Chapter 1811: Killing the cold star

"Well, things have been solved, but the cold star will not be rewarded, you will stay, you decide!"

Ye Xuan turned his head and looked at Lin Biao and others.

The reason why he solved the crisis for the Lin's Escort is also to look at Ling Kai's face. Otherwise, he is too lazy to use time back.

After that, Ye Xuan is a handsome and handsome back to Lin Biao, Lin Qi and others, plunging into the distance.

This time, he is going to go directly to the Han Xingzong and investigate the black dragon scale. What treasure is it.

In his estimation, the half of the black dragon scale may be the treasure of the cold star sect, but it was stolen by the thief, and then the cold star sect sent a large number of masters to search.

The black man is also the elder of the Han Xingzong. After getting the treasure, he may want to swallow it himself.

It's a bit possible to think so!

However, the specific usage of this half black dragon scale, Ye Xuan still have to look at the cold star.

If you look at their current speed, it will take a few days.

During the period, Ye Xuan's realm was once again elevated, reaching the Eight Pinxian Respects, while the Tree Old, Shura Ghost, Megatron and the Divine God were four, and they reached the Sanpin Xiandi.

The lord of the cold star sect seems to be a two-step half-step real person, the nickname of the cold star is real, the strength is not weak.

However, now, in addition to his two-and-a-half-step real person, the cold star Zongli has only two one-and-a-half-step real people.

With the power of breaking the gods, it is not a problem to destroy this cold star. Of course, Ye Xuan is going to ask the use of the half dragon scale before the annihilation of the cold sect. At that time, it may open the net and spare them a life.

Soon, Ye Xuan arrived at the Cold Stars. This power has only recently emerged, and it is still not weak.

"Since there is strength, then you don't need to shrink, go straight!"

Ye Xuan summoned the old tree, the Shura ghost, the Megatron and the fall.

kill!

In an instant, Shu Lao and others are killing them.

"Who is here?"

The guardian of the cold star Zongshan angered.

However, these disciples are only five or six emperors, and they can't stop the pace of the tree and others.

"Super swallow!"

Ye Xuan is behind the old tree, and they are super-swallowing these people, forcing them to grow into the space.

After the establishment of Han Xingzong for so many years, no one has ever dared to be brazen and arrogant. After Ye Xuan and others rushed into it, some of the nine elites of the Emperor level were killed.

"Where are the rats, dare to... oh..."

When a long-time elder of the Han Xingzong had not finished speaking, he was directly beaten by the tree. At the same time, the arm was directly pulled down, and the 乾坤戒 was taken away by Ye Xuan.

The tree is now the level of the three devils, plus this period of time is enhanced with the soul of the refining pot, the body is powerful, you can easily fight in six realms.

Jiu Pin Xiandi, he is still not in the eye!

The people around them looked silly. They all felt that the old realm of the tree was not high, but it was like this, but it was a fist to fly the elders of the nine-level fairy emperor. How is this possible?

Immediately, there were people who ordered the two elders of the two-step life-class level of the Han Xingzong, as well as the sect of the cold star.

However, at this time.

"Where is the lord of the cold star?" Ye Xuan shouted loudly.

In a short while, there are three figures that have been swept out. They are half-step real people. One middle-aged person has reached the second half of the real person.

"who are you?"

After seeing Ye Xuan, the lord of the cold star could not help but ask.

In the face of this problem, Ye Xuan did not answer, but directly took out the half of the black dragon scales and said: "This half of the dragon scale is in my hand. As far as I know, this was originally your cold star. thing?"

After seeing this half of the dragon scales, the top of the Han Xingzong was shocked.

"You are the thief?" The main body of the Han Xingzong trembled.

"The one who stole the thing, I don't know who it is. Anyway, I got it from your elders of the cold star. No matter what, now this thing is mine. I am coming here, I want to ask you, What exactly is this dragon scale?" Ye Xuan asked directly.

This half of the dragon scale, originally a treasure of the cold star sect, is now even if Ye Xuan got it, even hit the door to ask for usage, it is a bit too mad.

"District Xianzun, dare to talk to the Sovereign?" A half-step real man yelled.

"If you know each other, you will hand over the dragon scales. The sovereign may spare you from death!" said another half-step real person.

As for the lord of the cold star, there is no opening, just looking at it coldly.

An eight-paste fairy, a few three-class fairy emperors, dare to kill the cold star.

If Ye Xuan has no background, this is absolutely impossible!

Not waiting for him to speak, Ye Xuan is cold and cold: "Since you don't say it, then I have to do it myself!"

"on!"

Ye Xuan did not talk nonsense with the other party, directly ordered the tree and others to attack.

"Big words!"

A half-step real-life elder screamed and screamed at Ye Xuan, ready to take back the dragon scales.

But the next moment, he will be miserable.

"The Nether is broken!"

"The grip of Huang Quan!"

"The claws of the demon god!"

The old tree, the Shura ghosts and the falles launched a joint attack. At the same time, the fall was put on the armor of the mysterious god. After the four-character emperor level, she put on the armor of the mysterious god, and the combat power was arrogant.

"Hey!"

In a few dreams, the half-step real man's chest was blown through and fell directly.

When his body fell from the sky, the people around him were shocked and unable to speak, and even the lord of the cold star doubted his own eyes.

Even half a step of real people, was killed by several juniors who did not even have five elites, how could it be?

In fact, the attack of Shu Lao and Shura Ghost is still good, and the real power is falling.

Falling down was originally a day of fox, and a higher realm than the old tree and the repairing ghost, but also put on the armor of the mysterious god.

Her strength has actually been able to fight against the gods of the gods. Of course, this refers to the broken gods who did not wear the armor of the mysterious god.

"Still, look for death!"

The lord of the cold star was furious and directly joined another half-step real person, killing Ye Xu and others.

However, the real hole card is still behind.

"Break the gods!"

Ye Xuan's flash of light flashed, and the sky was appearing next to the falling, and then the mysterious warrior of Megatron was turned and re-set in the sky.

Although it is a four-character demon, but the strength is much stronger than the fall of the five-devil.

"Stunning one hundred and eight sticks!"

One hundred and eight sticks of shadows, overwhelmingly falling, with the speed of lightning, directly hit the one-step half-step real person.

Hey!

This one-and-a-half-step real-life Han Xingzong elder, the body directly burst open, and instantly fell.

Now, the cold star sect is only the two masters of the sect, and it is also besieged by Ye Xuan and others.

Chapter 1812: Extinction dragon scale

"The lord of the cold star, I advise you to take the initiative to surrender, otherwise the next one is you!"

Ye Xuan's voice slowly sounded.

When the Lord of the Cold Stars heard it, he couldn't help but pick it up.

He felt that this time it was really troublesome.

"What do you want to do?"

The lord of the cold star asked the gnashing teeth.

"I said, I came to ask the question." Ye Xuan finished, and again took the dragon scale out.

If it is not because of his low realm, I am afraid to directly kill this cold star patriarch, and then search for the soul.

Although the time in the planting space is very abundant, in the planting space, he can't search for the soul, so it is better to ask questions.

The lord of the cold star thought for a moment, then asked: "If I said it, would you leave?"

"No, at least you have to rob you again and go, but will leave you a life!" Ye Xuan shook his head.

"you....."

The cold star Zongzong is about to blow up, but he feels that he is fighting a few people, but decided to compromise.

"This half-scale dragon scale was accidentally obtained when I was traveling outside. Later, after I realized it, I found that the attack would be more powerful. Unexpectedly, it was stolen by a thief." The lord of the cold star replied.

"Against the dragon scale, it will make the attack more powerful?"

Ye Xuan is somewhat puzzled. Does this dragon scale have such an effect?

"The other half of the dragon scales?"

Ye Xuan asked again.

