Chapter 1841: Hundreds of scales

However, this does not matter, because the Black Dragon teaches not only the black dragons, but also the humans.

In addition, the hidden beads are not ordinary things, only after they are recognized, will someone give them.

Therefore, the juvenile does not doubt the identity of Ye Xuan.

"How many dragon scales have you merged with your black dragon?" The boy suddenly asked.

Hearing this question, Ye Xuan quickly thought about it in his mind. If it is really worthwhile, the destructive ghost dragon has already merged nearly 600 pieces of extinct dragon scales. Of course, some of them are extinct keels.

However, he did not want to expose too much, but he could only answer with the same words: "It has already been one hundred and thirty!"

"Oh?"

The juvenile is a bit strange, saying: "It's amazing. I have only merged one hundred and fifty pieces until now. It's getting harder and harder to integrate the dragon scales into the back. It's already a good one in 130."

Wen Yan, Ye Xuan heart quietly relieved.

Fortunately, he did not say two hundred pieces at random, otherwise it would be difficult to explain.

Still waiting for him to speak, the boy said again: "My name is Qi Hao, I am going to participate in the 100-level event. Are you also?"

Hundreds of scales!

After Ye Xuan heard the word, he couldn't help but be a little surprised. "In the next leaf, I don't know what this 100-level event is?"

"Oh? You don't know?" Qi Hao raised his brow and said: "The 100-level event is a grand event that incorporates a hundred people who have broken the scales. There will be some masters who tell their experiences and hide. Destroy the beads, it is the admission ticket!"

"Oh I got it!"

Ye Xuan suddenly understood.

If it is a fairy that combines the dragon scales or the keel, the fairy phagocytic system can separate them. The human or the demon who combines the dragon scales can't do it.

However, Ye Xuan knows that these people should have a large number of extinct dragon scales or dying keels.

If you can rob it, then the strength of the destructive ghost dragon can be greatly improved. At that time, Li Jun has also grasped.

"As long as there are hidden beads, can you go to participate?" Ye Xuan asked again.

"Yes!"

Qi Hao nodded.

For those who tell the experience, Ye Xuan is actually not interested. What he is interested in is the people who are in the ring.

In this case, he will go to the 100-level event to see if there is any big gain.

Next, Ye Xuan decided to go with Qi Hao and go to that hundred-level event.

The beast god, the **** holder Li Jun, has also been scared away by Ye Xuan and Qi Hao, and it is estimated that it will not come again in a short time. Taking advantage of this opportunity, Ye Xuan is going to know some people in the 100-level event. When Li Jun is here, these people will shoot, and Li will definitely die without a place to die.

"Hey, the host breaks through, it's a real thing!"

"Hey, the sinister ghosts, the sinister ghosts, the Megatron, the broken gods, the current breakthrough is the real five!"

During the period, Ye Xuan's realm finally broke through to the real person and his strength improved.

However, he estimates that Li may also break through again, so he still can't take it lightly, and maybe he will kill it again.

According to Qi Hao, this hundred-scale event was held on the ruins of a city, where it was first destroyed by the Black Dragons, so there would be no other people.

I heard that there will be a strong man of the true level, and his experience of integration will certainly benefit others.

The admission voucher is the hidden bead, because only the Black Dragon genius that incorporates hundreds of extinct dragon scales will be given.

If the person who does not have the hidden beads approaches, then he will be besieged and then fall.

Although Ye Xuan did not hide the beads, he claimed to be a beastmaster, and he was also a hidden bead that was personally given by the Black Dragon Saint. This is certainly not a problem.

Ye Xuan followed Qi Hao through the transfer array, and after two days of driving, came to a ruin.

At this time, there are already many people here, all of which are black dragon teaching geniuses that incorporate hundreds of extinct dragon scales.

Ye Xuan took a cursory look and found hundreds of people, and there is still one day away from the appointed time. There must be more people coming.

"It's terrible, there are so many hundred geniuses!"

Ye Xuan heart trembled.

You must know that the former Qingyu doorkeeper also merged several pieces of extinction dragon scales.

Of course, the main gate of Qingyumen was low at the time, and he was a human being. There was a rejection of the dragon scales, so the low is normal.

At this moment, the black dragons who teach geniuses on this ruin are all demonists, and they are all black dragons. Only a few are other demon people. As for humans, there is none.

Ye Xuan, is the first one!

"Hey, how come there is a human here?"

Suddenly one person swept over and sent a strange question.

Ye Xuan turned his head and found that he was a six-and-a-half-step man. He did not feel the faint bead from Ye Xuan.

"He is a trainer, this is his pet!"

Qi Hao explained aside.

Upon hearing this, the suspected person couldn't help but look down on the sinister ghost dragon, and then he nodded slightly and then left.

Ye Xuan is just a real person. Even if it is a sinister ghost, it is just a five-person real person. It is almost the lowest level here, and there is no big wave.

Ye Xuan and Qi Hao are here, waiting quietly.

Although it hasn't arrived yet, Ye Xuan found that there are many more powerful atmospheres than Qi Hao. I am afraid that they are all masters of seven-product half-step Zhenjun, eight-product half-step Zhenjun and even nine-product half-step true.

As for the true Jun in Qi Haokou, it seems that it has not come yet!

After half a day.

"Oh, huge people are coming!"

Suddenly one person shouted.

Upon hearing this, the people on the ruins turned their heads and saw a huge black figure looming in the sky.

This breath made all the people on the ruins shocked.

So strong!

"The huge man, the initiator of this hundred-level event, is a master of the real level. And, it seems that I have already combined three hundred pieces of dragon scales."

Qi Hao explained aside.

"Three hundred?"

Ye Xuan's body shape is a trembling, this is really a sly character.

Although it is very easy to eliminate the dragon scales, it is because of the special blood, and the general repairer wants to integrate three hundred dragon scales. Even if it is a master of the real level, it is difficult to do.

To be honest, if the body has already merged five blood vessels, Ye Xuan also wants to try this dragon scale.

However, he is afraid that there will be conflicts between the dragon scales and the blood in the body. If something happens, it will be troublesome.

Because, this situation will also happen to the fourth avatar of the mortal world, when it will be miserable.

In case, cover up the blood of time and space?

By then, time will not be used.

Chapter 1842: traitor

In Ye Xuan's thoughts, this huge man was plundered over the ruins and then turned into a human form, a long-haired old man.

"Hello everyone!"

The long-haired old man said.

"Great people!"

Many people should have one sentence.

"Everyone comes from all corners of the country, and I must be tired. I will rest for a long time." When the huge man finished, he found a place to rest.

Although other people would like to ask him, it seems that the huge people seem to be resting, so they have dispelled this idea.

There are more and more geniuses on the ruins, and everyone has hidden beads in the body, which can sense other people. Of course, many people have discovered Ye Xuan, a human who has no hidden beads, but no one has put him in his eyes.

Hearing Qi Hao said that these hidden beads are all given by the black dragon special envoy of the Black Dragon. These black dragon special envoys are responsible for running outside, as long as they sense the genius above the hundred scales, they will give the hidden beads to prevent being the white dragon temple. The master found it and thus strangled.

Soon, it took another half day.

At this time, the huge man suddenly opened his eyes and looked around after a circle. "Okay, everyone is coming together!"

Upon hearing this, the people around him quickly got up and gathered.

Ye Xuan looked at it again and found that the number of people has exceeded 500, and they are both high-end and half-step masters. The difference is also the low-order half-step true king. There is no real person like him.

What's more, he is still a real person, the existence of the bottom of the real person, therefore, no one will put him in the eye.

Next, this huge man of the true level is the beginning to tell his experiences.

