Chapter 1761: Devouring land

When Hua Yuwang led the main government, Ye Xuan felt a strong breath, but after he was transferred to the North Emperor, he almost could not breathe.

You must know that the universal realm among the emperors is the devil king. When the devil is gone, he is not enough to see the emperor, not to mention the e-to the immortal, even the demon is not in sight.

Fortunately, there is a rain in the north, otherwise Ye Xuan may be on the ground if he is afraid to settle down.

"Go, I will take you to the border to transmit the array!"

North Minghua rain did not say anything, directly with Ye Xuan came to another transmission array.

On the road, many people sensed the identity of Ye Xuan Xiu Xian, and could not help but cast a strange look.

How do you know such a cultivator?

Moreover, the realm is still so low?

However, they did not dare to speak because they were following the bodyguards of two nine devils.

"Here, you can pass to the border of the magical king, but your identity as a cultivator will probably become a street mouse."

After the North Minghua rain is over, he is directly facing the person behind him: "Wing wind, you send him in the past!"

Wing wind, which is the general manager of the flower rain king collar, nine products demon.

Although this strength is the existence of the bottom of the North Emperor, but going to the mixed king, it should not be a problem.

Although the mixed king is one of the 18 kings of the Shura Emperor, but the realm is the lowest one, the other 17 are the nine devils, but he is only the three devils, so the mixed king is also called It is the most promising king.

Of course, most of them are mocking.

"No, I just want to experience it." Ye Xuan directly refused.

Bring a person, how can he upgrade?

"In this case, I don't have much to say."

North Minghua rain did not continue, in her impression, Ye Xuan is not a stupid person, it should not be so easy to fall.

At this time, Beiming smoked still cast a look at the North Minghua rain, trying to convince the latter, but the North Minghua rain firmly refused to let Beiming smoke away.

"Hey!"

The transmission array began to operate, and Ye Xuan stood in. After a while, he was transferred away.

The foothold is the king of the magical sun, this is a king collar similar to the flower rain king collar, the lord is a demon king.

Now Ye Xuan is a four-product Taiyi to Xian. The old tree, the Shura ghost and the Megatron are all eight Taiyi to Xian. It is estimated that in a few days, they can break through again.

Therefore, Ye Xuan decided to act after the breakthrough, after all, time is abundant.

After a few days.

"Hey, the host breaks through, and it's currently five products, too, to the fairy!"

"Hey, Shura Ghost, Megatron, Yanyin Ghosts break through, currently the nine products are too B to the fairy!"

The old three trees, all of which broke through to Taiyi to Xian, only one step is Xianjun.

"This demon king is the lord of the North Emperor, I will pass quickly."

Ye Xuan's eyes glimpsed and thought in her heart.

The Northern Emperor is the father of Beiminghuayu, and the North Minghuayu is the fiancée of the mixed world demon, so the North Emperor is the father-in-law of the mixed world. It was not good to rob the friend's site, so Ye Xuan decided to leave quickly.

However, there are still many people on the way to die. Although he does not take the initiative to ransack, but some people come to die, he still refuses.

When he passed through the collar of the Emperor of the Sun, he came to the Red Cloud King of the Shura, and his realm was raised once again. At this time, he was the Sixth Taiyi to the Immortal.

As for the old tree, Megatron and Shura ghosts, they have already broken through to Xianjun.

However, this strength is not enough to find a small devil.

"Go, looting begins!"

Ye Xuan's eyes glimpsed and began to follow the plan. His plan was to rob all the red clouds.

As long as the looting is completed, then he is almost enough to go to the mixed king.

In fact, he does not need to be guilty of the heavenly treasures. After all, those things given by the North Minghua rain are enough for him to break through to the demon.

What he needs now is time!

However, he felt that the closure was really difficult, so he went out to stroll.

The old three of the trees are now Xianjun. According to the demons, that is the demon.

They are superior in fighting power, and if they join hands, even if they are the seven-character, they will not be able to kill them. Instead, they may be killed.

This strength, although it is impossible to sweep the red cloud king collar, but just give him time, then it will do.

After a few days.

"Hey, the host breaks through, and it's currently seven products, too, to the fairy!"

"Hey, the Yan Ghosts break through, and they are currently the second-class fairy!"

"Hey, Megatron breaks through, and is currently the second best!"

"Hey, Shura ghosts break through, currently the second best!"

Several people broke through again and their strength skyrocketed.

However, just as he was about to continue his looting, he found an interesting map from a ring.

"The land swallowed?"

Ye Xuan brows a pick.

He is in the immortal engulfment system. If there is no such magical thing, he can't fly to the fairy world. It may still be a waste.

Therefore, he is very sensitive to the two words!

This map shows that there is a place in the northwestern part of the Red Cloud King's collar called Devouring, and there are instructions on it.

The land that was swallowed was smashed by a powerful king-level fairy beast, and the entrants were all dead, and even the lords of the Red Cloud Kings were to be jealous.

Seeing this, Ye Xuan's figure trembled.

How long has he not seen the swallowing beast?

This king-level fairy, all-encompassing, is it difficult to achieve the devouring beast?

As long as he can kill this king-class fairy, he can get a little swallowing point, and then he can strengthen the blood and make him stronger.

"If you swallow the beast, let me see if you are right?"

Ye Xuan's eyes slammed and hurried toward the northwest corner of the Red Cloud.

This red cloud king collar is still big, Ye Xuan all the way to use the rising fairy to climb the road, but still spent a lot of time.

When he arrived at the land where he swallowed, it was already a breakthrough to the eight-character Taiyi to the immortal, and the old three of the trees were the three-character fairy.

This realm is enough to be in the middle of the Red Cloud King!

However, when he arrived, at the sight of insight, he discovered a demonic who escaped from the community.

"The strongest, it seems to be three nine-character demon, is it to enter the land of devouring, killing the fairy beast?"

Ye Xuan's eyes glimpsed and thought in her heart.

Jiu Pin Mojun, and still three, plus other people, this strength is enough to compete with a demon king.

Such a team, each face is gloomy, like a **** with a fire and quickly leave the swallowed land, must be scared by the fairy beast.

Seeing this, Ye Xuan couldn't help but be curious. He wanted to go into the swallowing place to see if the horrible fairy beast was the swallowing beast he was looking for.

However, before this, they have something to accomplish.

Chapter 1762: Black big fat dragon

"Tree old, Shura ghosts, Megatron, one, one does not stay!"

At the moment, Ye Xuan is giving orders to three people.

What about the three nine-character monsters?

"The soul of Yanming Town!"

"The Eye of Shura!"

At the moment, Shu Lao and Shura Ghost are directly opening big moves.

The effect of this soul town is similar to that of the Kowloon Thunderbolt. However, it is more practical than the Kowloon Thunderbolt. In addition to absorbing attacks, someone nearby will die and it will increase.

As for Megatron, it is turned into a lightning token.

This piece of lightning token, called the Order of Heaven, will be attacked by Megatron.

Heavenly condemnation, that is, the thunder of heaven, the power is extraordinary.

"Booming!"

The weather in the clear sky suddenly became clouded, and then there was a thunder of heaven.

The attack speed and power of the sacred thunder will increase with the realm of Megatron. Now Megatron is the realm of Sanpin Xianjun, and his goal is the seven geniuses.

So, one by one!

"Hey, the host's killing value is improved! Hey, the host's killing value is improved!"

The Shura Ghosts have not yet entered the enemy group, and Ye Xuan's mind has sounded one after another, and the killing value has begun to skyrocket.

When these people die, they have gains on the soul of the town and the eyes of Shura.

Not only that, but Ye Xuan's killing and engraving also condensed, and instantly condensed into six killings.

"Five times, killing state!"

Ye Xuan's brow picks up and immediately consumes five killing marks, which directly increases the strength of five times.

