Chapter 1831: Shoot again

Now, the acquisition point in this Tiancheng City has been destroyed by two people, and the two-product half-step truth has disappeared.

However, Ye Xuan is interested in the long-haired man. The latter dared to attack the Bailong Temple acquisition point. It may not be the first time. His Qiankun ring should also have a dragon scale.

Fortunately, Ye Xuan has already marked the other party with the death killing order, so at this time Ye Xuan is quickly chasing the past.

With his current strength, I am afraid that it is more difficult to kill the other side. After all, the broken **** is in a deep sleep, but if it breaks through once again, it will be safe.

At the moment, Ye Xuan is continuing to pursue.

The half-step Zhenjun-level long-haired man, after leaving Dingtiancheng, rushed to another city at full speed and then left through the transmission array.

Ye Xuan was slower than him for two days, and then compared to the location of the other party's location, and then sent away.

Finally, Ye Xuan came to a city. He found the past and found that the other party was actually in the city government.

"It turned out to be a master in the city's main house, and then ran to other cities to robbery. This is really rare."

Ye Xuan brows a pick and then leaves.

This city also has the acquisition point of Bailong Temple. He has checked it in the past and found that there are actually two people in the middle of the class.

No wonder, not at your own site, the original strength is too strong!

However, the distance between the two cities is not far away. Is this person not afraid of being discovered?

Ye Xuan does not care so much anyway. Anyway, he is waiting for the time. Just wait for him to break through, then rob the city government.

After a few days.

"Hey, the host breaks through, the current realm is six products and half-step real people!"

"Hey, the sinister ghosts, the sinister ghosts, the Megatron, the broken gods, the current realm is a real person!"

The realm of everyone has broken through again, and now they are qualified to enter the city government.

However, before this, Ye Xuan also found that the skills of breaking the gods have changed.

Originally, there was only one skill in the gods, that is, one hundred and eight sticks, but now, there are no ones in the sky, only the seventy-two sticks!

Although the number of sticks is small, the power is definitely stronger than one hundred and eight sticks.

"good very good!"

Ye Xuan nodded with satisfaction.

Before he even dismissed the gods, there was only one skill, but now I can see that this skill will upgrade itself, but it is quite good.

"Okay, go in and kill that target!"

Ye Xuan immediately said.

At the moment, the old tree, Megatron and the **** of the gods are killed.

After these days of inquiries, Ye Xuan learned that the city government seems to be a half-step true king, and that is the city owner.

Therefore, the long-haired man of that day should be disguised by the city owner.

At that time, the old trees and the broken gods rushed in, and they swept directly toward the breath.

"Who is going to be good at the city government?"

On the road, there are naturally many masters of the city's government, but they can't stop the two.

The speed of breaking the gods is very fast. After sensing the breath, it is a smashing of the past.

"Stunning seventy-two sticks!"

Although the opponent is a half-step true king, a higher realm than the broken god, you can break the gods and wear the mysterious war armor at this time, plus the skills advanced, just a stick, the city owner is killed.

"Hey, death kills and kills the target!"

"Hey, the host's killing value is improved!"

Outside the city's main house, Ye Xuan couldn't help but smile when he heard the two system prompts.

At this time, the old tree has already flashed in the past, and the other party's shackles and corpses have been collected.

"Go, go to the acquisition point!"

Ye Xuan immediately ordered.

The gods and the trees did not stay, and quickly left the city government. During the period, the tree was taken into the planting space by Ye Xuan, leaving things in the planting space.

This half-step true king-level city owner was directly killed by a stick, and his death was unclear.

However, in his Qiang Kun ring, there are more than 50 pieces of extinct dragon scales and a dying keel.

This is a 10% increase in strength for the Ghosts.

At the time when the gods were still there, Ye Xuan was ready to give the acquisition point to one side.

Soon, they came to the acquisition point of Bailong Temple.

"kill!"

Ye Xuan ordered again.

This Bailongdian acquisition point is in a restaurant, and it is accurate to sense that there is a two-and-a-half-step true king, and two one-and-a-half steps.

As for other people, it is not enough to fear!

In order to break through the current strength of the gods, even if it is a pair of three, it is not a problem.

However, Ye Xuan is too simple to think about.

After the gods were close, they picked up the thin iron bars directly, and the three breaths in the restaurant were a shocking seventy-two sticks.

The people in the restaurant will not care about breaking the spirit of this god, so they were caught off guard.

A one-step half-step real person, and was broken by the gods to kill.

"Hey, the host's killing value is improved!"

At the same time, the old tree is also directly playing a big move, and began to kill those real people who are less than half a step.

"The Nether is broken!"

In the restaurant, the two-and-a-half-step man was attacked and immediately responded.

When he smashed the restaurant, the second stick that broke the gods fell again.

"Hey!"

Another one-and-a-half-step master was also bombarded.

In this way, only the two products are half-step true.

"Damn!"

The two-step half-step really changed his face. I didn't expect the attacker's strength to be so strong. In the blink of an eye, he killed two of his men.

At the moment, he is offering a white token.

This piece of white token, Ye Xuan had seen it before in Dingtiancheng. At that time, the person in charge of the White Dragon Hall used this to call a virtual movie of two products.

Therefore, this must not let the other party succeed!

"Tree is old!"

Ye Xuan quickly shouted.

The old tree also understands that the rapid display of the fire has flashed the past, but it is still a slow step.

The white token has been shredded.

Then, there was a phantom in the air, and the atmosphere was strong. I am afraid it is a four-step half-step true level.

However, this is only a shadow, after all, the strength should only be around the three-product half-step.

"Oh, sure enough!"

Ye Xuan's heart snorted, even if it's a four-pronged step, it's just a shadow, and the gods can't stop it.

The gods of the gods and the four-step half-step true kings are right, then, the two products are half empty.

Therefore, Ye Xuan had to take out the last card.

"Destroy the ghost dragon, come on!"

The next moment, the devil's ghost dragon appeared in the eyes of everyone, but at this time the devil's ghost dragon has not been transformed into a ghost, so it is still human.

After the destruction of so many dragon scales and the dying keel, the power of the dying ghosts has skyrocketed. In fact, it is no worse than breaking the gods.

But because he was always stared by the middle-aged man in white, Ye Xuan rarely put him out recently.

Chapter 1832: First time fit!

However, since the fusion of the beasts of the beasts, Ye Xuan has always wanted to find a chance to summon the devils.

He wants to try it, the taste of fit!

Today, I can finally give it a try.

Ye Xuan thought of a move, the next moment his body shape suddenly disappeared, and then, the destruction of the ghost dragon has also undergone some changes.

The fit skill is actually to let Ye Xuan dominate the body of the ghost dragon, and at the same time there will be some new abilities.

After the fit, Ye Xuan did not feel any discomfort, except that his current body is the body of the demon dragon, and his power is controlled by him.

"Ghosts change!"

Ye Xuan does not say anything, directly cast a big move, incarnate a dark dragon.

Moreover, this figure is three times larger than the self-destructive ghost dragon.

"Destroyed Ghost Dragon Claw!"

After the transformation, Ye Xuan directly directed at the two-product half-step Zhenjun, and the huge claws were caught in the air, and there was a force that shrouded the latter.

"Hey!"

In just one moment, the bones of these two products are really crushed. If the latter is not high, I am afraid that it has been pinched.

"Nothing to die, try this again, not destroy the soul!"

The invincible battle spirit can have tripled the combat power of the Destroyed Ghosts and Megatron, but now it is five times higher.

"Inflame the black dragon wave!"

A smashing ghost and a big mouth, a hot dragon erupted out, and instantly swallowed the two products.

Spike!