Destroy the dragon scales, the hundred scales are a ridge, then two hundred scales, three hundred scales.

The more difficult it is to merge, the more difficult it is to improve.

The huge man is a master of the class, but he has more than 300 pieces of dragon scales. Even if everyone on the scene adds up, it will not be his opponent.

To tell the story, the huge people also said that they had killed a Sanpin Zhenjun, which is the strength of the combination of the dragon scales.

These people have combined the scales of extinction, and the strength they have upgraded is relatively more than that of the demon. However, their integration difficulty is many times higher than that of the Ghosts.

In addition, Ye Xuan has a planting space, and even if the difficulty is further improved, the Ghosts can be quickly integrated.

"So many people, if they are gathering the extinct dragon scales or the dying keels they hold, at least more than a thousand?"

Ye Xuan thought in his heart.

A thousand pieces of extinct dragon scales can increase the strength of the current smashing ghost dragon by 200%. Of course, this is to increase the number of annihilation dragon scales without changing. .

However, these are empty talks, because Ye Xuan is now in this strength, and there is no big wave here.

Just come to a high-order half-step Zhenjun, you can kill him, let alone so many people here, there is a huge man of the true level.

So this time, Ye Xuan just came to see the world, there is no other plan.

Unfortunately, his realm is too low, no one wants to make friends with him, but Qi Hao is a six-and-a-half-step master, but he has met several people.

At this time, Ye Xuan is planning in the heart, how can we borrow the hands of these people to deal with Li Jun.

At the same time, he also prayed in his heart, hoping that Li would hurry up, so that these people could kill Li.

Today is just the day when Li Jun sensed him, but during his transfer through the transfer array several times, Li Jun wants to catch up, I am afraid it is not that simple.

However, when a huge person taught his own experience of integration, suddenly a strange atmosphere was felt by everyone.

"There are outsiders!"

The huge man stopped immediately and turned around.

"Sorry, I am disturbing you!"

A middle-aged man said slyly.

Everyone is wary, because this middle-aged man is actually a master of a true genius, and there is no breath of the hidden beads, nor the traces of the dragon scales.

It is an ordinary person!

"who are you?"

The huge man asked with a dignified face.

"This is the case. I received a distress signal before, so I came here to see it. I didn't expect it to be late."
The middle-aged man replied.

The people around you can't help but chill in your heart.

This reason is really bad. I don't know if this city has been destroyed for a long time?

"Hello, no one here asks for help, please leave now!" said the huge man.

"It seems to be the case, then I will not bother everyone, leave!" The middle-aged man nodded, then turned and left.

But at the moment he turned, all the people on the ruins suddenly sacrificed their weapons and then attacked them.

Among them, it also includes a huge number of people who are true!

"kill!"

In an instant, countless attacks hit the middle-aged.

"Damn!"

The middle-aged face changed greatly and quickly responded.

Unfortunately, with so many people attacking, he couldn't stop it and was hit in an instant.

Fortunately, he is also a real-life realm, directly avoiding those powerful attacks, only hit by those low-end half-step true king, the injury is not very serious.

The next moment, there was a white dragon in his hand, which was directly crushed.

"Sure enough, the white dragon temple!"

The huge people suddenly reacted.

At this time, there was already a virtual shadow in the air, which was actually a Sanpin Zhenjun.

"This guy I stopped, you killed him!" The huge man shouted.

Everyone understands that this guy in his mouth refers to the illusion of the three products.

It seems that this gathering place has been exposed and cannot be left for a long time.

At the moment, everyone is all turned into a black dragon. Most of them are black dragons. There are also a few people who are dark attributes, such as the shadow lion. These races are more suitable for the fusion of the dragon scales. Advantage.

Of course, the most suitable for the dragon scales is the black dragon.

Ye Xuan also expected that there might be a master of Bailong Temple to spoil, so before he came, he set a void position all the way to prevent accidents.

"Huh!"

At this moment, suddenly there was a rumor spread, Ye Xuan and Qi Hao turned around and saw that there was a six-and-a-half-step true-level person who rushed toward them.

"Not good, it is a traitor!"

Qi Hao suddenly reacted.

The reason why the people of Bailong Temple can appear here is that there are people who have whistle, and there may be more than one.

"kill!"

At the moment, Qi Hao is also directly turned into a black dragon, directly counterattack.

As for Ye Xuan, it was already put on the armor of the mysterious god. He looked around and decided not to use the picture of the beast.

The people around the Black Dragon taught almost all of them to repair the demon, and all of them turned into a body battle.

When the picture of the beast is out, the black dragon masters present will reduce the combat power of 50%. At that time, isn't it cheaper by the master of Bailong Temple?

Chapter 1843: Withdrawal

"In addition to the middle-aged man, and the virtual shadow of San Pinzhen, there are many masters of the White Dragon Temple..."

Ye Xuan thought in his heart, it seems that this time, he must go.

However, this is also an opportunity.

This kind of big melee, I am afraid there are many people who are dead. If he is a fisherman, he may be able to get a lot of dragon scales.

However, this behavior is very dangerous. After all, is it possible for someone to stare at him?

But the realm of his real life, it is estimated that no one will start with him, even if he is standing there, no one will pay attention.

However, there are some people who like to kill low realms.

"Hey..."

Suddenly a strange smile, ringing in Ye Xuan's ear, Ye Xuan turned his head and looked at it. It was a wretched person looking at him.

That look, it seems to be watching a prey!

"This guy, there won't be any quirks, okay?"

Ye Xuan couldn't help but shudder.

Fortunately, this wretched person in front of me is only a three-step half-step true level.

Needless to say, this must be a traitor in the Black Dragon Church.

"fit!"

At the moment, Ye Xuan is directly combined with the destructive ghost dragon, and then catches the void.

"Destroy the Dragon Claw!"

"Hey!"

In an instant, this wretched three-product half-step truth is the body that was pinched out of the air.

In the district, the three products are half-step true, and dare to shake in front of Ye Xuan?

At the moment, Ye Xuan quickly took over his shackles and then looked for targets.

Now, he is considered to be the Black Dragon Dance camp, so he must fight for the Black Dragon.

Of course, those corpses encountered on the way, he naturally wants to close up.

These people's Qiankun ring has a large number of extinct dragon scales and ruined dragon scales. The only one is the three-product half-step true king who has been pinched out of the body. There are more than 60 useless dragon scales. And tens of thousands of ruined dragon scales.

However, at this time, the destructive ghost dragon could not fuse these dragon scales, but only continue to collect.

Fortunately, the realm of the Ghosts of the World is low. It is only a six-person real person. No one still notices him.

"Megatron, the wind is the endless fan!"

Ye Xuan quickly ordered.

Today, Megatron can be transformed into the most common Tianfeng Promise fan. Although this magic weapon has no fighting power, it can sweep away a lot of trouble for Ye Xuan.

"Calling!"

Suddenly, there was a gust of wind blowing over the ruins. Anyone close to Ye Xuan was fanned.

Although Megatron is only a five-person real person, the magic weapon is not small. If it is an ordinary person, it has already been fanned to the sky.

At the same time, the flexible tree was also summoned by Ye Xuan, and then quickly collected the body.

For this group of tens of geniuses, the dragon scales are of little use. After all, their integration is slow and enough.

Therefore, not many people and Ye Xuan robbed, they are all focused on killing the enemy.

"Kid, are you also a traitor?"

At this time, another voice fell into Ye Xuan's ear.

This time, I came to the master of the four-product half-step true level, but the other party did not change at this time, so the strength is not very strong.

"Do you care if I am!"

Ye Xuan is just a cold scream, and his mouth is a smoldering black dragon wave.

"boom!"

In the meantime, the upper body of this person was blasted and fell directly.

