

## Super D. S 2011

Chapter 2011: The Jinyu Dojo was destroyed!

Because Ye Xuan thought that he would upgrade to a low-key, afraid that the value of the magic reached 100, since the arrival of the peak of the Holy Emperor, this magic value seems to stop.

Then, after he broke through to the half-step Tianjun, the magic value disappeared without a trace.

Simply put, the current Ye Xuan can quickly break through.

However, unless it is the realm of invincible Tianjun, it is impossible to have the means to break the double heaven.

Of course, if you use the transmission array, you can transfer it to the triple sky.

At the moment, Ye Xuan is to let Jian Xian be separated and go to the three-day transmission array.

With the realm of his heavenly king, even if he is invincible, he can't help him, let alone the sword fairy.

Santian, where there is a master of semi-stepping level, so Ye Xuan wants to go there to have a look, it is best to get some invincible Tianjun's cultivation experience, so that he can continue to break through.

As for this, it is to continue to develop.

"Hey, the host completes the fifth ring of the Zongmen chain task, and the system rewards the blood of the undead priests once again!"

When the system prompts the sound, Ye Xuan's eyes are bright.

Undead phoenix blood, even advanced!

Before he advanced five times to die, according to the advanced three times to get a avatar, then advanced six times, he can once again condense a avatar.

At present, his deity and avatar, there are five, one in the mortal, three in one, and now one more, Ye Xuan let it hide in a heavy day.

At the same time, the sixth ring mission of the Zongmen chain mission also appeared.

This task requires Ye Xuan to reach the realm of half-step Daojun, and has a hundred high-end invincible Tianjun with seven stars.

"How difficult is the task, how much higher than the previous tasks, is it because I finished too fast?"

Ye Xuan is somewhat confused, so if this is the case, then this task will be temporarily placed.

The half-step king's realm is not so easy to achieve!

At this point, the Jianxian avatar has been transmitted to the triple heaven, and then Ye Xuan is ready to let the breakthrough to the high-order Tianjun fall and re-appear.

However, it is at this time.

"Hey, the blood of Tianshuhu began to enter the second stage, falling into the dormant period!"

Suddenly a system prompts the sound, killing Ye Xuan is caught off guard.

There is still a second stage in the blood of the sky in the body.

"The fall is now eight products, if you can continue to awaken the blood, the strength will be even stronger!"

Ye Xuan thought about it.

Now he is the realm of Tianjun. Although he has not played with the invincible Tianjun, according to the previous situation, there should be no rivals under the half-step.

What's more, there are three old trees, black corners and Megatron.

After the sword fairy arrived in the triple heaven, he went to find the target, wanted to control an invincible Tianjun, and then gained experience in cultivation.

Unfortunately, the next thing is a bit out of his expectations.

After entering the triple heaven, Jian Xian had a person who had an invincible Tianjun. However, it was surprising that Yipintianjun's sword fairy was only a fight with him.

If the non-Swordsman has an invincible body, it may be defeated!

Is this person a super elite of a big power?

Ye Xuan did not believe, immediately let the sword fairy to continue to search, and then met an invincible Tianjun.

What Ye Xuan unexpectedly did was that he couldn't help each other!

Are the three heavens so strong?

Ye Xuan continued to let Jianxian be tempted to find out. In the end, he finally used the method of consumption, and consumed an invincible Tianjun alive and killed him.

It turns out that from Tianjun to the invincible Tianjun, it can be said that it is a step into the sky, even if it is 10,000 nine-day Tianjun, it may not be able to do an invincible Tianjun.

Invincible Tianjun's invincible, that's it!

Fortunately, Ye Xuan finally caught an invincible Tianjun, and then let Megatron, peeling off his cultivation experience.

Ye Xuan's realm directly reached the six-character Tianjun.

Because each person's cultivation methods are different, Ye Xuan cannot take 100% of the other's cultivation experience.

And it is worth mentioning here that nowadays it is not the use of cultivation resources to upgrade, so the realm of Black Point, Tree Old and others is the same as Ye Xuan.

"In this case, the strength of the old tree, I can't keep up with me and the black horn..."

Ye Xuan's eyes are slightly stunned, but it doesn't matter. The strength of the old tree can still suppress the audience.

However, even if it breaks through the Ye Xuan of Liupin Tianjun, the ability to overcome the challenge is still declining.

Before the sacred fairy of a product, it was also difficult to seize an invincible Tianjun, and the invincible Tianjun is a realm. Everyone has a big gap, so Ye Xuan, the six-character Tianjun, is estimated to be more than three invincible days. Jun is almost.

At this time, Ye Xuan has already let Jianxian be separated, and went to find the Jinyu Dojo.

However, it was another thing that he had expected.

On the way to the Jinyu Dojo, he suddenly learned a message.

The Jinyu Dojo has been destroyed!

The owner of the Jinyu Daochang Road, the master of the semi-step-level monarchy Jin Yu has been killed, and there is no one in the whole.

It is said that the forces that killed the Jinyu Dojo were sent a large number of masters, and all the people of the Jinyu Dojo were taken away.

The force that killed the Jinyu Dojo, called the Feihong Dojo, also has a master of the half-walker, but is much stronger than the Jinyu Dojo.

"The words of the king of the golden feathers are really effective. Why did they get rid of this strong enemy?"

Ye Xuan was a little confused about the situation. The next moment, he focused his attention on a thing that swallowed up space.

That, the sword-shaped token handed to him by the Golden Feather!

However, it is at this time.

"Booming!"

Suddenly a loud noise fell into the ears of Ye Xuan.

what happened?

Ye Xuan was a bit strange. When he opened his eyes and saw it, he found that the defensive array of Lianyun Daochang was actually broken.

"Hey, a sect that doesn't even have a half-step, and dare to call himself a dojo."

Suddenly a cold voice rang, Ye Xuan stared at it and saw a young man standing in the air and standing in front of him.

After breaking through this realm, Ye Xuan's deity came to the entrance of the Yundaochang. Now, the defensive formation has been broken and he has also been discovered.

"Invincible Heavenly King..."

Ye Xuan's eyes glanced at the breath of the other person.

At least, it is the invincible Tianjun!

"Hello, is there something?" asked Ye Xuan.

"This is the mountain gate of the Yundaochang. Seeing that I am going to kill your Taoist, let you know that there will be only one dojo in the next two days, that is, we fly the rainbow dojo."

When the youth finished, they directly entered the entrance to the engulfing space.

Chapter 2012: Flying star sword

"This is stupid."

Ye Xuan shook his head helplessly, and after re-arranging a defensive formation, he sank his mind into the swallowing space.

The young man who entered the army could not be moved by the moment, let alone him. Even if the invincible Tianjun came in, it would be like an ant.

"What is going on here, how can I not move?"

The young man was shocked.

At this time, Ye Xuan suddenly projected into the devour space, saying: "That is natural, because this is my site, so I am the master!"

"Is it you?" The youth saw it. Isn't this the Six-Pin Tianjun near the entrance?

Not waiting for him to be surprised, Ye Xuan asked: "Are you a Feihong Dojo?"

"If you know, dare to trap me?" The young man glared at him.

"Oh, don't try to threaten, Megatron, this person will be handed over to you!"

After the completion of Ye Xuan, Wei Zhentian directly asked the young man to search for the soul.

Although the speed of the soul search is slow, it is good to devour the space. In less than a second, Megatron has separated the memory and cultivation experience of this person.

"Hey, the host breaks through, and it's currently Jiu Pin Tian Jun!"

Ye Xuan's strength has once again improved.

At the same time, he also learned the identity of this young man, who was originally a disciple of the Feihong Dojo.

The Feihong Dojo is the force that killed the Jinyu Dojo, and this disciple, like everyone else, came to the Double Heaven and seized all the people in the Jinyu Dojo.

It happened that he passed the area and learned about the Lianyun Daochang.

In the dojo, there must be a half-step road to sit in the town, so that it can be called the dojo.

And even the most powerful invincible Tianjun of the Lianyun Daochang does not have any qualifications called the Dojo?

