

Super D. S 1551

Chapter 1551: occupied!

"Hmm? Human?"

After the two guards saw Ye Xuan, they couldn't help but pick one.

"I will go, I happen to have a crystal of faith." A long-haired demon spider, the warrior, finished and flew directly toward Ye Xuan.

Upon seeing it, Ye Xuan pretended to be shocked and quickly turned around and left.

His speed made this long-haired warrior shocked, but the other side did not think much, just thought that Ye Xuan was fast, after all, the realm was there.

The two men ran for nearly ten seconds, and the long-haired warrior couldn't help it. He yelled: "Kid, stop me!"

"Oh!"

The voice has not yet fallen, the back of the long-haired warrior is suddenly torn apart, and the eight spider legs that are like spears quickly stretch, directly intercepting Ye Xuan's way.

However, at the same time, Ye Xuan is also directly shot.

"The killings broke out!"

"Virtual Flame Sword!"

A space crack unfolded, and the invisible sword swept into it, and it was discovered from the back of the long-haired warrior.

"Hey!"

The head of the long-haired warrior burst directly and was instantly spiked.

"Hey, the host's killing value is improved!"

At the time when the system prompts to sound, Ye Xuan has already obtained the person's ring, and after swallowing all the things inside, he quickly turned back, and his appearance changed accordingly.

This method of temptation, as long as you change one face and then come out from another direction, the other party should not think that it is the same person.

Soon, Ye Xuan again lured another person in the same way.

"Hey, the host's killing value is improved!"

The original five guards, now only three, and the defensive leader who is in the same position is re-entered into the mine, and does not seem to know what happened outside.

In this case, then Ye Xuan can directly kill!

Ye Xuan's light flashed a bit and rushed out again. This time, he did not intend to use the temptation method.

"Ok?"

The three guards saw the situation, and the brow was picking up. A strong person who saw Ye Xuan was very strange. He couldn't help but say: "How come three people who have turned eight rounds of people come in?"

He said that he also directly took out a belief crystal, and prepared to let Ye Xuan take the opportunity to refine and refine his belief in the **** of the spider.

However, before he was close, Ye Xuan suddenly shot.

"The killings broke out!"

"Virtual Flame Sword!"

The same tricks are used by different people, and the effect is very obvious.

In an instant, this guard is being spiked!

At the same time, the old tree and the skeleton king have also appeared, killing the other two.

"Enemy!"

One of them responded quickly and quickly shouted after the bursting of his companion's head.

The sound, which rang through the sky, was naturally introduced into the mine.

The guardian inside heard this, and his body trembled and killed directly.

However, when he came out, the two guarded outsiders had been killed.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

When the two systems prompted the sound, the old tree and the skeleton king had already returned to Ye Xuan with the Qiankun ring.

"Tragedy, still a little!"

After Ye Xuan swallowed all the things in Qiankun's ring, he couldn't help but reveal a helpless look. However, Megatron and the skeleton king were the first to break through.

"Hey, Megatron breaks through, and it is currently the second realm of flesh!"

"Hey, the king of the bones breaks through, and the current is the second realm of the flesh!"

The two flesh are not dead, and it is absolutely enough to deal with this guard.

"who are you?"

The guard looked at the body of his subordinate and asked with a frown.

"Humanity!"

Ye Xuan answered slowly.

Upon hearing this answer, the guards looked cold and continued: "A big courage, dare to rob the veins?"

"What is it?" Ye Xuan brows a pick.

"Today is the last batch of Baigu Gold Concentrate. You will really pick the time."

The **** said, he took the long sword directly from the Qiankun ring. At the same time, his back was torn apart, and eight sharp spider legs were extended.

"Spare ribs, you and I deal with him, the tree is old, you go in and check to see if there are other people."

Ye Xuan looked at the guardian and gave orders to the two in the heart, but the voice just fell, and the guard was moving.

"call out!"

The **** ran wildly on land and accelerated with eight spider legs behind him, flying fast.

"A little bit resistant!"

Ye Xuan eyes a glimpse.

The sacral king who has broken through to the inexhaustible body of the flesh is the leader, and greets him with a big sword.

"Hey!"

The stunned sword swayed and slammed with the long sword of the guard, but at the same time, the eight spider legs of the **** were directly broken through the scorpion king's rock armor defense.

After breaking through to the invincible, the defensive power of the skeleton king is rising straight, but the guardian can break open and be a bit resistant.

At the time when the sacral king and the guards played against each other, the old tree was already rushing into the mine.

Ye Xuan is also a direct shot.

"The killings broke out!"

"Virtual Flame Sword!"

Although it is said that this is the master of the physical and immortal nature, the eye sneak attack is not so easy to escape.

In an instant, the guardian heard a whistling wind behind him, scared him to hurriedly control the defense of the eight spider legs.

"Hey!"

A few fragile sounds spread, and the guards were directly cut off by the imaginary sword wave to break six spider legs.

If there is no such spider's leg, his head will definitely be smashed, even if he is not dead.

Then, it was the attack of the skeleton king.

"Hey!"

It was a muffled sound. This time, the guardian was blocked by a long sword in his hand, but the powerful force of the skeleton king directly shocked his arm.

In the case of the same level, this guardian can insist on several rounds, which is already quite good. After all, he is the master of the immortality of the body, and it is the peak of the double world.

Of course, he was able to take over the two tricks of the skeleton king. In fact, the most important thing was to rely on the long sword in his hand. This is the eighth-ordered weapon made of white bone gold concentrate, which is indestructible.

But then, this weapon is returned to Ye Xuan!

Thinking of his own changes, the bones of the sacred kings soared. He looked at the body of the guards and flew out, and directly extended his left hand to catch the empty space.

The grip of the Hades!

The guardian who had originally flew out was arrested again. However, his face was not very good at this time, because he was controlled by the enemy, he wanted to go and could not go, and then his end would be very miserable. .

Therefore, he quickly grabbed the ground with only two spider legs, trying to slow down and attacking the king of the skeleton.

Chapter 1552: not enough

It is a pity that the king of the bones is like a statue. In the face of these attacks, he took it in a faint manner.

The hunter's hunch is very correct. The grip of the sacred king's shack is not in the face of the same level of warriors.

What's more, not far from Ye Xuan, who has the eye of space, is watching.

"Calling!"

After the guards flew near, the skeleton king was a glimpse.

At the same time, Ye Xuan also shot again, but this time did not use space cracks, but directly attack.

"Hey!"

"Hey!"

In the two sounds, the guard's head suddenly burst open, and the flame of the unicorn's infuriating moment spread to the entire head, and then burned it out.

"Hey, the host's killing value is improved!"

The system prompts to sound.

At the moment, Ye Xuan is swiftly rushing past and accepting it.

"Hey, the host breaks through, and the current round is nine!"

"Hey, the spirit of the ashes breaks through, and the current is the real world of the flesh!"

There are a lot of things in this Qiankun ring, let Ye Xuan break through.

At the same time, there is also a bone-like ore here, which is the purpose of Ye Xuan's trip - Baigu Gold Concentrate.

Unfortunately, the number is not a lot, it is impossible to synthesize white bone gold jade.

"Roar!"

The sacral king is a little bit eager to wait for the situation.

"Not enough."

Ye Xuan shook his head and then said to the king of the cheekbones: "Don't worry, there is still inside."

At this time, the tree is also just passing back and forth.

"There are a lot of miners in the rotation, there are about five hundred, but after I feel my breath, I am very safe. Besides, I have not seen people who are not going to die."

He is now a realm of immortality, and the miners in the inside have beliefs, but they only turn to the level of the wheel, and naturally do not dare to turmoil.