"The other half, in the hands of my cousin, when we found out, this dragon scale is already divided into two pieces." The main line of the cold star.

"Your cousin? Where?" Ye Xuan's eyes glimpsed.

"I am a man of the wind and fire family, and my cousin is naturally the same, but the family of the wind and fire can be much stronger than my cold star." The lord of the cold star suddenly said.

Ye Xuan knows that the other party wants to use this wind-powered family to suppress him, but this method is of no use.

"Okay, if this is the case, then you will not be destroyed by this cold star, but..."

Ye Xuan said, his mind was moving.

The next moment, the broken gods suddenly shot.

"what?"

The lord of the cold star did not expect Ye Xuan to rebel, but he did not know that Ye Xuan was playing a word game.

Han Xingzong, Ye Xuan does not die, but Ye Xuan wants to give the entire Han Xing Zong to receive the planting space.

The sacred fire was fully opened, and the lord of the cold star was kept in an instant, and then was severely wounded. It was forced into the planting space by Ye Xuanwei.

Then, the other people of Han Xingzong were naturally taken into the planting space.

Once in the planting space, life and death can not help them. Now, even if Ye Xuan, there are ways to deal with this cold star patriarch.

"The wind and fire family, with four products and half-step real people, the cousin of the cold star patriarchal master is more and more, is the young master of the wind and fire family, three products and half-step real people!"

Ye Xuan said secretly.

The four-product half-step real person is not what he can currently handle, but it will suffice to give him some time.

"This half-scale dragon scale, I did not expect to have such an effect, I have learned for a while, attack will have a strange black energy, make the attack power stronger!"

Ye Xuan is very surprised.

He didn't find it before, but now I want to come. In the attack of several half-step real people, it is indeed mixed with such a ability. At that time, he thought it was the reason of the cold star sect.

At the moment, Ye Xuan is letting the old trees, Shura Ghosts and others participate in the dragon scales. This time, I did not expect to have such treasures, which can improve their overall combat effectiveness.

Han Xingzong is a long way from the wind and fire family, but with the speed of the tree, seven days is enough.

After a few days.

"Hey, the host breaks through, and it's currently a nine-piece fairy!"

"Hey, Yan Ghost Monarch, Shura Ghost Respect, Megatron, Breaking the Gods, Breaking, is currently the Four Emperor!"

Ye Xuan and others broke through again.

Nowadays, they have no shortage of cultivation resources and can break through every once in a while.

Although there is a magic value, his upgrade speed is now much faster than before.

Soon, he came to the wind and fire family.

This wind-powered family is not weak, and it is a hundred times stronger than the Han Xingzong. If it is rushing in, I am afraid it will not work.

Therefore, Ye Xuan decided to find the cousin of the lord of the cold star and then control it.

Originally, Ye Xuan wanted to control the lord of the Han dynasty. The difference between Ye Xuan and his realm was too great. The eyes of the soul could not be controlled, so only other methods could be used.

Fortunately, there are some younger generations who have not yet reached the Emperor.

"Hey, take control of success!"

Ye Xuan casually controlled one person, then pretended to be his appearance, mixed into the family of the wind.

"The person controlled by me is called Feng Huo Yuan. The age is too low. It is estimated that the wind is not the best..."

Ye Xuan thought secretly.

He is now turning around in this windy world. After spending a day, he has not found a way to get close to the wind.

In this case, it can only be troubled!

"The tree is old, you will be eyeing the three products and half-step real people, find the more wind and fire."

Ye Xuan said to a few people.

"understand!"

The tree nodded old.

Half-scale dragon scales have such an effect, and if they are combined, the effect is definitely greater.

After the appearance of Shu Lao and others, it was locked in the breath and swept toward the nearest San Pin Real.

As for Ye Xuan, it is to continue to choose to hide.

"who?"

Suddenly there was a strange atmosphere over the wind and fire family, which immediately caught the attention of the masters of the wind and fire.

At first, there were some high-ranking emperors, but these people were not the enemy of the old ones, so the next step was the half-step real-life level.

The four-character emperor-level tree is old, and its strength is already comparable to a half-step real person. It can be compared with the two-product half-step real person, plus there is also a broken bottom card, they have Spike the strength of three products and half-step real people.

After all, this has not added the mysterious war armor.

The three-in-one real-life of the family of the wind and fire, a total of three, so Ye Xuan has a one-third chance to find.

However, his luck is not very good. The first one is not the wind, but the others.

Although Ye Xuan really wants to transfer the target, this three-product half-step real person has already been entangled with him, so Ye Xuan has no choice but to summon a broken **** to fight it.

However, between them, the ancestors of the wind and fire family were dispatched, but Ye Xuan could only be taken back by Ye Xuan.

"Where did the few people come from?"

The people of the wind and fire family are full of doubts, appearing out of thin air, and disappearing out of thin air. What is going on?

However, at this time, in a corner of the family.

"I will wait a few more days, and when I break through the level of Xiandi, I will fight again!"

Ye Xuan said secretly.

Chapter 1813: Destroyed Ghost Dragon

A few days later, Ye Xuan successfully broke through to a fairy immortal. As for the old trees, it was the five-character emperor, and the fall was the level of the six-character.

Moreover, the broken gods have also been restored and can be played again.

On the same day, Ye Xuan found the wrong person. Today there are only two goals left, so one-half of the chances are right.

As long as you find the wind and fire, and forcibly obtain the Qiang Kun ring, then his task will be completed.

"There are three real people in the North and the West, so look for the North!"

Ye Xuan's eyes were slightly stunned, and the old trees and others were summoned again.

As soon as this breath appeared, it immediately caught the attention of the high-ranking family. Before they were aroused by the old man and others, although there was no death, they were robbed of a lot of property and, most importantly, the face!

This time, they must leave the old tree.

However, this time Ye Xuan is right.

The goal he was looking for this time was the cousin of the Emperor of the Han Dynasty.

"Find you, break the sky, get on!"

Ye Xuan brows a pick and directly summons the broken gods. When the latter appears, it is a glimpse of the wind.

"Stunning one hundred and eight sticks!"

This move, in the end will be more serious damage to this wind, this is still the **** of the gods, or the wind will be spiked.

Then, the old tree quickly swept over and took down the ring, and then Ye Xuan cooperated with the planting space to take it back.

This Qiankun ring inside, it really has another half dragon scale.

"Hey, the dragon scales can be synthesized, whether it is done!"

Hearing this, Ye Xuan gave a slight glimpse and immediately agreed.

"Hey, the dragon scales are successfully synthesized!"

"Hey, the dragon scales and the integration with the Shura ghosts, is it going?"

This time, Ye Xuan was shocked.

This destructive dragon scale can be combined with the Shura ghosts, that is to say, the Shura ghosts can be advanced again?

Ye Xuan almost laughed, and of course it is to agree.

Although it is said that the enlightenment of the dragon scales can make the attack stronger, if the Shura Ghost can advance again, the strength is certainly not weak.

"No matter, fusion!"

Ye Xuan's eyes widened.

"Hey, the fusion is successful, and the Shura Ghosts advance to the end of the world!"

"Hey, the fairy kylin blood is advanced!"

This time, it is really big.

Not only did the Shura Ghosts advance into what became a ghost, but even let the blood of the immortal unicorn advance.

You must know that Ye Xuan has just been able to summon the second-level unicorn. Now, once advanced, the summoning is the third-level unicorn.

At the moment, Ye Xuan turned his head and saw that the Shura ghosts were respected. No, it should be said that the demon ghosts have changed. There are black dragon scales in the whole body, and there are black monsters. The stock spread, and even Ye Xuan couldn't help but shudder.

Although there is no improvement in the realm of Shura ghosts, Ye Xuan knows that its strength has undergone earth-shaking changes.

This is only a change in form, and the skills are advanced.

