

## Super D. S 2041

### Chapter 2041: Life and death

After this incident, Ye Xuan got a lot of roads. At this time, he has already promoted the phagocytosis to the mid-May, and it is estimated that there is not much from the late Dacheng.

As long as he reaches the late stage of Dacheng, he can break through to Jiu Pin Dao Jun. At that time, as long as he has made up a new Dacheng class, he will be able to achieve life and death.

As for the species of life and death, it is only the early stage of Dacheng, so this time Ye Xuan is preparing to acquire some natural treasures such as life and death, and forcibly piled up to the holy level.

This requires a certain amount of financial resources. After all, Ye Xuan's upgrade experience is more than others, and it will definitely cost a lot.

However, now that Ye Xuan has Zijinjian, there is such a capital.

At the moment, Ye Xuan is going to a big city. In a few days, Zijinjian will be able to make a special purple stone. At that time, there will be a great uproar.

After ten days of trekking, Ye Xuan finally arrived in a big city.

At this time, in his engulfing space, there is already a best purple stone.

This one of the best sapphire is better than the one in the Zijin vein, but the only difference is that the one in the Zijin vein is a natural output, with a drop of purple gold inside, and Zijinjian Out of the best purple stone, empty.

However, this super Zijin stone is not something that ordinary people can break.

Ye Xuan estimates that Zijinjian's output of this one of the best Zijinshi, no one can see the clue, after all, in addition to the mineral veins can produce the best Zijin stone, have not heard where there is.

At the moment, Ye Xuan let the sword \*\*\*\* split up and entrust it to the auction house for auction.

When the news came out, the whole city was sensational, and all the big families were collecting money to prepare for this super Zijin stone.

Let's not say that there is a drop of purple gold liquid in the best purple stone. The only purple stone is enough to be attractive. It is the way to understand the purple gold in the five elements.

The Zijin Way is even more advanced than the Red Gold Road. It is the strongest defense in the Jiujiu Holy Road.

As for the purple gold liquid, it is the material for forging the eternal device. As long as it can be photographed, the return is affirmative, and it can earn ten times and twenty times back.

The auction acted as one of the best purplestones, and it was also a \*\*\*\* propaganda.

A few days later, the auction house in the city held a huge auction.

Some people have heard about this, even if they don't buy anything, they are ready to go in and have a look, because they know that this time there will be a big force to bid, just spend money to watch the show.

At this point, the sword \*\*\*\* has been looked at in a box.

Soon, the auction started, but this time the auction was different from the previous one.

This time the auction, there is only one auction item, that is the best purple stone.

Once out, it is this one of the best purple stone.

"It's really the best purple stone!"

"A good show is on the scene, it depends on which big force has taken this best purple stone!"

"I heard that Zijin's way is very powerful. If it is accomplished, even if it is a high-level or two-level attacker, it can block it."

"That purple gold liquid is a good thing, it is the material of the quasi-dipole, you can't ask for it!"

The audience suddenly burst open.

All the big families, with the idea of selling the best purple stone, began to bid.

The price began to skyrocket, and in the blink of an eye it rose to the point where the people underneath unexpectedly.

This is enough to create a middle-class life and death!

However, the purple gold liquid is something that even the high-order life and death will be smashed. One drop can be used to forge the eternal device. Once someone has the eternal device, it is almost invincible between the same order. No one can pick it up. Let it be a trick.

The sword \*\*\*\* was sitting in the box, listening to the sound of the sound of the sound around him, and the corner of his mouth was slightly tilted.

"I made a haircut, and I earned it this time!"

Ye Xuan's deity has already opened his heart.

This thing is enough for him to break through to life and death, but this is not the point. The key point is that Zijinjian can make a special Zijin stone in about ten days.

In this way, you can play a good show again!

At this point, the speed of the major families suddenly slowed down, because their funds are coming to an end.

Now, let's see who is better!

These families and forces began to cooperate privately, and the two sides jointly funded the funds and won the distribution of the best Zijin Stone.

This stage lasted for a few minutes. In the end, this one of the best purplestones fell into the hands of the five parties.

The final bid was all of their assets. After deducting the auction fee, they all fell into the pocket of Ye Xuan.

Cool!

Not long after, the auction house treasurer handed over the auction money to Ye Xuan.

The auction is finally over!

However, Ye Xuan did not leave, but stayed in the auction house and began to smash.

All the roads in the auction site were purchased by Ye Xuan. Not only that, but there are also a lot of treasures to enhance the life and death.

"Hey, the host breaks through, and it's currently Jiuxiangdaojun!"

"Oh, the way of devouring is promoted to the beginning of the holy road!"

"Oh, the way of life and death is elevated to the beginning of the holy road!"

"Hey, the host breaks through, and it's a life and death!"

The two systems prompted the sound, and Ye Xuan's realm continued to break through.

Originally, it was only the way of devouring and the way of life and death in the late Dacheng Dacheng. It was upgraded to the level of the holy road by Ye Xuan. In addition, Ye Xuan also improved the way of the fire and the path of the wind.

Therefore, Ye Xuan is now comprehending several kinds of sacred roads, which has greatly improved his strength.

If only two roads are promoted to the Holy Path, he is afraid that he can directly break through to the second product.

However, several kinds of roads rise together, so that even if it is a life and death, the strength is stronger than the two products.

After the matter was solved, Ye Xuan left the auction house directly.

Sure enough, after he left, he found someone tracking him.

It's not a small force that only participates in the auction. Although they can't get the best purple stone, they can easily find out who brought it out for auction.

After all, Ye Xuan Fang only bought a lot of Tiancaibao, and he would not be able to keep a low profile.

What's more, these people who follow Ye Xuan also have auction houses.

"Come on, let me put you in the pot!"

Ye Xuan's light flashes, letting the sword \*\*\*\* split out of the city immediately.

As for the followers behind him, there is no intention to leave the city.

These people are not afraid of jealousy. After they have looked at each other, they began to discuss the affiliation of Qiankun.

The sword \*\*\*\* looked at these people, and his mouth tilted slightly. He said, "If you don't do it again, I will leave!"

When I heard this, those people thought it was strange. Ye Xuan had only one person, even if they had the lowest realm, they were higher than Ye Xuan.

Ye Xuan, why is it so calm?

"Boy, I will give you a pass, I can put you in a path!"

An old man said slowly.

Chapter 2042: Breakthrough

"If you turn around and leave now, I can also let you have a way to live." Ye Xuan said in the tone of the other party.

"There is a daring color."

The old man did not say anything more.

However, at this time, some people could not help but directly killed Ye Xuan.

"Still!"

Everyone else screamed and rushed toward Ye Xuan.

If it is an ordinary person, I am afraid I am already scared by the face of such a downturn.

You must know that this nearly one hundred people are all living and dying, and the strongest one is the four-product life and death.

Ye Xuan District, a product of life and death, can stand firm and good.

"Good play, finally opened!"

The sword \*\*\*\* splits in the light.

Since these people are all robbing him of money, there is no need to be merciful.

One word, kill!

The next moment, Zijinjian, Heijiao, and the old tree all appeared.

In addition, there is the God of War mount!

For the first time and the second time, Ye Xuan summoned the Golden Dragon and the Golden Saber-toothed Tiger respectively. The luck was good, but this time, it only summoned a common rushing thunder.

However, this one is only thundering and the strength is also comparable to the three products.

Of course, the most powerful nature is the sword god.

He has the sword of the gods, directly reducing the strength of some people in the place, the non-sword repair fell by 30%, and the sword repair fell by 10%.

Coupled with the invincible physique, he is not afraid of anyone's attack.

In an instant, the group of people who robbed Ye Xuan died most of the time.

"How could this be!"

It was only then that the old man who gave birth to Ye Xuan was shocked.

His people also died halfway through the first wave of charge, leaving him and the other two.