He is only eight products from Taiyi to Xian, and has increased his strength by five times. He can't cross so many realms and fight with the Seven Devils.

However, five times the strength, for the magic weapon form of Megatron, is effective.

In short, the power of the sacred thunder has increased by five times!

"Inflammation locks the soul chain!"

"The Nether is broken!"

"The Eye of Shura, Shurao Light!"

Shu Lao and Shura Ghost are also close to the enemy and attack directly.

Because of their realm, so no one put them in the eye, they are escaping, how can we still have time to manage Ye Xuan?

Even if it is a six-character demon, I am afraid that no one wants to kill and then collect the Qiang Kun ring. After all, the fairy beast in the swallowed land is too horrible to escape.

As a result, I gave Ye Xuan several chances.

Although the Shura Ghost Respect is only a three-pronged immortal, but the strength is strong, only one Shura Shengguang, killing more than a dozen people.

At the same time, the old tree also rushed into the crowd, breaking the power in the soul of the town.

"Hey!"

A loud noise spread.

Among the team of the cultivators, there are only a few eight demon lords and three nine geniuses.

Moreover, after those people died, the eyes of Shura, the Shura ghosts, were saved.

"who?"

When I saw the moment of the seven-character demon level, even the eight-character demon died two, and the rest of the people all showed their strange colors.

Nima, how many more have this been?

Not waiting for them to be surprised, the old tree and the Shura ghosts once again shot.

"Inflammation locks the soul chain!"

"The Eye of Shura, Shurao Light!"

"Thunder of Heaven!"

Under the combined action of the old three trees, there are three eight-character demon.

At this time, there are only three nine-deviled monarchs with injuries, and two eight-character monarchs.

"Still, you are looking for death!"

Three nine-character monarchs were furious and decided to shoot.

The original three old three-class Xianjun, is not qualified to let them shot, but the strength of the old three is too strong, even more than a few realms have killed seven demon, even eight treasures.

If they don't shoot again, they will also be threatened!

In an instant, these people are fighting with the old three trees.

This time, Ye Xuan can no longer charge the Qiankun Ring as before, and then suddenly break through.

Even so, the old three trees have the ability to deal with these three nine-devils. After all, the other side is wounded, and the strength is much worse than the wind. Even if everyone adds together, However, the first dry wind under the north will be the wind.

The old sneak attack on the tree, the repairing ghosts are hard-hitting, and Megatron constantly attacks with the thunder of the heavens, and no one will notice him.

Ten seconds later, the remaining eight geniuses were all fallen, so that only the three nine geniuses were left.

However, it was at this time.

"Roar!"

Suddenly a terrifying growl fell into the ears of everyone.

After hearing the sound of this shock, Ye Xuan hurriedly turned his head and saw that in the eyes of the insight, he saw a fat figure slowly approaching.

This speed, I am afraid it is not as good as a nine-devil, but its shape is terrible.

"No, the dragon is here!"

The three nine-character monarchs changed their faces and quickly fled.

"Dragon Dragon?"

Ye Xuan heard the words and quickly marked the black big fat dragon and glanced at it.

This big fat dragon does have a symbol!

However, this symbol is not all engulfing the symbol, but an extension of the engulfing symbol.

"You can find the phagocytic symbol in this symbol, but it is a few more than the phagocytic symbol. Although you don't know what it is, it must be related to the sacred phagocytic system!"

Ye Xuan is almost certain.

This black big fat dragon is the landlord of the land swallowed, and it is also what Ye Xuan is looking for.

However, it has just appeared, it directly scared off three nine-character demon, the strength is probably extraordinary.

At this time.

Still not waiting for Ye Xuan to think about it, this big fat dragon suddenly opened his mouth and suddenly sucked.

An invisible force directly enveloped the three nine-character demon kings. Not only that, but even the old trees, the Shura ghosts and the Megatron were locked.

Only Ye Xuan, standing in the same place!

"broken!"

The three nine-character monsters were in shape and their faces changed.

In the next moment, their figure was quickly retreating, and then they were sucked into the mouth of this black big fat dragon. Even the old tree, the Shura ghost and the Megatron were hard to escape.

"I rub?"

Ye Xuan was shocked.

"Hey, Yan Ghost is dead!"

"Hey, the sorrowful ghost is resurrected!"

"Hey, Megatron died!"

"Hey, Megatron is resurrected!"

"Hey, Shura ghosts die!"

"Hey, Shura ghosts are resurrected!"

Six consecutive system prompts sounded in Ye Xuan's mind.

In an instant, the old three of the trees all fell, and then resurrected beside Ye Xuan.

It's no wonder that the group of people is so scared that the black big fat dragon is so strong.

However, it was just when Ye Xuan was surprised.

"Hey!"

Suddenly a gust of wind blew.

This black big fat dragon, after swallowing so many people, actually played full.

The wounds of the group were blown by this wind.

Chapter 1763: Guild Warfare

"The Gate of Void!"

Ye Xuan's eyes suddenly turned bright, and opened a door to the void in front of him, blowing into his mad wind and drilling in, but did not hurt Ye Xuan.

"Sure enough, I can bear a little, old trees, Shura ghosts, Megatron, get it!"

At the moment, Ye Xuan is calling the three again.

However, the invincible battle of the sorcerer and the Megatron has been opened. After the death, the effect is gone.

After receiving the order from Ye Xuan, the old three of the trees quickly swept out and directly greeted the wind.

In today's form of Megatron, in addition to the order of the sacred, there is also a split axe.

Shura Ghost directly held the split axe and pointed at the black big fat dragon.

This embarrassment, with the power of open-minded, directly broke the fierce wind, hit the black big fat dragon.

"Hey!"

The black big fat dragon trembled, could not help but scream, and then the wind stopped.

Taking advantage of this opportunity, the old three trees quickly swept past.

"Megatron, the picture of the beast!"

At the moment, Ye Xuan quickly gave orders to Megatron.

The picture of the beast is also a rare magic weapon. As soon as this picture is shown, the strength of the surrounding beasts will be directly reduced by half.

half!

Although the Shura ghosts hold the split axe, the power is strong enough to explode, but the figure of the beast is out, the combat power of the black big fat dragon is directly reduced by half, which is more effective than holding the split axe.

After all, such a tree can also hurt the black big fat dragon!

"This black big flying dragon must be related to the fairy phagocytic system. There may be two or three swallowing points."

Thinking of this, Ye Xuan's eyes could not help but shine.

The swallowing beasts he had encountered before were almost all low-level swallowing beasts, which is a little swallowing point.

Once, he cultivated a devourer to an intermediate level and then got two swallowing points.

This time, this black big fat dragon is a swallowing beast that he has never seen before. Maybe it is a high-level devouring beast?

However, this only swallowing beast is at least the devil level, so Ye Xuan must retreat some, the province is affected.

Only the devour of the beast's phagocytic ability, even the nine devils are dead, Ye Xuan estimated that he was not sucked in, it should be the reason of the Xian phagocytic system.

However, the fat of this black big fat dragon is too thick, and the Shura ghost and the old tree bombarded for half a minute, but it was impossible to break it.

During the period, Shura ghosts and trees all died many times.

Megatron is now a figure of the beasts, which can suppress this black big fat dragon to only half of the strength, but even so, it is not the Shura ghost and the old tree can deal with.

If you look for weaknesses, you can't go from the mouth. After all, when you import, the old tree and the Shura ghost will be directly melted and die.

As a result, Ye Xuan is now unable to help this black big fat dragon.

"In any case, this place of devouring has existed for thousands of years, and it is not in a hurry. After I break through to Jiuyi Taiyi to Xian, I will come back to it."

Ye Xuan's eyes slammed and decided to temporarily evacuate. Anyway, he had marked the black dragon with the death killing order.