The grip of Huang Quan has become a dragon claw in the world. The eye of Shura has become a long-term dragon eye. Shura Shengguang, Shurao, Shurao, and killing, respectively, have become an anti-black dragon wave, a ghost dragon and a World Dragon.

"Destroy the Ghost Dragon, your show is here, let's go!"

Ye Xuan turned to look at the other end and said to the devil.

In the next moment, the destructive ghost dragon is directly transformed into a ghost dragon and turned into a black dragon.

Before the Shura ghosts used the eyes of Shura, they needed to be dead, but now, no need.

The annihilation of the ghosts and dragons, the horror of the mighty black scales, suppressed all the people below the half-life.

"what?"

A three-and-a-half-step real person from the wind and fire family saw the smashing of the dragon after the death of the world. After the body shape trembled, it was not reacted, and there was a black dragon's interest approaching.

"Inflame the black dragon wave!"

In an instant, this three-product half-step real person was swallowed up, but did not die.

Although the destructive ghost dragon is a lot stronger, it has not yet reached the point where it is broken.

However, this is not bad!

"Hey, the strength of the ribs has opened me up!"

The old tree sneered, and quickly passed away.

At the same time, the four-product half-step real person of the Fenghuo family has also been dispatched.

"Where are the obstacles, dare to scatter in my home?"

The ancestors of the wind and fire family screamed.

At this time, Ye Xuan has also summoned the broken gods and greeted them.

How about the four-step half-step real person, take care of it!

Now, the old man who wears the armor of the mysterious gods and the sinister ghosts and the gods of the gods are able to fight the whole family.

The battle lasted for a short period of time. Because it was not necessary to open the killing ring, Ye Xuan had some hands to keep it. Otherwise, the whole family of the wind and fire was estimated to have been destroyed.

Under the joint of the old tree, the sinister ghost dragon and the **** of the gods, the entire family of the wind and fire was defeated and quickly defeated.

After Shuo Lao and others ransacked the family of Fenghuo, Ye Xuan quickly collected it.

The people of the wind and fire family also feel that the old trees and others do not want to kill them, coupled with the lack of strength, the following orders let the tree and others rob.

"What is going on, what exactly is this group of people coming to, and there is no trace of them. How did they do it?"

The ancestors of the wind and fire family were shocked.

However, he also knows that this time the other party is not staring at the wind, but the half of the black dragon scales in the family.

Although I lost half of the black dragon scales, it is a blessing to be able to keep this family.

At this time, Ye Xuan, who is still hiding in the home of the wind and fire, can not help but slightly tilt his mouth.

This time, the Shura ghosts advanced into the world's ghosts and dragons, and the strength of the incarnation of the ghost dragons is even comparable to the broken gods, which is really a big hit.

However, it seems that the imperial ghost dragon after the advanced stage can't wear the mysterious war armor, so the strength is still weaker than the broken god.

However, Ye Xuan feels that the destructive ghost dragon has hope to catch up with the gods, because the refining spirit pot can continuously refine the birth soul liquid and enhance the strength of the devil.

Not only that, but after the advanced, the ghosts of the world are not completely complete, but they can also continue to integrate the dragon scales.

A complete dragon scale can increase the strength of one-hundred-year-old ghosts. If you can get a keel, you can increase the full ten percent.

"This is a dead dragon scale. I don't know what kind of creature it is. It has such an effect. If there is a 10,000 dragon scale, can it not be able to increase its strength by a hundred times?"

Ye Xuan brows a pick, looks rippling.

A hundred times strength, how strong is this?

You must know that now you can come to a dragon casually, the size of the body is amazing, the number of scales is in billions.

Chapter 1814: Second dragon scale

If the Destroyed Ghosts get 100 million pieces of the dragon scales, the strength can be increased by a million times!

10,000 times, what concept?

Ye Xuan did not dare to think about it.

However, such a powerful thing is bound to be accompanied by some trouble.

At this time, suddenly a strong and suffocating breath came.

As soon as this breath appeared, the homes of the wind and fire, including Ye Xuan and the four-step half-step real-life ancestors, were all incapable of moving.

"It's weird, it's clearly felt, how come it's gone here?"

A strange voice fell into everyone's ears.

This strong atmosphere, even the four-and-a-half-step real life ancestors have been suppressed, the strength is certainly not that simple.

Just as Ye Xuan's eyes swept into the air, a white figure, a middle-aged man in white.

"So powerful, can't it be a real person?"

Ye Xuan's dazzling celestial heart not only violently beats up, but he can't move at this time. If someone is unfavorable to him, it will be terrible.

"No, no, the black dragon has been annihilated for many years. What I feel should be the dragon scales scattered around."

The middle-aged man shook his head again.

This sentence still falls into the ears of all people. After Ye Xuan heard it, he couldn't help but think of the devil.

The dragon scale is the scale of the black dragon?

It can be known from this middle-aged population that this dying black dragon seems to have been annihilated, and then the body is divided and the scales are scattered everywhere.

This time, Ye Xuan can be sure that this middle-aged man should be attracted to the sinister ghost dragon, because the smashing ghost dragon is the product of the fusion with the dragon scale of the dying black dragon.

At this time, Ye Xuan felt that the **** on her body suddenly disappeared. Looking at it, the white middle-aged man had already left.

"Huh!"

Ye Xuan took a sigh of relief, it seems that there is nothing wrong with him.

"This place should not be left for a long time, first withdraw!"

At the moment, Ye Xuan is directly breaking the void and leaving the family.

This dying black dragon does not seem to sound like a good bird. If the middle-aged man in white is folded back, it will be troublesome.

Ye Xuan continued to use the eye of the void, and stayed away from the wind and fire family, and breathed a sigh of relief.

Although I don't know the identity of the middle-aged man in white, he can be sure that the other party is not that he can fight now.

In general, this time, there is no danger. After all, he not only got another half of the dragon scale, but also made the Shura ghosts advance to become a smashing dragon. The strength is not a star and a half.

"Well? What do you say about ribs?"

Suddenly, I was told by the destructive ghost dragon in the planting space, and said a word to Ye Xuan.

Destroy the ghost dragon, it is sensed that there is another dragon scale nearby.

This is not the point. The point is that the devil can only sense the existence of the dragon scale. This is fun.

A dragon scale increases its strength by 1%, 10 is 10%, and 100 is 100%.

Now in this realm, you can get a complete dragon scale. If the realm is upgraded, the dragon scale will definitely be more and more.

"Haha, ribs now have the potential to surpass the sky!"

Ye Xuan is overjoyed, which is naturally a good thing for him.

"The ribs said that the dragon scale he sensed was in the north of the wind and fire family, go!"

At the moment, Ye Xuan is beginning to continue on his way.

The ribs are only found in the north of the wind and fire family. The specific location is difficult to determine. Therefore, Ye Xuan must summon the ribs on the way, let him re-determine.

At this point, Ye Xuan must be very careful, because he is afraid to attract the middle-aged man in white.

After two days of rushing, Ye Xuan came to a city, and then he summoned the singer.

"Is it still in the north?"

Ye Xuan's brow was picked and quickly left the city and went to the north.

However, just after he left, the white middle-aged man came again.

"Strange, there is a breath that is similar to the black dragon of the world. Is it a kind of black dragon?"

The middle-aged man in white thought about it.

This time, he decided to conduct a thorough investigation. He first suppressed all the people in the city, and then forced everyone to check it out.

However, there was no result, because Ye Xuan had already left the void and left.

Ye Xuan is very careful now, only dare to summon the sinister ghost dragon in a crowded place. If it is summoned in the wild, if it is sensed by the white middle-aged person, then it will be troublesome.

At this point, Ye Xuan has continued on his way.

"Hey, the host breaks through, and it's currently the second best!"