After the combination, the strength of the Ghosts has increased a lot, and the power of each skill is stronger than before.

It's just a real-life ghost, and it's killing the opponents of the two-and-a-half-step Zhenjun. This is already the battle of ten realms.

On the other hand, the sacred gods who are fighting with the four-product half-step sacred sacred shadows, the effect of the mysterious warfare armor has also been improved.

"Stunning seventy-two sticks!"

Seventy-two sticks fell.

This time, the virtual shadows of these four products and half-steps are directly lost.

It is also spike!

In the blink of an eye, the two obstacles disappeared, and then, the acquisition point will also be destroyed by Ye Xuan.

Because of the fear of the middle-aged man in white, I feel that this place is not suitable for a long time, but this time he did not expect that the middle-aged man in white is actually nearby. After feeling the breath of the devil, he quickly swept over. .

"Well? Can't move?"

At this time, Ye Xuan's brow was picked, not only he couldn't move, but even the **** of the gods.

"Finally I find you!"

A familiar voice fell into the ears of Ye Xuan, and Ye Xuan listened, and the pupil was instantly enlarged.

This voice is the white middle-aged man!

damn!

Ye Xuan's face is so scared that he is ready to go back in time, but it doesn't matter. After all, he still has a avatar to stay in the mortal world. Even if he is searched for souls, even the three avatars are degraded. The avatars can also be used back in time, except in the special place of time and space.

However, what makes him even more surprised is that after the arrival of the middle-aged man in white, it is a powerful breath.

"Hey, what about the White Dragon Saint of the White Dragon Hall?"

An unfamiliar voice rang in Ye Xuan's ear.

The white-haired middle-aged man heard this and quickly turned his head and saw a man in a black cloak standing in the air.

"who are you?"

The middle-aged man in white asked.

"My position in the Black Dragon teaching should be equivalent to your position in the White Dragon Temple. You can call me the Black Dragon Saint." The black cloak man said.

White Dragon Hall, White Dragon Sanctuary!

Black Dragon teaches, Black Dragon St.

Obviously, these two forces seem to be antagonistic, but Black Dragon is a power that has only recently emerged.

"Is it a black dragon?"

Bai Longsheng made a glimpse of his eyes. He felt that the man in front of him was not ordinary, because the realm of the other side was like him.

This kind of realm will actually go to this backcountry, what is it for?

Thinking of this, Bai Long Sheng can not help but look down on the sinister ghost dragon, I am afraid, the other side is also attracted by this dying breath, right?

"White Dragon Saint, I know that you are interested in him, but unfortunately, I am also interested in him."

The Black Dragon Saint opened his mouth and smiled. "It's better. Let's play one game. If you win, people will give it to you. How?"

Hearing the words, the White Dragon Sheng Dunton paused and looked at him like this.

Sure enough, this Black Dragon Saint is also attracted.

"If that's the case, then come on!"

Bai Long Sheng made no words and turned directly into a white dragon.

It turned out that he is also a demon.

Not only that, but the Black Dragon Sanctuary saw him transform, and he also turned into a black dragon.

A white dragon, a black dragon, and a strong breath to suppress the entire city.

If the two are shot, the entire city may be destroyed!

"Booming!"

A loud noise fell into Ye Xuan's ear. Although Ye Xuan couldn't see it at this time, he could know that this battle was probably a shocking ghost.

The people in the city were also shocked. They only hoped that this war would not affect them.

At this time, Ye Xuan's heart is also very embarrassing, he does not know whether to use the time back skills.

However, this skill can be used anytime, anyway, it is better to watch a good play first.

This battle did not last long. In less than five seconds, there was a breath disappearing.

"Black Dragon teaches, you will be removed by my White Dragon Temple!"

In the sky, the voice of the White Dragon Saint was heard.

The Black Dragon St. looked at the white light of the sky, opened his mouth and smiled and said: "Oh, there is a kind of go!"

This battle is that he won, but his strength is only a little stronger than the White Dragon St., and it is unlikely that he wants to kill the White Dragon.

Upon hearing this, Ye Xuan's heart trembled, and he did not expect to chase him for so long, the White Dragon Sanctuary, so easily beaten by the Black Dragon.

I don't know, what is the realm of the two people?

Is it true, or is it higher?

Anyway, it's not that Ye Xuan can handle it right now.

Now that Ye Xuan has not used the time-lapse skills, I also want to see what the Black Dragon sect wants to do with him.

"Kid, are you integrating at least a hundred pieces of dragon scales?"

The black dragon ambassador suddenly plunged in front of Ye Xuan, and the latter was temporarily able to act.

Black Dragon St. makes this strength, and does not worry that Ye Xuan can escape under his hand.

"Yes!"

Faced with this problem, Ye Xuan just slowly nodded.

He estimated that this Black Dragon ambassador used him as a Black Dragon.

"You can combine hundreds of pieces of extinction dragon scales, but it is also a bit tolerant. It is no wonder that it can attract my attention. However, you should start to escape, because there will soon be a disaster!" Black Dragon St.

Chapter 1833: Unknown disaster

"A disaster is coming?"

Ye Xuan's brow was a pick, and he didn't understand what the Black Dragon St. said.

"You have been impressed by the white dragon sacred in your body, but it has already been solved by me. I have to chase and kill the white dragon sage."

After the Black Dragon St. was finished, he was ready to leave, but he just turned, but suddenly stopped, and then took out a black bead and handed it to Ye Xuan: "This thing is used as a face-to-face ceremony to shield you." Destroy the world, if you can combine 10,000 dead dragon scales in the future, you can come to Black Dragon to find me!"

When the voice fell, the Black Dragon Sanctuary disappeared.

However, at the moment he disappeared, the city was suddenly shaken by his powerful pressure.

Everyone, all died, no one survived, the entire city was instantly compressed, and even the ruins could not be counted.

"Good and ferocious!"

Ye Xuan swallowed it.

He thought that he had been arrogant in his house, and he could be compared with this black dragon sacred. Nima was killed by seconds and there was no residue left.

This black dragon ambassador used the pressure to destroy the entire city. There are millions of people here.

However, this is not a matter of Ye Xuan, although this is because of him.

"What is the disaster?"

Ye Xuan still did not figure out the situation, but he quickly broke open the void and left the place.

Although he is fitting himself to the Ghosts, he can still use his own skills. At the same time, he also understands that he is attracted to the White Dragon and the Black Dragon, not because he has merged hundreds of dragon scales. It is because of the physique of the devil.

Of course, it is a bit unbelievable to meet people who have combined hundreds of extinct dragon scales in such a place.

You must know that even the city's lord, a half-step real person, only merged with five or so extinct dragon scales.

If it is not because of the demise of the Ghosts, it is enough to combine the three dragon scales, let alone hundreds.

Ye Xuan suddenly remembered that the only sentence of the Black Dragon Saint.

After the integration of 10,000 pieces of dragon scales, you can go to Black Dragon to find him!

Ordinary people, is it possible?

"The average person is almost impossible, but it is not impossible for the sinister ghost dragon. The merging of the 10,000-year-old dragon scales is probably unprecedented. The Black Dragon sect is also expected to recruit."

Ye Xuan suddenly understood.

The Black Dragon teaches people how to integrate the dragon scales, so there must be many such geniuses in the teaching.

It is really impossible to combine hundreds of dragon scales, real people and true monarchs.

However, there are real kings, real emperors and other realms on the top of the true king. It is not necessary to integrate hundreds of dragon scales.

Ye Xuan shook his head and left the question behind. Now he has not qualified for this question.

At the moment, he just started to look at the spoils. The harvest this time is also very good. The dragon scales add up to nearly a hundred, and there are two keels, which greatly enhances the strength of the devil.