Therefore, this person wants to destroy the Lian Yundao master, a unknowingly thick guy.

Unexpectedly, I fell into the pit!

Then, Ye Xuan directly handed this person to Megatron for disposal. After the true and false mask swallowed his body, he had the ability to transform into him.

However, just the same as face, body, and breath, the strength will not change.

"Now I am a nine-character Tianjun. If you join the black corner, the strength should be able to fight the invincible Tianjun!"

Ye Xuan thought in his heart.

There is a huge difference between Tianjun and the invincible Tianjun, so his ability to leapfrog has greatly shrunk.

I heard that there is a huge gap between the invincible Tianjun and the half-walker.

At this time, Ye Xuan's deity has also been dispatched and transmitted directly to the triple sky through the transmission array.

Then, he used the true and false mask to transform into a flying rainbow dojo who called Step Eagle.

Now, he is going to fly to the rainbow dojo to investigate the disappearance of the Jinyu Dojo.

However, it took a month to hurry.

Since there is no need to break through the cultivation resources, time is still a waste for Ye Xuan.

A month later, Ye Xuan finally found the Feihong Dojo. It is said that the strength of this dojo is not bad, and the strongman with the middle-level half-walking level is sitting.

The entrance to the Feihong Dojo was very strict. Fortunately, Ye Xuan wore a real mask, so he entered the Feihong Dojo.

This time, he came to investigate the matter, I don't know if it will be so smooth.

After entering, he took off the true and false masks and put on the evil spirits.

The emptiness of the gods, the ability to stealth, the average person can not find.

Although he said that his current strength is not so strong, but after wearing the evil spirits, even if he is half-step, Jun can not find him.

For the next period of time, I really investigated him for some clues, but that was already a month later.

"Sure enough, the reason why the Golden Feather Dojo was destroyed was because of the Flying Stars!"

Ye Xuan's eyes lit up.

This matter is actually not concealed. Some elite disciples know, let alone those who protect the law and the elders.

However, the use of this flying star sword, Ye Xuan does not know for the time being, I am afraid that only the top level of the Feihong Dojo will understand.

Those disciples only know that they are looking for this thing!

"I used to be a disciple of the Jinyu Dojo, and then because of the Golden Yu Taoist, triggered the Zongmen system to open the task, so this hatred, still have to report!"

Ye Xuan thought about it.

As for the disciples of the Jin Yu Dao who were caught in the Feihong Dojo, he could not save it for the time being.

Even if he wears the sacred \*\*\*\* armor, he will fight at most with the invincible Tianjun of the middle and high level, and the protection method in this flying rainbow dojo is at least half-step-level, how can he save it?

However, he did not leave the Flying Rainbow Dojo, but continued to hide in this Flying Rainbow Dojo.

Don't forget, Jianxian is also in Santian, Ye Xuan controls the sword fairy, away from the flying rainbow dojo, and then spread a rumor.

"The ninth flying star sword order, appeared in Sihe Valley!"

When this rumor came out, it immediately caused a big shock, because there were also many big forces who learned that the Feihong Dojo was looking for this flying star sword.

At the moment, many people have been dispatched. They all want to get this flying star sword order and then hand it over to the Feihong Dojo.

"If you want to hunt for treasure, you have to pay for the blood!"

Ye Xuan's eyes glimpsed, and it's already let the sword fairy hide in the Sihe Valley.

Sure enough, it was not long before someone found it.

This quadrangle is not big, and it will be able to turn around very quickly, but Ye Xuan is very clever, and built a portal that devours space.

Those who find the portal will enter it after hesitating.

In this way, they become the shackles.

No one who can enter the invincible Tianjun level can safely leave and be suppressed in an instant.

As a result, Ye Xuan's experience has improved!

With so many people's cultivation experience, Ye Xuan's realm directly from Jiu Pin Tian Jun, all the way to the nine invincible Tianjun.

This speed is really amazing!

"It's really close to the trough. It's up to nine levels in a few days. It's impossible to put it before!"

Ye Xuanle is broken.

Nine products invincible Tianjun, plus the virtual spirits and all kinds of blood, his current strength, is estimated to be able to fight with the half-steps, right?

Just, what do you really want?

When he broke through to the invincible Tianjun of the nine products, suddenly there was a strong breath coming, and then after watching the entrance to the space, he walked in.

"Get another fat sheep, take your hands!"

Ye Xuan thought in his heart.

Now, he is very eager to find a half-walker, and now that this person comes in, he can suppress it first and then find him to practice.

Unexpectedly, this half-step is not good!

"Ok?"

This half-step road into the devouring space suddenly felt strange, and instantly got rid of Ye Xuan's suppression, and then a sword.

A flame of swords, breaking the void!

Chapter 2013: transaction

"Calling!"

It is hard to imagine that this person's sword actually opened up the swallowing space and created a space crack.

"Hey, the phagocytic space is damaged, the current damage is 3 percent, and the normal repair time is three years!"

Hearing this, Ye Xuan stunned.

This is the first time that the phagocytic space is damaged. If the damage is 100%, will it collapse?

Do not!

It's not like this!

Ye Xuan thought too naive, if the damage reached 60%, then the swallow space will collapse.

"I have a big slot, if you have a few more swords, I am busy!"

Ye Xuan was frightened and quickly shocked him out of the entrance and let him return to the outside world.

"Right, time goes by!"

Ye Xuan thought of this and hurriedly turned his back time back to the past.

But the next moment, he was shocked again!

After the time went by, the damage of the phagocytic space was not repaired.

In other words, time-lapse is useless for consuming space!

However, this is also reasonable. After all, engulfing space is the space that engulfs the system, and the ability to turn back time is just the ability of blood.

"The pits, it has to be repaired for three years!"

Ye Xuan screamed in his heart.

Originally, he wanted to suppress the half-walking prince, but he did not expect that stealing the chicken would not turn the eclipse into the rice. It was a big loss!

This hatred can't be reported!

At the moment, Ye Xuan is waiting here, waiting for the half-step road to come.

It is said that there is also a huge gap between the invincible Tianjun and the half-walking prince. Even if it is 10,000 invincible Tianjun, it will not beat a half-step.

This, it is difficult to understand Ye Xuan!

"Half-step jun, it is said that it has already realized a kind of Tao. The strength is 100 times stronger than that of the invincible Tianjun. Even if there are tens of nine invincible Tianjun, you can't beat a half-walker. I have to see if it is true. That's it!"

Ye Xuan thought about it.

However, it is no longer his deity to stay in this four valleys, but the sword fairy.

Although I really want to challenge it, but Ye Xuan still thinks that she should use the sword fairy to test and say, if there is a chance, the deity will be dispatched again. After all, the sword fairy can not wear the virtual spirit, the strength is much worse than the deity, just Can't die.

Soon, that half-step is coming.

"Kid, what is the other end of this portal?"

Suddenly a strange voice fell into the ears of Jian Xian. He turned his head and saw that he was a middle-aged man.

This person is the half-walker who had previously damaged the swallowing space by 3 percent.

Then, Jian Xian quickly turned off the portal, and then said coldly: "Next, you'd better take out the real thing, otherwise, it will die very badly!"

When I heard this, the middle-aged man was shocked. What was the situation? I was so indifferent to the nine invincible Tianjun.

Looking for death?

"I don't know the tall guys, see me teach you for your elders!"

The middle-aged man did not say anything. He raised his hand and went to the sword fairy.

This blow, although only he readily issued, but the power is very fierce, enough to reinvent a nine invincible Tianjun.

"Killing state!"

"Swordsman is coming!"

"A sword flying fairy!"

In the face of such an attack, Jian Xian was separated from the bottom of the card and plundered toward the middle-aged.

"puff!"

In a muffled sound, the sword of the sword fairy broke into the middle-aged hand.

Unexpectedly, this blow actually triggered a hit and kill effect!

But unfortunately, this sword did not actually stab the middle-aged man's palm, but pierced it with the flame protection that covered it.

"How can I break my flame defense?"

The middle-aged man was shocked.

