

Super D. S 1651

Chapter 1651: Five holy orders

"Since it doesn't work, then I will use the five Lords to order him."

Ye Xuan suddenly took out five pieces of the Holy Order, one of which was the Holy Order of the Holy Land of Penglai.

The five Holy Orders, even the Lord of the Holy Land of the Great Holy Land, will be heart-warming.

After all, if someone wants to rob a robbery in the future, you can refine the Holy Order of the Holy Land. In this case, you can improve your success rate.

Ye Xuan has 80% confidence that he can use the five holy masters to lead the time-space island owner. When he suddenly attacks, he may give the time-space island owner a spike.

"Five Holy Orders..."

If you want to swallow the mouth, if you add the three sacred orders of evil yang, blood, and bones, then it is eight.

With this in mind, the time-space island owner is really likely to come out, because the island of time and space is too small, even one-fifth of the Penglai Holy Land is not there, and his own spiritual knowledge can be covered.

"If that's the case, then try it."

Nodded and nodded.

If it is possible to get rid of the big problem of the time-space island owner, it is still good. If the time-space island owner succeeds in robbing and becomes a three-robbery sinister, then he can also be devastated in the Great Holy Land, and the threat is too great.

"If you can get rid of this time and space island owner, Tiancai Dibao is definitely not less."

"Okay, then I will try."

Ye Xuan nodded, then looked at the map of the sea, determined the location of the island of time and space, and then acted quickly.

This time his plan is to use the five holy masters to lead out the time-space island owners, and then the old three of them.

The old tree and the sneaky emperor will suffer the punishment of heaven every time they attack, but don't forget that Megatron will not be punished. As long as the island of time and space comes out, Megatron can directly use the blade of the storm. Die him.

Since the island of time and space and other holy sites did not build a transmission array, Ye Xuan had to hurry.

He first sent to a holy land and then flew in the sea. After about a day and a half at full speed, he finally saw the island of time and space.

Although the island of time and space is small, it can be regarded as a holy place. When the island owner is nearly two robbers and peaks, his spiritual knowledge is enough to cover the entire island. If Ye Xuan stepped in, I am afraid he will be directly attacked by him.

However, Ye Xuan is not afraid, because the island of time and space is so small, it is close to hands, and the attack distance is very small.

Ye Xuan is directly close to the island of time and space, and then violently said: "Time is near, come out!"

The sound is deafening enough to spread throughout the island of time and space.

There are not many people living on the island of time and space. They are all people of the time. They hear people calling the names of their ancestors, and some people immediately swept them out.

"A good and powerful atmosphere, is it the second robbery?"

At the time, several of the fascinating brows of the family were picking up, and those who wanted to start the work were also trembled.

Two robbers, this is only the great holy land!

Is it difficult to be a holy place of life?

Just as they were surprised, a middle-aged man plunged into the sky and then everyone retreated.

Come, it is the island of the island of time and space, when it is near.

"who are you?"

When I saw Ye Xuan's face very strange, I couldn't help but ask curiously.

"Don't care who I am, I just want to know, do you want this stuff?"

After Ye Xuan finished, he took out five holy masters directly from the swallowing space.

After seeing the five holy masters, the eyes of the near and other people are about to come out.

"Heaven, it is a holy command, and it is still five!"

"What is going on here, how can this person have five holy orders?"

"How come it is possible to come up with five holy orders, this must be fake!"

Everyone at the time of the family expressed doubts. After all, this is really shocking.

However, the Holy Order is unique among the heavens and the earth. It can be clearly seen in the near future that these five Lords are indeed true.

It is unlikely that five holy commands will be placed on one person.

"Who are you?" I couldn't help but ask.

"I said, you don't care who I am. If you want these five holy orders, come with me!"

After Ye Xuan finished, he turned and left.

When I was close to my eyes, Ye Xuan's lure was too obvious. However, the five holy masters were indeed true. If he got it, he would not have to huddle on the island of time and space in the future. Action between holy places.

After hesitating for a moment, he decided to keep up.

On the island of time and space, he can use the Holy Order, but when he is outside, he can't do it.

The island of time and space is surrounded by the sea, and even if someone is ambushing, he is not afraid.

He is the emperor of the second sister's peak. Without the use of the Holy Order, even if there are three robbers who sacrificed themselves to attack him, they may not be successful.

I would like to ask, which of the three robbers dare to do this?

After all, he had only killed an elder child before, and he did not end up indefinitely.

Thinking of this, he just followed and looked at what Ye Xuan wanted to play.

When Ye Xuan saw it in the front, he couldn't help but slightly tilt his mouth. The first step of his plan has been reached. As long as he gets away from the island of time and space, he can directly shoot.

After Ye Xuan rushed for half a minute, he finally stopped.

"What do you want to do?"

When I looked at Ye Xuan, I asked strangely.

However, the next moment, Ye Xuan's action is to make him feel awkward.

Ye Xuan actually threw five pieces of the Holy Lord in his hand and threw it to him piece by piece.

"what?"

It was shocked at the time. This is the five holy masters. So just give it casually?

He took the first piece of the Lord's Order and saw it, it really is true!

Then, it is the second and third!

However, when he reached the fourth block, his face suddenly changed, because he felt the two are no less than their breath.

Two robbers scattered Xianfeng!

Not waiting for him to see who it is, the other party will shoot.

"Kowloon Thunder Chain!"

"The grip of the Hades!"

Two extremely strong control skills, directly falling on the body, tied him to move.

The old tree and the sneaky emperor are in a good position. Although these two skills have no room to rip, they are still punished by heaven.

Fortunately, Tiandao punishment is strong and weak, so neither the old tree nor the ghostly emperor is directly obliterated.

"Haha, you are dead!"

The old man opened his mouth and smiled, then directly zoomed in.

Kowloon Xiaotian hit!

At the same time, Megatron also used the big move directly.

Bladestorm!

Although he has already left the island of time and space, he can only defend and cannot attack.

However, in order to prevent it, Ye Xuan is the bottom of the card.

At the time, he has the eye of space, but he can't leave now. Once he is shot, he will be punished by heaven.

Unfortunately, he is still a slow step.

Chapter 1652: Holy land of life

Not to mention the blade storm, the single screaming in the sky, has already blasted the body near this time, leaving only one head.

Then, the blade storm quickly swept past and poked the head of the time into a sieve.

"Hey, death after the thunder!"

"Hey, the thunderstorm is resurrected!"

"Hey, the host's killing value is improved!"

A series of three system prompts to sound.

When the time and space of the island is near, it will fall!

At the moment, Ye Xuan quickly swept the past and took the place of the time and space of the island's lord, and directly reorganized the piece of the Holy Order.

However, the most important thing is that the eyes of the time and space of the island and the eyes of the space were finally obtained by him.

"Hey, the host has swallowed the eyes of a time!"

The system prompts.

This time the island owner gave his son a time of eye, but was taken away by Ye Xuan, and now Ye Xuan got another one, and finally got it.

In an instant, he saw that the planting space changed again, and the adjustment of the space velocity was not increased by twenty times, but by thirty times.

One day in the planting space, equivalent to one month outside, it is simply a friend.

"It's the eye of time..."

Ye Xuan's eyes glimpsed and the flow rate increased by a factor of three, which is not very effective for him, but for others, it is an artifact.

The most important thing is that the fall has the blood of the sky, the ability to absorb the heavens and the earth, and cultivate for thirty days, which is equivalent to others practicing for several years.

With the cooperation of the two, the speed of cultivation is still afraid of failing to keep up with Ye Xuan?

Then, Ye Xuan took back the five previous Lords.

Now he is the lord of the Holy Land of the five holy places, plus the fallen holy land of Penglai, that is six.

