

Super D. S 169

Chapter 169: Faster than anyone?

"But, clean up the spoils."

Ye Xuan felt a little pity.

The martial arts and boxing methods used by the stalwart and brave man are all martial arts martial arts. If he is allowed, the strength will be greatly improved.

Unfortunately, the other party would rather die than refuse to say it.

Then, Ye Xuan just cleaned up the battlefield. When he swallowed these spoils, his eyes lit up.

Upgraded!

"2.7 million points to swallow points, it is a big local tyrant!"

Ye Xuan was shocked. More than 2.7 million of the swallowing points, one million of them were provided by the strong man, because he had 50 medium-sized spar in his ring.

A medium crystal spar, equivalent to a hundred of the next product spar. Fifty, it is equivalent to five thousand spar stones.

Sure enough, it's still killing people and winning money!

"The real thing is the peak. Now, I should be able to compete with Zhou Chao and Tang Tian."

Ye Xuan thought in his heart.

Zhou chaos, the Prince of the Great Zhou Dynasty.

Tang Tian, Prince of the Tang Dynasty.

Both of them are the realm of the beginning of the real Xuanjing.

Moreover, the two of them may have the same level of martial arts and superiority, and their strength is extraordinary. So Ye Xuan can rely on it, only strength and speed.

Ye Xuan, who broke through to the peak of the real world, has skyrocketed, but he searched for two hours, but he never saw the Great Zhou Dynasty.

"It seems that these people are crossing the river day and night, I still go to the sentry tower."

Ye Xuan thought about it, but he stopped talking and started to run wild.

The four people went to the Datang Dynasty to find the sentry tower. At this time, they should also go to the Datang Dynasty site.

This shows that at this time on the site of the Great Zhou Dynasty, no one can stop Ye Xuan.

Moreover, the chaos still carries three real-world peaks, so their speed may not be faster than Ye Xuan.

In addition, the Great Zhou Dynasty lost two teams of 20 people, and the first day died of forty people. In general, the Datang Dynasty occupied an advantage.

It was already late at night, and Ye Xuan's breakthrough time was already a few hours.

Now his speed is much faster than before. In fact, he has already reached the place where he estimated that there may be a sentry tower, but he has not found it. It may be due to the sky.

Soon, the sky began to light up.

However, when the day was not bright, Ye Xuan finally found a sentry tower.

He quietly approached the tower, then closed his eyes and felt it, and found that the tower was not there.

"Is it empty?"

Ye Xuan thought about it, and then it was on the tower of Moyang Iron. This tower is a hundred meters high, towering into the clouds, and there is only one spiral staircase, want to the top, only this road can go.

Ye Xuan came to the top of the stone tower. There is only one big stone monument with a height of half a person. It seems that it is the so-called town tower stone.

He slammed into the big stone tablet, which was like a bubble, and he was crushed by his ease.

Then there was an old voice in the sky.

"The first town of the Great Zhou Dynasty was destroyed."

When I heard this, Ye Xuan was shocked. Looking up, I didn't expect anything.

"There should be someone on the tower."

Ye Xuan reacted.

However, he did not hear other voices before, and it seems that the first tower was not found in the chaos.

The old voice of the square was heard throughout the valley, so everyone heard it.

In the meantime, it caused the shock of both parties.

In the Tang Dynasty dynasty, a young man suddenly looked up and exclaimed: "How is it possible?"

This person is the prince of the Great Zhou Dynasty, and he has already seen a sentry tower and is about to kill.

"His Royal Highness, we have just discovered a sentry tower of the other party. The other party has already removed one of us. It seems that we are not leading a lot." A young man said on the side.

"However, the tower that we were pulled out should be unguarded. If it is an individual, it can be dismantled. I guess this person should be a spy of the Tang Dynasty, no matter how much, kill it."

Under the chaos of the Zhou Dynasty, it was directly smashed to the bottom of a sentry tower of the Tang Dynasty.

The sentinel tower of the Datang Dynasty, each with 50 guards, but one or two towers at the top of a sentry tower can not stop the chaos.

Soon, all the people on this tower were killed by the chaos and three others.

"Hey!"

When the town tower stone on the top of the tower collapsed, a sound was heard in the sky.

"The first town tower stone of the Datang Dynasty was destroyed!"

Now, it's leveled!

.....

At the same time, in the Great Zhou Dynasty site.

Tang Tian, the prince of the Tang Dynasty, has already entered the enemy's abdomen with a few masters. He first heard the first news and was shocked at the time.

It was a good thing that someone had destroyed the tower of the Great Zhou Dynasty before him.

However, the next moment, he suddenly reacted.

He is also the strongest who brought the two peaks of the real thing to cross the river. The big troops are still estimated to be behind. However, even if someone found the sentry tower of the Great Zhou Dynasty before him, there are only two possibilities.

First, there was a spy inside the Great Zhou Dynasty, and he broke the town tower stone.

Second, there are masters among the people of the Tang Dynasty.

Soon after this sound began, he heard the news that his own town tower stone was destroyed, and immediately said: "No matter, continue to find!"

The town tower stone, but the key to this battle of the dynasty, this is not more than who to dismantle, but who is the first to be dismantled.

There are masters, but good things!

Two hours later, Tang Tian also found another sentry tower, and it was also an unguarded sentry tower.

"The second town of the Great Zhou Dynasty was destroyed!"

After hearing this news, the chaos in the site of the Datang Dynasty was a surprise.

Within two hours, two towers were destroyed, and the two towers were far apart, so it was impossible for the same team to do it. "Damn, Tang Tian, this guy actually acts alone!"

After a week of speculation, I guessed it, and then said directly: "You three, split up, if you find it, you will be able to fire."

"Yes, Your Highness!"

The three warriors who are in the realm of the Yuan Dynasty nod their heads, and then they turn around and leave. If they act together, the consequences may be unimaginable.

.....

It took another few hours.

After removing the first tower of Ye Xuan, he found another one. However, he found that the town tower stone at the top of the air tower had been destroyed.

"Is it Tang Tian?"

Ye Xuan looked around at the top of the tower.

Before he came from the edge of the valley, the first one was removed, which is the one closest to the edge.

The one I found now is the one closest to that one.

So it seems that Tang Tian should go to the tower in the middle.
