." Zhuang Fei suddenly reminded.

"No problem, she still has half a year, and a senior has promised to help her reincarnation."

Hu Xing's disapproval, and at the same time, his eyes fell on Ye Xuan.

Next, before falling to the age of 18, Ye Xuan should also be able to break through to the invincible situation. By then, the ability of reincarnation may exceed her, and then she may not even need to find the old gods to help.

Ye Xuan took a look at the soul who sneaked into the northeast and asked: "How long will the soul of the predecessor, the invincible soul, exist between heaven and earth?"

"This depends on the realm of everyone. This round of returning people has just broken through to the indestructible, but the body is immortal. He has a drop of inseparable blood. He can exist between heaven and earth for one year, as long as he is within one year. If you find a place, you can re-grow the blood," Hu Xing-er replied.

Before Ye Xuan also asked Hu Xinger for some knowledge about immortality.

There are three realms in the reincarnation, the birth of the realm, the dead and the reincarnation.

And this indestruction is divided into two realms, one is that the flesh is not destroyed, and the other is that the soul is not destroyed.

The strong person who is immortal, as long as there is a drop of blood in the soul when he dies, then the soul will not dissipate between the heavens and the earth immediately when he dies, but can linger between heaven and earth.

This kind of situation is called the soul of the wandering, which is the wandering soul.

This soul is also very strange. He can retain the memory of his life, but he can only slightly sense the nearby creatures. He can't see people, so he usually needs to find a hidden place to re-grow and regenerate after death. The body of the annihilation.

As for the master of the immortal level of the soul, you can condense the soul. This kind of soul can be placed in a place. If the body and soul of the deity are destroyed at the same time, the soul will exert its effect and then be born again. It is more horrible than the immortality. many.

Therefore, in the indestructible situation, if there is no means to erase the soul, unless the other party does not destroy the blood or the soul, it is very difficult to kill the other party.

After Ye Xuan listened to Hu Xing's words, he was also immersed in contemplation.

The soul of the reincarnation is very small, and it is estimated that they have not been sensed, but he can see that the soul of this round is still moving, but the speed is very slow.

Chapter 1543: track

Unfortunately, Ye Xuan did not have the means to erase the soul, and there was no exchange in the super swallowing system.

No, the exchange is there, but what is needed is the swallowing point!

Burning the sword is also a growth power, but it can't be upgraded to immortality, so Ye Xuan has just recently exchanged a new one.

He quickly found it in the Super Devouring System and finally locked it on a special supernatural power.

This magical power has both physical attacks and special soul attacks.

Ordinary soul attack, Ye Xuan also has the eye of the soul, but this eye of the soul is a reincarnation of the soul that cannot attack the soul form. And this special soul attack can attack the soul without the body.

However, this magical power requires two points to swallow, and Ye Xuan is hesitating to exchange.

"Now I have six points to swallow. If I redeem two points, then there are only four points left. However, this special soul attack is estimated to be used in the future, and with my insightful eyes, I use it in the reincarnation. It's not a problem to kill it before the resurrection of blood...."

Ye Xuan thought for a moment and finally made a decision.

"Hey, does the host spend two points to swallow the point and redeem the virtual flameless sword wave?"

"Yes!"

"Hey, the virtual flameless sword wave is successful, do you learn immediately?"

"Yes!"

"Hey, the host learns the flameless sword wave!"

When this system prompted the sound to come up, Ye Xuan also learned a new magical power - the virtual flameless sword wave.

This magical power can not only continue to improve, but also attack the spirit of the soul, coupled with the nature of the fire, is simply a magical power for Ye Xuan.

"Reincarnation, you are dead!"

After Ye Xuan learned this imaginary sword wave, he couldn't help but explode two fine mans. He looked at the soul of the reincarnation who was far from the reincarnation, and his mouth tilted slightly.

"Predecessors, that round of returning people have not died, I will catch up with him!" Ye Xuan suddenly said to Hu Xinger.

Hearing this, Hu Xinger and others glimpsed, and Hu Xinger was even more surprised: "Can you see the soul?"

"Well, I can see the resounding spirit of the reincarnation. He went to the northeast. It is estimated to be looking for a resurrection point." Ye Xuan nodded directly.

Even if you are a strong person who does not perish, if you have no ability, you may not be able to see the soul of the resurrection point between heaven and earth.

Even if you can see it, it is not something that ordinary people can kill.

Of course, if you have a deep hatred with the other person, then this person will follow the soul of the journey, so that the soul can not find a resurrection point, and then dissipate between the heavens and the earth.

This process is sometimes very long. After all, the existence time of the soul is related to the level of the dead. Even so, there are still many people doing this kind of thing.

If there is such a deep hatred, it will take some years to follow the soul.

Although it brings harm to the physical body of the other party, it also brings harm to the soul. Although those who are in the soul cannot see people, but some people around them can still feel it, they can't be able to track them. Peace of mind, the spirit of a long time will collapse.

Obviously, there is no killing of blood, but it is impossible to find a resurrection of Ansheng. This is too cruel.

After hearing Ye Xuan can see the soul of the tour, and seems to have the means to kill the soul, Hu Xinger and others are shocked.

"If this is the case, then kill the reincarnation of the lord, and then suffer!" Hu Xinger said solemnly.

Ye Xuan began to think this way too. However, he remembered another thing and said: "Predecessors, the reincarnation of the city owner is unclear. I guess this round of returning people may still have helpers. I want to follow him. ""

After such a reminder, Hu Xinger and others also immediately remembered such a thing.

The poison in the reincarnation of the city is too strange, and I am afraid it is not that simple.

Since the reincarnation is dead, even if he has inexhaustible blood, it will take time to resurrect, and Ye Xuan is now going to follow up. If the situation is not right, he can directly erase the soul of the reincarnation.

"Okay, then you are careful."

Hu Xinger nodded.

"Then I will take a step first!"

After Ye Xuan finished, he directly took out the body of Gao Yunlong and then swept it toward the northeast, but his speed was not very fast, because the speed of the reincarnation of the revered was slow for him.

The range of perception in the state of the soul is probably one tenth of the scope of the spirit of life, and it is small and pitiful. Therefore, Ye Xuan does not have any difficulty in tracking. Anyway, the soul of the reincarnation can't see him, and he can't sense him. .

As for Hu Xing'er, he is preparing to search the soul of Gao Yunlong's body to see if he has found some clues.

