

Super D. S 166

Chapter 166: Killing monsters

"Oh my God."

Ye Xuan was really shocked.

The world is so wonderful that he has seen big octopus, big shark, big crab, and now, there is another big turtle.

"The big crab I killed was a little hard, I don't know if I can break the defense of this big turtle."

Ye Xuan thought in his heart.

At this moment, suddenly there was a loud bang in the front, and Ye Xuan stared at it, but did not see anything.

However, there is indeed something flying over.

At the moment, he quickly flashed away. Just after he flashed away, an energy passed directly through where he was, and then went away.

"Hey!"

After the energy flew hundreds of meters, it suddenly burst open. Suddenly, the water at the explosion site was suddenly opened, forming a vacuum.

"The trough, what the hell, the mine?"

Ye Xuan was shocked. If he didn't avoid it, but he hardened the attack, he would probably be broken.

Obviously, that energy is the big turtle.

"Not good, come again!"

Ye Xuan's face sank and left quickly.

Sure enough, another energy plucked from the darkness.

"Boom!"

This energy bursts again.

"Grandma's, you are a water turtle, so you can shoot, watch!"

Ye Xuan's heart shouted, and the whole person was like a sharp arrow that plunged toward the big tortoise.

Soon, he saw the huge head of the big turtle.

"Floating hand!"

With Ye Xuan's palm shot, a real giant palm rushed toward the head of the big turtle.

Zhongpin Spiritual Martial Arts, together with Ye Xuan's Chinese spirits and realm, is enough to cause damage to this big turtle.

"Hey!"

The giant palm slammed into the bald head of the big tortoise, and suddenly let its head tremble and make a giant python.

However, the next moment Ye Xuan is very helpless.

After the big tortoise was attacked, he even shrank his head and drilled into the turtle shell.

This is not the point. The point is that this is not an ordinary tortoise. After retracting the head and limbs, a layer of shells suddenly protrudes to protect the head and limbs.

"The trough, this is open, is this Nima a robot?"

Ye Xuan's heart is in the middle of the road.

He didn't think that this big guy was so timid that he was attacked once and became a tortoise. If it doesn't come out, Ye Xuan can only attack the turtle shell.

"Well, if you don't come out, I will take your turtle shell off!"

Ye Xuan opened his mouth and smacked it directly to the back of the turtle. Then he took out the Chinese spirit and chased the star bow and filled it.

"shoot with great precision!"

A cold mantle flashed and shot directly on the turtle shell.

In good condition.

Chasing the star bow is a medium-sized spirit, and the average person can not be full, and Ye Xuan has the blood of a hundred beasts. It is not a problem to pull a full kilometer.

Moreover, the martial arts of the hundred steps of wearing Yang is extremely penetrating. Many people have been shot. Except for the blood wolf, they are almost all pierced, but at that time he and the blood wolf were two levels.

However, such a blow could not break the turtle shell of this big tortoise. This shows how strong the tortoise's defense is.

"I don't believe, I can't break your defense!"

In the heart of Ye Xuan, there was a sudden rise in fire, and began a rapid attack, constantly shooting the same part of the shell.

In the face of this kind of high-defense, it is natural to concentrate the attack on one point. Just give him some time and you will be able to break the tortoise shell.

"Hey."

"Hey."

One after another, the cold mans shot, almost at the same point, after the 18th step of wearing Yang, the turtle shell finally cracked.

"Haha, shrinking the tortoise, you are finished!"

Ye Xuan was overjoyed and flew directly to the turtle shell, then slammed down.

"Spiritual martial arts, tiger wolf roar!"

"Double Howler!"

"boom!"

The crack spreads out a few meters at a time.

"One more time, the tiger and the wolf roar!"

"boom!"

The crack has expanded again.

At this time, Ye Xuan suddenly jumped again.

"Chinese martial arts martial arts, floating hand, give me broken!"

When the real yuan giant slammed on the turtle shell, the cracks also instantly expanded to more than ten meters.

"Okay, it's almost!"

Ye Xuan glimmered, and suddenly rushed down, then punched down. Then he just put his hands in.

"Give me up!"

Ye Xuan shouted, and the blue muscles on his arms smashed out, and he actually pulled out a turtle shell.

"Hey..."

The big turtle roared.

The tortoise's tortoise shell is stuck to the back, and the tortoise shell is pulled out. This is not a general pain.

Ye Xuan directly ignored it, once again, the second shell was pulled out.

The big tortoise was so engaged by him, suddenly got out of the head, and then began to wander quickly, but Ye Xuan stayed on its back and did not leave.

Not a moment, the tortoise shell of the big tortoise was pulled down dozens of pieces, about 20 square meters.

Then, Ye Xuan is taking out the broken cloud bow and then shooting wildly.

Although he does not know the body structure of the tortoise, the turtle shell has been dismantled so much. He can kill the big tortoise as long as he attacks a few times.

This time, the arrowheads are no exception, all of them have not entered the turtle meat.

This big tortoise screamed again and again, and wanted to open Ye Xuan, but it could not do it.

At this moment, Ye Xuan suddenly shot an arrow at the center of the upper half of the shell.

"puff!"

The arrow disappeared, and then, Ye Xuan felt the body of the big turtle tremble, and then he sank again.

"died?"

Ye Xuan glanced, then pressed his hand on the turtle shell.

"Devouring!"

At that time, this turtle, which is bigger than Ling Xiao Dapeng, disappeared out of thin air.

"It's really dead!"

Ye Xuan exhaled a breath, and walked through Yang's martial arts in a hundred steps. Don't look at the arrow after it was shot, but after hitting the enemy, it will instantly produce high-speed rotation.

The person who had been headshot by Ye Xuan seemed to have only two blood holes before and after, but the brain was almost completely torn by this qi.

Fang Cai Ye Xuan has already shot the internal organs of this big tortoise, and now he has been shot through the heart, so he died instantly.

"Hey, the host swallowed a body of a sacred beast and gained 50,000 points to swallow."

"Hey, the host swallowed a spirited inner dan, and gained 800,000 points to swallow points."

After hearing the tone, Ye Xuan couldn't help but exclaimed.

This big turtle has so much experience.

Moreover, it is only the spirit beast in the middle of the real world. If it is the peak of the true Yuanjing, Ye Xuan may be able to break through to the peak of the true Yuanjing.

"Unfortunately, unfortunately, the inner wolf of the blood wolf gave the emperor too, or I have already reached the peak of the real world."