"Tree old, Shura ghosts, Megatron, let us withdraw!"

At the moment, Ye Xuan is quickly leaving, and this black big fat dragon has also returned to the depths of the swallow.

As for Megatron, Ye Xuan is the form that allows him to maintain the map of the beasts. After a few days, he can use it again. After all, the map of the beast is a rare weapon.

After a few days.

"Hey, the host breaks through, and it's currently Jiuyi Taiyi to Xian!"

"Hey, Yan Ghosts, Shura Ghosts, and Megatron Breakthrough, currently the Four Pinjun!"

The realm of the four people once again rushed to a realm.

Now, Ye Xuan estimates that the old tree and the Shura ghost should have the ability to hurt the black big fat dragon. After all, various skills have been restored.

At the moment, Ye Xuan is directly leading the trio of the Shura ghosts and enters the land of engulfing.

There is no creature in this devour, and the grass is not born. After all, the black big fat dragon is all over.

After about half a day of driving at full speed, Ye Xuan finally saw the black big fat dragon again.

"Up, do it!"

Ye Xuan said nothing, directly issued an order.

In an instant, Shura ghosts, Shu Lao and Megatron are all rushing past.

The picture of the beast, instant suppression.

This magical figure of the beast is not the same as other magic weapons. It has stability, that is, it will not increase with the realm of Megatron.

However, reducing the strength by half is already very scary.

After the breakthrough of the realm, the old tree, the Shura ghosts, and the first to rushed over.

A few days ago, Ye Xuan observed that this black big fat dragon would only fight after he swallowed something, and then he would exhale a fierce wind.

However, now the old tree, Shura Ghost and Megatron are swallowing it up, but the three are only four good immortals, certainly not enough for it to fight.

Therefore, Ye Xuan is very reassured.

This black big fat dragon also noticed the old three of the tree, the huge fleshy wing, trying to kill the old three of the tree.

If it is the peak period, it can take the tree and the Shura ghosts all over the body, but at this time there is a map of the beasts of Megatron, its strength is only half, so it is easy to be old And the Shura ghosts have escaped.

Seeing that the old tree and the Shura ghost did not die, this black big fat dragon opened the **** mouth and suddenly took a sip.

Three invisible forces shrouded the old tree, the Shura Ghost and the Megatron, and were quickly sucked into the mouth by the black big fat dragon.

However, because Ye Xuan has a senile phagocytic system, this ability to devour is useless to him.

"Hey, Yan Ghosts are dead! Hey, Xiu Luo ghosts die!"

"Hey, the sorrowful ghost is resurrected! Hey, Shura ghosts are resurrected!"

A systematic reminder of the sound, the tree old and Shura ghosts directly fell.

Although the strength of 50% has been reduced, the ability to swallow is too abnormal.

However, Ye Xuan has discovered a little.

After the black fat dragon has swallowed it, he has to fight and release the wind.

However, there is a time lag between the two swallows, so he has to squat for a while, giving the black big fat dragon a heavy blow.

"Do not destroy the soul!"

"The Nether is broken!"

At the moment, the old tree and the Shura ghosts are full of firepower, and the head of the black big fat dragon is screaming.

"Boom!" "Boom!" "Boom!"

A muffled sound spread.

The previous tree old and Shura ghosts can't hurt this black big fat dragon, but now, it is already possessing this strength. Although the damage is not big, it can definitely kill the big fat dragon.

Soon, the fattening of this big fat dragon cooled down, and then he spoke again, and swallowed the old three of the tree.

Chapter 1764: Trial tower system

"Hey, Yan Ghosts are dead! Hey, Xiu Luo ghosts die!"

"Hey, the sorrowful ghost is resurrected! Hey, Shura ghosts are resurrected!"

The death once, the effect of the invincible soul disappeared, but it does not matter, the only round of attack, caused a lot of damage to the black fat dragon.

It's just that today, in addition to the map of the beasts that are maintained, Megatron today has an order of sacredness.

"Thunder of the heavens, bang!"

Ye Xuan's heart is a dark sentence.

The next moment, the sky was covered with dark clouds, and a thunder of heaven condemned.

The head of the black big fat dragon has been broken open, and the thunder of the heavens is directly in the flesh of the black big fat dragon.

This power has already surpassed the attack of Shura Ghost and the old tree, and directly smashed the black big fat dragon.

"Boom!"

Thunder of the heavens, falling one after another.

Although the black big fat dragon's phagocytic ability is strong, but in the face of this kind of attack, there is no way. After all, it is not as fast as a nine-piece monster.

During the time of his imprisonment, although the tree old and the Shura ghosts died several times, it does not matter. Anyway, their task has been completed. That is to break a hole and let Megatron blast.

The painful squeak of the black big fat dragon spread throughout the swallowing land, sounding heartbreaking.

However, in order to swallow the point, Ye Xuan can only choose to kill it cruelly.

Because he didn't need to go into the game himself, Ye Xuan looked at it leisurely. This battle lasted for a long time and it took nearly an hour.

An hour later, this black big fat dragon fell to the ground dying, and then died!

In this hour, it did not know how many rumors were thundered by the sacred, and it was already countless.

If it weren't for Megatron's sacred orders, it would not be so easy to kill this black big fat dragon.

"Hey, the host's killing value is improved!"

A system prompts the sound to prove that this black big fat dragon has died.

At the moment, Ye Xuan quickly swept over and collected the body.

"Hey, the host swallowed a special swallowing beast!"

"Hey, the host comprehends the super devouring skills!"

"Hey, the host opens the trial tower system!"

When the three system prompts to sound, Ye Xuan is in the same place.

It turned out that the black big fat dragon is not an ordinary swallowing beast, but a special swallowing beast.

"Super swallowing allows me to have the ability to use forced swallowing in the air. And this trial tower system..."

Ye Xuan's eyes glimpsed and he quickly checked it.

The trial tower system is to let him go to Shaoguan, the first level is a high level opponent, the second level is the high two level opponent, the third level is the high third level opponent, and so on.

As long as you challenge a layer, you can get a little swallowing point, and this trial tower has no upper limit.

If Ye Xuan has a ten-level challenge, then he can directly get a 10 point swallow point.

Although it was not a swallowing beast, it did not get a swallowing point, but it was swallowed in disguise.

Moreover, if you encounter a special swallowing beast in the future, you can refresh the number of layers in the trial tower.

"Haha, the devour of white flowers."

Ye Xuan couldn't help but laugh.

Now, the crisis of this swallowed land has been removed by him, and he has also opened the trial tower system, so he does not have to leave so soon.

"This trial tower, I see my strength, can not summon pets, or I have to see what my strength is."

Ye Xuan's eyes are slightly stunned.

Trial towers can be challenged once a day. If they win, they can challenge continuously. If they fail, they can only wait until tomorrow.

At the moment, Ye Xuan is putting consciousness into the trial tower.

"Hey, does the host challenge the first trial tower?"

The first layer of trial towers is to challenge people who are higher than Ye Xuan, and each time they are randomly selected, strong and weak.

Ye Xuan is now Jiu Pin Tai Yi to Xian, that is, he will challenge a product Xianjun.

"Yes!"

At the moment, Ye Xuan is choosing to make sure.

"Hey, start to extract!"

"Hey, the host draws the magician!"

"Hey, the strength of the demon is Samsung!"

At that time, Ye Xuan's surroundings changed, and at this time he appeared on an empty platform.

The trial tower must be extracted from the three series of the immortal, the demonic, and the demon, and there will be one to five stars. This time, Ye Xuan draws Samsung, which is ranked among the ones. The person in the middle.

At this time, Ye Xuan suddenly appeared in front of a virtual shadow, and then gradually gaze.

Ye Xuan quickly fixed his eyes and found that he was a middle-aged man in black. The breath of this person is a product of the demon.