At this time, Ye Xuan put the waywardness out of the planting space, and he was willing to be arrogant when he saw the near body.

Unexpectedly, Ye Xuan has succeeded!

"awesome."

The waywardness does not know what words to use to describe the mood at this time.

After he paused, he said: "Now you are the lord of the Holy Land of the island of time and space, you can dominate the island of time and space, but I have a request..."

"You want to use the array on the island of time and space?" Ye Xuan brows a pick.

There is a time array on the island of time and space. It has been cultivated for two years, and the outside world has only been one year.

"Well, this is not as good as your space, but it is also very good." Nodded and nodded.

"This time array method is only twice the flow rate, and my space is thirty times. When I set up an entrance directly in your life, you can let people go in and practice." Ye Xuan said.

"What, can you still establish an entrance?"

Surprisingly, he thought that only Ye Xuan could get people in, and now he can make an entrance, which is convenient.

After practicing for thirty days, the outside world only passed one day. Who wouldn't want to practice in it?

"My space is about one-fifth the size of the Penglai Holy Land. Although it is not comparable to the Holy Land, it is enough for cultivation. I can open up an area for you inside." Ye Xuan said.

"Haha, that would be a thank you." He laughed wildly.

At this time, Ye Xuan said again: "Of course, if you can improve the environment inside, chances are that the time flow rate can be improved again."

Now the planting space has been upgraded to six levels, plus a pair of time eye changes, the time flow rate can be increased up and down thirty times.

Moreover, the multiple of the time flow rate will also be affected by the level of planting space. If it is upgraded to level 7, the flow rate will increase again.

"No problem, I will go and get some flowers of life to plant in."

The wayward eyes are bright, saying: "Go, go back to life with the Holy Family!"

However, before this, Ye Xuan still went to control the scattered immortals on the empty island at that time, and then made a big sum.

It's a pity that it's almost impossible to break through to the second.

Since there is no transmission array on the island of time and space, they have to continue on their way.

After a day and a half, they returned to the little holy place before, and then transferred back to the Penglai Yaozu.

At this point, the fall has been cultivated in the planting space for fifty days, and directly broke through to the two hijackings.

The glass fairy in the planting space also refines the holy master of the holy land of evil spirits and then leaves.

Then, Ye Xuan and his waywardness were transmitted to the Twilight Holy Land through the transmission array, and finally the Holy Land of Life.

The Holy Land of Life is a great holy place, and the space is very stable. When you get here, Ye Xuan can shoot.

After being willing to lead the way, Ye Xuan passed through more than a dozen space cracks and finally came to the life of the Holy Family.

In the Shengzong of life, there are hundreds of scattered immortals, and there are even a few of them.

Ye Xuan has not yet entered, he feels a strong breath.

With a wayward, Ye Xuan entered the life of the Holy Family.

The race in the life of the Holy Family is also quite mixed, but mainly the ethnic group of Platinum Holy Light Dragon, and human beings.

The current sect of the saints of life is a human being. It has only been practiced for two hundred years to achieve the sacred fairy.

As for the wayward father, it is the elders of the life of the saints, and the three robbers are scattered.

He was willing to take Ye Xuan directly to the holy mountain of life and found his father.

What makes Ye Xuan strange is that the wayward father looks very similar, just like the twins.

"This, it must be Ye Xuan, a friend who has recently become popular in various holy places."

The wayward father Ren Xiong said with a smile.

"I have seen seniors!"

Ye Xuan hurriedly held a fist.

Before he came back to his waywardness, he had already told Ren Xiong that the latter was not nonsense. He took out a piece of Qiankun and gave it to Ye Xuan.

"This time you helped me to solve the time and space of the island, and there are two holy places of blood and bones. This is what you deserve." Ren Xiong said.

Ye Xuan naturally does not care, directly accept the Qiang Kun ring, and check it out.

Good guy, there are a lot of things in it, enough to make him break through, even to rob!

"Thank you for your predecessors!"

Ye Xuan thanked a sentence.

"This is what you deserve. In addition, I would like to ask more, the rest of the holy places, how are you going to deal with it..." Ren Xiong asked curiously.

Ye Xuan naturally understands Ren Xiong's meaning and asks: "Is the seniors interested?"

Ren Xiong smiled and said: "If you can, I can represent the saints of life and buy the holy orders in your hands."

Hearing this, Ye Xuan couldn't help but pause.

Now that he has removed the holy land of Penglai, there are five holy commands.

"If the seniors are interested, I will only leave the Holy Order of the Island of Time and Space." Ye Xuan said to Ren Xiong.

Now the island of the island of time and space is dead. Although the family has not been destroyed, they all ran to other holy places, so the island of time and space is empty.

Chapter 1653: Second loose

Although the island of time and space is only one-fifth of the Penglai Holy Land, it is enough for Ye Xuan. In the future, he can move Lianyun City to the island of time and space.

"In this case, it would be great. You can rest assured that Tiancai Dibao will make you satisfied. I will prepare it." Ren Xiong flashed a light and smiled and left.

The four holy commands, if combined with the **** holy places and the sacred sites, are six.

There are also many scattered immortals in the sacred place of life, and there are now four sacred lords, and the success rate will be improved a lot.

Soon, Ren Xiong is back, bringing back a lot of cultivation resources and improving the environment.

Then, Ye Xuan handed four holy orders to Ren Xiong.

These cultivation resources are enough for him to break through to the second robbing of the Xianfeng Peak, and then to scatter the genocide and achieve the three robbing.

"Thank you a little friend." Ren Xiong said with a smile.

"Predecessors are too polite, and each is in need." Ye Xuan smiled back.

Ren Xiong nodded with satisfaction, then suddenly remembered something, said: "Right, do not know if Xiaoyou has a message of Tongtianbao?"

"Tong Tian Bao map?"

Ye Xuan brows a pick.

"Yes, this time the little friend annihilated so many evil places, the harvest must be quite a lot, just don't know if there is a map of Tongtianbao?" Ren Xiong nodded.

"No, I didn't get it."

Ye Xuan shook his head. This is a fact. He does not have a treasure map.

"Oh, this is a shame."

Ren Xiong sighed and said: "Now, there are already seven Tongtianbao maps available, my life holy place, the Buddha's holy land, the ghostly holy land, one piece, the glass fairy, a piece of the dawn of the Holy Land, a former **** It was reported that the piece of the evil Buddha was handed over to the death emperor, and there were two death emperors."

"Seven pieces of Tongtianbao?"

Hearing this, Ye Xuan's look changed because he heard the name of the old man.

The celestial celestial being, I don't know if he gave it, or the old celestial being.

"I remember, the sky is the treasure of the old fairy, is his wife Longque Fairy got it?"

At this time, the wayward suddenly interrupted.

This time, Ye Xuan was shocked.

To put it this way, there are two pieces of sky map in the hands of the gods.

Moreover, only he knows.

If you count it, then there will be eight maps of the sky, and only one piece will find the location of the fairy channel.

However, Ye Xuan did not say that he had sent a piece of Tongtianbao map to the eternal fairy, but directly dropped the voice and asked.

"What, you said that the glass fairy has a piece of Tongtianbao, and seven pieces have appeared so far?"

He didn't know much about Tongtianbao. He only knew that there was one in each of the four holy places, but he did not know that the Buddha's holy land was one except the one stolen by the evil Buddha.

As for the glass fairy, it was also confirmed by Ye Xuan recently.

"Predecessors, if you add the one I gave you before, there are already eight pieces." Ye Xuan nodded.

When I heard this, the old man couldn't help but hesitate for a long while, and finally said: "If this is the case, then you don't have to hide it again. I guess the great holy places will soon gather together..."

"Get together and look for the ninth piece of Tongtianbao?"

