

Super D. S 22

Chapter 22: Only owe the wind

"Xuan Shaoye is good."

The treasure house management wiped a cold sweat, and finally sent Ye Xuan away.

After Ye Xuan left the treasure house, he went back to his house. It was not long before Ye Jia had a master carrying a few large boxes to come in. The things in these boxes were all selected by Ye Xuan.

"The nine million and two silver things, hey, should be able to break through to the sixth martial arts." Ye Xuan thought, is to carry the box into his own room.

Nine million and two silvers are enough to make an ordinary person a sixth strong peak of the martial arts.

Now Ye Xuan finally understands why it is more expensive to upgrade with the phagocytic system.

Because the general warrior needs to cultivate, it takes a lot of time to cultivate, and Ye Xuan makes up for these times with silver.

Others spend nine million and two silver dollars to break through to the sixth martial arts, and even the seventh martial arts, and Ye Xuan, only enough to break through the fifth peak of martial arts to the sixth heavy martial arts, this is the gap.

When Ye Xuan swallowed the nine million two heavenly treasures and the **** soldiers, it really gave him a breakthrough in the sixth stage of the martial arts.

"The improvement of the breakthrough realm is really big, not only the physical fitness is enhanced, but even the spiritual power has doubled up. Now if I am against Chen Feng, I am expected to kill him with a punch." Ye Xuan is very confident in this. At that time, he was very eager to find a martial art sixth-strong warrior.

However, he still has a more important thing to do.

"Chen Song, you dare to move my Liuer, this hatred does not report, I will not call Ye Xuan!"

Thinking of Liu, who is still sleeping, Ye Xuan has a fire in his heart. At the moment, he is directly changing a five-product martial art from the phagocytic system.

In addition, there is a heavy bow of a Chinese product.

You can only use this handle to be called a black iron bow, and then condense the spiritual power into an arrow, you can shoot the enemy 100 meters away.

Ye Xuan changed these two things, of course, for Chen Song, yes, he wants to shoot Chen Song by hand!

In order to exchange these two things, Ye Xuan spent two points to swallow points.

He scored a total of nine points, so he still had seven points. Then he spent five points to swallow the points and exchanged five square meters of phagocytic space. If there is something in the future, he can directly receive the phagocytic space. Convenience.

Preparation is all right, but Ye Xuan still has a problem.

"I haven't touched the bow and arrow, and the unlucky ones won't figure out the arrows. Or go to practice and talk first." Ye Xuan thought, he was ready to go out.

But he just left the house and just saw Xue Qingqing coming out of Liu's house.

"Ye Xuan, come, Liuer woke up." Xue Qingqing cried Ye Xuan.

what?

Hearing this, Ye Xuan also hurriedly walked over. He walked into the house and saw the Liuer leaning against the bed.

"Liu, how do you feel?" Ye Xuan hurriedly looked at it and found that Liu was only a little weak, after a few days of coma.

"Young Master, you are back..."

Liu Er said with a weak voice, then felt his body and tightened the quilt, saying: "Some cold."

"Young Master, I will give you more bed quilts." Ye Xuan did not think much.

He let people take a quilt and let the next person cook some porridge. Then he went directly to the grove in the back of Ye Family.

There aren't many people in this grove, and it's good to practice archery.

Ye Xuan came to the grove, and then found a place, and took out the Chinese iron ware from the devour space.

"This bow weighs a hundred pounds. If it is full moon, it can easily shoot 100 meters away."

Ye Xuan left the Xuan iron bow with his left hand, and then slowly pulled the bowstring. This black iron bow is not worthy of the Chinese product. If you want to pull the bow, you must use at least six hundred pounds of force to make it full moon.

Now Ye Xuan is the sixth heavy weapon, the strength of six hundred pounds, not his limit.

"Hey!"

Only heard a crisp sound, the black iron bow was pulled into an ellipse by Ye Xuan. At the same time, Ye Xuan's right palm was also filled with a spiritual power, and then condensed into an arrow.

"Hey!"

As Ye Xuan's right hand was loose, the Spiritual Arrow shot instantly and the wind hunted.

"Hey!"

"Hey!"

"Hey!"

"Hey!"

The trees that are blocked in the front are all worn by the spiritual arrows, and the power is visible.

"A total of six large trees were shot through, and it was really worthy of being a Chinese product. The increase in spiritual power was much greater than that of the next product." Ye Xuan was very satisfied, and it seemed that the attack power was enough.

The next product can be bought as long as 100,000 yuan of silver. If the bow and arrow are cheaper, but the middle of the spirit, there is no one less than two million silver, even if this is a mysterious iron bow, I am afraid it will have one million two silver. .

The weapon is crucial for a warrior, because if the weapon is worse than the enemy, in the battle, his weapon may be destroyed by the other party, and then it is dangerous.

Moreover, to achieve the weapon level of the genus, there will be an increase in spiritual power, and with the words of martial arts, the power is very amazing.

In the past few days, Ye Xuan is also preparing to stay in Ye Family and not going out, preparing to train the chasing arches to shoot Chen Song.

The original black iron bow can be shot to a hundred meters away. If you use the wind-fighting archery, it may be more than one hundred and fifty meters, and the wind-fighting arrows condense the wind, the penetrating power and The speed is stronger than the ordinary spiritual arrows.

During Ye Xuan's practice of bows and arrows, his return to Lianyun City was also instantly spread. Chen Jia, naturally got the news, but Ye Xuan did not leave the house, Chen Jiaxuan could not find him.

The time went by a little bit, and the atmosphere of Lianyuncheng was very weird.

Before Ye Xuan, Chen Song was thrown into the street, and Ye Jia and Chen's family were enemies. The people also knew the Chen's habits. They would never be rewarded.

However, on the third night of Ye Xuan's return to Lianyun City, suddenly a black figure came out from Ye's house.

This person is Ye Xuan.

In these three days, Ye Xuan practiced the arrow method in the small forest behind Yejia. Although he only had three days, he was not a difficult person to practice a five-product martial arts as a sixth-armed martial artist.

Three days later, Ye Xuan was able to use the arrowhead to shoot a hare hundreds of meters away.

Although Chen Song is the fourth middle of the martial arts, if Ye Xuan uses the pursuit of wind archery, Chen Song is absolutely too late to react.

Everything is ready now, only owing the wind.

This Dongfeng is waiting for Chen Song to go out!

Ye Xuan, dressed in black, quietly left Ye Family and spent a lot of effort to come to Chenjiamen. Prior to this, Ye Xuan had already got the line report, saying that Chen Song will go out tonight.