Now, if it is not counted as a ghost, the evil dragon should be able to overcome the gods.

No, it shouldn't work, because the shocking heaven and earth is lifted to the seventy-two sticks.

Because of the sorrowfulness of the gods, Ye Xuan has no way to let it fight against the ghosts of the world.

Now, this time, although it is shocking, but Ye Xuan still wants not to use time back, when the city owner is not dead.

After all, he has now been exposed. Although he has encountered a black dragon ambassador, he has also got a hidden treasure, but what will happen?

After thinking about it, Ye Xuan still decided not to use the time back. After all, the time-lapse skills can be reversed to ten days ago. Now it is the first day, no hurry.

However, he will then know what the disaster in the mouth of the Black Dragon is.

When he was still looking for a target, the sky suddenly sounded a roar, which seemed to be a dragon.

"what happened?"

Ye Xuan turned his head and found that the sky hit a black crushing group of black dragons.

These black dragons are very fast, at least high-level real-life levels. If they are assembled, even a half-step master can fight.

However, these are not enough to threaten Ye Xuan.

"The trees are old, fall, and destroy them all!"

Ye Xuan immediately issued an order.

Dealing with these black dragons that are not even half-steps, even if you don't summon the evil dragons and the gods, it is no problem. After all, now Ye Xuan has the blood of the beasts, and the title can make pets to the beasts. The attack power is increased by three times.

At the moment, the old tree is quickly flashing past and starting a crazy attack.

Although it is only a real tree, but the strength is powerful, almost one punch and one corpse.

As for the fall, let alone the killing speed is faster than the old tree.

Soon, these dozens of black dragons were killed and not left.

Ye Xuan swiftly swept past and collected all of his bodies. However, after these bodies entered the planting space, the singular ghost suddenly felt something.

"Well? You said that in these bodies, there are dying breaths?" Ye Xuan browsed and said, suddenly said.

It is absolutely impossible to make mistakes, so Ye Xuan quickly used the Xian phagocytic system for analysis.

In the dragon scales of this group of black dragons, there are indeed some sacred atmospheres, but they are not the dragon scales.

"The destructive ghost dragon can even fuse these dragon scales, but the effect is much worse than the dragon scales. Hundreds of pieces are worthy of a dragon scale."

Ye Xuan has some helplessness, but fortunately, the number of these dragons is large enough. If they are all added up, they are equivalent to ten extinct dragon scales.

At the same time, Ye Xuan also got a new name from the Xian phagocytic system, destroying the dragon scales.

"These black dragons, is it the black dragon that merged the dragon scales?"

Suddenly, Ye Xuan's mind showed a conjecture.

Obviously, this ruined dragon scale is a lot worse than the dragon scale, so Ye Xuan is so suspicious.

In Ye Xuan's thoughts, the sky actually screamed again, and it was a black dragon.

The old tree and the fall were once again dispatched, and the black dragon was solved.

"How come so much, where did it come from?"

Ye Xuan is very surprised. He is the center of the two cities, and it is not in which danger. How can there be so many black dragons?

At the moment, he is rushing toward the nearest city. He feels that this is not simple.

So many black dragons may be related to the disaster in the mouth of the Black Dragon!

On the way to the nearest city, Ye Xuan encountered a lot of black dragons, and got a lot of ruined dragon scales, which improved the combat power of the demon ghosts.

Chapter 1834: Blood holder

Ye Xuan is also more and more certain that these black dragons are the black dragon sages, or the black dragons.

When he came to the nearest city, he discovered that the city was already turned into a ruin, and there were countless bodies in the city.

Ye Xuan remembers that the city owner of this city is a master of half-step Zhenjun. Even so, the city is still destroyed.

It seems that this is indeed a disaster. It may be a black dragon tide, sweeping the surrounding area.

Not sure, there is a black dragon of the true level, even stronger!

However, Ye Xuan feels that this time the Black Dragon disaster is a welfare for him, because these black dragons have ruined dragon scales. Every time, the smashing dragons can improve their combat power, which is really too profitable.

At this time, the increase in the Ghosts of the World has already reached 200%.

As soon as he thought that the demon ghosts could be upgraded indefinitely, Ye Xuan's mood would be difficult to calm down. He searched the city for a moment and did not gain anything, and then quickly left.

Next, he wants to kill the special kill!

He casually wandered around here, encountering a set of black dragons, these black dragons, without exception, were bombarded by them, and the increase in the combat power of the demon ghosts was also improved a little.

This speed is faster than the acquisition point of the White Dragon Hall, or the rudder of the Black Dragon Church!

However, just as he broke through to the six-product half-step real person in his realm, a system sounded, let him kneel in place.

"Hey, the system has generated a blood holder, killing the blood holder and will be rewarded!"

Hearing this, Ye Xuan was stunned.

What is the **** holder?

He hurriedly looked at it and then took a deep breath.

The blood pulse holder is a person who has five of his blood, such as the holder of the blood of the immortal, the holder of the blood of the celestial unicorn, the holder of the blood of the undead, the holder of the blood, or the **** of the beast. Make blood vessels holders.

This **** holder has one of the five blood vessels of Ye Xuan, but the level of this blood is probably much higher than Ye Xuan.

If Ye Xuan kills this blood holder, then the system will give a very generous reward.

However, this is difficult.

Because Ye Xuan doesn't know where the blood holder is, but fortunately, this blood holder can sense the distance between himself and Ye Xuan, just as Ye Xuan was killed by the other party. .

Fortunately, this induction sometimes does not exist, the other party can sense Ye Xuan every other day.

If the **** holder kills Ye Xuan, he will replace Ye Xuan and become the new host of the Xian phagocytic system.

"The trough, this is going to be against the sky, the system is watching me unhappy, then want to find someone to replace me?"

Ye Xuan was frightened.

This blood vein holder, inductive to get him, but he can not sense the blood pulse holder, in case the other party's realm is higher than him, to reach the real king, then you still have it?

"The system is really pitted, it seems that I have to be careful..."

Ye Xuan swallowed the swallow, and for the rest of the time, he had to guard against the surrounding, in case the **** holder arrived.

If it is not dying, the blood is not good, but if the other party has the blood of the immortal, the blood of time and space, it is a bit difficult.

Anyway, he has to be careful!

Next, Ye Xuan uses the eye of the void to position it from time to time. If it is dangerous, he immediately breaks away from the void.

At the same time, he also wears the movement of the mysterious warrior armor, because if the other party has the blood of the immortal, but can mark him in an instant, and then the eye of the assassination is teleported. If the boundary is too big, he can't react.

In this way, Ye Xuan took care of the past three days.

"I don't know what blood vein holders are holding blood?"

Ye Xuan is quite curious.

However, just as he was looking for the Black Dragons in the wild.

"Oh, I found it again. There seem to be hundreds of black dragons this time!"

Ye Xuan's eyes are bright, so many black dragons can almost increase the combat power of the slain ghost dragon by 5 to 10 percent. After all, the smashing ghost dragon is higher than before.

However, this time, it is not as simple as he imagined.

"Well? A strong breath, is it a half-step true black dragon?"

Ye Xuan brows a pick, but the half-step true-level black dragon, for him now is still a dish.

At the moment, the old and falling trees are rushing over.

However, he soon discovered that the fighting power of this group of black dragons was extraordinary and several times stronger than that encountered before.

"Young master, their strength is so strange!"

Falling down can not help but pass the voice.

"The defense of these black dragons is much stronger than before. What is going on?" The tree is a bit strange.

Although they have the increase in the damage of the title of the beast, they can only barely break the defense of these black dragons.

Strange, it is really weird!

"Hey, is the person I am looking for?"

