Chapter 165: Act alone

"Okay, you should be careful." Zhao Pan returned a sentence, which was to destroy two identity tokens, so that even people in the same camp could not sense him.

Ye Xuan nodded silently, and then quickly swept out.

After the two people settled in Zhaopan, the big stone that hangs in his heart is suddenly falling. Now, he can play it all out!

At the moment, he is rushing toward the front.

Keep the stone tower?

What a joke!

His plan is to cross the river and then take the stone tower of the other side.

.....

The strength of the Datang Dynasty and the Da Zhou Dynasty was similar. The original four dynasties could be sent directly to Lingxiao House without going through the assessment.

But starting this year, they have to participate.

On the side of the Tang Dynasty, there is Tang Tian, a real Xuanjing, and the other two are also the true peaks.

The Zhou Dynasty of the Great Zhou Dynasty was also a real Xuanjing, and it also brought two geniuses of the true peaks.

Therefore, the peak strength of the camps of the two sides is not much different.

Ye Xuan feels that as long as he does not encounter Tang Tian and Zhou Chao, it is still not a problem.

If you come across, Ye Xuan is not sure to defeat the other side. After all, they are all princes of the dynasty. What they have learned, I am afraid that they are all martial arts martial arts, and maybe there will be a good spirit.

After leaving, Ye Xuan went all the way to the big river. It took him five hours to see the big river.

In this way, at his speed, about five hours, you can run from one entrance to the other. Of course, this is at his speed. If other people are afraid, it will take a day or two.

Ye Xuan came to the big river.

"That Lin Zhirong and the two followers, the body adds up to four thousand under the spar, it is estimated that less than one tenth of the upgrade experience, I want to break through again, I must kill the other camp."

Ye Xuan looked at this calm river, and said in his heart.

Although the Zhongpin Ling can sell a lot of spar, but the engulfing points only gave 50,000 swallowing points, which is equivalent to five hundred underlying spar. Yuanshui can't save the fire, so Ye Xuanyuan is far away and directly swallowed up.

As for other things, including the Qiankun Ring, they are all swallowed up by Ye Xuan, adding up to about 4,000 assorted spars.

After the breakthrough, the experience value has increased exponentially, so Ye Xuan must find a way to upgrade, no doubt, crossing the river is a good choice.

"Ok?"

Just then, under the calm river, there was a sudden bang, and Ye Xuan's light was condensed, and it was discovered that there was a beast under the big river.

Just don't know, what level of beast!

"The assessment is not so simple. I don't know what level of the beast. If it is a real thing, I am afraid that not everyone can cross the river..."

Ye Xuan thought in his mind that in the water, the combat power of the warrior is greatly reduced, and I am afraid that it will be challenged by the beast.

He estimated that an underwater beast in the early days of a true Yuan may be able to kill a genius in the middle of the real world.

However, he is not an ordinary person.

"The true beast of the real thing, the body plus the inner Dan, the value is also more than a thousand under the spar, I will try it first."

Ye Xuan's thoughts were moved to the middle level when he helped him escape the birth of the fish in Heishuishan.

With this blood, the speed of Ye Xuan's launch will only be slower than on land.

"噗通!"

Ye Xuan did not take off his clothes, jumped directly into the big river, and then quickly dive.

The river is very deep, at least a few hundred meters, and the more it goes down, the darker it is. In desperation, Ye Xuan can only use the real yuan to illuminate the surrounding water.

"Hey."

Ye Xuan, who has already condensed into a sharp-edged fish with real yuan, walked around in the fast water. Within a few minutes, he really found a beast, a huge octopus, at least as big as a hot air balloon.

"Grandma's, scared me, you don't know if I have deep sea phobia?" Ye Xuan screamed in his heart and suddenly came out.

Zhongpin Spirit level martial arts, floating butcher!

A huge energy palm broke directly out of the water and instantly slammed into the head of the big octopus.

"boom!"

The real element suddenly burst open, and the big octopus was directly bombarded and poured backwards.

Taking advantage of this opportunity, Ye Xuan swam quickly.

"Spiritual martial arts, a word of glory!"

Ye Xuan took out the cold sword and smashed the big octopus.

Now his score has reached 1.5 million, and the lowest level of martial arts, the highest is 30,000 engulf points, he wants to learn.

A long white light flashed, and the big octopus was directly cut into two halves.

Then, Ye Xuan quickly swept the past, hands on two bodies and swallowed them.

"Hey, the host swallowed a body of a beast and gained 10,000 engulfing points."

"Hey, the host has swallowed up a spiritual beast and won 100,000 points."

"Sure enough, it is the beast of the early Yuan dynasty, but it is also good to see if there is a spirit beast in the middle of the real world."

At the moment, Ye Xuan is beginning to wander around, an underwater spirit beast in the early days of the real Yuan. Although the experience value is not high, if it comes to dozens, it is also excellent.

But he was disappointed. He spent a few hours swimming this big river, but he only found fifteen soul beasts in the early days of the real world, big sharks, big crabs, and big jellyfish.

However, the fifteen beasts in the early days of the true Yuanjing, Ye Xuan swallowed thirteen, leaving two inner Dan, ready to give Zhao Pan and Jiang Xian.

If it is added before, his swallowing points have already reached 3 million, enough to raise the blood of the chasing leopard and the blood of the flower to the advanced level.

It is a pity that his realm is not enough. If it is forced to merge, then the realm will fall, and if it is forced to die, he will not try it easily.

"I didn't expect the experience value to be less than half, hehe."

In the water, Ye Xuan shook his head helplessly.

It took him a long time to look for it, and the harvest was just that. He knew that it was directly killing the opposite side, so the harvest might be more.

However, at this moment, he suddenly felt that something was wrong.

"There is something big!"

After the blood of the beast was raised to the intermediate level, Ye Xuan could blur the surrounding beast and beast. He felt that there was a big guy swimming towards him.

"It seems to be a beast in the middle of the real world. Come here!"

Ye Xuan's eyes suddenly brightened, and suddenly he made a few snipers in one direction.

The sniper that the real yuan took out broke through the distance of hundreds of meters. When it was about to disappear, it suddenly illuminated a giant behemoth.

"Great, I am afraid it is bigger than that octopus!"

Ye Xuan couldn't help but shudder, and after making a preparation in his heart, he plundered.

As he progressed, he attacked and finally recognized the beast.

It was a big turtle!

One, a turtle bigger than the plane!