Ye Xuan suspects that this round of returnees still have helpers, and may even be strong players who are not dying, so they can sneak a poisonous death to the city.

It is a pity that the reincarnation of the reincarnation was ruined by himself, and the body of the reincarnation did not know where it was.

Ye Xuan relies on the eye of insight to follow the soul of the reincarnation, the latter is absolutely unimaginable, and even someone can see the soul.

Soon, it was a day passed.

The speed of this wandering soul is slow like a tortoise, but the speed is already more than the average revolving wheel. When Ye Xuan wants to defeat the wandering spirit of this round of revered people, the reincarnation suddenly came to a mountain range. .

"Here, it seems that it is not a mountain?"

Ye Xuan's brow was picked and recognized.

The reincarnation is far from the mountain, but the speed of the reincarnation of the revered is comparable to that of the general revolving wheel. You can still get it from the reincarnation to the immortal mountain in one day.

Ye Xuan is behind this soul and enters the mountains. He always feels that this is not strange, I am afraid it is not that simple.

After a while, the soul of the reincarnation suddenly fell, as if to find a resurrection point and began to resurrect.

Ye Xuan hurriedly kept up.

At this moment, a group of black and crushed figures suddenly came from afar.

"what is this?"

Ye Xuan immediately stared at it. After he saw what the group was, he couldn't help but tremble.

spider!

This is a group of spiders, and it is still a big spider with wings.

This is not the point. The point is that the speed of these big flying spiders is astonishingly fast. I am afraid that it has reached the eight-fold status of the revolving wheel.

In the northern camp of the reincarnation, there are three dangerous places, one is the life and death canyon, the other is the reincarnation, and the third is that it does not kill the mountain.

However, it is not dangerous to kill the mountains, and there will not be so many high-order animals.

This group of flying spiders seems to have hundreds of them!

"It's tricky!"

Ye Xuan immediately responded and directly sacrificed the Chiyan sword.

It seems that this is not the resurrection of the reincarnation, and his helper may be.

In this case, the returning lord did not use it, and he must not wait for him to rise.

kill!

Chapter 1544: Reincarnation, die!

"Virtual Flame Sword!"

Ye Xuan said nothing, directly attacking the soul of the reincarnation.

An invisible sword broke through the air and instantly hit the soul of the reincarnation of the revered.

The soul is a very special existence. The general attack will not hurt the soul and will pass through. However, Ye Xuan's virtual flameless sword wave has a special soul attack and can be hurt.

The soul of the reincarnation is conscious, and he also smashed Ye Xuan all along the way, but Ye Xuan is inaudible.

When he came to the mountain, it seemed to see the dawn of hope. He wanted to use the drop of invincible blood saved in the soul to resurrect and then take revenge.

Unfortunately, he never knew that Ye Xuan was behind him, and he did not know that Ye Xuan had the means to erase the soul.

This imaginary flameless sword hit him, and suddenly made him miserable.

In the eyes of insight, Ye Xuan saw an invisible flame burning the soul of the reincarnation. The big fist of the group was violently swayed by the flames, as if it was about to explode.

After a second, the flame was burned to dissipate between heaven and earth.

The reincarnation of the soul is shattered, let alone reborn, and even the reincarnation can't do it!

However, killing the soul is not a reward for Ye Xuan, and the soul of the reincarnation is dissipated after the death, together with the inexhaustible blood inside.

The reincarnation is dead, and the revenge of the reincarnation of the city is also reported half, then the next step is to solve another trouble.

After a second, the hundreds of flying spiders have also been swept over, and the black-pressed group immediately wrapped Ye Xuan.

Ye Xuan did not say anything, and summoned the old three trees.

If all of them are flying spiders with nine rounds of weight, Ye Xuan may be jealous, but it is just taboo, but unfortunately, in this group of flying spiders, five of them are nine-wheeled.

"Little Master, all killing?"

The tree asked with a smile.

After Ye Xuan paused, he shook his head and said, "Don't kill, just fly, I will keep it useful!"

When I heard this, the old tree was stunned and then immediately reacted.

Keep it useful!

That is to use the killing feast.

"No problem!" The tree smiled and said.

So many flying spiders, if all killed, Ye Xuan's strength may at least double up.

This is not a mountain, there may be a helper of the reincarnation, that is, the person who kills the reincarnation of the city, this person may not be extinct, so Ye Xuan should be careful.

Not waiting for the flying spider attack, Ye Xuan is directly swooping down.

This flying spider feels that Ye Xuan is only seven-wheeled, but he is too lazy to pay attention. Their attention is concentrated on the old tree, the bones of the bones and the body of Megatron.

Ye Xuan left the encirclement and rushed directly into the mountains. He wanted to find the master who was hidden in the mountains.

Although this is not a big mountain, but with his speed, if you advance at full speed, you can pass through it in less than a minute.

Of course, people who come in usually will not be so stupid, because there will be a lot of people in the bottom, and Ye Xuan will be attacked once they enter their territory.

However, when Ye Xuan flew low, he found that the Tongtian beasts in this mountain were all spiders.

It is better to change the name to Spider Mountain without destroying the mountain!

"It seems that these spiders are probably the masters of the day."

Ye Xuan's eyes stunned and began to explore the mountain. On the road, there were low-level spiders blocking his footsteps. All of them were killed by the use of the flameless sword wave.

Kirin dropped just a day ago, but this cooling is the need to swallow the body of the beast, so the body of these spiders, Ye Xuan just used.

However, after Ye Xuan swept a circle, he finally found a strong breath, just in the center of the mountain.

"There is no worse than the reincarnation, and another invincible!"

Ye Xuanyuan's eyes widened, his cautiousness was right, and he did not expect that there was a hidden invincible strong in the mountains.

Fortunately, this invincible strong seems to be the same as the reincarnation, and it is a flesh and blood.

However, now Ye Xuan's Qilin and the broken Tianliuyan are cooling, and it will be a little troublesome to deal with.

"do not care!"

Ye Xuan, no matter how many, directly gathered a Vientiane eye in the distance, and then began to bombard the mountain of the invincible strong.

"Boom!" "Boom!" "Boom!"

Under the bombardment of the powerful Vientiane, the mountain quickly collapsed. At the same time, the invincible strong inside also suddenly opened his eyes and burst out.

"Who is here?"

A violent drink fell into Ye Xuan's ear, followed by an old figure.

The visitor is an old man in black. His appearance is no different from that of the average old man. However, Ye Xuan saw that the old man's face was crawling with a colored spider.

I have gone there, it is really bad fun!

