

Super D. S 2151

Chapter 2151: Entering the assessment valley

In the realm of the gods, most of the people do not choose any affiliated profession at all, so often every affiliated occupation can get a high status.

Affiliated occupations of alchemists, refiners, banterers, animal trainers, etc., once the realm reaches a certain level, can not be underestimated.

Why did the original beasts of the beasts have such a wide-ranging site, and they were able to receive some special treatments precisely because they were a sacred gate dominated by animals.

Of course, even if it is a subordinate occupation, there is a big difference. For example, if the animal trainer and the refiner are compared, if there is a common situation, there is still a big gap in the treatment.

After all, the beasts and the like, only have the strength to force the service, so the animal trainer seems a bit ribbed.

The refiner is different!

Each of them will refine the ware, which is a great fortune, and those special magic weapons, only they can be refined.

Liu Luo looked at the people in front of him. At this time, he stood on the high platform and looked around. When he saw Ye Xuan, he nodded slightly, and then said:

"You must have known that today is the day of our annual assessment. This time you still need to enter the assessment valley. You should have visited many people in the assessment valley, of course, some people have not been there, then I am here again. A simple statement about the rules."

"Checking the valley is a special mystery that I have specially circled in the training camp. The secrets here are divided into five categories. Your realm is different, so the areas that need to enter are different. God's humanity enters the first district. The gods enter the second district, and so on, your mission is to kill a specified number of target assessment beasts."

"I don't talk much about nonsense. Five hundred points are there. You get five hundred points, or you lose five hundred points. It depends on your performance. Well, let's go!"

"Ye Xuan, leave you!"

Everyone looked at Ye Xuan, but did not say anything, left directly.

Ye Xuan wonders, this minister left himself, what do you want to do?

"minister!"

Ye Xuan looked at the Liu Liu, faintly shouted.

"Well, Ye Xuan, because you only joined me for the first three months, so you can have the right not to participate in this assessment, and will not deduct your points. So, have you given up this assessment?"

Was it this?

Will Ye Xuan give up?

Of course not, all said that the benefits of this assessment valley are much more, Ye Xuan will not be stupid enough to give up such a good opportunity.

"Thank you for the kindness of the Minister, I chose to participate."

"Well, if you choose to participate, then I will give you a detailed explanation!"

"Assessing the beast is a designated target, but in the assessment valley, there are many crises. In addition to various beasts, there are special prohibitions, organs, etc. Once you enter it, you may encounter danger at any time."

"In addition, in the assessment valley, the monitoring of our training camp is not so strong. If someone is doing it to you, I am afraid that I will not be able to rescue it, so you can do it yourself."

"Remember, your goal is the first area. After killing ten heads to assess the beast, don't hesitate to come out, don't care."

Ye Xuan nodded, but in fact, he did not care at all.

Among the first part, only Ye Xuan is such a **** person, but this is also Ye Xuan does not want to rise.

As long as Ye Xuan is willing, even now he can upgrade immediately.

However, although Ye Xuan used the madness to attract the attention of others and attract the attention of others, he was not willing to encounter it because the realm was promoted too fast and caused unnecessary trouble.

After receiving the approval of Liu Liu, Ye Xuan also directly entered the assessment valley.

The assessment valley is a separate mystery. It is a square of the training camp that was opened up in the void alone, but the location is still very large. It is equivalent to the scope of the two borders, that is to say, it is equivalent to two ordinary continents. the size of.

Moreover, after all, the cost of such a secret is definitely huge, so when the training camp was built in this assessment valley, it actually joined forces with several others.

It can be said that in this assessment valley, not only Moshangge, but also other people who participated in the assessment.

Every time you open the assessment valley, you need a lot of resources. In the assessment valley, the flow rate of time is different.

One day outside, it is ten days inside!

The time they have in Ye Xuan is fifteen days, which is the time of 150 days inside the assessment valley.

After one hundred and fifty days, if you can complete the task, it will be forcibly transmitted.

Ye Xuan did not care too much about these things.

At this point, he has come to the entrance.

It can be said that the entire camp, the people entering the first district, add up to no more than one hundred people.

After all, the cultivation of the gods is only a bottom of the realm of the gods.

Most of the people who can enter the training camp are at the lowest level of possession of the gods.

With a flash of light, Ye Xuan has been transferred to the first district.

There are still some people who have gone with Ye Xuan, but these people left immediately after seeing Ye Xuan.

Flying smoke also participated in the assessment, but when Ye Xuan came in, the flying smoke had already left with his companions.

In other words, this time, Ye Xuan can only act alone.

The strength of the beasts is different. In fact, these appraisal beasts are semi-domestic beasts.

Under normal circumstances, you do not actively attack them, they will not actively attack people, and these assessment beasts are acting alone. It can be said that this assessment is not too difficult.

Of course, the premise is that there are no other beasts.

It is a pity that there are not many things in this assessment valley. There are only a lot of beasts, and all kinds of beasts are everywhere.

The scope of the assessment valley is very large, and there are numerous portals. When Ye Xuan walks into the first portal, it is randomly transmitted to a location in the first district.

.....

"How are things going?"

"Don't worry, Big Brother, I work, you can't worry, the boy named Ye, I bought the person before entering the portal, and did the hands and feet of the transfer. This name is the leaf, will be Transfer to the nightmare level area."

"Moreover, I still have a backhand, even if he can escape in the nightmare level, he can't escape my pursuit!"

At this time, if Ye Xuan heard these two people, I am afraid that it will not be so easy.

Actually someone, in the assessment valley, wants to kill Ye Xuan!

Of course, Ye Xuan doesn't know, and even if he knows, he won't care too much!

When Ye Xuan came out of the portal, he was stunned by the sight in front of him.

desert!

The endless desert, he actually came in a desert.

Rolled up the yellow sand, from time to time by the storm, forming a tornado.

The power of these tornadoes is enormous. It can be said that even if Ye Xuan is involved, I am afraid it is very uncomfortable.

Chapter 2152: Nightmare fight

The most important thing is that the formation of these tornadoes does not have a standard at all, and it appears that it appears, even unpredictable.

In addition to the tornado, in this desert, from time to time will also drop the amazing thunder!

"Where is it just an assessment? Is it necessary to make it so difficult?"

Ye Xuan took a moment, and this figure flashed again and again, ready to find his own goal.

Suddenly, a loud noise came from behind Ye Xuan.

Ye Xuan had no time to think too much and jumped off instantly.

I saw the yellow sand, suddenly smashed a weird beast!

This beast, that huge mouth, takes up two-thirds of the whole body!

The difference is that the key is its speed, very fast.

In addition, as soon as it enters the yellow sand, it will immediately lose all traces.

What is this monster?

"Hey, the system prompts, specify the target giant mouth monster, has the two magical powers of the yellow sand phantom and strange power!"

"The average state of the giant mouth monster, the next heaven and earth!"

The system prompts.

However, Ye Xuan was shocked.

It is not to say that the area of assessment is only a first-level area, and it is also a beast that is cultivated by God.

What happened? When I came out, I met a monster in the gods. What happened?

It seems that this time, it is forcing Ye Xuan to break through.

.....

At this time, many people in the training camp are also very strange.

"Wow, someone actually went into a nightmare assessment. Is this luck too much?"

We must know that in order to increase the difficulty of assessment for everyone in the training camp, it is difficult to divide each district of the valley from the ordinary area. Difficult areas, then to advanced areas, and nightmares, it can be said that there will be no one in a hundred years.

