

Super D. S 2031

Chapter 2031: Giant wood dojo

However, what the giant woodlord did not know was that there was already a person who quietly dive.

The only way to kill those who protect the law is that the sword fairy is separated, and now it is the Ye Xuan deity who wears the evil spirits.

In addition to immune to all energy attacks, the imaginary spirit also has superior defense. In addition, the stealth ability provides Ye Xuan with a lot of convenience.

"The giant wooden road master, the four-character king, is now attracted by the sword fairy, and I don't want to **** your life tree?"

Ye Xuan's mouth is slightly tilted.

This giant tree of life is also connected with other giant trees of life. Therefore, as soon as the sword is inserted, it can absorb the essence of life of the entire giant wood dojo. How can it be a cool word?

However, this is not the time.

After a while, the owner of the giant wooden dojo saw the sword fairy as a bait.

"Hey, dog stuff, dare to come to my giant wooden road field to scatter wild, find death!"

A violent bang sounded, and all the guardians and elders were alarmed.

There are not many people staying in the giant wood dojo. Most of them go out to hunt and sacred the beasts, and then they are caught back. Now, they are attracted to the attention of the giant trojans, which is when Ye Xuan started.

"Hey!"

In a crisp sound, the raw sword was inserted into the giant tree of life and began to madly absorb the essence of life.

This life giant tree connects the entire giant wood dojo, and loses a little life essence, no one will notice.

The raw sword absorbs the essence of life, and then feeds back to the life of the body in Ye Xuan. Ye Xuan's perception of this life is getting deeper and deeper.

"Booming!"

Outside the Judao Road, Jianxian is being handed over to the giant wooden road master.

Do not!

To be precise, it is dominated by the giant wooden road.

The strength of this giant lord is not as weak as the imagination, but it is still much stronger than the average four.

Unfortunately, his attack is not useful for the Jianxian avatar.

"Mix things, see how you can stop me!"

The giant gangster screamed and suddenly wrapped a vine with a vine.

Then, a black scent spread and spread the sword.

See you, Jian Xian split his brow.

This is the breath of death!

"The Taoist has succeeded. From the way of the Deadwood, I realized the way of death. This guy is dead!"

"God, so to speak, the Taoist has now realized the way of life and the way of death. In the future, maybe you can combine these two ways and realize the way of life and death."

"The way of life and death, this is the strongest way that the Daojun level can comprehend."

The group of guardians and elders made an incredible scream.

However, under the package of death, the sword fairy is still no reaction.

"how is this possible?"

The giant wood road master was shocked.

Although he has just realized the road to death, he is already in the late stage of the avenue level. How can he still hurt the other side?

"Hey, just rely on your ability and want to kill me?"

Jian Xian split his body and opened his mouth and smiled.

"court death!"

The giant lord did not believe it and continued to attack.

Under the package of death, even if it is the four-character, I am afraid that it has already fallen. It is really strange that the sword fairy is just like nothing.

At this time.

The face of the giant wooden lord changed, and suddenly he sensed something. He immediately said to the guardian and the elders around him: "Look at him!"

When the voice fell, he turned to the giant tree of life in the center of the giant wood dojo.

This giant tree of life has a connection with him. Now he has lost a lot of essence of life. How could he not feel it?

Don't forget, Ye Xuan not only has raw swords, but also life-like species, which absorbs the essence of life, like a mad dog.

When the giant lord arrived, he saw that there was no one here. He carefully examined it and found the gap that had not yet healed.

"The breath of strangers, who, let me out!"

The giant tree road angered and shouted.

Just, no one responded.

However, the life of his body is already in the early stage of Xiaocheng. For the living, there is a strong sense.

He took a closer look and found a man hidden in the dark!

"call out!"

At the moment, he is raising his hand to launch an attack.

"Good guy, I found out about me!"

Ye Xuan's eyes slammed, letting this attack fall on him and then collapsed.

He has an evil spirit, and he is not afraid of this kind of attack.

"who are you?"

The giant wooden road owner shouted.

"An unnamed junior, just leave!"

Ye Xuan did not say anything, and broke away from the void.

However, he did not go far, but came to the Judao Road.

Suddenly, there was a gust of wind and rain outside the Judao Road.

"Booming!"

There was a loud noise from the outside, and the main color of the giant wooden road changed.

Now, he is not going, not going or not.

What if the guy is gone to **** the essence of life?

But don't go, can those people deal with it?

At the moment, he is to voice the two elders, let them come to guard the giant tree of life, and then kill themselves.

Unexpectedly, the two elders did not respond.

At the same time, the sound of the outside boom finally stopped.

"Solve it?"

Giant Mudao had a glimpse of his eyes, but he felt it wrong when he felt it carefully.

There is no one living outside the Judao Road!

And near him, there is!

"The giant wood road master, we met again!"

A familiar voice sounded, Ye Xuan finally broke the invisibility and appeared in front of the giant wooden road.

However, at this time, his breath is already the second grade.

Before, when the giant tree leader came back, he was actually just a good prince.

However, after his deity slayed out, he used the protection methods of the second-class prince-level as a springboard to break through the second-class prince.

Then, kill the few elders!

So now, only the giant wooden road master is left in the giant wood dojo!

"who are you?"

The main face of the giant wooden road asked gloomily.

"Who am I, I will not bother you, fight!"

When Ye Xuan's voice fell, he was already directly behind the giant wooden road master.

Not only that, but also the sword fairy, the old tree, and the black horn.

kill!

Ye Xuan, who broke through to Erpin Daojun, was not afraid of this giant wooden Taoist master, because he knew that this giant wooden Taoist master realized the road of the dead wood, the way of life and the way of death, and could not break the sacred spirit. Those roads, so it is not harmful to him.

Not only that, but as long as he kills the giant lord, he will be able to get the kind of death, and the strength will be able to advance by leaps and bounds.

"The eye of assassination!"

"Nine-heavy tiantianyan!"

"Swallow the dragon roar!"

Ye Xuan and others, the bottom of the board, the battle is very intense.

Despite the fact that the giant wooden lords who understood the road to death could not afford to fight like this, he would be defeated in less than half a minute.

Chapter 2032: Fusion

"go!"

The main face of the giant wooden road changed greatly and swept away toward the sky.

Unfortunately, not many people have escaped from Ye Xuan's hands.

In the end, he was killed by Ye Xuan and others because of the depletion of the Holy Power.

The Tao needs to be driven by the Holy Spirit to be used, and the victory is exhausted. Then the fighting power of the giant wooden Taoist lord is ten.

"Hey, the host's killing value is improved!"

When the system prompts the sound, the body of the giant wood road owner has been collected by Ye Xuan.

"Hey, the host devours a dead species!"

In Ye Xuan's body, there is another death road.

Now, he has several kinds of species, and he has not been swallowed by the phagocytosis. They are the species of fire, dead, life, thunder, blast, and deadwood.

It is said that this road of decaying wood is a relatively rare one. Although the ranking is not comparable to the way of life and the way of death, it is not bad.

However, it is at this time.

“Hey, life can be mixed with the species of death!”

“Hey, there is no material, no integration!”

Suddenly two system prompts, causing Ye Xuan's attention.

"The life of the species, can be combined with the death of the species, what is the situation?"

Ye Xuan was a bit strange, and quickly searched the soul.

It turns out that people who have the species of life and the species of death can use this to comprehend the species of life and death. This is the strongest way to comprehend.

Others rely on comprehension, and Ye Xuan, relying on integration!

"Lack of materials, red gold species, black ice species, red flames, and turf species!"

Ye Xuan eyes a glimpse.

If you want to combine life and death, the missing is the five elements.

The Five Elements is more common, such as the Ice Road, the Fire Way, and they can also extend other ways, such as the Black Ice Road, the Red Flame Road.