He has lived for so many years, and for the first time heard about this kind of thing, let alone seen it.

"What I understand is the fierce fire. The flame defense will not be a ninth invincible Tianjun. What kind of means does this person use?"

The middle-aged man frowned and quickly pulled out a palm and flew it.

Just a sword, Ye Xuan is seeing the clue, if the middle-aged man has a layer of flame defense, I am afraid it has been spiked!

"Come back!"

The sword fairy screamed and screamed again.

Although a sword can not be used, but it still has a killing effect, as long as it can hurt middle-aged people, then there is the possibility of killing each other.

"The portal has suddenly disappeared. It should be what you did. Is the flying star sword in your hands?"

When the middle-aged man finishes speaking, he is fully committed.

It is a pity that the sword fairy is the real invincible Tianjun, even if it is a middle-aged person who has reached the half-step, and can not hurt the sword fairy.

"Boom!" "Boom!" "Boom!"

The movement of the four valleys is very large, and almost all of them are beaten by the swordsmen.

The middle-aged people feel that they are not right, the invincible Tianjun, how can they withstand so many attacks?

This is impossible!

Even if the other side is amazing, but the clothes can't be intact?

"What I understand is the fierce fire, the attack power is at the top, and I still can't hurt you. What the \*\*\*\* are you?"

The middle-aged man asked inexplicably.

"Since you can't hurt me, why don't we make a deal?"

Jian Xian split from the ground and said slowly.

"You, are you qualified to trade with me?" The middle-aged man said coldly.

"Oh, it seems that you don't want to know the whereabouts of the Flying Stars." Jian Xian shook his head.

Flying Star Swords!

After hearing this name, the middle-aged man trembled and said: "You really know the flying star swords, or talk about how you want to trade?"

"My request is very simple. I am now the invincible Tianjun of the nine products. As long as you will tell me the way to break through to the half-step, I will tell you the whereabouts of the Flying Stars!"

So simple?

The middle-aged man has a brow.

The way to break through to the half-step prince is actually not very subtle. The slightly invincible ninth invincible Tianjun actually knows.

Ye Xuan, in fact, can also find these people, and then learned.

But there is no such need, because he sometimes goes back to the skill, as long as he asks the method, then he can go back in time, so that it is not a deal with the other party.

Regardless of whether Ye Xuan said it is true or not, middle-aged people must try it.

"Invincible Tianjun and half-walking Jun, in fact, is a difference between things, that is, 'dao'. As long as you understand the Tao, you can break through to the half-step!"

The middle-aged man explained.

"I know how to understand this?" Sword Xian asked.

"I have learned that the fire is a kind of one of the 100,000 trails. It was when I spent hundreds of thousands of years in a very hot place to comprehend. After I realized the Tao, I will condense in my body. A kind of road."

Chapter 2014: Half step

The middle-aged man continued: "Of course, you can swallow a large number of fire properties of the heavens and treasures, as well as the cultivation of the Tao, you can also condense out the seeds!"

After listening to it, Ye Xuan slightly understood it and asked: "There are 100,000 kinds of '道'?"

"That is nature, in addition to the fire road, there are ice rinks, thunder roads, blast roads, etc. However, there are only 3,000 kinds of trails in the 100,000 trails, which can be upgraded to the avenue. Among the three thousand avenues, there are only ninety-nine avenues. You can ascend to the Holy Path. As long as you understand a path to the late stage of Dacheng, you will have the opportunity to practice it into a boulevard. If you succeed, you will be able to achieve the Tao. My fire is a prototype of the Holy Path, so you can improve all the way. Go to the Holy Path."

"It turns out!"

This time, Ye Xuan understands.

He has always forgotten a bit, and in the fairy phagocytic system, martial arts can be exchanged. The martial arts at the semi-step level is called the Taoist temple. This can be cultivated and debuted.

"If there is no problem, should you fulfill your promise?" The middle-aged man blinked.

"Not finished yet, I still need your cultivation experience, don't say you don't have it!" said Ye Xuan.

One and a half steps, enough to build a dojo, and certainly there are people, he will naturally record the experience of cultivation for the understanding of the tribe.

"You want, just give it to you!"

The middle-aged man threw a jade in a very refreshing way. This is how much he wants for him.

After Ye Xuan got Yuxi Jane, he immediately glanced at it and transcribed it into the Xian-level phagocytic system.

Then he used the time-lapse skills directly and returned to the two before meeting.

Soon, they met again, but this time the middle-aged did not know Ye Xuan.

"Hello, I know the whereabouts of the Flying Stars, but I have a request. As long as I can pick me up, I will tell you where the Flying Stars are!"

After the middle-aged people reappeared, Ye Xuan said so.

"There are invincible Tianjun in the nine districts, and dare to speak out."

The middle-aged people are somewhat unhappy, but they can cultivate to the invincible Tianjun of the nine products, and certainly have a background.

"Isn't it mad, you can know it when you try it. Although I don't know what it is, I must be strong, and you still don't pick it up?" Jianxian was separated.

"What is this fear?"

The middle-aged people obviously did not think much. After all, a nine-in-one invincible Tianjun could not hurt him.

"Reassured, I will not attack your key!" Ye Xuan eyes a sigh, directly shot.

Killing state!

Swordsman is coming!

A sword, flying fairy!

The sword fairy was turned into a streamer and killed to the middle-aged.

"Humph!"

The middle-aged man snorted and didn't even have a defense. He tried to clip the sword.

"puff!"

In a muffled sound, the unparalleled pair of swords in the hands of the sword fairy were caught by the middle-aged.

It is a pity that although this middle-aged person did not use flame protection, it did not trigger a one-shot killing effect.

"Come back!"

Ye Xuan's light flashes and his time-lapse skills.

Once, I can't do it twice. If I can't do it twice, I can't do it five times. Anyway, Ye Xuan has already prepared for the infinite time.

The second time, there is no trigger to kill the effect!

The third time, no!

Ten times, there is no trigger!

In desperation, Ye Xuan had to go out with the deity, put on the evil spirits, and then take a hit and kill the sword, waiting here.

Using a hit and killing piece to display a sword flying fairy, has an effect more than the unparalleled sword, that is, it can greatly enhance the chance of a hit.

This time, it was out of Ye Xuan's expectations.

"Hey, the host triggered a hit and kill effect!"

"Hey, the host's killing value is improved!"

The system prompts.

Finally, after Ye Xuan exhibited the eleventh time of flying a sword, he killed the middle-aged man of this half-walking level.

The other party, died of care!

However, this is a matter of course. After all, Ye Xuan is just an invincible Tianjun. Because of the huge gap with the half-walking monarch, the other party does not agree.

Change to be someone else, too!

After the death of this person, Ye Xuan quickly swept over and collected his body.

Now, he is already the invincible Tianjun of the nine products, but he does not know how to break through to the half-step, so he has to search the soul of this middle-aged person, hoping to get something useful.

Only, he was disappointed!

"Damn, how can we break through in the end, is it really like him, go to the extremely hot place?"

Ye Xuan brow wrinkles.

The middle-aged man said that he stayed in the extremely hot place for hundreds of thousands of years before he broke through to the half-step.

Not to mention hundreds of thousands of years, even for decades, Ye Xuan can not go!

However, it is at this time.

"Hey, the body can be analyzed, is it going?"

Suddenly a system prompts to sound, so Ye Xuan is a bit wrong.

"Yes!"

Ye Xuan should have a sentence.

Then, the fairy phagocytic system is to analyze the body of this middle-aged person.

This analysis is very thorough. For example, the injury to which part of the middle-aged person has not been cured, etc., is known.

However, this is not the point!

"Hey, the host gets a kind of fire!"

When the system sounds down, Ye Xuan is a quick look.

The kind of fire is actually a small flame that beats. At the moment, Ye Xuan chooses to swallow.

"Hey, the host swallowed the kind of fire, and condensed a kind of fire. The current fire is planted in the early stage!"

"Hey, the host broke through to half a step!"

Two beeps sounded one after another.