Ye Xuan has always had a sense of disgust on the creatures with more feet, such as spiders, cockroaches, etc. If he climbs a spider on his face, even a spider at the Vientiane level will make him sick.

Not to mention, this color spider turned out to be the top-level peak of the turn.

"Who are you, why are you not in the mountains?" Ye Xuan opened the door and asked.

"and who are you?"

The old man in black asked a question.

He was very strange, because his breath did not cover up, and Ye Xuan did not turn around the wheel, he dared to face him and ask him. This courage is not small.

"A hundred years ago, I was practicing at this retreat. I just left this time, and the place was occupied by you?" Ye Xuan pretended to be alive for thousands of years.

"century?"

When the old man heard this, his eyes could not help but squint.

He wouldn't believe in Ye Xuan's ghosts, because there are flying spiders around him in the mountains, and Ye Xuan District has a seven-wheeled turn. How can he come to the center of the mountain?

Thinking of this, his eyes suddenly burst out with two killings, and asked: "Who sent you?"

This sentence sounded, Ye Xuan knew that he was exposed. After all, how can he break through the encirclement and come here?

Since the other party has already guessed, Ye Xuan is not concealing. He said directly: "Is it you, killing the reincarnation of the city?"

"You can find it here, you are a bit of a skill, yes, the reincarnation is killing me."

The old man showed a smile, and Ye Xuan in front of him was only a seven-wheeler. Naturally, he would not be put in his eyes. He was bored, and he couldn't help but chat with Ye Xuan.

"I heard that the reincarnation of the city owner was poisoned, and then he died half a day after retreat. When he died, the body did not have any abnormalities. What poison did you use?" Ye Xuan asked curiously.

Chapter 1545: Mysterious old man

"It's just a slight dose of poisonous king. The poisonous king is not the flesh, but the soul. He can hold it for a long time, and it can be considered to be somewhat resistant. I am only responsible for poisoning. As for other things, I will give it to the reincarnation. Respected," the old man replied.

Before hearing this answer, Ye Xuan actually guessed it. After all, the reincarnation of the city owner did not have any wounds, and then he was killed by the reincarnation and snatched the body.

"It is unfortunate that the reincarnation was dead yesterday." Ye Xuan said.

"died?"

When the old man heard it, he was slightly surprised. "The reincarnation of the reincarnation has broken through to the indestructible. If you want to kill him, you must at least be immortal. So, are you a reincarnation?"

For this question, Ye Xuan did not answer, but asked in reverse: "I remember that there is no invincible strong in the reincarnation. Where did you come from?"

For some reason, the old man can't tell Ye Xuan his identity. He just wanted to control the reincarnation and then achieve some purpose. But what he didn't expect was that the reincarnation who broke through to the invincible was killed.

Fortunately, he also knows that the reincarnation has a drop of blood and it is easy to resurrect.

"I have already shot once and have already violated the agreement, but at the moment, I will not be a problem if I try to kill the reincarnation fox..." The old man thought.

Seeing the old man's contemplative look, Ye Xuan's eyes glimpse, although the old man did not say where it came from, but as long as he killed him, he would search for the soul.

The reincarnation is just breaking through to the indestructible, but the old man is obviously stronger than the reincarnation, and there may be many good things in the ring.

Breaking through the round and eight, it is hopeful!

"Kid, this news, is that reincarnation fox let you bring it to me?" asked the old man.

"Yes or not, what is the difference?" Ye Xuan asked.

"There is no difference. Anyway, I ended up killing her." The old man smiled and shook his head.

Upon hearing this, Ye Xuan was shocked and said: "Can you shoot?"

"If it wasn't possible a few decades ago, it's no longer binding, but I don't want to take your own position."

The old man brows one pick, the next moment, there is a huge flying spider.

Turning the wheel to the top of the nine peaks!

Then, the old man just went straight to the West.

"not good!"

Ye Xuan changed his face and hurriedly placed a death killing order on the old man, but at this time, the flying spider who turned the wheel of the nine-fold peak directly killed Ye Xuan.

"Is it a trouble to come to me?"

Ye Xuan screamed coldly, and directly gave the order to the old and the sacred kings who did not destroy the mountains.

kill!

At the same time, the killing feast was opened directly.

Outside the mountains, the old three trees have always been

The old three of the trees that received the instructions from Ye Xuan immediately fired all the fire and began to kill.

It's too easy for them to pack these small shrimps.

On the other side, Ye Xuan, who is in the center of the mountain, also attacked the huge flying spider directly.

"The killings broke out!"

"Virtual Flame Sword!"

An invisible sword gas hits the flying spider, which is the peak of the nine-fold peak. This flying spider has 12 eyes that can not be seen, but can be felt.

However, due to the realm of Ye Xuan, it did not put Ye Xuan in his eyes.

"Hey!"

The imaginary sword wave slammed into the flying spider, and the unicorn really burned.

Kirin Zhenqi has the effect of burning the world, plus the unicorn deterrence and other blood effects, let Ye Xuan this sword, directly kill this flying spider.

In the blink of an eye, this flying spider, which is only nine rounds, is burned to have only half of the body left.

"Hey, the host's killing value is improved!"

After Ye Xuan heard the system sound, he immediately swept over and collected the body of the flying spider.

Although only half, but the body of the beast is still intact, which is not low for Ye Xuan.

Then, Ye Xuan turned his head and looked into the distance, and found that the invincible black man had disappeared into the sky.

"Fast speed... ribs, stop him!"

Ye Xuan immediately gave instructions to the skeleton king.

The king of the bones was ordered to rush out and prepare to intercept the old man.

Fortunately, there is a distance from the entrance to the center of the mountain. The king of the bones saw the old man in black.

After seeing the king of the cheekbones, the old man in black can't help but reveal a stunned look, muttering: "There is still a rare skeleton of the skeleton."

The king of the cheekbones is a rare animal, and it is also a nine-folder. The average person will have an idea, but the old man in black does not.

"dead!"

The old man in black clothes shot directly, and the king of the cheekbones was a punch.

"Hey!"

The fist shadow was fast, and the hard armor of the skeleton king was broken, and a big hole was made by this punch.

However, this injury is not even two-fifths, and the king of the bones will not die.

"Oh? A little bit tolerant."

The old man once again showed a strange look, the general Tongtian beast can also recover his own injuries, but the speed of the skeleton king has exceeded the general Tongtian beast, even the flying spider that he called only the turn of the nine peaks, I am afraid There is no such ability.

