

Super D. S 1581

Chapter 1581: The message is incorrect

In less than ten seconds, dozens of masters fell, and even the soul was shattered. When the fox people who saw this scene, their morale immediately skyrocketed, and the offensive immediately increased.

This time, the five poison gods are premeditated, but there are not many offensive ancestors. Except for a strong soul who does not destroy the four worlds, there are only ten souls who do not die, and hundreds of souls. A master of the world.

Of course, this is not the whole of the five poison gods. More, it is to go to the leopards.

Both Fox and Leopard are missing, but the five poison gods know that they are dead, because the five masters of the five poison gods are shot.

But the Leopard is stronger than the Fox, even if the Leopard is not to be underestimated, so it has three times the master.

This time, the five poison gods are trying to interrupt the resurrection of the fox ancestor and the leopard king.

As long as the fox ancestor and the leopard emperor are really dead, then the three beasts will have fewer than three superpowers. As for the remaining hunters, they are really not afraid of fear, because some of the strongest souls are not destroyed. The family of three souls that are immortal is not even able to make up for twenty.

It is a pity that the five poison gods will never think of it. The ancestors of the foxes have actually killed a bite.

After Ye Xuan and others killed about a hundred enemies, Ye Xuan quickly let Megatron and Ghostly Emperor go to support Hu Yingbo.

"not good!"

The soul of the eternal soul of the heavens is very different. A Hu Yingbo with the old tree is enough for him to drink a pot. If the blood sword group and the ghost gang come again, he may be in danger. .

"go!"

On this day, the master of the spider door changed his face. After a big drink, he immediately turned around and left.

They have been hiding in the Beasts for many years. They are exposed for the first time today. Even if they can't defeat the Fox in one fell swoop, they should be hit hard. I didn't expect to fail.

However, the main event is still behind!

This time, attacking the Fox family will not only fail, but also lose the master!

"The Eye of Space!"

Ye Xuan looked at the soul that was ready to retreat. The elders of the four heavens were not destroyed, and they broke the space directly.

At the moment, the Ghost Emperor and the Blood Sword Group are quickly passing through the door of space and intercepting each other.

"Damn!"

On this day, the face of the elders of the spiders has already sunk to the bottom of the valley. In the news he got, the Fox family was only a Hu Yingbo. How come a few super-strong combat forces suddenly appeared?

The news is wrong, but the price of blood must be paid!

His first reaction was that the ghost inside himself was placed in the Fox family to lie to himself.

But now is not the time to think about this, he has to live to live today, even though he also condenses a soul species, but his soul species used to resurrect, at least a thousand years.

Who knows what will happen after the millennium?

Soon, under the siege of the people, this soul does not destroy the elders of the four heavens, and directly fell.

Not only that, but even the fast-moving soul is also captured, and then a sword spike.

"Hey, the host's killing value is improved!"

The system prompts to sound.

It is Megatron that caused a fatal blow to the elders of this day, so naturally there is a killing value.

Waiting for this soul to be invincible, the four-day Tiancai Gate elders' ring was taken away by Ye Xuan, then Hu Yingbo reacted.

This battle is simply beyond his expectations. He thought that this time it would be a tough fight. At least he had to fight for two losses, but he did not expect to win so easily.

Not only that, but the other party has actually lost a master of the soul of the four immortals, which is a big profit.

After Hu Yingbo swallowed the swallow, he fell his eyes on Ye Xuan. This time, if it was not Ye Xuan, the Fox family would be in danger.

I have to say that they have a good luck this time. It is just that Ye Xuan came to the Fox family today. It is just that the five poison gods attacked the Fox family today. It is precisely because of this that the Fox people were spared.

After the death of the strongest enemy, Megatron's blade storm duration was almost the same, and it changed back to the state of Denon. The same is true of the invincible war of the Ghost Emperor, and their combat power drops instantly.

"Little brother....."

Not waiting for Hu Yingbo to call Ye Xuan, Ye Xuan quickly swept out and chased the five poisonous gods who had escaped.

Just kidding, now is the key time, kill one more and earn one more, Ye Xuanyuan will waste this opportunity?

The original five poison gods wanted to kill them, spread the soul poison in the group battle, and then defeated the foxes. Unexpectedly, after they attacked, they were directly defeated, and even the leading masters died, directly beyond the plan.

Instead, after the fox masters saw them fleeing, the two or three teams quickly chased them out.

That Hu Yingbo looked at the back of Ye Xuan's departure. He also felt that when he was not talking at this time, he must first kill the enemy and say other things.

The fox's masters rushed out of the nest and killed a group of poisonous gods. Although these five venomous gods who attacked the foxes were trained, they were almost immune to the charm, but the fox's branch had a lot of blood. The moves are endless, and in the case of the enemy, I have no chance of winning.

Therefore, after a few minutes, none of these people who attacked the foxes survived.

This battle is a big win!

And the result of this is naturally a few Ye Xuan. If they did not kill hundreds of masters of the five poison gods in the first place, they will also kill the leading souls, and they will also kill them. It won't win so easily.

"Hey, the fourth ring task of the serial random task is completed!"

After this battle, Ye Xuan's experience has improved a lot, almost in the midst of the incarnation.

At this point, they have all returned to the Fox family, then Hu Yingbo is the master of the Fox family, looking at Ye Xuan return.

"Today, I would like to thank the little brothers for helping me!"

Hu Yingbo solemnly held a fist.

"It's okay, it's just a little effort."

Ye Xuan waved his hand, though he said so, but he showed a 'I'm the best.'

Not waiting for Hu Yingbo to speak, he continued: "I just listened to the enemy, is the ancestors resurrected?"

"This....."

Hu Yingbo is somewhat embarrassed. Although Ye Xuan saved the Fox family, his wife's affairs are confidential. However, if there is no Ye Xuan today, the Fox family may be in danger of being destroyed, so he will answer after thinking about it. Dao: "She did fall down, but the place where the resurrection of the soul is not the fox family, but in the city of the beasts, I think, the five poison gods should also guess."

The city of beasts is the center of the beasts, built by the blood of hundreds of orcs.

Under normal circumstances, the five city owners are sitting in the city of the beasts, where there are a large number of masters, is the safest place in the field of the beasts, and the five poisonous gods in the five poisonous places.

If the fox ancestor is really fallen, it will definitely be resurrected in the city of the beasts. After all, it is the safest place.

Chapter 1582: Five poisonous beasts

"When will she be resurrected?"

Ye Xuan asked again.

"I don't know."

Hu Yingbo shook his head, and he didn't even know it.

"Well, then I will bring my friend first. You should be busy with yourself."

After Ye Xuan finished, he rode directly on Megatron and then ascended into the sky.

This time, the Fox family was attacked, and there must be a ghost inside, so then Hu Yingbo is going to find out the inner ghost and then repair the transmission array.

Ye Xuan does not know how long it will take, but, after a long time, he can summon the fall.

Soon, half a day passed.

Ye Xuan's second ancestor rushed to the reincarnation, and then sent the fall to the planting space, and then summoned by the deity in the field of beasts. When the summons were summoned, the blood of the Fox people in the group of foxes all boiled.

"This, what is going on?"

"Why is the blood in my body like this? I don't even have the courage to face the strong three souls of the soul. At this time, I was actually shaking with fear..."

"In the air, the blood is suppressed from the air!"

As soon as the fall appeared, it ignited the blood of the group of Fox people. After all, Tianhuo Fox seems to be one of the most expensive blood of the Fox family.

At the same time, that Hu Yingbo was also sensed and went directly to the Fox Square.

Just in time, Ye Xuan in the air slowly fell on Megatron.

"Predecessors, people are here!"

Ye Xuan said to Hu Yingbo.

Hu Yingbo has a bottle of falling blood in his hand. He can be sure that this little girl in front of her eyes is the blood of the sky.