It is just that one of the materials is the dead wood of the giant wood road.

“It turns out that it is necessary to balance the five elements.”

Ye Xuan suddenly understood.

However, at present, he only has one species of deadwood, so he has to find another four species.

But before that, I still absorbed the essence of the life of the entire giant wood dojo.

At the moment, he is piercing the sword into the giant tree of life and begins to absorb the essence of life.

This process lasted for more than a day.

Unfortunately, these life essences were just absorbed by the giant woods a year ago, so it is not as much as imagined. Otherwise, Ye Xuan can break through to San Pindao.

Starting today, there is no giant wooden dojo in the Four Heavens!

After the extinction of the giant wood road, Ye Xuan left directly, and then began to investigate the four materials.

"The Lord of the Monkey City, with rare red gold species!"

This is the news that Ye Xuan heard.

Coincidentally, he was heard in the Monkey City.

The owner of this monkey city is also a four-grade king, and there is little threat to Ye Xuan.

Its strength may be weaker than that of the giant wooden road, because he understands the Chijin Road species, mainly in defense.

Ye Xuan rushed to the main house of the Monkey City, and then rushed in after the meal.

"Where is the mouse generation, dare to be good at the city government?"

The master of the city's main government immediately jumped into the sky.

But in the next moment, they were smothered by a sword.

Ye Xuan felt it and found that the atmosphere of the giant wooden lord was swept away.

At this time, the Lord of the Monkey City has also discovered Ye Xuan.

"What are you doing?" asked the owner of the Monkey City.

"Look for you, borrow one thing!" Ye Xuan said directly.

"What?" The Lord of the Monkey City is a bit strange.

Ye Xuan brows one pick, said: "Your, red gold road!"

When the voice fell, he was shot again.

"Looking for death!" The King of the Monkey City suddenly reacted.

If you want his red gold, do you want to kill him?

Suddenly, the two sides began to fight.

Because it is uninvited, Ye Xuan and the other party have no deep hatred, so Ye Xuan is holding hands this time.

After spending some time, he was severely wounded by the owner of the sacred monkey city, which was planted in the Red Golden Way. It was the double devour of the black horn and the old tree, and the singer and the other people were swallowed up in the swallowing space.

With the realm of Erpin Daojun, it is still possible to suppress the four-character monarch by swallowing space.

Before the devour space was damaged, it was because Ye Xuan was just the invincible Tianjun's realm, but he went to take a half-step, and he was a little self-sufficient.

After this group of people was accepted, Ye Xuan used the Xian phagocytic system to forcefully strip out the seeds in their bodies.

In this way, these people will not die, Ye Xuan is considered to be merciful.

"Chijin Road is planted, and there are still black ice road species, red flame road species and violent soil species..."

Ye Xuan thought of it, did not leave immediately, and then let the black horn and the tree old, the entire Ling monkey city will be collected.

After receiving the engulfing space, Ye Xuan heard another system prompt.

"Hey, the sixth ring of the Zongmen chain task is completed, rewarding three points to swallow!"

This time the reward is really good, Ye Xuan directly got a three-point swallowing point.

However, the seventh ring of the Zongmen chain task is a bit pitacle, that is to find an eight-star qualified disciple, and the realm is to be a life and death.

Just kidding, Ye Xuan is not going to life and death now, how can I find this realm?

Therefore, this task was directly ignored by Ye Xuan, and will be discussed later.

Then, he will search the souls of those who have been collected to see if there are three other kinds of news.

This check is really true!

This news is a kind of violent land, so he immediately acted.

In the following period of time, Ye Xuan is constantly rushing, and occasionally passing through the city, the entire pool will be taken into the swallow space.

However, the genius of the eight-star qualification is too small, but it is impossible to meet, so Ye Xuan is calm.

On the way to find three kinds of materials, his realm finally broke through to San Pindao.

At the same time, the five elements of the five-way road were collected.

Now, only one kind of black ice is planted.

"It is said that there is a black ice abyss, there is a black ice road king, he is a black ice road. But he is the realm of the seven-character king, I want to get his kind, I am afraid there is no such easily."

Ye Xuan thought in his heart.

Let him break through to San Pindao, it is a kind of devour, so his current strength is not bad.

In the face of Qi Pindao, he is emboldened, but he does not have the confidence of 10%.

"Let's go see it first."

Ye Xuan began to hurry again, and a few days later, he came to the black ice abyss.

Chapter 2033: Life and death

The black ice abyss is actually a dark ice-cold land surrounded by black ice crystals, which exudes a black atmosphere all the time. If people encounter it, if they don't have the ability, they will be eroded.

Ye Xuan is wearing a virtual spirit, but it is immune to these breaths, but in order to prevent it, he still let the sword fairy go out to explore the road.

It is said that there are still a few apprentices under the black ice road. If these people also condense the black ice road, then Ye Xuan does not need to shoot the black ice road.

The name of the Black Ice Abyss is still louder in this area. Many people will choose to enter the experience, because there will be a kind of black ice grass inside, which is of great value.

Along the way, Ye Xuan encountered a lot of people, needless to say, these people have been received by him to swallow the space, one does not fall.

However, just the second day of Ye Xuan entering the black ice abyss.

"Roar!"

Suddenly a roar, falling into Ye Xuan's ear, he looked up and saw a black dragon plucking into the sky.

"This is the black ice dragon!"

Ye Xuan brows a pick, it is said that this black ice dragon is made by the black ice road Jun, responsible for blocking those outsiders.

This shows that Ye Xuan has come to the edge, and if he approaches it, he will be attacked by the Black Ice Dragon.

Do not!

This black ice dragon, who went straight to Ye Xuan, Ye Xuan has entered his attack range.

"It's just right!"

Ye Xuan drank a word and directly summoned the old three trees.

This realm is respected by human beings, and other creatures have to stand by.

What is a black ice dragon in the district?

Ye Xuan's phagocytic species is already in the late stage of the avenue level, and then merged with other roads, the attack power is not small.

What surprised him was that his attack did not even hurt this black ice dragon.

"At least six grades!"

Ye Xuan's face sinks and quickly avoids the attack of the Black Ice Dragon.

However, it was at this time that Ye Xuan saw a black ice dragon in the body of this black ice dragon.

"It's really coming to the door!"

Ye Xuan's mouth is slightly tilted, and that a black ice road is planted in the black ice road. It is no wonder that this black ice dragon is so strong that it is the core of the black ice.

This means that if Ye Xuan kills him, then the five elements will be able to gather.

At the moment, he just took out the dead sword, flashed to the back of the black ice dragon, and then stabbed.

"Hey!"

Dead swords can only be submerged in three points. This is still due to the power of swallowing and the effect of death, otherwise it will not be broken.

"Roar!"

The black ice dragon roared in the sky, and one turned over and killed at Ye Xuan.

Ye Xuan did not take the dead sword back, but quickly invisible.

In the face of such a beast, he still has to be careful. After all, this black ice dragon is good at physical attacks. If he is bitten or caught by him, Ye Xuan does not know whether the virtual spirit is working.

"Sword fairy is separated and killed in it!"

Ye Xuan immediately ordered.

Just right, the black ice dragon opened his mouth and went to the sword fairy to kill him. Then, Jian Xian was voluntarily rushed in.

As for the black horns and the old trees, they all tried their best, but what was surprising was that after the black ice dragon was injured, the melted black water droplets could be regrouped.

In other words, it has resilience!

"I don't believe it, see me kill you!"

Ye Xuan and Jian Xian should be combined in the body, double attack, as long as it can trigger a one-shot kill effect, then this black ice dragon will instantly collapse.

It just doesn't seem so easy!

In desperation, Ye Xuan had to show his tricks.

Swordsman is coming!

A sword flying fairy!