However, he is still not a rare king.

"Dead!"

The old man once again punched. This time, the lower body of the skeleton king was directly broken up, and the damage reached a very high level of seven.

It is a pity that if the injury of the skeleton king does not reach four-fifths, the system will not judge him to die, so he can continue to recover.

After the two punches, the skeleton king has already been killed in front of the old man, and then a sword fell.

"Hey!"

The old man single-handedly punched and shook the big sword together. The strong physique shook the cheekbones and the tiger's mouth shattered. The big sword was bounced back, while the old man's hand was only a red mark. .

The invincible strong, really powerful!

"The power is good, enough to kill the turn of the nine peaks, but facing me, you are not qualified!"

The old man snorted and punched again.

But at this time, the smell of the skeleton king suddenly skyrocketed.

Do not destroy the soul!

Fully attribute, doubled!

"Hey!"

The defensive power of the skeleton king has doubled. This time, the attack of the old man did not even penetrate him, so the injury could not exceed four-fifths.

"how is this possible?"

The old man was shocked for the third time. He was able to beat the skeleton of the skeleton with two fists. How can the defensive power of the skeleton king suddenly increase?

This is impossible!

"Huh!"

When he was surprised, the sacral king who opened the invincible soul was a sword.

Chapter 1546: Fighting again!

"puff!"

The old man subconsciously raised his hand to stop, but this time, the shocking sword directly cut the old man's flesh, and even left a sword mark on the old man's bones.

Don't forget, the double-full attribute of the invincible battle spirit is also effective for Megatron.

This sudden change made the old man in black eat a meal.

"I can hurt my inexhaustible body..."

The old man in black can't believe it. After all, he is not a strong player, and the breakthrough has been for some years. The body of immortality is incomparably strong, and it is not a casual turn.

However, just as he was surprised, the sky suddenly plucked a figure, this time not Ye Xuan, but the old tree.

As for the group of flying spiders, it was handed over to Ye Xuan.

Originally, the old man in black was trying to go to the West in the reincarnation. He killed the reincarnation fox, but now he suddenly smashed two passes and couldn't help but be annoyed.

However, he does not mind to solve the two undead things of the old tree and the skeleton king.

However, he has just shot a boxing shadow, and the tree is always a flash, directly to his back.

"The flames!"

"Hey!"

The old man shot quickly, and the punch hit the back of the old man in black, but because the invincible body of the old man in black is more powerful, this punch did not cause any substantial damage, but the black man was behind The back clothes were burned out.

"Miscellaneous things, you are looking for death!"

The old man in black is furious and turns to be a punch, directly exploding the old head of the tree.

The old defense of the tree is no more than the king of the skeleton, and it is directly killed.

This kind of thing is still very rare. Fortunately, the old tree is not dead, how about it?

"Hey, the spirit of the ash is dead!"

"Hey, the spirit of the Ashes is resurrected!"

Ye Xuan, who is fighting a large number of flying spiders, immediately heard the sound of the sound in his mind and immediately summoned the old tree.

However, this flying spider also died almost the same, so Ye Xuan directly joined the tree and rushed toward the old man in black.

"Double increase, see if I don't kill you?"

Ye Xuan's glory, the killing feast at this time, has increased by a factor of two, which means that Ye Xuan can play three times the combat power.

Coupled with the virtual flameless sword wave redeemed by two points of swallowing point, killing the old man should not be a problem.

The old man in black thought that he had killed the tree old, but after he saw the tree again, the whole person was paralyzed.

resurrection?

This is impossible!

How can it be resurrected?

Moreover, even if it is a strong person who does not destroy the environment, it is impossible to resurrect in such a short period of time without using the invigorating blood.

Is it a twin?

"No, it's impossible, their breath is the same..." The old man in black immediately responded, not only the breath, but also the magical power used.

At this time, the old man in black has turned his attention to Ye Xuan, but Ye Xuan's seven-wheeled realm is really to make the old man in black can not afford any interest.

But the next moment, he was shocked.

"The Eye of Space!"

"Virtual Flame Sword!"

After approaching, Ye Xuan said nothing about the direct use of the eye of the space, tearing out a space crack, and then suddenly came out of the sword.

An invisible sword smashed into the cracks in the space, and then shot from behind the old man in black, banging on the back of the old man in black.

"Hey!"

The black man's back was hit hard, and the whole person leaned forward and flew forward. At the same time, the effect of the unicorn's infuriating fire was also unfolding. The black man's back was directly lit up and burned, it was the black old man's flesh.

Three times the combat power, coupled with the virtual flameless sword wave and all kinds of blood, let Ye Xuan have the ability to seriously injure the strong.

If this strike falls on the previous reincarnation, I am afraid it can be spiked, but at that time, Ye Xuan did not have a flameless sword wave, and there was no increase in the killing feast.

What's more, Ye Xuan has swallowed up the body of the hundreds of flying spiders, and has been upgraded from the initial stage of the reincarnation to the middle of the seventh round.

Therefore, this blow has hit the old man in black!

"This is impossible....."

The old man in black has a faint color, and he can't believe that he was injured by a junior who has turned around.

The bones of the king and the tree are old. After all, they are all nine-wheeled, but Ye Xuan is only a seven-wheeler.

It's hard to be...

"Is the Reincarnation you killed?"

The old man in black can't help but ask.

Ye Xuan's attack is enough to kill the invincible strong. If he is not, he will respond quickly, otherwise the sword will be on his back. At that time, even he will be spiked.

This strength is enough to kill the reincarnation!

"Not bad!"

Ye Xuan mouth slightly tilted, should be a sentence.

However, he does not want to talk too much with the old man in black, kill it first!

"Huh!"

The figure of the old man in black has not stabilized, and the wind has once again emerged. The king of the bones that opened the invincible battle has swept away with the sword of the heavens.

"Hey!"

The old man in black reacted this time, and he rushed up with a punch. This time he flew toward the rear.

Unfortunately, there are people blocking the rear!

"Yangyang cable!"

"The flames!"

The tree is also unscrupulous, using skills directly, the left hand is pulling the flame chain, and the right hand is rushing toward the back of the black man.

"roll!"

The old man in black screamed and there was a huge instinct in the body.

But before that, the old tree opened another skill.

Fire cover!

"boom!"

The real gas shook the fire.

Fortunately, the tree is always turning around, and because Ye Xuan has swallowed so many corpses, it has already broken through to the top of the nine-fold peak. Otherwise, this earthquake, the fire cover will be broken.

