

Super D. S 1871

Chapter 1871: Get out of control!

"The White Dragon Temple does not seem to use the scales of extinction, so a large number of acquisitions of the dragon scales and the **** keel, is it necessary to pick it up and not let the people of Heilongjiang get it?"

"Isn't this nonsense? The reason why the fighting power of the Black Dragon teaches people is so powerful is because they combine the dragon scales."

"However, we can now merge the dragon scales, so what advantages does Black Dragon have?"

"Do you think that it is as simple as destroying the dragon scales and destroying the keel? I heard that there is also a combination of dragons, dragons, dragons and dragons to be able to exert more powerful power."

"Destroy the Dragon Blood? Why haven't I heard of it!"

"Destroy the world, only the genius of the Black Dragon can get it, I just heard it."

The people in the city of Poplar began to discuss it.

These were actually heard by Ye Xuan.

"In the Black Dragon teaching, there is also a kind of dragon blood. If you let the devils refine and refine, you don't know what will happen!"

Ye Xuan is a little curious.

The dragon scales and keels are scattered all over the place, but the dragon blood has never been obtained.

Soon, they came to the city government.

"Master, I will report to my father!" After entering the city's main house, Yang Yun gave Ye Xuan a voice.

"Okay, as I said before!" Ye Xuan nodded, and then followed a three-and-a-half-step real king to leave.

The plan in his mouth is to let Yang Yun go to report the **** hall, and he said that he has destroyed the blood.

At the same time, the upper class of Xueyantang, Ye Xuan did not intend to sell, let Yang Yun said that the other party is in contact with the Black Dragon.

Then, Ye Xuan asked him to ask the Baiyang City City Lord to destroy the dragon scales. He said that he had encountered a super genius on the way and then signed the blood stipulation of the master and servant.

In this way, the doubts of the Baiyang City owners can be dispelled.

Yang Yun left, and then found his father, but at this time his father Yang Tian is receiving a guest.

"Father, I am back!" Yang Yun said to Yang Tian.

"Well, how about this time?" Yang Tian asked with a smile.

Yang Yun nodded: "The blood flame hall is indeed a rudder of the Black Dragon Church, but the owner of the Blood Flame Hall does not know where the superior rudder is, and is in contact with the Black Dragon!"

"Oh, if that's the case, forget it, it's good!"

Yang Tian did not have any doubts. When he finished, he turned to look at an old man next to him. He said: "This is the vice-president of Zhuo Kang of Liuguang City. This time I heard that you became a white dragon, so come to Daxi. !"

"I have seen Zhuo seniors!" Yang Yun respectfully clenched his fists.

"The lesser city master is really a talent, this is a good keel, please smile!"

Zhuo Kang said as he took out a slap-sized keel from the Qiankun ring.

Such a large keel, and still superior, conservative estimate is equivalent to 100,000 extinct dragon scales.

This is actually nothing for those who can merge with the dragon scales, but for those who do not integrate the dragon scales, it is a valuable baby.

Because they do not integrate the dragon scales, they can only learn from the destruction of the world.

Such a large piece of superior keel, the speed of enlightenment will certainly exceed 100,000 pieces of extinct dragon scales.

Yang Tian and Yang Yun are both white dragons, so they cannot integrate the dragon scales and can only understand the destruction of the world.

This top keel is right for them!

"Thank you before..."

Yang Yun's eyes are bright and he is about to pick it up.

Available at this time.

"Ok?"

Zhuo Kang's hand suddenly trembled. He looked at Yang Yun with amazement and felt a bit of something wrong.

"Zhuo deputy city owner, what's wrong?" Yang Tian looked at Zhuo Kang strangely, is it difficult, the other side repented?

"I don't know if it is wrong. Yang Chengzhu, the soul of the Shaocheng master is a bit strange. It seems that... it is controlled!" Zhuo Kang brows a pick.

He is a seven-and-a-half-step real king, which is even higher than Yang Tian's six-and-a-half-step master, and he is so close, so he was discovered.

When Yang Tian heard this, his body could not help but tremble.

Yang Yun, was it controlled?

how is this possible!

"How come, Yang Yun's strength..."

Yang Tian was a little unbelievable. Going forward and checking it out, sure enough, there is a problem!

"not good!"

Yang Yun's face changed greatly, but she did not expect to be exposed to the secret.

Still not waiting for him to react, Yang Tian and Zhuo Kang are one left and one right, to hold it.

Yang Yun, who was controlled by the dementor, quickly gave Ye Xuan a voice and told Ye Xuan at this time.

At this time, in a corner of the city government.

"what?"

Ye Xuan was shocked. He did not expect that someone was proficient in the soul and found that Yang Yun was not right.

next moment.

"Hey, Yang Yun is out of control!"

A system sounds, which sounds in his mind.

Yang Yun, actually got rid of control!

There have been similar incidents. At that time, in the mortal world, the red blood corpse king smashed after being blinded by the eyes of death.

At that time, the Red Blood King was also out of control of Ye Xuan!

Of course, the problem at this time is because the realm of Ye Xuan and Megatron is too low.

Megatron is only eight products and half-step true kings. It is fourteen different levels from the three-product half-step real king, and the other side's realm is higher than Yang Yun.

Therefore, Ye Xuan did not feel anything, but did not expect to be discovered so quickly.

Since it is exposed, then Yang Yun should immediately bring people to kill. If so, then fight it!

Sure enough, when Ye Xuan jumped into the sky, he found three figures and swept toward him.

One of them is Yang Yun who just got rid of the control of the dementor.

As for the other two, the breath is much stronger than Yang Yun!

"Father, it is him!"

Yang Yun figured up and pointed to Ye Xuandao.

"Kid, is you, control my son?" Yang Tian looked at Ye Xuan and asked slowly.

He did not understand, Ye Xuan, this four-product half-step true Jun, is how to control Yang Yun of the three-product half-step true king.

You know, this is close to two big realms!

"What about it?"

Ye Xuan said coldly.

Yang Tian's eyes glimpsed, and Yang Yun's waking up was to give him a voice.

Ye Xuan's qualifications are still above Yang Yun, and they are open.

If it can be controlled, the Yang family will fly!

"Boy, you are so bold, you dare to shoot for me, look for death!"

Yang Tian's flash of light flashed directly.

He is a six-and-a-half-step real king, much stronger than Yang Yun, and there is a tendency to go to the sea with one shot.

However, Ye Xuan has already prepared for it, and quickly flashed away.

The next moment, the city government has undergone a change.

"Boom!" "Boom!" "Boom!"

Those half-step real kings who were controlled by Ye Xuan began to work.

"No, father, he also controlled the hundred and half-step kings I took away!"

Yang Yun suddenly reacted and immediately voiced.

Chapter 1872: Twins

Fang Cai Yang Yun was just awake, and under the anger he forgot that other people were also controlled by Ye Xuan.

Fortunately, Ye Xuan controls the realm of people is not high, at most three products and half-step true king, but can not afford any big waves.

Ye Xuan did not expect these people to make any noise, but they could not let them stay.

At this time, Yang Tian has already killed Ye Xuan.

"The Soul Bell!"

Ye Xuan suddenly used the flash, flashed to the side, and then quickly let Megatron incarnate the soul bell.

"Hey!"

In an instant, the low-level people in the city's main house were controlled by Ye Xuan, and then they jumped to the sky.

"What kind of magic weapon is this, can control so many people?"

Yang Tian was shocked.

It seems that this time I met a tricky figure.

"Yangcheng Lord, I will help you!"

The Zhuo Kang cold drink, also killing Ye Xuan.

A six-and-a-half-step real king, a seven-and-a-half-step real king, has already threatened Ye Xuan.

"This guy has not appeared in Yang Yun's memory. It is estimated that people from other places are even stronger than the city of Baiyang City. It is estimated that it is a seven-step half-step real king!"

Ye Xuan thought in mind, it is the direct use of time back skills.

Back in time, until they returned to Baiyang City half a day ago, so that after half a day, time back skills can be restored.

However, this time Ye Xuan is not prepared to let Yang Yun go so far, but is ready to wait for some time.

