

Super D. S 1991

Chapter 1991: Double heaven!

It turned out that this middle-aged man was not a high-ranking emperor, but reached a half-step Tianjun.

Only half a step of the heavenly king and above can break the sky and bring everyone from a heavy day to a double heaven, without passing through the transmission array.

"It's terrible. It's a means of breaking the sky. Is this the strength of the half-step Tianjun?"

Ye Xuan looked around in the dark environment, and couldn't help but think.

Here, there is nothing between one heaven and two heavens.

Originally, Ye Xuan thought that it was going through the starry sky. I didn't expect it to be dark, so he was thinking, maybe after the nine heavens, it was the universe.

However, there is still a distance between this heavy day and the second day.

Despite having a master, it took a few days for everyone to start shining.

after a little while.

"Two heavens, finally arrived!"

Ye Xuan and others looked at it.

The sacred atmosphere here is ten times more intense than a heavy day.

"The next step is the initial assessment. Each of you will attack me once. When you reach the standard, you can join me in the Jinyu Dojo." The Dojo messenger said.

When this was said, some people immediately puzzled. Why didn't they assess it in a heavy day? What if the assessment did not happen?

"Organizer, if not passed the assessment?"

Someone asked.

"If you fail to pass the assessment, you can become a servant. If you have achieved something in the future, you can become a disciple." The Dojo messenger replied.

This assessment is very simple, is to test the attack power.

Of course, everyone understands that the standard of this test will change with the realm of everyone.

Then, someone walked out and attacked the Dojo messenger directly.

This is a sacred sacred sect. It is the royal elite of the ancient country of Cangyan. If he is fully committed, it is enough to kill a ninth sacred sage.

However, what everyone expected was.

"Unqualified!"

After the attack was completed, the Dojo messenger said.

Such a strong attack, even failed, it seems that this field is very strict.

Then, he walked out of a nine-character sage, and he issued an attack that threatened the level of the Holy Emperor.

“Reluctantly qualified!”

Hearing this, the man opened his mouth and smiled.

Next, the ancient countries of Cangyan and the ancient kings of the magical spirits came out one after another, and then began to attack.

In addition to being unqualified, I heard a barely qualified evaluation.

At this time, the first person of the elite of the ancient king of Cangyan came out and attacked the messenger of the dojo.

"boom!"

Although the attack was easily dispersed by the Taoist messenger, he made a brow and said:
"Qualified!"

I was previously unqualified and barely qualified, and now I finally heard a pass.

However, after the elite of the ancient kingdom of Cangyan, it was a teenager of the ancient country of the devil.

"Calling!"

This boy is only the realm of nine sacred sacred, but his attack is extremely powerful.

"Not bad!"

The Dojo messenger's eyes lit up and gave a comment.

Yes, obviously higher than qualified!

"Strange, who is this, why haven't I heard of it?"

"Me too, it seems that there is no such person?"

"Is it the hidden genius of the ancient kingdom of the devil?"

These elites of the ancient country of Cangyan whispered.

At this time, the young boy of the ancient spirits suddenly turned his head and looked at Ye Xuan, revealing a smile.

"Laughter at me? What does this mean?" Ye Xuan was a bit strange.

He didn't know this boy at all, and he saw it for the first time, but the other person smiled at him. This is what to do.

It's hard to be a good freak with Longyang?

Thinking of this, Ye Xuan couldn't help but shudder and then turned his head away.

After a while, the vast majority of people have finished testing, and ten people who are barely qualified and above are not.

Ye Xuan paused and then went out.

"What about Jiu Pin Sheng Jun..."

The Taoist messengers are a bit strange. The people around them are the most high-ranking emperors. However, now there is a high-ranking holy prince. Do you know if there will be surprises?

Since this time is an assessment, Ye Xuan is unable to let Black Point shoot, but his own strength is not weak.

"Killing state!"

"Swordsman is coming!"

"A sword flying fairy!"

Ye Xuan directly fired all the fire and rushed toward the Dojo.

"call out!"

The white light flashed, and Ye Xuan's hand hit the sword and was killed by the Dojo's two fingers.

However, the expression of this field messenger at this time is very exciting.

"Nine products of the Holy King, can actually play the combat power of the Holy Emperor level, this ..."

The dojo messenger was scared.

This, but more than a dozen realm battles.

Even if they are the elites, they will have one or two realms. However, Ye Xuan is more than a dozen.

terror!

The people present were all terrified.

At the beginning, the people of the ancient kingdom of the devil were a little bit small, but now, no one dares to do this.

Ye Xuan's blow has the power to kill the vast majority of people.

"Swordsman has advanced to the advanced level once, and the power has increased greatly. Fortunately, this field messenger has not been given a spike, otherwise the trouble will be big."

Ye Xuan thought secretly.

He is a nine-character sage, and the Daoist messenger is a half-step prince. There are several big realms between the two. If you can kill it, he will probably spend all his life luck.

"This hit, I give the highest rating, special!" Dojo messenger could not help but say.

When the words came out, the audience was shocked!

However, this evaluation is not enough for Ye Xuan. After all, even if it is the Jin Yu Dojo, I am afraid that it will not be expected that there will be more than a dozen realms.

Therefore, this evaluation is not enough!

"I am afraid of the attack, but I am two higher than him, but his attack is even stronger than me!"

"Who is this person, when did this genius appear in the ancient country of Cangyan?"

"Is it a high-level ancient country?"

"Don't talk about the advanced ancient country, even if it is the Jinyu Dojo, I am afraid I can't find it?"

"Maybe I just cultivated a super powerful martial arts. When he broke through the realm, the ability of the leap-level challenge is definitely a big drop!"

The people of the ancient spirits could not help but discuss it privately.

Even the people of Cangyan ancient country did the same, and they did not think that Ye Xuan was so bad.

Before, they didn't know much about Ye Xuan. It was only clear that Ye Xuan's black dragon could fight with He Jian, the ghost gate of the Ghost Gate.

Unexpectedly, Ye Xuan's own strength is also so strong!

At the same time, in the team of the ancient spirits, one person's eyes are exposed to killing, that is, the teenager who was given a good evaluation by the Taoist messenger.

"The strength of this kid is so strong, if you match his pet that day, you don't need to run away!"

The young man thought about it.

At this time.

"What is your name?"

The Taoist messenger could not help but ask.

Chapter 1992: Canglan Island

"The return messenger, my name is Ye Xuan!"

Ye Xuan replied.

"I didn't expect that I could see you like a genius in a heavy day. It is really a blessing that I have cultivated in the Jinyu Dojo for countless years. I guess if you let the strong people in the dojo know about this, you will definitely become their fight." The darling!" said the Dojo messenger.

Hearing this, Ye Xuan gave a slight glimpse.

Was accepted as a disciple by the master?

It seems that there is no such need?

He is now lacking resources for cultivation because of his low realm. What he lacks is only time.

Being accepted as an apprentice by the master of the dojo, there will be some unnecessary troubles. For example, if the breakthrough is too fast, he may encounter someone like Zhou Cang, the first master in the mortal world.

He suddenly remembered that Zhou Cang wanted to win his body and then he was killed by him!

"What I lack is time, so there is no need to show such a strong qualification!"

Ye Xuan thought in mind, it is the use of time back skills.

Time, back to the time when I saw the Daoist messenger.

Then he was taken to the second day and then began to assess.

This time, he did not show such a strong ability to counter the sky, but only ordinary pass has a qualified.

This will not attract attention.

"Well, are there any unqualified people who want to go back?" The Dojo messenger asked a symbolic question.

However, no one answered.

It is also said that even if it is a chores, it is better than being an emperor in the low-level ancient country.

After all, the Jinyu Dojo is a giant, and the head of the headquarters is a master of the half-step level.

This dojo messenger, with Ye Xuan and others all along the way, only a few days later, arrived at the Jinyu Dojo.

At this moment, Ye Xuan is already the realm of a sacred emperor, while the old tree and others are the five emperors.