Suddenly a sinister laughter fell into Ye Xuan's ear. Ye Xuan followed the sound and found another large black dragon.

On the top of this black faucet stands a figure, this is a young person, because the distance is too far, the tree can not feel his realm.

"who are you?"

Ye Xuan brows a pick and asks subconsciously.

"Although I don't know why it is you, but I can tell that I was only a seven-day real person three days ago, but after I got an adventure, my cultivation was a leaps and bounds, and I broke through to nine products and a half. Step by step. Next, as long as I kill you, then my breakthrough speed will be improved again!"

The young man said coldly.

Hearing this, Ye Xuan finally understood who this person is, and it turned out to be the blood holder.

"Death chase!"

At the moment, Ye Xuan quickly used the death killing order to prepare to mark the person.

However, it found that it failed.

"Hey, the death killer tag failed!"

The system made Ye Xuan too disappointed, this blood vein holder can sense him, but he can't mark the other with the death killing order, which is unfair!

Although this person's realm is a nine-person real person, but the other party is also the blood owner, and, Ye Xuan still does not know what the other party has, so I dare not take it.

"Well, you will be the first stepping stone for me to become a strong man, let's die!"

The young man said coldly, it was a direct action, but it was not him, but the black dragon under his feet.

"Calling!"

This black dragon had a big mouth and a black dragon erupted out and struck towards Ye Xuan.

This trick is huge!

Chapter 1835: The second beast **** makes the blood

"Transient!"

Ye Xuan quickly used the teleportation of time and space, and now he knows what the other person has. It should be, the beast **** makes blood!

The group of black dragons is estimated to be controlled by this young man, so the strength will be so strong.

The owner of this blood in front of him is indeed the blood of the beast god, and the blood level is much higher than that of Ye Xuan, so that he controls a large number of fairy beasts, and the strength of himself and his pet has also improved a lot.

Since the death killing order cannot be marked, then Ye Xuan decided to kill him once.

"Destroy the world, destroy the gods, go up!"

Ye Xuan immediately issued an order, the next moment, the annihilation of the ghost dragon and the broken gods are killing.

This time, you must successfully kill the **** holder, otherwise it is really endless.

After all, the young man once said that he only spent three days, from the seven real people, all the way to the nine real people.

Although Ye Xuan did not know how he got up, the speed was already a sufficient threat.

As a result, it is necessary to kill hidden dangers in the cradle.

Just, this time the task is not that simple.

"Hey, the person who claimed to be a system also said, you also have the blood of the beast and the other blood, in addition to four other blood, I just kill you, the blood of the beast can be improved again, but also get These four bloods of yours..."

When the youth said coldly, it was a flash of light and the figure disappeared instantly.

"What about people?"

Ye Xuan was shocked. The next moment, he felt the half-step true-level black dragon in front of him, and his breath soared.

Fit!

This young man actually fits with the black dragon.

"Hey!"

The black dragon roared in the sky, aiming at the killing of the ghosts and the gods, and it was a bit of a dragon.

However, this time, the power of the dragon is several times stronger than before.

The sinister ghost dragon and the broken gods did not hide and were sprayed directly.

"Hey, the death of the ghost dragon!"

"Hey, the **** of death is dead!"

"Oh, the resurrection of the Ghosts!"

"Oh, the **** of the gods is resurrected!"

A series of four system prompts to sound, this is frightening Ye Xuan.

A blow, actually killed the sinister ghost dragon and broken god.

You must know that the **** of the gods has signed a contract with Ye Xuan until now, and has not died yet. Today it has hung up.

Fortunately, it is a magic weapon to destroy the world and to destroy the gods. If it is falling, it will be miserable.

"This person is not what I can handle now!"

In the mind of Ye Xuan, I immediately thought of such an idea, that is to withdraw!

At the moment, he quickly took the fall to the space and received it in the planting space to avoid accidents.

Then, he quickly summoned the singer and the **** of the gods.

This time, the mysterious warrior armor was worn by the broken god, and as for Ye Xuan himself, it was combined with the destructive ghost dragon.

"Kid, let's die!"

At this time, the black dragon had a big mouth again, and it was a spurt of eruption.

But this time, the Ghosts of the World also opened their mouths.

"Do not destroy the soul!"

"Inflame the black dragon wave!"

Two black dragons, directly colliding together, if someone dares to be in the center of the two dragons, I am afraid that they will be sprayed without bones.

The black dragon is a half-step true king level, and the extinction ghost dragon is only a second-class real person. There is a difference between the eight realms. Although the destructive ghost dragon has already gained a lot of growth, it is difficult to block this blow.

This time against the bang, it turned out that the smashing of the ghost dragon failed.

"Calling!"

The other party's dragon's breath, rushing toward the sinister ghost dragon.

If this mouth is sprayed on the devil's body, it is enough to kill it. I am afraid that even the blood of the gods will not recover. In the state of fit, if the demon ghost is dead, the three avatars of Ye Xuan will die directly.

However, Ye Xuan is not so easy to die.

"Transient!"

At the time when this black dragon's breath was about to be sprayed on the body, Ye Xuan quickly applied the teleportation of time and space and fled the place.

As he left, the breath of the dragon was also empty.

If it is more than attacking power, then the destructive ghost at this time is not the opponent of the black dragon of the youth. After all, it is worse than several realms.

However, on the other side, it is a chance to get a shot.

"Stunning seventy-two sticks!"

The **** of the gods lifted his hands and lifted it, aiming at the black dragon and hitting it.

The power of this attack is even stronger than the black dragon wave that killed the ghost dragon. It is not known how much damage will be caused by playing on the black dragon.

"too naive!"

The black dragon's dragon scale suddenly gave off a demon black light, directly blocking this stick.

The young man also has the blood of the sacred beast, and is more powerful than Ye Xuan, plus the difference in pets, so the skills are different.

Always, this stick is not able to cause damage to the Black Dragon.

This **** holder is really not so easy to kill.

However, it is at this time.

"Hey, Yan Ghost is dead!"

"Hey, the sorrowful ghost is resurrected!"

On the other side, the old tree was suddenly bombarded by the black dragons who had destroyed the dragon scales. Then, the black dragons were killed under the control of the youth.

"Is it besieged..."

Ye Xuan's eyes slammed, and the control faucet suddenly turned around. He marked a black dragon headed by the death killing order, and then quickly applied the assassination eye to flash past.

Although this time is in a fit state, Ye Xuan's skills at this time can still be used.

In an instant, the demon ghost came to the black dragon group, followed by his big mouth.

"Destroy the world!"

This trick is specifically to deal with the beasts, plus the increase in the damage caused by the beast of the beast, only a stroke, a large number of black dragons were killed, and then the body fell from the air.

"Hey, the host has a killing mark!"

"Hey, the host has a killing mark!"

.....

Another number of system prompts to sound.

Because the boundary is too big, so only one move, Ye Xuan condensed five killing marks, plus the initial skill of the one, is six, and then, Ye Xuan directly chose to explode these six killing marks.

Killing and engraving skills have advanced once, and each killing mark can be doubled, and it is twice as high as advanced. Six killings and engravings broke out together, so that you can improve your strength by more than seven times.

Plus three times the invincible soul, it is ten times!

However, this is not over yet.

"Oh, the picture of the beast is fixed!"

Ye Xuan did not hesitate to spend a little swallowing point to fix the picture of the beast.

The map of the beasts can suppress the strength of the 50% of the beasts. This is what Ye Xuan Fang only used after the death of the dragon.

As shown in this picture, the strength of Black Dragon is instantly reduced by 50%.

Chapter 1836: Go for the count!

"what?"

The youth clearly felt the change and was slightly surprised.