Although Ye Xuan is now helping the Black Dragon, if someone dares to put his mind on his head, he does not mind cleaning it up.

However, the Bailong Temple has sent hundreds of people, and the realm is not weak. If it is better than the realm, the master of Bailong Temple will be higher than the Black Dragon.

"The people who teach the Black Dragon, although they all combine the dragon scales, but they do not have much advantage. It is not appropriate to stay here for a long time, or to go first!"

In Ye Xuan's heart, it's already a resurgence, because after the **** task, he found that the time-lapse skills could not be used.

This one is very deadly for him!

He turned his head and glanced at it. He found that Qi Hao was fighting a seven-and-a-half-step true king of Bailong Temple. At first glance, Qi Hao was still at a disadvantage.

The White Dragon Hall is an unknown force. It can be recruited by the White Dragon Temple. It is certainly a dragon and a phoenix. It is not so easy to challenge.

"No, there is another seven-and-a-half-step man who is eyeing him!"

Ye Xuan's face changed and swiftly swept away. At the same time, he said: "Qi Hao, don't fight any more, let's go!"

"No, I have been stared, and there are a lot of Bailongdian masters outside, I can't break through the encirclement." Qi Hao replied that at this time, he is already ready for a desperate fight.

"This is not necessarily the case, I have a way to leave, then you don't want to resist!"

When Ye Xuan's voice fell into Qi Hao's ear, the latter felt a strange energy and shrouded it.

Qi Hao knows that if he continues to stay here, 80% will fall.

Therefore, according to what Ye Xuan said, there is no resistance.

The next moment, he found that his environment has changed, and his surrounding comrades and enemies have all disappeared.

At this time, he was already received by Ye Xuan in the planting space, so Ye Xuan was not prepared to stay here, and directly broke through the void and drilled in.

This level of combat, if time-lapse skills can still be used, he will definitely stay until the end, and strive to get a big benefit before leaving.

Unfortunately, the time-lapse skills can't be used unless you kill the **** holder, so Ye Xuan must be insured, which was discovered after he saw Qi Hao.

At this time, Ye Xuan had already left the gathering place of the hundred-scale event, but he left a mark in that place, which is Megatron.

Megatron, turned into a fine needle hidden in the ruins, Ye Xuan can observe the battle through it.

This is a good opportunity, so he naturally will not leave so easily, he is ready to wait for the master of the White Dragon Temple and the black dragon master war, and then leaked.

This war has not lasted for a long time, because the people who teach the Black Dragon are too scattered. Many times they are fighting each other and fleeing whenever they have a chance.

Taking advantage of this opportunity, Ye Xuan quickly broke through the void and began to leak.

He carefully strolled the entire ruin and then got seven bodies, but suddenly there was a high-order half-step real kill, so he could only leave.

"Additionally, there are more than 300 pieces of extinct dragon scales, two dying keels and a lot of ruined dragon scales. It is really big!"

Ye Xuan's eyes slammed and quickly disengaged, and then let the sinister ghost dragons swallow these.

Soon, the growth rate of the destructive ghost dragon exceeded 200%. However, after more than 200%, the required scale of the extinction was greatly improved.

This time, it takes 20 pieces of the dragon scale to be able to increase by one percent.

However, these things have also increased the growth rate of the Ghosts to 200%.

Chapter 1844: Qijia

"A group of people have been washed away, and if they go back, it is estimated that they will not be able to."

Ye Xuan is very helpless, if at that time his realm is enough, how good it is.

If the realm is enough, then he can kill the Quartet and definitely get thousands or even thousands of extinct dragon scales.

Unfortunately, he is not strong enough now.

However, it is at this time.

"Hey, the host chain triggers random missions, escorting Qi Hao back to the family, and rewarding Megatron's magical form!"

The system suddenly prompts.

"Megatron, the magic weapon shape is improved?"

Hearing this, Ye Xuan's eyes could not help but brighten, and the magic weapon shape was improved, not which magic weapon was upgraded. This means that the effects of the mysterious warrior armor, the dementor bell, the refining spirit pot, the beast of the beast and other magic weapons will all be improved. .

Not bad!

At the moment, Ye Xuan asked about Qi Hao, where is his family.

Then, Ye Xuan is starting to hurry.

At the beginning of his encounter with Qi Hao, it was very far away. After all, they passed through several transmissions in the middle.

Moreover, that place is where he and Li Jun played for the third time. Now, if you are in the past, you don't know if you will meet Li Jun.

On the same day, he and Li were both evenly matched, and Qi Hao helped each other, so Li Juncai retreated.

Ye Xuan estimates that when he meets Li Jun next time, the latter can no longer fear Qi Hao. At that time, I am afraid I still have to rely on himself.

Of course, if Li Jun comes back after he completes the **** mission, then he has more chances to win. After all, Megatron's magic weapon shape has improved.

Even so, Ye Xuan did not want to meet Li Jun at this time, so he used the Xian phagocytic system to analyze it in his mind.

Decided to go back in a different way. Of course, this does not mean that Ye Xuan wants to fly back, but to change a route to avoid the previous position.

"Li Jun fled eastward on the same day, plus the direction of the city that I sent in the past few days. He should have rushed in the direction of the hundred-level event in the east. Then, I left through the transmission array in the west."

Ye Xuan thought about it.

"Hey!"

The transmission array began to operate, and Ye Xuan came to a new city.

However, the transmission array cannot be transmitted to Qi Hao's family, so Ye Xuan has to run for a while, which takes about six or seven days.

During the period, Ye Xuan's realm broke through to the two real people. Yan Ghost, Destroyed Ghost, Megatron, and Heavenly God are six real people.

I don't know, Li Jun is now in what realm. Maybe it is already a five-pronged step.

Along the way, Ye Xuan was brave enough to hurry, but this time he was very lucky and did not meet Li Jun.

Soon, Ye Xuan came to Qi Hao's family.

Qi Hao's family is built in the wild and close to a dangerous place.

It is said that the strongest of the family is the same as the huge man of the day.

"Hey, the host completes the first ring task of the serial random task!"

At the moment when Qi Hao entered his family, Ye Xuan's mind rang a system sound.

"The atmosphere seems a bit strange?"

Qi Hao said something strange.

"How strange?"

Ye Xuan brows a pick, he is the first time to come to Qi Hao's family, so I don't know where it is.

The voice just fell, and an old man rushed in, saying: "Two young masters, you are finally back!"

"Master Grandpa, what happened?" Qi Hao asked strangely.

The old man paused and said: "This is the case. There is also a genius of two hundred scales on the other side of the house..."

"Two hundred scales genius?"

Hearing this, Qi Hao's eyes glimpsed a little. "Isn't this the same as Big Brother, who is it?"

"It is the company's company. Like the young master, he is a nine-step, half-step true king." The old man replied.

"Nine products are half-step true, and the same genius as the big brother has merged two hundred pieces of geniuses..." Qi Hao stunned and said: "So, we are going to fight for the company, want Can you erase it?"

"The army has been protected very tightly by the family. It has not been seen at home, and the family and other people are looking for countermeasures." The old man said: "After a while, the messenger of the Blood Flame Hall is coming, if it is He knows that even a family has a genius, the young master is afraid..."

When Qi Hao heard this, he nodded and said: "With the relationship between our family and our family, if the company joins the Blood Flame Hall, then we have only one consequence, that is, it is destroyed!"

Of course, there is another way out, that is, the family migration, leaving this place. However, now Black Dragon has erupted a black dragon disaster, and it is very dangerous to move the family.

This matter is no small matter, so Qi Hao also went to join the Qi family meeting, and Ye Xuan was arranged to stay in Qi.

