

Super D. S 215

Chapter 215: Breakthrough, God Dan!

One day later, he finally saw the double-headed snake that would only spit fire and spray poison.

At this point, this double-headed poisonous scale just burned a small town and went in one direction.

"This double-headed squama does not seem to be resurrected with mystery, so there is no need to devour the human body. However, this double-headed poison scale does not seem to have a beast." The two big snakes underneath.

"The beasts of the beasts can communicate with the beasts of the beasts, and some can even control them. However, the ingenuity of the beasts is no worse than ours, so it should be their own actions."

Ye Xuan said slowly, that is, he stood up and said, "You are waiting for Ling Xiao Dapeng. I will solve this double-headed poison scale."

Song Chong hurriedly pulled him: "I will go too."

"No, you daring to dare to grab Nedan with me, while waiting to go, the next mysterious beast to you." Ye Xuan angrily licked the head of the Song Dynasty, and then jumped directly.

"Ah You....."

Song Congjing did not respond, and immediately screamed, but after she had put her head out, I found that Ye Xuan had settled down to the ground.

She was so horrified that she was faint. She didn't expect Ye Xuan to fall from the height of 50 meters, but she dared to use Xuanqi to accelerate. This is really looking for death.

"Big bird, fly high."

Ye Xuan shouted underneath.

Ling Xiao Dapeng immediately met, and then spread his wings.

As for Ye Xuan, he rushed toward the double-headed poisonous scale.

Although he said that his arrow is done, but this is only a mysterious beast, relying only on the top of the spirit of the instrument to add the level of martial arts, I am afraid that the power is somewhat lacking.

Therefore, Ye Xuan is preparing for a close combat.

His right hand swayed, and he took out the nebula sword that was given by the elders of the elders, Zhou Yan, and suddenly there was a lot of Dan Yuan.

These Dan Yuan were attached to the Nebula Sword, and then they began to slowly enlarge, forming a huge sword shadow.

This huge sword shadow is purple, wide and full of three meters, up to ten meters, Ye Xuan holding this purple sword, jumping out of thin air, facing the head of this double-headed poison scale is a glimpse.

"Hey!"

Sword shadow hit the hard scales of the double-headed squama, giving a crisp sound.

At this time, the double-headed toxic scale also noticed Ye Xuan.

Just kidding, snakes and beasts, most of them are known for their defenses. How could they be broken so easily?

"Hey!"

Another fire head of the double-headed poison scale turned over and spurted a fireball directly at Ye Xuan.

"Where is the trough, how about the fireball?"

Ye Xuan screamed in his heart, his left hand patted the palm of the sky.

"boom!"

Dan Yuan spewed out, and the powerful impact made Ye Xuan fall in an instant and escaped the big fireball.

"It's so hot, if I go straight to the move, the hair will be burned out."

Ye Xuan did not dare to have any intentions. After all, this is a mysterious beast that is comparable to the first-time person in the Dan Dynasty. It is a bit worse, but it has to pay the price of blood.

Now, Ye Xuan also understands the defensive power of this double-headed squama, knowing that even if there is a local level and martial arts level, I am afraid it is difficult to kill it. After all, this double-headed venom has two More than ten meters high, he must jump to hit the head of the double-headed scaly scale.

So, there is only one way!

"Grandma's, you have to pay for it!"

Ye Xuan made up his mind and exchanged a new piece of land with more than three billion engulfing points. At the same time, there is also a prefecture-level martial arts.

"Thunderbolt!"

He suddenly filled the arch of the earth. As his right hand fingers loosened, the Danyuan arrow turned into a lightning bolt, and the scales of the double-headed poisonous scales penetrated into the body.

"Hey!"

The double-headed squama screamed painfully, followed by a double mouth, a fireball and a venom sprayed toward Ye Xuan.

In this regard, Ye Xuan unhurriedly stepped on a ground-level martial arts to escape, and then opened the bow again.

"call out!"

Another lightning bolt shot into the body of the double-headed poison scale.

This thundering arrow is 100 times more penetrating than a hundred-step pen, and it is accompanied by a paralyzed effect.

The double-headed poison scale was shot at two arrows, and the speed felt slower, so the threat to Ye Xuan was getting smaller and smaller.

"I hate snakes the most, and hurry to give me death, help me break through to the gods!"

Ye Xuan hearted a few drinks, crazy shooting.

"call out!"

"call out!"

"call out!"

One after another, the lightning bolt broke into the body of the double-headed scaly scale, and it ran away the sharpness of this big guy.

In less than a minute, it has dozens of blood holes that have been burnt, and there is a faint smell of burning.

If it is the general Shen Dan martial arts, I am afraid that this double-headed poison scale can not be used, but it will be ruined by the two heads.

But Ye Xuan is different. It is too easy for him to deal with it, but the Dan Yuan in the body is not enough.

"The last arrow!"

Ye Xuan's flashing light directly condenses the remaining Dan Yuan in his body. This time, he stayed for two seconds.

A flash of electric power flashed, and the thundering arrow broke into a wonderful position of the double-headed poison scale.

Seven inches!

The heart of the double-headed squama was shot through and cooked, so it died in an instant.

Two huge heads fell to the ground, causing the ground to tremble.

Then, Ye Xuan is a slam dunk and presses his hand on the body of the double-headed poison scales.

"Devouring!"

"Hey, the host swallowed a mysterious corpse and got 300 million points!"

"Hey, the host has swallowed a mysterious beast and won 3 billion points!"

"Hey, the host meets the requirements and breaks through to the gods!"

When I heard these sounds in my mind, Ye Xuan couldn't help but scream a few times.

Finally, it's time for God!

Shen Dan, although it is only a first-time person, but his strength, but can be several times stronger, even dozens of times!

"Hey, the blood of the beasts is successful!"

"Hey, the leopard blood is successfully merged!"

"Hey, the integration of Wanhua blood is successful!"

"Hey, the blood of the Sword Emperor is successful!"

"Hey, the blood of the King of Fighters is successful!"

"Hey, the arrow is a ***** fusion!"

.....

These most useful blood vessels were directly promoted to advanced by Ye Xuan, and his swallowing points were also squandered.

"Ha ha ha ha..."

Ye Xuan's laughter spread like a thunder.

The Song Dynasty in the sky was a bit puzzled and said: "This **** should not be crazy. Soon it is killing a mysterious beast. Many of the brothers on the list of heaven have been killed."

However, she still has some envy, because Ye Xuan has already got a mysterious benefactor, as long as the fusion is successful, then it is the **** of the world.

At this time, Ye Xuan still stood on the ground.

After the breakthrough, the system still has a lot of tips.