In addition to being able to defend, the fire hood can absorb the attack, and after the black man's infuriating energy is absorbed, he directly detonates it.

"Hey!"

The fire hood suddenly burst open, and the heat wave rolled, and the power could not be underestimated.

The back of the old man in black was attacked by the flameless sword wave. Although the shock extinguished the flame of Qilin's infuriating, the injury did not recover because of the immortal body. Now it is coming again. The explosion damage of the fire hood is really hurting.

However, this is not the point!

The cooperation of Ye Xuan and others is seamless, although the old man in black is a good player in the invincible situation. Once he is in a disadvantage, it is likely to be sluggish.

The old man in black is moving forward again, but at this time, the king of the skeleton suddenly extends his left hand and grabs the void.

The grip of the Hades!

A strange force wrapped the old man in black, forcing him to fly to the king of the skeleton.

In addition, the king of the cheekbones flies toward the old man in black, and the two are opposite each other. The power of this sword can definitely be broken.

Chapter 1547: Belief crystal

"Hugh think!"

The old man in black suddenly reacted and sent the infuriating air to fly backwards. At this time, Ye Xuan, who had stared at the timing, shot again.

"The killings broke out!"

"Virtual Flame Sword!"

Another space crack was torn open, and this invisible sword gas once again came out from behind the black man and hit the black man. Although this time the old man in black has been guarded, but the wound has been expanded again, the fleshy back, faintly can see the bones of the forest.

The invincible strong man has an immortal body, and unless the brain is damaged, it can't die even if the heart breaks. Although this is the case, the invincible body is difficult to heal. If the injury like this is restored with the sacred gas, it will be less than a few months.

The most important thing is that the body will be injured and the combat power will drop!

The old man in black who fell completely to the bottom of the wind, his face became more and more dignified, and he did not expect that the invincible strong man, even fell into such a end, it was unexpected.

"You are not the people of the reincarnation, who are you?"

The old man in black angered.

The strength of Ye Xuan and others is already beyond the reincarnation. If Ye Xuan is the reincarnation, I am afraid that the reincarnation has been unified.

During his speech, he quickly took the healing remedy from the Qiankun ring, which quickly suppressed his injury and slowly recovered.

Unfortunately, Ye Xuan is not prepared to answer this question. Everything can be answered from the memory of the old man in black. Why bother to waste his tongue?

Kill it and say it!

"Calling!"

The old man in black flies out, but the king of the bones goes straight to him. The shocking sword in the latter's hands is full of fierce light. This blow will surely make the old man in black hit again.

Knowing that the black man who could not escape this attack, his face sank to the bottom of the valley, and once again pulled out something from the Qiankun ring, it was a black ball.

This ball, when he was about to reach the king of the cheekbones, shattered.

"Hey!"

"Oh!"

When the black ball burst open and turned into a black mist to wrap him and the king of the cheekbones, the big sword in the hands of the cheekbones king has already arrived in front of him. This move directly brings the arms of the old man in black. The neck is broken.

But the old man in black with the immortal body, even if there is only one head left, does not die unless the brain bursts.

"Let's die together!"

At this time, the old man in black suddenly screamed, using the power of infuriating and Vientiane to blow away the black mist, and instantly wrapped the old tree into it.

"Ok?"

Ye Xuan blinked and hurriedly twisted the space and protected himself.

Although the black fog wrapped him, he was blocked out, and then he heard the sound of the old and the bones of the king.

"Hey, the skeleton king died!"

"Hey, the spirit of the ash is dead!"

"Hey, the king of the bones is resurrected!"

"Hey, the spirit of the Ashes is resurrected!"

A series of four system prompts, let Ye Xuan stunned.

What is this that instantly wiped out the old tree and the skeleton king?

However, why did Megatron not die?

The next moment, he reacted. Is this the poisonous king, the poison of the soul?

Thinking of this, Ye Xuan couldn't help but shake the tiger's body and came out with a cold sweat.

Fortunately, he still has the means to distort the space. Otherwise, if it is covered by this black mist, it may be degraded.

The reincarnation of the city owner only had a slight dose of poisonous king scattered, only supported for a long time to die, the tree old and the bones of the king also only lasted for half a second, and he did not turn the wheel seven times, if he encountered this dose of poison king Scattered, it is estimated that the floor will be smashed between the blinks.

Ye Xuan quickly scared the urine out, hurriedly broke open the void, stayed away from this area, and then condensed the eyes of Vientiane across the air to dispel the black mist.

"Mei Zhentian, bring his head and the Qiang Kun ring!"

Ye Xuan gave orders to Megatron.

Megatron is the instrument of the sky, there is no soul, it is a different kind, so it is spared.

Although the old man in the black man still has a skull left, he is not completely dead, but there is only one head who can't quickly recover the invincible body. The pitiful and incompetent ones that can be used are not enough to be compared with Megatron. enemy.

However, when Ye Xuan saw that Megatron had brought the old man's head and the Qiang Kun ring, he knew that the black man was dead.

Also, the old man and the skeleton of the skeleton are dead. This old man in black is going to die with them, and naturally he is not allowed to live.

Because there is no prompt tone, Ye Xuan thought he was still alive.

At this time, Ye Xuan thought a little.

This old man in black has his own poisonous king, and the old tree and the skeleton of the bones are all gone, and this poisonous king is directly obliterating the soul. Then, after the death of the old man in black, can he search for the soul?

Ye Xuan tried it and found that it was not possible.

In the immortality, it is divided into the immortality of the body and the immortality of the soul. This old man in black is a realm of immortality. Although the soul dissipates, even if he has ten drops of inexhaustible blood, it will not help.

Of course, if the old man in black is the soul of the immortal, as long as there is a soul, even if the soul of the deity is shattered, then the soul can be revived again.

However, this old man in black is far from the soul.

"If you die, you will die. I am in the province!"

Ye Xuan shook his head, and then he turned his attention to the shackles of the old man in black. The old man was stronger than the reincarnation. He should be from a more advanced place, and he did not know how many good things would be there.

After Ye Xuan checked it out, the corner of his mouth could not help but tilt slightly.

"Hey, the host breaks through, and the current round is eight!"

"Hey, the spirit of the Ashes breaks through, and the current is a real thing for the flesh!"

"Hey, Megatron breaks through, and it's a real thing for the flesh!"

"Hey, the king of the bones breaks through, and the current is a real thing for the flesh!"