After a while, Qi Hao is back.

"What kind of power is that blood sultry hall?" Ye Xuan came back to see Qi Hao, and could not help but ask.

"In the blood sacred hall, there is a half-step true king-level powerhouse, but that is the master of the church. The blood-smooth hall in our mouth is just a hall built here, but as long as it is added, it will fly to the sky in the future. !! Qi Hao replied.

At this time, Ye Xuan suddenly remembered the words of the old man, said: "So, this blood-fire hall is also the rudder of the Black Dragon Church?"

"Well, so we have to compete with the family to compete for this quota. As long as we can join the Blood Flame Army of the Blood Yantang, we can get a lot of cultivation resources. If it is qualified, it will be recommended to the headquarters!"

Qi Hao nodded: "At the beginning, we have never put the family in the eyes, but I did not expect that even a family has a genius. Even if it is a master of the real level, I want to merge two hundred pieces of dragon scales. , at least get the three products Zhenjun."

Sanpin Zhenjun can only integrate two hundred pieces of dragon scales.

And even the family's company and the Qi family's same name, have reached this requirement at the level of Jiu Pin Half Step Zhenjun, this is not what genius is?

"Then how do you deal with it?" Ye Xuan could not help but ask.

He feels that this serial random task will be related to this matter, so you must ask clearly. With his current strength, although he can't help, but give him some time, he has this qualification.

"My father has already passed the main ditch of the family. I am going to let my eldest brother fight with the company's company. If any party loses, then the family will move away!" Qi Hao replied.

"Is it going to be desperate?"

Ye Xuan's brow was picked and said: "When is it?"

"After ten days!"

Qi Hao answered.

"Ten days?"

Ye Xuan calculated it in the heart. In the next ten days, he can break through to the three real people. The old tree, the sinister ghost dragon, the Megatron, and the broken **** can reach the seven real people. It is enough to participate in this level of battle. .

Chapter 1845: Battle of the two

"Hey, the host triggers a random chain of tasks, and after ten days, kills even the family!"

At this time, suddenly a system prompts to sound.

Sure enough, this serial random task is related to the contradiction between Qi and Lianjia.

Next, Ye Xuan was in the Qi family, during which his realm was also on schedule, reaching the three real people, and the old man and others also reached the seven-life real-life level.

After seven days.

The Qi family is ready to go, and the Qi family leader leads the large army and plunders toward the agreed place.

On the way, it took about three days. After three days, they arrived at the agreed place, just ten days later.

"Unfortunately, Li Jun did not even kill, maybe already near, just saw so many masters, so did not appear?" Ye Xuan heart reluctantly sighed.

If Li can appear, then Ye Xuan can call Qi Hao, let the masters of Qi family kill Li Jun and solve this problem.

It is a pity that Li Jun seems to have disappeared and did not appear.

This time, the masters of the Qi family came a lot, and the family leader of the Qi family was a product of Zhenjun, in addition to six products and nine products, half-step true king, and dozens of high-end half-step true king.

This battle is a must-have.

Don't forget, Qi Hao went to participate in the 100-level event. At that time, the huge man was only a true-class man, but it was a combination of three hundred dragons.

You must know that when other people are in the real thing, they are at most one hundred and eighty, and he is more than three hundred, which is enough to see the qualifications of the huge people.

In this way, the experience of the huge people, the alignment of the family name is very useful, although only ten days, but the experience of the huge people also benefited the same name, the combat effectiveness increased by 10%.

Although it is only 10% of the combat power, in this case, it is likely to decide the victory or defeat!

"Be careful, if this family is defeated, it is possible to go back and fight with us. They should not be able to move away from such a family."

Before the family arrived, Qi Hao could not help but say to Ye Xuan.

If it was before, Ye Xuan might be a little scared, but now he is not afraid at all.

However, this serial random task is to kill the company's company. It is a master of nine products and half-steps, and it also combines two hundred pieces of dragon scales. The strength is not trivial.

The most important thing is that even the company's company is now the first protection target of the family. I am afraid it is not so easy to kill.

"Lianjun will definitely have a lot of master protection. When you have to use the master of the family to drag, then I will kill it!"

Ye Xuan thought in his heart and glanced at the singular ghost dragon standing beside him.

Without the use of ghosts and dragons, the humanoid ghosts are also handsome, but because the realm is too low, no one will notice him. As a result, the sneak attack is simple.

After a while, the team of even the family came. The number of masters in this team is almost the same as that of Qi. If it is played, it will definitely be both losers, and no one can benefit.

"It's really early for the family to come."

A middle-aged man from his family said to the owner of the Qi family.

"Even if the owner is earlier than the agreed time, then we are starting now, or are we waiting for time?" asked the Qijia family.

"According to the agreed time."

Even the family owner said, at the same time, looked at the team of the Qi family, and swept the two hundred scales of the Qi family.

Both sides are looking at each other's strengths and discussing them privately with voice.

In fact, whether it is a family or a family, there is an idea. If one is defeated, then it will directly tear the face and not let the other party be better.

This point, Ye Xuan has actually been counted, after all, this blood flame hall is strong, if it can join, then the family will rise.

Even if both lose, you must win this place!

"The same name, that is the Lianjun, how do you feel a little better?" Qi family asked.

"Father, please rest assured, this war, I dare not say that there is a 10% grasp, but 90% is definitely there." Qi Ming said.

"Okay, very good, but you have to pay attention to it, you are afraid that even the family will come up with any tricks." Qi Jiajia reminded.

In his expectation, the same name can win this game, but the same name than the Lianjun broke through to Jiu Pin half-step Zhenjun, and has been integrated into two hundred and three pieces of extinction dragon scales.

That even the army, just happens to be a fusion of two hundred pieces of the dragon scales, and it is precisely because of this that he can break through to the nine-step half-step true king.

In contrast, the odds of winning a lot are indeed a lot bigger, but there is no guarantee that the same name will win.

Soon, it was the agreed time.

"Qi Jiazhu, come on?" even the family owner said.

It was said that the family of the Qi family nodded slightly, and immediately went out.

On the other side, a group of people came out of the team, a dark-skinned youth.

As for Qi Jia and even the family, both sides have retreated far and wide, and the relative distances are similar.

"If you are ready, start yourself!" said the owner of the family.

Everyone is not a child. At the moment they go out, they are actually ready, so they don't need to come to the individual to start.

However, at the time when the main voice of the family fell, the same name and the company were transformed.

Qi Jiahe Lianjia, originally separated from a black dragon group, is the same root, but with the passage of time, and driven by various interests, the two have created contradictions.

To put it simply, both families are demonists, and the body is black dragon.

"Hey!"

"Hey!"

Two dragons, almost at the same time, fell into the ears of everyone.

The next moment, these two huge figures are beginning to fight.

"Hey!" "Hey!" "Hey!"

A muffled sound spread.

The battle between the demonists is almost always physical confrontation.

In the fairy world, there are few people who are tempered in the heavens. It is really everywhere in this holy world, because this is the most common demon in the sacred world.

However, at the beginning of the battle, the same name was directly found the other side of a flaw, with the dragon tail smashed the other side.

"Oh, it really is a little better than the same name, this army's strength can not be compared with the same name." A family of old people cold and cold.

When the words came out, everyone nodded. They estimated that this battle must have won the same name.

But what makes them surprised is that even the company's company, the ability to fight and fight is too strong. If the average person is hit by a few hits, I am afraid that he will be defeated.

However, this company did not, and the scars on his body were much less than expected.

However, the strength of the same name is there, and even the support of the army can not win.

Chapter 1846: Even family genius

"It seems that this battle is stable. Everyone should pay attention to it, in case something is coming out of the house."