After all, the random transfer settings are generally to go to the normal and difficult areas, the chances of the advanced area is only one in ten thousand, and the chance of the nightmare area is one in 100,000!

Generally speaking, only those who feel that they are strong enough, the disciples who actively change the area may go to a more advanced difficulty area.

However, as soon as it comes out, it is directly transmitted to the nightmare area. This luck is hard to say.

A chance of one in 100,000!

Such a small chance has been met by him, then, what can everyone say?

"Let me see who it is!"

"Heaven, actually the first newcomer, Ye Xuan, isn't it, he is a newcomer, actually entered the nightmare area, this time afraid of being finished!"

Liu fell frown.

Ye Xuan's identity is special. If there is a mistake, then Ling Xuan Ge is not going to ask them to go to the cabinet to find trouble!

This, what can I do?

Intervention?

No, there is no way!

The assessment valley is very special. Once the people who participated in the assessment entered, they will be closed directly. Although these people can use special magical powers to sense the assessment of the people, they can even see the movements of the people.

However, they simply have no ability to block or change anything.

Liu Liu at this time can only pray for Ye Xuan in his heart.

"Hey, this kid has hidden his strength. Look at it. He broke through three realms in one breath. Now it is actually the repair of the gods under the three products!"

"Haha, this kid is a bit interesting. It seems to be deliberately concealing the strength and wanting to receive special rewards. However, he can have such a means, hiding power is not discovered by me, then entering the assessment valley is not a violation of the rules. !"

At this time, Ye Xuan has already made a continuous breakthrough.

But this is a helpless move. This **** yellow sand, this **** monster, makes Ye Xuan somewhat unprepared.

"System, continue to swallow, level, not enough!"

Ye Xuan has risen to the third level, but he has a feeling that here, even if it is the repair of the gods of the three products, I am afraid it is not enough.

"Hey, the system prompts, the host should note that if the host continues to swallow, it will consume special resources, is the host confirmed?"

Special resources?

Ye Xuan stunned, that's still it.

The use of special resources is still more, and if it is used now, it is simply a big loss. It is not necessary for Ye Xuan to have to devour special resources.

After all, even if Ye Xuan is swallowed up, then it will be upgraded at most, but the loss can be great.

Fortunately, the humanization of the system has now improved. Otherwise, if it is as cold as before, I am afraid that it will not prompt you to swallow it directly. When Ye Xuan discovers it, he regrets it.

Are the three gods waiting for the gods to repair?

Hey, this is the difference between a big realm, Ye Xuan looked at the giant mouth monster, and his eyes leaked out of killing.

"Oh, the ugly guy, actually wants to find me trouble, then I will kill you first, swallow you!"

"Destroy the gods!"

Suddenly, Ye Xuan figured and moved directly to the giant mouth to kill the blame.

At this time, Ye Xuan is calling the god-level mount, but the effect is not so obvious. After all, the yellow sand and lightning that may appear at any time are dangerously high, and they also have great interference ability.

Of course, there is this giant mouth monster, it is not worthy of Ye Xuan to use the thousands of beast swordsman!

"Give me to die!"

The crit effect triggers, ten times the attack power, and the giant mouth kills the monster directly.

However, the giant mouth killing monster has not yet had time to land, Ye Xuan's second sword has already been shot.

"Dead!"

Once again, there was no suspense in the crit, and Ye Xuan directly killed the giant mouth to kill the monster.

Faced with the effect of a hundred percent crit of heterogeneous, let Ye Xuan say that the strength is even stronger in the battle against these alien beasts.

"Swallow it!"

Ye Xuan hand waved and directly swallowed the body of the giant mouth monster.

However, what Ye Xuan did not think was that he did this, but he was smashing the horse's nest.

This giant mouth monster is not a monster to act alone, but a group action.

When the first giant mouth was hanged by Ye Xuan, immediately, on the ground, a dozen or so giant mouths of different strengths were immediately drilled.

"The trough!"

Ye Xuan stunned, he did not expect that this thing is still a group!

"Hey, since you are looking for death, then I will fulfill you!"

"Destroy the gods!"

Ye Xuan shot again, this time, one shot is full force.

"Hey, the host gets the soul fragments!"

"Hey, the host gets the soul fragments!"

.....

Finally, I got the shard of the soul, and the second skill of the sacred sword is that it requires the debris of the soul to launch the effect. However, before Ye Xuan did not get it.

Now, Ye Xuan knows that this shard of the soul is actually a blame for the repair of the gods and gods, and there is a chance that it will burst out!

This thing is so precious.

After Ye Xuan's killing of these giant mouth monsters, the figure flashed and they continued to move forward.

The giant mouth kills the blame, but it is not his assessment beast!

Chapter 2153: Trapped

Unfortunately, this area is really so simple.

The sand monster is just an appetizer.

Ye Xuan came out of the killing group, but did not leave too far, and once again encountered trouble.

This time the trouble is not from the monsters, but the natural prohibition in this desert.

The power of nature, even God, is to avoid three points in most cases. Even God, in the face of natural rules, can only borrow, and no **** can completely grasp the natural rules.

Will use, and master, this is basically two things.

In nature, there are some rules of power.

For example, the four seasons, such as snow, and time space!

All of this is the law of nature.

However, the laws of nature in some places, either because of man-made or perhaps for other reasons, have caused disorder.

Once the disorder is over, the natural law will be repaired.

However, the process of repairing this is not to say that it can be repaired if it is repaired.

This place of attention by the laws of nature has a very nice name, the land of heaven!

Of course, there are other names, such as what is forgotten.

Ye Xuan does not know the horror of the land of heaven. In fact, no one can really know the horror of the land of heaven.

In the nightmare level area, very few people go in this assessment area, even if they go in, or give up leaving, or they don't have any danger.

Therefore, the nightmare level area will always exist.

However, this time, Ye Xuan will let the training camp know that their land of choice, their nightmare assessment area, how terrible it is.

.....

Ye Xuan's figure is moving fast toward the front, because he is very clear, his goal is only to evaluate the beast, or to meet some special beasts can kill.

However, in Mo Gege, the people watching this Ye Xuan are different.

"What happened, why did the kid go backwards?"

"Yeah, Ye Xuan, this kid is doing what he wants? Is he doing something special practice, so weird!"

Going backwards?

No, Ye Xuan does not, Ye Xuan has been flying towards the front!

"Well? Why are these giant mouth monsters? Damn, in the desert, are all things that are not done, no, I have to change direction and avoid these things!"

Ye Xuan said to himself, killing these giant mouths to kill monsters, there is not much benefit to Ye Xuan, so there is no need to waste time.

Ye Xuan changed his position towards his left hand and then moved on.

.....

"This, what does this kid want to do, why is he going ahead again, and the speed is still so slow?"

At this time, in the eyes of Liu Luo and others, Ye Xuan is in a straight line, and sometimes moves forward, sometimes back, the speed is extremely fast, and sometimes very slow.

.....

"What happened, why, come here again!"

After about an hour, Ye Xuan's discovery of the difference, he returned to the position of the giant mouth monster.

Ye Xuan did not understand, what happened to him, is it that there is a ban on illusion, so that Ye Xuan lost his sense of direction?

Ye Xuan stopped decisively. In fact, he has been flying for more than ten hours.

However, it turned out that there was no change in the sunlight in the sky, and no matter how he ran, he would return to the group of giant beaks, so Ye Xuan could only suspect that there were some special prohibitions.