His whole person turned into a streamer, and he held a blow and stabbed the sword on the black ice dragon. However, this sword has no use.

Although he has used the state of killing, the Holy Power and physical fitness have greatly improved, but this black ice dragon is the product of the Tao.

If you want to compete with the road, even if you increase it ten times, you are not qualified!

"If you don't kill you, I won't name it!"

Ye Xuan's light flashes and uses time-lapse skills directly, once again.

He didn't believe it, he couldn't kill this black ice dragon.

A sword flying fairy is not successful, then ten times, twenty times, fifty times, or even one hundred times.

For this kind of black ice, he also has a bloody!

Soon, he sneaked into it again, and then cast a sword on the black ice dragon.

Unfortunately, it failed again!

"Come back!"

Ye Xuan once again used the time-lapse skills to return to the past.

Repeating it over and over again, it is really possible that he will encounter that tiny chance.

Finally, after he repeated more than 30 times, he encountered a dog.

"Hey!"

A crisp sound spread.

I saw that the ice crystal layer of this black ice dragon began to fall, and then the black ice species in the body appeared.

"I finally killed you!"

Ye Xuan's light flashed, and he quickly took the black ice.

"Hey, the host has put together a fusion of materials, whether to integrate the life and the dead species?"

"Yes!"

Ye Xuan should have a sentence.

"Hey, the integration is successful, the host gets the life and death!"

The system prompts.

Hearing this, Ye Xuan's eyes lit up and quickly swallowed this black and white.

Life and death, become!

The half-steps of Jun, Daojun, and the three kingdoms of life and death are not to say that only by condensing the life and death, you can break through to the birth and death.

However, the species of life and death is the most powerful one in the current three realms that can be realized.

Ye Xuan feels that at this time, he should be able to clean up a black ice dragon.

However, it was at this time.

"Well? Heaven and earth change?"

Ye Xuan's brow picks and feels the changes in the surrounding environment.

The next moment, he saw the ground breaking, and then the figure was pulled out from the ground.

These figures, some bones, ice bodies and corpses, but without exception, they actually came alive.

Ye Xuan blended the life and death of the species, and even let the dead in this area resurrected.

Even those bones, even began to grow out of meat for no reason.

"What happened, am I not dead?"

"Day, I am married."

"Roar!"

These people or beasts are incredibly watching.

However, even if they are resurrected, their strength is very weak, because the Tao will not re-aggregate.

"Give me in whatever you are!"

Ye Xuan said nothing, let out the black horns and the old trees, and swallow the surrounding people to swallow the space.

However, the movement here has also attracted the attention of some people in the depths of the Black Ice Depth.

Not waiting for Ye Xuan to leave, there are several people who have swept over.

And, a black ice dragon!

Chapter 2034: Black ice road

"Three five-character kings, a black ice dragon with six grades."

Ye Xuan's eyes glimpsed. Now he combines the strongest roads that the current realm can comprehend. He is trying to try his hand.

"The vision of heaven and earth is just a kind of vision of a kind of life and death. Now it is a person, is it him?"

The young man in the black dress shimmered and quickly wrapped Ye Xuan into it.

At this time, there are still a steady stream of people from the ground, but a few people apparently feel that Ye Xuan and these people are not a group.

"Is it you, a kind of life and death?" asked the young man.

"Yes, envy?" Ye Xuan smiled slightly.

I thought that Ye Xuan would not know what to do, but I did not expect to directly admit it.

After hearing this answer, a greedy color flashed in the eyes of the young man.

A kind of life and death, but it is very precious, even if it is a master of life and death, it may not be able to get it.

Unexpectedly, they actually saw one!

As long as they kill Ye Xuan, they will make a fortune. Even if they don't sell, their enlightenment is also excellent.

Just, is it so easy?

"Up, take him down, bring it back to the master to deal with!"

The young man immediately shouted.

They are all five-character kings, Ye Xuan is only a three-character king, but at the foot of Ye Xuan is the attack range of the black ice dragon, able to walk here safely, certainly not the general Sanpindao.

"court death!"

Ye Xuan put away that smiley smile and quickly shot.

In the blink of an eye, he and the sword fairy are directly killing one person.

"what?"

The young man was shocked. At the next moment, Ye Xuan flashed to his back and then smashed out.

"Oh!"

A fragile sound spread, and the young man's back was shot, and it immediately turned into a fly ash.

The species of life and death is a fusion of the species of life and the species of death. The power of death is also enhanced by a large margin, so one strike can kill each other.

This is not the point. The point is that Ye Xuan Fang did not use the dead sword. Now he does not need this.

“Hey!” “Hey!” “Hey!”

At this time, the road was crisp and loud, and the second black ice dragon was also killed by Ye Xuan and Jian Xian.

Another black ice road!

However, this is no longer useful for Ye Xuan, so it is directly swallowed up by the phagocytosis.

However, just as Ye Xuan was about to leave, the sky swept a figure.

This person is an old man in black.

"Black Ice Road?"

Ye Xuan's eyes glimpsed and he looked at each other and arrived.

"A few of my disciples have died, and they have also lost two black ice dragons. Is that what you do?"

Black Ice Road Jun looked at Ye Xuan Road.

"Exactly!"

Ye Xuan nodded.

"If that's the case, then you should die!" Black Ice Road suddenly shot.

In fact, he also knows that Ye Xuan has a life and death in the body, so he wants to kill and win.

"I am afraid that you are not qualified enough!"

Ye Xuan's mouth is slightly tilted, and the next moment, the breath is crazy.

Sanpin Daojun, directly broke into the four-character king!

"dead!"

Ye Xuan and Jian Xian were separated, and they instantly flashed behind the black ice road, and the sword fell.

Hey!

The black ice road Jun did not react, and there was a sword in it, and the death breath spread instantly.

"not good!"

His face changed, the light flashed, and the back piece turned directly into black ice crystals.

Black ice can make his whole body black ice, except the heart and brain.

After the piece of black ice condensed meat broke away from his body, he instantly repaired the injury.

"Yes, some can bear!"

Ye Xuan nodded slightly.

The power of swallowing and the power of death make his attack very powerful. If the sword is in the head of Black Ice Road, I am afraid he will be dead.

However, at this time, the body of Black Ice Dao suddenly began to grow, and in the blink of an eye turned into a black ice giant.

This black ice giant is a black ice prince, and its strength is ten times stronger than the black ice dragon.

However, this has instead achieved Ye Xuan.

"The eye of assassination!"

Ye Xuan and Jian Xian are separated, and they start a crazy attack. The combination of the power of engulfing and the power of death can instantly break a layer of black ice defense.

These black ice defenses, although they are condensed with black ice, need the support of the Holy Power. As long as the Holy Power is exhausted, it is his death.

"Boom!" "Boom!" "Boom!"

A burst of loud noise spread, the black ice giant's attack power is not weak, the entire black ice abyss seems to be shaking.

However, to maintain such a **** ice giant, the Holy Power is probably to consume a lot.

Sure enough, in less than half a minute, the Black Ice Giant was a small one, and Ye Xuan was not injured by the other party.

"Damn!"

The black ice road has changed its face, and even gave up attacking Ye Xuan, heading for the deep depths of the Black Ice.

"Installed, still want to run?"

Ye Xuan brows one pick, while keeping up, attacking.

When the Black Ice Road returned to the Black Ice Depth, his body shape was a small one.

However, Ye Xuan finally understood what he was going to do when he returned to the depths.

It turned out that there is a transmission array there!

Black Ice Road Jun, is to help!

"Hugh think!"

Ye Xuan quickly took out a few swords and was ready to break the battle. It was not so easy.

If this is the case, then before the other party's support, the black ice road will be killed.

"dead!"

Ye Xuan began to attack wildly. In less than three seconds, the entire Black Ice Giant was a little smaller.

"call out!"