Ye Xuan, finally broke through to the half-step Jun Jun realm.

From the invincible Tianjun to the half-step road, it is indeed a step into the sky, Ye Xuan only feels that his strength has changed dramatically.

If this middle-aged person is not dead, now he is afraid to fly each other with one hand.

"The path is divided into three levels, namely, initial, small, and large, and each level is divided into early, middle, and late.

"From the half-step to the premise of the king to break through, it is to first condense a kind of Tao, and upgrade to the late stage of Dacheng. If you want to break through the realm of Daojun to the life and death, you have to upgrade the two avenues to the late stage of Dacheng. The premise of wanting to break through the life and death to the half-step emperor is to promote the three holy ways to the late stage of Dacheng."

This is what Ye Xuan learned from the memory of the middle-aged.

100,000 trails, three thousand avenues, ninety-nine holy roads.

Among them, the Jiujiu holy road refers to not eighty-one holy roads, but ninety-nine kinds.

Therefore, the cohesion of the Tao is very crucial, because each time one is condensed, the difficulty will increase when the next one is condensed. If you are condensed in front of the 3,000-way avenue, then it is all waste. Because only the three species of the three thousand avenues are condensed, they are qualified to break into the Tao.

In the same way, only the path of the sacred path can breakthrough to the life and death.

Fortunately, this kind of fire path is a sacred path, so Ye Xuan can continue to practice. The average person also chooses the sacred path of the sacred path, so that the card will not be in the future.

In addition, with the breakthrough of Ye Xuan, the old trees and the black corners have also broken through. However, the black horns, the broken gods and the leaves are different, and they cannot be condensed.

It's the old tree that can repair the demon!

At this time, Ye Xuan found that there was already one in the old body of the tree, and it was wrong. It was two kinds of seeds.

One is a kind of fire, and the other is a black ball.

Chapter 2015: Flame swallow

Above this black ball, there is a symbol that Ye Xuan is very familiar with!

Devouring the symbol!

"Hey, the sacred \*\*\*\* unicorn condenses and devours the genus, and the advanced is the flaming unicorn."

The system prompts to sound.

Ye Xuan, a quick look, found that the old body of the tree has changed.

Yanshen Kirin, advanced into a flaming unicorn!

How is this going?

It's Ye Xuan who just swallowed the fire. It's not the old tree. How is the tree advanced?

Ye Xuan hurriedly felt that he found that there was not only one kind of fire in his body, but also the species that swallowed.

This kind of species, I am afraid, like the blood of the undead, is shared with the tree. Not only that, but also the corresponding species in the body of the black horn.

In this way, the fall during the sleep period is estimated to be shared.

In short, earned!

"Finally, my attack has the effect of swallowing. If it is a combination of the power of fire and the power of swallowing, it will be much stronger than the average person."

Ye Xuan is very happy.

At the moment, he quickly checked the old tree after the advanced.

Now the old tree has become a flaming unicorn, and also comprehended the devour skills. In addition, the tree can absorb all the flame attacks and temporarily transform into the strength of strength.

As for the trick, there is only one!

Nine-gravity!

"Too cow!"

Ye Xuan couldn't help but swallow a sip, and quickly let the sword fairy avatar and the tree old fight.

In the end, the old tree and the sword fairy were inextricably linked.

However, this is also normal. After all, the old body of the tree is called devour black inflammation. It has the same effect as engulfing the dragon scale, and it is immune to all fire attacks, which is even more powerful than the blood of the undead.

Of course, as long as Ye Xuan's deity wears the sacred spirit, he can still overthrow the old tree.

Now, Ye Xuan has already broken through to a half-step, then the next step is to start a new action.

At the moment, he is once again establishing a portal to swallow space, waiting for those little white sheep to cast their own nets.

However, most of them are invincible Tianjun level, and there are very few half-steps.

Today, Ye Xuan finally waited for a half-step.

But this time, he did not dare to let this half-walker enter the devouring space, but quickly closed the portal and took the initiative to show up.

"I am afraid, there is no flying star sword here?"

After a white-haired old man came, he said to the sword fairy.

"Oh? How do you know?" Jianxian said in a strange way.

"It's very simple. Since the disciples of the Feihong Dojo are looking for this flying star sword, many people have tried to make a misconduct. The news of the holiday has attracted people and then killed!" the old man replied.

"It turns out!"

Sword fairy nodded slightly and smiled: "But you are right, there is indeed a flying star sword!"

"Oh, no matter if there is, then I will kill you."

The old man also laughed.

Ye Xuan, it should have killed a lot of people. If he kills Ye Xuan again, he will get a lot of wealth.

Even if there is no flying star sword, it is not a bad trip!

"The three heavens, I am afraid no one can kill me!"

Ye Xuan shook his head.

Of course, at this time, the person in his mouth refers to the sword fairy.

Three heavens, at most, half a step is called the king, want to kill the sword fairy, how is it possible!

"Then I have to give it a try!"

The old man was flashing, and he also felt that Ye Xuan was a half-walker.

However, he has broken through to half a step and has been in the army for countless years. The fire in the body is already in the middle of the initial period, and the strength is still strong. It should be no problem to deal with Ye Xuan.

Unfortunately, he thought wrong!

"kill!"

At this time, the old man finally shot.

There are two ways to comprehend him. One is the way of fire and the other is the path of ice.

The way of the fire and the path of the ice are not only the prototype of the avenue, but also the prototype of the holy road, so it can be cultivated all the time.

The old man had a cold hand and a flame, and he went to Ye Xuan.

In this battle, Ye Xuan is not prepared to summon the flames to unicorn, because he has just broken through to the half-step, ready to try his strength.

At present, there are two kinds of ways he comprehends. One is the way of fire, and the other is the way of engulfing.

Unfortunately, the way of devouring does not seem to bring any effect to him. It is a kind of fire, so that his flame attack power and fire immunity have been greatly improved several times.

"Booming!"

In an instant, Ye Xuan is fighting this old man.

Both of them have a kind of fire in the body. The old man has an ice-cold species, and Ye Xuan has one more phagocytic species.

This is not the focus, the focus is on the old people's fierce fire, it is already in the middle of the initial condensation, that is to say, the old man is the second half of the road.

However, after the two men played, the old man was hit by an instant!

In the case of the full killing state, Ye Xuan was able to get more than 30 times the increase in combat power, coupled with the unparalleled pair of swords, which allowed Ye Xuan to have more than ten levels of combat.

But this increase does not seem to be of much use for the half-step.

What we are looking at now is the degree of comprehension of the Tao. The effect of the growth of the Holy Power and the body is not obvious. In the realm of half-step Daojun, there are not many people who will improve these two. The average person is to deepen the sentiment of the Tao.

In the half-step way of mastering the fire, you can use the flame to break out under the soles of your feet and then have a super high moving speed.

If you understand the path of the wind, it is even more horrible!

This time, the reason why Ye Xuan took the upper hand, the sword will fly the old man, not because of the increase, but because of the flame growth of the blood and the celestial blood of Ye Xuan.

Although the repair is lower than the other side, but after the growth of the blood and the growth of the celestial unicorns, the power of the flame is even stronger than the old man of the second half of the road, so that one can break the flame defense of the other side. Take it off.

"Shenli and body can improve my speed, but now most people will understand the fire, so it is relatively useless, and my fire is a pre-coagulation, but it is good to have blood and fairy The blood of the unicorns makes my flame more powerful than him."

Ye Xuan thought in his heart, it seems that it is better to strengthen the blood of the immortal unicorn and the blood of the undead.

If it is the state of killing, the increase in the number of killing swords will also have an effect on the Tao, then the sword of the talent is enough to cut the ten old men.

The old man saw his first defeat and immediately understood that Ye Xuan was not a good person, and quickly turned around and left.

After all, one-and-a-half-step squadron will take him to the second half of the road, and it is not something that ordinary people can do. What's more, Ye Xuan is also the way to the fire.

"I want to run now, it's late!"

The sword fairy was flashing in the light, and the flame burst directly under the soles of the feet, and quickly swept away toward the old man.