"Hey, the trial starts counting down!"

"three!"

"two!"

"One!"

"Start!"

When the system countdown is over, this one-of-a-kind monster is moving. He is a magician after all, so he goes straight to Ye Xuan.

This time, Ye Xuan couldn't use any pets. He could only rely on himself. He immediately gathered out from the fire sword and then pointed at the repairer.

"Oh!"

This flame sword, instantly smashed the sorcerer into two halves, the magic broken, this sorcerer directly died on the spot.

Spike!

"Hey, the host challenge is successful!"

"Hey, the host gets a little swallowing point!"

"Hey, the host can continue to challenge, is it going?"

Hearing this, Ye Xuan's mouth was slightly tilted.

Although the other party is higher than him, but who is he, the leapfrog challenge is no exception.

In the recent period, the old three men have been shot, but this does not mean that his strength is weak, and the first level of killing opponents is extremely easy.

As the challenge succeeded, he gained a little swallowing point, plus two points that were not used before, which is three points.

However, Ye Xuan has not used it for a while, but continues to challenge.

"Hey, the host is starting to challenge the second floor of the trial tower!"

"Start extracting!"

"The host draws the cultivator!"

"The strength of the cultivator is two stars!"

The second floor of the trial tower represents the second product Xianjun, but this cultivator is only two-star strength, weak.

Soon, the trial challenge began, and Ye Xuan's opponent, the second-class Xianjun, directly controlled a flying sword and attacked Ye Xuan.

"Death chase!"

"The eye of assassination!"

In an instant, Ye Xuan directly flashed to the back of the other side, and then stabbed a sword.

"Oh!"

The fire fairy sword stabbed into the other's body, pierced the fairy heart, and burned the effect of the world, and immediately burned the body to burn it, nothing left.

"Hey, the host challenge is successful! The host gets a little swallowing point! The host can continue to challenge, is it going?"

Chapter 1765: Continuous challenge

"Hey, the host challenge is successful!"

"Hey, the host gets a little swallowing point!"

"Hey, the host can continue to challenge, is it going?"

Now, Ye Xuan has four points to swallow.

At the moment, he again chose to agree to the third challenge.

For the third time, a demon person was extracted. The demon person also relied on physical fitness, but the demon person changed one more than the demon person, that is, changed back to the body.

Jiu Pin Tai Yi to Xian, against the four-star strength of the three-star Xianjun, Ye Xuan is still very easy to win.

In this way, it is the five points to swallow.

"carry on!"

Ye Xuan has no nonsense and continues to challenge. After all, the first few are sent points.

The fourth layer is the four-character fairy, this time encountered a five-star difficulty, but Ye Xuan is still not to deal with it.

After winning this battle, Ye Xuan has a six-point swallowing point.

Then, the next step is the fifth-level trial tower, this time Ye Xuan has to face the five-paste fairy.

"If it's just a Samsung, I should be able to deal with it easily. If it is a four-star or a five-star, I will have a card."

Ye Xuan thought secretly.

In the trial tower, it is not the same as the outside. As long as the opponent is defeated, all the skills will be cooled.

Soon, the trial challenge will start again. This time, Ye Xuan has drawn the five-star magic of the four-star difficulty.

"come on!"

Ye Xuan brows a pick.

"three!"

"two!"

"One!"

"Start!"

The fifth trial challenge, finally started!

Before the start, all the skills of Ye Xuan could not be used, and the body could not move. Therefore, after the trial challenge began, he quickly marked the opponent with the death killing order, so that he would be stronger with the opponent.

Moreover, every trial challenge is independent, and every time the hole is used, it will be refreshed.

After the death killing order, Ye Xuan directly applied the cards.

"Kirin down!"

This trick has not been used for a long time.

In an instant, there is a flame unicorn, but this time the flame unicorn is a bit different than before.

"Hey, the host successfully summoned a second-level flame unicorn!"

This system prompts the sound, making Ye Xuan a bit wrong.

Secondary flame unicorn?

He quickly checked it and realized that he summoned all the first-level unicorns, and this time he was able to summon the second-level unicorn, which was the lucky value.

The second-level unicorn is stronger than the first-class unicorn.

This second-level flame unicorn, when it comes down, is the sky of fire, and instantly wraps the entire challenge field.

The sorcerer was shocked and quickly retreated, but even this was burned out by the flames of the second-level flame unicorn.

"Haha not bad!"

Ye Xuanyi opened his mouth and smiled, and quickly flashed behind the five-character demon, and then suddenly glimpsed.

"Thousands of absolutely!"

This move, but Ye Xuan's strongest attack, although a bit of luck, but the other side is only a five-character demon, and his difference between the five realms, this is not too much.

However, this time luck may have been used up, and the second-level ones did not trigger a one-shot killing effect, just triggering a crit.

"Hey!" "Hey!" "Hey!"

Although it was only a crit, it also shattered the armor of the five geniuses and killed him.

Taking advantage of this opportunity, the second-level flame unicorn quickly greeted, and the two front hooves picked up like a horse, and then slammed.

"Hey!"

The chest of these five devils was directly worn by this foot.

Spike!

"Oh, the challenge is successful! The host gets a little swallowing point! The host can continue to challenge, is it going?"

Winning the fifth trial challenge, Ye Xuan won a total of five points of engulfing points, plus the previous two points, then it is seven o'clock.

To open the second sage-assisted bloodline column, it is necessary to have two points of phagocytosis, and to open the second sage level bloodline column, it takes four points.

The second auxiliary bloodline column is a reward for completing a serial random task. Now, Ye Xuan is preparing to spend four points to swallow the second individual blood column.

"What, my current state is not enough?"

Ye Xuan brows a pick, the expression is slightly helpless.

He remembers that he was the time and blood of the time when he was in Jinxian, and he is now only a Taiyi to a fairy, so he can't redeem it.

As for what realm can be, he is not clear!

In desperation, he had to dispel this thought.

Right now, he actually has seven points to swallow, how should this be spent?

"The seven-point swallowing point is best used on the bloodline, so that I can continue to challenge the trial tower, and then I can continue to get the swallowing point, no loss!"

When Ye Xuan thought about it, he made a decision.

Anyway, he has already won, and he doesn't need to immediately decide whether to continue the challenge. Let's take a look.

At the moment, he has a total of four cents of blood, one is the blood of the immortal, the second is the blood of the immortal unicorn, the third is the blood of the blood of the dead, and the fourth is the blood of time and space.

After thinking about it, he added two points of swallowing points to the time of control of time and space.

Before I took control of the time, I advanced it once. Now I have advanced two times. The space velocity in the planting space has increased from 800 times to 1600 times, and then skyrocketed to 3,200 times.

Three thousand two hundred times the space velocity, representing the inside for eight years, the outside world only passed the day.

In this case, it took only two months to complete the practice for more than two hundred and sixty years.

At that time, with the blood of the fallen days, the definition of the environment can catch up.

"It is better to go up to three hundred and two hundred times. It is better to come again!"

Ye Xuan thought about it and spent a little more on it.

Now, the space velocity in the planting space has reached 6,400 times.

However, next, it takes two points to swallow every time you take control.

Taking control of the time, the time-lapse cooling has also been reduced to a day, now Ye Xuan, almost undead.

Even if the three avatars are destroyed, then what happens, as long as the fourth avatar in the mortal world is used back in time, his avatar can still be resurrected.

Moreover, with this time back, he can do a lot of things, such as exploring the road.

"It took three points to master the time, and I still have four points to swallow."

Ye Xuan thought about it and added a bit of swallowing point to the killing mark.

"Hey, killing and marking is a success!"

Killing and engraving is still the first advancement. This has increased the growth rate of the killing state by 20% and reached 1.2 times.