At this time, suddenly a sword smashed away and landed on the back of the Black Ice Giant.

The next moment, this layer of black ice armor of Black Ice Road Jun is an instant collapse.

One hit kill!

It actually triggered a hit and kill effect!

Ye Xuan did not expect that luck was so good, triggering two hits and killing effects within one day.

When the black ice road Jun did not react, Ye Xuan directly killed him behind his back.

"Flying star swords, nine stars chain!"

"stop!"

"Puff puff!"

A series of nine muffled sounds spread, and the head of the black ice road was directly shot into a sieve.

Then, Ye Xuan quickly collected the body of Black Ice Road Jun and then stared at it.

I saw that there is already an old man who came here through the transmission array.

This breath, at least eight Pindao, even Jiu Pindao!

"Still!"

The old man roared, directly directed at Ye Xuan, the speed is fast, even Ye Xuan can not hide.

"puff!"

The attack fell on the sacred god, and was instantly shaken. Ye Xuan was unharmed.

"I am Ye Xuan, never looking for death!"

Ye Xuan said coldly, it was directly flashed behind the other side, but the speed of the other party exceeded him too much, and he avoided it in the blink of an eye, and then punched Ye Xuan.

Chapter 2035: Devouring the beast!

"Hey!"

The imaginary spirit armor was beaten for the first time, and Ye Xuan also took great strength and flew out.

However, the wounds of the evil spirits and Ye Xuan were also repaired by the blood of the undead.

"Today, I triggered two hits and one kill effect at one time. I am sure I can trigger the third time. I don't believe you can't kill you!"

Ye Xuan thought in his heart and shot again.

However, this person is the master of Jiu Pindao, not at all his current power.

Within three seconds, he killed the black horn and the old tree nearly ten times. Ye Xuan was also severely injured several times.

It seems that they are currently unable to pose a threat to this old man.

"go!"

Ye Xuan glimmered and immediately separated from Jian Xian.

The old man turned his head and finally decided to pursue Ye Xuan. However, Ye Xuan had another means, that is, he could change position with Jian Xian.

Then, break the void and leave this black ice abyss!

"I don't believe you can catch up with me!"

Ye Xuan looked at the scarlet word of the sky, and left the eyes of the void.

Even if the old man left a mark on his body and wanted to chase it, I am afraid it will take several days.

"Let me see, your identity!"

Ye Xuan immediately let Megatron search the soul of the Black Ice Road Jun. The next moment, he knows the identity of the old man.

"It turned out to be the father of Black Ice Road Jun, Liu Jia's main Liu Feng."

Ye Xuan's eyes glimpsed. If this is the case, then he would rather kill Liu Jia directly. As long as he breaks through again, he should be able to fight this guy.

At the moment, he once again broke the void, let the sword fairy split to attract the attention of the other party, and then the deity took the opportunity to act.

It is a pity that the other party left a mark on his deity. Because the sword fairy was invincible, the other party could not leave a mark, so the sword was separated.

The old man succumbed to Ye Xuan, and the sword singer was separated from him as he left, passing directly to the Liu family through the transmission array.

Suddenly, a hurricane and **** rain fell asleep!

Liu's family also has several masters of eight styles, and more than a dozen seven-character kings, but the sword fairy is an invincible existence, one person is enough to single out the entire Liu family.

"What, killing my Liu family?"

Liu Feng was shocked and turned around immediately.

He received a message that there was a mysterious master who singled out the entire Liu family. Many people have died, and the entire Liu family cannot help each other.

Unfortunately, when he returned to the black ice abyss, he found that the transmission array was destroyed.

And it is the black horns and the old trees that ruin this transmission array.

Liu Feng was furious and bombarded the black horn and the tree, then plunged toward the north.

It takes some time to get to the Liu family from the black ice abyss. It takes at least two days at his speed.

This time is a small meaning for him, but don't forget, Jian Xian is still in Liujia.

Two days of continuous fighting, enough to turn the Liu family upside down.

What's more, Ye Xuan has also used the method of splitting the position and appeared in the Liu family.

This battle lasted for a short period of time. Ye Xuan first used the stealth effect and the assassination of the virtual spirit to kill the Liu family with low realm.

"Hey, the host breaks through, and it's currently a five-character king!"

After Ye Xuan swallowed the seeds of those people, he finally broke through to Wu Pindao.

Not only that, after his breakthrough, the old tree, the black horn and the sword fairy have also reached this level.

Now, they are already posing a threat to those eight styles.

However, these people will stay in the end and then clean up, first solve the eight people and the following people.

Within half a minute, Liu Jia only had three big eight sects, and the rest were all annihilated by Ye Xuan.

Then, the three did not last long, they also died in the hands of Ye Xuan, and then the entire Liu family did not have the master against Ye Xuan, was received in the entire swallow space.

Now, Ye Xuan is waiting for the Liu Feng to come back.

Liu Feng struggled to make his way, and he could not reach the people on the road, which made him feel anxious.

However, when he came back, he found that the Liu family had disappeared.

At this point, several figures were waiting for him in the air.

"What did you do?" Liu Feng looked at Ye Xuan, cold and cold.

"Yes, as long as you kill me, then you know where they are."

Ye Xuan nodded.

"If this is the case, then you will die!" Liu Feng said nothing, directly shot.

Before his son, the Black Ice Road Jun had already sent him a message, saying that Ye Xuan had a life and death in his body.

If he gets this kind of life and death, then the dead family will be resurrected.

In addition, his combat effectiveness is also multiplied, and when he breaks through to life and death, the strength is not comparable to that of his peers.

"Booming!"

Suddenly, there was a loud noise in the air, and the battle between the two sides was very intense.

As the strongest of the Liu family, Liu Feng's strength is indeed very strong, and it's already half a foot into the life and death.

However, he is stronger, but also Hao Xuan.

Ye Xuan, who condenses the species of life and death, even if it is Liu Feng, does not dare to take the attack easily, and can only avoid it quickly.

The key point of this battle is still the Holy Power. There is no blood in the Liu Feng body, and there is no Ye Xuan lasting.

After a minute, Shengli almost bottomed out. After all, he had to bear the siege of Ye Xuan.

"Dead!"

At this time, Ye Xuan's glimmer of light flashed directly from the sword and landed on the back of Liu Feng.

Despite the strength of Liu Feng, he could not stop the death of the dead and the dead, and the back showed a white bone.

Then, the old trees, the black horns and the swordsmen were separated and the bottom cards were layered, and Liu Feng was directly killed.

"Hey, the host's killing value is improved!"

After Liu Feng's death, Ye Xuan's mind sounded a system sound.

Ye Xuan quickly passed, and collected the body of Liu Feng, and refining the road.

"Hey, the host breaks through, and is currently the Sixth Road King!"

Before Ye Xuan swallowed up a lot of species, and now I get the three varieties of Liu Feng's later stage, and then directly broke through.

He estimated that he would soon be able to break through to Qi Pindao!

Now Ye Xuan has become a habit. Anyone who has taken away his body will let Megatron conduct a soul search. Maybe he can get any interesting news.

At the moment, he is searching for the soul of Liu Feng's body.

This search made him startled.

"Liu Feng, have you ever encountered a swallowing beast?"

Ye Xuan brows a pick.

In the memory of Liu Feng, he saw a swallowing beast with a swallowing mark.

It seems that this is an extra bonus!

However, the strength of the swallowing beast is stronger than that of the Liu Pinjun level, so it is estimated to be the level of life and death.

No matter what, Ye Xuan has to go!

Chapter 2036: God level phagocytic system

"go!"

At the moment, Ye Xuan is directly starting to hurry.

Liu Feng was the one that swallowed in a lake in the north. At that time, he was only passing by, and then he fought with the swallowing beast, and he was seriously injured and fled.