Upon hearing this, Ye Xuan nodded slightly and replied: "You ask a hundred big bones of gold bone concentrate, how long does it take to mine?"

"It's about a day, but this mine may only last for a long time!" answered the old tree.

"That is, even if you have finished this vein, you can't synthesize the white bones."

Ye Xuan's eyes are awkward, and the one hundred large white bone gold concentrates are the quantities currently needed. In this way, even if all the veins are lighted, I am afraid that I will not be able to make a piece of white bone.

However, this time, he still waited, not to mention, the collection of the veins is more than the physical and eternal life of the tree old, the bones of the king and Megatron three. As for Ye Xuan, it is waiting outside the vein to see if there are other people nearby.

There are three old trees to help, less than half a day to collect, just sixty pieces of white bone gold concentrate, but these plus before Ye Xuan from the guardian Changkun ring to get, still about forty or so can be synthesized White bone gold jade.

"Roar!"

The king of the cheekbones roared unpleasantly.

"Don't worry, then we go directly to the Blackwater City. They collected for half a year, and the inventory is definitely quite a lot. It is absolutely enough." Ye Xuan took a shot of the rocky shoulder of the skeleton, and appeased.

However, just as they were preparing to travel to Blackwater City, the sky suddenly plundered a team. There were only three people coming from the group.

"This breath is actually a master of the immortality of the body..."

Ye Xuan brows a pick, it seems that his luck is good, the armor worn by these three people, like the few people who guarded this white bone gold vein, should be from Blackwater City.

Since it is from Blackwater City, there may be a white bone gold concentrate in the Qiankun ring. In this case, the skeleton king may change on the spot.

Even if they don't, then these people's weapons may also be doped with white bone gold concentrate. If Ye Xuan gets these weapons, he can use the super-phagocytic system to break down.

"who are you?"

After seeing Ye Xuan, a warrior headed can't help asking.

"Nothing, just robbed this vein." Ye Xuan's mouth tilted slightly, and returned.

"Robbery? Look for death!"

When the three of them heard it, they immediately smashed out the fine mans. In this place, they dared to rob the owner of the Blackwater City.

However, the three also felt that the old trees and the skeleton kings were not weaker than their breath, so they must be careful.

"on!"

In the low drink of the first person, the three were killed to Ye Xuan.

At the same time, the old tree and the skeleton king also selected their opponents. As for the last one, it was naturally reserved for Ye Xuan.

Ye Xuan three people looked at each other close, after the other party entered his attack range, they only shot.

"The killings broke out!"

"Virtual Flame Sword!"

Ye Xuan said nothing, directly cracking a space crack, an invisible sword smashed into it. Not only that, the old tree and the skeleton king also rushed in and came to the back of the three.

"Hey!"

"Hey!"

"Oh!"

Just one face-to-face, the three were directly fallen, the two men bursting and the head was cut.

Spike!

And, still three kills!

The last person who had been cut off his head did not die. He looked at the body that had fallen from the sky, and looked at Ye Xuan, who stood still in the distance, and stunned!

The three of them are inseparable from the incarnation, but they are the masters of Blackwater City. Today, they are coming to see the mining situation, but they are instantly killed.

"What the **** are you..."

When the talent had just opened, he was again hit by the tree and hit the back of his head, and then burst open.

dead!

These three people, but let Ye Xuan shocked, because only three of these three people have died, and the souls of the other two have dissipated in the world when their heads were bombed. Between.

Therefore, only this third talent can be resurrected!

Of course, in theory, it can be resurrected, but Ye Xuan will not let it go.

"Virtual Flame Sword!"

Another invisible sword smashed out and hit the third person's wrong soul. Suddenly, his soul felt a painful pain and was burned.

The system is still kind. When the invincible strong is dead, Ye Xuan will get a killing value, so whether these people have not killed the blood, in fact, has little to do with him.

The reason why he shot to kill the enemy's soul is that the killing of the enemy's body is only the value of killing, the soul of the elegy will not be promoted, only the soul of the other party will be destroyed, the soul of the elegy will increase.

After the death of these three people, Ye Xuan quickly went to the old side of the tree through the crack in the space, and then took the three people's Qiang Kun to accept it, and then checked the Qiankun ring.

The three of them are more or less a bit of a net worth, but there are not many things inside, which makes Ye Xuan very disappointed.

Chapter 1553: Blackwater City

The third person has the indestructible blood, he can be resurrected, so the thing he has in the ring is the least one. After all, if you fall, you can make a comeback.

The three weapons were also doped with white bone gold concentrate, and Ye Xuan threw their weapons to the super-phagocytic system and began to decompose.

"Oh, the decomposition is successful!"

"Oh, the decomposition is successful!"

"Oh, the decomposition is successful!"

After three successful decompositions of the system, Ye Xuan got more than 20 pieces of white bone gold concentrate, which is still a little worse.

"It seems that I have to go to Blackwater City."

Ye Xuan said slowly.

"Roar!"

The king of the bones heard this and was warlike.

Ye Xuan understands the feelings of the skeleton king. After all, the bones of the cheekbones have changed. His income is the biggest. At that time, the king of the cheekbones becomes a ghost, and the fighting power is bound to rise.

"go!"

Thinking of this, Ye Xuan is also a bit eager to wait, and directly began to hurry.

This vein is not far from the Blackwater City. It can be reached in a day. In this day, Ye Xuan is still in the same way as the previous plan. One person is on the road and the two kill.

Soon, the day passed.

One day later, Ye Xuan rushed to the Blackwater City, which happened to be the night.

However, because the human identity was called by everyone, he has not yet entered.

"Little Master, this Blackwater City is not small, we are direct attack, or secretly go in..." Tree old said to Ye Xuan.

"With our strength, even if you are positive, you don't have to worry about it. There is no need to sneak."

Ye Xuan answered one sentence.

"it is good!"

The old eyes of the tree are bright, and he also likes this method of confrontation between the front and the enemy.

As for the skeleton king, it is the same.

"go!"

Since it has been decided, Ye Xuan is also moving directly from the darkness toward the city gate.

In the five poisonous areas, there are mainly five orcs in control. There are people in this black water city, such as the magic spider family, the popular family, the golden dragon family, the snake charm family, and the black dragon family.

I heard that the owner of the Blackwater City is a demon spider, and it is said that it is not a small one. It used to be a disciple of the Tiancai Gate. The Tiancao Gate is one of the five poison gods. It can be a disciple of Tianjiamen. The strength is certainly not weak.

If it is an ordinary person, even if the realm is high, I am afraid I will not dare to attack the city directly. Because the people in these five poisonous areas are good at using poison, if they accidentally get the poison of the soul, then it is a tragedy.

However, Ye Xuan and others are not afraid, Ye Xuan immunotoxin, tree old and cheekbones can be resurrected without restriction, is not the poison of the soul, what is it?

When Ye Xuan went to the gate of the city, the team that guarded the gate of the city discovered them. However, because of the distance, these people of the demon spiders could not sense whether Ye Xuan had faith or it might be The snake charm is transformed into a body.

When Ye Xuan and others approached, their faces changed slightly.

Human form, and there is no faith, this is definitely not a snake charm, but a human!

"The city owner recently sent a large number of masters to catch the sacrifices. I didn't expect to send them to the door. Zhu Lie, I will change you this time."

The captain of the defending city said to a city guard.

Those who can seize the sacrifices, but there are rewards, but there are not many people who can come to Blackwater City, so this city guard is taking turns.

The warrior named Zhu Lie heard this, his eyes could not help but brighten, and finally it was his turn, not easy.

The remuneration of the nine-fold sacrifices is not bad, which adds another income.