"Hey, the host breaks through, and it's currently five products and half a step!"

"Hey, Yan Ghosts, Destroyed Ghosts, Megatron, Breaking the Gods, the current breakthrough is the nine-step half-step!"

Now, Ye Xuan has the strength to kill the city's main government.

The realm of Megatron is enhanced, and the effect of the Soul Bell is also improved, but when Ye Xuan waits for a breakthrough, he discovers a new magic weapon.

This magic weapon, called Gemini, is a gift that allows Ye Xuan to connect with someone.

After the connection, the two parties will increase the level according to the level difference, or lower the level.

Now Ye Xuan is a five-product half-step true king. If he connects to a high-ranking person, his strength will increase.

On the other hand, the person connected by him, because the realm is higher than him, the realm will be reduced after the connection.

"These twins have a heart-warming magic weapon, and they have not specified how much they can improve. No matter what, let me try!"

Ye Xuan's eyes stunned, and Wei Zhentian turned into a pair of hearts, and the object of the action was Yang Yun, a three-pronged and true-level king.

"call out!"

Two red thin lines were shot from the twins of Megatron, and then they were photographed on Ye Xuan's awkward Yang Yun, exactly, the heart position.

The next moment, Ye Xuan felt that his strength was arrogant, and in the blink of an eye he broke through to the six-product half-step true king.

On the other side, Yang Yun is from the three-product half-step true king, to the second half-step true king.

Ye Xuan, enhance a realm!

Yang Yun, lowered a realm!

"The trough, the magic weapon of a good cow!"

Ye Xuan's eyes widened, and with this magic weapon, he can quickly reduce the gap between himself and the enemy.

However, this pair of children has a distance limit. If the other party is away from Megatron, the effect will disappear and the realm of the two will be restored.

Not only that, the heart-to-heart effect is also a chance of success, and increasing the lucky value will increase your success!

For the first time, Ye Xuan once succeeded, but also because of good luck.

"I have used this Yang Yun successfully, but I don't know if the six-player and half-step king of Baiyangcheng City can succeed. In addition, there is still a seven-and-a-half-step real king. I don't know if it is still in Baiyang City."

Ye Xuan thought in his heart.

No matter what, he has to try it.

But this time, he decided not to bring Yang Yun into, but went to Baiyang City alone.

"Without Yang Yun, you won't be exposed. At that time, you must have these two people look good!"

Ye Xuan's flash of light flashed, and he went alone to Baiyang City.

Soon, he arrived.

At this time, his realm was higher than that of Poplar City before the time went by, and he also allowed Megatron to keep the twins in the shape of the heart, so that as long as it does not become other forms, it can be maintained.

At this time, Ye Xuan has once again entered the city of Baiyang. After entering, he went directly to the city government.

This time, because he came alone, no one entered the city government and did not know the situation inside.

"I will be the seven kings and half-steps, and I will still use them. If you succeed, you can kill them!"

Thinking of this, Ye Xuan directly summoned the old tree, the dying ghost dragon and other people, and then directly fit.

A gloomy breath spread in an instant.

After the master of the city's main house felt the breath, the figure immediately trembled, and immediately there was a half-step of the king leaping into the air.

However, they just appeared, they were directly killed by Ye Xuan's murderous black dragon wave.

"Hey, the host's killing value is improved!"

"Hey, the host has a killing mark!"

A series of system prompts to sound, Ye Xuan's killing and engraving instantly condensed into ten.

Then, it is twenty times the state of killing!

"who?"

With the fall of the half-step true king, the masters of the city's main house appeared one after another, but those who did not reach the five-and-a-half-step real king were directly killed by Ye Xuan.

In the meantime, a large number of eight engraved immortals appeared in the air.

The immortality summoned by Ye Xuan in this situation is at least three-and-a-half-step true king level, so many of them add up enough to be worth a few five-and-a-half-step real king.

There were so many people who died in the city's main house. The city of Poplar City was naturally unable to sit still and immediately rushed out.

Behind him, he still followed the old man of the day, that is, the Zhuo Kang of the seven-step half-step true king level.

"This old guy is still there, just right!"

Ye Xuan's eyes fell on Zhuo Kang's body.

At this time, he is not afraid of the six kings and half-steps of the Poplar City, but he is afraid of this Zhuokang.

Obviously, this Zhuo Kang should be someone who is more powerful than Baiyang City.

However, this does not matter!

"Kid, who are you?" asked Poplar Yang Tiancheng.

The last time he saw Ye Xuan, it was already before the time, so he would never remember.

"Kill you!"

Ye Xuan said nothing, directly let Megatron hands.

"Hey!" "Hey!"

Two red thin lines, shot from the twins, plunged to Ye Xuan and the Zhuo Kang.

As long as the connection is successful, then everyone here today is not enough to see Ye Xuan.

However, between Ye Xuan and Zhuo Kang, the seven-step half-step master, there is too much difference.

Chapter 1873: Unlimited reading

"Ok?"

Zhuo Kang is a bit strange, trying to hide this red thin line, but can't do anything about it.

However, nothing strange happened.

"Hey, the connection failed!"

A system prompt sounded in Ye Xuan's mind.

Sure enough, because of the difference between such a large state, there was no success.

Gemini has a heart, although there is no restriction, but like the judge, the same person can only be used once a day.

Therefore, this Zhuo Kang can no longer be connected today.

Since he can't, then even other people!

Poplar City Lord, Yang Tian!

"Hey!" "Hey!"

Two red thin lines were shot, and they were photographed by Ye Xuan and Poplar City.

This Baiyangcheng city owner is only a six-and-a-half-step real king, which is lower than that of Zhuo Kang. Therefore, his success rate will be higher than that of Zhuo Kang.

However, this time Ye Xuan's luck is not very good, still no success.

"No, come again!"

Ye Xuan's eyes squinted and focused on another person.

This person is the offering of the city's government, but it is the five-and-a-half-step true king.

"Hey, the connection failed!"

Unfortunately, it still failed!

"Tragedy, delete files!"

Ye Xuan was somewhat unhappy. When he thought about it, he showed his time-lapse skills and returned to the time when he had not yet arrived in Baiyang City.

In this way, the time-lapse skills will be cooled down when the road is on, if not, it will not come again.

Soon, Ye Xuan was killed in the city's main government, and then used the twins to confess, used to Zhuo Kang, Poplar City, but still failed!

"I don't believe it, come again!"

Ye Xuan does not believe that his luck will be so bad. Many times, he will always succeed.

However, at the third time.

Zhuo Kang, because of the realm of the problem, still failed, but the city of Baiyangcheng was successful.

"Hey, the connection is successful!"

When this system prompts the sound, Ye Xuan feels that his realm is improving.

Originally it was only the nine-and-a-half-step true king's destructive ghost dragon, which was upgraded to a true level.

The realm of the city of Poplar City is reduced from the six kings and half steps to the five kings and half steps.

It seems that it has only lowered one realm, but don't forget that Ye Xuan has raised a realm, so the gap between the two people has been shortened by two.

"Haha, finally succeeded, see if I don't kill you?"

Ye Xuan's eyes widened, and after the breath suddenly rose, he directly went to the Zhuo Kang.

There is a downside to the twins, that is, if there is a distance between the connections, and if one party is dead, the connection will be automatically broken and the realm will be restored.

Therefore, Ye Xuan can't let this Yang Tian die, kill Zhuo Kang first!

"The eye of assassination!"

"Inflame the black dragon wave!"

In an instant, Ye Xuan flashed to the back of Zhuo Kang, and then spurt a hot bit of fire.

"boom!"

Zhuo Kang obviously did not respond, was slammed, but his strength is not weak, it is actually hard to pick up this murder black dragon wave.

The fusion of a large number of annihilation attacks, the black dragon wave, the power is fierce, enough to kill a six-and-a-half-step real king.

This Zhuo Kang was hit, although not dead, but it has been seriously injured.

Ye Xuan seized this opportunity and won the battle.

However, at this time, the attack of the city of Poplar City also arrived.

"If it is not connected with you, I will kill you first!" Ye Xuan smashed the city of Baiyang City, and then flashed again.

"Kid, I want you to die!"