"Hey, the world's ghosts, the Megatron, the Yanyin ghosts, the broken gods, the current breakthrough is the Sixth Emperor!"

During the hurry, Ye Xuan's realm has once again broken through, and the strength has not improved.

However, when he once again summoned the sinister ghost dragon in the city, he found the dragon scale, which is nearby.

"Not in the city, but in a family outside the city!"

Ye Xuan's eyes slammed and immediately broke open and left.

Now he is very cautious. When he entered the city, he set a void position outside because he had to be careful.

Then he quickly rushed to the family.

This family is more than the family of the wind and fire, there is a five-and-a-half-step real person in the family.

"If you don't want to be late, you must do it right away!"

Ye Xuan's eyes screamed and directly summoned the sinister ghost dragon, the tree old, the Megatron and the broken god.

One word, dry!

"Who is the man who dares to swear at me?"

A violent drink, sounded in this family.

At the same time, the destructive ghost dragon is also accurately sensed, and the other piece of dragon scale is where the current is with the old tree and the broken gods rushed over.

The person holding this dragon scale, unfortunately, is the five-product half-life real person of this family.

"The Nether is broken!"

"Stunning one hundred and eight sticks!"

"Destroy the longan, kill the black dragon wave!"

A few of the old cards of the tree came out, and a powerful attack hit the five-product half-step.

Because of the seriousness of the matter, Ye Xuan was tempted to kill the heart. Anyway, he did not kill the murderer before, and there was nothing more.

In the case of a few old cards on the tree, and the sneak attack, this five-product half-step real person was directly disabled.

In the next moment, the tree is always plundered directly, and it will be taken away.

Fang Cai, this five-product half-step real person is in the enlightenment of the dragon scale, after the family has changed, it is collected.

Now, this dragon scale is no longer his.

"Hey, the devil's dragon has a dragon scale!"

The first piece of the world's dragon scales, so that the Shura ghosts advanced into the world's ghosts, this second piece of the world's dragon scales, so that the world's ghosts have a one percent increase.

Although a little less, but with the elimination of the world's dragon scales, his senses also increased.

Chapter 1815: Collect dragon scales

"Get it, go!"

At the moment, Ye Xuan directly broke through the void, and then after wearing the tree and others into the planting space, it was worn in the past.

At the same time, he left Megatron in the family and tried to see the next changes.

Sure enough, in a short while, the white middle-aged man appeared again.

"After a step, what is it, is it so close to the black dragon?"

The middle-aged man in white clothes picked up his brow and re-examined it. Even the soul searched.

This time, it is finally a reward.

In the memory of this family, he saw the figure of the sinister ghost dragon, as well as the old tree and the broken sky.

"The gap between this thing and the black dragon is not small, but the breath of the body is almost the same as that of the black dragon. Where did it come from?"

The middle-aged man in white thought about it and decided to search the souls of the entire family, but there was no clue.

At this time, at somewhere outside the home, Ye Xuan was already scared to say anything.

"My whereabouts can't be leaked, and this white-haired middle-aged man can get there so quickly. What is the realm of his realm?"

Ye Xuan couldn't help but swallow, and he only calculated that the white-haired middle-aged man took a minute to catch up.

You know, it took him several days to get here.

He estimated that the strength of this white middle-aged man may have surpassed that of a real person and reached the level of true monarch.

Don't tell the truth, even the real person, even the high-end half-step real person, is not Ye Xuan can now deal with.

Always, can't be found by this white-haired middle-aged!

"Fortunately, I am going fast, or it will be miserable!"

Ye Xuan breathed a sigh of relief, and now he is safe for the time being, but then, he has to be more careful.

The middle-aged man in white is very fast. When the smell of the sinister ghost dragon appears, he quickly rushes in. If it is nearby, Ye Xuan will be caught in a shape.

Fortunately, Ye Xuan also has a time-lapse skill, which gives him a full confidence.

“The ribs said that in the northeast of this family, there was a breath of dragon scales.”

Ye Xuan thought in his heart, that is, he quickly left the place. Because of the sometimes back-lighting skills, Ye Xuan can take action without rest.

Big deal, time goes back!

This time, Ye Xuan spent a lot of time, during which his realm was upgraded again, reaching the three-class fairy emperor, and the old tree also reached the level of the seven-character emperor.

In a few days, he once again arrived in a city, and now he is summoning the slain ghost.

“It’s in the city, in the city’s capital city!”

Ye Xuan brows a pick and immediately let them kill the past.

The city owner of this city is a six-product half-step real-life level, so Ye Xuan estimates that the dragon scale should be in his hands.

kill!

At the moment, Shu Lao and others are rushing into the city's main house, and then directly aim at the six-product half-step real person's breath and launch an attack.

Now they must race against time and grab the dragon scales before the middle-aged man in white.

The scene of the day was repeated again.

The dragon scale was indeed in the hands of the city owner. He was directly injured by the old man and others, and then he was taken away.

"go!"

At the moment, Ye Xuan is quickly breaking open the void, leaving with the old tree and others.

Sure enough, the middle-aged man in white soon came back again, and he searched the soul as before.

"But it has broken through again. How can these people's realms be so easy to improve?"

The middle-aged man in white was shocked.

Only a few days have disappeared, and the demon world has been upgraded from the level of the Six Pinxian Emperor to the level of the Seven Pinxian Emperor.

Moreover, the middle-aged man in white has already known that the devastation of the ghost dragon is collecting the scales of the extinction, and it is difficult to achieve the realm of the extinction of the ghosts and the dragons.

"If this is the case, there will be a black dragon in the future. No, you can't let them go on!"

When the middle-aged man in white thinks of this, he will take out a golden mang and inform other companions.

However, at this time, Ye Xuan is already a little gloating to start the road.

After the completion of the Ghosts, the two dragons have been merged and the strength of 2% has been improved.

Although it is only 2%, it will continue to improve in the future. After all, this is not the realm.

If you can get 10,000 extinct dragon scales, then the destructive ghosts may be able to fight in a big realm. If you grow up in the future, the combat power will be strong and explosive.

This time, Ye Xuan is still going north, but this time the dragon scales sensed by the Ghosts are much stronger than the previous two.

This time, maybe it's a few dragon scales!

On the road, I spent a lot of time on Ye Xuan, this time for a full seven days.

During the period, Ye Xuan's realm broke through again, reaching the four-character emperor, and the old tree and others were the eight-character emperor. As for the fall, it has reached the nine-character emperor. It is only one step away, that is, half-step real people.

In these seven days, Ye Xuan also selectively stayed in some cities, and then summoned the sinister ghost dragon to sense the position of the dragon scale.

After seven days, he came to a force. This force is called the eclipse, and the strength is not weak. He has seven products and half-step real people, and he is still two.

The realm of Ye Xuan and others is not enough to see in this eclipse, but they have always been a leap-level challenge. If the firepower is fully open, what about the enemy of the entire eclipse?

Before the death of the ghost dragon, this eclipse has a large number of extinction dragon scales, less than five.

Five extinct dragon scales, which can increase the strength of the five-year-old ghost dragon, very good.

"kill!"

At the moment, Ye Xuan is letting the tree and others wait for him to enter, and he himself has long pretended to be a disciple and entered the Eclipse.

As they entered, the eclipse was smashed up and down.

Treasures like the dragon scales have always been the ones who have the ability, and should be in the hands of the high-level eclipse.

Therefore, Ye Xuan directly let the old tree, the sinister ghost dragon and the **** of the gods in the armor of the gods, find the lord of the eclipse.

The main body of the eclipse is the seven-step half-step real person, and it has been a long time since the realization of the dragon scales, and the strength is not weak.

However, this strength is still not enough under the alliance of the old trees.

"Stunning one hundred and eight sticks!"

"The Nether is broken!"