Although they can already fight with the high-ranking Emperor, this strength is still not enough in the Jinyu Dojo.

"Your area is affiliated with Canglan Island. Naturally, someone will give you doubts and answers, go up!"

When the Daoist messenger finishes, he will place the people on an island and then leave on their own.

They just fell, and two people came over.

"It's a big prince!"

The people of Cangyan ancient country suddenly recognized it.

The ancient prince of the ancient king of Cangyan joined the Jinyu Dojo early, and it is now the Four Emperors.

Then, he took the batch of their royal elites. As for the other one, they took the people of the ancient spirits.

"The people in our area entered the Canglan Island after entering the Jinyu Dojo. The island owner of Canglan Island is called Huo Zhen. It is the crown prince of the ancient country of Bipolar. Now it is already touching the heavens and becoming Half a step of heaven!"

Said the crown prince of the ancient country of Cangyan.

Everyone came here for the first time, so listen carefully.

"This Canglan Island has some gaps with other islands because it has just been opened up. There are many places on the island, such as martial arts pavilions, cultivation towers, etc. However, these places must be opened!"

"In the short time when this Canglan Island was just opened up, these places have not yet been opened. Later, there are disciples who join in and continue to use the places. These places can be used. Now, the Wuji Pavilion and the cultivation tower have been opened to the first place. Three levels, these are the credits of Huo Zhen's brother!"

After the ancient customs of the ancient king of Cangyan, the people were a little surprised, and they saw it for the first time.

"His Royal Highness, how can we improve the level of these places?"

Someone asked immediately.

"In the center of Canglan Island, there is a place in Jinyu Island. As long as the first level is overcome, then those places will unlock the first heavy seal, and the big island will be opened. Every time they pass the level, they will unlock a heavy seal. !" the ancient wind replied.

"It turns out!"

When everyone heard it, they suddenly understood.

"In this way, as long as the fourth level is not conquered, then Canglan Island will not change!"

"The holy spirit on the island of Cang Lan is too abundant. I can't estimate it for a hundred years, so I can cultivate to the level of the Holy Emperor!"

"So, can we ask those powerful brothers to help overcome the level?"

Upon hearing this question, the ancient wind replied: "It can be, but it needs to be paid. Those brothers of other islands like to bully our new disciples and will definitely ask for high compensation."

"It is also true, it is better to overcome it yourself!"

The crowd nodded.

Then, the ancient wind took them and came to their own residential area in the ancient city of Cangyan.

At the same time, Ye Xuan also learned that on this Canglan Island, there are hundreds of elite disciples in the ancient countries.

The ancient country of Cangyan is just a subordinate ancient country, and it is not a sight here!

However, it is at this time.

"Booming!"

Suddenly a loud bang spread, and then the entire Canglan Island began to tremble.

"There are sea beasts attacking the islands!"

A violent bang sounded, and then the master in Canglan Island vacated and plunged toward the source.

"His Royal Highness, this is..."

Someone immediately asked inexplicably.

"Our Jinyu Dojo, built in a sea area, sometimes has some sea beasts attacking the island, so it is necessary to protect the island."

The ancient wind paused and said: "If our big island is not strong enough, then the island will be silent in the sea. At that time, we will be expelled from the Golden Feather Dojo!"

"I was expelled from the Golden Feather Dojo?"

When I heard this, everyone was shocked.

"Yes, it is to expel the Jinyu Dojo, but this is already good. Because if there is a powerful sea beast attacking the island, it is a problem to survive."

"It is said that there was once a person who provoked a high-order half-step sacred beast in the sea. He was hunted back to the island all the way. Finally, their island was directly engulfed by the herd. No. One person survives!"

After everyone listened to the ancient style, everyone could not help but shudder.

It seems that there is still danger in the Jinyu Dojo!

However, with their current realm, it is simply impossible to intervene in this level of combat.

Fortunately, the strength of Canglan Island is not bad in the new islands. This group of sea beasts was quickly annihilated.

"Right, if there are a large number of sea animal bodies, you can also upgrade the level of the island. If you are hunting the sea beast, you can choose to hand it over to the Jinyu Dojo. This will not only get the heavenly treasure, but as long as the requirements are met, the island level will Ascension." After the ancient style reminded him, he left.

The Jinyu Dojo, unless it has the qualification to go against the sky, is to advocate self-cultivation.

Everyone is competing to enter here, also because it is a holy place of cultivation. The holy sacredness on the island alone is more than a hundred times more than the ancient country of Cangyan.

Chapter 1993: Jinyu Island Pass

If it is in the cultivation tower, it can reach 10,000 times!

What's more, the island also has free and open places such as Wuji Pavilion!

Unfortunately, for Ye Xuan, there is no temptation, because he does not need to practice, and does not need to practice martial arts.

However, it is at this time.

“Hey, the host triggers a random mission and raises the Canglan Island level!”

A system prompts to sound.

“Improve the Canglan Island level? And there is no mission reward?”

Ye Xuan eyes a glimpse.

From the previous experience, he can know that once the random task is triggered, as long as the task reward is not displayed immediately, this is related to the progress of his task completion.

Time is one month!

One month later, the higher the grade of Canglan Island, the greater the gain of Ye Xuan.

The ancient style also said that if you want to upgrade the grade of Canglan Island, one is to capture the Jinyu Island Pass, and the other is to hand over a large number of sea animal bodies to the Jinyu Dojo.

Ye Xuan thought about it. With his current realm, he wanted to overcome the fourth level of Jinyu Island Pass. It is estimated that it is unlikely. After all, even the half-step Tianjun’s Huo Zhen can’t do it.

However, such a large island, if you want to upgrade, the body of the sea beast you need is probably an astronomical number.

Therefore, Ye Xuan hesitated!

"Let's go and see the Jinyu Island Pass again!"

Ye Xuan thought, it was to ask the brothers around to find out the location of Jinyu Island, and then walked over.

after a little while.

"Jinyu Island Pass is to enter the new island, and then continue to hold the position to kill the sea beasts that attack Canglan Island. If the number of sea animals on the defensive island reaches a certain number, then it will fail!"

Ye Xuan thought about it.

This first level is that there are tens of thousands of sea spirits of the three-level holy emperor attacking Canglan Island.

The second level is the tens of thousands of sea animals of the six-level holy emperor.

The third level is the sea beast of the 10,000-level Emperor.

If you follow this rule, then the fourth level is the 10,000-seat three-step-and-step sea-level beast.

It is said that that Huozhen just broke through to the half-step Tianjun, so it is not so easy to resist so many sea beasts.

You know, people who go to Yeouido can only have ten at a time!

Of course, if there are ten masters like Huo Zhen, the fourth level will definitely pass.

"If you go to the half-step Tianjun level master to pass the fourth level, then Canglan Island can be upgraded to the fourth level, the island's facilities will also be upgraded, so everyone's cultivation speed will be faster, presumably The money of the person can be earned soon, but I heard that Huo really has a strong self-respect and has not asked anyone to ask for it."

Ye Xuan thought in mind, it was leaving the Jinyu Island Pass.

Although he has broken through to a product of the Holy Emperor, but the strength is also in the low-level Emperor level, even if it is a black horn, it is also in the middle and high order of the Holy Emperor.

In this case, it is not enough to overcome the fourth level of Jinyu Island.

"It seems that we must first break through, and when the time is high, it will be fine!"

Ye Xuan's eyes glimpsed and then returned directly to his place of residence.

Although his cultivation is different from other people, there is no need to use this time to hunt the beasts. After all, this effect is a bit small.

Time, a little bit.

After half a month.

"Hey, the host breaks through, and it is currently the Four Emperors!"

"Hey, the sacred **** unicorn, Megatron, the broken god, the devour of the black dragon, the current is the eight emperors!"

The strength of Ye Xuan and others is ten times stronger than half a month ago.