Still not waiting for him to be surprised, the big mouth of the devil's dragon will be again.

"Inflame the black dragon wave!"

The power of this attack is much stronger than before, and coupled with the decline of the strength of the young Black Dragon, this time against the bomb, may not lose.

"Hey!"

"Booming!"

Another time is a dragon's breath.

However, this time, Ye Xuan won.

The slaying of the dragon and the dragon killed the dragon's dragon, and then slammed the dragon's body, almost ruining one-third of its body.

"This is impossible!"

The youth panicked.

The black dragon that he tamed was a half-step true-level. How could it be possible to even have a two-person real-life black dragon?

Only then, the black dragon was severely wounded. If it is a second blow, I am afraid it will fall.

"No, escape, you must escape!"

Young people can't take care of anything. If he is killed in a fit state, he will fall.

escape!

At the moment, the young man controls the black dragon, opens his wings, and quickly turns around and leaves.

"Ok?"

The shattered gods flashed and attacked immediately.

"Stunning seventy-two sticks!"

It's a pity that there is no mysterious armor at this time, and the attack power is reduced. Even if the Black Dragon is suppressed by the map of the beasts by 50%, the black awns outside it can also block this.

"I don't want to go!"

Ye Xuan naturally will not let go of this opportunity to beat the dog, immediately open a big mouth, but also an inflammation of the black dragon wave.

However, the realm of this black dragon is there, even if the strength is suppressed by 50%, the speed is not covered.

"Calling!"

This murderous black dragon wave was directly escaped.

In the blink of an eye, the black dragon is turned into a black streamer and flies to the sky. Even if it is a full-speed chase, it may not catch up.

"Damn!"

Ye Xuan roared, I did not expect to be escaped by the other side.

This **** holder is a huge hidden danger. If it is not removed, it is really endless.

Although the black dragon is very ordinary, but after being tamed by the young, he also has several skills. In addition to only blocking the black mans of the seventy-two sticks, he should also be a skill when he escapes. Otherwise, It is impossible for a sinister ghost to catch up.

However, what has to be said is.

This **** holder is too confident, perhaps it is just to see Ye Xuan is only a half-step real person, so I did not mind.

If the other party directly fits at the beginning and then shoots Ye Xuan, the outcome may not be like this. After all, Ye Xuan just thought of fixing the figure of the beast.

"It's a tragedy. The guy and the black dragon fit together. The death chase can't be marked. I knew I would mark the black dragon first."

Ye Xuan is very helpless.

However, the method of marking the black dragon first does not know that it will not work. After all, the opponent will fit with the black dragon, and the mark of the death killing order may be erased.

All in all, the other party was beaten by Ye Xuan this time.

"Young master, who is that?"

After the battle ended, I asked when I fell.

"A good enemy, you must kill him, otherwise you will endless trouble!" Ye Xuan replied.

Although he can't keep up with the black dragon, he still controls the killing of the ghost dragon. After all, is it possible to find it?

If you are lucky enough to find it, you can solve this hidden danger.

However, Ye Xuan found a section, but there is no gain. After all, this realm is flying in the sky, leaving no trace at all.

Later, Ye Xuan also gave up this idea. This time it was a problem that the system gave him. Only the other party could sense him, but he could not track each other.

"That guy is upgrading fast, I can't fall, otherwise, one day he will die!"

Ye Xuan thought in his heart.

This time, he just happened to be able to run the other side, but the next time the other party is likely to break through to the half step, and tame a more powerful fairy.

At that time, Ye Xuan was dead!

Therefore, Ye Xuan should quickly improve its strength.

Because of the existence of the magic value, he is currently able to enhance the strength, that is, to collect the dragon scales and destroy the dragon scales.

Thinking of this, Ye Xuan couldn't help but start moving again, and this time he left the place first and kept a distance from the young man.

Next, Ye Xuan began to hunt down the black dragon, constantly destroying the dragon scales and improving the strength of the dragons.

A few days later, his realm also broke through again, reaching the eight-product half-step real person, and the realm of the old tree, the dying ghost dragon, the Megatron, and the broken gods were also upgraded to the three real people.

Although the realm has improved, the speed of the youth seems to be faster than him, and I don't know if it has reached the half-step level.

Fortunately, the other party's induction of Ye Xuan is not every day, but every other day, as long as Ye Xuan is fully prepared, even if he meets him, he can quickly break away from the void.

Of course, after the last battle, the other party will definitely not talk nonsense as before. After seeing Ye Xuan, it is definitely a direct shot, and a fight will kill him.

Finally, on the sixth day after the war, the young man came over again.

"Mom, this guy is finally looking for it!"

Ye Xuan's face changed, watching this speed, the other party has already broken through to the half-step true level.

Moreover, the pet has also changed, no longer the black dragon before, but a new black dragon, with a larger body and a higher realm, reaching the level of three products and half-steps.

This is not the point. The focus is on the back of the youth. It is still followed by ten black dragons of the true level.

At this time, Ye Xuan's dog's heart is gone. In a few days, the strength of the other party has turned over ten times. How much does this system hate him?

"Kid, I must kill you today, let me die!"

The young man has not arrived, and the voice falls into Ye Xuan's ear.

"This battle can't be played!"

Ye Xuan's face changed, but fortunately he made plans in these days.

"The Eye of Void!"

At the moment, Ye Xuan quickly entered the door of the void, and then the door of the void disappeared, and the youth lost their goals.

"Is it so far moving?"

The young man was shocked, but at this distance, he could arrive in less than half a day.

The destination of Ye Xuan breaking the void is actually a city. His plan for this time is to blame the water and use the knife to kill people.

Use the masters in this city to deal with the young man. After the two sides, he will shoot the young man again.

"The last three days have passed from the seven products to the nine real people. This time has been six days, just a half-step truth, then he should be the pinnacle of a half-step, and give him some time. It is estimated that you can go to the second half of the story."

In the city, Ye Xuan thought in his heart.

Chapter 1837: Killing people by knife

Ye Xuan is very curious, what is the upgrade of the other party, how can the upgrade speed be so fast?

At this time, he suddenly remembered the blood of the other party.

The beast **** makes the blood!

"It's hard to be done. The reason why he upgrades quickly is related to the beast. The more the beasts are controlled, or the higher the fairy beast, the upgrade..."

Ye Xuan suddenly thought of this, in fact, this is also very likely.

He is upgrading by swallowing, and the other party is controlling the upgrade of the fairy. What is impossible?

If this is the case, then the disaster that the Black Dragon Church launched was really too untimely and became the welfare of the blood holder.

He stayed in the city for a while, and sure enough, for a long time, the sinister ghosts sensed the breath.

coming!

"Hey, there are four products and half-steps in this city. Let you play with them first."

Ye Xuan heart sneered.

However, what surprised him was that the young man came over this time. In addition to the black dragon and the black dragons that were one-and-a-half-step.

Lying in a big slot!

"Have his beast **** make blood, is Nima too perverted?"

Ye Xuan was shocked.

Fortunately, such a large squad is very conspicuous, and immediately there are masters pouring out of the city.

Recently, the black dragon has flooded, and this city has survived so far. It is very good, so the people in the city are in a state of preparation. If there is a wind and grass, it is necessary to solve the problem quickly.

"There are people who control this group of black dragons!"

"God, there are so many high-end Black Dragons, and there are still quite a few half-steps."

"Afraid of what, we solved a similar situation three days ago, the city owner is a three-and-a-half-step true king, not to mention the master of the White Dragon Temple."

The people around, whispered in that.

Every time they fight, they go all out, because once they fail, the entire city will be destroyed.