"Inflame the black dragon wave!"

The old trees of the tree are layered out and aligned with the sacred lord.

"The rats, dare to sneak in my body, find death!"

After feeling the strong breath of this stock, the eclipse immediately took a few dragon scales and immediately responded after a big drink.

Chapter 1816: Black dragon

"Booming!"

With the realm of the eclipse, the sect of the sacred bones defeated the combination of the old three of the trees.

However, after these three sneak attacks, a breath suddenly appeared behind the eclipse.

"The claws of the demon god!"

It has become the fall of the frog, and the back of the sacred lord is a claw.

"puff!"

The back was pierced, and the heart of the eclipse was crushed and shattered.

Then, his body and Qiankun Ring were taken away by Ye Xuan. In this Qiankun Ring, there were actually six dragon scales.

Make big!

"Haha, cool!"

Ye Xuan opened his mouth and smiled, then quickly broke open the void and left the eclipse.

This time, I directly won six extinct dragon scales and improved the strength of the six-year-old ghost dragon. It is really good.

After a while, the white middle-aged man reappeared as before.

"It broke through again. It seems that I really can't let it go. This guy is breaking through the dragon scales."

The middle-aged man in white thought about it.

Fortunately, he has already informed other people, and he will soon be able to come and kill this in the cradle.

At this point, in a certain corner.

Ye Xuan, who is checking the lord of the ruins of the ancestor, suddenly found an interesting thing inside.

"This sacred lord, who once owned the dragon scale, actually has more than six, but has reached ten..."

Ye Xuan's heart trembled.

The original sect of the sacred sect had ten extinct dragon scales, and there were only six in his sacred ring. The remaining four were not in the hands of other eclipses, but were sacred sects. To other people.

This person, claiming to be a black dragon!

"Black Dragon?"

Ye Xuan's brows can't help but wrinkle up. This black dragon makes it special to collect the dragon scales, and claims to serve the Black Dragon.

Black Dragon, Black Dragon, may be related to the black dragon in the middle-aged population of white.

"Ordinary people, there is a piece of extinct dragon scales is enough, even if you have six, the effect will not be six times a piece, just a little more. In this case, why collect a lot of extinction dragon scales?"

Ye Xuan's heart is very strange.

The four previous ones were dedicated to the Black Dragons by the eclipse, which was tens of thousands of years ago.

Over the past tens of thousands of years, the sacred lords have collected six more pieces and are ready to dedicate them to the Black Dragon.

As for the place where the two met, the eclipse was also marked on the map, in a canyon near the Eclipse.

Coincidentally, after a while, it is time for the sacred sects to use the dragon scales in exchange for a large amount of heavenly treasures.

It is precisely because of this that it is able to rise rapidly.

"What about Black Dragon, see if I don't rob you!"

Ye Xuan's eyes are slightly stunned.

This time his luck was so good that he happened to meet the Black Dragon to get rid of the World Dragon Scale. At that time, he could rob the Black Dragon.

This Black Dragon teaches to acquire such a large number of extinct dragon scales, which is bound to be of great use. Maybe this black dragon has many dragon scales on the body?

Thinking of this, Ye Xuan is starting to hurry again.

When he arrived at the place where the sacred lord and the black dragon made the appointment, the realm had reached the five-character emperor.

In fact, he has no confidence in his heart, because this black dragon makes it possible to be a real-level master.

This time, he actually only wants to mark the black dragon with the death killing order, so that he can know the whereabouts of the black dragon, and then grow up and plan again.

Tomorrow, it is the agreed time, Ye Xuan is waiting quietly here.

Soon, the next day will come.

Ye Xuan, who was waiting quietly, suddenly felt a strong breath coming. This person was dressed in black, waiting for the mask and could not see the face.

However, Ye Xuan can be sure that he is a black dragon. After all, this place is extremely barren and almost no one will come.

At the moment, Ye Xuan used the death killing order to mark the black man.

"Kid, what are you doing here?"

The black man swept over and asked strangely.

"His seniors, the younger generation is tired of the road, rest here!" Ye Xuan replied honestly.

He is only a five-pronged emperor, even a half-step real person is not, black people naturally will not put him in the eyes.

"I am lazy to kill you, fast!"

The black man shouted.

A person like him, unless someone offends him, he is disdainful.

"Yes, yes, this is the younger generation!"

Ye Xuan nodded quickly and then left, but he did not really leave, but looked away from the distance.

"This person should have reached the realm of real people, much stronger than the sect of the eclipse!"

Ye Xuan's brow was picked.

The chief of the eclipse is only a seven-step half-step real person, and this black man is at least a real person, so it is more difficult to solve.

However, Ye Xuan decided to give it a try.

"The old tree, the sinister ghost dragon, the broken god, you will go to him for a while!"

Ye Xuan said to the three.

Anyway, the old four trees are magic weapons, even if they die, they can be resurrected. Besides, he still has the time to reverse this magical skill. If something goes wrong, he can go back directly to the past.

At the moment, the old three of the trees are directly killing the black man.

"what?"

The man in black, after feeling the breath of the sinister ghost, his body trembled.

When he turned his head and saw it, he saw the old three of the trees killing himself. The breath of one of them made the blood in his body violent.

The blood is boiling, this is the performance of being suppressed, otherwise the blood will boil.

Boiling up, indicating that you are trying to break through the suppression.

No matter what, let's talk first!

"Several scums that are not even a half-step, can you come to me?"

After the black man felt the three murderous murders, he immediately sacrificed the weapons. After a few squats, there were countless swords swept out.

The speed of this attack is already astonishingly fast. The old and the dying ghosts are killed in an instant, and only the sky has escaped.

So strong!

Although the gods have escaped, but it is still difficult to escape, not only that, even Megatron has been smashed.

"Hey, Yan Ghosts, Destroyed Ghosts, Megatron, and the Destroyed God!"

A systematic reminder sounds.

The sneak attack failed.

However, Ye Xuan is only testing this time. First, test the strength of the black man, and second, look at the reaction of the other party.

Third, it is to lead the middle-aged man in white to come over!

After the black man killed the old tree, he saw the corpse of the old man as nothing. He originally wanted to search for the soul, but he did not expect this to happen.

He is thinking in his heart, what is the end of the world, whether it is form or breath, it is very similar to the black dragon, but the body is much smaller and the realm is very low.

Chapter 1817: Trailing all the way

"Hey, that middle-aged man in white, is estimated to have felt the breath?"

Ye Xuanyi opened his mouth and smiled, and quietly moved away from it.

The eclipse lord did not come, this black man is not expected to leave, waiting for the white middle-aged man to come, do not know what will happen.

Sure enough, in the black man's thoughts, the middle-aged man in white, as if Ye Xuan thought, came to this place.

"what?"

The black man was shocked.

With the realm of his real person, he was forced to be repressed, and what is the strength of the other party?

"Where is the breath, where did it come from?"

The middle-aged man in white looked at the black dragon and asked slowly.

"Which... which stock?" Black Dragon made a sigh.

"The stock that is close to the black dragon, I feel that it appears here, so I came here." White is humane.

"Late...the younger generation doesn't know..."

The black dragon makes the head shake.

"But let me come!"

The middle-aged man in white did not say anything, and directly began to search for the soul against the black dragon.

With his realm, the Soul Soul didn't even arrive for a second, and then he knew the identity of the Black Dragon, as well as the Black Dragon, and the old, the sinister, and the sacred gods that had only appeared.

"Black Dragon, Black Dragon?"

The middle-aged man in white was shocked. This force sounded wrong. It should be related to the black dragon.

Ye Xuan in the distance, I can't seem to know what the news is, so I feel that this test is a failure.

At this moment, the middle-aged man in white suddenly turned his head and fell on Ye Xuan.