Now, the strength of Black Point is estimated to be at the level of Jiu Pin Sheng Di, but the Jin Yu Dojo is an elite, I am afraid that the ability to leapfrog will be reduced.

However, in the past two months, Ye Xuan thought of an idea.

But this idea must be the master of Canglan Island.

At the moment, Ye Xuan is looking for a place to live in Huo.

As the owner of Canglan Island, Huo Zhen, there must be many ancient countries attached to him, but on this way, Ye Xuan was stopped.

"Who are you looking for?"

A young man asked.

"I am looking for Huo Zhen brother!" Ye Xuan directly replied.

"Huo Zhen brother, what are you looking for when you find it? Roll away!"

This person immediately changed his face and drove Ye Xuan away.

Ye Xuan heard that it seems that it is not good enough to only get in.

But at this time.

The young man suddenly frowned and said: "Are you from the ancient country of Cangyan?"

"What is it?" Ye Xuan asked.

"Nothing, die!"

This person said that the shot was shot, which was beyond the expectation of Ye Xuan.

Although it is Canglan Island, they have joined the Jinyu Dojo and their disciples kill each other. Is this allowed?

Nature is not allowed!

However, there were no other people around at this time. This young man saw Ye Xuan as a holy emperor, so he wanted to kill him directly.

Unfortunately, he got the wrong person!

"puff!"

After a swordsmanship flashed, the young man's head was cut by Ye Xuan and died in an instant.

He certainly couldn't think of it. With the realm of his four-class holy emperor, even the four royal emperors of Ye Xuan could not clean up.

"Let me see, why are you killing me?"

Ye Xuan brows a pick, let the Megatron become a beast **** clock, and search for the soul.

Afterwards, he finally understood the passing, and this person is the ancient king of the devil, and let this person kill him, that is the day that He Jian.

"What is the ancient country of the devil, if it is free, go back and destroy you!"

Ye Xuan thought about it, and he went in.

Here is the neighborhood of Huo Zhen's residence. There are quite a few masters. Ye Xuan will definitely be intercepted by various kinds.

In desperation, he can only get in!

"Booming!"

A burst of loud noise spread.

The people on Canglan Island were shocked. There are still people who dare to fight on Canglan Island. Do you know that this was forbidden by Brother Huo Zhen?

"Hey, dare to ignore the rules set by Huo Zhen's brother, find death!"

"Where are you coming from, do you dare to swear?"

"Everyone is careful, this person is very evil!"

This group of masters directly surrounded the black horns, and at this time, Ye Xuan has been hidden in the body of the black horn.

It's just the black horn of the realm of the Holy Emperor, not being looked at by everyone, but the power that broke out is amazing.

In the blink of an eye, several high-ranking emperors were stumbled.

The movement here and so on was naturally caused by Huo's attention. He quickly swept out and saw the battle.

"Eight Eight Emperors, dozens of high-level Saints?"

Huo Zhen was shocked. In this case, he was the first to see it.

I thought that in the past, he was only the Eight Emperors, and at most he fought against the five or six saints, and this black dragon was more than a dozen realms.

It's terrible!

"Do you stop!"

Huo Zhen screamed, and suddenly the battle in front stopped.

Chapter 1994: Cooperation

"Is it finally?"

Ye Xuan's eyes glanced at him, looking at Huo Zhen's strong body.

"Who are you, why are you arrogant?" Huo Zhen could not help but ask.

"I? I am also a native of Jincang Island. I am here to talk to you about cooperation!"

Ye Xuan said slowly.

"Cooperation?"

Huo Zhen is a little confused.

"It's very simple, you can't overcome the fourth level, I can help you!" Ye Xuan said.

When the voice fell, everyone was shocked.

"You can't even find the brothers of Huo Zhenzhen, just rely on you?"

Someone immediately did not believe it.

Although the strength of Ye Xuan's outbreak is very amazing, it is the fourth level of Jinyu Island Pass. There are 10,000 sea creatures invading the three-and-a-half-step Tianjun level.

Don't say 10,000, even if it is one, it is enough to clean up everyone except Huo Zhen.

However, after hearing the truth, Huo Zhen asked strangely: "What do you do?"

"I have a magic weapon that can suppress the fighting power of the group of sea beasts, and there are endless embarrassing, can resist the sea beast, let you have time to kill them!" Ye Xuan replied.

"magic weapon?"

When Huo Zhen heard it, it came to interest.

Repressing 80% of the combat power, and all the sea beasts are suppressed, so that their difficulty will be greatly reduced.

However, this is too ridiculous, so he has to test it.

At the moment, he immediately sent someone to catch a sea beast, and then Ye Xuan sacrificed the beast clock, directly suppressing the combat power of this sea beast.

"Jin Yu Island off, you can always squat, there is no limit, but the fourth level is so dangerous, once there are variables, there will be casualties!"

Huo Zhen thought of this again, so he was still hesitating.

"You cooperate with me, what are the requirements?" Huo Zhen asked.

"Through the Jinyu Island Pass and improve the grade of Canglan Island, all the brothers and sisters can benefit. As for the reward, you will watch it!"

Ye Xuan casually said.

Now, he is not lacking in heaven and earth, and this Huo Zhen is a master of the half-step Tianjun level. It is estimated that he can easily cultivate to the Holy Emperor and even the middle-aged Emperor.

"readily!"

Huo Zhen's eyes lit up and said: "If this is the case, then we might as well try it. If it can pass, then you are the deputy island owner of Canglan Island!"

If there is no Ye Xuan, then this fourth level, according to Huo Zhen's own estimation, will take 10,000 years.

However, if it can pass now, then it will be saved in 10,000 years. You can enjoy the treatment of the four-level islands in advance for ten thousand years, then they can open the distance with those new islands and become the hegemon of the new island group!

Then, Huo Zhen led eight of the nine sacred emperors, and went to Jinyu Island with Ye Xuan.

The first three levels have passed, and they have been stuck in the fourth level for some years. If this is passed, it is definitely good news.

"You can only enter ten people in Shaoguan. You are only strong, but..."

When Huo Zhen had not finished, he was directly interrupted by Ye Xuan: "My avatar can go in, and Black Point will not occupy a quota."

"That's good, let's go in!"

Huo Zhen did not say anything, just start the transmission array.

After a while, they came to a new scene, an island.

"This Jinyu Island Pass is said to be a super saint, and it is not a magical array. These sea beasts are captured by the Jinyu Dojo, so it may be dangerous. If you are in danger, just yell and give up, then this The holy device will send us back!"

Huo Zhen said to Ye Xuan.

"understand!"

At this time, Ye Xuan has summoned the sword fairy and the black horn.

Rumble!

It was just that the island began to tremble.

"The sea beast attack will increase little by little, the first one is only one hundred!"

Huo Zhen said.

The first wave, with their strength should still be able to cope with them. After all, they are the elite of the Jin Yu Dojo, can't they still stop?

In addition, the eight people, also carefully selected by him, several people will combine battles, killing the sea beasts faster than the average person.

At this time, Megatron has turned into a beast clock, and the town is in the center of the island.

After a while, sea animals climbed onto the island and rushed toward the crowd.

However, after they entered the shocking range of the beastly **** clock, the speed dropped and the combat power dropped by 80%.

"Sure enough, kill!"

Huo Zhen's eyes lit up and immediately went out.

At the same time, Ye Xuan has summoned countless

"Hey!"

The beastly **** clock began to make a faint voice.

After the integration of the magic weapon, the beast clock can not only suppress the combat power of the beast, but also control the chance.

When Huo Zhen and others killed these sea beasts, the beasts of the beasts kept making bells, making these sea beasts miserable and their combat power dropping again.

Soon, all the hundred sea animals that were dialed were completely destroyed.

"Ye Xuan brothers, this magic weapon is too powerful. With it, we may be able to pass the fourth level this time!"

“Haha, this new island group is almost all a three-tier island. If we can upgrade to the fourth level, then other islands will definitely be annexed by us!”

