Chapter 172: Sneak attack

However, things will not always be smooth sailing.

When Ye Xuan found the last sentry tower of the Great Zhou Dynasty, it was more than three hours. At the same time, fighting had already taken place under the tower.

"Sure enough, Tang Tian, Grandma's, can't be robbed by him too much, kill!"

Ye Xuan did not hesitate, but directly killed.

At this time, under the No. 4 tower of the Great Zhou Dynasty, there have been hundreds of battles.

Tang Tian, the prince of the Tang Dynasty, was rushing toward the sentry tower under the guard of the strong elements of the two peaks.

Before Fang Caixuan came out, he also explored it. He found that there were more than two hundred and fifty people under the tower, and the three towers were protected in three layers and three floors.

Even Tang Tian can't stand the attack of so many people. If you want to go in, you still need to spend a lot of time.

"His Highness, this time we broke through more than 30 people, almost, and then retreat and recover, otherwise the real yuan is not enough."

The true Yuan Jingfeng of a Datang Dynasty said.

"No, victory is in front of you. This is the last tower. As long as the town tower stone is destroyed, then we have the opportunity to enter the heavenly palace, but it is the temple of heaven!"

Tang Tian shouted.

He is not someone else, but the Prince of the Tang Dynasty, and he even represents what the House of Heaven represents.

Before he was assessed, he was tested for his outstanding talents. Even if he did not participate in the assessment, he could be directly admitted to the government.

However, he resolutely participated in the assessment.

Because, in the Datang Dynasty, there have been many people who have entered the Lingxiao House for many years. However, no one has entered the house of heaven.

As long as you can enter the Tianzhifu, the pattern of the entire northern region will change.

"The fourth town stone of the Datang Dynasty was destroyed!"

Just then, the voice of the examiner sounded in the sky.

After hearing this sentence, Tang Tian's eyes also became firm and shouted: "Can't retire, kill all the way!"

The two guards looked at each other and finally nodded silently.

They are also from the Datang Dynasty, and they are still trained by the royal family, so they are extremely loyal to Tang Tian.

"kill!"

Tang Tian violently screamed, directly against the numerous swords, slowly approaching the stone tower.

However, at this time, there was a roar of noise and screams from some people.

"Everyone is careful, there are enemies!"

When this sentence fell into Tang Tianyin, it also made his eyes shine.

Did the people of the Tang Dynasty finally come?

"Haha, victory belongs to me, kill, kill, kill!"

The morale of Tang Tian and the other two people rose.

The man who suddenly came out was naturally Ye Xuan, but he was killed from the back of the enemy.

Tang Tian is the prince of the Tang Dynasty, with countless wealth, what he wants, and what the royal family will give him.

Ye Xuan is different. He is only a small person. He has to earn money by cultivating resources. Therefore, every time he kills one person, he must collect the Qiankun ring.

"Floating hand!"

"A word is awesome!"

"The tiger and the wolf roar!"

"Wanhua sword!"

Ye Xuan is also a crazy killer. He joined the battle for only ten seconds, and he has already killed more than 20 people.

The unparalleled speed and the lotus armor of the real element of the true Yuan dynasty made him fearless of anyone's attack.

As he kills, he leans toward Tang Tian. As long as the two join hands, they can directly rush into the stone tower.

Now, the fourth town tower stone of the Datang Dynasty and the Great Zhou Dynasty has been destroyed. Although the former has just hinted, it cannot be taken lightly. After all, is it a two-pronged approach?

Maybe, the people of the Great Zhou Dynasty have already attacked the bottom of the fifth town tower.

Therefore, it must be quick and fast!

Tang Tian seems to have the meaning of meeting with Ye Xuan, approaching Ye Xuan.

After half a minute, they also met successfully.

But when Tang Tian saw Ye Xuan, he was shocked. Although this face is strange, he can sense the identity token of the Datang Dynasty worn by Ye Xuan.

It is your own person!

"How come you are?" Tang Tian shocked.

Ye Xuan's heart snorted and shouted: "I am one, enough!"

After all, he is a sword.

"A word is awesome!"

Zhongpinling-level martial arts, together with the realm of the peak of the true Yuanjing, let this 斩 directly put a few people into the waist and become two.

This trick is very easy to use, but the only drawback is that after using it once, the meridians will be blocked and cannot be used continuously. It takes a period of time.

"Good, he is not the person of the high empire, where did it come from?"

Tang Tian was very strange to Ye Xuan's face. At the moment, his mind flashed a thought.

"Is it true that this person is a person of the Great Zhou Dynasty, pretending to be my Datang Dynasty, first approaching me when killing chickens and monkeys, then attacking?"

Tang Tian's eyes suddenly condensed.

If this is the case, then it is dangerous.

"Brother, help me open the way, I have to rush up!" Tang Tianchong Ye Xuan shouted.

"no problem!"

Ye Xuan said very refreshingly, directly put the cold light swords up, and then rushed to a point, began to be crazy.

"Floating hand!"

"Floating hand!"

He began to use Zhongpinling martial arts to open the way, to fly people, and to open a road to the entrance of the stone tower for Tang Tian.

Tang Tian is also killing while thinking in his heart.

Ye Xuan's strength has already made him jealous. If Ye Xuan is really a big Zhou Dynasty dynasty, he suddenly attacks him at an important moment, then...

"No, Ning is wrong, not let go!"

Tang Tian's heart has already made a decision. As long as Ye Xuan helps him to open the road to the bottom of the stone tower, then he can rush to the top of the tower alone, without the help of other people.

As long as the road is through, it is when he shot and killed Ye Xuan.

However, at this time Ye Xuan did not know his plan, but did his best to help him open the way.

He killed one person with one punch, and the method was extremely hot.

If it is normal, there will be no doubt, but now in the battle of the dynasty, sacrifice so many people, in exchange for victory, what can be?

Tang Tianyue thinks that the more wrong, the left hand is already secretly cohesive.

With the addition of Ye Xuan, Tang Tian's pressure was much less, and soon it rushed to the bottom of the stone tower.

"Well, you go up, I will block you!"

Ye Xuan turned innocently and shouted.

"Thank you!"

Tang Tian thanked one sentence, that is, a step rushed up, but when he passed Ye Xuan, he suddenly burst into a punch.

"Top grade martial arts, Fengyun palm!"

This Tang Tian suddenly shot, but out of Ye Xuan's expectations, but the latter's reaction is not slow, and completed a series of actions in an instant.