The Qi family's lord rushed to the public and then aligned the name: "I'm not going to fight too much, come back!"

The original name and the Lianjun were fighting between the two sides. However, with the defeat of the Lianjun, the battlefields of the two men approached a lot of homes, so the Qi family reminded one.

After hearing this, the same name suddenly reacted, this position is very unfavorable to him.

He was a bit overwhelmed, so he won the battle all the way. Now he was reminded by his father that he immediately stopped and then stepped back.

However, it is at this time.

"on!"

Even the family owner suddenly gave a voice to everyone.

The next moment, even the masters of the family all turned into black dragons, killing the past in the same name.

"As long as I kill you, I see what qualifications are in the family and we have a family fight!" Even the family thought.

"not good!"

The masters of Qi and Qi's masters saw their faces changed.

Sure enough, even the family has to go back.

Fortunately, the family owner reminded me, otherwise the name will be deeper and it will be harder to escape.

No, the current name is still not out of danger.

"It's just a good thing to mix things, just look at it!"

Suddenly a strange voice fell into the ear of the same name. The one who talked was the black dragon in front of him, that is, the army.

Not waiting for him to react, the company even flashed directly to his side, and then the huge body turned, the dragon tail quickly pulled out and directly hit the famous dragon's back.

In the meantime, the same name was called to the master of the company.

This company, even if it is playing pigs and eating tigers, his strength may be more than the same.

I can't figure out the same name, but I just broke through to the nine-step half-step Zhenjun's army, and the strength that broke out was even stronger than him.

But then, he will know.

"Waste, do you think that I just merged the dragon scales, but I merged a piece of dyke!" continued the army.

Destroy the keel!

Lianjun, even combined with a piece of dying keel!

If the messenger of the Blood Flame Hall comes, the name will definitely be suppressed by the Lianjun. After all, only one person can merge with the keel.

Before, Ye Xuan also saw a black dragon that merged with the keel, but it was just a fairy, and it should have been a dog.

Now, the person who combined the dying keel is actually a cultivator, and that is a big hit.

"Kill, at all costs, kill the Lianjun!"

The eyes of the Qi family's masters suddenly became red. He felt that this time is a fierce and fierce. If this is the case, then they will have a broken net with their family.

At that time, the masters of the Qi family have all become the body, even Qi Hao, who is a six-step half-step true king.

A terrible battle broke out.

At the same time, Ye Xuan looked at the masters in front of him, and his heart was planning.

"There is a fusion of a dying keel, so the strength is probably comparable to the real king, to break the strength of the gods, I am afraid it is difficult to kill it..."

Ye Xuan thought in his heart.

It's just a seven-person real person, even if you add the mysterious warrior armor, it's hard to kill the army. After all, the army is completely protected by the company.

At this time, Ye Xuan was thinking, if the magic weapon system of Megatron is upgraded to the second level, then how good it is. When the mysterious warfare armor is the second level, I am afraid that I will not die.

"No matter, kill, as long as the master of the company is killed, then the army is dead!"

Thinking of this, Ye Xuan directly summoned the tree and others.

Megatron, it is transformed into a map of thousands of beasts, suppressing all black dragons.

The picture of the beast will be suppressed as long as it is a beast. Of course, Ye Xuan's pet will not be affected.

As a result, the role played by Shu Lao and others is even greater.

"Inflammation locks the soul chain!"

"The soul of Yanming Town!"

"The Nether is broken!"

"Stunning seventy-two sticks!"

"Destroy the world!"

"Inflame the black dragon wave!"

The old trees, the gods of the gods and the ghosts of the world are all layered.

As for the fall, Ye Xuan did not release it, because his time-lapse skills could not be used until the **** holders died. If there is a blind man, it will be a tragedy.

As for himself, he did not fit in with the evil spirits. After all, he was looking for opportunities and suddenly broke out and killed the army.

The map of the beasts, together with the gods and beasts, makes the blood and the beasts of the beasts, so that the old ones have the ability to surpass the superior.

If they do not change, these people will not be affected, but once they change, they will instantly reduce their combat power by 50%, and they will be injured by the old trees, and the damage will increase.

However, these demonists are simply not clear.

"correct!"

At this time, Ye Xuan suddenly thought of this, he can use the map of the beast to reverse the situation.

At the moment, he is a voice to Qi Hao: "Qi Hao, let the people of Qi family return to human form!"

"Why?" Qi Hao said strangely.

"I have a magic weapon, you can suppress your body at least 50% of the strength, you will not be affected after you restore the body, as long as you act together, you can instantly kill more than half of the master of the family!" Ye Xuan said.

"What, our strength is reduced, is it because of your magic weapon?"

After Qi Hao finished listening, he was very shocked.

No one knows the reason why they have reduced their strength, but they did not expect it to be a ghost of Ye Xuan.

If Ye Xuan is true, then they will win!

Qi Hao thought for a moment, after all, if Ye Xuan said it was a fake, then their strength will drop a lot, after all, the body is more powerful.

However, Qi Hao finally decided to believe in Ye Xuan once, and then to the masters of the Qi family.

The masters of the Qi family listened and hesitated.

If it is false, they will definitely lose their hands, but if it is true, then even the family will be destroyed.

"Home, what should I do?"

Someone asked for a voice.

When the family of Qi family heard this, they couldn't help but look forward to the same name surrounded by the masters.

Under normal circumstances, they can't save the same name, but if it is true, Qi Hao said, then the strength of the same name will be greatly improved. At that time, not only will not die, but even you can force yourself to stand up. .

"This magic weapon really makes me lose 50% of my strength, even my home!"

The Qi family's mind thought about it and immediately made a decision.

"Everyone, change!"

This one voice was introduced into the ears of all his family members. Suddenly, all the Qi family members quickly shrunk, and even the same name in the encirclement is the same.

When they become adult, they feel that their strength has recovered.

Chapter 1847: Reverse the situation!

Although the human form is much lower than the main body, the combat power is much lower. After being transformed into a human form, the 50% of the strength that has been suppressed is back. In general, it is stronger than the ontology.

"If so, kill!"

The Qi family all widened their eyes and turned into a stream of streams, directly into the family camp.

Even the human form of Qi family is much stronger than the family whose body is reduced by 50%.

In the meantime, there are a large number of family members who have fallen, half!

"What, what happened?"

Even the family owner was shocked.

The original strength and their similar family, why become the human form, the strength has improved.

Moreover, at the beginning, why does the strength drop directly by 50%?

Is it a ghost of Qi family?

However, it is too late to react.

"court death!"

The same name has also been turned into a human form, directly killing the past with the family owner of the Yipin Zhenjun level.

"Hey!"

Just a punch, even the family owner was beaten, and a **** mouth spewed out a blood, still a rain.

Looking at this big melee, Ye Xuan has quietly started to act.

"fit!"

In an instant, Ye Xuan is in perfect harmony with the destructive ghosts and dragons.

"Killing and marking, breaking out!"

As early as before, the old tree, the sinister ghost dragon and the broken gods joined hands, it was already killing one or two masters, so Ye Xuan's killing and engraving has reached six.

Now, all six are outbreaking!

Seven times more strength, making Ye Xuan's breath powerful enough to be shocking.

After the combination, Ye Xuan, although turned into a ghost, but still can use the previous skills.

The dark longan slammed into the body of the company, and then the body shape of the sinister ghost disappeared quietly.

The eye of assassination!

The next moment, the destructive ghost dragon has come to the back of the company.

Inflammation, black dragon wave!

"boom!"

Destroy the ghost dragon with a big mouth and directly squirt a hot dragon.

As early as before, Ye Xuan had already marked the Lianjun with the death killing order, so even if the army became the body, Ye Xuan could find him.