Others are also showing their envy, but they will never think that this Zhu Li is a big mold this time, because the human youth who seems to know nothing at the gate of the city is Ye Xuan!

At this time, this Zhu Lie has already plucked toward Ye Xuan, with a sly smile on his face. However, he is not a dead body, and Ye Xuan is only a nine-folder. The strength is absolutely overwhelming.

"Boy, you don't know the current situation of the five poisonous situations, you are not lucky."

Zhu Lie smiled and grabbed Ye Xuan's throat in one hand, and the other hand had prepared a belief crystal, ready to force Ye Xuan to believe in their **** of the spider.

At this time, Ye Xuan's body suddenly burst into a powerful insult, and when the other party swept in front of him, suddenly a sword stabbed.

Virtual Flameless Sword!

A sword directly blasted Zhu Lie's head and smashed his flesh and blood.

In front of Ye Xuan, the body of immortality, which is invincible, is like a tofu, and is easily defeated by Ye Xuan.

"Hey, the host's killing value is improved!"

A system prompt sounded in Ye Xuan's mind. The next moment, the other party's Qiang Kun ring had been taken away by him.

This Zhu Lie is also unlucky, because he does not have a drop of blood, now he is dead, it is really dead.

After seeing Zhu Lie's body, the group of people at the gate of the city couldn't help but stumble. The next nine city guards rushed to the past.

"Miscellaneous things, even killing, looking for death!"

"Everyone is careful, this person has an attack that breaks the invincible body."

"This person must have been sent by the beasts, grab him and give it to the city!"

In a violent scream, Ye Xuan was directly under siege.

The captain of the city guard is a master of the immortality of the flesh. He also questioned Zhu Lie's death, but the latter died in front of him, so it is the fact.

However, since his nine players have already taken shots, he is not necessary.

In his view, Ye Xuan only killed Zhai Lie after a sneak attack. Now, facing the nine masters who are immortal and indifferent, Ye Xuan is not dead.

However, then he knew that he was too naive, but fortunately he did not kill, or the intestines would have to repent.

His nine incompetent players, all of them fell within two seconds, and it was not Ye Xuan who killed them, and two others.

A bald old man, a brawny man wearing armor.

No, that is the skeleton king!

"Is the body inseparable?"

The captain of the city guard immediately responded, and immediately turned around and shouted: "Guanchengmen, someone is coming!"

His reaction was very quick, but the tree was old and faster. He intercepted it directly before he rushed into the city gate. At the same time, the king of the cheekbones had already broken into the other side of the wall passage, and closed it directly with both hands. The heavy city gate.

There are two gates in Blackwater City, and there are arrays around them. Once the two gates are closed, it is not so easy to get in.

"team leader?"

There is also a five-person squad at the other end of the city gate. They immediately closed the gate after hearing the sound, but they saw a * card stuck between the gates.

One of the team members looked through the gap between the gates and found that they were in good shape and the head of the team was smashed.

Chapter 1554: Start change

"Fast, inform the city owner, someone is attacking the city!"

The violent screams, the entire city is estimated to be boiling, and Blackwater City seems to have not been attacked for several years. It has finally come once today.

The blackwater city residents who heard the sound first escaped, and then began to speculate that the last siege seemed to be sent by the beasts. Is this also true?

The violent screams still echoed in the sky, and the old tree had already swept in with the analysis of the scorpion king, and Ye Xuan, the squadron of the city squad captain was put away from the gate.

Then, directly use the special positioning of the void and the eye of the void to come to the interior of Blackwater City.

At this moment, he is already making up the things, that is, the white bone gold concentrate.

"Hey, Baigu Gold Concentrate was successfully synthesized!"

A system prompts to sound, Ye Xuan's mouth can not help but rise.

Finally, I got together!

"Hey, the bones of the bones can be changed, do you agree?"

Hearing this, Ye Xuan naturally would not refuse, and immediately chose to agree.

"Hey, the king of the bones began to change, and the current difference became one percent!"

"Hey, the king of the bones began to change, and the current difference became two percent!"

"Hey, the king of the bones began to change, and the current difference became three percent!"

Ye Xuan thought that the change would be completed in an instant. I didn't expect a progress bar, but it didn't matter. After all, the speed of this change was fast, but what made him helpless was that the king of the bones in the change could not move, so Ye Xuan took him to the planting space.

Then the next battle was carried out by him, Shu Lao and Megatron.

The news spread quickly. There were a lot of patrolling city guards nearby. They heard the people attacking the city and immediately rushed toward the gate.

These city guards are also martial artists who are invincible. Without a captain, Ye Xuan's vision has three in total, a total of fifteen.

Fifteen flesh and blood can not be destroyed, even Megatron can solve it, let alone the old tree and Ye Xuan.

"kill!"

Ye Xuan is also nonsense, giving orders to the old trees and Megatron.

When the three city guards arrived, the five people who had been on the side of the city gate had already been solved. Then, Ye Xuan solved the one city guard by three people.

On the speed of killing, it is natural that the tree is the oldest. After all, he is already the second most important thing. Although Ye Xuan is a nine-wheeler, but the speed is not much slower than him. As for Megatron, because he has no skills, he is temporarily in third place.

To solve a city guard, the tree only took two seconds, Ye Xuan used more than three seconds, as for Megatron, it took about five seconds.

Then, Shu Lao and Megatron came with the spoils. As for the souls of those people, Ye Xuan also used the flameless sword wave to harvest it.

Ye Xuan swallowed all the things and glanced at the panel. After five seconds, the progress of the skeleton king only increased by 20%. It seems that it will take a while to change.

The siege of the city, although the city owner is obliged to solve it, but there are still many forces in the Blackwater City. After hearing the news, they immediately rushed over.

At this time, in Ye Xuan's field of vision, there were three people with a slightly stronger breath. One of them was a black-skinned family. All three were inseparable.

In this combination, Ye Xuan has already killed it once, just outside the white bone gold concentrate.

This time, although the skeleton of the skeleton is missing, what about it?

"Kid, big courage, dare to attack the city, die!"

The old man of the Yi people drank and took the lead.

But when his voice had not yet fallen, the old tree came to his back and then fell down with a punch.

At the same time, Ye Xuan also took out a virtual flameless sword wave.

The cooperation between the two is perfect, and the old man and the old man will be killed in an instant, and the soul will be separated.

"what?"

The other two masters were shocked. After looking at each other, they leaned toward each other.

Single person is spiked, and two people join hands, I am afraid it is useless.

The old tree can solve one by itself, while the other one, Ye Xuan and Megatron, can also solve each other in five rounds.

However, it is not the two people who make Ye Xuan's face gloomy, but a figure that has swept from the sky.

According to the speed of this person, I am afraid that it is the master of the triple body!

Must be quick and fast!

Ye Xuan thought in his mind that he directly used the eye of the space and then caught the next one in front of him. Originally, he calculated that Megatron could work together to resolve the opponent in five rounds, but after using the eye of space, there were at most two rounds.

"Hey!"

The imaginary sword wave again sneaked successfully, and the back of the head of the person was severely wounded, and then was smashed by Megatron and recorded in an instant, bursting open instantly.

dead!

On the other side, the tree is still playing against the opponent, but with the addition of Ye Xuan and Megatron, the three rounds also killed the enemy.

"Breakthrough!"

After Ye Xuan got the three-person ring, the mind was slightly condensed. It seems that after solving the three-dimensional martial arts that the sky has swept, it is estimated that it can break through.

When the man plunged over, the progress of the king of the bones has reached 60%.

It seems that Ye Xuan has to deal with it himself.

"Kid, dare to come to Blackwater City to make trouble, courage is not small, let it die!"