You can also spend four killings to summon a stronger one. You can only consume two times before, summoning two

The immortality of the immortals and the swords of the immortals, naturally it is the power of improvement. As for the fabulous arrow, with the advancement once, from a sacred arrow to two, the power is more fierce, the speed is faster, and there is more penetration effect.

In addition, the upper limit of killing and engraving has reached six.

Chapter 1766: Five-clawed golden dragon!

After the reinforcement was completed, Ye Xuan decided to keep the last three points of the swallowing point and continue to challenge the sixth layer of the trial tower.

The sixth-level trial tower is the six-grade Xianjun level. If you encounter a star to Samsung, if you encounter four stars and five stars, Ye Xuan does not know whether it can be done.

However, as the number of trial towers increases, the chances of encountering one to Samsung are greatly reduced, almost all four stars and five stars.

However, even if it fails, it doesn't matter. After all, it can be challenged once a day. This time it fails, and it will not come tomorrow.

However, this luck is over.

This time, the encounter is a six-character level of the demon, and it is still five-star difficulty.

At the beginning of the game, the other party directly transformed, and the body of the demonist was actually a five-clawed golden dragon.

In an instant, the unicorn that Ye Xuan had just summoned was directly crushed by Jinlong's tail.

"Good!"

Ye Xuan swallowed the swallow and took it out with a sword.

Thousands of absolutely!

Thousands of times, now you can oscillate two thousand times in an instant, and the chance of triggering a hit will increase.

If this shot falls on the five-jawed golden dragon, it may be able to kill it, but unfortunately, this five-clawed golden dragon is fast and quickly avoids it.

Ye Xuan originally thought that this five-clawed golden dragon would directly block the next few. After all, the dragons are all proud. When they see such a weak attack, why should they avoid it?

"Roar!"

At this time, the big mouth of the five-jawed golden dragon suddenly appeared, and it directly spurted a golden dragon.

"not good!"

Ye Xuan's face changed greatly.

This golden dragon has a wide range of interest, and the momentum is very fierce. If he is sprayed to the nine products, it will be broken.

Fortunately, Ye Xuan has various means.

"The eye of assassination!"

In an instant, Ye Xuan came to the back of the five-clawed golden dragon, and then held a right hand from the fire sword, suddenly a glimpse.

"Hey!"

The fire sword fell behind the five-clawed golden dragon, but it was impossible to break its power.

Now the unicorn deterrent skills of the celestial bloodline of the sacred eyes have an effect on the body of the demon slayer. Even so, Ye Xuan's full blow can not break the defense.

The attack power is strong, the speed is fast, and the defense is strong. This is not what Ye Xuan can now deal with.

However, Ye Xuan does not want to admit defeat so quickly. After all, the time in this trial tower is calculated according to the time of planting space.

In the past ten years of continuous war, the outside world has only passed the day. From the beginning to the present, the time of the outside world is almost negligible, so Ye Xuan is not worried.

As long as this five-clawed golden dragon can't hurt him, then he has a hope of winning. After all, he is now concentrating on killing and marking.

As long as Ye Xuan keeps fighting, it will continue to produce killing values. After reaching a certain value, it will condense a killing mark.

Anyway, there is plenty of time, Ye Xuan is here with the five-clawed Golden Dragon.

"Hey, the host has a killing mark!"

"Hey, the host has a killing mark!"

Five consecutive same system prompts sounded, all of which were condensed and killed.

I don't know how long the two played together. Ye Xuan directly condensed five killing marks, and with the initial one, he has six pieces.

"Six times the state of killing, open!"

At this time, Ye Xuan's light flashed, and the breath suddenly rose up.

Don't forget, killing and engraving is once in a while, consuming a killing mark, which can increase your strength by a factor of two.

In fact, he can directly consume all the killing marks, which can directly jump up six times, but still have to keep one, so that you can continue to condense and kill after you continue fighting, without re-use.

If it is killing and engraving all the light, if you continue to fight, it will not produce the killing value, you have to use the killing and engraving skills again, so Ye Xuan left one.

Six times the increase, Ye Xuan's attack has been sharp, and this time, he can finally give this five-clawed golden dragon, causing damage.

Of course, this damage is minimal, just cracking the dragon scales of the five-clawed golden dragon.

This five-clawed golden dragon is tens of meters long. There are countless scales on the body, and the speed is fast. Ye Xuan cannot stare at a scale, so he can only take the form of combat that continues to be consumed.

"Oh, the state of killing disappears!"

After a while, Ye Xuan's killing state disappeared. After all, this has a duration.

Fortunately, not all of them used up, so Ye Xuan continued to condense the killing and engraving, and once again condensed it into six killings.

"The state of killing is not obvious. If so, then come to the swordsmanship!"

In an instant, Ye Xuan also consumed five killing marks and directly displayed the Jianxian sword array.

"Calling!"

The Jianxian sword array began to work. However, this time, it was more effective than Ye Xuan's own five-fold increase in strength. Numerous flying swords attacked, causing a large-scale injury to the five-clawed golden dragon.

"Tick!"

In the whistling sound of the wind, some subtle sounds were captured by Ye Xuan.

Ye Xuan hurriedly turned around and found that he finally really hurt this five-clawed golden dragon. The sound of this tick is the golden dragon blood of the five-clawed golden dragon, which fell on the ground.

It is a pity that even the sacred swords and squadrons could not obliterate this skinny and thick five-clawed golden dragon, but only caused skin trauma.

But what about this?

Ye Xuan now has time, some energy, can not kill once, it is consumed.

Soon, he again condensed five killings and engravings, enough to use the 诛仙剑阵 again.

It is a pity that this five-clawed Golden Dragon will recover its own injuries. At this time, it will return to its peak.

"Mom, it seems that I can't find the magic of it, I can't kill it!"

Ye Xuan is very helpless.

With such a long five-clawed golden dragon, where is the magic hidden?

Moreover, he could not break even the defense of the five-clawed golden dragon, let alone find the magic, and shattered.

"It seems that there is no way. If you play it again, it will only reproduce the present scene. However, after I broke through to Xianjun, the strength has made a big leap, and then I will come back to the sixth floor of this trial tower!"

Ye Xuan brows a pick, the heart secretly said.

This time, the loss did not make him discouraged, because he is only a nine-piece Taiyi to Xian, and it is very good to deal with a five-pronged dragon of the six-character level.

Next, he will not be crossing a small realm, but a big realm, when the strength is rapidly increasing.

Moreover, if you encounter a four-star difficulty, or a cultivator or a cultivator, it will be easier to deal with.

This test tower is on the sixth floor and can't stop him!

At the moment, he took his mind back from the trial tower and summed it up.

This time, he got a total of five points to swallow, plus the previous two points, that is seven.

Chapter 1767: Demon King!

Then, Ye Xuan strengthened the control time of the time and space blood three times, and increased the flow rate of eight hundred times to 6,400 times. At this time, there were four points left.

Finally, the killing and engraving was strengthened once again, leaving three points to swallow.

"First find a place. After I broke through to the realm of Xianjun, I challenged the sixth floor of the trial tower and then swept the entire Red Cloud King."

Ye Xuan made a plan in mind.

The place may not have to be found, but in the land of devouring, no one knows that he has killed the owner of the swallowed land. It is not a problem to rest here for a few days.

After a few days.

"Hey, the host breaks through, and it is currently a fairy!"

"Hey, Shura Ghost, Megatron, Yanyin Ghosts break through, currently the Five Pinxian!"

The original cultivator corresponds to the demon king, but the earliest is the cultivator, and later the cultivator, so the default state of the system is Xianjun.

At this time, Ye Xuan's strength has increased at least several times. Now he has some confidence in the sixth floor of the trial tower. This time, it should be passed.

At the moment, he is beginning to continue to the sixth floor of the trial tower.

"Hey, the host has drawn the immortal!"

