Chapter 206: Three days!

Now, Ye Xuan has already reached the peak of the real Xuanjing, almost able to break through to the half-step Dan Yuanjing, but he now devours nothing in the space, not enough to break through to the half-step Dan Yuanjing.

So, need money!

"That line, I have already booked a lot of materials, enough for you to use." Jiangyou said after leaving, did not disturb Ye Xuan rest.

"Well, I won't bother you anymore. If you said what I said, you should remember it. If you want to see the elders, you must at least enter the top five of the list. As for Tang, you don't have to worry, he can't escape."

After Song City finished speaking, he left, and only Ye Xuan and Song Dianjing were left in the house.

"Then I am gone too, you have a good rest, call me if you need anything." Song Congjing said.

"What do you need, just call you?"

After Ye Xuan listened, his eyes were bright, and he nodded.

.....

After a night's rest, Ye Xuan also recovered to the peak, which recovered quickly, and even he felt surprised.

Early the next morning, he went to Jiangyou.

"Ye Xuan? Are you recovering?"

When Jiang You saw Ye Xuan, he was shocked because he seemed to have nothing to do with Ye Xuan. Instead, he was stronger in strength than before.

"Yeah, it's back." Ye Xuan nodded. "Brother, how many forging materials are there?"

"One hundred, is enough?" Jiang Youyi opened his mouth and smiled.

"One hundred, one hundred?" Ye Xuan's eyes widened.

Now, with a top grade, he only needs five million swallowing points, but he can sell 1,500 pieces of crystal spar. One hundred, that is the 150,000 yuan in the crystal, absolutely let him break through to the half-step Dan Yuanjing.

"Yes, it's enough for you to use for half a year." Jiang You nodded. Because there was no fortune teacher, there was not much material.

But now, he has already gone a lot to go elsewhere.

"Oh, brother, I will get it for you in three days!" Ye Xuan smiled.

"Three days? It seems that you have not fully recovered." Jiang You paused. Before Ye Xuan was a Shangpin Spirit for two days, now it is three days, obviously it is a step backward.

Ye Xuan did not defend, said: "Senior brother, give me the materials."

"Oh, OK."

Jiangyou nodded slightly and took all the materials directly.

Ye Xuan took all the things into the swallowing space and prepared to enter the forging room. But then, he thought of a problem.

He didn't swallow the points!

"This... brother, can you advance me to the spar?" Ye Xuan asked weakly.

"How much do you want?" Jiang You asked unexpectedly.

"Five thousand crystals!"

Ye Xuan opened the door.

"fifty thousand?"

Jiang You was also shocked, but he didn't ask much. Now Ye Xuan's identity is not ordinary, so he took out the spar very simply.

"Thank you brother."

Ye Xuan took the spar directly into the forging room.

Three days later, he just came out.

Jiang You was still sitting in the Armory Hall. When he saw Ye Xuan coming out, it was also a strange saying: "Oh, Ye Xuan, have you forged a fiery sword?"

Ye Xuan did not open his mouth and took out two large boxes directly from the phagocytic space.

Jiang You opened it a little strangely and found that there were piles of swords lying quietly inside, and all of them were top-grade swords.

"What? So much..." Jiang You was shocked.

"Brothers, a hundred fire swords are all completed!" Ye Xuan said slowly.

hiss!

As soon as this was said, Jiang You also took a breath of air.

Three days, forged a hundred top-quality spirits out?

How can this be?

Jiangyou suddenly squatted down from the lounge chair and looked at it. He found that these fire swords were indeed the same as before, without any embarrassment.

"Ye Shidi, you..." Jiang You was already surprised to say nothing.

"Senior brother, I am also blessed by misfortune, not only broke through to the half-step Dan Yuanjing, but also improved the forging technique." Ye Xuan said with a smile.

"Improve? Is it a little too much for you to improve?" Jiang You's eyes widened.

Within three days, it broke through to the half-step Danyuan. This is not the focus. The key point is that forged within the past three days, hundreds of top-quality swords have been forged.

This speed is called enchanting!

"Right, brother, if you can, can you help me with some other materials?" Ye Xuan suddenly said.

"What do you want?" Jiang You asked.

"Mysterious iron, black sand..." Ye Xuan said a dozen kinds of materials.

After listening to Jiangyou, he was amazed and said: "These are the materials for forging the weapons of the prefecture. You should not..."

"Well, there is a breakthrough in forging ability, I want to try." Ye Xuan said with a smile.

Jiang You hesitated, then nodded: "Okay, then I will get some."

Then, he took out 100,000 Chinese crystal spar. This is the reward of Ye Xuan forging a hundred fire swords. Since he had predicted 50,000, he had only 100,000.

Subsequently, Ye Xuan is leaving directly.

During these three days, he used the 50,000-class crystal spar to break through the half-step Dan Yuanjing. Moreover, there is no need for any level of practice, no flaws, this is the benefit of the phagocytic system.

Now with this 100,000 Chinese crystal spar, he has another 1.5 billion swallowing points, enough for him to spend.

However, if you want to break through the half-step Dan Yuanjing to the Shen Dan, the required cultivation resources are far from enough. It is impossible to have no million crystals.

But these are all words, and now he still has one thing to do.

The list of the land, the top ten!

However, he had just left the house and there was a figure coming towards him.

"senior!"

Ye Xuan respectfully said hello.

"Ye Xuan, you really recovered..." Song Cheng was very surprised, but did not think much, said: "This time to come to you, there is something to tell you, then Tang Xun escaped."

"what?"

Ye Xuan was shocked. Didn't he say that there was a master who took the opportunity to catch the Dapeng, and how could he be escaped?

"Tang Xun escaped, not only that, Tang Tian also disappeared, and the Datang Alliance directly collapsed." Song Cheng said.

"This....."

Ye Xuan paused.

Song City slowly said: "You have to be careful recently."

"Well, I will pay attention."

Ye Xuan also understands that he has been hated by a strong god. If you don't pay attention, I am afraid that you will die.

"Well, since it has been restored, it will be more hard, even if it breaks through the half-step Dan Yuanjing, you can't relax, and strive to break through to the gods."

After Song City finished speaking, he turned and left.

He is the cultivation of Shen Dan, and although Ye Xuan deliberately suppresses it, he can't beat him.

However, he did not have many accidents. After all, there is Ye Chong, the god-level enchantress, and Ye Xuan, the 16-year-old half-step Dan Yuanjing, what counted?