"Yes, by the time we are in Canglan Island, it will become stronger and stronger!"

The crowd nodded.

There are dozens of new islands in this new island group. Everyone started to have a small gap, so they all want to rise to the fourth-level island.

If Canglan Island is first promoted to a four-tier island, then the disciples of the surrounding islands will choose to join Canglan Island, and even those island owners may leave their islands to join.

"You can't take it lightly. The first one has only one hundred sea animals, the second one has two hundred, and so on. The sea beast attacks a total of fourteen, the first thirteen dials a total of 9,100 sea beasts, and the last one is It is nine hundred sea beasts, and one sea beast king. We must get rid of the sea beast as soon as possible, otherwise it will accumulate more and more, and the sea beast king may not appear yet, we may have failed!"

Huo Zhen said.

"Yes, brother!"

The people nodded and then began to wait quietly.

Although the island is not large, it has a much wider scope than the beast clock, so Ye Xuan can only stay in the center.

As for Huo Zhen and others, it is on the edge of the scope of action, as long as the sea beast enters here, they attack.

"You must summon some and quickly clean up the sea beast!"

Ye Xuan thought in his heart.

He has the space to swallow, with countless holy beasts as a backing, as long as he wants, he can fill the killings at any time.

In this way, it is equivalent to summoning countless

Although these are no more than others, they are more than many people.

Each of them is equipped with the sword of the immortal sword, and its power is amazing.

Chapter 1995: He Jian!

Soon, the second sea beast was defeated, and there was no one left.

"Good horror, Ye Xuan brothers are not only the animal trainer, but also the sorcerer, can control so many cockroaches at the same time!"

"It's terrible. There are tens of thousands of this number?"

"It seems that this time we may be able to pass the fourth level!"

The people around you laughed, but this is not the time to relax, and quickly resume the Holy Power to meet the next attack.

After a while, the third three hundred sea animals came, but at this time, Ye Xuan has already superimposed the number of 弑仙傀儡 to 30,000.

"kill!"

These 弑仙傀儡, while the sea beasts entered the range of the beast **** clock, launched an attack.

After a long while, the sea beasts are all annihilated!

Moreover, everyone has also obtained a large number of sea animal bodies, which can be used to exchange the treasures of heaven and earth. After all, this is the body of the three-and-a-half-step sea corpse.

As for Ye Xuan, he also collected a lot, but he is not prepared to exchange it, but to collect it. At that time, let Megatron turn into a beast, and refine these bodies into a beast.

Although the realm of the black horn is almost fixed, but the fall can continue to take the tens of thousands of beasts, plus the devour space velocity, the drop can be quickly increased.

However, this is still waiting until later!

There is Ye Xuan, the sea beast attack in front of this is not afraid, but after the tenth dial, it is somewhat difficult.

The tenth dial is that one thousand sea beasts are dispatched at a time, and the 弑仙傀儡 and the 仙仙箭 that Ye Xuan summoned have time limits, so they began to accumulate sea beasts.

In the tenth dial, when there are still one hundred, the eleventh attack will come, and then there will be three hundred.

When the twelfth was dialed, the total number was more than 1,500.

This is the fourth level of Jinyu Island, and the requirement is that there should be no more than 2,000 on the island.

That is to say, when the thirteenth is dialed, there must be no more than seven hundred sea animals on the island, otherwise the challenge will fail.

"Everyone is working hard!"

Huo really shouted.

Although there is pressure, they are motivated. After all, when they first challenged, they only survived the first move.

And now, it is already in the twelfth.

It is a pity that although they are very hard, there is still no way to resist so many sea beasts. After all, these are still three-and-a-half-step Tianjun. Even if they are reduced by 80%, they are still strong and explosive.

So, they still failed!

"Hey!"

When the 2,000th sea animal boarded the island, everyone turned into a white light and returned to Canglan Island.

"Oh, it still failed!"

"I thought I could rush to the thirteenth dial!"

"But it is also very powerful. We only supported one last time. Now we have reached 12, and we have challenged several times. Maybe it is enough."

"Yes, thanks to the Ye Xuan brothers, I feel that we can quickly pass the fourth level!"

The eyes of everyone fell on Ye Xuan's body.

"After five days, we will come again to challenge, and then we will be able to pass!"

Ye Xuan vowed to say.

This time, he did not help himself, but he could break through after five days, and it still has a role to play.

The most important thing is that after five days, the strength of Black Point will advance by leaps and bounds, and if you fall, you can participate in the war. At that time, you can completely annihilate the sea beasts.

At that time, they just have to deal with the sea beast king!

“Why is it after five days?”

Huo Zhen asked a little strangely.

"After five days, you will know!" After Ye Xuan finished, he was ready to turn and leave.

At this moment, suddenly one person swept over and said: "Huo Shi brother, only one insider was passing by, and received an apprentice!"

"Who?"

Huo really browsed and asked, suddenly asked.

The Jinyu Dojo has a myriad of outer islands and an infield, and those highly qualified geniuses will be brought into the infield training.

Unexpectedly, there was a genius on the island of Canglan that could be seen by the elders of the infield.

"It is said to be the ancient people of the devil, called He Jian!" the disciple replied.

He Jian!

When this name falls into Ye Xuan's ear, his body shape trembles.

"He Jian? How is this guy in Canglan Island?" Ye Xuan had some accidents.

On that day, He Jian's avatar blew himself, and then there was no news.

If you rely on the name of He Jian alone, you may be able to find the same name in Canglan Island, but you can determine the identity of He Jian, the ancient king of the magic spirit.

"He Jian? Haven't heard of it!" Huo Zhen shook his head.

The disciple of the report said: "It is said that this time a new birth is a relatively rare constitution, so it was only seen by the infield elders!"

"It doesn't matter to us, let's go busy!"

Huo really nodded.

However, Ye Xuan, who left, heard a system prompt.

"Hey, the host triggers a random mission and kills He Jian!"

After the prompt sounded, there was another floating image, which is exactly what He Jian looks like.

However, when Ye Xuan saw it, it was eclipsed.

This floating shadow turned out to be the devil's ancient country boy who was well-received by the Daoist messenger at the time of the assessment.

what happened?

Ye Xuan is a little hard to believe, He Jian should not be a middle-aged person, how to become a teenager, and the realm is only a nine-paste.

Can't it be, is the deity reincarnation?

Thinking of this, Ye Xuan felt very likely because he recalled the scene at the time.

The blood in the boy's body seems to be different from the rest of the ancient spirits, not the royal blood.

It seems that He Jian is indeed a reincarnation, a win, and so on.

"No matter what you are, if it falls into my hands, I will definitely let you survive, you can't die!"

Ye Xuan's light flashes.

That day, He Jian smiled at him after the test, and he was provocative.

Whenever there is a chance, He Jian will definitely kill Ye Xuan!

What's more, now He Jian is accepted as a disciple by the in-house elders, and his identity is different.

"You must grow up quickly, otherwise you will be in trouble!"

Ye Xuan glanced at her eyes and returned to her place of residence.

Fortunately, this time a random mission, he can use the time-lapse skills, then He Jian if the master is to kill him, but also to avoid.

However, this He Jiancai has just been taken away. His master must have a lot of things to teach, and Ye Xuan has also entered the Jinyu Dojo. He may have thought that Ye Xuan could not recognize him, so he was temporarily on the side.

Soon, time passed five days.

"Hey, the host breaks through, and is currently the Five Emperors!"

"Hey, Yanshen Kirin, Megatron, breaking the gods, devouring the black scale dragon to break through, is currently the nine-powered emperor!"

Everyone has broken through, and the strength has changed dramatically.

Chapter 1996: plan

At the moment, Ye Xuan is a voice to Huo Zhen. After the two people met, Huo Zhente knew why Ye Xuan had the ambition to say that he had passed.

"This black dragon has broken through!"

Huo Zhen and others responded instantly.