Zhuo Kang was furious and took a token directly from his arms. The next token was a dazzling white light. Then, with Zhuo Kang's right hand punching, a powerful attack hit Ye Xuan.

"A strong attack!"

Ye Xuan's eyes widened. This time he didn't even escape and was hit by this attack.

"Hey!"

Half of the body of the demon ghost was smashed into powder, but fortunately the dragon's heart was not damaged, otherwise it would be troublesome.

Ye Xuan, who has the blood of the undead, can recover if he is not spiked.

"what?"

Zhuo Kang was shocked and quickly used the energy on the token to wrap himself up and then plunged into the distance.

This speed is unprecedented, and in the blink of an eye, it is in the sky. Ye Xuan thinks it can't catch up.

"This hatred, I will write down first, wait for me to solve other people and then chase you!"

Ye Xuan thought in his heart.

That Zhuo Kang, has been marked by his death killing order, even if he fled to the ends of the earth can not escape.

At the moment, no one on the side of the city government can stop him, and solve it first.

"The eye of assassination!"

Ye Xuan's figure disappeared again, and it flashed behind the city of Baiyang City, which had fallen from the six-step half-step true king to the five-product half-step true king.

"Oh!"

With a crisp sound spread, the hands of the Poplar City Lord were pinched, and the Qiankun Ring also fell into the hands of Ye Xuan.

The person in charge of the acquisition of Bailong Temple in Baiyang City is the owner of the city of Baiyang City, so he may have a white dragon order in his hand.

This white dragon order can summon a virtual shadow of a strong person. According to the past situation, at least the eight-product half-step real king can be summoned.

The eight-and-a-half-step true king's illusion, the strength and the seven-product half-step true king deity is quite, so Ye Xuan must first get rid of the Baiyangcheng city owner of this life-saving straw.

Then, next, Ye Xuan is free to play!

He first smashed the five-and-a-half-step master and the master of the four-and-a-half-step true king level, and then summoned a large number of 弑仙傀儡.

At the same time, his right hand dragon claws are still holding Yang Tian, which has lowered the realm. As soon as the time comes, they will be wiped out.

The entire city government has set off a storm and countless people fleeing.

However, Ye Xuan's goal is only those who are half-step true king level, as for the true level, lazy.

Soon, the half-step masters of the city's main house were all killed.

This time, Ye Xuan's harvest is very large, and he has received 400,000 pieces of extinct dragon scales, which has allowed the growth of the Ghosts to enter the next stage.

In the eighth stage, it is really horrible to need two million pieces of the dragon scales!

However, from the beginning to the present, the strength of the Ghosts has been increased sevenfold. This is an undisputed fact.

"who are you?"

Yang Tian, the master of Baiyang City, who was pinched in the hands of Ye Xuan, looked at the masters of his house and was killed. He couldn't help but ask.

"I don't matter who I am. What matters is that you work for the White Dragon Temple!"

When Ye Xuan's voice fell, there was a humming sound.

The owner of the city of Poplar City, the body was smashed and smashed, and it fell!

In Ye Xuan's heart, Bailong Temple should not be a good bird, and Ye Xuan is now a black dragon teacher, supposedly to fight for the Black Dragon.

Afterwards, Ye Xuan quickly left Baiyang City and began to pursue the Zhuo Kang.

Chapter 1874: Chasing Zhuo Kang

As the city of Baiyang City died, the realm of Ye Xuan has also decreased, but this does not matter. Anyway, in a few days, his realm will be able to break through.

After searching the soul, Ye Xuan can learn about the identity of Zhuo Kang, who was originally the deputy city owner of Liuguang City.

As for the city owner of the Streamer City, it is a true eight-and-a-half-step king. At the same time, he is also a person in charge of the White Dragon Hall.

In the Qiankun Ring of the Baiyang City Lord, there is actually a white dragon order. If the party is crushed by him, the master summoned is actually the city owner of the Streamer City.

Since it is also a person of Bailong Temple, then Ye Xuan is not welcome!

"That Zhuokang is a seven-product half-step real king, the strength is very unusual, so it should be a lot faster than me to return to the stream city, when they will definitely organize people and kill back to Baiyang City..."

Ye Xuan thought in his heart.

Yang Yun, the young city owner of Baiyang City, did not return to Baiyang City because of the time.

And he is a white dragon who has just been selected by Bai Long Temple, so Liu Guangcheng wants to hold his thigh.

Unexpectedly, Bai Longzi Yang Yun did not come back, but ushered in a killing.

Therefore, they must return to Baiyang City as soon as possible to prevent the White Dragon from accident.

On the way to kill, Ye Xuan took a closer look and found that Zhuo Kang had stopped.

According to the map, Ye Xuan estimated that the other party had returned to the Streamer City and began to organize the staff.

"I will be able to break through right away. When I use my twins, I will not believe that you will not be destroyed!"

Ye Xuan has a lot of confidence in his heart. Anyway, he sometimes has a back-lighting skill. Even if he is unsuccessful, it is good to explore the combat effectiveness of the other side.

"Hey, the host breaks through, it's currently six products and half a step!"

"Hey, the sinister ghosts, the sinister ghosts, the Megatron, the broken gods, the current breakthrough is the best!"

After going through so many things, Shu Lao and others finally broke through to the realm of Zhenjun. Moreover, their strength has also undergone earth-shaking changes.

In the past, they had more than six or seven battles at the top, but now, after the combination of Ye Xuan and the Ghosts of the World, more than 20 realms have become more enchanting!

Not to mention the white dragon, even if Yang Yun's qualifications are ten times better, it is not comparable to Ye Xuan.

Soon, Ye Xuan came to the vicinity of Liuguang City.

Coincidentally, that Zhuo Kang also organized a man, ready to go to Baiyang City to rescue.

"Oh, there is still a seven-and-a-half-step real king, five six-and-a-half-step real kings, and more than a dozen five-and-a-half-step real kings. This strength is powerful enough..."

Ye Xuan licked his mouth.

On that day, he did not kill this Zhuo Kang, but today his realm is improved, and there are so many middle-level half-step real kings in the presence, he does not believe, Gemini even heart all failed!

If all of them really fail, the big deal will go back in time, come back!

"Destroy the ghost dragon, come on, kill!"

Ye Xuan's eyes widened and he directly merged with the demon ghosts and killed the past.

"The eye of assassination!"

The next moment, Ye Xuan directly flashed to the back of a five-and-a-half-step real king, and then a big mouth.

"Inflame the black dragon wave!"

Although he said that he has not used Gemini's heart, but his strength, if it is a sneak attack, is enough to kill one person.

"Hey, the host's killing value is improved!"

A system prompts to sound, Ye Xuan succeeded in killing this five-product half-step true king.

At the same time, the killing marks are also directly superimposed on ten.

"Twenty times the state of killing!"

Ye Xuan's light flashed, and the breath suddenly soared. The next moment, the twins also appeared.

Last time, Ye Xuan was the first to use the twins to fight, so I ignored a bit.

This time, Ye Xuan preferred to connect the master of the five-product half-step master.

"Hey, the connection is successful!"

The system beep sounds again.

Ye Xuan, who was combined with the destructive ghost dragon, was promoted to the level of the second product.

Gemini's heart is the red light again. This time the goal is the six kings and half-steps.

"Hey, the connection failed!"

"Hey, the connection failed!"

A tone of voice sounded in Ye Xuan's mind.

Although I don't know how the realm of Gemini's promotion is improved, it's also very good if you can lower the realm of a six-and-a-half-step real king.

However, it does not seem to work.

When everyone was surprised, Gemini's heart was already sweeping the crowd, and there was no success.

In this case, then kill!

"Inflame the black dragon wave!"

Ye Xuan's big mouth again, spurring a bite of a dragon, and instantly killed the second person.

Killing and engraving, once again reached ten!

"诛仙剑阵,起!"

When the swordsmanship of the ancestors began, there was a sacred sacred scorpion, and those five-pronged kings with low strength turned into a corpse in the blink of an eye and fell from the sky.

And how many people have died, how many of them have appeared, and the number has exceeded ten.