"I didn't expect it to be the blood of the sky..."

Hu Yingbo couldn't believe it, and the subconscious blurted out.

Ye Xuan turned over his eyes, couldn't I lie to you?

People in the Fox family have also heard about this matter. After they sensed the strength of the fall, they could not help but whisper and discuss more. It is a sigh.

The days of the blood of the fox, from the age of 18 to one will have to bear a day of robbery, if it is not blocked, it will be scattered.

That is to say, the fall is now no more than 18 years old, and the realm of falling at this time is the triple nature of the flesh.

Less than 18 years old, the invincible strong, and still born in remote areas, this day, the blood of the fox is really against the sky.

We must know that the best genius in the Fox family has exceeded three hundred years when it breaks through the triple reality of the flesh. Moreover, he grew up in the fox family, has master training, has countless treasures of heaven and earth, and the heaven and earth vitality is ten times or even thousands times more abundant than other places.

Unfortunately, the robbery was not something that ordinary people could resist.

When he first fell to the age of eighteen, he was only a nirvana. At that time, the robbery of the day was a serious injury to Hu Xinger who had turned to the top of the road.

Now that the fall has broken through to the indestructible, even if it is a strong person, I am afraid I will not dare to block her.

"I have seen seniors!"

After meeting Hu Yingbo, I immediately said hello respectfully.

"Well, I have prepared the secret room, you come with me."

Hu Yingbo said nothing, leaving Ye Xuan and falling.

In the past half of the day, the Fox family has also taken out the ghost.

No, it should be said that the ghosts themselves jumped out. This is the master of the fox's soulless and triple-death. It is also that he destroyed two transmission arrays before the attack of the five poison gods.

As for the five poison gods used to force him to betray, it is simple, that is, to use their loved ones.

In fact, several fox masters have been left behind before him, but these people refused to betray and then were killed. Although there are souls that can be resurrected, but in the state of the soul can not communicate with the living, they can only be resurrected in the Fox family, therefore, the Fox family does not know this.

It's just that this ghost has compromised, but what I didn't expect was that a halfway suddenly killed a Ye Xuan.

After a while, Hu Yingbo came to a secret room with Ye Xuan and Luo.

"The sky is full of blood, I just heard about it. I don't know what to do. I have to look at it first."

Hu Yingbo said to Ye Xuan with a dignified face.

At this time, his heart is very excited, because as long as he finds a way to escape the catastrophe, then the fall will be a big hit, as long as the time of landing, breaking through to the heavens is not a problem, then I am afraid that can not lead the Fox?

The next time, Ye Xuan was standing next to the fall.

This Hu Yingbo saw it for three days, and he was thankful for Ye Xuanhua.

"Predecessors, it's been three days. Do you have a clue?"

Ye Xuan could not help but ask.

"I am the blood of the fox fox in the fox family. The level of honor is lower than the level of the fox. It is about two levels. Although my realm is high, my blood will be suppressed as soon as it falls, I guess it needs Some time." Hu Yingbo said with a dignified face.

Hearing this, Ye Xuan can only show his helpless look. The eye has fallen for only half a year. If Hu Yingbo has no way, then the estimate is only reincarnation.

"The young master is safe, and there is nothing to cycle again. When the young master knows that you have found me, it will be fine to help me open the inheritance memory."

"Your mother is not saying that a group of you will open the memory of inheritance, will the blood of your body be fully activated?"

Ye Xuan brows a pick.

After such a reminder, the fall is also recalled, there is such a thing.

If she didn't find a way this time, she would have to reincarnate. At that time, she couldn't open the memory of inheritance, and she had to come slowly.

In that way, she does not know Ye Xuan.

How can that work?

Who knows when she will open the memory of inheritance?

However, when Hu Yingbo was looking for a cracking method, someone suddenly found this secret room.

"Home, the transmission array has been fixed, and an important message has arrived."

This voice is the Hu Song of the day.

Hearing this, Hu Yingbo could not help but stop, and then opened the door of the secret room.

Hu Song outside the door, a serious face.

When Hu Yingbo saw him like this, he knew that things were not small and hurriedly asked: "What news?"

Hu Song took a floating crystal spar directly from the Qiankun ring and handed it to Hu Yingbo. Then he said: "The news of the city of the beasts has some strange animals on the edge of our beasts and the five poisonous places. These heavenly beasts will continue to emit the poison of the soul, and most people will not be able to get close."

When the voice falls, the floating crystal spar appears a picture, and the picture is a strange heavenly beast.

This one-day beast is actually made up of five similar combinations of dragonflies, snakes, spiders, dragonflies and dragonflies. The appendix, the snake body, the legs of the dragonfly and the dragonfly, the giant tongs of the scorpion, and spit spider silk.

After Ye Xuan saw this, he couldn't help but frown. This is what a ghost thing, really ugly.

Chapter 1583: Deadly poisonous fog

"Awful things..." I couldn't help but vomit.

However, ugly and ugly, this strange power of the beast is not weak, and each one is actually equivalent to the fighting power of the soul. This is not the point, the point is that they will continue to spur the soul of the poison, if they are in the mist, even if the cat ancestor, Xiong Wang, Niu Huang can not help them.

"This should be the killer of the five poison gods. During this time, so many sacrifices by the five poison gods should be to cultivate this thing." Hu Yingbo said, turned and asked: "This kind of What are the ghosts?"

"There are only five found in the present. However, the poisonous fog that they ejected has no effect on the people of the five poison gods. They are now eroding our territory. If there is no countermeasure, the beasts will be finished. Hu Song said with a blank face.

The soul does not destroy the four-fold fighting power, and it will continue to spur the soul poisonous fog, and the five poison gods masters follow, how can this be played?

Not waiting for Hu Yingbo to speak, Hu Song said again: "So, the news of the city of the beasts, let the owner immediately go to the city of the beasts, participate in the Baizu meeting!"

Hu Yingbo was silent. At present, he has found a way to make the foxes more powerful, that is, the blood of the fallen days.

However, there is no time for him now.

"The **** five poison gods." Hu Yingbo was so angry that he couldn't help but roar.

"And, the owner, this five poison gods are prepared, the transmission line of the Leopard family has not been repaired, there is still no news, so it may have been destroyed." Hu Song said.

"what?"

Hu Yingbo, who heard the news, almost dismantled the secret room.

The mad leopard family is much stronger than the fox family. It is hard to imagine that it was destroyed by the five poison gods who sneaked into the beasts.

Hu Yingbo took care of his emotions and then turned around and asked: "The little brother, the blood of the day, I am afraid I have to let go."

Ye Xuan nodded. He also knew the importance of this matter. If the five poison gods were not solved first, the Fox family estimated that the whole family would move away from the beasts.

"I will go with you." Ye Xuan said.

"it is good!"

Hu Yingbo nodded and then left with Ye Xuan directly.

As for the fall, it was directly sent to the planting space by Ye Xuan.

The transmission array has been repaired, and Ye Xuan directly followed Hu Yingbo back to the city of the beasts, and then came to the temple of the day.

At this time, hundreds of people have been gathered in the temple, and all of them are orcs, with hundreds of branches.

In the depths of the beast hall, there are several powerful figures. One of them is the cat ancestor who had a relationship with Ye Xuan before, while the other two are Xiong Wang and Niu Huang.

These three people are the only remaining souls of the Beasts.

"Hu Yingbo, how is your fox loss?"

After Hu Yingbo entered the beast hall, the cat ancestors asked directly.

"The loss is not big, this time thanks to this little brother, otherwise my Fox family will fight with the enemy and lose both sides." Hu Yingbo said truthfully.

"he?"

The cat ancestors were shocked. She had already recognized Ye Xuanlai. Although Ye Xuan is higher than before, it is only a matter of immortality. What she can't figure out is why Ye Xuan and Fox The survival of the family?