Although the old man blocked Ye Xuan's attack, but could not stop the serial attack, was instantly defeated by the flame defense, and thus was killed.

Chapter 2016: Flying star

After the death of the old man, the sword fairy was glanced, and the flame of the burning body was extinguished.

Ye Xuan hurried to the past and took his body into the swallowing space, and then analyzed a kind of fire and a kind of ice.

"Since I can swallow the fire to break through to the half-step, then I should also be able to swallow the fire and raise my feelings about the fire."

Ye Xuan thought in his heart, he swallowed this kind of fiery fire, and sure enough, his perception of the flame was stronger.

If they are known by others, it is enough to shock them to death.

You should know that after the average person gets the kind of seed, at most, he only takes the enlightenment, instead of directly devouring and sensation like Ye Xuan.

This means that Ye Xuan will be much faster than others.

"If a person in the middle of the initial setting is fully enlightened, then he can make his path reach the level of the initial setting. However, based on past experience, I even swallowed a The early stage of the initial setting is just an increase in experience, and will not let me directly rise to the middle of the initial setting."

Ye Xuan thought in his heart, after all, his upgrade experience is much more than the average person.

This old man's fierce fire is in the middle of the initial setting, but his ice-cold species is in the early stage of initial coagulation. In the half-step road, you can condense a variety of roads, but you must be careful.

Ye Xuan directly swallowed this ice-cold species, and then there was an ice-cold species in the body.

Not only that, but even the old body of the tree!

It seems that the species is indeed shared!

However, the ice type does not seem to be useful for Ye Xuan.

Although it is said that the ice path is also the prototype of the holy road, it can be promoted to the holy road in the future, but Ye Xuan used to use the flame, and now there is an inexplicable phagocytosis, so the third way, he has to choose .

The ice road, no interest!

However, since he can directly devour the species and then condense the corresponding species, it does not matter. If there is any swallow, may it be able to take the lead?

At this time.

"Hey, devour other species, you can enhance your perception of the phagocytic species!"

Suddenly a system prompts to sound.

Ye Xuan groaned, then closed his eyes and realized it.

The next moment, the ice-cold species was absorbed by the phagocytic species.

Before Ye Xuan thought that the phagocytic species can be swallowed up by things, now it seems that in addition to this method of promotion, it is also possible to enhance the experience by second phagocytosis.

In this case, in the future, those useless things and useless species can be used to enhance the swallowing of the species, so that the swallowing of the species is certainly the fastest one!

Next, Ye Xuan established a portal here and continued to guard.

However, this area is not particularly prosperous, and there are very few half-steps.

After Ye Xuan solved a half-step road with a fire, he was ready to leave.

But at this time.

Suddenly a strong breath came, Jian Xian split his brow and looked around and found a man wearing a flying rainbow dojo costume rushed toward him.

"This is the protection of the Flying Rainbow Dojo!"

Ye Xuan recognized it at a glance.

The protection of the Feihong Dojo is at least half-stepped and the strength is not weak.

Finally, a decent person has come!

Ye Xuan said nothing, directly killing the past.

"Good guy, is the idea coming to my head?"

This Feihong Dojo's protective brow was picked. He thought that Ye Xuan was going to kill people.

However, this is true!

"Zhu Xian is a must!"

Ye Xuan's flash of light flashed directly into an attack that contained the fire.

"It's the equivalent of the fire in the middle of the initial setting. It's not bad, but I want to kill me by relying on this kind of attack. I think too much!"

This Feihong Dojo's protective brow was picked and shot with a hand, and it directly hit a giant palm of fire.

No, this is not a giant palm of fire!

Above the giant palm of the flame, there is still lightning.

This person, comprehending the road of fire and the way of lightning, the two are superimposed, the attack is very fierce.

In an instant, Ye Xuan's attack was defeated!

"It's not the law of the Feihong Dojo. I am afraid that the ice-cold species and the Thunderbolt species have reached the middle of the initial setting, which is much stronger than the average two-product half-way!"

Ye Xuan brow wrinkles.

It is much harder to raise the cultivar from the initial stage to the early stage of the initial condensate.

Therefore, many people will choose to condense the second seed and then upgrade to the middle of the initial setting.

In this way, the strength will be relatively faster, although the realm has not improved, but it can also exceed the average peer.

"The district is a half-step, and I dare to shoot at me and find death!"

The guardian of the Feihong Dojo screamed and shot again, hitting directly on the sword fairy body and flying it.

However, at the time when the flames dissipated, this method of protection did not see the figure of the sword fairy.

"Where?"

Suddenly a voice rang in his back.

At this point, the sword fairy has been the eye of the assassination, came to the back of the other side.

Then, a sword is thrown out!

"Hey!"

This defense of the fire armor defense is still quite powerful, blocking the sword.

Those who comprehend the two ways, the combat power is really extraordinary, even if it is an attack that combines the power of fire and the power of swallowing, it does not understand him.

However, this still can't stop Ye Xuan!

Suddenly, the void split, and Ye Xuan's deity came directly.

Now, it is two to one!

Moreover, Ye Xuan, wearing a virtual spirit, is more powerful than the sword fairy.

Although the increase of the sacred armor is not of much use, don't forget that the sacred spirit also has a stealth effect and is completely immune to this type of energy attack.

The strength of this Feihong Dojo is considered to be at the top level in the second half of the road. Only a small number of people have realized three kinds of roads, which will be stronger than him.

Therefore, Ye Xuan packed up him and still spent a lot of time.

This battle took a full half minute, and neither side knew how many rounds to play.

After half a minute, this law-protection finally lost to Ye Xuan and was killed by it.

After his death, Ye Xuan rushed over and then put the body away.

The fiery fire in the middle of the initial setting was swallowed up by Ye Xuan. As for the thundering seed in the middle of the initial setting, Ye Xuan also condensed a thundering seed, and then Ye Xuan let the swallow Kind, this kind of thundering is swallowed to enhance experience.

Next, Ye Xuan threw his body to the true and false mask, and then disguised as this guardian.

"It turned out that the Flying Star Swordsmanship is the key to the opening of the Feixing Daojun Dongfu. There are a total of nine pieces in the hands of the avenues, and this flying star sword in my hand is the ninth."

Ye Xuan thought in his heart.

The flying star Daojun is actually not a strong man of the Daojun, but also a half-walking monarch. However, one of his insights is something that countless people cannot comprehend.

This road is called kendo!

Chapter 2017: Re-flying Hongdao Dojo

Kendo is also one of the ninety-nine holy roads. However, unlike the fire road and the ice path, this kendo ranks high among the ninety-nine kinds of holy roads, and it is extremely powerful.

Therefore, the kind of the sword of the flying star Daojun has attracted the attention of the various avenues!

"The swallowing of the species is better, the fire is also good, but it can be used in the battle, it is only the fire. If I get the sword, then the strength can make rapid progress."

Ye Xuan blinked.

Obviously, he is also interested in the kind of sword.

After all, his body also has the blood of the sword, if you can get the sword, the power can be greatly improved.

At the moment, he is Yi Rongcheng's appearance of Wu Xinghai, the protector of the flying rainbow road, and then breaks through the void all the way.

He had been to the Flying Rainbow Dojo before, so it was marked.

After he came to the Feihong Dojo, one person immediately greeted him and asked: "Wu Hufa, can you get the harvest this time?"

"Yes, it is said that in the four valleys, there is news of the flying star swords!" Ye Xuan nodded.

"then you....."

This law-protection method asks strangely. Since there is news, what does Wu Xinghai come back to?

"That person is also a half-step, but the strength is strong. It is said that there are already two-and-a-half-step roads, so in order to prevent it, I will come back to find someone to go with me!" Ye Xuan said deliberately.

The use of true and false masks this time is actually a sword fairy.

Sword fairy wears the virtual spirit armor without increasing the effect, but does not mean that he can not use other magic weapons, using his disguise to come in, Ye Xuan is also more assured.

As for his deity, he is still guarding it in Sihe Valley, waiting for some people to come to the door.