At this time, the four-product half-step master of the Bailongdian acquisition point, the city owner, the masters of the major families, have all arrived.

The beast **** made the **** holders, looking at this group of people, could not help but coldly said: "You, give me away, I only need one person!"

"people?"

When everyone heard it, it was a bit strange.

"Just kidding, you come with so many black dragons, just to find someone?" The four-product half-step of Bai Longdian's acquisition point is cold.

"I said yes, yes! You better give me away, otherwise the consequences will be conceited!" The young man said coldly.

If he had been before, he would not dare to make it here. After all, he was only a real person at that time.

Now, his realm has reached the peak of a true king. If there is no accident, he will be able to break through to the second best tomorrow.

Although this strength is not very strong, but he has the strength of the leap-forward challenge.

These people can't stop him!

"It's really a big tone. If you want to come to you, you're the one who has been teaching the Black Dragon recently. Let's take it with you!" The city owner shouted.

"joke!"

The young man spit in disdain. He also heard about the recent Black Dragon teaching, and also understands that the destruction of so many cities in the city was done by Black Dragon.

However, he is not a Black Dragon teacher. His current primary goal is to kill Ye Xuan.

"It seems that you are not willing to let go. Next, you will pay the price of blood!"

When the youth said coldly, they gave orders directly to this group of black dragons.

Kill innocent!

A big fight, this is the beginning.

At that time, the two sides began to fight, and countless flying swords and magic weapons went out.

On the other side, hundreds of black dragons opened their mouths and squirted hot dragons.

As for the person in charge of the Bailong Temple of the four-product half-step Zhenjun level, it is to lead the masters to kill.

"Booming!"

A burst of loud noise continued.

In the city, Ye Xuan looked at the outbreak of this war, could not help but open his mouth and smile, this trick to kill people by knife, is still good.

I remember that there is a saying that it is called after the oriole, and at this time, he is the oriole.

After the human side has done the same for the youth, he will break out and fight to kill the blood holder.

However, what he did not think was that the youth who were only a half-step of the true king, after the fit, were enough to fight against the four-product half-step, and still have more than one dozen.

horrible!

"These hundreds of black dragons should not be his pets. Otherwise, if the pets are on the battle, you can give him dozens of times more combat power."

Ye Xuan thought in his heart.

He now has five pets, namely, the old tree, the sinister ghost dragon, the Megatron, the broken god, and the fall. If the five together, Ye Xuan and the five can get twice the combat power increase, also It is a two percent.

These hundreds of young pets, even if they are calculated according to a 20%, can give him dozens of times more combat power.

And don't forget it.

The youthful beast **** makes the blood more advanced than Ye Xuan, which means that the increase brought by a pet may be more than 20%, perhaps reaching 30% or 40%, or even double.

This is too abnormal, so Ye Xuan feels impossible.

The number of young pets may be between ten and twenty, because Ye Xuan can currently tame ten pets.

All in all, this blood holder is one of the more difficult ones Ye Xuan has ever encountered. After all, the speed of such a quick breakthrough is already beyond that of the scented phagocytic system.

Moreover, if a young man succeeds in killing him, then it seems that he will win the fairy-level engulfing system and replace it, which makes Ye Xuan very stressed.

In Ye Xuan's thoughts, the battle outside the city has also entered a fierce battle, playing very fiercely.

Numerous black dragons have fallen from the sky, and many humans have been killed by the black dragon. Ye Xuan looks at this scene, and secretly mourns these people.

"That four products are half-step true, it seems that I can't stop this young man. It seems that I have to shoot!"

Ye Xuan thought in his mind that it was to let Megatron sneak out. Then, Megatron suddenly turned into a picture of the beast.

As soon as the picture of the beast is out, all the beasts present and the youths who fit in with the Black Dragon have instantly lost 50% of their combat power.

The strength of the enemy is declining, which is good for the human side.

"Mom, what is this?"

The young man was shocked, and immediately turned the faucet and took the opportunity to spurt a sigh of relief against Megatron.

"Huh!"

This bit of dragon's breath, if it is sprayed on the three-product half-step Zhenjun, is enough to cause it to be seriously injured. If it is not the picture of the beast, it is enough to kill it.

This is used to deal with Megatron, which is just a three-person real person, more than enough.

Chapter 1838: Fight back again

"Hey, Megatron died!"

"Hey, Megatron is resurrected!"

Two consecutive systems prompted the sound, and Megatron quickly resurrected into the planting space after death.

"Go, go!"

Ye Xuan opened his mouth and smiled and continued to release Megatron.

The picture of the beast, reappears!

The young man's face is gloomy. He understands that this is Ye Xuan's means, so he can't make a decision, that is, directly break through this group of humans, kill the city, and then find Ye Xuan, pinch the body of Ye Xuan!

"Magic Wings!"

That is, the black dragon that fits with the youth is a pair of wings, which directly turns into a black streamer, and instantly passes over the person in charge of the White Dragon Temple and kills it in the city.

"No, stop it!"

The person in charge of Bailong Temple changed his face.

This is not a good sign. If you let the black dragon kill the city and come directly to a few bites, then the death toll is at least 10,000 units.

In desperation, he had to take out the white dragon token that every responsible person had, and directly crushed it.

The next moment, there is a ghost in the air.

This breath is a six-product half-step true king!

The person in charge of the Bailong Temple, who had been uniting several three-and-a-half-step truths, has been suppressed by the youth.

Although with the appearance of the map of the beasts, the youth's combat power has plummeted by 50%, and they can still be tied with them.

However, there is now a phantom of six products and half-steps, even if the deity is not in person, it is enough to pose a threat to this young man.

"Damn White Dragon Hall, roll!"

The young man roared and turned his head. When the other party had not figured out the situation, the virtual shadow that aligned with the air spurted a bite.

"Calling!"

This bit of dragon power, the power is still strong.

In the air, the six-fifth and half-step true-level imaginary eyebrows are picked and shot directly.

"Hey!"

The two energy collisions have stirred up countless waves.

Fortunately, the location of the collision is still outside the city. If it is in the city, those who have low realm will be directly killed.

Even so, the group of people who are on the wall are still being shaken by this wave of air, and there is a gap.

"Good opportunity, Bailong Qiming!"

When the youth saw it, the eyes immediately lit up.

Then, the group of black dragons behind him, all opened their mouths and spurted a spurt.

These dragons have actually gathered together on the way, and the target of the attack is actually the illusion of the six-product half-step true.

Among them, naturally there are young people who have their own dragons.

This power is strong enough to kill a five-and-a-half-step master.

The six-and-a-half-step man in the air did not expect the attack power to be so strong. Although he raised his hand to resist it, he did not succeed and was suddenly blasted away.

When I saw the person in charge of the Bailong Temple behind this scene, I couldn't help but stay in the same place, and so did everyone else.

Although it is only a virtual shadow, but the six-and-a-half-step true-level virtual shadow, the strength of the play and the five-product half-step true king's deity is similar.

However, it was still turned over by the youth.

If the trick was to be used by these groups of human beings, wouldn't it be a heavy loss?

Even the person in charge of the White Dragon Hall did not dare to have 100% confidence and could avoid it.

"Mom, I have to let Laozi use this trick."

The young man screamed in his heart and once again turned into a streamer, plundering the city.

"Hugh think!"

The person in charge of the White Dragon Hall changed his face and took out a white dragon order from the Qiankun ring.

This kind of white dragon order, each responsible person has three pieces, only to lose a piece.

The next moment, another virtual shadow appeared, the one who was only broken up.

"Still!"

This six-product half-step is really screaming, and once again, the young man is shot again, and a huge panic suddenly appears. He seems to want to catch the youth.