With so many 弑仙傀儡, and with the 诛仙剑阵 and Ye Xuan, the rest of the people have no way to resist, even if the seven-product half-step real king has no way, at most to protect themselves, and then smash out the encirclement and leave the sacred swords.

Sure enough, under the siege of Ye Xuan and others, the six kings and half-steps of the real king also died. Ye Xuan used the killing and engraving of one of them after death, and once again displayed the Jianxian sword array.

And this time, it is the ten-marked 诛剑 sword!

At this time, only Zhuo Kang and the other seven-step half-step king were left.

Oh, there is the five-and-a-half-step real king. After all, he and Ye Xuan have connections. If it is dead, Ye Xuan's realm will be restored.

He is also unclear why he was not killed.

"The eye of assassination!"

The two men struggled and got out of the sacred swords, but Ye Xuan had already marked the opponent with the death killing order, and instantly flashed behind the two.

"I already know that you are coming over!"

In addition, the seven-product half-step real king sighed low and turned to be a palm.

"so what?"

Ye Xuan's mouth is slightly tilted, and the outer body of the sinister ghost dragon has long been covered with a special energy. This palm is absorbed by the polar shield of the time and space.

The time and space of the blood is advanced several times, the absorption capacity of the Atomic Shield is greatly improved, in addition, the multiple of the feedback attack has also increased, reaching five times.

"boom!"

Five times the power of the power, banged on the seven-product half-step real king, and instantly injured him seriously.

"not good!"

Zhuo Kang's face changed greatly, and he was difficult to protect himself in the Jianxianjian array, let alone to protect another seven-product half-step real king.

This is a good opportunity, Ye Xuan will naturally not let go, quickly flashed behind the other side, and then a big mouth.

"The eye of assassination!"

"Inflame the black dragon wave!"

After the assassination of the eye, the black dragon wave is more powerful.

Chapter 1875: Black horn

With just one hit, the seven-step half-step real king was smashed into a powder.

This person is dead, then next, that is Zhuo Kang.

"The city owner, help!"

Zhuo Kang's face was white and shouted.

The movement here is so big, and the city government has actually heard it, but it hasn't come yet.

"Even if the city owner is coming, you will die today!"

Ye Xuan's eyes are wide-eyed and it is necessary to kill Zhuo Kang.

But at this moment, a strong breath came, and the flying swords that hit Zhuo Kang directly blasted.

The owner of the streamer city, come!

"What are the eight kings and half steps?"

Ye Xuan's brow was picked.

At this time, even if he is a master of eight products, he can hardly get him. However, he is not afraid of the city of the city, but the white dragon in the hands of the other party.

The owner of the streamer city is the eight-step half-step true king, and the white dragon order is the virtual shadow that can summon a true king.

The virtual shadow of this true king is probably even more powerful than the nine-step half-step king. After all, there is a big realm between them.

If a true king of virtual shadows comes, Ye Xuan has to go, but this time there is no, Ye Xuan wants to give it a try.

"Who are you, dare to kill my master of the city?" asked the master of the streamer city.

"I was killed by me, can I still be a master?" Ye Xuan sneered, saying: "The person who kills you in the White Dragon Hall does not need a reason!"

"It turned out to be the embers of Black Dragon. If this talent grows up, it will definitely be a big hidden danger. Today, I will kill you!"

The streamer city masters did not talk nonsense, directly killing Ye Xuan, and the swordsmanship in his eyes was not like him.

However, Ye Xuan's current defense is in addition to the 诛剑 sword, and there are more than ten 弑仙傀儡.

"The effect of the twins is still there, try this city..."

Ye Xuan eyes a glimpse.

In the next moment, there were two red thin lines, which fell on Ye Xuan and the owner of the Streamer City.

"Hey, the connection failed!"

Unfortunately, the connection has failed. If it is successful, the city of the streamer must at least reduce one realm, maybe two.

At that time, he was allowed to be slaughtered.

The Lord of the Streamer City did not know what Ye Xuan had made and immediately launched an attack.

In his realm, he wants to deal with Ye Xuan and does not need to use Bai Longling, so he wants to kill Ye Xuan by his own means.

However, what he did not think was that Ye Xuan was not so easy to deal with, and various escape skills made him very headache.

"Miscellaneous things, there is a kind of hiding!" The owner of the Streamer City City said with some anger.

"When your mother gave birth to you, didn't you give birth to your head?" Ye Xuan sneered back.

Don't hide, then fight with you?

joke!

A second-class Zhenjun, an eight-product half-step real king, but there is a difference of more than 20 realms between the two, it is already very bad.

It is precisely because of this that the streamer city master is so eager to kill Ye Xuan.

"It's not good, the duration of the killing state is about to pass, and at that time it will not stop the city of the city..."

Ye Xuan's face sank, it seems that this time, I have to temporarily retreat.

However, he killed so many people and got a lot of good things. This trip is not a loss.

However, just as he is about to prepare to use the teleport to pull away the distance and then use the void door to leave.

The sky, suddenly a black shadow, this shadow is very fast, almost arrived in the blink of an eye.

"who?"

The Lord of the Streamer City was shocked, because the breath of the coming is not weak, it is actually a seven-step half-step true king.

Ye Xuan also turned around and saw that it was a brawny brawny man with a handsome appearance. The age seems to be about 30 years old.

However, the breath of the other side makes Ye Xuan very familiar.

Hidden beads!

This person is the master of Black Dragon!

"My God, Erpin Zhenjun singled out eight products and half step true king, are you a genius genius?"

This bald man was shocked and said: "Adult, I will help you!"

Still not waiting for Ye Xuan's reaction, this guy has already turned into a body. He is not a black dragon, but a black one-horned cockroach.

The human form, his breath is only a seven-and-a-half-step true king, but after the transformation into the body of the atmosphere, even the city of the streamer is jealous.

"Hey!"

The owner of the Streamer City hurriedly took out the White Dragon Order and crushed it.

The next moment, his head is condensed with a phantom, breath, is a true king.

"Hey, at most, the strength of the nine-and-a-half-step real king, see me kill you!"

The one-horned black sputum spit out people's words. When the phantom is not completely condensed, it uses a single corner to shoot a black light.

"call out!"

The black light broke through and instantly smashed the shadow, and then the ghost disappeared.

Spike!

It's just that he is a seven-and-a-half-step master. He even kills the shadow of a real king. This strength is powerful.

Moreover, this is not over yet.

At the time when the phantom dissipated, the unicorn shot another black light, which would pierce the heart of the city, still a spike!

As for the Zhuo Kang, it is not necessary to say more, it is also killed.

Three masters, instantly falling!

Ye Xuan, also the first time I saw a black dragon master who could fight so many levels, this time I saw it.

The bald-headed man immediately became a human figure after killing the other three people. He said to Ye Xuandao: "You must be a demon dragon?"

"Dragon King?"

Ye Xuan heard the word, slightly surprised.

This demon dragon, and how the white dragon is so like, is it the name of the Black Dragon teaching side?

"You must be a demon dragon, but how could it be that so many real-world battles are too strong, and you have at least 10,000 smashed dragon scales?"

The bald bunny continues.

"Thank you for this time, but I am not a dragon." Ye Xuan shook his head.

As for the integration of 10,000 pieces of dragon scales?

Just kidding, the Ghosts of the World are now merging millions of extinct dragon scales.

What is Wanxian genius?

"No? Impossible, like your talent, there will definitely be a black dragon sacred to find you, and then let you become a dragon. Our black dragon teaching dragon is not the same as the white dragon of Bailong Temple, but If you can get a lot of heavenly treasures, you will also be given the best dragon scales, the best keel and the best dragon blood..."

The brawny did not believe it.

"The best dragon scales, the best keel, the best dragon blood..."

Upon hearing this, Ye Xuan's eyes picked up slightly. Before he heard that the dragon scales, keels and dragon blood were combined, it would greatly improve the effect.

If you combine the best dragon scales, keels, dragon blood, how much will you improve?

Ye Xuan is a little curious.

"I am not a demon dragon. I haven't found a black dragon sanctuary yet."

Ye Xuan shook his head.