However, is it really a ban?

After Liu et al. noticed the abnormality of Ye Xuan, they immediately went to investigate. However, they did not investigate it. Only after an investigation did they know how horrible trouble Ye Xu had encountered this time.

This is not a ban, not an illusion.

Whether it is a ban or an illusion, how many are artificial, then cracking is not impossible.

Unfortunately, here, it is a time and space.

Accurately speaking, Ye Xuan does not go around now, and there are many giant mouth killing monsters around, but in fact, Ye Xuan is now, but at a point!

A trivial little point!

This little point is a disorganized origin that exists in this time!

In the nightmare area, something like the origin of the disorder is the place where the rules of nature automatically repair the law.

It is just a point that is insignificant, a point that is hard to see even with the naked eye.

Even in normal times, even if someone or a monster walks through, they will not find it.

However, such an origin has great randomness and symbiosis.

It can be said that the current Ye Xuan exists and does not exist.

In fact, after Liu et al found abnormalities, they wanted to see what Ye Xuan was doing.

However, when they used a special magic weapon to look there, they found that there was no such thing as Ye Xuan.

But now they see what they see, but it is where Ye Xuan is.

It's weird, very weird, weird to the whole camp, and no one can figure out what happened.

Ye Xuan Ming Ming is here, they can feel Ye Xuan. However, he did not see Ye Xuan and could not trace the trace of Ye Xuan.

Ye Xuan, who exists between existence and non-existence, is now extremely dangerous. Can he come out and decide the fate of Ye Xuan.

However, how come out?

Ye Xuan didn't even know what it was!

At this time, Ye Xuan, after suspecting that it was an illusion, immediately began to try to crack, but he failed.

"A perfect illusion, I can't see it?"

"System, do you have a way to crack this illusion?"

Since he is not sure, then Ye Xuan naturally wants to ask the system.

However, this time, the system did not help him!

"Hey, the system prompts, the host is in a illusion, there is no illusion!"

what?

No illusion?

Ye Xuan smashed!

Is it true that it is not an illusion, is it a ban?

Ye Xuan knows that there is still a difference between illusion and ban.

At the thought of this, Ye Xuan immediately said to the system.

"System, since there is no illusion here, it is very likely that there is any special prohibition here. You can help me crack it here."

"Hey, the system prompts, the host please note that there is no ban here!"

At the time the system prompts.

Ye Xuan is stunned, this time is really stunned.

Not an illusion, no ban?

So why is he trapped here now?

what on earth is it?

Ye Xuan's heart is slightly moving. Is it just a blind eye?

Barrier method?

It can be regarded as a lot of things lower than illusion. According to the truth, Ye Xuan can see through his eyes.

However, now that I don't know what is going on, then no matter what, Ye Xuan has to try it.

Chapter 2154: Eye-catching

According to his own ideas, Ye Xuan closed his eyes directly, and even his thoughts were not released. He did not interfere with himself in anything around him, so he walked forward step by step.

This is a full six hours.

Yes, Ye Xuan went straight for six hours.

In six hours, Ye Xuan did not open his eyes, nor did he say that he was using God to explore. After waiting for six hours, Ye Xuan opened his eyes.

I don't know, this look is really scaring Ye Xuan.

At this time, he is not far away, it is the group of giant mouth monsters.

In other words, Ye Xuan did not go far after six hours.

With Ye Xuan's current cultivation, Hao Hao is also a three-in-one god. Even if you walk, the distance of one hour is not to be underestimated.

But actually, six hours before he walked less than a kilometer!

This, what is going on?

Ye Xuan stopped and his mind quickly calmed down.

He knew that he had trouble this time, so he could only calm down and explore with peace of mind.

The time flow rate of the assessment space and the outside world is one to ten. That is to say, any movement of the person inside Ye Xuan is as fast as fast forward.

At this time, Liu Lun and others are paying attention to Ye Xuan, and this time, not only these appraisers, but even the entire strong camp of the training camp have come.

Everyone will have some curiosity about the unknown.

What's more, it is still an important place to check the valley.

"How, have you found the reason?"

It is an instructor who is in the camp of the training camp.

He came later, and he left for a while, so he didn't know the specific things.

"I'm afraid, this time it's not just the Ye Xuan, but the whole camp, we have encountered incredible things."

Liu fell and said with a smile.

"What do you mean, incredible things? What do you want to say when you say this?"

Someone asked strangely to Liu Liu.

Liu fell frowning, and then some said with uncertainty:

"I suspect Ye Xuan, now it has fallen into a different time space..."

"Different time and space? Is it the kind of space and time like a space magic weapon?"

Whether it is a Qiankun ring or a special existence like Ye Xuan's engulfing space, it can be described by different time and space.

Some of this space is divided from the void space and then refining, while others are naturally formed for some special reasons.

The existence of different time and space, of course, everyone understands.

"But, I think the performance of this kid, it seems that it should not be any time and space. You noticed that this kid has been moving back and forth, and the distance is always fixed, walking out of the front three kilometers, then It is bound to change direction, then go backwards!"

"So the general cycle is constantly circulating, how to look, how is it not like time and space."

"Yeah, yeah, shouldn't it be different time?"

Everyone does not believe that, after all, Ye Xuan is very surprised in the current state.

"This...or maybe, Ye Xuan is doing this deliberately! Is he trying to express something like me?"

"Expression? What do you say?"

"Where is the assessment valley, what will be worth our attention?"

"Special existence? It is impossible. We have been paying attention to this kid. He is surrounded by yellow sand, and there are some giant monsters. There is nothing to doubt!"

At this time, not only was Ye Xuan in silence, but even those who did not attend the training camp fell into thinking.

Of course, they are only wondering why Ye Xuan is doing this, and at the same time, because of the special circumstances that Ye Xuan exists and does not exist, it attracts attention.

In fact, although no one has said it clearly, at this time, almost everyone has doubts in their hearts.

Could it be said that this Ye Xuan has a problem?

Ye Xuan's inexplicable performance is very easy to doubt. Can he create this kind of atmosphere, and then people can't find him, but he is doing something.

However, after all, Ye Xuan was introduced by the elders of Lingxuan Pavilion, and his identity was special. Therefore, even if everyone had such an idea, they would not dare to say it.

You must know that if this idea is true, it is not just a simple Ye Xuan, but the relationship between the entire training camp and even the entire Mo Court, and Lingxuan Pavilion.

A Ye Xuan is not important, but the power standing behind him can not be underestimated!

.....

Of course, Ye Xuan doesn't know about it now. Even if he knows, he won't care about it at all.

At this time, Ye Xuan's side had a strange imagination.

Just now, the disciples of the two training camps walked past Ye Xuan and seemed to be looking for something.

However, Ye Xuan shouted at them, and the two did not notice Ye Xuan.

You know, the distance between Ye Xuan and the two people was only a dozen meters, a distance of ten meters, saying that they did not hear it? Didn't see Ye Xuan?

This is simply not possible!

However, the two men walked past Ye Xuan, as if Ye Xuan was air!

what happened?

what on earth is it!

Ye Xuan can no longer calm down.

He is now sure that he must have encountered something special.

However, knowing how to do it, Ye Xuan has no way to crack, even the system can do nothing.

"Calm, calm, I must be calm, this situation, I have never encountered before, it seems that it is necessary to use other means."

.....