Ye Xuan spent more than a month to drive the road. After more than a month, it finally came to the lake where Liu Feng saw the swallowing beast.

Then, Ye Xuan quickly let the sword fairy go to check it out.

Sure enough, at the point of this lake, there is a devourer, a big cockroach.

After seeing this big cockroach with a swallowing mark, Swordsman immediately launched an attack.

However, even if there is a kind of life and death, the attack of Jian Xian's avatar would not hurt this big cockroach, but it would have angered it.

Daxie directly opened the mouth of the blood basin, stupidly split the sword fairy into the belly, this behavior is completely looking for death.

If the general sacred beast is swallowed up by the big cockroach, I am afraid it will be digested soon.

However, the sword fairy is an invincible existence, and the digestive juice has no effect on him. Instead, the sword fairy has a chance to be awkward.

This scale that devours the big cockroaches is very strong, and even the wind of the willows can't be broken, but the body is relatively fragile.

The sword fairy split in the inside and attacked madly. After a while, this devour of the big cockroach was blasted out of several big holes, and the blood stained the whole lake.

Ye Xuan smelled the **** smell of the nose, and the corner of his mouth tilted slightly.

This time, it's really good, and I've earned a bit of swallowing point!

"hiss!"

Suddenly a sharp squeak spread, and this devour of the big cockerel screamed and slammed down.

died!

Then, Jian Xian quickly distracted his body and swallowed it.

"Hey, the host swallowed a super-swallowing corpse, rewarding a source of devouring!"

This system sounds and sounds in Ye Xuan's mind.

After hearing it, Ye Xuan was paralyzed.

Super, swallowing beasts?

Before he had encountered subordinate swallowing beasts, he also cultivated intermediate swallowing beasts.

However, now he actually encountered a super swallowing beast.

Moreover, the reward is not the point of devouring, but the source of engulfment.

This time, the bulls are making a big deal!

"The trough, the first source of engulfing, has upgraded the phagocytic system to a super-phagocytic system. The second source of engulfing has upgraded the super-phagocytic system into a scented phagocytic system. Now one more, isn't it..."

Thinking of this, Ye Xuan's eyes are bright.

At this time, the system prompts again: "Hey, the fairy phagocytic system can be upgraded, is it going?"

"Yes!"

Ye Xuan did not say anything, he answered.

Just kidding, I got a source of devouring in vain, can I not upgrade?

“Hey, the Xian-level phagocytic system is starting to upgrade, and the major systems are temporarily closed!”

The system prompts.

Closed and closed, Ye Xuan now has no deep hatred and hate, and can't take a break.

Next, he is resting near here. If you don't know the system after the upgrade, there will be more new tricks.

This upgrade, it took more than a month, more than a month later.

“Hey, the Xian phagocytic system has been successfully upgraded to a **** level phagocytic system!”

When this system prompted the sound to come, Ye Xuan also woke up from his sleep.

System upgrade, finally finished!

Before he can look at the upgraded God-level phagocytic system, the system will be systematically:

“Hey, the system upgrade is successful, rewarding two blood fusions, is it going immediately?”

"Is blood fusion?"

Hearing this, Ye Xuan's eyes are slightly stunned. According to previous experience, blood fusion is the fusion of fighting blood, physical blood and auxiliary blood, and merge into a blood.

He now has six blood vessels in his body, so he can fuse twice!

This is the key to quickly improve your strength!

"Yes!"

Ye Xuan immediately answered.

"Hey, start to integrate blood!"

"Hey, the blood is merged successfully, the host gets the blood of the sword god, the blood of the **** of war!"

The blood is merged quickly and it is completed in the blink of an eye!

"The blood of the sword god, the blood of the **** of war?"

Ye Xuan brows a pick.

The blood of the sword **** reminds him of the blood of the sword **** when he was in the mortal world. However, after the blood of the sword **** at that time, there is also a virtual word, which is the blood level of the virtual god.

And now the blood of this sword **** is the true blood of the sword god!

No, it is not really the blood of the sword god!

Ye Xuan noticed that after the blood of this sword god, there was even a note.

"Half-level blood?"

Ye Xuan, a quick look, found that the blood of the **** of war is also semi-god.

"Hey, the current realm of the host is Liu Pindao, and the requirement to fully open the blood is the host's proof!"

The system prompts.

"To prove my position, is that to make me a god?"

Ye Xuan suddenly understood that only by becoming a god, then the blood can be fully opened.

After the blood of the sword **** is completely opened, it is called the blood of the unparalleled sword god. After the blood of the **** of war is fully opened, it is called the supreme war god.

But now, the two blood vessels are only not fully open, so it is only semi-god.

Ye Xuan does not care so much, and quickly merged the two blood.

"Hey, the blood of the sword **** is successful!"

"Hey, the God of War is a successful blood fusion!"

The system prompts again.

"The blood of this sword **** is made up of the blood of Jianxian, the blood of the beast and the blood of the beast, and the blood of the time and space. The blood of the **** of war is made up of the blood of the immortal, the blood of the immortal unicorn and the blood of the undead."

Ye Xuan took a look at the ability of these two blood vessels, suddenly shocked.

Too strong!

Although it is not fully open, there are still some capabilities that have not been revealed, but the current capabilities are already enough.

There are three advanced routes for the blood of the sword god.

The first advanced route is called the kendo of God, the second advanced route is called the body of the sword god, and the third advanced route is called the sword servant.

The kendo of the gods has absolute understanding of the sword and absolute control, in addition to two skills.

The first skill Shen Jian, after the exhibition, can condense a broken Shen Shen sword, if anyone is smashed by this sword, then no matter who is will be spiked.

Not to mention the other, this one is only a sacred sword, it is terrible, because this is a real hit!

However, the cooldown of this magical skill requires a large number of swords to recover, similar to the previous Kirin.

The second skill is called the burst of the sword. Within a certain range, Ye Xuan can make the enemy's sword explode and hit the enemy.

The above is the ability of the martial art road of God.

Then, the second advanced course of the sword god, can suppress the strength of the 30% of the non-swordsmen around the sword, as well as the strength of the sword repair.

To put it simply, if you don't take the sword, you will be suppressed by 30%. If you take the sword, you will be suppressed.

Chapter 2037: Quadruple blood holder

In addition, the body of the sword **** can also reduce 30% of the sword wounds, but those swordsmanship damage, there is no way, but Ye Xuan has a virtual spirit, but it can make up for this shortcoming.

The third advanced route of the sword **** blood is the sword service, which can summon the sword waiter to assist the battle. At present, there is no sword service, but there is a sword god, which is the former sword fairy.

If you can get the specified things, you can continue to open the sword waiter, for example, the undead sword waiter, the beast sword waiter, the shadowless sword waiter and so on.

Although other swordsmen will die in addition to the undead swordsman, as long as the cooling time is over, they can be summoned again, and there is no limit to the number of swordsmen that can be summoned each time. Ye Xuan can summon them all.

The most important thing is that every swordsman has its own characteristics. As long as it is turned on, Ye Xuan can get unexpected abilities.

For example, if you don't die, you can let Ye Xuan have the ability to resurrect.

Simply put, each sword has its own characteristics. Once opened, Ye Xuan can get some abilities.

After Ye Xuan read the three advanced routes of the sword **** blood, it was already shocked to say nothing.

Not yet fully open, it is so powerful, if it is completely open, what would it be so strong?

However, let Ye Xuan have some helplessness. The blood of the sword **** is the product of the blood of the sword fairy, the blood of the beast and the blood of the beast, and the blood of the time and space. The advanced course of the blood of the beast and the blood of the time and space, in this sword **** It seems that the blood is not very prominent.

It is not covered by the blood of the sword, it is not yet open.

"There is no time, and the time is not controlled. It seems that I can't read the file again in the future."