"Yes, this little brother and his companions are not the same strength. Several of them joined forces and killed hundreds of enemies. Together with me, I killed an elder who had a soulless soul. "

Hu Yingbo will tell the truth of the day.

After listening to it, the surrounding patriarchs felt incredible. It was a miracle that only three people turned around the situation.

If the average person says it, everyone will definitely not believe it, but Hu Yingbo is a predecessor to the people present. His words are still convincing.

The cat ancestors also had a strange look. I didn't expect her to blink once and look away.

"Don't say this first."

The cat ancestors came back and took out a floating crystal spar from the ring of Qiankun, and then enlarged it with the power of Vientiane.

This floating crystal spar is the strange heavenly beast that the five poison gods have made. It is spreading the poison of the soul, and the five poison gods use this to invade the territory of the beasts.

The cat ancestors looked around and said: "I must have seen everyone. If you follow the speed of this ghost thing to spread the poison of the soul, no more than a month, the five poison gods will directly kill our city of beasts. ,What are your views on this matter?"

Upon hearing this, a lion master took a step forward and asked: "What is the power of the soul of this soul?"

"This heavenly beast is comparable to the immortality of the soul. The poison of the soul is enough to make the soul immortal. The three of my cats have died under this poison." The cat replied .

The soul does not destroy the poison of the soul of the triple world. This is enough to poison the majority of people present. After all, the orcs who gather here are actually more than ten.

Those who can't speak are almost all representatives of the soul and the environment, and they estimate that there is no way, just to come and listen.

"In my family, there is a branch of blood called the rock steel cattle. They can use their armor to pack themselves in a tight air. I don't know if they can block the poison of this soul." The cow suddenly said.

"No, this toxin can not only erase the soul, but also has a strong ability to corrode. If the general soul does not destroy the triple master, if the soul breaks in, the soul has not been erased, and the body may become mud."

The cat ancestors shook their heads directly. These five poisonous beasts were discovered by her people. She is naturally the clearest.

"What should I do? Can we only attack and attack, sacrifice the soldiers, and burn five five poisonous beasts?"

A tiger master said.

The people around him heard this and immediately shook their heads.

I am afraid that this method will not work.

There are five poisonous beasts, and there are a large number of five poison gods guarded by their bodies. Together with this poisonous mist, the five poison gods are almost invincible.

Of course, if the three ancestors of the cat ancestors jointly attacked one, it might be fine.

"If the three of us join hands, we can break the five five poisonous beasts one by one, but the city of the beasts can't be left without people. The five poisonous gods should be calculated from the recent resurrection of the Fox and Leopard emperors, so take them directly. The action, if they come in, they will suffer."

The bear king who has been silent has opened up.

"The city owner did not collect some poisonous mists. I don't know if I can deploy the antidote to this poisonous mist in a month?"

As soon as this was said, some people should immediately say: "Yes, among us among the hundreds of ethnic groups, there are quite a few masters of alchemy. As long as they are equipped with antidote, we can fight."

Unfortunately, the cat ancestors still shake their heads.

Chapter 1584: Test poison

"I'm afraid it's not so easy. I guess, these five poisonous beasts are cultivated by dozens of poisonous bloodstains of the five poison gods. There may be five blood poisonous gods, the blood of these five poisonous masters. It is difficult to allocate antidote to the millennium estimate." The cat sighed.

Hearing this, hundreds of people in the Temple of the Beast are showing a desperate look.

Is this time, the beasts must be planted?

They have a hundred orc bloods!

And the five poison gods, only five orc blood.

It is a pity that in the blood of hundreds of orcs, hundreds of them are abolished, and there are only a dozen ethnic groups. Now the Fox ancestors and the Leopard Emperor have fallen and have not been successfully resurrected. Otherwise, this crisis can be resolved.

It seems that the Baizu domain can only be completely migrated. When the fox and leopard emperors are resurrected, they will come back for revenge.

These dozens of mixed poisons are not something that ordinary people can solve, but among the people present, there is one person who can do it.

When hundreds of people in the beast hall were desperate and desperate, suddenly a young man came out and said: "The city owner, the poisonous mist collected, can you show me?"

"Ok?"

When the sound came into everyone's ears, they couldn't help but look up and look at the young man in the center of the beastly palace.

This person is naturally Ye Xuan.

"Little brother, do you have a way?"

Hu Yingbo's eyes lit up.

"There is a way to see if it can be done." Ye Xuan nodded slightly.

As soon as this was said, there was a burst of questioning enthusiasm in the Temple of the Beast.

Even the cat ancestors have no way to this poisonous fog, Ye Xuan, but the flesh is not dead, and what kind of racial jokes!

However, they suddenly remembered that Ye Xuan played a key role in the fox crisis and could not help but be shaken.

It's hard to be done, is there really a way?

"what are you going to do?"

The cat ancestors asked a bit stunnedly, and then took a jade bottle directly from the Qiankun ring. Inside, the cat family master killed the poisonous fog from the front line.

"Unfortunately, my blood has a strong anti-toxicity, as long as the poison does not die, then this poison will be useless to me." Ye Xuan said.

"Is there such a magical blood?"

Everyone can't believe it.

The same is true of the cat ancestors, but she still threw the jade bottle to Ye Xuan.

The poisonous mist in this jade bottle is only lost, and many people can collect it in the presence, so the people around it are not afraid.

"Little brother, your timidity is worthy of praise, but you are very likely to fall down in an instant, do you have any blood?"

Hu Yingbo said subconsciously.

"No, I won't, and I won't kill the blood."

Ye Xuan shook his head.

The next moment, the tree old and the ghostly emperor appeared next to him.

"Hey, young master, have you taken me to test the poison?"

When the tree saw Ye Xuan suddenly summoned him, he immediately understood Ye Xuan's intentions.

He and the Ghost Emperor and Ye Xuan can talk in the air, naturally knowing the situation at this time.

"Hey."

Ye Xuan opened his mouth and smiled and threw the jade bottle to the old tree.

"But, anyway, at most, one death." The old man laughed at himself, and opened the jade bottle without saying anything, then quickly put his fingers in.

In the meantime, the old arm of the tree is withered and turned into fly ash.

At the same time, the poisonous mist is even more integrated into the blood, and quickly climbed the old brain of the tree.

"Hey, the spirit of the ashes poisoned!"

"Hey, the spirit of the ash is dead!"

"Hey, the spirit of the Ashes is resurrected!"

A series of three system prompts to sound, and the tree that turned into a fly ash was once again seen in the eyes of everyone.

"What happened? The person who suddenly appeared, died after poisoning. How did it appear again?"

Everyone couldn't understand what Ye Xuan used to change two people out of thin air and then resurrected one person.

Fang Cai, Ye Xuan took the tree as a white mouse, tested the toxicity of this poisonous mist, the people present also saw it, the toxicity is terrible, the soul is immortal and the tree is old and violent.

However, it is not without gain.

Still waiting for the people around him to ask, the old tree once again put his fingers in. This time, he hangs again.

"Hey, the spirit of the ashes poisoned!"

"Hey, the spirit of the ash is dead!"

"Hey, the spirit of the Ashes is resurrected!"

The tree is old again and then reappears.

However, this second test of poison, the tree old relative to the previous time, died slowly.

Of course, none of the people present did not find it, even Ye Xuan.

However, Ye Xuan has a super-phagocytic system. After seeing the detoxification data listed in the super-phagocytic system, he can't help but slightly tilt his mouth.

The old tree can't resist this poisonous fog, but there are also blood vessels in the old body. Every time you try to poison, you can get rid of some weak poisons.

If the poisonous mist is made up of fifty kinds of highly toxic, the tree is once resistant to a highly toxic, then there are forty-nine.