This warrior who does not destroy the triple world does not intend to talk nonsense, and directly shoots.

The sacral king is still changing, so this person can only be dealt with by Ye Xuan. Fortunately, the old tree and the Megatron are both physically immortal. It is not a problem to drag him, and Ye Xuan will be Killing can still be done.

However, this battle, Ye Xuan does not want to join, because he estimates that the people of the city government is estimated to arrive soon, he must investigate.

It is said that the owner of the Blackwater City is the peak of the four realities of the flesh. If he comes, Ye Xuan is not an enemy of it.

In an instant, Shu Lao and Megatron have already played against the warrior who is in immortality, while Ye Xuan observes the battle while preparing to use the eyes of the space to attack each other.

However, this person has noticed that he has the eye of space, and it may not be so easy to attack.

"Hey, the king of the bones began to change, and the current difference is sixty-five percent!"

"Oh, the king of the bones began to change, and the current difference became 70%!"

The change of the skeleton king continues, and giving him seven or eight seconds, he can succeed.

Seeing this, Ye Xuan, who originally wanted to join the battle, suddenly stopped his hand. He felt that after the change of the sacral king, he must have a big fight. The warrior who is in the same position as the naked body is suitable for the sacral king.

Therefore, he decided not to take the shot, let the old tree and Megatron drag.

Chapter 1555: Ghostly Emperor

"Hey, the king of the bones began to change, and the current difference is eighty-five percent!"

"Hey, the king of the bones began to change, and the current difference is 90%!"

A little bit of time, still three seconds, the bones of the king will be successful.

Ye Xuan clenched his sword and was a little excited.

The bones of the bones have not changed so much, what will be strong after the change?

"Hey, the king of the bones began to change, and the current difference became 95%!"

"Hey, the king of the bones began to change, and the current difference became 100%!"

"Hey, the bones of the bones are complete!"

"Hey, the bones of the bones have become ghosts and great emperors!"

Finally, the change is complete!

In the future, the king of the bones will not be called the king of the bones, but the ghosts and the emperors.

Upon hearing this, Ye Xuan subconsciously swept the panel of the skeleton king, and even after the name changed, even the skills changed.

The invincible battle spirit was originally a double-enhanced full attribute. After the scorpion king became a ghost singer, it was doubled, and in the combined state, Megatron also had an effect.

The skill of the Hades is changed to the water of the soul that consumes the elegy of the soul, one per cent. Not only is the tearing force stronger, but there is no cooling time.

After he and Megatron combined, the combination of the art and the broken rock was nothing, and there was no death gaze, and the death will is the same.

However, the soul of the elegy and evil come to these two skills, but it is to shock Ye Xuan.

The original effect of evil is to enhance Ye Xuan's combat effectiveness, but now, there is a connection with Megatron. In the future, the King of the Skull will not need to hold the Battle of the Great Sword to be fit. As long as Megatron has an increase in evil, then he and the King of the Skull are in a state of fit.

To put it simply, the two can fight separately, but they are enjoying double the increase in fit.

As for the elegy of the soul, it is even stronger.

The original elegy of the soul is only effective for the sacral king. It can now be as effective as Ye Xuan, as well as the old tree and Megatron, and the growth rate of the increase has doubled.

After the completion of the sacral king change, Ye Xuan, Shu Lao, Wei Zhentian, and even the fall of the reincarnation, the strength has increased by 20%, because the increase of the soul of the elegy is 20%.

"Haha, it's too strong, and sure enough, I didn't pick up the wrong pet!"

Ye Xuan couldn't help but open his mouth and smiled. He had to say that the point of swallowing the day was really too much.

Although it is said that the bones of the sacral bones are still in the same state, but his strength is probably multiplied, especially when the evil comes, it can let the sacral king and Megatron separate the battle, and it is considered as a fit state. Can be very good.

However, not waiting for Ye Xuan to surprise, the system sounds again.

"Hey, Megatron has a companion change, and it has become a landlord!"

After hearing the system prompt, Ye Xuan couldn't help but glance at the panel of Megatron and found that Megatron had changed.

The landlord and the monarch became different kings of the earth. It seems that there has not been much change, but the combat power of Megatron has also been qualitatively improved.

The most important thing is that the blade storm of the state of the thousand swords advanced to the state of Wanjian.

"Okay, I really like it."

This Megatron change, beyond his expectations, no matter what, let the battle end and say it.

After the change, Megatron did not change much, but the strength improved a lot. Originally, the old team and the old team **** with each other and immediately took the upper hand.

"Skull King, no, Ghostly Emperor, go on!"

Ye Xuan's light flashed and summoned the ghost Emperor from the planting space.

After the change, the skeleton of the skeleton was handsome. The rock armor was more lustrous, and there were eight more thick bones on the chest.

Not only that, the Ghost Emperor himself even had a sneaky sword, and if Megatron also became a great sword, it would be two.

The Ghost Emperor fights with two big swords, don't mention how handsome.

Now, the sneaky emperor has completed the change, the war has reached the limit, and his pair of wildfire eyes swept away and fell on the warrior who is in immortality.

"Hey!"

He slammed his feet and rushed out.

This speed, even Ye Xuan is too far behind.

Now, due to the effect of evil, Ghost Emperor and Megatron are considered to be in a certain distance within a certain distance. Therefore, after they approached, the properties of Ghost Emperor and Megatron skyrocketed more than doubled.

"what?"

After seeing the domineering sneaky emperor, the master of the three-dimensional nature of the flesh was scared and straight.

Before he could react, the sneaky emperor had already flashed in front of him, and then waved his hands.

The sneaky sword swept out and directly photographed the face of the three-folded martial art. The head suddenly exploded.

Hey!

"Hey, the host's killing value is improved!"

In the distance, Ye Xuan directly heard a system prompt.

"Hey!"

Seeing this scene, Ye Xuan couldn't help but swallow a sip of spit. The ribs after the change were really powerful, and they actually killed a warrior in the triple body of the flesh.

However, the person who died seems to have inexhaustible blood. After the head bursts open, the soul is floating out.

At the moment, Ye Xuan is just taking out a virtual flameless sword wave and defeating his soul.

The elegy of the soul absorbs this soul.

Ye Xuan glanced at it and found that it had risen a lot, but this is not enough for the current Ghost Emperor.

A death gaze requires a five percent increase, and a hades must be one percent, which is how many people to kill.

However, Ye Xuan does not care so much, and directly plundered the person's shackles.

"Hey, the host has reached the top of the turn!"

The system prompts.

Breaking through the requirements of indestruction is that two hundred drops of inseparable blood, this is not difficult for Ye Xuan, after all, he has killed a lot of uncontested Tongtian beasts.

"Hey, the host breaks through, and the current is a real thing for the flesh!"

"Hey, Megatron breaks through, and the current is the triple of the flesh!"

"Hey, the ghosts and the great emperor break through, and the current is the immortality of the flesh!"

"Hey, the spirit of the ashes breaks through, and the current is the triple of the flesh!"

Four consecutive system prompts to sound.

Now, Ye Xuan has finally broken through to the end.

After the breakthrough, in addition to the increase in life expectancy to 20,000 years old, Ye Xuan also felt that his body has undergone earth-shaking changes, and his physical strength is at least five times stronger.

At the moment, he is directly breaking his arm with a sword, and suddenly blood is flowing.

The body of immortality is harder to recover for others. If the body is not dead, it can be treated with raw scent, but it also needs to be restored.

Chapter 1556: Eighteen white bones

However, Ye Xuan, who has the blood of the undead, has recovered this wound between his eyes.

Undead phoenix blood, really powerful!