However, the young man who fits with the Black Dragon is not slow after the magic wing is applied to the sky. He avoids the palm of his hand vigorously in the air, and then spits a big mouth and bursts out.

This time, the attack is not a six-and-a-half-step true king, but Ye Xuan hiding in the city.

This time, Ye Xuan knows that he can no longer hide, otherwise, many people will die.

"come on!"

Ye Xuan's eyes screamed and directly summoned the sinister ghost dragon, the broken god, and the old tree.

"Stunning seventy-two sticks!"

"Do not destroy the soul!"

"Inflame the black dragon wave!"

Last time, Ye Xuan increased his sevenfold increase and repelled the youth.

This time, he can only condense three killings and engravings. If all of them break out, they will nearly quadrupling.

Fortunately, there is also a broken god, and its power of seventy-two is not weak.

The two attacks were superimposed, but the dragon's interest was blasted.

The next moment, Ye Xuan is directly applying teleports and moving into the air.

"This **** holder is a super scourge. If it cannot be eradicated, I will live in danger in the future!"

Ye Xuan thought in his heart, he shouted: "Join him together!"

Although there is a reward for killing blood donors, this time Ye Xuan is not ready to reward, as long as he can kill this blood holder, it is earning.

The six-product half-step true king in the air, and the person in charge of the White Dragon Temple, after seeing the black dragon of Ye Xuan, were a bit strange.

However, the enemy of the enemy is a friend, at least for the current situation.

Therefore, they quickly launched attacks against young people.

"Aura of Light Buddhism!"

"It's amazing!"

"Inflame the black dragon wave!"

"Stunning seventy-two sticks!"

Four attacks, aiming at the youth.

"Damn, let me put another horse today, your head, he and I will definitely take it!"

The young man screamed and turned into a black streamer, flying directly away from the city.

This speed is three points faster than if it were the same day.

"Is it Li Jun?"

When Ye Xuan heard this, she was very disdainful in her heart. Last time, it was obvious that the other party was beaten. What is it to be released again?

However, this time did not kill Li Jun, Ye Xuan felt a little regret, this can only blame the people of the White Dragon Temple is too wasteful.

Li Jun left, and the remaining black dragons, he did not take away.

While still playing, Ye Xuan quickly broke through the void, left directly, and quickly disintegrated back into the city.

In this way, even the person in charge of the Bailong Temple, even the six-product half-step Zhenjun, could not find him.

After this battle, the people in the city also reminded a bit of fear, and many people quickly left through the transmission array.

After all, they did not expect that there was still a powerful black dragon hidden in the city, and even the person in charge of the White Dragon Temple could not find it.

Ye Xuan is ready to stay in this city for a while before leaving. Of course, the old road is responsible for the road, and when he breaks the void, he can stay away from the city.

Chapter 1839: Li Jun revenge

"Hey, the host breaks through, and it's currently a nine-step half-step real person!"

"Hey, Yan Ghosts, Destroyed Ghosts, Megatron, Breaking the Heavens, Breakthrough, the current four real people!"

During the period, the realm of Ye Xuan and others broke through again.

After the breakthrough, Ye Xuan also had a sigh of relief, so he broke the void and left the city.

This Bailong Temple was used by him after all, so Ye Xuan was not very interested in robbery, so he left.

However, what he did not know was that shortly after he left, there was a second black dragon attack.

Leading the beast, the **** of the beast makes the **** holder Li Jun.

This time, he is coming to take revenge!

"That guy must have left!"

Li Jun looked at the city in front of him, thinking in his heart.

Today, he just can't sense Ye Xuan's position, but it doesn't matter. Today, he is coming to take revenge.

A few days ago, he was only a half-step truth, but today he has broken through the three-and-a-half-step true king, plus this three-and-a-half-step black dragon, and nearly a thousand black dragons behind him. Absolutely reported.

Not surprisingly, this city is as ruined as other cities, with millions of corpses and bloodshed.

Ye Xuan did not actually think that this Li should not first chase him, but first ran to revenge, otherwise, Ye Xuan himself will first shot.

.....

"Today is going to pass, tomorrow, Li should be able to feel me!"

Somewhere in the sanctuary, Ye Xuan looked at the sky, and couldn't help thinking of it.

According to his two encounters with Li Jun, he already mastered the days when Li Jun could sense him. He estimated that Li Jun would kill again tomorrow, as long as he did not leave.

In this regard, Ye Xuan is still a little expecting, as long as this Li Jun realm falls a bit, then his victory in killing Li Jun is one point higher.

Even if he can't beat it, he can use the eye of the void to leave.

However, his main thing now is that the mobile phone will kill the dragon scales and destroy the dragon scales. As long as the strength is sufficient, he can erase the hidden danger of Li Jun.

"Well? Hundreds of black dragons?"

At this time, the old tree in front of the road suddenly returned the news, it was originally encountered a hundred black dragons.

Every time I meet the Black Dragons, the strength of the Ghosts will be improved, and Hou Yexuan will be able to enjoy it for a while.

At the moment, Ye Xuan is directly breaking through the void and wearing the past.

At this time, he was wearing the armor of the mysterious **** and was fully prepared.

As for the task of tidying up this black dragon group, it was handed over to the old tree and the sinister ghost dragon.

Now the demon ghost has the hidden beads left by the Black Dragon Saint, which can cover up the demise of the world. Ye Xuan has not seen the White Dragon Saint for a long time, nor does it know that it was chased by the Black Dragon Saint. , or really can't feel it.

In short, Ye Xuan is very grateful to the Black Dragon Saint, if the two become enemies in the future, Ye Xuan is ready to spare each other's life.

Soon, this black dragon black dragon group was destroyed, Ye Xuan quickly cleaned up the battlefield, the destruction of dragon scales and the destruction of the keel to the demolition of ghosts and dragons.

"Eight percent, not bad!"

Ye Xuan nodded with satisfaction.

This disaster is also a welfare for him. He can encounter a lot of black dragons every day, the number is more or less, only a few are fewer, and there are more than one hundred.

Every day, we can steadily increase the combat power increase of around 10%.

However, the next question is coming. From zero percent to one hundred percent, a piece of the dragon scale can be increased by one percent.

However, from 100% to 200%, the five dragon scales can be increased by one percent.

So, after two hundred percent?

Now, the growth rate of the Ghosts has reached more than one hundred and ninety percent, and it is likely to break through two hundred tomorrow.

At that time, the need to destroy the world's dragon scales must be more?

Thinking of this, Ye Xuan felt that there was some headache. If there is no change, the growth rate of the destructive ghost dragon is almost six times faster.

Soon, it was the next day.

According to Ye Xuan's speculation, Li Jun was able to sense him today.

In fact, as long as he wants to go, then Li is unable to catch up.

After all, he has the eye of the void, can shuttle between many places, as long as he leaves every other time, then Li Jun will be like a headless fly, flying around.

However, Ye Xuan now wants to see what Li Jun's strength has reached, so he does not want to go around.

Sure enough, Ye Xuan expected, just after noon, he met Li Jun.

"Finally found you, mixed things, today is definitely your death!"

Li Jun roared.

At this time, he is a three-product half-step true king, and the black dragon under his arm is also a three-product half-step true king.

As for Ye Xuan, it is now a nine-step half-step real-life realm. Before that, it was a seven-product half-step real person. In fact, there is not much difference.

However, compared with before, the Ghost Dragon has improved its strength by 80%. If it is opened today, it is not necessarily the one who will die.

However, at this time Ye Xuan suddenly found a problem.

This time, Li Jun rushed in, but only brought a black dragon with three products and half-steps, and it was not the one on the day. It is estimated that the other black dragon speeds have not kept up.

In this case, the strength of Li Jun today is not as strong as that of the day.