Ye Xuan's eyes glimpsed, and he immediately said to Ren Xiongdao: "Predecessors, I used to get a piece of Tongtianbao before, but then I will give him the Tianbao map in order to repay the kindness of the old man."

"What, have you ever got a piece?" Ren Xiong heard it and was shocked.

The waywardness is also very different, but he did not blame Ye Xuan did not say it, after all, this is not a trivial matter, how can it be said everywhere?

"That said, the old immortal that day, like the death emperor, has two maps of Tongtianbao."

"Not bad."

Ren Xiong nodded: "The legend of the world gathers nine pieces of Tong Tian Bao map, you can find the fairy channel, as long as you open the fairy channel, I can fly directly to the fairy world..."

"Father, I remember that there is another legend in the world. As long as you gather eight pieces of Tongtianbao map and find nine scenes, you can know the orientation of the ninth Tongtianbao map. Is this true?"

Wen Yan, Ren Xiong nodded: "It is true, but the search for nine has been lost. If anyone is the most likely to be in the world, it is the Taoist people in the holy place of the Buddha."

"Ling Weidao?"

A willful brow.

The Taoist Taoist is the lord of the sacred sect of the Buddha, and the father of the glazed fairy.

Some time ago, Ren Xiong also went to find Ling Xiaodao, that is, between the wayward and the glass fairy.

"If this is the case, as long as you find the ninth piece of Tongtianbao map, you can find the fairy channel?"

"Not bad."

Ren Xiong nodded: "I did not expect to appear so fast, I will immediately tell you Grandpa, let him call other Tongtianbao map owners."

"That is the place where the Buddha's holy land is." The waywardness suddenly opened his mouth and smiled.

"it is good!"

Ren Xiong should have a sentence.

The things that pass through the sky, but the focus of the great holy places, after all, they also want to fly to the fairy world.

If the non-fairy passages are closed, these people may be able to become true immortals instead of disarming and repairing immortals.

As for Ye Xuan, I also went directly to the island of time and space. Then there may be major events to be done, so he should break through as soon as possible.

Then, he quickly swallowed the treasure of heaven.

"Hey, the host breaks through, and it's the second to scatter the fairy peak!"

A system prompts to sound.

Ye Xuan took a look at the panel and found that he had a 70% chance of breaking through.

The second robbery of the fairy peak does not mean that it is the peak of the two robbers, there is still a long way to go.

However, it is indifferent to scatter the genocide, even if it is the beginning of the second annihilation, as soon as the world arrives, the scent will fall.

At the moment, Ye Xuan is a triple fit, directly improving the combat effectiveness of 20%.

"Hey, the current success rate of the host is 94%!"

The system prompts again.

Ninety-four percent, the success rate of this robbery is already good. If you add the robbery and the Holy Order, Ye Xuan can almost succeed.

However, in order to be on the safe side, Ye Xuan has exchanged a large number of five rows of glaze in the super swallowing system, and then cultivated the glass treasure to the eighth stage.

This time, he has 10% of the confidence to survive the second time!

"come on!"

Ye Xuan's dawn flashed directly to the world's vitality and began to rob.

The masses are robbed once a thousand times, and the degree of danger is 100 times higher. Others are prolonging the time of robbery and will not be robbed early, and Ye Xuan has directly advanced for a thousand years. This is unprecedented.

Soon, the scattered genocide that had been condensed in the air fell directly.

Chapter 1654: Eight pieces of sky map

"Boom!"

The robbery landed on Ye Xuan's head, but he did not even move his brow.

The Lord's Order, the Glass Treasure, the Crossing of the Dan, and the Qilin's infuriating factors, etc., let Ye Xuan have a success rate of 10%.

However, this is the second time, so there are two.

The second robbery is stronger than the first one, but it is useless. After all, the system shows that Ye Xuan has a 10% chance of success.

"Boom!"

The second robbery fell, and then, Ye Xuan heard a system prompt.

"Hey, the host has successfully robbed, and it is currently in the early days of the three robbers!"

Although Shu Lao and Ye Xuan have a contract, the realm of Sanxian is rather strange, and the old tree has to rob itself.

Within a minute, the old tree also successfully passed through the second scattered fairy robbing, and achieved three robbing.

Then, it is the Ghost Emperor.

"Hey, the ghosts of the great emperor have successfully robbed, and the current is the beginning of the three robbers!"

"Hey, Megatron's breakthrough, the current is the beginning of the three robbers!"

The old tree, the sneaky emperor and the Megatron all broke through, and then it fell.

"Let's fall, do you feel confident?" asked Ye Xuan.

"The inheritance of the dragons and aunts of the predecessors has not been of much use to me, but I still have the Holy Order and the robbery, and it should not be a problem." Fallen answered.

"That is still a lot of cultivation for a period of time. Anyway, it takes 30 days to cultivate in the planting space. The outside world only passed the day. It is not a trivial matter to rob the robbery. If it fails, it will be scattered, or be careful." Ye Xuan said to the fall.

"Ok!"

When he nodded, he was immediately admitted to the planting space by Ye Xuan and continued to cultivate.

This cultivation is 90 days, and the outside world has only passed three days.

Ye Xuan has already passed through the scattered fairy robbing, which means that the falling scent of the singer has arrived, but the latter can be suppressed, but the problem is not big.

More than three months of cultivation, the repair is more powerful than before, and now she has a 10% grasp of the robbery.

However, in order to prevent it, she still arranged a seven-fold array, and it was better to resist the power of robbery than to do nothing.

Soon, the fall was in the holy land of Penglai, and then easily spent.

"Oh, the success of the robbery, the current is the beginning of the three robbers!"

Now, Ye Xuan has made three robberies, and the strength is enough to be rampant in the Great Holy Land.

"With my current strength, it should not be a problem to destroy the dead place and the holy place..."

Ye Xuan thought in his heart.

However, he did not dare to do this, because if the other side of the fish died, what should I do?

In that case, the Tongtianbao map will fall into the cracks in the space, even if it is used to find the nine arrays may not be able to find.

Therefore, Ye Xuan still decided to let go first, and then say later.

However, shortly after the success of the robbery, the waywardness finally came to the news.

"Ling Wei Dao has been looking for nine battles in the sea. My father also contacted the major forces, including the Holy Land of Death and the Holy Land. Do you want to see it?"

"Which position?" Ye Xuan asked curiously.

"On the four islands between the four holy places, this is just an ordinary small island, not a holy place. It is on the top of the nine."

"When is it?" Ye Xuan asked again.

"After three days."

These four islands are between the four holy places. If you want to go to this place, you have to fly from the four holy places.

Three days is enough!

"Well, I will go see it later." Ye Xuan nodded, and he also wanted to see where the ninth Tongtianbao map was.

Soon, it was three days passed.

Three days later, Ye Xuan rushed to the four islands as scheduled.

However, before he landed, he already felt a strong breath, even if it was three robbers, there were several.

After all, this meeting is a master of four holy places.

"Oh, Ye Xuan is coming."

After being sexy, I was immediately turned around and looked at it.

With the eye of insight, Ye Xuan has already seen the masters on the four islands.

There are a lot of acquaintances in the sky, the celestial fairy, the glazed fairy, the wayward, Ren Xiong, and the monk.

At the same time, there are a lot of people who are born.

Among them, a middle-aged man immediately revealed his anger after seeing Ye Xuan. This person is the realm of the three robbing of the celestial peak. He is the father of the Nether Emperor and the Emperor of the Nether.

In the last battle of the Holy Lord, the Emperor of the Nether was killed by Ye Xuan and his wayward, so Ye Xuan was his enemy.

If it is not because the foot is not a holy place, he has already shot Ye Xuan.