"Hey, the system prompts, congratulations to the host, the system upgrade is complete, open a custom sub-system function, the host can set this sub-system according to their own wishes!"

"Hey, the system prompts, please host any settings, the system is very powerful, as long as the reasonable settings, the system can do it!"

Suddenly, the system prompts.

In the front, the system was upgraded, although it did not affect the use of Ye Xuan, but after all, it was always in the background upgrade.

Now, it is finally finished.

Customized subsystem?

Ye Xuan frowned.

Now that the system has been upgraded, what is the use for myself? I can't even go out here, and I don't know what happened.

.....

Wait!

Suddenly, Ye Xuan's mind flashed in the air. It seems that this custom sub-system given by the system can help Ye Xuan!

At the thought of this, Ye Xuan immediately said to the system:

"System, do you have a way to strengthen the exploration function? The exploration I said is not a simple investigation of anything, it is something like automatic warning, automatic detection of the walking environment!"

Yes, Ye Xuan wants to use the rights of this custom subsystem in her hand to solve the current situation.

Chapter 2155: System update is complete

"Hey, the system prompts, the requirements of the host, meet the standards, but do not need to use the subsystem, just add new capabilities to the main system, is the host sure to open!"

"Hey, the system prompts, the new function will make the system keep the warning state at any time, and take over the host's special defense magic weapon, remind the host when it is in danger, if it is too late to remind the host, the system will automatically use the magic weapon defense!"

"Hey, the system prompts that the new features have the ability to automatically probe and analyze the surrounding environment. The system will provide the environment detection and positioning function for the host based on all the knowledge that the host has access to, as well as the computing power of the system itself!"

Three tips, the function that Ye Xuan needs has been clearly stated, it can be said that this is indeed what Ye Xuan wants to use now.

"Okay, just do it, I agree!"

Ye Xuan said to the system,

"Hey, the system prompts, the system is partially upgraded successfully, the early warning capability is turned on, and the exploration and comprehensive analysis capabilities are enabled!"

"Hey, the system prompts, the host please pay attention, does the host authorize the system to master all the information from the host, including all the information in the memory!"

Seriously, this feeling is not good, the system requirements, the simple point is to read Ye Xuan's memory.

However, fortunately, Ye Xuan would not care about this. To put it bluntly, this system is Ye Xuan's personal belongings, and it belongs to something that has already been integrated. For example, the system is equivalent to Ye Xuan's other. One hand in general!

Some people will mind if they have absorbed their own heads?

Or do you have your own hand?

I am afraid no one will mind it!

Therefore, Ye Xuan did not hesitate to directly agree.

"Hey, the system prompts, the data is synced!"

"Hey, the system prompts, the system is more humanized!"

Unexpectedly, synchronization of memory, can also improve humanity, this can be, but unfortunately, Ye Xuan's memory can only make the system synchronize once, but can not be synchronized multiple times.

"So system, do you have any good suggestions about the current situation?"

Since it is said that the data has been completed simultaneously, then Ye Xuan naturally has to ask the system.

"Hey, the system prompts, the host please note that the current situation is unknown, as far as the current situation is concerned, the vast amount of knowledge contained in the inheritance of the ancient gods in the host may help the host!"

The ancient gods inheritance?

Ye Xuan slightly frowned.

What do you mean, the inheritance of the Taishen Emperor, what is the relationship with the situation he is now, what can he help himself?

At least, Ye Xuan does not understand!

However, since the system gives suggestions, then Ye Xuan needs to take a look at it.

The inheritance of the Taishen Emperor, in the eyes of Ye Xuan, in fact, one is as a passive existence.

To put it simply, one is to put it there, and when Ye Xuan has enough strength, he can unlock things layer by layer.

However, I did not expect that there would be an active part that would allow Ye Xuan to take the initiative to explore.

To be honest, Ye Xuan did not put the inheritance of this ancient **** emperor in the eyes from the beginning.

From the very beginning, Ye Xuan just noticed the resources and forces that may be acquired in the inheritance of the Taishen Emperor. However, for the memories of the ancient Emperor, what was left behind, there was no such thing as any concern.

You must know that the Taikoo Emperor was the first to cultivate Ye Xuan as a successor, and he could not say that he had time to cultivate Ye Xuan, so naturally he could not avoid the memory fragments that would leave behind. For the reference of Ye Xuan.

Ye Xuan didn't care about this. He didn't care about it before, but now he doesn't care either.

Fortunately, there is a system to help him.

"System, since you said that there is something in the inheritance of the ancient Emperor, then you can check it out!"

Ye Xuan told the system.

"Hey, system prompts, data retrieval, data synchronization!"

"Hey, the system prompts, the data analysis is complete!"

"Hey, the system prompts, the information is insufficient, can not provide reasonable advice for the host, it is recommended that the host upgrade the level, unlock the new information of the ancient gods!"

Do you want to upgrade yourself?

Ye Xuan nodded. Since the system proposed to upgrade itself, I am afraid that in the inheritance, the system still found some useful things, then, since this is the case!

Ye Xuan turned and looked at the giant mouth monsters.

These guys, Ye Xuan is trapped here for so long, can see the only life, if so, then kill it, let them improve their level!

"Thousand beast swordsman! Come out!"

"God-level mount, give me out!"

"Give me kill!"

Say it is easy to do it, Ye Xuan did not hesitate to go straight to those giant mouth sand monsters.

There is no suspense of killing, no suspenseful battle.

In an instant, death began to take place.

And Ye Xuan is not idle, constantly devours the body of the giant-mouthed monster, and the level is not improved!

"Hey, the host breaks through, and now the four products are waiting for the gods!"

.....

"Not enough, not enough, far from it, the inheritance of the ancient gods, each realm will be unlocked once again, Ye Xuan now, must upgrade to the middle of the gods in one breath, to be able to unlock new information!"

"Kill, continue to kill, all monsters that can be seen, all killed!"

Killing, lasted for a long time, so what Ye Xuan didn't think was that he couldn't leave here and was trapped here. However, it seems that the monsters are not affected at all, and the **** atmosphere attracts more monsters. Well, this time, Ye Xuan's god-level mounts summoned, and there was a crit that summoned two hundred gold-level and platinum-level god-level mounts.

Otherwise, even Ye Xuan is not sure to be able to resist!

"Hey, the host breaks through, and the current product is a medium-sized god!"

Finally upgraded to medium gods?

"System, fast, view the information!"

"Hey, system prompt, data retrieval! Data analysis!"

"Oh, the analysis is successful, the host please note that the host may now fall into a different space. According to the inheritance of the Taikoo Emperor, this is a legendary thing. If it can be controlled, it will gain its powerful ability!"

The system prompts you.

Different space?

Ye Xuan gave a slight glimpse, but soon he reacted.

"Since this is the case, then, system, can you do it?"

Yes, even if you know, then what is the most important thing now is whether you can crack it.

"Hey, the system prompts, the host please note that the current host can use Megatron's multi-function magic form to fuse this different space, but at the cost of the need to host almost all of the special resources, and fully integrated with the Shenjian!"

Chapter 2156: Megatron fusion Sword

Megatron Tianyexuan did not use this time. It should be known that Megatron can be transformed into any magical form and powerful.

However, this time the integration, according to the system, is not necessarily a good direction.

The system said, not only need almost all the resources that Ye Xuan has, but also fully integrated with the 弑Shenjian.

Doesn't it mean that the shape of Megatron will be fixed in the future? Then, the original characteristics of Megatron are not erased?