"Hey, Kirin cools down!"

"Hey, the broken rock and the rock are cooled and restored!"

Sure enough, there are a lot of good things here, and there are also two bodies that are not extinct, and these things directly let Ye Xuan all break through.

After the breakthrough, the strength of the four people skyrocketed. If the old man in black is still alive, I am afraid that it will be killed in this place.

Then, Ye Xuan began to check the other things in the black box of the old man in the black dress to see where the black man came from, what is his identity.

However, at this time, Ye Xuan suddenly saw that there was a familiar thing in the head of the black man.

"this is....."

At the sight of Ye Xuan's brow, he saw that the black old man had a diamond-shaped black spar in his head, which was emitting strange energy.

Is this not a belief in crystal?

Chapter 1548: Five poison gods

"Cthulism?"

This is the first reaction of Ye Xuan. At that time, he encountered the evil spirits in the desperate desert. However, at that time, the evil spirits were weak and poor, but the leader was only broken.

Now, even this cult is exposed to this evil spirit, and the realm is not low, and it has not reached the end.

How can this be?

The previous fall has a memory of this evil god, so Ye Xuan immediately passed back the air and asked Hu Xiner.

"The evil spirits, also called the martyrdom, is a force in the five poisonous places in the north. It is called the Five Poisonous Gods together with the Qianzu School, the Jinzong School, the Snake Shadow Temple, and the Tiancao Gate!"

"The people of the five poison gods are all masters of poison. The five poisonous places are the nests of these five poison gods, and they are the clan of the five orcs in the Shuguang holy place, namely, 蝎, 蜈蚣, 蟾蜍, spider, and snake charm. ""

This is what Hu Xinger asked to tell Ye Xuan.

"So, the evil spirits we encountered before, is one of these five poison gods?" Ye Xuan asked.

"Well, the ancestors used their blood to let the people of the entire Twilight Holy Land believe in them and make themselves stronger." answered the answer.

"It turns out!"

Now, Ye Xuan knows what the black man is going to do in the reincarnation. It should be to develop believers.

However, this black man is also one of the believers himself, because in his mind there is the belief crystal of the spider.

"Young master, the mother said that these five poisonous areas are hostile to the beasts." The fall suddenly disappeared.

"The beasts, what is this?"

Ye Xuan asked differently.

"There are other orcs in the beasts, such as the foxes, the leopards, etc., which is much stronger than the five poisonous places. The mother said that my father went to the beasts to find the ancestors, and then the whereabouts are unknown."

It is understandable that the beasts and beasts are made up of hundreds of orcs.

However, they are also the people of the Humei family. Why have they not been developed into believers?

Ye Xuan did not know about this issue, but he can now understand that the old man in black should be from the five poisonous places.

"Five poison gods can be configured to erase the poison of the soul, which is more difficult, but I have the blood of the undead, and I don't know if I can withstand this toxicity."

Ye Xuan thought in his heart.

The old man in the black suit had some poisonous kings in the ring, and Ye Xuan couldn't help but take it out, and then divided it out with the power of Vientiane, which was smaller than the water droplets.

Then he is in contact with his hands.

"Hey, the host has been poisoned and started detoxification!"

Sure enough, with Ye Xuan's current realm, I can't immunize this toxin. Suddenly, this toxin is through Ye Xuan's skin, and then goes up the river and straightens the brain.

Fortunately, Ye Xuan has now broken through to the eight-wheeled environment, and has the blood of the undead, and the dose of this poison king is small, so this poison king scattered in half, was dissolved.

Then, the toxicity was stored in the library, and Ye Xuan could not help but try again.

Sure enough, I have already started to get immune.

"Hey, the host is immune to the toxin!"

The main ingredient of this poison king is five poisons, but now they are all immune to Ye Xuan. In the future, he is not afraid that this poison king will be scattered.

At the moment, the revenge of the reincarnation of the city is also reported, so Ye Xuan directly broke the void and spent half a day returning to the Baihu Villa.

"Predecessors, this place of reincarnation in the future is your world."

Ye Xuan said to Hu Xinger.

"Thank you for it!"

Hu Xing'er is very grateful. However, her long-time friend's reincarnation of the city owner has actually died, and even the bones don't know where it is, it is helpless.

The body of the reincarnation is estimated to be in the ring of the reincarnation, but the reincarnation of the reincarnation broke the ring before the suicide, so the things in the ring are estimated to fall into the space crack, even the eyes of the space. Ye Xuan can't find it unless it breaks through to heaven.

"Young master, what do you want to do next?"

Suddenly asked.

"These belief crystals, you can purify it, it should be enough for you to break through to the turn of the wheel. As for the next, I guess I will go to the beasts to see if you can find the ancestors of your sacred fox family, help You suppress the blood of the body in the body." Ye Xuan petting the falling hair.

Although it was said that he had concluded a blood stipulation with the master and servant, Ye Xuan also treated the fall as a pro-sister. It is dangerous to fall, and Ye Xuan naturally has to go out.

What's more, now his strength has not found an enemy in this reincarnation, he must go to a more powerful place, and the five poisonous and beasted fields are a good place to experience.

When he breaks through to the indestructible, he also raises the fall to the invincible position. At that time, it is possible to suppress the blood of the fox.

At present, there is still half a year's time. It is no problem to break through to the immortality. However, Ye Xuan is not sure, because this day, the blood of the fox is so powerful that even the oldest can't do anything.

If the eternal celestial being is the immortality of the soul, or the passage of the heavens, then the estimate of the fall will have to be reincarnation.

As for the next step, Ye Xuan did not intend to let the fall follow, let her accompany Hu Xinger.

"Young master, then you are careful!"

Falling a small mouth, said with a worried face.

"No problem, I will find your father back by the way."

Ye Xuan said with a smile.

Before that, he actually asked Hu Xinger to ask for a portrait of his father, because he knew that the reincarnation could not be his final stage.

"Well, thank you, Master."

Falling down and cleverly said.

Then, Ye Xuan took out two drops of blood, which he got from the bodies of the two invincible corpses in the black robes of the old man, but it is not dead.

The Heavenly Beast is different from the human being. After they die, the soul will dissipate directly. Whether or not there is indestructible blood, their inexhaustible blood can only be used to restore the injury. However, their inexhaustible blood can be humanized. Give refining.

Hu Xing'er was hit hard by the fall of the year in order to protect his whereabouts. I am afraid that it will not be able to break through to the indestructible territory. But now that there are two inseparable blood, it may be possible to break through.