"Not yet, it doesn't matter, let me follow you, I am engulfing the black horned owl, and has already merged nine thousand pieces of dragon scales!"

The brawny said: "In addition, my name is Black Point!"

Chapter 1876: Nine thousand scales genius

"Nine thousand scales genius, this is really amazing, almost it is a genius..."

Ye Xuan was shocked.

Before the blood flame hall was divided, the nine products were half-step true king level, and only merged with six hundred pieces of extinction dragon scales.

Even if it is Jiu Pin Zhen Jun, it also integrates two thousand pieces of dragon scales.

As for the nine-step half-step real king, five thousand pieces will be in the sky. After all, it is difficult to integrate the dragon scales.

Jiu Pinzhen Wang level, probably only able to fuse nine thousand pieces of extinction dragon scales, this black corner is only a seven-and-a-half-step real king, even the fusion of nine thousand pieces of extinction dragon scales, almost a thousand scales genius, such a People, isn't it really a dragon?

However, if he is compared with the Ghosts of the World, he will be much worse.

The Destroyed Ghost Dragon is now the second best, and after this time, it is estimated that it will be able to fuse a million pieces of the dragon scale.

"You are not bad, you can combine nine thousand pieces of dragon scales, and soon it will be a genius."

Ye Xuan said to the black horn, he estimated that the other side can fuse so many dragon scales, and he is engulfing the blood of the one-horned black scorpion.

"I am still much worse than an adult." Black horns smiled and said: "However, I was born until now, only two thousand years, the qualifications should be OK, adults, let me follow you? "

"What, only two thousand years?"

Ye Xuan was shocked.

For two thousand years, it has almost become a genius of genius. How can such a person not be a dragon?

"If you put this guy into the planting space and let him merge the dragon scales, it is estimated that he will soon become a genius, even a hundred thousand scales!"

Ye Xuan thought about it.

The flow rate in the planting space is now more than 100,000 times. In the outside world, the planting space is two hundred and eighty years.

Ten days is two thousand eight hundred years!

If the black horn enters the planting space and merges with the dragon scales, it will definitely become a big killer.

"Follow me, it is not impossible, but I have a condition, that is, recognize me as the Lord!"

Ye Xuan directly asked for it.

Originally, he thought that the black horn would hesitate, but he did not expect that the black horn even nodded directly: "Thank you, the black horn will be mixed with you!"

Still not waiting for Ye Xuan to react, Black Point took out a contract, which was actually the blood of the master and servant.

It is a pity that when Ye Xuan was conquered, it was an accident. Otherwise, Ye Xuan could not collect the pet as a pet.

Therefore, this black corner, the realm is much higher than Ye Xuan, but only a contract with Ye Xuan, not a pet of Ye Xuan, nor can you enjoy the blood of the fairy kylin and the blood of the beast.

"Hey, the servant's **** contract is successful!"

Because it is the black horn personally using the servant's blood deed, the contract is not a problem and is directly successful.

In this way, Black Point became Ye Xuan's most loyal servant.

"Adult, can you tell me how old you are this year, how many killing dragon scales are combined?"

After the contract was successfully concluded, Black Point could not help but ask.

"I am this year, it should be thirty-two, but I did not integrate the dragon scales, it is his fusion!"

After the completion of Ye Xuan, it was the disintegration of the destructive ghost dragon, divided into two.

"What, thirty-two..."

The black horn was shocked, and the next moment he knew he was holding the real thigh.

Thirty-two years old, he is two thousand years younger than him?

"Destroyed Ghost Dragon, this time it is estimated that you can fuse a million pieces of extinct dragon scales!" Ye Xuan continued to speak.

"What...what...million..."

The black corner almost fainted.

He also thought that the destructive ghosts and dragons combined with thousands of extinct dragon scales, after all, the devastation of the ghost dragon is also the second product of the true king, and his seven-product half-step real king is not a grade of genius.

Unexpectedly, the destructive ghost dragon turned out to be so bad!

Millions of extinct dragon scales!

"Don't say this first, you mix with me, and you can definitely become a million-scale genius in the future!"

Ye Xuan opened his mouth and smiled. "How many dragons and dragons you have, you will be able to integrate the evil dragons!"

"I recently robbed a lot of places in the Bailong Temple. There are about 6.6 million extinct dragon scales. If you want to be an adult, take them all!" Heijiao directly threw the Qiankun ring to Ye Xuan.

"6.6 million, plus the owner of this streamer city, about seven million, really made a big leak..."

Ye Xuan was frightened directly.

At the moment, he still has hundreds of thousands to the ninth stage. Now that he has these seven million dead dragon scales, it is estimated that he can directly enter the tenth stage.

"You leave 100,000 dragon scales to go, I believe that you will soon become a hundred thousand scale genius. In addition, I will call my boss later, and don't use you anymore. Just use you!"

Ye Xuan reminded him that he used the planting space to collect the black horns.

In the planting space, the speed at which Black Point devours the dragon scales is probably amazing.

Moreover, like Ye Xuan, he relied on the devour of Tianbaodibao, but it took a lot of time to refine.

Now, with planting space, his speed of cultivation and the speed of the fusion of the dragon scales will certainly not be slow!

Then, after Ye Xuan ransacked Liuguang City, he left.

This time, Ye Xuan is really making a big profit. He has a genius and will have a lot of help in the future.

However, what makes Ye Xuan strange is that after the smashing dragons have integrated all the dragon scales, they can no longer integrate ordinary dragon scales. Now you need the best dragon scales and the best keel. .

This is awkward, pit!

However, the ten-fold increase is already very strong for the destructive ghost dragon.

"Hey, ordinary dragon scales can be merged into the best dragon scales!"

Suddenly a system prompts to sound.

Ordinary dragon scales can be merged into the best dragon scales, which is beyond the expectations of Ye Xuan.

However, after he saw the exchange rate, the whole person was paralyzed.

One million pieces of the dragon scales can only be merged into one piece of the best dragon scales.

Just as well, Ye Xuan also has one million pieces of extinct dragon scales out, and now he is directly converted into the best dragon scales.

The destructive ghost dragon combines this piece of the best dragon scale, and the increase is directly increased by 5 percent. This shows that it takes 20 pieces of the dragon scale to enhance this stage. If it is converted, it is 20 million ordinary dragons. scale.

"Fortunately, we can continue to improve. As long as we can continue to improve, it is enough. The quantity does not matter..."

Ye Xuan is so comforting to himself, after all, it is not too difficult for him to get rid of the dragon scales.

Having said that, this black horn seems to have some understanding of Black Dragon teaching, which can answer some things for Ye Xuan.

For example, the origin of the Black Dragon teaching.

"Boss, countless years ago, my black dragon teaching has not yet been established. At that time, there was a black dragon in this area. The place where the grass was not born was destroyed, and countless forces were destroyed."

"Later, there was the Dragon and Dragon Alliance headed by the White Dragon Hall, and the World War II, and the final black dragon was killed and the body was divided."

"Next, everyone found that the dragon scales of the black dragons can understand the attack of the world and make the attack more powerful. Later, I don't know who discovered that the dragon scales can be integrated into the body."

"Finally, this mysterious man established the Black Dragon Church, the first Black Dragon leader."

After listening to the story of Black Point, Ye Xuan finally understood the history of this Black Dragon.

Chapter 1877: Misconduct

"What was the level of the dead black dragon that year?"

Ye Xuan asked curiously.

"It is said that it is the level of the saints..." Black Point replied.

"What is the realm of the saints?" Ye Xuan asked an eyebrow.

"After the true emperor is a semi-holy, after the semi-sanctification is the saint. Once it becomes a semi-holy, the immortal force in the body will gradually transform into a holy force, stronger!" Heijiao continued to answer.

Hearing this, Ye Xuan couldn't help but pause.

He is now only a half-step true king, and the old ones are also low-ranking true kings. There are several great realms from the real emperor.

Unexpectedly, the Black Dragon Saint and the White Dragon Sanctuary were so powerful.

He estimated that the other party is at least a semi-holy level, even a saint.

"Boss, this black dragon of yours, combined with a million dragon scales, if it is discovered by the Black Dragon Saint, will definitely become a dragon dragon, when it will be given the best dragon scales, keel and dragon blood. "

Black Point suddenly said.

