

## Super D. S 209

### Chapter 209: Cooperation

"Ye Xuan, I have heard about it. I didn't expect you to be the son of Ye Chong. You know, Ye Chong used to be one of my apprentices."

An old man squinted, he is the elders of Lingxiao, Zhou Yan.

After listening to Ye Xuan, she was also shocked. I didn't expect this elder or Ye Chong's master to be a family.

"Ye Chong this kid, I have not left for half a year after coming into my door, and then I will not go back. I did not expect that he has already entered the miraculous environment, which really surprised me."

The old man sighed and shook his head. "But, today we are three people coming, not for Ye Chong. Kid, is that six yuan Dan really refining you?"

Not waiting for Ye Xuan to open, the Song ruling on the side is to open his eyes and say: "Master, that six yuan Dan is really a god, I have already condensed Dan Yuan."

"I know, you sit down first." Zhou Yan nodded.

"What kind of medicinal medicine is the six-yuan Dan? Even I have never heard of it. Kid, can you show me Dan Fang?" The chief alchemist even the elders said with some excitement.

Although the three people in front of the eyes are the top of the Lingxiao House, but the Dan Fang of Liu Yuandan, but he spent a lot of swallowing points for change, can you say it?

"Sorry, even the elders." Ye Xuan shook his head.

"Don't worry, I can buy it from you, isn't it enough to have 10,000 stones?" Even the elders offered the price directly.

Ten thousand top quality spar!

Hearing this price, Ye Xuan couldn't help but \*\*\*\* a sip of air.

Ten thousand top grade spar, that is equivalent to one million Chinese crystal spar.

You must know that he had worked hard for three days of the fire sword, and only 150,000 of the crystal spar.

I am going!

The alchemy teacher is rich, and the alchemy teacher in Didan is even a big local tyrant. One opening is a million crystals.

"it is good!"

Ye Xuan agreed, took out the paper and pen directly, and began to write wildly.

Two minutes later, the Danfang of Liuyuan Dan was written by Ye Xuan, and the details were very detailed. There were dozens of preparation steps.

"Good, refreshing, the boy took it." Even the elders took a bag of spar directly from the ring.

Ye Xuan took it and opened it.

Lying in the trough!

There are five corners of spar!

The second product spar is round, the next product is spar diamond, the middle crystal spar triangle, the upper product spar is square, and the five corner spar is the best spar.

One hundred pieces of the best spar, that is, 10,000 top quality spar, one million medium quality spar.

The number is correct!

"Make a big profit, this Nima is a big local tyrant, 800 million engulfing points is also eight hundred high-quality spar, turned over ten times up!"

Ye Xuan's heart is already happy.

However, he broke through to the half-step Dan Yuanjing, the upgrade experience is already invisible, and this is not enough.

The chief alchemist of Lingxiaofu received the Danfang look at the elders. His face was also a sinking one. He said: "Boy, is this Dan you really?"

"It's true!" Ye Xuan nodded.

"This Dan Fang, I can barely refine, and you are only half a step of Dan Yuanjing, how do you refine it?" Even the elder asked strangely.

"This....."

In the heart of Ye Xuan's thoughts, he explained: "I have received a predecessor's inheritance and got a special alchemy method and refining method, so this Danfang is not difficult for me."

Now his technique of lying is greatly improved, as long as he casually fabricates a person who is ignorant.

"I have a piece of material here. Can you refine one on the spot?" Even the elders are obviously interested in this particular alchemy method.

"Sorry, I made a swearing oath before, and I can't make alchemy and forge in front of others." Ye Xuan shook his head.

"Ok."

Even the elders did not insist on it. Since they have sworn, if they violate it, they may have a demon in the future, which will have an impact on cultivation.

At this time, the chief refiner of the Lingxiao House, Hu Changlao said: "Jiangliu said that you have created a hundred top-quality swords in three days. Is this true?"

"Yes." Ye Xuan nodded.

"Building a hundred top-quality swords in three days, even the old man can't do it. It seems that your method of refining is very special. Now you have to forge the materials of the earth, do you want to try?" Asked again.

Ye Xuan nodded again.

"Well, I have a piece of earth material here, you can see if you can create one." Hu said.

He can also forge the ground, but it takes a lot of time each time, so he wants to see if Ye Xuan can forge the ground and how long it will take.

"Hu Elder, this is not anxious beforehand."

When the elders of the elders Zhou Yan finished, they looked at Ye Xuandao: "Ye Xuan, if you can, I hope that you can refine the six-yuan Dan for the Lingxiao House. I will prepare the materials for you, and refine the six-yuan Dan. I bought it all with 10,000 crystal spar, how?"

"A thousand yuan in the spar..." Ye Xuan calculated it.

The material of a six-yuan Dan is about 5,000 crystals, plus the refining cost of 50 million devouring points.

Now, there are free materials available, and he can refine one if he spends 50 million to swallow points.

To put it simply, every time he refines one, he earns 10,000 pieces of crystal spar plus 50 million engulfing points.

This sale, of course!

"Well, a 10,000 yuan in the spar!" Ye Xuan nodded immediately.

"And, the material of the grounder I will also prepare for you, forging success, the material is free, and each piece of the earth is 200,000 crystals." Zhou Yan continued.

"no problem!"

Ye Xuan continued to promise.

If the refining fails, it will pay the material fee. However, will his refining fail?

A land device is equivalent to twenty six-yuan Dan, but Ye Xuan can now have no start-up funds. The map of a piece of land is too expensive. He has to refine a six-yuan Dan.

Subsequently, the top three of the Lingxiao House were left to prepare materials.

Ye Xuan looked at the back of their departure, and the heart was already laughing and opening flowers.

A six-yuan Dan, Ling Xiaofu was purchased with 10,000 yuan of crystal spar, and Lingxiao House still has a lot of strongholds in Zhongzhou. It is definitely a huge profit to sell the six yuan in the past.

However, he is already satisfied with a 10,000-star crystal spar.

It is estimated that after a while, he can break through to the gods, and by then, hitting the heavenly palace is definitely a nail.

Although he is only a passerby, but the unlucky father is so powerful, he will inevitably want to see the side.

Then, Ye Xuan went with the river to return to the land.

That six yuan Dan, Ye Xuan was given to the Song ruling, the latter also laughed and closed his mouth, almost shouted Ye Xuan brother.

As for the remaining six-yuan Dan, Ye Xuan is still waiting for him to wait until the Song Dynasty breaks through the peak of the real Xuanjing.