"Right, I have the eternal eye. Now my key points should still be eyes?"

Ye Xuan suddenly thought of this.

The strong body that is immortal, the brain is the key, and he has the eternal eye, and the system has no hints, so it should still be in the eyes.

However, this kind of thing will be said afterwards.

Now they have undergone earth-shaking changes in their strengths. They don't go directly to the city's government, but they really can't say it.

"Go, kill a good!"

Ye Xuan's mouth tilted slightly and led the old three of the trees to the city's main house.

Now Megatron and Ghostly Emperor have wonderful connections, as long as they fit together in the vicinity, it seems that the combined strength of the two players will increase by a factor of three compared to the previous one.

Even if they are strong in the five-fold situation, I am afraid they will not be able to do it.

This black water city master is not only the peak of the four immortals, which means that Ye Xuan is a bit unscrupulous.

Along the way, there are quite a few people who have joined forces to attack Ye Xuan. Although the realm is low, only the body is invincible, but they win more people.

It's a pity that Ye Xuan and others are not afraid at all, but all those who dare to stop the road are dead without burial. This is also cheaper than Ye Xuan. After all, this is all experience, which can improve the cultivation and improve the killing. The elegy of the meaning and the soul.

Now there are scarce sacrifices in the five poisonous places, so according to most forces, this opportunity is taken and the surrounding forces are started.

Although 99% of the five poisonous places have beliefs, they do not want to be sacrifices. The powerful forces destroy the weak forces, so the weak forces are sacrifices.

To put it simply, Ye Xuan is attacking the city. There are not many masters in the city of Blackwater City, but the city owner is definitely there.

After the main house of the Blackwater City City sent a master who was in immortality, there was no movement until they arrived, and they felt strange.

"what happened?"

The people in the city's main house can't figure out the situation. How can there be a strange flesh that is not going to be close to the city government?

When they came out to see it, they found a young man with a body in his hand.

"That is, even the body of the offering!"

The discerning person suddenly reacted.

Even the offering is the master who has been smashed by the ghost of the Emperor, and the body is not dead.

How is he dead?

"What happened, even if the offering is not to attack the siege?"

"It seems that even the offering is already dead!"

"It seems that this person is not good at the beginning, but the body is not dead, but there are two guards who are immortal."

"No matter what, kill him!"

Suddenly, there are a lot of masters in the city's main government leaping into the sky, there are more than 20 bodies of immortality, and five bodies are immortal.

This kind of configuration is enough to deal with the masters of the four realities of the flesh, but this is not enough.

"The Blackwater City Lord does not seem to be there, but there seems to be multiple formations in the city's capital, perhaps in a retreat. If so, then I will kill you!"

"Hands!"

Ye Xuan also gives orders directly regardless of the other party.

In an instant, the old tree, the ghostly Emperor and the Megatron are all smashed out. Due to the connection of evil, the Ghost Emperor and Megatron have always maintained a wonderful distance, which has exactly doubled the full attribute bonus.

The masters of these cities are the highest in the body, but the three old men are also in the same position. In the face of the same level of warriors, they can almost kill each other.

As for Ye Xuan, it is to clean up those who are physically immortal. In the absence of the eyes of the space, Ye Xuan can also do one second.

In the blink of an eye, there are many bodies falling in the air, but all of them are masters in the city.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

Ye Xuan's killing value and the increase in the elegy of the soul continue to increase.

The owner of the Blackwater City is estimated to be retreating, otherwise it will not come out. In this case, then Ye Xuan will play him.

"Hey!" "Hey!" "Hey!"

At the moment of perception, Ye Xuan can clearly sense where there is a defense of the array, so he took the time to attack these places, as long as the owner of the Blackwater City is inside, it will be disturbed.

Sure enough, after the number of people in the air died at least half, a figure suddenly appeared in a secret room deep in the city's main government.

"Where is the mouse generation, dare to disturb the city's main retreat?"

A middle-aged man plunged into the sky and shouted.

However, after his spiritual development began, it was eclipsed.

At this time, there was a city government that was inseparable from the triplet. The devotion of the Emperor of the Ghosts smashed his head and the body fell from the sky.

"It's so strong, although it's just a matter of immortality, it's probably not under me."

This middle-aged man is the owner of the Blackwater City. His body is invincible. After seeing the power of the Ghost Emperor, he can't help but feel the trepidation.

When these people came to the head, they even went to the city government office. What happened?

"The owner of the Blackwater City, finally came out, ribs, to clean up him!"

Ye Xuan immediately gave orders to the ghost Emperor.

At the moment, the Ghost Emperor is quickly rushing to the Blackwater City Lord. Not only that, Megatron is also quickly catching up.

There is a fit between Ghosts and Megatron, so Ye Xuan gave instructions to Ghost Emperor, and Megatron will keep up. They are a combination and cannot be split.

Seeing the ghosts of the Emperor and Megatron rushing themselves, the main face of Blackwater City changed greatly, and angered: "Dare to come to our city's main government to make troubles, and the courage is not small, or just today, the array is just finished, let you practice."

The owner of the Blackwater City finished, and his hands quickly picked up the seals. Then, the entire city government suddenly raised a white light.

"Hey!" "Hey!" "Hey!"

A white light column skyrocketed, and Ye Xuan and others were all encircled, just eighteen.

"What the hell?"

Ye Xuan looked at these white beams, which is a bit unclear, but he can see that this is a battle.

He has seen the formation, but he is the most powerful one he has ever encountered.

At the time when the eighteen beams of light were shining, the earth of the entire city was also beginning to tremble, and a breath of death spread.

"this is....."

Those who took care of the blessings of the city's government suddenly thought of something.

"Eight eighteen bones, start!"

The Lord of the Blackwater City shouted, and then, in these beams of light, a large scorpion suddenly rose.

Chapter 1557: White bone king spider

"Is this, made of white bone gold jade?"

Ye Xuan looked at these bones and only felt a little extravagant.

These eight large scorpions have reached a height of ten meters. The whole body is made of white bones and gold jade. It is a bit too much to use such a huge resource to set up the array.

However, during this period, due to the lack of sacrifices in the five poison gods, the five poisonous places were chaotic, and the owners of the Blackwater City were afraid that there would be strong men coming, destroying them, and then escorting them all as sacrifices. The five poison gods went to teach, so they arranged this one.

"The eighteen cockroaches are all made of white bones and gold jade. Even if it is a master of the five-fold body, it is difficult to destroy it. You are dead!"

After the completion of the Blackwater City Lord, he quickly retreated to a few large squats.

Eighteen are comparable to the infidelity of the five ingenuity, this strength can not be underestimated, even if the body is not strong, the six strong players, do not dare to care.

However, this is not a big deal for Ghostly Emperor and Megatron.

"Too little look at the ribs and Megatron, and, take down their bones!"

Ye Xuan directly screamed and gave orders to the two people. As for the remaining city capitals, they were handed over to Shu Lao and Ye Xuan.

"Oh, don't hesitate, kill them!"

The owner of Blackwater City is cold and cold.

Then, eighteen white-shouldered monks were surrounded.

These big cockroaches don't fly, so Ye Xuan just needs to take off, but he is naive once. After seeing him fly, these cockroaches suddenly grow a pair of white bone wings.

"Good guy, I want to see if you are really hard!"

Ye Xuan's face sank and his heart was dark. At the same time, he also shot directly.

"The killings broke out!"

"Virtual Flame Sword!"

Although he said that he is only physically inseparable, his attacking power is enough to seriously hurt the body of the body.

Although the white bone gold jade is a material for forging the eighth-order machine, it is hard and hard, but it is not the best material.

It is not impossible to destroy them!

"call out!"