"Hey, the difficulty is four stars!"

Since Ye Xuan has already broken through, it is not the Six Devils, but the Seven Pinxians.

However, this does not matter.

"three!"

"two!"

"One!"

At the beginning of the system, Ye Xuan quickly marked the opponent with a death killing order, while the other party also took out a flying sword and took the heart of Ye Xuan.

"Too naive, assassination!"

Ye Xuan's mouth slightly raised, quickly using the eyes of the assassination to flash behind the other side, and then squatted.

"Thousands of absolutely!"

"Hey!" "Hey!" "Hey!"

"Hey, the host triggers a hit and kill effect! The host triggers a hit and kill effect!"

After a fierce shock, the cultivator was directly killed by Ye Xuan, and the effect of one hit and killing occurred twice.

Ye Xuan, successfully passed the sixth floor of the trial tower and got a little swallowing point.

"Not bad, there are four points to swallow, look at the seventh floor of the challenge!"

Ye Xuan opened his mouth and smiled, then entered the seventh floor of the trial tower.

"Hey, the host has drawn the immortal!"

"Hey, the difficulty is five stars!"

The seventh floor of the trial tower is seven levels higher than Ye Xuan, that is, it will encounter opponents of the eight-grade Xianjun level.

Moreover, since Ye Xuan has more than six floors, the next thing to face is the difficulty of five-star strength.

Among the three factions, the cultivators are good at group battles, the cultivators are good at heads-up, and the strength is stronger than the cultivator. As for the third type of cultivator, it is the most powerful one.

Although this time Ye Xuan encountered a cultivation of immortals, but it is not to be underestimated.

"three!"

"two!"

"One!"

After the countdown was completed, Ye Xuan's opponent did not sacrifice the flying sword to kill him like Ye Xuan imagined.

"strange!"

Ye Xuan was a little surprised, marking the other party directly with the death killing order, and then rushed over.

"call out!"

Finally, this cultivator started, and a fierce attack directly hit Ye Xuan.

"The eye of assassination!"

In an instant, Ye Xuan moved to the back of this cultivator and then bowed.

This trick is still absolutely perfect!

However, this cultivator has the same long eyes behind him, and he will avoid the thousands of people without turning around. Then he will come up with a step and instantly pierce the illusion of Ye Xuan.

Until this time, Ye Xuan knew that this cultivator was not an ordinary cultivator.

This person turned out to be a sword fairy!

The cultivators are generally controlling the magic weapon to fight, but there is also a strong branch in the cultivator, that is, the sword fairy.

After breaking through the immortal, few immortals can cultivate swords, and those who can cultivate swords will be called swordsmen.

Sword fairy, but more terrible than the repair of the demon, they can rely on relatively weak physique, and the martial art close combat, even the demon are not afraid.

Ye Xuan is actually a sword fairy, but his realm is too low, so he was killed by the swordsman of the eight-class Xianjun level.

"But, with my current strength, I am afraid I will challenge a hundred times, and I will not succeed. After I have opened up a bloodstream, I will challenge the seventh floor."

Ye Xuan brows a pick.

Now, he has more than six levels of challenges. Of course, it is difficult to try the challenges in the tower. The back is four-star and five-star.

If it is outside, he estimates that he can challenge seven or eight levels, but the premise is that the other party is weaker in the same class.

In short, the trial tower is currently useless, unless Ye Xuan's strength is greatly improved.

"Okay, start now, sweep the red cloud king collar!"

Ye Xuan's eyes glimpsed and started to act directly.

Now the old tree, the Shura Ghost and the Megatron are already five sages, and they are enough to confront the masters of the Devil level.

In the next few days, Ye Xuan was in the shadow of the Red Cloud King, and then caused the attention of the Red Cloud Lord.

The lord of Chiyun is a demon king, and the strength is not bad.

However, his strength is still a little threatening in front of Ye Xuan, but in front of the old three trees, it is simply weak.

At this time, Ye Xuan has already killed the leader of the Red Cloud King, and began to traverse the landlord's territory.

"Where is the mouse?"

A violent scream sounded, and the Red Cloud Lord finally appeared.

A product devil!

"How about the devil, kill you as usual!"

Ye Xuan snorted and let the old tree and the Shura ghosts solve it.

As for him, he is wearing the armor of the mysterious god, and one person singles out countless high-ranking monsters.

After wearing the Xuan Shen Battlegear, Ye Xuan is as powerful as the Devil, and almost no one will hurt him.

The entire Red Cloud King led the main government, messed up!

Within three seconds, the leader of the Red Cloud King was jointly killed by the old tree and the Shura.

"Hey, the host's killing value is improved!"

A systematic reminder of the sound system means that the Red Cloud King's main government is going to perish.

Soon, the Red Cloud King led the main government, and it disappeared. It was directly taken into the planting space by Ye Xuan. As for the high-ranking Monarchs, all of them died.

"Tomorrow, I will probably be able to break through to the second-class Xianjun, almost to the mixed king."

After destroying the king of the red cloud, Ye Xuan thought.

Just right, today Megatron can also turn into a rising step, and the speed is fast.

He estimated that if he is on the road at full speed, it is estimated that he will be able to reach the small devil in five days. Moreover, he can improve again after five days.

At the moment, he is wearing a rising fairy and starting to hurry.

Chapter 1768: Being chased!

After a few days.

"Hey, the host breaks through, and it's currently the second best!"

"Hey, Shura Ghost Respect, Megatron Tianyan Ghosts Breakthrough, currently six products Xianjun!"

The period of the mixed king of the demon king is the three-devil king, so the king of the mixed king he manages is not so strong.

Ye Xuan's strength is enough to be rampant in the mixed king's collar.

"The little devil in the world, in the north!"

Ye Xuan immediately locked the position of the mixed king, and then rushed over, after all, he had a death killing order.

However, during the time when the little demon king went to the fairy world, the king of the mixed kings had no heads, and the various forces were torn apart. Together with the reincarnation, the little devil returned directly after retreating, so the mixed king was very confused.

On the way to find the little devil, Ye Xuan encountered a lot of migration teams, all of which were taken into the planting space by him.

Three days later, he finally came to the vicinity of the retreat of the little devil, but it does not seem to be the lord of the mixed king.

"Strange, the lord's house of the mixed king is in the east, and the mixed king is in the north, and it has been closed for some time."

Although Ye Xuan feels a bit strange, but did not think much, maybe the mixed king does not want to retreat in the lord's house?

However, just as Ye Xuan was about to find the little devil in the world, he felt that the little demon king suddenly moved with the help of the death chase.

Moreover, the speed is not slow!

"what happened?"

Ye Xuan brows a pick, before he went to the devil world, the mixed world demon king has not moved, how he entered the mixed king collar, the mixed world devil ran away?

Fortunately, the mixed world demon king is flying directly in the direction of Ye Xuan. Maybe it is because of the induction of Ye Xuan. After all, the body of the small devil is Ye Xuan's nephew.

At the moment, Ye Xuan quickly greeted him and finally saw the mixed king.

However, at this time, the little devil of the world is extremely embarrassed. His face is pale, his body is wounded, and even the magic wing has broken half.

"what happened?"

Ye Xuan shuddered and hurriedly shouted.

"Your boy is finally here, don't talk nonsense, run quickly!" The little devil couldn't help himself.

"Are you being chased?"

Ye Xuan immediately responded.

At this moment, the mixed world demon king has already returned to the peak, but it is the three-devil king.

Moreover, he is now the source of the source of the devil, the strength is extraordinary, the person who can kill him, the realm may not be weak.

"A group of unidentified people came directly to me, and my good friend, the Great Devil, was killed on the spot to cover me."

The mixed world demon king gave Ye Xuan a voice, and then turned around and saw that there was a group of people chasing after him.