However, the poison that is resolved by the blood of the undead phoenix may be mixed with other toxic drugs to have strong toxicity.

To put it simply, if you let the tree test a few times, this mixed poison is equivalent to a loose sand, and it will be simple.

"Hey, the spirit of the ashes poisoned!"

"Hey, the spirit of the ash is dead!"

"Hey, the spirit of the Ashes is resurrected!"

"Hey, the spirit of the ashes poisoned!"

"Hey, the spirit of the ash is dead!"

"Hey, the spirit of the Ashes is resurrected!"

The tree was old and resurrected twice in full view.

However, this fourth death, the people around them clearly felt that the tree died slowly.

The first time is an instant, the second time is an instant, and the third time is an instant death.

But this fourth time, it was actually a half second slow.

"Come back!"

The old tree experimented again, this time, it was slow for two seconds.

"Hey, the spirit of the ashes poisoned!"

"Hey, the spirit of the ash is dead!"

"Hey, the spirit of the Ashes is resurrected!"

For the fifth time, the old tree insisted on killing for nearly three seconds.

The next sixth time was a direct ten seconds.

"It's almost, a few more times, this poison fog is useless."

Ye Xuan's eyes are bright, this blood is the auxiliary blood, and the tree is shared with the old three, so the old three people are poisoned, he will also have poisoning data, and then produce resistance.

Under the gaze of the crowd, the tree was tested for the seventh time.

This time, I waited for half a minute, and the trees were not degraded.

"Hey, the host is immune to the toxin!"

A system prompts to sound.

From now on, Ye Xuan is immune to this toxin.

"Strange, this time I didn't die?"

"What is this old man coming to, isn't that the young man who has blood?"

"It's terrible. I have died six times and I have been resurrected six times. Can a person not only have a drop of blood?"

"What does not destroy the blood, he must have broken the soul, but he is not resurrected with the soul."

"Even if you are lucky enough to condense the most advanced soul species, you can't just resurrect in an instant?"

Chapter 1585: Detoxification blood

The masters of the Baizu, ignorantly discussed in a whisper.

At this time, Ye Xuan suddenly grabbed the jade bottle and then put his finger into it.

"hiss!"

Everyone took a breath of cold air and they didn't react.

A good person, why should you commit suicide?

However, when they saw that Ye Xuan had nothing to do, it was even more dazed.

The soul is not destroyed, the bald old man is killed by the first time, and Ye Xuan is not dead, how can he not die?

Not only that, but Ye Xuan was still taking their poisonous eyes directly into their mouths under their gaze.

I have cut the grass!

Everyone was shocked.

"Well, this poison is useless to me." Ye Xuan said with a calm look.

The whole audience was silent.

Even the poisonous fog that the cat ancestors did not dare to touch was now swallowed by Ye Xuan. The bald old man seems to be immune too. What is going on?

Is it because of the blood?

"You really are not afraid?"

The cat ancestors could not believe it.

"Yes, there is no effect on me. Not only that, but my blood may also have some detoxification effects. However, it is recommended that the body not be destroyed under the triple environment." Ye Xuan said slowly.

"I still have a little poisonous fog here. Who wants to come out and try?" asked the cat ancestors.

The entire beast hall was silent for a few seconds.

Finally, Hu Song stood behind Ye Xuan and said: "The city owner, let me try it. I happen to be the soul of the immortal, there is still a soul."

There are soul species, even if there is an accident, it will be fine, you can also resurrect with the soul.

This Husong stood up at this time, in order to repay Ye Xuan's kindness to save the Fox family.

Of course, the two are not equal.

Ye Xuan said nothing, the scene loaded a blood bottle to Hu Song, the cat ancestors also lost the poison fog bottle.

Hu Song holds a jade bottle with poisonous mist, and holds the blood bottle of Ye Xuan in one hand. After sinking for three seconds, he first drank Ye Xuan's blood bottle.

Then he reached into the poison bottle.

Although the soul of the soul is not destroyed, although it will be poisoned, but the poisonous fog is less, it is not afraid.

One second, two seconds, two seconds...

The beast hall was quiet for a few more seconds, but Hu Song did not have any difference.

"Sure enough, it seems that we have saved this time!" Hu Yingbo widened his eyes and was excited.

"No hurry, try how long my blood can be immune." Ye Xuan suddenly reminded me.

He can immunize the poisonous fog, but Hu Song does not have the blood of death, so he estimates that the blood can only temporarily retain Hu Song.

Once the blood effect is gone, Hu Song will still be poisoned.

Five minutes later, Hu Song was a brow, and quickly reached out, then quickly took over the blood bottle handed by Ye Xuan and drank it.

"A blood bottle, about five minutes, this is enough!"

Hu Yingbo is satisfied with the nod.

Although they are all old monsters who have lived for thousands of years, Hu Yingbo has lived for tens of thousands of years, but if it is in battle, five minutes is too long for them.

"If this is the case, then I will get the bleeding bottle in large quantities. If you don't fear the poisonous fog, then you can fight the five poison gods." Ye Xuan said.

When I heard this, hundreds of people showed a smile. If they were hard-headed, they were not afraid of the five poison gods.

"This card, we can not directly expose, we must make a plan, once exposed, we must play a five poison **** to be caught off guard, and annihilate all five poisonous beasts!" Xiong Wang said.

"Not bad."

Niuhuang nodded and said: "The major families report all the masters of the souls that do not destroy the triple world. We will make a plan. This time we must not only eliminate the five poisonous beasts, but also directly into the five poisonous environments, giving five poisons. God teaches a lesson."

At the moment, the Baizu is beginning to get busy. As for Ye Xuan, it is busy with blood bottles.

"Little brother, you have helped us a lot this time. If it weren't for you, we are afraid that we can't do anything about it. We can only sit still. What do you need, even though you tell me." Hu Yingbo came forward and pointed at the leaf. Xuan said.

Ye Xuan naturally will not let this good opportunity, directly replied: "I can also join this battle, but I need a lot of heaven and earth treasures, ore, Tongtian beast body can also."

"Ore, I am a lot of bulls." Niu Huangdao.

"My violent bear family has a big appetite. There are a lot of corpses in the sky. If this battle can win, we will not be a problem for one year." Xiong Wang answered.

So, Ye Xuan is certainly satisfied!

At this time, he is already in a state of incompetence. It is estimated that this time he can directly break through to the incarnation of the body, even the soul is not destroyed.

Don't say five poisonous beasts at the time, even the five poison gods will kill you!

In the next few days, Ye Xuan continued to bleed and directly loaded hundreds of thousands of blood bottles.

As for his remuneration, he was also sent on the fourth day.

At this time, in a palace of the Fox family.

"So many detoxification blood bottles, drinking enough to drink for a year." Hu Yingbo could not help but say.

"If it is not enough, I can reload it." Ye Xuandao.

"No, every day, every day, many people will die. We have planned to act tomorrow."

Hu Yingbo shook his head and said, handed Ye Xuan a ring.

Here is the reward of Ye Xuan. If it is all converted into a heavenly treasure, it is enough to create a few souls that are not destroyed.

Ye Xuan took a look at the Qiankun ring, his mouth slightly tilted, and then said: "I don't know what your plan is?"

"The five five poisonous beasts, four of which were solved by our foxes, bears, cows, and cats, and the last one was annihilated by other families," Hu Yingbo said.

The five poisonous beasts are comparable to the masters of the four souls of the soul, but there must be five masters of poisonous gods beside them, so it is not so simple to succeed.

"In this case, I will go with the Fox people at the time, the things that have fallen, and then solve the five poison gods." Ye Xuandao.

There are still half a year to go, and it is estimated that it takes only a few days to solve these five poisonous beasts. This time is still waiting.

Then, Hu Yingbo brought the detoxification blood bottles of Ye Xuan back to the city of the beasts and distributed them.

