Chapter 156: All destroyed!

"Not good, be careful!"

Zhao Mulian exclaimed, he saw that Yu Liang did not win the battle, killing him, but flew toward Ye Xuan.

"Ok?"

Ye Xuan heard the shouts and turned around and looked almost scared.

That Yu Liang is a real Xuanjing, but also grabbed a Chinese spirit, this is not the first time he can deal with this real thing.

At the moment, he just took out the chasing star and attacked while retreating.

"boom!"

"boom!"

Although Yu Liang was only the beginning of the real Xuanjing, but it was three times higher than the original Yuanyuan. Under the suppression of the realm, Ye Xuan's hundred steps to wear Yang had no effect at all, and was defeated without exception.

"The speed is fast, I can catch up with me. The realm is too big. I will run first."

Ye Xuan turned quickly and ran wildly in one direction. He thought about pulling this light away. In this case, the people in the fierce empire would not be afraid.

When Ye Xuan turned his head, he suddenly found that the speed of Yu Liang suddenly increased.

This is the brightest, but the iron heart is going to kill Ye Xuan.

"not good!"

Ye Xuan's face has already sunk to the bottom of the valley. Although he can kill the real middle of the real world, he has not reached the realm of heads-up with the real Xuanjing.

"Mom, the engulfing points are not enough to buy the spirit of the middle class, you can only learn this."

Ye Xuan quickly exchanged one thing in the phagocytic system. This is a battle method, which cost Ye Xuan 100,000 points to swallow points.

"Intermediate foggy fog, give me up!"

A real element instantly came out, and then, the surrounding voice was a sizzling voice.

Yu Liang, who is chasing Ye Xuan, suddenly found out that Ye Xuan's surroundings were foggy, and the speed of the production was very fast. In the blink of an eye, Ye Xuan's back was covered.

"Ling Array?"

Yu Liang responded instantly and the killing was stronger.

"I didn't expect this child to have so many means, you must die!" Yu Liang made a decision in his heart, directly slamming out, ready to blast the fog in front.

However, this fog is very large, and instantly spread to a hundred meters away, Yu Liang also lost the shadow of Ye Xuan, can only use the ears to squat.

"Here, let me die."

Yu Liang heard a bit of a greasy, directly pulled out a few swords, but all fell through.

"call out!"

At this time, several broken sounds sounded.

"boom!"

"boom!"

Yu Liang once again defeated the arrow and shouted: "Bad boy, give it to me!"

On the other side, Ye Xuan is standing a little, and sneer in his heart: "The strength of this old guy is really powerful, then I have to look at it, who will die first!"

He suddenly closed his eyes, and then he would counterattack with the ability of the ears and supersonic bats.

"boom!"

"boom!"

"boom!"

Both sides are constantly attacking.

At the beginning, Yu Liang was able to counterattack a few times, but later, he has been defending, all of them are attacking Ye Xuan.

"Impossible, why can this kid know my position?"

Yu Liang can't believe that he is moving, but Ye Xuan can always find his position. Once or twice, it's too weird. If it's the second time, it's too weird.

You must know that he is a real Xuanwu warrior, and he still can't deal with a real thing, which makes his face shame!

"In any case, you must die!"

Yu Liang began a crazy attack. Now, he no longer judges the position of Ye Xuan, but attacks casually.

However, he attacked for a while, but found one thing.

Ye Xuan, no shadow!

"Old guy, look over there!"

A sound suddenly sounded in the distance, it was Ye Xuan.

At this time, the fog suddenly disappeared a little bit, and it didn't take long before it completely disappeared.

Yu Liang stared at it and found that Ye Xuan had already returned to the battlefield.

The current battlefield is a mess, the corpse is everywhere, and all of them are the bodies of the fierce empire.

None of the people of the Xuanyang Empire died.

"How can this be?"

Yu Liang's eyes widened and he couldn't believe it. They had two realities on this side. How could they lose?

He glanced around in a circle, but did not find another figure of the real Xuanjing strong, nor on the ground, that is running!

"Damn, that bastard, I spent a lot of money, so I ran this way?"

He almost didn't suffocate because he had seen his son lying on the ground, though the head didn't know where to fly.

"Yu Liang, let's accept it."

Zhao Mubai came over with a group of people.

This time, the Xuanyang Empire was a great victory, and only a few people were injured. The most important thing is that the fierce empire has killed more than a dozen people, leaving only Yu Liang, and the genius of the fierce empire of the three true spiritual realms.

"No, it's impossible, why do you have so many Chinese spirits?"

Yu Liang desperately shook his head, he could not believe that he would be so outrageous.

"Because, my Xuanyang empire has a fortune teacher!" Zhao Mubai walked over and said slowly.

"How is it possible, who is it?" Yu Liang asked aloud.

At this time, Ye Xuan suddenly took a step forward. "I am sorry, those cold swords, all built by me. You look at the top of the hilt. Is there two words?"

Yu Liang followed his meaning and saw that there were two words at the top of the hilt.

"Ye Xuan?" Yu Liang read it out.

"Yes, it's me!"

Ye Xuan smiled.

boom!

This one answer is like a blue sky, and Yu Liang is shocked to say nothing.

Such a young realm, even he could not kill him, turned out to be a forgemaster who can refine the spirit of the Chinese.

Xuanyang Empire, is it really so outstanding?

"Yu Liang, the king is defeated, die."

Zhao Mubai did not talk nonsense with him. He directly smashed the sword, and Yu Liang did not resist. He was directly cut off by this sniper.

"call."

When Yu Liang's head was thrown up, everyone was relieved. It seems that this war was won by them.

"Grandpa, what about the three?" Zhao Pan suddenly used a fat hand to point to the genius of the three fiery empire in the distance.

The genius of the three fiery empire has been scared by this scene, and the leg of the real Xuanjing has been beheaded.

The fierce empire, finished!

"kill!"

Zhao Mubai shouted coldly.

With his order, there was a strong man in the middle of the real world who killed him. The three geniuses also gave up and were instantly killed.

"Call, it's not easy, I didn't expect this time to be a big win for us." Zhao Chongguang sighed again.

"Don't say it, first clean up the mess." Zhao Mubai said, it is a wave of hands, all the corpses on the body are collected together.

However, at this time, the sky suddenly flew a huge Peng bird, and everyone turned their heads and looked very serious.