Ye Xuan said secretly.

However, the blood of this sword **** is already very powerful, after all, it is only a semi-god.

Then, Ye Xuan continued to watch the blood of the **** of war.

The blood of the **** of war is made up of the blood of the immortals, the blood of the celestial unicorns, and the blood of the undead.

This bloodline also has three advanced routes.

The God of War is an advanced route with three effects.

First, the **** of war, greatly improved physical fitness, but also has the effect of undead phoenix blood, can recover the injury infinitely.

Second, **** world, as long as there is a injury, then you can improve your strength, the more serious the injury, then the higher the increase.

This effect can be combined with super recovery, as long as the super recovery is suppressed, the injury will not be restored.

This is the two effects of the first advanced route of the God of War.

Then, it is the second advanced route, the God of War mount, which is able to summon a beast mount to help fight.

The third advanced route is called the Ares field.

This is also a skill. Once the field of God of War is unfolded, you can force a person to wrap and fight one-on-one with Ye Xuan.

In this field, Ye Xuan's strength will be improved, as long as he can overcome the other side, then the strength can be maintained for a while.

However, if Ye Xuan is defeated, his strength will be permanently reduced by 10%.

This is the effect of the blood of the **** of war, although a lot less than before, but for Ye Xuan, the strength is improved.

You must know that these two blood vessels are not fully turned on. If they are fully turned on, they will definitely be more cattle.

"The blood of the sword god, the blood of the **** of war, although they are only semi-god-level, but let my strength improve a lot, now I, may have the strength to kill the life and death."

Ye Xuan said secretly.

There is still a huge gap between Daojun and the life and death princes. Ye Xuan is not a six-character prince. It is good to have this confidence.

At this point, he most hopes to find a life and death king to fight once.

However, at this time, he found another point.

The half-god bloodline column has only two, and can not be purchased, which means that he can only integrate two blood vessels in the future.

"No matter what, this bloodline bar may be hidden like those systems, and it will only be turned on at certain times."

Thinking of this, Ye Xuan remembered the door system. Is this system not only opened at the end?

However, it is at this time.

"Hey, the system has created a blood holder, has four blood, kills the blood holder, and the host will be rewarded!"

Suddenly a system prompt sounded in Ye Xuan's mind.

Blood holder?

Hearing this, Ye Xuan's eyes glimpsed, this guy, it's really time to come.

He just wanted to find someone to play with, and the system gave him one, which is not bad.

Although the six blood vessels are merged into two, there are actually some skills that the system has retained.

For example, death killing orders, assassination eyes, insightful eyes, and so on.

Ye Xuan did not know where the blood vein holder was, so he directly sacrificed the dead sword, and then summoned the sword **** and the black horns and the old trees to arm around.

Now, Ye Xuan actually has two avatars, one deity. Before his three-fold combination, after the blood is merged, he is forced to merge into one, that is, the deity.

As for the other two avatars, one in the mortal world and one in the double heaven.

So, at the moment, he can't separate again!

This point makes him a little regretful. He knew that he would split the detachment first, so that he could have two more avatars.

Fortunately, in the mortal world and in the double heaven, he still has a **** of war, so don't be afraid.

He was in the same place and waited for a while.

A few days later, there was a breath coming, and this breath was the level of Jiu Pin Dao.

"Is that you?"

A young man looked at Ye Xuan and blinked.

"You are looking for me?"

Ye Xuan asked.

Unexpectedly, this young man shot directly.

He is the system-generated four blood vein holders. These four blood vessels are the blood of the immortal unicorn, the blood of the undead, the blood of the imperial god, and the blood of the immortal.

Therefore, his way of fire is terrible.

However, this is not useful for Ye Xuan.

"Hey!"

The flames of the sword smashed on the sacred gods, and suddenly disappeared.

At the same time, the sword **** has been swiftly killed behind the other side.

However, it is only the sword **** of Liu Pindao, the combat power is still somewhat inadequate, although the other side is Jian Xiu, has been printed by the sword to suppress the strength of 10%.

"Hey!"

The sword of the sword **** is blocked by the flame of the blood holder.

"roll!"

The young man immediately turned around and took a sword toward the sword god. The latter also made a quick move.

But it is at this time.

"Hey!"

A brittle sound suddenly spread, and the peasant in the hands of the young man burst directly, and the broken blade instantly shook open and marked a lot of wounds on him.

This trick was mastered after Ye Xuan merged with the blood of the sword god, called the burst of the sword.

The young man did not expect this, was injured, and even the attack did not occur, but was sent to the shackles by the sword god, and flew out.

"Small, do you dare to fight with me?"

Ye Xuan's mouth was slightly tilted, a relaxed look.

Chapter 2038: Spike!

"you wanna die!"

The youth was furious and suddenly fought fiercely with the sword god.

But before I played for a while, Black Point and the tree always joined in.

"Do you want to bully less, Kirin and the army!" The youth screamed, and the Holy Power in the body began to surge.

The next moment, there were hundreds of unicorns in the sky.

The blood pulse holder is not the **** holder. Before Ye Xuanning summoned one more, now this blood holder has directly summoned a hundred unicorns.

If you set a fire, I am afraid that you can kill a life and death king?

However, this means is not a thing in front of Ye Xuan.

"Come out, my mount!"

Ye Xuan murmured.

When the voice fell, a golden mangling was thrown out of his body and then quickly zoomed in the air.

Everyone turned their heads and saw that this golden mang was turned into a golden dragon.

Ye Xuan glanced at the system and found that it was called the Golden Dragon.

The God of War mounts this skill and can summon the gold, it is very powerful.

Unexpectedly, the first call, there was a golden dragon.

"Calling!"

As soon as the golden dragon appeared, it swept through one end and directly blew dozens of unicorns.

In addition, those unicorns attacked quickly, but what is surprising is that there is no use for this golden dragon. Not only that, but the golden dragon scale will continue to shoot gold rays and shoot the rest of the unicorn.

terrible!

It's terrible!

When the young people saw their own hundred unicorns, they were completely annihilated, and they were so scared that they couldn't beat the golden dragon.

"go!"

The young man took the initiative and turned around and ran.

"I want to run, it's too late!"

Ye Xuan shook his head and flashed, and he used another card.

Excalibur!

A sword, condensed in the air, and then kneel down.

Heaven, have been opened!

Not waiting for the youth to react, this sword is already falling, and he has been split into two halves, and he has fallen.

The sword is so powerful that it is truly a blow.

"This unlucky one is the weakest blood donor I have ever encountered. He still has four bloods."

Ye Xuan shook his head helplessly, but it is no wonder that after all, the other party has the four-level blood, and he has a double-level blood.

However, the only sword that has been used, the cooling is a large number of swordsmen, otherwise it can not be used again.

"The road soldiers made with the roads are definitely more experienced than the ordinary road soldiers..."

Thinking of this, Ye Xuan is using the forging function in the **** level phagocytic system, and then using some kinds of materials as materials to make the Tao soldiers.

Then, all of them are swallowed up!

The sword is directly restored to 50%.

"Because I have a low realm, I get more precious things. It is easier to recover after using the Excalibur."

Ye Xuan is very satisfied, but due to blood fusion, his one-shot sword and the unparalleled sword have disappeared, so he is ready to combine the raw sword and the dead sword forging.

"Hey, the host gets a sword of life!"

The system prompts.

This life and death sword has reached the level of life and death, and is very suitable for Ye Xuan to use now.

However, the sword and the dead sword were originally the things of the Jiang family. Now Ye Xuan borrowed it and went back to the forge, which is a bit unreasonable.

However, this matter is also well solved, as long as it gives the Jiang family some benefits.

Jiang Lingguang, the old master of the Jiang family, is nothing more than a one-of-a-kind monarch, and Ye Xuan is now a six-character monarch, and it is a devouring beast that kills the king of life and death.