"Even Wu's law is not an opponent. It seems to be a sly character. You will wait, I will call Panda again, let's go together."

After the law was finished, he left, but after a while, he came with another person.

These two people are two-and-a-half-step roads, but the strength of the single is still the strongest.

Then the three left together and went to the Four Valleys again.

At their speed, it will take about two or three days.

During this period, some people found Sihe Valley, but they were all invincible Tianjun.

There are only two in the half-step level, and they are all a half-step, but also let Ye Xuan get a lot of things.

Two and a half days later, Jian Xian arrived in the law of the two flying rainbow fields.

"Wu Hufa, here is Sihegu, where is the man?" asked the law.

The sword fairy broke down and said: "I have left a mark of thunder fire on him. The other party is still entrenched in this, it is so bold, go!"

After that, he just took the lead and rushed forward.

The two guards looked at each other and hurriedly followed.

However, it is at this time.

"Calling!"

Behind the two, suddenly there was a gust of wind, and a horrible breath spread instantly.

Ye Xuan's deity has already put on the sacred spirits and directly applied the assassination to the back of them.

"Hey!"

The two were killed by a surprise, and there was no time to react. Even the elders were killed.

Still not waiting for another person to defend, because the swordsman who was exposed to the real mask and exposed the real body, also stabbed.

"Hey!"

This sword, pierced the heart of another person, and instantly killed it.

Ye Xuan, once again got three kinds of roads, two of which are fiery roads, which is really good.

"There is one that is a kind of windy road. It is no wonder that the speed of flying is so fast. The kind of fire is mixed with the wind and the wind is so hard that it is not as weak as Wu Xinghai."

Ye Xuan thought in his heart, he will devour this blast.

However, he did not devour this blast to the swallowing species, because the blast can speed up and can be integrated into the attack.

"Right, the average person will not condense so many kinds of species, but I can, if I have more than a dozen species in my body, then by that time, I will attack with a hand, the power will be terrible!"

Ye Xuan's eyes lit up.

However, this is a bit difficult.

It is not difficult to combine the flame attack with the lightning attack. If you add a wind blade attack, the difficulty will be great. If you add a cold attack, it will be even more difficult.

Then, Ye Xuan pretended to be a person, returned to the Feihong Dojo, and brought two back.

The same location, the same tricks, the same end.

But this time, Ye Xuan is not a small gain.

There are four species of two people, two of which are fires, and one of the other two is a cold ice, and the other is called a power.

However, the way of power is not one of the ninety-ninth holy roads, but the ruins of the three thousand avenues.

However, now they are only half-way, and they are far from the Tao, so there is no need to care so much.

The power of the road is deepened, and with the explosion of the fire, the high speed can still erupt a lot of power.

However, the power of the road is a bit off the door compared to other roads, and the power of the same level is weak.

The way of strength in the middle of initial coagulation is probably only a little stronger than the fierce fire in the early days of initial coagulation.

"I am wearing a virtual spirit armor now, but I can only attack with immune energy. If the other party directly kills it, it is still dangerous!"

Ye Xuan thought in his heart.

Time-lapse skills are really useful, but in case something triggers a task that cannot be used back in time, it is a tragedy.

Therefore, Ye Xuan will guard against the 'dao' of such a partial door in the future.

Then, Ye Xuan will devour this cold ice species and power.

"Hey, the phagocytosis is raised to the middle of the initial setting!"

"Hey, the host broke through to the second half of the road!"

Finally broke through!

However, the breakthrough in the realm is due to the fact that the phagocytic species has been upgraded to the middle of the initial setting, and the species of the fire is still only the initial stage of initial condensation.

Therefore, the strength is not so perverted, but it is not bad, enough to kill any person he killed before.

"The owner of the flying rainbow road is a four-and-a-half-step prince. In my current realm, if it is directly killed, it should be no problem!"

Ye Xuan thought in his heart.

In order to get the flying star swordsmanship, the Feihong Dojo directly destroyed the Jinyu Dojo and arrested countless people in the Jinyu Dojo. This time, he is going to seek revenge.

At this point, he was already breaking open the void and came to the front of the Feihong Dojo.

This time, as long as the Feihong Dojo is successfully destroyed, the sixth ring of the Zongmen Chain Task can be completed.

This task requires Ye Xuan to be promoted to the half-step road, and even the Yundao field needs to have a hundred disciples with seven qualifications.

After numerous generations of reproduction, Ye Xuan has been a disciple with more than a dozen seven-star qualifications.

However, there is still a long way to go before the mission is completed.

Chapter 2018: Get mad

"Hello, is there something?"

Seeing that Ye Xuan Ling was standing in front of the gate of the Feihong Daochang, immediately a disciple from the Feihong Dojo came forward to ask.

Ye Xuan glanced at him and immediately took out the flying star sword order. He said: "The ninth flying star sword, in my hands, let your Taoist speak out!"

"Flying Star Swords, what?"

This disciple, looking at Ye Xuan somewhat strangely, did not understand what this flying star sword ordered.

This can't blame him, because only those elite disciples, guardians, and elders will know.

"If you don't know, go in!"

Ye Xuan's flash of light flashed directly to the black horn and the old tree.

Now, they all have the ability to swallow, so they are killed directly.

Suddenly, the number of people at the Feihong Dojo is decreasing.

As for Ye Xuan, he also rushed in wearing a virtual spirit.

"Where is the mouse generation, dare to scatter in the flying rainbow dojo?"

A violent drink came.

When I heard this, Ye Xuan did not return, and said directly: "The flying star sword is in my hand, come to a person!"

This sound was deafening and spread throughout the flying rainbow dojo.

"Flying Star Swords?"

How can you not know this thing?

At the moment, he is directly robbing and wants to invite.

But the next moment, he was killed by Ye Xuan, and the two species were directly swallowed.

Hearing the sound of Ye Xuan's voice, the elders and the owner of Feihong, appeared in an instant, and then surrounded Ye Xuan.

"The ninth meteor sword command, took the initiative to come to the door?"

The owner of Feihong felt incredible and felt that this was a bit embarrassing.

"Who are you, dare to kill the law of the Feihong Dojo?"

"Not much nonsense, if you want to fly the sword, then come and get it!"

Ye Xuan's mouth is slightly tilted.

"Kids, don't be mad, the second half of the road is also dare to cross in front of our Taoist, you will die very badly!"

An elder of the Flying Rainbow Dojo said.

Ye Xuan glanced at him and then looked around the group of half-walking monks and said: "Since you don't shoot, let me come!"

When the voice fell, he was already shooting.

The deity, the sword fairy, the flame swallowing unicorn, the black horn, four together.

"Great courage, let me come!"

The elder was angry and screamed, but the next moment, the traces of Ye Xuan all disappeared, and then appeared around him, surrounded him.

"dead!"

Ye Xuan took the four shots and all the attacks attacked the elder.

The elders of the three-and-a-half-step prince were instantly bombarded, and the corpse quickly disappeared, and I did not know where to go.

After Ye Xuan swallowed the fiery fire of the elders in the early stage of the condensate, his own fierce fire was finally raised to the middle of the initial setting.

Attack power, stronger!

The black horn, the tree old and others and Ye Xuan shared the Tao, and the fire cultivars were upgraded from the initial setting to the middle of the initial setting, and they were the same.

Not waiting for everyone to react, Ye Xuan used the eye of the assassination to flash behind an elder.

"boom!"

Another attack, this elder also instantly fell.

Feihong Dojo, there are two three-and-a-half-step roads, and now they are all fallen.

"Oh? It turned out to be a Soul Eater."

Ye Xuan brows a pick, some accidents.

He has heard of the Soul Eater once, and that is the King of the Golden Feathers. This is a rare species, but it is just a ruin.

Now, Ye Xuan has been able to combine the three types of attacks: the fierce fire, the phagocytosis, and the thunder, which are powerful.

If this is added to the Soul Eater, which hurts the soul, the attack power will be stronger.

"court death!"

At this time, the owner of Feihong finally realized it. He directly turned into a streamer and attacked Ye Xuan.