The strength of the black horns on that day was also not the same. The number of sea beasts killed was not less than that of Huo Zhen. Now, after the breakthrough, they have another master who is comparable to Huo. At that time, the sea beast will certainly not pile up.

"Okay, go!"

At the moment, Huo Zhen and others are once again entering the fourth level of Jinyu Island Pass.

This time, Ye Xuan also summoned the old sacred unicorn of the tree, the latter's strength is not weak, can destroy a sea beast is one.

After all, with the blood of the beast, the pet's attack on the beast is greatly enhanced.

As for the breaking of the sky, Ye Xuan still feels that, after all, the strength is considered to be the weakest, and it takes a break to fight for a long time.

"Young master, what about me?"

In the swallowing space, I couldn't help but shout.

"You stay in it first. The sea beasts in front are not afraid. I will collect some sea beasts and refine them into a beast to help you practice!"

Ye Xuan said.

Every dialing of the sea beast has a time difference, so Ye Xuan can collect the body of the sea beast, so that the Megatron can be turned into a beast.

For this random task, Ye Xuan used the last point to swallow the point and fixed the beast of the beast, so he could refine the beast Dan at any time.

Now, the fall is already the Holy Emperor. After all, she did not break through the restrictions, and there are so many support of the beast.

This time, it is possible to increase the strength of the landing to the extent of being comparable to Huo.

After a violent shock, the sea beast attack finally began.

The Jinyu Dojo sent people to capture a large number of sea beasts. After many years of reproduction, the number of these sea beasts is already scalp and numb. No matter how many times they challenge, the sea beasts can be supplied.

The first hundred sea animals were easily killed by Ye Xuan and others.

At the same time, Ye Xuan also thought of a little!

"Huo Zhen brother, I have an idea here!" Ye Xuan suddenly said.

"What thoughts, Ye Xuan, let's talk!" Huo Zhen turned his head.

"Give me the bodies of these sea animals, and then the rest of the nine days will continue to pass, but we will choose to give up at the end of the game. In this case, after nine days, we may be able to directly pass the fifth level!" Ye Xuan will be in his heart The plan says it.

Hearing this, Huo Zhen and others were shocked.

"Oh, the fifth level?"

Huo Zhen muttered, said: "The fifth level of Jinyu Island Pass is a sea beast that is comparable to a six-and-a-half-step Tianjun. Why do you have such confidence?"

"The bodies of these sea beasts can be used to enhance the fighting power of my pets. If there are a large number of sea animal bodies, don't say the fifth level, even if the sixth level is OK, you can pass!" Ye Xuan said.

When this was said, Huo Zhen and others were shocked and could not speak.

The sixth level, there are 10,000 sea animals that are comparable to the nine-step half-step Tianjun, but not the average person can pass.

"If that's the case, then let's come, anyway, it will be nine days!"

Huo Zhen's eyes lit up.

If this can be done, then they are famous for this Canglan Island!

Next, they began to kill the sea beasts insanely.

The second call... the fifth call... the tenth call... the thirteenth call...

Finally, this time they directly rushed to the fourteenth dial.

The fourteenth sea beast attacked, with nine hundred sea animals and a powerful sea beast king.

If it is a full-strike attack, it may be possible to pass, but Ye Xuan has not collected enough sea beasts, so I can't pass it.

Once the fourth level has passed, then you can no longer take the fourth level, and will go directly to the fifth level.

The fifth level, that is comparable to the six-step half-step Tianjun level of the sea beast, even if it is one, Ye Xuan can not beat.

"Give up!" "Give up!" "Give up!"

At the moment, the ten people, including Huo Zhen, all shouted.

Then they returned to Canglan Island.

Although they gave up this time, they got a lot of bodies of sea beasts, which is a fortune for Ye Xuan.

"Million beasts, give me a refining!"

When Ye Xuan took advantage of the restoration of the Holy Power, he quickly refining the beast.

More than 9,000 sea animal corpses that are comparable to the three-product half-step Tianjun, after being refining into a beast, were all taken down for service.

In the devour of space for more than two thousand years, the outside world only passed the day, so the land will soon be refining all these drugs.

The realm has been upgraded to the level of Sanpin Shengdi!

"Ye Xuan, we are back!"

At this time, Huo Zhen shouted.

"Okay, let's continue!"

Ye Xuan nodded.

Ten of them, once again entered the fourth level of Jinyu Island Pass and began to kill.

However, they give up every time they go to the fourteenth.

The purpose is to infinitely collect the body of the sea beast and strengthen it.

Time passed by, and it was the eighth day.

"Hey, the host breaks through, and is currently the Seven Emperors!"

"Hey, the sacred gods, the Megatron, the broken gods, the devour of the black scale dragon, the current is the second product!"

The strength of Ye Xuan and others has grown by leaps and bounds.

Don't forget, when they came to the Golden Feather Dojo, they worked for two days. In the last five days of retreat, Ye Xuan actually took only three days to break through. The remaining two days were just for buffering.

Therefore, this time he only spent eight days and completed two breakthroughs.

After Huo Zhen and others learned about the incident, they were already shocked and could not speak.

How long has it been, Ye Xuan has broken through twice, and the speed is too fast, right?

At this moment, they feel that even if they add up, they will not be the opponents of Black Point.

At the same time, after so many days of killing, Ye Xuan got a large number of sea corpses, and after falling to eat the hunters of these sea beasts, they have reached the nine sacred emperors.

Its strength, let alone the fourth level, even if it is the fifth level, it may not be!

Soon, it was the ninth day.

In another day, the random task of upgrading the Canglan Island level has passed, and Canglan Island has not improved at the first level, so Ye Xuan will not receive any reward.

Instead, it will also be a bit of a devouring point as a punishment!

Although Ye Xuan does not have a little swallowing point now, it will still be deducted. If he gets it again in the future, he will correct this point.

However, this task is impossible to complete!

At this time, Ye Xuan has already led Huo Zhen and others to enter Jinyu Island again.

This time, they are ready for customs clearance!

Soon, they hit the fourteenth dial, this time is nine hundred sea beasts, plus a sea beast king.

"Roar!"

A violent drink came, this is because they did not know the first time they saw the Sea Beastmaster.

Chapter 1997: Two broken two levels

In these few days, they all waited for the Sea Beastmaster to yell and quit, and left the island.

This time, they are going to kill!

The sea beast king soon entered the scope of the beast **** clock, and Huo Zhen and others instantly killed the past.

The same is true of the black horns and the old trees.

Soon, they were in a battle with the Sea Beastmaster, and the battle was fierce.

However, it is at this time.

Suddenly a fire broke out in the sky and landed on the Sea Beastmaster. In an instant, this sea beastmaster was burned to death.

Huo Zhen and others were shocked and turned around and saw a girl with nine golden tails standing in the air.

In her hand, a golden flame is floating!

"Let's drop the girl, you really don't give us a way to live, it's hard to hit the sea beast king, you will be killed by the second!"

Huo Zhen said helplessly.

"Hey, look at your playing so hard, you can't help but shoot."

Falling and laughing, fell to the side of Ye Xuan.

After these days of improvement, she is already a nine-character emperor, the strength of the Huozhen countless streets, killing a three-and-a-half-step Tianjun-level sea beast king, really easy.

But then again, with the fall of the Sea Beastmaster, then this Jinyu Island closed the fourth level, it passed!

When Ye Xuan had just collected the body of the Sea Beastmaster, they were forcibly transmitted back to Canglan Island.

"At the end of the customs clearance, now we are also a four-level island in Canglan Island. The martial arts pavilion, the cultivation tower and the big island guards have all been upgraded to the fourth level."

Huo Zhen couldn't help but say.

He did not expect that, just ten days, Canglan Island was upgraded to a four-level island and became the hegemon of this new island group.

As long as this news spreads, Canglan Island will certainly be more than ten times more prosperous than other islands.

"Ye Xuan brothers, this time thanks to you!" Huo really could not help.