Suddenly, he understood that Ye Xuan was not a good lord, and quickly took people away!

"Where to go?"

Suddenly violently drunk, falling in his ears, I do not know when, the sword \*\*\*\* has been killed behind him.

After breaking through to the life and death of the king, Ye Xuan, who has the life and death of the species, cooperates with the phagocytic species, and the attack power is extremely powerful.

Just a sword, the old man will fly.

In addition, in the direction in which the old man flies out, he is already guarding a behemoth.

"boom!"

Ben Lei slammed down and directly trampled the old man into a serious injury, then squirted a black horn and smashed it.

This battle is no suspense, no matter how many seconds, the rest of the people are also solved, no one is still alive.

In the distance, those people in the city looked at the battle and couldn't help but swallow.

It turns out that Ye Xuan is playing tigers and eating tigers. No wonder he doesn't go. He was thinking about anti-robbery.

Just kidding, can you come up with a best purple stone auction, and people who are unobtrusive, how can it be a general?

What makes Ye Xuan happy is that these people are the forces that participate in the auction, and they carry a lot of money.

Ye Xuan, made another big profit!

At the moment, he went back to the auction house, spent all his money, and then broke through to the second product.

By the way, the entire city will be collected!

Just the city owner of the five-product life and death, the Ye Xuan, who could not stop the breakthrough, was received in the swallow space.

Not only that, but the best purple stone, he was also recycled.

"go!"

The sword \*\*\*\* broke through the void and returned to Ye Xuan, and then hurried.

In the following period of time, Ye Xuan took such a fishing method to seduce others to commit crimes, and then he tried to suppress it.

In less than a month, he broke through to the four products of life and death.

At the same time, he also got three best lapis lazuli.

Today, he has come to a big city, but this time is much bigger than before. The city owner is a nine-person life and death.

Like before, he used the best purple stone to go fishing, but unexpectedly, this time he even gave the city owners a catch.

At this point, the city owner is leading the masters, chasing Ye Xuan.

"This is the master of the city of Yuding. It is the life and death of the nine products. After many years of breakthrough, it is already half a foot into the half-step emperor. The strength is not the same. As for other people, it is not enough!"

Ye Xuan thought in his heart.

He had already played with the city owner before, but he gathered everyone to besiege the other side, and could not get the benefit in the other hand.

Although he still has a final card - Shen Jian, but he does not have the 10% of the grasp of the nine products of life and death.

Don't say ten percent, even two percent of the grasp!

If this doesn't work, then use other methods.

"Old guy, do you really want these three best lapis lazuli?"

The footsteps of the sword \*\*\*\* suddenly stopped and turned and asked.

"Hand over things, spare you not to die!" The rear of the Yuding City, the main anger shouted.

"Is it?"

Ye Xuan's eyes sighed and said: "Let me hand it over, it's not impossible, but you have to pick me up!"

Upon hearing this, the master of Yuding City stunned and said: "Do you think that your sword can kill me?"

"I can't do it. I only know if I tried it. I just dare you!" Ye Xuan said.

"Well, the area is a sword, come on!" Yuding City owner snorted.

Ye Xuan in front of his eyes is nothing more than a five-product birth and death, and he is afraid of being a half-footed emperor.

However, Ye Xuan's sword is not so easy to pick up!

"There is courage, I hope you don't get scared to escape!"

Ye Xuan snorted, clenching the sword of life and death, and then squatting.

This sword is just imaginary!

The real attack is the one that is condensed on top of the head.

The sword is smashed and has the effect of killing all enemies. Once it is displayed, even the sky is broken.

The master of Yuding City saw this move, and his heart trembled, but he looked at the broken day and suddenly felt something.

Suddenly, his breath skyrocketed!

Jiu Pinsheng died?

Do not!

At this moment, he has already broken through to the half-step emperor!

Let him break through is Ye Xuan's move.

"Heavenly blessing, half step emperor!"

The main character of Yuding City City was wide-eyed. He did not expect him to be stuck in the nine realities of Jiu Pin's life and death. Today, he even broke through to the half-step emperor. It was an accident.

Life and death, you must raise the three kinds of Tao to the late stage of the Holy Path, and then you can plant a fruit.

As early as many years ago, he has already upgraded the three kinds of roads to the late stage of Dacheng, so it is only one step away from the half-step emperor.

This time, due to the promotion of Ye Xuan, his three kinds of roads merged and turned into a fruit, and finally achieved a half-step emperor.

Once you break through to the half-step emperor, you will have a first-class destiny and you can temporarily borrow the power of heaven.

Yu Dingcheng's main hand waved, a golden palm shot, and instantly opened the Excalibur.

"boom!"

The sword fell and did not hurt a person.

Chapter 2043: transaction

"day!"

Ye Xuan roared, I did not expect this guy to go out of his way, saying that he would pick him up, now repenting?

At the same time, he also felt the change of the other party's breath.

Strong!

Strong enough to make him feel guilty.

"This is, half step emperor?"

Ye Xuan was shocked. He used to break through in the battle and then beat the enemy down.

But now, even someone is breaking through in his battle, which is troublesome.

Originally, he still had a glimmer of hope to kill all the enemies, but with the breakthrough of the Yuding City, the hope of this line was directly destroyed.

"Kid, now I don't need to pick you up."

The main city of Yuding City smiled.

He seems to be calm, but Ye Xuan is only a sword, even the fourth heavy day has been broken, the power may be reached a half-step Emperor level.

That sword, even if he broke through, did not dare to pick up!

"The city owner, have you broken through?"

On the edge, the master of the Yuding City City is shocked.

Originally, the main city of Yuding City was the master of the four heavenly tops. Now it is a breakthrough, and there is no rival.

In addition, it is a breeze to take Ye Xuan in the realm of half-step emperor.

"How about the breakthrough, you still can't help me."

Ye Xuan said coldly.

"Is it?"

The main eyes of Yuding City City glimpsed and instantly turned into a streamer and came to Ye Xuan.

This speed is ten times faster than before.

Ye Xuan has not reacted yet, and the owner of Yuding City has already stood in front of him and will hold Ye Xuan's shoulder.

"Hey!"

An attack that contained the power of destiny fell on the body of the sword god, but what made the master of Yuding City strange was that the sword \*\*\*\* was still unharmed.

"how is this possible?"

The owner of Yuding City was shocked.

There is a huge gap between the birth and death of the monarch and the half-step emperor. Once the breakthrough is made, the strength is leaps and bounds, and it will hardly be threatened by people at the level of life and death.

Only then, this power is at least ten times stronger than before, but Ye Xuan has taken over.

What is this body doing?

"I said, you can't hurt me!" The sword \*\*\*\* who flew out went on.

"How about that, I got what I wanted."

The owner of Yuding City immediately showed a smile and spread his right hand. There was a ring in the palm of his hand.

This Qiang Kun ring was originally worn in the hands of the sword god.

"Is it?"

The sword \*\*\*\* also smiled.

The next moment, the smile of the master of Yuding City was abruptly stopped, because he explored it and found that there was nothing in the air.

"What about it?" Yuding City City could not help but ask.

"Are you looking for this?"

Ye Xuan's hand swayed, and he took out three of the best purple stones. After he stabilized his figure, he took it in again. "You're just playing, I'm just playing with it. Store things."

"The good means, no wonder there is no fear." Yudingcheng City owner had to admit that Ye Xuan was the most difficult one he had ever seen.

"Before, you only need to take my sword, then I will give you three best purple stones, but you are so angry, I am too disappointed." Ye Xuan shook his head helplessly.

When the master of Yuding City City heard it, he looked cold and said: "I don't believe it, I can't help you with the half-step of the emperor!"

In an instant, he killed the past and directly used Ye Xuan as a sandbag.

Unfortunately, there is no effect!

I don't know how long it took, the master of Yuding City stopped.