However, after everyone felt the breath of Ye Xuan, they showed a look of gloom.

After all, Ye Xuan at that time was only through the heavens, but now, it has already broken through to the two.

Of course, at this time, Ye Xuan uses the blood to hide the breath. Even the Nether Emperor and Ren Xiong of the same level can only feel the breath of his two annihilation.

"This is Ye Xuan, it is really young and promising."

Ye Xuan was just landing, and there was an amiable voice coming over.

Ye Xuan turned his head and saw that the visitor was a bald old monk. According to his breath of the three robbers, Ye Xuan could judge that he was the Lord of the Holy Land of the Buddha, the Buddha!

After the bald old monk, there is also a middle-aged man wearing a robe. This person is also a three-robbery singer. It must be the sacred person of the Buddha's holy land, that is, the father of the glass fairy.

"See you seniors!"

Ye Xuan respectfully said hello.

"Okay, not arrogant, not bad." Ling Xiaodao was satisfied with the nod.

To be honest, relative to the wayward, he prefers Ye Xuan who first met, but it is not the time to say this.

The rest of the people have come, the last great holy place, the holy place of death.

The death emperor flew from the southwest with more than a dozen people, all of which were in the level of two robbers and scattered, and the strength was extraordinary.

After he saw Ye Xuan all the time, he couldn't help but scream, "Kid, don't give me a chance, or kill you!"

"You can try!"

Ye Xuan knew that the other person was talking to himself, so he faintly returned.

His first disciple was killed by waywardness, and the second disciple was also related to waywardness.

However, there is a wayward background, and Ye Xuan has no background, no trouble for him, who to look for?

"Well, everyone is finally here." Ling Xiaodao looked around in a circle.

The eight Tongtianbao maps have been completed, so the rest is to let the Lingxiao Taoist use the search for nine arrays, looking for the ninth Tongtianbao map.

"Ling Weidao, are you sure?" At this moment, the death emperor suddenly asked.

"I am afraid that between the heavens and the earth, I will find this for nine times, but I am also using it for the first time. There is no such thing as ten percent." Ling Xiaodao shook his head.

There is no 10% confidence, that is, the representative still has some success rate.

Chapter 1655: Looking for nine

"The array method has been laid down, you can find their own position, hand-held Tianbao map."
Buddha respects to everyone.

At the moment, each master who holds the Tongtianbao map is taking it out.

"Ye Xuan, this one is coming."

The celestial man suddenly handed the tongtianbao map that Ye Xuan gave him to Ye Xuan.

"It is good!"

Ye Xuan did not refuse, but it was only holding the Tongtianbao map first.

There are one each of the glass fairy, the Buddha, the Ren Xiong, and the Nether Emperor, and the Heavenly Master and the Death Emperor are two people.

The death emperor will also give up more, and give it to his own scattered fairy, and then stand in the search for nine.

Looking for the center of the nine battles, Ling Xiaodao sat down with his knees.

As for the others, they are all watching in the air.

"You, if you are ready, then I will start." Ling Xiaodao said.

The crowd nodded and said that they were ready.

Ling Xiaodao once again looked around for a circle, then quickly picked up the seals with both hands, and the nine arrays also worked.

"Calling!"

In the midst of the squad, suddenly a wind blew, and then the Tongtianbao figure in the hands of the eight began to tremble.

However, this Tianbao map is extremely important. Everyone is holding on to death and refuses to let go.

"Ok?"

The celestial treasure map in the hands of Ye Xuan suddenly turned and found that not only that, but also the same for other people.

Finally, the eight directions of the Tongtianbao map all point to one orientation.

south!

"The eight maps of Tiantianbao, all pointing to the south, is there any holy place there?" asked arbitrarily.

"On my holy land of evil spirits." said the glass fairy.

"So, the ninth Tongtianbao map is in the holy land of evil spirits?" The death emperor frowned.

You must know that one of the two Tongtianbao maps in his hands was dedicated to him by the evil Buddha of the evil place of the evil sun, but he did not expect that there was one in the holy land of evil spirits.

"It may not be in the holy land of evil spirits, but it may also be in the south. We will first fly to the south of the holy land of evil spirits. If we point to the north, then we can be sure that the ninth Tongtianbao map is in the holy land of evil spirits." Ling Weidao said.

When the words came out, everyone nodded. This method can determine the orientation of the ninth Tongtianbao map.

If you continue to point to the South, it is not in the holy land of evil spirits.

You must know that the lord of the Holy Land of the evil sun is the glass fairy. If the ninth Tongtianbao map is in the holy place of evil, isn't it cheaper than the glass fairy?

However, this is also a helpless thing. After all, even if it is the death emperor, it does not dare to enter the small holy land.

Because it is divided into major camps, it is not possible to use the transmission array to transmit to the holy place of evil, they must fly.

The death emperor and others did not dare to enter the holy land of evil spirits, so they can only detour.

It took a full seven days to hurry.

In addition to the previous three days, it took ten days, and in the planting space, it has been three hundred days, nearly a year.

Three hundred days, plus the fallen days of the blood of the fox, just broke through to the three robbed of the sin, she has reached the middle of the three robbing scent, almost broke through to the three robbed scent, very terrible.

At this time, Ye Xuan was thinking, if there is an opportunity, he will quickly solve the people who died in the Holy Land and the Holy Land.

After seven days, the people came to the southern waters of the holy land of evil spirits. They created a floating island, and then the Taoist people once again laid a search for nine.

"I hope not to point to the north..."

The death emperor and the Nether Emperor and so on are all thinking this way.

However, their prayers have come true.

The eight Tong Tian Bao maps are all offset from the angle and point to the south.

"More south, what is going on?"

Everyone is amazed.

"The holy place of evil spirits is already a holy place in the south. In the south, it is in those continents."
Ling Xiaodao said.

The mainland is also possible!

"Try again in the south for a few days."

These dozens of scattered immortals have once again traveled south, but the search for the nine arrays is still the South.

"The front is the fairy sea. Even if it is a fairy, there is danger of degeneration. In the sea, we can't do it. Entering the Xianhai Sea is a dead end. If this ninth Zhangtianbao map is in the sea of Xianhai, Then it is troublesome." Ling Xiaodao frowned.

The fairy sea is a dangerous place in the sea. Even if it is the three robbed, the singer of the singer and the peak of the singer does not dare to enter. After all, they can only defend and cannot attack.

If the ninth Tongtianbao map is in this fairy sea, it is estimated that there is no drama.

However, at this time, Ye Xuan suddenly found a wrong place, said: "Before we were all vertical to the south, the position has never been offset, but in the search for nine times yesterday, the angle of the eight Tong Tianbao map seems to be There was a previous deviation."

When this was said, it immediately caused the loss of others.

"Angle deviation? It's really nonsense. We look at it with so many eyes. How did you find out?"

"If you don't believe it, you can find another nine times and wait a day to see." Ye Xuan directly suggested.

Yesterday and today's point of view, it is clearly a deviation of the angle, you know, he has a super swallow system, so it can be found.

"If this is the case, then this Tongtianbao map is on the move?" Ling Xiaodao is also somewhat surprised, said: "But one day is not for us."

"Okay, then wait for him for a day."

"Look at pointing to an offset."

"In a day, we have been waiting for a thousand years, nothing."

At this time, in addition to Ye Xuan, who is only 28 years old, other people are old monsters, and even the willfulness and the glass fairy have lived for hundreds of years.

In order to verify Ye Xuan's statement, everyone can take out weapons and use them as a reference.

However, in less than half a day, the orientation of the eight Tongtianbao maps has changed significantly.

This ninth Tongtianbao map is indeed moving!

"It really changed, and it was a little bit southwest."