This, this makes Ye Xuan somewhat unwilling to accept it.

But now this is the last resort, unless Ye Xuan does not want to leave here, otherwise, he can only do so.

"Okay, I agree!"

Biting his teeth, Ye Xuan just agrees.

It is a blessing or a curse. It depends on God's will.

“Hey, the system prompts, the fusion begins!”

A bright light erupted from the sacred sword in Ye Xuan's hands, and countless resources flowed out of Ye Xuan's body. At the same time, there was Megatron, and Ye Xuan could clearly feel all these changes. However, he can't see it!

The speed of the fusion is very fast, but after only three hours, the system prompts again, but this time, it seems that it is not too good news.

"Hey, the system prompts, the fusion produces a change, Megatron reversely devours the sacred sword, and the scorpion sword randomly generates phagocytic power, automatically devours all the magic weapons possessed by the host!"

"Hey, swallowed up, system adjustment, turn off automatic phagocytosis!"

.....

After three more hours, finally, this time ushered in good news.

“Hey, the system prompts, congratulations on the success of the host fusion Megatron!”

"Hey, the host 弑Shenjian has changed, please check the host!"

Ye Xuan quickly looked at his own sword, and at this time, the sword has changed.

Appearance, almost no difference with an ordinary long sword, but the hilt is strangely a circle of white light constantly swimming, the white light is like a dragon, it is so undecidable!

弑Sword: The existence of the fusion of Megatron.

Add a special ability: Devouring, the space for the growth of the Excalibur increases, and the host can devour any item, including magic weapons, resources, and even monster corpses, and then promote the realm.

Add special ability 2: Absolute defense, 弑Sword combines magical alien space, produces special changes, will use space ability to provide an absolute defense for the host, the host please note that this defense needs to be used once every year. And, every time you turn it on, you need a different space to reactivate. This defense, borrowing the power of the rules of heaven and earth, will ignore all means of attack. And send the host away randomly!

Adding special ability 3: Unlimited growth, because Megatron has completely swallowed the sacred sword, and the sacred sword is in sync with the ability of Megatron. At the same time, Megatron becomes the sacred sword, and the sacred sword will have unlimited growth. The possibility that the special training function of the Sword is opened, Megatron can strengthen itself by engulfing the attributes of other special magic weapons, so that the Sword has a chance to gain special abilities!

.....

Looking at this sword, Ye Xuan has been shocked.

This sacred sword is not too hoisted. This new three abilities is simply a metamorphosis.

Devouring, this can be, absolutely defense! Ignore all attacks! *, is there a more powerful defense than this? Of course, the restriction is a bit of a pain. If you don't say a year, let's say what kind of space, this thing, you want to have it? ?

Of course, with such a ability, Ye Xuan is already very satisfied.

It is said that he is so unlucky, and from time to time he encountered an attack that could not resist absolutely?

how is this possible!

As for the last infinite growth, Ye Xuan is powerless to vomit, this is simply to tell Ye Xuan, only more abnormal, not the most abnormal!

The most important thing is that Megatron was not swallowed up, but instead swallowed the sword and became the spirit of the sword.

Is this a house for Megatron?

At this time, Megatron not only has the ability to control the sword, but his original attributes are still there!

This time, I made a big profit!

Ye Xuan had to be excited, and this luck, no one.

Of course, what kind of space is different, Ye Xuan does not want to know now, and there is no time to know. Now, for Ye Xuan, the most important thing is to pass this assessment is the key.

It's been a long time since I entered the assessment space. Ye Xuan didn't even know what to look for.

Obviously, this time Ye Xuan was moving forward, there was no feeling just now, and it was no longer that he could not go out.

Ye Xuan lifted his foot and moved quickly toward the front to find his target.

And Ye Xuan moved, and everyone who was far away from the training camp was even more excited at this time.

They don't understand, and they don't understand why Ye Xuan can continue to raise so many realms in such a fast time.

However, they did not know how Ye Xuan did it.

In fact, Ye Xuan's state is very special. They don't even know whether Ye Xuan exists or not. Let's not even talk about how Ye Xuan did it.

After three days of waiting for the gods, one breath is promoted to a medium-sized god.

Is there any more abnormality than this upgrade?

Others, who have worked hard and even spent hundreds of thousands of years, more, are stuck in the world for a lifetime, and the peak of the gods cannot be promoted.

Even if the entire training camp, the most powerful genius in history, it is just a day to upgrade three small realms.

You must know that they are now a god, a god, not a mortal.

So, what is Ye Xuan?

Can it be said that he has changed the highest record of the entire training camp!

.....

The genius list is updated!

Yes, there are indeed three replacements in the training camp. After all, everyone is making progress, then it will change and be normal.

However, the genius list has not changed for decades.

However, this time, suddenly it has changed.

A name, a name that entered the training camp for only three months appeared on the list!

Moreover, it is not just that simple, but directly occupying the first place!

No training camp, the first place in the genius list:

Ye Xuan!

For a time, the sensation was not only the training camp, but also many forces.

The first place in the genius list, what kind of existence is this, this is a qualified person!

No one knows, but the same as anyone knows, this person is definitely not easy!

One hundred and fifty days is the time for assessment, but in fact, many people simply do not use such a long time. For most people, the assessment can only be completed in a few days.

It was a few hours before I switched to the training camp.

After all, the mission objectives are clear, and everyone is not the first time to enter the assessment space!

Of course, there are also many people who are still fighting inside. After the assessment, there are special rewards. For ordinary people, they are not qualified, but for some people, it is a must.

It is a pity that this year, this biggest reward, the assessment has not been completed, has been fixed.

Either not on the list, to be on the list, it is the abalone!

Chapter 2157: Return of assessment

I am afraid, only Ye Xuan can do it.

Of course, there are also rumors that since Ye Xuan can slaughter the talent list in one day, then, when is it that one can accidentally slaughter the other two lists?

Perhaps the power list is a bit hanging, but that power list?

You must know that Ye Xuan's true identity has not been known until now. The only thing people know is that he and Lingxuange have a very different relationship.

If Ye Xuan's true identity is really powerful, wouldn't it be necessary to slaughter that power list?

The slaughterhouse is a kind of nickname for the training camp. Many people in private say this. The simple meaning is that they can change quickly in a short time.

Of course, this time, Ye Xuan's slaughter, but the slaughter is thoroughly.

Kill all the geniuses in one breath.

What is strength, this is the real strength, who is not convinced?

Then, with the same ability as Ye Xuan, upgrade six realms a day?

Can someone do it?

.....

After coming out of that different space, Ye Xuan may have been a bad luck this time, good luck, so soon found the evaluation of the beast, there is no suspense to kill.

It is completed his assessment task.

Nightmare!

This is a nightmare assessment.

However, in the eyes of the examiners in the training camp, how do you feel that Ye Xuan is just like playing?

It shows that the inexplicable stop in the place does not know what to do, well, suddenly upgraded to a product in a medium-tempo, and turned around, the task was completed.

what is this?

It can be said that this is the most inexplicable assessment they have ever seen.

But even then, they still dare not say anything.

The first in the genius list is an honor, but a privilege!

Once Ye Xuan grows up, what kind of horror will be, no one knows.

Some people even think that in the future, Ye Xuan will become the main god!

The Lord God, this is a powerful presence in the eyes of all. In their eyes, the Lord God is their master, they are their emperors!

.....