Although Ye Xuan's insight can be seen far away, his realm is there, and the white-haired middle-aged man can suppress the real-life black dragon, and he can see that he can naturally speak.

When Ye Xuan reacted, he saw that the middle-aged man in white had already flashed in front of him. The same he, he could not move again.

"Young people, do you have to see..."

The middle-aged man in white has not finished talking, it is suddenly a meal, he feels that Ye Xuan's breath seems familiar, may have seen where.

"not good!"

Ye Xuan changed his face and hurriedly used the cards.

"Back in time!"

This middle-aged man in white is obviously searching for his soul. If one is a ship, the other party will know.

Therefore, Ye Xuan has no other way!

The next moment, he returned to the time when the Black Dragon had not yet arrived.

"Kid, what are you doing here?"

"His seniors, the younger generation is tired, and rest here!"

Ye Xuan repeats the words before, then quickly leaves.

Of course, before that, he had marked the black dragon with the death killing order.

However, this time did not summon the sinister ghost dragon, so the middle-aged man in white should not know.

Ye Xuan hid far away and looked at the target position of the death chase. One day later, the black dragon made him see the sacred lord in the future and left.

And the direction of going, it turned out to be the eclipse!

"Tragic, this black dragon makes it necessary to visit the door by yourself, hoping not to see the white middle-aged man!"

Ye Xuan looks like a pick.

If you see it, it will be terrible!

He managed to find a big goal, but he could not be killed.

In desperation, Ye Xuan had to follow the black dragon to eclipse the bones.

When I came here, Ye Xuan spent a lot of time, and now it is natural to go back.

During this period, his realm broke through again and reached the Sixth Emperor. At the same time, the old tree, the sinister ghost dragon, the Megatron and the smashing gods finally broke through to the half-step real-life level.

"I don't know if I can fight this black dragon now!"

Followed by Ye Xuan behind the black dragon, I thought.

In order to verify, he decided to go back to the eclipse and wait for the black dragon to come.

Anyway, the time can be used twice a day. If there is any accident, he will return to a few days ago, and then he will be able to catch up with a few days. Be cautious, so that the time-lapse skills can be well cooled.

"Hey!"

The door of the void was closed, and Ye Xuan returned to the vicinity of the eclipse. Fortunately, there was nothing unusual about the eclipse.

"The middle-aged man in white is flying fast. If he really wants to fight, he must make a quick decision. If he waits for him to come, it will be miserable."

Outside the eclipse, Ye Xuanyuan looked at the goal of death and killing in the horizon, thinking in his heart.

Soon, he re-visited the Black Dragon, and the Black Dragon sensed Ye Xuan's breath, which was quite strange.

He rushed over and spent three days, and Ye Xuan, this half-step real world is not the realm, how to do it?

Not waiting for him to open, Ye Xuan is a direct shot.

The old tree, the ruined ghost dragon, the Megatron, the broken god, and the already two-and-a-half-step real people fall and sway.

"The Nether is broken!"

"Stunning one hundred and eight sticks!"

"Inflame the black dragon wave!"

"The claws of the demon god!"

The four men came out and tried to kill the black dragon.

"A strong attack!"

The black dragon was surprised.

Although he and Ye Xuan played a game, winning.

However, Ye Xuan used the time-lapse skills before, so he and Ye Xuan had a game, only Ye Xuan knew.

However, now Ye Xuan and others, the strength is ten times stronger than before, I don't know if I can win this black dragon.

"The general presence of ants, dare to come to me trouble?"

After the black dragon made a cold cry, suddenly a big mouth, a dragon snoring spread from his mouth.

These attacks are instantly blocked by the sound waves of the black dragon, and there is no left.

This time, Ye Xuan understands that they are still not opponents of Black Dragon.

Sure enough, there are two brushes!

In desperation, Ye Xuan once again turned his back time and returned to yesterday.

Now, he only hopes that this black dragon will not touch the middle-aged man in white, otherwise it will be miserable.

.....

The black dragon made all the way to the eclipse, and then inquired about it, only to find that the sect of the eclipse was actually killed.

Then, there was a great power coming, suppressing the whole sect, and searching for souls in all the people in the eclipse.

This kind of big means, even if he can't do it, so the black dragon made a cold sweat and hurriedly left the eclipse.

In the distance, Ye Xuan sensed it and found that after the black dragon left the eclipse, he was relieved a little.

At this point, he felt that the black dragon made it like a big fat sheep, and he himself was a wild wolf who had not grown up. As long as he grew to a certain level, he could kill the black dragon.

Next, Ye Xuan followed the black dragon and kept chasing.

This black dragon makes it very fast, but occasionally it will stay in one place for a day or two. It should be an agreement with some of the surrounding forces, and collect the dragon scales regularly here.

I don't know, how much will this be down?

Ye Xuan is a little curious.

Chapter 1818: Black Dragon makes!

Soon, it took another few days.

“Hey, the host breaks through, and it’s currently the Seventh Emperor!”

"Hey, the sinister ghosts, the sinister ghosts, the Megatron, the broken gods, the breakthrough, the current two-product half-step real people!"

On the same day, they could not hurt the Black Dragons together, but now their realm has once again broken through, and the strength has improved qualitatively. Should it be okay?

Ye Xuan thought about it.

It happened that this black dragon stopped somewhere again and seemed to be waiting for a force to send him the dragon scales.

Taking advantage of this opportunity, stepping on the leaf of the rising fairy, Ye Xuan, quickly chased up.

When he arrived, he just saw three people who were making deals with Black Dragon.

"Nine products are half-step real people, little meaning..."

Ye Xuan’s eyes are slightly stunned.

His current strength is sure to be able to clean up half a step, but he is not sure, that is the black dragon.

"The tree is old, let's go!"

At the moment, Ye Xuan summoned the tree and others in the air, and then killed them.

This time, Ye Xuan has a hunch that he can succeed.

Of course, if it is not successful, then continue to track until it is successful.

The black dragon who is trading with other people feels the smoldering of the singer.

Before the two times back, he had contact with the sinister ghost dragon. After the time back, he was the first time he met the sinister ghost dragon.

"what?"

The black dragon was shocked, even the other people.

"Hey, it's bad luck to meet us!"

A nine-and-a-half-step real person snorted and slammed his head toward the tree and killed him.

The tree is now a two-and-a-half-step real person, and it is a three-and-a-half-step real person. The two of them are together, which is enough to kill the other party, let alone the gods and the evil dragons.

In the meantime, this nine-step half-step real person was killed by everyone, and even the tricks did not come out.

"what?"

The other party was shocked.

A few low-order half-step real people, even more so many realms spiked the half-step real people of the peak, how is this possible?

"A little way, look for death!"

Black Dragon makes absolutely his own shots. After all, these three people cooperate with him to help him find the dragon scales. If the other party is dead, how can he collect it?

The people he is looking for are almost all extremely vicious and wicked people. The same is true of the sacred patriarchs.

After all, killing people and winning treasures is the easiest to get the scales of the world.

"I always figured out the hand, fight!"

Ye Xuan, who is far away, gives orders to them through the vision of several pets.

This time, they must take this black dragon.

"Do not destroy the soul!"

"Destroy the Dragon Claw!"

"Inflammation locks the soul chain!"

"Nine-tailed!"

The old tree, the demon ghost, and all the control skills are used to make the black dragon wearing the black armor of the mysterious armor give a fatal blow.

In the face of so many attacks, the Black Dragon made the same as the last time, a big mouth, a wave of attacks spread out, and all these tactics were resolved in an instant.

However, at this time, the sacred **** has already turned into a streamer and rushed to him.

"Stunning one hundred and eight sticks!"

One hundred and eight sticks of shadows, pouring down, instantly hit the shoulders of the black dragon.

In an instant, the black dragon made it like a deflated ball that fell from the sky.