"The realm seems to be not low, at least the three devils, who dares to chase the 18th King of the Shura?"

Ye Xuan can't figure out the situation, but leave and say.

At the moment, he is the empty space to collect the small devil into the planting space.

Now planting space, the flow rate is 6400 times slower than the outside world, and the injury of the mixed world demon king can be quickly recovered.

"Good boy, I am very poisonous now, as long as you give me a while, I will be able to kill all of them!"

The mixed world demon king immediately said after learning the flow rate of 6,400 times.

"Small meaning!"

Ye Xuan's flash of light flashed directly into the void and drilled in.

During the hurry, he will leave a void mark from time to time, so that if something happens, he can easily escape.

In an instant, he is out of the vision of the group of chasers.

In the planting space for nearly two hours, the outside world only passed a second. Ye Xuan left the door of the void and waited for a while.

Fortunately, the injury to the little demon king is not heavy, and he recovered after recovering from the planting space for a while.

"Let me go out and kill them a few!" said the little devil.

"no problem!"

Ye Xuan gave a direct order to break open the void.

At the same time, he let Megatron become a mysterious warrior armor, and set it on the small devil.

The three-devil king level of the mixed world demon king, coupled with the mysterious war armor, the combat power is not a trace of a little bit, less than half a day, the group of people who chased him to kill.

"In the people who came before, there are actually six demon kings. It seems to be from a certain senior king. If it is not the cover of the great demon king, I am afraid I will die too."

Think of the little devil in the heart of the world, and then meet with Ye Xuan.

"What is going on with you?" Ye Xuan asked inexplicably.

"I suspect that it is the body of the source of the Shura emperor, so I am looking for someone to secretly kill me, go first, go to the North Emperor's territory!"

Said the little devil.

"Why are you the source of the source?"

Hearing this, Ye Xuan's eyes were slightly stunned, and this Shura was really powerful, and he even licked his own body.

However, he heard that this matter was very important, so he hurriedly broke open the void, returned to the Red Cloud King collar, and then left again and returned to the Emperor of Shura.

"The matter of the source of the demon, I told the big devil king, perhaps the big devil king accidentally said that he missed his mouth, causing me to be chased. This thing, you must not tell others." The mixed king demon reminded One sentence.

"Where is it going, go to the king of the king?" Ye Xuan asked.

This question, let the little devil of the mixed world pause.

The Devil is his father. Although there was a contradiction between the two, it led to the devil's demon to go to the Shura.

However, they are fathers and sons after all. Now that they have encountered such a thing, the Devils should be able to take them in.

"I used to be poisonous in my body, I am afraid I can't improve anymore, unless there is a master who detoxifies me..."

The mixed-race little devil thought about it and said, "Let's go to the king."

"Well, you are in my space." Ye Xuan nodded, then turned around and left.

The source of the demon has a great relationship, so there are not many people who can trust the devil, and the devil is his father. It should be trustworthy.

As for the North Minghua Rain and the North Emperor, it is estimated that it will not work!

"Right, how is the refining method of the demon?"

At this time, Ye Xuan suddenly remembered one thing.

"My good friend, the demon king, once got the refining method of the demon, but now he is fallen, the body is taken away, I am afraid..."

The mixed world devil is somewhat helpless.

"What, what should I do?" Ye Xuan said quickly.

"This time I was chased and killed, it must be the Shura Emperor, as long as I can find the body of the Great Devil King, it will be fine." The mixed king said.

"Oh, forget it, send you to the king of the sky first."

Ye Xuan shook his head helplessly.

Chapter 1769: Mixed king collar

The mixed king, the devil, is also a friend of Ye Xuan, but also occupies the body of his nephew, he does not help, who helps?

Fortunately, the transmission array that Ye Xuan sent to the Emperor of the Golden Sun was two-way. He could use the previous transmission array to transmit the North Emperor.

Of course, the realm of the transmission array cannot be higher than that of the devil. Ye Xuan is only a second-class fairy, enough.

"Hey!"

The transmission array began to operate, and Ye Xuan returned to the North Emperor.

The mixed-race little devil is now in his planting space, so Ye Xuan is not worried.

"Ok?"

Next to this transmission array, there was a demon who was guarding. After he sensed the smell of a cultivator, he immediately browsed.

"Hey? It was a friend of the Princess of Rain on the same day." The devil recognized Ye Xuan.

"Excuse me, can I send it to the King of the Kings?" Ye Xuan asked directly.

"Do you want to be a devil, can you!" The demon nodded.

"Okay, please help me to transfer to the king of the king!"

Upon hearing this, the demon king of the guards paused and said: "Also ask the adults to wait a moment, I will ask the Princess Raining!"

"it is good!"

Before Ye Xuan sent to the Royal Emperor's collar, it was brought by the North Minghua rain. Now Ye Xuan suddenly came back, so this demon king did not dare to transfer Ye Xuan privately to the king.

The devil is the nine demon kings, and the territory is many times larger than the mixed king. If Ye Xuan goes by himself, I am afraid that I will waste a lot of time, and it is very dangerous. After all, I am afraid to be a demon. Level.

After a while, the devil was asked to finish, not only that, but North Minghua also came to see Ye Xuan personally, and there was also Beiming.

"How come you are back?" North Minghua rain asked a little strangely.

"I went to the Red Cloud King collar. Later, the little demon king gave me a message, saying that let me go to the king of the king and wait for the main government." Ye Xuan said casually.

"Since he has gone out, why didn't my news come back?" North Minghua rain was a bit strange, but just finished, she received a message from the mixed king.

This can be confirmed.

"If this is the case, then I will go to my uncle, wait." North Minghua said.

The transmission array began to run again. There were three people who were transferred this time, namely Ye Xuan, Bei Ming Hua Yu and Bei Ming Smoked, and their destination was the King of the King!

After a while, the transfer array sent the three to the king of the king, and still in the house of the lord.

"Well? The transfer array is running, is the North Emperor coming?"

In the main house of the king of the king, a demon who guards the special transmission array looks at the transmission array somewhat strangely.

The next moment, he felt three breaths, two cultivators, and one cultivator.

"I have seen the flower rain princess!"

The demon king immediately said after respecting the rain in the north.

The transmission array in front of me is specially set up for the North Emperor. It can only be transmitted from the North Emperor, but it cannot be transmitted.

North Minghua rained slightly and said: "Take me to find the lord of the sky!"

"Yes!"

The devil should have a sentence, and then left with the North Minghua rain three.

After a while, the Demon King felt the breath of the North Minghua, and he took the initiative to welcome him.

"How come you rain?"

The demon king is a middle-aged man with a shackle. After seeing the northern scent of rain, he can't help but ask.

"Uncle, I brought a person to see you!" North Minghua said, turning his eyes to Ye Xuan.

The demon king looked down at her eyes and fell on Ye Xuan.

"This is..." The Devils asked strangely.

How can a cultivator of the second grade Xianjun appear here?

"I have seen seniors!"

Ye Xuan hurriedly said hello, and at the same time, he gave a voice to the Devil: "Predecessors, Xuan Xu was chased and killed in the mixed king, suspected to be the Shura emperor, so I took him over."

"what?"

Hearing this, the Devil is very different.

As one of the two most promising kings of the Shura Emperor, how can it be pursued by the Shura Emperor?

"Before I went to the fairy world, my body was destroyed, and then I was born again on my nephew. Unexpectedly, my nephew was the source of the demon, and things were accidentally leaked, so..." Ye Xuan told the story again.

"The source of the devil!"

After hearing these four words, the shape of the demon king once again trembled, which is a very powerful physique.

"Where is he now?" asked the devil.

"Predecessors rest assured that he is on the way, will arrive in a few days." Ye Xuan said.

"Okay, if that's the case, then let's stay first." The demon king nodded.