Just take something, the Jiang family can be broken!

At the moment, he just broke open the void and then left.

Now that he has solved everything, but then he has a new goal, which is to open a new swordsman.

"In the current situation, the material of Zijinjian is seemingly better."

Ye Xuan thought in his heart.

Undead swordsman, with the ability to die, very sharp.

As for the Zijin Swordsman, it is also a kind of defensive swordsman who can make Ye Xuan realize the skill of Zijin Shenjia.

Zijin Shenjia has a strong defense force, and it can be said to be almost invincible with the immune spirit of all energy attacks.

Ye Xuan chose to open the Zijin Swordsman first, because in the memory of the four **** holders, there is a purple stone, which is the material that opens the Zijin Swordsman.

However, there is only one Zijin stone, and the opening of Zijinjian is a large amount of purple stone.

"This blood holder is called Dai Hao. In his family's Daijia industry, there is a Zijinite vein."

Ye Xuan thought in his heart, he threw the body of Dai Hao to the true and false mask, and then he easily became Dai Hao.

At the moment, he is rushing to wear a home.

True and false masks are a good magic weapon. As long as Ye Xuan does not shoot himself, others will not see that he is a fake.

Therefore, he successfully mixed into the Dai family.

"This Dai Hao turned out to be a young family owner, and his status is not low. He should be able to enter the Zijin Mine."

Ye Xuan thought in his mind that it was to pluck the purple gold veins. All the people along the way greeted Ye Xuan, and Ye Xuan was too lazy to pay attention to them, lest they be exposed.

After a while, he came to the entrance of the Zijin Mine in the back of Daijia.

"This purple gold vein has just been opened up soon, and there are still many Zijin spiders to clean up..."

When Ye Xuan wanted to finish, he stepped in.

These purple-gold spiders are almost all high-ranking kings, and there are not many people who reach life and death. With Ye Xuan's current strength, there is no need to fear them.

This place is very suitable for the experience, so there are a lot of Dai disciples teamed up.

Ye Xuan directly avoided these children, and then began to practice.

In this purple gold vein, no one knows how many pieces of purple stone, the lapis lazuli in Dai Hao's ring, is also a random turn he got.

In order to improve efficiency, Ye Xuan was the one who sent the sword gods together, but in the middle of the day, he got ten pieces of purple stone.

"There are only ten purple stones in a half-day, but I need 10,000 pieces of giltstone to be able to open the Zijin Swordsman. Isn't that more than a year?"

Ye Xuan's eyes are black. If he spends a year to go to the whole Zijinjian, he will kill him.

You know, time is very valuable to him. In a year, enough for him to break through several times, even the emperor is not in the words.

Therefore, he decided to use another method. Although it is not appropriate, it is no stranger to the world in which the strong is respected.

This method is to grab!

Chapter 2039: The best purple stone

Dai Jia is also a small family. There are thousands of people who have entered the Zijin Mine. Before Ye Xuan also encountered many batches, he decided to grab these people.

These people, sin does not die, so his idea is to force him to receive the space to swallow, and then use the system to force the other party's path.

In this way, you can get the Zijin Stone, and you can get the Tao. It really kills two birds with one stone.

In the next few days, Ye Xuan was crazy looking for a child.

Three days later, he got together two thousand pieces of purple stone, but this distance has opened a purple gold sword, there is still a long way to go.

However, it was at this time.

"Hey!" "Hey!" "Hey!"

A shrill sound, fell into the ears of Ye Xuan, his brow pick, slightly strange.

This voice is not the sound of human beings against the purple-gold spider, but the sound of weapons.

Ye Xuan hurriedly looked at the past and found that it was really two people fighting, one party is Dai Jiazi, and the other party, Ye Xuan did not know who it was.

However, the combat effectiveness of the other party is obviously stronger than that of the Dai family.

"Little patriarchs, they are Tan family!"

Suddenly one person aimed at Ye Xuan and quickly shouted.

"Tan family?"

Ye Xuan's eyes squinted and quickly searched the memory and found that this Tan family was a force that was several times stronger than Dai's.

How could they suddenly kill the Zijin vein?

strange!

In any case, Ye Xuan still has to shoot, after all, he is now the identity of the young patriarch.

This Tan family, the strength is not bad, but did not reach the realm of life and death, in front of Ye Xuan is still very inadequate to see.

Soon, these people were all solved by Ye Xuan, and even the people who wear the family are together.

Then, Ye Xuan searched the souls of them and learned that the Tan family was only ordered by the family elders to **** the Zijin vein.

Ye Xuan is a bit strange, because this is not a river before the home and Tan Jiajing water, now suddenly came to occupy the Zijin vein, it is a bit strange.

After all, even if the entire Zijin mine is handed over to Tan, Tan may not be able to see it.

However, it was at this time.

"Haoer, I heard that you are in the Zijin Mine?"

Suddenly, the messaging token lights up.

The other piece of this messaging token is on the home of Dai Jia, the father of Dai Hao.

"I am in the Zijin Mine, what happened?" Ye Xuan faked Dai Hao back.

"Come out, that Tan family wants to occupy the Zijin vein, I send people to meet you!" Dai Jiajia said.

"How is this going?"

Ye Xuan asked inexplicably.

Because he is a pro-son, the owner of the Daijia family did not hide it. He said directly: "In the depths of the Zijin Mine, suddenly a super Zijin stone was discovered. I don't know who leaked the wind and passed the news to Tan!"

"The best purple stone?"

Hearing this, Ye Xuan may understand.

A superb lapis lazuli is more expensive than ordinary lapis lazuli. The most important thing is that there will be a drop of purple gold liquid in the best gilt stone, which is the material for forging the eternal device.

Tan family, I am afraid it is for this!

"This is the best purple stone, still deep in the Zijin mine?" Ye Xuan eyes.

"Yes, we found that after some reasons, it was impossible to mine, so we laid a lineup. Now that the news leaks, we don't want to take care of it. We will hand over the Zijin Mine to Tan, so as not to kill. The disaster!" Dai Jiajia said.

"But even if the Zijin Mine is handed over, will Tan Jia be rewarded with such a reward?"

Ye Xuan asked curiously.

The output of this best Zijin stone is very small, even if it is a high-order life and death, the king will be heart-warming. This Zijin mine has produced a superb Zijin stone, which has already hit the big dog.

Tan Jia, it is very likely that the news will be blocked, and even the wearer will be destroyed.

"No matter what, we don't want to resist, not then..."

"Hey!"

After the home of the Dai family had not finished, there was a crisp voice, followed by a sound of ‘噗通’.

The voice was transmitted to Ye Xuan's ear through a communication token, and his face sank.

The home of the Dai family, who lives and died, is probably killed by people!

Tan Jia, I really don't do it all the time, it's really awkward!

However, if you change to other families, I am afraid I will do the same. If the forces that are more powerful than Tan's family know that they have purple gold liquid, they will also be blamed for killing themselves.

However, what does this have to do with Ye Xuan?

“Is the best purple stone in the depths?”

Ye Xuan’s mouth is slightly tilted, and he is already interested in this one of the best Zijinshi.

After all, if you let him get this best purple stone, then it is enough to open the Zijin sword, no need to spend time collecting purple stone.

At the moment, he is letting the sword gods be divided into three deep gatherings.

Along the way, he also saw a lot of people wearing Dai and Tan, who were all picked up by him.

What I have to say is that the strength of the Tan family is indeed very strong. It is a higher grade than Dai Jia. The high-order Tao is everywhere, but it is very weak for Ye Xuan.

Soon, Ye Xuan came to the depths of the Zijin Mine. At this time, there was a loud noise in the head. It should be that the Tan family was breaking.

"The breath is not weak, I am afraid there are life and death!"