These big cockroaches don't seem to evade and directly hit the imaginary sword wave, but they are indeed a bit of a skill, and they are unscathed under the attack of the imaginary sword wave.

"A little bit tolerant."

Ye Xuan couldn't help but sigh, and then swept through the eyes of insight, and found that there is a white bone core in these embarrassing brains. It seems that this is their key point.

Since it's hard, it's yin!

At the moment, Ye Xuan rushed directly toward a big cockroach.

The weapon of Daxie is a big bone stick. It is estimated that the body of the ordinary body will not be destroyed by a single blow. If Ye Xuan is hit, naturally he will not be spared.

However, the premise is that he can hit Ye Xuan.

"Calling!"

The wind blew, at this time, the white bone stick has already waved to Ye Xuan.

However, at this time, Ye Xuan suddenly flashed a glimmer of light, and then, in the head of this big cockroach, suddenly cracked a space crack.

"Hey!"

I only heard a crisp sound spread, and the core of the white bone in the big head suddenly shattered.

The core of this white bone is the key to the big cockroach. Now it is broken. The whole cockroach loses its dominant moment and directly decomposes and falls from the sky.

Upon seeing it, Ye Xuan quickly swept over and collected all the white bones.

These white bones are not really white bones, but the white bones of gold jade refining, so Ye Xuan can swallow.

"It's so cool, so a lot of experience!"

Ye Xuan's face changed greatly, feeling his breath soared. At the same time, the ghosts in the distance and Megatron were also the same, and the strength suddenly increased.

This big cockroach is strong and can't resist the attack of space cracks. It is a big toy in front of Ye Xuan.

At this time, the owner of the Blackwater City was also shocked.

"There is a room for space..."

The main light of the Blackwater City City is shining, and the eye of the space can tear the space. Unless it reaches the heavens, it is impossible to resist this kind of attack.

Moreover, such a strange eye as the eye of space and the eye of Vientiane is not suitable for anyone. Some people can't use it even if they have the eye of Vientiane. The eye of space is rarer than the eye of Vientiane. do not talk.

Unexpectedly, I actually met one today.

"This kid is a dead body, and it is estimated that it can tear the space a few times. In this case, I have to lose six big cockroaches..."

The heart of the Blackwater City City trembled.

Originally, he thought that when eighteen big cockroaches appeared, they could reverse the situation and smash Ye Xuan and others into meat. Now, I am afraid it is not so easy.

Not only that, Ye Xuan has the eye of the space is also considered, not far from the ghost of the Emperor and the green Tianlong combat strength is not weak, even able to single out a big cockroach.

If this continues, even if the seventeen are surrounded, it will be difficult to kill the enemy.

"For the eighteen bones, I consumed 60% of the white bone gold concentrate, and the remaining 30% was made into the core of the white bone. If these cores of the bone are destroyed, it will not be worth the candle!"

The Lord of the Blackwater City thought of this, and the heart made a decision. Then his hands began to print quickly.

"Ok?"

Ye Xuan, who was preparing to start the second big squat, suddenly felt something. Below, he just saw the big cockroach he was staring at, suddenly turned around and plunged toward the Blackwater City, and the other 16 large The same is true of the hustle and bustle, all of which converge toward the main city of Blackwater City.

"What is this going to do?"

Ye Xuan frowned, and suddenly there was an unpredictable foreboding. He looked at the ghostly Emperor and Megatron, and was beaten by those big sticks.

It seems that the Blackwater City Lord has to come up with any tricks.

However, no matter what, he is not afraid. After all, he still has a lot of cards that are useless, such as the Kirin down, the broken sky, and the blade storm that has been upgraded to the level of Wanjian.

When Ye Xuan was surprised, the seventeen big cockroaches suddenly broke down and then began to reorganize.

"It turns out that it is to make a bigger one?"

After seeing this scene, Ye Xuan suddenly understood.

The owner of the Blackwater City knows that even if all the big men are coming up, they can't help them, so they want to form a more powerful thing.

Out of curiosity, Ye Xuan did not stop, I wanted to see what the seventeen great cockroaches could form.

However, when he saw half of it, he knew that after the decomposition of the seventeen big cockroaches, it seemed to be a big spider.

"White bone emperor spider, up!"

The owner of the Blackwater City City has already seen the combination, and the dawn is immediately flashing, directly directing this newly formed large bone spider.

Chapter 1558: Self-binding

This array was obtained thousands of years ago, and this time it happened to find a white bone gold vein, so it was arranged. At this time, the combination of the white bone emperor spider is comparable to the flesh and body, and this is the card of the Blackwater City Lord.

In the face of this big guy, Ye Xuan can not help but reveal a taboo look, if you let him single out this white bone emperor spider, even if the bottom card is estimated to be difficult to kill.

Fortunately, he also has a super card.

The eye of space!

At this time, the masters of those cities have already died, and Ye Xuan has also received their sacred ring and repaired.

"Tree old, ghostly Emperor, Megatron, you killed the Blackwater City Lord, this white bone king spider gave me."

Ye Xuan immediately said.

"understand!"

The tree should be old, and immediately sneaked toward the Blackwater City Lord who was in the midst of the incarnate.

Although the three are inseparable from the three realities of the flesh, but in the case of joining forces, it is absolutely possible to kill the black city master. As long as he kills him, then this white bone king spider is estimated to collapse directly.

The thief first smashed the king!

Of course, now the owner of the Blackwater City has the protection of the white bone emperor, and it is not so easy to kill.

And Ye Xuan, it is flashing, watching with the eyes of insight.

This is only a hundred meters of the white bone emperor spider, which is composed of the seventeen large cockroaches of Fang Cai, so the seventeen white bone cores are in the body of the white bone king spider.

If you want to kill this white bone emperor with strength, it is estimated that you have to destroy the seventeen white bone cores. At this time, the seventeen white bone cores are covered with a tight air. Even if Ye Xuan has an insightful eye, he can't see it. Where are the seventeen white bone cores?

"I can only use the space crack several times, destroying a few white bone cores at most, and I can't estimate the rest."

Ye Xuan's eyes were awkward. He originally wanted to break open the void into the body of the white bone emperor, but he found that the bone of the white bone emperor was wrong, so he estimated that the white bone emperor is real, even if it is torn, it is only in the other party's body, a hole is broken, and people still can't get in.

If so, then hard work!

"Ghosts and Emperors, can't destroy the soul!"

Ye Xuan passed the voice channel.

Hearing this, the gloom of the Emperor of the Ghosts, the breath suddenly soared.

During the period of the Skull King, the invincible soul can enhance the full attribute of the Skeleton King and Megatron. Now the king of the skull has become a ghost, and the soul of the invincible war has also advanced. Now the invincible soul can double the full attribute.

Plus double the fit, double the unicorn deterrence, then four times.

At this moment, Ghost Emperor and Megatron are able to play five times the combat power.

with full force!

kill!

The sneaky emperor, who has soared in breath, directly smuggled the sword with the sneaky sword toward the Blackwater City.

"what?"

The owner of the Blackwater City hid under the white-bone king's spider. After seeing the speed of the ghostly emperor, the whole person was paralyzed.

What is the speed?

In the blink of an eye, the sneaky emperor plundered him in front of him, and then swept out a sword.

"Oh!"

The owner of the Blackwater City did not respond, and the head was cut directly, and then the tree that was flashing was old.

Spike!

Although the owner of the Blackwater City has not yet died, but there is only one head left, what is the difference between death and death?

Immediately afterwards, Ye Xuan directly used the special positioning of the void to break open a door of the void, and then control the body of the Blackwater City Lord through the door of the void to obtain the ring.