On the other side, the North Minghua Rain and the North Ming smoked to see Ye Xuan and the Sky Devil King did not speak for so long, knowing that the other party was talking privately.

Then, the Devil King arranged a residence for Ye Xuan, and arranged one for Beiminghuayu and Beiming.

In order not to expose the planting space, Ye Xuan can only be cautious, although the North Ming smoked already knows this secret, but Ye Xuan once negotiated with her, and North Ming smoked also promised not to tell the third person about this.

Of course, Ye Xuan is not afraid of things exposed, because he still has a bug-level skill, back in time!

Ye Xuan temporarily lived in the main house of the king of the king, he was thinking, in a few days to summon the small devil.

period.

"Hey, the host breaks through, and it's currently Sanpinxianjun!"

"Hey, Shura ghosts, Megatron, and the ghosts of the ghosts break through, currently the Seven Pinxian!"

In several system prompts, the realm of Ye Xuan's four people broke through again.

At this time, Ye Xuan was in the third day of staying in the main house of the king. He estimated that the next time, I felt almost the same, and directly summoned the small devil.

The mixed world demon king, currently only the three devils, even the people in the lord's house are higher than him, so his appearance did not attract the attention of others.

"Come with me!"

The mixed world demon felt a bit and found that he was already in the middle of the king's collar, and he went directly to his father with Ye Xuan.

"Predecessors, the thread has arrived!"

On the way, Ye Xuan directly passed the voice to the devil.

As long as he is within a certain distance, he can pass the sound to the demon king. As for the communication magic spar in the hands of Beiminghuayu and others, this ultra-long-distance communication tool, Ye Xuan does not, otherwise he will not be fortunate. I got it.

After a while, Ye Xuan and the mixed world demon king found the devil.

When the two fathers and sons met, the atmosphere was a bit nervous. Although the mixed devil changed his body, the demon king recognized it at a glance.

However, the devil is also a father, so he temporarily removed the previous contradiction and asked: "Is it really the hand of Shura?"

Chapter 1770: Exit, nine devils!

"I am the source of the demon, not to mention the Shura emperor, even the high-level demon, even the devil will be tempted. Moreover, I am now very poisonous, hidden for decades, did not solve, the realm has been Suppressed in the Three Devils, otherwise, I can at least break through to the high-level demon."

Before the mixed world, the little devil came to the devil world earlier than Ye Xuan, but it was impossible for the past few decades. Therefore, there are time gaps between the two worlds of fairyland and demon world.

However, after Ye Xuan heard the words of the mixed little devil, he could not help but be a bit stunned.

The source of the demon, really so powerful?

You must know how long it took for the little devil to occupy the flesh, and he will return to the Three Devils all the way, and if it is not poisoned, I am afraid it will surpass the peak.

Anyway, it's amazing!

"Let me see!"

Do not talk about the devil, go straight to the previous step, for the mixed world of the devil to explore the situation.

After a long while, he slowly said: "You can solve this poison, but I am afraid it will take about a hundred years."

A hundred years?

Hearing this, Ye Xuan's brow was picked. He has lived for 30 years now. It will take a hundred years to solve a poison, and let him not play?

However, if it is placed in the planting space, it will be six days in a hundred years.

It seems that the planting space must be exposed!

Ye Xuan privately discussed with the little devil, and then the latter told Ye Xuan's planting space to the devil.

"The space velocity is 6400 times slower than the outside world?" After the news of the devil, I couldn't help but take a breath.

What is the concept of 6,400 times?

The pattern of the demon world is changeable. It may be changed once in a million years, and the devil is so cruel. The age of the demons is generally small, and it is a master who can live for a million years.

Not to mention the eternal years, the past century, the planting space is equivalent to the past 640,000 years, if it is 150 years, it will be more than a million years.

This is a weapon of cultivation!

In order to prove, Ye Xuan had to put the demon king into the planting space.

If it was before, he couldn't take the Devil, but the planting space now reaches 10, and he can charge 20 people higher than him.

Ye Xuan is now a Sanpin Xianjun, which means that the five magical emperors can be planted in the space, so don't worry about this problem.

The Devil King stayed in the planting space and then returned to the outside world to compare it. It was indeed 6,400 times the flow rate.

"Well, in this case, it takes only six days to detoxify inside."

As long as the detoxification is completed, the mixed world demon king can make a quick breakthrough. With the planting space of Ye Xuan, it is estimated that the realm can be quickly improved. The demon environment is not a problem, or even the demon of the demon.

The reason why the Xiu Luo Emperor shot the devil, is because the source of this source is extremely rare, and very against the sky. The second is because of the fear of the rise of the little devil, and then replaced it.

In the next six days, Ye Xuan stayed in the main house of the king of the king. After six days, the toxins of the mixed king were removed.

At the same time, Ye Xuan himself broke through the realm of Si Pin Xian Jun, and the old three trees reached the Eight Pinxian Jun.

"Grandma's, the toxins have finally cleared, and I have been retreating before, and it seems that I am not doing nothing. In the following period, I should be able to break through quickly!"

In the planting space, the mixed world demon king stretched his muscles and couldn't help but say.

The flow rate of the planting space is more than 6,000 times different from the outside world. The outside world has been planting space for more than ten years. Therefore, the mixed world demon king decided to directly cultivate to the nine-devil king, or the magic king.

Then, go to the Shura Emperor to avenge and take back the body of the Great Devil.

However, this is a relatively long period for Ye Xuan.

Fortunately, there are many good things in Ye Xuan's devouring space, enough for him to continue to break through.

In his current situation, as long as the cultivation resources are sufficient, it can be broken once in about five days.

This mixed-time little demon, closed for half a month, the outside world for half a month, the planting space is nearly three hundred years, at the same time the world of the small devil, directly from the three treasures, all the way to the nine devils.

The source of the demon is just like this!

Moreover, this is still relying solely on Ye Xuan, the planting space of the Xianjun level. If his realm is higher, the world will be more abundant. By the time, the little devil may be the demon.

You must know that the source of the demon's source and the blood of the fallen sky are almost a level.

In the past two months, Ye Xuan broke through to Qi Pin Xian Jun. As for Shu Lao and others, he directly reached the second product.

Now, their strength is enough to wander around the Shura, the Northern Emperor and the Devil's Land.

"Yu Xu, my cultivation resources have been consumed by you during this time. If you want to cultivate to the demon, I am afraid you have to do it yourself."

In the planting space, the demon king said to the little devil.

This time, he also under the blood, otherwise it is impossible to break through to the nine devils in such a short period of time, even if there is room for planting.

However, now that the little devil has reached the nine demon kings, then he can go directly to other demon emperors to ravage and rob.

Originally, if it was before, the mixed king of the devil would definitely go to the devil to kill the emperor. But now Shura Huang actually shot him, not to take revenge at this time, but when?

"Ye Xuan, let's take care of the two, and rob all of Xiu Luo's majesty. After the event, how do I divide you?" said the little devil.

"Is it just one?"

Ye Xuan has some disdain.

Before, they had cooperated once in the fairy world. After the incident, the small devil was divided into ninety-nine percent, and Ye Xuan only scored one percent.

At that time, Ye Xuan's realm was low, so he endured it.

But now, his strength is not weak. If the old teammates join hands, it will be enough to fight against the general nine-devil king. If he does his own, the harvest will be more.

"Don't look at me, I am just a nine-devil king. My strength is probably no less than that under the Shura. If I collect enough natural treasures, I will take the Shura and then become the new Shura. Emperor, no,

mixed king, when I am, I will divide you into half of the territory!" The little devil of the world said vowed.

At this moment, he is eager to break through to the Emperor, so he is divided into one for Ye Xuan. He is interested in the planting space of Ye Xuan. Otherwise, he can act alone.

After listening to Ye Xuan, she couldn't help but silence, standing still and thinking.