"I know, how can I find the Black Dragon Saint?" Ye Xuan asked.

"I left the ethnic group this time, I just want to go to a place. Anyone who has reached the scales can get a superb keel."

Ye Xuan's eyes lit up and asked: "Where?"

"It is called the Wind Forest. There is a Black Dragon Special Envoy of the Black Dragon. Inside, I am going to find him after I am ready to merge into the scales."

Black Point replied.

"How long will it be in the past?" Ye Xuan asked.

"If you use the transmission array continuously, it will take about seven days."

"Well, then you will integrate more than 700 pieces of dragon scales in these seven days." Ye Xuan nodded.

Seven days in the outside world, the planting space is nearly two thousand years, which is enough for the black horn.

At the moment, Ye Xuan is heading towards the wind forest.

Now the Ghosts of the World have combined millions of dragon scales, as long as they pretend to be a tens of thousands of geniuses, and then get a superb keel.

During the period, he also made another breakthrough and reached the eight-and-a-half step.

As for the time during the rush, Black Point also lived up to expectations, directly integrating more than a thousand pieces of extinct dragon scales and becoming a genius.

At the same time, his realm has also been upgraded to the nine-step half-step real king!

Black Point can only feel incredible. He thought that it took him another thousand years to do it. It took only seven days to do it.

This boss is absolutely not wrong!

After seven days, Ye Xuan arrived at the entrance of this lost forest.

"Black Point, where is the Black Dragon Envoy?"

At the entrance of the wind forest, Ye Xuan could not help but ask the black horn in the planting space.

"I don't know this. I heard that the Special Envoy of Black Dragon took the initiative to find the door." Black Point shook his head.

"Well, then you will come out." After Ye Xuan finished, he put the black horns out.

At this time, the black horn not only reached the nine-step half-step true king, but also the fusion of the dying dragon scales, which has exceeded 10,000, reaching 11,000.

This is already in line with the requirements.

If Black Point says it is true, then the Black Dragon Envoy should come to the door.

"Okay, go!"

Ye Xuan said, with a black horn into the wind forest.

This wind forest is also a dangerous place, even if it is a high-order half-step real king, he does not dare to step easily.

However, the black horn is now a nine-and-a-half-step master, and the combat power has already reached the level of the true king. It is not a problem with him.

What's more, Ye Xuan's own strength is not weak, there are all kinds of cards in hand, nothing will happen.

Then, Ye Xuan and Black Point are turning around in the wind forest.

There were many fairy beasts in the original wind forest, but with the black dragon disaster, this wind forest was also occupied by the black dragon group.

Moreover, the number has increased a lot, and the black dragon is everywhere.

Ye Xuan and Hei Kok sneaked into the head and saw the black dragon to kill. After all, these black dragons can destroy the dragon scale and destroy the keel.

They first wandered around here for a long time. In addition to seeing the Black Dragon, they were still black dragons. They did not see the so-called black dragon special envoy.

"This wind forest is still big. If it is all over, it will take several days to turn it over and say it again."

Ye Xuan is so comforting himself.

If he is going to robbery, he can get a lot of extinct dragon scales, and he will turn around in this wind forest. If it is not harvested, it will be too bad.

Finally, after Ye Xuan and Black Point turned in the wind forest for two days, they finally met a person.

This is a young man, looks flat, but is a true king.

"You, too, to find the special envoy of Black Dragon?" asked the young man.

"Not bad!"

Ye Xuan nodded.

He feels that there are also hidden beads in the youth, and there are many estimates of the extinction dragon scales. It is estimated to be tens of thousands.

"I have been looking for more than a month, but I have not found it, but I met one person yesterday. He said that he met the black dragon envoy in the north of the wind forest."

"North of the wind forest?" Ye Xuan brows a pick.

"This is a good thing, not as good as ours," said Black Point.

"Good!" The young man nodded directly.

Ye Xuan has no opinion. Maybe someone can get together when they are together?

Of course, if this young man is a master of Black Dragon, he is probably attacking him with Black Point.

A true king of the product, the dragons in the ring of the ring must be a lot of it?

Then, Ye Xuan and Black Point went with this young man and went to the back of the Wind Forest.

At first, Ye Xuan did not pay much attention to it. But when he came to the back, he felt that this young man was not quite right.

"Ok?"

The young man noticed Ye Xuan's gaze and couldn't help but look at his brow and said, "What are you looking at?"

For Ye Xuan, he is not at all in the eyes, who makes Ye Xuan's realm so low?

What he cares about is the black-horned nine-step half-step real king. He feels that the other party is already a genius.

And he, but it is only a genius, and the cultivation time has exceeded 100,000 years, which is really bad compared to the black horn.

"Black horn, pay attention, this guy is not right!" Ye Xuan rushed to the black corner.

Black Point listened like this and replied: "Boss, then let us act ourselves?"

"it is good!"

After getting the consent of Ye Xuan, the black horn is a figure, saying: "Hello, we still have some things, we will not hurry with you."

The young man heard the words and looked at the black horn. He thought in his heart that he did not know where he was.

"If you do, then you are offended!"

Youth is no nonsense, direct shots.

The breath of a real king instantly spread, and Ye Xuan was a little breathless.

Sure enough, this young man was staring at Ye Xuan and Black Point.

No, exactly, Black Point is his goal!

"The waste also dares to smash in front of me, and the black horns do him!"

Ye Xuan directly summoned Megatron.

Chapter 1878: Black dragon special envoy

The next moment, Megatron is turned into a three-level mysterious warrior armor, set on the black horns.

Suddenly, the horns of the black horns soared, and they were several times stronger than the ones that turned into the body.

"Broken Magic Boxing!"

The human form of the black horns turned into a streamer and greeted them.

However, what shocked the young man was that with the strength of his half-step true king, the black horn of the nine-step half-step real king was instantly killed.

"Hey!"

After a muffled sound, the young man looked at his chest and found that his chest was empty, and his heart and flesh and blood were bombarded.

dead!

"Black Point is only a nine-and-a-half-step real king, but after wearing the third-level mysterious warrior armor, the strength is skyrocketing, killing the other side is cleaning up..."

Ye Xuan thought in his mind that he quickly swept past and collected his body, and then put it into the planting space to let Megatron search for the soul.

"Well? This guy turned out to be the genius of the White Dragon Hall hidden in the Black Dragon Church. It also incorporates 10,000 pieces of dragon scales. The reason why we started to do this is to trap the black horn. There are already seven thousand before us. The scale genius was captured."

Ye Xuan suddenly understood the ins and outs.

"Boss, why should he catch the genius?" Black Point asked inexplicably.

"In this windy forest, there is also a master of the middle-level real king of the White Dragon Temple. The reason why the person we killed was able to capture these tens of thousands of geniuses was to bring out the special envoy of the Black Dragon and then hand it over to the White Dragon Hall. Mid-level real king!"

Ye Xuan replied.

"Gathering so many tens of thousands of geniuses together, can you lead the Black Dragon special envoy?" Black Point asked.

"I don't know, but I already know the places where the tens of thousands of geniuses are trapped. The middle king should be hiding in the vicinity..." Ye Xuan said.

"Boss, then let's go quickly, now we can't deal with the middle king."

Although he succeeded in killing a true king, the middle king is at least the four kings, and may be the six kings, not his current ability.

"Nothing, let's go and see, I have a lot of life-saving means, I can't die."

Ye Xuan shook his head and decided to go to that place to see it.

However, it is at this time.

"Calling!"

A wind fell into Ye Xuan and the black-horned ears. They quickly turned around and saw that the space in the distance suddenly oscillated, and then a phantom gradually solidified, and finally turned into a black robe.

However, the breath of this person is much stronger than the young man who died.

"who is it?"

Ye Xuan and Black Point, can not help but feel surprised.

"You, can you know who I am?" asked the black man.

"I don't know!" Black Point didn't want to answer.

"You come to the wind forest, isn't it just coming to me?"

The black man's sentence made Ye Xuan and Black Point recognize him. It turned out that this black man is the black dragon special envoy.