The assessment was completed, but Ye Xuan did not intend to say that he left here, because Ye Xuan had his own plans.

In the yellow sand world, there are many strange beasts, although these gods and leaves Ye Xuan do not know what it is, but this is not exactly what can be collected.

Ye Xuan is very poor and poor now.

Now he can be said to be poor and have no resources at all.

You must know that when Megatron and the Sword of the Sword were merged together, even those Shenjing owned by Ye Xuan were all swallowed up. Ye Xuan is now a veritable poor ghost!

No one said that you can't kill the beast here and get resources!

Since no one said, that is, it is allowed, then, Ye Xuan naturally will not let go.

Just collect the fragments of the soul.

Killing, continuous killing.

In this dangerous nightmare assessment area, Ye Xuan is just like nothing.

With the ability to warn, Ye Xuan can easily avoid the sudden disasters, so that Ye Xuan, in the eyes of other people, has no influence!

"Hey, the host should pay attention, there will be a huge fire column on the left!"

"The potholes are the pillars of fire. What is going on here, what are the things that are there, the yellow sand, the lightning, the hail, the poisonous mist, and now it is the pillar of fire!"

Ye Xuan took a step toward the right, and easily escaped, but his mouth was very puzzled.

Of course, this is just talking to himself. After all, he can't help it!

Of course, because Ye Xuan has taken the dangerous origin that the natural rules are being repaired, in fact, the environment of this force has been much better.

At least, Ye Xuan has not seen the most mysterious and powerful void crack.

You must know that when Ye Xuan did not take away the thing, the void cracks that appeared from time to time were the most terrifying.

That thing, you can swallow any creature in a flash, and then you won't leave it for you.

Even if you are a god, you can't fight it!

Or, even if you are inhaled and not dead, but want to come back, it is difficult!

However, at this time, Ye Xuan's ear rang a voice.

"The assessment will end after one hour, please be prepared, and one hour later, it will be forced to leave!"

Needless to say, this is definitely the voice of the training camp examiner.

What time is it, then, Ye Xuan will not continue to kill.

An hour is just a blink of an eye.

At the end of the time, everyone was sent out.

If you are satisfied, you will naturally return to the assessment.

For these ordinary disciples, such an assessment, do not say into the nightmare level area, even if they enter the difficult level, they are also somewhat difficult.

It seems that some of the disciples' five hundred points are gone!

Even people who have been expelled are also there.

.....

"Well, everyone, take a good rest, tomorrow, the final assessment will be awarded."

This is the custom. Since it is said that the training camp has set up special rewards, it is natural to publicly award the prizes.

Ye Xuan did not care, and walked over to his room.

"Hey, the system prompts that the flying smoke appears behind the host."

Ye Xuanyi smiled, this time, the girl can't be seen by her side.

Ye Xuan turned and looked at the flying smoke, then said: "How, the assessment passed?"

"Is the son asking me? Although the little girl is not talented, it seems that such an assessment is hard to beat a small woman."

The flying smoke smiles lightly.

However, this time, Ye Xuan is keenly aware that many people's attention is concentrated on their own bodies. The most important thing is that they are all women!

What happened?

Ye Xuan is a bit strange, of course, did not say anything.

"The assessment is over, you don't go to rest, run around me to do what"

"I think the son must go through the assessment, it should be a little tired, the little girl learned some cooking some time ago, so I want to do it for the son."

Ye Xuan slaps his eyes, just for this?

This girl ran to find herself to eat for herself!

This is to regard yourself as the rhythm of eating goods, although since this **** came to Ye Xuan's side, Ye Xuan really does have some special foods, but it is not so bad?

Of course, since it is said that people have a good heart, Ye Xuan is not good to refuse.

Ye Xuan nodded and agreed to the statement of flying smoke.

Then, with the flying smoke, walked toward the front.

.....

"That guy is Ye Xuan?"

Ye Xuan left soon, but there was a person in the distance who looked at Ye Xuan with a cold look.

This person, not a foreigner, but an internal camp, is the number one in the original list of talents!

Of course, at this time he is just a second place.

Chapter 2158: Night repair

Ye Xuan snatched his first place, he endured, because he is very clear, the genius list can be.

However, what he can't accept is flying smoke!

In fact, the true content of the flying smoke was seen by him, so after that, this guy became obsessed with flying smoke and tried his best to get the flying smoke.

Here is the training camp, flying smoke, and also a disciple in the training camp. Therefore, he can't use strong, then, he can only use other means.

However, regardless of whether he used any method, the flying smoke did not even look at him.

Later, he knew that the flying smoke was the maid of Ye Xuan, and he thought of getting the flying smoke from Ye Xuan's hand.

However, before I even had time to say, Ye Xuan first gave him a sap with the talent list.

At this point, no one around this person dared to speak, because they all saw it, he was angry!

"Ye Xuan! Ye Xuan! Named Ye, I don't know what a strong family or power. Ling Xuan Pavilion? The prince does not care!"

The seven princes of the night empire, left to repair!

What is the existence of this night empire?

This is the whole empire built by the superpowers of the generals who are beside the Lord God. The background is strong and can be imagined.

At this time, I was looking at Ye Xuan from the night, and I didn't know what was planned.

After Ye Xuan returned to his room, he saw the flying smoke picking up some ingredients from the Qiankun ring.

You must know that you are all in the gods. You can say that most people don't have to eat anything. However, there are still many ordinary people in the world of the gods. These ordinary people naturally want to eat, so the gods also belong to God. The unique thing in the world.

"Is this a shadow?"

"This is the fragrance!"

"Thousand Lotus, Parkson..."

"Shantou, how many good things have you bought?"

In fact, it is precisely because the gods rarely eat, so naturally there is no special effect food, the gods naturally will not eat.

At the moment, these ingredients taken out by the flying smoke are all superior medicines, and the value is not simple!

"Is these things you bought?"

Ye Xuan asked again to the flying smoke.

"Yes!"

Flying smoke is busy while preparing to start.

I saw that she also took out more than a dozen Dan furnaces.

The Dan furnace thing was originally used to refine the medicinal herbs.

However, it can still be used to refine ingredients when necessary.

At this point, the first part of the flying smoke is to extract all the ingredients.

Don't look at Ye Xuan's pile of things in front of him, but in fact, these things, in fact, will be enough to get three or four dishes out.

When I heard the answer from the flying smoke, Ye Xuan only sounded a question. I must know that when Ye Xuan bought the flying smoke, the flying smoke was only a slave. Then, where did the flying smoke buy the money?

"Shantou, where are you from Shenjing? These ingredients are estimated to cost at least tens of thousands of Shenjing!"

Thinking of this problem, Ye Xuan asked quickly.

"The son does not have to worry, the little girl is redeemed with points. Every month, each training camp will organize a simple assessment, and the first one can get 50 points of rewards, a total of three assessments, that is, every month can Earn one hundred and five points!"

The smoked smoke answered faintly.

However, Ye Xuan always feels that something is wrong.

Suddenly, the reaction came over.

"Wait a minute, Shantou, what do you mean by saying that you have taken the first place in the three assessments?"

Since Feiyan said so easily, so don't care, but said that he is using the points to redeem the ingredients, then there is only one possibility.

"If you return to the son, the little girl will get the first three places, so I can get one hundred and five points every month, and these ingredients only cost a hundred points!"

Ye Xuan is speechless. He is not saying that flying cigarettes use points to exchange ingredients and is speechless. The key point is that the flying smoke is so understated that he has taken all the first place!