"There is still half a year to fall to the age of eighteen. If I can't find the ancestors in the first half of the year, then I will come back to help her reincarnation."

Ye Xuan said to Hu Xinger.

Within half a year, he can definitely go to the end, and it will be even higher. At that time, his ability to reincarnate is definitely stronger than that of Hu Xing'er, and perhaps he doesn't have to help the old man.

"it is good!"

Hu Xiner nodded, even if he looked at Ye Xuan to break open the void.

After passing through the door of the void, Ye Xuan returned to the mountain of extinction. This is the northern part of the reincarnation. It is the closest to the five poisonous areas and the beasts. It is natural to start here.

The black man has a big map in the ring, and Ye Xuan has transcribed it into the super swallowing system, and then carefully examined it.

## Chapter 1549: Five poisonous

"I want to get from the reincarnation to the beasts. I am afraid it is not so easy. There is actually a poisonous environment in the middle. It seems that it must be crossed..."

Ye Xuan brows a pick.

Don't talk about the beasts, even from the reincarnation to the five poisonous places, there is a small distance. If his realm is full speed, the time spent will be used as a unit.

Fortunately, this map is more comprehensive, and it also shows an abandoned ancient transmission array, which can be directly transmitted to the vicinity of the five poisonous borders. However, this abandoned ancient transmission array has long been useless, and if it is used, it must be repaired.

"The super swallowing system can repair the transmission array. Although the transmission array is large, it is estimated that it will not be repaired for too long, and it is much better than the road." Ye Xuan thought in his heart.

However, under normal circumstances, he will do a backup plan, so he is to let the tree that broke through to the body of the body to go straight to the five poisonous territory, while the bones of the king and Megatron went out to hunt the beast.

As for him, it is to go to the abandoned ancient transmission array.

At the moment, they are three-pronged, and the soldiers are divided into three.

After leaving the northern part of the reincarnation, Ye Xuan went straight to the abandoned ancient transmission array, which was about two or three days.

Three days later, Ye Xuan also arrived at this abandoned ancient transmission array, which is extremely desolate and has been abandoned for thousands of years.

Ye Xuan did not say anything, and rushed to the transfer palace, but he was not close, but felt a breath.

Not dying!

However, this breath is not from human beings, but an inexhaustible beast.

In this regard, Ye Xuan is not afraid. After all, with his current realm, even if he is a warrior who is inseparable from the body, he can also be killed, let alone the body of the beast that is invincible.

Ye Xuan directly sneaked in and sent the Tongtian beast in the head of the palace to feel the breath of Ye Xuan, and immediately plucked from the depths.

This is a black leopard. Ye Xuan is too lazy to tell what the black leopard is.

"The killings broke out!"

"Virtual Flame Sword!"

This trick fits the eye of space and is simply seamless.

With just one cover, this black leopard was smashed by Ye Xuan, and after the soul dissipated, the inseparable blood of the black leopard appeared.

Ye Xuan quickly passed, and the body of this indelible blood and black leopard was collected and then swallowed directly.

For immortality, for him, there is not much income, but it can be used as a currency, or it can be used by friends and relatives to help them break through.

After solving this one-day beast, Ye Xuan came to this abandoned ancient transmission array, he just stepped in, the system sounded a tone.

"Hey, the transmission array is damaged by 76%, and the estimated repair time is three days. Is it starting to repair?"

Hearing this, Ye Xuan did not want to answer in his mind: "Yes!"

He will be here for three days, and it will take nothing for three days. If you let him hurry, it will take at least a month to go to the five poisonous places, let alone go to the beasts.

Six days and one month, the difference is more than twenty days, and it is nothing to spend super-phagocytic crystals.

Soon, it was another three days, and then Ye Xuan exchanged some of the spar, and then took the tree and the three kings of the cheekbones, and then directly launched the transmission array.

"Hey!"

The transmission array starts to run.

After three seconds, Ye Xuan felt that the surrounding environment had changed, and even the heavens and the earth were full of energy.

Successful delivery!

The foothold is in a transfer palace.

The ancient transmission array is two-way, so it is normal to transfer to the palace.

The so-called two-way transmission array is that you can go back and forth, and the one-way transmission array can only go back.

At this time, the transmission array at the foot of Ye Xuan was also abandoned. Therefore, Ye Xuan spent a little super swallowing system to repair the transmission array. After all, he is now far away from the reincarnation. In six days, the tree is half old. The road is not finished, and you can't do it if you want to break open the void.

However, with this transmission array, then it is fine.

Repairing the transmission array, Ye Xuan does not need to be present, so Ye Xuan let the old town guard here, and then leave.

At this moment, he has come to the edge of the five poisonous places, and in about half a day, he can enter the five poisonous places.

It took almost seven days, and it was nothing to do for half a day.

After half a day, he entered the boundary of the five poisonous places. However, if he wants to wear from the five poisonous territory to the beastly domain, I am afraid it is not so simple. Even if the continuous use of the transmission array is estimated, it will take several months, but I want to continue. Using a transmission array is not that simple, and the dangers encountered on the way must be strong.

So next, his main thing is to upgrade, the realm is high, the speed of the road is naturally fast, and much safer.

However, it's not as good as coming. When Ye Xuan just entered the five poisonous scenes, there was a team rushing toward him.

This team seems to be human, there are three, and it seems to be a warrior.

However, in the eyes of Ye Xuan's insight, the disguise of these three people has nowhere to be seen.

It turns out that these three are the masters of the snake charm, but they just become humans.

After seeing the three people, Ye Xuan couldn't help but frown, because the three seemed to be coming to him.

"doing what?"

Not waiting for the other party to approach, Ye Xuan is screaming loudly.

However, the three are not prepared to answer Ye Xuan, but directly accelerate.

"There is a bad person, find death!"

Ye Xuan is also nonsense, directly summoning the three old trees that have broken through to the incarnation of the body.

"what?"

The three people were shocked. They obviously only saw one person. Why did they suddenly come up with two people?

One of them seems to be the king of the skeleton?

However, they did not think so much, directly sacrificed weapons, and killed Ye Xuan.

"court death!"

Ye Xuan's glory was in full swing, and the three men just rushed into his attack range.

"The killings broke out!"

"Virtual Flame Sword!"

In a word, kill directly!

This invisible sword gas was directly immersed in the cracks in the space and then pulled out from behind one person.

"Hey!"

This kills the other party and is caught off guard, killing one person directly.