"I am also a part of Canglan Island. This is what it should be."

Ye Xuan smiled.

At this time, the people who have fallen and others have been received in the swallowing space, the bodies of the sea beasts and the bodies of the sea beasts have also been refined into the beasts of the beasts.

The strength of the fall has further advanced, and has reached the peak of the nine-character emperor, only one step away from the half-step Tianjun.

However, I don't know how to practice until half a step.

"Huo Zhen brother, the fall is now the peak of the nine-character emperor, but I don't know how to cultivate to the half-step Tianjun, can you..."

Ye Xuan said to Huo Zhen.

"Little things!"

Huo Zhen smiled and said: "After practicing to the peak of Jiu Pin Sheng Emperor, as long as you carefully understand, you can see a road at the end of the soul. That road is called Tianyuan Road."

"This is a long way, a total of ninety-nine paragraphs. Every time you walk through it, you will get a reward for heaven and enhance your temperament and physical fitness."

"The first paragraph to the thirty-third paragraph are all half-steps of the realm of Tianjun. From the thirty-fourth to the seventy-seventh paragraphs, it is the realm of Tianjun. From the sixty-seventh to the ninety-ninth, It is called invincible Tianjun!"

"I am now going to the second section of Tianyuan Road, and it is also a half-step Tianjun."

After Huo Zhen finished, he took out a jade from the Qiankun ring and handed it to Ye Xuan: "This is a record of some of my experiences and I will show it to the girl."

"Thank you for your brother!" Ye Xuan said with a fist.

"Polite, but this is the fifth level of Jinyu Island." Huo Zhen suddenly reminded me.

"I will go see it." Ye Xuan smiled and re-entered Jinyu Island.

This time, he is going to challenge the fifth level!

As for Huo Zhen and others, the strength is not enough. It is very dangerous to go in, so this time Ye Xuan enters alone.

"Hey!"

Ye Xuan was transferred to a new island.

Next, he has to do a good job against the sea beasts of the six-and-a-half-step Tianjun level.

The first dial, hundred!

"Let's fall, this time by you!" Ye Xuan shouted.

"no problem!"

The fall should be a sentence, and then directly put on the armor of the mysterious god, began to quickly harvest the body of the sea beast.

Soon, these hundred six-and-a-half-step Tianjun-level sea beasts all died, and then they were taken into the swallowing space, and they were refining into a beast.

"Although it has reached the level, the physical and strength of the current situation is still increasing. However, after reaching the limit, the increase of refining and beasting is a little less. It seems that it is necessary to break through to the half-step Tianjun..."

Ye Xuan thought in his heart, do not know, the number of sea animals that can be solved by falling alone.

"Booming!"

The beast **** clock and the fall match, it is not bad, the fall of a person against these six-and-a-half-step Tianjun-level sea beasts, hard to support the eighth wave, that is, the extent of eight hundred.

Next, the fall can not take into account the safety of Ye Xuan, so temporarily retreat.

Although it failed, it also got a lot of sea animal bodies, but it was very small for the fall.

"There is still more than a day to drop and see if you can break through to the half step in this day."

Ye Xuan said to the fall.

"it is good!"

Nod and then go into the devour space to see the breakthrough experience book that Huo Zhen gave.

One day outside, the space that swallowed up was more than two thousand years.

The qualifications for the landing have been good, and now it has been played.

She did not live up to the expectations of Ye Xuan. Before the end of the mission, she passed the first Tianyuan Road and achieved half-step Tianjun.

"There is still some time, hurry in and go through the fifth level, so the reward will increase!"

Ye Xuan's eyes slammed and then re-entered the fifth level of Jinyu Island Pass.

Breaking through the fall of the half-step Tianjun, and refining the tens of thousands of beasts, the strength is leaps and bounds.

Soon, she hit the eighth call and was several times easier than before.

Then, thousands of sea beasts were killed by her, and finally they reached the fourteenth.

This dial has a total of 900 sea beasts and has always been a sea beast king.

"coming!"

Ye Xuan's eyes are slightly stunned.

The next moment, the fall is to kill, almost in the blink of an eye, the nine hundred sea beasts were bombarded by her, leaving only the body of the sea king.

It is a pity that the realm of this sea beast king is also a six-and-a-half-step prince, which can't stop the falling footsteps. After three rounds, the sea beast king will fall.

The fifth level of Jinyu Island is finally over!

"Where, after two passes in a month, the reward should be very rich?"

Ye Xuan opened his mouth and smiled.

In fact, he did not expect to rely on the fall, but wanted to let Huo Zhen and others raise funds to invite people to come, and then cooperate with the beasts of the beasts.

I don't even think that I can even pass two levels!

At this moment, Ye Xuan has already sent back to Canglan Island.

Before he returned, Canglan Island had undergone earth-shaking changes.

As Canglan Island was upgraded to a level of five, the facilities on the island were all open to five levels, even the big islands.

Chapter 1998: Five-level island

You know, there are dozens of islands in this new island group. Except for Canglan Island, there is no more than three.

After the news that Canglan Island has been upgraded to five levels, there will inevitably be a large number of people pouring into Canglan Island.

"Ok?"

At this time, Huo Zhen and others who were practicing in the cultivation tower suddenly opened their eyes.

They felt that the sacred atmosphere of the entire cultivation tower was suddenly more than ten times.

How is this going?

After they went out to check it out, it was shocked.

The color of the island's large array changed from green to cyan, which means that Canglan Island has been upgraded to five levels.

"Day, five-level island!"

"How is this going?"

"This is also used to say that Ye Xuan's younger brother passed the fifth level of Jinyu Island Pass!"

"It's really done, it's terrible!"

Huo Zhen and others did not believe it. They quickly rushed toward the center of Canglan Island and found Ye Xuan.

"Ye Xuan, brother, you actually did it!" Huo Zhen excited.

"Fortunately, not to be insulted!" Ye Xuan held a fist at everyone.

In fact, Canglan Island can be upgraded to five levels, and Huo Zhen and others also have credit.

Otherwise, in the past few days, the number of his sea beasts will be greatly reduced, so now it is probably the Eight Emperor, the top nine Saints.

In this way, the fifth pass can not be passed!

"The younger brother is too modest. The rewards for the fourth level have not yet come down. The younger brother gave the fifth pass. If the news is returned to Jinyu Island, it will definitely attract the attention of the elders!" Huo Zhen smiled. Say.

They have joined the Jinyu Dojo for some years, and after so many years, they have only passed the third level, which is actually very inconspicuous in the entire New Island group.

However, with the addition of Ye Xuan, Canglan Island has been upgraded to the fourth level, and the news has not yet spread, Ye Xuan has broken the fifth level, it is a enchanting!

at this time.

"Hey, the host completes a random mission and can choose two rewards in the following three rewards!"

"One, randomly upgrade three blood vessels advanced!"

"Second, randomly fixed Megatron three magic forms!"

"Three, the number of magic weapons has increased three times!"

After hearing this reward, Ye Xuan is also awkward.

This reward, too Nyima is rich, right?

Three optional two, which is still used?

Now there are four magic weapons fixed by Ye Xuan, namely the refining pot, the beast, the true mask and the heart of the dragon. Among the four magic forms, only the refining pot and the beast can be merged, and the rest are Gone.

Therefore, the three magic weapons are combined and used at most once!

And it is only equivalent to a three-point swallowing point, so it was immediately abandoned by Ye Xuan.

As for the first one, although the promotion is three blood levels, not three blood, but it is not bad.

In case, is there an advanced route that takes a lot of swallowing points, such as the combination of the sword and the sword?

At the moment, Ye Xuan is choosing one and two rewards.

"Hey, killing and marking is a success!"

"Hey, Kirin Weiwei is an advanced success!"

"Hey, the fire is reborn and advanced!"

This is the first reward tone, although the latter two are not very good, but the killing is imprinted, the killing status alone can make Ye Xuan increase the strength by five times, which is not bad.