"I broke through to the half-step emperor and have been able to use the power of heaven, but I still can't hurt him."

The main heart of Yuding City City thought: "Even if I consolidate the realm, I am afraid that after the skillful use of the destiny, I am afraid the same result. Who is this guy?"

"The city owner, don't you fight?"

The sword \*\*\*\* in the distance climbed up from the ground and said: "If you don't fight, I have to go!"

"Slow!"

The main character of Yuding City City is Ye Xuan.

"how?"

The sword \*\*\*\* turned and turned around.

"If we can't hurt you, then let's make a deal."

Yuding City City main road: "Your three best purple stone, I bought."

"Oh, okay." Sword God split his mouth and smiled and said: "Three of the best purple stone, for your ring!"

The master of Yuding City City listened, hesitated for a moment, and then took away the other people's shackles.

"First give you a best purple stone!"

Ye Xuan said nothing, lost a favorite Zijinshi in the past.

Upon seeing it, the mainstay of Yuding City City said: "Why are you giving me this?"

"Oh, run the monk, can't run the temple, do you want to Yu Dingcheng?" Ye Xuan said this.

The main city of Yuding City is now a half-step emperor, but his Yuding City has only eight masters of life and death, and Ye Xuan is enough to cause a devastating blow.

At that time, the city government can not be guaranteed!

This sentence can be said to the Yuding City Lord, he blinked his eyes, and then lost those who have lost their lives.

Ye Xuan caught these Qiang Kun ring, and looked at it. There were really a lot of good things in it, just let him break through to the six-product life and death.

"Breakthrough?"

The main character of Yuding City was smashed, and he was able to make a breakthrough on the spot. That was because Ye Xuan had a trick.

And now Ye Xuan breaks through, what is going on?

However, he did not care, because Ye Xuan would not be his opponent even if he broke through to Jiu Pinsheng.

A half-step emperor who can use the means of destiny is not a life-and-death prince who can defeat.

"The other two best gilt stones?" asked the master of Yuding City.

"Just here."

Ye Xuan changed out the two best purple stones, and smiled: "Original, I want to give you, but you only beat me so badly, so these two best purple stone, it is a gift. ""

"you!"

Yuding City City's main eyes widened, ready to directly take away the best purple stone in Ye Xuan's hands, but the next moment, Ye Xuan's figure is gone.

No, to be precise, the sword \*\*\*\* disappeared and was taken back by Ye Xuan, who was far away from the sky.

At the same time, there is still a word spread.

"The main city of Yuding City, this one is the best purple stone, I will come back, please keep it safe!"

.....

The main city of Yuding City is the existence of a half-step emperor. I am afraid that it is impossible to fight against Ye Xuan's current realm.

Fortunately, Ye Xuan has two best lapis lazuli, which is enough for him.

Three of the best purple stone, although very tempting, but in fact, as long as a favorite purple stone, it is enough to lead people to sin.

Ye Xuan, first remember this feud in his heart, and wait until the future strength is enough, then come back for revenge.

At this point, he is already heading to another big city, ready to 'fishing' again.

Chapter 2044: The death of the city owner!

A few days later, Ye Xuan arrived at a four-day spire city that is comparable to Yuding City.

However, after he entered the city, he heard about one thing.

"Is it heard that the owner of the Yuding City in the north was suppressed?"

"No, it is the master of the nine-product life and death, it is said that half of the foot has stepped into the half-step emperor!"

"What nine products are dead and dead, a few days ago, the main city of Yuding City has broken through to the half-step emperor, but also the city has announced it. Just yesterday, suddenly there is a master coming, will suppress the main city of Yuding City, control the Yuding City ""

"What, half-step emperor?"

"Yes, the cause of the incident seems to be because of a superb purple stone. After the defeat of the master of Yuding City, the best purple stone in his hand was obtained by the other party. At the same time, the other party also announced the world, Daxie acquired Zijin Stone and the best Zijinshi, if someone does not sell it, if it is revealed, kill it!"

"Who is this person, even so arrogant, is it from the fifth heaven?"

"Definitely!"

This is the dialogue that Ye Xuan heard after entering the city.

"I didn't expect the master of Yuding City to be defeated. My one of the best purple stones also fell into the hands of the other side."

Ye Xuan's eyes were slightly stunned and he did not take this matter to heart.

By means of fishing, he took this big city comparable to Yuding City and then left it again.

The next time, Ye Xuan continued to run, the realm from the six products to death and death, all the way to the eight products of life and death.

However, it was shortly after he broke through to the eight-product life and death.

"Hey, death kills and kills the target!"

Suddenly a system prompt sounded in Ye Xuan's mind.

"what happened?"

Ye Xuan brows a pick.

Before the battle with the master of Yuding City, he marked everyone, but the others were small, so he withdrew the death killing order and only marked the owner of Yuding City.

Now, the death killing order kills the target, referring to the main city of Yuding City.

Although the owner of Yuding City and him had played one, Ye Xuan ended in failure, but Ye Xuan was thinking about finding the way back.

Now, the main city of Yuding City is dead, and the best purple stone is also in the hands of other people. This is not enough.

At the moment, Ye Xuan is breaking through the void and returning to Yuding City.

At this time, in the Yuding City, there is a purple light column that is straight into the sky, which is very conspicuous.

Ye Xuan let the sword \*\*\*\* enter the city and immediately felt a strong breath.

It seems that this is the master from the five heavens, that is, the murderer who killed the master of Yuding City.

The sword \*\*\*\* was immediately dispatched and went to check.

When he came to the city's main government, he saw many people lined up outside the city's government, and the cultivation was not low, at least the seven-life and death.

They are selling purple stone!

"Strange, one and a half steps, how do you accept so many purple stones?"

Ye Xuan is somewhat confused.

Half-step Emperor, almost all can create a quasi-dimensional device, even if you want to get the best purple stone, how do you still need these forged gems of life and death?

Ye Xuan can't control so much, and let the sword \*\*\*\* directly swear: "I have five best purple stones in my hand, how much?"

When this was said, some people stopped the things in their hands at the place, and they were embarrassed.

A superb gilt stone is worth the price, five of the best purple stone, what is the value?

I am afraid that no one present can figure it out!

In the city government, a young man heard this and immediately opened his eyes and swept away.

He looked down at the sound and saw the sword \*\*\*\* avatar, and said: "You, there are five best purple stone?"

"Yes, I want to change all the way to the species, as well as the species of life and death, the cultivation of the fire of the fire!"

The sword \*\*\*\* nodded and nodded.

"It is a bit of a skill to be able to comprehend the way of life and death. Well, these things are yours."

This young man is no nonsense. He waved his hand and took a sneak peek, and then took something from his own ring.

Then he threw the ring to Ye Xuan.

If Ye Xuan can't get five of the best lapis lazuli, I am afraid it will die. In the face of a half-step emperor, no one is willing to do this.

Ye Xuan took over this ring and his eyes lit up.

The things inside are enough for him to break through to Jiu Pin's life and death and even peak.

At the moment, he directly swallowed it, and the body condensed a fruit, and the breath skyrocketed.

"Hey, the host breaks through to the nine products of life and death. If you want to continue to break through, please plunder others' destiny!"

Hearing this, Ye Xuan's brow was picked.

Plunder, destiny?

For the half-step emperor, Ye Xuan is very strange, because there are not many in this four-day. However, there is a half-step emperor in front of him. As long as he is killed, everything will be known.

"Ok?"

The youth is a bit strange, and Ye Xuan breaks through the sound, making him unable to figure it out.

However, he does not care so much, he cares about the five best lapis lazuli.

As long as you have these five best lapis lazuli, then he can go back to the cross, but also get some rewards.

"Five of the best purple stone, here!" Ye Xuan said nothing, lost five of the best purple stone.

Of the five best gilt stones, two were from the previous ones, and the other three were newly condensed by the Zijin Swordsman.