There are not many things in Qiankun's ring, but there are also many, so that Ye Xuan's cultivation has improved a lot.

Ye Xuan estimates that as long as the white bone emperor is swallowed up, it is estimated that it can be broken.

However, things don't seem so simple.

Originally, he thought that he killed the owner of the Blackwater City, then the white-bone king spider would collapse on his own, but now the Blackwater City Lord has only one head left, and it is no different from the death, but the white-bone king spider is still alive.

At this point, it has stretched out a spider's leg and swept to the sneaky emperor. This blow is enough to seriously injure the martial arts who are in the dead.

"Hey!"

The sneaky emperor blocked it with a sneaky sword. His body shape was only a slight tremor. He opened the invincible soul, but it was not a good persimmon. After defending this attack, the sneaky emperor quickly fired a sword, and a sword smashed on the white bone spider's leg.

"Hey!"

It was a crisp sound, and the sword was embedded in the white bone spider's legs, at least one meter deep.

You know, this is made of white bone gold jade, indestructible.

The owner of the Blackwater City City was also shocked. The sneaky emperor, who is in immortality, is so powerful that it is so strong.

"Kill, kill them!"

The head of the Blackwater City City screamed.

Unfortunately, after he had only one head left, the white bone king spider was no longer obeying him.

"Booming!"

A booming sound, the white bone emperor spider began to violently, and was actually destroying the entire city.

The main face of Blackwater City City is gloomy, and his worrying thing still happened. This white bone king spider no longer obeys him and becomes a killer.

No one can afford it in the entire city government!

"Oh, it's really self-defeating!"

Ye Xuan in the distance couldn't help but open his mouth and smile. This white-bone king spider was made by the owner of the Blackwater City. Now, I don't listen to the orders of the Blackwater City Lord.

However, the Ghost Emperor has already opened the invincible soul, and Megatron has also turned into a powerful sword, held by the ghostly Emperor.

At this time, there are two big swords in the hands of the ghost Emperor, a big sword, a ghost sword.

"Hey!"

"Hey!"

Ghostly Emperor's hands were out, and the two big swords swept out. In an instant, they cut off a white-skinned spider's leg.

If it is the degree of sharpness, the sneaky sword is not even faster than the big sword. After all, this is the weapon that the ghost scorpion comes with.

After the white-bone spider's leg was cut off, it could not be connected with the white-bone king spider, so Ye Xuan quickly used the eyes of Vientiane to control the white-bone spider's leg through the door of the void.

"Devouring!"

This white bone spider leg gave Ye Xuan a lot of experience, but it is not so easy to upgrade.

"Ghost Emperor, give this white bone king spider to the limbs!"

Ye Xuan passed the voice channel.

Ghostly Emperor's eyes flashed a bit, and his body flashed and came to the second white bone spider's leg.

"Hey!"

"Hey!"

The road was crisp and loud, and the sneaky emperor was like a logging machine. The destructive power of the white bone emperor was strong, but the sneaky emperor who opened the invincible soul was too fast, and it was in the body of the white bone emperor. Under the turn, the white bone emperor spider can not help him.

In the blink of an eye, two spider legs were cut off and then taken away by Ye Xuan.

Chapter 1559: Coming

"This....."

The owner of the Blackwater City City has already been shocked. This white-bone king spider is comparable to the master of the six-folded body, and was actually played by the ghostly emperor in the applause.

This is trouble!

He had thought that the white bone emperor spider could kill Ye Xuan and others. He did not expect that he would die first, and the white bone emperor spider also ran away.

The most important thing is not this. What is important is that the white bone emperor can't help Ye Xuan and others.

If Ye Xuan and others solve the white bone emperor spider, then don't say the city government, even the black water city will be destroyed.

However, what can he do at this time?

Soon, the eight spider legs of the white bone emperor spider were all cut off by the ghostly emperor.

The white bone emperor spider without the spider's legs, the entire body has been firmly attached to the ground, can not move.

"Ghostly Emperor, breaking its big butt, crushing the seventeen bone cores!"

Ye Xuan continued to command at the remote.

The sneaky emperor immediately did it. Under the mad attack, the huge white bone **** of the white bone emperor was directly broken, and then the sneaky emperor drilled in.

After a while, the seventeen white bone cores were all broken, and the white bone king spider could not move any more.

Oh, after all, it's just awkward, even if it's gone, it's just as good.

After the death of the white bone emperor, Ye Xuan quickly broke through the void and then directly collected the huge body.

"Hey, the host breaks through, and the current is the real world of the flesh!"

"Hey, Megatron breaks through, and the current is the real world!"

"Hey, the ghosts of the great emperor break through, and the current is the immortality of the flesh!"

A systematic reminder of the sound, the atmosphere of the ghosts of the Emperor once again skyrocketed.

Although the old tree has not yet broken, but after Ye Xuan looted the entire city government, it is estimated that it is enough.

"Blackwater City Lord, your wealth, should not only be this ring?"

Ye Xuan suddenly said to the owner of the Blackwater City.

"You can't think of it!" The owner of Blackwater City naturally knew Ye Xuan's trick and immediately yelled.

"Oh, let me not say that I have a means of obliterating the soul. The poison of these souls in your ring alone is enough to obliterate your soul?"

Ye Xuan's eyes swept to the front of the Blackwater City.

Hearing this, the main face of Blackwater City changed greatly. He also suddenly remembered that there was indeed some soul poison in his own ring, and in his current state, he could not resist it.

damn!

"Give you three seconds, if you cooperate, I can put you in a horse!" Ye Xuan suddenly condensed, said in a cold tone.

The main character of Blackwater City changed greatly. He knew that he was planted this time. If he does not cooperate, I am afraid that the soul will be obliterated.

Not only that, but the entire Blackwater City is hard to escape.

"over there."

After thinking for a second, the Blackwater City Lord decided to cooperate and directly use the instinct and Vientiane power that can be called now, and condensed an icicle in the distance.

At the moment, the old tree quickly flashed over, and in a short while, he took out another 乾戒戒.

“Happy cooperation!”

Ye Xuan smiled and took over this Qiang Kun ring, quickly checked it, and sure enough, there are many good things.

"Hey, the spirit of the ashes breaks through, and the current is the immortality of the flesh!"

The tree is finally broken.

"Things have been given to you, you have to talk and count." The main face of Blackwater City City said solemnly.

"Do you have any blood?" Ye Xuan suddenly asked.

"Have....."

The owner of the Blackwater City City replied subconsciously, but in the next moment, his face was changed.

Still not waiting for him to open, Ye Xuan is a sword to sweep out and directly bombard his head.

The skull bursts open and the soul is isolated.

Anyway, the owner of the Blackwater City has no blood and can be resurrected.

However, for the Blackwater City Lord, it is natural to keep the head, because it can be recovered with the remedy, but once it dies, it can only be resurrected with inexhaustible blood.

You must know that the higher the realm, the less blood is not so easy to condense.

If the flesh does not destroy the triple world, it will condense a drop of inseparable blood, and then break through to the incarceration of the body, then it will not be used, and it will be re-aggregated.

The owner of the Blackwater City City should also be fortunate that he has not broken through to the incarnation of the flesh, otherwise he will be finished this time.

Now, the owner of Blackwater City is dead, then Ye Xuan is too lazy to start working on those below.

However, just as he was about to leave, suddenly there were a few breaths that entered his perception.

"The body is not dead, five?"

Ye Xuan brows a pick.

This black water city should be a four-fold body of the city, and now it is too weird to come to the three bodies of immortality.

Soon, the three of them came to the city of the city.

"what?"

After seeing the horrors of the city's main government, the three people could not help but wonder.