You know, this is not in the training camp, but there are quite a few people. Ye Xuan can't understand why Feifei is able to stand alone for three firsts.

We must know that these three assessments are comprehensive knowledge mastering assessments. The content of the examinations is what we have learned this month. This is simple. It is not impossible to take the first.

This second assessment, but the strength improvement assessment, to put it bluntly, is how much each individual has improved in this month, no matter how much, as long as you are the most progressive among all, then you can get rewards. .

With that said, flying smoke is not the most progressive person in the seventh part of the month.

As for the third assessment, it is even more simple, and it is a comprehensive strength verification assessment. Each person will be positioned on a ladder according to his ability to enter the training camp. The ladder is called the internal ladder in the training camp. Because the internal camp selects the disciples, it is also based on the performance of the inner ladder. Come.

There are various kinds of assessments on this internal camp ladder. The most important one is the battle between the disciples of the same level and the assessment based on the performance of the competition.

Doesn't it mean that flying smoke is also the first in their first comprehensive ability?

Didn't see it, the flying smoke was quite powerful.

You know, in fact, Ye Xuan has not even gotten the first time, not to mention the first, basically the countdown.

That comprehensive battle against Ye Xuan can easily be won, but Ye Xuan is too lazy to participate...

Ok, it seems that Ye Xuan is really a little smashed.

Ye Xuan stopped talking, but watched the flying smoke busy.

I saw that the flying smoke showed that the ingredients were extracted from the essence with three-color fire, and then they were reconciled with Shenshui and various special seasonings, and then, they cooked.

However, this cooking can be different from cooking in a pot bowl.

First of all, the flame used is undoubtedly a sacred fire, and in order not to lose the power of the gods, the requirements for detailed control are extremely high. This has involved the subtle control of the gods, and the professional techniques and abilities inside.

It can be said that if you want to make a good meal, you can make it bigger.

Is this an extremely complicated process to refine medicinal herbs?

There is no comparability in the production of fine food.

However, the flying smoke has done it.

After about an hour, the flying smoke finally finished his food and ended up in front of Ye Xuan.

"Please use the son, this is Qingxin porridge, you can permanently strengthen the mind! This is the search for the best, the use of the best search for the beast, also has the role of strengthening the mind."

"As for this dish, named Longfengyu, it is made of three-jawed golden dragon and uncrowned Xiaofeng heart, which can strengthen the body!"

Although it is just a bowl of porridge, two dishes, obviously, it is not a simple thing.

Chapter 2159: Assessment reward

Ye Xuan looked at the food in front of him, but he was stunned. Good guys, there is still such a big deal.

"Your? Don't you eat?"

At this point, Ye Xuan saw that the smoke had only prepared his own food, but she did not, she immediately asked.

"These precious ingredients, the little woman can enjoy the blessing, the son can eat even though he is eating, the little girl has the food prepared separately."

The answer to the flying smoke made Ye Xuan slightly frown.

In name, Ye Xuan seems to be the owner of the flying smoke, but in fact, Ye Xuan has never been a slave to flying cigarettes, not to mention that he has not given any flying smoke, but the flying smoke uses her harvest to give Ye Xuan Make food.

Ye Xuan is certainly not so cheeky.

"Let's eat together, these are all you get, if you don't eat, I eat alone, I am not so cheeky!"

The eyes of the flying smoke flashed a little, and I didn't know what I was thinking, then I said.

"The son is still eating faster, this way, the little girl promised the son, the next time I prepared enough ingredients, the little girl and the son to eat together, but this time the ingredients are not enough, then, please ask the son to forgive the little woman can not listen to the son's arrangement. ""

Just a meal, Ye Xuan still does not really go to the truth.

Since the flying smoke has said so, Ye Xuan is not welcome.

Not to mention, this ingredient can really strengthen Ye Xuan's strength, although it is very weak.

But if you eat it for a long time, you can imagine it.

No wonder it will sell so expensive, not only delicious, but also permanently strengthen its own strength, fear that as long as there are people with strength, they will not be polite.

After eating the food, Ye Xuan will rest early, and the flying smoke will leave after she has arranged the housework for Ye Xuan.

Early the next morning, Ye Xuan came to the central square of the training camp.

Generally, there are major events that will be held here.

Undoubtedly, the award of the annual assessment is naturally a big deal.

To be honest, Ye Xuan has not experienced any awards for a long time.

This is not a special training camp.

"People are already here. Today is the annual reward time for me to go to the training camp. According to the usual practice, everyone who scores first in the examination will receive special rewards. However, this year, the first part appeared. A special person, his reward belongs to another, and the second one can receive the first prize."

"This special person is Ye Xuan. Now, I will first give this award to Ye Xuan. This time, Ye Xuan will receive one thousand points, one million Shenjing, and the first three floors of Baoge. The right to choose a treasure."

The person who spoke did not know Ye Xuan. However, after his words were finished, the entire square was boiling.

Ye Xuan, and this Ye Xuan, he became the first in the genius list a few days ago, and it has already attracted the attention of the entire training camp. I did not expect that today's awards are actually the super reward he got!

One thousand points, one million gods, this is a huge fortune. Of course, some people may not look at these things. However, the top three layers of the treasure house are all powerful, but they are not allowed. Not tempted.

There are nine floors in the training camp, but most of the disciples are only able to enter the game if they perform exceptionally well or exchange points.

The first layer of things generally requires five hundred points to redeem one, and the second layer is five thousand! As for the third floor, it is 50,000!

50,000 points, many people perform countless tasks, spend hundreds of years or even thousands of years, afraid to get tens of thousands of points.

The gods, the rhythm is much faster than the first to eighth heavens.

In the eighth heaven, 100,000 years are like a play for those false gods and half gods.

However, this lies in the realm of the gods, but it is able to happen a lot of things, and even change the pattern of the realm of the gods.

Simply put, the gods are very dangerous and not very flat. The gods who can live for many years are very ordinary. They can live for 100,000 years and are already rare.

Therefore, in the realm of the gods, it is also very lucky. It is good luck to live for a long time, and luck is bad. It may fall for a hundred years.

Therefore, the points are very rare in the training camp!

However, this Ye Xuan, even directly rewarded a chance!

Such a huge reward, how can people not be jealous?

However, this is not all.

When Ye Xuan walked up, he heard a mysterious voice sounding.

"Give Ye Xuan's reward to add one, so that he can enter the virtual movie room one day!"

Virtual Shadow Court!

It turned out to be a virtual movie theater. Don't say that it is an ordinary disciple. This time, even the mentores are shocked.

The owner of this voice has never been seen, but everyone knows his identity. He is the battalion commander of this training camp!

Virtual Shadow Court, that is the virtual shadow cabinet!

What is the virtual cinema?

In ancient times, there were countless supernatural powers, but most of these magical powers have been lost.

However, even the lost magical powers, there are some things to keep, some are written records, and some are engraving imprints.

Among them, the most special and the easiest to be perceived is the inheritance of illusion.

Inheriting the illusion, even if it is sentimental, and does not feel the magical power, it is also a lot of benefits.

The number of people who dreamed of but could not get it at all, Ye Xuan, was so easy to get.

The illusion is that if you take points to redeem, you are not eligible to enter. Only those who have completed special tasks or have made great contributions to the training camp will be rewarded.

In fact, most of the time, these people are mentor!

Ye Xuan was actually endorsed into the virtual shadow!

For a moment, who can not be jealous?