"Oh, the imaginary clothing magic form is fixed successfully!"

"Hey, the venom of the venomous scorpion is fixed successfully!"

"Oh, the form of the judge's magic weapon is fixed!"

This is the second reward.

The effect of the judgement pen, Ye Xuan has long known, that is, a word of life and death.

But now his realm is so low, even if he uses the judgement pen, who can kill it?

However, the effect of the virtual clothing and the venomous sling is very good, and these two magic forms are three levels of magic.

The imaginary clothing, after putting on, is immune to all energy attacks, and only an attack such as a fist can hurt him.

The venomous scorpion has a strong ability to bind, and there is a lethal effect similar to a one-shot kill. If it is triggered, it can kill the enemy!

This is not the point, the point is that these three new fixed magic forms can be integrated.

The imaginary clothing can be combined with the streamer armor, and the venom can be combined with the judge.

Unfortunately, Ye Xuan does not have a swallowing point, so it is impossible to combine these two magic weapons.

"Hey, if the virtual clothing and the streamer armor are merged, then the cow will burst!"

Ye Xuan opened his mouth and smiled.

He estimates that if it is a fusion, then he can not only immunize all energy attacks, but also have strong defense capabilities, which is simply a turtle shell.

Coupled with the shared blood of the undead, unless the attack power is strong enough, Ye Xuan can't die.

at this time.

"Where is the owner of Canglan Island?"

A violent sizzling sounded everyone's attention.

Ye Xuan and Huo Zhen and others followed the sound and found a young man plundering into Canglan Island.

"This brother, what is the matter?" Huo Zhen said respectfully.

He felt that the other side's realm is much higher than him, at least three-and-a-half-step Tianjun level.

"Everyone is a brother of the same class, so this time the brothers are here to help you through the fourth level." The young man said.

When the words came out, Huo Zhen slammed and replied: "Sorry, brother, we don't need it anymore!"

"No need?"

After the youth heard it, he was slightly angry. "I really don't know how to lift it. I am kind enough to help you through the customs. You don't even appreciate it. Is it because I am afraid of pitting your money?"

"No, brother..."

Huo Zhen said quickly.

However, he also saw that this young man is not free to help them pass the customs, it must be charged, and the price is not low.

"Hey, I have to look at it, just rely on your three-tier island, what is the qualification to reject me!"

The youth is not nonsense, even directly to Huo Zhen shot.

However, the next moment, he was taken by a black shadow.

The person who smoked him is the black horn!

"Well....."

The young man squirted a blood and looked at the black horn with a blank look.

This black dragon is just a second-class sage. How can he take the four-step half-step prince to fly?

This is impossible!

"Senior brother, please look at the big dog's eyes. What color is the surrounding island?"

Ye Xuan said coldly.

After such a reminder, the young man turned around and found a place that was not right.

This large island of Canglan Island is not a yellow, but green.

The green island guards the big island, indicating that it is a four-level island!

How could this be?

"No, no, this is not green, but cyan, this Canglan Island has been upgraded to a five-level island!"

The youth was shocked.

The five-level island shows that someone has passed the fifth level.

You must know that even if he is a four-step, half-step, he will not be able to pass the fifth level.

"This is impossible. This new island group, how can there be a five-level island so soon?" The young man could not believe it.

Chapter 1999: Canglan Island was attacked

You know, the other islands are only three levels. Even the islands that he helped him have just upgraded to level 4.

Now, I have seen a five-level cyan island!

At the same time, this large array of islands can only see the color inside, and the outside people can't see it, so that he discovered it until now.

"This brother, we thought about the sixth level of Jinyu Island Pass. I wonder if I can help you?" Ye Xuan smiled slowly and said slowly.

The sixth level of Jinyu Island Pass!

The young man had a chill, and he couldn't even cross the fifth level, let alone the sixth level.

The sixth level, but there are 10,000 nine-and-a-half-step sea king-level sea beasts, even if it is a master of the heavenly level, it is a bit difficult.

"What joke are you doing?"

The young man screamed and then left.

This incident is just a small episode.

Ye Xuan and Huo Zhen did not care, they are now waiting for the reward of the Golden Feather Dojo.

Huo Zhen has promised to give the promotion of the five-level island to Ye Xuan, and they are divided into four levels of reward.

After all, without Ye Xuan, they can't even reach the fourth level, let alone the fifth level.

Before Huo Zhen estimated, in his case, it would take about 10,000 years to pass the fourth level.

As for the fifth level, I don't know how long it will take!

Now, they can enjoy the five-level island in advance, and the upgrade speed will be exploding.

Then, Ye Xuan also returned to his residence and prepared to retreat.

He estimated that when the five-level islands are down, he can almost cultivate to the half-step Tianjun, and no longer need to cultivate resources.

However, just after half a day.

"Chulan Island Island Lord, come out!"

Another slamming sound broke into the ears of everyone.

Ye Xuan and Huo Zhen went out to see and found that the young man who had been beaten before brought a long-haired man.

"Who is it, hurt my brother?"

This long-haired youth, staring at Huo Zhen and others.

This is the world, playing small, big ones are coming out.

Upon hearing this, Ye Xuan immediately went out on a black horn and said, "I am playing. Brother, are you thanking me for teaching him for you?"

"you wanna die!"

The long-haired youth did not say anything, and went straight to Ye Xuan.

When he came, he heard his brother say that there is a strange black dragon, and the strength and realm are too different.

It seems that it is true now!

At that time, the black horn is in the battle with the master of the six-step half-step Tianjun level.

Now the black horn is the second sacred sage, even if it matches the heart of the dragon, it is at most a battle with the four-product half-step Tianjun.

In the face of six-and-a-half-step Tianjun, it is only a beaten share!

"Yo, beat him!"

Ye Xuan immediately let the black corner burst, and summoned the fall.

It has broken through to the half-step Tianjun's fall, and there are so many tens of thousands of beasts to enhance their physique, the strength is not small.

The main thing is that the heart of the dragon has been turned into a streamer armor, and it is placed on her petite body.

Suddenly, the strength of the fall has skyrocketed, and at the same time has the ability to stealth.

"what?"

The young man with long hair was shocked. He was beaten and beaten by the six-and-a-half-step Tianjun.

You must know that he is an elite disciple of the Jinyu Dojo, enough to pass the fifth pass of Jinyu Island.

"How is this person going to have such a means?" Changfa youth can't figure out what to do and continue to fight.

However, not long after, he was blasted out of the island, and then Ye Xuan, the island owner quickly controlled the island to block it.

"This brother, don't think that the realm of the realm can be superior, let's go!"

Ye Xuan said slowly.

At the foot, it is still the site of the Jinyu Dojo. Otherwise, this long-haired youth and his younger brother may have died.

"Well, you give me waiting!"

The long-haired youth screamed and then left with his wrong brother.

After Huo Zhen and others saw this scene, they looked strange.

"It's terrible. The girl who fell in the sky even flew with the disciples of the six-and-a-half-step Tianjun. What exactly is the Ye Xuan brother?" Huo Zhen and others thought so incomprehensibly.

However, they Cang Lan Island is offended by a disciple.

Sure enough, the other party is still resentful, and is not prepared to let go of Canglan Island.

the next day.

"Booming!"

A burst of loud noises disturbed everyone.

Ye Xuan brows a pick, and quickly went out to see, and found that the big island of the island has been attacked by the sea beast.

"The sea beast attacked, everyone shot quickly!"

Huo Zhen's voice also sounded, but the next moment, someone answered: "Huo, Huo's brother, these attacks on the island's big array are at least half-steps of the sea beast!"

"what?"

Huo Zhen was shocked. Cang Lan Island was established for so many years, and it was the first time that he encountered a half-step Tianjun-class sea beast.

Waiting for him to go to the edge and see it, sure enough!

Moreover, there are mid-level half-step Tianjun-level sea beasts.

How is this going?

"Don't look at it, it must be the sea beast that the man drove yesterday, I will solve them!"