Although the Lianjun merged with a piece of dying keel, and the realm reached the nine-step half-step Zhenjun, his current strength has directly reduced by 50%.

If this company is compared with Li Jun, it is really nothing.

Ye Xuan only shot a black dragon wave, and directly smashed his half body into a slag.

"Hey, the host completes the second loop of the serial random task!"

The system prompts to sound, and Ye Xuan has completed the task.

Then this battle is almost over.

Before Ye Xuan, I forgot to have the super magic weapon of the map of the beasts. Otherwise, several of them could single out the whole family.

Of course, this should be done in the case of a masterpiece!

"Ha ha ha, even home, today is the day of your demise!"

The owner of the Qi family laughed loudly.

The faces of even the family have already sunk to the bottom of the valley. It seems that this is troublesome.

Although there are several people who have returned to the human form, they have already been useless. There are always black dragon bodies falling in the air. Even the masters of the family have only a few.

"Damn, how did you do it!"

Even the family's main voice loudly.

"Dead!"

However, the Qi family owner did not have any thoughts of nonsense, directly attacked.

Under the siege of a group of people, this family was directly bombarded and turned into a body.

In this battle, Qi Jia won a total victory, and no one seems to have died. This is because Ye Xuan.

"Ha ha ha, even the whole team is gone, cool!"

"The coalition that has merged with a piece of dykebone has fallen, and this family has no threat to us!"

"Homeowners, are we better than chasing and chasing, and directly killing even the big house?"

The masters of the Qi family are hard to hide the joy.

However, the Qi family owner was not stunned by the joy, he turned his head and looked at Ye Xuan, said: "Little brother, just that, is your magic weapon?"

"Yes, it is my magic weapon!"

Ye Xuan nodded and recruited the picture of the beast.

This life magic weapon, representing only Ye Xuan can be used by one person, even if other people get it, it can not be used.

"Well, thanks to the little brother this time, otherwise we will win if we win the house, it must be a heavy loss!"

The Qi family owner thanked the sentence and said: "Little brother, then we may go directly to the house, can you help us again, you can rest assured that we will definitely pay you satisfaction."

"Remuneration, how much?"

Ye Xuan brows a pick, he has forgotten this matter, he was originally a passerby, not only saved Qi Hao, but now saved so many people, help Qi Jia won the company, he is not a saint, how Can you pay?

"There is still a family who lives in the town, but as long as there is a small brother's magic weapon to help, even if the second product is true, it will fall. After the event, I am willing to take out two thousand pieces of the dragon scales as a reward!" The owner said.

"Two thousand pieces, the dragon scales?"

Ye Xuan listened and couldn't help but smile.

At the beginning, it was a piece, and later it was five pieces. Next is the third stage of the integration of the dragon scales. It takes 20 pieces of the dragon scales to be able to increase by one percent.

The two thousand pieces of the dragon scales are enough to make the third stage of the elimination of the ghosts, which is double the fighting power.

Cool!

"Okay, deal!"

Ye Xuan immediately agreed, this transaction is really too profitable.

Although the Qi family is not small, but the so many people in the family, the scale of the extinction dragon is actually very large.

However, if you add a family, it is enough to get together two thousand dead dragon scales.

Qi family, in fact, is actually the cultivation resources of even the family. Although the dragon scales are precious, they can not be used by the average person, or the realm is more important.

Ye Xuan is not lacking in cultivation resources. What is lacking is the dragon scales. Qi family, just the opposite.

The two complement each other, can be regarded as mutual benefit and win-win!

After packing up the battlefield, the team of Qi is on the road again. Ye Xuan estimates that he can arrive at home after three days.

During the trip to Lianjia, Ye Xuan's realm broke through again, reaching the four real people, and the old ones were eight real people, and the strength was qualitatively improved.

At this time, the Qi family's team has arrived at the Lianjia Mansion.

After feeling so many powerful atmospheres, the masters in the big house are not calm, all plunged into the sky, all of which are high-order half-step true.

In the past, even the family's main take-out was actually only half the fighting power of the family. The reason why they stayed half is actually afraid of the family and the family.

Qi family, in fact, is the same, only half of the people brought out, they are afraid of even doing this.

Chapter 1848: Blood Flame Hall

"The people of Qi family?"

Suddenly an old voice sounded, and then the old man came out of the hands of an old man. This person is a true realm of the realm, that is, the last owner of the family.

"Lianjia, today, is the day of your annihilation!"

"I didn't expect you to be timid, and directly attacked me to come home, it is really shameful!" Even the old family thought that Qi family did not go to the appointment, can not help but ridicule.

"Ha ha!"

The Qi family's master opened his mouth and smiled, then threw a body from the Qiankun ring.

These corpses are the masters of even the family, including the family, and even the first day of the family.

After the family saw it, all of them were paralyzed.

"how is this possible?"

Even the old master was shocked. This time his son took out the master, half of the family, how is it still dead?

It's hard to be done, is the master of the family being out of the nest?

That's not right. His son is already a real-life realm. Even if he can't beat it, can he do it if he flees back to his home?

How come now, even if a message is not passed back, is it killed?

Thinking of this, even the old master knows that Qi family has set up an ambush, must find a strong.

"My son..." Even the old master was very sad, and the whole person was angry.

"Less nonsense, I said, today is the day of your family's demise, start!"

The Qi family's masters did not say anything, and they turned directly into black dragons. The same is true of the group's masters.

Even the masters of the family have seen each other and they have changed. They estimate that this time they can't be good. After all, even the family's master is dead. This must be reported.

Ye Xuan, who is only a four-and-a-half-step real person, is standing in the distance and watching Wei Zhentian. In fact, it has become a common magic weapon and is hung on Qi Hao.

As soon as the time is ripe, Megatron will immediately become a map of the beasts and suppress everyone.

Of course, before this, Qi must play a play, that is, to find the right opportunity to quickly clean up the master of the family.

"Booming!"

Even a family, a group of black dragons are fighting there, screaming again and again.

Ye Xuan in the distance is waiting for an order from the family.

At this time.

"Little brother, start!"

In Ye Xuan's mind, the voice of the Qi family's master finally sounded. At the moment, he was given an order to Megatron.

The next moment, Megatron is a picture that transforms directly into a beast.

However, Qi family was prepared for this time. When the Qijia family voiced to Ye Xuan, many of them became human figures.

As soon as the map of the beasts came out, even the masters of the family were instantly suppressed, and their strength dropped by 50%.

On the other hand, Qi masters have become human figures, and their strength far exceeds the masters of even the family.

"kill!"

The Qi masters attacked with all their strength, and they smashed the masters of most of the family.

Now, whether it is a single combat force or a number of people, they are all dominant.

Then there is no suspense in this battle!

Soon, even the family was captured by the Qi team, and then began to smash.

Even the high-end half-step true kings of the family, all killed, then those low-end half-step true kings, can not afford to wave.

Afterwards, the Qijia family quickly collected the dragon scales, and they actually made two thousand pieces.

The two thousand pieces of the dragon scales were originally that the family wanted to cultivate new geniuses, but the family was destroyed. Therefore, these dragon scales fell into the hands of the family.

Before the Qi family owners promised, as long as Ye Xuan helped to destroy the company, then give Ye Xuan two thousand pieces of extinction dragon scales.

"Little brother, this time thanks to you, these two thousand pieces of dragon scales, you take it!"

The Qi family owner gave the things to Ye Xuan very generously. The latter looked at it, and it was exactly two thousand.

At the moment, he is throwing these extinct dragon scales into the planting space and giving them to the world.

Two thousand pieces of extinct dragon scales are enough to enhance the combat effectiveness of the destructive ghost dragon.