Seeing the situation, the youth eyes brightened, I did not expect Ye Xuan really have five best purple stone.

"The five best purple stones, where did you get it?" The young man couldn't help but ask.

The giltstone is common, and one of the one million purple gold veins may not be able to have a rare lapis lazuli.

However, Ye Xuan actually has five best Zijin Stones, which is really strange.

"I killed one person on the road and got it." Ye Xuan replied.

"Yes, you are doing very well." The youth was very satisfied, and at the same time, his eyes fell on Ye Xuan's Qiang Kun ring.

Maybe, what else is there?

However, just as he played Ye Xuan's idea, Ye Xuan was also playing his idea.

"Before I heard that you defeated the main city of Yuding City?" asked Ye Xuan.

"This guy is unfavorable and killed by me." The young man said coldly.

Ye Xuan said: "So, the one of the best purple stones in his hands is in your hands?"

"Yes, how?" The youth was a little surprised.

If other people, dare to talk to him in this tone, I am afraid that I will die long ago, but Ye Xuan brought five best Zijin stones to him, so he is in a good mood.

"You don't know, that one of the best Zijin Stone is also mine, so please return it!" Ye Xuan said slowly.

Return, the best purple stone?

When he heard this, the young man gave a slight glimpse. He did not expect Ye Xuan to dare to let him return something.

Let's not say whether Ye Xuan or not. Just dare to say this sentence, Ye Xuan's courage is very unusual.

Chapter 2045: Half step emperor!

"Ha ha ha ha!"

The young man suddenly laughed, and it seemed to be the best joke he had ever heard in his life.

The reason why Ye Xuan dared to say this sentence is because he has already broken through the nine-life and death, and he is a sword-god, so he is fearless.

"It seems that you are not paying, and if so, then I will come and pick it up!"

The sword \*\*\*\* screamed and screamed, and directly sacrificed the weapon to sneak at the youth.

A fierce sword smashed away and fell to the youth, but was shaken by the golden light of the youth.

"It's so funny, heaven and earth, first heaven, there is a way. You actually attacked me with the road. I really don't know what to do."

The young man sneered.

Whether it is a half-step emperor or an emperor, or even an eternal emperor, the same means is used, that is, the power of heaven, also known as the destiny.

This fate can greatly increase the life expectancy, and the more destiny, the faster the cultivation speed.

Therefore, this realm is very cruel. If you don't agree, you will kill and then plunder the fate of others.

"I don't believe, I can't break your defense!"

Ye Xuan's eyes widened and he shot again. In addition, the old trees, black horns, and purple swordsmen all appeared.

"The same ants exist, dare to shoot for me, find death!"

The youth is already irritated, and when the hand is raised, the black horn and others will be solved.

Not only that, but even the Zijin Swordsman has been planted.

Fortunately, the sword \*\*\*\* is an invincible existence, so it is unharmed.

"I don't believe, I can't kill you!"

Ye Xuan's eyes widened and he summoned the old tree and the black horns again. As for the Zijin swordsman, due to death, today is no longer able to summon.

In this battle, I said that I would fight and let the people underneath be a bit overwhelmed.

Fortunately, the two sides are fighting in the air, otherwise the entire Yuding City will be destroyed.

The sword \*\*\*\* continually summoned the old tree and the black horn to attack, which made the youth very surprised.

Seeing one's own advantages, there is no advantage. Ye Xuan, who is far away from the horizon, made a decision.

At the moment, he just broke through the void and came down in person.

At the moment he appeared, the sword was activated by him.

The youth is not a sword repair. After being influenced by the sword of the gods, the combat power suddenly dropped by 30%.

However, this strength is still not comparable to life and death.

Fortunately, the illusory \*\*\*\* of Ye Xuan can resist the destiny attack.

"I didn't expect that Megatron's magical form is already above the sky."

Ye Xuan was shocked and happy.

However, I am afraid that it is not so easy to kill this young man.

It seems that I have to pay a price!

"Come on, God of War!"

Ye Xuan's flash of light flashed, and the Holy Power in his body suddenly became violent, and then quickly bombarded his own body.

The God of War of the God of War has two effects, one is quick recovery, the other is the heavier the injury, the stronger the strength.

When he was in the first battle with the master of Yuding City, he actually used it, but he still couldn't beat it.

However, his injury was only about half of that day.

Today, he wants to put himself in a state of sudden death, which can give him a strong fighting power.

In an instant, Ye Xuan's combat power is mad, going far beyond the sword god.

"Hey!" "Hey!" "Hey!"

A sword is confusing, and Ye Xuan is attacking wildly.

Although he said that he suppressed the effect of blood recovery, the only thing that suppressed it was to recover the injury. His holy power can still recover.

On the contrary, the youth's holy power is constantly decreasing.

Although the destiny attack is strong, it requires the support of the Holy Spirit as the Tao. Once the Holy Power is exhausted, the strength may not be much stronger than the life and death.

This time, Ye Xuan took the method of consumption. There was a virtual spirit, and the other party could not hurt him.

"Booming!"

A burst of loud noise, spread over the Yuding City, the life in the bottom of the city is afraid to be affected, have been withdrawn from the city, away from this right and wrong.

"Kid, what kind of armor is this set on your body, can you resist the destiny attack?" The young man couldn't help but ask.

"Win me, you know!" Ye Xuan's mouth tilted slightly.

"What about them?"

The youth also set their sights on the three bodies of the sword god.

The sword \*\*\*\* is divided, the tree is old, the black corner is three, one is invincible, the two are infinitely resurrected, and the fight is not dead, so that the youth is somewhat exhausted.

"The same, I will tell you when I win!" Ye Xuan said coldly.

When the young man heard it, his face sank instantly and said: "If that is the case, then you will pick me up!"

When the voice fell, suddenly a horrible breath spread, and I saw that the youth gathered all their destiny on the right fist, and then suddenly slammed into the sky and suddenly fell.

A golden fist, heading towards Ye Xuan!

"It's just right, die!"

Ye Xuan's eyes widened and flashed directly to the back of the opponent, and he used the cards.

Excalibur!

A sword of swords condenses and falls instantly.

In the battle of Fangcai, Ye Xuan never used the assassination eye for this moment.

Their attacks did not work for the youth, and all who fell on the youth were all defended by the destiny.

But this time, Ye Xuan's tricks are not ordinary, but the second kill skill - Shenjian!

"what?"

The young man's eyes widened and he couldn't believe it.

This is a sword, the power is obviously stronger than his full blow, how is it possible?

Is this just an attack that can be issued by a nine-product life or death?

impossible!

The young man has not reacted yet, and he was smashed by the sword. He was instantly cut into two halves and died on the spot!

Excalibur has a spike effect, but even if it is not, the power is enough to clean up the youth.

Of course, if the non-Ye Xuan seriously hurts the strength, I am afraid that this sword will not be able to reach the youth. Because, every time you use the Excalibur, Ye Xuan himself has to cut with a sword.

The speed of the Excalibur is the same as him!

Since the blood of Zhu Xian has disappeared, Ye Xuan's mind will no longer sound the sound of killing.

At the moment, he took the body of the young man in the air, and the five best purple stones, and the one in the main hand of Yuding City, all fell into the hands of Ye Xuan.

In addition, there are a lot of talents in the youth's Qiankun ring.

"Ok?"

At this time, Ye Xuan suddenly found a golden light group in the air. He quickly searched the memory of the youth and found that this golden light group is the so-called destiny.

The destiny can be understood as the air transport, and the more the destiny is, the more it will be taken care of.

The higher the level of destiny, the faster the cultivation speed, the longer the life expectancy, the higher the chance of encountering an adventure, and the overall benefits are many.

This young man is only a half-step emperor. He has only a third-class fate, and he is a half-step emperor.

Chapter 2046: Purple gold ruins

There are a total of ninety-nine in heaven, and every thirty-three is a big realm.