"Big man, should you have already integrated 10,000 dead dragon scales?" asked the black dragon special envoy.

"Yes, seniors!" Black Point nodded.

"Well, then this piece of the best keel, I will give it to you!"

The black dragon special envoy did not say anything, and immediately took out a piece of the best keel and throw it at the black horn.

As for Ye Xuan, it is also not in his eyes. After all, there is no integration.

Since the best keel is given, it proves that this black dragon special envoy is indeed himself, not the other person pretending, so Ye Xuan will also summon the demon ghost.

"Ok?"

After seeing the special envoy of the Black Dragon, he was a little surprised and said: "How many pieces of the dragon scales it has merged?"

"Back to the predecessors, already 12,000 pieces!" Ye Xuan casually replied.

"What, 12,000?" The black dragon special envoy was shocked.

It's just a matter of killing the world's ghost dragons, but it's incredible to combine 12,000 pieces of dragon scales.

Originally, he thought that Ye Xuan was just playing soy sauce, but he did not expect it to be a beastmaster. At the moment, his eyes are blooming with unprecedented precision.

"So genius, it should not be disguised by Bailong Temple..."

The Special Envoy of the Black Dragon thought that he had taken out ten dead keels directly from the Qiankun Ring.

Ten roots are the best keels!

You must know that one million pieces of the dragon scales can be combined with one of the best dragon scales.

And the ten best products of the world's dragon scales are equivalent to a piece of the best keel.

In other words, a piece of the best keel is equivalent to 10 million extinct dragon scales, ten pieces of the best keel, is 100 million!

100 million!

"The ten best keels are all yours!" The black dragon special ensign was very generous to throw things to Ye Xuan.

These ten best keels, if they are added with black horns, are the eleven best keels.

This is enough to make the Ghosts of the World increase a lot!

"Thank you for your predecessors!" Ye Xuan hurriedly thanked.

This time, he did not come to the wrong place, and suddenly got so many treasures.

"Work hard and strive to become a real genius in the future!" said the black dragon special envoy.

"The real genius genius?"

Ye Xuan and Black Point looked at each other and did not understand what the Black Dragon Envoy was saying.

The black dragon special envoy knows that Ye Xuan and Black Point do not understand, so he explained: "The 10,000 dragons that you have combined are the most inferior dragon scales, and the real genius genius is also called the best genius. It refers to the fusion of the best products and the scales of the world. If it is converted, it must be integrated with one billion dragon scales to be the real genius genius..."

"One billion dead dragon scales..."

Ye Xuan and Black Point rolled their eyes and almost fainted.

However, before Ye Xuan used a million dragon scales to merge a piece of the best dragon scales, if it is counted, it is indeed one billion.

"You are not the internal believer of my Black Dragon. I can reach the ordinary scales before the real king. It is the standard. The next stage is to integrate the 100,000 ordinary dragon scales in the real king stage. The realm of integration is one million, the real realm is 10 million, and the half-step true respect and true respect are 100 million and one billion respectively."

"Really respected the realm, just one billion, that is, the best tens of thousands of geniuses," the black dragon special envoy continued: "Even if I am, currently only tens of thousands of ordinary dragon scales, only converted into the best dragon scales, even a scale Not counted."

"Hey!"

After hearing the words of the Black Dragon Envoy, Ye Xuan and Black Point have nothing to say.

If this is the case, then the integration of nearly 10 million ghosts can be regarded as a ten-scale genius?

At this time, the black dragon special envoy dropped his attention on Ye Xuan and said: "You are very good. You can cultivate a common genius of Sanpin Zhenjun. If I report this matter, you will definitely be subject to it. The attention of the saints."

Chapter 1879: Magic weapon

"What about the Black Dragon St...."

Ye Xuan's brow was picked, and he suddenly remembered the black dragon ambassador he saw that day.

At that time, the Black Dragon Saint said that if he reached the scales, he could go to him.

It turns out that the scales that the Black Dragon Saint said at the time refer to the best scales, not the ordinary scales.

"At that time, the destructive ghosts and dragons merged with the point of destroying the world's dragon scales. It is certainly impossible to attract such a level of masters. The reason for attracting the white dragon sacred is the physique of the dying ghost dragon!"

Ye Xuan thought in his heart: "And, at that time, the reason why the white dragon sacred came so slowly, it should be because the scent of the sinister dragon spreads slowly, otherwise, the white dragon sage will let these masters come immediately!"

He speculated that whether it is the Black Dragon Dance or the White Dragon Temple, the masters of the sacred level are at least transcendental, even the Holy One!

People of this level, flying for a second, I am afraid that they are farther away than he has been for a hundred years.

If the atmosphere of the sinister ghost dragon can spread rapidly, then the White Dragon sacred will definitely come immediately.

But then come back.

Fang Cai's special envoy of the Black Dragon said that the half-step real king's realm is equivalent to the 10,000-year-old dragon scales. In short, it is necessary to integrate 10,000 ordinary dragon scales in the nine-step half-step real king.

The destructive ghost dragon is now only the Sanpin Zhenjun, even if it is to enlarge the realm to the three-product half-step true king, it is definitely beyond the standard.

What's more, there are fifteen realms from the standard goal?

The most important thing is that the Ghosts of the World have been integrated into the 10 million ordinary dragon scales. This is the standard of the true level.

"If the Ghosts of the World are in the Black Dragon, it will be the first day..."

Ye Xuan had some expectations, and hurriedly said: "That troubles seniors!"

"You can rest assured that I will report any standard that meets the standards, let alone your genius that goes far beyond the standard."

The black dragon envoy nodded and paused and continued: "But before that, one must solve one thing!"

"What?" Ye Xuan asked strangely.

"The only ones you killed are the spies who are pretending to be in the White Dragon Temple. The purpose is to bring me out. Before you, they also moved several times and trapped a few ordinary geniuses, so they must first They rescued them!" said the black dragon envoy.

"The predecessors know where those people are trapped?" asked Ye Xuan.

"Know, but I don't know how many masters there are, so I haven't appeared." Black Dragon's special envoy nodded.

Ye Xuan has also seen his means. This black dragon special envoy has a set of concealment, so he can hide it.

"If the predecessors are not sure, I have a real magic weapon here, which can help the seniors!" Ye Xuan said, is to let Megatron become a three-level mysterious warfare armor.

"what is this?"

The black dragon special envoy did not doubt, let the mysterious war armor wear on his body. The next moment, he felt his physique mad.

This is several times stronger than he turned into a body!

With this, he is confident to save all those geniuses.

"Okay, very good, if this is a success, I will award you ten best keel!"

The black dragon special enlightened his eyes and said: "You two, just hide below, I will arrange a battle, wait for me to come back!"

"it is good!"

Ye Xuan and Black Point nod.

Then, the Black Dragon Envoy laid out a hidden array method, letting Ye Xuan and Black Point hide in the inside, and then went alone to the places where the tens of thousands of geniuses were trapped.

With Megatron's help, Black Dragon's special envoy should not have any problems, and Ye Xuan still has a death killing order on his body. If he is dead, Ye Xuan will know.

After half a day.

Judging from the shared vision of Megatron, the Black Dragon Special Envoy has already killed the mid-level real king of the White Dragon Hall, and then rescued those tens of thousands of geniuses.

Soon, he is back.

"You are a magic weapon, and it is so easy to use. It has made me more than two realms to kill each other!"

The black dragon special envoy could not help but say.

He is only the four kings, and the white dragon temple is the six kings. After wearing the black armor, the six kings of Bailong Temple were killed by him. His expectations.

Not waiting for Ye Xuan to open, the Black Dragon Envoy took out ten best keels and threw them to Ye Xuan.

"Thank you for your predecessors!"

Ye Xuan hurriedly thanked.

"No problem, the most important thing for me in Black Dragon is this. After all, the talented person can't integrate much, even if you take it." Black Dragon special envoy said with a smile.

In this way, Ye Xuan got twenty pieces of the best keel. If it is all integrated, I don't know how much the increase will be increased.

"Well, I was on my way to report the matter to my superiors. I will personally **** you to him." The black dragon envoy continued.