The first stage is one, the second stage is five, and the third stage is twenty. Then, in the fourth stage, how much will each increase in the percentage of the extinction dragon scale?

"Thank you for your predecessors!"

Ye Xuanyi opened his mouth and smiled, and hurriedly thanked him.

Next, the family of the Qi family ordered a few people to stay in the company, and then led the team back to Qi.

Now, even the family has been destroyed, and even the first day of the family has been degraded, so even the family is not a threat.

After a few days, the blood flamingo messenger will come, and by that time no one will compete for the qualification to enter the Blood Flame Hall.

However, with Ye Xuan, the team of Qi family directly passed through the door of the void and returned to the Qi family.

"You are just back, the messenger of the Blood Flame Church said that he will arrive at our home after three days!"

An old man said to the owner of the Qi family.

"Father, the messenger of the Blood Flame Hall, will not come in a month?" Qi family leader shocked.

"It is like this according to the plan, but now that the family has been destroyed, it does not matter. It is good to let Qi Qi enter the Blood Flame Hall as soon as possible."

The old man showed a happy smile and said: "This must be Ye Xuan's little brother, thank you for this time."

"Predecessors are polite!" Ye Xuan laughed.

Next, Ye Xuan is still living in Qi, because the third ring of random tasks has not yet appeared.

Before the arrival of the blood flamingo messenger, Ye Xuan's realm broke through again, reaching the five real people, while the old ones were nine real people.

As for the fall, it is already half a step!

Now with their strength, even if you do not use the map of the beast, you can also destroy the family or even the family.

After three days.

A strong atmosphere has come to the family.

After feeling the strong atmosphere of this, the masters of the Qi family swept out.

Qijia old family owner, Qi family owner, Qi Ming, Qi Hao and Ye Xuan all appeared.

"I have seen the ambassador!"

The masters of the Qi family immediately understood that the middle-aged man in front of him was the messenger from the Blood Flame Hall. He came to the **** hall with qualified genius.

"Ok."

The middle-aged man nodded slightly and said: "Since I already know my identity, I don't have to say anything. On the way I came, I have already heard about the family, then they should have lost their qualifications."

"Hey!"

Upon hearing this, the masters of Qi's family have come up with cold sweats. After the death of their masters, they have controlled their homes.

Even the news that the company has merged with a dying keel has not been transmitted, so they are not worried about the middle-aged people's anger at this time, but they are lamenting.

Fortunately, the news was blocked. If the middle-aged people knew that they had a genius with a keel, they were killed by them. It must be a big thunder.

Chapter 1849: Black dragon tide

Still waiting for everyone to speak, the middle-aged people said: "This world, there are countless geniuses, but the genius who can grow up is the real genius. The fallen Lieutenant, who died in the middle of the road, shows that he does not have this luck. Ok, what is the name of your family?"

When I heard this, I immediately took a step forward and said: "I have seen the predecessors!"

The middle-aged man carefully sensed it. "Yes, it is indeed a fusion of two hundred dragon scales. I am qualified to join the Blood Flame Army of my Blood Flame Hall. You are ready to go, then leave with me!"

"Yes, seniors!"

Respectfully respected.

Then, the middle-aged people looked around again and saw if there was any plasticity in Qi.

In the end, he focused his attention and suddenly concentrated on one person.

No, this can't be said to be a person, but a fairy!

"Well? It's a strong atmosphere of extinction. The real life of the nine products in the district is actually combined with no less than two hundred dragon scales?"

The middle-aged man was shocked.

At this time, he felt this breath from the sinister ghost dragon.

The same name, nine products and half-step true Jun, the integration of two hundred extinct dragon scales.

The destructive ghost dragon is just a nine-person real person, but the breath is no less than the same name, which is simply a matter of talent.

The strongest of the Qi family is two Yipin Zhenjun, but this messenger from the Blood Yantang, but Sanpin Zhenjun.

He just feels the breath of the devil!

However, what he does not know is that the number of extinct dragon scales that have been merged into the world has far exceeded 200. The number of extinct dragon scales that have been merged in the past few days is already more than two thousand.

If it is really counted, there are more than 2,500 dragons and dragons in the world, and there are many keel.

However, this middle-aged person did not fully feel it.

"Who is this fairy, who is it?"

At the moment, middle-aged people are asking.

Ye Xuan looked at his eyes and frowned and said: "Back to the seniors, he is my tamed pet, I am a beastmaster!"

"It's you?"

The middle-aged man was shocked because he felt that Ye Xuan was just a five-person real person. This realm is really low.

However, the five-product real person can surrender the nine-person real-life level of the ghosts of the world, but it is somewhat capable.

"I asked you, how many killing dragon scales did he merge?" asked the middle-aged.

"This....."

Ye Xuan's heart trembled and replied: "Two hundred and fifty pieces!"

what?

When the words came out, the surrounding Qi family were shocked. The most shocking one was Qi Hao.

He still remembers that when Ye Xuan told him at the time, he said that only one hundred and fifty dragon scales were combined.

But now, how come a hundred more suddenly?

"Not bad, nine products real-life level, there is such a qualification. This puts me in the blood of the flame hall, is enough to kill any genius, but unfortunately, he does not seem to be adult-shaped?" Middle-aged people nodded with satisfaction.

Although the Ghosts of the World are now humanoid, they can still be essentially different from Ye Xuan and others. When the Ghosts of the World are truly adult, then they are like the old demon.

Ye Xuan is also a bit helpless. The sinister ghost dragon just came out to make soy sauce. How was it seen?

"Young people, I guess, he can fuse so many dragon scales, must it be your reason?" The middle-aged people focused their attention on Ye Xuan.

The animal trainer usually has some special means to enhance the strength of the fairy or other and so on.

"Yes!" Ye Xuan nodded directly.

"It's so good, you will follow me back to the Blood Hall later." The middle-aged man has a big gaze.

If you compare the name to the devil, you will be directly scummed by the latter.

What genius?

In front of the dead dragons, it is waste!

"This....."

Ye Xuan is hesitant.

"What, you don't want to?" The middle-aged man frowned.

The Blood Flame Hall is the hegemon of this area. There are no ways for many people to join the Blood Flame Hall.

However, Ye Xuan still hesitated?

"Predecessors, I have something in my body, I don't care. I have a big hatred." Ye Xuan said.

"What hate, say it, I will help you!" Middle-aged humanity.

"This will not bother the older generation, when I avenge the revenge, I will definitely go to the blood flame hall!" Ye Xuan replied.

The middle-aged man paused and asked: "How long does it take?"

"At most one year!"

"Okay, then I will wait for you for a year!" The middle-aged man nodded immediately.

One year for him, it is nothing at all, so he can naturally wait.

However, at present, this situation is in danger of being destroyed by the Black Dragons in the city.

Therefore, the middle-aged man took a red armor directly from the Qiankun ring and threw it to Ye Xuan. He said: "This is the blood flame armor of my blood-smelting hall. After you put it on, there is no one under the true king. Can hurt you!"

Wen Yan, Ye Xuan eyes bright, immediately put this blood flame armor on his body.

This blood flame armor is red all over, and after wearing it will form a blood flame barrier around it, and it will be freely retracted.

Originally, Ye Xuan was afraid that time could not be used, and his own safety could not be guaranteed. Now that he has this blood flame armor, he estimates that there will not be much problem.

However, in fact, he hopes that this middle-aged person will give him a bit of a dragon scale.

Hao Hao is also a messenger of the big forces, at least take one or two thousand dragon scales out?

After passing the third stage of the extinction dragon scale, the fourth stage requires fifty pieces of extinct dragon scales.