The speed of this Feihong master is very fast, so that Ye Xuan is so shocked, but the latter heard that the Feihong Taoist comprehend the path of the wind, has already reached the early stage of Xiaocheng, and the strength is very strong.

However, how is this?

"Snapped!"

Feihong Dao came to Ye Xuan in an instant, and then took a picture of Ye Xuan's imaginary god.

This palm is the culmination of the master of Feihong. The method of blasting is combined with the law of the wind. As long as the enemy is hit, the enemy's body will generate countless wind blades, and then break out.

Once, Feihong Taoist used this trick to kill a four-and-a-half-step prince.

It is a pity that Ye Xuan is wearing a virtual spirit, and the attack of the Tao is instantly isolated. The palm impact is also blocked by the physical defense of the virtual spirit.

Ye Xuan, no harm!

"how is this possible?"

Seeing that Ye Xuan had nothing to do, Fei Hong Dao was shocked. Before he reacted, Ye Xuan and the tree and others attacked.

"boom!"

The wind is whistling.

Fortunately, the owner of Feihong used the speed of people and escaped.

Since Ye Xuan can't, then attack other people!

However, this is still useless.

After the black horns and the trees were in the middle of the two palms, they were indeed shattered by the wind blades that were thrown out of the body, but in the blink of an eye, the two of them reappeared.

As for the sword fairy, this is a truly invincible existence, even if the strength of the flying master is a hundred times, a thousand times, it is impossible to kill the sword fairy.

"This Feihongdao main strength is extraordinary, or let others solve it first!"

Ye Xuan thought in his heart, that is, continue to shoot.

Within a few seconds, the half-steps of the group of one product and the second product were all killed, and then the body was collected and the seed was stripped.

Ye Xuan's sentiment on the Tao is deeper and the combat effectiveness naturally increases!

"Still!"

Fei Hongdao saw the situation, could not help but screamed in the sky.

If these guards and elders are all dead, then he is a flying half of the road, isn't he half a step?

"I want you to die!"

The owner of Feihong has gone mad, killing Ye Xuan.

However, his attack did not work at all, so he became more and more annoyed.

So that after half a minute, it was gone!

"Wow, ah..."

The spirit of the main character of Feihong did not attack Ye Xuan, but the disciples of the Taoist group at the bottom.

"The Taoist killed the disciple in the door, what happened?"

"Ah, run fast, the Taoist is gone!"

"Go, go!"

This scene, even Ye Xuan did not expect, because in his original plan, he wanted to use the consumption method to consume the Feihong Taoist, but unexpectedly, the other party went into flames, and then opened the killing.

"Hurry to stop him!"

Ye Xuan is drinking.

Among the disciples of this group of flying rainbow dojos, there may be seven-star qualified disciples, which can not let this Feihongdao master kill.

At the moment, Ye Xuan and Jian Xian are rushing to drag the flying lord, and then by the black horns and the old trees, these disciples who are not even half-way will be taken into the swallowing space.

In a short while, the entire dojo is empty, and there are only a few leaves left in the battle with the Feihong Taoist.

Chapter 2019: Sent to the door

"Kill, I want to kill!"

The main character of Feihong murmurs and shoots, but the combat power has improved a lot.

However, after the fire broke out, the flaws also appeared.

The owner of Feihong was playing for a while and found that after Ye Xuan was not cleaned up, he turned around and was ready to leave.

"The tree is old, do him!"

Ye Xuan immediately ordered.

The tree is old, a big mouth, and a purple-black flame is ejected.

Nine-gravity!

"boom!"

Fei Hongdao was unable to escape because he was dragged by Ye Xuan and Jian Xian, and suffered this blow.

As for Ye Xuan and Jian Xian, they are immune to this kind of attack, naturally it does not matter.

This move will seriously damage the main character of Feihong, and the strength will drop, and will soon be besieged by Ye Xuan.

Looking at the slowly falling body in front, Ye Xuan quickly took it away from the air and then used system analysis to strip the road.

"A small wind in the early stage of the small planting, one in the late stage of the initial condensation."

Ye Xuan brows a pick.

It is no wonder that this Feihong Taoist has gone into flames. It turns out that it is a kind of meditation, which can improve the strength of the soul, but it is also easy to escape.

Ye Xuan directly swallowed the blast, and then raised his own blast to the middle of the initial setting.

As for this kind of demons, Ye Xuan is handed over to the phagocytic species for secondary engulfing.

Although it can be said that both species can be given to the phagocytic species for secondary phagocytosis, but Ye Xuan feels that the phagocytic cultivar is elevated to the early stage of initial clotting, and the effect does not seem to have a greater effect than the blaster species are upgraded to the early stage of initial clotting.

Although the phagocytosis can be used to devour other species, but Ye Xuan directly devours the blast, the experience of the blast in his body will certainly be much more than the second phagocytosis of the phagocytic species.

Perhaps, Ye Xuan broke through to the three-and-a-half-step road, it will be because of this blast.

Now, Ye Xuan has already extinguished this flying rainbow dojo. All the disciples have been received in the swallowing space, but what makes him helpless is that the number of seven-star qualified disciples has only reached 40.

"Prosperity, continue to multiply, I do not believe that I can not get a hundred seven-star qualified disciples!"

Ye Xuan immediately took out a large number of Tiandi treasures to entice the residents in the space.

Relatively speaking, people with high realm and promising future generations will have a good qualification. Ye Xuan estimates that after a while, this task can be completed.

However, there is no flying star sword in the ring of the flying lord.

Ye Xuan quickly let Megatron conduct a solicitation of the soul, and found that the Feihong Taoist did not get the flying star swordsmanship, but was looking for an avenue.

As long as you find the Flying Star Swordsman, then this avenue will give him no small reward.

In any case, the revenge of the Golden Feather Dojo is half reported.

"Chikuido Dojo, from the Fire Road, the Golden Lion Dojo..."

Ye Xuan learned a lot from the memory of this flying rainbow master.

The other eight meteor swords are in the hands of these dojos.

"Now the ninth flying star swordsmanship appears, then these masters will know, then they will definitely look for it, and then open the Flying Stars."

Ye Xuan thought in mind, in this case, it is better to send it to himself.

At the moment, he immediately began to hurry, left the area of the Flying Rainbow Dojo and rushed to the nearest Golden Lion Dojo.

This Golden Lion Dojo is ten times stronger than the Flying Rainbow Dojo, enough to explore the Flying Star Cave.

After a lot of transmission, Ye Xuan finally came to the vicinity of the Golden Lion Dojo, and then, Ye Xuan sent Jian Xian to the body.

The second half of the road, the sword of the sword, is divided, but the strength is better than the four-and-a-half-step, but it is enough to clean up the general three-and-a-half-step.

The most important thing is that he is invincible!

Soon, Jian Xian was entered into the Golden Lion Dojo.

"The Golden Lion Dojo, the ninth flying star sword is in my hands!"

A violent drink, sounded over the Golden Lion Dojo. At the moment, all the guardians, elders, and Taoist priests of the Golden Lion Dojo appeared.

"The ninth meteor sword?"

The eyes of the Golden Lions were stunned, and they shot directly, preparing to kill the swordsmen and stealing the flying swords.

It is a pity that the sword fairy is an invincible existence, and the attack can not help him.

"Not even dead!"

The Golden Lions can't believe it and try their best.

Rumble!

A burst of loud noise, spread in the Golden Lion Dojo, it is surprising that only the two-and-a-half-step sect of the sword sect, actually resisted all attacks by the Golden Lion.

It's incredible!

"Since you can't kill me, why not sit down and talk?"

Jian Xian split his body and opened his mouth and smiled.

"What do you want to talk about?"

The Golden Lions said with a wink.

"It's very simple, let you contact other people who have the Flying Star Swords, and open the Flying Star Cave. You want this flying star sword, you should have more words, as long as I enter the Flying Star Cave, Then this flying star sword will give you."

Sword fairy said.

"So simple?" The Golden Lion owner is a little unbelievable.