However, he estimates that he can't get seven times the increase in combat power.

"come on!"

Ye Xuan did not say anything, and put the old tree, the dying ghost dragon and the broken gods out.

kill!

At that time, Ye Xuan and the devils and dragons fit together.

"The picture of the beast!"

"Do not destroy the soul!"

"Inflame the black dragon wave!"

"Stunning seventy-two sticks!"

A powerful attack attacked Li.

"Oh, it's too small for me!"

Li Jun snorted and quickly avoided it, and then spoke a big mouth.

However, this time, he did not spurt a dragon's breath, but flew a petite figure from his mouth.

This petite figure, the breath is actually the three-product half-step true level.

"What the hell?"

Ye Xuan fixed his eyes and found that it was a black bird. However, this black bird was very fast. In the blink of an eye, it was in front of Megatron and then poked out a few holes.

It is a pity that Megatron and Ye Xuan shared the blood of the undead, and recovered their injuries in the blink of an eye.

"what?"

Li Jun was shocked. He especially tamed this little bird, so that he was caught off guard by Shang Ye Xuan.

As long as the picture of the beast is removed, his combat power can be raised to the peak.

Unfortunately, this little bird has also been suppressed, otherwise the map of the beasts may indeed be destroyed by it.

Of course, even if it is destroyed, Megatron will be revived quickly and then reappear.

"It turns out that this is your plan. I have to say that the reason you failed is that you are too arrogant!"

Ye Xuan sneered.

Chapter 1840: Black dragon teaches genius

If this time, Li Jun brought another hundred black dragons to come over and show the words of Bailong, Qi Xuan is still very dangerous.

Unfortunately, Li Jun is eager to kill Ye Xuan, so he is the first to arrive.

However, those black dragons are on the road, as long as they arrive, they can still cause trouble to Ye Xuan.

"My killings are condensing. As long as I first condense six, then I can improve my combat power by seven times!"

Ye Xuan thought in his heart.

On the same day, he also improved his combat power by seven times, and he was able to beat Li.

Today, Li Jun has no other pets present, the strength has declined, as long as Ye Xuan can condense three killings and engravings, it is sure to kill Li Jun.

"Hey, the host has a killing mark!"

Ye Xuan and Li Jun were crazy in the fight. During the period, they finally condensed a killing and engraving. If they were added twice, they were four.

However, at this time, the sky suddenly swept a group of figures.

More than a dozen black dragons quickly flew toward Li Jun and Ye Xuan.

Needless to say, this must be a pet tamed by Li Jun. As long as they arrive, Li Jun's strength will make a qualitative leap.

However, this is also an opportunity for Ye Xuan.

With so many black dragons, as long as they take the time to kill one or two, they can condense the remaining killing marks. At that time, Li is still going to be beaten, this time it may be directly damaged here.

However, Ye Xuan thought it was too simple.

"It's finally here, today is your death!"

After Li felt the arrival of his pets, he was emotional. After a roar of Yang Tian, a whole body of black gas suddenly appeared.

Then, the more than a dozen half-step black dragons behind him, all of them came out with a black gas, and then gathered on the black dragon that fits with Li.

Suddenly, Li's breath soared.

"not good!"

Ye Xuan's face changed greatly and quickly retreated.

Unexpectedly, this Li Jun actually has the pressure box bottom skills, but Ye Xuan knows that this move must have sequelae, otherwise Li Jun will be used for the third time to meet?

Soon, this stock of black gas is fully integrated into Li Jun, his breath, directly skyrocketed several times.

Originally wanted to kill those black dragons, condensed and killed Ye Xuan, understand that this plan is unlikely to succeed, because those black dragons have all turned into a corpse, unable to fall from the air.

"It seems to be no good, killing!"

At the moment, Ye Xuan is directly exploding four killing marks, which directly rose up nearly five times the strength.

"Destroy the Dragon Claw!"

"Destroy the world!"

"Inflame the black dragon wave!"

"Stunning seventy-two sticks!"

Ye Xuan and the broken gods joined forces to attack.

However, Li Jun, after the strength improvement, actually pressed Ye Xuan.

But this time Ye Xuan didn't want to escape like this. He had to look at where his limit was.

Li Jun's skills must also be time-limited. If the duration is over, then Li is a lamb to be slaughtered.

If the situation is wrong, Ye Xuan will leave the market again!

"Booming!"

This battle is also quite fierce, the air is constantly moving, and the two are still playing hard to understand.

At this time, if there is a third party involved, it must be that one party is weak and then bombarded.

Just right, there is another figure in the sky that plunges toward Ye Xuan and Li Jun.

The two glanced at each other and found that this is a dark-haired boy, but the breath of this person is even stronger than Li.

Six products and half step true!

The last time, Li Jun encountered only a virtual shadow of a six-and-a-half-step true king, but this time, he encountered a true six-and-a-half step.

Moreover, this boy does not seem to be that simple, because Ye Xuan has sensed a strong demeanour from him.

This boy, I am afraid it is a black dragon teacher!

His appearance allowed Ye Xuan and Li to stop.

"Well? Hidden beads?"

At this time, the boy suddenly fell his eyes on Ye Xuan's body. He sensed the hidden beads from Ye Xuan's body.

Not only that, but Ye Xuan is the same.

"Induction of the hidden beads?"

Ye Xuan's brow was picked, and suddenly he saw hope.

This young man is a black dragon teacher, and the body also incorporates a hidden bead. He also has a hidden bead in his body, and can also sense each other.

This means that this teenager may be able to help!

"Brother, do you need help?"

At this time, the boy suddenly voiced to Ye Xuan.

Hearing this, Ye Xuan's mouth tilted slightly and said: "Yes!"

"it is good!"

The next moment, this boy is shot, and in a blink of an eye, it is turned into a majestic black dragon.

"not good!"

Li Jun couldn't help but change his face. He knew that things were troublesome.

Now, he can be tied with Ye Xuan, but if the teenager intervenes, he will be jointly killed by Ye Xuan.

"go!"

Li Jun immediately made a decision and then quickly turned around and left.

"Want to go?"

Ye Xuan's light flashes and his mouth is big.

Inflame kills Black Dragon Wave!

On the other side, the teenager opened his mouth and spurted a hot breath.

Two dragons, all hit Li, but they were avoided by Li.

In the blink of an eye, Li Jun disappeared into the sky.

"Mom, this skill is too abnormal, I can escape every time..."

Ye Xuan roared in his heart.

He estimated that this escape skill is not the black dragon, but the Li Jun who has the blood of the beast.

However, this time I was not able to kill Li Jun, so that Li Jun could not die, and I am afraid there will be more trouble in the future.

Ye Xuan thought at this moment, if there is a master to help, then Li is bound to fall.

Unfortunately, Ye Xuan is now inaccessible to this level of power.

"Thank you!"

After Li Jun left, Ye Xuan hurriedly thanked the boy.

"The black dragon seems to be not a demon, and it is a bit strange. What is it?" The teenager couldn't help but ask.

At this time, the big mouth of the devil's dragon suddenly disappeared, and then Ye Xuan got out of it.

When the teenager saw it, it was a bit strange.

He also thought that the demon ghost was the demon, but he did not expect to have one in his mouth.

"I and he are both animal trainers. He wants to **** my pet."

Ye Xuan said to the boy.

"Oh? Train the beast?"

The boy changed back to the human form and sensed it. Sure enough, the hidden beads were on the devil's body, not Ye Xuan.

He did not understand, Ye Xuan, this nine-product half-step real person how to conquer such a powerful black dragon.

Although it is only the realm of the four real people, the real combat power is comparable to the half-step true king, which is very rare.