There are more than 70 people who want to go to the front line to fight. This is what the Bai people have come together. At least they are the three spheres of soul immortality. Among them, ten souls do not die.

In addition, the soul ancestors of the five souls of the soul are also among them. As for the two lords of Xiong Wang and Niu Huang, they are left in the city of the beasts because they suspect that there are still many people in the five poison gods. In the animal domain.

Today, among the three major cities of the Beast City, although the strength of the cat ancestor is not the strongest, her speed is the fastest. She is personally dispatched this time, and she is afraid of a change.

Chapter 1586: Fifth ring mission

During this time, the territory of the Beasts was swallowed a lot, and people were dying all the time. The poisonous mist was expanding all the time, so it could not be dragged down.

Before the action, all the people of the Baizu migrated to the city of the beasts. One was afraid that the five poisonous gods would launch the attack again, and the other was to guard the city of the beasts. So many ethnic groups gathered together, even if the five poison gods were sent out. But why not the city of the beasts.

Soon, it was a day.

This time, the Fox people have dispatched ten souls to immortality, and Hu Yingbo's three masters of immortality.

As for Ye Xuan, it is mixed among the foxes.

"This transmission will be transmitted to the place on the day. Originally it was our site. Now it is encroached by the five poison gods, so it is necessary to be careful when it goes deep into the enemy."

Before the transfer, Hu Yingbo said to everyone.

The five poison gods will not think of it, they will send it directly to the area with toxic fog, even if the transmission array is discovered, it will be fine.

However, in order to prevent accidents, the old man first explores the road.

This time, the tree turned old for a long time, and found that there was no ambush before the voice returned: "Young master, everything is normal."

"There is no ambush over there, everyone can prepare."

Ye Xuan said to other people.

"it is good!"

Hu Yingbo and others nodded, and then they took out the poisonous blood bottle and drank it directly.

There are poisonous mists at the footings, you must first take the detoxification blood bottle, otherwise it will be poisoned as soon as it is delivered.

"Hey!"

The transmission array began to run. After a few seconds, Ye Xuan and others were transferred to the site of the previous Beast.

It is safe to settle down. Because it is on the ground, the poisonous fog is rather thin.

"go!"

After landing, Hu Yingbo did not say anything and left.

The more poisonous the fog, the more concentrated it is. Fortunately, they take the poison bottle, otherwise they have to lick the floor.

Soon they came to the ground.

At this moment, the toxic fog is filled here, and the grass is not born, and there is no living thing.

"There are not many blood bottles, two people, the speed is fast, once the discovery, the signal is released immediately." Hu Yingbo said to other people.

The blood bottle they brought this time was only about half a month's consumption. After all, a blood bottle is only enough for one person to use for five minutes.

"Yes!"

Hu Song and other masters nodded, and immediately left two or two. As for the other two foxes, the high-level, because it is the same as Hu Yingbo, the soul is immortal, so it is a separate action.

As for Ye Xuan, there is no need to worry about it. If he gets a lot of rewards, he can already break through to the naked body.

At this moment, the serial random task finally triggered again.

"Hey, the fifth ring of the random task of the chain triggers, annihilating the five poison gods, annihilation requirements: killing the five lords of the five poison gods."

The system prompts.

This time, Ye Xuan is also a big luck. The previous random tasks are usually around the third ring. This time, it has already reached the fifth ring.

"It seems that there will be good things after completing this serial random task."

Ye Xuan's mouth is slightly tilted, I don't know, what reward will this be?

After the sound of the serial random task, Ye Xuan put his mind into the swallowing space. Before he got a lot of rewards, now, it is time to swallow.

"Hey, the host breaks through, and the current is the end of the body!"

"Hey, the spirit of the Ashes breaks through, and the current soul is immortal!"

"Hey, Megatron breaks through, and the current soul is immortal!"

"Hey, the ghosts of the great emperor break through, the current is the soul of the immortality!"

The four people broke through instantly, and the strength skyrocketed several times.

The old tree, the ghostly Emperor and Megatron can all single out a poisonous beast. If it is a joint effort, let alone the five poisonous beasts, even the five major teachers of the five poison gods are estimated to be unstoppable.

Not only that, the blade storm, the unicorn drop, the broken sky stream rock and other cards can be used.

The plan of the City of Beasts is to solve these five poisonous beasts first, but Ye Xuan's plan is to prepare the five poison gods to be uprooted.

"go!"

Under the order of Ye Xuan, Shu Lao and others directly spread out.

In general, the five poisonous beasts are on the edge of the poisonous fog, so they must move in the direction of the city of the beast.

Although Ye Xuan is only physically inseparable, his ability to detect is not worse than Hu Yingbo and others. No, his ability is stronger than Hu Yingbo.

"The eyes of Vientiane!"

Ye Xuan directly condensed the eyes of Vientiane, but this Vientiane eye was not found, because it is still in the poisonous fog.

As long as you find the edge, you can find the master of the five poison gods by looking along the edge.

While Ye Xuan was on the road, he used the eyes of Vientiane to investigate. When he used the third cross-over, he found the master of the five poison gods.

Here, he is about half a day away from him.

It turned out that the transmission was in the vicinity of the edge of the poisonous fog, but it was saved.

At the moment, Ye Xuan is quickly rushing over.

And the five poison gods masters discovered by Ye Xuan also noticed the eyes of Vientiane, and immediately it was cold and shouted: "How many times have you used the eyes of Vientiane, even if the deity is gone, it is useless. What is the effect of a single Vientiane eye?"

The master of this five poisonous gods is the triple body of the flesh and the invincible, directly defeating Ye Xuan's eyes of Vientiane.

What makes Ye Xuan helpless is that the eye of his space is very close, because it is just obtained soon, unless there is something like a cross-empty order, it is impossible to break through the void directly.

However, his distance across the air is already farther away than the space of the Fox Mountain Villa. After all, the realm is here.

Although Zhuang Fei has lived for a long time, it is only a matter of turning the wheel, and Ye Xuan is the body that is not dead.

Ye Xuan rushed all the way, and after half a day, he caught up with the five poison gods who were discovered before.

This level of people can be solved by himself, and there is no need to summon the tree.

Although the poisonous fog affects the field of vision, it also prevents the expansion of the mind, but Ye Xuan, who has an insightful eye, directly captures the other person's figure.

"The killings broke out!"

"Virtual Flame Sword!"

After Ye Xuan approached, it was a direct attack.

At the same time, this move also matches the eye of space.

"call out!"

"Hey!"

This soul does not destroy the three poisonous gods of the triple world. Only two sounds are heard, and then the head bursts open.

One of the sounds was the sound of his head exploding.

"Hey, the host's killing value is improved!"

A system prompts to sound, Ye Xuan's killing value has increased a lot.

The soul of this person was separated from the body, and then was solved by Ye Xuan's imaginary sword. The soul is shattered, unless there is a soul, it is really dead.

Chapter 1587: found it

In fact, there is an idea in Ye Xuan's mind that he wants to reach the upper limit of the killing value in the body.

However, he has reached many times. This time, the difficulty is not small. After all, there are not so many masters who are not immortal. So it depends on the situation. If it can be done, it is best, so he has seven points to swallow.

After completing the first kill, Ye Xuan turned his head and looked around.

Since there are people here, there should be other people around them. It is imperative to find the five poisonous beasts first.

However, before he could run a few steps, there was another system that prompted the sound to sound.

"Hey, the host's killing value is improved!"

It turned out that the old side of the tree also found the enemy, and then he was stolen and attacked.

The masters of the five poison gods will never think that the masters of the beasts will actually be killed from the poisonous fog area.

"Young master, I have no means of solving the soul."

"I am going to pass."

Ye Xuan should have a sentence, directly use the special positioning of the void, break open the void and come to the side of the old tree, then a sword and a flameless sword wave will solve the sorrowful soul, and then return to his post. .