From the first-class destiny to the thirty-three heavenly life, it is a half-step emperor's realm. The thirty-four heavenly life is sixty-six, and so on. It is the real emperor. If you have sixty-seven heavens, you will enter the realm of the emperor.

Ye Xuan quickly swallowed the destiny of the group. The next moment, he heard a system prompt.

"Hey, the host has swallowed a third-class fate, and the realm has broken through to a half-step emperor!"

Realm, really broke through!

Now, Ye Xuan is also a person who has been favored by God.

However, at this time, the golden light group in Ye Xuan's body is smaller than that of the young. After all, he has captured the fate of other people and cannot fully refine it.

In other words, even if Ye Xuan gets a ninety-nine-day fate, he will not break through the nine-time eternal emperor. However, he knew that he must be able to reach that realm.

He only searched the memory of the youth. At this time, he already learned why the youth had to buy a lot of purple stone and the best purple stone.

This young man comes from the fifth heaven, a power called Akori.

They had discovered a relic before, but the ruins were in crisis. They were all surrounded by purple gold beasts. Only those who wore purple gold armor would not be attacked by these purple gold beasts.

It is said that this ruin is left by a suspected emperor, and there may be a dazzling heritage.

"People wearing purple gold armor will be considered by the purple gold beasts, but they may also be exposed. Zijin armor is divided into ordinary purple gold armor and the best purple gold armor, the best purple gold armor, not easy to be found!"

Ye Xuan thought about it.

I don't know if it will be attacked if he enters that seat.

He is now open the Zijin Swordsman, has a set of purple gold armor, this set of purple gold armor, is certainly much stronger than the best purple gold armor.

I don't know, will you still be exposed when wearing this set of purple gold gods?

However, Ye Xuan likes this kind of relic, because he also has a sword god, once he is passed down, then the strength can advance by leaps and bounds.

This ruin of Zijin is a cave house suspected of being demolished by the Emperor of the Emperor. There must be a lot of good things in it.

Maybe, there is a huge destiny!

As long as you get the fate, then Ye Xuan's strength can be mad again.

Although it is unlikely to make a direct breakthrough to the emperor, the high-order half-step emperor should be no problem.

"Now, I have broken through to the half-step emperor, with the power to break through the four heavens, I can go directly to the five heavens!"

Ye Xuan thought in his heart, that is, the direct use of the power of the destiny, broke the fourth heaven.

Then he broke into it and plunged toward the Five Heavens.

Nine heavens, one weight is greater than one, the first is the smallest, and the ninth is the biggest.

From the fourth heaven, Ye Xuan came to the fifth heaven, just in the territory of the Chirizong.

"I heard that the fifth heaven is more cruel than the fourth heaven. Even if there is no interest dispute, there may be swords and swords."

Ye Xuan eyes a glimpse.

After all, the half-step emperor can plunder the destiny of others and enhance their own strength. If there is an opportunity, they will certainly do it.

Now that Ye Xuan has broken through to the half-step emperor, he also needs a lot of destiny to break through, but he is not prepared to enter this Chirizong, but directly plunges in one direction.

There, where the remains of Zijin are!

Along the way, Ye Xuan encountered a lot of people, all of which are a half-step Emperor level.

They saw that Ye Xuan was just a person, so he wanted to kill and plunder his destiny.

Unexpectedly, all were killed by Ye Xuan!

"The higher the realm, the harder it is to break through. After breaking through the half-step emperor, it has already killed dozens of people, and there is still no breakthrough."

Ye Xuan shook his head helplessly, and then swept away to the purple light of the sky.

The ruins of Zijin, it is here!

The remains of Zijin have actually been opened for many years. In addition to Chiri, many people are collecting purple stone.

Anyone who enters the remains of Zijin is wearing a purple gold armor, or the best purple gold armor, but there are very few who can live out.

Ye Xuan came to this huge Zijin Palace and watched it.

This Zijin Palace is not big. There are two lion-like purple gold beasts guarding the door. From a distance, you can see a ladder leading to the ground.

"The deity still does not enter, let the sword \*\*\*\* split!"

Ye Xuan's eyes stunned and let the sword \*\*\*\* split up.

However, the sword \*\*\*\* was just close, and was attacked by the two purple gold beasts.

"Booming!"

Suddenly, these two purple gold beasts will be assigned to the wheel x, and the latter will be beaten and beaten, and there is no power to fight back.

Ye Xuan estimates that the strength of these two purple gold beasts should be in the middle-level half-step emperor level.

I heard that only those who wear the purple gold armor and the best purple gold armor will not be attacked by the purple gold beast.

Of course, the two armor are confusing each other's judgments. The best purple gold armor is not easy to recognize. The purple gold armor is easier. There are already many people wearing purple gold armor who want to fish in the past and die. Two purple gold beasts under the beast.

Now, Ye Xuan has only the best purple stone, not the best purple gold armor, so it is not acceptable.

However, Zijin Swordsman, maybe!

At the moment, Ye Xuan let Zijinjian serve the horse, and then he saw the Zijinjian waited into the Zijin Palace and was not attacked by the Zijin Beast.

Sure enough, Zijinjian was judged to be the same by these purple gold beasts.

It is a pity that the purple gold sword is passed, not the sword god, or Ye Xuan can enter the palace through the sword god.

But he also has a way!

"Purple Gold God, now!"

Ye Xuan's flash of light flashed, and a set of purple armor came out under the illusion of the gods. It was like a scale that covered Ye Xuan.

He tried to pass the past and went to the position where the sword \*\*\*\* was separated.

Sure enough, these two purple gold beasts did not attack him!

"well!"

Ye Xuan satisfactorily nodded, and then entered the Zijin ruins.

As soon as he enters, the sword gods can immediately follow up, and when they exchange each other, it is equivalent to the sword \*\*\*\* avatars in this purple gold ruins.

If there is a level that has not been seen, Ye Xuan will personally dispatch.

In this way, Ye Xuan entered the ruins of Zijin.

After walking down the long ladder, Ye Xuan came to the Zijindi Palace and looked around. There was an open door in all directions, and I didn't know where to go.

Ye Xuan didn't want to stay in this high-level place for a long time, so he broke away from the void and left the sword \*\*\*\* and Zijin sword.

Chapter 2047: Level

Then, the sword \*\*\*\* separated the old and black corners and then entered the four passages.

However, not long after, Ye Xuan's mind heard two system prompts.

"Hey, flame swallows unicorns to die!"

"Hey, devour the black scale dragon to die!"

Then there is the tone of the resurrection of the two.

Through the sharing of vision, Ye Xuan can see that the old and black corners of the tree are killed. It is a purple light and shadow. It must be a kind of purple gold beast.

Not only that, but the sword \*\*\*\* avatar also encountered this time.

"Boom!" "Boom!" "Boom!"

In the passage where the sword \*\*\*\* was separated, there was a loud noise, which was the voice of the sword god.

However, the invincible sword \*\*\*\* is separated, and with the King Kong not bad body, the trick is to use the purple gold beast to hurry.

This way of rushing is also unprecedented!

After a while, the sword \*\*\*\* who flew out was seen as a human corpse behind him, and immediately took it out using the space to take it.

This human corpse is wearing an ordinary purple gold armor. Although it has passed the guard, it was killed by these patrolling purple gold beasts.

The sword \*\*\*\* separated his body and Ye Xuan quickly searched the soul to see if there was anything about the remains of this purple gold.

In addition, there is a golden light group floating above the corpse, and this is not fortified by the sword god.

The deceased, just a piece of sancture, the second half of the emperor's realm, is higher than the younger Ye Xuan killed.

However, there is nothing worth mentioning in this person's memory.

After Ye Xuan swallowed his destiny, his strength rose.