Ye Xuan immediately voiced to Huo Zhen, and then summoned the old, falling, and black corners of the tree.

At the same time, a system sound was heard in his mind.

"Hey, the host triggers a random mission to guard the Canglan Island. If the defending island is broken, it is considered a mission failure!"

Hearing this, the killing of Ye Xuan's eyes has actually triggered a random mission, which is really good.

At the moment, he is ordering everyone to kill, and he himself is near the edge of the island.

"Hey, the island is damaged, is it repaired?"

"Yes!"

Ye Xuan immediately responded with a sentence, and then let the Xian phagocytic system repair the array.

Otherwise, according to this level of attack, it is really difficult to insist.

The old trees, the black horns, the sword celestial bodies, and the falling of the armored armor have all rushed to the outside of the island to kill.

Fortunately, this time at most, it is a six-and-a-half-step sea-level beast. Otherwise, even if it is a five-level island, it can't hold it.

At this time, the geniuses in Canglan Island could only stare at the battle outside, but they could not help.

These sea animals are terrible, at least thousands, and if they were put before, it is enough to destroy this new island group.

The fall led Black Point and others to continue to kill, to reduce the pressure on the island, and Ye Xuan is constantly repairing the island.

If you take this degree, it will not be a problem to protect the island from the big beast.

At this time, on the sea far away from Canglan Island.

"Let you be mad, welcome the baptism of the sea beast!"

The long hair youth is shining.

He does not think that Ye Xuan and others can survive this wave of sea beasts. After all, he also drove a sea beast king.

Moreover, even if it survived, Canglan Island became a ruin. With the financial resources of Ye Xuan and others, it was impossible to repair the Dadao.

Chapter 2000: Recruit

"Oh? Sea Beastmaster is finally out!"

Long hair youth brows a pick, he feels a strong breath approaching Canglan Island.

This sea beast king, although only the level of six-and-a-half-step Tianjun, is much stronger than the average.

The fall of the battle outside Canglan Island also felt this breath, and immediately passed to Ye Xuan.

"Damn, there is still a sea beast king, the sword fairy is separated, to kill him!"

Ye Xuan immediately shouted.

Just take the other person away or kill them when they are approaching Canglan Island, then you can.

It is a pity that this sea beast king has a high anger value, directly ignoring the attack of the sword fairy, and rushing to Canglan Island.

Ye Xuan feels that they should be attracted to something.

No matter what, you can only fight!

"Let's fall, solve the sea beast king first!" Ye Xuan immediately shouted.

Immediately afterwards, Megatron directly turned into a beastly **** clock, suppressing one side of the sea beast.

Although the streamer armor can improve a lot of combat power, but in this case, the beast clock is better to use some, after all, they are guarding Canglan Island, not to destroy the sea beast as soon as possible.

It is a pity that this group of sea beasts is in a state of turmoil, and the strength of this sea beast king is not weak. The defending capacity of the island has been repaired by Ye Xuan, and the defense ability has also been reduced to 20%.

It seems that there is still a good chance of being broken!

"You can only use the time-lapse skills to go back to the past, and then take the lead in attacking and killing the sea beasts first." Ye Xuan thought.

However, if he does this, he will not be able to trigger random tasks.

So, wait until the mission fails!

However, when the defensive degree of the island defense was reduced to 10%, the sky suddenly swept a figure.

"The beast, dare to attack the island of my golden feathers, find death!"

A violent bang sounded.

Then, there was a cold man who went straight to the air and immediately killed the sea beast king.

So strong!

When everyone was shocked, they turned around and found that an old man wearing an elder costume came and then smashed all the sea beasts.

This strength has already shocked everyone's heart, and it is tough.

With his appearance, Ye Xuan's random mission was completed.

"Hey, the host completes a random mission and rewards a magical fusion opportunity!"

When this system prompts, Ye Xuan's eyes are bright.

What do you really want, what awesome!

At the moment, Ye Xuan is using this magical fusion opportunity to fuse the streamer armor and the virtual clothing.

"Hey, the streamer armor and the virtual clothing are beginning to merge!"

"Hey, the fusion is successful!"

Ye Xuan took a quick look and found that the product after the fusion was called the virtual spirit.

This imaginary spirit not only has the effect of energy immunity, but also has strong defense ability, and also has stealth effect.

In addition, there is another skill, called virtualization. After it is turned on, it can be invincible for a second.

Strong!

It's really strong!

If you are wearing this imaginary god, you can easily kill it even if it is the Sea Beastmaster.

"what happened?"

At this time, the infield elder asked.

"Back to the elders, we were attacked by sea beasts for no reason."

Ye Xuan immediately went out and said, holding a fist.

"It's impossible for no reason. My new island group in the Golden Feather Dojo has not been attacked by such a high-level sea beast. It should be driven by someone."

The insider's brow picked up and scanned the circle. He shouted: "Roan, what are you doing here?"

This name is a bit strange.

However, everyone looked at the eyes of this infield elder and found the long-haired youth.

"Yang, Yang Elder, I am just passing by!"

Long-haired youth Luo An, some trembled and said.

"Don't roll back to practice?" Elder Yang once again sighed.

The next moment, Luo An quickly turned around and disappeared into the sky.

After he left, Elder Yang scanned the circle and said, "Have you had a festival with Roan before?"

When the words came out, Huo Zhen and others looked at each other, and then Huo Zhen said: "Before, the brother of Luo An's brother visited Canglan Island and said yes..."

Huo Zhen began to talk about the situation at the time. After listening to Yang, the elders understood it.

This group of sea beasts is estimated to have been driven by Luo An. He should have put something in the island of Canglan to attract the sea beast.

"I understand!"

The in-house elders did not say much, but just threw a singular ring to Huo Zhen, saying: "This is all the rewards that have been upgraded to the five-level island!"

"Thank you for the elders!"

Huo Zhen and others immediately thanked one sentence.

"By the way, you can pass the fifth level, please ask someone, or..." The infield elder couldn't help but ask.

"It is the credit of Ye Xuan!"

Someone should respond immediately.

Before, the infield elders felt incredible, but he felt that he should have invited someone.

However, he checked Canglan Island and found that there are some disciples from the ancient countries. There is no financial means to invite people, so I feel a little strange.

"Ye Xuan?"

Looking at the eyes of the crowd, the infield elders finally noticed Ye Xuan.

"This is the case. I have tamed several sacred beasts before, and then they all became adult, so I brought them in!" said Ye Xuan.

After listening to it, this elder Yang looked at the eyes and looked at the falling and black horns.

Qualifications are considered superior!

However, if he is allowed to know that Ye Xuan can fight in two big realms, I am afraid that he will immediately accept Ye Xuan as a disciple.

"The qualifications are good. I will report this to you later. Maybe the elders will accept you as a disciple!" said Elder Yang.

"Thank you Yang Elder!" Ye Xuan thanked me.

Then, Elder Yang left.

For the unacceptable, Ye Xuan is not much interested.

"Ye Xuan, this is yours!"

After the elder Yang left, Huo Zhen was throwing the ring to Ye Xuan. There was a lot of heaven and earth treasures in it, which was enough for Ye Xuan to break through to the half step.

Ye Xuan did not feel bad, and received it.

This matter has come to an end.

However, the long-haired youth Luo An actually drove the sea beast to attack Canglan Island. This matter can not be counted.

Soon, Ye Xuan broke through to the Eight Emperors, while Shu Lao and others reached the Sanzong Sanzhao and furthered their strength.

It was also on this day that suddenly someone came up.

"Canglan Island, where is Ye Xuan?"

A strange voice fell into Ye Xuan's ear.

Upon hearing this, Ye Xuan immediately jumped into the sky and found that it was a high-order half-step Tianjun looking for him.

"This brother, is there anything?" asked Ye Xuan.

"Inside the field, elders, intend to accept you as a disciple, and take a trip with me?" the young man said.