However, the five poison gods masters of the tree sneak attack are only the soul of the immortal.

The masters sent by the beasts are at least the three spheres of soul immortality, and then the soul is immortal, and even the cat ancestors are dispatched.

However, the people of the five poison gods have a special way to immunize the poisonous fog, and they have also sent a master who has a soulless and a heavy world. After all, in the poisonous fog, they can fight against the masters of the beasts.

Unfortunately, this time their plan will fail.

Soon, there was news from the ghosts of the Emperor and Megatron, and then Ye Xuan broke the past and harvested the soul.

Then, Ye Xuan used the eyes of Vientiane to investigate.

About an hour later, he finally found a different figure.

"Found, five poisonous beasts!"

Ye Xuan's flash of light flashed, and immediately rushed in that direction.

There are several masters of five poison gods beside the five poisonous beasts, and there is also a super strong soul who does not destroy the four kingdoms. It is not so easy to solve it.

However, with the current strength of Ye Xuan and others, it is not a problem to kill all these people.

In less than half an hour, Ye Xuan captured the figure of the five poisonous beasts. At the same time, he also looked at the people around the five poisonous beasts.

In addition to the five poisonous beasts, there is also a soulless immortality, and five souls are immortal.

This strength is not weak, but for Ye Xuan, it is not a big deal.

At the moment, Ye Xuan directly broke the void and pulled the old three of the trees.

"Up, one does not stay!"

Ye Xuan said to the three.

As for him, he does not participate in the battle, but is on the outside.

The old three trees are the two souls of immortality. Their breath will be covered by poisonous fog, but after they are close, they are still captured by the enemy.

"It's just that the two souls are not dead, but how did they get into the poison fog zone?"

"Except for us, there are people who can be active in the poisonous fog area. It's a ghost."

"I am going to catch them!"

A master of the five poison gods shouted and rushed straight over.

Unfortunately, this person is hitting his own gun.

Just one face-to-face, it was directly killed by the tree, and then Ye Xuan in the distance smashed a few imaginary sword waves and wiped out his soul.

"on!"

The warrior who did not destroy the four kingdoms saw the situation, his face changed greatly, and he immediately screamed.

After the other four people paused, they all rushed toward the old three trees.

Can survive in the poisonous fog area, but also be able to kill opponents in level, this must be the people of the Beasts!

Although I don't know why I can survive in the poisonous fog area, I just need to grasp the other party and I will know it after interrogation.

However, the four souls can not stop the three old trees, only to contact, and then one of the second.

This time, the master of the soul is not dead, can not sit still, decided to personally dispatch.

Available at this time.

"call out!"

"call out!"

"call out!"

The sound of the road broke, and the master figured up and quickly avoided the invisible swords.

He turned his head and saw a young man plundering himself.

It is incredible that this young man is just a flesh and blood!

What happened to this world?

A child who is inseparable from the ninth place can survive in this poisonous fog area, and even dare to intercept him.

This is the more four realms!

"Your opponent is me!"

Ye Xuan said slowly.

"Not self-reliant!"

This soul does not destroy the four kings of the high-handed low drink, directly killing Ye Xuan.

What he cares about is why someone can survive in the poisonous fog area, just in front of a ready-made, and no faith, as long as they seize and force into a believer, then they know the secret of immune poisonous fog.

Unfortunately, Ye Xuan is not vegetarian.

Although the fourth level challenge is a little difficult, his task is only to drag the person for a second or two, not too difficult.

Originally, this master of the soul is immortal and thinks that he can squat down Ye Xuan in an instant, but then he knows that he is innocent.

Ye Xuan, is it really just that the flesh is not dead?

Even if you have the eye of space, in the case of a difference between the four realms, you should be spiked.

Soon, it was two seconds in the past, and the five poisonous gods masters in the distance who were in the three souls were all killed.

Upon seeing it, Ye Xuan suddenly flashed a glimmer of light and opened a door to the void in front of him.

"call out!"

"call out!"

"call out!"

The old three of the trees directly smashed out from the door of the void, and played against the strong man who did not destroy the soul.

"Damn!"

The master of the five poison gods screamed and looked at the distance.

In the distance, it is the place where the five poisonous beasts are located, but at this time the five poisonous beasts are not moving any more, as if they are falling asleep.

"Ok?"

Looking at the eyes of this master, Ye Xuan's brow was picked. The next moment, his heart was shaking.

This five poisonous beasts are not sleeping late, but ovulating.

"Where, if you let the five poisonous beasts multiply, you still have it?"

Ye Xuan was shocked.

At the sight of insight, he saw that there were several white eggs under the big **** of the five poisonous beasts.

In the egg, it is a poisonous little beast.

"It's a coincidence, you are sick, you want to die!"

Ye Xuan said nothing, directly turned around and rushed toward the five poisonous beasts.

"not good!"

The master of the five poison gods changed their face and just wanted to chase the past, but they were stopped by the old three trees.

Right now, he is not the time to worry about the five poisonous beasts, because under the siege of the old three trees, he was directly beaten without any help.

Chapter 1588: Returning to the five poisonous areas

Fortunately, the master of these five poison gods is not the general soul of the immortal, he has reached the peak, otherwise, I am afraid it has fallen.

However, even so, he can't last long.

Soon, Ye Xuan approached the five poisonous beasts and then attacked them without saying anything.

"Hey!" "Hey!" "Hey!"

A imaginary flameless sword wave plucked toward the eggs.

However, these five poisonous beasts will not watch their children die before they are born. The snake body turns and then blocks the attack of Ye Xuan with big pliers.

These five poisonous beasts are miscellaneous traffic beasts that combine cockroaches, snakes, crickets, crickets, and spiders. It is not so easy to deal with.

Unfortunately, Ye Xuan has another means.

"The pliers are quite hard, but can you stop this trick?"

Ye Xuan's flash of light flashed the eye of the space.

"Oh!"

A crisp sound spread, the area of the egg in the distance, directly tearing a space crack.

In an instant, the eggs of up to ten meters were directly cut off by the waist, and the upper part fell into the cracks in the space. I didn't know where to go.

"hiss!"

When the five poisonous beasts saw that their children had not been born, they all died, and they immediately roared in anger.

Unfortunately, it does not know what is the eye of space, nor does it know to hide.

"Look at me and divide your five horses!"

Ye Xuan's eyes widened, and the cold mangles continued to flash, constantly applying the eye of space.

"Oh!"

"Oh!"

"Oh!"

The road was crisp and loud, and the five poisonous beasts were directly dismembered, but they were still dead.

Due to realm problems, Ye Xuan could not see through these five poisonous beasts, but he knew that there should be a key point in the body of these five poisonous animals.

"found it!"

Ye Xuan swept the eye of the insight and finally discovered the key to the five poisonous beasts. It was a purple-black five poison beads.

This five poison beads have just appeared, they are directly broken into two halves by a space crack, and the other half are also missing.

"Hey, the host's killing value is improved!"

A system prompts the sound to prove that the five poisonous beasts are dead.

There is still a difference between the immortalized beasts and the human beings, and the beasts of the immortality of the flesh.

If you are not dead, you can use the inexhaustible blood to restore the body. Once you die, the soul will dissipate immediately.

Even if the soul is not extinct, the soul is broken, so Ye Xuan does not need to start, the increase of the soul of the elegy directly increases.

The only remaining masters of the five poison gods saw the five poisonous beasts falling, and they could see their eyes coming out.

Every five poisonous beasts are bred by millions of sacrifices and countless heavenly treasures. Now they are so dead?

He is very angry, but there is no way at all.

Instead, he himself has to fall.

"Who are you?"

This soul does not destroy the four poisonous gods of the four kingdoms, is to think of where Ye Xuan and others come from.

