

## Super D. S 211

### Chapter 211: Lingxiao House

However, in order to hide the eyes and ears, Ye Xuan spent a full ten days in the refining pharmacy. Later, he went to the weapons hall and borrowed the forging room.

Nebula Sword, the next product, the map needs one billion engulfing points, each forging costs 200 million.

Ye Xuan created ten Nebula swords and spent a total of three billion engulfing points.

Now, he only has more than one billion devouring points, but the task is finally completed.

After half a month, he went to the Tianzhifu in person. To be precise, it is the place where the high-ranking people of Lingxiao House live, Ling Xiaofeng.

He directly found the address of the elders.

Two disciples were guarded outside the house of the elders, but Ye Xuan took out the token given to him before the elders, so he went straight in.

The elders of the elders have the hobby of breeding flowers and plants, so as to cultivate their own body, so the whole house is full of heaven and earth.

When Ye Xuan entered, he saw a lot of good things, but he knew where it was, and he resisted the temptation.

However, he did not leave long before he saw a middle-aged man in white coming out from inside.

The middle-aged man in white looks ordinary, but his temperament is extraordinary. After seeing him, Ye Xuan felt a huge pressure.

"It's so strong, it's stronger than the elders. Who is this person?" Ye Xuan guessed.

The elders of Lingxiaofu are already 80 years old. However, this middle-aged man seems to be more than forty years old, and he has such strength.

Then it can only be one person!

"You are Ye Xuan?" After seeing Ye Xuan, the middle-aged man in white was also slightly stunned and asked in a cold tone.

Now, Ye Xuan is already guessing who this person is.

If he did not guess wrong, this middle-aged man in white should be the head of Ling Xiaofu, Lin Biao.

"Ye Xuan, I have seen the head!" Ye Xuan hurry to hold the fist.

"Oh, it is smarter than your father." The middle-aged man in white snorted, and for Ye Xuan, he had no good feelings.

After all, Ye Xuan's father, Ye Chong, abandoned Lin Wenyue, causing Lin Wenyue to retreat for more than a decade. Even his father has not seen it several times.

"Hey, the boy looks for the elders to have something." Ye Xuan was too lazy to say anything with Lin Biao, and said goodbye.

"Take me a hand, let you pass!"

Lin Biao's eyes glanced and said coldly.

"Sure enough, take me to open the knife! You are looking for someone who offends you, and ask me what to do." Ye Xuan is very helpless, a slap in the face of the strong, can definitely fan him to Spain .

At the moment, Ye Xuan is holding a fist: "The kid will come again next time!"

When he finished, he turned and left.

"you....."

Lin Biao did not think that Ye Xuan was retreating. Even the bargaining was free. He wanted to make a bad breath for his daughter, but he did not forget his identity.

Lingxiao House head!

If you take a shot to a disciple, it is like a reputation.

"Lin Lin, you shouldn't be embarrassed about him." The elders of the elders suddenly came out from behind.

Ye Xuan heard this voice, and his foot was also a meal. He turned and held a fist and said: "I have seen the elders."

"Lin Lin, you are so embarrassed about his son, I am not afraid to come back to find you trouble?" The elder elder said with a smile.

"He dares?" Lin Biao shouted.

"Hey, he is already detached from the gods, and he has entered the miraculous territory, and you can fly you with one finger."

The elders of the elders made a joke, and then they fell on Ye Xuan's body. "Ye Xuan, this is only half a month, it's hard to be done. Your mission has been completed?"

"Yes, please check with the elders!"

Ye Xuan took a big box directly from the Qiankun ring. This is the result of his boring half a month.

Zhou Yan stunned and walked over to open the treasure chest. Sure enough, there were ten swords that were delicately laid out.

He picked up a look and said, "Sure enough, it is a ground!"

That Lin Biao also did not believe in evil, picked up and looked at it, and suddenly his face changed.

The ground device is really a ground device!

Not only that, there are ten small jade bottles in the treasure chest, which is a hundred six-yuan Dan.

"This...this..." Zhou Yan was already surprised to say nothing.

He knows that Ye Xuan has a special refining method, but he also estimates that Ye Xuan will take at least two or three months, or even six months.

However, it took Ye Xuan only half a month to complete the task.

"Before the elders, things are already here, are you..." Ye Xuanchong's elders shook their eyebrows and signaled that they should pay.

Although the elders of the elders were surprised, he still believed in the facts before him, so he took a bag of spar directly from the Qiankun ring and threw it to Ye Xuan.

"There is a 200,000 medium-sized spar in the earth, and a total of two million in ten. Liuhe Dan has a 10,000-small crystal spar, one hundred is one million, hey, he earned three million in the middle. Spar, cool!"

Ye Xuan took the bag and opened it. It was the best spar. Although it was not carefully counted, the elders would never hang him.

"Thank you for being an elder." Ye Xuan hurriedly thanked.

"You kid is a enchanting ah, that six yuan Dan, even the elders at the end of the refining of two, and you ..." The elders are already shocked and have nothing to say.

The chief alchemist of Lingxiaofu can only refine two six-yuan Dans a day, and at most thirty in half a month. The number of Ye Xuan is three times that of him, and the gap is too big.

"Thank you for the elders to praise." Ye Xuan smiled.

If you tell the elders, he can refine everything in five minutes, and the elders will be scared.

"Your kid has contributed more to Lingxiao than your father. However, some materials of Liuyuandan have been used up, and the materials of the earthenware are the same. When the materials arrive, I will call you again."

The elders of the elders said, suddenly they remembered something and continued: "You only entered Lingxiaofu for only three months. From the beginning of the real Xuanjing to the half-step Danyuan, the realm of the realm is too fast and not good. The church has released a good task, you can go to the next, and prepare for the gods."

"Task? What is the mission?" Ye Xuan asked curiously.

"It was a hundred years ago that a bad force revived. It seems to be called the beast god. This beast can control the beast and even the mysterious beast. You can go and see. In addition, you can take this nebula sword." The elders said, they lost the nebula sword in their hands to Ye Xuan.

After hearing the three words of the beast god, Ye Xuan was also a shock to the tiger.

He did not expect that the beast and even the mysterious beast can be manipulated, so that he can kill the mysterious beast, and return to the Xuanyang Empire.

Then, Ye Xuan left directly.

Originally, Ye Xuan also wanted the elders to give permission to go to the prefecture-level martial arts, but now he has got 3 million of the crystal spar, no need to save this point to swallow points.

After all, the prefectural martial arts in the phagocytic system are all fine.