Everyone was amazed, and they all sighed that Ye Xuan's eyes were sinister and sinister. Even the three robbing singers of the sacred peaks, such as Ling Xiaodao and Bu Zun, did not find it. Only Ye Xuan discovered it.

Great!

"This ninth Tongtianbao map is actually moving, that means someone got it, go, catch up!"

When the death emperor finished, he immediately took the Tongtianbao map and plunged it to the south.

Although it is said that the South is the Xianhai Sea, but they do not have to enter, first try again in Xianyi overseas.

The crowd rushed for a long time, and then tried it on the edge of the Xianhai Sea. They found that the direction of the eight Tongtianbao maps was still Xianhai.

It seems that I have to go in and have a look!

Chapter 1656: Xianhai

"Everyone, the fairy sea is huge, and it is very dangerous. There are countless thunders inside. Even if it is a three-robbery, you can't neglect. Do you want to enter?" asked Ling Xiaodao.

"There are all coming, why don't you go in?" The Nether Emperor said coldly.

"Yes, if you can't find the fairy channel, then I can only live for a thousand years. It's better to fight once." The death emperor also nodded.

"If that's the case, then go in."

After Ren Xiong finished speaking, he was arrogant: "You don't want to go in, you are too dangerous."

"I know."

Nodded arbitrarily, and then turned his eyes to the glass fairy, the latter also has a map of Tong Tianbao.

However, the Liutian fairy's Zhang Tongtianbao map was handed over to Ling Xiaodao.

As for the celestial beings, they also chose to take out two Tongtian treasure maps, one for Ye Xuan and one for the Buddha's holy land. As for himself, he would not go in.

In the end, there are dozens of scattered immortals, only eight of them entered the Xianhai Sea. Because of the need to arrange for the nine arrays, the Lingxiao Dao also had to enter, a total of nine people.

Four Buddhas in the Holy Land, two dead places, one in the Holy Land, one in the Holy Land, and one in Ye Xuan.

Among these people, except for one of the sacred places of the Buddha, the sacred sacred sacred sacred sacred sects.

They are divided into three or six batches, and they have a good chance of survival.

"Ye Xuan, a little bit..."

Said waywardly to Ye Xuan.

Wen Yan, Ye Xuan nodded slightly, his strength among the nine, is estimated to be at least the top three, but in case, just in case, Ye Xuan still summoned the tree three old people.

Megatron directly turned into a set of armor, set on the leaves of Ye Xuan, as for the old tree and the ghosts of the Emperor are next to Ye Xuan.

"This kid, how to do it in the end, this bald old man and the sneaky emperor, turned out to be three robbers and sorrows..." Death the Great eyes.

The same is true of others.

I am afraid, Ye Xuan is the most mysterious one among them.

Until this time, Ye Xuan knew why there were no four robbings of the sacred places in the major holy places. At most, there were scattered celestial beings of the three robbing peaks.

Soon, a group of them came to the fairy sea.

The fairy sea is a mysterious peak, seemingly sunny, but occasionally there will be robbery falling, not why, just because there are a lot of sea animals at the bottom.

These robberies are the result of the cohesion of them.

This is not the point. The point is that these sea beasts can attack in the sea, and humans can only defend, so it is very dangerous.

At first, they did not encounter anything wrong, but after an hour of walking, they met a small sea beast.

This little sea beast, only one robbery in the early days of the immortal, does not pose a threat to everyone.

The ninth Tongtianbao map was moving all the time, and moved to an angle in less than half a day, which made the searcher somewhat troublesome. After all, it was in Xianhai, but it was not a big deal.

However, one day later, they were in big trouble.

"Be careful, there are sea beasts!"

Ling Xiaodao screamed.

The crowd turned around and saw that the sea in the distance began to surge, and a group of sea beasts broke through the waves.

"Be careful, don't irritate them, avoid them all!" Buddha shouted.

If this group of sea beasts is angered, then these sea beasts will attack with perseverance, and they will not escape.

This group of sea beasts is of the sacred level, and there are hundreds of them. When they see the group of humans, they avoid it and some directly hit it.

The sea beast IQ is no less than human, they also want to change the taste, Ye Xuan these human beings are a good ration.

Although Ye Xuan and others can't attack, the momentum can be emitted to shock the sea beasts.

Fortunately, this is just a group of sea animals that have been squandered at the level of the singer. Otherwise, it will be a lot tricky.

Soon, this sea beast was directly let go of Ye Xuan and others, and then left.

"Call, fortunately, our realm is high, and this sea beast is shocked, or it will be dead."

The people breathed a sigh of relief.

Then they are moving on.

The next road is very flat, and I don't know if it is because of luck.

"Looking for nine!"

The people also arranged a floating island, arranged a search for nine, and then looked for the position of the eight Tongtianbao map, finally found an island.

No, this is not an island, but a holy place!

"How is this possible, this is not..."

The people were shocked and looked at the holy place ahead.

The people present knew this holy place, but did not expect to meet at this time.

"Seven sacred places, turned out to be seven holy places!" Ling Xiaodao exclaimed.

"what is this?"

Ye Xuan is very curious, and then voiced to the wayward.

"What, seven sacred places? How is it possible?" The waywardness is also a surprise.

"What happened to the Seven Miles, how come on the map?" asked Ye Xuan.

"This is a holy place thousands of years ago, and it is the fifth largest holy place, but then there was a horrible suffocation inside, so we destroyed all the transmissions leading to the Seven Miles, and soon the Seven Holy Lands disappeared. "The wayward explanation is one sentence."

Helium is a very scary thing, there are seven.

These seven holy places have erupted with suffocation and are very harmful to the great holy places, so they are isolated.

Afterwards, the four holy places sent people to search for the Seven Miles, but they did not find it. They did not expect to appear in the sea of Xian.

"Everyone is watching, this seven holy places seem to be moving."

A violent sizzle sounded, everyone looked condensed and found that the seven holy places were really **** on the move.

"The trough, a big holy place is moving, what is going on?"

Ye Xuan was shocked and hurriedly swept through the eyes of the insight, but found that there was a defensive array outside the Seven Miles.

The people are close to each other. According to the instructions of the nine arrays, the last piece of the map of Tianbao should be in this seven holy places.

"Thousands of years ago, the hegemonic forces of the Seven Miles Holy Land broke out with horror, and the entire Holy Land fell into the midst of a fiery heat, and the heavens and the Tao appeared protected, encircling the entire Holy Land, and not allowing any human beings who invade the suffocate to leave.

"Fo Zun slowly said.

"We haven't invaded the suffocation, then should we be able to go in?" said the death emperor.

Buddhism clasped his hands together and nodded and said: "It is ok, but we don't know if there are other people in these seven holy places."

There is no one, it doesn't matter to them.

However, these seven holy places are a great holy place, and then there is a holy command.

I don't know, where is this holy order?

The area of the Seven Miles Holy Land can be no less than the four holy places. Whoever can get the Holy Order is cool.

Chapter 1657: Seven Miles Holy Land

"Although I don't know if anyone is alive, I can't take it lightly." Ling Xiaodao reminded.

"We will not go in these seven holy places, lest you be besieged."

At this time, the death emperor suddenly said.

Among the people who came in, they were obviously weak, and these seven holy places are great holy places. Once they enter, they can all be shot.

"You hold the Tianbao map in your hand, but I am afraid that we will shoot you?" Ren Xiong said coldly.

"Tong Tian Bao Tu is indeed precious, but when we both die, the death holy land and the holy land, is it not what you have in your bag?" said the Nether Emperor.

"Then you should be careful, don't touch the beasts of the sea." Ren Xiong said coldly.

Then, they all entered the Seven Miles, leaving only one person outside to look at the Nether Emperor and others.

