

## Super D. S 170

Chapter 170: One person split tower

"If the Great Zhou Dynasty really only guards two sentry towers, then it must be two on the other side. If one falls, you can immediately support the other one."

Ye Xuan's mind floated a picture.

Assume that the first sentry tower that he demolished is No. 1, and the one under his foot is No. 2. Then Tang Tian should go to No. 3. On the 4th and 5th, it should be the sentry tower guarded by hundreds of people in the Great Zhou Dynasty.

"Hey, twenty teams, the towers guarded by four hundred people, can't let Tang Tian \*\*\*\* it."

Ye Xuan thought about it, and then confirmed the direction, it was quickly swept out.

Hundreds of geniuses must be extremely rich. If he can dismantle a man who is guarded by him, he will be able to upgrade.

At the moment, he is heading towards the other end of the valley. This time he is going to the 5th tower, because Tang Tian has been away for two hours.

Ye Xuan estimates that he can find the No. 5 tower in one day, and then spend some time consuming the other party, then he can break through to the real world.

In fact, at the beginning, Ye Xuan had a plan, that is, but the river, directly killing others to upgrade. However, this method is too ferocious and it is easy to expose identity.

After all, this is not a battle, but also a second game.

In the event that he reveals his identity, he is not afraid of himself, but Zhao Pan and Jiang Xian are afraid to become the target of everyone, so he does not dare to come.

However, a few hours after he left the tower 2, a sound was heard in the sky.

"The second tower of the Datang Dynasty was destroyed."

Upon hearing this news, Ye Xuan's feet were also a meal.

The five towers of the Datang Dynasty were guarded, but two town tower stones had been destroyed. This means that hundreds of people should have died.

However, the number of people is nothing, after all, it will not be flattened under normal circumstances.

Shortly after this news, the third tower of the Great Zhou Dynasty was also demolished. It should be done by Tang Tian.

At this time, the chaos in the site of the Datang Dynasty, panic.

There are only two left in the Great Zhou Dynasty, and there are three in the Tang Dynasty, and they are still guarded.

If you continue this way, I am afraid that he will lose.

However, if he rushes back now, I am afraid that it will take two or three days, and it is too late.

So, can only fight!

"The third town of the Datang Dynasty was destroyed!"

When this sentence resounded through the sky, everyone's nerves were stretched to the extreme.

This battle of the dynasty is already in the heat, and no one will think that this is the last three days.

It is estimated that after two more days, you will be able to win the game!

In the current situation, the Datang Dynasty occupied an advantage, but the remaining two towers of the Great Zhou Dynasty were not so easy to take.

After a day of rushing, Ye Xuan finally found the No. 5 sentry tower of the Great Zhou Dynasty.

At this time, he can clearly feel that he has a lot of people inside and outside the tower, at least one hundred.

"There are too few people. There should be only five squads. It seems that the remaining 15 teams are all guarded at Tower 4. Oh, if you rush in directly, I am afraid I will be besieged and I must consume it a little bit. Their fighting power."

He had previously gone to the tower and understood the internal structure of the tower, so he guessed that there should be about 50 people in the tower and 50 outposts.

Therefore, his purpose is to clear the first 50 people.

If it was before, he did not have much confidence in facing so many people, but now he is already a breakthrough. Even if it is a chaos, I am afraid that there is no way to take him. Therefore, he directly kills him.

"There are enemy attacks!"

Immediately after the death of several warriors, some people violently shouted.

These people are scattered widely, so Ye Xuan can't kill nine people at a time, but it doesn't matter. Killing these people is only a matter of time.

"call out!"

"call out!"

"call out!"

A cold road flashed through, the roar of the forest continued, and the riots were not in the air. In less than a moment, a large piece of trees fell.

Because of the relationship during the day, Ye Xuan has been discovered, and at least 20 people are behind him.

"Forget it, don't fight guerrilla warfare, come and fight!"

Ye Xuan suddenly put away the chasing star bow, the next foot, and then the body shape quickly swept back.

"Bunny scorpions, give me death!"

Ye Xuan shouted and suddenly swept a sword.

Spiritual martial arts, a word of glory!

This huge sniper cut through the silence, and instantly cut off the trees that blocked the road, and the cut surface was very neat.

Some people did not escape and were directly split into two halves.

Some people feel the power of this real element, and immediately shouted: "It is the strongest of the real thing, go back and ask the master!"

"Want to go, I asked if I didn't!"

In the meantime, Ye Xuan is incarnate as a big killing god.

"Floating hand!"

"A word is awesome!"

"Wanhua sword!"

"The tiger and the wolf roar!"

No one can pick him up, and after a move, someone will fall.

Within ten seconds, the more than twenty people who were chased were all tragic.

Ye Xuan's hands and feet were also very arrogant, and they quickly collected the things of these people and then swallowed them directly.

The phagocytic system has a troublesome place, that is, it cannot directly devour the things of the Qiankun ring, and must be poured out. If there is something in it that is swallowed up, then the things inside will disappear, I don't know where to go.

After devouring the things of these twenty people, Ye Xuan's real strength has also improved a lot. At this time, his engulfing points have reached more than nine million, almost a million.

Then he returned to the tower.

"Since it is here, why not dare to show up?"

Suddenly a violent sizzling sounded, Ye Xuan looked across a hundred meters, I saw a figure appeared at the entrance of the stone tower, it should be a true Yuan dynasty peak.

"Don't dare?"

Ye Xuan sneered, and went straight out.

The strongman of the Great Zhou Dynasty was shocked when he saw him. There was only one person?

"As for you?" This is the real power of the peak of the peak of some accidents, just dare to come alone, really looking for death.

"Yes, I am one, but how do I feel that I can kill all of you alone?" Ye Xuan suddenly laughed.

"Hahaha, laughing at me, one person wants to destroy all of us?"

Someone suddenly laughed.

"Tang Tian, the prince of the Tang Dynasty, I have never seen it, but I have seen his portrait. If it is Tang Tianlai, we may not be able to stop these people, but you are not him." The warrior shook his head.

"Yes, I am not Tang Tian, but I think, I can destroy you." Ye Xuan said, but also directly took out the cold light sword.