"Hey, the host's killing value is improved!"

Suddenly, this unlucky brain was bombarded, and then the soul floated out. As for the body, it naturally fell from the sky.

"what?"

His companion was shocked. I didn't expect Ye Xuan to have the eye of space. It is even more important to be able to kill their companions in the realm of reincarnation. How is this possible?

Not waiting for them to be surprised, the old tree and the skeleton king are both through the cracks in the space and come to the back of the two.

"The flames!"

The old tree and the scorpion kings are all out.

Chapter 1550: White bone gold vein

"Hey!"

"Oh!"

In the same level, the old tree and the skeleton of the skeleton are almost invincible. Under the joint efforts of the two, no one can block it.

The old man punched the head of one person, and the king of the bones gave the head of the third person to his knees.

"Hey, the host's killing value is improved!"

Although the body of immortality is strong, but after the breakthrough of the king of the bones, the power is skyrocketing, and a head is relaxed.

The person who was beheaded was separated from the body in an instant, and then directly grasped by the big hand of the skeleton king, revealing the faint color.

Just one face, three people died, and there is only one head left. How is this possible?

As for his body and the other two, because of the fall, the body has become the body of the snake charm, ugly.

Then, Ye Xuan swiftly swept away and took three of them.

"Why are you attacking me?"

Ye Xuan came to the last person and asked strangely.

attack?

Is it clear that you attack me first?

This third person wants to cry without tears, but at this time, he is the prisoner of Ye Xuan. If he does not answer, the next moment will probably explode.

However, if you do not destroy the essence of the strong, you can resurrect as long as you can not kill the blood, what is the death?

"Don't say yes, look over there."

Ye Xuan suddenly turned around and took out two swords directly.

"call out!"

"call out!"

The two empty sounds spread, but it is the shadow of the attack, because this is the flameless sword wave.

"Hey!"

"Hey!"

However, these two imaginary swords wave, after breaking through a section of road, just like something encountered, suddenly burst open.

The sound fell into the ears of a third person and shocked him.

"this is....."

The third snake Meizu's warrior's eyes widened, and suddenly there was an unpredictable feeling in his heart.

"I clearly tell you that I can see the soul of the wandering, and I can also erase the soul. If you don't tell me honestly, the end will be the same as them."

Ye Xuan said coldly.

"What, see seeing the soul?"

This person was shocked. After all, he was the first to hear that someone could see the soul, but looking at Ye Xuan's appearance was not like lying.

"Impossible, how can you see it?" The snake Meizu warrior questioned.

"If that's the case, then I will do it myself!"

Ye Xuan's eyes widened and his eyes flickered.

"Essence: The Eye of the Soul!"

After several advancements, the effect of the fairy has been greatly improved, and Ye Xuan has been the eight-wheeler, only two lower than the snake Meizu warrior. The soul search is still not difficult for him.

Of course, there is a way to be more convenient than searching for the soul, but there is no more soul to learn, and that is direct control.

"No, I said..."

This snake Meizu warrior suddenly reacted, but it was too late.

Ye Xuan's mind has been decided. After all, he first came to see it and didn't understand anything, so it's better to search for the soul.

It took an hour to search for the soul. In this hour, the old tree and the skeleton king were on the alert, but this move was superfluous because no one came.

after an hour.

"It turned out that it was sensed that I didn't have faith, so I was forced to increase it. However, the recent five poison gods lacked a large number of sacrifices, so many people were sent out and even left the five poisonous places?"

Ye Xuan suddenly understood.

However, in the memory of the people in front of me, there is a news that has caused Ye Xuan's attention.

White bone gold concentrate!

In the vicinity, there is actually a vein of a white bone gold concentrate.

The white bone gold jade is the thing that the king of the bones advances to the ghostly emperor, and the white bone gold concentrate can be quenched into a white bone gold jade.

Ye Xuan has just entered the five poisonous environment, and has not yet formulated a clear upgrade route. Now, there is.

"This white bone gold fine vein is the owner of the Blackwater City..."

Ye Xuan brows a pick.

It seems that his movements are going faster, because the news is already half a year ago.

For half a year, it may have been mined and used in forging.

Here is the edge of the five poisonous areas. For the Blackwater City, the white bone gold concentrate veins are closer.

At the moment, Ye Xuan is a sword that bombards the head of this snake Meizu warrior, and then breaks up his soul, and then goes to the northeast.

The white bone gold vein is just northeast, about a day away.

During this hurry, Ye Xuan will naturally not be idle, or as before, let the tree and the bones and kings go to kill the beasts.

Because it is only the edge of the five poisonous borders, there are still a lot of Tongtian beasts at the level of the rotation. These Tongtian beasts are a trick for the old trees and the skeleton kings.

However, Ye Xuan's human identity is a street mouse in these five poisonous places. During this time, there is no such thing as a sacrifice. As long as the individual sees Ye Xuan, he wants to catch it.

It is a pity that Ye Xuan is not simply a simple eight-wheeler. His strength is unprecedented. Don't talk about turning the wheel, even if you don't break the border, you can't escape.

One day later, Ye Xuan arrived at the white bone gold vein. He looked far away and saw several people guarding him.

These guards are all indestructible and are the people of the devil.

The demon spiders seem to be no different from humans, but behind them, they have sharp spider legs. When they fight, they will suddenly spur the enemy and prevent them.

Ye Xuan looked carefully, and there were five in the vicinity of the door, but the people inside did not know how much.

However, just as Ye Xuan was ready to start, suddenly one person came out from inside.

The flesh is not dead!

"I thought, such a important vein, how can it be a few guards?"

Ye Xuan's eyes squinted and her heart was planning.

If you don't destroy the situation, the old tree and the skeleton king can both deal with it, and if he kills these people, then the estimate can also break through to the turn of the wheel. At that time, the three old trees can also be broken. To the flesh is not dead.

The most important thing is that the king of the skull may be transformed into a ghostly emperor, so there will be a qualitative leap.

"The ribs, wait for you to drag the defensive leader who is in the same position, and the old man and I will solve the remaining five."

Ye Xuan gave orders to the two.

"it is good!"

The tree nodded with a sentence.

Although the plan is like this, Ye Xuan decided to seduce one or two people first. As for the bait, it is naturally him.

The five poisonous scenes are the world of the five poisonous gods. The unbelievers of human beings are considered to be street mice, and he is also a round-the-clock, and naturally no one will put him in his heart.

Thinking of this, Ye Xuan is directly rushing out.