The array of sacred places in the seven sacred places isolated the spiritual exploration, but after entering the Seven Miles, everyone began to develop spiritual knowledge.

"Sure enough, no one is there, not even a living thing." Ren Xiong frowned.

"Search by split and see if there is anything to discover." Ling Xiaodao suggested.

"Well, everyone is careful, I always feel that this seven holy places are not right."

After Ren Xiong finished, he also left directly.

Although their strength is strong, but the Seven Miles Holy Land is so large, it will not be able to search for a time.

"The tree is old, and the three of you are also searching each other to see if there is any discovery."

Ye Xuan said to the old three of the trees.

"it is good!"

The tree should be old and then leave.

These seven holy places are dead, not to mention a living thing, not even a bone, which makes others very surprised.

However, after they searched for a long time, the spiritual knowledge finally found a living thing.

This is a man, at this time he is sitting cross-legged in the ruins of the central part of the Seven Miles.

This ruin is the site of the Seven Dynasties.

And around this man sitting on the knees, there is a black cloud of fog that seems to protect him.

"Ye Xuan, go to the middle, there are people!"

Ren Xiong passed the voice.

At the moment, Ye Xuan quickly swept past, and about an hour later, he arrived.

When he arrived, he saw Ren Xiong, Bu Zun, and Ling Dao Dao.

"Who is that person?"

At the sight of insight, Ye Xuan saw the young man in the ruins of the Qizong sect.

"This person appeared in the ruins of the Seven Dynasties. There is no one other than him. It is very strange." Ling Xiaodao said strangely.

"I just tried to get close, but the seven black air beside the kid is directly attacking me, and the attack power is very strong, so I will retreat." Buddha respected the broken sleeves, a little helpless.

Ling Xiaodao answered: "We have already called for countless times, and this kid has not responded. I don't know what to come."

Ye Xuan carefully looked at it and found that the seven groups of black gas were extraordinary and shouted: "The seven groups of black gas seem to be suffocating."

"Yes, it should be suffocating. This kid can control the suffocation. It should be the seven-year-old man of thousands of years ago. Just, I don't know why there is only one person left in the entire Seven Miles." Buddha nodded.

"This breath makes me not very comfortable, it is better to join him and kill him." Ren Xiong suddenly said.

He is a Platinum Holy Light Dragon, very disgusted with this breath, if no other person did not agree, he had already killed.

"No, this person is very likely to be the lord of the Holy Land of the Seven Holy Lands. I am afraid that the Tianbao map is also on him. If you are irritated, we may not be able to get him." Said.

Indeed, the entire Seven Miles Holy Land seems to be alone, so he is most likely the Lord of the Holy Land, and the ninth Zhangtianbao map is also very likely to be on him.

"What do we do, wait?" Ren Xiong frowned.

"Look at the situation first." Buddha respected.

This young man is a three-robbery, and if he is added to the Holy Order, he will be able to raise a big realm.

Although the strength of these people is not weak, it is not so easy to kill the youth who have the Holy Order.

Instead, they may have casualties.

Of course, if Ye Xuan made a few full shots, this young man would certainly be unstoppable, but Ye Xuan was afraid that he had a treasure map in his hand.

In desperation, everyone can only stay here quietly.

This stay is three days!

Falling into the planting space, it has been practiced for several years, and has already reached the peak of the three robbers. If there is a cultivation resource to shorten the time of the robbery, she may be able to directly rob.

Three days later, the young man finally moved a moment, then slowly opened his eyes.

"You have been waiting for a long time!"

The youth stood up and looked around.

"Hello is..." Buddha said immediately.

"The chief disciple of the Seven Emperors, step by step," the young man replied.

"Then your seven strands of suffocation is..." Buddha respected his frown and looked at the seven black suffocates beside him.

"I have refining the entire scorpion of the Seven Miles Holy Land for my use." Step Cang explained.

"Refining all the suffocating gas?"

When everyone listens, it feels a little hard to believe.

When the Qiongzong broke out in the same year, everyone was eroded and then killed.

Now, this step Cang said that he refining all the suffocating gas, which is unlikely.

"You, look at you like this, should you come for the Tongtianbao map?" Step Cang finished, directly took a Tongtianbao map from the Qiankun ring.

The ninth, Tongtianbao map!

Seeing the situation, everyone's eyes lit up.

Tongtianbao map, finally Qi.

"It turns out that you have already guessed it. Now that we have gotten together eight maps of Tongtianbao, you can find this in your hands. If you get together, you can find the channel of fairyland."

Buddha respect said to this step.

"I have heard about the nine-day treasure map. I just refining all the suffocating gas. I can leave this seven-sacred holy land. If so, let's join us." Steps up and will pass through Tianbao The picture is closed.

"So very good."

Buddha Zun opened his mouth and smiled.

They thought that they had to fight a battle to get this treasure map. Now it seems that luck is good.

The strength of this step is probably not weaker than the Buddha and other masters. After all, he was the chief disciple of the Qizong tribe thousands of years ago, and then after thousands of years, the breakthrough of the robbery, the achievement of the three robbers peak.

In the absence of the use of the Holy Lord's Order, the seven groups of Buddhism were so powerful that if they used the Holy Order, they would be able to fight a group of people.

At the moment, everyone took the step of Cang, left the Seven Miles directly, and then returned to the entrance to the Xianhai Sea.

Chapter 1658: Xianhai Palace

"Buddha, who is he?"

After the death of the Emperor saw the Cang, he could not help but ask.

"He is the lord of the Holy Land of the Seven Holy Lands, step by step, and the last piece of the Tianbao map is in his hands." Ling Xiaodao explained.

"The embers of the Seven Emperors?"

The eyes of the death emperor glimpsed, but this did not say it, because he felt that this step of fear is not so simple, it is not appropriate to commit evil.

"Don't worry so much, now nine maps of Tongtianbao are in place, and then, it is to spell out a complete map!" said the Nether Emperor.

"Yes, after waiting for thousands of years, I finally waited until today. As long as we open the channel of the fairyland, everyone can fly up to the fairyland." Buddha said, can not help but reveal the look of yearning.

The same is true for everyone. Who wants to stay in this backcountry?

Immortal world, that is the world of immortals!

Since the nine Tongtianbao maps have been assembled, then everyone will take them out in the same place.

Nine Zhang Tong Tian Bao maps, all appear!

There are also restrictions on the sea area, so everyone can't do it here. They have once again created a floating island, but this time the Lingxiao Taoist does not need to lay down for nine.

"come on!"

Bu Zun took the lead in throwing out the one-of-a-day treasure map, and others also did it.

Nine Zhang Tong Tian Bao maps, like magnets, are attracted, and finally one is nine.

A large map appears, and only five places are displayed above.

The Holy Land of Buddhism, the Holy Land of Life, the Holy Land of Death, and the Holy Land of the Nether.

These four holy places are in the northwest, northeast, southwest, and southeast. This Tongtian map connects the four great holy places with two straight lines and has a focus.

Obviously, the focus is what they are looking for.

"This place, isn't it four islands?" Ling Xiaodao suddenly hit a spirit, and stunned.

"Right, in the middle of the four holy places, it is the four islands. It is difficult to become a fairy passage..."

"No, it's too good. The four islands are very common. There is no one above."

"Is it under the four islands?"

Everyone is speculating.

"No matter what, let's go and see it again." Buddha Zun finished, directly dismantled the Tongtian map, and re-divided into nine copies for the parties.

Next, they continued on their way and soon arrived at the four islands.

Then, everyone regrouped the Tongtian map. This time, the four islands changed.

I saw that the center of the four islands suddenly raised a line of law, and broke the four islands into a hole.