Unfortunately, Ye Xuan is not prepared to answer this question.

Three seconds later, he was smashed by a sneaky emperor to a sword, and then the old tree was blasted, and Ye Xuan smothered the soul.

There are only five poisonous beasts, only four.

"The five poisonous beasts will even lay eggs. Those little poisonous beasts will certainly spread the poisonous fog, but this time even the cat ancestors have been dispatched. The other four poisonous beasts should not be afraid..."

Ye Xuan thought in his heart, that is, directly broke the air and returned to the transmission array on that day.

His plan is to kill a five poisonous beast first, and then directly into the five poisonous territory, this time his goal is the spider's door.

The Beast Domain is responsible for resisting the five poisonous beasts and preventing the poisonous mist from spreading. As for Ye Xuan, it is deep into the enemy's abdomen and is ready to uproot the enemy.

Soon, he returned to the five poisonous places.

Last time, he was chased and killed from the five poisonous places.

This time, he came to take revenge.

There are only five sects in the five poisonous places, that is, Jin Yuzong, Tianjiamen, Qianzu, Cthulhu, and Snake Shadow Temple. In addition, there are some families at most. However, there are many divisions of these five sects. There is a division of evil spirits at the edge of the five poisons.

At the moment, Ye Xuan rushed over.

Along the way, he encountered a lot of masters who wanted to enter the world of beasts, but without exception he was killed.

Soon, Ye Xuan arrived at this cult.

"One is not left, kill!"

Ye Xuan summoned the old three trees.

This cult is divided into two parts: the soul is not destroyed, and even the old fist of the tree can not stop, naturally it is to withstand the disaster.

At this time, Ye Xuan is in a state of inconsistency. He wants to reach the upper limit of the killing value in this realm. After several exchanges of swallowing points, the maximum value of killing is not so easy to achieve, not to kill, it is unlikely.

Suddenly, this cult of gods and gods set off a violent storm. Without a minute, all the people in the door would die.

Ye Xuan not only got a lot of killing value, but also the increase of many soul elegy.

The last time I used the death gaze twice, the increase of the soul elegy directly dropped to 40%, but now, it is estimated that it can be quickly replenished.

After destroying this cult of cult, Ye Xuan quickly left, and they were divided into three roads. In less than half a day, they found another door.

This time, it is the division of Jin Yuzong.

This Jinzong Zong division is almost the same as the previous evil gods. It took a minute to be annihilated by Ye Xuan.

Although they only have four people, one of them is still a tool of heaven, but the skills of the Ghost Emperor are too strong.

Now the sneaky emperor is the soul of the immortal, and all the dead who are lower than him will be resurrected by his will to die.

Kill one, the enemy will be one less, and one more person.

This ability is really horrible!

Then, Ye Xuan left quickly.

This time, he is going to stroll the entire five poisonous scenes, destroy all the divisions, and finally uproot the five poisonous gods.

The masters of the Beasts have a half-month detoxification blood bottle in the ring, but as long as the five poisonous beasts are killed, the poisonous fog can be dispelled by them, so Ye Xuan is not worried.

At this point, he is already in front of a transmission array.

In just two days, Ye Xuan has annihilated the five divisions of the five poison gods. It is almost speedy.

The nearby gates were resolved, so he had to send away to find the next target.

However, just as he was preparing to enter the transfer palace.

"Hey!"

The transmission array suddenly went up.

This is, someone sent it over.

Upon seeing, Ye Xuan and others immediately raised the spirit of 120,000 points. Ninety-nine percent of the people who sent it were the five poison gods.

After a few seconds, the transmission array stopped.

In the white fog, there have been many figures, and three of them are even more surprising.

Chapter 1589: Kill five

"The trough, the five poisonous beasts?"

Ye Xuan was shocked.

This time, there were five poisonous beasts, and there were still three.

In addition, there are many masters of five poison gods next to the five poisonous beasts.

The three souls do not destroy the four kingdoms, more than a dozen souls do not destroy the triple world, and hundreds of souls do not die one or two.

Even if the cat ancestors are here, I am afraid I have to be cautious.

However, Ye Xuan is not afraid.

Three five poisonous beasts, three souls do not destroy the four realms, which for him, but a lot of killing value and increase.

"Ghostly Emperor, do not destroy the soul!"

"Megatron, Bladestorm!"

"Killing feast!"

Ye Xuan's reaction was extremely fast, and he just landed. His brain turned around and made a direct decision.

kill!

Not waiting for the people in the palace to react, the blood swords swarmed in.

"what?"

The three top players were shocked. They didn't expect anyone to ambush them at the landing point. What is the situation?

Almost instantaneously, there are only a few living people left in the transmission and transmission palace. Except for the three masters who are immortal and the five poisonous beasts, there are only a few souls that are less powerful and strong.

As for the rest, all of them were pierced in the head when the first wave of blood swords hit.

Hundreds of wandering souls piled up in the transfer palace.

After the invincible battle and the killing feast, the blade storm power is incomparably powerful. After two rounds, only the three poisonous beasts are left.

This time, even the three masters of the four souls are dead. If the three five poisonous beasts are powerful, I am afraid they will die in this wave.

However, they definitely can't support the third round!

"Calling!"

After the blood swords swept through, the three poisonous beasts also fell directly.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

Then, Ye Xuan quickly swept into the transfer palace, captured the soul of the soul with the eyes of insight, and then separated, constantly attacking with the flameless sword wave.

This time, he also made a big profit.

Soon, the souls of the transfer palace were all cleared up, turning into the increase of the soul's elegy.

At this time, the increase in the elegy of the soul has also increased to 49%, almost five.

"This time, the five poison gods are sure to be badly hurt."

Ye Xuan's mouth tilted slightly, and he glanced at the property panel and found that the killing value had reached four-fifths.

Killing can get the value of killing, but don't forget, this is not the only way to obtain the value of killing. It is also possible to devour the weapons that have been killed.

Even sometimes, the killing value of killing weapons is more than the number of people.

"Go, send!"

Ye Xuan's mouth tilted slightly, and then let the tree grow first, and he only followed after confirming the environment around the foot.

Originally, Ye Xuan thought that the five poison gods only cultivated five five poisonous beasts. I did not expect three more, and there may be.

It seems that the Church of the Five Poisonous Gods launched a general attack on the Beasts in the near future.

As a result, the masters of the five poison gods may not have as much leisurely, which is a golden opportunity for Ye Xuan!

However, before going to the five poison gods, Ye Xuan had to raise the killing value to the upper limit.

In the next three days, he was deliberately degraded in the five poisonous scenes. Even after nearly ten divisions, the five poison gods suffered heavy losses.

After three days, the cooling time of the Bladestorm was restored, and at the same time, the killing value finally reached the upper limit again.

"Hey, the host's killing value has reached the upper limit, is it converted into a swallowing point?"

"Yes!"

"Oh, the kill value is cleared, the host gets a little swallow!"

Now, Ye Xuan already has seven points to swallow, and two more points can be used to fuse the two battles.

In fact, he can now recycle some skills, but he is not in a hurry now, and the skills of the old and the ghosts are useful, there is no need to recycle, in case it will be useful in the future?

After the killing value reached the upper limit, Ye Xuan killed so many people and collected enough things for him to break through.

"Hey, the host breaks through, and the current soul is immortal!"

"Hey, the spirit of the ashes breaks through, and the current is the soul of immortality!"

"Hey, Megatron breaks through, and now the soul is immortal!"

"Hey, the ghosts of the great emperor break through, the current is the soul of immortality!"

A systematic reminder sounds.

Now, Ye Xuan has enough strength to run rampant in the five poisonous situations.

"Five poison gods, be prepared to die!" Ye Xuan flashed, and then directly used the transmission array.