I have to say that God is really a good thing. The higher the level of destiny, the more likely it is to be favored by Heaven. Like this kind of relic, people with higher destiny are more likely to encounter opportunities.

However, this Zijin ruins is the most tempting for Ye Xuan, and the bodies of the deceased, because of the body, almost can get the fate.

At the time of Daojun's realm, Ye Xuan had the ability to resurrect others, and it was easy to resurrect others at that time.

Although the birth and death of the species has been turned into a fruit, but Ye Xuan is still the ability to return to life, that is to resurrect with the destiny.

Of course, if you use the destiny to resurrect, you need to consume a lot of destiny. It is better to resurrect those who are below the level of the Emperor. If you want to resurrect the half-step Emperor-level master, you have to pay a huge price.

If a half-step emperor with a first-class fate dies, others who want to resurrect him can consume their own destiny and pour into each other's body.

However, the price is terrible. If there is a strong third-class fate, it may be revived at the expense of falling.

If you are a peerless genius with a half-god-like bloodline like Ye Xuan, I am afraid that a master with a ten-day fate or even a twenty-day fate will be resurrected in a self-damaging manner.

In short, the higher the talent, the higher the cost of resurrection!

However, it is not difficult to let a person with a celestial destiny resurrect a person who has a first-class destiny, but it is extremely easy.

The destiny is divided into ninety-nine, etc., each has a gap.

A second-class destiny is not the same as two first-class destiny. It may be five or ten.

Twenty heavenly life may be equivalent to tens of thousands of first-class fates. For him, the resurrection is just a matter of raising his hand.

In other words, Ye Xuan naturally does not consume destiny to resurrect these people.

These corpses are experience values for him. Just let him grow up, let alone the purple gold beast, even if it is the ruins of this purple gold, it is not necessary.

Then, the sword \*\*\*\* continued to be smashed and rushed in an unusual way.

Although the sword \*\*\*\* is easy to use, the system also gives him a flaw, that is, you can not use those defensive skills, such as Zijin Shenjia, because this is useless.

In addition, although the sword \*\*\*\* can be put on the virtual spirit armor, but the increase of the virtual spirit armor has no effect on him, can only use stealth.

While the sword \*\*\*\* was violently violent, the other side of the purple gold sword waiter also encountered a beast.

However, the Zijin Swordsman and the Sword God are different. The former is made of special purple gold, so it is regarded as the same by the Zijin Beast.

"Hi!"

Zijinjian waited directly from the front of this purple gold beast, and also greeted him amicably.

"Roar!"

This Zijin beast made a low-pitched voice and didn't know what to say.

In this ruin of Zijin, Zijinjian is much better than the sword god. They follow this road and encounter many bodies on the road.

But let Ye Xuan helplessly, Zijinjian can not use the Qiankun ring, and can not carry out the special positioning of the void, so Ye Xuan let it back, sent Wei Zhentian to follow him.

In this way, all the bodies on the road will be collected!

During the period, after Ye Xuan swallowed so many destiny, he finally broke through the two-step half-step emperor.

However, those who died did not know the ruins of this purple gold.

However, Ye Xuan got a set of broken Zijin Armor, which he got from a 'not self-reliant' body.

He estimated that this person who is not self-sufficient, is playing the idea of the purple gold beast, and then was killed by the purple gold beast, and finally cheaper Ye Xuan.

Ye Xuan used the purple gold sword to produce the best purple stone, and after repairing this set of damaged Zijin armor, let the sword \*\*\*\* wear it.

In this way, the sword \*\*\*\* avatar also has a great chance to cross the sea, when it encounters the purple gold beast, it will be regarded as the same kind by the other party.

However, this passage is also too long. The sword \*\*\*\* and Zijinjian have been busy for a full day and have not yet stepped out of the passage.

But this can also be said. After all, this is a master of a suspected emperor level. Like a master of that level, the destiny is more than thirty. In the case of the blessing of the gods, it is not necessary to spend much through this channel. time.

Finally, on the second day, Zijin Jianshi took the lead out of the passage.

He came to a partial temple, and as he walked out of the gate, dozens of doors around him were instantly closed, including the one behind.

Then, the ceiling suddenly opened and a purple gold beast came down.

This Zijin beast, if you don't say anything, will rush to Zijinjian.

"what happened?"

Ye Xuan is a bit confused about the situation.

Zijinjian waiter, it should be said that it will not be recognized, how can it be attacked?

However, he did not care so much, and immediately let Zijinjian serve back.

At the same time, Megatron and the other side of the sword \*\*\*\* avatar is already a good position for the void, and then first transmitted to Ye Xuan, and then broke through the void to support Zijinjian.

Chapter 2048: Purple Emperor

"God of War mounts!"

Ye Xuan allowed the sword \*\*\*\* to use his skills and summoned a silver dragon.

Silver-class mounts, although not as strong as the gold-class mounts, are still very helpful for this battle.

In addition, the old trees and the black horns were also smashed out, and even Megatron was turned into a virtual spirit, which was placed on the old tree.

"Booming!"

A burst of loud noise spread, and it continued to echo in this partial hall.

At this time, Ye Xuan discovered that there were many bodies in the palace, and it seems that they were all killed by this purple gold beast.

"It's almost four-and-a-half-step emperor level, not too strong!"

Ye Xuan's eyes glimpsed a little, and thought in his heart.

He estimated that this is a level in the ruins of Zijin, and it is necessary to kill this purple gold beast to continue moving forward.

At the moment, he is letting the black horns devour the bodies into the phagocytic space.

The body, a total of nine, the strength is not weak, at least three times a half-step Emperor.

Ye Xuan got their ring and the fate, and then swallowed it.

"Hey, the host breaks through, and is currently a three-product half-step emperor!"

Waiting for this system to prompt the sound, the breath of the sword \*\*\*\* and other people suddenly skyrocketed.

However, even if it is a breakthrough to the three-product half-step emperor, the sword \*\*\*\* and other people also spent a lot of time to solve this purple gold beast.

"Hey!"

In a crisp sound, the purple gold beast was directly smashed into pieces of purple gold, and then the surrounding doors were opened again.

It is just a four-and-a-half-step emperor-level purple gold beast. It can't stop Ye Xuan's footsteps.

Ye Xuan let the sword \*\*\*\* avatar in the past to look at it, and found that this purple gold beast has a great purple stone.

Before, on the road, he actually killed a weak purple gold beast, and the purple gold beast also has a favorite purple stone.

However, at this time, the best purple lapis obtained by Ye Xuan, turned purple.

"Hey, black gold stone can be used to strengthen the purple gold sword waiter, strengthen to a certain level, Zijin sword waiter can be advanced to black gold sword waiter!"

"Is it strengthened immediately?"

The system suddenly prompts.

Hearing this, Ye Xuan replied without thinking, "Yes!"

Then, this black stone was merged by Zijinjian, and the strength of Zijinjian was improved.

Black stone, Ye Xuan has also heard that it is a higher grade ore than the best lapis lazuli, and the black gold liquid inside can also be used to forge the eternal device.

At the same time, if it is the best black stone, it is one of the materials used in the emperor.

The quasi-emperor and the emperor, although only one word difference, is the gap between the emperor and the emperor.

The Emperor is the weapon of the Emperor level!

This shows that the precious black stone is precious.

"It is no wonder that this purple gold beast is so strong, the original body is black stone. Do not know, is there any black diamond in the remains of this purple gold?"

Ye Xuan thought in his heart.

If there is the best black stone, then the purple gold sword waiter can be advanced into the black gold sword.

This Zijin battle beast has already been solved, so Ye Xuan has made a few roads for the sword \*\*\*\* to be separated.

This purple gold ruin is a bit like an ant nest, extending in all directions. Although there is only one way to go every time, but Ye Xuan can be sure that some roads will lead to the same place.

Along the way, Ye Xuan saw a lot of corpses, but this time, the corpses he encountered were not weak, at least three levels of the Emperor.