"Yes, seniors!"

Ye Xuan is satisfied with the nod, it seems that he is going to fly.

As long as he meets a good leader, does he still have the best dragon scales and the best keel?

Perhaps, you can also get the best dragon blood!

At that time, the dragon scales, keel, and dragon blood all merged into the body, and I don't know what kind of changes will happen.

At the moment, the Black Dragon Envoy is taking Ye Xuan and Black Point to the designated place.

During their rush, Ye Xuan let the sinister ghost dragon blend the best keel in the planting space.

With the ribs of the devil's dragon, the fusion of these things is very fast, not long after, these twenty pieces of the best keel are absorbed into the world.

Starting with two pieces of the best keel, the end of the eleventh stage will be upgraded, and the last nineteen pieces of the best keel and a large number of extinct dragon scales will be upgraded.

In total, it has doubled the combat power!

"It's terrible. In the thirteenth stage, I need a hundred pieces of the best keel, that is, one billion dragon scales..."

Ye Xuan was frightened.

At this time, the destructive ghost dragon is already two hundred scales genius, and it is the best grade, which is calculated according to the internal of the black dragon.

However, these geniuses are not much related to the devastation of the ghosts. After all, the increase in the elimination of the Ghosts and Dragons is more than the others, and they can only be piled up.

If the black corner can fuse two hundred pieces of the best dragon scales, even if it is a high-ranking real king, even a half-step real emperor may not be able to hurt him.

.....

However, at the first break on the way, Ye Xuan accidentally released the singular ghost.

Before the destructive ghost dragon has merged with the hidden beads, so it masks the breath, but after the fusion of the twenty pieces of the best keel, the hidden beads can not cover up the breath.

Chapter 1880: Two great emissaries

This point, Ye Xuan did not find, there is no black horn, even the black dragon special envoy.

So that, attracted a master of the White Dragon Temple.

"Okay, keep on the road, the day after tomorrow will probably hand you over to the adults!" said the black dragon envoy.

Black Dragon teaches, there are countless rudders, countless black dragons, and black dragon special envoys.

At this time, he personally escorted Ye Xuan, which was to be handed over to a high-ranking real king, and then to the higher-ranking black dragon envoy by this high-ranking real king.

However, it is at this time.

"Walk? Go away?"

Suddenly a strange voice fell into the ear of this black dragon special envoy.

The black dragon's special enemies shook the tiger's body and hurriedly turned around to see it, but his body turned to half, and he couldn't move.

A strong pressure, the town can not move!

High-ranking real king?

Or, is it stronger?

After Ye Xuan and Black Point heard the sound, they quickly gazed and found a white figure standing in the air.

After Ye Xuan saw the face of this figure, the whole person was paralyzed.

This white man, he has seen it, and more than once!

"White Dragon St.?"

Ye Xuan was frightened.

Unexpectedly, they have been able to see you again after a long time.

How is this going?

"It seems that the Black Dragon Saint did not kill this middle-aged man that day, but how did he find it, just happened to be?"

Ye Xuan's brows are wrinkled, but I don't know that after the smashing of the world's keel, the hidden beads have been unable to cover up the breath.

In this case, even if you use the time-lapse skills, it is difficult to escape, you can only try to change the way to see if you can avoid this white dragon sanctuary.

"I didn't expect it, how long ago, you have grown to this point..."

Bai Long Sheng could not believe it.

He remembers that when he met the Black Dragon Saints on the same day, Ye Xuan was only a half-step real person, and the Ghost Dragon was also a real person.

But this is only a long time, Ye Xuan has broken through to the nine-step half-step true Jun, the devastation of the ghost dragon has also reached the four-product Zhenjun, this talent is too enchanting.

Ye Xuan looked at the White Dragon Saint and looked at what the other party wanted to do to him.

At this time, another breath is coming.

"White Dragon Saint, let's meet again!"

A familiar voice rang in Ye Xuan's ear.

Black Dragon Sanctuary!

This time, the White Dragon Saint and the Black Dragon Sanctuary were even attracted.

Is it necessary to fight one more time?

The last time, the Black Dragon Sanctuary also came behind, and then ran the White Dragon Sanctuary.

If it is more than strength, the Black Dragon Sanctuary is much stronger than the White Dragon Saint. It seems that this time, there will be no danger.

Originally, Ye Xuan wanted to use time back, but now it may not be necessary.

"you again!"

Bai Long Sheng makes a look of the black dragon sacred look, his realm will be higher than the black dragon sacred, but the black dragon sacred fusion of the number of extinct dragon scales is huge, the strength is very amazing, so single-on-one, he is playing But the Black Dragon Saint.

"Exactly me!"

The Black Dragon Saint opened his mouth and smiled, then he stunned Ye Xuan and said: "The kid, I didn't expect to see you for a while, your dragon has grown to this point, at least two hundred pieces of the best dragon scales?"

Master, is a master, at a glance see the bottom of Ye Xuan.

Like the desolation of the ghost dragon, but the four products of the true king will be combined with two hundred pieces of the best dragon scales, the entire black dragon teaching can not find one.

Therefore, the Black Dragon Saint has decided to fully protect Ye Xuan, but also has the heart to accept the apprentice.

The black dragon sacred at this time, although the face is not shocked, but the heart is already very shocking.

If the Ghosts of the World can grow up safely, they may become the second black dragon in the future, even surpassing.

"The last time, I felt an unusual atmosphere. I felt strange at the time. Even the best genius genius is like an ant in my eyes, but the breath is weak, but it is dead. The spirit of the ghost dragon is very similar, so I found the past..."

Bai Longsheng thought in his heart: "Is this black dragon, is it a descendant of the black dragon?"

If this is the case, then it must be killed, or it is to bring back the ghosts.

It was because of the second thought that the White Dragon Sheng did not do so, so that he was rushed by the Black Dragon.

Seeing the White Dragon Saint did not speak, his eyes were always on the body of the Ghost Dragon. The Black Dragon Saint tightened the whole body and was ready to shoot at any time.

"Black Dragon Sanctuary, you have protected it three times, what is it from?" Bai Longsheng asked.

"Do you think that I will tell you? Even if it is my illegitimate child, you can't control it!"

Of course, the words in their mouth refer not to Ye Xuan, but to the devil.

"Just kidding, the smell of it is very similar to that of the black dragon. It should be the son of the black dragon."

"Guess!" Black Dragon St. continued to laugh.

In fact, even he did not know what the Ghosts were, but the speculations of the White Dragons were indeed possible.

Destroy the ghost dragon, it is indeed possible to be a descendant of the black dragon!

Last time, he looked away and thought it was just a black dragon with a good blood.

However, it took only a long time for this to break through from a real person to a four-product Zhenjun. This breakthrough is too fast.

The most important thing is that only the four products of the real king will be combined with at least two hundred pieces of the best dragon scales, in addition to the descendants of the black dragon, who can do it?

"If this is the case, then I must take it away today!"

The eyes of the White Dragon Sheng suddenly appeared.

If it is the descendants of the black dragon, it is best to bring it back to the White Dragon Temple because it is of great use.

If it doesn't work, then it can only kill!

"The last time you were beaten by me, like a dog, how do you think about it today?"

The Black Dragon Sanctuary is no nonsense, and it is directly shot.

Both of them are super masters who have surpassed the true emperor. This level of fighting is generally invisible to the general public.

In an instant, the two are turned into the body, and one black and white two dragons begin to fight.

"Occasionally, it is a saint-in-law, death without regrets..."

The black dragon envoy, looking at the battle in the air, could not help but sigh.

It is a pity that his realm is too different. He can't see the two figures at all, only to hear the rumbling sound.

On the other hand, Ye Xuan is actually very happy. He originally wanted to let him introduce him to the special envoy of Black Dragon. After that, he would have no trouble worrying about food and clothing.

Unexpectedly, the Black Dragon Sanctuary actually appeared on his own, and it really took no effort.

It seems that in the future, it will be cool, and Black Dragon will surely give the devil as a baby.

However, things are not that simple.

"Black Dragon Sanctuary, do you think that I am not going this time, what is it for?"

Bai Long Sheng said suddenly.