"What, there are hidden arrays in the four islands. This is what people have arranged. Even the scattered immortals of my three robbers have not been discovered." Ling Xiaodao was shocked.

Not only that, but Ye Xuan, who is a three-robbery singer and has an insightful eye, did not even find out.

This means that the people who arrange this array of methods are at least four.

In this place, how can there be four robbers?

This is impossible!

When the crowd was still at a loss, the formation had already broken a road and went straight to the bottom of the sea.

"The fairy channel, it really is in the sea, go!"

The Emperor of Death has been unable to bear it, and directly rushed into the sea.

Others are also catching up quickly.

However, before this, the nine Tongtianbao maps have returned to the hands of all parties, because they feel that the Tongtianbao map is not simply to find out the channel of the fairyland, I am afraid there are other effects.

Ye Xuan went down in the ranks of the Buddha and the Holy Land. If it were not for this passage, they would probably be attacked by the sea beast.

They all went down the road, and after a full day of speeding, they finally bottomed out.

"Xianhai Palace!"

Everyone fell to the ground and looked at the stone monument in front and the door.

"Look, there are nine square holes on it!"

Someone reminded me.

Obviously, these nine square holes correspond to the nine Tongtianbao maps.

However, the next thing is not clear to everyone.

"This Xianhai Palace should not be a fairy passage. It may be dangerous inside, so I think everyone should first gather their own personnel." Buddha said.

"Yes, there should be a lot of people coming to the parties, organize the staff!" Nethered Emperor nodded.

Then, they all informed their masters and let them come to the four islands.

Three days later, there are already more than a hundred people gathered here, all of which are scattered immortals, and almost all of them are two.

At the same time, the self-willed grandfather and Ren Xiong's father, Ren Zhiyuan, also came. He is the lord of the Holy Land of the Holy Land of Life. He has already handed over the Holy Order to his Majesty. In addition, there is the Son of Life, the lord of the Holy Land.

If there are only three robberies, there will be more than ten!

"Come, come on!"

Ling Xiaodao said, at this time, in his hand, he was holding a picture of the Tiantianbao of the glass fairy.

Others also chose their own location, then threw out the Tianbao map and embedded it in nine squares.

After the nine treasures atlas, the door suddenly burst into a fascinating light, and then everyone saw nine Tongtian treasure maps, which were suddenly made into a blue bead.

"what is this?"

Everyone is very puzzled, but they are all taking shots and taking off the blue beads.

Buddhism, Lingxiao Taoist, Heavenly Immortal, Ye Xuan, Nether Emperor, Bu Cang, Ren Zhiyuan each, as for the Death Emperor, there are two.

Although I don't understand what it is, they know that this blue bead is definitely useful in the next road.

Before they continue to think about it, the gate of the Xianhai Palace is suddenly opened.

Sure enough, this is not a fairy channel.

"It looks like there is no danger..."

The people looked inside, but they did not find other creatures.

This kind of sense of sight made Ye Xuan think of the deep sea palace when he went to the blood rock continent.

The death emperor was in a hurry and sent a death directly into it, but there was no danger.

"The space inside is very stable..."

The eyes of the Deathly Emperor swept the subordinates of life.

The people of the two sides have come almost the same. If they start playing, I am afraid that no one will take advantage of it.

"Death Emperor, are you trying to play one game first?"

"Now we have found clues to the fairy channel, and our grievances will be put aside for the time being."

The Nether Emperor said, inadvertently took a look at Ye Xuan.

Ye Xuan, killing the son of Nether Emperor, and the descendant of the death emperor, this hatred will not be so easy to eliminate.

"If this is the case, then it will be divided." Ling Xiaodao suddenly said.

"Go first, there may be opportunities and dangers, how do you feel?" Buddha respects.

"Okay, let's go first!"

The eyes of the death emperor lit up and immediately took people into the Xianhai Palace.

As for the step, it is with them, this is something they have discussed before.

Chapter 1659: enter!

"This step, although I know his bottom, is very mysterious. It is very tricky to stay with the people of the dead and the holy places."

Ling Xiaodao looked at the back of the death emperor and other people, murmured.

"It is true. Let us explore the road first, and then go in after half a day." Buddha said.

Anyway, they are for the fairyland passage, even if there is an opportunity in this Xianhai Palace, they can give up.

About half a day later, everyone was also spirited and ready to enter the Xianhai Palace.

"We have so many people grouped together, and there are still a few three thieves, even if they are in danger, they can cope together."

Everyone thought in the same place, and then they entered the Xianhai Palace together.

At this time, the five blue beads were held by Buddha Zun, Ling Xiaodao, Ren Zhiyuan, Tianshen Laoxian and Ye Xuan.

They feel that these five blue beads must be available.

Because this Xianhai Palace is too mysterious, everyone is very careful, because Xianhai Palace is full of sea water, they are afraid of sea animals.

However, this worry is superfluous.

At the moment of entering the Xianhai Palace, Ye Xuan was already letting the old three men go out to explore.

The tree is the oldest and the fastest, but it does not find any danger.

"Death Emperor, Nether Emperor, Step Cang, these three people are very fast..."

Ye Xuan's eyes glimpsed. When the other party entered Xianhai Palace, he marked the three with the death killing order. At this time, he saw the other party's speed very fast, and it was estimated that there was no danger on the road.

However, in the middle of the piece, he saw the other party staying for a while, did not know what happened, it was dangerous, it should be near that piece.

Therefore, he let the old tree quickly go and look at it.

"Hey, death after the thunder!"

"Hey, the thunderstorm is resurrected!"

The two systems prompted to sound, so that Ye Xuan's brow in the road was wrinkled.

Old tree, how suddenly died?

"The tree is old, what happened?" Ye Xuan asked quickly.

"I don't know, I passed a line and then died. However, I saw some blood near the line." The old tree appeared again beside Ye Xuan, explaining.

"line?"

After being willing to listen to this, the wayward and other people could not help but subconsciously ask: "Is it impossible for the death emperor to have casualties?"

"This should be!"

The tree nodded old.

Then, they quickly rushed to the road, and finally saw the line that the old tree called.

In order to make them see clearly, the tree old and personally test the law once, after he used the Kowloon Ben Lei flash across the line, everyone saw the old body of the tree burst directly.

"Hey, death after the thunder!"

"Hey, the thunderstorm is resurrected!"

The old tree, once again appeared in front of everyone.

"I waited, I can't see any strangeness in this line..." Buddha respect shook his head.

"At the moment I crossed, I felt tremendous pressure, and the whole body was squeezed to burst." The old tree replied.

"Yes, weird is not the line, but the water behind it..."

Ye Xuan nodded.

"Is it difficult to use that blue pearl?" said Ling Xiaodao.

"Yes, it may be used." Ren Zhiyuan nodded, and then his eyes fell on the tree.

At the moment, Ye Xuan gave the blue beads in his hand to the old tree, and then tried again by the tree.

This time, when the tree crossed the line, nothing happened. Instead, a blue mask appeared outside the body.

Sure enough, it is to use the blue beads.

"Sure enough, I want to use this, but can a single bead protect a person?"

"Should not be, let the ghosts and the emperor also try." Ye Xuan eyes.

This time, the old tree and the ghostly emperor passed together, the two together, but nothing happened.

Then, Ye Xuan let the ghost priest stay away from the tree, and sure enough, after he stayed away, he heard two system prompts.

"Hey, the ghost is dead!"

"Hey, the ghost is resurrected!"

Ghostly Emperor, and resurrected again next to Ye Xuan.

This time verified the distance of the blue beads, but there are no people.

To be on the safe side, they tested it a bit more and found a blue bead that could only shelter five people. The sixth person would be squeezed out and the body would burst.