Presumably, these people are the masters who passed the pass!

As a result, they are cheaper!

Then, he continued to move forward. Black horns, old trees and other weaker ones will be killed by the purple gold beasts along the way, so they can only be separated by Zijinjian and Sword God.

This stay is more than ten days!

In these more than ten days, Ye Xuan has gained a huge destiny, as well as a heavenly treasure that enhances the life of the life. The realm has already broken through to the six-product half-step emperor.

During this period, he passed the three levels, which defeated the purple gold beasts in the three palaces and got some black stone.

Today, he came to the fifth partial hall. At this time, in front of him was a huge purple gold beast.

Its realm, I am afraid to reach the eight-and-a-half-step Emperor level!

Ye Xuan let the Zijinjian and the sword gods and other people attack, but it is not hurting this purple gold beast.

In desperation, he had to decide to use the cards!

Excalibur!

A sword, directly to the Zijin ruins to break open, and then squatted on this purple gold beast, directly split it into two halves.

Just kidding, the Excalibur can be broken even in the sky, not to mention this eight-and-a-half-step emperor-level beast.

In an instant, Ye Xuan got a large black stone in his body, which greatly enhanced the Zijin Swordsman.

However, this Zijin ruin has the ability to automatically repair, the crack on the top of the head is instantly repaired, but it does not matter, after all, Ye Xuan does not want to leave.

However, after using the Excalibur, this skill enters a cool state and can no longer be used.

Fortunately, Ye Xuan has a large number of quasi-dioper-level swords, which instantly restores cooling to four-fifths.

However, just as the eight-and-a-half-step Emperor-level purple gold beast died, a virtual shadow suddenly appeared in the center of the temple.

"Hello there!"

The sound fell into Ye Xuan's ear, which made him a little surprised.

"you are....."

Ye Xuan looked at the shadow of the young man in front and couldn't help but ask.

"I am the Purple Emperor, the owner of this ruin!" said the young man.

"Oh, it turned out to be a senior!"

Ye Xuan hurry to hold the fist.

"You don't have to pay more, I have something to do!" Zijin Emperor said.

"Predecessors please say!"

Zijin Emperor paused and said: "I don't care. Although I am the master of this relic, I was actually suppressed by this, so I want you to help me out!"

"What?"

Hearing this, Ye Xuan stunned.

He originally thought that the Purple Emperor was dead, and there was a broken soul in front of him. This ruin is actually the tomb of the Purple Emperor.

However, he did not expect that the Purple Emperor was only sealed.

Just as he was surprised, a system sounds and sounds in his mind.

"Hey, the host triggers a chain of random missions to help the Purple Emperor get out of trouble!"

Ye Xuan's brow jump, he has not encountered serial random tasks for a long time.

At the moment, he is accepting.

"How do you break the seal?" asked Ye Xuan.

"It's very simple. I was sealed under the central palace of this ruin. In this central palace, there is also a black gold beast with a nine-and-a-half-step emperor's peak. If you can kill it, then I can break the seal!"

Zijin Emperor said to Ye Xuan.

## Chapter 2049: Commission

"So simple?" Ye Xuan's brow was a pick.

"simple?"

The Purple Emperor is very surprised. He said: "There was only one black gold beast in the original Zijin ruins, which was the black gold beast of the emperor." Get out of trouble!"

"You can kill this eight-and-a-half-step emperor-class black gold beast. It is good, but you have to know that the one in the central palace is ten times stronger than this one. If you step into the central palace. Will be killed in an instant!"

"Since this is the case, the younger generation may not be able to help." Ye Xuan shook his head.

"Don't worry, listen to me!"

Zijin Dijun shook his head and said: "I was seriously injured by a sneak attack, and then I was sealed here. The man left a powerful black gold beast to suppress me."

"However, I can give you the black stone that I have gathered from these people. You can use them to strengthen your embarrassment."

After listening to it, Ye Xuan was a little surprised and asked: "The black stone that condenses?"

"Yes, I am not a human being, but a purple gold demon. We can condense purple gilt, the best lapis lazuli and the black lapis stone even the best black stone in every once in a while. Unfortunately, I was seriously injured and sealed here. Just out of the black stone." Purple Emperor shook his head.

Originally, he was the realm of Emperor Jun. After the serious injury, he was only a nine-and-a-half-step emperor. There was no way to break the seal.

“What is the best black stone?” Ye Xuan’s brow picks up, “How many black stones are there in the predecessors?”

"wait."

When the Purple Emperor finished speaking, it disappeared.

Ye Xuan waited here for a while, and soon after, there was a black gold beast carrying a singularity to return.

At the same time, the illusion of the Purple Emperor also appeared again.

"I have been trapped for so many years, I can only break the seal off a small mouth. This Qiang Kun ring is the black stone that I have condensed for many years." Zijin Emperor let the black gold beast give the ring to Ye Xuan.

Ye Xuan looked at it and his eyes lit up.

There are at least tens of thousands of black stone in it, which is absolutely enough for Zijinjian to advance to the black gold sword.

At the moment, Ye Xuan is to use these black gold stones, all to strengthen the Zijin sword waiter.

"Hey, Zijinjian is a black gold sword waiter!"

As for the others, Ye Xuan was used to forge the quasi-emperor, and then restored the cooling time of the Excalibur.

Now, Ye Xuan already has the ability to kill the black gold beast.

"Predecessors, let me go." Ye Xuan said to the Purple Emperor.

"Now?" The Purple Emperor heard this, very surprised.

"Correct!"

Ye Xuan nodded: "Reassure the predecessors, this time standing in front of you is also a jealousy, my deity is not there."

"puppet?"

Zijin Emperor glimpsed, he felt that the sword \*\*\*\* is clearly the flesh and blood, how can it be?

However, Ye Xuan said this, it should be, after all, he is only a shadow.

"Okay, then go try it!"

Zijin Emperor did not say anything, directly opened the largest door.

Then, the black gold swordsman and the sword \*\*\*\* were separated side by side.

These gates are guarded by the law. If you don't pass the past, you can't see what is behind the door.

After waiting for the black gold swordsman and the sword \*\*\*\* to enter, they saw the huge palace of the black gold giant.

Presumably, this black gold giant is the black gold beast that suppresses the Purple Emperor.

"boom!"

At this time, the black gold giant who was up to 100 meters suddenly moved because it was ordered, and all those who entered the central palace would be killed.

The sword \*\*\*\* avatar and the black gold sword waited for nothing, directly hands-on, suddenly, the two sides began to fight.

This black gold giant is a nine-and-a-half-step Emperor, and the strength is very strong.

The sword gods and the black gold swordsmen are just six-and-a-half-step emperors, which are different from each other.

The gap between these three realms makes the sword \*\*\*\* and the black gold sword serve, and can not hurt this black gold giant.

"No matter, hey!"

Ye Xuan also did not care so much, and directly applied the Excalibur.

The remains of Zijin were once again broken.

"boom!"

The sword fell, and the black gold giant was split into two halves and killed instantly.

Not to mention this nine-and-a-half-step Emperor-level black gold giant, even if it is the Emperor's move, it must be directly degraded.

As a result, the biggest boss in the Zijin ruins was solved by Ye Xuan.

At the moment, Ye Xuan is quickly rushing over and taking the black stone in the black gold giant body together with the body.

"Hey, the best black stone?"

At this time, Ye Xuan suddenly discovered a point, this black stone, turned out to be the best black stone.

This thing, only the Emperor-level Zijin people can condense out.

It seems that the suppression of the Purple Emperor is really a \*\*\*\* one.

However, what makes Ye Xuan unreasonable is that the Purple Emperor has been seriously injured. Why didn't the person directly kill him, but instead suppressed it?

Just as he was surprised, the central part of the central palace suddenly began to tremble.

Underground, it seems that there is something that wants to break out!