This time, he did not need to let the tree go to the road. Even if the five lords of the five poison gods were transmitting another one, he was not afraid.

"Hey!"

The transmission array began to operate, and after a few seconds, Ye Xuan arrived at the foothold.

This transmission array is sent to the vicinity of the five poison gods. Ye Xuan estimates the next journey. About one day, he can reach the five poison gods.

Although the blade storm has been used, but with his current strength, it is not a big deal to directly enter the five poison gods.

At the moment, he is heading towards the headquarters of the Five Poisons.

The headquarters of the Five Poisonous Church is similar to the City of Beasts in the Beasts. It consists of Jin Zongzong, Tianjiamen, Qianzu, Cthulhu and Snake Shadow Temple. The five major lords also live in it.

This time, Ye Xuan triggered the fifth ring task of the serial random task. The only thing to do is to kill the five teachers. But if someone is not in the five poison gods, then it will be troublesome.

"I hope that all five of you are there, so you can be beaten by me!"

On the way, Ye Xuan could not help but think.

Soon, it was a day and a half. After this time, Ye Xuan finally came to the five poison gods.

At this point, Ye Xuan is hiding his breath and hiding it.

There are five entrances to the headquarters of the five poison gods. There are one each of the Tianjiamen, Jinzongzong, the Snake Shadow Temple, the evil spirits and the Qianzu School. In fact, the headquarters of the five forces are combined.

However, at this time, the headquarters of the five poison gods, the gates were confined, no one went out, and no one went in.

A strange atmosphere spreads.

"Somewhat strange..."

Ye Xuan's eyes were swept away by the eye of insight, but because of the distance, and the protection of the five poison gods in the field, he could not see it.

In fact, Ye Xuan had already arrived at the Five Poison Gods half a day before. He had visited the five poison gods all over again. He found that the five gates were closed, and the three old trees guarded the three, but did not find any One person goes out.

It's tricky!

"Is it true that these five poison gods are still offering sacrifices, and are cultivating those five poisonous beasts?"

Chapter 1590: Five poison gods

"Is it true that these five poison gods are still offering sacrifices, and are cultivating those five poisonous beasts?"

Ye Xuan's brow was picked up, and his heart suddenly flashed such an idea.

Not waiting for him to continue to think about it, suddenly, the door in front of the door suddenly opened.

This side is the door to the evil spirits.

"Boom!"

The door was wide open, and then a group of warriors came out of it. The realm was not low. At least the souls were not destroyed, and the strong ones were the souls.

In addition, there are three five poisonous beasts!

"really!"

Upon seeing it, Ye Xuan believes that his guess is not wrong. These five poisonous gods are really cultivating five poisonous beasts, and then sent them to the beasts to speed up the spread of poisonous mist.

If there is no change in the blood of Ye Xuan that can detoxify, the five five poisonous beasts are actually enough to level the entire beast.

Ye Xuan, the masters of the Beasts field, stunned the snake, and the news passed back to the five poison gods, so the five poison gods continued to send five poisonous beasts to join the battle.

Since this is the case, then Ye Xuan will let them fold halfway.

This team is almost the same as the team that sent the palace before. There are three souls that are immortal.

If there is a strong soul next to each of the five poisonous beasts, then there will be eleven.

The strength of the five poison gods is actually similar to the city of the beasts, so Ye Xuan estimates that there should not be many masters in the five poison gods.

But now, Ye Xuan is ready to solve the problem by first rushing the batch to the front line.

If it is before, in the absence of strength, Ye Xuan will naturally choose to wait for the other party to go far after the start, but now he has the strength, there is no need.

Just one word, dry!

At the moment, he summoned the old three of the trees and killed them directly.

"who?"

The master who walked in front of the team found a strange breath and immediately screamed.

At this time, they are under the city wall, the door is not closed, so what Ye Xuan has to do is to prevent them from closing the door, otherwise they will have to forcibly break.

Fortunately, the speed of the tree that broke through to the three spheres of immortality was so fast that it flew up quickly and went straight into the enemy.

After feeling this unfamiliar atmosphere in the team, this group of masters immediately raised the spirit of 120,000 points. Many people did not want to attack.

"Hey!" "Hey!" "Hey!"

Countless broken sounds sounded.

In the face of these attacks, the old tree did not care, and directly applied a skill.

Fire cover!

The blaze is a very practical skill. Now the tree breaks through to the soul and the eternal defense. The defensive ability of the blaze is very strong.

The attacks of dozens of people around them were all absorbed by the fire hood, and then the fire hood was bursting open.

"Hey!"

The fire hood exploded, and all the people beside the tree were shaken and broken, and their heads burst.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

A systematic system sounds in the mind of Ye Xuan.

This blow directly caused the death of more than 200 people. Of course, the vast majority of the two hundred people's realm is the soul of the immortality and the heavy environment. The soul that was killed is not dead, there is only one.

"Oh, my good luck!"

At this time, Ye Xuan recalled that not only did these people die, but even the Qiang Kun ring was blown up.

However, the power of the fire hood is huge, the city wall is directly blown up and collapsed, and the gate can no longer be closed.

Taking advantage of this opportunity, the sneaky ghosts and screams of the ghosts and screams rushed a few times, turning all the dead who were lower than him into his corpse.

In an instant, almost two hundred people who died before, almost all of them were resurrected, except that the soul is not dead.

However, this resurrected person has no effect, because the strength of Shu Lao and others has been different.

At this time, Ghost Emperor and Megatron just arrived, and then killed.

The five poisonous gods of the four souls of the immortal soul are comparable to the five poisonous beasts whose souls are immortal, adding up to a total of six.

However, under the siege of the Ghost Emperor and the Tree and others, there are no five rounds. The fighting power of these six souls is not all dead.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

Ye Xuan got a lot of killing value, and the increase of the soul of the elegy.

After this period of killing, the increase of the soul of the elegy has reached 55 percent, which is not bad.

Last time, in order to kill the poisonous spider, Ye Xuan let the ghost Emperor use the death gaze twice, consuming 10% of the increase. At that time, Ye Xuan was distressed for a long time. Now he thought, if it is not a critical moment, don't Use this death gaze.

Then, Ye Xuan collected the spoils and repaired them and quickly swept them in.

Although the movement here is not big, but so many breaths have not left the five poison gods on the news, the five poison gods can not be found.

At this moment, Ye Xuan has already entered the five poison gods. With his extraordinary knowledge, he found that there are not many people in the five poison gods, and he can describe them with few.

However, in the distant sky, there is a strange energy rising.

"go!"

Ye Xuan said nothing, rushing directly to the center.

Along the way, there are some masters of the five poison gods, but they are both one and two. They have not yet reacted, and they have been solved by the tree and the ghosts.

The five poisonous disciples who are incompetent in the physical form, Ye Xuan did not see one.

"It's hard to be..."

Suddenly, Ye Xuan's mind flashed an idea.

Although the five poison gods are the hegemony of the five poisonous places, there should be a lot of geniuses in the majesty. How can there be no one who is physically indestructible?

Are these disciples also treated as sacrifices?

If this is the case, then the five poison gods are too ferocious.

Soon, Ye Xuan was close to the rising energy. With the eye of insight, he looked around and saw a black light column rising from the sky.

When Yaxuan was vacated, he jumped into high school and saw it.

The next moment, he was shocked!

Outside the altar next to the black light column is a huge pit with numerous bodies stacked inside. There are a large number of sacrifices standing outside the crater, among them the people wearing the costumes of the five poison gods.

They stood around the crater and stood at the designated place, then the soul suddenly separated and absorbed by the black beam.

As for their bodies, they were pushed into the crater by the elders of the five poison gods beside the giant pit.

At the same time, there are still some big figures in this huge pit to swim, they are a corpse for food, and each time they eat a certain amount of corpses, they will grow.

These big figures are the five poisonous beasts!