"Of course not, my flying star sword is equivalent to selling to you, I need you to buy with the Tao, as for the flying star sword, wait until you go in and give it to you." Jian Xian turned his head and shook his head.

"What kind of species do you need?" asked the Golden Lion.

"One hundred initial fireworks in the middle of the first condensing, blast species, thundering species, and other types of roads a thousand!" Ye Xuan directly opened the conditions.

When I heard this, the Golden Lions were a bit surprised and asked: "You are already a second-and-a-half-step, do you still need these kinds?"

In the middle of the initial setting, it is possible to give people an enlightenment. However, enlightenment only needs one. Only so many kinds of Tao can only be enlightened by many people at the same time, and cannot be superimposed.

Ye Xuan, what do you want to do with so many kinds?

"This does not require you to worry about it, my request is this, it is your business to pay no trade." Jianxian split.

"Well, I can prepare people for these kinds of things, but I will wait until the door of the Feixing Dongfu to trade again," said the Golden Lion.

"Row!"

Ye Xuan promised, but he still did not say the next half of the sentence, that is, after entering the Flying Star Dongfu, he will report this hatred today.

"If this is the case, then I will inform other people immediately!" After the Golden Lion said, he turned his head and said, "Give him a place to live!"

To say this is the case, in fact, it is to send people to stare at the sword fairy to prevent the sword fairy from escaping.

However, this worry is superfluous.

The reason why Ye Xuan took the initiative to send it to the door was that he didn't want to go to the Flying Star Swords one by one. After all, he just wanted to enter the Flying Star Cave House.

In this way, you will be able to enter soon!

Sure enough, one day, the Golden Lions are organizing good people, and the other seven people are ready.

They have already established a transmission array outside the Flying Star Cave, so they sent the past directly.

Chapter 2020: Flying star cave

Ye Xuan met the other people in the team of the Golden Lion Dojo.

The other seven parties are the dojos with weak strength, no worse than the Golden Lions.

The strongest one is to reach the peak of the six-and-a-half-step road, and only one step can break through to the high-order half-step.

"The Golden Lion, I didn't expect the last piece of the Flying Star Sword to be given to you."

A Taoist came over.

"Before the discussion was good, everyone entered together. The harvest at that time was divided into nine copies, and the Golden Lion Dojo was two copies!" said the Golden Lion.

"no problem!"

Everyone nodded.

Then, they enter the entrance to the Flying Stars, and put the flying swords one by one.

After a while, it was the turn of the ninth meteor sword.

"What you want, in the ring of Qiankun!" The Golden Lion owner lost to Ye Xuan a ring, and the latter, after checking it, lost the flying star sword.

Then, the gate of the Flying Star Cave House was banged and opened.

This Golden Lion owner wanted to kill and win the treasure before, but later saw Ye Xuan, but the realm of the two-and-a-half-step prince, even suffered so many attacks from him and was unharmed, and he understood that the other side was not small.

Therefore, after the opening of the main gate of the Flying Stars, he did not want to go to Ye Xuan again. After all, those kinds of Tao are not of much use to them.

Those species are the relics of some dead half-walking monarchs, and there are still many in the dojo.

Using these to change the flying star swordsmanship is definitely a matter of making a steady profit. After all, if Ye Xuan goes to other dojos, those Taoists will definitely do such a transaction.

At this time, everyone's eyes are also on the open door.

Ye Xuan, who has received a large number of species, has a slight tilt in his mouth. He thought: "So many kinds of things, enough!"

Soon, all eight of these dojos entered the Meteor Cave House, and he followed.

The zenith of this flying star cave house turned out to be a starry sky, but everyone knows that this must be a magical array.

Then, they began to explore Dongfu together, and Ye Xuan, after looking around a circle, began to break through.

"Hey, the phagocytosis is raised to the beginning of the initial setting!"

"Hey, the host broke through to the three-product half-way!"

"Hey, the fire is raised to the late stage!"

"Hey, the thundering seed is raised to the late stage of the initial setting!"

"Hey, the blast is raised to the late stage!"

After Ye Xuan swallowed all the seeds, it was a successful breakthrough.

If only the phagocytosis is upgraded to the early stage of the initial setting, the strength will indeed increase, and all the species will be upgraded to the early stage of the initial setting, and the strength will be increased several times.

After the breakthrough, he will probably be able to merge other types of attacks.

Devouring, fierce fire, thunder, blast, the fusion of four kinds of attacks, is estimated to be enough to threaten the five-and-a-half-step.

By the time he continues to break through and integrate more disciplines, the ability to leapfrog challenges will continue to increase.

"Well, we must act. The sword is the top class in the Jiujiu sacred road, and it may be a Dacheng class. If I swallow it, I will be able to break through again!"

Ye Xuan thought in his heart, just looking for a direction to move forward.

The flying star is a high-order half-step prince, so at least one of the genus is the early stage of Dacheng. If it is obtained by Ye Xuan, although it is impossible to condense a pre-existing cultivar, at least it can condense a small one. To the level of the road?

Ye Xuan's deity wears the sacred \*\*\*\* armor, and shuttles through the Feixing Dongfu. As for the old trees, the black horns and the swordsmen, they are already split.

After a while, they even gathered together, and then looked at the stone monument in front.

"There are a total of nine roads in front, each of which leads to a Meteor Palace. In every Meteor Palace, there is a remnant of a flying star sword. Only those who learn to fly the sword are eligible to enter. The tomb of the flying star Daojun."

Ye Xuan brows a pick.

Flying star sword?

This thing, he is the first time I heard about it.

However, with the talent of Ye Xuan, it is not difficult to understand this. This Feixing Daojun should have used this flying star sword to gather the sword.

Ye Xuan did not think much, and directly entered the first road.

After a while, he came to the first palace. Coincidentally, there was no one inside.

There is indeed a martial art in the palace, and Ye Xuan directly transcribes it.

It's a pity that it's just a piece of debris, so even if it's practiced, you can't use the flying star sword.

Then, Ye Xuan went to the second palace and transcribed it.

The second palace is actually other people in the dojo, but they are all studying the remnants of this flying star sword, and they have no time to take care of him.

In the end, Ye Xuan went all the way to the ninth palace, just in the palace, is the Golden Lion Dojo.

"Hey, the ninth residual copy of the flying star sword is successful!"

"Hey, the host can do the fusion of the pieces, is it going?"

"Yes!"

When the words of Ye Xuan fell, the fairy phagocytic system merged the fragments of the nine flying star swords into a real flying star sword.

It turns out that this flying star sword is the real Taoist, that is, the martial arts at the level of Daojun, not the semi-stepping level.

Then, Ye Xuan directly learned it.

"Hey, the host learned the flying star sword!"

The system prompts.

Now, Ye Xuan can move on.

I am afraid, other people will not think that it hasn't been half a day since entering the Flying Stars, and it is incredible that Ye Xuan has learned the Daoist-level flying swords.

You know, this thing is very difficult for the Golden Lion. I want to learn, I don't know much about the time of the boy.

At this time, Ye Xuan directly ignored the eyes of other people and entered the end of the ninth palace.

"Hey, that kid entered the ninth palace gate!"

"It's really looking for death, and the elders of the ancestors have entered. They have been killed by the sword without three strokes. They have not learned to fly into the sword, but they are looking for a dead end!"

"Not necessarily, the guy can't even talk to the Lord. The background is very unusual, maybe it can be retired."

The people of the Golden Lion Dojo are discussing there.

At this time, Ye Xuan has entered the end of the door and came to a small hall.

In this small hall, there is only one shackle with a sword. There is no other person, but there is a corpse that has been smashed.

"Use the flying star sword to defeat the sword in front of you, before you can advance!"

There was a strange voice in the small hall.

Ye Xuan does not say anything, and sacrifices a sword to kill.

The sword felt that Ye Xuan was ready, and he rushed straight up with the sword.

This strength is only a three-and-a-half-step level, the same as Ye Xuan.

However, here is no way to use other tracks, only than the sword. Moreover, only one person can be entered at a time.