Ye Xuan understands that this must be the Purple Emperor, so he immediately keeps up and comes to one.

After a while, the seal was broken, and Ye Xuan finally saw the Purple Emperor.

However, the situation of the Purple Emperor is much worse than he imagined.

"Thank you, or I don't know if I can leave this ghost place in my lifetime!"

As soon as the Purple Emperor appeared, he immediately thanked him.

His destiny level has been more than thirty-four, which is the level of the emperor.

However, with the seal, the destiny is constantly consumed, so the realm has fallen.

In addition, he constantly condenses the black stone, and then uses the fate to form the purple gold beast, the black gold beast, which aggravates the weakness, so there are only six products and half-step emperors.

"Predecessors are polite!"

Ye Xuan opened his mouth and smiled.

This time, if it is not the Purple Emperor, he may still need to spend a lot of time to get through the remains of Zijin.

Moreover, his serial random task is also triggered by the Purple Emperor. I don't know what kind of reward will be given after this serial random task is completed.

"I have been sealed for many years, and with these years I have been desperately condensing black stone. I only have seven products and half steps. I need to find a place to live and restore my strength."

Zijin Emperor said.

Upon hearing this, Ye Xuan's eyes lit up and said: "There are just a place in the younger generation."

After he finished, he did not wait for the Zijin Emperor to answer, that is, let the black horn and the tree shoot out, and double-swallow, directly forcing the Zijin Emperor to forcibly engulf the space.

Then, by Megatron Tianhua as the beast clock, forced control of the Zijin Emperor, who is only a six-and-a-half-step emperor.

Although the Purple Emperor is the mission goal, but did not say, can not control him.

Chapter 2050: Serial random task

"Hey, the host completes the first ring of random tasks!"

At this time, the system sounds also sounded, but the second ring sound did not sound.

Ye Xuan's eyes glimpse, and then let the Purple Emperor introduce the situation, for example, why it was suppressed here.

"My purple gold is the young master of the Zijin family. Many years ago, I was attacked by my cousin, and it was sealed by him..."

Zijin Emperor said.

Hearing this, Ye Xuan curiously asked: "The purple wind, why did you attack you, just to suppress you here, not killing you?"

"Purple wind wants to be the patriarch of the Zijin family, and I am his roadblock, so he sneaked at me. However, he did not dare to kill me, because when I die, the family will know that he only wants to suppress me. The family is just thinking that I am traveling outside."

Zijin Emperor replied.

"Oh, then do you think that he has become a homeowner?" Ye Xuan asked again.

"I am not very clear, because he ruined my shackles on the same day, I can't contact the family, but I estimate that by his means, it is estimated that he has become a homeowner." Zijin Dao.

When his voice fell, Ye Xuan's mind sounded a system sound.

"Hey, the host triggers the second ring of the random task of the chain, escorting the Purple Emperor back to the Zijin family!"

Sure enough, this mission is related to the Purple Emperor, and now triggers the second ring mission.

Now, the Purple Emperor has been controlled by Ye Xuan. For the sake of convenience, he directly searched the Purple Emperor.

This search, let Ye Xuan discover the secret of the Purple Emperor buried in the bottom of my heart.

The ancestors of the Zijin family were a purple gold, which later changed, matured, and then continued to multiply.

Later, in the Zijin family, a different ethnic group was born.

The Zijin family of people condensed a black gold mineral in the body, and then the patriarch planted the black gold mine, and then formed a black gold vein.

Finally, the tribes of the Zijin family, through the constant engulfment of black gold, the strength of the entire Zijin family quickly rose.

Today, in the body of the Purple Emperor, there is such a black gold mineral.

In other words, Ye Xuan can also directly create a black gold vein, and this black gold vein will cooperate with the phagocytic space, and the effect will be very good.

At the moment, Ye Xuan directly let the Zijin Emperor take this black gold mine out, which has no effect on the Zijin Emperor.

This is also the change that occurred when the Purple Emperor was trapped in the remains of Zijin.

Ye Xuan picked a place in the phagocytic space, and then planted the black gold mine, plus a variety of heavenly treasures, the land began to black, and a faint black gold light.

The black gold veins have been generated and are beginning to spread.

Although this speed is slow, don't forget that this is in the space of engulfing.

One day outside, it swallowed up nearly 18,000 years in space.

Ye Xuan just waited for an hour, this black gold vein is much larger than the purple gold vein that was originally in Daijia.

Moreover, the black gold stone that is better than the best lapis lazuli is produced here, and there may be a rare black stone.

As long as there are specific natural treasures, the black gold minerals will allow the veins to expand and form a vein that will never be excavated.

"Not bad, the black gold produced in the future can be used to forge the quasi-emperor, and then used to restore the cooldown of the Excalibur. It can also be used to strengthen the black gold swordsman. It really kills two birds!"

Ye Xuan's eyes glimpsed and thought: "If you take the black gold mine of the Zijin family, the efficiency will be greatly improved."

Thinking of this, he was a little eager to wait, and immediately left the Zijindi Palace.

This Zijin Emperor was sealed for so many years, before it was the only wealth that was handed over to Ye Xuan, now it is a poor clinking.

However, just when Ye Xuan was preparing to go to the Zijin family.

"Booming!"

Suddenly, the earth began to tremble fiercely, just like the end of the world.

"what happened?"

Ye Xuan couldn't figure out the situation and looked at it. He found that the remains of Zijin began to collapse, and countless smokes filled the air and covered them.

"Boom!"

Suddenly a shocking big hand, sticking out from the ground, and then suddenly shot, the entire Zijin ruins were flattened.

At this time, Ye Xuan has been hiding far away!

Then, another hand stretched out, then held up with both hands and extended a huge head.

"Zijin Emperor, what is this?"

Ye Xuan quickly put the Zijin Emperor out, the latter came out and looked shocked.

"This is also a black gold beast, but its core, I am afraid it is the best black stone!" Zijin Emperor stunned.

"The best black gold beast?"

Hearing this, Ye Xuan brows a pick, did not expect this purple gold palace underneath, there is such a horrible black gold beast.

Moreover, even the Purple Emperor did not know!

At this time, this one of the best black gold beasts has already climbed out of the ground, and the huge scorpion is staring at the direction of Ye Xuan and Zijin Emperor.

"No, he is the guardian beast that the purple wind has come out. Once I get out of trouble, I will come out and chase me." Zijin Dijun's face changed greatly.

The black gold giant of the nine-and-a-half-step emperor before, compared with the one in front of me, is really a small witch.

This one is the best black gold giant, I am afraid it has reached the realm of Emperor!

"Grandma's, Shenjian can't use it now!"

Ye Xuan brows a pick, and quickly received the Zijin Emperor in the swallowing space.

When the only black gold giant saw the disappearance of the Purple Emperor, he set his sight on the body of the sword god, and then slammed out of the ground and then rushed toward the sword god.

"Booming!"

This one of the best black gold giants is not slow, running like a super earthquake, in the blink of an eye, it is in front of the sword god.

"Hey!"

With one foot, the sword \*\*\*\* is separated and the black gold sword is stepped under the foot.

Hey!

Although it has been advanced once, the black gold sword waiter is still directly trampled to death, as for the sword \*\*\*\* to be separated, it is unharmed.

It seems that things are not good enough!

"There seems to be no powerful forces nearby, it seems that I can only wait!"

Ye Xuan thought in his heart.

In the surrounding forces, at most, the high-order half-step Emperor-level people, in the face of this imperial level of the best black gold giant, is to find death.

Therefore, Ye Xuan can only let the sword \*\*\*\* to drag the tortoise of the best black gold giant, and then wait.

When the black gold veins produce black gold, then the quasi-emperor is swallowed up to restore the cooling of the Excalibur.

As long as the Excalibur can be used, then this super black gold giant, even if it is the level of the Eternal Emperor, can not stop.