Fortunately, this sixth person is the Ghost Emperor, so everyone is fine.

"On the side of the death emperor, there are only four blue beads, and at most 20 people are sheltered. It seems that they will at least lose 30 at this time." Ling Xiaodao said.

This line is not easy to find, and the tree is discovered by chance.

Along the way, Ye Xuan did not find other people, but only one road, so the death of the emperor, it is estimated that the death and injury is heavy, the number of people who can live up to twenty.

However, the problem is coming. There are more than 50 people on this side. Even if there are five blue beads, they will shelter as many as 25 people.

"It seems that some of us are leaving." Ling Xiaodao sighed.

"That may not be, we can catch up with the death emperor and others, and grab the blue beads in their hands." Ren Zhiyuan flashed a glimpse, sneer.

The death emperor, obviously entering the dangerous area without preparation, so they may have fewer than 20 people. After all, the person in the step is a little indifferent. Although they are walking with the death emperor, no one dares to approach him. Holding blue beads in his hands, he wasted four places.

"Maybe, it doesn't have to be so troublesome." Ye Xuan suddenly said.

Hearing this, his eyes brightened and said: "Yes, you have an independent space. If you hide other people, we can all go in."

At the moment, they directly selected 20 people. These people are sheltered by blue beads. As for others, they are entering the planting space of Ye Xuan.

If you let the death emperor and others know, I am afraid that I will be angry with a blood.

They were not prepared before, and some people were squeezed out of the blue bead's range of effects, and then exploded.

Now, Ye Xuan's party has passed without any casualties. It is a miracle.

The next road, the same is unremarkable, and the death emperor also stopped, waiting for Ye Xuan.

"They stopped. It seems that they have encountered any levels, they need to wait for us, or they have a problem."

Ye Xuan's eyes stunned and reminded you that you will continue to hurry.

Soon, they were the ones who saw the death emperor.

They carefully counted, except for the Death Emperor, the Nether Emperor and the Steps, there were only nine people.

Unexpectedly, the death emperor was so miserable that he lived twelve people.

Chapter 1660: Xiaoxianjie

The original four blue beads can be used to save twenty people, but the one who died on the side of the emperor is very open, and no one is close to the step, so the loss is so heavy.

"Damn!"

The death lord screamed in the heart, and the warning line they saw later. After those people passed through, there was no problem at all, but then they died together. Otherwise, their damage would not be so serious. .

If they fight now, they will probably be destroyed.

"Hey, there are twelve people." Ren Zhiyuan and others are bright.

However, it is not the time to start, because they now have to rely on blue beads to shelter, how to fight?

What's more, even the death emperor is a small number of people. If they fight back and fight, they will also suffer a lot.

Still forget it!

"You have finally arrived, hand over the blue beads to open the door!" the death emperor reminded.

At this time, in front of them, there was another door with nine holes on the door, which were placed with blue beads.

Since everyone needs to be sheltered by blue beads, they are grouped together, standing next to the hole, and then put the blue beads into it.

"Boom!"

The door opens.

The next moment, everyone was shocked.

After the door, it turned out to be a world, how is this possible?

"A good abundance of heaven and earth, at least ten times that of my life, what is this place?" Ren Xiong said strangely.

"It's hard to be done. This Xianhai Palace is the channel of the fairyland. We have already reached the fairyland at this time?" Ling Xiaodao also looked awkward.

After the door, there is no more water, but there is a formation that prevents them from passing.

"How is this going?"

Everyone is puzzled.

It was at this time that suddenly a person came out of the door and the breath was strong, which shocked everyone.

"Three robbers peaks and scattered fairy... No, it is four robbers!"

The people immediately responded.

The breath of this comer is stronger than everyone present, and it is actually a four-robbery.

"How many years have passed, someone finally found it here." The comer was a young master, and he looked around and sighed.

"Daoyou, is it hard to achieve here is the fairyland?" Buddha asked curiously.

"A fairyland?"

The young man smiled and shook his head. "How is it possible? This is just a space opened up by the immortals. It is called Xiaoxianjie."

"Little fairy world? Fairy?"

Everyone was shocked.

"Yes, this is not a fairyland. There is a rising fairy in the depths of this fairyland. That is the real channel of the fairyland. However, this Shengxiantai was closed by the fairyland, so everyone can't fly up the fairyland." .

"It turned out to be."

Now, everyone understands that many people have shown a helpless look. They have found it here with great pains. They thought they could fly up to the fairy world. I didn't expect it.

However, since it is impossible to fly up the fairyland, how can there be a fairy, and open up a small fairy world?

The young man saw the doubts on the faces of the people and explained: "Accurately, the fairyland was opened by three immortals. These three immortals came to this mortal place many years ago, and they chose from the holy places. Some people, after years of multiplication, have emerged this little fairyland."

"There are three real immortals..."

Everyone swallowed.

That is the real immortal, even if it is just a fairy, it is more powerful than the three robbers. If it is a three-character immortal, it has already surpassed the nine robbers.

"So, why is the fairy channel closed?"

Ling Xiaodao asked curiously.

"I don't know this, I am afraid there are only three talents..."

The young man shook his head and said: "Don't say this. Next, you can enter the Xiaoxianjie cultivation, but once you enter, you will not be able to go back in the future. Of course, if someone does not want to, you can follow me back, just make up Qi Jiu Zhang Tong Tian Bao map, you can come in again."

Only allowed to enter, not allowed to leave?

When I heard this, everyone looked at each other and the people of the death emperor hesitated because they thought it was a fairyland. I didn't expect it to be a fake.

In the holy place of death, the death emperor can still be called the king, but in this small fairy world, it is estimated that it is only the lowest level.

However, the people on the side of the Holy Land are not worried, because Ye Xuan has an entrance to the planting space in the holy place of life, they can go back at any time.

However, Ye Xuan is not ok, but he does not care, that one is to keep his life.

"You should come in in batches. If you put together nine water-avoiding beads, it is enough to shelter hundreds of people." The young man suddenly opened his mouth and smiled.

what?

As soon as this was said, the face of the Death Emperor and others changed.

However, things have come to an end and they regret what it is.

"Well, you think about it," the young man said.

"Adults, we choose to all enter the fairyland." Ling Xiaodao said.

As for the death emperor, he also nodded after thinking for a while.

"If that's the case, then come in." When the youth finished, they opened up the array and let everyone pass.

Then he took the crowd and went to a mountain.

"You are here, I am going to the outside world, no matter what kind of grievances you have, wait for me to come back and say."

When the youth finished, they couldn't help but paused, and then reminded: "Your luck is good. I have set a rule for my ancestors. Anyone who has gotten through the Tianbao map into Xiaoxianjie can join Xianyuan."

"Xianyuan Zong?"

After everyone heard this power, they all showed a confused look. What level is this Xianyuan?

"Xianyuanzong is the power established by the three immortals. It is also the most powerful one in this fairyland. They pay attention to fate. You can come in, that is, you are eligible to join Xianyuanzong." The youth said.

"The most powerful force in the fairy world?"

Everyone heard their eyes coming out.

"I don't know, the three ancestors of Xianyuanzong are a few immortals?" The death emperor took the courage to ask.

"I don't know the specifics, but at least it is the five-character immortal. This is already invincible in the Xiaoxian world." The young man replied.

If it is a conversion, the three robbers are equivalent to a fairy, the six robbers are equivalent to two immortals, and the nine robbers are equivalent to three immortals.

Then the five-character immortal, is already beyond the scope of the scattered fairy, this realm in the small fairy world, is indeed the invincible existence, after all, they are three immortals in the fairyland.

In this way, the power of Xianyuanzong is beyond their imagination.

"Well, wait for me to come back, and then tell you more, don't mess around here."