If it is really necessary to rank the strength, Megatron is the weakest, then the old tree, then the fall, the second strongest after the advanced.

The strongest, naturally, is a god!

Moreover, at this time, the **** of the gods also wore the armor of the mysterious god, and the combat power was superior.

This blow, although it is unlikely to kill the Black Dragon directly, is enough to make it hit hard.

"Beat the dog, kill him!"

Ye Xuan gave the order to everyone.

Taking advantage of this opportunity, all the talents cast their cards.

"Inflame the black dragon wave!"

"The Nether is broken!"

"The claws of the demon god!"

"Stunning one hundred and eight sticks!"

With such a powerful attack falling, this black dragon is not far from death, not far away.

In the distance, the two nine-and-a-half-step real people were shocked. What kind of world is this fucking, and a few low-level half-step real people, even a real man?

After they had a chill, they immediately retired and ran!

At this point, the transaction is over, so the two men ran away.

Ye Xuan's goal is to make a black dragon!

"Booming!"

With so many attacks falling, all hit the Black Dragon, but the Black Dragon mission is very hard, and it is tolerated.

Through the sharing of the vision of several people, Ye Xuan saw the black scales of the body, and even a strange black scale appeared.

That is, the dragon scales!

"The trough? This product is actually combined with the extinction dragon scale. What is the situation?"

Ye Xuan was shocked.

Not waiting for him to react, this black dragon is directly transformed into a huge black dragon.

It turned out that this black dragon made itself a demon, and it was a black dragon. Of course, those who have died in the world are not his own, but the black dragon.

Now, Ye Xuan understands a little about the nature of Black Dragon.

The black dragon teaches the dragon scales to be collected outside, and then merges into the body, trying to get the ability to kill the black dragon, or become stronger.

"Hey!"

The black dragon was seriously injured and was beaten by several people who had a lot of low realm. The anger had already burned.

However, after he became a body, although the strength has been enhanced, but for Ye Xuan and others, it is self-investment.

"Destroy the world!"

At this time, the singular ghost dragon suddenly had a big mouth, and it was a dragon scorpion spread.

This trick, but specifically for the beast, turned into a body of the black dragon so that after hearing, the blood of the body was instantly suppressed, the combat power dropped by 30%.

Moreover, this is not the point.

"Megatron, the picture of the beast!"

After receiving the order from Ye Xuan, Megatron instantly changed from the armor of the mysterious **** to the picture of the beast.

The map of the beasts, suppressing the combat power of the surrounding beasts!

Although the demon person can change the adult, but it is still a beast in essence, so the picture of the beast is also useful for this black dragon that becomes the body.

At that time, the breath of the black dragon quickly dropped to a very low level, coupled with his injury, at this time his fighting power is not one, it is a good chance to be beaten!

"Stunning one hundred and eight sticks!"

Although the mysterious armor is missing, the attacking power of the gods is still not covered, and the black dragon makes the defense force fall in tandem, so this blow directly blows his head.

"Hey!"

The black dragon's head burst open, and the black dragon's blood was like a volcanic eruption, and it started to rain.

However, the dragon's heart is still there, and the black dragon can't die, but it won't last long.

"The fire is avatar!"

The tree quickly swept in from the wound, and then punched the black dragon heart with a punch.

Black Dragon makes it fall!

Chapter 1819: Black dragon teaching rudder

"Hey, the host's killing value is improved!"

Ye Xuan in the distance, a system sounds in his mind, then he quickly broke open the void, took the tree and others back, and then left.

This battle was really thrilling. In the midst of the battle, Ye Xuan's dazzling fairy heart was actually beating. He felt that the white middle-aged man would soon arrive.

Sure enough, as he expected.

His forefoot had just left, and the white-nose middle-aged man on the back foot really came. After he felt the breath, he swept the two escaped nine-step half-step real people.

However, these two nine-step half-step real people do not know anything, only know that the black dragon is in the collection of the world dragon scales.

At this time, Ye Xuan has already escaped far away.

"Wow, there are fifteen pieces of extinction dragon scales inside, it is really big!"

Ye Xuanle opened the flower.

Fifteen pieces of extinction dragon scales can make the destructive ghost dragons increase their strength by 15%. Plus the previous words, that is more than twenty.

Then, Ye Xuan carefully looked for the black dragon to make the ring, and found that in addition to those treasures, there is nothing to show identity.

It seems that only the soul can be searched!

However, Ye Xuan's current realm is too low. It is estimated that it will take a long time to use the soul search.

After all, he can't enter the planting space by himself, but the old trees, the sinister ghosts, and the fallen people can.

However, the realm of the old trees is still too low, and whether or not this qualification is still a problem.

"Right, Megatron's reincarnation bell has the effect of searching for souls!"

At this time, Ye Xuan's eyes suddenly lit up, and he thought of this.

However, the magic weapon is also rarer than the split axe, so Ye Xuan is hesitant, whether it takes a little swallowing point to fix the dementor bell.

"Forget it, come on, come and estimate it in the future!"

At the moment, Ye Xuan is spending a little bit of swallowing points, fixing the demon soul bells, and in the future, Megatron can change into a dementor bell at any time.

"Hey, the dementor bell is fixed!"

As a result, Ye Xuan has only two points to swallow.

"Megatron, search for his soul!"

Ye Xuan gave orders to Megatron.

This magic weapon is really good, although it is Megatron in the soul search, but Ye Xuan with the contract with Megatron, can even directly see, this is equivalent to his own soul search.

Although the time of searching for the soul is not short, it is good to plant space. It is only a hundred years old, and the outside world is only one day.

"It turns out that this black dragon is affiliated with the Black Dragon, but only the Black Dragon teaches outsiders. The Black Dragon teaches them how to melt the dragons and scales. They collect the extra dragon scales for the Black Dragon."

Ye Xuan suddenly understood.

No wonder, he thinks that the strength of this black dragon is a bit wrong, it turned out to be the case.

Although this is the case, Ye Xuan does not want to integrate the dragon scales. He is afraid of any problems.

However, the most important thing for Ye Xuan is that this black dragon makes connections with several other black dragons.

Moreover, there is still a Black Dragon recommendation in his Qiang Kun ring. It is to recommend someone to join the Black Dragon Church and become a peripheral messenger of the Black Dragon.

"If I can join the Black Dragon, I might be able to master a lot of people's whereabouts. When it's time, it's easy to act. However, this referee doesn't know what to look like and wants to replace him. Maybe you have to find it first!" "

Ye Xuan thought in his heart.

According to the memory of this black dragon, the person he wants to recommend is only a half-step real person. However, the black dragon education does not know who he wants to recommend, only the portrait, so that Ye Xuan still has a chance. of.

However, you must first find this half-step talent line.

"This referee is the son of a friend who is a friend of Black Dragon. It is the city owner of a city.

Ye Xuan quickly checked the map and found the place. The moment was quickly rushed over.

On the way, he thought that his own people's realm was too low. He didn't even have a half-step real person. If he went to Black Dragon, he must have been discovered.

Therefore, he now wants to control the nine-step half-step real people.

If you want to hurry, it will take at least a month. Fortunately, there is a transmission array in the nearby city.

Through these transmission arrays, Ye Xuan directly transmits and leaves to reach the destination.

"White feather city owner..."

After landing, Ye Xuan felt it. I found that there was a real atmosphere in the main house of Baiyu City. It seems to be the friend of Black Dragon.

In case, just in case, Ye Xuan decided to stay here for a few days.

"Hey, the host breaks through, and it is currently the Eight Emperor!"

"Hey, destroy the world, the ghost dragon, the Megatron, the Yande ghost, the broken god, the breakthrough, the current three-product half-step real person!"

After the people broke through again, Ye Xuan decided to start.

"let's go!"