"Is it because the two men destroyed the main city of Blackwater City..."

For the first middle-aged man muttered, his eyes fell on the tree old and the ghostly emperor, because only the breath of the two of them is the immortality of the body.

He can feel that the tree has no atmosphere of belief in crystal, then it should be foreign.

"Exactly, the city government was destroyed, then the entire Blackwater City can be handed over to the spider's door as a sacrifice!" A man smiled.

"The whole Blackwater City, sacrifice?"

When the words fell into Ye Xuan's ears, he could not help but make him tremble.

This Blackwater City is not too big compared to other cities, it is estimated that there are only more than 100,000 people, but if so many people are all sacrificed, it is a bit scary.

What kind of sacrifice is it, how many people are needed? ,

"The second brother and the younger brother, you go to raise the big guards, I will solve them."

Not waiting for Ye Xuan to open, the head of the man immediately swooped down and shot at the old tree and the ghostly emperor.

The defending big squad actually rose when Ye Xuan entered Blackwater City, but this could not stop the three people, they all rushed in directly.

As long as the moat rises, the entire Blackwater City will not be able to go.

This is extremely confident for the first man. After all, the old tree and the sneaky emperor are just the same as the physical and immortal, and he is the immortality of the flesh.

However, he underestimated the strength of the tree old and the ghostly emperor.

There is still a duration of invincible battle, and the ghost singer directly kills after getting the order of Ye Xuan.

"call out!"

Ghostly Emperor turned into a streamer, holding a powerful sword and a sneaky sword, and instantly plunged into the front of the head of the man, and then the two swords swept out.

"what?"

This is the first man who apparently did not expect the sneaky emperor to explode such a speed, but his reaction was also extremely rapid. Unfortunately, the sneaky emperor now has two weapons. He only blocks the sneaky sword, but it is shocked. Tiandajian cut his head.

Then, the old tree came over and punched the head of the headed man.

Chapter 1560: Serial random task

"Hey!"

The skull burst open and an invisible soul floated out.

Then, it was the imaginary sword wave that Ye Xuan took out.

The soul is extremely fragile, even if Ye Xuan is only physically immortal, it is enough to kill the soul of this man.

This is the first man who does have a drop of blood, but the soul is burned and burned, and this inseparable blood also dissipates between heaven and earth.

Those who do not destroy the border are already out of reincarnation. If their souls dissipate after their death, they will not be able to break into reincarnation, that is, they will truly die.

If you want to reincarnation, you have to do it before you are alive. Of course, it is more than a hundred times more than a reincarnation.

After the other two saw this scene, they could not help but stop and look at the body of their older brother.

Their big brother, the strength is stronger than them, how can they be spiked?

Not only that, but it seems that the soul has been broken up. How is this possible?

"No, go!"

One of them immediately responded and knew that he had hit the iron plate this time and quickly turned around.

But their speed is not comparable to the ghostly emperor, not to the tree, and they are caught up in the blink of an eye.

Although the realm of these two people is high, but the three rounds are both being killed by the old tree and the ghostly emperor.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

Ye Xuan has received a large amount of killing value, and there are three Qiankun Rings.

After he put the three 乾 戒 戒 收 ,,

However, after this incident, he faintly felt that the five poison gods seemed to have a big move.

"The three people actually want to treat the entire Blackwater City as a sacrifice. What do you want to do?"

Ye Xuan is very surprised.

There are about 100,000 people in Blackwater City. Although most of them are reincarnation, people like Blackwater City are countless in the five poisonous areas.

Ye Xuan estimates that this sacrifice requires at least a million people, or tens of millions.

These five poisonous gods are really too cruel!

However, Ye Xuan does not intend to manage too much. He only wants to cross the five poisonous areas, then arrive at the Beasts and find the ancestors.

At the moment, he left Blackwater City directly and then headed north.

The Beasts are in the north of the five poisonous areas, so Ye Xuan must cross.

Just in time, there is a transmission array outside the north of Blackwater City, which can save a lot of time, so Ye Xuan's destination is the transmission array.

As for Blackwater City, it has nothing to do with him.

After breaking through to the immortality of the flesh, his speed is much faster. He rushed for one day, which is almost equivalent to the five-day martial arts.

However, just after he had been driving for a long time, he suddenly felt a strong atmosphere.

"so many people!"

Ye Xuan brows a pick, can not help but stop.

With his powerful perceptive ability, he felt a strong atmosphere in front of him. Of course, this super-strong atmosphere is not alone, but is radiated by a large number of strong people.

There are at least tens of thousands of people, and there are five races. The most important thing is that all of them are not extinct!

Tens of thousands of invincible strongmen, this is not a joke, not to mention, this tens of thousands of people are only in the sense of Ye Xuan, there are many outside his range of sensing, I am afraid there are two or three thousand.

"So many are not going to kill the country, I am going to go, is this all a sacrifice?"

Ye Xuan was shocked. He hurriedly checked the map and found that there was a city near the Blackwater City. It seems that these people should be from there.

So many sacrifices, for Ye Xuan, it is a chance.

However, so many people must have escorts, so Ye Xuan did not act immediately.

He concealed his breath, and then quietly dive into it. Under the eyes of the insight, the dense people are about to look at his eyes.

"There are no embarrassments in these people. Is the **** a person of the five poison gods?"

Ye Xuan suddenly thought of this.

The five poison gods are composed of five forces, the Qianzu School, the Jinzong School, the Tiancai Gate, the evil spirits, and the Snake Shadow Temple. These five forces are the hegemons of the five poisonous places, even the same gas, and the same enemy.

The people in the five poisonous places are almost all believers of these five forces. As long as these five forces issue an order, these believers will be unconditionally waiting to be dispatched.

Under normal circumstances, the five poison gods will not issue a decree. It seems that this time they are going to make a big one, and even force the believers to come to the sacrifice.

Vaguely, Ye Xuan felt an unpredictable hunch, because these five poisonous scenes were hostile to the beasts, and this time forced to call so many sacrifices, perhaps to target the beasts.

Although Ye Xuan is a human being, not an orc, it is obviously not a good thing. The thing that Ye Xuan will do later is to help these believers get rid of it.

"Ten of the flesh does not destroy the fivefold, the three flesh does not destroy the six heavy..."

Ye Xuan swallowed swallow, if it was before, he would definitely be scared.

Not to mention these escorts, even if these sacrifices see him, I am afraid that they will rush to come up, develop him into a believer, and then join the ranks of sacrifice.

But now, he is not afraid.

"More than 30,000 people, if they are all killed by my current realm, can at least reach the upper limit of the killing value?"

Ye Xuan's eyes lit up.

Before, he had a six-point swallowing point, but after redeeming the super-powerful magical sword wave, there were only four points left.

Now, he has found a way to make money, which naturally cannot be let go!

Not only that, but the vicissitudes of so many people are enough for him to upgrade.

However, at this time, the eyes of insight suddenly swept a few different figures.

These figures are not the people of the five poisonous orcs, but the cats.

Like the fox family, the cat family is the closest to the human race among the orcs, except for the cat ears and the cat's tail, and human beings are undoubtedly.

However, unlike the other believers, these cats are all shackled.

"Weird, how can there be cats?" Ye Xuan was very surprised, but in the next moment, a system sound was heard in his mind.

"Hey, the host triggers serial random tasks, the first ring mission, and rescues the cats."

After Ye Xuan listened, he couldn't help but glimpse.

The serial random task finally came again.

He immediately looked at the cats and found that there were more than twenty, but because he was mixed in a large team, he could not feel the other side's realm.

This kind of task is generally related to the degree of completion of the task. In short, if the cat family is dead, the final reward will definitely be a little worse.