However, Ye Xuan himself is not even knowing what it is!

With Ye Xuan's reward, as for the rewards of others, it's almost insignificant.

At this point, many people look at Ye Xuan's eyes have changed.

This time, I am afraid that it is impossible for the entire training camp to have someone who does not know Ye Xuan.

Of course, the troubles that are inevitable are indispensable.

Night away from the eyes of the eyes, the eyes are very incomparable, looking at Ye Xuan, actually with killing.

"Go, give him a look at the color and let him know, here, who is the site!"

The night of the repair said to a person around him, this person is also a disciple of the camp, so the natural possession is not simple.

The man nodded slightly and walked toward the back, apparently going directly to arrange it.

The reward was paid, but Ye Xuan did not leave because someone stopped him.

"Ye Xuan, come with me, I will take you with you now. Are you going to the Baoge or the Shadow Court?"

Ye Xuan thought about it and then answered:

"Or go to the treasure house first!"

After all, what is the ghost of the virtual cinema, Ye Xuan does not know, so, or Baoge to see what treasures.

Soon, Ye Xuan was taken to the front of the training camp.

This is a nine-story tower that has been sealed with countless bans and several strong guardians.

"Stop, what are you waiting for?"

A guard stopped in front of Ye Xuan.

The mentor around Ye Xuan immediately stood up.

"This person is named Ye Xuan. This time, he came to receive his reward."

"You are Ye Xuan?"

Obviously, this guard also heard the name of Ye Xuan.

Ye Xuan nodded, and the guards carefully took a lot of Ye Xuan again, which said:

"Well, you go in. In the first three layers, you can take away a treasure. You have three hours to pick. After three hours, you must leave."

"Okay, I know."

Is the three hours short?

Not short, not too short, enough to choose Ye Xuan.

Chapter 2160: Ancient coins containing the power of faith

Since the instructions know that the floor is higher, the more good things.

Then, Ye Xuan will not be vague and go directly to the third floor.

When Ye Xuan went in, he was attracted by various magic weapons.

After the training camp's treasure pavilion, there are also many good things. Unfortunately, Ye Xuan does not have much to look at.

Because, although there are many magic weapons here, can you use Ye Xuan, but it is a different matter.

"Hey, the system prompts, the host should pay attention to the detection of special items, which can be used to devour the Shenjian devour."

Suddenly, the system prompts up and can be used to strengthen the sword.

It seems that it is not true that there is nothing good here.

After this system update and enhancement, it is much easier to use. If there is no such active reminder, if it is not good, Ye Xuan will miss it.

Under the guidance of the system, Ye Xuan quickly found his goal.

This is an ancient coin, yes, it is an ancient coin, a very strange ancient coin.

There is only one strange text on this ancient coin, Ye Xuan does not know, or is, no one has known anyone at all.

"System, what is this?"

"Hey, the system prompts, the target is one of the ancient nine spirits!"

The ancient nine spirits, what is this?

Ye Xuan was puzzled because he had never heard of it.

"System, can you tell me in detail what is special about this ancient coin?"

"Hey, the system prompts, the host should pay attention to this, the ancient nine spirits, not a currency, but a special magic weapon, he just looks like the current coin, will be named, and try, he It is dedicated to storing belief values!"

Faith value!

Hearing here, Ye Xuan seems to understand what.

Yes, here is the gods, the strong people here, each one is a god.

God, isn't it true that someone should believe in it, but Ye Xuan has been in the realm for a while, but I have never heard of anything in faith!

What exactly is this for?

The system prompts continue to sound.

"Oh, in ancient times, every **** and beast had its own believers. The gods used their power to protect those believers, and the believers' beliefs were turned into special forces to strengthen the gods. This is why many supernatural powers are lost. The reason, however, is that because of certain special forces and things, the current world of gods has no power of faith."

"Hey, congratulations to the host triggering a special hidden mission in the realm of the gods, rebuilding the faith, this task is accepted by default, the task is not mandatory, and the criteria and rewards are not completed."

"Hey, the system prompts, rebuilding the faith, it will be a great strengthening of the host strength, it is recommended that the host complete the effort."

Non-mandatory tasks, and, are there any standards?

Ye Xuan's slight glimpse, such a task, is rare.

However, the system has already said very clearly, this task, for Ye Xuan, there is no harm, only the benefits, then, Ye Xuan will certainly do.

Isn't it just a new belief, this is simple.

In fact, can those people in Ye Xuan's engulfing space not be used to unite the power of faith?

However, Ye Xuan thought of this and heard the system prompts.

"Hey, the host should pay attention to the fact that the power of faith is divided into two kinds of beliefs of the gods and the beliefs of the world. The value is different. Please pay attention to the host!"

Is it that the system knows what it is thinking, so it gives a special hint?

Ye Xuan has a slight glimpse, well, the power of this belief is divided into two kinds. Of course, this is not a simple matter. Even if Ye Xuan wants to do it, it is impossible to complete it in a short time. Now, Ye Xuan still turned his attention to this ancient coin.

"Right, system, you said that this thing can strengthen the sword, but how do I feel that the value of this ancient coin is certainly not so simple, is it used to strengthen the sword, is it wasted?"

"Hey, the system prompts, the host should note that the power of each god's faith cannot be used by other gods. Although the host can swallow it to capture the power of other ancient gods, it can only be converted. One in ten thousand. It is not recommended to use the host!"

It turned out to be the case. It seems that the power of this belief is really not that simple.

"Okay, I understand."

Since there is no such thing as Ye Xuan in the Baoge, then Ye Xuan does not need to delay the time, so Ye Xuan took the ancient coin and went out.

"Are you sure you want this?"

The treasure guards looked at the differences in Ye Xuan's hands. You know, this ancient coin, they don't know what they are doing, but because they contain powerful power, they are placed on the third floor.

Seeing Ye Xuan holding the ancient coins, the guard is of course puzzled.

"OK, I am going to do this!"

"If that's the case, then well, you can take things away!"

Ye Xuan nodded and walked toward the outside, but the heart was quite sad. It seems that the current **** is really the forgotten power of the faith. It is even what is contained in the ancient coins. Power does not know!

"System, do you know what the reason is? It is reasonable to say that even if the current **** does not collect the power of faith, it should not be known!"

"Hey, the system suggested that at the beginning, the organization had done a lot of actions against the power of faith. The biggest achievement was the severance of the power of faith, and the deliberate help of other forces, which led to The situation today!"

It is actually an organization!

This organization is really going to come out when it encounters a major event.

However, what other forces are worth is, knowing that no matter what God, demon or spirit, it is all that can be strengthened by the power of faith, who will make such a harm to others. ?

Take care of him, these are things that countless years ago, and Ye Xuan is too far away.

Out of the treasure house, Ye Xuan was taken to the virtual theater.

Here, there are special inheritances of ancient things.

However, what Ye Xuan did not think is that in the camp, there are only a total of only 12 inheritance ghosts, and Ye Xuan has to choose one, but only one can be chosen. Other inheritance ghosts are not allowed to see. .

Twelve, each one is not understood by anyone, so it is said that these twelve are basically the same, nothing to know.

Apart from knowing that they were the inheritance of the ancient times, they did not know anything else.

So, which one Ye Xuan chose.

Ye Xuan slightly frowned.

This time, even the system can't help him. After all, the system doesn't know which ones are good.

"It's you!"

Since Ye Xuan could not choose it, then he walked into a heritage.