Ye Xuan came to the city's main government and gave orders directly, and this time, there is no need to kill the ghosts.

In an instant, the old, falling, and broken gods are directly dispatched.

In the thunder of lightning, he took the city of Baiyucheng and his father.

Both of them were forced by Ye Xuan to take Bai Yucheng, and then threatened to force the two into the planting space.

The speed in the planting space is very slow, so Ye Xuan has time to torture them. In the end, these two people can only be willing to become Ye Xuan's jealousy.

"The human thing has been solved, then the next step is to go to the rudder of Black Dragon!"

Ye Xuan thought secretly.

This black dragon teaches the rudder, but it can be directly passed through the transmission line of Bai Yucheng. However, before this, Ye Xuan used the two cards of Bai Yucheng and his father to rob the city government.

After that, he will leave again!

Black Dragon teaches all over the world. This rudder has several black dragons in addition to the rudder, but they are all real-life.

Ye Xuan let Bai Yucheng City Lord, with the recommendation of the former Black Dragon, entered the Black Dragon teaching rudder.

Of course, before this, Megatron has turned into a hairpin.

In this way, the white feather city master became a black dragon, and at the same time had contact with other black dragons.

Then, the next time, it is time for Ye Xuan to mark these people with the death killing order.

The Black Dragon teaches the rudder to be hidden, but Ye Xuan already knows that he is there, just marking the target of five death killing orders, including a rudder master.

"This Black Dragon teaches the rudder master, it should be related to the top, and finally solve it!"

Ye Xuan thought in his heart.

In this rudder, there were exactly five black dragons, plus one rudder master. However, one of the black dragons was solved by Ye Xuan, so only four black dragons were left.

Chapter 1820: Qingyumen

These four black dragons are also a real-life level, and they are all demonists, combining one or three dragon scales, and their strength is stronger than the average person.

As for the rudder rudder master, it is the second-class real-life level. The fusion dragon scale does not know how much, anyway, it is very strong.

Now Ye Xuan, in fact, has the strength to destroy this rudder, but he does not want to be exposed, so it is necessary to secretly proceed.

Soon, there was a black dragon who left the rudder and prepared to return to his own forces to practice.

It takes time for people to collect the dragon scales. They will only go out every other time. After all, the scales will be less and less.

Ye Xuan followed the black dragon to make it out, ready to go after the other party went far.

During this period, his realm was finally upgraded to the level of Jiu Pin Xian Emperor. The old tree, the dying ghost dragon, the Megatron and the broken gods also reached the four-product half-step real person.

Now, he doesn't need to follow him anymore, just do it!

"The tree is old, falling, up!"

Ye Xuan said to the two.

A real person in the district, but also need not destroy the world of ghosts or dragons to break the horse, the five-product half-step real-life level is enough.

Turned into the fall of the body, and the old tree wearing the armor of the mysterious god, and then caught up with the black dragon.

"The Nether is broken!"

"The claws of the demon god!"

The old and falling trees attacked and quickly solved this black dragon.

"Sure enough, this black dragon makes two dragons in the ring, this is to prepare for their own integration, the other should be handed over to the rudder master!"

Ye Xuan thought about it, but this time there was no loss. After all, it was white.

Anyway, he has already broken through at this time, then, next, it is the black dragon teaches the rudder.

"Hey!"

At the moment, Ye Xuan is going back to the void.

The next moment, Megatron is directly placed on the broken god.

Even if you don't wear the armor of the mysterious gods, the fighting power of breaking the gods is much stronger than that of falling. If you wear the armor of the mysterious gods, even if the trees are old, fallen, and destroyed, it will not be his opponent. .

"All killed, one does not stay!"

Ye Xuan gave orders to everyone, and then, the old man and others went into it.

Their goal is only the three black dragons, and the rudder master.

"Hey!" "Hey!" "Hey!"

A loud bang, spread in the city, the sneak attack of the tree and others, instantly killed the three black dragons.

"Damn, exposed?"

The two-person real-life black dragon teaching rudder rudder main face changed, not waiting for him to change, there are one hundred and eight sticks falling.

"boom!"

This time, the head of the Black Dragon teaching rudder rudder and the heart were bombarded and instantly fell.

After his death, the old tree quickly swept past the body and the shackles, and then broke away from the void.

This time, the Ghosts did not shoot, so Ye Xuan did not worry that the middle-aged man in white would catch up.

Afterwards, Ye Xuan, regardless of other people, directly broke away from the void.

Now his cultivation resources are enough to break through all the way, so he is not worried about other things, and concentrates on collecting the dragon scales.

However, this time's harvest is also the most recent in Ye Xuan's history.

The rudder rudder main 乾戒戒,,,,,,,,,,,,,,,,,,,,,,,,,,,,,

A dying keel can at least increase by 10%, which is equivalent to ten dead dragon scales.

"Haha, you are cool!"

Ye Xuan does not say anything, directly hand over these extinct dragon scales and keel to the smashing ghost dragon, let it all merge.

If it is added before, the strength of the destructive ghost dragon has reached nearly 70.

If this is the case, 100% or even 1,000% is not a problem!

In the future, Ye Xuan may have to rely on the endangered ghost dragon to eat!

Having said that, after the rudder rudder died, the soul was also taken to the soul.

The Black Dragon teaches the rudder, which is all up to the first level. I don't know the position of the rudder at the same level, but I know where the rudder is.

This superior rudder, the rudder is a five-person real-life level, the strength is not weak, and there are also a large number of black dragons under the arm.

Therefore, when Ye Xuan is going, he must be fully prepared.

"After upgrading for a while, it is estimated that the strength of the demon world will catch up with the gods. At that time, it is really God who blocks the Buddha and blocks the Buddha."

Ye Xuan thought in his heart, that is, he began to continue on his way.

The next destination is a force called Qingyumen. Their gatekeeper is the rudder master of Heilongjiang.

Although there are transmission arrays available, some road sections still need to fly. During the period, Ye Xuan has finally broken through to the half-step real people. As for the old trees, it is a five-product half-step real person.

"Hey, the second sage level blood, can you redeem it?"

At this time, Ye Xuan's brow picked and found this change.

The second sage level blood, need four points to swallow the point exchange, but Ye Xuan now swallows two points, so it is impossible to buy.

"Tragedy, I only hope to trigger the trial tower refresh mission!"

Ye Xuan reluctantly sighed.

As long as the trial tower is refreshed, he can re-enter the ninth floor and get a nine-point swallow point.

At that time, this second sage level blood can be turned on!

However, there are only two points to swallow now, so Ye Xuan does not consider this issue for the time being.

A few days later, he finally came to this Qingyu door.

However, with his current strength, it is not easy to destroy this green feather door.

However, it was when he was surprised.

"what?"

At this time, Ye Xuan's brow suddenly picked, and he saw a cockroach, coming out of the green feather door.

"These are, how come and the real people like me?"

Ye Xuan has a trembling shape.

It's hard to be true. Is this Qingyu door related to the real person?

The previous one hundred, the strength is strong, but in fact it is also a half-step real-life level.

However, the current embarrassing ambiguity, the strength is at least five-and-a-half-step real-life level, if the hundred is added up, the better the realm of several realms.

This blue feather door is not simple!

Ye Xuan recalled that at that time, the spiritual real person said that as long as he can find it, then the spiritual real person will accept him as a disciple.

Of course, this has to be done in the case of the Ye Xuan Institute.

If the spiritual real person is related to the Qingyu door, then he can sneak into it first, but if it is really relevant, then he is not good at it.

In any case, Ye Xuan has to go and see, after all, he can come to the sacred world, and the spiritual real people also have credit.

At the moment, Ye Xuan is close to the Qingyu Gate.

"Hello, is there something?"

After Ye Xuan approached, there was a half-step real person in Tsing Yi asking.