Ye Xuan’s eyes were slightly stunned, and then the sword **** was directly dispatched.

"who?"

"Boom!" "Boom!" "Boom!"

Soon, the voice of the battle came from inside.

The invincible sword **** is separated and directly fights with a group of Tan masters. It is not worth a lot of enemy.

However, what surprised him was that Tan Jiafang was not breaking, but attacking a life-and-death prince who wears a family.

The life and death of this family is responsible for guarding this super Zijin stone. After the Tan family came in, he was blocked here, so he fought.

"I heard that this one of the best sapphire is more difficult to collect. If you are not careful, the best lapis lazuli will be broken, and then the drop of purple gold will dissipate between heaven and earth."

Ye Xuan thought in his heart.

If these heavenly treasures disappear, no matter who will cry, so the family has not collected, has been thinking of ways.

However, he decided to take a look at the situation for a while and then say that after all, the inside is the level of life and death, let them fight for the first fight, and after he finishes his fight, it will be convenient.

"Booming!"

The battle inside was very intense, and Ye Xuan was waiting outside.

After a while, the battle is finally over.

At the moment, Ye Xuan is wearing a virtual spirit.

"who?"

A violent drink came.

Ye Xuan, wearing a state of stealth in the spirit of the gods, was discovered!

If so, kill it!

Suddenly, the sword gods, the black horns and the old trees appeared, and then launched an attack.

Chapter 2040: Zi Jinjian

In just one moment, the people in the Tan family, all but the one who died and died, were all fallen.

At this time, Ye Xuan is already a seven-grade king, and it is no longer a matter of life and death. However, he was afraid that the other party ruined the best purple stone.

After all, now he can no longer use the time-lapse skills, the best purple stone is destroyed, then the drop of purple gold liquid disappeared between the heavens and the earth, too wasteful.

"dead!"

The master of this Tan family immediately killed the three men in the sword god.

On the other side, Ye Xuan, who is wearing a virtual spirit, is quietly sneaking into the law and looking closely.

Unfortunately, he did not find the best purple stone, nor found in other corpses, it seems to have been taken away by this life and death.

In this case, it is easy to handle, direct shot!

In an instant, this life and death prince is suffering from the attacks of the Quartet and is directly hit hard.

"go!"

The life and death of this Tan family changed greatly, and quickly turned around and rushed out of the formation.

"I want to go, it's not that easy!"

Ye Xuan's eyes widened, and the eyes of the assassination were displayed together with the sword god, and they flashed behind the other side.

However, just in the midst of this millennium, suddenly a figure came out and inserted between the two.

"boom!"

A wave of violent waves swept away, and the attack of Ye Xuan and Jian Shen's avatar was actually blocked.

Who?

Ye Xuan rushed to look at it, the visitors were very strange, it seems to be Tan family.

However, the origin of this Tan family, I am afraid that the realm of the two products will reach the level of life and death.

"You go, I block him!"

The crowd screamed and attacked Ye Xuan.

"Isn't it the second life and death, afraid of you?"

Ye Xuan's eyes slammed and used a hole card directly.

God of War mounts!

Every time you use the Ares mount, the summoned is not the same. The last time Ye Xuan summoned the golden dragon, and this time, it is a golden saber-toothed tiger.

The dazzling golden light instantly illuminates the entire Zijin vein and conceals the purple gold light.

A sacred breath spread and it was shocked that the two products died quickly.

"call out!"

The golden saber-toothed tiger turned into a golden light, and rushed toward this two-product life and death.

"roll!"

The man screamed and raised his hand and fell on the golden saber-toothed tiger, but did not cause any damage to the golden saber-toothed tiger.

"Hey!"

In a crisp sound, the shoulders of these two products are directly bitten by the golden saber-toothed tiger, bloody.

Ye Xuan and Jian Xian split quickly to catch up.

Not long after, these two products were killed by the fangs of the golden saber-toothed tiger, and they fell.

Then, Ye Xuan quickly put the man's body away, and ordered the golden saber-toothed tiger to chase the one that died.

After a while, the golden saber-toothed tiger dragged its body back.

It's a pity that the disappointment of Ye Xuan is that there is no such thing as the Zijin Stone in the two people's ring.

"strange!"

Ye Xuan frowned, and quickly searched the souls of the people. Afterwards, he realized that the best purple stone was already broken, just in the big battle between Dai Jia and Tan.

Dai Jiasheng, the guardian of the best Zijinshi, died. After learning that his family was killed, he chose to burn jade and ruin the best purple stone. The drop of purple gold liquid also dissipated between heaven and earth.

Zijin liquid is a good thing for forging the quasi-emperor, and it is worth the price.

Although Ye Xuan has some regrets, this is not necessary for him.

He quickly went back and found the broken purple stone.

This thing is what he needs!

Only in the midst of the battle, he did not notice that the best purple stone and the ordinary purple stone were confused.

Now, finally got it!

"Hey, the host opens the Purple Swordsman!"

A system prompts to sound.

After Ye Xuan swallowed the pieces of the best purple stone, he finally opened the Zijin sword.

At the moment, he summoned Zijinjian.

This purple gold sword waiter, wearing a purple armor, holding a big sword, looks very mighty.

After Ye Xuan opened the Zijin Swordsman, he also realized a new skill called Zijin Shenjia.

Zijin Shenjia, with strong defensive power, and the virtual spirit of attacking with immune energy, even if it is a middle-class life and death, may not be able to pose a threat to Ye Xuan.

"Hey, this purple gold sword waiter, will produce a purple stone every once in a while, the quality of this purple stone will increase with my realm?"

Ye Xuan's eyes lit up and quickly sent Zijinjian to the devour space.

According to the current phagocytic space velocity, it is very good to produce a superb lapis lazuli in about ten days.

However, this sapphire stone is different from the naturally-produced gilt stone, and there is no purple gold liquid forging the eternal device.

Even so, Ye Xuan is happy!

"Hey, when you get this kind of purple stone to go through the sea, you can make a big profit!"

Ye Xuanle opened the flower, but currently, he still has one thing to do.

Although it is okay to say that Dai Jia is not related to him, he is because of Dai Jiakai's opening of Zijinjian, and now he is afraid that he will be destroyed by Tan's family.

This hatred, still have to help report!

The only thing that killed the second person was the person who killed the family of the family. Now that he is dead, there is nothing else to fear.

Soon, this piece of purple gold vein was cleaned up by Ye Xuan and others.

The people who wear the family were all collected by Ye Xuan. As for the Tan family, they were directly killed by Ye Xuan.

When Ye Xuan left the Zijin Mine to come to Daijia, he found that Tan's master had already withdrawn.

"I know the news of the best Zijin stone fragmentation, or do you know the news that the two products are broken in the Zijin mine?"

Ye Xuan's eyes are awkward, but this is not important. Tan, he will go with the trend!

But before that, I still have to take it off first!

"After I swallowed the path of the two births and deaths, the realm has broken through to the eight-character king, even the Excalibur has recovered, destroying a Tan family, do not need me to dispatch!"

Ye Xuan thought in his heart, let the sword **** split out.

Three days later, the sword **** came to the Tan family, and then summoned Zijinjian, Black Point and Tree.

Suddenly, Tan Jiaqi had a tumultuous storm, and the only remaining two second-generation life and death princes could not stop, and both died.

Finally, Tan Jia was also received by Ye Xuan in the swallowing space!

This time, Ye Xuan deity did not move.

"Without the use of various cards, the strength of Zijinjian is stronger than the sword god."

Ye Xuan thought in his heart.

However, Zijinjian is only a shackle, and the ability of the sword **** to be separated is much stronger than him.

The sword **** is not only invincible, but also able to use Ye Xuan's skills, and summon the tree and others. Simply put, it is another Ye Xuan, and Zijinjian is just a battle.