Fifty pieces of the dragon scales can increase the combat power by one percent. So at this stage, we need 5,000 pieces of dragon scales, which is not a small amount.

It is a pity that this middle-aged man does not seem to have the intention to give Ye Xuan the world's dragon scales. He thinks that Ye Xuan should not lack the dragon scales. After all, it is only two hundred pieces that have been merged into the world. Isn't there yet?

Soon, the name is to pack up the baggage and then leave with the middle-aged.

Of course, before the middle-aged man left, Ye Xuan had used the death killing order to mark the middle-aged.

At the same time, Ye Xuan's mind also sounded a system sound.

"Hey, the host triggers the third ring task of the serial random task, helping the family to spend the Black Dragon disaster!"

The third ring mission finally appeared!

Look at this, then there seems to be a lot of black dragons coming?

However, Ye Xuan, who owns the picture of the beasts, is not afraid at all. Together with these masters of the family, this task can certainly be completed.

Sure enough, the second day after the middle-aged man left with the same name, there was a shadow of black pressure, which was attacked by Qi.

"No... not good, the homeowner is not good, there are a lot of black dragons coming!"

A nine-product half-step Zhenjun quickly rushed into the house of the Qi family.

"how many?"

Asked the owner of the Qi family.

Chapter 1850: Do not annihilate!

"To, at least 5,000, and the atmosphere is strong, I am afraid there are three black dragons of the true level..."

This nine-product half-step true Jun said.

"Five thousand black dragons, the strongest is to achieve the three products true?" Qi family owners shocked.

In this case, at least the high-level half-step Zhenjun must be involved in the battle, and the Qi family add up to a maximum of one hundred.

What's more, the black dragon of the three-class Zhenjun level is coming, I am afraid that the whole family will be destroyed.

Of course, if it is before, the Qi family must be destroyed, but the family owner thinks that there is a life-saving straw in his home, and he has calmed down a lot.

This life-saving straw is the leaf Xuan who owns the legend of the beast of the beast!

As long as there is Ye Xuan, this time the black dragon tide, the threat directly fell by 70%.

As long as there is a map of the beasts, the family of the family has the confidence to fight against the black dragon of the three-class true king level.

The huge black dragon group is coming to the Qi family, and the only nine-step half-step Zhenjun is actually only receiving reports from the front line.

At the moment, the family of Qi family is beginning to gather masters.

"Ye Xuan!"

When the Qijia family gathered people, Qi Hao was already outside the house of Ye Xuan.

"Dangdang!"

Ye Xuan opened the courtyard door and said: "Qi Hao, is there something?"

"This is the case. I suddenly killed a black dragon group in the north of my family. The number is at least 5,000, so..." Qi Hao said.

"Five thousand?"

Ye Xuan was shocked. He had encountered the biggest one before, and it was nearly a thousand. It was also a black dragon group with a low level.

This time, it was incredible that there were 5,000.

"How is the strength?" asked Ye Xuan.

"It seems that there is a black dragon of the three-class Zhenjun level..." Qi Hao replied.

"Is it true?"

Ye Xuan's eyes are slightly stunned. It seems that this time the strength of the Black Dragon Group is not weak, but this is not a big deal for him now.

At the same time, he also understands that this time the Black Dragon Group is the goal of serial random missions.

"Okay, I know, I am going with you!" Ye Xuan nodded.

Qi Hao suddenly frowned, and some worried said: "But, you are in this realm..."

"Do not worry, although my realm is low, but the strength is not weak, I have the ability to protect myself."

Ye Xuan returned a sentence, and immediately swept away to the place where the masters gathered.

This black dragon squad suddenly came, Qi family gathered 90% of the master in a short time, and then ready to go.

Although there are only a hundred people in the Qi family, but all of them are masters, and their task is not to kill all the black dragons, but to let these black dragons do it.

As for Ye Xuan, he is also playing the same goal. After all, he is helping the family to survive the crisis.

In order not to let Qi family be affected, Qi team directly greeted them.

Soon, they met with this black dragon group.

"The picture of the beast, give me the town!"

At the moment, Ye Xuan directly sacrificed the picture of the beasts. The next moment, the speed of the black dragons was greatly reduced.

As for the Qi family, it is to maintain the human form.

"come on!"

Ye Xuan is also welcome, directly summoned the sinister ghost dragon, and then fit.

"Do not destroy the soul!"

"Death chase!"

"The eye of assassination!"

"Destroy the world!"

Ye Xuan directly applied the eyes of the assassination, spanning a large distance and flashing into the dragon group.

"Hey!"

A dragon snorted and spread.

In order to defeat the spirit of the world, the effect of the title of the beast god, and the destruction of the world, this is the attack against the beast, so the effect is very significant.

Suddenly, many black dragons were killed by this move.

"Hey, the host's killing value is improved!"

"Hey, the host's killing value is improved!"

"Hey, the host has a killing mark!"

"Hey, the host has a killing mark!"

A systematic reminder sounds.

In the blink of an eye, Ye Xuan has six killing marks, and then all broke out.

Seven times!

"Destroy the world!"

Ye Xuan's **** mouth was once again, and another sound wave attack spread. The black dragons that fell this time were ten times more than the last time.

Two rounds of attacks have caused the fall of hundreds of black dragons.

"Again!"

Ye Xuan's eyes widened, and another come to the world.

It is a pity that the strength after the killing of the engravings cannot be superimposed, otherwise it will be too bad.

The movement here has aroused the attention of those senior black dragons. Immediately, there are some senior black dragons of the true king level who are going to kill Ye Xuan.

"Hey, the fire kills the black dragon wave!"

Ye Xuan does not say anything, Zhang mouth will spray!

Although the destructive ghost dragon is only a nine-person real-life level, but after the integration of so many dragon scales, coupled with the fit and various increases, his attack is enough to kill a product of the true level.

After all, these black dragons have now been suppressed by 50% of the strength, and Ye Xuan has four times the increase in damage to the beasts, and the damage has exploded.

Just one trick, those black dragons who wanted to find Ye Xuan trouble were directly killed.

At the same time, the master of Qi family is finally killed.

The Qi family and the old family and the two joined forces and directly entered the dragon group like Ye Xuan.

At this time, there is no need to desperately fight, so the masters of the Qi family are both going back and forth, first consuming the number of these black dragons.

In just a few seconds, this group of black dragons died most of the time, but there were not many people on the Qi family.

"Hey!"

The three-product half-step true-level black dragon roared in the sky, and there was actually the meaning of escape.

"Want to go?"

The Qi family owner and the old family and the two joined forces, it is necessary to get rid of this leader.

However, it is at this time.

"Inflame the black dragon wave!"

"Stunning seventy-two sticks!"

Ye Xuan and the broken gods joined forces, two strong attacks fell on the black dragon, and instantly hit it.

Then, the black dragon was slain by the two Qi Jiazhen who arrived.

When the dragon head dies, the other black dragons are scattered and smashed like a street mouse. There is no meaning of fighting.

Taking advantage of this opportunity, Ye Xuan and Qi's masters quickly killed, a body descended from the sky, and there was a constant blood rain in the air.

I don't know how long it has been, there are no other black dragons in the air, and the corpses are everywhere, and the blood is flowing thousands of miles.

"I didn't expect that it would be a miracle to annihilate such a huge black dragon group with the strength of our family!"

"Yeah, this black dragon group is enough to destroy the forces that are several times stronger than ours, but it is planted in our hands!"

"Ye Xiao Brothers, the real name of the magic weapon, is too much against the sky, even the black dragon of the three products can be suppressed, otherwise, it is difficult to say whether this war can be won!"

The masters of the Qi family have been talking about it, and they are grateful to Ye Xuan.
